

FIRST RADIUM TO REACH AMERICA

Rarest of Elements Imported by Former Chatham Man.

IS VALUED AT \$32,000 A GRAM

One Kilogram of Mysterious Mineral Could Destroy Population of Paris.

Detroit, Nov. 14. — Radium, rarest of elements, and worth three thousand times its weight in gold, has reached Detroit, the first bit to be secured in this part of the world being now in the possession of Dr. Rollin H. Stevens, formerly of Chatham, Ont., who received it three days ago directly from the discoverers, Madame Curie and her husband, Prof. Pierre Curie, of the Ecole Polytechnique, of Paris, France.

Dr. Stevens has in the form of a bromide the quarter of a gram of the strange and valuable stuff, a kilogram of which it has been stated by scientists, and wrote to M. Curie last June, inasmuch as there is estimated to be but a tablespoonful of the purified radium in the world, and all the radium reduced had been purchased, it was a difficult matter to secure any. By dint of constant importation he had a case of lupus, the curing of which depended on the wonderful powers of the new element, Dr. Stevens at last persuaded M. Curie to forward him a quarter of a gram.

The stuff, the strange phosphorescent rays of which are said to have wonderful curative powers in the case of cancer, lupus and kindred disease, was sent to Dr. Stevens in a little glass vial about three inches long and much thinner than a pencil. The bromide looks like ordinary table salt in the light, but when the room is completely darkened it glows much like a bit of phosphorus. The penetrating power of the rays, a power that has already caused many serious burns and the blindness of animals on which experiments were performed, was evident in the specimen in Dr. Stevens' possession to pierce a good-sized book in the dark room.

Since the arrival of the new element, the friends of Dr. Stevens, especially those of the medical profession, have called to examine the stuff whose properties are yet but imperfectly known. In consequence, Dr. Stevens has been handling the glass vial filled with the bromide to a considerable extent. Some of his friends warned him to be more careful, fearing ulceration of his fingers. That such a fear is not unfounded is apparent to those who remembered the experience of M. Becquerel, who carried a bottle of the stuff for a short time in his vest pocket, and a few days afterwards began to suffer from severe burns on his body, which it took fifty-three days to heal.

"The value of radium," said Dr. Stevens, "has been estimated at about \$32,000 a gram at its greatest intensity, which the Curies claim to be 1,800,000. The intensity of my quarter of a gram is 7,000. If anything, it is too strong, for the little radium that is now in the country is usually used at 240 intensity."

In regard to a recent purchase will illustrate. Edward D. Adams, of New York, for the American Museum of Natural History, paid \$900 for 100 milligrams of radium of an activity of 1,800,000, at the rate of \$198,000 an ounce. The sample used represented an ounce of pitch blende. The entire quantity could be put in the end of a thimble and not occupy more than four of the space remaining between that and the finger.

Experiments with radium show that it can by its mere presence annihilate animal or plant life.

DRAKOMIROFF DISMISSED

Was Responsible for the Massacre at Kieff.

Moscow, Nov. 14.—Gen. Dragomiroff, the retired general of Kieff, has left here for his estates, the Czar having no further use for his services. The circumstances surrounding the dismissal of Gen. Dragomiroff have just leaked out. They strikingly illustrate the humanitarian ideas of the Russian ruler. Dragomiroff, who enjoyed unbounded favor at court and was the most popular man in the Russian army, lost favor and his office because he did not show moderation in quelling the recent strike riots at Kieff, which practically involved all the working people of the town.

The Czar dismissed Dragomiroff with the words: "I cannot have that man at Kieff any longer. His hands are stained with human blood."

BABY IN RUMMAGE SALE

Was Found Packed in Box in Streets of 'Frisco.

San Francisco, Nov. 14.—A tiny specimen of humanity packed in a box and abandoned on the doorstep of the San Francisco Nursery for Homeless Children at No. 1534 Mission street, at 10 o'clock on Saturday night lay undiscovered for nine hours before being found by Mrs. M. J. Hubert, matron of the institution.

The matron thought that the package was a contribution left by some kindly disposed person for a rummage fair which had been in progress for several days for the home's benefit. A faint cry disquieted her. After being fed the child was removed by the police to the Central Emergency Hospital, as the home's nursery is already crowded.

A New Palace.

Copenhagen, Nov. 14.—Parliament has voted \$1,500,000 to rebuild the Christiansburg castle as a palace for the King. The 56th anniversary of whose birth occurs today.

CHICAGO'S BIG STRIKE

Expected That It Will Be Settled by Arbitration.

