See Whiteside's Patent Spring Bed, page 20.

OTTAWA HOTEL, MONTREAL.

C. S. BROWNE,
Manager.

THIS
POPULAR
First-Class
HOTEL
Accommodates
400
Guests.

The OTTAWA HOTEL covers the entire space of ground running between St. James and Notre Dame Streets, and has two beautiful fronts; the one on the right, in the above cut, represents the front on Notre Dame Street—the other on the left, the St. James Street front. The house has been thoroughly REFITTED and FURNISHED, with every regard to comfort and luxury—has Hot and Cold Water, with Baths and Closets on each floor. The aim has been to make this the most UNEXCEPTIONABLE FIRST CLASS HOTEL IN MONTREAL.

The Manager respectfully informs the travelling public, that he intends by constant attention to the wants of his patrons, to make this hotel a comfortable home for travellers.

Carriages, with attentive drivers, may be had at all times by application at the Office.

Coaches will also be found at the Railway Depot, and Steamboat Landings, on the arrival of the several Trains and Steamers.

THE QUEEN'S HOTEL, TORONTO, Ont.

Capt. Thomas Dick, - - Proprietor. Thomas McGaw, - - Manager.

The "Queen's" in the City of Toronto, is one of the largest Hotels in any Dominion of Great Britain; it is most convenient to the Great Western Union, and Northern Railway Stations, Steamboat Piers, and the business part of the City. It is situated on Front Street East, between Bay and York.

THE GREAT SHOSHONEES REMEDY and PILLS

Before proceeding, we desire to commend the following few brief and candid explanatory remarks on the great

INDIAN COMPOUND

now for sale in the Dominion. Indeed we hazard nothing in saying that this truly wonderful discovery the GREAT ALTERNATIVE and BLOOD PURIFIER of the age, whose equal has never been even approached, is the Remedy of Remedies of the 19th century, and the greatest boon ever laid on the altar of suffering humanity. We refer to the

GREAT SHOSHONEES REMEDY AND PILLS

of the celebrated INDIAN MEDICINEMAN

Dr. Lewis Josephus,

of the distinguished Tribe of Shoshonees, Columbia Territory, warranted to make a Permanent Cure of all diseases of the

THE SHOSHONEES ILLUSTRATED ALMANAC.

J. C. CHAMBERLAIN

PROPRIETOR AND MANUFACTURER OF THE

GREAT SHOSHONEES REMEDY.

The extra good nature of fallors about this time, a contemporary says, is owing to the immense crop of cabbage this year.

At one of our churches, Sunday, while the organ was playing vociferously, a good lady, whispering to her neighbour in the pew, had to raise her voice quite high in order to be heard. Suddenly the organ changed from loud to soft, when the lady, not taking note of the organ, was heard to say to her friend, "We fry ours in butter." Perhaps the congregation didn't snicker."

If a poor lone youth, with a waxed end to his moustache, should write a young lady in this city to meet him by moonlight alone, and the young lady's old mother should come in on a tangent and tan the gent until the plane of his coat-tail formed an angle with a vertical line, would the hypothenuse of the community be equal to the sum of the squares described by the young man in "gittin away from dar?" And if so—"how?"

THE SHOSHONEES ILLUSTRATED ALMANAC. 3

EXPLANATION OF CALENDAR PAGES.

The publisher of this Almanac, with a view to increase its circulation and usefulness, has adapted its calculations for the whole country. The Moon's changes are given for five different places, viz.: Quebec, Montreal, Kingston, Toronto, and London. The rising and setting of the Sun are given for Montreal and Toronto. The rising and setting of the Moon are given with sufficient exactness for all practical purposes. The Weather prognostications are again calculated according to the table of the celebrated Dr. Herschel; and for extraordinary accuracy the Shoshonees Almanac retains its wonderful popularity.

ECLIPSES DURING THE YEAR 1873.

There will be four Eclipses during the year 1873:

I.—On the 12th of May there will be a total Eclipse of the Moon. It will be partial and briefly visible in Montreal, beginning about 15 minutes before 5 in the morning. The Moon will set Eclipsed and thus pass out of view. II.—On the 26th of May the Sun will rise partially Eclipsed. The Eclipse will end about ten minutes after Sunrise. III.—On the 4th of November there will be a total Eclipse of the Moon not visible in these parts. IV.—On the 19th of November there will be a partial Eclipse of the Sun, but not visible in Canada.

APPEARANCES OF THE PLANETS.

Venus will be Evening Star until the 5th of May, and after that date a Morning Star. Mars will be a Morning Star until the 17th of January, and after that date an Evening Star. Jupiter will be an Evening Star until the 4th of September, and after that date a Morning Star. Saturn will be seen as a Morning Star from the 18th of Jan. to 22nd April, and until Jan 13 an Evening Star, and also after 22nd April.

THE REASON WHY.—The United States Dispensary speaks of Wild Cherry Bark as among the most valuable of our indigenous remedies. From an analysis by Dr. Stephen Proctor, it appears to contain Starch, Resin, Tannin, Gallic Acid, Fatty Matter, Liquid Resin, Coloring Matter, Salts of Lime, and Potassa and Iron. He also obtained a Volatile Oil associated with Hydrocyanic Acid. This Bark is a powerful Tonic, calmative of nervous irritability and an arterial sedative. It is admirably adapted to the treatment of diseases in which debility of the stomach, or of the system is united with general or local irritation. When largely taken it diminishes the action of the heart, an effect ascribable to the Hydrocyanic Acid. The Remedy is highly useful and has been employed in this country in the hectic fever of Scrophula and Consumption. It is well adapted in many cases of Dyspepsia, and has been given successfully in Intermittent Fever. Wild Cherry Bark enters largely into the composition of that famous Indian medicine—the Great Shoshonees Remedy—which cures as if by magic.

PROPERTIES OF THE GREAT SHOSHONEES REMEDY.

As a thorough and permanent Purifier of the Blood it cannot be excelled, and, indeed, has never, never been equalled. It is a great Alterative, Expectorant, Tonic, and Laxative Regulator, and has a most supreme action on diseased Lungs, Liver, Digestive Organs, Bowels, Kidneys and Skin. And, in addition to these properties it possesses the peculiar power of Healing, Strengthening and Restoring to full vigor and health those all-important internal organs, the Lactal Vessels, which latter effect we can confidently affirm, without fear of opposition, has never been, nor is now possessed by any other medicine or remedy under the sun; and to think of thoroughly and permanently purifying the blood without restoring the all-important functions of the Lactal Vessels, which are always deranged in the debilitated constitution, we might as well try to see the noon-day sun at midnight; and as no disease can be thoroughly, radically, and permanently cured while Impure Blood, or any trace of Impure Blood, is left lurking in the system; and, again, as scarcely a disease to which humanity is heir to can long exist after the Blood is thus thoroughly and permanently Purified, well may it be claimed that this great Indian Remedy possesses a pre-eminence over all other medicines of the past and present ages. But the salutary and curative properties of this Great Remedy does not stop even here; but while it is thus permanently Purifying the Blood, and restoring to healthy action the all-important functions of the Lactal Vessels, as well as those of the Digestive Organs, it is also renovating, giving tone to and clearing up the channels, pores, and ducts of the various internal organs of the body, and thereby establishing the circulation through them of a perfectly Purified Blood, and a cure—a radical and permanent cure—is the inevitable consequence, except in the third stage of Consumption. Hence we hazard nothing in saying that the Great Shoshonees Remedy is the remedy of remedies of the nineteenth century, and the greatest boon ever laid on the altar of suffering humanity. For a history of the all-important functions of the Lactal Vessels the reader is referred to page 15 of the treatise accompanying each bottle of the Remedy.

LADIES.

