THREE CENTS

WINNIPEG PROMISES STARTLING DEVELOPMENTS; WAR VETERANS ASSN AGAINST "ONE BIG UNION"; OPPOSITION MEEKLY ATTACKS GOV'T BUDGET

OPPOSITION LAUNCHED ITS ATTACK UPON GOVERNMENT PROPOSALS YESTERDAY

A. R. McMaster Delivered a Speech Voicing Orthodox Criticism of Expenditure, Adjuring Economy, Emphasizing Economic Ills and Prescribing for Them a Panacea in the Form of an Amendment for Removal of Customs Duties—Answered by Liberal Unionists.

Special to The Standard.

Ottawa, Ont., June 9.—With low tariff proposals made cunningly vague by rhetorical twilights, the opposition today launched its attack upon the Government budget. Mr. A. R. McMaster, a disciple of the school of Liberalism that thrived in England thirty years ago, delivered a much too discursive but comparatively able speech, voicing the orthodox criticism of expenditure, adjuring economy, emphasizing economic illness and prescribing for them a panacea in the form of an indefinite amendment for the removal of customs duties, probably for the reason that, according to a curious rule of the House, a question cannot be formally debated twice during the same session. Mr. McMaster's amendment, similar in substance to that which he moved early in the session, was much more vague in outline and sloppy in construction; but such an excuse cannot be given for the exceedingly general character of the speech with which the amendment was supported.

Reading his remarks throughout (in which respect he followed the perilous example of the Minister of Finance), Mr. McMaster gave the impression of one carefully skirting dangerous political prejudices, avoiding concrete proposals, studiously shunning specific declarations, and being profuse in condemnation, while remaining sterile in constructive suggestions. He would, for example, drastically decrease customs duties, but he studiously omitted to state the source from which he would make up the loss of revenue, he did not say anything increasing direct taxation, and completely ignored even the possibility of a land tax, and, worst of all,

completely yakked over the matter of British preference. Taken all in all, it was not a performance to either frighten the Government or stampede the West; and from the gallery one wondered what was passing through the minds of Mr. Crerar and his friends, sitting there on cross benches looking ruffled and ineffective.

The reply to Mr. McMaster, curiously enough, came from two Liberal Unionists. Mr. Sifton, in a speech with the supreme merit of brevity, but little else to commend it, said, speaking as a westerner "who had not changed his fiscal views," that he had never thought that the entire fiscal policy of the Dominion could be proposed in a single session, depriving the country in one fell swoop of its chief source of revenue and endangering the whole industrial fabric of the nation, and today, with the whole world in a state of flux with wars still raging in Europe and the peace treaty unsigned, it was not the part of wisdom, having regard to financial conditions and needs, to go further along the path of fiscal reform than the Government had gone, and he challenged "any member of the House, any member on this side of the House" (a sly dig at Mr. Crerar) to bring in a better budget.

Mr. Ballantyne, who described himself as a Liberal protectionist, had no fault to find with the budget as all except, perhaps, its excess profits tax feature, and this he extended on the ground that we were still under war conditions. The debate was concluded for the day by Dr. Manson, who gave the Government's proposals a reasoned support, and advanced a number of constructive suggestions.

MONCTON HORSE TRAINER DIES UNDER CLOUD OF MYSTERY

An Empty Extract of Lemon Bottle Found in His Room May Throw Some Light on the Happening.

Moncton, N. B., June 9.—Evidence of an empty extract of lemon bottle being found in his room at the Moncton speedway, where Blair Belliveau, a horse trainer, was found near midnight Sunday in a dying condition, was given an impetus by the coroner Dr. Coleman today. Belliveau was as well as usual during the day, but was taken ill during the evening while at the race track and, when discovered by passers by, was dying and passed away shortly after a physician reached him. The evidence of the attending physician, Dr. Landry, is wanted to explain Belliveau's sudden and mysterious death, and the inquest was adjourned until tomorrow morning for that purpose. Deceased is a brother of P. A. Belliveau, the well-known horseman, and was 35 years old, being survived by a wife and two children. Alcoholism is suspected as the cause of death.

SERIOUS SITUATION DEVELOPS IN TORONTO RY. DISPUTES

Citizens' Meeting Discusses the Outlook and Endeavors to Find Preventive for Threatened Traction Tie-up—Royal Commission Suggested to Make Study of Company's Ability to Meet Demands.

Toronto, Ont., June 9.—With a possible street railway strike here next Monday there were several developments today. The directors of the Toronto Street Railway Company met and considered the situation at some length, and, at the conclusion of the meeting, the only information that was vouchsafed the public by General Manager R. J. Fleming was in these words:

"It looks like a very serious situation." A citizens' meeting was held in the Canadian Manufacturers' Association offices, where the threatened street railway strike was discussed, and a resolution was passed, requesting the mayor and board of control to have a

WHOLESALE MEN DENY PRICES WILL TAKE A DROP

Take Exception to Statement of Cost of Living Commission on Cheaper Clothing.

Toronto, June 9.—There is absolutely no indication that prices will go down, in fact our information is all the other way," this was the unanimous statement of a number of manufacturers and wholesale men in Toronto to a query in regard to a report which has been prepared by the Cost of Living Commission in Ottawa, which promises cheaper cloth, both woolen and cotton.

Clemenceau Serves Warning Notice on Hungarian Gov't
London, June 9.—A despatch to the Central News from Copenhagen states that the Danish government was sent by wire, and demanded a reply within 48 hours. It demanded immediate cessation of unjustifiable Hungarian attacks on the Czechoslovaks, and declared that failure to meet the demands would result in the Allies taking steps to force Hungary's compliance.

CHALLENGE HURLED AT PRESBYTERIAN GENERAL ASSEMBLY

Former Elder Urges Church to Take Stand for Wage Earner—Increase in Salaries of Clergymen Urged.

Hamilton, Ont., June 9.—Something of a challenge was hurled at the Presbyterian General Assembly, on resuming of business sessions here today. The moderator read the following telegram from W. H. Marston, an ex-elder of Albany, N. C.:

"I have the assembly stand for the Master's teaching of co-operation and brotherhood, and join the Methodists in demanding the only remedy, the public ownership of the means of wealth production? The whole world is groaning under the present system, and demanding relief. What would be His words today? God does not make our laws. We do. The church should lead in this momentous matter. Do you want revolution?" The moderator suggested that this document be handed to the home mis-

HEAVY HAND OF BRITISH LAW EXPECTED TO DESCEND UPON RED REVOLUTIONARY LEADERS

Winnipeg Officials Acting With the Authority of Ottawa, and Fortified by the Most Damning Evidence of a Revolutionary Plot That Promises to Startle the Country, Contemplate the Arrest of Eighty Men, Who Seek to Overthrow Organized Government.

Special to The Standard.

Ottawa, June 9.—The Evening Journal tonight carries the following sentence: "The heavy hand of British law is expected to descend with swiftness and power upon the red revolutionary leaders of Winnipeg's strike within the next few days—perhaps hours." Acting with the authority of Ottawa and fortified by the most damning evidence of a revolutionary plot that promises to startle the country, the authorities here, it was learned this morning, contemplate the arrest of more than eighty of the men who, under the camouflage of trades unionism and sympathetic strikes, have been seeking to overthrow organized government and to set up Soviet rule in its place.

During the past few weeks the attorney general of the province, through the agency of an efficient secret service, has been able to collect evidence of the most startling character as to the aims and objects of many of the strike leaders. This evidence has convinced the authorities that, while the bulk of strikers left over in the belief that they were acting in the best interests of the country, many of them are believed to be among the worst of the offenders.

GERMANY TO BE TAKEN INTO LEAGUE IF SHE WILL BE GOOD

The Council of Four at Present Has the Momentous Question Under Consideration—Appears to be No Objection if by Contritence She Proves Her Worthiness to Membership.

New York, June 9.—The Associated Press tonight issues the following: "Germany, if she signs the peace treaty and gives satisfactory guarantees that she will establish a stable government and loyally carry out the provisions of the treaty, doubtless will be permitted to become a member of the League of Nations."

The Council of Four, at present, has this momentous subject under consideration, and from unofficial reports thus far received, there seemingly is no strong objection to Germany becoming associated with the other nations in the league, if by contritence, she proves her worthiness to membership.

By admitting membership to Germany, the feeling prevails in Peace Conference circles that there will be no likelihood of a condition between that country and Russia, which in the near future might be the source of trouble, and that with Germany inside the league she could be kept more tractable outside it.

The Council of Four also is busily engaged in going over the reports of the commissions which have been examining into the consular proposals Germany offered to the peace treaty. While all the commissions have no-

yet reported to the council it is felt in Paris that, late in the present week, the treaty in Russian will have been whipped into shape that it would be possible to hand the Germans at Versailles the final word of the Allied and Associated Powers, committing an irreducible minimum of concessions.

It is said that five days after the presentation of the reply of the Allies to the German proposals, the council will be ready to sign the peace treaty.

Considerable fighting continues between the factions in Russia, apparently likely soon to end under a threat of Premier Clemenceau to use Allied troops against the Hungarians if they do not cease their activities.

A court has been founded in Germany to bring to the bar of justice persons accused of having fomented and lengthened the period of war, and of having committed crimes against the Allies.

Unofficial advice from Russia as to the effect that Jewish pogroms have occurred in fifty different places in that country. Many thousands of Jews are said to have been slaughtered.

The committee recommended that the minimum stipend of ordained married men be increased to \$1,500 and a house or rented house, that the stipend of unmarried ministers be \$1,200. Corresponding increases were recommended for the various classes of ministers, the stipends of the married men to be \$100 more than the unmarried.

Dr. MacKinnon declared that so appalling was the poverty of many occupants of the mansions that unless something was speedily done to remedy this deplorable condition that recruits would be hard to get and the whole

Breach In The Unions Widening

Spokesmen for Various Union Craftsmen in Winnipeg Make Overtures Regarding Settlement—Police Are Begging for Consideration.

Winnipeg, June 9.—The breach in the union forces seemed widening tonight. It was announced at the Board of Trade that spokesmen for various union crafts had made overtures regarding settlement without permission from the central strike committee.

Desperate efforts to avoid a complete show-down on the police situation were made by friends of the men. The city stood firm, however, taking the position the police had not only gone on record as endorsing the sympathetic strike, but the actions of some individual policemen, who on duty had caused doubts as to whether they were doing everything in their power to maintain law and order.

Earlier, representatives of the policemen's union announced the men were willing to sign pledges not to participate in sympathetic strikes in the future. The city was asked, however, to withdraw its ultimatum making such action compulsory.

The police commission immediately announced that all regular policemen, who were willing to sign the new pledges, could apply for positions. Applications from a number of returned soldiers for jobs on the force have been received. Returned soldier constables have been on duty several days as a supplementary force.

LITTLE CHANGE IN CONDITION OF JOHN McDUGALL

Commissioner of Customs at Halifax Suffered a Stroke of Paralysis Early Yesterday.

Halifax, N. S., June 9.—At midnight there very little change in the condition of John McDougall, commissioner of customs, who suffered a stroke of paralysis early in the day. A court has been founded in Germany to bring to the bar of justice persons accused of having fomented and lengthened the period of war, and of having committed crimes against the Allies.

MANY DIVORCE CASES ON FILE WITH SENATE

During Present Session 56 Divorce Petitions Have Been Recommended.

Ottawa, June 9.—According to a return tabled in Parliament today 598 applications for divorce have been received by the Dominion Senate since Confederation, and 341 divorce bills have been passed by the Upper House. During the present session up to May 31, 56 divorce petitions have been recommended, in connection with seven applications all the fees have been remitted, while in ten cases the fees have been partially remitted.

He spoke in support of the recommendation, declaring that the minimum should be \$2,000. The present salary was \$1,500. He thought it only required the calling of the attention of congressmen in the proper way to ministers who were badly paid and the matter would be remedied.

E. A. Thompson, of Lynden, of the Synod of Hamilton and London, from whence the overture came, also spoke in strong support.

GREAT WAR VETERANS OF CANADA PASS RESOLUTIONS OPPOSING "ONE BIG UNION" AND ITS ALLIES

Stands Unalterably Opposed to the Introduction of the Doctrines of Bolshevism and Anarchy—Pledge Themselves to Give All Possible Assistance in Upholding Constitutional Authority—Advise Progressive Legislation as an Antidote to Unrest and Suggests Certain Remedies.

Ottawa, Ont., June 9.—The Dominion executive of the Great War Veterans of Canada, meeting here, has made a declaration of principles which include opposition to the underlying principles of the "one big union," with its accord of Russian Bolshevism and German Spartacism. The memorial has been handed to Premier Borden. It is as follows:

1.—That we stand unalterably opposed to the introduction of the doctrines of Bolshevism and anarchy in this country, and we are not in accord with the underlying principles of the "one big union," which expressed itself as being in full accord with the Russian Bolshevism and the German Spartacism, and whose principles enforce their power upon the majority of the people, and have, as one of its possible results, the menacing of our institutions of government and the threat of their replacement by Soviet rule.

