

Board of Work:

W. C. ANSLOW

Our Country with its United Interests

EDITOR AND PROPRIETOR

VOL. XXVI.—No. 41.

Newcastle, Wednesday, July 19, 1893.

WHOLE No. 1341

OLD STORY IN THREE CHAPTERS.

I—Farmer Barker, of Barker's corners, mortgages his farm for \$1800 and

May—Do you spell 'Lord' with a capital, mamma ?

Mamma—Well, I never saw one with any capital yet, unless he married it !

Mrs. Unsophist—They must fit these men's clubs up very gorgecusly inside.

Temperance.

UNDOUBTED TRUTHS.

shows anything of his outgoings or his comings; when he will rise or when he will lie down to rest, is only a matter of chance. That which he swallows for

fluence requires no aid to accomplish it; our own will is all that is requisite, and we have not the will to avoid contempt, disgrace, and misery we deserve.

As I looked around and came to know more of people and things, I found the ways unanswerable argument in favor of a young man's abstinence; that is, at the most successful men in America

day are those who never lift a wine cup to their lips. Becoming interested in this fact, I had the curiosity to personally inquire into it, and of twenty eight of the leading business men of the coun-

whose names I selected at random
never touched a drop of
of any sort. I made up my mind
that there was some reason for this. If
brought safe pleasure, why did

...not brought these pleasures, why did these men, abstain from it? If, as some say, it is a stimulant to a busy man, why did not these men, directing the largest business interests in the country, resort to it? And when I saw that these were the men whose opinions in great business matters were accepted by the lead-

at their judgment in the use of liquor could satisfy me. If their judgment in business matters could command respect and attention of the leaders of the world on both sides of the sea, their decision as to the use of liquor was not apt to be wrong.

And as opportunities come to me to
round in homes and in public places,
and that I do not occupy a solitary
position. The tendency to abstain from
quors is growing more and more among
young men every day. The brightest
young men I know, young men filling
positions of power and promise, never
touch a drop of beer.

who today makes up his mind that he will be on the safe side and adhere to strict abstinence will find that he is not so. He has now the very best element in business and social life in the great cities of our land with him. He will not be chided for his principles.

It will not retard him in commercial
cess, but will prove his surest help.
It will win him no enemies, but bring
in the friendships of upright men and
good women.
It will ensure him the highest com-
mercial esteem and the highest social

And as it moulds his character in youth so will it develop him into a successful man and a good citizen. Try it my young man and see!

Man sinks gradually by this fell poison (alcohol); first he favors it, then he craves it, then he abuses it, and finally he is ruined.

is consumed by it.—(Lingoes.)

Fresh Flower and Garden Seeds at Medical Hall.

the ornaments of the vestry which were nearly all saved, and it was completely wrapped in flames. The church is the most serious loss. They were brought from France and put up three years ago at a cost of \$1,200.

Nearly all the furniture and other household goods of Father Smith's house was saved. The insurance on the church and house was \$6,000, which will not nearly cover the loss as the house is a very valuable one.

Capt. Elard lost \$200 cash, which was in a pocket book and most of his furniture; no insurance. The house which was owned by James Gray was not insured. Isaac Isaac lost horses and barn and all his furniture and implements only some bed clothes being saved.

Mr. Michael was insured for \$500.

NOTES.
The Mission church, St. Anne of Restigouche, was built about 53 years ago. It contained some valuable paintings and statues. Some of the statues were St. Anne, St. Patrick, St. John the Baptist, St. Francis Xavier, St. Aloysius of Gangaga. The organ was valued at two hundred dollars and the interior decorations were all costly. It is probable that steps will be taken at once to rebuild both church and home.—Enterprise.

A VISIT TO DORCHESTER PENITENTIARY.

Journal of Commerce says: A traveling correspondent in flower provinces has come to the conclusion that too little is said about the excellence of our public institutions and sends us a few notes about the maritime penitentiary at Dorchester. The building is situated on an elevation 100 feet above the water level of the Bay of Fundy, commanding one of the finest views in the province. It is erected in the form of a cross, of native free sandstone, gothic style, with high tower. There is accommodation for 350, but less than half that number are confined at present. The prison comprises 700 acres but only about 200 acres are in actual cultivation. The convicts take their meals together in a large rotunda in the centre of the building. Sanitary affairs are well looked after and the building is a model of cleanliness from basement to roof, reflecting the highest credit upon Warden John B. Foster. The chapel, used by all denominations, is prettily decorated with stained glass windows and paintings, the latter done by skilled pupils. The inmates are taught the usual trades and a matter that deserves attention is the manufacture of paper and butter tins. These are made in large quantities and sold to the E. B. Eddy Company, Hull, Que., who handles nearly all the articles made by the convicts. There is a good library comprising about 6,000 volumes.

