U. S. TARIFF BILL IS PRESENTED TODAY

A Long Free List; Duties on Necessaries Cut and on Luxuries Increased

New Income Tax a Feature of the Bill—Sugar Free in 1916; Raw Wool at Once—Underwood Summarizes Intentions of the Tariff Revisors

(Canadian Press) Washington, April 7.—Removal of all tariff from many articles of food and clothing; broad reductions in the rates of duty on all necessities of life; an increase of tariff on many luxuries; and a new income tax that would touch the pocket of every American citizen whose net income exceeds \$4,000, are the striking features of the new democratic tariff revision bill, presented today to the house.

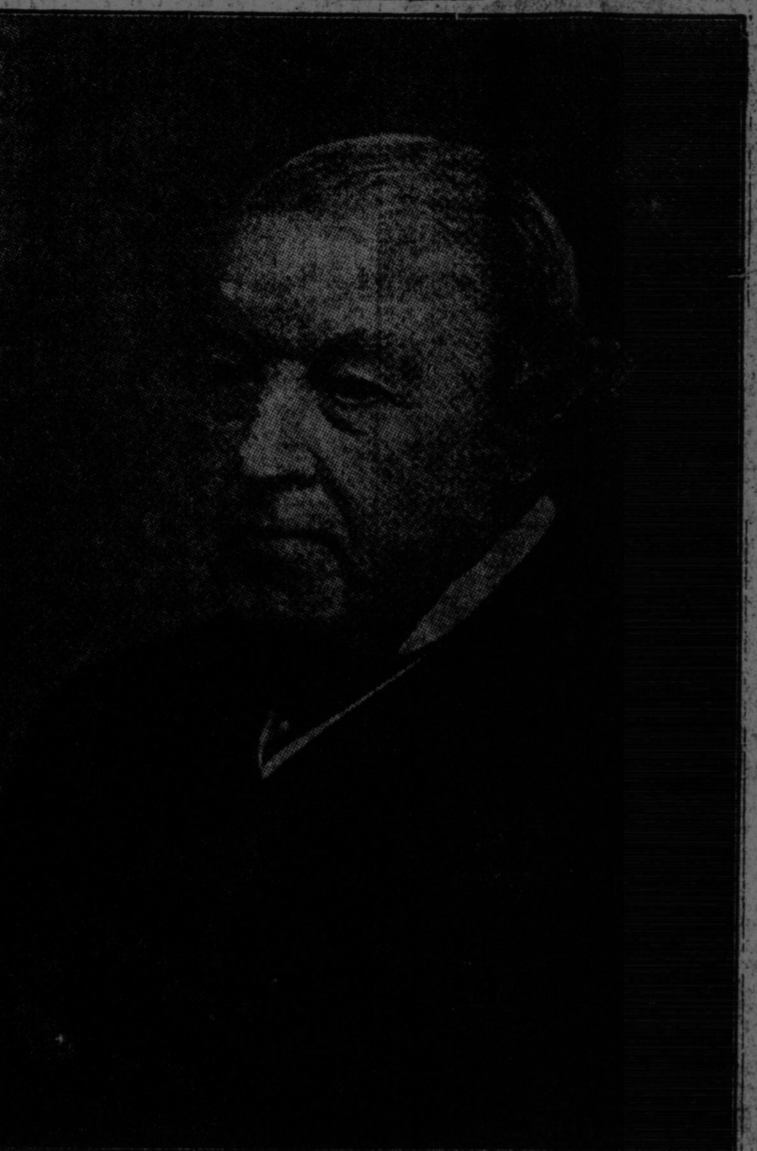

Raw wool would be made free at once, with a correspondingly heavy reduction in the tariff on all woolen goods. All the other articles put on the free list are—Meats, flour, bread, boats and shoes, lumber, coal, harness, saddlery, iron ore, milk and cream, potatoes, salt, corn, cornmeal, cotton bagging, agricultural implements, leather, wood pulp, Bibles, printing paper not worth more than 2 1/2 cents a pound, typewriting, sewing machines, type-setting machines, cash registers, steel rails, fence-wire, cotton ties, nails, hoop and band iron, fish, sulphur, soda, tannin, materials, acetic and sulphuric acids, borax, lumber products including brooms, handles, clapboards, bits for wheels, pocket lathes, pickets, staves, shingles.

Table with columns: Present, Proposed, Articles, Law, Proposed, etc. Lists various goods and their tariff rates.