You may read and learn here what will be to your greatest interest, without having to tolerate the reproaches and scandal of a slanderer's pen, so current in pamphlets, almanacs, newspapers, &c., with the headings affixed, "Ladies, Women, &c." Believe us, with kindest regards and respect for the female sex, we will not offer you one single word that would be offensive to the most comely, suffering virgin. Nay, we insert nothing but that, the publication of which has been sanctioned by ladies who have themselves been restored from peculiar sufferings to perfect comfort and health by the use of that peculiar Indian compound—the Great Shoshonees Remedy. A hint for the wise is sufficient. It is only necessary to state that the great cause of female sufferings, whatever the nature of the complaint, is irritation from some source, and its consequent engorgement, obstruction, and choking-up of the various delicate veins, ducts, and passages of the organ affected. And being thus deprived of its healthy circulation, the organ refuses to perform its natural functions, the inevitable consequence of which is, invariably, suffering, poor health, and often a life of misery and decline. The ambition of poor sufferers in such cases is health, health, health; and we ask you, in the name of common sense, what is it that is absolutely necessary, in such cases, to the achievement of their ambition? Is it not the healing properties of a Purely Vegetable, Great Remedy, fresh from Nature's Kingdom, possessing supremely Alterative, Tonic, and Deobstruent properties that cannot fail to purify and enrich the Blood, to give life, tone, and strength to the system, and to remove obstructions to the free circulation of Healthy Blood, through the capillary network, the passages, pores, and ducts of the affected organs? It certainly is, and all we can say now is that never before was the world in possession of a medicine or compound that would so effectually accomplish the objects as does that peculiar Indian compound—the Great Shoshonees Remedy. Judge you of the propriety of its use. But we will say this: If you thoroughly test the merits of this Remedy you will, like scores of our cousins across the lake, almost worship and idolize the very name of the old Indian doctor.

A CLEAR conscience is the best law, and temperance the best physic.

At Vicksburg the frequenters of saloons are not asked what beverage they prefer, but are invited to "nominate their family disturbance."

DANGEROUS.—There is a bashful bachelor who dares not meet ladies in the street. He says they wear so many bugles on their dresses that he fears overtures from them.

A HOUSE without children is like a lantern and no candle; a garden and no flowers; a vine and no grapes; a brook with no water gurgling and rushing through its channel.

A CLEVER man has invented a new and cheap plan for keeping a boarding-house. One of his boarders mesmerizes the rest, and then eats a hearty meal—the mesmerized boarders are satisfied from sympathy.

"My dear Ellen," said a young man, "I have long wished for this sweet opportunity, but I hardly dare trust myself to speak the deep emotions of my heart; but I declare to you, my dear Ellen, that I love you most tenderly. Your smiles would shed—would shed—"

"Never mind the wood-shed," said Ellen, "but get on with your pretty talk."

VIRTUOUS INDIGNATION.

HIGHLANDER, (pointing to a pair of suspenders.) — "Weel, mem; what's the price o' thae?"

MADAM. — "Indeed, they dinna concern YOU at any rate!"

A HINT.—Dress plainly. Thinest soap-bubbles wear the gaudiest colors.

ARTHEUS WARD thought it a bad thing not to have a wife—no gentle heart to get up of a cold winter's morning and build a fire.

A YOUNG lady, who has been studying finance for some time past, wishes to know whether the day rate of gold affects the price of silver.

A YOUNG Californian went to sleep, leaving his candle in the bughole of a powder-keg. He was picked up in the morning all over the house.

A MARRIED lady being asked to wait, gave the following sensible and appropriate answer: "No, I thank you, sir; I have hugging enough at home."

Men are like tea—the real strength and goodness is not properly drawn out of them until they have been a short time in hot water.

WHAT is the highest note in the voice?—The place where the voice sticks.

KIND words are the brightest flowers of earth's existence; they make a very paradise of the humblest home that the world can show. Use them, and especially around the fireside circle. They are jewels beyond price, the more precious to heal the wounded heart, and make the weighed-down spirit happier than all the other blessings the world can give.

nders.) — "Weel,
if any rate!"

DYER'S COMPLETE GUIDE.

The following valuable information has been kindly furnished by
Messrs. HEATH & GUNN, Chemists, Kingston, Ont.

REMARKS.

It is absolutely necessary that every article to be dyed, as well as every utensil to be used in dyeing, should be perfectly clean.

Every article to be dyed should be thoroughly scoured in soap and well rinsed out. In order to secure uniformity in color, and to avoid spots on wool, yarn or fabrics, it is desirable that every article should be dipped in warm water, just before putting into the alum or other mordant.

In all cases soft water should be used, if possible, and in quantity sufficient to cover the articles completely.

As soon as an article is dyed it should be aired a little, then well rinsed out, and afterwards hung up to dry.

In putting dresses and shawls out to dry, that have been dyed, they should be hung up by the sides, so as to dry evenly.

BLEACHING LIQUOR.

One gill muriatic acid, one gallon soft water; soak the wool or cloth for fifteen minutes, and rinse well in pure water.

FOR COLOURING BLACK.

On Wool, Silk or Cotton. For every lb. of cloth or yarn it will require one oz. of the Extract of Logwood and half an oz. of Blue Vitriol. Prepare an iron kettle with a sufficient quantity of soft water to prevent the cloth or yarn from being crowded, bring the water to a scalding heat, then put in the yarn or cloth, and when thoroughly wet take it out and let it drain; then add the Blue Vitriol, and when dissolved and the water carefully skimmed, put in the material to be coloured, and let it remain half an hour at scalding heat, airing it occasionally, then take it out and rinse it in soft water, empty the Vitriol water into another vessel, and dissolve the Extract of Logwood in a sufficient quantity of water brought to a scalding heat and skimmed; put in the cloth, keeping the dye at the same temperature, and let it remain half an hour, airing it frequently; then take it out and drain it, and add the Vitriol water to the dye, put it in again and let it remain fifteen minutes, airing it as before; cleanse it in soft water, and let it drain and dry.

SCARLET RED.

Take soft water sufficient to cover the cloth or yarn you wish to colour; bring it to a boiling heat in a copper kettle, then add 1½ oz. Cream of Tartar for every pound of cloth; now boil a minute or two, and then add two ounces of Powdered Lac and three ounces of Madder Compound (the Lac and Compound must be previously mixed in an earthen bowl), boil five minutes, now wet the yarn in warm water and wring it, and put it in the dye; then boil the whole nearly an hour, take the cloth or yarn out and rinse it in clean, cold water.

COCHINEAL SCARLET NO. 1.

For one lb. of cloth or yarn, take Cream of Tartar 1½ oz., water sufficient to cover, boil in a black tin vessel, and when dissolved, add solution of tin 1½ oz., boil for three minutes, then introduce the cloth and boil it for two hours, drain and cool. Next take Cream of Tartar 1 oz., water sufficient; boil and add Powdered Cochineal 1 oz.; boil for five minutes, then add gradually solution of tin 1 oz., stirring well all the time. Lastly, put in the goods and dye as quickly as possible.

PURPLE.

For 5 lbs. goods: Cream of Tartar, 4 ozs.; Alum, 6 ozs.; Cochineal well-purified, 2 ozs.; Muriate of Tin, 4 tea-cups. Boil the Cream of Tartar, Alum and Tin 15 minutes, then put in the Cochineal and boil 5 minutes; dip the goods two hours, then make a new dye with Alum, 4 ozs.; Brazilwood, 6 ozs.; Logwood, 14 ozs.; Muriate of Tin, one tea-cup, with a little Chemise; work again until pleased.

Calendar Events, &c.
St. David's Day.
 1st Sunday in Lent.
 March begins to exhibit its old character for many variations of wind & weather.
 There has been thaw, but now has come frost with prospect of continued cold.
 2nd Sunday in Lent.
 Very unstable to-day. All through the middle days of the month the wind and weather are variable and unreliable.
 3rd Sunday in Lent.
 St. Patrick's Day.
 A brilliant spell of warm sunshine, but clouds arise.
 Rain is coming, mixed with sleet and snow.
 Heavy wind and cold.
 4th Sunday in Lent.
 Changeable.
 Annunciation of Virginia Mary.
 You may look out for cold rains if wind be west.
 Some frost again and snow if wind be west.
 5th Sunday in Lent.
 Not unpleasant ending.

A young farmer who enquired the way best to start a nursery was told to get married, & married he is to succeed.

The recent magnificent display of the aurora borealis is attributed to an illumination gotten up by the polar bears.

CONSUMPTION.—To what flower should we be inclined to liken a noisy male hen, that was in the habit of waking us too early in the morning? A crow-cuss.

TRUE OF THE SHOSHONEES V. R. PILLS.—This excellent Family Medicine is the most effective remedy for Indigestion, Bilious and Liver Complaints, Sick Headache, Loss of Appetite, Drowsiness, Giddiness, Spasms, and all Disorders of the Stomach and Bowels, and for elderly people, or where an occasional aperient is required, nothing can be better adapted. Persons of Full Habit who are subject to Headache, Giddiness, Drowsiness, and Singing in the Ears, arising from too great a flow of blood to the head, should never be without them, as many dangerous symptoms will be entirely carried off by their timely use. For females these Pills are truly excellent, removing all Obstructions, the distressing Headache so very prevalent with the sex, Depression of Spirits, Dullness of Sight, Nervous Affections, Blistches, Pimples, and Sallowness of the Skin, and give a healthy juvenile bloom to the complexion.

