HISTORICAL CARNIVAL.

Armies of William and Harold March Through Hastings.
London, May 22.—(By Mail).—An historical and carnival procession, one and a half miles in length, took place at the opening of the second day's festivities of the Hastings and St. Leonards Whitenside carnival yesterday. Chief interest was shown in the historical section. William the Conqueror and King Harold, with their armies marched through Hastings, together with men of the Stone Age and Ancient Britons. During the afternoon the ancient history of the town was re-enacted with the Battle of Hastings, followed by a Norman tournament at the White Rock Gardens. The festivities concluded with a fancy dress dance.

BRITISH BANKS CAN BARE ACCOUNTS, COURT DECLARES
London, June 5.—(By Mail).—The case in which was raised the question

of the right of a bank to disclose facts respecting the account of a customer ended in the King's Bench Division (before Mr. Justice Avory and a common jury) in judgment for the defendants — the National Provincial and Union Bank of England, Limited.

Mr. Justice Avory, in summing up, said there was no absolute contract by a bank not to disclose the state of a person's account to another, says The London Daily News report. If a banker made such a disclosure reasonably and justifiably there was no breach of contract. The question here was whether the disclosure was made on a reasonable and proper occasion.

NEW PEARL VALUED AT \$60,000.
Sydney, N. S. W., May 26.—(A. P. by Mail).—The discovery at Broome of a pearl of 102 grains, of double-button shape, is reported by the chief pearling inspector of West Australia.

The pearl, which is valued at \$60,000, surpasses the famous "Star of the West," which weighed 101 grains and was valued at \$39,000.

AUSTRIA ONCE EXPELLED
MUSOLINI AS AGITATOR
Italian Premier Recently Informed Before War Ban on Him is Lifted.

London, June 8.—(By Mail).—A few years before the outbreak of war Signor Benito Mussolini was editor of a Socialist journal at Trent, in South Tyrol, until one day he was expelled from Austria as a troublesome foreigner, says the Vienna correspondent of The London Morning Post. The Italian Premier did not forget this incident, for when not long ago Chancellor Seipel met him in Milan he re-

marked smilingly to his visitor that he could not return the visit without an annulment of his expulsion. It is a matter of course that Dr. Seipel on his return from Italy took the necessary measures, and it is stated today that Signor Mussolini has been informed through the Austrian Minister in Rome that his expulsion has been cancelled.

Eighty houses, the entire town of Jennings, Mich., were moved 11 miles by a 6-ton motor truck.

Kellogg's Bran gives permanent relief because it is ALL BRAN!

Every member of your family will enjoy better health—eat better, work better, sleep better—if they eat Kellogg's Bran regularly. Its natural, positive work for health is actually a blessing to humanity! Kellogg's gives permanent relief from constipation because it is ALL BRAN! It is scientifically prepared to relieve suffering humanity from constipation.

Kellogg's Bran cleans and purifies the drainage channel; it clears away toxic poisons and frees you from the ravages of such dread diseases as Bright's, diabetes, etc., as well as sick headaches, rheumatism and mental and physical depression. A week's trial of this great natural food will prove that its work for health is wonderful! Consider Kellogg's Bran as a food. It is not a laxative nor a medicine. Bran is the outer coating of whole

wheat and contains such nourishment factors as mineral salts and other elements vital in sustaining life! Kellogg's Bran is cooked and all ready to eat. It is delightful as a cereal, or sprinkled over your favorite hot or cold cereal. Another popular way to eat it is to cook or mix it with a hot cereal. In preparation, add two tablespoons of bran for each person. Delicious bakery batches are made with Kellogg's Bran. Recipes are printed on each package.

DO TWO THINGS—Eat Kellogg's Bran each day for permanent relief from constipation and be certain to eat at least two tablespoons in chronic cases, with each meal.

First-class hotels, clubs and restaurants serve Kellogg's Bran in individual packages. Ask for it at your restaurant. All grocers.

The Evening Times and Star
ST. JOHN, N. B., JUNE 22, 1923.

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd. a company incorporated under the Joint Stock Companies Act.

FULFIL THE CONTRACT.
A remark by Premier Veniot, to the effect that if he could do anything to help the city and the New Brunswick Power Company to come to an agreement he would be pleased to do so, is at once seized by the champions of the Power Company as the text for another sermon to the citizens. The latter are told that they have been making themselves the laughing stock of the whole province, and that the thing to do is to stop wrangling and haggle and come to terms with the Power Company.

A WESTERN EXAMPLE.
In connection with attractions for tourists as well as for the citizens themselves, a communication received from Los Angeles tells of the newest departure in that city, which expends very large sums every year to attract visitors from all parts of the continent. Here is the story:—
"The largest municipal playground camp in the country will be opened in the High Sierras, at Mammoth, California on July 1, remaining open until September 15. Over 440 acres in Sierra National Park has been leased by the city of Los Angeles, where central dining room and cabins will be erected. Over \$3,000 will be invested in the initial camp programme this season. Although the Los Angeles camp is 898 miles from the city, it is approached through valleys from which the city obtains its water supply, reaching up into the waters of Mt. Whitney, the highest peak in the United States. In the centre of the high Sierra fishing and hunting grounds, campers will be able to catch their own breakfasts. Horseback trips to the Devil's Postpile National Monument, Rainbow Falls on the central San Joaquin River, and mountain climbing in unspoiled peaks are a number of the features provided by nature for entertaining the city folk vacationing there. This is the third camp maintained by Los Angeles in the mountains. All previous vacations practically at cost of transportation and board during the week or fortnight outings."

SECRETARY HUGHES SPEAKS.
In an address at Dartmouth College, New Hampshire, on Tuesday, Mr. Hughes, Secretary of State, declared that for the United States to stay out of the international court of justice would be to invite the sword. He declared that the permanent court of international justice conformed to the highest standards of American courts, and that "the United States could today with greater satisfaction submit disputes to which it is a party to this court than to any arbitral tribunal it would be possible to set up."
Mr. Hughes said that peace, security and co-operation in foreign relations were desired, and that a country intent on peace could never refuse its support to institutions of justice.
Quoting the remark of an American statesman that the foreign policy of the United States might be described as a *solus*, with the symphony orchestra in one of New York's big movie palaces, a symptom of a belated recognition of what one editorial writer recently called "the most malignant musical instrument on earth." A still more enthusiastic commentator has referred to it as the king of instruments. The chief factor in this renaissance of the mouth organ has been the growth of the harmonica contest idea. Such a contest formed part of the programme for *Boys' Week* in Philadelphia.
"The instrument gives especially happy self-expression to the boy. For him it is a most effective safety valve. He can literally 'blow himself' more satisfactorily with the harmonica than with any other instrument save the cornet, which is more difficult of performance. What with the natural liking of boys for the mouth organ, it may be said to be a quiet, unobtrusive, and more beautiful instrument. For these reasons the harmonica contest idea, while adaptable for all, is being especially applied to boys, says the statement. In the Philadelphia contest the competitors represented various schools and troops of Boy Scouts. The contest was under the auspices of the Philadelphia Music League, with Albert N. Hoize, Jr., as chairman. The Mayor's reception room in the city Hall was the scene of the semi-finals. The winner, James M. Tyson, had been unable to appear in the elimination contest and was admitted after a hearing of his playing over the telephone.
New York City followed suit with an inter-school contest of boys representing the various playgrounds. Here the contest was under the auspices of the City Government, represented by Park Commissioner Francis D. Gallagher and his assistant, J. V. Mulholland, Superintendent of Recreation. Entries for the contest were received at the various parks and playgrounds. Neighborhood contests determining the winners in the different playgrounds led up to the semi-finals at the Mall in Central Park.
Other cities which have taken the idea are Dallas, Texas; St. Paul, Minn.; and Wilkes-Barre, Pa. In the latter city the contest was under the auspices of the Music Committee of the Wyoming Valley Playground and Recreational Association.

VACATION.
(Minnie Leona Upton in New York Times.)
All over the land they are shouting "Hooraay!"
"No school till September!" "Hooraay for school day!"
And they stand with their heads, and they kick up their heels.
And there's not the least doubt how each one of them feels.
No slightest approach to a symptom of sorrow.
No tear of regret, and no fear for the morrow—
There's nothing but their juvenile frankness conceals.

Querer, when we are doing so much for these kids, that under their schools they'd so gaily put skirts!
We piously tax ourselves, "all for their good."
And they're gleefully sidestepping that good—yes, they sidestep!
Querer, eh? And yet somehow the critic remembers,
Just whisking the ashes from Memory's embers,
At their age he sidestepped it, too—when he could!

LIGHTER VEIN.
Inference.
Little Willie (pointing to a picture of a horse)—
"What's that?"
"That's a horse." "It looks like a horse in a bathing suit."
Both Want to Fly High.
"And what are you going to be when you grow up, Billy?" asked the visitor.
"I want to be an airman."
"An airman. And you know?"
"I'm going to be an airman," replied the seven-year-old, with decision.