Chicago, Nov. 14.—Chicago's street railway strike may be ended today by arbitration. Eleven o'clock today was the time set by the company to make reply to the employees' arbitration proposal, and General Manager McCulloch said he would be glad at that time to meet accredited representatives of the men.

President Mahon, of the Amalgamated Association of Street Railway Employees of America, has signified the desire of the men for a peaceful termination of the strike, either through the state board of arbitration or otherwise. E. R. Elise, the company's attorney, has informed the state board of arbitration that today he would have something definite to announce, and his statement further strengthened the feeling that the strike will be ended.

A REBUFF FOR FREE TRADERS

By Desertion of Hicks-Beach to Balfour's Policy.

CHAMBERLAINITES AGGRESSIVE

They Have Purchased Two of the Most Prominent Free Trade Organs in England.

London, Nov. 14.—The acceptance by Sir Michael Hicks-Beach, of Premier Balfour's policy is regarded as a distinct rebuff to the free trade party. The Chamberlainites point out the weakness of the position under which the former chancellor of exchequer, who organized the free trade league, supports Mr. Balfour, this support, being accorded on the strength of which the Duke of Devonshire to leave the cabinet and become president of the House of Commons, and the Duke of Devonshire, as of little practical consequence since it is well known that the Duke is in sympathy with the Chamberlain cause. Meanwhile the Chamberlain party is working most actively to propagate the new policy of their leader.

Having acquired one of the most prominent free trade organs in the north of England, they have now purchased the London Evening Sun, one of the few free trade organs in the metropolis. The tariff reform league has constituted a committee to support and establish branches in all the colonies. An influential committee, including Sir Charles Tupper, has been formed.

Henry Norman, M. P., the well-known free trade advocate, writes to the Daily News, urging the Government, as an experiment in retaliation against United States and the Cuban reciprocity to do this. He has no doubt that the experiment will have an important educational influence.

CANADA'S SURPLUS OVER \$14,500,000

On Financial Operations During Last Four Months.

TWO MILLION OVER LAST YEAR

An Increase in Every Branch of Revenue the Customs Department Leading.

Ottawa, Nov. 13.—A surplus of fourteen and a half million dollars on the operations of the last four months is a very handsome result. That is what appears from the statement of Canada's revenue and expenditure for the last four months. The large surplus is, however, perhaps more apparent than real. It is true there is a surplus, and a good one, too, but the excess of the expenditure is probably unduly swollen by the fact that certain items of expenditure do not appear in the present statement, although they will be credited in future statements. However, the total revenue as now given is \$23,735,715, which is \$14,507,796 in excess of the expenditure, and \$2,700,000 more than the receipts for the same period of last year. The ordinary expenditure amounted to \$9,227,919, showing a reduction of \$2,228,940, as compared with the same four months of 1902. There was also a reduction of \$1,735,514 in the capital expenditure. An increase of \$1,111,367 in customs. A statement of the receipts in detail is appended:

Revenue.	October, 1902.	October, 1903.
Customs	\$12,206,306	\$14,418,172
Excise	3,947,359	4,206,284
Postoffice	1,190,909	1,359,049
Public	2,561,500	2,768,515
Miscellaneous	258,953	3,741
Totals	\$20,164,727	\$23,735,715
Expenditure	\$14,527,919	\$9,227,919

The postoffice department has lately been advised of the adhesion of the colonial administration of British North Borneo to the arrangement initiated by Sir William Mulock for an imperial rate on newspapers. Under this arrangement Canadian newspapers are allowed to pass through offices of publication to the United Kingdom and the several colonies mentioned hereunder at the same rates and under the same conditions as apply to Canadian newspapers addressed to places in Canada. The complete group that have already signified adhesion to the arrangement are as follows: United Kingdom, Bahamas, Barbados, Bermuda, British Honduras, British North Borneo, Ceylon, Hong Kong, Leeward Islands (including Antigua, etc.), New Zealand, Sarawak, Sierra Leone, Transvaal, Turk's Islands and Zanzibar.

The Old Court House Is One of the Most Interesting Buildings in London

One of the most interesting of the many interesting buildings of London is the court house and jail, the old castle, which has stood for three quarters of a century on the corner of Dundas and Ridout streets. The court house records of a century ago are exceedingly hard to get at, as some of the most valuable early records of what was known as the London district were burned when the court house at Victoria was destroyed by fire many years ago—away back in the '20's. It is known, however, that 1782 to 1825 the courts for London district were held in Detroit, which was at the time in British territory; in the Township of Charlotteville, at Turkey Point, and at the village of Victoria, respectively.

