**Boys' Clothing**

Boys' summer clothing. In fit, style and workmanship the best ever sold in Toronto. Look about you and note how many boys are really well dressed. How many wear coats in which the collars curl up, the fronts are wrinkled, the sleeves are short and a general air of slouchiness pervades the garment? The fact is, as mothers know who have shopped about, that in very few places can boys' clothing be bought that has the characteristics of style and fit and workmanship that boys' clothes should have. In most stores the boys' end of the business is a side issue. In the Oak Hall Store it is a specialty.

**STOLE HIS EVIDENCE.**

Washington, D.C., May 24.—The secretary of the treasury has received a telegram from Joseph W. Wheatley, special agent of the treasury department at North Sydney, N.S., in which he says:

"Papers of great importance to prove the smuggling operations of Malouf gang at New York were taken from Kawaja Bros. at North Sydney, by special officers of the Canadian customs, with my assistance, under the direction of the minister of customs in Canada.

"In an effort to secure the return of the papers, Kawaja Bros. have charged with the theft of the same and have secured a magistrate's commitment to answer such charge. The papers actually taken by and now in custody of Canadian officers. I have notified the commissioner of customs of Canada. Please wire authorities to engage counsel and incur incidental expenses."

"In reply to this telegram, the treasury department has authorized Mr. Wheatley to employ counsel and to incur the necessary expense for his defence.

**EXTORTION SCANDAL IN FRISCO**

Charge of \$157,500 for Two Weeks' Auto Service Following Fire.

San Francisco, May 24.—Extortionate charges to the city for automobile hire during the first two weeks following the fire may develop into a huge scandal. In the tabulated statement filed with the committee of forty Saturday there appears a charge of \$157,500 for automobile service.

Only 129 claims were presented to cover this sum. The average rental a day was \$35, but in many instances the charge was even higher. In the same table is a statement of charges for milk, butter, eggs, bread, vegetables, drugs, hay, grain and clothing. The total cost of these necessities does not equal the cost of the hire of automobiles.

Sends Out Circular Letter Promising "a Good Thing" on Receipt of \$1 Bill.

Hamilton, May 24.—(Special.)—The police think they have unearthed a plot to bleed the speculatively inclined. Someone who represents himself "as the private secretary of one of the largest horse owners in the country," and signs the name of Max A. Thomas, has flooded the city with letters telling of a good thing that is to be pulled off at the Woodbine Saturday. He promises to wire the name of the horse to those who send him \$1, and he asks them to address him at the General Delivery, Toronto postoffice. Toronto people in receipt of letters are told to address care Hamilton postoffice. The police have seen a number of the letters, and have issued a warning to the public.

Fred Frier, a young man who boards at 45 King William-street, fell off a swing at the Mountain View this evening. He was taken to the City Hospital, and up till late today he might have regained consciousness.

While setting off firecrackers last night the four-year-old grandson of Fred Rice, 196 West Cannon-street, set fire to his blouse, and was painfully burned.

In the City League to-day the Nationals took the morning game from the Braves by 10 to 8, and in the afternoon Wep won from the Britannias by 7 to 4.

Victoria Day was enthusiastically observed today, a great deal of powder burned up, and the city was brilliantly illuminated at night. The streets were filled all day, although there was nothing of an exciting nature on the program. A large part of the population went to the Woodbine or Buffalo on the Masonic excursion. The celebration in connection with the golden jubilee of the Diocese of Hamilton closed to-day, and Mr. Sheariff left for Ottawa this evening at 8:05. He celebrated pontifical high this morning, and this afternoon paid a visit to Mayor Biggar.

**THEIR ANNUAL PICNIC.**

House of Providence Grounds Were Thronged Afternoon and Night.

Thousands of people crowded the grounds of the House of Providence, on Power-street, yesterday afternoon and during the evening in spite of the downfall of rain shortly after 8 o'clock. It was their annual picnic and was attended by all classes of religion, who enjoyed themselves.