Underwood Summarizes "Where the tariff rates balance the difference in cost of production at home and abroad, including an allowance for the difference in freight rates, the tariff must be competitive and from that point downward to the lowest tariff rate that can be levied will continue to be competitive to greater or less extent. Where competition is not interfered with by leaving the tax above the highest competitive point, the profits of the manufacturer are not protected.

Weather Bulletin Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

CUMBERLAND TO HONOR SIR CHAS. TUPPER

SIR CHARLES TUPPER, BART. Montreal, April 6.—"Speaking for the Liberal party, I know that we are big enough to join hands with Cumberland's great statesman's old political friends in order to do something that will not only show Sir Charles Tupper's greatness but is still with us, that we, and all, appreciate what he has done for Nova Scotia, for Canada and for the Empire, and that both parties unhesitatingly would support his monument."

POLICE INQUIRY TALKED OVER BY COMMISSIONERS

Mr. McLellan Wants to Clear Up Other Matters First to Give Him Proper Scope The proposed investigation of the management of the police force was the subject of discussion at this morning's meeting of the city commissioners. The matter was thoroughly discussed but no further steps were taken. The resolution authorizing the investigation will be adopted at the meeting of the Common Council this afternoon.

WANT THE MARRIAGE CEREMONY CHANGED

Women's Rights Manifesto Re the Anglican Service TOO MUCH BRIDEGROOM Spiritual Military League Balk at Obey and Being Given Away—Say St. Paul's Words Need Twentieth Century Revision

(Canadian Press) London, April 7.—The Spiritual Military League for Women's Rights, with which Lady Aberdeen, Flora Annie Steel, a novelist and other prominent women are identified, today issues a manifesto demanding that the government move a bill removing the "humiliations" in the marriage service of the Anglican church. It specifies fifteen so-called moral indignities to women, "the noble giving of precedence and prominence to the bridegroom," being the essence of all the complaints. "I will tell no economist indignity number one, it is the word 'obey,' this the manifesto declared must be deleted or balanced by an equivalent to 'obey' on the part of the man. The manifesto says: "It is a humiliating survival" that the woman alone is "given away." The manifesto should also be given away or the custom repealed. Other indignities are alleged in the matter of the ring and to a bridegroom's accompanying declaration "with all my worldly goods I thee endow." This is denounced because they say it is never true and the government is asked to drop the ring ceremony and the formula or compel an exchange of ring and the promise of the bridegroom: "I will tell no economist falsehoods or give no moral offence."

HARRY SPRAGUE IS DEAD IN NEW YORK

Eldest Son of Captain Sprague of Vancouver, Formerly of Sackville (Special to Times) Sackville, N. B., April 7.—Dwight Pickard received a telegram from Vancouver yesterday informing him of the death of Harry Sprague, eldest son of Captain and Mrs. Sprague of Vancouver, formerly of Sackville. The telegram gave no particulars but stated that Mr. Sprague had died in New York and that Captain and Mrs. Sprague, accompanied by their daughter, had returned from Canada enthusiastic over the work of the boy scouts in the dominion.

DUKE OF CONNAUGHT MAY HEAD THE SCOUTS

London, April 7.—It is expected that King George will soon sign a commission making the Duke of Connaught chief of the boy scouts. It is understood that this is in accordance with the duke's own desire, as he returned from Canada enthusiastic over the work of the boy scouts in the dominion. The boy scouts in England are organized under a royal charter, and therefore it is necessary to have a king's commission so far as the members of the organization are concerned. Although they are all loyal to the founder, General Baden Powell, the tactfulness of the Duke of Connaught in regard to the smallest details, which was illustrated in his treatment of the boy scouts in Canada, may have caused considerable hesitating among the English boy scouts, since they learned that the duke had personally signed every boy scout's commission in Canada, in spite of the labor entailed. For this reason there arose the criticism: "Imagine the Duke of Connaught, the uncle of the king, signing every commission in Canada with his own hand, while General Baden Powell uses a rubber stamp on our commissions with a fac simile signature."

Titanic Widows Deny Report

New York, April 7.—A statement issued here on behalf of Mrs. Henry B. Harris, said there was no truth in the report that she with other widows of victims of the Titanic disaster while en route to Europe would strew flowers on the Atlantic where the Titanic went down as a caulk to their husbands.