THE GERMANS GAIN NOTHING BY THEIR REFUSAL TALK

All the Good Reasons Put Forward Not to Sign Terms Would Have Been Good Arguments When Armistice Was Presented.

Berlin, June 9. (French wireless)—The German people should stop believing that by declaring that the Government will not sign the peace treaty Germany is likely to gain better terms. George Bernhard declares in the "Vossische Zeitung" of Berlin.

"Let us make a comparison," he says. "A firm on the verge of bankruptcy asks a competitor to have it. The competitor consents to assist under the condition that the firm hand over all its books, a list of its customers and the key to its safes. When that is done, the competitor exacts very strict terms. The proprietor of the ruined firm then declares he will not sign if the terms are maintained. What good is this declaration likely to bring him?"

"The situation in Germany is exactly the same. All the good reasons not to sign which are put forward now would have been most excellent when the question was whether to sign the armistice. But the German armies have disbanded; the guns have been

as an antidote to unrest and suggest, to that end, that serious consideration be given the enactment of laws respecting the following subjects:

(A)—A minimum wage.
(B)—Insurance against old age, illness and unemployment.
(C)—Suitable housing for all.
(D)—Reduction of the cost of living by the principle of co-operation limiting the operations of the so-called middlemen, regulations governing the holding of perishable products in cold storage plants and otherwise as deemed possible.
(E)—Stringent restrictions upon immigration and naturalization.
(F)—Suitable and equal opportunities for the children of both rich and poor, permitting them to attain the general and higher forms of education and scholarship, such education to include instruction in governmental problems and citizenship; an extended school year, including agricultural and artisan education, and thus raise the dignity of labor to a proper level which would induce more Canadian migration to engage in the purpose of educating artisan labor.
(G)—The support of the general principles of the voice of labor in industrial management, as exemplified in the report of the Witley commission of Great Britain.
(H)—Proportional representation to more properly reflect the opinion of the situation.
(I)—That we reiterate our plea that generous provision be made for the widows and orphans of those who have fallen in the present war, and those totally disabled as a result of service.

NEWCASTLE FIRE DESTROYS \$150,000 WORTH OF LUMBER

Fire Broke Out in the Mill Yard of Edward Sinclair Co. Yesterday Afternoon—Mill Was Saved.

Special to The Standard.
Newcastle, June 9.—A fire which broke out in the lumber stored near the Edward Sinclair Co. mill, about a mile and a half above this town, at two o'clock today, had up to a late hour, done damage estimated to be between \$100,000 and \$200,000, and was still burning. The mill was not in danger, unless a shift of wind occurred, and the damage is practically covered by insurance. The Newcastle fire department, under Ben Malby, and the Chatham fire department, under William A. Skidd, and a large corps of volunteer fire fighters, among them about one hundred Indians, and the J. B. Snowball Co. beat the fire. The fire did splendid service in confining the blaze to the piled lumber.

surrendered. So we are economically and financially caged and we cannot expect to make people believe that we will not accept the peace terms."

PEACE CONFERENCE THREATENED BY LITTLE LIECHTENSTEIN

Serves Ultimatum That it Will Never Communicate With Conference Unless the Principality is Heard in Regard to Its Desire to Participate in League of Nations—Causes Some Annoyance to Big Four.

Paris, June 9. (By The A. P.)—A curious feature of the Peace Conference is that the principality of Liechtenstein has served the conference with an ultimatum that it will sever communication with it unless the principality is heard, particularly with regard to its desire to participate in the League of Nations.

The route from Paris to Vienna lies through this principality, so that the threat to stop communication, if it is carried into effect, might cause some annoyance.

east and east by Austria's Tyrol and Vorarlberg, on the south by the Swiss canton of Grison and on the west by the Rhine river. It is fifteen miles in length running north to south, and has an average breadth of about 5 1/2 miles. It has an area of about sixty-five square miles and a population of about 13,000, which is of German origin and nearly all catholic. It is a sovereign state, ruled by the House of Liechtenstein. From 1815 to 1864 it formed part of the German confederation, but since the break up of that confederation it has joined no confederation. The reigning prince is John II. It is bounded on the north by

SPORTING GOSSIP

Carleton Lost To St. Peters

After Getting Nine Men Across the Plate in the First Inning the West Siders Went Down to Defeat—Score 13 to 9.

A big crowd turned out on the Queen Square last evening expecting to see a real snappy game of ball between the Carleton and St. Peter's teams, but it turned out to be one of

base running and a game that surprised those present. Carleton started out with nine runs in the first inning and failed to score during the next six, while the St. Peter's managed to get in thirteen runs and give Carleton their first defeat. The official score and summary follow:

St. Peter's AB R H PO A E. Gibson, 3b, 2 2 0 0 3 1. Mahony, 2b, 2 1 1 3 0 0. Dever, c, 2 1 1 4 2 0. Doherty, 1b, 3 2 1 0 0 0. McGovern, lb, 2 2 0 0 0 1. Leihan, r. f., 3 1 2 0 3 0. Kelly, c. f., 3 0 0 0 0 0. Hanson, r. f., 4 1 1 0 1 1. Tall, p, v. f., 0 0 0 0 0 0. McNeil, c. f., 3 0 1 2 0 0.

Tonight's Game. The Y. M. C. L. and Fairville teams clash on the diamond this evening.

HONORS GRANTED ARMY OFFICERS

London, June 7.—Canadian Associated Press Cable. The following generals have been knighted: Knight Commander of the Bath—Major-General Loomis. Knight Commander of St. Michael and St. George—Major-General Morrison and Burialist.

Major-General Cook, Artillery, has been invested with the Distinguished Service Order. Bar to Military Cross—Lieut. Arthur May, Infantry.

Military Cross and Bar—Lieut. Harry Templeman, Infantry.

Niagara Falls, Ont., June 8.—Sergt. Harvey Pinneo, who has just returned to his home here after three years' service at the front, is fixed for life financially by reason of inventions he perfected under a British Government while serving the Empire.

When he got to France, after going over with the Engineers, Sergt. Pinneo noticed loss of things in mechanical way which he thought might be improved in carrying on the war, and being an electrician both by occupation and inclination, he set to work to try his hand, being given every assistance and encouragement by the Government.

He soon succeeded in perfecting the direct wireless which is not by means of air waves, and consequently a message is not so easily picked up by the enemy as 30 miles. This system was immediately adopted by the British army, and in their operations on all fronts and it proved of great benefit. Only Britain, Canada, France and the United States can use the system, according to the agreement.

Sergt. Pinneo has also perfected an electric projector which he claims will disperse fogs on land and sea. "Will it be able to look after the fog situation in old London?" was asked.

"I don't see any reason why it shouldn't," was the reply. The medium bomb was also invented by Sergt. Pinneo and it was used very largely by the Allies. He worked under General Fowler and Lord Arlery of the British army, and for a time had his own office at Canadian Headquarters in London.

As all inventions by soldiers belong to the British Government, he did not need to have his appliances patented, but the gratuity he receives every three months from the Bank of England puts him beyond the state of need.

THE SUPREME SACRIFICE. O valiant hearts, who to your glory came Through dust of conflict and through battle's flame; Traquill you lie, your knightly virtues proved, Your memory hallowed in the Land you loved.

Proudly you gathered, rank on rank to war, As who had heard God's message from afar; All you had hoped for, all you had you gave To save Menin—yourself you sacrificed to save.

Splendid you passed, the great surrender made, Into the light that nevermore shall fade; Deep your contentment in that brief shade, Who wait the last clear trumpet-call of God.

COST OF MILK PRODUCTION GIVEN TO COMMISSION

Prof. Toole of Guelph Agricultural College Gives Result of His Observations.

Ottawa, Ont., June 9.—Professor Toole, of the Guelph Agricultural College, gave the cost of living committee of the Ontario Milk Producers' Association, this afternoon, figures of cost of the production of butter, beef and pork. These figures were the result, he said, of tests undertaken, supervised or observed by himself.

For the year ending February 28, 1918, a careful account was kept of the cost of 437 Oxford county farmers. Five hundred dollars was allowed to the farmer as wages and seven per cent for his investment. Other expenses were accurately allocated and they found the average cost of milk was \$2.17 per 100 pounds.

The average price paid for the milk was \$2.50 per 100 pounds. Today with even management the 100 hundred pounds would cost \$2.50 to \$2.75 to produce. The cost of labor had increased 60 to 70 per cent, while efficiency had decreased 10 to 30 per cent.

As a result of an article in the St. John Standard, which stated that agriculture had been neglected to keep them out of the market, it was decided on the motion of A. L. Davidson to bring the writer to Halifax to get his evidence.

Collection of Annual Agricultural Statistics

During the past two years the Dominion Bureau of Statistics at Ottawa, acting in concert with each of the nine Provincial Governments, has inaugurated and carried through successfully improved plans for the collection and publication of annual agricultural statistics for the Dominion of Canada.

Probably no official statistics present more difficulty than those of agriculture. Farming is essentially an individualistic industry, its operations are imperfectly understood by outsiders and the problem of securing trustworthy annual figures of total yield and value is often of baffling character.

From 1908 to 1917 the Census and Statistics Office, now the Dominion Bureau of Statistics, issued annual estimates of the area and yield of farm crops and of the numbers of farm live stock, these estimates being compiled from the returns of crop correspondents in percentages of the previous year's data. The method proved faulty for other than tentative estimates, and in 1918 the Dominion Bureau of Statistics issued annual estimates of the average yield of farm crops, which multiplied by the area, give the total yields. The total yields, when multiplied by average prices, give the total values. In June every year the areas are collected by the distribution of cardboard schedules to the farmers, and the returns are collected by the Dominion Bureau of Statistics.

It is possible to reach through the agency of the rural school teachers and children. The cards when completed are first sent to the Provincial Government, who after having them sorted into counties or districts, transmit them to the Dominion Bureau of Statistics at Ottawa for their use in calculating totals by adding machinery.

The figures thus actually collected form a fairly sure basis for estimating the total returns of the various products and the returns actually received. The final results are adjusted after consultation with the Provincial and Provincial authorities, and identical figures are then released for simultaneous publication by the Dominion and Provincial Governments.

The former publishes the figures for each province and for the whole of Canada, and the latter publishing the figures for their respective provinces. There is in the case of one or two provinces some variation of procedure. For instance, in Ontario the process is reversed, and the cards are sent and collected by the Dominion Government for compilation by the Provincial Government, the final estimates being calculated from the total averages according to plans in use in British Columbia the cards are addressed and mailed by the Dominion Government directly to the farmers, but the compilation is effected locally. Other variations apply to the printing and provision of supplies, these being undertaken in some cases by the Dominion, and in other cases by the province. But the essential feature is that division of labor is mutually agreed upon, and the results obtained are identical, so that the composite figures which used to characterize the government agricultural statistics of Canada is now happily a thing of the past. Similar procedure is applied to the numbers of farm live stock as classified by ages, and information as to the number of living animals on the farm in June is collected on the same cards as used for crops. The system was applied experimentally for the first time in June, 1917, in four provinces. Last year it was extended to all the nine provinces. The proportion of returns in the first year varied from 21 to 46 per cent; in the second year the lowest proportion was 20 per cent, and the highest 64 per cent.

LEMON JUICE FOR FRECKLES

Squeeze the juice of two lemons into a bottle, containing three ounces of orchard white, shake well and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

The grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

Nation-wide Strike of Telephone Workers

Ordered for Monday. Bulletin—Cleveland, Ohio, June 9.—A nation-wide strike of telephone workers, involving operators, maintenance, construction and repair men, was called today, effective next Monday morning, according to C. Dickman, financial secretary of the Electrical Workers' Union. It was announced the orders were received from the international headquarters at Springfield, Ill.

INDUSTRIAL INVESTIGATORS GET SOME COMEDY AT AMHERST

Feeling Ran High at the Meeting and the Chairman Was Obligated to Call for Order—Workmen Were Well Represented and "Haw Hawed" at Many Statements Made by Manufacturers.

Amherst, N. S., June 9.—The charge that the factory inspector of Nova Scotia had not visited plants in this town for two years was made at the session of the Industrial Relations Commission, held in the court house here, this afternoon. This claim followed a description of alleged violations of the Provincial Factories Act in textile plants and foundry here, and the contention that they were causes for labor unrest.

Feeling ran high at the meeting on the account of the general strike which is in progress in the town for the recognition of the "one big union and collective bargaining." Laughter greeted the announcement of one manufacturer that he was willing to law, while the union workers, who turned out several hundred strong, warmly applauded any statement that appeared to favor them. In the end Mr. Justice Mathers, the chairman, had to threaten to adjourn the meeting if quiet was not maintained. This had the effect of checking the men, and after it order was kept.