The day's success was mainly due to the good work of the committee, J. W. Mogan, C. J. McCabe, R. McCabe, E. Loxar, J. Hurst, J. Toban, J. Doyle, W. Lurrie, T. Sullivan, M. Cooney and W. Hylan.

The grounds and booths were beautifully decorated. Each parish in the city was represented by a booth, and there were many rivalries which could have its booth look the most attractive. It would be hard to pick the best, but St. Paul's booth was all that, and the rivalries were all white, wearing medals and caps. The Milton Brass Band followed.

The booths were attended as follows: St. Peter's—Manager, Miss H. Heck; Waiters: Misses N. Bradley, E. McCann, M. L. O'Connor, M. P. O'Connor, R. Rush, T. McDermott, H. Hick, L. Carpenter, B. Ryan, J. Hick.

**HONORED DEAD COMRADES**  
**VETERANS' SUNDAY RIBBIE**

Earl Grey Sent Message and Premier Addressed Queen's Park Gathering.

The Victoria Day ceremony of dedicating the monuments in Queen's Park of Canada's honored dead, who fell in the nation's cause, was unusually elaborate yesterday, the presence of members of the South African Veterans' Association supplementing the ranks of those who were assembled to participate in the memory of comrades whose lives were rendered up at Ridgeway or in the Northwest campaign of 1885. The floral decorations were also unusually beautiful and numerous.

Before leaving the armories, a pleasant event took place in the presentation to the South African veterans of a beautiful silver Union Jack by Mrs. Nordheimer, on behalf of the Daughters of the Empire, whose representatives present included Mrs. G. G. Ryerson, Miss Ryerson and Mrs. G. S. Davidson. Mrs. Nordheimer, in presenting the silver Union Jack to the veterans, referred appropriately to the services rendered the empire by the Canadian contingents in South Africa. Sergeant J. W. Kenyon, the Q.O.R. war hero, presented himself at Paardeburg by being riddled with Boer bullets, received the flag, and Col. Ryerson, replying for the Veterans, conveyed the memory of the fallen comrades, for whom hearty cheers were given. The names of the engagements in which the Toronto members of the several contingents took part, Paardeburg, Driefontein, Johannesburg, Mafeking and Hout's Neck will be inscribed on the ensign.

The parade left the armories under command of Major J. K. Leslie, and to the music of the Queen's Own brass band and the fire and drum band of the Grenadiers, marched to the Victoria Day monument in Queen's Park, bearing the beautiful floral decorations. The Veterans of '85 were strongest in numbers, there being about seventy in line, with J. T. Hornbrook in command, while the 1885 and South African veterans each had about thirty mustered, under the direction of Lieut.-Col. H. H. Ryerson, respectively. The demonstration itself was under the auspices of the Grand Council of the Canadian Volunteer Militia Veterans' Association.

**Honored Fallen Heroes.**

The monument to the veterans of '85 was first visited by the Mayor, and wreaths were placed thereon, the 1885 and 1885 associations each presenting one, while another was the gift of the G.G.B.G. and a fourth was the personal tribute of Mr. Bush, an aged veteran of the Fenian Raid. The monument to those who fell in the Northwest Rebellion was next visited, the wreaths laid for dedicating being contributed by "Comrades of '85," Northwest Field Force, sergeants and officers of the Grenadiers, and officers of the 1885, now resident in Buffalo, sergeants of the G.G.B.G., sergeants of Stanley Barracks, and one from Sir Henry's Battalion and Q.O.R. The monument to Queen Victoria was next given attention, the floral gifts including those of the Grenadiers, the Fenian Veterans, Earl Grey, Stanley Barracks officers and Q.O.R. sergeants.

The Army and Navy Veterans, who paraded this morning, decorated the graves of comrades at the Portland-street Cemetery, where addresses were made by the Mayor, Major Martin, Lindsay and Chaplain John Nunn, later marched to Queen's Park, and there decorated the monuments of Earl Grey and Governor Simcoe monuments.

