PREFACE.

In presenting to the public their first edition of the Ottawa and Kingston City Directory, including the principal Towns of Central Canada, the publishers hope that their patrons will find it as near being correct as any former work of the same description. Neither care or expense have been witheld to achieve this; and should a slight error be now and then noticed, the publishers trust to the usual kind liberality of their patrons.

In taking the names for this book, great trouble was experienced by the different occupants of houses not wishing to impart that information which was absolutely necessary. More especially by the French residents of the Lower Town, Ottawa. They seemed to be impressed with the idea that we were emissaries of the Government, sent around for the purpose of obtaining a knowledge of the number of able-bodied men suitable for enrolment; and indeed were willing to take their oath that the names were required for that purpose,—the married women more especially. They would frequently, while our agents were taking the names on one side of a street, lock the door of their respective dwellings on the opposite side, and when they started to commence on that side, in many instances the doors were barred against them, and they have had frequently to trust to the information received from the next neighbor, or perhaps make a second and sudden call on them later when their doors were open. Also another difficulty we met was to get men for taking names in the locality where there was known cases of that loathsome disease the small pox, one of our agents was attacked with it which made the others fearful. With drawbacks of this nature (and there are many others which the publishers have had to surmount) it would not be surprising if an error would become visible occasionally.

It is now ten years since the publishers started in the Directory line, having during that time successively brought out the St. John, N.B., Halifax, N.S., Directories, the Maritime Provinces Directory, and lately the Dominion Classified Business Directory; and with this experience to back them, they can with every confidence continue to present to the public books so much wanted in every large city and town in the Dominion. In Kingston there was not so much trouble experienced, but the City was very badly numbered, and it will no doubt be

found that the numbering by us is as correct as it could possibly be under the circumstances. In referring to the numbering of Ottawa and Kingston cities, the publishers would call the attention of the citizens of both cities to the fact they are losing time and money by not having it done immediately; besides the publishers could supply both cities with a much more satisfactory street directory, although it will be found of value as it now is if the public will take the pains of referring to the names between intersections.

It might be said that we are late in bringing out the work. The senior member of the firm in this case would ask the leniency of the patrons of this work, for one very particular reason, namely:—that in the midst of obtaining information, his eldest son was brought home sick and eventually died, and sorrow compelled him to forego any further proceedings for a time, consequently the cause of the report circulated by mischievous persons that the work was not going to be published. The publishers would likewise say that it is their intention publishing again the Directories of Ottawa and Kingston before the close of the year 1875, and would ask a continuance of their kind support if this present one gives them satisfaction. Any suggestions as to corrections or improvements in the work may be addressed to them and will receive due consideration.

There are other indispensable uses to which this work can be put. The Directory contains correct information concerning the large business firms in the most prominent towns and villages between Ottawa and Kingston and merchants in these two cities will find that they can use it as their standard for reference. The name of every male from 21 years up is correctly given in these places, from the daily laborer up to the wholesale merchant, with as much care and precision bestowed on the one as the other. To our knowledge we have omitted nothing.

A correct statement of the present standing of the different societies, religious, masonic, orange, temperance, etc., of the cities of Ottawa and Kingston, together with a correct list concerning the present Government of Great Britain as well as the Dominion of Canada, and the several Provinces under its guidance, will be also found in this work.

In conclusion, the publishers would return their sincere thanks to John Lovell, Esq. for valuable information in connection with historical matter, and also to the advertising patrons as well as all others who have supported their work by subscription or otherwise. They also heartily thank the Chamberlain and City Clerk of Kingston City for their kindness and liberality in assisting them in the furtherance of the work.

COCOA PREPARATIONS, &c.,

The subscriber would respectfully call the attention of the Wholesale Grocers and General Dealers of Central Canada to his Manufactures of

Broma, Chocolate, Cocoa, Cocoa Paste, Cocoa Sticks,

AND

SPICES OF VARIOUS KINDS,

ALL of which will be found of superior quality.