10 THE SHOSHONEES ILLUSTRATED ALMANAC.

Its Peculiar Mode of Action.

The mode of action of the Great Shoshonees Remedy differs somewhat from that of all other medicines. The regular practice among physicians, and that generally aimed at by compounders, is, as always has been where the blood is impure, to administer medicines which act upon the blood only; where the lungs are affected, medicine to act upon the lungs; and upon the same principle they will treat female complaints, diseases of the liver, digestive organs, kidneys, rheumatism, syphilis, &c. A right up and down view of the matter must teach us that this principle can not properly succeed. The lungs, liver, kidneys, bowels, skin, &c., act as so many waste gates for the escape of effete and poisonous matters and gases from the body. When one of these organs refuses to fully accomplish its task there is, in consequence, so much effete matter left in the system that should be thrown off, and as this effete matter cannot lay dormant it enters the blood and destroys its purity by loading it with poisonous floating particles, which, with the blood, have to circulate through every organ of the body; and what is the consequence? It is that the pores and ducts of every organ in the whole system are, to some extent, obstructed. Here it is. Here is the grand secret: When one of the organs of the body is diseased the rest all sympathize; and, to radically and permanently cure the disease of that organ, we must have a remedy compounded of a variety of medicines possessing a variety of properties, that will purify the blood as well as permeate, clear up and strengthen every organ in the body. If the invalid is in possession of a compound possessing these properties, he has just that which his case requires, and if it is faithfully administered, unless his case is the third stage of Consumption, he will very soon be restored again to perfect health. Now, all we can say is, that this peculiar Indian compound, the Great Shoshonees Remedy, possesses all these properties in the highest degree, and their fullest extent; and it is for these reasons, with its special action on the Lactal Vessels, that this great Indian Remedy possesses such superior power in the cure of disease, and it is called the Remedy of Remedies of the nineteenth century.

SHOSHONEES PILLS.

Although some of the ingredients entering into the Composition of the Great Shoshonees Remedy are laxative and the remedy itself will generally prove a sufficiently laxative regulator of the bowels, yet, as there will be cases that require more laxative properties than usual, and as there can be no pills, unless those compounded for the purpose, that can possibly meet in harmony the exigencies of a Great Remedy, compounded of the active principles of such a variety of medicines fresh from the vegetable kingdom, and possessing such a variety of properties as the Great Shoshonees Remedy, the Shoshonees Pills are prepared expressly to accompany that Remedy, in cases where an extra laxative may be required. These pills are manufactured with the utmost care, scrutiny and exactness, from the very active principles, doubly refined and purified, of such of the choicest remedial agents of the vegetable kingdom as to possess them of properties that only meet in harmony the exigencies of every ingredient entering into the composition of the Remedy, and also that give the Pills themselves more desirable qualities for general use than any family Pill before the public. On account of the extreme mildness, and yet great certainty in action, of the Shoshonees Pills, as well as their strengthening and healing effects on the stomach and bowels, and, in fact, the whole system, along with their permeating and restorative action on the Liver, Kidneys, Skin, &c., &c., we say, on account of these superior qualities, the Pills are placed on sale as a family medicine.

THE BRAYEST MAN IN THE WORLD.—The man who talks of going to the sea-side without taking his wife.

Mrs. Moon, of Indiana, thrashed her husband for getting drunk, and the Louisville Ledger calls her "The Bride of Lam-a-Moor."

It is estimated that over a hundred young ladies are at present studying law in the United States. Probably they will all become mothers-in-law one of these days.

"Come, Bob, get up," said an indulgent father to his hopeful son, the other morning; "remember, the early bird catches the worm." "What do I care for worms?" replied the boy, "mother won't let me go fishing."

METHINKS I hear a gentle whisper—not from Gath—and—re-echoed on the other shore.—Strike light!—Strike light!—when the interested illuminators of the temporal systems of a certain corporation glance with frowning indignation on the following allusive and advised remarks, viz.: Were you physically and mentally indisposed, requiring a recuperative medium, whereby fancy prompted you to test the meritorious worth of a colored mixture, possessing properties peculiarly jalapy, you would thereby swallow, and time inevitable would make an unquestionable instinctive *great discovery* that you had been duped in a young and silly experiment.—N. O. T. Shakespeare.

THE Dolly Varden is simply a bunched-up over-dress, cut in antique style, and made of any flowered material which most resembles old-fashioned, chintz bedroom furniture.

"CAN you tell me how old the devil is?" asked an irreverent fellow of a clergyman.

"My friend, you must keep your own family record" was the reply.

A young lady in North Carolina requested to be released from her marriage engagement on the ground that when she contracted it she believed her lover "a duck," but has since found him to be "a goose."

HOUSE.

iron to a gentleman, did he. "I like them they are invariably

Dyer's Complete Guide.

SCARLET NO. 2.—VERY SUPERIOR.

Three ounces of Cochineal, 3 ozs. cream of tartar, and 4 ozs. solution of tin; powder the cochineal and rub through a bag into blood-warm water sufficient to cover the yarn; when it is a little warm put in the cream of tartar and simmer, then add the solution of tin. Your yarn must be wet with clean water; steep in the dye until the yarn is properly dyed. Dye your yarn before you wash it. This will color three pounds.

YELLOW.

For each lb. of wool or cloth.—Fustic $\frac{1}{2}$ lb., alum $\frac{1}{2}$ lb., put all into an earthen vessel and pour on sufficient hot water to cover the wool, and keep it warm all night; give it half an hour's boil in a brass kettle, and then rinse in cold water. A much deeper and richer yellow may be made by using Turmeric powder instead of Fustic, and proceeding in the same manner.

MADDER RED NO. 1.

Take 1 lb. madder for every 2 lbs. of yarn or cloth; soak the madder in a brass or copper kettle one night in warm water enough to cover the yarn you wish to color; next morning put in 2 ozs. of madder compound for every 1 lb. of madder you have so soaked, then wet your yarn or cloth in clean water and wring it out; afterwards put in the dye; now put the kettle on the fire and bring it slowly to a scalding heat, which will take about half an hour, if a light red is wanted, and longer if a dark one; the color depending on the time it remains in the dye. When the color is made, rinse the cloth immediately in cold water, and it will then be finished.

MADDER RED NO. 2.

To each lb. of goods.—Alum, 5 ozs.; cream of tartar, 1 oz.; put in the goods and bring your kettle to boil for half an hour, then air them and boil half an hour longer; then empty your kettle and fill with clean water, put in bran one peck, make it milk warm, and let it stand until the bran rises, then skim off the bran and put in madder $\frac{1}{2}$ lb.; put in your goods and heat slowly until it boils and is done. Wash in strong suds.

PINK.

For 3 lbs. of goods.—Alum, 3 ozs.; boil and dip the goods one hour, then add to the dye: cream of tartar, 4 ozs.; cochineal well powdered, 1 oz.; boil well and dip the goods while boiling till the color suits.

TO CLEANSE WOOL.

Make a liquid of water three parts, urine one part; heat it as hot as you can bear the hand in it; then put in the wool, a little at a time, so as not to have it crowded; let it remain in it for fifteen minutes, take it out over a basket to drain, then rinse in running water, and spread to dry; thus proceed in the same liquor; when it gets reduced fill it up, in the same proportions, keeping it at hand heat all the time, not using any soap.

BLUE-QUICK PROCESS.

For 2 lbs. of goods.—Alum, 5 ozs.; cream of tartar, 3 ozs.; boil the goods in this for one hour; then throw the goods into warm water which has more or less of the extract of Indigo in it, according to the depth of color desired, and boil again until it suits, adding more of the blue if needed. It is quick and permanent.

CUDBEAR.

One ounce of cudbear will color one pound of goods. Make a strong soap-suds sufficient to cover the goods, stir in the cudbear; dip the yarn in soda water, put it into the dye, set it over the fire, and keep it hot; stir and air it well; when colored dark enough to suit, wring it wringe in clean water, and dry. This color should never be dried in the sun nor permitted to freeze, as either will cause it to fade.

THE man who lives for himself alone lives for a mean fellow.

If you are a wise man you will treat the world as the moon treats it. Show it only one side of yourself, seldom show yourself too much at a time, and let what you show be calm, cool and polished. But look at every side of this world.

GEN. SMITH, in Congress, while delivering one of the long, dreary speeches for which he was noted, said to Henry Clay, "You speak, sir, for the present generation, but I speak for posterity."

"Yes," replied the great Kentuckian, "and it seems you are resolved to speak till your audience arrives."