SALMON IN TRANSIT TO BOSTON.

IMMENSE QUANTITIES PASSING THROUGH.—HOW THE FISH ARE HANDLED HERE.—The newspaper and telegraph offices are not the only places in the city in which busy men may be found during the "week small hours," and any who doubt the above statement have only to call at the I. C. R. freight house before day break some morning to ascertain its truthfulness. There will be found Messrs. Charles T. and James B. Jones, and sometimes a dozen assistants busy at re-stacking salmon. This re-stacking of the fish is perhaps a work that few people in the city know anything about. From the northern part of the province, from the Restigouche and Miramichi and other rivers immense quantities of fresh salmon, packed in ice, are shipped to Boston via the I. C. R. and International steamships. The list of shippers is very large, and includes the dealers of Bathurst, Dalhousie, Campbellton, Newcastle, Chatham and the other towns on the north.

Just now the business is about at its height and each day the trains bring to St. John between 200 and 300 boxes of the fish. These boxes are made of rough boards, very firmly put together. They are about one foot in depth by two in width, and six in length, and contain a rule 16 salmon each.

First a quantity of ice finely broken is placed in the box to the depth of about four inches. Then the fish are put in back down and packed closely together. Ice is filled in around them and then the whole is covered over with another layer of ice and the top is put on. The packing is first done at the place of original shipment and the re-stacking is done at St. John. It is no easy undertaking to break up and handle the ice for 250 boxes of fish, more than that the work must necessarily be done expeditiously.

Messrs. Jones have a large ice house on Pond street, which they stock in the winter time, and from which they draw for their work during the summer. Last winter they cut out 250 tons of ice. The value of the fish may be determined by averaging them at about 12 pounds each and about 12 cents per pound. This taking a day's arrivals at 200 boxes, would make \$4,800 worth of fish, and this goes on day after day for weeks. Part of the North Shore supply comes this way and part goes by the Canada Eastern and down through by Fredericton Junction. Some of this latter loss is made up by the profit derived from the handling of the moon from Port Mulgrave and other points in Nova Scotia.

From the I. C. R. ships the fish are taken by the transfer boat, Mr. James Callaghan to the International steamship wharf where they are shipped for Boston. Some mornings as many as 15 teams, some of them double, are engaged at the work, and from this alone an idea of the extent of the business may be obtained. In a week or two the market catch will begin to be shipped, and the re-stacking of these needs more extensive operations than required for the salmon.—Enterprise.

CANADIANS AT BISLEY.

LONDON, July 15.—At the Bisley shooting, Lieutenant Dover, of Truro,

ONE ENJOYS

Both the method and results when Eucalypti is taken, it is pleasant and refreshing to the taste, and acts rapidly yet gently on the kidneys, liver and bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the CALIFORNIA FIG SYRUP CO., SAN FRANCISCO, CAL.

GUISVILLE, N.Y. NEW YORK, N.Y. E. Lee Street, Agent at Newcastle.

N.S. put on 14 in the Wantage match, the range being 200 yards, seven shots, any position. The target is a disc 18 inches in diameter, colored blue, with the bulls-eye in the center, eight inches in diameter, counting three marks. The remainder of the target appears seven times, each time for five rounds, with intervals of five seconds, between the appearances. The competitor is allowed to load his gun as he pleases, but the target must be hit by the first shot. No sighting shots are allowed. From the above conditions it will be seen that this is a very good score. Last year a score of 19 secured first prize, while 10's came in.

The Canadian camp during the last few days has been visited by many Canadians who are at present on a visit here.

The Kalapora cup has again gone to the mother country, score being: England, 711; Canada, 699; Cape Colony, 689; Guernsey, 705; Jersey, 672. Col. Sgt. Henderson, of St. John, made 32 in the Pavilion match, 800 yards and seven shots. In the Morris match, 200 yards seven shots. Private Langstroth of Hampton, N. B., made 27. This match is shot with Martini-Henri rifles fitted with Morris tubes. The same score in this match was made by Col. Sgt. Henderson, St. John. There was no Canadian prize winner in this match last year, for which 26, came in.