By an act of 1788 it had been laid down that the London district should comprise the counties of Norfolk, Oxford and Middlesex, with the tract westward of the Home District, and District of Niagara, to the southward limit of Oxford intersects the River Thames until it arrives at Lake Huron.

A brick court house had been erected for the London district in 1825. Between this period and 1827, two or three district courts were held at a private house, in Victoria, when the court was removed to St. Thomas, for a couple of sessions, until a temporary court house could be erected in London.

The court house as it stands today was built in several sections, but the first of it was constructed, under an act of the Legislature, 7 George IV, cap. 14, passed in 1826. St. Thomas made a bitter fight to have the court house built in that place.

Sometime between 1830 and 1842, the jail at the rear, or a major portion of it, was built by the district council, at a cost of about \$210,000, though the estimates stated that it could be built for \$62,241. Mr. Hewell, of Toronto, was the contractor; Mr. Thos. Parke, of St. Catharines, the architect, and Mr. Wm. Hale, of London Township, made the bricks.

In the seventies the entire front of the present building was erected, so that this portion of the court house is quite modern.

The old frame building which had been used for a court house was afterward turned into a grammar school, in which many Londoners living today received their early education. At the present time it is still situated on King street, west of Ridout, and is used as a school building by the board of works.

Before the jail at the rear was erected, the cells for prisoners were in the basement of the court house, and the time of the MacKenzie-Papineau rebellion, as many as 100 alleged rebels were incarcerated in the building. In taking part in the rebellion, one time, it is also recorded that seven of the rebels were hanged from the gallows, a man named Cunliffe, of Peachville; a man named Purley, of Nova Scotia, and a Joshua Doan. Since that time the old court house and jail has witnessed probably a dozen executions, and now they appear to be good for another decade.

WILL U. S. HEAD OFF COLOMBIA?

An Intimation From Washington That They Will Not Permit Attack On Panama.

Washington, Nov. 14.—The state department has no knowledge of marching of any army from Colombia upon the isthmus, and the officials state that were any such movement in progress, it would certainly be informed by its agents in the south, the cables being still open. These officials also state that any such movement in progress, as the president of Colombia is reported to have called to the president of Ecuador, it is assumed here that the "army" said to be marching on Panama was nothing more than the few men, perhaps 500 all told, who were about embark at Panama Ventura a few days ago, when they were turned back from the isthmus by notice of the determination of the United States naval commanders to allow no armed forces to pass the isthmus. These troops cannot reach the isthmus by water, and the officials here are positive that they cannot do so by land. The fact that there is no subsistence for an army on the route.

But there are more than physical obstacles in the way of the approach of an army upon Panama. The officials do not care to express publicly their opinion, but enough has been gleaned from the instructions given to the U. S. naval commanders to make it evident that never again will the isthmus become the seat of warfare so long as the United States Government can prevent it.

PISTOL DUEL IN PARIS

Two Shots Exchanged But Duellists Are Not Satisfied.

Paris, Nov. 14.—The two members of the chamber of deputies, Henry Maurice Berthelette radical socialist, and Georges Berthelette, independent republican, who engaged in a violent altercation during the discussion of the war budget in the chamber on Thursday, compelling the president of the house to suspend the sitting for a few minutes, fought a duel with pistols in the suburbs of Paris this morning. Two shots were exchanged without any result, and the encounter ended with the principals still unsatisfied.

SIX VESSELS ASHORE

Big Gale in Alga Bay Does Great Damage.

Elizabeth, Cape Colony, Nov. 14.—The British ship Arranmore, the Italian bark Santa Antonio, the Norwegian bark Two Brothers and the Norwegian bark Wayfarer have been driven ashore and wrecked in a gale at Alga Bay. Another vessel, Lillo, was dismasted at the same time.

FEVER VICTIMS TO BE POISONED

Authorities of Protera Adopt Sure Means to Check Dread Disease.

Central City, Ky., Nov. 14.—Letters received here from members of a little colony of Kentuckians who have been forced to take refuge in a canyon of the Manantios Mountains, in Mexico, to escape the scourge of yellow fever at Monterey, tell of the decision of the authorities of the neighboring village of Protera to poison every victim of the fever as soon as taken ill.

At the time the letters were written the number of deaths in the village had reached ten and the authorities had exhausted every other means known to them in the unsuccessful effort to check the disease.

The decision is said to have been accepted by the local authorities, and the practice is to be put into effect when the next case develops, although it has been decided to spare those now ill.

Obstruction Defeated.

