## BECK ANNOUNCES SUCCESS OF NEGOTIATIONS TO RELIEVE POWER SHORTAGE

### NEW PANIC OCCURS IN SUGAR MARKET

**Wholesale Firms in Montreal — Demoralization Reigns Supreme—Toronto Price Now Fraction Over Thirteen Cents.**

Montreal, Nov. 4.—By Canadian Press.—Demoralization reigned supreme in the sugar market here today and no one, refiner or wholesaler, seemed to know what was going on. Leading wholesalers stated that, following repeated drops in the raw sugar market at New York, with the persistent course of the Dominion Sugar Refinery of Toronto which deals in best sugar, in underselling the cane sugar refiners, that the four big cane sugar refiners here had broken away from all agreements as to stabilization of prices and were selling where and how they could.

**Orgy of Price-Cutting.**  
Accordingly, the big wholesale firms here, who in the past have stood fairly well together, abandoned their cohesive policy and started an orgy of price-cutting today. For a time the price ran around 15 cents per pound and then was reduced to 14 cents net, laid down to retailers here. A further decrease is looked for tomorrow.

It was announced independently today by the Atlantic Sugar Refinery here that they had reduced their price list of granulated sugar to 15 1/2 cents per pound, whilst it was reported that two other refiners here were selling as low as 14 and 14 1/2 cents ex-store. The Dominion Sugar Refinery is selling at Toronto down to 13.71 cents and the Acadia Sugar Refinery is stated to be selling at Toronto at 14 cents net.

**Big Price Cuts Coming.**  
Zepherin Hebert, president of the wholesale firm of Hudon, Hebert & Co., this city, and ex-president of the board of trade, said tonight that "the (Continued on Page 9, Column 3.)"

### ELECTORAL VOTE ALMOST A RECORD

**Harding Tops 400—Majorities in Senate and House Increased.**

New York, Nov. 4.—An almost record-smashing electoral vote for Senator Harding, topping the 400 mark, and Republican majorities of more than a score in the senate and 150 in the house, were assured from virtually complete returns tonight from Tuesday's elections.

With the Democratic strongholds of Oklahoma, Missouri and Tennessee definitely swept into the Republican party's ranks by the crushing victory, the Harding-Collidge ticket had 396 votes, exclusive of the five from Montana, where the Republican state ticket was victorious and the presidential ticket ahead.

The Republican landslide tonight had given the Republicans 58 senate seats, as against 37 for the Democrats, with late returns determining the seat of Senator Beckham, Democrat, Kentucky. His Republican opponent, Richard J. Ernst, forged ahead in a nip and tuck fight for the only senate seat left unsettled.

The 34 senate contests the Republicans captured nine from the Democrats and elected all 15 of their candidates. Among the Democrats, senators who today went down to defeat were Senators Chamberlain of Oregon, former chairman of the military committee, Senator Smith of Arizona, who lost to former representative Rappley Cameron, and Senator Penders of Nevada, who was defeated by former Governor Oddie.

Final returns from a few congressional districts still were belated tonight, some due to close races which upset a few previous announcements, and others from isolated sections. With these missing districts, the Republican roll in the house had climbed past 255 to 135 for the Democrats.

In the house contests the Republicans captured nine from the Democrats and elected all 15 of their candidates. Among the Democrats, senators who today went down to defeat were Senators Chamberlain of Oregon, former chairman of the military committee, Senator Smith of Arizona, who lost to former representative Rappley Cameron, and Senator Penders of Nevada, who was defeated by former Governor Oddie.

**Only One Issue in Northeast Toronto.**  
The voters in Northeast Toronto ought to recognize on Monday morning that it is not the Hydro electric power and Adam Beck, and that the candidate most likely to uphold the Hydro electric commission and Sir Adam Alex. Lewis, therefore vote for Lewis.

### FEW MAGISTRATES IN ONTARIO SHOW PROPER EFFICIENCY

**James Haverson, K.C., So Declares—J. W. Curry, K.C., Scores Present System.**

**NEED MANY REFORMS**  
That most of the magistrates in the Province of Ontario are inefficient, was the statement made yesterday afternoon before the public service commission by James Haverson, K.C., who drafted the O. T. A.

J. W. Curry, K.C., M.L.A., said that he was strongly against the present system of police courts, and suggested appointing a board of magistrates, one of them to be on duty all the time, so that if a man were charged with a petty crime he could be dealt with at once and allowed to go home after paying a fine. He was strongly against the jury system, especially the system of grand juries.

Regarding the duties of coroners, he considered that magistrates could, with the aid of a first-class physician, conduct an examination which would eliminate the jury system. He also recommended the scrapping of old juries and court houses and suggested a grouping of the counties under a central body.

**System Breaks Down.**  
Chairman Gregory, in viewing the police question mentioned that in their travels they had come to the conclusion (Continued on Page 6, Column 4.)

### NO CARD AND BILLIARD ROOM PROVIDED IN BRITISH HOUSE

London, Nov. 4.—The demand by members of parliament for a billiard room and card room at the house of commons has been rejected. The first commissioner of works stating that he had no money to accommodate them. Also he said that such games were contrary to the traditions of the House.

### SCOTSMEN VOTE DRY ONLY 18 DISTRICTS

**No Change in 116 and Nineteen Vote Reduction of Licenses.**  
London, Nov. 4.—No further results are as yet available in the Scottish prohibition poll. So far only 18 districts have voted for no license; 19 are for a limitation, which means a reduction of twenty-five per cent. in licenses issued, and 116 are for no change.

### THE SLUMP IN PAPER STOCKS AND PAPER

The Toronto Globe refuses to come out under the barn and tell what it thinks of the no par value stocks which have been a still being peddled by the Canadian paper companies. Only this week the Wayagamek Paper Co. decided to increase its capital stock by giving five shares for one, the new shares to be no par value. Until lately shares were given a stipulated value of \$10 or \$100; this new method leaves everybody as well as the government to guess at the value. In the States the law distinctly prohibits financial institutions and public utility corporations from this no par value method of financing. If protection is necessary in these days is not the prohibition carried into industrial? Is it that the stock market can be more easily rigged and the investor speculator fooled, and is it also an attempt to get away from prospective taxation that the no par value stock is being put out so lavishly?