RUSHING HOME RULE.

CLOSURE ENFORCED AND A NUMBER OF CLAUSES GO THROUGH RAPIDLY. LONDON, July 13.—In the house of commons tonight Chairman Mellor applied the closure to the debate on the amendment proposing the omission of the "in and out" provision of the Home Rule bill which forbids the Irish members of the imperial parliament to vote on certain questions. The closure carried, 325 to 298, amid loud opposition cheer to the closure. Clause 9, which provides for the representation in parliament for the Irish counties and boroughs, was adopted 326 to 297.

As chairman Mellor proceeded to put the question on clause 10, the first of the financial clauses, the conservatives, after cheering derisively, left the house in a body.

The government proposal that consideration of the clause be postponed was passed, 338 to 49.

The vote on financial clauses 11, 17, 20 and 21 were postponed by almost equally heavy majorities.

By the time clause 18, concerning the power of the Irish legislative assembly in the matters of money, bills and votes was reached, the bolting conservatives returned. The clause was carried, 325 to 294.

The following clauses were rushed through with majorities varying between 25 and 30; clause 19, concerning the Irish exchequer judge; clause 22, concerning appeals from the Irish courts; clause 23, concerning provision for the decision of constitutional questions; clause 24, concerning the office of the lord lieutenant; clause 25, concerning the use of crown lands by the Irish government; clause 26, concerning the future of future judges.

TO BE BURIED ALIVE.

New York, July 6.—A despatch from Toledo, Ohio, says: Seymour, the mind reader, was in Toledo yesterday on his way to Chicago, where he is going to be buried alive after the manner of the Indian magicians, who say they can suspend animation for any period by swallowing their tongues, controlling the heart and mind. "My coffin has gone ahead," said Mr. Seymour. It is a fair guess of the one in which General Grant remains now rest and cost \$3,000. It is made in three sections, one fitting inside the other. I will be buried in the coffin. The sections will be arranged so that if I die, I will not go right in. I can communicate with the outside world. I will remain buried till the coffin is opened, then I will be buried. Then the disinterment will take place. I won't come back to earth until September 21. I am positive I can do it and the scientific men who are assisting me are beginning to think so too.

LONDON, July 13.—The Mark Lane Express, in its weekly review of the British grain trade says: The harvest began on Thursday on the Southern slope, and is now in progress in Sussex. It will commence on July 17 in parts of Kent, Essex and Hampshire. On the best lands a crop of good quality, condition and weight is expected, but the plant is too thin in the ground for a big yield. It is expected that the yield generally will be 15 percent under the average. The average price of English wheat is still a long way on the wrong side of 30 shillings. There is a prospect of a short crop in the North, but this has not exerted any appreciable influence on the market.

VANCOUVER, July 13.—Fishes river fishermen struck yesterday. The run of fish commenced in the morning and when asked to go out to work the men refused unless their demands were acceded to. The canners stood firm and soon a few of the boats manned by non-union men were out. The men have been threatening the Indian and it is feared may resort to violence. As a precaution against such action a number of special constables have been sworn in and are patrolling the river. The Indian agent has been requested to send a detachment of his men to the river. Premier Davis has been requested to see that the canners are protected.

New Goods! Low Prices! Extra Value!

D. MORRISON'S, NEWCASTLE, (Head of Public Wharf)

We wish to call attention to the following goods which we place upon our counters at prices within the reach of all.

DRY GOODS,

including Cashmeres, black and colored Chaddies, Prints, Cambrics, Cottons, Gingham, Flannellets etc., etc., in good variety.

WE RECOMMEND

CORSETS

A full line of new Corsets and Waists to hand which we offer at lowest figures.

Gent's Furnishings.

including Shirts, Cuffs, Collars, Ties, Underclothing, Hose, etc., etc.

Boots and Shoes.

All sizes. Latest Styles.

FURNITURE.

Our spacious warehouse is filled from top to bottom with Parlor Suits, Bedroom Suits, Centre and Dining Tables, Hat Racks, Bedsteads, Mattresses, Spring Beds, Cots, Cradles, Rockers, Sofas, and Chairs, also a choice lot of Baby Carriages, at prices which defy competition.