The lower house of the Kentucky legislature bill an urgency measure was not adopted until 2 o'clock this morning, but its adoption is considered a victory over the obstructionists. The sitting was resumed at 10 o'clock, and the recruiting bill was debated until 2 o'clock in the afternoon.

A CLOSE SHAVE FOR SARAOFF

Throws Coat On Dead Man to Mislead Turks and Escapes.

Monastir, Nov. 13.—It was lately rumored that the notorious Saraff had been killed in a skirmish near the village of Bonfi. It now turns out that Saraff was really present at that place when the latter was killed.

As soon as Saraff saw Petroff fall, he threw his cloak and cap over the dead man, hoping in this way to mislead the Turks, and this it was which gave rise to the rumor of his death.

He escaped to Kaimak Chalan, where he convoked the local chiefs, and told them that the Bulgarians must be contented with the reforms proposed by Austria and Russia, though they fell far short of the hoped-for autonomy.

He advised the hands to return to their homes.

He tried to try and make his way to Sofia.

DIVED FROM CAR WINDOW

But Sheriff Dived Too and Got His Flap.

Wichita, Nov. 14.—Made desperate by a long sentence at the Lansing penitentiary staring him in the face, one of five prisoners in the custody of a sheriff and his deputy from Newkirk, jumped from Santa Fe train No. 46 shortly after it left Derby. The train was running at a fast rate of speed, but the man alighted all right and was on his feet and off on a run in a flash. The sheriff, who had the prisoner in charge, saw him when he jumped through a window of the car. He ran to the platform and, although the train was going still faster, he jumped, like his prisoner, the sheriff was in advance of the train and he landed on all fours, but quickly got to his feet and gave chase.

By that time the prisoner was far in advance of the sheriff and the train was rapidly leaving the two behind. The sheriff drew his gun and fired several shots at the man just to frighten him, seeing that that had no effect on him, he shot once to cripple him. It hit the prisoner in the thigh and he fell to the ground.

"Bobs" Is Better.

London, Nov. 14.—Lord Roberts, the British commander-in-chief, who is suffering from pneumonia, passed a good night and is making satisfactory progress towards recovery.

The Kisheneff Trials.

St. Petersburg, Nov. 14.—About 3,000 witnesses and 50 lawyers will appear at the trial, which opens Thursday next, of the persons arrested on the charge of participation in the massacre of Jews at Kisheneff in April last. All the mayors, marshals and nobles of Bessarabia will sit in judgment on the prisoners.

MONSTER FINANCIAL COUP

Rockefellers Trying to Get Penn. R. R. and U. S. Steel.

New York, Nov. 14.—The Rockefeller brothers are apparently trying to get control of both the Pennsylvania Railroad and the United States Steel Corporation. At least that is the way a large section of Wall street explains the recent mysterious slumps in the stocks of those corporations.

That the Rockefellers are engaged in large financial operations is proved by the fact that the National City Bank, which they control, have been the assamblers of gold into the country. It is said that it had arranged to bring in a total of over \$10,000,000. Over \$8,000,000 par value of the capital stock of the Pennsylvania Railroad has been sold in the open market since Monday, and the Rockefeller brothers are the largest purchasers. The total capital stock outstanding is \$28,864,400, in half shares.

KING VICTOR TO VISIT ENGLAND

Italy's Sovereigns Will Be Received With Big Ceremony.

AND ENTERTAINED AT WINDSOR

Likely That an Arbitration Treaty Between the Two Nations Will Be Promulgated.

London, Nov. 14.—King Victor Emmanuel and Queen Helena of Italy, who are to arrive in England, Nov. 17, will be received with great ceremony. At Portsmouth the home fleet will be assembled for a great naval demonstration. The Prince and Princess of Wales will meet them on board the royal yacht and will accompany the Italian King and Queen to Windsor, where King Edward and Queen Alexandra will greet them at the railroad station. At Windsor Castle special apartments, last occupied by Emperor William in 1890, have been prepared for the use of the royal visitors. State banquets and shooting in Windsor forest will compose the daily programme, except Nov. 19, when they will visit the streets of the Gullhall, where the Lord of the manor will give a luncheon to their majesties and a large escort of British troops, the King and Queen of Italy, in their progress through the metropolis, will be accompanied by a State of honor of Garibaldian veterans.

Signor Tittoni, the Italian foreign minister, who accompanies his sovereign to England, will, while here, confer with Foreign Secretary Lansdowne, especially in relation to the Italian-Algerian dispute, and it is likely to be another arbitration treaty, similar to the Anglo-French treaty, may result. If any influence at all is likely to be exerted on European relations, it is said that it will be adverse to Russia, as it is understood here that King Victor Emmanuel is very bitter against the Czar for canceling his visit to Rome. Queen Helena, however, has always been a keen friend of Russia.