### BANK WITHDRAWS THE CHARGE LAID AGAINST FLEMING

**Accountant in Woodbridge Branch Satisfies Royal Bank Officials of Innocence. DID NOT LOCK SAFE**

The Royal Bank has unconditionally withdrawn the charge which was laid against James Fleming, former accountant and teller of the branch of the bank at Woodbridge, in connection with the disappearance of \$18,000 in bills from the safe of the bank.

It was the striking development yesterday afternoon when Fleming appeared before Magistrate Brunton in the county court. D. I. Grant, who appeared for the bank, announced that the bank was satisfied that Mr. Fleming had been wrongly suspected, and a conference followed with W. A. Skeans, K.C., who represented Fleming.

### RAID BY SOLDIERS ON IRISH VILLAGE MET WITH REPULSE

**Three Uniformed Men Killed and Six Wounded in Fifteen-Minute Fight. GRANARD WAS SACKED**

Dublin, Nov. 4.—A raiding party of uniformed men and nine lorries met with disastrous defeat in an attack early this morning on the village of Ballinacree, which is adjacent to the small town of Granard, about sixty miles from Dublin.

Reprisals for the shooting and killing of District Inspector of Police Kellegher, which occurred Sunday evening, were carried out here at midnight last night when eleven motor lorries filled with uniformed men invaded the town. Rifles were fired into houses and a dozen houses and the buildings destroyed included the market house and hotel, valued at \$75,000.

### CHURCHILL GIVES VIEWS OF ELECTIONS IN U. S.

London, Nov. 4.—Winston Spencer Churchill, secretary for war in an address in London today commented on the United States elections. He said that the vast majority returned by the building trades council and the Progressive party in Canada, tonight criticized Premier Meighen for statements made in the premier's speech at Truro, Sherbrooke, and Granby recently, in which such a number of references were made to "dangerous doctrines taught by dangerous men."

### BRYAN HAS PLAN TO OUST WILSON

**Make Marshall President Who Would Appoint Harding Vice-President.**  
Chicago, Nov. 4.—William Jennings Bryan, in Chicago, today gave out a statement suggesting that "President Wilson should resign at once."

He declared the present government was allied to the big interests and what Canada needed was honesty in administration, equity in taxation and toleration for the whole of the people of Canada. Result of U. S. Election. With reference to the result of the United States election, Mr. Crear stated that he would like to be informed of the policy of the present government should the reciprocity proposals be revived, as it was again in the realm of practical politics with the return of a Republican administration in the United States.

### ADDITIONAL POWER ASSURED PROVINCE

**Power Clean-up Nearly Finished**

The negotiations between the government and the Mackenzie interests, looking to a settlement of the power situation, are still proceeding. Premier Drury told The World last evening. The time, however, was not ripe for any official announcement. It will, it is expected, be made any day now.

It was learned yesterday that Sir William Mackenzie had forwarded to the premier a memorandum of the terms upon which the company he represents are willing to furnish power to the province. This will be replied to immediately and the answer will, it is understood, be explicit and final. It will then be up to the company to accept the government's proposition and come "across" with the power. It is not expected that any further "persuasion" will be required.

### THIRD SAFE STOLEN FROM CIGAR STORE HAS BEEN LOCATED

**Two Discoveries Made About Same Time in Donlands Farm Territory. ROBBERS ARE DARING**

At five o'clock yesterday afternoon, W. F. Maclean, M. P., was driving with a friend in a motor car into the northwest gate of Donlands Farm, by way of Con. III, east of Yonge street. This gate is near Bethesda Church, at the corner of Leslie street, (Con. III, east of Yonge), and Lawrence side line. The road is a "blind end" here and comes to a sudden stop because of a ravine, and is hardly ever used. The party ran into a little 100-pound safe which had been broken open and the contents taken away. Some of the papers left belonged to the branch of the United Cigar Store at the corner of Richmond and Bay. Alongside were a heavy sledge hammer and a big pick, which the thieves had evidently used to pry open the door and break the locks.

Mr. Maclean when he got home informed the police, and they went out last night and brought the little safe and the tools to headquarters. Another Surprise. But that was not the only surprise for the M. P. for South York. It seems the time he was at the northwest corner of the farm, the police had been out at the northeast corner of the farm. ### MASSACHUSETTS MILLS ADOPT FOUR-DAY-A-WEEK SCHEDULE

Lawrence, Mass., Nov. 4.—The four mills of the American Woolen Co. in this city closed tonight for the rest of the week and next Monday will go on a four-day-a-week schedule. ### CRERAR'S FIRST SHOT IS REPLY TO MEIGHEN

**Addressing Big Crowd at Prince Albert, Resents Charge of Class Propaganda—Outlines a Tariff Policy of Greater Development of Basic Industries.**

Prince Albert, Sask., Nov. 4.—Launching into an explanation of the principles of the new national policy, the Hon. T. A. Crerar, leader of the Progressive party in Canada, tonight criticized Premier Meighen for statements made in the premier's speech at Truro, Sherbrooke, and Granby recently, in which such a number of references were made to "dangerous doctrines taught by dangerous men."

### SIR ADAM BECK TELLS ONTARIO HYDRO-ELECTRICAL ASSOCIATION COMPANY WILL SUPPLY FIFTEEN THOUSAND MORE HORSE-POWER—FEDERAL GOVERNMENT ASKED TO CURB EXPORT OF ELECTRICAL ENERGY

"I think I am now safe in stating that 15,000 additional horsepower will be generated by the Electrical Development Company and supplied to the province of Ontario. I received assurances this afternoon that this extra supply of power will shortly be forthcoming."

This was the long-looked-for announcement which Sir Adam Beck made yesterday afternoon to the members of the Ontario Hydro-Electric Association at their meeting in the city hall to discuss the prevailing power shortage. The Hydro chief stated that negotiations were progressing favorably and he thought that the commission's terms would be met.

