JAP. CABINET MEMBERS RESIGN

Two Quit on Account of Government's Emigration Policy and Financial Economy. Washington Thinks Change May Delay Negotiations Now Pending Over Exclusion of Coolie Labor.

Tokio, Jan. 14.—Toshio Sakata, minister of finance, and Isaburo Yamagata, minister of communications, have resigned from the cabinet. Their resignations have been accepted. The resignation of Marquis Saionji, the prime minister, has been refused.

A conference of the cabinet members was held this morning. Marquis Saionji, the prime minister, visited the emperor at the palace this afternoon. He was quickly followed by Prince Ito. It is understood that differences exist over the budget which are irreconcilable.

GEO. W. ALLEN, M. P. P. SHOOTS HIMSELF

Prominent York County Barrister is in Critical Condition and May Not Recover.

FREDERICTON, N. B., Jan. 15.—(Special)—George W. Allen, the well known barrister and M. P. P. for York, shot himself at his home shortly after one o'clock today. He is in a very critical condition. Further details are not procurable at present.

Mrs. J. M. Lusby

AMHERST, N. S., Jan. 15.—(Special)—Citizens in general were surprised this morning to hear of the very sudden death, during the night, of Mrs. J. M. Lusby, widow of J. M. Lusby, of Chapman Brook. A short time ago Mrs. Lusby met with a slight accident to her ankle, which has confined her to her house until within the past few days, when she has been able to be out. Her general health was not as affected as the nature of her death was a shock. Heart trouble was the cause of death. The deceased was 43 years of age, and before marriage was Miss Seaman, of Port Hope, this county. She had a host of friends and was very popular. Much sympathy is felt for Mr. Lusby.

Rev. Thomas Pierce of Florenceville conducted the services at the funeral of Edward Allingham yesterday. Mr. Perry, as published.

President Lithgow Gives Crescents and Capitals Permission To Play Tonight.

FREDERICTON, Jan. 15.—(Special)—The atmosphere in local hockey circles has been cleared somewhat as a result of the meeting of the league executive, and no further trouble is anticipated. President Allen this morning had a conversation over the long distance telephone with President Lithgow and notified him of the action taken by the executive. Mr. Lithgow expressed himself as satisfied that the recommendation of the league that all the players of the Capitals and Crescents should be reinstated would be accepted by the M. P. A. A.

A SMALL BURGLARY

A break was made in Hogan's grocery corner of Wall Street and Paradise Row Saturday night and about two dollars worth of stuff stolen.

STUNG AGAIN.

Some newspapers, just like some people, have all sorts of bad luck. Now, there was the St. John Star. Last evening it had a long article about a threatened ice famine. This morning the Star men were kept busy pulling the ice out of their whippers. Gee! but it was cold.

A SLIGHT COLD.

That general gentleman Moore went over the Central—of course. When asked if he'd buy. He winked with his eye.

And said so much talk made him hoarse.

BODIES WERE AGGED LIKE UNCLAIMED BAGGAGE, THEN PILED INTO SCHOOL HOUSE

Only Accommodation Available for Victims of the Boyertown Opera House Disaster—Details of Tragedy Become More Awful As Complete Story Is Gradually Unfolded.

BOYERTOWN, Pa., Jan. 15.—With the opening of the four improvised morgues in which the victims of Monday night's holocaust in this little village began to realize the awful extent of the tragedy, the hand of sorrow has touched probably every family in the town and in neighboring villages. Where families were not directly affected by the terrible panic and fire through the loss of relatives they were mourning for lost friends or acquaintances. The gruesome scenes following the disaster bring a shudder to the stoutest hearts, and many of the thousands who have come as curiosity seekers have gone away declaring they never want to witness another sight like it.