"I'll take two children, if you have them, cheap," said a tall countryman on entering an oyster cellar in one of the down-town streets the other day. "Two children? what two children?" said the astonished proprietor. "Well, I ain't got none myself, and don't your wife," replied the other.

"Oh! we mean families supplied with oysters."

"Why in thunder don't you say so, then?" and the family seeker hastily evacuated the premises.

THE mother's heart gives 4th joy at the baby's 1st 25th.

GENT.—*Did the fall hurt you, Pat?*

PAT.—*Arrah! 'tis not the fall, but the stopping so sudden.*

GUNN'S

LIMA CREAM AND GLYCERINE

Prevents the Hair from falling out, removes dandruff, and soothes all irritation of the Scalp.

As a dressing it is unequalled, producing a luxuriant growth and giving a rich glossy appearance.

Unlike many imitations, this preparation does not separate, but constantly preserves a rich creamy consistency.

In Large Bottles, 25 cents each.

GLYCERINE CREAM.

This delightfully perfumed preparation of Pure Glycerine in a solid form, will be found particularly useful in removing all roughness and tenderness of the Skin caused by exposure to inclement winds. For Chapped Hands it is invaluable, instantly allaying all irritation and rendering them beautifully white and soft.

PREPARED ONLY BY

HEATH & GUNN, Chemists,

47 Princess St., Kingston.

Sold Wholesale by NORTHROP & LYMAN, Newcastle, and by Druggists everywhere.

CINGALESE HAIR RENEWER

Cingalese is the name of the natives of
Ceylon, remarkable for their
luxuriant Hair.

(TRADE MARK SECURED.)

The continued use of the Cingalese will
produce a healthy growth of
New Hair.

THE CINGALESE HAIR RENEWER has met with such a marked reputation for its
excellency, that the Proprietor unhesitatingly offers it to the Public as the best article in
use. From personal observation, its effects have been seen in

Restoring Grey Hair to its Natural Color and Beauty,

and so satisfied are those that use it, that they express their willingness to give their
testimony in its favor. One gentleman in particular, who had for years been accustomed to
use the most popular Hair Renewer in the market, has declared after giving the
"CINGALESE HAIR RENEWER" a fair trial, that it is far superior, it being much
quicker in its effect, and more durable. It also acts as a superior Hair Dressing, leaving
the hair beautifully glossy, and DOES NOT SOIL THE SKIN.

N. B.—One Bottle equal to two of any other, it being much quicker in its effects, and
more durable.

The daily increasing sales and pleasing testimonials of its superior quality are a
sufficient guarantee of its success.

One Lady says: "It is excellent; I shall recommend it to all my friends."

Another Lady says: "It is the nicest I have ever used."

One gentleman who displays a considerable Beard, which before using the CINGA-
LESE was grey, and now after using less than one bottle, can boast of a fine Beard of a
fine Dark Brown color, is willing to give his certificate at any time, certifying this fact.

PRICE, 75 Cts. per Bottle; 3 BOTTLES for 2 DOLLARS.

If your Druggist has not it in stock it can be purchased at the wholesale Drug Houses
in Montreal, and of the Proprietor and Manufacturer,

ELECTRICITY.

THOMAS'

EXCELSIOR ECLECTRIC OIL!

WORTH TEN TIMES ITS WEIGHT IN GOLD.

"PAIN CANNOT STAY WHERE IT IS USED!",

It is the CHEAPEST MEDICINE EVER MADE. Five drops cover a surface as large as the hand. One dose cures common Sore Throat. One bottle has cured Bronchitis. Fifty cents worth has cured an Old Standing Cough. It positively cures Catarrh, Asthma and Croup. Fifty cents' worth has cured Crick in the Back, and the same quantity Lame Back of eight years standing. It cures Swelled Neck, Tumors, Rheumatism, Neuralgia, Contraction of the Muscles, Stiff Joints, Spinal Difficulties, and Pain and Soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty five cents' worth has cured bad cases of Dysentery. One teaspoonfull cures colic in 15 minutes. It will cure any cases of Piles that it is possible to cure. Six or eight applications are WARRANTED to cure any case of Excoriated Nipples or Inflamed Breast. For Bruises, if applied often and bound up, there is never the slightest discoloration to the skin. It stops the pain of a Burn as soon as applied. Cures Frosted Feet, Bolls, Warts, and Corns, and Wounds of every description on man or beast.

WHAT IT MEANS.

ECLECTIC.—Selected and electrized. A union of the words Eclectic, to choose, and Electric, containing Electricity. The proprietor of THOMAS' EXCELSIOR ECLECTRIC OIL has the exclusive right to use the word Eclectic as applied to any and all preparation of medicine, he having coined the word, and having a copy-right thereof.

WHAT IT IS MADE OF.

There are but few preparations of medicine which have withstood the impartial judgment of the people for any great length of time. One of these is THOMAS' ECLECTRIC OIL. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power, and producing effects which could never result from the use of any one of them or in different combinations. Thus in the preparation of this Oil a chemical change takes place forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider-range of application than any medicine ever before discovered. It contains no alcohol or other volatile liquids, consequently loses nothing by evaporation. Whenever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost, in that way, and you get only the small quantity of Oils which they may contain.

See testimonials on wrapper around each bottle, for remarkable cures.

Persons who have any trouble whatever of the

LUNGS AND THROAT,

are particularly requested to read the following and to act upon it.

As a medicament for diseases of the Lungs and Throat, whether used for bathing the chest or throat, for taking, or for inhaling, it is worth its weight in gold! When inhaled, its agreeable vapor prevades the lungs, increasing respiration, thereby gradually expanding the lungs, conveying its virtues to every disease part, renewing the powers of life. HEALING ULCERS, and enabling the patient to raise with ease. If your Throat or Lungs are diseased, you are probably seeking relief from some quack. If the Eclectic Oil is as represented, it is the medicine you want. It is not necessary to purchase a large quantity; a 25 cents bottle is sufficient for a trial; a single dose has cured hoarseness of several weeks standing. Full directions with every bottle, for using externally, taking, and for inhaling.

THE SHOSHONEES ILLUSTRATED ALMANAC. 19

The demand for this celebrated Oil is increasing rapidly, because it does what it advertises to do, consequently advertises itself. The sale of a single bottle has been the means of selling many dozen, and its great merit has made it, within the short space of five years, a STANDARD MEDICINE. It is believed to be immeasurably superior to anything ever made. Will save you much suffering and many dollars of expense. Druggists and country store keepers have it.

HORSE AND CATTLE.

It cures Colic without failure, also cures Galls and work the horse every day. Fifty cents' worth will generally cure the worst case of Contraction of the Hoof, never takes more than 4 bottles. There are many persons residing in Central New York where this Oil is put up, who have for 20 or 30 years, been using a certain celebrated Remedy for Horses and Cattle, but have entirely abandoned its use, and the use of every other remedy. They freely admit that the ELECTRIC OIL is not only the cheapest but the best. If you have a horse or an ox taken suddenly ill, and do not know what the trouble is, give them four table-spoonfuls of the Oil, according to directions, and in 90 cases out of 100 it will cure. REMEMBER THIS!

The following are extracts from a few of the many communications received from different parts of Canada, relative to this Oil, and which we think should be sufficient to convince the most skeptical.

John Collard, Sparta, writes October 30, 1871.

"Send me 6 dozen 'THOMAS' ELECTRIC OIL,' have sold all I had from you and want more now, its cures are wonderful!!!"

Wm. Maguire, Franklin, Ont., writes May, 1872.

"Please send me 3 dozen ELECTRIC OIL, we have sold all the agent left here, it acts like a charm, it was slow sale at first, but takes splendid now."

H. Cole, Iona, Ont., writes, Nov. 15, 1871.

"Please forward five or six dozen 'DR. THOMAS' ELECTRIC OIL,' am nearly out, nothing exceeds it, highly recommended by those who have used it here."

Miller & Reid, Ulverton, P.Q., writes June 20, 1872.

"The ELECTRIC OIL is getting a great reputation here and is daily called for. Send on without delay 4 dozen."

John Bedford, Thamesville, Ont., writes December 2, 1871.

"I am nearly sold out of the ELECTRIC OIL—only one bottle left—out of the 3 dozen I had. I never saw anything sell so well and give such general satisfaction. I think 6 dozen will soon sell here."

John Thompson, Woodford, writes March 9, 1872.

"On receipt of this please send me by express 3 dozen ELECTRIC OIL. I am sold clean out of the last 3 dozen. Nothing in this market takes like it."