In referring to the purchase of the Ontario Power Company by the Hydro Commission for \$23,000,000, he stated that the rights thus secured could not be bought for \$200,000 today. The Ontario Power Company had the right to develop the first 36,000 second feet allowed to Canada under the treaty, and the Hydro would use it when the Chippewa canal was completed. This company had the right to an unlimited supply of water and its purchase in this respect, as in all others, was an excellent buy.

At the conclusion of the meeting a resolution moved by Controller Maguire, seconded by Mayor MacBride of Brantford, was carried to the effect that in view of the serious power shortage through the Ontario municipalities supplied by Hydro, the association urge upon the federal government the advisability of refusing to allow the export of any electrical energy from the province, except under contract with previous consent. ### TOM MOORE GIVES RADICALS CENSURE

**Head of Labor Cause Talks Frankly to District Council. SIMPSON IS SCORED**

A review of the work accomplished by the Dominion Trades and Labor Congress and a plea for labor men in the furtherance of its influence was made by Tom Moore, president of the labor congress, in an address last evening in the Labor Temple, before the Toronto District Labor Council. The speaker was made the subject of considerable comment on the start of his address, members of the council recalling his refusal to meet ex-President J. C. Waters in joint public buildings last week and his charging that the president's address had purposely been left to a late stage of the meeting in order that he should escape the full force of questions regarding his and the congress' policy.

President Moore referred to local members who had spoken of him as a coward for his refusal to speak before, because, they declared, he feared their adverse criticism. It was egotism upon the part of such a group, he declared, to hold such an opinion. He drew an interesting parallel between the situation in Winnipeg as it had originated, and the present labor (Continued on Page 7, Column 3.)

### PROMISES GOOD ROADS IN EVERY ONTARIO COUNTY

Lindsay, Nov. 4.—Hon. F. C. Biggs paid a flying visit here today, covering the proposed provincial highway route via Port Perry to Lindsay, and returning the alternative route via Sunderland. In a speech at luncheon, the minister stated that every county would share in the provincial good roads movement, and the trunk lines would enter every county town.

### BOARD TOO ANXIOUS OVER SALARY BOOST

Woman Gets Civic Position at Lower Than Minimum for Returned Soldiers.

The board of control discovered yesterday that in their anxiety to be just to the staff they had boosted one young man in the city's employ fifty per cent. The city auditor had recommended an increase of \$200 a year for one of his clerks, and the board made it \$400.

"There are returned soldiers working for the city for \$20 a week," declared the mayor on Wednesday. "I move that they be given the minimum of \$28.50 a week." Not a member of the board dissented and the motion went thru.

Yesterday the discovery was made that it was possible to work a hardship even in being generous. The commissioner of works recommended the appointment of a girl to a \$20 position as stenographer.

Controller Cameron said there were young returned soldiers who would be glad to have that job even at \$20 a week, but it was pointed out that the board had decided returned soldiers could not work for the city for less than \$28.50 a week.

"Nobody suggested paying even a returned man \$28.50 for a \$20 job, so the appointment of the young lady was confirmed."

Controller Maguire then raised the question whether the board had really established a minimum of \$28.50 in the city service, and it was decided that the members had only agreed to pay that salary and that no minimum had been established.

Controller Cameron said that the habit of the board of control in interfering, as happened on Wednesday, with the decisions of the heads of departments, was bad business. Personally he was opposed to increasing wages at present. Other employers of labor were not doing it and the board was making a preferred class of the civic employes. The increases authorized on Wednesday for members of the auditor's staff he thought should be reconsidered.

Controller Maguire said that had been passed and should stand.

Controller Cameron declared that someone getting next to someone else and making suggestions was responsible for some employes getting increases.

No action was taken, but as a result of the discussion it is probable that the salary question will receive attention from council on Monday when the board's recommendations are up.

Commissioner Harris, who had been waiting for a chance to get a hearing, then informed the board that he could not keep good men because of the low salaries paid. Also, he was greatly handicapped by lack of help. He then made recommendations for increases and for additions to his staff, which the board approved unanimously. One employe in the sewer branch of the department was raised about \$600.

### PLANNING TO BUILD FOUR NEW CHURCHES

Methodists Make Survey of Fast Growing Suburban Sections.

Plans for the erection of three or four new churches in the fast-growing suburban sections of the city were partly consummated at a meeting yesterday, of the church extension committee of the Toronto Methodist Union, held in Gledhill Avenue Methodist Church.

The committee made a complete survey of the Gledhill avenue property with a view of meeting the situation a few years hence. Two proposals were considered, one of enlarging the present building, and the other of erecting an entirely new church. The district is growing rapidly, and the present Sunday school is overcrowded.

The Kimbourn Park property on the north side of Danforth avenue, situated between Bathgate and Woodbine avenue, will come into the city shortly, and a church site is being selected there for a new building.

A proposal was also considered to erect a new church in Moore Park.

Under the will, a daughter, Agnes Anna Watson, 115 Camora street, Winnipeg, receives a legacy of \$1000. The widow, Jane Elizabeth Griffith, receives a life interest in the estate and following her death it is to be divided among six children, Mrs. Watson of Winnipeg Melton A. Griffith of Macklin, Sask. George B. Griffith of Long Branch, Cal. Emma Jane Griffith, Torrance G. Griffith, Willard Apartments, and Thomas M. Griffith, 1154 College street.

### BOARD OF EDUCATION YEAR SHOWS DEFICIT

Increase in Cost Per Annum of Educating Children in the Various Schools.

In the annual financial report of the board of education for the year ending Dec. 31, 1919, issued yesterday, a net deficit of \$13,423.02 is shown.

The following figures denote the cost to the taxpayers of Toronto for the education of one pupil attending day school for the complete year of 1919 in the respective institutions under the control of the board: Public schools, \$58.55; collegiate institutes, \$119.97; Central Technical School, \$131.97; High School of Commerce, \$137.25.