THEY ARE KEEN FOR RECIPROCITY

Big Conference of Reciprocity League Begins at Chicago.

WANT HIGH COMMISSION AGAIN

And it is Likely That the Present Congress Will Be Urged to Take Action.

Detroit, Mich., Nov. 14.—The work which will be entered into by the reciprocity conference to be held today in Chicago by the National Reciprocity League, will be the first direct move on the part of the lake cities, to urge upon Congress the necessity for reconsidering of the joint high commission. The commission has been called at the suggestion of the Minnesota, Illinois Association and will be participated in by business men of national prominence.

A committee from the Detroit Board of Commerce, consisting of M. J. Murphy, M. J. O'Brien, and A. L. Shaw, will attend. Fred B. Smith, Michigan, the vice-president of the league, will be unable to attend. Mr. Smith is advocating the formation of an auxiliary league, to boost Canadian reciprocity alone. He said he believed it not impossible that the present Congress may be urged to act.

TO ELECTROCUTE RATS

Plan Invents Scheme Whereby Rodents Commit Suicide.

Springfield, Ohio, Nov. 12.—Michael Hornar, night watchman at a Findlay table factory, is the inventor of a unique mouse-trap. The factory has been overrun with the rodents and Mr. Hornar resolved to use electricity to get rid of them. A round piece of tin is connected with an electrode and a low candle, through which runs the other wire of the electric machine. When a rat standing on the tin touches the wire in the tallow he completes the circuit and is instantly killed.

Fire at Ruscomb.

Ruscomb, Ont., Nov. 14.—Fire broke out in the elevator owned by H. B. Knicker about 7:30 last evening. Building and contents were totally destroyed. Cause of the fire is unknown. A small insurance was carried.

REV. DR. JUDKINS IS IN THE TOILS

Must Go to Iowa to Answer Charge of Fraud.

WAS PREACHING IN ORILLIA

At Time of Arrest—Brilliant and Checkered Career of the Evangelist.

Orillia, Ont., Nov. 13.—Sheriff J. G. Shoemaker, of Marshalltown, Iowa, came to town last night and took away the Rev. A. J. Wheeler, alias Dr. A. Judkins, against whom an indictment is held at that place for obtaining money under false pretenses, and whose arrest here a week ago while conducting evangelistic services in the Methodist Church caused such a sensation. Sheriff Shoemaker reached town at 3 a.m. and left at 4 with his prisoner. His long delay in reaching here was explained by the fact that he paid a visit to Washington to secure extradition papers. The state department there interviewed him and issued a request to the local magistrate through United States Consul Wakefield, to hold the prisoner as long as might be necessary. Wheeler, however, offered no opposition, either to his detention here or to his returning with the sheriff.

About 1882 Wheeler accepted a call to the Center Street Second Advent Church, of Concord, He at once became very popular, and began the publication of a religious magazine, entitled the Christian Reporter, weekly. His Concord pastorate, begun with such brilliant promise, ended after three and one-half years, because of charges of improper conduct. The church conducted a hearing and dismissed him.

Wheeler's short career in Orillia will not soon be forgotten. Ever since his arrest it has been the principal topic of discussion, both in the town and for many miles round. At first Wheeler averred that his arrest was due to misreading identity, alleging that if there had been any wrongdoing it had been on the part of his nephew (probably a mythical individual) whose name was Wheeler, while his was really the Strand. But before leaving he admitted to Chief of Police Dwyer, to whom much credit is due for his conduct of the case, that he was the man that was wanted, though he stuck to his assertion that he would be able to clear himself.

Wheeler was indicted at the August, 1902, term of the district court of the State of Iowa, at Marshalltown, Marshall County, the indictment being dated Sept. 12, 1902. The indictment charges Wheeler with having obtained the sum of \$1,000 by false pretenses, dated Sept. 12, 1902. The indictment also charges that he had been in Iowa, on or about Feb. 27, 1902. The substance of the allegation is that Wheeler, with intent to defraud Carolin Strain gave her a check for \$1,000, all she possessed. Sheriff Shoemaker's papers showed that there were other cases of a similar nature against Wheeler.

RUSSIAN PLOT FOILED

Bulgaria Was to Have Surrendered Two of Her Ports.