D. W. Robb, general manager of a local engineering plant, who spoke for the Amherst manufacturers, said that his men had not joined the general strike. He said that the union committee, and a new wage schedule had been negotiated. Personally he favored unions and an eight hour day. He pointed out the eight hour day should be universal if employers of labor were not to be penalized by adopting it when their competitors were not.

Mr. Robb said that the manufacturers in Amherst had offered to take their men back and open negotiations with them. Committees of the men in the various plants had been formed, but no one had yet returned to work. There was evidently a concerted effort being made by the men, and the strike was not a haphazard affair.

Amidst the laughter Mr. Robb stated that house rents in Amherst ran from \$7 a month to \$30 in the company's houses. Mr. Robb said that before the strike there was no unemployment in the town.

Commissioner Moore—"You say you favor unions, but you favor unions according to the definition of the employees?"

Mr. Robb said that he was not a union man, but that he was a fair employer. He said that he was willing to pay a fair wage for a fair day's work.

THE VICKERS-VIMY AIRPLANE TRIAL TRIP SATISFACTORY

The Entry for the London Mill's \$50,000 Trans-Atlantic Flight Worked Smoothly Monday.

St. John's, Nfld., June 9.—The Vickers-Vimy entry in the London Daily Mail's \$50,000 trans-Atlantic flight competition made a trial flight here today. The machine, piloted by Captain Jack Alcock, took the air at 8:41 p.m. local time, and descended 40 minutes later after a highly successful test.

With motors running perfectly, the big plane cruised over the city and surrounding country, and then headed out to sea for about 20 miles, returning at 9:01 p.m. A landing was made at the new Vickers-Vimy airfield near Ropewalk, where the machine will await suitable weather for the trans-Atlantic attempt.

Captain Alcock said that the test was entirely satisfactory, and that he had been especially pleased by the performance of his wireless equipment.

LAKE STEAMERS AGROUND IN FOG

Three Plying on Lake Superior Lost Their Way—One a Passenger Liner.

Sault Ste. Marie, Mich., June 9.—Three large steamers, one a passenger liner, are aground on Lake Superior above this port, as the result of heavy fog last night and this morning. The carrier Wilkinson, one of the largest boats at the Great Lakes, is on Point Irons on a rock bottom. Tugs have been sent to her assistance.

The Canadian passenger Hamilton, and the carrier Trevor Dawson, are aground at White Fish Point, resting on a sand bottom. No damage to the latter twoships has been reported but it is feared the rock bottom has injured the plates of the Wilkinson.

NURSE ON TRIAL FOR MURDER

Alleged to Have Murdered a Patient by Administering Poison at Andover, Mass.

Lawrence, Mass., June 9.—Mrs. Bessie M. Skeels, Landgren was put on trial for alleged murder by poisoning, in December, 1917, of Miss Florence Day, of Andover, for whom she had acted as nurse. The defendant still unconvicted after an operation two months ago, was brought from her home at Andover to the court house. She has been at liberty under nominal bonds. Her husband, Alfred J. Landgren, who married Mrs. Skeels at a hospital when she appeared in danger of death, attended her in court.

Mrs. Skeels is also involved in charges of poisoning in New Jersey, where a grand jury has indicted her for murder in connection with the death of her brother, Albert J. Wilkins of Bayonne. Witnesses from that city will be called both in the defence and prosecution. The trial is expected to last about two weeks.

SOME REMARKABLE IRISH VERDICTS

A coroner's jury at Kilmallock found that Constable Michael Barrington of the loyal Irish Constabulary, was shot by some person unknown during an attempt by armed men to rescue a Sinn Féin prisoner, at Knocklong, near Limerick.

The jury added a rider that the British Government should cease arresting respectable persons, because such arrests caused bitter exasperation among the people. They also called on the Government to give Ireland self-government at once.

Sergeant Peter Wallace, who was also killed in the attack, was found by the jury to have died from shock and hemorrhage, and they strongly condemned the Government for exposing policemen to danger.

LABOR GAZETTE HOLDS OUT NO HOPE TO THE POOR

City Commissioners Asked to Investigate the Cost of Living in This City—Presumed More Light Will be Forthcoming.

Information contained in the last issue of the Dominion Labor Gazette relative to price movements does not hold out much hope that the people's prayers for a decrease in the cost of living will be realized; but the city commissioners, having been asked by the Labor Department, to investigate the cost of living in this city, we may presently get more light on the subject, for according to the investigators, the commission form of government, specially designed to deal with difficult problems and provide a speedy solution when at last it really gets to work. The opportunity kindly offered the commission form of government will no doubt be seized with avidity, and with the earnest intention of proving that dubious critics, who have arisen in these latter days are not justified in their pretension that it is not fulfilled the high hopes entertained of it. Certainly if the commission form of government can solve the high cost of living question, its friends and foes are likely to rally to its support in an exuberance of enthusiasm never seen before.

Meantime the Labor Gazette says that the index number for wholesale prices in Canada was slightly higher for April, standing at 279.6 as compared with 277.5 for March, 268.4 for April, 1918, and 136.7 for April, 1914. For November, 1918 the index number was as high as 290.9, and there were slight decreases each month until April. Increases for April were in grains, foddere, hogs, meats, butter, vegetables, wool, silks, hides, boots, fuel and house furnishings, but there were decreases in fish, fruits, metals, building materials and chemicals.

In retail prices the average cost of a family budget of staple foods in some sixty cities of Canada was higher for April than in March, being \$13.55 in the middle of April, as compared with \$12.65 in the middle of March, \$12.57 in April, 1917, and \$7.51 in April, 1914. The retail increase was mostly in butter and meats, particularly beef and mutton.

TREMENDOUS WHEAT CROP FORECAST BY U. S. GOV'T

The Whole Crop is Not Quite up to the Record Reached Last Year.

Washington, June 9.—A wheat production of 1,250,000,000 bushels this year combining the winter wheat and spring wheat crops was forecast today by the department of agriculture from the condition of the crop June 1.

Winter wheat production is forecast at 829,000,000 bushels compared with 839,915,000 bushels forecast last month making it the largest ever grown. Condition of winter wheat was 94.3 per cent. of a normal compared with 100.5 last month, and 83.8 last year. Spring wheat production is forecast at 348,000,000 bushels compared with last year's production of 369,000,000 bushels, which was a record crop, making it the largest ever grown. Acreage this year is 22,639,000. Condition of the crop June 1, was 91.2 per cent. of a normal, compared with 85.2 a year ago.

TERRORIST PLOT INCLUDED 130 TOWNS OF VIRGINIA

Map and Evidence Has Been Found in Possession of an I. W. W. Leader.

Charleston, W. Va., June 9.—More than 130 towns in West Virginia were marked by terrorists for bomb explosions, according to a map and evidence found in possession of Edwin L. McGurty, alleged I. W. W. leader, arrested in Millsburgh last Thursday, it was announced at the Governor's office here today. Governor Cornwall, who is investigating ramifications of the nation-wide plot in West Virginia, said a roundup of radical agitators would be made as a result of data secured in the McGurty.

On and after Saturday, June 14th, steamer Champlain will leave St. John on Tuesday and Thursday at twelve o'clock noon, and Saturday at 2 p. m. (daylight time.)

DETROIT SEEKS REMEDY FOR ITS CITY TROUBLES

Municipal Ownership Viewed as Only Solution of Long Standing Traction Trouble.

Detroit, Mich., June 9.—Municipal ownership is the Mayor's solution of the long standing controversy with the Detroit United Railway Company, which reached its climax late Saturday night in a strike of carmen who had been refused wage increases because the city would not permit the company to make a charge for transfers in addition to a flat five cent fare on all city lines.

With the complete tie-up of all services continuing today Mayor Coussens asked the city council to ask a special election, within twenty days, and submit a proposal to bond the city for \$10,000,000 with which to build a municipally owned traction system.

The council will act on the request tomorrow night.

U. S. SENATE WANTS TO KNOW THE REASON WHY

The Appearance of Copies of the Peace Treaty in the Hands of New York Speculator Causes Row.

Washington, June 9.—Investigation of how copies of the peace treaty got into the hands of certain persons in New York was begun today by the senate foreign relations committee, and before it was fairly underway a copy of the document was presented to the Senate by Senator Borah, Republican, Idaho, and ordered printed in the congressional records. It was a copy brought to the United States by a Chicago newspaper man, probably one of those now on sale in the Scandinavian countries.

THOUGHT IT WAS A BOIL DOCTOR SAID ABSCESS.

Mr. Gleason R. Young, Kingsport, N. B., under date of Feb. 27th, 1918, writes us as follows: "About five months ago, a lump came on my nose. I thought it was a boil, and after it had been there quite a while I began to get larger. I went to a doctor and he said it was an abscess, and lanced it. He gave me a wash for it, so I went by his directions until it calmed up, but it commenced coming again, and in about three weeks it broke itself. I thought it would get better, but it did not. A neighbor advised me to get a bottle of Burdock Blood Bitters, so I sent and got a bottle, and by the time it was all gone, the abscess had disappeared, and now it is all better."

Burdock Blood Bitters will heal and dry up sores, ulcers, and abscesses, no matter how large or how long standing. If you have never applied it to a cut, wound, sore or ulcer, just try it and you will see how it cleanses, cleanses, purifies, soothes, and promotes the growth of healthy flesh.

Burdock Blood Bitters has been on the market for 40 years. Manufactured only by the T. Milburn Co., Limited, Toronto, Ont.

DR. KARL MUCH TO BE DEPORTED

Was Arrested in Boston as an Enemy Alien and Has Been Under Internment at Fort Oglathorpe.

Boston, Mass., June 9.—Dr. Karl Much, former conductor of the Boston Symphony Orchestra, who is under internment at Fort Oglathorpe, Ga., as an enemy alien, is to be deported to the United States. Assistant United States Attorney Dewey said today. The date of his sailing, which will probably be from Charleston, S. C., was not known to federal officials here. At the home of Dr. Much, friends said he would probably go to Switzerland. When arrested, as an enemy alien, Dr. Much claimed his father had become a Swiss citizen, and that he so regarded himself, although he was born in Germany.

NO RESPITE

Frank McCullough Will Be Executed on Friday at Toronto.

Ottawa, June 9.—Frank McCullough is to be executed at Toronto on Friday. Since McCullough was captured, following his sensational escape from the death cell, the department of justice has been flooded with petitions urging clemency. The case was reviewed in all its details but the government declined to interfere with the sentence.

PRES. BEATTY OPTIMISTIC OVER CANADA'S FUTURE

Believes a Bumper Crop Will Restore the People's Confidence, and Thinks it is Coming.

Winnipeg, Man., June 7.—E. W. Beatty, K. C., president of the Canadian Pacific Railway, who arrived in Winnipeg today from the West, where he has been on an inspection trip, said he was optimistic regarding the future in Western Canada. He says crop prospects in the West were never better.

"A bumper crop will restore the people's confidence. That is the best cure the industrial could have," he said in an interview. "This industrial unrest is nothing more than mental trouble due to the war."

"If we get a good crop, and prospects were never better, the things will right themselves. Conditions in the West are such that there is nothing to prevent every man from being an optimist."

"All agree that there is something wrong with the cost of living," he said in reply to a query. "The government should at once undertake a thorough investigation to discover how this was brought about. The investigation should be scientific. If it finds there are too many hands on the production of the soil it should increase production and thus create a greater market for soil products."

Commenting on the strike situation in Winnipeg, Mr. Beatty said "no movement that has for its purpose the strangling of constituted society can hope to succeed in any law-abiding country such as Canada. The general public will not stand for it," he said, referring to a sympathetic strike, and this being so, will not get strikers very far. Mr. Beatty said there was a good deal of uncertainty as to what would ultimately be done as far as the strike was concerned in Vancouver. With regard to his company's development in Alberta the president stated that plans were afoot for the construction of the Empress branch, and also a line from Empress to Medford. It was expected that these would be approved at an early date. This work would be proceeded without delay. The company, he said, had also under consideration a line running north from Empress through Coronation and Whiteford Lake.

VON BERNHARDI IN DEFENCE OF EX-KAISER

Says His Only Guilt Was in Not Beginning the War Early Enough.

Berlin, Saturday, May 17.—(Correspondence of the Associated Press.)—General Friedrich von Bernhardi, the military writer, under the title "Kaiser Wilhelm and Responsibility for the War," declares that the former Emperor's only guilt was in not beginning the war early enough, when his opponents were not equipped. He says of the Kaiser: "To the last moment he believed Russia would surrender if his imperial intentions, and England would not take part in the fighting. In this belief he negotiated to that end and only with difficulty could he be induced to take down the gauntlet that had been thrown down to him."