More than a quarter of a century's experience has enabled him to bring his Cocoa Preparations to a high state of perfection, and they are now finding ready sale throughout both Quebec and Ontario. That his BROMA is particularly adapted to the use of the SICK and CONVALESCENT, and highly approved of by the most eminent Physicians of the Dominion, is amply proved by the following certificate:

"Having tried the Broma, made by Mr. John P. Mott, of Halifax, N.S., and having been made acquainted with its several ingredients, we are of opinion that it is a combination at once innocent and highly nutritious, not only to persons in health, but also to the weak and debilitated; and that from the facility with which it may be prepared, and the salutary properties of its ingredients it is a valuable compound, and we cheerfully recommend it to convalescents, and all who require a mild and strengthening food."

105 RIDEAU STREET.

HISTORICAL SKETCH OF THE CITY OF OTTAWA.

A city of Ontario, capital of the Dominion of Canada, and of Carleton co., is beautifully situated on the right bank of the Ottawa river, at the outlet of the Rideau, and on the Canada Central and St. Lawrence and Ottawa Railways, 54 miles N. of Prescott, 126 miles W.N.W. of Montreal, 95 miles N.N.E. of Kingston, and 450 miles from New York. It is one of the most flourishing cities in Ontario, being the *entrepot* of the great lumber trade of the Ottawa river and its tributaries. It is divided into Upper and Lower Town by the Rideau Canal, which connects it with Kingston. The locks here are eight in number and are very massive.

The town was founded in 1827 by Col. By, R.E. It was incorporated a city, and its name changed to Ottawa, in 1854, and selected by Queen Victoria as the capital of Canada in 1858.

The chief attraction in Ottawa is the government buildings, which occupy an elevated piece of ground, about 25 acres in extent and 150 feet above the river, known by the name of "Barrack Hill." The view from this natural terrace is superb. The great river with its moving rafts, steamers, barges, and canoes rolls swiftly on through splendid hill ranges towards the south. In the distance the fine suspension bridge which spans the majestic river just above the Chaudière Falls attracts the eye, even though it be tempted to rest upon the wild beauty of the cascade sweeping by craggy rocks between abrupt islands, and plunging into the basin below, where part of its waters disappear in a mysterious way. Far beyond the cascade, glitters the broad river swiftly rushing down the rapids Des Chenes; and in the remote back-ground rise towering hills and mountains, often brilliant with purple and gold when the sun dips from view and gilds their lovely summit with his parting beams.

The government buildings, the corner stone of which was laid by H.R.H. the Prince of Wales in September, 1860, are constructed of a light colored sandstone found in the township of Nepean, in the valley of the Ottawa. The walls and arches are relieved with cut stone dressings of Devonian sandstone from Ohio and with red sandstone from Potsdam, N.Y. The roofs are covered with purple and green slates, and the pinnacles ornamented with wrought iron castings. The style of architecture is the Italian gothic, and the south front of the quadrangle is formed by the Parliament building, 500 feet in length. The two departmental buildings are 375 feet long. The rear is open and will be railed off with a suitable ornamental screen. The committee rooms occupy the front of the building. The library, a beautiful detached circular building, with a dome 90 feet high, is in the rear of the central tower, 250 feet high. The two legislative halls are on each side of the library, but in the main building. The dimensions of these halls are the same as those of the House of Lords, namely, 80 feet by 45; they are situated on the ground floor and lighted from above. The library is constructed after the plan of the new library of the British Museum, and will hold 300,000 volumes. The two departmental buildings contain in the aggregate 300 rooms, and are intended to accommodate all the departments of the government of the Dominion; and are so constructed as to be capable of extension at any future time without injuring the general architectural effect. The buildings cover nearly four acres, and cost about $4,000,000.

Besides the above magnificent buildings Ottawa contains 17 churches, viz: Church of England 3; Church of Rome 4; Presbyterian 2; Church of Scotland 1; Wesleyan Methodist 2; Episcopal Methodist 2; Congregationalist 1; Baptist 1; Catholic Apostolic 1; 9 printing offices, several flouring mills, and large saw mills; and has manufactories of iron castings, mill machinery, agricultural implements, brooms, bricks, leather, wooden ware, &c., and agencies of two telegraph and a number of assurance and insurance companies, and 7 banks. Five daily newspapers are published in Ottawa. The streets of the city are lighted with gas.