The four buildings used as morgues contain 162 bodies. The three undertaking establishments in the borough were too small to accommodate the large number of victims so the borough officials decided to use the high school. Undertakers, from surrounding towns, were pressed into service to care for the bodies as they arrived from the ruins. The most horrid task of a morgue is to identify the bodies with the corpses and to lay out articles of jewelry or clothing that might have been on the person. Undertakers, from surrounding towns, were pressed into service to care for the bodies as they arrived from the ruins. The most horrid task of a morgue is to identify the bodies with the corpses and to lay out articles of jewelry or clothing that might have been on the person.

Henry W. Fischer, of Carlisle, Pa., operator of the calcium light which was the original cause of the terrible disaster, was severely burned, he said. The accident to the calcium light was caused by a cap on one of the tanks blowing out. This caused a sharp report and flash which started the people in the audience. I stuck to my apparatus and finally got the leak repaired and succeeded in quieting the alarmed people. Just as I had them lined, the foolish action of some thoroughly frightened person on the stage caused the overturning of the footlights and the consequent spread of the flames which nothing could avoid. Not until then did I desert my post and seek my own safety in flight.

WITNESSES SWEAR THAW WAS "QUEER"

Strong Evidence To Support the Insanity Plea Adduced in Thaw Case Today.

NEW YORK, Jan. 15.—Dr. Horatio C. Wood, of Philadelphia, was called to the stand as the first witness in the Thaw case today. Dr. Wood was sworn in and made an examination of Harry Alton Thaw, a relative of the defendant. District Attorney Jerome objected to the physician's testimony but it was overruled by the court as the relation of attending physician and patient did not exist in this case. Dr. Wood said that Miss Thaw was of unsound mind.

J. R. BOOTH WINS

Ottawa Railway and Lumber King Gets Verdict in Case Involving Large Sum.

TORONTO, Ont., Jan. 15.—(Special)—Justice Mabee yesterday afternoon delivered judgment in the case of Sprague vs. Booth, dismissing the action, and allowing Defendant Booth the costs asked for. The action, which was tried without jury at Ottawa, was to recover from J. R. Booth a \$200,000 deposit made by Sprague's assignor upon the contract and \$200,000 damages for breach of contract.

SAYS THEY SHOULD STAY HOME IN EAST

HONOLULU, Jan. 15.—A local Jap. newspaper carries an interview with Viscount Aoki, Japanese ambassador to America, in which Viscount Aoki is quoted as follows:—"I do not approve of manual laborers going to America. They cannot expect Japan's long isolation to establish themselves in a western country. Destiny and opportunity are in Asia, Korea and Manchuria."

MONTEAL WILL ESTABLISH TRANSPORTATION BUREAU

MONTEAL, Que., Jan. 15.—(Special)—A transportation bureau estimated to cost \$5,000 per annum will be established by the Montreal board of trade. An expert in such matters will be employed to advise subscribers. Since the creation of the railway commission it is claimed other cities principally in the west have secured advantages in rates over Montreal by the day following Christmas and returned to find that he had been sold out by his landlord.

IRISH REGALIA IS SAFE

LONDON, Jan. 15.—The Tribune hears from a source which it regards as trustworthy, that the missing Irish regalia is safe and intact for a large ransom and a guarantee of immunity from punishment. It says that the mystery of disappearance can, however, only be solved by a public enquiry, which would reveal amazing and romantic features.

INSPECTED HARBOR AND FACILITIES

F. W. Morse, of Grand Trunk Pacific, and Party Shown About the City Today.

F. W. Morse, general manager of the Grand Trunk Pacific Railway, and H. A. Woods, assistant chief engineer of the road, who arrived in the city last evening after a trip of inspection over the Central Railway, spent this morning in looking over the terminal facilities here, and the city and harbor generally, with a view to the future extension of the G. T. P. line to this port. The visitors were accompanied by Thomas McAl Stewart, who acted as their guide in the absence of George McAvity, who was confined to the house with a severe cold.

SNEAK THIEF WAS CAUGHT

Man Operating During Auction Sale in Horace King's House Captured and Relieved of Booty.