London, Nov. 14.—The Sofia correspondent of the Times, says, that according to the strange revelations of the Journal Ottava, the late Zankovist ministry made a secret agreement with Russia to surrender the ports of Varna and Urgan on lease as Russian naval stations to the Black Sea. The agreement was made in 1902, and the plans were all arranged, but the scheme was upset by Prince Ferdinand calling the Russian ambassador to Stambuloff to power and by the recent elections which appear to have destroyed the influence of the Zankovist party for some years.

YELLOW FEVER RAVAGES

Total Deaths Up to Date in Texas Are About 100.

Laredo, Texas, Nov. 14.—The yellow fever situation shows no improvement. The official bulletin issued reports: New cases 31, deaths 3, total cases to date 811, total deaths 100. Yesterday's reports 15 cases and 7 deaths on Wednesday; Nuevo Laredo, which had had no new cases of yellow fever for four days, reported yesterday one death and two new cases. San Antonio, Tex., Nov. 14.—One new case of yellow fever, only two deaths from the disease have been reported to the health authorities. These make a total of 10 deaths and 21 cases here to this date.

GRAND TRUNK PACIFIC

Story of the Five-Million Deposit Not Corroborated.

Montreal, Nov. 13.—When an effort was made today to verify at the head offices of the Grand Trunk Railway a report that the company would on Monday next deposit \$5,000,000 with the Montreal Trust Co. for the construction of the eastern section of the Grand Trunk Pacific Railway, neither Mr. C. M. Hays, the general manager, nor those in touch with the matter were willing to say anything at all in connection therewith.

Digging His Own Grave.

Louisville, Ky., Nov. 14.—William Windell, a prominent farmer of Washington township, Ind., twenty-five miles northwest of New Albany, is engaged in the gruesome task of digging his own grave in Wesley Chapel Cemetery, near New Amsterdam. It is to be called with brick and overlaid with stone. Mr. Windell is not more than sixty years old, and is in excellent health. He expects to live many years, but he says he wants his last resting place arranged to suit him.

THE WESTERN UNIVERSITY DOING A VALUABLE WORK

Arts Department Should Be Upheld and Developed.

Letter From Principal Walter Settling Forth Its Claims.

To the Editor of The Advertiser:

In the recent address of Sir Norman Lockyer, president of the British Association, there are some passages which are of intense interest, not only to all loyal British subjects, but especially to Canadians. In dealing with the subject of international competition, he says:

"Our position as a nation, our success as merchants, are in peril—chiefly dealing with preventable causes—because of our lack of completely efficient universities, and our neglect of research. As far as our industries are concerned, the cause of our failure has been run to earth; it is fully recognized that to arise from the insufficiency of our universities both in numbers and efficiency, that not only our captains of industry, but those employed on a nation's work generally, do not secure a training similar to that afforded by other nations. In Germany, in America, in our own colony of Canada and in Australia, the higher education of the people has more support from the Government, is carried further than it is here in the old country, and the result is that in every profession, in every industry, you find the places taken by men and by women who have had a university education. And I would like to see the time in this country when no man should have a chance for any occupation of the better kind, either in our factories, our workshops, or our counting houses, who could not show proof that he had received the position that was offered to him. Our conception of a university is changed. University education is no longer regarded at the luxury of the rich which concerns only those who can afford to pay for it. In the United States, during the last few years, universities and colleges have received more than \$40,000,000. Of this private effort supplied nearly \$7,000,000. To complete an equal ground with other nations we must have more universities. But this is not all—we want a far better endowment of all the existing ones, not forgetting better opportunities for research on the part of both professors and students. At present there are almost as many professors and instructors in the universities and colleges of the United States as there are day-students in the universities and colleges of the United Kingdom."

Now, sir, in the face of this will any one venture to say that the neglect of many universities in Canada, when we consider that our territory is larger than that of the United States and her universities so far apart? Yet it seems there are not only a large number of persons in London and its vicinity who do not even know there is a university in their midst, but there is a certain proportion who think there should not be one. The Western University is too often regarded

as a purely denominational institution.

The senate is composed of members of the Church of England, but there is no sort of attempt to interfere with the liberty of conscience of the students and the majority of these are not members of the Church of England. It is not generally known that Huron College and the Western University are entirely separate institutions under separate management, administered on somewhat different principles. Huron College is a strictly evangelical college for preparing men for the ministry of the Church of England. The Western University was founded and partly endowed with funds subscribed chiefly by Anglicans. But as the institution is one of undoubted benefit to the whole community and numbers Methodists, Presbyterians, Baptists, and Roman Catholics among her graduates and undergraduates, it would be a direct loss to the whole community should she be compelled to close her doors for want of support.