RULE OF TERROR IN PORTUGAL

Duchess Writes of Investigations--"No God, No Religion" Badge of School Children

London, April 7--The Daily Mail gives prominence to an article by Adeline, Duchess of Bedford, based on personal investigations in Portugal. She alleges that Portugal is groaning under terrorism which recalls the conditions in Naples and Sicily in the worst days of Bonaparte.

The duchess writes--"There are spies in every household, the story that walks ears and every window is an eye of the returned days of Bonaparte. The great bulk of whom have not been tried, and it is known that the judges repair from the provinces to receive orders before passing sentence. A very low class of men spend the days loitering outside the courts prepared to swear to any false accusation in accordance to the amount of fee they receive."

Referring to the suppression of the church, the duchess says: "The name of God is forbidden in the republic. The republic has definitely undertaken the extinction of the Christian faith. The children in the schools are decorated with little badges bearing the words: 'No God, no religion.' The crosses in the cemeteries have been torn down and recently the remains of some nuns have been cast into a pit."

FUNDS FOR THE ARTS

Subscriptions by Prominent Englishmen to Defeat Suffragettes

London, April 7--The Unionist Women's Franchise Review, which claims to have made an investigation of the suffragette League, published what purports to be a secret list of subscribers to the funds of that organization.

The Rollshields are credited with \$15,000, William Waldorf Astor, Sir Ernest Cassel, the Hon. Charles G. D. Glynne, and others, with \$5,000 each. Several contributors are credited with \$2,000. Smaller donations were made by Lord Curzon, the Duke of Norfolk, Lord Rosebery, the Duke of Devonshire, and a score of others.

The demand for such replacements is expected to follow as far as the independent States Corporation does not expect to follow such advances if made. The corporation has adhered to its policy adopted several months ago of holding quoted prices at about the present levels, saying that prices are high enough and that further advances might injure the stability of the market.

Philadelphia, April 7--Following the indictment of Herbert S. V. Sturges, formerly Ashmore's secretary.

The warrants against the two were taken out at the instance of Ashmore, who charges the cashier and the girl with conspiracy to defraud. Ashmore was compelled to be out of town a great deal and left his affairs in the hands of the young woman. He charges that she misappropriated funds by misusing these checks.

Miss Sturges is working in a mission conducted for the spreading of the gospel throughout foreign lands. Six indictments were returned against Ashmore by this grand jury and one against the young mission worker.

POWERS ONCE WERE NEAR WAR

Important Statements by Sir Edward Grey and the German Chancellor

London, April 7--There would have been a European conflagration but for the agreement reached by the future state of Albania, according to the opinion expressed by Sir Edward Grey in the Commons this afternoon. He was emphasizing the importance of the naval demonstration now being made on the Montenegrin coast, and the importance of upholding the European agreement on the subject of Albania, which he made the grave statement:

"That agreement is essential to the peace of Europe, and in my opinion it was accomplished only just in time to preserve the peace among the great powers."

Berlin, Dr. Von Bethmann-Hollweg, imperial chancellor, delivered a striking speech, whose keynote was "European conflagration in all probability will not occur, but if outside forces should threaten us, Germany must stand ready with her last man."

The good intentions of the French and Russian governments were beyond question, declared the chancellor, but Germany must reckon with the great force of modern public opinion which, in form of French warlike patriotism and Russian pan-Slavism, threatened the peace of the world.

London, April 7--A Constantinople despatch to the Times says that the council of ministers has decided, while refusing to accept indemnity for the allies, to agree to pay for the maintenance of the prisoners of war on a general scale.

WHAT ELEPHANTS EAT

Have Delicate Taste and Cannot Be Easily Deceived

Since the elephant's digestive functions are very rapid, it requires a large amount of fodder daily--about 600 pounds in most cases. In its wild state the elephant feeds heartily but wastefully. It is careful in selecting the best forest trees that it likes for their bark or foliage, but it will tear down branches and leave half of them untouched. It will strip off the bark from other trees and throw away a large portion.

As it is a nocturnal animal, it selects its trees by the sense of touch and smell. Its sense of smell is said to be so delicate that a wild elephant can wind an enemy at a distance of 1,000 yards, and the nerves of its trunk are so sensitive that the smallest substance can be discovered and picked up by its tiny protrusion.

An elephant's palate is very delicate, and the animal is whimsical in selecting or rejecting morsels of food. A writer tells of an incident humorously illustrative of the whims of a tame elephant belonging to the police of Dhurbari.