While Auctioneer Lantaulum was selling at the corner of Duke and Germain streets a well dressed man, a stranger in this city, was detected by Mr. King lifting small articles and putting them in his pocket. When asked to give the things up, he denied having anything in his pockets and made a dash for the door, but was caught and held by Mr. King and some other men who held the door. The thief would not empty his pocket but Mr. King went through his garments and found hair brushes and other small articles. If there was a policeman within hailing distance the bold thief would have been given in charge.

Smallpox Scare At Waterside, Albert County, Proves To Be Unfounded.

ALBERT, Jan. 15.—(Special)—The small pox scare at Waterside, Albert county, did not materialize. Dr. Carworth was called to Waterside on the report that several members of a family named Hendon were ill with the dread disease. On his arrival he found they were ill—but with chicken pox rather than the other and more dangerous disease.

Hayes—Stanton

A very pretty event took place this morning at St. Peter's church when Rev. Father Holland united in marriage, Miss Ruth, daughter of Annie and the late George Stanton of this city to William Hayes, of Upper Dorchester. The bride was given away by her brother George Stanton, who wore a gown of hand-brodered grey melrose cloth with silk net and lace trimmings and large picture hat of net and plumes to match. The bride carried a white prayer book. She was attended by her cousin, Miss Ethel Emery who wore pale blue crepe with trimmings of cream lace and large picture hat with plumes to match. She carried a bouquet of pink and white carnations. The groom was supported by Wm. Emery of this city. The groom's gift to the bride was a beautiful necklace with pendant of pearls and diamonds, and to the bridesmaid an amethyst necklace and to the groomsmen a diamond stickpin.

THE TIMES NEW REPORTER

Mr. BINKS was in great glee this morning. He informed the Times reporter that the provincial debt would be paid off next week by the sale of the Central Railway for five million dollars.

"I'd go a million," was the reply—"if I had it, and thought I could sell again."

"Which would still leave the provincial debt six or seven millions—wouldn't it?"

"I don't know. You'll have to ask an expert. Do you suppose it does?"

"Ask Mr. Morse," said the new reporter. "I did ask him, but he said he would have to consult an expert."

"The premier gave him that tip," said the new reporter. "This is the age of expert—debt experts, railroad experts, gas experts, ferry-boat experts—and Dr. Pugsley."

Mr. Binks said he thought so, too.

CITY GOVERNMENT

In connection with city government by commission it is claimed by some authorities that what is called the Des Moines plan is the most advanced system yet devised. For the benefit of its readers the Times gives a summary of this plan as set forth in full in an act passed by the legislature of Iowa. It is a law that applies to cities in that state having a population of 25,000 or more, and may be brought into operation by a vote of the people.

tions must be submitted to a vote of the people for approval. No officer or employee of the city, elected or appointed is permitted to be, either directly or indirectly, financially interested in any civic contract or one in which any public service corporation is interested.

An important provision of the act is that, in providing the ways and means by which a dishonest or incompetent mayor or councilman may be removed from office by a vote of the people. Still another section provides machinery by which, if the council refuses to pass a needed ordinance, the people can compel its passage.

INDUSTRIAL WAR

Conveying in his appearance the impression of youth and great mental alertness, Dr. Magill, who addressed the Canadian Club last evening, very quickly convinced his hearers of the fact that he was complete master of his subject, and of a method and style of expression at once pleasing and impressive.

While dealing with portions of his subject, Dr. Magill was the earnest professor speaking to his class, clearing up point after point as he proceeded; but when at the close he pictured the unequal distribution of wealth, and the millions in Great Britain who are, because of economic conditions, forever on the verge of absolute want, he became the eloquent advocate of a cause and his brilliant peroration has seldom been surpassed within the walls of the old building where so many orators have swayed the minds and hearts of the people.

Seldom do a group of speakers at a luncheon strike so uniformly high a note as did those at the Canadian Club luncheon last evening. The audience, it is true, was one to inspire a man to give of his best, and each of those called upon to say a few words rose to the occasion in a manner altogether creditable to themselves and pleasing to the audience.

