A MICHIGAN GIRL MURDERED FORMERLY LIVED IN TORONTO

The Young Murderesses Wailed Their Victim on the Way Home From School, and With Awful Savagery Beat Her to Death—Her Brother Also Beaten.

Windsor, May 16.—(Special)—Blanche Reynolds, a well-to-do resident of Harbor Beach, Mich., was knocked down and poisoned to death by several of her girl schoolmates as she was on her way home yesterday. Her nine-year-old brother was also attacked and badly injured. So far only one arrest has been made, but others are momentarily expected. Public excitement is so intense that the names of the suspects are being kept secret.

The only motive for the crime, so far as is known, is that the dead girl had been courted by her parents to avoid associating with common children, and in doing so she and her brother incurred the enmity of several children of the poorer class.

The story of the assault is almost incredible in its brutality. The little girl while going from school was set upon by a crowd of seven or eight other girls, all older than herself. After being thrown to the ground, the assailants beat their victim with sticks until she had lost consciousness. Then turning their attention to the 9-year-old brother, they beat him cruelly.

Both children were brought home in a terribly exhausted condition. Blanche died shortly afterwards, but recovered sufficiently enough to reveal the names of her assailants. A post-mortem examination will be held to-morrow.

Hattie Harriman is the name of the girl already in custody. She is 14 years old and apparently does not realize the enormity of her crime.

The Reynolds family came to Harbor Beach about three years ago from Toronto, where they are well known.

MRS. M'KINLEY AT DEATH'S DOOR PRESIDENT REMAINS AT HER SIDE

Had a Sinking Spell Yesterday Morning, but Improved in the Evening.

San Francisco, May 16.—Mrs. McKinley is in the shadow of the valley of death, and may pass away at any moment. This morning, shortly before dawn, she sank rapidly, and it was feared she would die before the doctors could be administered, but she responded to the powerful heart stimulants that were given to her, and during the day improved to such an extent that hope for her recovery, slight though it was, revived, but her life hangs by a thread.

The new treatment for low vitality, salt injections into the veins, was administered to Mrs. McKinley, and she responded to the treatment. She has taken no solid food since she reached here on Sunday, and the physicians do not believe she could survive another sinking spell such as she experienced this morning. She suffers little and bears up bravely.

While clear when Conscious.

During her periods of consciousness today her mind has been clear. The President is constantly at her bedside, alluding to her by his long title, and is standing by the awful strain with remarkable fortitude.

Every banquet and public function planned in his honor here has been abandoned, and the city, with heavy heart, is watching Mrs. McKinley's battle for life.

Decidedly Improved.

San Francisco, May 16.—(Special)—Secretary Cortelyou gave out the following statement:

"The condition in attendance on Mrs. McKinley reports her condition as decidedly improved since morning; pulse and temperature satisfactory. Patient resting well."

FIRST LADY IN U. S.

SOLDIERS IN ELECTRIC ARSENALS SHOOT AND KILL MAKING A SCENE OF DEPLORABLE CHAOS

Militia Had Orders to Fire if Assaulted, and They Carried Them Out to the Bitter Letter Just as the Sun Went Down—Prominent Merchant Shot Down as He Stood at His Store Door—Two Other Citizens Fatally Wounded—Hundreds of Broken Faces—A Whole City-Full Wrought Up to a Frenzy—End Not Yet in Sight.

Albany, N.Y., May 16.—Five hours of conference to-night with all the warring elements represented failed to settle the Albany strike of street railway employees. The strikers waived all demands for the removal of the nine non-union men. The Executive Committee of the United Traction Company will consider the proposition in the morning and may accept it and settle the strike.

In the meantime Major-General Roe intends to take every precaution and at midnight ordered out the 9th Regiment of New York, commanded by Col. Morris. It will arrive here to-morrow afternoon, 8:00 strong, and if the strike is not settled will assist in opening up the other lines of the Traction Company in this city.

William Walsh, one of the men wounded by a bullet from a squad of the 23rd Regiment, defending a car, died at 10:15 to-night.

Leroy Smith, shot in the same incident, was slightly improved at midnight. He said to his pastor, the Rev. Mr. Fairchild, shortly after he was shot: "It's all right. They were perfectly justified in shooting, and I had not any business to be there."

THE STRIKE—1043 MEN OUT, 2715 ON GUARD, 208,500 PERSONS WALKING

Number of miles operated by 16-Townsville street car transportation—Albany, population 60,000; Cohoes, 28,000; Watervliet, 15,000; Rensselaer, 8,000; Green Island, 3,000; Tonawanda, 208,500.