**Earl Grey's Message.**

The united gathering, from the tottering veteran of by-gone years of the African contingents, then formed in line before the entrance of the parliament buildings for the address of the Mayor, who brought the veterans to a close. After a few words from Alexander Muir, Col. Hanbury Williams expressed the regret of Earl Grey at having to be present. His excellency wished their luck and was assured that if their services were ever again required they would be again readily given. The Earl conveyed the hope that next year the public and high school cadets would take part in the ceremonies, as on Empire Day.

After three rousing cheers for his excellency had been given, brief patriotic addresses followed by Col. Ryerson, Controller James, Lieut. Col. Farewell and Capt. W. F. McMaster, the last-named being introduced as the commander of the first ship of the Canadian navy built, the Victoria, of the weight of 85 years, Capt. McMaster spoke reminiscently and was given hearty applause.

**Present a Veteran, Too.**

Hon. J. P. Whitney spoke, not as the premier of the province but as Lieut.-Col. Whitney, who was a comrade of the men before him in the Fenian invasion. It was hard, he admitted, to speak as the heart would dictate, but he owned to a feeling of great satisfaction in the thought that the term comrade did not apply only to those who had served together, but to every able-bodied subject in Canada. The country wasn't looking for war, but neither would it be frightened at the prospect of embroilment. The gathering dispersed with the singing of "Auld Lang Syne."

**CARELESS WITH FIREARMS.**

Riverdale Resident is Struck on the Head With Spend Bullet.

Last evening Richard Lewis, 345 Smith-street, was in his yard. A bullet from a rifle struck the metallic roofing of his house. While investigating, another bullet struck him on the head, inflicting a scalp wound. A doctor attended him.

Inspector Gregory is making enquiries and if the guilty party is found an arrest will be made on the charge of the careless use of firearms.

**AFTER ENGLISH IDEAS.**

Civic Federation Men to Observe Public Utilities Systems.

New York, May 24.—Among the passengers who sailed on the Caronia yesterday were seven members of the National Civic Federation, selected to investigate the English system of public utilities. They were Professor Frank Goodnow, Columbia University; Walton Clark, third vice-president of the United Gas Workers of Philadelphia; Professor John H. Gray, Northern University of Wisconsin; P. J. McNulty, president of the International Brotherhood of Electrical Workers; Washington; Ralph M. Easton, Toledo; Williams and Edward A. Moffett.

When the committee arrived in London they will join forces with the five members of the commission already there, of which Melville Ingalls is chairman. They will make a thorough investigation of municipal ownership of gas, water, light and traction systems, as operated in London and in other towns of the United Kingdom.

One of the members of the commission said that they would be assisted by experts in each of the systems, and that probably two months would be devoted to the study of the municipal systems abroad.

**MONEY BAG IN OLD INN.**

Treasure Found in Room Miser Had Twenty Years Ago.

Millville, N. J., May 24.—While razing the old three-story frame buildings at the corner of High and Main streets on the site of the proposed Millsville National Bank this afternoon the workmen discovered a large bag of money hidden away between the walls. The man carried it into the street, where a large crowd soon collected.

Among the crowd was Adolph Hess, who recently purchased the buildings for \$50. The bag with its contents was turned over to him. He took it to his home to examine it. When seen later Mr. Hess refused to tell the amount of money in the bag or talk of the discovery, except to say that it was a large sum.

The building was erected over half a century ago, and was at one time known as the South Jersey Tavern. The room where the treasure was found was for many years occupied by Fritz Malvin, an old miser, who was found dead in his bed twenty years ago. He was said to be wealthy, and it was thought he put the money between the walls.

The "Semi-ready" franchise in a town is as valuable as a public utility franchise. It gives the monopoly of merit in men's clothes.

Dealers who did not get the franchise for the prosperous towns are sorry, though they declined it seven years ago on the ground that the profit fixed by the makers was a small one.