The reception to Mr. Justice Landry at the Canadian Club luncheon last evening when he rose by request to say a word on the resolution to endorse the commission of Quebec battlefields has been very gratifying to the distinguished representative of the Acadians.

"If the G. T. P. comes into St. John," said Vice-Pres. Morse to the Sun last night. Why "If" Surely Dr. Pugsley could not have revised the Sun's report, or the little word would never have appeared in it.

EVEN LOVE FAILED. On the mighty deep. The great ocean liner rolled and pitched. The great ocean liner rolled and pitched. The great ocean liner rolled and pitched. "Henry," faltered the young bride, "do you still love me?"

"More than ever, darling!" was Henry's fervent answer. Then there was an eloquent silence. "Henry," she gasped, turning her pale, ghastly face away, "I thought that would make me feel better, but it doesn't!"--Chicago Tribune.

A DISTRESSING ACCIDENT. (Philadelphia Ledger.) "One stretched history day," said a Pittsburgh iron man, "I had a cap with carbide on when I met Mr. Carnegie on the street. He joked me about my ear-tabs. He told me a good Scotch ear-tab story. He said there was an old Scot who always used to curl--you know the game--in carbide, but one bitter day he appeared on the ice minus the tabs and a friend said: 'Hello, whar's yer said lug-warmers?'"

"Oh," was the reply, "I've never worn them since my accident."

"Accident? What accident?"

"A man offered me a drink, an' 'w' they dashed flaps I didn't hear him."

"AFT."

(From Harper's Weekly.)

There is a well known metropolitan editor who dislikes nothing more than superficial questions from his subordinates as to the conduct of their respective departments.

On one occasion, it is said, the telephone editor approached with this query: "Here's a story of a big landlady in the west. Under what head shall I put it?"

"You might throw it in with the real estate transfers," caustically suggested the "old man."

DISCIPLINE MUST BE OBSERVED. (From the Rochester Herald.)

A new volunteer, who had not yet quite learned his business, was on sentry duty one night when a friend brought him a pie from the canteen.

As he sat on the grass eating the pie the major snatched up an undertow. "The sentry not recognizing him, did not salute, and the major stopped and said: 'What's that you have there?'"

"Pie," said the sentry, good naturedly. "Apple pie. Have a bit?"

"The major frowned. 'Do you know who I am?'" he asked.

"No," said the sentry, "unless you're the major's groom."

"The major shook his head. 'Guess again,'" he growled. "The barber from the village?"

"No."

"Maybe," here the sentry laughed--"maybe you're the major himself?"

"That's right, I am the major," was the stern reply.

"The sentry scrambled to his feet. 'Good gracious!'" he exclaimed. "Hold the pie, will you, while I present arms!"

PEOPLE OF NOTE

Thomas Nelson Page, the creator of "Marse Chan" and "Colonel Carter," is a Virginian who has made a marked success in depicting the darkey of the Old Dominion before the War, and the chivalrous gentleman who fought for the cause of the Confederacy. Born on the Oakland Plantation in Hanover County, Virginia, on April 25th, 1853, Mr. Page was only a lad when the Civil War ended and the favorite characters of his pen began to slowly die out. He attended Washington and Lee University and later graduated from the Law Department of the University of Virginia. He practiced law in Richmond from 1875 until 1883. He has written many stories among his most famous being "Marse Chan," "In Old Virginia" and "Red Rock."

JUNK THIEVES ON THE I. C. R.

I. C. R. Police Have Been Quietly Investigating and One Railway Employee Has Been Suspended.

MONCTON, N. B. Jan. 15.-[Special]-I. C. R. goods, classed principally as junk, continue to disappear in some mysterious way.

A number of employees of the electric light department have been summoned to give evidence.

The employee suspended has been purchasing a quantity of copper wire, etc., from time to time from the I. C. R. but it is claimed his shipments are much larger than his purchases from the railway.

A claim had been made that the stealing of junk from the railway had been stopped, but it now appears the police have awakened to the fact there was nothing more than a suspension of operations and probably not even that.