M. Geo. O. Burdick of Canadoc, writes March 12, 1872.

"I have been troubled for the last 4 years with Rheumatism and Neuralgia and doctored with all the Doctors to no avail, but I bought 2 bottles of Dr. S. N. Thomas' Electric Oil and it has helped me very much, believing it to be a good thing. I would like to sell it around the country for you, &c."

TO BE HAD IN EVERY CITY, TOWN AND VILLAGE IN CANADA.

PRICE, 25 Cts. PER BOTTLE.

THE GREAT FEMALE REMEDY.

JOB MOSES' PERIODICAL PILLS.

This invaluable medicine is unfailing in the cure of all those painful and dangerous disorders to which the Female constitution is subject. It moderates all excesses, and removes all obstructions; it invigorates the debilitated and delicate; and by regulating and strengthening the system, fortifies the youthful constitution for the duties of life, and when taken in middle or old age, proves a real blessing.

To MARRIED LADIES it is peculiarly suited; it will in a short time remove all obstructions, and bring on the monthly period with regularity. On the approach of Childbirth, these Pills should be used for two or three weeks previous to confinement; the benefits to be derived are incalculable; they fortify the constitution, lessen the suffering during labor, and make it of short duration. They also prevent weakness of the Uterine organs, and enable the mother to perform the duties with comfort to herself and child.

These Pills should not be taken by females that are pregnant during the first three months, as they are sure to bring on miscarriage; but at every other time, and in every other case, they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pains in Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed; and, although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

JOB MOSES, NEW YORK, Sole Proprietor

\$1.00, and 121 cents postage, enclosed to Northrop & Lyman, Newcastle, Ont., General Agents for the Dominion, will insure a bottle, containing over 50 pills, by return mail.

RAILWAY AND GENERAL ADVERTISING AGENCY.

OFFICES, 199, ST. JAMES STREET, MONTREAL.

Having commenced the Railway and General Advertising business, we are prepared to offer to Merchants, Manufacturers, and others, greater facilities for advertising their business, on the line of Railways, in the Dominion of Canada, than has ever been offered to the public before.

The Advertising in the Stations will be done handsomely and attractively in large Frames, containing from 3 to 12 Cards each. The Frames will be of Black Walnut and Gold, and each Card to be glazed separately, with a gold moulding between.

The Advertising in the Cars will be done in small Gilt Frames, containing from one to four Cards each, and placed conspicuously in the Passenger Cars on the different Sections, or either Section, as may be desired by the Advertiser.

We are also prepared to place Advertisements furnished us by parties desiring to furnish their own Advertising Cards, in the Stations on the line of the Roads represented by us, at reasonable rates.

This method of Advertising in the Cars and Stations upon Railways, has become a popular one in England and upon the Continent, and is only in its infancy in America, but we hope, by doing the Advertising well and attractively, to make it a permanent institution of the Dominion, and give to the Public who may patronize us, a valuable consideration for their money.

We would also call especial attention to our facilities for Advertising through any Medium in the Dominion of Canada; that our arrangements for the careful transaction of our business, are most complete, and Advertisers will find it to their advantage to secure our services, as the rates at which we contract are as low as can be obtained from the Offices of the Newspapers direct. We shall also have on file for reference and inspection at our Office, the papers published in the Dominion, where they can be seen at any time, during business hours.

Is a lamp at any time in a bad temper? Yes, when it is put out.

"UTAH may have its plural wives," observes Mr. Quilp, "but other parts of the country have very singular ones."

An Irishman, noticing a lady pass down the street, espied two strings depending from under her mantle. Not knowing that these were styled sashes, and were hanging in their right place, he exclaimed:

"An' faith! ma'am, yer gallusses are loose!"

An old toper being asked one day why he persisted in drinking, replied, "Dry makes me drink, drink makes me drunk, and drunk makes me dry again." The explanation was considered quite sufficient.

A LADY who refused to give, after a charity sermon, had her pocket picked as she was leaving church. On making the discovery she said, "The parson could not find the way to my pocket, but the devil did."

There is said to be a young lady in Champaign who delights in a delicate appearance. For an every day delicacy she takes one Shoshonee Pill; for an extra delicacy she takes two; dose to be taken the night before the delicacy is required.

The only man not spoiled by being "lionized" was the prophet Daniel.

26. THE SHOSHONEES ILLUSTRATED ALMANAC.

WHAT IT CLAIMS TO BE AND TO DO.

THE Great Shoshonees Remedy claims to be Purely Vegetable. It claims to contain greater curing and healing properties than any other Remedy or compound ever discovered. It claims to have more Radical, Permanent and Astonishing cures, where it has been in use, than all other medicines or compounds combined. It claims to be used by regular physicians, and to have been shipped hundreds of miles to them. It claims a most supreme power in Radically and Permanently Purifying and Enriching the Blood. It claims to restore the Lungs, from the First and Second stages of Bronchitis and Consumption, to Perfect Health. It claims to permeate, strengthen, clear up, and remove all the ducts, passages, and Blood vessels of the Liver, and restore the organ to a perfectly healthy condition. It claims to possess supremely healing, restorative, and strengthening powers in the various forms of Dyspepsia; and to effectually, radically, and permanently cure the disease. It claims to renovate and clear the various renal passages, ducts, and channels of all obstructions to the free and healthy circulation and action of the Kidneys; and restore the organs to their primary state of health. It claims to give the skin a soft, fair, and fresh, healthy, youthful, and blooming appearance. It claims, in Female Diseases, to be unequalled in permeating, searching, and clearing the different passages, ducts, and pores of the various congested organs to all hindrances to the free and healthy circulation through them, and consequently of all obstructions to their natural and healthy functions, and to restoration of perfect and permanent health. It claims to cure and have cured cases of Rheumatism, even where the patient had been confined to his house and bed for years. It claims to have a surpassingly pre-eminent superiority over all Remedies or Compounds ever discovered for renovating and clearing the whole system from the virulence of the iron jaws of Syphilis, and restoring the downcast and disheartened victim to the platform of health. It claims to have vastly superior properties in clearing the system of the virulence of Scrofula, Skin Diseases, Humors, &c., &c., to any medicine ever recommended heretofore for the cure of those diseases. It claims to be an all-sufficient Great Remedy in restoring the broken down constitution of the victim of Youthful Palsy. It claims to be an extraordinary preventive of disease, such as Colds, Inflammation, Fevers, Epidemics, &c., &c. It claims, in fact, a pre-eminent superiority in all diseases arising from, or dependent on Impurity of the Blood; and it claims nothing but what it possesses properties to perform; and, Reader, if you will but remember its peculiarly searching, permeating, expulsive, and restorative properties, as well as its clearing and healthy powers, you will not be surprised at its astonishing effects; hence this Great Indian Remedy is justly said to be the Remedy of Remedies of the 19th Century, and the Greatest Boon ever laid on the Altar of Suffering Humanity.

SEA SICKNESS.

No language is sufficiently perfect to fully unfold and reveal to the mind the extreme suffering, misery, and distress caused by this most deadly affliction. It has long been a source of great terror to the marine traveller, and the real nature of its character can be conceived by those only who have already experienced its crushing ills; and perhaps there is no disease to which flesh is heir, for the relief of which there have been a greater number of medicinal preparations compounded than for this same disease. It is well for the sufferer to fix the attention on something calculated to interest it; and to assist, if admissible, in the active duties of the ship; also to form a fixed determination not to give way to the disease, by keeping about instead of lying by. But fleeting time brings with it superior discoveries; the Great Shoshonees Remedy of Columbia Territory altogether supercedes any preparation ever compounded for allaying the vomiting and distress of Sea Sickness; which admirable properties are due, in great measure, to its restorative action on the Stomach, but principally to its permeating, clearing, and renovating effect upon the Lactal Vessels, which property is possessed by no other remedy or compound.

All we can say is, that we indeed hazard nothing in stating that if the traveller will but use this Remedy, remaining as much as possible in the open air, he has nothing at all to dread. A trial, taking sufficient to relax the bowels freely night and morning, will be sufficient to prove its great merits. Remember, Reader, these are the plain facts of this case.

SCROFULA, SYPHILIS, &c.

In cases of Scrofula, Syphilis, Skin Diseases, Rheumatism, and Humors, but in no other diseases, one drachm of the Iodide of Potassium, added to each bottle of the Remedy, which is taken as usual, has a desirable effect, and will hasten the cure; do not add it in cases of diseased Lungs, Kidneys, or female private diseases.