The real profit in Semi-ready tailoring is the many sales made and the ease with which goods can be sold when the maker gives the guaranteed bond found in every pocket of every Semi-ready garment.

THE NORTH AMERICAN LIFE. Mr. Goldman, managing director of the North American Life, will probably think the stockholders in the New York Equitable, who are going to mutualize that company, are exceedingly foolish.

WISDOM OF MR. HUGHES. While the Equitable stockholders are becoming resigned to mutualization as the inevitable outcome of the Armstrong committee's work, the insurance agents of New York, who were just as inevitably sufferers thru the unsavory disclosures of last fall, are freely recognizing that the considerable cleansing of the business will soon be as good for them as it will be for the policyholders.

It almost possible to forecast what will happen, from a reading of what took place in New York a night or two ago. The Life Underwriters' Association of New York gave a dinner, at which Mr. C. E. Hughes, the mercantile counsel for the Armstrong committee, was a notable guest and speaker.

Mr. Hughes didn't mince words with the agents. He told them plainly that it would be absurd and fatuous for them to fight against the demand by the public for economical management of the life companies. He expressed the greatest confidence in what the companies would be able to do for the policyholders under the new insurance code.

STRANGE CASE OF MR. FAIR. Preserve to us the deferred dividend, says Mr. Goldman; enlarge the field for investment, and as for mutualizing the company, why, what's the good of that when the policyholder takes little

Interest in it? As an adviser, Mr. Goldman does not carry conviction. Sir Louis Davies, in his famous letter to Sir Sandford Fleming, regretted that the North American Life did not take the lead in demanding investigation.

A Mr. Birch was offered a \$440 paid-up policy in the New York Life for \$700. Mr. Fair persuaded him not to go in the New York Life, as he would get him a policy just as good in the North American. Mr. Birch insured in the North American, believing that he was receiving a paid-up policy. But he got nothing of the kind, and finally the unfair Fair covenanted to keep up the payments on the policy of Mr. Birch—a plain confession that the policy was sold by misrepresentation.

There is another aspect of this contemptible business of peculiar public interest. Last January Mr. J. J. Harpell took upon himself to criticize the North American Life management—which, being a policyholder, he was quite entitled to do. At the annual meeting Mr. Harpell asked certain questions, nearly all of which have since been shown to be well founded. The Mr. Fair, whom Managing Director Goldman has been compelled to denounce in the witness box, but who still holds a high position in the North American Life, had already been used by the company to discredit Harpell's criticisms, and he was at the meeting and permitted by his employers to indulge in a trade of abuse or Harpell, calling him, inter alia, a monomaniac.

By such methods was it sought to stave off enquiry into the conduct of the insurance business. The sequel, as disclosed to the insurance commission, has a certain poetical grim justice about it. It is named here because Mr. Harpell was not singular in the receipt of wholesale denunciation for demanding the truth about insurance. Mr. Fair has reached an altitude in the insurance world to which he scarcely aspired, but of which no one will say he is undeserving.

REGINA THE CAPITAL. Regina retains the political headship of Saskatchewan by a vote in the legislature of 21 to 2. Saskatchewan received only one hearty vote, the second being avowedly given perfunctorily. At one time it was thought that Saskatchewan would make a close fight for the honor and profit of becoming the provincial capital. But devotion to party has overcome the patriotism of geography.

SCHOOL FOR FIANCES. The Bishop of Ripon was a public school for engaged couples. He would send them to it for strenuous inculcation of the sense of their impending responsibilities and instruction in the art of meeting them. Then the bishop would have a home rest for betrothed pairs, in which they could recover from the labors of the exacting educational course and receive lessons in the blessedness of composure under difficulties.