By the unit cost statement, a comparison of the cost per pupil between the years 1919 and 1918 is made. These show the greatest increase to be in the public schools:

### THE GUMPS—ANDY SWINGS THE HOME DISTRICT

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this form and hand it to them and you may have been the means of saving some poor sufferer perhaps, from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Eucalypti (Double Strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Eucalypti is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure of the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears, should give this recipe a trial.

### URGES IMPROVED CONTROL OF FUEL

#### Soldier-Labor Candidate Also Advocates Need of Fair Rent Court.

James Higgins, soldier-labor candidate for Northeast Toronto, in an address delivered last night at the corner of Broadview and Danforth emphasized his opinion that there was urgent need of a fair rents court in Toronto as a means of coping with the rent increase. He did not believe that all landlords were guilty of attempting to get into the game of profiteering, but there could be no doubt that the law was such today as to permit of profiteering when opportunity was given. It was this class of landlord, said Mr. Higgins who needed control.

In the course of his address the soldier-labor candidate pointed to the need of a better system of fuel control than the present. He advocated a system of control at the borders where a scheme of equitable distribution could be inaugurated on a pro rata basis, so much to householders, so much to factories, and so much to other concerns needing the coal. He was convinced, he said, that this was a matter which could be so controlled as to give equitable distribution, and distribution where most needed.

John Doggett, secretary of the building trades council of Toronto, in a strong appeal, outlined the history of the labor movement from the days when it was rather dangerous and always unpleasant to be a trade unionist. Times had changed. Today trades unionism was so much in the ascendancy that millions of men and women in both Europe and America were proud to belong to the club. But, there was more at stake in Canada today, and that was the problem of labor representation in the provincial and federal legislatures. This was the problem of the present campaign in Northeast Toronto.

John Cottam, following in the vein suggested by Mr. Doggett, pointed out that labor stood for the betterment of conditions surrounding workingmen and working women, for better pensions, for free education and for easier opportunity for all children to receive university education, and for those amendments to the Workmen's Compensation Act which would give a working man or woman a chance to fight against either injury or disease gained through employment.

Other speakers were J. Fred Marsh and Rupert Whalley.

### TO SCRUTINIZE FEE FOR ANTI-HYDRO COUNSEL

Just before the Hydro meeting in the city hall closed yesterday Mayor McBride, M.L.A. of Brantford, asked Secretary T. J. Hannigan whether he could throw any light on the question of the appointment of R. S. Robertson as a counsel for the non-radical municipalities before the radial enquiry commission.

Mr. Hannigan said he understood the government was paying the fee, but he had made enquiries as to who was responsible for the appointment, and he believed the municipalities were not guilty.

Mr. McBride replied that as a member of the house he knew no funds had been voted for such a purpose and he could promise that any expenditures of that nature authorized by order-in-council would be very carefully scrutinized when placed before the house for approval.

### Wrangle's Mother Destitute; Is Anxious to Join Her Son

She was cared for by the Red Cross and furnished with money and supplies. Madame Wrangle is anxious to join her son in South Russia.

### "EARTHBOUND" IS ARTISTIC PICTURE

#### Wonderful Photography and Realistic Nature of Setting — Story Little Illogical.

"Earthbound," the screen drama in wonderful photography that had its first showing in Toronto at Massey Hall yesterday, attracted principally because of the exceptional character of the art shown in its production and in the realistic nature of the setting. The acting, too, is without flaw, and the plot is carried to a happy conclusion. It has, however, a weak spot which reveals itself as the picture unfolds before the audience.

Basil King's "unusual movie," as it has been called, deals with the lives of those who set out with the philosophy of "No God, no sin, no future life." Jim and Dick were two men whose friendship was turned into bitter hate, which ended in the killing of one by the other, because the man killed had won the love of the woman who was the object of their affection. The new phase is introduced when the spirit of the dead man is seen hovering about his old associates, during the trial and in the various episodes succeeding his death. The wives of the two men—one now a widow and the other the woman who had drawn the dead man from his allegiance—meet in a church, when the widow points to the crucifix and says: "The only help for you and me is there." Up to this point the story is logical; the weakness arises when the spirit of the man who, the dead, is still bound to earth by his affection for sin, comes under the influence of a minister, who after a struggle induces the spirit of the dead to turn to better things. Christianity, symbolized by the cross, never teaches that conversion is possible after death, and to mix the idea of reincarnation with Christianity is something incongruous.

The story ends with a meeting between the deserted wife and the shade of her husband, who, when she tells him she forgives, answers there is something more than forgiveness wanted for happiness, and that is love. This also she freely promises, and she bids him go upwards, the closing scene being a beautiful setting in white marble, a cross in the distance and the kneeling figure of the woman watching the spirit of her husband as he ascends the hill, supported by her forgiveness and love.

### SUGGEST CENOTAPH FOR ARMISTICE DAY

The I.O.D.E. and other women's organizations in the city are anxious to pay tribute on Armistice Day, Nov. 11, to heroic soldiers of Toronto. They suggest the erecting of even a temporary central cenotaph, at which flowers could be placed and afterwards sent to the different hospitals and local cemeteries here where heroes are buried.

Mrs. Jackson, regent of Municipal Chapter, whose one son was killed and other lost a leg, made this suggestion yesterday. Ottawa is doing so, and Winnipeg has erected one permanently.

Mr. Chisholm and the mayor are taking the matter up, and it will take place, if possible, either in front of the city hall or in front of the South African monument, University avenue.

### FRES MERCHANT FROM TAKING OUT LICENSES

W. C. Miller, secretary of the Toronto branch of the Retail Merchants' Association of Canada, has received a telegram from the Ottawa branch of the association, stating that following representations made to it the government has decided not to ask retail merchants to take manufacturers' licenses or pay manufacturers' tax of two per cent. This affects merchant tailors, furriers and milliners, etc.

### ARRANGE CONFERENCE ON VIADUCT QUESTION

The railways' proposals for grade separation and the opening of the new Union Station and the harbor commission's alternative plans will be discussed.