The New Version.
There, little girl, don't cry.
You have bent your finger, I know
To drive a nail.
A car just as certain as you're alive—
So powder your nose and go.

A Strong Accent.
The little girl, carrying a leg of mutton, entered the butcher's shop. Depositing the meat on the block she began meekly, "Please, mother's sent the meat back."
"What's wrong with it, then?" sternly demanded the butcher.
"I don't know," answered the child.
"Didn't your mother send any message concerning it?" continued the butcher.
"No," she only said, "Tell him to put it in his nose and the meat will speak for itself."

TOURIST BOOKLET ATTRACTIVE ONE.
The booklet on New Brunswick, issued by the New Brunswick Tourist and Recreation Association, contains a lot of information valuable to the visitor who passes through here during the summer season. The names of some of the smaller places have been purposely omitted to leave room for information about postal regulations, motor trips, ferries, roads and other things of local value to the tourist. Another feature likely to prove of value is the grouping of the places in the order in which they are likely to be seen by passing through the province, rather than in their alphabetical order. The booklet is entitled "Vacationland, New Brunswick, Canada, and very attractively bound in a two-color cover. It contains, besides a great deal of valuable information, twenty-three photograph plates of actual scenes within the provincial boundaries.

MEASLES SERUM EFFECTIVE.
Prevents Deaths, Says State Health Board—Scarlet Fever Less Fatal.
Measles and scarlet fever are excessively prevalent this year in New York State, according to Dr. Edward S. Godfrey, Jr., director of the Division of Communicable Diseases. New York State Department of Health, who has just completed a tabulation of the cases and deaths from the principal communicable diseases reported during the four months ended April 30, 1923.
During this period 16,988 cases of measles have been reported in New York State, outside of New York City, as compared with 6,238 cases for the same months last year, while the average for the corresponding period during the last five years was 14,168 cases. The State Department of Health is obtaining most encouraging results in preventing deaths from measles by the use of a serum obtained from the blood of adults who have had the disease. This method of controlling mortality from measles is proving particularly efficacious in children's homes and institutions where the disease is commonly characterized by a very high proportion of deaths.
Scarlet fever, in spite of a larger number of cases, shows an exceptionally low fatality rate, only 7 deaths being reported this year out of 5,939 cases to the end of April. This is considered the most remarkable feature of the communicable disease statistics of the current year.
For the period referred to the cases of typhoid fever number only 263 this year as compared with an average of 363 for the last five years. Smallpox remains at about the five-year average, 184 cases having been reported this year. Last year, however, only 14 cases occurred during the same period.
Diphtheria, with 2,049 cases and 166 deaths, as against the five-year average of 3,024 cases and 274 deaths, continues to show a notable decline, a fact which should serve further to encourage the efforts to control this disease by means of the Schick test and immunization campaigns.

PREMIER KING TO HARVARD ALUMNI.
Cambridge, Mass., June 22.—Premier King of Canada, in an address before the Harvard Alumni Association yesterday said in part:
"Fourteen years ago," he said, "I enjoyed a privilege similar to that accorded me today, of addressing the graduates of Harvard and members of the alumni association at the Harvard commencement. At that time I took occasion to bring to those assembled greetings from my fellow Canadians. I am happy to be the bearer today of a like message of goodwill from the citizens of Canada to the people of the U. S. The momentous events of the intervening years have but served to strengthen the bonds of friendship between our respective countries. Above all they have disclosed how real is the inheritance which we share in common by way of origin and tradition and the earnestness of our democratic ideals and aspirations."

SUNDAY SCHOOL PICNICS.
(Ottawa Journal.)
In an article on the decline of the Sunday schools in the United States, it has been said that its lessening hold on the children of today was due to its juvenile outlook. The growing child and the child just about grown-up were kept back and taught to sing hymns with the infant class such as "Jesus Loves Me" and so forth. It would be foolish to deny that there is a stage when the boys or girls think they are far above such songs, but if the Sunday school in Canada is losing its hold—while we doubt—the cause probably ran far deeper than a dislike for certain hymns. To balance a disdain for childish songs, there is usually a fascination about Sunday school, a meeting with children that you do not meet every day of the week, the half church and half secular atmosphere, usually a half-dim light, for most Sunday schools meet in the basement, and in the old days there was the highly-prized privilege of getting a book from the library. This is not so popular nowadays when the children's department of the public library is available, but some Sunday schools still make this quite an active feature of their work.
But however unpopular the Sunday school is, certainly the picture presented there is always an augmented attendance around Easter and continuing up to the summer holidays. This may be due to the weather, or it may be due to the fact that the newspaper accounts of various Sunday school picnics these days remind one of perhaps the most potent cause for regular attendance.

It's June again, and in my soul I feel the thrill of joy
That's sure to come this time of year
To every little boy:
For, every June, the Sunday schools at picnics may be seen,
Where "aunts" say that the swells' floods stand dressed in livin' green."
Where little girls are sneered to death with spiders, bugs and ants,
And little boys get grass-stains on their go-to-meetin' pants.

We have read of Sunday schools men enough to ask that a certain number of them should be presented to us in admission to the picnic, but probably these only exist in fiction. Personally, we consider that any superintendent who attempts to restrict his would be deservedly unpopular. That would be carrying a desire for an excellent attendance just a bit too far.
Sunday schools are usually pretty generous with invitations. Small children with many friends are invited to join in other picnics than their own, and so long as they do not win all the prizes, are popular visitors. If you are not specially invited, however, you rarely had the courage of the lad Eugene Field tells about who once wrote:
"I joined the Baptists, an' goodness! how it rained!
But grappa says that that's the way 'n' once I joined the "Piscipals" 'n' had a heap o' fun—
But the boss of all the picnics was the Freshies!
They had so many puddins', salads, sandwiches, an' pies,
That a feller wud his stomach was as full as they was 'n' they was 'n' Oh, yes, the eatin' Presbyterians give yer 's' so fine
That when they have a picnic, you bet I'm gadin' to 'em!"

A rainy Saturday on a picnic day was a tragedy of no small dimensions. It rained sufficiently hard, and for so long a time, that the picnic was then automatically postponed. If it rained in a half-hearted fashion, however, you were in doubt if it would rain or not. But if the day dawned bright and sunny, your happiness went with you from six o'clock in the morning when you wakened without the aid of an alarm, and finally home in the soft dusk of a June evening. Picnics before the days of the Ford were rare events, and consequently precious. As you charged your handiwork wasn't likely to be so good as you thought it should, but you won one or two races and were satisfied. Then came some more play, then tea, and finally home in the soft dusk of a June evening. Picnics before the days of the Ford were rare events, and consequently precious. "COFFEE SMELLERS."
(Yorkshire Post.)
Prohibition is responsible for the coinage of the word "coffee smellers." By some it is regarded as a particularly nice bit of new slang, but from a new book just published ("All About Coffee," by William H. Ukers, New York) we find that the word is a slightly different form, was used as early as 1781.
At that time in Germany the drinking of coffee was permitted to only a few rich holders of Government licenses. Deputies were employed to spy upon the common people to see that they did not have the drink. These deputies used to follow the smell of roasting coffee to seek out those who did not have permits. In consequence they were cordially disliked and were called "coffee smellers" by the indignant populace.

Officers Elected By Baptist Body

The third annual meeting of the New Brunswick Southern Association of the Baptist denomination was continued yesterday afternoon and last evening in Waterloo street church. Rev. R. O. Morse gave an address on the importance of the Maritime Baptist and the support which should be given it. The report on education was presented by Dr. S. S. Poole. He told of the decision of Acadia University to remain outside the proposed federation of universities and said there was hard work ahead to keep the institution in good condition. A new lecture hall was to be built to replace that lost by fire and the Academy needed a large residence, more class rooms and a new assembly hall. He spoke very gratefully of the high standard of the faculty. A resolution was unanimously adopted calling for the support of the association to the college and urging the Board of Governors in their decision to remain outside the federation scheme.
D. W. L. Archibald, principle of Acadia Academy, spoke of the close relationship between the foreign missions, home institutions and the education of institutions which trained the workers. Dr. H. T. DeWolfe, principal of the Acadia Seminary, told of the good work done by Acadia University and of its need of support. It was following his address that the resolution of support was so heartily adopted.
Rev. C. Macdonald spoke on the importance of religious education and Sunday school work and explained the new Scripture memory course which had been completed by about fifteen in the district.