Number of State troops on guard-duty—2205, divided as follows: Second Regiment, 1200 men; Twenty-third Regiment, 750 men; Tenth Battalion, 240 men; Mounted Signal Corps, 75 men.

Number of policemen and special deputies—350.

Number of picketers—100.

Total number of men on guard—2715.

Simultaneously Colonel Lloyd of the Second Regiment began extending his men southward into the city over Broadway to a junction with the troops from the west at the foot of State-street. This movement completed a great circle with two arms of equal length.

Cars Shrouded in Nets.

When the defensive lines were completed the movement of cars began from Quail-street. A car manned by triple crews of non-union men and 10 militiamen was run out first and placed in the middle of the wrecked cars stalled in the street. Then another car, also with triple crews, was moved out and in quick succession other cars were brought out. Lieut. Col. Brady, with Capt. Hamlin, and all of Company I of the 23rd, boarded the first car, and in succession all the others were manned with heavy guards. Nettings had been hung over the sides of most of the cars, but Brady ordered them removed. "Tear them down," he called out. "I don't want the people to think my men are afraid of stones." The traction company's tower wagon and repair wagon fell in behind the procession of cars, and the mounted signal men of the 23rd Brigade, acting as cavalrymen, divided into two troops and surrounded the wagons. The men had orders to fire if assaulted and sat with their rifles ready for action.

Death Dealing Volley.

The volley fired on Broadway by a squad of 23rd Infantrymen, in which Leroy Smith and William Walsh, well-known citizens, fell mortally wounded, changed all that. It stirred anew the feeling of hatred as the exciting tidings swept like a wave thru the city, and the guardsmen were bitterly denounced. Neither of the men had been guilty of any act of offense, but were caught in a crowd, some member of which had stoned the guardsmen, and by regrettable mischance were hit. The disturbance was not a serious one, and "murder" is the title applied by inflamed public sentiment to the shooting. The guardsmen seem not to have followed their duty as soldiers, for they were under orders to fire if assaulted. The bright prospect of a settlement of the strike has not served to allay the growth of vindictive feeling, and if the present situation continues, acts of bitterness and violence may be expected.

In the May Morning.

The day began with an imposing show of military strength. In the western portion of the city the marching of troops began at 8 o'clock on a plan outlined in official orders from Brig.-Gen. Robert Shaw Oliver, and executed by Brig.-Gen. Barnes. The 23rd Infantry drove back the crowds that surrounded Quail-street in a series of spirited charges. These crowds were theatrical and exciting, but not especially dangerous. Once the area about the cars was cleared, the lines during the prospective movement of troops began.

Orders for Householders.

The military measures of the morning represented the limit of stringency. Household doors were closed, and the streets were kept empty, and every head that showed on a roof top had a gun pointed at it. The streets were cleared of cars were switched off and left at the north power house, and the ten cars returned over the line to Quail-street.

WILL FRANCE GRANT A SUBSIDY TO FRANCO-CANADIAN S.S. LINE?

The Promoters of the Project Expect the French Government Will "Chip In" for a Direct Service Between Montreal and Quebec and Havre and Bordeaux.

Montreal, May 16.—(Special)—The special correspondence of The Star in London states: It is announced from Paris that the Canadian subsidized Franco-Canadian steamship line confidently expects the French Government also to subsidize it, believing that an opening exists for a regular trading service, and direct communication will be maintained in the future between Havre and Bordeaux, and Quebec and Montreal. The present ships will be replaced by four new vessels, two to be built in England and two to be built in France. Efforts will be made to enlarge the scope of the 1893 treaty to include in the minimum tariff as many articles as possible. Comte De Montzon and Baron De La Case are among the French directors of the company.

ADMIRAL SEYMOUR'S SUCCESSOR ON WAY TO TAKE OVER HIS CHARGE

Will Command British Naval Forces in Asiatic Waters for Three Years.

New York, May 16.—His way to Yokohama to assume command of the British naval forces in Asiatic waters, Vice-Admiral Sir Cyril Arthur George Bridge, R.N., arrived in New York yesterday on the Oceanic. Vice-Admiral Bridge is accompanied by his staff, consisting of Capt. Arthur W. Carter, R.N., flag captain; Lieut. Hamilton, R.N., staff paymaster and secretary.

ADMIRAL SEYMOUR.