### WRITE TO COMPEL SALE.

Veneer and Box Co. have entered a writ at Osgoode Hall against Samuel McNair, Cornelius Maguire and Laura Jackson to have a fifty-foot strip of property running from front to rear of lot 16 on the south side of Rochester street, which was deeded to Laura Jackson by McNair and Maguire, sold to pay the debts owing to Veneer and Box. They claim that the transfer to Laura Jackson was fraudulent and void against the creditors of S. McNair.

This Irish clergyman has a commission from the General Assembly of the Presbyterian Church in Canada to tell the people of this country that the end of Ireland's woes was now in sight, the American people having served notice on the agitators that they did not want to meddle in an affair that was Britain's own business.

### MUST ENFORCE ACT OR BE DISMISSED

#### Attorney - General Makes Clear Duty of Provincial Police.

The partial report of the statement made yesterday by Mr. Rogers, superintendent of provincial police, before the Ontario Temperance Act Committee, said Attorney General Raney yesterday, "does not correctly express either the attitude of the department or his own views on the subject of the relation of the provincial police to the enforcement of the act."

"It is the duty of every provincial officer to enforce all the laws of the province, Dominion or provincial. There is no exception whatever and officers will be held strictly to this obligation. If any officer is not willing to enforce the Ontario Temperance Act his resignation will be promptly accepted. This was made abundantly clear by a circular issued on July 9th inst., which read as follows:

"It has been reported to the government that some constables on the force refuse to act in matters under the Ontario Temperance Act, and have stated that they were instructed by the superintendent not to. If any constable has made such a statement he knows such a statement is false; as positive instructions have from time to time been sent to strictly enforce the act and to prosecute any person found violating the same, and should you receive any information as to the act being violated at any point distant to your headquarters to at once notify the license inspector, keeping a copy of your notification to him, which must be returned to me with your weekly reports.

"Should the inspector require your assistance to accompany him in connection with the enforcing of the act, you will at once comply, and enter same in your report."

"Any constable violating the order will be dismissed from the force."

### HIGHER PHONE RATES HIT METHODIST CHURCH

The Methodist Book and Publishing House has conducted a careful investigation into the proposed increases by the Bell Telephone Company, and find their cost will be 309 1-2 per cent. more than the present rate.

"We call it a toll proposition, and in our investigation secured the actual incoming, outgoing and calls for each unit," stated Mr. Kirby yesterday. "The increase cost will be so tremendous that we are considering the advisability of placing telephones in central locations, doing away with the phone in local departments."

"With an increase of 309 1-2 per cent. over our present charges, we will have to cut the system in two."

### LAW STUDENTS ELECT EXECUTIVE OF CLASS

At a meeting of the first year law students a class executive was elected. This is wholly without precedent in the history of Osgoode Hall. The platform of those elected was "Sports and more social activities for Osgoode." The successful candidates are: President, A. C. Dunbar; first vice-president, Miss Lorna Wilson; second vice-president, W. B. Common; secretary-treasurer, George E. Parkinson.

### YEAR AND LASHES FOR ASSAULTING YOUNG GIRL

"Nothing would please me better than to be able to order the father of the young girl to take the hide off you with a horsewhip, but since I can't do that, I will impose the lightest sentence I can see in view of the strong recommendation to mercy made by the jury," said Mr. Justice Onda. The assizes yesterday, as he sentenced Norman Bell, convicted of an indecent assault on a 15-year-old girl, to one year at the provincial farm and ten lashes.

Bell was charged with rape, but the jury convicted him of the minor charge, and added a very strong recommendation to mercy. R. H. Lennox, K.C., his lawyer, appealed for a light sentence out of sympathy for Bell's invalid mother, but the court said the offence had been aggravated by the youth of the girl.

### KIWANIS CLUB FAVORS NEW DETENTION HOME

At the luncheon yesterday of the Toronto Kiwanis Club, held in the King Edward Hotel, a resolution was unanimously passed which will be sent to the city council, favoring a modern detention home in connection with the juvenile court for delinquents. An appeal was made for the members to place as many disabled soldiers in positions as possible.

An aggressive child welfare program is being taken up internationally.

CONDEMN RAISING OF RELIGIOUS ISSUE

Some Sharp Criticisms Made at Kippen Meeting in the Masonic Temple.

At a well-attended Liberal meeting held last night at the Masonic Temple, to further the candidature of Major Kippen, the Liberal candidate, the greater part of the speeches was taken up in criticizing the campaign of an evening newspaper in favor of the Conservative nominee.

Col. A. E. Kirkpatrick said the province was sick of the seasoned politician and wanted young, clean-cut men in the legislature. He claimed that there must be something wrong with the Conservative party as they were making "such a devil of a fight to win the seat."

Dr. George A. Bingham, in referring to an article in an evening paper, said: "God help the man or paper trying to inject religious strife into politics in Ontario at this critical period of our existence."

Major Kippen declared he was prepared to support Mr. Hartley Dewar until such time as the people of Ontario showed him a better leader. Major Lewis, he declared, was not the real candidate of the Conservatives of Northwest Toronto, but the candidate of The Telegram.

Major Kippen denied that G. M. Reid, of London, had anything to do with his campaign. Mr. Reid, he said, had not been in politics for ten years, and he believed he did not approve of his (the major) running as a candidate.

Lieut.-Col. Burton, who went to England in command of the hantam battalion, made a violent attack on Major Lewis, who he said, had been switched on to him by the government. Colonel Burton said he was a Conservative, and had taken the chair at Capt. Joe Thompson's meetings, but in the present election he was going to vote for Major Kippen.

A voice from the gallery told him he ought to be a Labor candidate as he had changed his coat, to which the colonel retorted he employed a lot of labor and it would vote as he told it. (Laughter.)

Among the other speakers were, H. Hartley Dewar and Dr. Augustus Stowe-Gullen.