No Trouble to show Goods and Quote Prices.

WINDOW BLINDS.

New patterns just arriving. We make these up to fit any size of window. Cheaper than cotton, truly convenient. Will last a lifetime. Do not fail to see our Goods and get our prices.

This is a cut of the old reliable

COSSITT BUCKEYE MOWER,

improved for the season of 1893. The removal of the Leading wheel and the light Malleable inside shoe allow perfect freedom of tilt and with the improvement in the shifting gear constitute it the lightest draft and most easily handled as well as the most durable and satisfactory Mower in the Market.

For Stony ground our 21 inch section Machine is unequalled.

We have also a full stock of

Cossitt Threshing Rakes, Cossitt Light Reapers, Brockville and Ganouque Buggies, Express Wagons and Carts, Harness, Chatham & Chantagne farm Wagons, Plows, Harrows, Cultivators, Pitching machines both single and double Harpoon, Thrashing Machines, Sewing Machines, Organs, Pianos, etc., etc.

A large stock of repairs constantly on hand, together with sections for the Buckeye, Walter A. Wood, Warrior, Massey and Toronto Mowers.

We are also agents for the WOODSTOCK WOOD WORKING Co. Persons wishing to purchase DOORS, SASHES, MOLDINGS, etc. will save money by examining our samples before purchasing elsewhere.

THE GREAT SOUTH AMERICAN NERVINE TONIC AND Stomach and Liver Cure

The Most Astonishing Medical Discovery of
the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar.

It is Safe and Harmless as the Purest Milk.
This wonderful Nervine Tonic has only recently been introduced
into this country by the proprietors and manufacturers of the Great
South American Nervine Tonic, and yet its great value as a curative
agent has long been known by a few of the most learned physicians,
who have not brought its merits and value to the knowledge of the
general public.

This medicine has completely solved the problem of the cure of indi-
gestion, dyspepsia, and diseases of the general nervous system. It is
also of the greatest value in the cure of all forms of failing health from
whatever cause. It performs this by the great nerve tonic qualities
which it possesses, and by its great curative powers upon the digestive
organs, the stomach, the liver and the bowels. No remedy compares
with this wonderful valuable Nervine Tonic as a builder and strength-
ener of the life forces of the human body, and as a great restorer of a
broken-down constitution. It is also of more real permanent value in
the treatment and cure of diseases of the lungs than any consumption
remedy ever used on this continent. It is a marvelous cure for nerv-
ousness of females of all ages. Ladies who are approaching the critical
period known as change in life should not fail to use this great Nervine
Tonic, almost constantly, for the space of two or three years. It will
carry them safely over the danger. This great strengthener and cura-
tive is of inestimable value to the aged and infirm, because its great
energizing properties will give them new hold on life. It will add ten
or fifteen years to the lives of many of those who will use a half dozen
bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF

Nervousness, Broken Constitution,
Nervous Prostration, Debility of Old Age,
Nervous Headache, Indigestion and Dyspepsia,
Sick Headache, Heartburn and Stomach,
Female Weakness, Weight and Tenderness in Stomach,
Nervous Chills, Loss of Appetite,
Paralysis, Frightful Dreams,
Nervous Paroxysms, Dizziness and Ringing in the Ears,
Nervous Choking, Weakness of Extremities and
Fainting,
Sick Headache, Impure and Impoverished Blood,
Palpitation of the Heart, Rashes and Carbuncles,
Stomachic, Scrofulous Swellings and Ulcers,
St. Vitus' Dance, Consumption of the Lungs,
Nervousness of Females, Catarrh of the Lungs,
Nervousness of Old Age, Bronchitis and Chronic Cough,
Pains in the Heart, Liver Complaint, Chronic Diarrhoea,
Pains in the Back, Delicate and Scrofulous Children,
Failing Health.

