LECTURE IN AID OF RED CROSS WORK

At the Lyric Hall on Monday evening there was a good sized audience to listen to Prof. W. F. Watson explain the events which led up to the present war. W. D. Keith was chairman and, after two reels of a picture called "The Ring and the Man," introduced the speaker of the evening.

The professor, in opening his lecture, remarked that the great mass of the German people were not responsible for the present world crisis, but rather they had been led into the war by false teachers who ranked among the brightest minds of Europe. These teachers have not advocated justice in dealing with other nations, but centre all their energies on the right of force with a view to ruling the world. One of the greatest of the German writers had declared that the world had outgrown the teachings of the lowly Nazarene and that in this day might was right.

The speaker did not weary his audience with a formidable array of dry figures or a brilliant display of flowery language, but gave a clear, concise statement of the aim of the German aristocracy, which is the militarism of the empire.

Prof. Watson stated that in New York recently, in conversation with a German officer of high rank, it had been openly stated that Germany had prepared plans and specifications for taking both Canada and the United States. In all his travels over the country since the war began in no place had he found so much pessimism as in Hartland. As an optimist during the present struggle, the speaker proved himself a worthy example for the people of this country. We must not be downcast because of reverses now and then. These are to be expected, and in most instances they have cost the Germans more heavily in men and munitions than the successes were worth from a military standpoint. The wearing process on the enemy is telling and in the end justice and right will prevail. Lord Kitchener said the war would take three years, and the lecturer was inclined to the belief that the great hero of Khartoum had planned the wearing effect as the surest method of crushing German militarism in its effort to rule the world.

After the lecture, and while ice cream was being dispensed, Mr. Carr moved and it was seconded and passed that a vote of thanks be tendered Prof. Watson for his lecture and that Mr. Hull receive thanks of the audience for the picture reels, which were given free. Before the last two pictures were shown Mrs. C. H. Taylor, in good voice, sang "Beside the Camp Fire." At the close of the entertainment the audience sang the National Anthem. Mrs. Gillin presided at the piano. The receipts of the entertainment amounted to \$34.

Two-year-old Child Burned to Death

On Friday the little two-year-old girl of Mr. and Mrs. Horace Clark, who live on the upper Rockland road, was so severely burned that the poor little thing died in less than an hour.

The parents were both absent when the child, playing with fire, ignited its clothes, which were burned off, searing the flesh most horribly. The tragedy was heart-rending to the parents, and shocking to all who heard of it.

At Presque Isle, also last week, a small child was burned to death in a house that caught fire.

HORRIBLE DEATH OF JOHN KEEZER

When John Keezer, C. P. R. engineer, was instantly killed in Hartland yard on Monday morning the village witnessed its most gruesome tragedy.

Mr. Keezer was driver on the mixed train from Aroostook Jct. to Woodstock. When he pulled into the yard he dismounted from the engine to get his pay-check cashed at the bank. The conductor waited a moment and when he emerged from the bank gave him the "high ball" signal to go. This Mr. Keezer passed on to his fireman, who started the train. The ill-fated man climbed the side of a box car intending to walk forward to the engine. It is not known how he fell, but marks along the track showed where he made an agonized effort before finally letting go whatever frail hold he may have had. Death must have been instantaneous when he struck the rail. His head and one hand were clean severed, an arm was broken, and his body horribly mutilated.

At the south end of the yard the fireman, fearing some mishap, stopped the train, and the crew was horrified to find the remains some distance in the rear.

A. R. Foster was the only available officer. Under his instructions the remains were placed on the train and he accompanied them to Woodstock. Upon arrival there Coroner Foster officiated and the jury, after hearing the evidence, found a verdict of accidental death with blame attaching to no one.

Mr. Keezer was about 45 years of age, and leaves his wife and one child. He had railroaded all his life and was considered one of the company's most capable engineers. His home was in Woodstock.

The funeral was largely attended, particularly by fellow employees of the railway.

Mrs. Abigail Bartley

Died at Beadonsfield, Aug. 4th 1915, Mrs. Abigail Fulton Bartley, aged 68 years, 5 months; deceased was born in Greenfield. She was united in marriage to John E. Bartley in 1868, residing in Knoxford for a number of years, then removing to Beadonsfield where they have resided. Seven children have blessed their union, four who have preceded her in "the beyond." The others are Havelock and Thomas of Westfield and Wellington, who resides on the homestead farm. Husband, sons and eleven grandchildren and a large circle of relatives and friends mourn their loss.

Base Ball in England

The Canadian boys training for the war in England have time to indulge in base ball. A letter in the St. John Globe says the team of the 26th Reg. is the star, and the line-up shows the name of Roy Stevens of Hartland as second baseman.