General von Bernhardi admits, however, that certain personalities influenced the Kaiser's assumption of the gauntlet. London, June 9.—Jewish pogroms have occurred in fifty different places in Russia, according to a Russian wireless message, which gives as its authority the newspaper Izvestia. Most of the pogroms were carried out in the neighborhood of Proskury. Three thousand Jews have been killed in Felebyn; 2,000 in Zhitomir; 4,000 in Teplak and 350 in Ovrutsk.

ST. JOHN, N. B., TUESDAY, JUNE 10, 1919.

GERMANY'S PROPOSALS.

Another week has begun with Germany's counter-proposals still under discussion and with only an indefinite prospect of early settlement. Germany is requesting conditions of peace which would satisfy no nation but Germany, and while the Allied powers are not inclined to make the concessions which Germany asks, they lean to the belief that terms accepted by the present German government and fulfilled by the German people will be more advantageous than harsher conditions which Germany will be inclined to fight later on and which might mean the overthrow of the present government. While the existing administration in Germany is a poor affair it is the best in sight, and should that government refuse to accept the peace treaty, extended delay will necessarily occur, pending the formation of a new administration.

Germany's counter-proposals may be boiled down to four definite requests. The first, the early admission of Germany into the League of Nations, which means what remains of that Empire will in future be guaranteed against assault or aggression on the part of other nations. Second, in place of the interest-bearing indemnity now rather vaguely defined in the peace treaty, a fixed sum shall be named, the amount of which shall be undertaken to pay. The third request is for a longer term of payment than has been specified. The fourth request covers the cancellation of interest charges on the indemnity previously mentioned.

The admission of Germany to the League of Nations has hitherto been regarded as a concession to be granted after Germany had shown repentance for past offences, and a desire to behave more honorably in the future. Whether this decision will be altered to admit the defeated nation is now under consideration, and in support of Germany's requests it is contended by some of the Allied powers that such a move will prove a check on Germany's military activities, that these other nations would be more readily able to control her ambitions if she again displayed any indication of endeavoring to become a dominant power. In the matter of a fixed indemnity, while the amount which Germany believes herself able to pay is not settled, it is believed to be two hundred billions of marks mentioned in the peace treaty as the first series of payments, and while this is a much smaller amount than any of the Allied powers had originally contemplated, some of the representatives in Paris seem to believe that this is all that could be collected in any event. France, which has sustained the greatest material damage—irrespective of the expenditures on military operations—naturally opposes any reduction of the indemnity or of the interest charges, and is also inclined to demand payment within the shortest possible period of years.

Besides these four principal requests Germany asks the use of marine tonnage, the privilege of purchasing coal from the Sarre area, the return of all colonies to German administration under supervision of the League of Nations, a neutral inquiry into the origin of the war instead of a confession of Germany's guilt, a plebiscite for Alsace-Lorraine and the re-occupation of the bulk of those territories which have already been disposed of to the Polish Republic. These concessions of course will not be considered, and it is intimated that should the first four requests be met by the Allies other conditions will be imposed not previously demanded which will make up to the victorious nations what they may grant in this particular respect.

U. S. MARINE.
Only three years ago the United States government refused to contribute anything in the way of subsidies towards shipbuilding industries. Now that government is spending hundreds of millions of dollars in the construction of government-owned vessels in the hope of recreating the American merchant marine. Mr. Joseph Daniels, Secretary of the Navy, speaking at Hog Island Shipyard the other day when a number of vessels were launched, said among other things: "We will not quit the shipbuilding industry, we will put it on a solid and firm and sound basis. We will build big ships and bigger ships. One of the chief compensations for participation in the great struggle is the restoration of the American merchant marine, or rather, its rebirth."

Mr. Daniels evidently inclines to the opinion that government construction and government ownership will solve the problem and eliminate foreign competition in the carrying trade. Yet the United States Congress is even now at a loss to know what should be done with ships as they are completed. It is apparently the intention to re-tain these vessels under American register and to permit their operation by private concerns and individuals, for there is no intimation that the government intends to engage in the shipping business on its own account. Yet in view of the present high cost

of construction, which will necessarily mean higher operating costs than are imposed upon vessels constructed according to pre-war prices, it is difficult to see how this competition can be overcome. Possibly the United States intends at some future time to rent these vessels at nominal rates and to encourage development of its own marine trade by generous subsidies. However that may be, the actual possession of the ships is an important factor in competition for world trade now developing, and whatever the policy of future years may be the United States will through this construction, high-priced though it may be, find itself in a better position than ever before.

HAWKER'S LUCK.
New York Tribune—Is there such a thing as luck? Can we scientists all place any credit in this faith, preserved from an age of amulets and amulets and strange talismans and charms and talismans? Why did Hawker fail, for instance? Because a piece of solder worked loose in the feed-pipe from the radiator; and the engine of that inconsiderable but historic piece of solder is no doubt due to the fatal hand of some workman who went to work cross and careless because the kids had cried all night or because the coffee was cold for breakfast. Pure science throughout and inevitable as the sunrise, a Sherlock Holmes of the microscope would say.

KANSAS HOT AIR.
New York Herald—Representative Strong, of Kansas, promises the country that if the Daylight Saving Law is repealed Kansas will give the nation "the greatest wheat crop ever." But wheat grows just as much in any given hour under the present time as under sun time.

FRANKNESS.
"What do you know of international affairs?"
"Nothing, but that doesn't keep me from discussing them as though I knew all about them."

THE WOMAN—JAZZ STOCKINGS ARE THE LATEST THING, DEAR. Here's a picture of a girl with them on. The Man—What appalling rot! Er—after you with the paper.—Punch.

TOO MUCH OF A SUCCESS.
"What's the matter old man," asked Driver as he met his friend, "are you feeling steady?"
"No, not exactly," replied the friend, "but I'll admit I've been prosperous lately. You remember I hired a man to trace my pedigree?"
"Yes," replied Driver, "what's the trouble, hasn't he been successful?"
"Successful, I should say he has," said the friend, "I'm having to pay him hush money."—Harper's Magazine.

THE USPEAKABLE PROFITEER.
Toronto Mail and Empire—There must be no lynch law in this Dominion. The redress of grievances is the business of government in its legislative, executive and judicial capacities. Under the law it is probably as wrong for men to conspire to stop the wheels of industry and bring about industrial and commercial stagnation as it is for a body of citizens to take the law into their own hands and hang a man for horse-stealing. And it ought to be as wrong for profiteers to plunder the public. No retailer should have license to take a profit toll of 15 cents a pound on butter or an equal margin on eggs. No one "higher up" in the trading world should be allowed to rake millions of found money off the backs of the necessitous of life. It is up to the government to deliver the people from the strike conspiracy as it is up to the government to deliver the people from the unspeakable profiteer. It is just as easy to keep the profiteer within limits as it is to make highway robbery rare. Profiteering must be dealt with in a more drastic and at the same time more equitable way than by taxing excess profits in the manner of the present. Simply means dividing the spoil with the profiteer and keeps the cost of living unendurable for the consuming public.

THE DANDY.
You may pull it apart,
But it never gets discouraged,
And it never, never quits.

MERCHANTS' BANK CLOSES SUCCESSFUL YEAR.
New Records in Deposits, Current Loans and Assets.
Shareholders of the Merchants' Bank of Canada have every reason to feel satisfied with the statement presented at the annual meeting of the bank held at the Head Office on Wednesday, the 4th instant. Gains were reported in every department of the bank's activities. The net earnings, amounting to \$1,382,000, are the highest on record, while the deposits, current loans, quickly available assets and total assets also make new high records. Total deposits in Canada now stand at \$128,000,000 as compared with \$113,000,000 a year ago. This in itself is a very large gain and furnishes striking evidence of the confidence placed in the bank by the public. Quickly available assets, amounting to \$62,750,000, are \$5,000,000 greater than they were a year ago and bear a very high ratio to the bank's total liabilities to the public. At the same time the statement shows that the bank has been doing its full share in catering to the business requirements of the community, as current loans now amount to nearly \$26,000,000 as compared with \$20,000,000 in 1918. Total assets amount to \$166,725,000, or an increase of nearly \$26,000,000 during the year. Further

A BIT OF VERSE
THE TRILLIUMS.
(The Khan, in Toronto Telegram.)
There's a beauty in the springtime woodlands,
Mid the basswoods where the trilliums grow;
There's a beauty in the dark-skinned hemlock,
In the shadows where the trilliums blow;
There's a beauty in the leafing maples,
On the hillside where the trilliums bide;
There's a beauty in the secret brush piles,
Where the modest little trilliums hide.
Oh! I love the wide, wet clearing
Where there's a trillium in the month of May;
Oh! I love the sun-kissed hilltop
In the breezes where the trilliums sway.
There's a music in a soft-voiced trillium,
Chanting in the early spring.
I'm the only one in all this wide world
Who has ever heard a trillium sing!
Oh! the margolds they sing the alto,
And the muscy willows all compete,
The pines sing the basso profundo,
And the trilliums sing the air so sweet.
Listen to the chorus in the forest,
For I can understand their tongue,
In the only one in all this wide world
That ever heard that great song sung!
Oh! there's music 'mid the tall white poplars,
Where the singers entertainments give,
Oh! there's music in the vine-wined thickets
Where the solo-singing trilliums live.
But there's sadness 'mid the glooming cedars,
'Mid the mosses where the trilliums bide,
Oh! there's sorrow 'mid troubled hemlocks,
In the shadows where the trilliums die!

WHAT THEY SAY
The Butter Book.

A BIT OF FUN
Those Mad Wags,
"He has fishing on the brain."
Fishing tackle, you mean. I have seen him when his brain reeled."
Pie at Home.
There was only one piece of pie left on the plate and Willie's mother

Little Benny's Note Book

BY LEE PAPE.
I was late for supper again tonight making the 3rd time in succession, yawning in the dining room and setting down in my place trying to look as if I wasn't. I was early instead of late, pop saying, "Well, well, well, here's our Benny, I was beginning to think we might never see him again."
Being sarcastic and maudlin, I was beginning to give him up for lost myself, but I'm naturally optimistic, and then of course it isn't the first time that he has bin away for a grate length of time.
Meaning last time and the time before and also being sarcastic, and my sister Gladis said, "He duzent seem to be changed much, no looks about the same as the last time I saw him."
Meaning me and being the most sarcastic of all, and I said, "Well, G, no wonder in late, gosh, didn't I help a poor soldier home because he wasn't hardly able to walk."
Mother, sed pop, we owe the boy an apology, we have bin indulging our so called sense of humor at his expense, even we should of bin praising him for doing a kindly action and helping a wounded hero.
It weren't no patriotic of him—did you help the poor fello far, Benny? sed ma.
About 5 blocks, I sed, and Gladis sed, "Well I surely must hand it to anybody for stopping to be patriotic while they're hungry—were was he wounded, Benny, did he have a scratch?"
I didn't say he was wounded, I sed.
The mischief you didn't—didn't you say he could hardly walk? sed pop.
Neither he couldn't, he was drunk, I sed.
Eat your soap, sed pop.
Which I did.

pressed the visitor to take it. He declined, but she insisted Willie had had no pie, and this was more than he could stand. In a voice of bitter sarcasm he howled out:
"Keep on worryin' him, ma—keep on worryin' him. He'll take it after a while!"—Ex.

FRANKNESS.
"What do you know of international affairs?"
"Nothing, but that doesn't keep me from discussing them as though I knew all about them."

GENTLEMAN TO SEE YOU.
"Tell him I'll see him in about half an hour."
"He says he won't wait a minute."
"Show him in instantly. He must be worth seeing."—Louisville Courier-Journal.

JAZZ CLOTHING.
The Woman—Jazz stockings are the latest thing, dear. Here's a picture of a girl with them on. The Man—What appalling rot! Er—after you with the paper.—Punch.

TOO MUCH OF A SUCCESS.
"What's the matter old man," asked Driver as he met his friend, "are you feeling steady?"

WEDDINGS

McGovern-McCarthy. Yesterday morning at five o'clock at the Cathedral of the Immaculate Conception, Rev. Wm. Duke, rector, with nuptial mass, united in marriage Bernard Joseph McGovern and Miss Florence Regina McCarthy. The bride is a daughter of Mrs. Elizabeth and the late Dennis McCarthy. The groom is a son of Mr. and Mrs. Thos. McGovern, 18 Charendon street. The breakfast was served at the home of the bride's mother, 247 King street east, after which the happy couple left on the early train for P. E. I., where their honeymoon will be spent.

On their return Mr. and Mrs. McGovern will reside at 249 King street east. Bradley-Norton. A pleasant event took place at the home of Mr. and Mrs. S. H. Bradley, Grey's Mills, on June 5th, when their niece, Miss Winifred Bradley, was united in marriage to Kenneth Norton, both of St. John. Rev. W. W. Howe officiated. A large number of friends and relatives and invited guests witnessed the ceremony. After a sumptuous tea the young couple left by auto for Belleisle Creek and on their return they will reside in St. John.