Officers Elected.
In the afternoon, the election of officers took place and resulted as follows: Moderator, Rev. David Patterson; vice-moderator, Rev. David Thompson; clerk, Rev. L. H. Crandall; chaplain, assistant clerk, Licentiate Wallace Forgey; treasurer, H. E. Hoyt; additional members of the executive, T. H. Estabrooks and M. Garfield White; to preach association sermon, Rev. T. D. Bell; alternate, Rev. A. Swainson; temperance committee, Rev. A. L. Tedford, Hon. Dr. W. F. Roberts and Rev. C. S. Young; educational committee, Rev. D. Bell and David Thompson; committee on resolutions, Rev. C. R. Freeman, Rev. T. B. Wetmore, and Rev. W. B. Crowell; representatives on convention examining council, Dr. W. G. Goucher, Rev. C. T. Clark, and W. C. Clark; home missions, Rev. C. T. Clark; Rev. Dr. W. C. Goucher; and Rev. L. B. Colwell; Sunday school, young people's work, Rev. C. R. Freeman, Rev. G. B. McDonald, and A. H. Chipman; foreign missions, Rev. Dr. B. D. Hutchins, Rev. F. Hubley, and Rev. K. M. Vallis; obituary committee, Rev. Dr. S. S. Poole, Rev. R. W. Hopkins and Rev. I. Brindley.

Lusitania and Laurentic Wrecks With Lost Vessels of Armada Expected to Give Good Harvest.
London, May 10.—(By Mail)—A vast fortune, variously estimated at from fourteen to twenty million pounds, is expected to be secured from the bottom of the sea during the next few months, writes a "Salvage Expert" to "The London Daily Express."
"With summer and more exact conditions at sea divers will be busy exploring the wrecks on the bottom of the Atlantic Ocean, North Sea, and the English Channel, where, with the vast sums of bullion involved in each case, lie the following ships:
King John's Treasure, The Wash, 12,000,000; Armada vessels, Lusitania, 1918, 25,000,000; Cromarty, Natal, 1918, 1918, 25,000,000; Laurentic, 1918, 25,000,000; Egypt, 1922, 25,000,000.
"The contract for work on the wreck of the Lusitania has only just been signed, with the approval of Lloyd's underwriters, and the contractors—a well-known firm of British marine engineers—will begin operations early next month. The sinking of the giant Cunard liner of 81,500 tons, carrying 1,255 passengers and 691 crew, by a German submarine on May 7, 1918, sent a shiver of horror throughout the whole civilized world. At the time of the disaster it was estimated that the Lusitania was carrying 25,000,000 worth of bullion in her holds.
"Operations to recover 25,000,000 worth of gold and precious stones, reputed to be hidden in the rusty holds of three Spanish galleons, lying in a narrow, rocky inlet at Tobermory, on the west coast of Scotland, is more in the nature of a treasure quest.
"A somewhat similar venture has been entirely equipped by a London woman, Mrs. Hunter, who some eight months ago fitted up her own yacht and set out to recover King John's fortune, said to be over a million, lost in the Wash when fleeing from the barons in 1217.
"One of the Lutins' guns now decorating the entrance to Lloyd's office, while the ship's bell is still used by the chairman at committee meetings when calling the company to order."

Widow Raps Mrs. Buzzi At Trial

estimate the value of the entire estate at present.

Ira D. Sankey, the evangelist, died in 1908, leaving a widow, Frances V. Sankey, and two sons, Ira Allan Sankey and John E. Sankey. When the widow died in 1910 she left \$70,000, but gave nothing to the sons, saying they had had more than their share of their father's estate. There were two grandchildren, Grace V. Sankey and Ira A. Sankey, Jr., who shared a part of the widow's estate. Ira A. Sankey died at sea on his second honeymoon in 1915.

Northfield, June 22.—Miss Grace V. Sankey, heir to the estate of Ira D. Sankey, noted evangelist, is the daughter of Mrs. John Phelps of this town. She was educated at a finishing school in New York, but has lived here with her mother for the last two years.

Happy Till She Took Husband Away, Sobs Mrs. Schneider

New York, June 22.—Mrs. Minnie Schneider, widow of Frederick Schneider, Bronx contractor, who was shot to death last February, took the witness stand for the prosecution soon after the opening of the trial of Mrs. Anne Buzzi for the murder.

Mrs. Schneider said her married life had been happy until Mrs. Buzzi took her husband away from her.

Dist. Atty. Glennon said the state would prove that Mrs. Buzzi had lived with Schneider for several years up to the night he was found shot in his automobile. He said that a short time before the killing Mrs. Buzzi had borrowed a pistol from her brother-in-law, William Turk, and that this pistol was the one found beside Schneider's body. The pistol, he said, had been given by a man in Boston an attaché of a circus and loaned by the latter to Turk.

James F. Donnelly, counsel for Mrs. Buzzi declared he would prove that another person shot the contractor.

Dist. Atty. Glennon declared he would show that Mrs. Buzzi had told Turk a few days after the crime that she had killed Schneider, saying that "if she could not have him, no other woman would."

Mrs. F. H. J. Dibbles, wife of Colonel Dibbles, occurred yesterday at her home in Woodstock after an illness of several months. She was seventy-five years of age and was a daughter of the late Hon. Charles Connell, first Carleton County representative after Confederation.

SANKEY WILL IS FILED AFTER FIFTEEN YEARS

New York, June 22.—The discovery of a bank account of \$1,750 in the name of Ira D. Sankey of the famous evange-

listic team of Moody and Sankey, led to the filing, this week, of the Sankey will, which has lain dormant since the evangelist's death in 1908, in Brooklyn.

The will, dated Sept. 13, 1902, provides for the equal distribution of the estate among his widow and his two sons, all of whom have since died. The major portion of the \$7,750 will now go to Grace Victoria Sankey, a granddaughter, of Northfield, Mass., the only surviving relative. The lawyers who die, Bronx contractor, who was shot to death last February, took the witness stand for the prosecution soon after the opening of the trial of Mrs. Anne Buzzi for the murder.

Present Petition For Option In The Matter Of Pasteurization

At a conference in City Hall yesterday between the St. John County Milk Dealers' Association, Dr. W. F. Roberts, Minister of Health, officials of the Board of Health and members of the Common Council, it was urged that citizens be given the right to buy either pasteurized or natural milk.

Mr. Riley asked that Adolph Stearns, manager of the City Road plant, should be requested to leave and Mr. Stearns complied.

Mr. Riley continued his attack on Inspector Tilley, charging he had worked with one end in view of getting a job as pasteurizing inspector with a "big fat salary attached."

Dr. Roberts said that it was an injustice for the legislature to pass the law of this kind and declared that he could have convictions under this act set aside.

FOUR CHILDREN DROWN; MATES SHOW HEROISM

Pair Die as Boatload Spills at South Boston—Five are Rescued—Boys, 10 and 15, in Brave Attempts.

(Boston Herald)

Four children, none of them more than 15 years old, lost their lives yesterday in drowning accidents in Greater Boston. The drowning of three of them brought out unusual feats of heroism from other children no older. Two of the fatalities occurred in Reserve channel, South Boston, another in the Charles river between Newton and Watertown, and the third in the Charles river basin, Cambridge.

It was the old trick of "rocking the boat" that caused the two deaths in South Boston, and almost cost the lives of five other children. Philip Anastasio, 15, of 589 First street, South Boston, disobeyed his elder brother, took a pair of oars and invited several of his chums to go on a boat ride.

Save Five Children.

The youthful party was about 75 yards off the plant of the Walworth Manufacturing Company, when the much merrier overturned the boat and all were thrown into the water. Anna Klunker, 15, of 8 City Point court, and Louis Jacobson, 15, of 6 City Point court, South Boston were drowned.

The cries of the others attracted the attention of Francis Alcey, 10, of 4 O street, and James Wilson, 15, of 18 City Point court, who swam out and seized Mary Klunker, 11, and Lillian Jacobson, 13. The two youths held the girls afloat, until more assistance arrived.

J. J. Duffy of 185 West Brookline street, South end, and M. F. Duffy, who were sailing on their yacht Lone Star, dived overboard and rescued Fred Jacobson, 15, of 2 Kimball place. Another rescuer who swam out was Andrew Logan of Spring street, South Boston. He seized Lillian Jacobson and her brother Louis, but the boy put up such a strenuous fight that he slipped from Logan's grasp and drowned before assistance arrived. The South Boston police recovered Anna's body, but are still searching for that of Louis Jacobson.

Try To Swim Charles.

The other drowning occurred when several Newton children attempted to swim from the Newton to the Watertown side of the Charles river, off the foot of Albemarle street, Newton. The youth drowned was Dominic Jerald, 14, of 22 Arroyo street, West Newton.

The group of children had almost reached the Watertown side of the river when Dominic became exhausted and sank. Instead of becoming panic stricken, the others, although tired out by their swim, dived again and again in the hope of saving their companion.

Finally, fully 20 minutes after the accident, Francis McDonald, 15, of 28 Faxon street brought the body to the surface. Chief O'Leary of the Watertown fire department tried to revive the lad with a pulmonary, but his efforts were of no avail.