What the bishop says about fiances' insufficient knowledge of what is before them is perfectly true. It applies also to candidates for ordination. "How foolish we were when we were young," said a matron to her spouse. "How young we were when we were married," was the brutal reply. Still, the world is replenished and made good by the foolishness of impractical love-making. The course of true love won't run very much smoother by making Edwin and Angelina contemplate seriously the responsibilities which attach to cook and stove and cradle. Edwin and Angelina ought to think deeply of other things besides ice cream and kisses. They should give to their elysian dream some tinge of sobriety. But if they will not borrow it from their pro-

TWO VIEWS ON INDEMNITY QUESTION

THE INDEMNITY JUSTIFIED.

Vancouver (B.C.) Province, May 17: It is quite interesting to read the debate in the house of commons on the resolution of W. F. Maclean to repeal the Indemnity and Pension acts of last session. It was a long way the most vigorous debate of the present session. The fierceness with which the members of both parties growled in defence of the bone they had stolen from the country indicated their hunger and their resolution not to be deprived of their loot. Member after member spoke with a warmth of expression which most of them have hitherto been deemed incapable. The arguments employed, shallow and un-ethical as they were, were so plentifully urged that an indulgent industry will perhaps be disposed to allow the whole question to drop until the next election. Mr. W. F. Maclean of course was the general abused. One aim, in a way, understand the indignation with which a company of men standing together to commit an act like the indemnity fraud, would regard one of their fellows who refuses to aid them. If in addition to refusing aid he offers opposition, it is not only that they do not give any service as an equivalent for the sum paid, but that the people fully appreciate the fact that the British Columbia members made perhaps what was the most comprehensive speech on the matter. Mr. D. Gallie, on principle—everybody understands Mr. Gallie's clear conception of this world. He said he would have signed a square robin or an oblong robin, or any other kind of robin to get the indemnity.

THE QUESTION OF INDEMNITY.

Weekly Sun: During the discussion on the Maclean bill to restore the indemnity of members of the Dominion parliament to the old figure of \$1500, Dr. Sproule made the assertion that it was impossible for a man to conduct any business successfully, any at the same time be a member of parliament. Dr. Sproule's statement is in a measure true. The man who has business demanding his constant supervision cannot serve at Ottawa, even for one term, without either neglecting his public duties or suffering well-nigh irreparable injury to his private affairs. What does this condition of things involve? One of two alternatives. There must be a frank recognition of the fact that the number of men from whom members of parliament can be chosen is limited by financial conditions—that the range of choice is not only to pay men well while in office, but to pension for life the older ones, on quitting the service, and to make an allowance to the younger ones while recovering ground lost in private business during their attendance on public affairs. The acceptance of the first alternative is better for the individual. The man whose business requires his personal attention is not doing his duty to himself nor the right thing by the people in accepting nomination to parliament. Such a man cannot be successful in business; neither can he give the people the service they have a right to expect.

If sound, would win upon its merits, and that is what I believe in. I believe that under this legislation and a wise administration of the insurance department, the New York companies should be the best in the world. I would rather take insurance in a New York company compelled to transact business in accordance with these restrictions than in any company not so restricted. And I believe that will be the sentiment of the United States.

What is true in New York is true in Canada. The companies have a clearly blazed road ahead of them. The wise will follow it cheerfully.

Without expressing any opinion on the case of the four men arrested last night on a charge of assault committed on an island ferry boat, it is evident that in the interest of the general public offences of this kind, when proved, should be repressed with a firm hand. Disturbances of any kind on a crowded boat are peculiarly obnoxious, more particularly when the passengers largely comprise women and children. Panics are always dangerous when created under these conditions, and as they are easily caused an especial duty rests upon all persons on board to conduct themselves with propriety and refrain from all acts calculated to disturb the comfort or excite the fears of those with whom they are for the time being so closely and compulsorily associated.

No new graft was uncovered at Ottawa yesterday. It was a holiday. His nibs the weatherman promised to snub the fun, but there was real "Queen's weather."

speculative parents-in-law, how are they likely to achieve it in a schoolroom, from which they will fervently pray their students will be excluded? The Bishop of Ripon should take a piece of the engaged couples in his discourse upon his scheme. It would make him wise unto reprobation, it is foolish, but it is true, that people will insist on acting as tho the only school for marriage is marriage.