ARRIVED HOME YESTERDAY. A number of St. John men who served with the Siberian expeditionary force, arrived home yesterday and were given a warm welcome. Those who came were: W. Coleman, S. E. Chittick, W. J. Stephenson, M. A. Tibbels, C. H. Stanley, F. Richards, G. S. Porter, A. H. Buckler, B. J. Blanchard, J. Hodgson, F. Poirier and F. A. McLaughlin.

NEWLY APPOINTED DIRECTOR. Dr. A. P. Gorham, the newly appointed director of elementary agricultural education for New Brunswick, arrived in the city at noon yesterday from Boston and left in the afternoon for Sussex.

NO EXPERIENCE NECESSARY

The idea that bread making is a long and difficult operation is a mistake, as bread may now be included in the list of quickly prepared foods, for with

Mrs. H. Hornbeam After Information

Called on Hon. 1st Minister Yesterday and Asked About That Mysterious Million—Says She Received Little Satisfaction.

"I was in to see the Hon. 1st Minister today," said Mrs. H. Hornbeam. "And I said to him: 'Now, Mr. No. 1, tell me all about that mysterious million that is worrying Hiram so. What do you want it for? How are you going to spend it? Don't be bashful now.' 'My dear Madam,' says he: 'I'm delighted to see you. Are you going to vote for me next election?'"

"Don't you try to blarney me," said I, haughty-like. "I wouldn't sell my vote for a million. It's too late in the day to become a millionaire; it ain't respectable; everybody's down on millionaires except college presidents, and they're doing their best to save millionaires from the disgrace of dying rich."

"No, sir, I'm not going to sell my vote for a million. It's the first one I ever had, and I reckon women anyway won't sell their votes as cheap as they say men do. Now, young man, don't you try to interrupt me. Now women have got the right to vote you've got to listen to them. Don't you look at me as if you were saying to yourself, women don't know anything about politics! I've heard a lot of men folk talking about politics, and I reckon you don't have to know much about politics to talk about them. As for voting I should say men folk never knew what they were voting for, or if they did they never got it. There's Hiram. He voted for you, but what good did it do him, I'd like to know. He can't tell me. Neither can you. Don't interrupt! Let me get a word in edgeways. Talk—what have you done but talk? Have you carried out the promises in the St. John platform?"

"Why, here you are getting the people to let you have a million, and not telling them what you want it for! Maybe you're a great business man, but what kind of a housekeeper do you call yourself? How many women could get 30 cents from their husbands and not say whether they wanted to buy a hair ribbon or a gold brick?"

"What we want is a woman's government. Then when they asked for money they'd have to tell what they wanted it for. Now, don't butt in. Why didn't you give us women the right to sit in the legislature and form a government? Don't dare to interrupt me. I know what you want to say; you want to say there's too many old women in your government now. Allow me to say a word, please. Old women don't play fast and loose with promises and programs and money. It's something else, you're thinking of. Your government is light-headed. I'll admit, though it does move in dark and devious ways its binders to policy. Good afternoon. I'm proud to have had so much of your confidence. I'm sure you are a well-meaning young man for a politician, and I know Hiram will be pleased to hear all you've told me. Don't thank me. Good day. When your throat gets sore with talking like there—what's the use of telling you—I've watched your political career—you know the uses of a red-herring. Good-bye."

SCHOOL TEACHERS WERE ENTERTAINED

Misses Alberta McLeod and Edna C. Tufts Who Shortly Retire Were Guests of Winter Street School Teachers Yesterday Afternoon.

A pleasant function took place yesterday afternoon at the Manor House, Glen Falls, when the teachers of the Winter street school, entertained at dinner Miss Alberta McLeod and Miss Edna C. Tufts, who are shortly retiring from the staff of the school. Miss Tufts will be a principal in an interesting event when the schools close for the summer holidays. After the dinner Principal W. A. Nelson, on behalf of the teaching staff of the school, presented Miss McLeod with a namey brooch and Miss Tufts with a silver salad dish, taking advantage of the occasion to express regret that the school would lose their valued services, and wishing them success for the future. Miss McLeod and Miss Tufts made suitable responses. Two of the teachers expressed their sentiments in poetry, and other addresses were made in prose. Miss Margaret Haywood, a former teacher of the school and now in charge of the Domestic Science Department of a school in a large city of the west, who happened to be in St. John, was also a guest.

COMMON COUNCIL MET IN COMMITTEE

Informal Discussion Yesterday of Proposed Electrical By-laws—Other Business Transacted.

An informal discussion of the proposed electrical by-laws took place yesterday morning at the meeting of the city council but owing to the absence of Commissioner Thornton no action was taken. A delegation from the Electrical Workers' Union protested against the clause restricting access to the main fuse boxes to employees of the Power Company and the giving of privileges to master electricians not enjoyed by the journeymen.

On the recommendation of Commissioner Bullock it was decided to sell the "Butler" house on Millford Road to Michael Butler for \$400 cash. It was decided to take up the matter of increases to civic employees on Tuesday.

Police Court Cases Yesterday

Ralph Corning Charged With Obtaining Money Under False Pretences—Henry Barry May Receive a Whipping.

Ralph Corning, who is charged with obtaining money from L. R. Anthony under false pretences and with stealing a carriage from John Glynn, was before the police magistrate yesterday afternoon. Some evidence was taken and he was adjourned for three days. The accused pleaded not guilty to both charges.

Mr. Anthony in his evidence said that Corning had told him he had a cow for sale and he went to see it and paid \$15 in cash and a barrel of potatoes and was to pay the balance of \$50 later. When he sent for the cow he did not get it. Mr. Anthony went to see Corning and was told that he was buying a farm from Thomas Graham but that negotiations were not completed and the cow could not be delivered but that his money would be returned. Up to the present the cow had not been delivered neither had the money been returned.

Thomas Graham, for whom the accused worked, gave evidence that the cow in question belonged to him and not to Corning and that he had not given Corning permission to sell it. Witness had intended to sell the cow which was an Ayrshire and worth \$100. He thought that accused had offered to sell the cow for him to Mr. Anthony for \$100 but he was not sure.

The next charge of stealing a buggy from the barn of John Glynn was heard and Mr. Glynn told of the vehicle being stored in his barn in the Red Head district and that it disappeared from that place. The wagon was worth \$40 or \$50.

The case against Matthew Friers, charged with not giving a proper report of himself was further set over till Wednesday.

In the morning court Henry Barry, charged with using insulting language to two women, was adjudged guilty. The prisoner was remanded and the magistrate said if it were possible he would have him whipped.

George Winchester was charged with assaulting George Young, a Chinaman, in the latter's laundry. Joseph Brady, who was with Winchester at the time, is charged with a similar offence. Winchester pleaded guilty and was remanded until Brady is taken into custody.

Some evidence was taken in the case against Charles Savage, who is charged with a serious offence. He was remanded for further hearing.

ARE ASKING FOR POLICE PROTECTION

People in Parish of Simonds Considering Holding of Public Meeting to Discuss Matter.

The people of the Parish of Simonds are asking for police protection and it is understood are considering the holding of a public meeting to discuss the matter.

For some years the municipal council voted the money for police protection in the Parish of Lancaster and the Parish of Simonds, within certain limits, the assessment falling on all the parishes. Last January at the meeting of the council this vote was eliminated and it was left to the parishes desiring police protection to make a special assessment for that purpose. The Parish of Lancaster did so and appointed their own officers.

The people of Simonds, however, did not make any provision for a police officer and J. H. Saunders, who had for a number of years patrolled this section of the municipality very efficiently, was offered and accepted a position on the detective staff of the city force, since which time East St. John and Brookville have been without police protection.

AN ORIGINAL HAS RETURNED

Sergt.-Major Arthur Ellis Arrived Yesterday — Was With the First British Army in the Great War.

Among the men who returned home from the war zone yesterday was Sergt.-Major Arthur Ellis of 48 Elm street. This splendid soldier was one of the original British army in France and took part in the fighting of 1914. He served in France until 1917 when his unit was sent to Italy where he served during the remainder of the war.

Before coming to Canada, Sergt.-Major Ellis had spent twelve years in the Royal Horse Artillery and on the outbreak of the war he immediately started for England, where he arrived the last of August, 1914, joined his original unit and crossed to France in the early part of September.

He wears the Mons Star, the meritorious service medal and the Italian military medal. Needless to say he was given a warm welcome home by friends and family after nearly five years' absence.

FUNERALS

The funeral of Walter C. Magee took place at 2:30 o'clock yesterday afternoon from St. Paul's church. The Rev. Archdeacon Crowfoot conducted the services and interment was in the Church of England burying ground.

LOYALIST CHAPTER MET YESTERDAY

Good Attendance of Members —Number of Letters of Thanks for Donations Received—Donation to Nurses' Home, London.

Loyalist Chapter, I. O. O. E., met yesterday and received reports on the work. The regent, Mrs. Hugh Mackay, presided and twenty-one members took part in the deliberations. Letters of thanks for donations were received from the Red Triangle Club, Victorian Order of Nurses and the Association for the Prevention of Tuberculosis. Thanks for maple sugar were received from the following soldiers: Malcolm McKinnon, R. S. M. Busby and Fred Whyte.

The resignations of Mrs. Rhyder and Mrs. White were received with regret. An appeal from the Nurses' Home, London, was answered by a donation of \$25. It was decided to hold no meetings during the summer months but the chapter will continue to raise talent money and make articles for the Christmas sale.

Baldwin Says It Was Surprise of Whole Life

Vancouver Man Gets Rid of Three Years' Trouble and Gains Twenty-five Pounds by Taking Tanlac.

"I wasn't looking so much for gain in weight as I was for relief from my awful suffering," said C. A. Baldwin of 1184 Seymour street, Vancouver, in a conversation recently.

"I have suffered during the past three years," he added, "beyond words to tell from stomach trouble, nervousness and rheumatism. My stomach had gotten in such a bad condition that it just seemed to boil with sour gas. I had no appetite and what little I did eat would cause me hours of pain and misery. In fact, my food seemed to do me harm instead of good for I lost weight and strength all the time, and I ventured to eat anything the least bit heavy for breakfast it would unfit me for work."

"There was such an awful pain in my back at times that I would have to go home and lay down, and my nerves were so shattered that just my little noise would upset me. I could never get a good night's sleep, got up in the mornings all tired out and exhausted feeling would stay with me all day. Then to cap it all, I got rheumatism in my legs, arms and shoulders. My hands got in such a bad fix with this rheumatism that I could hardly hold anything."

"My condition was terrible and kept getting worse until I commenced taking Tanlac. Within a few days I had gained twenty-five pounds in weight, and my appetite is so big that I can't get enough to eat. I can eat just anything without the least trouble afterwards and besides getting all my strength back I have actually gained twenty-five pounds in weight, and am still gaining. All the pain has left my back, my nerves are better than they have been in a long time, and I don't feel a sign of the rheumatism any more. I sleep just fine every night, haven't felt so strong and well in years."

"Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro, under the personal direction of a special Tanlac representative.—Advt.

AN UNKNOWN GRAVE. Somewhere beneath the stars he lies Whom Earth has taken to her breast. Nor ever may our tear-dimmed eyes Behold where now he takes his rest. No cross records his well-loved name, No tomb in days to come shall tell In golden letters his true name. That crowned him even as he fell.

Yet he is here with us today; A thousand things his touch reveal, Sweet evidence no cunningly can hide. In many a heart his grave is green And sweet with flowers we planted there. Dear memories of what has been A wealth of fragrant blossom bear.

What matter if no sign may show Where rests at last his honored brow? Whose life and death have bid us know The strength of perfect love and trust? 'Tis ours to bear before the world Our part until the goal is won, The banner that his hands unfurled Still flies triumphant in the sun!

WEDDINGS. Nason-Cullen. The marriage of Frederick E. Nason of St. John, to Miss Janet J. Cullen, of Westville, N. S., took place at the residence of the bride's father, Mr. H. C. Fraser, on April 2, 1919.

Campbell-Murray. A wedding of interest took place yesterday afternoon in Kirk's church, when Rev. H. C. Fraser united in marriage Frederick W. Campbell and Mrs. Ada Jane Murray, both of this city. Mr. and Mrs. Campbell left on the Montreal train for a honeymoon trip.

SAVED FROM DROWNING. A drowning accident on Sunday Point was narrowly averted on Sunday by the prompt action of G. R. Crosby. A small tender which was bringing ashore two men and two young ladies filled with men and one of the young ladies, Miss Ring, would have been drowned but for Mr. Crosby swimming out from shore and rescuing her just as she was going down the third time.

BABY COVERED WITH ECZEMA. When 4 Days Old, Cross and Cried. Cuticura Heals. "My baby brother had eczema which began when he was about four days old. It came in little pimples and then a rash, and he was covered. He was so cross that he could not sleep, and he cried."