This elephant was fed with rice and plantains. The stems of the plantains were split and cut into transverse sections two feet in length. Three-quarters of each table of rice was placed within each table of plantain stem. One day while the elephant was being fed some one offered it a small sweet biscuit. It was taken in the trunk and almost immediately thrown on the ground.

The mishap, thinking that the elephant had behaved rudely, picked up the biscuit and tied it in a parcel of rice within a plantain stem. This was placed in the beast's mouth, and at the very first crunch it allowed its disgust by refusing the whole morsel, the small biscuit had disappeared and for several minutes it tried by its inserted trunk to rake out every atom from its tongue and throat--Ha-er's Weekly.

THE NEEDS OF THIS PORT

Sir Thomas Shaughey in an interview published in the Times on Saturday made some remarks which ought to receive the earnest and prompt attention of the city council and board of trade.

There is a great increase of business to be handled at the port of St. John, but that the facilities are not adequate for the proper handling of the traffic which is now passing through the port.

Commissioner Schofield has pointed out that unless an additional contract is awarded by the government within a month, it will not be possible to have an additional steamship berth available at West St. John for next winter.

While yet in the prime of life, Mr. John A. Bowes, one of the best known journalists of this province, has gone to his rest.

The city council should consider the question of offering a reward for the apprehension of the person or persons guilty of incendiarism.

The city of Moncton has sent a delegation to Ottawa, to ask for certain improvements in connection with the Intercolonial Railway.

The Borden government is exceedingly fortunate, thanks to the policy inaugurated by the Liberals, the revenue of Canada continues to increase at an enormous rate.

The spectacle of the little kingdom of Montenegro defying all Europe is a very interesting one, but it is quite obvious that the Montenegrins hope for the ultimate support of Russia in their demands.

The wave of progress has reached the town of Shelburne, N. S. A meeting of rate-payers was held last week to vote on a proposal to borrow not more than eight thousand dollars for the improvement of the electric light plant.

In a letter which appears in today's Times, Superintendent Fraser of the Halifax School for the Blind refers to what is being done in the province of Nova Scotia to arouse public interest in the question of the care of the feeble-minded.

There is nothing truly great in the world but man, and nothing great in man but the unseen something that he calls his soul.—William F. Howells.

LIGHTER VEIN

"When I was in London," remarked a lady to the little group of friends round the dinner-table who were listening to her account of some amusing experiences she had abroad last summer.

"I tried to be as British as I could, but I was constantly getting mixed in my English phrases. I don't know one of the underground railroads in London is always spoken of as the 'tuppenny tube,' so one day when I wished to be transported in a hurry from one side of the city to the other, I astonished a big, pleasant-faced bebbly by asking where was the nearest station of the 'two penny tub.'"

HE REMEMBERED.

"Talking about meanness," said an old son of the soil, "I was once working in a chair by the fire, 'you should have' known old Ruby used to keep a farm out growling away."

GOLF STORY.

A reverend gentleman on a visit to the Midlands was invited to try his hand at golf at the local links.

A NEW PHASE OF MONEY MARKET AS AFFECTING OUR FINANCING IN ENGLAND

(Times' Special Correspondence) London, March 25.—When money is "easy" you never hear any "scare" stories about Canada, but as soon as a period of financial stringency occurs, a host of prophets of evil distribute their mutterings of war, and the British investor is assailed with warnings about Canada going too fast and the inevitable set back.

There is a very numerous class of British investors to whom Canada makes little appeal. The small "capitalist" with two or three thousand dollars usually locks up his money at about two and a half per cent. In the aggregate this investor represents an investing force of great strength, and the question of creating in him sufficient confidence to put his money into the more remunerative channels of Canada has engaged the attention of more than one Canadian financier in London.

The grand jury also reported indictments against Packer Gerry, an engineer, and William Lyons, a fireman, both striking employees on the B. & A. Railroad, whose homes are in Houlton, charging them with assault on B. & A. strike breakers at Houlton on March 24. No indictment was returned against William Orr, of Bangor, who was arrested at Houlton charged with bribery, or S. Day and James Crane, of Caribou, charged with intimidation. Orr, Day and Crane are former employees of the B. & A., now on strike.