All these and many other complaints cured by this wonderful
Nervine Tonic.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been
able to compare with the Nervine Tonic, which is very pleasant and
harmless in all its effects upon the youngest child or the oldest and most
delicate individual. Nine-tenths of all the ailments to which the human
family is heir are dependent on nervous exhaustion and impaired diges-
tion. When there is an insufficient supply of nerve food in the system,
the general state of debility of the brain, spinal marrow, and nerves is the
result. Starved nerves, like starved muscles, become strong when the
right kind of food is supplied; and a thousand weaknesses and ailments
disappear as the nerves recover. As the nervous system must supply all
the power by which the vital forces of the body are carried on, it is the
first to suffer from want of perfect nutrition. Ordinary food does not con-
tain a sufficient quantity of the kind of nutriment necessary to repair
the wear our present mode of living and labor imposes upon the nerves.
For this reason it becomes necessary that a nerve food be supplied.
This South American Nervine has been found by analysis to contain the
essential elements out of which nerve tissue is formed. This accounts
for its universal adaptability to the cure of all forms of nervous dis-
easement.

NEWCASTLE, N. B., AUG. 20, 1892.

REBECCA WILKINSON, of Newcastle, Ind.,
says: "I had been in a distressed condition for
years from nervousness, weakness, indigestion,
and a general failing health. I tried every
remedy I could hear of, but nothing did me
any good until I was advised to try
your Great South American Nervine Tonic.
I bought a bottle of it, and after using
it for a few days, I felt a great relief.
I continued to use it, and in a few weeks
I was completely cured. I feel as well as
ever, and my health is now perfect. I
am a great believer in your Nervine Tonic,
and I can recommend it to all who are
suffering from nervous diseases."—
JOHN T. MISEL.

A SWORN CURE FOR ST. VITUS' DANCE OR CHOREA.

My daughter, eleven years old, was severely afflicted with St. Vitus' Dance
or Chorea. We gave her three and one-half bottles of South American Nervine
Tonic, and she is completely cured. I bought a bottle of it, and after using
it for a few days, I felt a great relief. I continued to use it, and in a few weeks
I was completely cured. I feel as well as ever, and my health is now perfect.
I am a great believer in your Nervine Tonic, and I can recommend it to all who are
suffering from nervous diseases."—JOHN T. MISEL.

State of Indiana, Montgomery County, ss:

Subscribed and sworn to before me this June 22, 1892.

CHAS. W. WRIGHT, Notary Public.

INDIGESTION AND DYSPEPSIA.

The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever
discovered for the cure of Indigestion, Dyspepsia, and the vast train of
symptoms and horrors which are the result of disease and debility of
the human stomach. No person can afford to pass by this jewel of invalu-
able value who is affected by disease of the stomach, because the ex-
perience and testimony of many go to prove that this is the only and
only one great cure in the world for this universal destroyer. There
is no case of unalloyed disease of the stomach which can resist the
wonderful curative powers of the South American Nervine Tonic.

HARVEY E. HALL, of WASHINGTON, Ind., says:
"I own my life to the Great South American Nervine Tonic. I had been in bed for five months from
the effects of a severe attack of Indigestion, Dyspepsia, and a general failing health. I tried every
remedy I could hear of, but nothing did me any good until I was advised to try
your Great South American Nervine Tonic. I bought a bottle of it, and after using
it for a few days, I felt a great relief. I continued to use it, and in a few weeks
I was completely cured. I feel as well as ever, and my health is now perfect. I
am a great believer in your Nervine Tonic, and I can recommend it to all who are
suffering from nervous diseases."—JOHN T. MISEL.

No remedy compares with South American Nervine as a cure for the Stomach. No remedy com-
pares with South American Nervine as a cure for the Liver. No remedy will at all
compare with South American Nervine as a cure for all forms of failing health. It never fails to
cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus' Dance. It never fails to
build up the whole system in the extreme. It cures the old, the young, and the mild
dyspepsia. It is a great friend to the aged and infirm. It is a great friend to the young
and healthy. If you do, you may neglect the only remedy which will restore you to health. South American
Nervine is perfectly safe and very pleasant to the taste. Delicate persons, do not fail to use the
great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks
and quickly drive away your disabilities and weakness.

Large 16 ounce Bottle, \$1.00.

Miscellaneous.

F. G. Blacklock, of Cape Spencer

light station, tried all kinds of remedies for rheumatism, that had left him almost unable to walk, and at last got Dr. Manning's German Remedy. Before he had finished a bottle he could walk without a cane. This marvelous pain-killer is a positive cure for Rheumatism, Neuralgia, Sprains, Strains, Bruises, Colic, Chills, Cramps and all pains and aches, either internal or external. An invaluable household remedy. Sold everywhere. Price 50 cents.