Sir Edward Seymour, now in command in China, will return home, and Vice-Admiral Bridge will raise his flag on H.M.S. Giora, a first-class battleship, and direct the movements of the 45 vessels comprising the fleet on the most important station of the British navy. The assignment, which is for three years, is not in a new field to the admiral, for he was second in command on H.M.S. Andanour, a battleship on the same station in 1881 and 1882. Recently he had been in command of the fleet in Australian waters.

When told of the recent report that Russia would send two more battleships and two cruisers to Chinese waters, Vice-Admiral Bridge replied that he thought such action significant, but as the fleet of the powers was evenly balanced as possible on that station he thought, in the event of such action on the part of Russia, that England would add to her fleet at once.

Vice-Admiral Bridge was born in March, 1833, and entered the navy in January, 1853. He served in the Crimean war, and during the Indian mutiny. He was director of naval intelligence from 1899 to 1904. To-morrow he will proceed to Vancouver, B.C., stopping at Niagara Falls and Chicago.

BRODRICK'S ARMY SCHEME

Passed the House of Commons Last Night by the Substantial Majority of 142.

BALFOUR'S STRONG SUPPORT

Sir Henry Campbell-Bannerman's Amendment was Rejected by 327 to 211.

London, May 16.—In dealing with the debate on the Army Bill in the House of Commons to-day, Mr. A. J. Balfour, the Government leader, denied that there was any large body of opinion hostile to the scheme of Mr. Brodrick, the Secretary of State for War, which was introduced in the House of Commons to-day. The amendment of Sir Henry Campbell-Bannerman, the Liberal leader, in which he said the proposals largely increased the existing burden without adding material to the military strength of Great Britain, and asked for figures and details, was rejected by a vote of 327 to 211.

Mr. Brodrick's scheme was then adopted by a vote of 305 to 192.

In the course of his speech, Mr. Balfour made the substantial statement that at one moment, toward the end of 1890, there were in Great Britain only 200,000 rounds of small ammunition, with no reserve of artillery ammunition, except what was actually with the guns retained at home.

The Best Conversation

In conversation with Mr. Doherty, the noted writer, who has visited nearly every hat manufactory of any importance on the continent, he says that the most important part of hat making is the fitting and binding must be perfect, the felt must be smooth, with no seams, no irregularities, no block marks. Those that have are placed on one side and are termed "seconds." We never buy seconds, Mr. Doherty says, they generally find their way to the "bargain counter" and are sold at a low price. All our hats are selected and our guarantee is at the back of every hat we sell.

MEET A SHOCKING DEATH.

Young Man Named Cuthrow Fell Into Furnace at Chatham, N. B.

Chatham, N.B., May 16.—A shocking tragedy occurred at Senator Snowball's mill last evening. The saw-dust at the mill is burned in specially constructed furnaces, which are filled from the top through chutes. A young man named Cuthrow was feeding the furnace, and when the mill stopped he fell into the furnace. The furnace was searched this morning, when human remains were found. It is supposed that he lost his balance and fell in the opening.

O'BRIEN ABUSES WYNDHAM.

Dublin, May 16.—The Irish People, Mr. William O'Brien's paper, contains a stinging attack on Mr. Wyndham, the Irish Secretary, for the recent seizure of the paper because of its insulting references to King Edward. The general policy of Mr. Wyndham is assailed. "Hypocrisy" and "mendacity" are frequently used with reference to Wyndham. In conclusion, it is called "a liar, a sneak, a back-biter." Nothing is said against the King.

PRINCE OF THESSALIONS.

Mr. Willard came to Toronto preceded by no less than two unctuous advance agents—it was his wish. Their absence did not signify absence of excellence in the actor. Were the truth told Mr. Willard is the foremost actor on the English stage to-day, barring none. His magnificent voice, superb physique and absorption of self in the character portrayed makes his acting faultless. The Prince of Thessalions is in our midst. Do we know it?

The blood of Albany came after a day of absolute peace. From early morning the crowds had melted away before bayoneted and shot men, cars had been operated under heavy guards, and there was an impression that the spirit of turbulence was waning. Noon had seen the sentries and patrols practically without occupation. Hundreds of them rested for hours on curbs and stairways or mingled in a friendly way in the straggling crowds that lined the railway company. Hundreds of citizens loudly welcomed by flying missiles and bayonets.

THREE YOUNG MEN MISSING.

Wm. Hockins, Leslie Druant and Alex. Rae, Residents of Meaford, Supposed to Have Been Drowned.