PROF. MCGILL ADDRESSES THE CANADIAN CLUB, TAKING INDUSTRIAL WAR AS TOPIC

Very Able Address by Principal of Halifax Presbyterian College—Club Endorses Project for Plains of Abraham National Park.

Professor McGill, principal of the Presbyterian College, Halifax, delivered a most able address before the Canadian Club at Keith's assembly rooms last evening. Taking for his subject Industrial War, he outlined the methods adopted in various countries to meet the present strike and lockout situation. He spoke of the Canadian compulsory investigation act as one of the most advanced pieces of legislation on the subject and advocated with it the system of collective bargaining by which the organizations of masters and employes received mutual recognition.

After an excellent paper served by the King's Daughters' Guild the proceedings were opened by the chairman, who referred briefly to the loss sustained by the club by the death of Dr. William Bayard, W. S. Barker and George V. McNamee, E. C. On motion of Miss E. Agar, seconded by Dr. G. U. Hay, resolutions of sympathy were passed by a standing vote. The chairman referred to a communication from the secretary of the Canadian Club at Ottawa asking for an expression of opinion from the club on the proposed conversion of the Plains of Abraham into a national park. It had been suggested that Hon. William Papineau, Dr. J. W. Daniel, M. P., and S. D. Scott, three members of the club now in Ottawa, with the president, should be a committee to represent the St. John club at a meeting to be held in connection with the subject. Hon. O. N. Skinner then moved the following resolution:

Resolved, that the Canadian Club of St. John having in view the great benefit in an unusual sense that this historical event has caused and has continued the union of the French and English people hereby desires its approval of the movement inaugurated by the Governor General in his excellent and delicate the Plains of Abraham at the time of the men who fought and died upon these plains and whose memories whose names are illustrious in the annals of Canada.

In the course of his remarks in support of the resolution, Mr. Skinner spoke of the sentiment in which now the French and English together. He made some humorous references to his early military experiences near the celebrated spot. These created roars of laughter. Ald. J. B. M. Baxter seconded the resolution in an eloquent speech in which he dwelt on the unity of Canada and the sentiment which would be called forth by the dedication of a national park to the memory of the men who fought and died upon these plains and whose memories whose names are illustrious in the annals of Canada.

The resolution was carried unanimously. On motion of Rev. G. A. Kinnear the following committee was appointed to nominate and report at the next meeting the officers of the club for the ensuing year: W. E. Earle, Richard O'Brien, Rev. Lang, W. Hawker and H. B. Schofield. The chairman then briefly introduced Professor McGill, the speaker of the evening, who was given a most hearty reception.

In introducing his subject Professor McGill said the phrase Industrial War was used in both a general and a special sense. When spoken of in a general sense it meant the evolution of industrial problems as in the nineteenth century, when in a special sense it referred to strikes and lock-outs. So long as employees and wage earners were in negotiation there was no industrial war, but when negotiations were broken off and the masters appointed to the economic force of a lock-out, or the men went on strike, then industrial war began.

SPORTING

ALGONQUINS TRIM THE CRESCENTS

Champions Had no Trouble in Downing New Team Last Night.

The Algonquins basket ball team disposed of the Crescents last evening in an interesting game with a score of 32-21. The Indians did not work very hard but were able to roll up a large score, while the Crescents evaded matters at times. G. Emery refereed satisfactorily. The lineup was:

ALL MUST BE REINSTATED

The executive of the New Brunswick Hockey League met at 1 o'clock this morning in the Royal Hotel to take action as a committee appointed by the M. P. A. A. to inquire into the suspension and proposed reinstatement of the Fredrick Capitals and the Maryville Crescents. The meeting was at the late hour named because of the inability of some from outside points to reach here until after midnight.

The matter was fully enquired into and the executive finally decided to recommend that the Capitals and all players of the same be reinstated on taking the usual M. P. A. A. affidavit, this to be done in time for the game at the Victoria, Fred H. Gibson of the Maryville Crescents, D. B. Donald of the St. John Marathons and J. D. Black of the Fredericton Capitals. The meeting adjourned at 3 a. m.