Frank Devine, 9, of 116 Broadway, Cambridge, was drowned yesterday afternoon in Charles River basin, near

CHILDERS LEFT \$9,972

Irish Rebel Made Will Four Days Before Execution.

London, May 22.—(By Mail).—Robert Erskine Childers, of Bushy Park road, Rathgar, Dublin, described in his will as "Staff Captain, Irish Republican Army," who, in the official wording of the grant of probate, is stated to have "died at Beggar's Bush Barracks, Dublin," on November 24 last, left personal estate in the United Kingdom valued at \$9,972, of which the personal estate in England amounts to \$4,283. His will was made four days before his execution.

McClary's Electric Range embodies two features of such unusual merit as to set it ahead of all others.

1. The Protected Element—a smooth disk of tough porcelain that nothing can injure—no dirt can get into it to damage the coils.
2. The Seamless Oven—round-cornered—welded—porcelain enameled—easily kept clean and sanitary and most economical.

Policeman Jumps 20 Feet in Pursuit Of Fallen Burglar

Three Others Are Caught After Struggle in Dark in Basement of School at Hammer-smith, London.

New York, June 22.—Patrolman Peter A. Clinton was indicted for manslaughter and assault in connection with the clubbing of Thaddeus Lynch, who later died in Bellevue Hospital, and William Ahern, who was severely

beaten when he went to Lynch's assistance. Clinton was brought to the Criminal Courts Building by a fellow-policeman from the West 130th Street Station and was released under \$5,000 bail fixed by Judge Koenig in General Sessions.

The clubbing was brought to the attention of Mayor Hylan last week by Assemblyman Louis A. Cuvillier. It was also reported to the District Attorney and an investigation had been under way for several days by Assistant District Attorney Morgan A. Jones of the homicide bureau.

Stings of the Clubbing.

Lynch and Ahern, according to the stories of witnesses, were passing a barber shop at 1,899 Lexington Avenue on the afternoon of June 12, when they saw a truck belonging to the Van Buren Bill Postage Company, with a uniformed policeman on the driver's seat. The policeman was Clinton, who had been assigned to strike duty for the company. Ahern declared that neither he nor Lynch knew that there was a strike on, but that Lynch, in passing, called: "What do you say to a ride?" Clinton's answer, it is charged, was a terrific blow. Ahern charges that there was a strike on, but that Lynch, in passing, called: "What do you say to a ride?" Clinton's answer, it is charged, was a terrific blow. MRS. CHAMBERS RE-WEDS.

Widow of Well-Known Playwright Bride of Officer.

London, May 19.—(By mail).—Mrs. Haddon Chambers, widow of the well-known playwright, Charles Haddon Chambers, was married yesterday to Captain Sidney George Reilly at the Register Office, Henrietta street, Covent Garden. Having recently recovered from an operation for appendicitis, the bride, who is known on the stage as Miss Pepita Bolandilla, left a nursing home in Cavendish Square to drive to the Registry Office. The witnesses to the ceremony were Major Stevens Ally, M. C., Captain G. A. Hill, D. S. O., and the bride's sister, Captain Hill and Major Ally were both in Russia during the war, and Captain Hill shared the many exciting adventures which befell Captain Reilly when in the British Secret Service. After the ceremony Captain and Mrs. Reilly proceeded to the Continent.

Two minor accident cases of a similar character were admitted to the General Public Hospital yesterday afternoon. John Waddell and Ernest Denings each losing a finger. Waddell was hurt while at work at Acamac and Denings in the plant of Halsey Bros. & Co., Ltd. Both men will be kept at the hospital for a day or two.

New Beauty for Dainty Fabrics and much longer wear

The two worries you have in washing fine fabrics, dainty garments, are removed. You can launder them now with full confidence that fabric will not be harmed, or delicate colorings dulled.

Silks, satins, crepes, and dainty, expensive cottons come from the wash with new brilliance and beauty. In thousands of homes women are using PALMOLIVE PRINCESS SOAP FLAKES.

These pure white, crinkly flakes give a wonderful, "whipped cream" lather that dissolves dirt magically.

And save money in two ways: By giving longer wear from fine fabrics; and, being nothing but pure soap, they last longer—cutting soap cost.

You can't find anything better for use in the washing machine—nor, in fact, for all laundry or household use.

In handy one-pound packages or bags. Order some today and begin saving next time you wash.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

ANOTHER IS EXPELLED FROM STOCK EXCHANGE

New President is Said to Have in Mind a Sweeping Reorganization.

New York, June 22—Wall street, facing another day of thrills, started off this morning with the expulsion, by the Consolidated Stock Exchange, of P. G. Stamm, P. G. Stamm & Co. This was the first step in the cleaning up of the exchange to follow the announcement yesterday by William S. Sullivan, that he would resign as president on next Thursday. It was added that Lawrence Tweedy, selected as his successor, had in mind a sweeping re-organization of the exchange.

THE BOND MARKET

(A. E. Ames & Co's Circular, June 18.) Toronto.—There has been a general revival of interest in the bond market on the part of investors during the past week and some substantial purchases by institutions as well. Provincial bonds have been in good demand, particularly Province of Ontario. The Victory Loan market has been strong with an average improvement in price of about ten cents. The Trading market has also been active and prices slightly higher. Industrials and securities have been well received by investors. The houses making the Belgo Canadian offering report a splendid reception for this issue, and that industrial offerings of the best kind, will be well received.

Montreal.—The Municipal and Government Bond Market in Montreal during the past week has shown some improvement but prices have remained unchanged. Only two small new issues were sold by municipalities but prices which were obtained should be regarded as very satisfactory. There are no important municipal issues outstanding during the inactive summer months.

American Market.—The feature of the American market in Montreal this week has been the very successful flotation of an Austrian loan to the extent of \$25,000,000. This loan was subscribed very substantially and is now selling at a premium over the issue price. As far as the immediate outlook for the market in the United States as affected by Canadian Securities is concerned, we see very little change a sight. If new foreign financing on a large scale makes its appearance in the United States field, it is bound to cut down the demand for Canadian securities. The market in Canada has probably been slightly quiet.

MORNING STOCK LETTER

(McDougall & Cowan's Private Wire) New York, June 22.—Wall street seems to be gradually recovering from its attack of nerves. It is now confidently believed that the financial troubles are over. The statement yesterday by Secretary Mellon went a long way towards restoring confidence. The character of buying in the last two days has been decidedly good. Many weak accounts have been eliminated and the short interest is supposed to be still large. Directors of Corn Products meet today and an extra 1/2 per cent. is hoped for. As a consequence of liquidation, money should be in good supply for some time to come, and a general re-orientation of the position as being strong. No doubt, after the excitement of the last few days, the market will gradually quiet down and a period of dullness ensue.

LIVINGSTON & CO.

TO DEVELOP GYPSUM

Freeman I. Davison, banker, of State street, Boston, president of the Davison Company of New England, with several other engineers from New York passed through Truro on Saturday en route to Boston from Cape Breton. When interviewed by a representative of The Halifax Chronicle, Mr. Davison stated that his visit to his native province at this particular time was in connection with the development of the Great Bras d'Or Gypsum deposits in Victoria County. Mr. Davison said that the fact that the property was situated in a remote and was practically speaking, unlimited in quantity and of the finest quality to be found on this continent, had almost produced a sensation when brought to the attention of the consumers in the United States. When one considers that the requirements of the building industry on the Atlantic seaboard alone are somewhat over 1,000,000 tons a year and the foreign markets can use an equal amount more, the fact that an inexhaustible supply is at hand by means of cheap water transportation becomes a dominating factor in the success the enterprise, which Mr. Davison states he intends to develop to the fullest extent.

POLAND'S MONEY TROUBLE

Berlin, June 22.—The Polish Minister of Finance and Trade has resigned because of the new collapse of the Polish mark, according to a despatch from Warsaw. It adds that all the banks in Poland have been ordered to surrender their foreign currency holdings to the government today, and that meanwhile all the exchange markets in the country are closed.

New York, June 22. Stocks to twelve noon.

Table with columns: Open, High, Low, and prices for various stocks like Atchafalca, Am Int Sugar, etc.

PRICES UP AGAIN

WALL STREET

Confidence Apparently Restored—Burst of Activity in Montreal.

New York, June 22.—With public confidence apparently restored by the evidence of the powerful banking support extended to yesterday's market, buying orders were numerous at the opening of today's stock market, initial prices in some instances being one to two points above the final quotations yesterday. Dividend paying stocks were the best gainers, especially the high grade railroad shares.

NOON REPORT

New York, June 22 (noon)—Under the influence of a thorough liquidation of the market and a large short interest still outstanding, operations for the long account experienced little difficulty in pushing up prices substantially during the morning. Shares which bore the brunt of the recent depression naturally made the better gains, but advances of one to four points were widely distributed over the entire list. Equities, sugars, copper, and representative railroad issues were conspicuously strong. Call money opened at 5 per cent.