GERMANY'S ARMY BILL UP TODAY

Prolonged Fight Expected Over the Enormous Taxation Proposed

Berlin, April 8.—With the submission to the Reichstag tomorrow of the government armament and taxation measures, a contest will begin, which is almost certain to last until the summer vacation and possibly will not be ended before the fall. The imperial chancellor, Dr. Von Bethmann-Hollweg, will speak, explaining the political situation, and the minister of war, General Von Heeringen, will elucidate the technical features of the measures. There is no question that the army increases will be accepted practically without alteration, but there is widespread disagreement and dissatisfaction over the financing of the proposals. The new army bill calls for an expenditure of about \$250,000,000 and the financial measures include a non-recurrent tax of \$243,780,000 and a permanent yearly increase in taxation of from \$45,000,000 to \$17,500,000.

Herr Bassermann, the National Liberal leader, in a speech recently made at Hanover, declared that the National Liberals had accepted the armament increase measure but the tax measures were unjust and would require the most thorough revision. This also is the view of other non-government parties, and the measure will be subjected to an overhauling, which will probably result in important amendments.

SHOOTING AFFRAY IN MONTREAL HOUSE

An Austrian Fired Bullet Into Countryman and Latter is in Serious State

Montreal, April 6.—Constantine Koback, an Austrian, twenty years of age, was taken to the General Hospital at noon Saturday while George Lava, eight years of age, a fellow countryman, who is alleged to have shot him, was arrested by Constables Bajot and Daoust and locked up at the Mount Royal avenue station. Lava and Koback, both of whom are employed in the Angus shops of the Canadian Pacific Railway Company, boarded in the same house at 327 Rosemount avenue. They were in their room at noon Saturday with another Austrian, when Lava, without any immediate provocation, so far as the police have been able to learn, shot Koback, who was lying on his bed. The bullet cut through the fleshy part of Koback's right hip and entered his abdomen. His condition is regarded as serious. The result is believed the shooting was the result of a quarrel over the affections of a sixteen year old Austrian girl.

PRINCESSES LOSE

Decision Against Leopold's Daughter in Suit For Millions

Brussels, April 7.—The appeal court has rendered its decision in the suit brought by the daughters of the late King Leopold for the entire Congo property left by their father, valued at \$14,000,000. The court decided against the princesses, who, in addition to losing their case, are meted in the costs. Recently the princesses rejected the proposals of the minister of justice that they accept \$7,000,000 as their share. The property will now go to the Belgian estate and the Niederulbach foundation. If I were a man I would only marry a woman who has been taught domestic science.—Duchess of Sutherland.

SERIOUS STRIKE IN AUSTRALIA

Coal Miners in Many Sections Quit Work and Steamer Traffic May Be Tied-up

Sydney, Australia, April 5.—The industrial problem in New South Wales is causing grave concern, the strike of coal miners in the Illawarra and south coast districts being unsettled. The situation is becoming seriously complicated, moreover, since the Newcastle miners are showing great discontent. Should a strike be declared, commerce, through shipping, would be considerably hampered, and perhaps demoralized, owing to the fact that all big ocean liners plying between the east coast of Australia and other parts of the world, depend upon Newcastle for their coal supply. At Broken Hill, the great silver mining centre, the strike declared a week ago continues. Transportation has ceased and the city is isolated. High prices in food commodities now rule and a serious situation exists.

DIAMOND BROOCH IN DRESS GIVEN FOR FLOOD SUFFERERS

Wheeling, W. Va., April 7.—When Miss Mary Pollock, daughter of a stogie manufacturer, was asked for a donation for the flood sufferers she turned over to the relief committee several of her old dresses without examining them closely. After the clothing had been distributed one of the dresses was found to contain a diamond brooch valued at \$1,000. It had been missing for six months and Miss Pollock believed it had been lost or stolen. He is an optimist who can believe in the coming of the best while looking at the worst.—Dr. Jewett.

SON OF AMERICAN PLANTER KILLED IN CUBAN DUEL

Havana, Cuba, April 6.—Rodolphe Warren, son of Jere Warren, a prominent American sugar planter, died in a hospital here tonight from a pistol wound in the abdomen, which he received in a duel yesterday with Hannibal Mesa, a member of a wealthy Cuban family.

The two young men have recently had several physical encounters and are reputed to be rivals for a woman's affections. As a result Mesa challenged Warren which, according to the Cuban code, conferred the choice of weapons on Warren. The duel was at thirty-five paces. Warren fell at the first fire. Mesa was not harmed. Warren was taken to a hospital where he made a statement to the police that he had accidentally shot himself while handling a revolver. Immediately after the duel Mesa sailed for New York on the steamer Havana.