Adjacent to Ottawa are several thriving villages, among others New Edinburgh and Hull. "Rideau Hall," the residence of the Governor General, is in the former place. It is a handsome stone structure, with 35 acres of well laid out grounds, and beautiful avenues of shaded trees. A street railway connects these villages with Ottawa.

The city returns two members to the House of Commons and two to the Provincial Legislature.

The total value of imports for 1872 was $1,472,505; exports $1,469,954. Pop. in 1861, 14,669; in 1871, 21,545.

HISTORICAL SKETCH OF THE CITY OF KINGSTON.

A city of Ontario, at one time Capital of Upper Canada, situated at the outlet of Lake Ontario, 172 miles W. of Montreal Lat. 44° 12′ N., lon. 76° 41 W. The city occupies the site of old Fort Frontenac, on the N.E. shore of the river, opposite Wolfe Island, having the harbour and shipping in front. The harbour is formed at the mouth of Cataraqui river, which here enters the Lake. The west shore is bold and shipping of any size may lie here in perfect safety. East of the Bay the land projects southward, terminating in Point Frederick, or Navy Island, beyond which is Haldimand Cove, a deep basin of water, protected by this point on the west, and Point Henry on the east, and guarded from southerly winds by Wolfe Island in front. Kingston is, after Quebec and Halifax, the strongest fort in the Dominion of Canada. There is a fort on Messessaga Point, and all other accessible points are secured by batteries. There are extensive military works on Navy Point, and on Point Henry is a fortress which completely commands the harbor and town. A long bridge across Cataraqui Bay connects Kingston with Pitsburg, besides which there are the suburbs of Barriefield, French Village, and Williamsville. The city is regularly laid out with streets crossing each other at right angles. It is chiefly built of blue limestone, which underlies the town. The streets are lighted with gas, and the houses are partly supplied with water from the Bay and partly from the wells. Wells of mineral water, composed chiefly of chloride of sodium and calcium have been obtained in several instances by boring to the dept of 145, 85, and 75 feet respectively. Among the public buildings are the City hall and market, court house and gaol, post office, 17 churches, including a Roman Catholic Cathedral, 2 colleges, Mechanics' Institute, Hotel Dieu, General Hospital, House of Industry, the building occupied by the several literary and benevolent institutions, and a number of schools. About a mile to the west of the city lies the Provincial Penitentiary, a large and massive stone building surrounded by a high and most substantial wall,

with towers at the corners. Beyond the Penitentiary is the Rockwood Lunatic Asylum. Kingston contains three branch banks, 2 telegraph offices, a number of insurance and assurance agencies, 2 breweries, &c., and has manufacturies of iron castings, mill machinery, steam engines, locomotives, leather, soap and candles, boots and shoes, wooden ware brooms, pianos, &c. Ship and boat building are carried on to a great extent, and vessels for both lake and ocean navigation are built and fitted out complete. The commercial affairs of Kingston are regulated by a Board of Trade. The Grand Trunk railway has an important station in rear of the town ; freight trains run to the harbor. A railway is in course of construction from Kingston to Pembroke, distant 120 miles. The Rideau Canal, connecting this port with the Ottawa river, has made it a place of considerable commercial importance. Four newspapers are published—2 daily and 2 weekly. The city is divided into 7 wards, and governed by a mayor, board of aldermen and common council. It returns 1 member to the House of Commons and 1 to the Provincial Legislature. It is the seat of the See of the Roman Catholic Bishop of Kingston, and is a port of entry. The total value of imports for 1872, was $6,976,-022; exports $1,933,222. Pop. 1844, 6,840; 1861, 12,843; 1872, 12,407.

A settlement was begun here by the French, under De Courcelles, as early as 1672, under the name of Fort Cataraqui, and the Fort subsequently received the name of Fort Frontenac in honour of the French count of that name. This fort was afterwards in the possession of the French and the Indians, until it was destroyed by the expedition under Colonel Bradstreet in 1758. In 1762 the place fell into the hands of the British, from whom it received its present name. It was incorporated a city in 1838.

Waters' New Scale Pianos,

HORACE WATERS & SON

No. 481 Broadway, New York. P. O. Box 3567.

TESTIMONIALS OF

Waters' Celebrated Pianos, Concerto and Orchestral Organs.