Hired a Boat Last Saturday.

Sailed to Victoria Harbor, Left There for Home and Have Not Since Been Seen.

Midland, Ont., May 16.—Three young men named William Hockins, Leslie Druant and Alex. Rae hired a boat here Saturday morning for the purpose of sailing to Victoria Harbor, and they are known to have reached the Harbor and spent some hours there, leaving in the evening for home. This was the last seen of them. On Sunday a boat was hired at Midland Point in a badly damaged condition. Since then a hat has been found, but no other trace of the occupants of the boat. It is supposed the boat was upset by a sudden squall, either Saturday night or Sunday. Hockins and Druant are supposed to belong to Meaford, and Rae to Rock's Point, near Barrie. All three had been working here for some time. The authorities of the town are taking the matter up and have notified Meaford.

MAITLAND IS A FREE MAN.

Innocent Evidence to Warrant His Extradition, Says His Honor Judge McDougall.

Thomas L. Maitland, who was arrested at Hamilton by Detective Davis on a charge of theft from the Colonial Insurance Company of New York, appeared before Judge McDougall yesterday, and was discharged. The judge held that the evidence was insufficient to warrant the granting of extradition papers.

Inspector Stark, referring to the complaint about the arrest in Hamilton of Maitland, said yesterday that the authorities of the Ambrosia City are in error. It is a rule of the local authorities not to trouble others to do what they can more conveniently do themselves. It was known where Maitland was to be found, and all that was necessary was to go for him. As for the warrant, it was an extradition warrant, issued by Judge McDougall, and does not require to be backed by any magistrate. An extradition warrant authorizes the arrest in any part of the Dominion.

Cannot Stop Them.

Nagara Falls Record: The Ontario Government has refused to issue a certificate of definite opinion as to their rights in the matter of suppressing Sunday excursions. A well-known counsel who has devoted some study to the matter in connection with his private practice declares, however, that the difficulties in the way of stopping the business are very great. At the present time the law is in a state of confusion, and it is difficult to see how any action leaving and returning on the same day, as to the matter of excursion to the Falls, can be prevented. The law exists, he says. Nothing outside of the original marine regulations exists to prevent a steamer landing passengers on any day of the week.

NO SUCCESSOR TO MGR. FALCONIO.

Canada Will Not Have a Papal Delegate, and the Bishops Do Not Desire One, it is Said.

Montreal, May 16.—(Special)—It now transpires that Mgr. Falconio, the Papal delegate, when he leaves Canada will not be replaced, this course being decided upon by the Roman authorities at the solicitation of the Canadian bishops. It is a well-known fact that the delegate never acted as a delegate, and was displaced when Sir Wilfrid Laurier, Solicitor-General Fitzpatrick and Mr. Charles Ross succeeded in securing the appointment in question. Earnest representations have, it is affirmed, been made to Rome, with the result that when Mgr. Falconio leaves Canada he will not be replaced.

SCHOOL TEACHERS' SALARIES PRICES OF CANNED GOODS COLLEGE TRUSTEES' MEETING

Board Decides to Accept the City's Cheque for \$39,400 Without Prejudice. Syndicate Seeks to Regulate the Year's Supply, But Some Canners Object. Educational Development of the City Discussed Around the Festive Board.

As foretold by the World some weeks ago, the fruit canners and packers of Ontario are completing the terms of an arrangement by which the whole output of the factories for this year and the surplus from last year will be sold to a syndicate, thus regulating the price of the products of many canneries.

The Public School Board last night, with characteristic vehemence, expressed their opinion of the conduct of the Board of Control in connection with the increase in teachers' salaries. They have accepted some of what from their original position, and decided to accept the cheque for \$39,400, provided their solicitor thinks that by so doing their case will not be prejudiced.

The subject was brought up early in the evening, when Trustee Hales moved the following: "That this board place itself on record as opposed to the constructive action of the Board of Control, in regard to the payment of salaries which the teachers in the employ of this board have already contracted to pay, and further, that as under the Public Schools Act, the power to set the salaries of the teachers is vested solely in this board, therefore the board declines to accept any power of resolution on the part of the Board of Control."

Trustee Hales, speaking to the motion, explained the whole situation. He called on the controllers to stop their insinuations and told the trustees they have acted illegally. The School Board should protest against having the rights delegated to them without their consent.