A NEW Chicago Fire Insurance Company, taking a lesson from misfortune, has added the following to its regular list of questions:

1. Do you keep a cow?
2. Is it a female cow?
3. Is it a farrow cow?
4. Is it a kicking cow?
5. Is kerosene used in milking?

An ignorant housemaid who had to call a gentleman to dinner found him engaged in using a tooth-brush. "Well, is he coming?" said the lady of the house, when the servant returned. "Yes, ma'am, directly," was the reply: "he's jist sharpening his teeth."

A WORTHY deacon lately gave notice at a prayer-meeting of a church-meeting that was to be held immediately afterwards, and unconsciously added: "There is no objection to the female brethren remaining." This reminds us of a clergyman who spoke in his sermon of a very affecting scene where "there wasn't a dry tear in the house."

"CAN't you trust me, Mr. Butcher, a little meat this morning?"
"No, you owe me for that already on your bones."

A LONDON merchant advertised for a clerk who could "bear confinement." He received an answer from one who had been seven years in jail.

Dyer's Complete Guide.

SPOTS.

To remove and prevent when coloring black on Silk or Woollen. N. B.—In dyeing Silk or Woollen goods, if they should become rusty or spotted, all that is necessary is to make a weak lye, and have it scalding hot, and put your goods in for fifteen minutes, or throw some ashes into your dye, and run your goods in it for five minutes and they will come out a jet black and even color.

BROWN.

For each pound of wool.—Alum, $\frac{1}{2}$ lb.; cream of tartar, 2 ozs.; boil for half an hour; soak for one night in sufficient warm water to cover the wool. Red powder, $\frac{1}{2}$ lb.; fustic, $\frac{1}{2}$ lb.; and logwood, 2 ozs.; then take the wool out of the alum water and boil with the woods for half an hour. If a dark brown is wanted, add about a tablespoonful of coppers.

FINE WINE COLOR.

1 lb. of wool.—Redwood, $\frac{1}{2}$ lb.; Madder Compound 1 oz. Soak the powdered wool in warm water all night, mix the madder compound with about half a pint of water (in a glass) and add to it the rest, rinse the wool in warm water and put in the dye, boil about half an hour, take out the wool and rinse in cold water.

TO COLOR STOCKING YARN OR WOOL.

Between a blue and purple. For 5 lbs. of wool.—Bicromate of Potash, 1 oz.; Alum, 2 ozs. Dissolve them; and bring the water to a boil, putting in the wool and boiling an hour; then throw away the dye, and make another dye with logwood chips 1 lb., or extract of logwood $\frac{1}{2}$ ozs.; and boil one hour. This also works very prettily on silk.

N. B.—Whenever you make a dye with logwood chips, either boil the chips half an hour and pour off the dye, or tie up the chips in a bag and boil with the wool or other goods; or take $\frac{1}{2}$ ozs. of the extract in place of a lb. of the chips, is less trouble and generally the better plan. In the above recipe the more logwood that is used the darker will be the shade.

GREEN.

For each lb. of goods.—Fustic 1 lb. with alum $\frac{3}{4}$ ozs. Steep, but do not boil, until the strength is out, and soak the goods therein until a good yellow is obtained; then remove the chips, and add extract of indigo or chemic one tablespoonful at a time, until the color suits.

SILVER DRAB (LIGHT.)

For 5 lbs. of goods.—Alum 1 small teaspoonful, and logwood about the same amount; boil well together, then dip the goods one hour; if not dark enough, add in equal quantities alum and logwood until suited.

ORANGE.

For 5 lbs. of goods.—Muriate of tin, 6 tablespoonsful; argol, 4 ozs.; boil and dip one hour; then add to the dye, fustic, $\frac{1}{2}$ lbs.; boil 10 minutes and dip half an hour, and add again to the dye madder 1 tea cup, dip again half an hour.

N. B.—Cochineal in place of madder makes a much brighter color, which should be added in small quantities until pleased. About 2 ozs.

DARK COLORS.

To Extract them and to Insert Light Colors.

This receipt is calculated for carpet rags. In the first place let the rags be washed clean; the black or brown rags can be colored red or purple at the option of the dyer; to do this, take for every 5 lbs. black or brown rags, Muriate of Tin $\frac{1}{2}$ lb., and the Lac $\frac{1}{2}$ lb. mixed with the same; let them stand a short time. Dip the goods in this dye two hours, boiling half the time; if not red enough add more Tin and Lac. The goods can then be made a purple by adding a little logwood; be careful and not put in but a very small handful, as more can be added if not enough. White rags make a beautiful appearance in a carpet by tying them in the skein and coloring them red, green, or purple; gray rags will take a very good green. The coloring will be in proportion to the darkness and mixture.

It is an extraordinary and remarkable fact that lately many of the elderly gentlemen of Montreal look very much younger, and the ladies more charming, with their elegant, heavy flowing hair, which is said to be wholly attributed to the widespread use of the "Cingalese Hair Renewer," first introduced in the commercial metropolis, and now generally for sale throughout the length and breadth of our vast Dominion.

NOTHING SUCCEEDS LIKE SUCCESS.—It was a saying of Talleraud that "Nothing succeeds like success," and it is peculiarly applicable to the Indian Medicine which was used in the illustrious and distinguished tribe of Shoshoners for an unknown period of time, and now but seven years have elapsed since the great secret of its manufacture was revealed to, and the Medicine introduced to the public by J. C. Chamberlain, Conway, Ontario, Canada. Since 1884 it has commanded an increasing and most astonishing and unprecedented sale throughout the Dominion—spreading health and happiness throughout the land. In the history of the world never was a discovery made of a combination of curative elements forming so complete an antidote to pain, disease and decay of the human frame. In cases of consumption, liver complaints, debility, stomach complaints, bile, gravel, cutaneous eruptions, headache, indigestion, &c., use the Great Shoshoners Remedy and Pills, which give immediate relief without the slightest pain or inconvenience.

Calendar Aspects, &c.

October opens pleasantly.

No material change.

Some high winds, cloudy.

Cool and fine.

17th Sunday after Trinity.

There will be fair weather and

pleasant breezes for some days.

The nights are cool, but still

on the whole the week

has been, and will be very seasonable.

18th Sunday after Trinity.

Some frost has been felt.

The gardens show it, and the foliage

looks as though winter was

coming, but the weather is pleasant.

St. Luke the Evangelist.

19th Sunday after Trinity.

Approaching storms.

Some high winds and heavy rains.

No change for the better in some

days.

A little more settled, but continues

changeable.

20th Sunday after Trinity.

This day will be cool and dry.

St. Simon and St. Jude.

Look for the winds quarter.

Fair if wind North-West.

St. Luke the Evangelist.

the Dominion.

Cool.—A few days since a dun called on a young gentleman and presented him a bill, when he was somewhat taken aback by the gent taking him aside, and blandly saying, "My dear sir, call next Thursday, and I tell you when to call again."

THE erection of two cottages intended for the use of Empress Eugenie at Saratoga is soon to begin.

VICTORIEN SARDOU is writing a play in which Lafayette and Washington will appear on the stage.

THE TRUTH OF FIGURES.—The reason why "figures can't lie" is plain. When they are not running and mounting up their nearest approach to quiescence is in a standing account.

ALL THE DIFFERENCE.—Alphonso (who has had an attack of mother-in-law): "Parbleu, madame, it is not so troubles at your daughter is my wife. Non! It is because she is not an orphan when she is married to me!"

"I ALWAYS sing to please myself," said a gentleman who was humming a tune in company. "Then you are not at all difficult to please," said a lady who sat next to him.

WHAT river does a tipping matron resemble? The Missis-sippy.

FOOD EASILY DIGESTED.

THERE is no subject connected with health deserving of greater attention than the proper kind of food for invalids. Every kind almost may be eaten with impunity by the hale, hearty laborer. He eats what is provided, but the person with weak digestive organs, in order to comfort, it is needful for him to eat only such articles as the stomach can digest. It becomes important therefore, to know what kind of food there are which may be eaten without injury, and which, instead of increasing our maladies, serve to diminish them.

We give below a table of the results, obtained by Dr. Beaumont, not as a mere matter of curiosity, but as furnishing information of the most valuable kind in connection with animal nutrition. The first column indicates the substance taken into the stomach, the last, the time for its digestion.

	H. M.		H. M.
Boiled Rice.....	1 00	Mutton, Fresh.....	2 15
Sago, Tapioca, Barley and boiled.....	2 15	Veal.....	4 00

Fresh Pork.....	3 00	Cabbage boiled.....	4 30

Digestion is much facilitated by the particles of food being made fine when taken into the stomach, and the quantity of nutritive matter furnished is greater. Individuals, therefore, in whom the digestive powers are weakened, find a benefit in thoroughly masticating or chewing their food. This principle is of great importance in the feeding or fattening of animals, and shows the necessity of grinding or cooking the material given them if we would have them derive the full benefit of the nutritive contained.