It is probably not known that the increase in fees alone from students attending the university have grown under the able management of the present, Dr. James, from some \$800 a year to \$1,500 in the last three years. The growth in numbers is greater than any Canadian university can show in a similar period of nine years from its inception. Her graduates from the medical school are found to take very high places in Toronto examinations. Last summer a graduate of the medical school passed all three of the Ontario medical council examinations at one sitting, and at the first attempt a few years before accomplished by anyone. The training which the students in art receive is thorough and the results compare most favorably with the attainments of men from other universities. I therefore appeal to you, sir, to throw the influence of your valuable journal into upholding and developing the arts department of the Western University as an institution of the highest importance, both to the local community and the citizens generally of Western Ontario.

I am, Sir, Your Obedient Servant,

C. CAMERON WALLER.

THE WEATHER TODAY—Fine weather.

This Store is the Good Friend of All the People.

This store is a wonderful force in this community for economical, reasonable prices on honest merchandise. It fights for the wage-earners' interests as well as for the interests of the well-to-do, who become more well-to-do through level-headed economy. There are few who reap the benefits of this store's powerful influence who realize the tremendous amount of thought, of concentration of energy, of far-sighted planning, of almost incessant toil, that is necessary to gather from the ends of the earth this widely diversified stock of merchandise that is so necessary to the comfort and happiness of the people of this city.

Truthful Advertising

The campaign of education carried on every day in this satisfactory store's truthful advertising achieves the worthy and looked-for result of causing many to come here to buy, and to buy here is to save money. We are so sure of our merchandise being the best and our prices as low or lower than elsewhere that we stand ready to give your money back if the purchase is not entirely satisfactory when you get it home. You can see that a child can shop here with confidence.

Some of This Store's Characteristics:

The only store in Western Ontario closing every night at 6. We consider the feelings of our employees.

It sells for cash and cash only. There is one price to all alike.

It pays back the cash for goods that don't suit.

It gives a liberal summer vacation on full pay to its employees.

Eight legal holidays in each year are observed in full by this store—employees on full pay.

It delivers goods within a radius of 200 miles from London—no charge for delivery.

Every yard of goods taken into stock must have merit.

You can telephone us (655) or write for anything and have it delivered C. O. D.

When a sale is advertised it is a sale indeed.

Truly this store is the good friend of all the people.

AGENTS WANTED

THE GRAND.
Tonight....."The Burglar."
Monday....."A Prince of Tatters."
Saturday....."Captain Charlie."
THE LONDON.
All next week.....Rowland
& Young's Comedy Company.

As a general thing the calm before the storm is the calm which finds favor by writers in need of a parallel, but the calm which is about to be referred to is not the calm before, but the calm after, the storm of the past few weeks—that is, of course, the theatrical storm.

Until two weeks ago, London theater-goers found it scarcely possible to keep up with the rush of first-class attractions—sometimes, say, a week—and in the rush, many good things were passed over. People said to themselves that one or two good shows a week was a fair average, and that the few first-class attractions, as a result, were turned down. But when the people fixed their eyes on the London stage, they were not aware that they were perhaps passing up rather easily some of the best productions and finest actors and actresses that it would be possible to see the entire season.

Now this fact is beginning to dawn upon the theater-going public of London. Plays are very scarce in this city nowadays, and good plays are scarce still. The class of attractions has run away down, and melodrama and ordinary productions now hold sway.

Of course to blame attaches to the management of the house or to Mr. A. J. Small, because Mr. Small was forced to send the good shows away, when he could get them, and had it not been for the fact that A. J. Small controls houses in Toronto, Ottawa, Quebec, Brockville and other places, some of the fine attractions seen here this season would have been disposed to give London the go-by for some time yet. But in order to place Mr. Small's houses in Toronto and Ottawa, these companies were compelled to play in London.

London, of course, ranks high as a theatrical town, but it is quite a jump from Toronto here, and most stars, Mrs. Fiske for example, do not take kindly to one-night stands. Theatrical men will tell you that as a rule London patronizes a first-class attraction better than Hamilton does, but Hamilton has some advantage over London in obtaining first-class attractions by reason of its proximity to Toronto and Buffalo.

Later on in the season there are some excellent productions looked for London, and no doubt by the time they arrive, Londoners' appetites will have been properly whetted for something good, and they will receive the patronage they are entitled to.

Next week there are two attractions booked for the Grand, both of which should prove drawing cards. On Monday night Mr. Al. H. Wilson will present Sidney R. Ellis' new play, "A Prince of Tatters," a romantic production which is said to be very good. This is Mr. Wilson's fourth year as a star, and that he is making good his successes prove.