St. John Women's Institute Session

Considerable Business Transacted Last Evening—Will Continue Cooking and Sewing Classes—Successful Kindergarten School Established.

The monthly meeting of the St. John Women's Institute was held last night in the community center rooms, Congregational Church, Union street, and was largely attended, the president, Mrs. J. W. Lawlor, in the chair.

The institute has secured the vestry of the Congregational church and they will be responsible for the rent, lighting and heating of the room, and will be glad to place it at the disposal of kindred organizations for meeting purposes. One room has been fitted up for the use of the Free Kindergarten and a very successful school established.

The corresponding secretary read letters from the prominent women to mothers' pensions and from Hon. Dr. Roberts, minister of health, regarding the wrapping of bread.

It has been decided to continue the classes in cooking and sewing and the services of Miss Roach have been retained. Mothers may bring their sewing to the room, they will have the use of the sewing machines and the advice and instruction of a trained teacher in the making of the various garments. Cooking classes will also be held for their benefit and short lectures will be given by nurses and doctors in home hygiene.

The committee in charge of the entertainment, A Night with Moore, which is being arranged by Mrs. A. C. D. Wilson to be given in the near future, reports progress.

Mrs. T. N. Vincent, who has just returned from a visit to New York and Boston, where she visited the kindergartens, gave a most interesting account of her trip and some ideas which might be used to advantage in the work in this city.

Mrs. Lawlor read an interesting and instructive article on a live subject, birth control as sometimes practiced, from the May issue of the Woman's Journal.

OBITUARY. Frank Porter. Frank Porter, the popular druggist, who was conducting the pharmacy at the corner of Union and St. Patrick streets, passed away yesterday afternoon after a brief illness. Mr. Porter was 35 years of age. He had been in the best of health for some time, but his death which was due to a form of pneumonia, was a shock to his family and friends. He was the son of the late William Porter, and lived with his mother, Mrs. Charlotte Porter, of Union street. Besides his mother he is survived by one brother Bert, and one sister Mrs. W. H. Emery.

The funeral will take place from his late residence, 330 Union street, on Wednesday at 2:30 p.m.

Thomas G. Jenkins. The death occurred yesterday morning at the home of his parents, 52 Elliott row of Thomas George, the oldest son of John and Elizabeth Jenkins, in the twenty-fourth year of his age. He leaves his parents, one brother and one sister, Noel, of the C. P. R., and Miss Josephine of the Eastern Steamship Company, deceased was formerly employed with the Canadian Vulcanizing Company of this city. He was a member of the St. John Council of the Knights of Columbus, of the Y. M. C. I., and of the Holy Name Society. The funeral will take place on Wednesday morning.

Margaret Marjorie Odell. Mr. and Mrs. William Odell of Hampton have sympathy of friends in the loss of their eight-month-old child, Margaret Marjorie, who died on Friday and was buried on Sunday in the graveyard of the parish church at Lakeside. The little girl was one of twins.

Michael Law. Gagetown, June 5.—Death came suddenly during the intense heat of Tuesday afternoon to Michael Law, a well known and respected farmer, of this place. Although over eighty years of age, Mr. Law could not be called old, for up to the day of his death he was always actively engaged in his work. On Tuesday afternoon he walked up to a field back of the house to look at some young cattle pastured there, and as he had complained at noon of not feeling as well as usual, the family watched him, and after a time noticed him go and lie under a tree and wave his hat as if he was signaling them. His wife and two daughters ran to his assistance and he was able to speak a few words to them before he passed away. His death came as a shock to the whole community, and much sympathy is felt for the bereaved family.

Mr. Law came here from Ireland with his parents, when a boy, and was one of what was once a large family, who settled at Lakeside, about six miles from Gagetown. He was of the honest, industrious, hard-working type who give stability to a community, and was respected by all who knew him. He is survived by his wife, formerly Miss Kidney, of Woodstock; three sons, John, of Montreal, and Michael and James, of Gagetown; four daughters, Mrs. M. E. McCrea, and Mrs. T. Dabry Sharpe, of Gagetown; Miss Muriel, who has been teaching in the west, and Miss Margaret, at home; one brother, Thomas W. Law, and one sister, Mrs. Wm. F. Graham, Lawford.

The funeral took place on Wednesday afternoon, the services being conducted at the house and at St. John's church by the pastor, Rev. H. T. Buckland, and interment was made in St. John's cemetery, a large number of neighbors and friends being present. The six pall-bearers were William Weston, F. L. Dinneen, C. A. McKean, T. A. McAllister, J. F. Reid and R. H. Weston.

THE PULMOTOR. The commissioner of safety calls attention to the fact that a pulmотор is kept at the rooms of No. 1 Selvaige Corps and the telephone call is Main 117.

A CRIPPLE FOR THREE YEARS

Helpless in Bed With Rheumatism Until He Took "FRUIT-A-TIVES"

Another menace to human life has been discovered in Toronto and this time it is not any of the horrors with the long names, but the meek and gentle sausage has been lined up and condemned. Dr. The Toronto Times quotes Dr. Hastings, M. O. H., of that city, as authority for the statement that the article of diet known as the sausage should not be eaten at all, for beneath its surface may be the poison known as Botulism. The Times says: "The doctor was asked if there was any danger of this form of botulism, which has caused twelve deaths in Dawson, and which is attributed to canned goods, occurring here, and it was in connection with this that he rang the death knell on the sausage."

"This particular form of poisoning is supposed to be confined to the sausage," said Dr. Hastings, which explains its name as Botulism is the Latin name for sausage. The wisest plan is not to eat sausages at all, but if people will eat them they should be boiled first and then the first three sausages should be split down the centre and cooked on both sides. All canned food should be cooked before eating, and if properly cooked all danger of botulism will be eliminated.

"The doctor explained that one reason why sausages should be associated with poisonous poisoning is that the organism may be on the skins and also there is always the possibility that decomposition may have already started in the meat from which the sausage has been made. However, provided all canned food is thoroughly cooked—as is the case with the sausage—there will be no danger, the doctor pointed out in the conclusion."

MR. ALEXANDER MUNRO. R. R. No. 1, Lorne, Ont. "For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit. "Finally I decided to try 'Fruit-a-tives.' Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down. "I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

ALEXANDER MUNRO. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

LONDON'S DAPPER AUTOMOBILE THIEF

For Four Months Lived Like a Prince and Spent Money Lavishly—Now Goes to Prison.

London, Sunday, June 1.—(Correspondence of the Associated Press.)—For four months Sidney Meredith, an attractive musician of twenty-two, dressed in a princely style, was the talk of the town in fashionable hotels on the \$3,000 to \$2,500 a week he acquired through the daring theft of automobiles from a club or hotel and standing in front of clubs or hotels and drove away, and he confined himself largely to this method. He confessed, the police say, to stealing thirty machines in the four months he operated.

Meredith is credited with saying he sold each car quickly to a syndicate of wealthy men who, he believes, often made from 400 to 700 per cent. After repainting the machines and otherwise changing their appearance, he declined to divulge their identity.

You May Be Skeptical About What Dr. Chase's Nerve Food Will Do for You, But Here is the Evidence.

When the blood gets thin and watery, when the nerves become weak and exhausted, when your vitality is run down and you feel weak and tired, it is because nourishment is lacking. You may be eating as usual but your digestive system fails to obtain from which new blood and nerve force is created.

Because Dr. Chase's Nerve Food supplies this element to the blood and nerves it is the most successful or restoratives. While personal experience with a medical treatment is the only absolute proof that it will benefit you, still we are all similarly constituted and what will help one will help another under similar conditions. This is why it is so interesting to read the experience of other people, and many will find in this letter their own conditions described.

Mrs. Thomas Williamson, Pictou, Ont., writes: "For the last twenty years I have had trouble with my nerves. I suffered from sleeplessness, and, of course, my system was often in a run-down condition from nervousness. At different times when I would have severe attacks, I was under the doctor's care, but this only gave me temporary relief. Twice I was to a sanitarium in Toronto, where I secured some relief at the time. This past summer I suffered from another nervous breakdown, and it was then that I commenced using Dr. Chase's Nerve Food. I took treatment of this medicine and can now get up in the morning and do my work, which was something I could not do previously, because I used to get so strangely confused. My appetite is good, and I can sleep well, too. Generally speaking, I am so much better that I am proud of my improvement. I cannot speak too highly of the splendid results I have secured through the use of Dr. Chase's Nerve Food."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$3.75, at all dealers, or Edmanston, Bates & Co. Limited, Toronto.

SLAMMING THE POOR SAUSAGE

Toronto Specialists Say It Should Not be Eaten as Beneath Its Surface Lies a Poison.

Another menace to human life has been discovered in Toronto and this time it is not any of the horrors with the long names, but the meek and gentle sausage has been lined up and condemned. Dr. The Toronto Times quotes Dr. Hastings, M. O. H., of that city, as authority for the statement that the article of diet known as the sausage should not be eaten at all, for beneath its surface may be the poison known as Botulism. The Times says: "The doctor was asked if there was any danger of this form of botulism, which has caused twelve deaths in Dawson, and which is attributed to canned goods, occurring here, and it was in connection with this that he rang the death knell on the sausage."

"This particular form of poisoning is supposed to be confined to the sausage," said Dr. Hastings, which explains its name as Botulism is the Latin name for sausage. The wisest plan is not to eat sausages at all, but if people will eat them they should be boiled first and then the first three sausages should be split down the centre and cooked on both sides. All canned food should be cooked before eating, and if properly cooked all danger of botulism will be eliminated.

"The doctor explained that one reason why sausages should be associated with poisonous poisoning is that the organism may be on the skins and also there is always the possibility that decomposition may have already started in the meat from which the sausage has been made. However, provided all canned food is thoroughly cooked—as is the case with the sausage—there will be no danger, the doctor pointed out in the conclusion."

GAGETOWN. Gagetown, June 7.—Judge Wilson, who was here from Fredericton last Tuesday for County Court, was obliged to return home by the evening train, on account of sudden illness.

P. H. Hart year's graduate, B. C., is spending the week with T. S. Peters and the Misses Peters, before sailing for England, where he will spend the summer.

Morris Scovell left last week on a trip to the West, during which he will spend some time with his son, M. A. Scovell, who has taken up farming near Roblin, Man.

R. M. Palmer returned on Monday from a visit to St. John. He has been here from Fredericton for the holiday.

Eilon J. Belyea has returned from spending a week in St. John, with his father, George Belyea of the Military Hospital.

Mr. and Mrs. J. Allen Clowes, Mrs. C. W. Clowes, Gunner Arthur H. Clowes, and Miss Donald Clowes, motored from Margerville on Tuesday to spend the day with Mr. and Mrs. N. H. Oddy, Gunner Clowes, who is the son of Mrs. C. W. Clowes, saw two years' service, with the 10th Siege Battery. His eldest brother, Sapper H. G. Clowes of the 12th Can. Engineers, has just reached home on the Empress after a long overseas service.

Sergeant Walter Day, one of the original members of the St. John Fire Department, was here from Fredericton last week, visiting Mr. and Mrs. David Moore.

F. D. Dana, who was in St. John last week, has returned home. Sergeant E. D. Dickie, M. M. M., is spending the week in St. John.

Many friends of Miss M. Louise Scovell, and Miss Polly K. Scovell, Queens' College, are interested to know that at the graduation exercises of the Hartford Hospital, which were held on June 4th, these two talented nurses again proved their worth. Miss Polly Scovell, receiving the first prize of \$50 in gold; and Miss Louise Scovell, the second prize of \$25 in silver. At last year's graduation, Miss Louise Scovell received the graduating class and received the first prize for general standing, while Miss Polly Scovell was a fraction of a mark behind her sister, received the second prize for general standing.

Miss Marian Casswell of the Model School, Fredericton, spent the holiday at her home here.

On Thursday, Mrs. William Cooper, accompanied by her daughter, Mrs. Joseph Moore, with whom she has been spending the winter in Pictou, returned home for the summer months. Mr. Cooper returned last week, and many friends are glad to see them both back again.

George Moore of St. John, was here for the week-end with Mr. and Mrs. David Moore. Mr. and Mrs. J. W. S. Law, after spending the winter in West St. John, have returned to Gagetown to reside and have purchased a residence, and small farm property from Element Mahoney. Mr. Law has also secured a lot of intervals land on Grimrose Island, from Mrs. M. H. Oddy, from whom Herbert L. McKinley has also purchased a piece of island property. It was of much interest to their manufacturing region.

UNIQUE—first Half of Week

"THE ROMAN OF THE UNDERWORLD" Featuring Beautiful CATHERINE CALVERT An exciting and powerful drama which carries an atmosphere of the shun—a feature that will hold interest and has many exciting moments. SEE THE BIG COURT ROOM SCENE. The one and only FATTY ARBUCKLE in "FATTY'S CANINE FRIENDS"—A Riproaring Comedy. Mates, 2, 3.30; Evenings 7, 8.30. Same price. Coming Next Monday—"THE WONDERFUL MACISTE"—in "The Superman."