MONTEAL MARKET

Stocks to twelve noon. Open High Low. Atchafalca 108 102 104. Am Int Sugar 85 80 80.

Kirkpatrick Gets Suit of Clothes for Long Baseball Drive

Vets' Pitcher Scored on M. R. A., Ltd. Board Diamond and Receives Society-Brand Outfit.

On St. Peter's baseball field on May 24, W. Kirkpatrick of Rothesay, pitcher and out fielder of the G.W.V.A. sent out a hit which struck the diamond in the M. R. A. Ltd. advertisement sign for Society Brand Clothes, which under certain conditions, would entitle him to a suit of Society Brand Clothes. These conditions, as arranged with the officials of the St. Peter's Baseball Park, were as follows:

"If the batter hits this diamond with a ball from the home plate during regular league game, and it is attended to by the two umpires, and the official scorer on the ground at the time it is done, and corroborated by an officer of the league, we shall be pleased to present to the lucky batter a suit of Society Brand Clothes."

Mr. Kirkpatrick announced that he was apparently creditably informed that all the conditions had not been complied with, and there was some doubt as to whether or not he was the matter, but as Mr. Kirkpatrick applied for his suit of Society Brand Clothes, they decided, as it was the first time the diamond had been hit, not to wait for the official corroboration and accordingly the lucky batter duly received his suit of Society Brand Clothes.

Just now, however, M. R. A. has received from W. J. McMahon, manager of St. Peter's baseball park, a letter stating that there was no doubt that the ball hit the diamond, and the following certificates have been received:

"W. J. McMahon, Eq., President Independent Baseball League. Dear Sir:—This is to certify that on May 24, 1923, W. Kirkpatrick, pitcher of the G. W. V. A. baseball club, struck the diamond in the M. R. A. Ltd. advertisement in the first inning of the afternoon game."

"W. J. McMahon, Eq., Pres. Int. B. B. League, St. John, N. B. Dear Sir:—This is to certify that on May 24, 1923, W. Kirkpatrick, pitcher of the G. W. V. A. baseball club, struck the diamond in the M. R. A. Ltd. sign with a legally pitched ball in a regular league game between the M. R. A. Ltd. and the G. W. V. A. teams in the first inning of the afternoon game."

Signed W. H. B. League. Official Umpire I. B. B. League.

STATEMENT RE THE UNION BANK

Commendation of Course Taken and of Candor in Announcement.

Winnipeg, June 22.—W. R. Allan, president of the Union Bank of Canada, on behalf of the directors, yesterday made public a statement to the shareholders setting forth action which had been taken following examination into the position of the bank which has been going on for some weeks. The examination was concluded only a few days ago and there has been prompt action to put the bank in a position which would soundly and emphatically be commended by the president. There has been the most rigid and drastic investigation of the bank's assets and commitments not only by officers of the bank, but also by a high official of the Bank of Montreal, whose services were obtained for this purpose.

The directors of the bank, to cover losses and shrinkage in assets, have transferred to contingent reserve from trust account the sum of \$4,250,000. This is believed to amply cover all charges of this character and may indeed supply a considerable margin which will not need to be expended. The investigation to which reference was made were in relation to operations in sterling exchange and American dollars and had nothing to do with the bank's Canadian operations. Their losses were provided for in connection with the last annual meeting and the shareholders have known about them.

The bank has an unimpaired capital of \$8,000,000 and a trust account of \$1,750,000, and in a position, it is pointed out, to continue to give effective service to its patrons. It is understood that the Bankers' Association of Canada has approved of the policy which the bank management has followed as being in keeping with sound and careful banking.

Dear Sir:—This is to certify that on May 24, 1923, W. Kirkpatrick, pitcher of the G. W. V. A. baseball club, struck the diamond in the M. R. A. Ltd. advertisement in the first inning of the afternoon game."

Veterans to Stage A Demonstration Against Senate

Vancouver, B. C., June 22.—Those in charge of the agenda for the Dominion convention of the G. W. V. A., opening on June 23, have decided to stage a demonstration against the Canadian Senate for refusing to give assent to the Commons' recommendation based on the report of the Royal Commission.

SUSSEX SPORTS FOR THE HOLIDAY

(Sussex Record.) By the number of telephone calls, telegrams and enquiries about the July 2nd meet from outside athletes and secretaries of clubs, it looks as though more interest than ever is being taken in the big Dominion and sports to be held at Sussex, which is only an annual event, and which is the only meet sanctioned in New Brunswick for that day.

Committees in charge advise the Record that there is even more interest than ever shown in this meet. Possibly this is due to the fact that the mill at Corner Brook will be placed 5,000 men will be employed, already on the ground, and the work of running out the shipping piers is now well under way. Other steamers with crews and laborers working at Corner Brook, where the finishing plants will be erected. A shipload comprising several locomotives, five steam shovels and other machinery, is already on the ground, and the work of running out the shipping piers is now well under way.

Greater interest is being shown in the Dominion and in the fact that the Sussex athletes are being watched by other provinces, which will no doubt advertise the town of Sussex to a great extent. There will also be a silver cup put up for the highest individual aggregate. The athletic meet starts at two o'clock in the afternoon. At ten o'clock in the morning the fast St. John Trojan baseball team will stick up against the local Blue and Whites.

Dear Sir:—This is to certify that on May 24, 1923, W. Kirkpatrick, pitcher of the G. W. V. A. baseball club, struck the diamond in the M. R. A. Ltd. advertisement in the first inning of the afternoon game."

NEW TOWN AT BAY OF ISLANDS

Great Development of Pulp and Paper Enterprises at Humber River is Under Way.

"We expect, inside of two years, to have a town with a population of at least 15,000 people on the shore of Bay of Islands," said A. L. Barrett, managing editor of The Western Star, Curling, Nfld., who was in Halifax attending the Canadian Weekly Newspapers' Association Convention. "With the erection and operation of the new pulp and paper plants on the Humber River, we look for an influx of at least that many workmen and their families. The Northern Construction Company of Ontario has at the moment a gang of engineers and laborers working at Corner Brook, where the finishing plants will be erected. A shipload comprising several locomotives, five steam shovels and other machinery, is already on the ground, and the work of running out the shipping piers is now well under way.

Greater interest is being shown in the Dominion and in the fact that the Sussex athletes are being watched by other provinces, which will no doubt advertise the town of Sussex to a great extent. There will also be a silver cup put up for the highest individual aggregate. The athletic meet starts at two o'clock in the afternoon. At ten o'clock in the morning the fast St. John Trojan baseball team will stick up against the local Blue and Whites.

Dear Sir:—This is to certify that on May 24, 1923, W. Kirkpatrick, pitcher of the G. W. V. A. baseball club, struck the diamond in the M. R. A. Ltd. advertisement in the first inning of the afternoon game."

"W. J. McMahon, Eq., Pres. Int. B. B. League, St. John, N. B. Dear Sir:—This is to certify that on May 24, 1923, W. Kirkpatrick, pitcher of the G. W. V. A. baseball club, struck the diamond in the M. R. A. Ltd. sign with a legally pitched ball in a regular league game between the M. R. A. Ltd. and the G. W. V. A. teams in the first inning of the afternoon game."

Starts to Sketch At Forty and Finds Any One Can Draw

London, June 22.—(By Mail).—Fired by the achievement of the lady who, at the age of seventy, had a picture accepted by the Royal Academy, I have started to carry a sketch book with me on my excursions, and find to my surprise that (while I call a good way short of being even a second-rate artist) I am not, in this matter at any rate, too old at forty, but can already make tolerable likenesses of simple things that appeal to me," writes Maurice C. Moore in "The London Daily Mail."

Funds For Chinese Students in Japan Envoy's Big Worry

Minister to Tokio Expected to Resign Post if Money Is Not Set Aside for Those Who Bombard Him.

London, May 25.—(By mail.)—It is an open secret that the Chinese Minister to the Court of Tokio has found it much more difficult to provide the funds necessary to enable Chinese students to continue their studies in Japan than to carry on his delicate diplomatic work in the capital of the Mikado, writes Gomonse Kami, in The London Daily Mail.

"The honorable brains of His Excellency were from time to time absorbed by this tough financial problem. But the present Chinese Minister in Tokio—now in Peking on leave of absence—is said to be firmly resolved not to return to his post unless and until adequate means have been found to put an end to the ever-increasing difficulty of providing for the maintenance of the Chinese students in Japan.

"Fortunately the Japanese Government has now definitely decided to devote the remainder of the Chinese boxer indemnity due our country to promoting the progress of China in general and the interest of Chinese students in particular.

"In addition to many praiseworthy efforts to assist the Chinese at home, a monthly allowance of 25,000 yen (more than \$10,000) has been allocated for the assistance of Chinese students in Japan, who number about a thousand.