THE WATERS CONCERTO PARLOR ORGAN.—We are glad to chronicle any new thing, or any improvement upon an old one, that tends to popularize music by rendering its study either easier or more attractive. Lately our attention has been called to a new patented stop added to the Waters Reed Organ, called the concerto stop. It is so voiced as to have a tone like a full, rich alto voice; it is especially "human" in its tone. It is powerful as well as sweet, and when we heard it, we were in doubt whether we liked it best in solo, or with full organ We regard this as a valuable addition to the reed organ.—*Rural New Yorker.*

AN ORCHESTRA IN THE PARLOR.—The Orchestral Organ is the name of a new reed organ recently announced by Horace Waters & Son. The instrument takes its name from its recently invented orchestral stop. The voicing of this is peculiar, producing the effect of a full, sweet contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique, and makes a handsome article of furniture.—*N. Y. Sun.*

We have been very much interested in the examination of a New Organ made by Messrs. Horace Waters & Son, of this city. It is called the Orchestral Organ, and certainly merits the name, for it is powerful enough for a full orchestra, while capable of an entire change to the softest and sweetest tones. The orchestral stop, from which it takes its name, has a marvellous power of expression, and very closely resembles the tones of a human voice.—*Illustrated Christian Weekly*

Horace Waters & Son, 481 Broadway, have been long in the business of dispensing musical instruments. Their pianos are strictly first-class, and their Orchestral Organs, of which they may be said to make a specialty, are of world-wide reputation.—*N. Y. Evening Express.*

Corner of Metcalfe and Queen Streets,

CITY OF OTTAWA.

The undersigned would most respectfully inform the public that during the past season he has enlarged and entirely refitted his hotel with a view to providing ample accommodation for the travelling community.

This hotel, now favorably known, is situated in the immediate vicinity of the Parliament Buildings, Post Office, Banks, and other Public Offices, thus affording every convenience to the public.

To the rear of the old building, a large wing has been added, containing a Dining Room capable of seating two hundred persons. Forty new Bedrooms have also been added, carpeted and furnished in first-class style. The first floor contains suites of rooms with coal grates, admirably adapted for the accommodation of families travelling.

To the commercial public, the proprietor would say that he has ten first-class sample rooms set apart for their accommodation, and furnished with drop side tables, which rooms will be found second to none in the Dominion.

The older portion of the hotel has been thoroughly overhauled, refurnished, and repainted, &c., so that tourists and others visiting the Capital, will find every comfort afforded that enterprise and skill could command.

S. DANIELS,

Proprietor.

Testimonials of Waters' Celebrated Pianos, Concerto and Orchestral Organs.

Rev. BARNAS SEARS, D.D., ex-President of the Brown University, Providence, R. I., and [illegible] for distribution of the Peabody Educational Fund in the South, in answer to inquiries of Jacob Echols, of Lynchbury, Va., about the Waters Pianos, writes the following:

STAUNTON, VA., March 12, 1872.
—Mr. Jacob Echols, Dear Sir: My daughter, who is a good judge, says her piano (the Waters) is a fine one, and has been pronounced so by the German teacher of music; and by the *Baltimore Tuner*, much superior to the Baltimore Pianos. Mr. Waters is a wealthy Christian gentleman. I put entire confidence in him as a business man.

Yours truly,

B. SEARS.

Waters' Philharmonic Organs,

In Unique French Cases are among the best made, and Combine Purity of Voicing, with great Volume of tone, suitable for Parlor, Church, or Music Hall.

TESTIMONIALS OF

Waters' Pianos and Organs.

An Orchestra in the Parlor.—The Orchestral Organ is the name of a new Reed Organ recently announced by Horace Waters & Son. The instrument takes its name from its recently invented orchestral stop. The voicing of this is peculiar, producing the effect of a full, sweet, contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique, and makes a handsome article of furniture.—*N. Y. Sun.*

Messrs. WATERS & SON have devoted their whole capital and attention to the manufacture and sale of pianos and organs, and their instruments have recently been awarded the first premium at several fairs. We happen to know that their instruments earned them a good reputation long before Expositions and the "honors" connected therewith were even thought of; indeed, we have one of the Waters pianos now in our residence (where it has stood for years) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the said piano, and all pronounce it a superior and first-class instrument. Stronger indorsements we could not give.—*Home Journal.*

Waters' New Scale Pianos,

HORACE WATERS & SON

No. 481 Broadway, New York. P. O. Box 3567.