CANADA AND THE NEW ZEALAND INTERNATIONAL EXHIBITION. From the bulletin issued yesterday by the department of trade and commerce, the department of trade and commerce, the Dominion government is prepared to afford ample facilities for placing on view a representative collection of Canadian natural and manufactured products at the New Zealand International Exhibition to be held at Hagley Park, Christchurch, between Nov. 1, 1906, and the first Thursday in April, in Easter week, 1907. The government proposes to erect a special building with a floor space of 10,000 square feet for the exclusive accommodation of Canadian exhibitors, and allotments will be made free of charge, provided the exhibits are of a nature calculated to initiate or increase trade with New Zealand. If they fulfill this condition the government will further pay the cost of transportation from Canadian points to Christchurch, and instal and maintain at its expense during the term of the exhibition. It is intended to dispose of all exhibits by sale, or otherwise, in New Zealand at the close of the exposition, but goods will be returned at the owner's expense.

The Dominion department is to be congratulated for its laudable desire to foster Canadian trade with our sister state, which, tho of comparatively small extent, presents a field of unusual promise for all manufacturing nations. With a population of only 850,000, occupying an area of about 105,000 square miles, New Zealand last year imported goods—three-fourths manufactured—amounting in value to \$65,000,000. Considerably more than half were British; \$9,000,000 were supplied by Australia, \$7,000,000 by the United States, \$2,500,000 by the Fiji Islands, \$2,300,000 by India and Ceylon, \$1,500,000 by Germany, \$600,000 by Belgium, after which come "Canada and British Columbia" with \$500,000. In the words of the Official Notice of the Exhibition, "the sparsity of the population provides an exceptional market for all labor-saving machinery in every department of agricultural, pastoral and domestic life."

WAGES OF CABMEN. Editor World: I notice a column in your valuable paper referring to the cabmen of Toronto, saying how we double and treble our wages in tips. A man that makes from \$1.00 to \$2.00 a week is lucky. We work from 14 to 20 hours per day, at the least, and have the most disagreeable job on earth. We have to take everybody's impudence, and when speaking to us some speak as to a dog. Just think, we work 95 hours at the least, every week to the ordinary laborer's 48 hours, and only receive \$1.25 per day. Most all the butcher boys and drivers of grocery wagons have a cab-driver's license, and when their day's work is done they hang around the stable and take the place of a man. There are a lot who have not got a license because they never go to the depot; that is the only place they ask to see them. The police should ask to see them at any place, especially funerals and weddings. Another thing I noticed in your paper was that the livermen say that if they could get their tariff raised they could pay more wages. They are getting far more now than their tariff. I stood at one of the large hotels last evening, and one of the cabmen came back and reported to the clerk in charge that he had collected \$1.25 for taking two gentlemen straight to the Stanley Barracks, which is 50c over the tariff. The clerk in charge gave him a roasting for not getting \$2.00. Now that driver got no tip. Could you blame the gentlemen for they had already paid 50c over the tariff. When the livermen get thru with the public the latter have nothing to give the driver. On the tariff card there is one division marked 50c, which the livermen won't handle for less than 75c. If 50c is all you can get your job won't last long. Of course, the public don't want to call a policeman every time they get out of a carriage, and the livermen get the name of robbers and our bosses get the proceeds. What we want is an inspector, or whoever's duty it is to get after the livermen, and see that they are charging over the tariff for which they claim they have no tariff. Then we cab drivers stand a show to receive a few more tips and our demand for wages would be less. I sincerely hope that justice will be done to the down-trodden cabmen, for the public cannot pay double the tariff and tip the driver, too, as they are doing in lost of cases now. A. Cab Driver.