T. J. Hurley has left with The Observer a freak of nature that grew in his corn patch. It is seven small corn cobs which grew like a bunch of bananas in one husk, and a number of smaller stalks with it look like oats. It is very remarkable.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and uphold your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

CLOUD BURST AT PLASTER ROCK

One day last week Plaster Rock experienced a cloudburst which will long be remembered. Woodstock correspondent of The Observer is responsible for the statement that the cloud burst with a loud crash, which is something new in meteorology. The remainder of the report says: down came the rain in torrents, driven by a mighty wind. The people had not time to close their doors and windows, and many rooms were damaged by the wet. Two teams were on front street. J. B. Cliff was blown with his horse and carried down a steep embankment, turning him over several times, but he miraculously escaped severe injury. The other team contained a lady and a young man, and all that prevented them from being carried from the street into the river 90 feet below was a sidewalk.

Fortunately, it was tea time, or perhaps the streets would have been thronged with people and the death list might have been heavy, especially among women and children.

No great damage resulted to crops, as the gale was confined to the immediate vicinity of Plaster Rock. The country being rather hilly, prevented the storm from doing much harm to farm buildings. Old residents claim the like was never known on the Tobique.

Breezy Centreville Items

Our streets Saturday evening were full of autos and teams. A stranger coming in would think he was attending an Aroostook Co. Fair.

A few small fields of grain have been cut but it will be two weeks yet before harvesting starts in earnest. Potatoes are beginning to rust but not very badly as yet. New potatoes are excellent quality and show a fair yield.

St. John and Quebec Railway valuations have been here and settled with G. G. London for the station site. A. Babbirk has had a crew putting up the fence on the disputed ground and also loading ties which have been piled in front of the station. This is a good move as these ties have been an eye-sore all summer. Now there is no excuse not to have warehouses built at once for the fall.

Rents are extremely scarce in our village and in all probability several families will have to leave the village this fall. Fred Hume expects to build several houses on the land he has bought from G. G. London but these not likely will be finished before spring, with the exception of a large bungalow for himself, which he will put up at once. Why do not some of our retired farmers get busy and invest some of their surplus change in tenements?

Jos. Vandine and family expect to spend the winter in Portland, Me.

Rev. Mr. Welton, Baptist minister, lately from London, Eng., preached morning and evening in the U. B. Church. Sunday morning he was assisted by his old friend Rev. W. J. Hurlow of Tracey Mills. The congregation was highly delighted with Mr. Welton who has an excellent voice and preached two splendid sermons.

Mrs. Bramley of Bath, who has been nursing Mrs. F. D. Tweedie, leaves for home Tuesday.

Ernest Niles, wife and two children of Waterville, Me., are visiting his brother, S. W. Niles, and his two sisters in Summerfield. Ernest has not been here for a number of years and has grown big and fat.

Ernest Burtt and wife of Woodstock are visiting here. Annie West graduated nurse, is home on a vacation.

Miss Frank Simonson of Boston is here on her vacation. Albert Field and party of Woodstock were here Sunday by auto.

Mrs. P. Martin of St. John, has been visiting her mother Mrs. H. Penna.

Friday afternoon Florenceville Baseball team was defeated here by Centreville. Saturday afternoon Centreville was defeated by Bridgewater, assisted by some crack Mars Hill players. This was a very loose game, Centreville making 11 runs in one inning. Total score 23-21.

Where are the Harland baseball fans? We would like to get on a game with that team.

Mr. Babbirk, Woodstock, is building a fireplace and flue for S. W. Burtt.

Thomas Wilkinson of Fredericton came up on the Valley train Saturday and spent Sunday with his brother, Ohas. Wilkinson.

F. B. Carvell, M. P., and T. M. Jones, Judge of Probates, Woodstock, were in town on Friday.

The death of Matthew Commins, a former resident of Cardow, took place at Washburn, Me., on Sunday. Mr. Commins had been in poor health for several years and about four years ago sold his farm and retired and has been since residing at Washburn with sisters, Misses Annie and Lizzie Commins.

C. R. Lockhart of Bristol was a caller here Monday on business.

A. R. Foster of Middle Simonds was a caller here on Friday last.

Michael Bohan, a former resident, and for a number of years engaged here in the produce business and who has of late years resided in St. John, was a visitor to his old home this week.

S. W. Tompkins, the postmaster, has purchased a new auto, thus adding another machine to the number of autos owned here.

Mrs. Cassiah Tracey, Charlotte Harris and Mrs. Robert Squires were visitors to Stickney last Friday.

Miss Ethel Simms spent last week with friends at Waterville and Harland.

Miss Edna Giberson returned from Oldtown last week where she has been spending a few weeks. Miss Giberson will leave on Wednesday for St. Andrews where she is to take charge of the Charlotte county grammar school.

Samuel Lloyd of this place and Alva Phillips collided with their autos near Muniac one evening last week and barely escaped a serious accident. As it was the cars were but slightly damaged.

Mr. and Mrs. John Ryan and C. F. Gallagher of this place paid St. John and St. Stephen a visit last week.

C. F. Gallagher motored to Washburn and return on Sunday.

Mr. and Mrs. Horace Hughes and party, of Houlton, on their way from Limestone on Sunday were callers on their relatives, Miss Ethel Simms, and her father, J. R. H. Simms.

Herbert MacDonald has gone to the west on the harvest excursion.