"When each of these worthy young representatives of New China is provided with twenty-five yen a month, and all are thus relieved of pecuniary worries and the recurrent necessity of bombarding their poor, dear Chinese Minister for funds, it is confidently expected that they will devote their whole time and energy to the acquisition of knowledge and learning which may help them to save their country from ruin and lead it to prosperity and peace at home and abroad.

"It is generally expected that all students, whatever their nationality, will avoid all interference in politics and devote their whole time to their studies."

MAGICAL BEAUTIFIERS FOR WOMEN

Women everywhere are trying all kinds of beautifiers, only to find that their effects are transitory. The first requisite of beauty is health. Without it the steps lag, eyes are lusterless, dark circles appear beneath the eyes, the complexion becomes sallow, and almost invariably the underlying cause is some ailment peculiar to women.

There is a very inexpensive remedy for this condition in Lydia E. Pinkham's Vegetable Compound, which for nearly fifty years has been relieving women from some of the worst forms of female ills. Why not let it restore you to health and beauty and the joys of living?

Edward Scott Scribner and Charles Carlin both pleaded guilty in the police court yesterday afternoon to fighting a fine of \$20 on each. Carlin paid his fine but Scribner did not have the money and he was sent into jail. William McAleer pleaded guilty to having been overstrength in his beer shop in Marsh road and he was fined \$200. He paid up.

400,000 In U. S. Die Yearly From Preventable Diseases

Santa Barbara, Cal., June 22.—(Associated Press.)—"There are more than 400,000 deaths in the United States every year from preventable diseases," said Dr. William F. Snow of New York in addressing the National Tuberculosis Association today.

"The death rate from such diseases as tuberculosis, syphilis, gonorrhoea, infantile diarrhoea, typhoid fever and others have declined largely as a result of the application of scientific knowledge and community organization. The next forward step in further life saving in this country must come through more creative co-ordination of existing health agencies.

"In addition to the officially constituted health officers in various states and cities throughout the country, there are from twenty to fifty different voluntary health agencies, each striving to get over a particular programme. To reduce the death rate from preventable diseases to a practical minimum these organizations must be getting together of these organizations.

"This is a task which the National Health Council has set for itself. Already very definite steps have been taken in this direction by the national health agencies, including the American Social Hygiene Association, National Committee for Mental Hygiene, National Organization for Public Health Nursing, National Tuberculosis Association, American Public Health Association, American Red Cross, Conference of State and Provincial Health Authorities of North America, Council on Health and Public Instruction of the American Medical Association, the American Society for the Control of Cancer, and a number of other associated national agencies."

Motor 2,100 Miles To Rock In Cradle

Porters Travel From Omaha to Ancestral Plymouth.

Plymouth, Mass., June 22.—Mr. and Mrs. Thomas Reynolds Porter, Jr., who traveled 2,100 miles, by automobile, this week fulfilled the family custom and rocked their 3 1/2-year-old son in the "Sassafras" cradle, which has been in repose in a glass case in Pilgrim hall for years. The cradle is one that was used first 300 years ago to rock the infant son of Dr. Samuel Fuller, the physician of the Mayflower and afterwards physician of Plymouth colony.

The ceremony took place in Pilgrim Hall, and after the rocking of Thomas Jr., Eleanor Rae Fuller, infant daughter of Mr. and Mrs. Samuel Fuller, also rocked in the historic cradle. Both children are direct descendants of the Pilgrim, Dr. Fuller, and it is tradition that every direct descendant shall be rocked in that particular one.

The Porter child is the first of the direct line of the Plymouth Colony to be born out of this state. His mother, Mabel Porter, a native of North Abington, is a direct descendant of Dr. Samuel Fuller. His father, Dr. Samuel Porter, Jr., is the 10th generation in descent from Dr. Samuel Fuller.

SCHOOL FOR THE DEAF.

(Halifax Chronicle.) The School for the Deaf is well maintaining its record as one of the most successful and efficient institutions of the kind. It has now reached the venerable age of sixty-six years, but under the competent direction of Principal Bateman, who brings exceptional gifts to a worthy calling, it is going forward constantly to new successes. The education and training of deaf children is a specialized branch of teaching which demands infinite pains and patience, and, above all, the spirit of true sympathy. But all who have had the privilege of attending the closing exercises and witnessing the work of the pupils know what wonderful results have been achieved. Halifax may well be proud of the School for the Deaf, and its principal and his staff well deserve not only congratulations upon their work but whole-hearted public support. It is an institution doing so valuable a service that it should never lack adequate aid.

Physical Measurements Show the Champion and Challenger Are Evenly Matched.

New York, June 22.—The Canadian Mountaineer called on Tuesday for Chertoung and Southampton with 1,098 passengers. Just after she moved out into the river at 10 o'clock William Whitney Rasmussen arrived on the pier and hired a tug to take him off to the liner. He said there was a \$300,000 job depending upon his getting to London quickly. He said that he came from his summer home at Westport, Conn., and the train was an hour and a half late.

Mr. Rasmussen explained that he was a member of a firm of architects, Rasmussen & Weyland of New York, and was going to Salisbury, England, to copy the King's house for reproduction at Des Moines, Iowa, for Carl Weeks, who had made a fortune in face powder. It will cost \$300,000.

Among the first cabin passengers were several British delegates to the Advertising Club's Convention held recently at Atlantic City. John Chesire of Lever Brothers, London, President of the Thirty Club, gave out a statement on behalf of his colleagues sailing with him on the ship, Harold C. Vernon, J. C. Akerman of The London Times, Daily Telegraph, Sir Robert Baird of The Belfast Times and others.

Mr. Chesire referred to the unbounded hospitality extended to the British delegates at Atlantic City and the courteous manner in which the Houston, Texas, delegation withdrew their claim to have the convention of 1924 held in their city, and added that it would be remembered in London next year. He also thanked Americans generally and Mayor Hyman for their hospitality.

The return to New York and the visit to Philadelphia, where Rodman Wanamaker entertained them, were also mentioned among many other features of their stay in the United States, including the visit to Washington and the reception at the White House by President Harding. With regard to the treatment accorded to them by the American press, Mr. Chesire said: "How wonderful the American newspapers have all been to us. The press in New York, Philadelphia, Washington and Atlantic City was most generous. I don't think any of us Brits has ever had so many photographs published in our lives before. And the editorial and news support for our mission has always been most generous."

In a hurry trial, I believe the International Association of Advertising Clubs has this year done more to better international relations among all the associations of the world than any other association or body of men, and we of Great Britain and the British Empire intend to carry out our own greater heights and greater purposes for the advancement of world peace and business prosperity at our convention in London in 1924, which you so well started in Atlantic City."

FRENCH ARTISTS SUED Nephew Resents References to Dead Painter's Poverty

Paris, May 18.—(By Mail.)—M. Van Dongen, the artist, was yesterday charged in the Paris courts with having used defamatory words in regard to the late M. Monticelli, the "Marseilles painter."

In a lecture in which he expressed appreciation of M. Monticelli's talent, M. Van Dongen argued that the artist's work had gained by the circumstance that he lived in poverty. The remark was brought by M. Louis Monticelli, a nephew of the painter, who resented what he described as insulting and untrue reflections on his uncle, who had, he declared, a comfortable income and plenty of orders for his pictures. M. Camille Maucclair, Henri Lapanne, and M. Jean Desbrieux were also accused with M. Van Dongen on similar charges.

During the proceedings, Mr. Van Dongen made a number of sketches of the persons present. The hearing of the case was adjourned.

At your druggist SHEIKS TO CO-OPERATE. Iraq Will Be Opened For Tourist Traffic.

London, May 18.—(By mail.)—The project for a Haifa-Baghdad motor service across the Syrian desert, announced in the Times yesterday, has aroused much interest.

It is proposed to start a weekly service in the autumn for passengers and mails, using special cars carrying large water condensers, so as to make a non-stop run across the desert between Damascus and Ramdani in one day.

This would, it is believed, enable Cook's to open Iraq to tourist traffic. The promoters, the Nairn Transport Company, have secured the co-operation of Arab sheiks, who guarantee the security of the desert. The project will supplement the air mail and also enable Indian passengers for Europe to traverse Iraq.

QUICK MOVE AFTER ALARM CLOCK GOES OFF KILLS HIM

Attleboro, June 22.—A too quick response to the ringing of an alarm clock is given as the cause of the death of John Peter of Dodgeville. He had been subjected to a heart attack. As he jumped up quickly the sudden exertion proved fatal.

Another thing impressed me at Epsom. What a remarkable contrast in personality and looks between the outside bookies and their tick-tack assistants. All through the day the latest odds quoted in the ring was signalled broadcast from the grand stand by a shirt-sleeve operator using a special code of arm-sensaphone. After a full Derby Day these gymnasts must have earned a night's repose. It is like doing five hundred exercises a day for five hours on end. But the tick-tack signals are read through field-glasses by each outside bookmaker's assistant who is perched behind his glasses glued to face, end enabling him to alter his advertised table of odds from time to time. ROYAL WELCOME FOR THE PRINCE AT DERBY MEET

A Study of the Crowd at the Great Horse Race.