F. W. HAYDEN GAVE DELIGHTFUL READING

An evening with Lord Dunsany, soldier, dramatist and poet, was the subject of a very delightful program given at Forcesters' Hall last night by F. W. Hayden assisted by Marjorie Latimer. Mr. Hayden prefaced readings from Dunsany by a brief account of the man himself, a prominent feature of whose make-up was his love of beauty and his attachment to imagination. "Imagination is the man" was one of his statements. That this quality is strongly prominent was shown in the selections read, among which were the "Blagdaros," the "Songs of the Country" and "The Hen." Bringing the material up to date were "Aras Cathedral" and the "Master of No Man's Land." Mr. Hayden gave a fine interpretation in which the humorous points were well depicted.

FUR SALE OPENS AT DINEEN'S.

Well-Known Toronto House Offers Seasonable Goods at Tempting Prices. Just one big knock does opportunity give in a season. Today is the time to listen for the ever-welcome signal. Every woman wants fur and she wants the best to be had for the lowest possible price. This is what is promised by the great sale which opens this morning at Dineen's, the old reliable firm whose name stands for the first and best in every department of the peltry business. As Ford was the first to lower the price of his cars, so the Dineen Company believe they are the first to establish definitely the new lower prices. Weather conditions have had a good deal to do with the move, yet optimism prevails and it is expected that the sale will go with a swing when "high quality maintained, low prices retained," is taken as the slogan. Go into Dineen's, 140 Yonge street, and see for yourself.

HARDING PROMISES NEW ASSOCIATION

New Administration Will See That Nation Plays Its Part.

Marion, Ohio, Nov. 4.—Making his first speech as president-elect, Warren G. Harding declared at an election celebration of home-lovers here tonight that the Versailles League of Nations was "now deceased" altho the new administration intended to see that the nation played its part in a new international association founded on peace and justice.

The celebration, in which many from other Ohio cities joined, was characterized by all the carnival features of an old-time political rally. In his short talk the president-elect touched on no other issues of the campaign, but thanked the crowd for its tribute and asked that he go to Washington "with your good wishes, your confidence and your prayers."

"It's a solemn responsibility," he said, "and when I am thru I want to be able to come back and be one of you again, the same as I am now. I like to stand before you and tell you I don't come with a single apology or regret."

MISS SUTHERLAND STILL UNCONSCIOUS

FRIDAY MORNING, NOVEMBER 5.

A Wonderful Somersault.

A few days ago The World ventured to predict that Harding's election would make the Canadian free traders sit up.

It arrives at this conclusion by assuming that congress will be unable to meet in extra session next spring because it has not yet recovered from the peace treaty session of last summer.

It is scarcely likely, however, that congress will be asked to spend the summer of 1921 grilling in Washington so that the passage of the new Republican tariff may be expedited.

Everyone knows that the Republican victory was a victory for protection. Rightly or wrongly the farmers of the western states are demanding a higher tariff.

I promised you a measure of protection against the importation of agricultural products from Canada, but you will have to wait a year or two because I learn from The Toronto Globe that we are likely to have hot weather this summer in Washington.

Of course, there will be a session of the new congress called in April to deal with the tariff, and we may as well face that situation. The Globe faces it blithely, and says in effect that it does not care what Harding does with his old tariff.

Shades of Sir Wilfrid Laurier defend us! Can this be The Globe that for forty years has screamed, screeched, bellowed and howled for access to the American market?

Another dose of McKinleyism will give a jolt not only to Canadian free traders, but to business of all kinds on both sides of the border.

Well, it is at least a consolation to learn on the authority of The Globe that the American market is merely a myth. We long ago learned on the same authority that the home market was a myth.

No one can fairly criticize the United States for not entering the league of nations. She has a perfect right to stay in or stay out.

Senate does not ratify as a matter of course. The late President McKinley had an absolutely free hand in dealing with Spain after the Spanish-American war.

President Wilson, on the other hand, took nobody into his confidence. He reduced his minister of foreign affairs to the rank of a bell boy.

It will be embarrassing to have the United States conclude a separate treaty with Germany, to withdraw her troops from German soil, and separate herself to some extent from her former allies.

It seems there are still some people in Scotland who do not want prohibition in any form, despite Pussfoot Johnson's remarks to the contrary.

Ex-Empress Wilhelm has received nearly \$3,000,000 since he went to reside in Holland. Perhaps Germany will continue to pay him for staying away.

English congregationalist brides need no longer promise to obey their husbands. Most of the others might as well leave it out, too, saying a married man of our acquaintance.

The continued rush of the candidates in Northeast Toronto to discuss the Ontario coal situation and to suggest definite remedies would lead one to suppose that no Toronto homes were at present threatened with a needless winter.

OTHER PEOPLE'S OPINIONS

The World will gladly print under this head letters written by our readers, dealing with current topics.

THE HOUSE 'ROUND THE CORNER

By GORDON HOLMES

CHAPTER XIV (continued)

"God bless my soul!" he cried, advancing with outstretched hand. "Baluchi Bob! The last man breathing I ever expected to see in Elmdale! Did the monsoon break earlier than usual this year, or what wind of heaven blew you here?"

"Hullo, Barker!" cried Armatwaite, hailing him with manifest pleasure. "I didn't know you had pitched your tent in these parts!"

"Quite true. But you know I came a cropper in India, and I was a bit tired of the stum and drang of existence, so I had me to cover under my mother's maiden name. I suppose I have a sort of right to it, tho' it doesn't seem to have proved altogether successful as a cloak."

"By gad! I can hardly agree with you there. I fear as things are a purser over wire when I saw Baluchi Bob dropping off that bicycle. Great Scott! You on a bike! How have the mighty fallen! I'll lend you a hack till you collect a few useful screws, unless you're bitten by this new craze for rushing about the country in a gas-tank. And won't Mollie be glad to see you! It was only the other day she was talking about the Pap, and sayin' that if it hadn't been for you—"

"Oh, tell Mollie to forget that old tale, or she'll make me nervous!" Each word exchanged between the two was heard distinctly by the others, and such is the queer way in which the affairs of life sometimes take an unexpected twist, there was a marked and instant change of attitude on the part of three men, at least, who had come to Elmdale that day prepared to treat the Grange's new tenant as a potential criminal.