TESTIMONIALS OF

Waters' Celebrated Pianos, Concerto and Orchestral Organs.

THE WATERS CONCERTO PARLOR ORGAN.—We are glad to chronicle any new thing, or any improvement upon an old one, that tends to popularize music by rendering its study either easier or more attractive. Lately our attention has been called to a new patented stop added to the Waters Reed Organ, called the concerto stop. It is so voiced as to have a tone like a full, rich alto voice; it is especially "human" in its tone. It is powerful as well as sweet, and when we heard it, we were in doubt whether we liked it best in solo, or with full organ We regard this as a valuable addition to the reed organ.—*Rural New Yorker.*

AN ORCHESTRA IN THE PARLOR.—The Orchestral Organ is the name of a new reed organ recently announced by Horace Waters & Son. The instrument takes its name from its recently invented orchestral stop. The voicing of this is peculiar, producing the effect of a full, sweet contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique, and makes a handsome article of furniture.—*N. Y. Sun.*

We have been very much interested in the examination of a New Organ made by Messrs. Horace Waters & Son, of this city. It is called the Orchestral Organ, and certainly merits the name, for it is powerful enough for a full orchestra, while capable of an entire change to the softest and sweetest tones. The orchestral stop, from which it takes its name, has a marvellous power of expression, and very closely resembles the tones of a human voice.—*Illustrated Christian Weekly*

Horace Waters & Son, 481 Broadway, have been long in the business of dispensing musical instruments. Their pianos are strictly first-class, and their Orchestral Organs, of which they may be said to make a specialty, are of world-wide reputation.—*N. Y. Evening Express.*

HORACE WATERS & SON,

No. 481 BROADWAY, NEW YORK, - - P. O. Box 3567.

TESTIMONIALS OF

WATERS' CELEBRATED PIANOS, CONCERTO AND ORCHESTRAL ORGANS.

THE WATERS' CONCERTO PARLOR ORGANS.—Mr. Horace Waters, of No. 481 Broadway, has a patented improvement in parlor organs which renders his popular instruments preferable to any that we have seen. The new feature consists of what is called a concerto stop, produced by an extra set of reeds, peculiarly voiced. Its tone is remarkably full, sweet and brilliant, and its power very fine. With this stop and the swell, the most charming varieties of expression can be produced. The largest of the several sizes embraces ten stops, namely: a rich sub-bass, a very delicate piccolo, a flute, melodia, dulciana, forte, viola, coupler, the concerto, and a vox humana, or tremolo. They have three full sets of reeds, with a clear delicate tone.—*N. Y. Tribune.*

AT THE KINGS COUNTY INDUSTRIAL FAIR—Held in Brooklyn, October, 1873, Horace Waters & Son were awarded Diploma No. 1 for Orchestral Organ. The Committee of Awards say: "The Orchestral stop in this instrument is a great improvement in regard to effect, good tone, and first-class workmanship."—*Brooklyn Union.*

HORACE WATERS & SON,

Testimonials of Waters' Celebrated Pianos, Concerto and Orchestral Organs.

Rev. BARNAS SEARS, D.D., Ex-President of the Brown University, Providence, R. I., and agent for distribution of the Peabody Educational Fund in the South, in answer to inquiries of Jacob Echols, of Lynchbury, Va., about the Waters Pianos, writes the following:

STAUNTON, VA., March 12, 1872. —Mr. Jacob Echols, Dear Sir: My daughter, who is a good judge, says her piano (the Waters) is a fine one, and has been pronounced so by the German teacher of music; and by the *Baltimore Tuner*, much superior to the Baltimore Pianos. Mr. Waters is a wealthy Christian gentleman. I put entire confidence in him as a business man.

Yours truly,

B. SEARS.

SAVE MONEY!

WM. SIMPSON, DYER, ALMONTE,

All kinds of Ladies' and Gentlemen's Wearing Apparel

DYED, CLEANED AND RE-DYED.