Kemp resided here a number of years ago, when her father, Rev. James Spencer, was rector of St. John's church.

The Women's Institute Pantry Sale was held last Saturday afternoon at Mrs. Wm. C. Belyea's. The table, which was decorated with appleblossoms, was in charge of Miss Gladys Gregory and Miss Grace Smith. The sale added \$8.80 to the Institute's funds, which are for the Gagetown Soldiers' Memorial Hall, a fact which should enlist the sympathy of everyone to help the Institute in its work.

George Hubbard who met with a painful injury to his foot, in D. A. Adams' mill about a month ago, is slowly recovering; but is not yet able to walk about the house.

More variable weather could hardly be recorded than that during the past week. On Friday night of last week it was so cold that ice was reported by several; on Tuesday, four days later, the thermometer stood at 90 degrees, and holiday makers found the pleasure of the King's Birthday somewhat marred by the heat. On Tuesday between two and three in the morning, a heavy electric storm passed over the town; but no damage was done to the vicinity.

HONEST MANUFACTURE AND FAIR DEALING—right principles and tested materials—all these make the REMINGTON TYPEWRITERS and REMINGTON SERVICE A. A. Mike Fraser, Jas. A. Little, Mar. 37 Dock Street, St. John, N. B.

REGARDING CANADIAN FISH. The secretary of the Board of Trade has received a number of enquiries in regard to Canadian fish and these have come from practically every known port in the world.

LIFT OFF CORNS WITH FINGERS. Doesn't hurt a bit and costs only few cents.

You'll laugh. Apply a few drops then lift sore, touchy corns right off. No pain. Yes, magic!

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or callus. Instantly that troublesome corn or callus stops hurting, then shortly you can get out, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the foot of every bad corn, soft corn, corn between the toes and the calluses on bottom of feet. So easy! So simple. Why wait? No bumps!

Don't Prod Your Liver to Action. It Overcomes Bilelessness, Constipation, Sick Headache, Quickly, No Griping or Pain, Guaranteed.

The organs of digestion, assimilation and elimination—the stomach, liver and bowels—are closely allied. The proper action of any of these organs is largely dependent upon the correct functioning of the others. "Whipping your liver into action" with cathartics or forcing your bowels with irritating laxatives or strong cathartics is a great mistake. A better, safer plan is strengthening and toning the whole digestive and eliminative system with Nature's Remedy (N.R. Tablets), which not only brings immediate relief, but builds and helps digestion and assimilation, overcomes bilelessness, corrects constipation and quickly relieves sick headache.

Get your system thoroughly cleansed and purified for easier stomach, liver and bowels working together—just take one N.R. Tablet occasionally to keep your system in good condition and all the time. Remember that it is easier and cheaper to keep well than it is to get well.

Get a 50c box and try it with the understanding that it must give you relief or your money back. (The N.R. Tablets are sold, guaranteed and recommended by your druggist.)

LYRIC THE HOUSE OF MUSICAL COMEDY

EARL and SUNSHINE "Girls of Yesterday and Today" Tony Williams and Co. Comedy Sketch. THE MAN OF MIGHT

Catarrh of the Stomach Is Dangerous. "Thousands Have It and Don't Know It," Says Physician. Frequently Mistaken for Indigestion—How to Recognize and Treat.

BE SUSPICIOUS OF TENDER GUMS. Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unannealed tooth-bases to the ravages of decay. Tiny openings in the gum form gateways for disease germs to enter the system. They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhoea it guards against other diseases of the mouth. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in start using Forhan's and consult a dentist immediately for special treatment.

FORHAN'S LTD., 87 St. James St., Montreal. All Drugists, St. Montreal.

Forhan's FOR THE GUMS. Rich Red Blood means health—means mental vigor and physical strength. What women in particular need to purify and enrich the blood—build up and invigorate the system, and clear the complexion—is Dr. Wilson's LERBINE BITTER. It is a true blood purifier—a blood food—made from Nature's healing herbs—and has given new health and happiness to thousands of women during the 50 years and more it has been before the public.

Returned Men Arrive Today

SUBURBAN DELIVERY.

Today Manchester, Robertson, Allison, Ltd. will inaugurate their suburban delivery, starting on the Westfield route, from South Bay to Lingley Station. It is their intention to run this route every Tuesday and Thursday. The Rothesay route from One Mile House to Fair Vale will run every Wednesday and Friday. Motor will leave their delivery room at 8:30 a.m. They will be glad to have suburban friends avail themselves of this opportunity of having parcels delivered.

HON. CRERAR NOW IN "NO MAN'S" LAND

Ottawa, June 9.—Hon. T. A. Crerar, former minister of agriculture, took his seat in the House "no man's" land, this afternoon. On his right, he has Major Andrews of Winnipeg, on his left Dr. Clark, of Red Deer.

FEDERAL TROOPS HOLD CHIHUAHUA

Mexico City, June 9.—(By The Associated Press)—The city of Chihuahua, which Villa was reported to hold, was entered Saturday by federal troops, commanded by General Manuel Dieguez. It was announced last night from the offices of President Carranza.

BOARD OF SCHOOL TRUSTEES REGULAR MONTHLY MEETING

Tender to Supply West Side Schools With Soft Coal Awarded to Colwell Fuel Company—Others Tenders Held Over—Eleven Applications for Teachers' Positions—Four Resignations Accepted—Other Business Transacted.

"Is there anthracite coal mined in Nova Scotia," was the question before the Board of School Trustees last night, and as the answer was not forthcoming through the session it is possible that the members are taking up the study of provincial mineralogy today.

The question arose over the matter of coal supply for the city schools, the point being raised by Trustee G. E. Day. Tenders, it was shown, were received at a special meeting held Monday afternoon, those from the Colwell Fuel Company, soft coal, for the West Side schools being found satisfactory at \$8 per ton delivered, and those from the J. S. Gibbons Company, at \$12.75 for hard, and the Dominion Coal Company for soft coal supplied to the east side schools were likewise favored. At the reading of this recommendation last night Trustee Day wanted it specified whether the coal supplied by the Gibbons Company were American anthracite or from Nova Scotia. No information forthcoming the business of the meeting proceeded.

The recommendation of the previous meeting, to accept the tender of the Colwell Coal Company for coal for the West Side schools was confirmed, but the tenders for supplying the east side institutions were held over for another meeting.

Applications for positions as teachers were read from E. G. Campbell, Fredericton; G. A. Titus, city; Elba Kirkpatrick, Dorchester; Marion Thompson, Grand Falls; Gunner Eckner, Holyoke, Mass. (who inquired regarding a position as musical instructor); M. M. Manning, city; K. G. Waring, Moncton; E. Kingston, Sussex; Mart L. Short, Fredericton; Jean McPhee city; R. G. Mowatt, Dalhousie.

M. R. McGraw, who has an M. A. degree from Dalhousie University, was placed on the staff of the city schools, following an application received last August.

George E. Day reported that he had made an investigation into the matter of a boy being hurt while playing in the yard of King Edward school and did not see where the school trustees could be held liable for the doctor's bill, as the boy was wrestling with another lad and slipped on a piece of ice.

Resignations were read from Dorothy M. Mitten, Edna C. Tuttle, (10 years service), Gertrude A. McLeod (39 1/2 years service), and Elizabeth Adams (on V. A. D. service). All were accepted and in the case of Miss McLeod it was decided that a suitable recognition of her long service would be made.

Leave of absence was granted to Bertha Forbes for the period of one year at half pay. Miss Forbes had served 20 years without leave. One year's leave was also granted to Dorothy Smith, who had served six years, but without pay.

Dr. Bridges, superintendent of schools, was allowed two months' leave, he to sail for Europe this week.

It was reported that Delta Campbell had been appointed to fill a vacancy on the teaching staff of the city schools, and that Marion Thompson, Florence Coster and Kathleen Falkens had been appointed to the reserve of teachers.

Invitations were received by the board to entertain the members of the contemplated by the St. Vincent's Alumnae, and it was ordered that the thanks of the board be forwarded to the alumnae association.

A communication from the Barrett Company regarding slate roofing and other matters was referred to the building committee.

A circular letter and recommendation from the Hamilton, Ont., Board of Education was read by the secretary. Stating that the great national debt incurred by the war would have to be borne by the country's human and natural resources, the recommendation called for the organization of a National Research Institute which would deal with the problems of agriculture, commerce, manufacturing, medicine and all other constructive activities.

Among those present were Dr. A. P. Emery, chairman of the board; Mrs. Dever, G. H. Green, Thomas Nasie, H. Colby Smith, M. Call, George E. Day, E. W. Ingraham, J. P. D. Lewin and Secretary Lennox.

The speaker at the Rotary Club yesterday, was Lieut. Col. W. R. Brown, who gave a most interesting account of his experiences and those of the battalion. E. Clinton Brown presided.

James H. Peacock was appointed janitor of the Sandy Point school vice Mr. Lowe, deceased. The salary is \$7 per month.

Two returned soldiers have been appointed to the posts of janitor in the city schools, according to the statement made by Trustee Green John Stanton, who was formerly janitor of the King Edward school before being transferred to the Centennial school, and P. A. McGraw had been appointed to the King Edward school position.

Trustee Day stated that though he had spoken to the premier regarding the matter of deferred salaries for the teachers of LaTour school, nothing had been done in the matter. It was shown that owing to an explosion and fire in the building, the six teachers had been unemployed for fourteen school days, and the governmental salary to the teachers had not been paid for that time. On motion of Trustee Nasie, seconded by Trustee Green, it was decided that the board would assume the difference in question and take up the matter afterwards with the Provincial Board of Education.

Chairman—"They will not pay, no use to ask them."

Trustee Day displayed before the board several panoramic photographs of local, overseas units and stated that framed they would make most suitable memorials to be placed in the various school buildings. Some question was made regarding price, but the matter was settled by the appointment of a committee of three, Messrs. Nagle, Day and Green, to look into the matter and make a detailed report thereon, with recommendations.

Deductions from teachers' salaries for time lost through sickness and other causes amounted during the present term to \$2,697.20.

Insurance premiums this year, it was pointed out, would amount to \$4,500. Increases have been made in the appropriation for King George, Albert and LaTour.

Dr. Mabel Hamilton, medical examiner of the city schools, addressed the board on invitation of the chairman.

On the eve of her appointment to a position under the Board of Health, she stated, she did not wish to make any positive statement. The new appointment would not materially change her work, and would be different only in the fact that she would be under the control of the Board of Health and not the Board of School Trustees. She advocated a physical examination of every child in the second grade, stating that she had found over 300 cases for special treatment in the lower grades during the past term. A clinic for the treatment of dental and optical cases was much needed, and she intended to approach the board in the autumn with the idea of having children with defective speech properly attended to by a special instructor, working at the school hours. There are 16 such cases in the public schools now, she declared.

Before retiring Dr. Hamilton was tendered with a formal vote of thanks for her past service by the board and a resolution was also drawn up giving the secretary the duty of supplying the official with anything in the way of supplies or information which the board may be in a position to give.

A communication from the committee to entertain the members of the citizens meeting in the City Hall was read, wherein the board was requested to take up the matter of vocational education. After considerable discussion it was decided to receive the communication, but the board would act only when properly requested and recommended by the common council.

The matter of repairs to the different schools was left to the building committee, with power to act.

Among those present were Dr. A. P. Emery, chairman of the board; Mrs. Dever, G. H. Green, Thomas Nasie, H. Colby Smith, M. Call, George E. Day, E. W. Ingraham, J. P. D. Lewin and Secretary Lennox.

Without a system of garbage removal, and is probably the only city of its size on the continent that is in that plight.

WAS SLIGHTLY DAMAGED. A barn in the rear of 123 Victoria street, owned by I. H. Clarke, was slightly damaged by fire yesterday morning. A call was sent in at 10:15 from Box 131, but the fire was extinguished without the aid of the department.

The Last Case of Smallpox in City

Board of Health Has Got Rid of it—Close Watch Being Kept to Prevent the Re-Introduction of the Disease.

The Board of Health has got rid of the last case of smallpox in the city, and a close watch is being kept to prevent the re-introduction of this disease into the city. There are still a number of cases in other parts of the province, but the infection is said to be pretty well under control, and the efforts to extend the sphere of vaccination are having good results.

At present the official health conditions in the city are better than they have been for some time, but there are still some complicated forms of pneumonia appearing and then, which are regarded as a sort of aftermath of the Spanish influenza.

Yesterday the Board of Health paid to the city its share of the expenses incurred by the annual spring cleaning of back yards. This is an expense the Board assumes for sanitary reasons, but the officials think it should be avoided by the city arranging for a proper system of garbage removal. Even Halifax, which is not regarded as an up-to-date city, having no commission form of government, sends teams around once a week to collect household refuse, which the citizens at stated times place in receptacles on the curb.