Fraud in New York Election. For Sir Berkeley Hutton was a county magistrate, chairman of the Nuttonty bench, an alderman of the county council, a deputy lieutenant, and goodness knows what else of a power in civic and social circles, and here was he hailing this stranger as an intimate friend, being himself greeted by the nickname earned by a loud and strident utterance which never failed, speaking of Lady Hutton as "Mollie" of his eldest son as "the Pup," County police and county editors must be chary of accepting the evidence of James Walkers and Tom Blands against the guarantee of such a man, or they may get their corns trodden on most painfully.

All at once, Sir Berkeley Hutton seemed to recollect the talk which had been going on outside the locked and barred gate, for Begonia Smith and his henchmen had refused to pass anyone but the doctor and nurse, who were with their patient at that moment.

"I say, Bob," he went on, in a thunderous whisper quite as audible as his ordinary voice, "I'm devilish glad it's you—I am, 'pon my soul—because some of these chaps have been spinnin' the queerest sort of yarn, in which a murder, a suicide, a ghost, and a pretty girl are mixed up in fine style. Just tell 'em all to go to blazes, will you?—except Dobb. Dobb's a decent fellow, and he acted for the people who used to live here—Elli! Dobb! This is—"

"Then it dawned on him that his friend might wish still to preserve him anonymity save in the sacred circle of the elect, so he broke off into "Come along, Dobb! I want you to meet one of the best fellows who ever wore shoe-leather!"

"Dobb advanced. With him came a gentleman who was as unknown to Nuttonty as Armatwaite himself. Beside the solicitor, could speak, his companion said quietly: "Sir Robert Dalrymple, I believe?"

"Yes," and Marguerite's "chosen mate" looked him very searchingly and squarely in the eyes. "My name is Morand," said the other, "I am sent here by the India office to see you—be glanced around in momentary hesitation.

"Pray, go on," said Dalrymple, as Armatwaite must be described henceforth. "There is nothing that the India office has sent to communicate which I am not willing that all the world should hear."

"Happily, Sir Robert, this is a communication which all the world ought to hear," the Maharajah of Benarajee is dead. He was assassinated last Monday while driving thru the bazaar. His prime minister, Chulwar Singh, was with him, and was mortally wounded at the time.

"That is the view now held by the government," was the grave answer. "A death-bed conversion of a sort," commented his hearer dryly.

### SPAN OF LIFE LONGER NOW

We are living longer now and life insurance companies, whose profits depend entirely upon the hardest kind of statistics, will, today, do more for us than they would have for our grandfathers. All the great corporations, which take risks upon the duration of mortal life have been steadily removing one restriction upon another. One curious point which is shown in insurance tables is that those organic diseases which are so frequent in middle-life develop every period from five to ten years later than they did fifty years ago. Medical science has, of course, done a lot for the race in the way of lengthening human life, but the sanitary science which has done more, Zymotic or infectious diseases are being slowly but steadily conquered by improved water supply, drainage and housing. Excessive heat and excessive cold are equally prejudicial to long life. In Iceland and in India alike severity is extreme old age, and few attain to it.

Godding of Murray Harbour, president of the Central Farmers Institute. Urges Less Import Duty. Mr. Lee said that as mixed farming prevails on the island, a great variety of agricultural implements were required. The duty on these should be reduced, in order to increase production. As the island has very few manufacturing industries, the duty of encouraging home industries, as goods have to be purchased elsewhere.

### BRANTFORD LABOR LIKES FIREMEN ACT

Vote Against Alteration of Legislation Giving One Day Off in Seven. Brantford, Ont., Nov. 4.—(Special)—The Trades and Labor Council has gone on record against any repeal of the act calling for every fireman to be given one day off in seven, tho' the local firemen have expressed themselves as well content with the double platoon system, alternating each week, thus giving each fireman twelve hours a day and twelve hours night duty in succession. The council also filed a protest against the deprivation of the C.N.R. employes to engage in political affairs. At the chamber of commerce this evening, Ronald Hooper, honorary secretary of the Proportional Representation Society of Canada, delivered an address in which he explained the workings of the plan and emphasized its advantages in giving representation according to voting strength. ### Ontario Officials Report On Labor Situation

Kingston, Ont., Nov. 4.—(Special)—H. C. Hudson, Toronto; L. Green, Belleville, and C. S. Hamilton, Nov. 4.—Changes with respect to the plans for the proposed Lottridge street school were considered by the building committee of the board of education this evening. They were of a minor nature and will not affect the tenders, which are expected to be passed upon in the very near future. Building operations will not be commenced. It was announced, until after the city council sanctioned the spending of the money, in view of the fact that last year when this was done in connection with another school some difficulty was experienced in securing the money. THE IDENTIFICATION. "Where is your father's little boy?" asked the insurance agent calling at the back door. "Where's your father's little boy?" said the boy curdly. "You can go and find him." And he added, as an afterthought, "You'll know father's got a fat on."

## RAVAGES OF COMMON COLDS ARE APPALLING

Is Most Prevalent of All Diseases and Causes More Death, Suffering and Decreased Efficiency Than All Wars and Epidemics. COLDS ARE CURABLE AND PREVENTABLE. Instead of Being Treated as Trivial Affections, Colds Must Be Recognized as a Serious Menace to Health.

The common "cold" is the most prevalent of all present day diseases and although vital statistics do not record the sum total of its ravages, leading authorities now state that the common, every-day "cold" is responsible for more deaths, suffering, inconvenience, loss from work and decreased efficiency than all wars and other epidemics. The word "cold" means an acute infection of the lining membrane of the nose, throat, tonsils and larger bronchial tubes. The "cold" may be even more extensive and amount to a general infection of the entire body. All of the breathing apparatus, excepting the smaller portion of the lungs, may become involved and as a matter of fact the disease may, and often does, spread to these, thus producing Pneumonia. Vital statistics show that Pneumonia kills more people than any other disease, excepting Tuberculosis and Heart Disease. Many cases of Pneumonia begin as common colds, which have been neglected. Persons of hereditary tubercular tendency should guard against colds and should take proper measures to stop their progress with the first symptoms. It is evident, therefore, that instead of being a trivial affection, the common "cold" must be classed as a serious menace to public health. Asprolox, the new scientific cold remedy which has been accomplishing such remarkable results, probably provides the safest, surest and quickest, as well as the most practical, treatment for colds yet discovered. This new remedy, according to the statements of the thousands who have used it, is almost magical in its effect. The first dose usually stops the tendency to sneezing and coughing and relieves the feeling of discomfort and the second and third dose usually suffice to stop the progress of a fresh cold altogether. Only one bottle is generally sufficient to break up the most obstinate cold, no matter of how long standing. The great superiority of Asprolox over the ordinary treatment heretofore prescribed is due to the fact that it is a combination treatment and acts as an antipyretic, expectorant, laxative and antiseptic, thereby removing the cause, while many other remedies relieve the symptoms only momentarily. All druggists have been instructed to refund money in every case where it fails to give satisfactory results after three doses have been taken.