Symptoms Warn to Remove the Cause

The ordinary doctor spends his efforts in arresting symptoms rather than removing the cause of trouble. He is often compelled to do this against his better judgment in order to satisfy the demands of his patients. Symptoms are removed at a dreadful expense to the organs of the body. As an example, consider the effect on the nervous system of drugs so powerful as to immediately stop headaches and other bodily pains. The reaction is most exhausting on the system, and the result is that the pains and aches return, and the system constantly grows weaker and weaker. Dr. Chase's Nerve Food cures by removing the cause. Gradually and naturally this food cures the feeble, worried nerves, and by invigorating the system drives out pains, aches and disease. This is Nature's way of curing disease. It is the only way. The treatment of symptoms is only a makeshift way of avoiding pain. It overlooks the importance of symptoms as a warning of impending trouble. To get well and keep well use Dr. Chase's Nerve Food until the blood is rich and red, the nerves steady and the body filled with health and vigor.

Description of Webster's New Illustrated Dictionary WITH THE LATEST CENSUS
This most convenient and latest of all Dictionaries is based on Noah Webster's Dictionary, revised and brought up to date by the most recent American and English authorities, designed to meet every demand of a modern and reliable Dictionary.
It includes all words in the English language that do not properly belong to a Dictionary of Technical Terms. In fact, its recent publication and careful revision enable it to define and treat a large number of words of recent coinage that cannot be found in any other Dictionary, no matter how cumbersome and pretentious.
Surprising results are obtained in looking up the spelling, pronunciation and definition of a host of words which have been incorporated into our language only yesterday as it were. Take, for instance: Aero, Aeroplanist, Aviation, Aviator, Biplane, etc., introduced as a result of recent aeronautical activity—also such new words as: Brainstorm, Billiken, Cordite, Denatured, Dunnite, Joy Ride, etc.—also Okapi, an animal allied to the Giraffe, and brought into prominence through ex-President Roosevelt's explorations in Africa—also Hookworm, Lettergram, Nickelodeon, Stovaine, Hangar, Equilibrator, etc.
Thus the evidences of painstaking revision are found on every hand.

Fredericton Park Association.
The Gleason says:—The preliminary work towards the reconstitution of the Fredericton Park Association has been commenced and notices will be sent to stockholders a few days calling a hearing for about April 15. There has been a movement on the part of a new combination to get control of the majority of the stock of the association and install a new management, but whether this movement will materialize or not is problematical. In the meantime it is probable that the old board of directors remain they will at once issue a programme of early closing stakes in connection with the Fredericton 1913 exhibition and will so give other race meetings during the season.

BASEBALL
in Fredericton.
Saturday's Gleason said:—That there was but one person approached who declined to make a contribution and with that one exception everybody else gave at least as generously as they did last season and in most cases gave more liberally as the gratifying report of the first work towards securing guarantee funds for the Fredericton Baseball Club.

The work was only carried on for but a short time yesterday, and will be continued on Monday. Last evening parties connected with the club said there was no doubt as to the citizens being willing to subscribe as much as they did last year, and Bob Ganley has been advised at his home in Lowell, Mass., of the encouraging outlook here and will doubtless be here for the next league meeting on April 10.

Definite instructions to go ahead with the signing of players have not been sent, however, but probably will be in a day or two. In the meantime the executive of last year is busy engaged with the details for the production of Captain King the comic opera, at the Opera House on Tuesday and Wednesday of next week, which it is hoped will provide sufficient funds to wipe out the last of last season's deficit.

Fred Mitchell.
Sam Carick in the Boston Post says of Fred Mitchell, formerly Yapp:—He gained his first pitching experience in 1889 in the Harvard baseball game. Mitchell, in company with Larry McLean began going over to the cage and pitching to the batsmen of Bill Reid's nine just for fun. Reid liked their work so well that to assure their continued attendance he offered them \$2.50 a day, which they jumped at.

Later they struck for \$5, which they got by doing double the amount of work that had previously been called upon to perform. In 1890 Mitchell and McLean joined the St. John, N. B., semipro team as pitcher and catcher, and the following year found them with the Boston Americans. With this club Mitchell remained until next season, 1902, when he went to the Athletics. He stayed with Connie Mack for the rest of that season and jumped to the Phillies in 1903. He remained with that

Effort to Bring Jim Jeffries Back Should be Frowned Upon

By TOM ANDREWS

The effort of some of the promoters or managers out west to bring Jim Jeffries back into the boxing game is not meeting with much enthusiasm, especially with the public, and it is about 100 to 1 that the big fellow will never consent to any kind of thing like that.