Before the old aldermanic system went into the discard, the city secured the passage of legislation enabling it to inaugurate a system of garbage removal, but before it was put into effect the commission form of government arrived on the scene, and the commissioners called for tenders for garbage removal under conditions that no contractor would consider. The commissioners, who at that time evidently thought they could make St. John as clean as a sanitarium without delay, wanted metal receptacles provided and the contractor to disinfect and sterilize them after usage. This seemed to be a too big a proposition, and the matter was allowed to drop.

After several years of commission form of government the city is still

CANADA FOOD BOARD LICENSES 11-003, 14-166.

You'd like to have the record published if you had been "over there"—

If you had endured the hardships our boys have faced day after day, week after week, year after year, and had helped by your heroic fighting to put the fear of God into the unspeakable Hun—

—if you had taken part in the many triumphs that have made Canada's name ring with honor throughout the world—

—you would think the folks at home would want to have the record of this achievement for all time—in readable form. In a book devoted solely to Canadian exploits—not obscured by the efforts of others.

J. Castell Hopkins and Captain R. J. Renison, Chaplain of the 4th Canadian Infantry Brigade have written the full story—a thrilling chronicle of Canada's war efforts.

In "Canada at War" Castell Hopkins tells of the work of those at home and of all the battles in which Canadian troops fought.

Captain R. J. Renison, in his wonderful epic of a hundred days' fighting, entitled "The Story of Five Cities"—written on the battlefields—tells of the final march from Amiens, through Arras, Cambrai, Valenciennes and Mons to the Rhine.

No more enthralling war book has been published. No book will so fascinate real Canadians. No Volume is more necessary if you are a loyal Canadian.

You cannot overlook "Canada at War"—the only truly Canadian record of Canada's part in the war.

PORT OF ST. JOHN.
June 10 1919.

Arrived Monday.
S. S. Penguin, 2875, Bernardo, Por-
tugal via Sydney, C. B.
S. S. Carib, 1259, Santo Domingo.
S. S. Carib, 1259, Santo Domingo.
S. S. Carib, 1259, Santo Domingo.
S. S. Carib, 1259, Santo Domingo.
S. S. Carib, 1259, Santo Domingo.

Will Load Wheat.
The Portuguese freighter S.S. Pen-
guin arrived in port yesterday and is
loading wheat at number five berth.
Here to load wheat for the British
Isles the Cardiff Hall, net tonnage
2541, arrived last night.

Arrived Last Night.
Among the late arrivals in the
harbor last night were the R. M. S.
P. Chaudiere, 2590, from Bermuda,
and the S.S. Carib, 1259 from Santo
Domingo. Both carry passengers
military and civilian, and are loaded
with raw sugar, molasses and other
native products for this market.

At the Long Wharf.
The S.S. Everilda, at berth three
and the S.S. War Country and War
Ottawa, at the west end east side
of the Long Wharf, are loading deals
for overseas.

Seven Steamers Here.
The harbor this morning presents
a livelier aspect than it has since the
winter port closed. There are two
at Indian traders in port, and five
ocean freighters, besides the smaller
coastwise craft.

Plenty of Lumber.
Millions of feet of lumber are de-
termining along the waterfront and
the river side, waiting for the tonnage
to transport to countries where the
material is urgently needed.

Walter Peltrey, Lawrencetown, Anna
Co., N. S.

**Why Can't I
Get To Sleep?**

Thousands of people all over the
country ask this question, but still con-
tinue to toss about at night, or
suffer from nervousness, or
headaches, or indigestion, or
other ailments, and it is impossible for
them to get a full night's refreshing
sleep.

Some constitutional disturbance, worry
or disease has so debilitated and ir-
ritated the nervous system that it can-
not be quieted except by the perni-
cious use of opiates or narcotics. Or
again, you have heart palpitation, and
sensation of sinking, a feeling you are
going to die, or perhaps you wake up
in your sleep feeling as though you
were about to choke or smother, and
the only way you can get relief is to
sit up in bed.

To all who suffer in this way Mil-
burn's Heart and Nerve Pills offer an
inestimable boon. They bring back
the much-needed night's rest by im-
proving the tone of the nerves, strength-
ening the heart, enriching the blood,
and making the whole organization act
in harmony—then you sleep as peace-
ful as a child.

Mrs. Jas. Lattimer, 39 Leinster street,
St. John, N. B., writes: "At night I
could not sleep. I had to sit up in
bed, my heart beat so fast, and when
I walked up stairs I would get all out
of breath. A friend recommended Mil-
burn's Heart and Nerve Pills and after
using two boxes, I can sleep all night
and am not out of breath after walk-
ing."

Milburn's Heart and Nerve Pills are
sold at all dealers, or mailed di-
rect on receipt of price by The T. Mil-
burn Co., Limited, Toronto, Ont.

The Fish Dealers and the Fishermen

Might Find it to Their Advantage if They Organized a Group for Purpose of Carrying on an Export Business.

"Fish dealers and fishermen of this province might find it to their advantage if they organized a group for the purpose of carrying on an export business, as manufacturers and traders in other lines are doing in Upper Canada," said Secretary Armstrong of the Board of Trade yesterday...

"In the past this province has not done very much fish export business to foreign countries, and this may account for the apparent unreadiness to take advantage of the enquiries now coming in for fish. Today we have two enquiries from Harve and one from Paris, while there are enquiries from Cuba, Hayti, and various British West Indian Islands."

SEVEN DAY MISSION NOW IN PROGRESS

Being Held for Men in St. John the Baptist Church—Conducted by Rev. J. Coughlan, C. S. R., Assisted by Rev. J. McLaughlan, Rev. F. J. McMurray.

A seven days' mission for the men of the St. John the Baptist Church, Parish, Lower Cove, was opened Sunday evening by the Rev. J. Coughlan, C. S. R., assisted by the parish priest, Rev. F. J. McMurray. There was a large attendance present at the opening services and it was an edifying sight to see so large a congregation of men...

IMPOSSIBLE TO HOLD SUMMER CAMP

Provincial Co-operative Commission of Girls' Works in Session Yesterday—Summer School at Sackville August 7 to 14.

The Provincial Co-operative Commission of Girls' Work met in the Y. W. C. A. rooms yesterday afternoon and decided that it would be impossible to hold camp this summer as no site is available. Every effort has been made to secure ground but nothing was found. Arrangements will be made for a camp next year.

FORTY-FIVE MINUTES FROM BROADWAY

Those wishing to secure tickets should do so at once at the Imperial as tickets are going quickly.

Severe Accident At Sand Point

Lascar Sailor Was Caught in Bight of Hawser and Had Right Leg Severed Above the Knee—Good Work by Ambulance Driver.

A Lascar named Abdul Akh met with a severe accident while employed on one of the steamers at Sand Point yesterday afternoon. He was caught between a heavy "strong back" and his right leg was completely severed above the knee.

When the ambulance was called the driver requested that the ferry boat be held at the West Side floes until he returned. As a consequence the man was enabled to reach the hospital in time to save his life. In spite of the great need of saving time it is understood that the passengers of the ferry made complaint on account of the boat being held but the delay was only for about ten minutes.

ANNUAL MEETING TODAY.

The annual meeting of the Fredericton diocesan branch of the Woman's Auxiliary will be held in Fredericton today. Harrison, Mrs. John Hay, Mrs. John McAvity, Mrs. J. M. Robertson, Mrs. W. D. Forester, Mrs. J. H. Roberts, Mrs. Courtland Robertson, Miss Sadler, Miss Portia MacKenzie, Miss Edith Skinner, Mrs. A. Johnston, Mrs. B. Frith, Miss Clara Schofield, Miss Alice Schofield, Mrs. A. H. Crowfoot.

DEUE AT HALIFAX.

Five officers and 81 other ranks for this district are due at Halifax this afternoon on board the S.S. Lapland.

TO BE ONE OF BEST EQUIPPED AND LARGEST AUTO SERVICE STATIONS IN DOMINION

J. A. Pugsley & Company Removing Their Entire Establishment to Plant at Glen Falls.

Owners of all makes of motor cars and commercial vehicles will be pleased to learn that Messrs. Pugsley & Company are installing a most complete and up-to-date service and repair department at the plant at Glen Falls, formerly occupied by the Ford Motor Company of Canada, and will cater to the repairing, rebuilding, painting, etc. of all makes of cars, as also electrical repair work on all types of electric lighting, starting and ignition systems and will be ready for business on Monday, June 16th.

This magnificent plant contains upwards of 36,000 square feet of floor space, is especially well lighted, and is practically fireproof, being equipped with the General Fire Extinguisher Company's sprinkler system fed from a water tower containing 30,000 gallons some sixty-five feet in the air, there is also an auxiliary fire pump capable of pumping 750 gallons of water a minute, and fire hydrants with lines of hose and fire alarms are conveniently located.

The two buildings are constructed of brick and cement—the front building being 220 ft. long by 80 ft. wide, and the rear building 220 ft. by 60 ft. In the front building facing Rothesay Avenue, there is located the very handsome executive, service, and sales offices and the motor show-rooms. Also contained in this building is the mechanical department for repairing and general overhauling; the U. S. L. battery service department, which is prepared to look after all makes of batteries, and the Amba electrical testing department. The Amba system has been invented by some of the best known electricians in the United States for testing the general ignition and lighting systems on motor cars, and by its use electric leakage or defects in wiring or electrical instruments on a car can be detected. While this is a piece of very expensive apparatus, at the same time it saves a great deal of time and labor in effecting repairs.

In the front building there is also located the receiving, testing and delivery space at the main car entrance to the building, directly off Rothesay Avenue, where a careful appraisal of the cost of repairs or painting is made and given the car owner when desired.

In the rear, or No. 2 building, is located the commercial vehicle car storage and painting department, the latter being constructed in the most modern and dustproof manner, and heated to a high and even temperature by a specially arranged steam heating system. This enables the painters—who are all expert men with many years' previous experience in many of the local paint shops—to do even better work than ever before, owing to the even temperature and freedom from dust, and which permits of the use of the best of English varnish, which is not possible in dusty paint shops heated by coal stoves.

The electrical and mechanical departments are being placed in charge of the most expert men obtainable, and those leaving their cars with Messrs. Pugsley & Company can be assured of having their work done promptly by efficient workmen supplied with the most up-to-date tools and machinery procurable, many of which are being obtained from the service departments of the leading motor car factories.

Considering the new Willys-Overland cars, which are bound to have a tremendous sale throughout this province, and that there are already over three hundred Overland cars in and around the city of St. John, the firm found their service garage on Duke street entirely too small, and having secured the splendid plant at Glen Falls they felt that in addition to caring for Overland owners, they would do their utmost to satisfy the service requirements of other makes of cars, the owners of which have found it difficult to have them repaired, owing to the dealers from whom purchased not having ample service facilities owing to congested garages and difficulty in securing expert workmen, which may be traced to the recognized fact that a small repair business cannot afford the overhead cost of high priced superintendents and mechanical men.

An Extraordinary Proposition Made

United States Senator Asks That American Government Acquire Part of St. Lawrence River Opposite Montreal—Matter Not Taken Seriously.

A rather extraordinary proposition is embodied in a resolution which has been introduced into the United States Senate by Senator King of Utah, asking that the American government be authorized to acquire a part of the River St. Lawrence opposite Montreal and to investigate the feasibility of building the long talked of Georgian Bay to Lake Superior with the Atlantic by way of French River and the Ottawa River. Senator King is apparently not worried about the sovereignty of Canada, and he has not mentioned whether he proposes to acquire Courtenay Bay or St. Stephen as a winter port. St. John's interest in the proposition, of course, is that Senator King if he carries out his programme will need a winter port somewhere, unless he proposes to take up his abode in the aforesaid American port on the St. Lawrence opposite Montreal when no doubt the supply of hot air which would be released in that quarter would be sufficient to keep the St. Lawrence free of ice.

The Senator from Utah proposes to refer the matter to the International Waterways Commissions, and in return for an American port on the St. Lawrence he would have the United States bear half the cost of constructing the Georgian Bay Canal.

H. A. Powell of this city, who is a member of the International Waterways Commission, said he had heard nothing about the proposition, and he was not inclined to take it seriously. Now that the powers at the Peace Conference are internationalizing the rivers of Europe the King of Utah may think it is time to internationalize the St. Lawrence, but it does not appear that the project has been received with any enthusiasm in Canada. The fact that Americans in the past have been interested in the building of the Georgian Bay Canal is nevertheless worthy of note. Such a canal would, it is said, divert a good part of American trade from the Canadian channels. Recently a convention of Ontario city and county representatives urged the Dominion government to proceed with the construction of the canal, as it was said enough water power could be developed in connection with the project to pay the cost. If Senator King's proposition is carried out, it is not clear how it is to go ahead with the scheme since that it might otherwise have done, it may serve a good purpose.