**The New Sunshade.**

Once more Japan has carried off before her! It is not enough, apparently, that the youngest of the nations should be her European rival in battleships and quick-firing guns, but she is likewise going to invade the realm of dress itself and score fresh victories there. The latest novel in the world of fashion is Japanese sunshades—not a compromise between the mere little parasol carried by "Chrysanthemum" and the magnificent, cumbersome confection of lace and chiffon adopted by her western sister, but the genuine thing, the flat, light screen which confers up visions of rickshaws and cherry-blossom, and all the other "decor" of Japanese surroundings. Moreover, the new sunshade is innocent of the lace and chiffon frills that one has been wont to carry about the last few years, and admits only a somewhat sparse fringe round the edge.

**The Grecian Costume.**

The interest aroused by the Olympic games has once more brought to the attention of the fashion world the pinnafore to the pepum, as has been well pointed out, is but a step, and before long—who knows?—the chicton may be the classic rival to the "empire" as an evening style of gown. Certainly it is every bit as graceful, tho' it might be a little difficult to adapt the classic garb to outdoor conditions. Unfortunately, Greek dress exacts classic deportment, and would ill assort with the gait developed by a too protracted course of golf and hockey, which is responsible for the ungraceful stride that is the special accomplishment of the twentieth century woman.

**To Clean Wall Paper.**

Slice thick crust pieces from a stale loaf of bread to clean wall paper. Be careful to get the crusts cut down with long steady strokes. A good plan is to cut a square loaf in two lengths, rub with it until the top surface is soiled, and then slice the crusts off an begin again. Grease spots can usually be removed by mixing fuller's earth into a thin paste with ammonia, and spreading over the stain, when dry, brush off with a stiff brush. For very delicate paper the following method is advised. Fold powdered French chalk flat inside a clean sheet of gauze, lay the chalk flat against the grease spot and press well with a blazing hot iron. If this is properly managed no mark will be left, and where there is a big spot, the best plan is to cut the paper square around it, wet and scrape off. Then put on a new piece, carefully matching the pattern.

**Care of the Hair.**

The woman whose crown of glory is becoming scanty, and whose hair is falling out, will find regular combing a scalp tonic more than ordinary efficiency. Let her take a coarse dull comb, with fine teeth, strong and widely set, and with this implement, carefully chosen, let her spend half an hour daily in regular and steady brushing of her hair, and there is no better method of taking care than by the diligent use of a good comb.

NEW YORK STOCKS FIRMER COOLERS THE FEATURE

Reading Given a Sharp Rally to Effect Short Covering—Canadian Steady.

World Review, May 24.

Canadian stock exchanges were closed today. At London exchanges, with an easier undertone to American shares, was reported. The Bank of England statement this week was an improvement on its predecessors, for no change in its minimum rate of dividend was made, and this was contrasted to general expectation.

Ennis & Stoppall, McKinnon Building, report the close on: Con. Lake Superior bonds, 62 to 63.

New York, May 24.—The sub-treasury received \$3,470,000 transfer of currency from San Francisco.

Bank of England rate unchanged.

Standard Oil Institute at Cleveland by Interstate Commerce Commission announced.

Fair demand for stock in loan crowd.

United States Steel Co. \$75,000,000 cash in bank and will do no bond financing this year.

Anacosta earnings analyzed show \$4.70 a share.

Money returning from the Pacific Coast.

Interboro-Metropolitan stocks are ruled a good delivery on Friday.

Time money a shade firmer for long dates.

On application of a farmer who tendered 80-cent rate payment Judge Bischoff issued temporary order restraining Consolidated Gas Co. from shutting off gas supply.

Sub-treasury gained \$7000 from the banks yesterday. Since Friday it has gained \$2,850,000.

Chicago and Western shippers have declared regular quarterly dividend of 2 per cent, on preferred and the regular semi-annual dividend of 3 1/2 per cent, on the common stock. Both payable July to holders of record June 5.

Ontario and Western directors will meet at the end of June and will probably declare a small dividend for the year. It will be 1 1/2 per cent, and there is no probability that it will be more than 2 per cent, for the year.