WEIGHTS AND MEASURES.

STANDARD WEIGHT OF GRAIN, PULSE AND SEED.

Wheat.....	60 pounds.	Oats.....	34 pounds.
Indian Corn.....	56 "	Beans.....	60 "
Rye.....	56 "	Clover.....	60 "

One day, at the table of Cardinal Richelieu, Bautrin, seeking to amuse him, inquired of one of the strangers present:

"Monsieur, excuse me, but how did they value asses in your country when you set forth?"

The retort was an excellent one:

"Those of your weight and size were priced at ten crowns."

"Shall I help you to some tomatusses?" inquired a young exquisite of a venerable physician, as he set opposite him at a hotel table.

"No, sir, I thank you," replied the learned savant, "but I'll trouble you for the potatusses, if you please."

A GENTLEMAN having written a letter, concluded it as follows: "Give everybody's love to everybody, so that nobody may be aggrieved by being forgotten by somebody."

An Indianapolis clergyman has preached a sermon on frizzled hair.

An old maid's love letter is called a romance of the middle age.

In Garibaldi's novel somebody dies in nearly every page.

ROCHESTER has a youthful violinist—Miss Ella Winn—only seven years of age.

INCIDENT OF THE CENSUS.

TENDER WIFE. — "Why, Charles dear, what a noise you are making. What is the matter?"

CHARLES. — "Matter! matter, ah! ah! that's good. Why I'm mad. Listen: I have been at this fearful census for three hours, and the result is that I was born within the year of unsound mind; that my family consists of 45 bushels of Patatoes; that I occupy 3 houses; that you are dumb and deaf and of Irish origin, and, . . . oh! oh! my poor head."

WHAT am de difference 'twixt a watch and a fedder bed, Sambo?"

"Dunno—gib it up."

"'Cause de tickin' ob de watch is on de inside, and de tickin' ob de bed is on de outside."

WHAT plant does a London omnibus remind one of? A "creeping" Jenny.

CINCINNATI misses reject offers by the expressive words, "Shoo Fly."

CONNECTICUT has a man who has been a Freemason for seventy-two years.

I'm afraid you don't like babies when they cry," said a matron to a gentleman, as he tried to sooth the darling to her arms. "Oh, yes," said he, "I like them best when they cry, because I've always observed that when they cry they are invariably carried out of the room."

A box containing a black bear was received at an express office in San Francisco the other day. Outside was this inscription: "Black Bear. Ef yew don't want to get bit, kepe your fingers outen the crax."

BOARD OF TRADE.—Deal.

SUNDAY OUT.—Betsey: "Shall you be a-goin out this afternoon, mem?"

Mistress: "I thing not, Betsey."

Betsey: "'Cos yer can if yer like. I don't want to go out."

"You say the deceased settled here. What do you mean by settled?"

"Well, he was born here, got married here, and they buried him here, and if that wasn't settling him, then I'm no judge."

36 THE SHOSHONEES ILLUSTRATED ALMANAC.

WONDERFUL CURE OF DYSPEPSIA OF FORTY YEARS STANDING AND LUNG DISEASES.

Green Point, Sophiasburgh, Prince Edouard Co., Ont., 10th June, 1871.

Dear Sir,—I take great pleasure in testifying to the wonderful benefit I have received from the use of your Great Shoshonees Remedy.

I was afflicted with Dyspepsia for nearly forty years. My constitution had well nigh succumbed to its ravages, my lungs becoming affected towards the last, so that I quite despaired of recovery. About three years ago, I was induced by a friend to give your remedies a trial and accordingly procured a supply from Mr. McDavall, at Demorestville, after using between four or five bottles I experienced a decided improvement, I gained in strength rapidly [before I commenced using the remedy, I was so reduced that I was quite unable to undertake any kind of labor however light].

My health improved steadily and rapidly since, and when I had taken nine bottles of the Remedy, I was quite restored to health and strength and have since that time experienced better health than I did for forty years before though now about sixty years of age. I had been under the treatment of a number of skillful physicians before, but never received any material aid till I used your remedies.

In my case I consider its effects little short of miraculous and deem it a privilege to be able to speak a word in its favour.

Trusting my experience will prove a benefit to others who may be similarly afflicted.

I remain very truly yours,

SAMUEL OSBORN.

MARVELOUS CURE OF SCROFULA.

This is to certify that early in the spring of 1867, when crossing the Atlantic to this country, my neck commenced to swell very badly until it was nearly as thick as my head. After I had been in Canada about two months it resulted in my having to enter an Hospital, as I had a very obnoxious sore on the side of my neck.

During the two months I remained in the Hospital, the surgeons and physicians connected with the institution did all in their power to cure me, but the disease was of such a stubborn character that I left it in a worse state than when I entered it; for instead of one, I had seven or eight very offensive running sores. For weeks after I left the Hospital I became my own Doctor and kept poulticing and taking medicine, but without success. Then I faithfully tried in succession three different kinds of *Patent Sarsaparillas*, but they all failed to make the slightest improvement in my health, so I discontinued taking them. I then became very much discouraged, thinking there was no help for me, and that my affliction would soon end my life; as I was gradually failing in health, and my sores becoming more numerous, when one day I very providentially picked up a newspaper, and my eye was attracted to the advertisement of the Great Shoshonees Remedy, and I read it. Something whispered to me *try it*. I bought a bottle of it and took it, according to directions, three times a day. The wonderful result was, when I had finished it, my sores had commenced to heal and dry up, and my health was very much improved. For the first time in several months I seemed to be *myself again* as I felt greatly encouraged, and bought another bottle and took it as before. When I had finished taking the second bottle of the Great Shoshonees Remedy, much to my joy, I found that *all* my sores were *completely* healed up, and my health restored. I was so astonished at the rapid cure of myself, that I took four more bottles of the Remedy, in case my apparent good health was only temporary. But now three years have elapsed since I finished my second bottle of the Great Shoshonees Remedy, and I thank my God have enjoyed the best of health ever since, and praise the Indian medicine for the means of cure.

LIVER COMPLAINT.

To J. C. CHAMBERLAIN, Esq.

Morven, Sept. 8th., 1871.

Respected Sir, — For some considerable length of time, until about one year, I have been greatly troubled with my liver. It has been by spells enlarged, and then it would become quite sore. Pains in my Chest, and sharp pains in one of my lungs, and then in the other, and some of them were very excruciating. My appetite was not reliable—one day very sharp the next perhaps the thought of eating would be more than I could endure. Sometimes my head would ache beyond description, my bowels very costive, throat dry and husky, &c. But I can now say that after having taken freely of your pills, together according to direction with the Shoshonees Remedy, that I am quite relieved of all signs of liver complaint and quite happy that it is so.

And if this statement from me will be of service to you, and also be the means of influencing some poor invalid to give the Remedy and Pills the same trial that I did, you may publish it to the world at large.

Yours fraternally,

L. A. BETTS,

Minister of the M. E. Church in Canada.

N. B. — This has been of my own free will and was never solicited by any men.

L. A. B.

WONDERFUL CURE OF LUNG DISEASE.

Brooklin, April 5th, 1870.

J. C. CHAMBERLAIN, Esq. — Sir, — This is to certify that my wife was very low with Lung Disease. The Doctor had given her up. He said her lungs were tubercled, and medicine could not help her. As a last resort I purchased a bottle of the Great Shoshonees Remedy. At the expiration of two days, her symptoms were decidedly better. She continued to improve so rapidly, that by the time she had taken one bottle she was able to sit up. By the continuance of the remedy she was perfectly restored to health.

You may publish the facts for the benefit of those similarly afflicted.

T. C. BROWN, Episcopal Methodist Minister.

CURE OF BRONCHITIS.

Smithfield.

J. C. CHAMBERLAIN, Esq. — This is to certify that about three years ago I became afflicted with Bronchitis, which lasted about eighteen months. I was so afflicted for the want of breath that it was very difficult for me to speak, and in the night time frequently throwing the clothes off and rising in the bed to keep from strangling. I tried three of the most eminent physicians in the County of Northumberland for about a year, without receiving any benefit. In fact, I continued getting worse all the time. At last I was advised to try the Great Shoshonees Remedy. I bought a bottle and took it, and when it was about finished, I began to feel a little better. I continued to use it until I had taken three bottles, when, to my satisfaction, I found that I was as well as ever I had been previous to my illness, and have been so ever since.