Sheppard's Defence. A.M. Sheppard, who was present, in his usual vigorous style, defended the attitude that has been taken by the Board of Control. They had not acted illegally, he said, to keep the teachers out of their money. There was no necessity for forwarding to them insinuating resolutions and accusations of pursuing a policy of obstruction. They were simply doing their duty, and had acted in good faith.

Refer to a Judge. Trustee Jones wanted the point in dispute referred to a judge. He might be given, but it was not particularly honest. A long, lengthy discussion followed as to whether the now famous cheque should have been received or not.

Boys and Cigarettes. A delegation from the Ministerial Association accompanied Mr. Willis Brown, who cleared the board for permission to address the school children on the effects of cigarette smoking. A delegation was also present from the W.C.T.U., with the request that the board sign the petition to be presented to the Government for legislation to restrict the sale of cigarettes to young boys.

Want to Pay Teachers. In committee the board's attention was drawn to the fact that the Finance Committee's report on the subject of the salaries of the teachers was not yet received. It was decided to refer the matter to the Finance Committee.

Police Points. Frank Smith, a German, at today's Police Court, pleaded guilty to the charge of stealing a bicycle from the front of the Hotel Hamilton, 107 St. James-street. He was remanded till Saturday for sentence.

SOLEIERS IN ELECTRIC ARSENALS SHOOT AND KILL

Continued from Page 1. service with soldiers as passengers was kept up until noon, and then discontinued for the day. The strike of the strikers or some strike sympathizer was in cutting the trolley wires just west of Queen-street, near the intersection in electricity. The cables were dug up and the underground wire located.

The vigilance at dead lines was relaxed and scores of the sentries posted on the streets were ordered to stand under trees. It was on the first run of the group of soldier-laden cars that the first tragedy of the day occurred. The cars were on Broadway moving northward on a southerly heading when the trolley wires were cut. The first of the work day folk had been released by the unusually commencing commotion.

GOODERHAM AND THE GOLD

He Must Accept the \$38,500 Tendered by Smith Estate in Payment of Mortgage

SAYS JUSTICE FALCONBRIDGE

Mortgage Must Be Transferred to Mr. Fred Burgess—Cases at Osgoode Hall.

Mr. George Gooderham, thru his solicitor, Mr. Percy Galt, appealed yesterday in the Court at Osgoode Hall, before Chief Justice Falconbridge, against the order of the Master-in-Chambers putting into effect a consent judgment by which, if the mortgagors of the Smith estate, over the Don, should tender Mr. Gooderham \$38,500 before May 1, in full of mortgage indebtedness, he should be allowed to proceed with his foreclosure action against the property and to assign the mortgage.

Before May 1 the money in payment of the mortgage was tendered in gold to Mr. Gooderham, but he refused to accept it, and that the amount offered did not include his collateral security. Mr. Gooderham, in the meantime, sold his interest in the estate to Gooderham & Worts, but this sale will be set aside. The appeal was dismissed by His Lordship, and now Mr. Gooderham must comply with the terms of the consent judgment, accept the money in payment of the mortgage and hand over the mortgage to Mr. Fred Burgess, the purchaser. Mr. Gooderham may appeal the case.

Lawry v. Tuckett and Lawry. In the Hamilton society case, Lawry v. Tuckett and Lawry, a motion was made to strike out the statement of claim, on the ground that it did not disclose reasonable cause of action. Judgment was reserved.

Judgment Reserved. In the Court of Appeal the case of Jackson v. the Grand Trunk Railway, was argued. Judgment was reserved.

Bell v. C.P.R. was an appeal from a judgment awarding damages to one Bell, an employee of the C.P.R. The case was still before the court at adjournment, and will be continued this morning at 11 o'clock.

Appeal Dismissed. The Divisional Court dismissed the appeal of Broderick v. Everett. In the case of Evans v. Jeffrey, the appeal was allowed, the costs to be costs in the cause. Judgment was reserved in the case of King v. Scully.

Messrs. Lamport & Ferguson issued a writ on behalf of Francis H. Holgate, executor of the estate of the late Andrew Rutherford, to recover \$1181 from the estate. The plaintiff contends that Rutherford agreed to pay him and Emma Holgate the sum of \$1181, and the price is secured in one great bill of exchange, Company, of which Rutherford was the business manager.

The List for To-Day. Divisional Court preliminary list for today, at 11 a.m.: Clark v. Thompson; McNulty v. Moore; Armstrong v. Provincial Savings Company; McBride v. Moore; Letch v. Letch; Wilson v. Imp. W.M. Co. Court of Appeal preliminary list for today, at 11 a.m.: Bell v. C.P.R. (continued); Wilson v. Shaver.