Chicago: It is stated that Twin City has opened a third line between Minneapolis and St. Paul. The company will engage in extensive excursion business to Lake Minnetonka during the summer and with the state fair, conventions and the Grand Army encampment, earnings are expected to be unusually large this year.

Joseph says: Better get long of distillers. It is going very much higher.

The buying of Amalgamated Copper is much better than the selling. Get wise.

Specialties: Reading will go materially higher. It is a safe purchase.

Directors of Mackay Company are expected to meet in a few days to act on the dividend on the common stock of one per cent, due in July. The company now pays 2 per cent, per annum on the common stock. It is not believed that any change will be made in the July rate, or that any extra dividend will be declared. It is stated, however, in circles close to the management, that it is the purpose to place the common stock on a 4 per cent, basis, and that this rate will be begun by a declaration of 1 per cent, in September for payment in October.

It is not believed in well-informed circles that the short interest in Tennessee Coal and Iron has perceptibly decreased. Holders of the short contracts are aware of the situation and are seeing to it that the shorts will not be allowed an opportunity surreptitiously. The scarcity of the outstanding stock put the bear element at a considerable disadvantage. Some of the bull campaigners say that a sudden rise of 30 to 35 points need cause no surprise. Investors identified with the property claim that the stock is cheap at 200 and will sell much above that figure. Commission houses declined to be short of it, and are exacting heavy margins from bear sellers owing to the technical position of the stock.

Directors of Mackay Company are expected to meet in a few days to act on the dividend on the common stock of one per cent, due in July. The company now pays 2 per cent, per annum on the common stock. It is not believed that any change will be made in the July rate, or that any extra dividend will be declared. It is stated, however, in circles close to the management, that it is the purpose to place the common stock on a 4 per cent, basis, and that this rate will be begun by a declaration of 1 per cent, in September for payment in October.

It is not believed in well-informed circles that the short interest in Tennessee Coal and Iron has perceptibly decreased. Holders of the short contracts are aware of the situation and are seeing to it that the shorts will not be allowed an opportunity surreptitiously. The scarcity of the outstanding stock put the bear element at a considerable disadvantage. Some of the bull campaigners say that a sudden rise of 30 to 35 points need cause no surprise. Investors identified with the property claim that the stock is cheap at 200 and will sell much above that figure. Commission houses declined to be short of it, and are exacting heavy margins from bear sellers owing to the technical position of the stock.

NATIONAL TRUST COMPANY LIMITED

22 KING STREET EAST, TORONTO.

This Company has radically changed since it

has been demonstrated that the best steel can be made out of southern ore, which the Tennessee Company holds literally by the hundreds of millions of tons. Practical steel men now dominant in the management know that basic iron can be made from this ore, using furnaces of the type of No. 5 and 6 at Bessemer, Pa., and that steel rails can be made from such iron at a profit of \$15 a ton. Two more furnaces of the type of No. 5 and No. 6 will provide a full supply of basic iron, in which case the mill plant will be able to turn out, it is claimed, a minimum of 45,000 tons of rails monthly. There seems to be no limit to the demand for the steel and iron open heart rails. The entire capacity is now engaged ahead up to the middle of 1907. It is believed, outstandingly, that as to iron reserves, that the company's holdings are not less than 800,000,000 tons. While undoubtedly a great deal of buying and selling has been done for some time, there is plenty of evidence that the market is in the interest of the very strong houses that have been absorbing the stock during the last week or two. Reading has been for a number of days the particular feature of strength in the market, and yet the buying on the advance in considered to be at least as good character as that on the recent decline, and every indication points to a considerably higher price. Reading within a comparatively short while, it is said that some heavy bear operators have been buying for their own account, and in some quarters the present advance is attributed to a drive against this latter feature. However, we do not consider this view at all and would recommend the purchase of Reading on any sort of spots.—Town Topics.