Reginald McKenna Not a Certainty for the Post of Chancellor—Salvation Army Lassies in Silk Stockings—News Topics of London.

(From our own Correspondent) London, June 7.—The Prince of Wales got a royal welcome at Epsom for the great race of the year. He looked debonair and happy—as a sportsman who hates public ceremonies and talking well might on an eminently sporting occasion where there is no ceremony and only shouting. The Derby crowd seemed to me to be above the usual size, and of quite the usual assortment. In the paddock you could not stir for great noblemen and illustrious personages. On the health you could hardly stir for packed humanity of all sorts. I saw some of the handsomest faces, and some of the most repellent, in the vast multitude that watched the final reformation of so many confident prophecies and so many convincing visions. The best of the Derby is that, taking your stand on the grand and open common, just across the narrow valley in front of the grand stand, you can follow the finish easily. A night's shoot, as of the fall of the waltz ericho, tells you "They're off!"

You can follow the invisible progress of the racers round the track by the unanimous gaze of the grand stand, where every head slowly moves in unison with them. And finally the famous horses, venting a terse, with gorgeous jockeys urging them on, flash to view for the finish. A thrilling spectacle always—even though your horse seems to be suffering from the same complaint as Mark Twain's jumping frog.

The Absentee. If you mingled with the real Derby crowd at Epsom—outside the respectable enclosures on the open but congested heath—you rubbed shoulders with elements of human nature one might find. Amongst other things, you realised how loyal the sporting laity is to its own special heroes. In the sudden interval of betting talk the same phrase fell from many lips—"Poor old Bottomley!" There was a world of tragic pathos in it from several points of view. I mean that here was the one grand day of all the calendar—the days of days—the Derby! And Horatio Bottomley, the worshipped hero of these sporting sports who loathe a wetter, was unavoidably detained elsewhere. There is something touching in such fidelity to such a very human god. But prison regulations are relaxed on Derby Day in the case of such a person as Mr. Bottomley. Mr. Hooley newspaper for more than a year. Surely Mr. Bottomley, who is reported to be exceedingly popular, as usual, even in his present surroundings, must get some friendly tidings from Epsom on Derby Day.

Contrasts. Another thing impressed me at Epsom. What a remarkable contrast in personality and looks between the outside bookies and their tick-tack assistants. All through the day the latest odds quoted in the ring was signalled broadcast from the grand stand by a shirt-sleeve operator using a special code of arm-sensaphone. Terrible Headaches And Dizziness

Miss S. Raphael, 287 Kenilworth Ave., N. Hamilton, Ont., writes—"I used to suffer from terrible headaches and dizziness. Last summer, while I was walking up a side street, I got a dizzy spell and fell in the middle of the road. An old gentleman helped me to get to where I was going and told me to get a vial of Milburn's Lax-Liver Pills. Well, I did, and they did wonders for me. I don't know how to thank you, as I don't get headaches or dizzy spells any more."

When your liver gets sluggish and inactive your whole health suffers, and the only way to keep well is to keep the liver active and performing its proper functions by using Milburn's Lax-Liver Pills.

Some calm consolation for merely ordinary affairs there was nothing. And now there is a hue and cry throughout London to discover who he was commemorated in a marble bust. When it is stated that it is less than sixty years ago since he died, the sardonic joke of the thing reaches its point. This great city worthy of its name in its many splendid monuments is mourned as of a prince in Israel. Sculptured busts perpetuate his illustrious memory. And sixty years later London asks—Who is he? Such is contemporary fame. "Time hath, my Lord a wallet at his back, in which he puts—alms for oblivion."

The New English. The New English Art Club show at the Fall Mall galleries is well worth a visit by anyone seriously interested in pictures or drawings and intelligently concerned about modern tendencies. The impression the show produced on me, in mass, was that, while there are many things in it that are merely crude failures and dismal failures to achieve the desired end, there are some rarely beautiful works worth infinitely more than anything in this year's Royal Academy—except Orpen's portrait of a picture. John Wheatley's portrait of Ronald Dods, is the best portrait there—a most convincing

piece of characterisation in the modern style. You felt that you knew the gentleman intimately, and could name his tailor too. Eric George's "Martyrdom of St. Sebastian" is a finely drawn and superbly colored picture. I should like to purchase some of the landscapes, notably Rothenstein's Cotswold Farm, Harnam's Sarson Farm, and, amongst the many superb drawings, K. A. West's "A Garden in Kensington." The Imperial War Museum has purchased John Dodgson's "Moths Transport"—after turning down Orpen's Academy picture, which is one of those things no man can understand. As well might one reject the Abbey and buy a soap factory.

The following telegram, from Senator O. Ferguson, Ottawa, has been received by G. Earle Logan, honorary provincial secretary-treasurer of the G. W. V. A.: "Notwithstanding action of Senate, referring to special committee legislation secured by report of Ralston Commission, I believe Bill will be finally adopted by the Senate. It will receive my earnest support and advocacy."

Rheumatism A Remarkable Home Treatment Given by One Who Had It In the year of 1899 I was attacked by Muscular and Sub-Acute Rheumatism. I suffered as only those who are thus afflicted know for over three years. I tried remedy after remedy, but such relief I obtained was only temporary. Finally, I found a treatment that cured me completely and such a pitiful condition has never returned. I have given it to a number who were terribly afflicted, even bedridden, some of them seventy to eighty years old, and the results were the same as in my own case. I want every sufferer from any form of muscular and sub-acute rheumatism, to try the great value of my improved "Home Treatment" for its remarkable results. Don't send a cent; simply mail your name and address, and I will send it free to try. After you have used it, and it has proven itself to be that long-sought-for means of getting rid of such forms of rheumatism, you may send the price of it, One Dollar, but understand do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer, when relief is thus offered you free. Don't delay. Write today. Mark H. Jackson, 185 J. Durston Bldg., Syracuse, N. Y. Mr. Jackson is responsible. Shelby, Mont., June 22.—A study of the measurement of Dempsey and Gibbons shows that they will be the most evenly matched heavyweights who ever fought for the title. Corbett was twenty-three pounds lighter than Sullivan when he wrestled the crown from the old master. Fitzsimmons, in turn, was twenty-two pounds lighter than Corbett. Fitzsimmons had to give Jim Jeffries fifty-five pounds when he lost the title, and Jeffries had a decided edge in both height and weight when he lost the title to Jack Johnson. The big black man looked like a boy beside the hulking Willard at Havana, and Dempsey gave away everything but the victory when he faced the Potawatomi giant at Toledo. There will be no such discrepancies when Dempsey and Gibbons answer the gong at Shelby.

Dempsey will be a quarter of an inch taller and possibly eight pounds heavier. In all other respects the champion and challenger will be so evenly matched that further comparison is not worth while. Even in age there is only one year's difference between the two. Gibbons has been reported as thirty-four years old, but he denied it vigorously. Tommy says his brother Mike is thirty-four, but they are not twins, and that he is only twenty-nine. He adds that the record-books always have had his age wrong, but that he has never thought of it until now. As he is to battle for the championship, however, he wants his friends to know that he is not an old man meeting a youngster; that the contest will not be another of those struggles between age and youth. The latest figures on Dempsey and Gibbons taken from measurements made in public follow:

HEAT CAUSES TRAIN WRECK
Engineer Killed When Spreading Rails Throw Locomotive Off Track.
Philadelphia, June 22.—Spreading rails, due to heat, are believed to have caused the wrecking of a local passenger train on the Honesdale branch of the Delaware and Hudson Railroad at Prompton, three miles west of here, in which an engineer was killed and a fireman seriously injured.

The dead man was J. Arnold of Honesdale. The fireman, who lies in a hospital here, badly scalded, is James McDonald of Carbondale. He was making his first trip in place of the regular fireman.

The train was derailed in a deep rock cut, and the engineer was caught between the locomotive and the jagged rocks. The baggage car was derailed, but the rest of the train did not leave the tracks. No passenger was injured.

ST. JOHN'S TURN FOR ROWING CHAMPS
What Halifax May Do in Amateur Boat Racing—The Pictou Events.
(Halifax Chronicle.)
The amateur boat racing for the season is rather unsettled yet, so far as Halifax is concerned. The weather up to the present has not been any too good for training, but the singles and four-oared shells have been manned and in the water numbers of times. The local clubs have been invited to go to Pictou for the Hector celebration regatta, but to date the information as to the programme is limited. The shell racing is scheduled to take place at Pictou July 18 and 19, and beside racing for shells there is to be racing in other classes of boats and a navy regatta. It is thought possible St. John may be represented in the shell racing and most, if not all, of the Halifax clubs would wish to be represented if satisfactory arrangements as to a proper car for carrying the shells to and fro could be assured. It is expected, however, full information regarding the Pictou meet will be received here today or tomorrow. St. Mary's Club had in mind the running of an excursion from Halifax to Pictou for the regatta there, but as excursion rates are being given all over the Dominion for the Pictou Hector celebration these rates could hardly be beaten by a local excursion operated for the purpose of aiding in the expense of sending a representation to the regatta.