Mrs. Rupert Long and Dorothy are visiting friends and relatives at Eel River.

Alice Rideout has returned from her visit to Mount Pleasant.

Rev. Mr. Brown preached in the River Bank hall Sunday night.

The last Stickney sewing circle was held at Mrs. B. E. Tompkins'. Thirty five were present. The next will be at Mrs. F. D. Lovely's.

The R. B. Sunday school is to have a picnic on Long's Island, Sep. 4. Every one brings their own lunch.

People of River Bank were all glad to see a letter from James B. Tompkins, now at the front. This was his boyhood home.

Gertrude Ebbett of Lansdowne takes charge of our school in a few days.

Mrs. G. F. Jones is quite ill. Typhoid fever is feared.

Mrs. Henry Bell and children are spending a week at Aroostook Jct. with Mrs. Edward Waugh.

Mrs. James McLennan has been spending a few days with relatives at Bath.

These wounded boys are in hospital in England. Ohas. Stephenson of Woodstock and Private Hazel of Centreville have been invalided home.

Just after The Observer went to press last week two alarms of fire within 15 minutes started the neighborhood. The first was for a burning flue in the tenement occupied by William Featherstone, and the second for the same calamity at E. T. Shaw's residence. In the latter case there was considerable concern, since the house was filled with smoke and the chimney became very hot. In neither case was it necessary to turn on the water. These were the first alarms of fire this year—a very good record.

HOW CAN THIS BE EXPLAINED?

Evidence submitted before Commissioner Chandler at Fredericton was to the effect that men operating for A. J. H. Stewart, M. P. P., cut railway ties on crown lands in Gloucester both before and after Mr. Stewart secured the lease of these lands, and that no stumpage was paid to the province. The cutting began in the fall of 1912, and it was not until Dec. 26 of that year a lease was issued to W. G. White, who four months later transferred it to Mr. Stewart. No report was made by the government scaler concerning the cutting of lumber throughout the fall and winter and the following winter, and Col. Loggie testified that no stumpage was received by the government. It was also stated in evidence that some of the trees cut were very much under the regulation size. The testimony of Col. Loggie also brought out the fact that the first cutting, before a lease was secured, was clearly a trespass on government lands.

A. J. H. Stewart is a member of the legislature and a supporter of the Clarke government.

Evidence was also submitted to prove that the Farm Settlement Board paid \$1,500 for a farm, the owner of which only got 1,200; and he swore he was told by the manager of the Royal Bank that the latter had sold the farm to A. J. H. Stewart for \$1,200, and the latter had turned it over to the Farm Settlement Board for \$1,500. It was proved that the bank got \$1,500, but only \$1,200 was credited to the account of the owner of the farm. The \$300 is alleged to have gone to A. J. H. Stewart. The owner of the farm says the bank manager assured him that neither he nor the bank got any part of it.

A. J. H. Stewart is a member of the legislature and a supporter of the Clarke government. The St. John Standard skillfully conceals in its report the facts, both in regard to the trespass on crown lands and failure to pay stumpage and rake-off on the Knowles farm.

Does the Standard represent the attitude of Premier Clarke in this matter? What does Premier Clarke propose to do about it?

What does the Conservative party in New Brunswick propose to do about it? Is there any sense of shame or sense of right left in that party? Who is its spokesman? Is it the Standard—or A. J. H. Stewart, M. P. P.?

Government Takes Over the Valley Railway

Fredericton, Aug. 19.—The government of New Brunswick has taken over the stock of the St. John & Quebec Railway Company and has named new officers for the company.

The order-in-council bringing about the change was passed at a meeting held on Aug. 4, and the order-in-council, which is published in the Royal Gazette, first sets forth that on June 9 the St. John & Quebec Railway Company were given twenty days' notice to make arrangements satisfactory to the lieutenant-governor-in-council for completion of the St. John Valley railroad, and that the company has "not made satisfactory arrangements."

Nobody nowadays ever hears of the Valley railway being built through Royalton or Greenfield or Andover to Grand Falls. Perhaps T. J. Carter and J. L. White, Victoria's members in the Legislature, can explain why.

The Supreme Test of a Healing Agent

Psoriasis or Chronic Eczema Defied All Treatment Until Dr. Chase's Ointment Was Used.

After suffering with the terrible itching of Psoriasis for five years, and being told by physicians that she could not be cured, Mrs. Massey turned to Dr. Chase's Ointment and was entirely cured. You will find this letter interesting, and will not wonder that the writer is enthusiastic in praising this ointment.

MRS. MASSEY.

After suffering with the terrible itching of Psoriasis for five years, and being told by physicians that she could not be cured, Mrs. Massey turned to Dr. Chase's Ointment and was entirely cured. You will find this letter interesting, and will not wonder that the writer is enthusiastic in praising this ointment.

Can you imagine a more severe test for Dr. Chase's Ointment? This should convince you that as a cure for eczema and all forms of itching skin disease Dr. Chase's Ointment stands supreme. Put it to the test. 50c a box, all dealers, or Edmansons, Bates & Co., Limited, Toronto.