LADIES' DRESSES, all wool, cotton and wool, or cotton, silk and wool. This is a great saving in every family

VELVET AND IMITATION FUR JACKETS, Cloaks, or Dresses.

SILKS, and other Dresses Dyed in all the latest style of color.

LADIES' BLACK CLOTH JACKETS, &c., made equal to new in color and finish.

PAISLEY, and all other kinds of Shawls and Plaids cleaned, dyed, or re-dyed, and finished in first-class style.

It is a fact that, in this climate, gents' clothing, particularly, get extremely shabby across the shoulders and on the fore-arm, and clothes not half worn have to be thrown away. All this can now be avoided by getting them renovated by this establishment. This alone is a vast saving among all classes of people.

BLACK, BLUE, AND BROWN Over-Coats, Pea Jackets and Gentlemen's suits that are faded away to a dirty grey color will be returned with a color and appearance as good as the first day they were put on.

DARK AND MEDIUM GRAYS that are faded can be restored in color to what they originally were.

Our colour and finish on Fine Black Clothes cannot be excelled; no color rubs off—everything is perfectly clean, and done without shrinking.

FEATHER BEDS RENOVATED.

Old Feather Beds can be made equal to new without any loss in weight or substance.

CHARGES MODERATE,

And work done expeditiously. Parcels from Ottawa, Brockville, Pembroke or intermediate Towns or Villages will receive every attention, and be returned as soon as possible, per Express.

Waters' Philharmonic Organs,

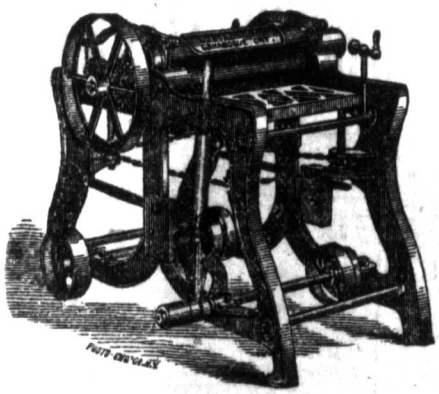

In Unique French Cases are among the best made, and Combine Purity of Voicing, with great Volume of tone, suitable for Parlor, Church, or Music Hall.

TESTIMONIALS OF

Waters' Pianos and Organs.

An Orchestra in the Parlor.—The Orchestral Organ is the name of a new Reed Organ recently announced by Horace Waters & Son. The instrument takes its name from its recently invented orchestral stop. The voicing of this is peculiar, producing the effect of a full, sweet, contralto voice. Its finest effect is produced when the stops are drawn. Then the full chords are toned down, so that an orchestral effect is given. The case is unique, and makes a handsome article of furniture.—*N. Y. Sun.*

Messrs. WATERS & SON have devoted their whole capital and attention to the manufacture and sale of pianos and organs, and their instruments have recently been awarded the first premium at several fairs. We happen to know that their instruments earned them a good reputation long before Expositions and the "honors" connected therewith were even thought of; indeed, we have one of the Waters pianos now in our residence (where it has stood for years) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the said piano, and all pronounce it a superior and first-class instrument. Stronger indorsements we could not give.—*Home Journal.*

IROQUOIS DIRECTORY.

Iroquois, or Six Nations, the name given by the French to the Indian confederacy of the Mohawks, Oneidas, Senecas and Cayugas, afterwards joined by the Tuscaroras, on the latter being driven from North Carolina. This once powerful confederacy is now nearly extinguished, but the remains of it are still scattered through the state of New York and provinces of Quebec and Ontario. Caughnawaga, Lorette, St Regis, Lake of Two Mountains and other reserves in the province of Quebec belong to the Iroquois Indians.

HORACE WATERS & SON,

Testimonials of Waters' Celebrated Pianos, Concerto and Orchestral Organs.

Rev. Barnas Sears, D.D., Ex-President of the Brown University, Providence, R. I., and agent for distribution of the Peabody Educational Fund in the South, in answer to inquiries of Jacob Echols, of Lynchbury, Va., about the Waters Pianos, writes the following:

Staunton, Va., March 12, 1872.
—Mr. Jacob Echols, Dear Sir: My daughter, who is a good judge, says her piano (the Waters) is a fine one, and has been pronounced so by the German teacher of music; and by the *Baltimore Tuner*, much superior to the Baltimore Pianos. Mr. Waters is a wealthy Christian gentleman. I put entire confidence in him as a business man.