The public well remembers the fiasco of 1910 when Jack Johnson, the colored boxer, was given the opportunity to defeat a man who had no business in the ring at that time.

The idea of trying to bring back into the game a man who has proven that he cannot "come back," is so ridiculous that the followers of the sport would never stand for it. They had one experience and that was sufficient.

It is not Jim Jeffries that is to be blamed for any such movement now, but the men who are trying to urge the big fighter to try once more "come-back," like the "farewell" of Patti. It was not Jeffries who wanted to get into the limelight in 1909 when the critics began to howl for him to re-enter the ring and bring the championship back to the white race. Jeff said time and time again that he was out of it for good; that he had retired and wanted to remain a retired and undefeated champion. The urging was so great that the Alfalfa farmer began to think that he was really as good as ever and might make a successful re-entrance into the arena. He even went so far as to visit Germany for the purpose of taking the baths and to find out whether his stomach, which had bothered him considerably, would stand the step of training for a hard battle. That was the secret of Jeff's first trip to Germany at that time.

The long grind was too much for him, and though he appeared in good shape before the contest for the title at Reno, he was a sick man, or rather on the verge of nervous prostration, on the day of the battle. The fact is he was never the same man physically after he left Howardian in California, when Gov. Gillette ordered the contest declared off, as he lost heart from that moment and did not take the same interest in it. He even went to Germany for the purpose of taking the baths and to find out whether his stomach, which had bothered him considerably, would stand the step of training for a hard battle. That was the secret of Jeff's first trip to Germany at that time.

Jeffries is thirty-eight years of age and has not lived the life that some of the athletes should live in order to keep up such work. If he could not do himself justice in 1910, what chance would he have now? It would be the rankest kind of injustice to the public to try to spring such a farce again and it is a good bet that Jim Jeffries will not consent to any such plan.

Two More Fires, One Thought to Have Been the Work of Firebug.
A fire, believed to be of incendiary origin, broke out on Saturday evening in a barn in Pond street, owned by James Murray. A valuable mare, belonging to Mr. Murray, was burned to death and two sets of harness and supplies of hay and straw were destroyed. The loss is about \$600 and there is no insurance.

The West End fire department was called out last evening about 8:45 to extinguish a fire in a house owned by C. B. Lockhart, corner of St. John and Union streets. The blaze started beneath the floor and it is thought that it was caused by rats coming in contact with matches. Considerable damage was done upstairs, and the furniture and walls in the lower flat were drenched with water. The building is insured.

CARE OF FEEBLE-MINDED.
Halifax School for the Blind, Murdoch St., Halifax, N. S., April 4th, 1913. Editor Evening Times and Star.
Sir,—I note with pleasure the very timely article in the "Evening Times and Star" of the 1st inst., in which you make a strong plea for the education of the feeble-minded.

You may be interested in knowing that this matter is now engaging public attention in Nova Scotia and that fifty leagues for the protection of the feeble-minded have been formed throughout the province. The government of Nova Scotia has been memorialized by the parent league in Halifax and petitions with respect to the care of these life-long children have been sent to the government from all parts of the province. I trust that at an early date some definite action with respect to this helpless class will be decided upon.

Yours faithfully,
C. F. FRASER.

SUCCESS OF ST. JOHN NURSE IN THE STATES

Miss G. P. Foster, District Nurse of Warren, Rhode Island

That the work of Miss G. P. Foster, of St. John, niece of Arthur Foster of this city, is being highly appreciated as district nurse of Warren, Rhode Island, is very plain from the complimentary comment of the Warren and Barrington Gazette and its sturdy support of Miss Foster in her work as well as its notices of substantial encouragement given her by prominent residents. A district nursing association was formed by them last month and the Gazette declares this one of the best things ever done by the taxpayers.

The paper also publishes a report by Miss Foster on the nature of the work she is doing, showing her days well filled by visits to the homes of those needing her care, the kind of cases dealt with and giving an insight into the nature of the work and the benefits which attend upon the carrying out of the district nurse's duties. In all the Gazette's articles are of a nature very pleasing to the young lady's relatives and friends here.