It has been suggested that Halifax might be represented by a four at the Canadian Henley at St. Catharines, Ont., July 27 and 28, or the National, at Philadelphia a week later, or both, but the proposal has not been generally taken up just yet.

As to four, it is understood St. Mary's Club will have as their senior quartette the four who manned the boat last season. The North West Arm Club senior four may have a change in personnel and likewise the Jubilee crews may show some changes. The Lorne Club has a crew out, with Callahan of last year's Arm crew in the bow, while Dartmouth is expected to send out a strong four, which will

include the Curren brothers, so well known in shell racing in the past. As to single scullers, there are more of them, including young new blood, ever before, and at times they seem to move in flocks as it were.

Pending determination as to representation at Pictou the local club regatta dates are not announced. It is St. John's turn for the Maritime championship regatta this season and might be well if the Maritime date was announced so that the clubs could govern themselves accordingly.

In the meantime things are growing active in boating and interest is working up for the season.

DOUGHERTY TO GET \$5,000 FOR REFERREING DEMPSEY BOUT
Philadelphia, June 22.—James F. Dougherty of Ridley Park, near here, has received a telegram definitely accepting his terms to referee the Dempsey-Gibbons fight at Shelby, Mont., on July 4. Dougherty has been identified with boxing for twenty-five years as referee, promoter and manager. Dougherty was a wrestler in his youth. The telegram came from Don Tracy, head of the committee promoting the bout. Dougherty's terms were \$5,000 and expenses. Dougherty announced he would leave next Tuesday for Montana. It will be the third time Dougherty has refereed a fight in which Dempsey has taken part. The first was in Philadelphia, when Jack knocked out Battling Levinsky, and the second at Benton Harbor, Mich., when Billy Miske fell a victim to Dempsey's knock-out punch.

JUDGE J. A. BARRY SWORN IN TODAY

Congratulations by Chief Justice McKeown and Members of Bar.

With warmest congratulations from bench and bar His Honor John A. Barry was sworn in this morning at 11 o'clock Judge of the Saint John County Court by His Honor Chief Justice McKeown. Judge Barry's commission reached the city yesterday afternoon from Ottawa. Taking advantage of the fact that he was presiding at an adjourned sitting of the Circuit Court the Chief Justice summoned the new county court judge to the court chambers in the Fugley Building and there administered the oath of office. At the same time after reading the royal document the Chief Justice spoke very nicely concerning the appointment of Judge Barry, extending heartiest congratulations to him.

W. H. Harrison, K. C., in behalf of members of the bar with permission of the court addressed the new incumbent of the county bench in flattering terms complimenting him in behalf of his associate members of the bar with whom he said the appointment was a very popular one. Speaking in behalf of the junior members of the bar W. M. Ryan expressed himself in similar terms. Judge Barry making reply spoke in well selected words of the honor accorded him and thanked Chief Justice McKeown for adjourning the business of his court for the purpose of swearing him as well as for the kindly thoughts expressed. He also included thanks to the members of the bar for their good wishes and asking their cooperation with him in any matters having to do with the business which might come before him in the court. He assured all that he would at all times endeavor to conduct affairs justly and conscientiously and to the best of his ability.

ADVOCATES BARRIS

Rev. R. M. Legate, Witness in Bigamy Case, Expresses This View.

The evidence of Rev. R. Moorhead Legate was taken in the police court this morning in the case of John Gardner, charged with bigamy. Mr. Legate said he was pastor of Knox Presbyterian church and that on October 22, 1922, he married John "Gordon" and Miss Mabel Powers at his residence in Wright street. He produced the license upon the authority of which he married them. The license bore the name of John "Gordon" and he could not swear that the accused was the man he had married. The people were strangers to him and he asked them why they had come to him. The room had said that they had come because the bride had been attending his church. He was unable to find her name on the lists. He strongly advocated the publishing of names.

Baptist Association Adopts Home Mission Report

Burden Too Heavy for One Man to Superintend Maritime Provinces Work—More Church Figures Given Today.

A great deal of discussion was occasioned at this morning's session of the annual meeting of the New Brunswick Southern Association of the Baptist Church during the reading of the report on home missions by Rev. C. T. Clark. It was suggested in the report that a great deal could be accomplished in the way of supplying the pastorless churches of the association. New Brunswick now has a superintendent of her own. The work of covering the Maritime Provinces was said to be too heavy for any one man and, while the committee felt that there was a need of another man for this province. While this matter was supported by several of those present, some suggested that the great need was not for another man to superintend the work in the fields but for several men to do the work necessary and for funds to provide for these men. After nearly one hour of discussion, the report, calling for a New Brunswick superintendent with powers equal to those of the present Maritime superintendent, was adopted. The United Baptist Women's Missionary Union held a devotional service this morning in the Sunday school room of the church and took charge of the afternoon meeting of the association. Rev. W. A. Robbins was again this morning the leader of the devotional service preceding the business session. He preached a powerful sermon on the Garden of Gethsemane as a watch tower. Rev. John A. Swetnam sang and Rev. F. A. Hubley led in prayer. As Rev. C. F. Clark rose to lead the report of the home missions board, a motion was unanimously passed that an invitation to a seat at the meeting be extended to Rev. W. S. Tedford and Miss E. M. Harrison, two returned missionaries who were present. Mr. Clark's report told of the provision of men by the home missions board for thirty-three churches, including fifty-five preaching stations. In the association during the last year the board had provided for 662 families, which included 977 resident church-members and 1078 Sunday school members. There had been 807 sermons preached as well as 415 other meetings. Twenty-five had been added to the church by baptism and the sum of \$4,124.23 had been raised in the fields covered by the board. The financial report of the board showed a deficit of \$32,112 for the year. The Maritime Provinces, the contributions were \$15,800.07 while the expenditures amounted to \$18,412.19. For New Brunswick the contributions were \$5,898.18 and the expenditures \$7,076.80. The work among the colored people and the possibilities in this direction were mentioned and figures were given showing that there were now fifteen churches for colored people embracing 494 families, with 202 resident church members and 409 Sunday school students. The sum raised by this department of the home missions field was \$4,060.29. The last clause in the report, calling attention to the present large number of pastorless churches in the association, and suggesting that the appointment of a New Brunswick superintendent of the board would help to relieve the difficulty, caused a great deal of discussion. Rev. Mr. Clark said that the present superintendent, Rev. C. S. Mason, of Wolfville, was doing the hardest work possible now but was physically unable to call on all the fields or to cover all the Maritime Provinces. Among others speaking on this question were Rev. Dr. David Hutchinson, Rev. Dr. S. S. Pool, Rev. C. R. Freeman, Rev. W. A. Robbins, Rev. H. H. Titus, Rev. Dr. W. C. Goucher and D. C. Clark. Owing to the length of the discussion the rest of the morning programme was set over to the afternoon and it was decided to reconvene at 2 o'clock. The first item of business in the afternoon was the report on foreign missions by Rev. F. A. Hubley. This was followed by the report on obituaries. The report on obituaries was read by Rev. A. L. Tedford, who told of the death of 136 members of churches in the association, speaking a kindly message of sympathy to the friends and relatives left to mourn them. Among those mentioned in the report were Rev. Dr. David Hutchinson, Rev. David Patterson, of Cambridge, the newly elected moderator; Mrs. Johnson, wife of Lieutenant C. E. Johnson, of Otisburg; Rev. Dr. E. W. Kelly, missionary in India under the American Board of Missions, who was a former resident of St. John and who was a member of the Central Baptist church until his death; Deacon David Nichol and Leverett W. Clark, of St. Stephen; and Deacon Simon Wilcox, of New-Town.

SENTENCE IN CONNOR CASE

At an adjourned sitting of the Circuit Court this morning Chief Justice McKeown passed sentence upon Arthur Connor charged with using to his own purposes money which belonged to another. He sentenced him to nine months in the county jail the sentence to date from February 9th last, when the man was arrested. Asked if he had anything to say before sentence, Connor said that he was not in good health and asked the court to be as easy upon him as possible. In this case a decision is awaited from the Circuit Court soon upon application for a reserve case, W. B. Wallace, K. C., appeared for the Crown and E. J. Henneberry for the prisoner.

The case of Archer vs the Great Eastern Garage was set over to be entered upon the docket of the circuit opening on Tuesday next. M. B. Innes appeared for the plaintiff and W. M. Ryan for the defendant.