Yours truly,

B. SEARS.

MARGESON'S

CALCULIFUGE

CURES

Gravel, Stone in the Bladder, Dropsy, and all Diseases of the Kidneys.

DIRECTIONS—One wine-glassful in as much water, each morning, noon and night.

In all ordinary cases one bottle is sufficient, except for a beast when two or three may be required.

The Proprietors can highly recommend this medicine, as it has been the means of curing over 200 persons before placing it on sale, where it now can be had at $1.50 per bottle. Address,

R. C. MARGESON & CO.,
HALIFAX, N.S.

CERTIFICATES.

CHEZZETCOOK, March 3, 1873.

MESSRS. R. C. MARGESON & CO.—DEAR SIRS: Please accept this testimony from one who has been suffering for upwards of five years from Gravel and Stone in the Bladder, and was advised by my friends to try your Culculifuge. I did so, and am happy to say that, after using the two bottles you sent me last summer, it *entirely cured me*. I passed five stones the size of small peas, and upwards of a wine-glassful of smaller ones and gravel, and will send them to you by the first chance. I would advise all that are suffering with the same complaint, to secure your valuable medicine at once, as it has been the sole means of curing me. I will take pleasure in giving all the information I can to any that will call to see me at my house.

I remain yours,
ANDREW CRAWFORD.

HALIFAX, July 28, 1873.

MESSRS. R. C. MARGESON & CO.—DEAR SIRS: It is a pleasure to add my testimony to the virtues of your Medicine. My little daughter, three years old, was a great sufferer with Urinary Retention, sometimes four days at a time. Her sufferings were intense; all medicine failed to give her much if any relief. I procured a half bottle Margeson's Culculifuge. After taking three doses, she got relieved and is now as well as ever. This you can make known in the papers if you choose, as others may be afflicted in like manner.

HORACE WATERS & SON,

No. 481 BROADWAY, NEW YORK, - - P. O. Box 3567.

TESTIMONIALS OF

WATERS' CELEBRATED PIANOS, CONCERTO AND ORCHESTRAL ORGANS.

THE WATERS' CONCERTO PARLOR ORGANS.—Mr. Horace Waters, of No. 481 Broadway, has a patented improvement in parlor organs wh'ch renders his popular instruments preferable to any that we have seen. The new feature consists of what is called a concerto stop, produced by an extra set of reeds, peculiarly voiced. Its tone is remarkably full, sweet and brilliant, and its power very fine. With this stop and the swell, the most charming varieties of expression can be produced. The largest of the several sizes embraces ten stops, namely: a rich sub-bass, a very delicate piccoo, a flute, melodia, dulciana, forte, viola, coupler, the concerto, and a vox humana, or tremolo. They have three full sets of reeds, with a clear delicate tone.—*N. Y. Tribune.*

AT THE KINGJ COUNTY INDUSTRIAL FAIR—Held in Brooklyn, October, 1873, Horace Waters & Son were awarded Diploma No. 1 for Orchestral Organ. The Committee of Awards say: "The Orchestral stop in this instrument is a great improvement in regard to effect, good tone, and first-class workmanship."—*Brooklyn Union.*

The postage, as well as the registration fee, *must be prepaid.* The registration of a letter addressed to any place in the Dominion is 2 cents, to the United States 5 cents, to the United Kingdom 8 cents, to Australia and all other places, when passing through the United Kingdom, a fee equal to one rate.

Registration is applicable to all descriptions of letters and parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the miscarriage or loss of a letter ; but a registered letter can be traced when one unregistered cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter. "Moreover the safety of an unregistered letter is dependent on the integrity of a post-office clerk during the whole time it remains in his custody, frequently for hours, and even days ; whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk, they should be free to do so ; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and it is further suggested that letters containing money should invariably be secured with *wax*, and not by the usual method, by mucilage, or self-sealing envelope.

Postage Stamps.