### KITCHENER DRIVER COMMITTED FOR TRIAL

Motorist is Formally Charged With Criminal Negligence—His Motor Killed Pedestrian. Kitchen, Ont., Nov. 4.—(Special)—Russell Hahn, was formally charged with criminal negligence in police court today and committed for trial by Magistrate Weir in connection with the death of Albert McGruther, who was killed on Saturday night by a motor car driven by Hahn. The defendant was allowed out on \$1,000 bail. Hahn was originally charged with manslaughter, but the crown reduced the charge. O. T. A. Reid on Hotel. License Inspector Kinkann of this city reports a second raid on the hotel at Breslau, in which, assisted by Inspector Elliott, of Stratford, and Chief Wilson, of Hespeeler, he found booze hidden in a sewing machine. The bartender also surrendered a bottle of whisky which he was carrying on his hip. A Schwartz, the proprietor, will be arranged on a second offence charge.

A GOOD WORD FOR THE DEVIL. An old Scottish woman always had a good word to say for everybody. One day a friend said, "Jane, I believe you would find something good to say of the devil himself." "Yes," remarked Janet, "he's a very industrious boy."

### THIRD SAFE STOLEN HAS BEEN LOCATED

(Continued From Page 1). Mine's Hollow, and had got the 400-pound safe taken from the United Cigar Store branch at the corner of Richmond and Bay streets, rifled. It seems another safe, some nights ago, was also found off the Don road, adjacent to Donlands. Quite a queer crop for a simple milk farm. The robbers must have known the locality. Series of Raids. The cigar store robbers are a smart band, operating with a motor car, and since last Monday they have broken into no less than six of these United shops, and out of three of them have safely got away with the safe. On Monday night the gang broke into the store at the corner of Church and Queen streets, and removed the safe, on Wednesday night they did a double turn, by entering the store at the corner of Spadina avenue and Queen street, and the shop at the corner of Bay and Richmond streets, and in both cases got away with the safe. In the case of the other stores entered, the thieves were evidently frightened away as they left with only a few pipes and boxes of cigars. As all the stores of the company are on main, well lighted streets it is evident that the thieves are a daring gang, and that the police protection in the streets at night is not sufficient for the safety of property. Four or More in Gang. From enquiries made by The World yesterday it appears that there must be at least four men in the thieving gang. Mr. Gardner of the United Cigar Stores said that it would take as a minimum, three men to shift a safe from the store to a motor car, and it would take some time to convey it from store to the roadway. This very fact shows that the thieves must know the police routine pretty well as they seem to make their raid on a store when the constable on duty is at the far end of the beat. They nearly miscalculated this time, however, in their burglary of the Bay street store. Just as they were ready to start down with the safe in the car, P. C. Kydon came along. He fired two shots after them, but the car was out of sight before he could obtain any further assistance. The entrance to all the stores has been obtained in the same manner—a crowbar has been used to force the front door open and then, as any one knowing the layout of the stores is aware, the way is easy to the street. The police, under Detective Inspector Guthrie, on inquiring into the case, believe the gang are some smart Yanks, and that they are operating from some neighboring town or village. At present the authorities have no clue to work upon. All the safes and their contents were insured, but the company do not care to make public the exact amount stolen in actual cash.

MARKET DEMORALIZED FOR PAPERS AND SUGAR

Semi-demoralization struck the Montreal market again yesterday and set a silver thru the Toronto Stock Exchange. In that speculation here has been highly modest compared to the eastern market, local speculators were not much perturbed.

It had been anticipated that the sharp decline in sugar and the papers would induce some demand for the weakest shares, but yesterday's market dispelled this idea, and floor traders helped prices down to their own advantage.

COUNTRY OFFERINGS OF WHEAT LARGER

Material Setback in Price in Chicago—More Canadian Wheat Arrives.

Chicago, Nov. 4.—Wheat underwent a material setback in price today, owing more or less to talk that country offerings were larger. The market closed nervous, 3 1/2 to 5 1/2 net lower, with December \$2.00 1/2 to \$2.01, and March \$1.94 1/2 to \$1.95. Corn finished down to 5 1/2 up; oats off 1/2 to 3/4, and provisions varied from the decline to an advance. Downward for wheat values began as soon as trading opened, and it was said a house with southwestern country wheat was short of contracts for rural offerings. Bears put stress on quotations that wheat was still relatively high as compared with other grain and with commodities in general. Lack of any sign of important new export business counted further as handicap on the bulls. Meanwhile, considerable notice was taken of the fact that Canadian wheat is being unloaded for waterway shipment to the west coast, and that it is being sold at a minimum, except from shorts covering profits. Scarcities of local market strengthening effect on the price of December corn. Otherwise quotations were governed mainly by the action of wheat. Oats were easier. Liberal shipments helped to steady provisions.

MONTREAL PRODUCE MARKET

Montreal, Nov. 4.—On account of the heavy fog in the wheat option market today the local market showed a decline in prices for cash grain of from 1/2 to 3/4 a bushel. An easier feeling from the local market developed in the spring wheat flour market. Prices of milled wheat were steady. The egg market is steady and a strong feeling of advance in the potato market with prices up 25 cents. Trade in butter is strong and demand is for local produce.