The Capital Hockey Club seem to be in for more trouble, as the team captain, Joseph Bourque, has been appointed to take the place of John McDonald. He seems to be buffed over something and has decided to sever his connection with the team. In conversation with the Telegraph correspondent vice-president elected by the government, he said he had not yet decided to return to the north in Sydney (C. B.) Asked if he intended to play against Maryville tomorrow evening he replied: "No, I am out of the game for good and am glad of it."

BOWLING LEAGUE OPENS WELL

The bowling league on Black's alleys opened last evening with the defeat of the New Brunswick team by the Beavers. The league pulled out six ahead on the first string but was completely routed by the Beavers. The scores were:

ANNUAL MEETINGS OF CITY CHURCHES

The annual meeting of the Germain St. Baptist and Congregational Churches in Annual Session. The annual meeting of the Germain street United Baptist church, which was held last night, was attended by many members. Rev. W. McMaster, the pastor, presided. Encouraging reports were received from the various departments of the church work.

THE RING

George Dixon dead! That's sad news, indeed. To me, I knew the little fellow well, and valued his friendship, and the fact that he remembered me on his deathbed shows he must have thought well of John. He was a real champion. He never flinched over a match and fought the best in the world, often giving concessions to any man the public thought had a chance with him.

"What kind of fellow is Dobson?" "No good! Ask Thompson, he knows him worse than I do!"

What will probably be the best hockey match seen here in recent years will be the Moncton Victoria-Marathon game in the Glacier rink tonight.

The changes in the local's sextette will attract a certain amount of interest. While Paterson is a splendid defence man, he is also a fast forward and will be a tower of strength to the aggressive division.

CHIEF KERR'S REPORT

It Tells of the Work of the Fire Department During the Year and Makes a Number of Recommendations.

Chief Kerr, of the fire department, has submitted his 28th annual report for the year ending December 31, 1907. The report refers to the number of men and pieces of apparatus in the department, and also to the number of alarms, as previously stated in the Times.

Regarding losses by fire the report says: While the loss by fire for the year 1907 was not as great as that of 1906, still it has been the heaviest since 1903.

The chief refers to the need of new two-way hydrants in certain sections of the business district. He also quotes from his 1905 report on the need of new houses and increased accommodation for the apparatus.

The chief likewise recommends that an additional engine be purchased for use on the west side, and the permanent force there increased, also that three additional chemical fire extinguishers be placed in the winter port warehouses.

Reference is made to the success of the tournament held on Labor Day and to the harmonious co-operation between the firemen and the salvage corps.

The chief in closing thanks the salvage corps, the chief of police and his men and the aldermen for their help and courteous treatment during the year.

HOW SEMBRICH LIVES

Next to Madame Patti She is Probably the Wealthiest Singer Living.

It is well known that Madame Sembrich the greatest of singers readily earns several hundred thousands annually, and many query as to what she does with her money. While after Patti, Sembrich is probably the wealthiest singer living, still it costs much money for even her ordinary living expenses.

For the past ten years during the New York musical season, Madame Sembrich has occupied ten splendid rooms on the third floor of the Savoy Hotel, facing Central Park, and costing the prima donna probably several hundred dollars a day.

Reference is made to the success of the tournament held on Labor Day and to the harmonious co-operation between the firemen and the salvage corps.

The chief in closing thanks the salvage corps, the chief of police and his men and the aldermen for their help and courteous treatment during the year.

The novel limerick contest to be conducted by The Prince's Beach Company offers opportunity to secure a desirable lot for a summer home on the St. John river. The lots are at Harding's and Sand Pointe, two of the most beautiful spots on the river, and the prizes offered are unusually attractive.

The so-called "modern" method of bell-ringing has been used lately at the Baptist church in Granville, but has not met with the approval of the village folk.

The first time this method was used it brought out the bucket brigade with a rush and gave the cause of some loud language.