To enable the public to prepay conveniently by postage stamps the foregoing rates, the following denominations of postage stamps for use throughout the Dominion have been prepared, and will be supplied to postmasters for sale :—

Half-cent stamps, One cent " Two cent " Three cent " Six cent " Twelve and a half cent " Fifteen cent "	All bearing as a device the effigy of Her Majesty.

Franking and Free Matter.

The following matter is exempt from *Canadian Postage* :

All letters and other mailable matter addressed to or sent by the Governor General of Canada.

All letters and other mailable matter addressed to or sent by any department of the Government, at the seat of Government at Ottawa, under such regulations as may from time to time be made by the Governor in Council.

All letters and other mailable matter addressed to or sent by the Speaker or chief clerk of the Senate, or of the House of Commons, or to or by any member of either House, at the seat of Government, during any session of Parliament, or addressed to any of the members or officers at the seat of Government as aforesaid, during the ten days next before the meeting of Parliament.

All public documents and printed papers sent by the Speaker or chief clerk of the Senate or of the House of Commons to any member of either House during the recess of Parliament.

All papers printed by order of either House sent by members of either House during the recess of Parliament.

Petitions and addresses to either of the Provincial Legislatures of Ontario, Quebec, New Brunswick, Nova Scotia, and Prince Edward Island, or to any branch thereof; and votes, proceedings, and other papers, printed by order of any such Legislature or any branch thereof, during any session thereof,—provided such petitions and addresses, votes, proceedings, and other papers, are sent without covers, or in covers open at the ends or sides, and contain no written communication to serve the purpose of a letter.

Letters and other mailable matter (except that provided for as above) addressed to or sent by the Provincial Governments or Legislatures of Ontario, Quebec, New Brunswick, Nova Scotia, and Prince Edward Island, will be liable to the ordinary rates of Postage.

Public documents and printed papers sent under the foregoing clauses should bear, as part of the address, the *bona fide* superscription of the Speaker, chief clerk, or officer specially deputed for this purpose to act for those functionaries, or of the member sending the same.

The privileges of free transmission, as above described, has effect only as respects Canada postage rates.

All letters and other mailable matter to and from the Postmaster-General and the Dep. P. M. General, and all official communications to and from the post-office department, and to and from the post-office inspectors, are to pass free of Canada postage.

All letters containing a remittance on account of the public revenue sent by any postmaster in Canada to a bank or bank agency, and all remittances or acknowledgments sent by a bank or bank agency on account of public revenue to any postmaster in Canada, pass free through the post, as respects both postage and registration charge.

Dutiable Goods by Mail.

Postmasters are directed to detain any post letter coming into the Dominion, supposed to contain any wares or merchandise liable to duty, and forward the same to the nearest collector of customs, who shall notify the person to whom the

same may be addressed to be present; and if on opening the same, it contains no dutiable goods, it shall be handed over to him on paying the postage, if liable to any; if it does contain dutiable goods, the collector shall detain letter and contents for the purpose of prosecution.

All letters containing money should be mailed at the Post Office and registered

No printed paper, whether newspaper, book, pamphlet, or other paper, shall be transmitted either free or at a reduced rate of postage, unless it is sent—1. Without a cover, or in a cover open at the ends. 2. There shall be no words or communication printed on the paper after its publication, or upon the cover, nor any writing or marks upon it, or upon the cover, except the name and address of the sender and of the person to whom sent. 3. There shall be no paper or thing inclosed with it. Where these conditions are not fulfilled, the whole will be charged letter postage.

The word "Newspaper" means any publication issued not less frequently than once a week, and containing notices of passing events; and the word "Periodical" means any publication issued at regular intervals, but less frequently than once a week.

Masters of vessels are entitled to receive for each letter they may deliver when inward bound 2 cents.

All letters and communications on the business of the post-office department, intended for the post-office department at Ottawa, should be invariably addressed to "*The Postmaster-General.*" The branch of the department for which the letter or communication is intended should be written on the left-hand upper corner of the letter, thus:—

"For Accountant,"

"For Secretary,"

"For Money-Order Office,"

"For Savings' Bank Office,"

"For Dead Letter Office," or

"For Cashier,"

as the case may be, but the main direction must be to the Postmaster-General, or Deputy Postmaster-General.