Not Big Enough for City Clothes. Berlin Daily Telegraph: Altho it is impossible as yet to get any positive information from an official source, it is believed that Berlin's population has not yet reached 1,000,000. It is expected that the population will have reached the 800,000 mark. However, it has developed that a number of people have been missed by the enumerators, and the greater the number of the nearer Berlin will be to city qualifications.

MR. HELMKAY'S EVIDENCE. The Queen St. East Tobacconist Makes Strong Statements and is Ready to Back Them Up.

There are not a few people in the eastern portion of the city who know Mr. C. F. Helmkay, who keeps the Victoria Cigar Store, at 94 Queen St. E. Hundreds do not know him personally, as he is best acquainted with his place of business.

We heard that for some time past Mr. Helmkay had been making a complaint in his most acute form, and that he had been treated by several of the best doctors in the city, but to no avail to cure him.

That is a fine tale of womanly courage and presence of mind that comes to us from the Old Land. Runaway Bay is a quaint little fishing village in the north of the Yorkshire coast, and last month the fishermen showed of what metal they were made. A great storm came up, so that the fishing boats that were all out, indeed they were beaten to the shore, waves that thundered on the beach. Unlucky was the boat that was driven out from the cove down west out with the fishing boat, so that it seemed that all must perish if the Helms were not got out in some way or other. The women were safely landed, and after this splendid bit of work, marched off, we are told, to their red tiled cottages on the cliff, on their husbands' arms.

The tea drinking capacity of the British people is alluded to in "Tea," the new monthly paper of the trade. "Tea" states that in the United Kingdom nearly six pounds a head of the population is consumed. Sixteen years ago the per capita consumption amounted approximately to five pounds. There is no other European country where such a per capita consumption is approached. There is no other European country, except Holland, where the consumption of tea exceeds one pound a head. In Russia and the United States the consumption of tea is only one pound a head.

Horses From the Northwest. Ontario has received for the past few weeks a heavy load of horses from the Northwest. The Ontario Department of Agriculture, in an official note, says for one horse to form part of the shipment.

Bounty for a New Baby. A Tobacconist settler has applied to the Ontario Government for a grant of 100 acres, as a bounty for the first white child born in his new district.

Blake-Fallon Controversy

Archbishop Bruchesi of Montreal Gives a Statement as to the Oath Taken by Bishops.

TRANSLATION OF THE SENTENCE Which Has Caused the Disputation Between the Learned Lawyer and Clergyman.

Montreal, May 16.—(Special.)—In view of the controversy now going on between Hon. G. H. Blake and Rev. Father Fallon, with regard to the oath taken by the Roman Catholic bishops, a reporter called on his Grace Archbishop Bruchesi to obtain an authoritative statement as to the form of oath administered. His Grace kindly loaned a copy of the Roman Pontifical of Clement VIII. and Urban VIII., published by order of Benedict XIV., and issued by the Sacred Congregation of the Propaganda of the Faith at Rome, in 1878, which contains the oath taken by the bishops of the Catholic Church all over the world. A translation of the relevant portion of the oath by Prof. George Murray, B.A., Oxon., is given below. The sentence which seems to have given rise to the controversy is as follows in the Latin text:

"Hic Grace the Archbishop interprets this sentence to mean that the bishops are bound to 'follow up and oppose to the best of their power, all heretic-schismatic, etc. This does not mean that they are to take up arms against them, but simply that they are to combat the doctrines enunciated by them. As an example the Archbishop referred to his action in the case of the Deloit marriage. The doctrine put forth by Mr. Justice Archibald was considered anathema to the teachings of the church,

and His Grace accordingly addressed a letter to the faithful, combatting such doctrines. The Latin verb 'persequi' literally means 'to follow up perseveringly,' 'to pursue,' and it is in this sense that His Grace accepts it in the oath administered to him at the time of his consecration. The verb 'linguatur' means literally 'to fight against,' 'to oppose,' 'to assault.'

Reported at Rome That an Oasis Has Been Occupied, Which Gives Control of Tripoli.

Journalistic Errors. From Notes and Queries.

I do not allude to what are obviously mere misprints, such as when The Morning Post announced at the head of its fashionable intelligence that Lord Palmerston had taken possession of the Oasis of Ghadames, which gives them practical control of Tripoli.