JOHN SILVER.

Sworn before me, at Smithfield this 6th day of April, A. D., 1870.

J. M. WELLINGTON, J. P.

CURE OF RHEUMATISM.

Sir, — I have been a great sufferer with rheumatism so much so that I could not get about my room without help. I was attended by two skilful medical men, but found no relief. Hearing so much of the Great Shoshonees Remedy I thought I would try it, and am happy to state that after taking a few bottles of your medicine I find myself able to walk as well as ever I did in my life. If you think it advisable you may make these facts public as I feel myself forever indebted to you for the benefit received from the Great Shoshonees Remedy.

Yours respectfully,

McKENZIE BOTTMAN

Napanee, April 28th, 1869.

As far as I know the statement of Mr. Botting may be relied upon.

JOHN SCOTT, C. P.

THE SHOSHONEES ILLUSTRATED ALMANAC.

RAPID CURE OF LUNG DISEASE.

Glenallan, Co. Wellington, Ont., July 25th, 1872.

This is to certify that I was troubled with lung disease for nearly one year. I was so bad that I could not sleep in my bed. I had to sit in my chair and get what little sleep I could in that way. My friends thought there was no help for me, and that I could not live many weeks. I tried several kinds of medicines, but did not receive any benefit whatever from them. After a great deal of persuasion from my friends I was induced to try The Great Shoshonees Remedy and Pills, and before I had finished the first bottle I found that I was improving very fast. I could sleep well and felt much better than I had for months before. I have used four bottles of the Remedy and a box of the Pills, and I am as well now as I have been for years.

I must say that had I not been induced to try the Shoshonees Remedy I really think I would be in my grave now. You are at liberty to publish the above fact for the benefit of those who are similarly afflicted.

ANN WILLSON.

Sworn before me at the village of Glenallan, in the County of Wellington, Ontario, the 26th day of August, 1872.

GEO. ALLAN, J. P.

CERTIFICATE FROM A VERY RESPECTABLE JUSTICE OF THE PEACE IN CANADA.

I have been thinking that a word to you concerning the wonderful healing properties of the Great Shoshonees Remedy, in my case, might not be amiss as it has done vastly more for me than any other medicine I have ever used, it has indeed done wonders for me, it is in fact the only thing I ever got to place me on my feet in the summer season, during which season to be down sick, not to speak of my suffering was in business affairs, of very great damage to my family and myself. I have been a very great sufferer for years from disease of the Kidneys and Liver. So sorely was I afflicted, that I was utterly unable every summer to attend to my business; my sufferings have been very great indeed; I have been so reduced and racked with pain, that in spite of all treatment, my friends thought it impossible at times for me to survive many hours. Everything else failing I was persuaded to try that peculiar Indian Compound, the Great Shoshonees Remedy, which has surely proved all in all to me; I have used two bottles and am at the third, and I am now, and have been this summer, the first for several years, quite hearty and strong, and well able to attend to my business. You are at liberty to make what use of this certificate you deem prudent.

With gratitude, yours truly,

JOHN S. HAGERMAN, J. P.

Demorestville, April 20th, 1871.

Dear Sir,—I duly received the Shoshonees Remedies ordered, and agreeable to your request, I refer to my experience in their use.

This is not the first trial. I have used them at different times previously and always with decided and happy results.

I have found them particularly beneficial in liver complaint, dyspepsia and bronchial affections and would advise all similarly affected to give them a trial.

These complaints I have found them uniformly reliable.

(This is a certificate you are at liberty to use as you think best.) I am, Sir, respectfully yours,

F. B. STRATTON,

Minister of the M. E. Church and Secretary of Bay Quinte Conference.

Dear Sir,—Having proved ~~that~~ ^{that} my own
medicine that will indeed cure Liver Complaint ~~has~~
induced to make this statement, under oath which is to
be so sorely afflicted for the last three years, according
statements with Liver Complaint and Dyspepsia. I had a
ing and vague uneasiness about the stomach, worse than pain
of wind, occasional pain, drowsiness, constipation, uneasiness
side, headache, a poor appetite, &c., &c., and was greatly
strength. Hearing your new Indian medicine the Great Sh
Remedy spoken of so highly I tried a bottle of your Pills, from m
must say I found but little change, but I took another and then found
health improving. I continued it until I have taken about ten bottles,
using the Pills, and I find that I have quite recovered. I eat hearty with-
out pain or uneasiness. I am well and have pleasure in attending to my
business. The doctor remarked to me I was looking much better. I told
him the Great Shoshonee Remedy was doing it. I have recommended
the remedy in several cases and it has invariably given good satisfaction,
and I would strongly recommend it to all afflicted as I was.

AMBROSE WOOD.

A Commissioner in Q. B., in and for the County of Prince Edward.

CURE OF TROUBLESOME SORE

Roxborough, 9th Concession, Athol F. O.
Co. of Stormont, Ont.

This is to certify that in the year 1863 in travelling in the Western parts of the province of Ontario in connection with the Bible Society, one of my feet got sore and broke out and all I could do to heal the same proved of no avail. I had to return home in November unable to travel any longer. It got better through the winter but broke out again the summer following and so on until June 1868.

I had all but given up hope of recovery, but as a last resort I purchased a bottle of the far famed Shoshonee Remedy in the village of Shannonville, with a box of the pills and before one half of the bottle and pills were used signs of health were visible, and by the time the Bottle was all used my foot was as well as ever. To-day 17 months after the cure above stated, no appearance of further trouble. Should any wish to know from me more fully with regard to the cure I shall be most happy to comply with their wishes.

JOHN FINLAYS

Colporteur of the Kingston Branch of the British and Foreign Bible Society.

By the Grace of God, Queen, Defender of the Faith, and of Victoria Maria Augusta of Leiningen, Duchess of Kent, and sister of the late Prince Edward, Prince of Wales, born 10th March, 1863, at St. George's Chapel, Windsor, to Her Royal Highness Princess Alexandra of Denmark. Issue.—Albert Victor Christian Edward, born Jan. 8, 1894, George Frederick Ernest Albert, born June 3, 1895. Louisa Victoria Alexandra Dagmar, born Feb. 20, 1897. Victoria Alexandra Olga Mary, born July 6, 1898. Maud Charlotte Mary Victoria, born Nov. 26, 1899. Alexander John Charles Albert, born April 6, 1871, died April 7, 1871.

Alice Maud Mary, born 25th April, 1843. Married 1st July, 1862, at Osborne, to His Royal Highness Prince Frederick William Louis of Hesse-Darmstadt.

Alfred Ernest Albert, born 6th August, 1844.

Helena Augusta Victoria, born 25th May, 1846. Married 5th July, 1866, at Windsor Castle, to His Royal Highness Prince Frederick Christian Charles Augustus, of Schleswig-Holstein Sonderburg-Augustenburg.

Louise Caroline Alberta, born 18th March, 1848. Married 21st March, 1871, at St. George's Chapel, Windsor, to the Right Hon. John George Edward Henry Douglass Sutherland Campbell, Marquis of Lorne.

Arthur William Patrick Albert, born 1st May, 1850. Leopold George Duncan Albert, born 7th April, 1853. Beatrice Mary Victoria Feodore, born 14th April, 1857.

CLOSING WORDS.

DEAR READER:—You have now had a brief but most candid explanation, with (we consider) satisfactory proof of the wonderful and extraordinary properties and effects of that surpassingly Great Alternative and Blood Purifier of the age, the GREAT SNOBONKES REMEDY; the disclosure of which, we now add, is indeed the greatest achievement in the way of a medicinal discovery ever recorded in the annals of Historical Medicines; and may well be said, without exception, to be the greatest Boon yet laid on the altar of Suffering Humanity.

It is now an established fact, where this Great Remedy is known, that it has never had even an approaching equal for the radical and permanent cure of diseases of the Throat, Lungs, Liver, Digestive Organs, Kidneys, &c., as well as Female Diseases, Scrofula, Skin Diseases, Humors, Rheumatism, Syphilis, and all diseases arising from or dependent on impurity of the Blood. The fact that there is much claimed for this great Indian Remedy is well known; and, reader, if you but realize its purifying, permeating, searching and strengthening properties, with its clearing, healing, soothing and strengthening powers, you will wonder that it so thoroughly purifies the blood and radically and permanently cures the diseases for which it is recommended. All we can say now is, that if you believe in these properties, get the GREAT SNOBONKES REMEDY, for it possesses the highest degree and to their fullest extent. It will not cost you much to test your own joy and satisfaction.