What the School-Bell Says.

It is wonderful what unlike things the school-bell says to the boys, when it rings.

For instance, the laggard who drags along

On his way to school, hears this sort of a song:

Oh—suz—huz!

Why did I come!

Study till four!

Books are a bore!

Oh how I wish

I could run off and fish!

See there's the brook,

Here's line and hook

Spoke I must go,

Study till four!

Books are a bore!

Then the boy who loves to be faithful and true,

What does his parents think best he should do,

Comes bravely along with satchel and books,

The breeze in his whistle, the sun in his looks,

And these are the thoughts that well up like a song,

As he hears the old bell with its faithful ding-dong—

Cling, clang, cling—

I'm so glad I can sing!

Everything fair

And lullaby the air!

Even a boy

Finds study a joy!

When my work's done

I'm ready for fun.

Keener my play

For the tasks of the day.

Cling, clang, cling—

I'm so glad I can sing!

These are the songs which the two boys heard

When the school-bell was ringing, word for word.

Which do you think was the truer song?

Which do you hear, as you are trudging along?

Don't be a laggard! far better, I say,

To work when you work, and play when you play.

—Selected.

THE OLD MAN IN THE PANSY.

Maggie Symington tells in the Dublin Wanderer the following pretty fancies about the pansy: "I have found him and you can do so, if you follow directions. Have you ever heard the pansy story? Listen. Every pansy that grows represents a whole family: father, mother, two daughters and two stepdaughters. So they say in la belle France, and for this reason the pansy is called the stepmother. When I tell you how to find the different members of this interesting family you will know all, and be seeking for pansies that you may prove the truth of my words. First of all you must know that the petals and the colored leaves of the flower, and the sepals are the leaves of the calyx; the calyx is the green outer covering, or leaf-like envelope of a flower. The pansy has two plain colored leaves, these are the stepchildren. By looking at the lack you will find that they have only one sepal between them. These are the stepdaughters, who have only one chair, the sepal, to sit down upon. The two marked side petals have a sepal each, these are the own daughters and each has a chair to herself. The fifth leaf the largest and brightest of all, is the step-mother, and she has two chairs or sepals. She cannot sit on two chairs at once, so one must be for her old man; but where is he? Ah, where! Now, do just what I tell you, and you will discover him. Carefully pull away the step-daughters, the real daughters and the step-mother, and then you will find him—a funny little old man, with a comforter round his neck, sitting huddled up with his feet in a bath-tub.

Minard's Liniment Cures Dandruff.

Youth's Corner.

A SLEEPY LITTLE SCHOOL.

A funny old professor kept a school for little boys.

And he'd romp with them in play-time, and he wouldn't mind their noise; while in his little schoolroom, with its head against the wall,

Was a bed of such proportions it was big enough for all.

"It's for tired little pupils," he explained, "for you will find it."

How very wrong indeed it is to force a learning mind!

Whenever one grows sleepy and he can't make him lay his primer down and send him off to bed!

And sometimes it will happen on a warm and pleasant day,

When the little birds upon the trees go too-rat-rat-lay.

When wide-awake and studious it's difficult to keep,

One by one they'll get a nodding till the whole class is asleep.

"Then before the all in dreamland and their funny snores begin,

I close the shutters softly so the sunlight can't come in."

After which I put the school books in their order on the shelf,

And, with nothing else to do I take a little nap myself."

—St. Nicholas.

WHAT THE SCHOOL-BELL SAYS.

It is wonderful what unlike things the school-bell says to the boys, when it rings.

For instance, the laggard who drags along

On his way to school, hears this sort of a song:

Oh—suz—huz!

Why did I come!

Study till four!

Books are a bore!

Oh how I wish

I could run off and fish!

See there's the brook,

Here's line and hook

Spoke I must go,

Study till four!

Books are a bore!

Then the boy who loves to be faithful and true,

What does his parents think best he should do,

Comes bravely along with satchel and books,

The breeze in his whistle, the sun in his looks,

And these are the thoughts that well up like a song,

As he hears the old bell with its faithful ding-dong—

Cling, clang, cling—

I'm so glad I can sing!

Everything fair

And lullaby the air!

Even a boy

Finds study a joy!

When my work's done

I'm ready for fun.

Keener my play

For the tasks of the day.

Cling, clang, cling—