Saturday night next another new play comes to the Grand, when S. S. & Lee Shubert will present William A. Brady's production of "Captain Charlie," with Mr. Aubrey Boucault in the stellar role.

Mr. Boucault comes by his dramatic ability in a natural manner, being son of the late Don Boucault, who was an artist of world-wide fame, and beside a playwright who bore the distinction of having produced the colossal number of 49 plays. His mother, Agnes Robertson, was the idol of the older generation of playgoers. The action of the play is set during the period of the romantic wars, between 1785 and 1800. The scenes are first laid in Ireland and afterwards switch to Barcelona, Spain, during the Peninsular war. The author's inspiration was taken from Charles Lever's celebrated classic "Charles O'Malley."

Sousa's opera, "El Capitán," was put on by the Jules Grau Opera Company at the Grand last night. The piece has been produced in London many times, but despite this, it was quite a large audience that greeted the production last night.

The company is fairly strong, with several really good voices, and the couple of dozen dainty chorus girls sing very well. The costumes were exceedingly tasty and natty, and the production as a whole was pleasing. Mr. Human West, the viceroy, who gets into the neck of trouble apportioned him, was equal to the part, and took just about as much humor out of it as it is possible to extract. As Pozzo Mr. John Henderson acquitted himself cleverly, as did also Mr. Albert Wilder as Scaramba, the Sergeant.

Mr. Joseph W. Smith has a tenor

GROWING LENGTHWISE

You want the children to grow, but not all lengthwise. When they start that way Scott's Emulsion will help them to grow right—with due plumpness and outward proportion, and with inward vigor and good spirits.

The Emulsion increases digestive power and strengthens the vital organs to get the best and make the most out of all the other food. It gives a kind of help that every growing child ought to have.

voice of much sweetness, and his several numbers were much appreciated by the audience. The vocal talent of the female soloists was not very marked, but they were not poor by any means. Miss Ethel Balch, as Estrella, has a rather sweet voice, but it lacks power. As usual, "The Topical Tune of Zanzibar" made a hit with the audience, and the trio who rendered it were accorded several encores.

"The Silver Slipper," which has proved a worthy success at "The Grand," which is by the same authors, will shortly be seen in this city.

At the London Opera House next week the Rowland & Young Comedy Company will hold the boards, and at popular prices the company should be well patronized. In the various places they have played they have made many friends, and no doubt their engagement at the London will prove a profitable one.

James O'Donnell Bennett, the well-known dramatic critic of the Chicago Record-Herald, in the following article tells of the interruptions of players by careless audiences, and the article may be read to advantage by a certain class of theater-goers of London.

A playgoer in an eastern city writes: "I forgot to tell you in writing the other day about Mr. Robertson's and Miss Elliott's performance in 'The Light That Failed' after the audience actually laughed at poor, blind Dick Helder, when he had difficulty in finding his way about the room. Can you believe it?"

In the light of many a painful precedent, both remote and recent, we can only say that such behavior is not only impertinent, but also a disgrace to the theater-going public.

Sometimes it seems as if some tiny imp personifying childish naughtiness took possession of otherwise well-behaved people when they assemble at the theater.

London, of course, ranks high as a theatrical town, but it is quite a jump from Toronto here, and most stars, Mrs. Fiske for example, do not take kindly to one-night stands. Theatrical men will tell you that as a rule London patronizes a first-class attraction better than Hamilton does, but Hamilton has some advantage over London in obtaining first-class attractions by reason of its proximity to Toronto and Buffalo.

Later on in the season there are some excellent productions looked for London, and no doubt by the time they arrive, Londoners' appetites will have been properly whetted for something good, and they will receive the patronage they are entitled to.

Next week there are two attractions booked for the Grand, both of which should prove drawing cards. On Monday night Mr. Al. H. Wilson will present Sidney R. Ellis' new play, "A Prince of Tatters," a romantic production which is said to be very good. This is Mr. Wilson's fourth year as a star, and that he is making good his successes prove.

Saturday night next another new play comes to the Grand, when S. S. & Lee Shubert will present William A. Brady's production of "Captain Charlie," with Mr. Aubrey Boucault in the stellar role.

Mr. Boucault comes by his dramatic ability in a natural manner, being son of the late Don Boucault, who was an artist of world-wide fame, and beside a playwright who bore the distinction of having produced the colossal number of 49 plays. His mother, Agnes Robertson, was the idol of the older generation of playgoers. The action of the play is set during the period of the romantic wars, between 1785 and 1800. The scenes are first laid in Ireland and afterwards switch to Barcelona, Spain, during the Peninsular war. The author's inspiration was taken from Charles Lever's celebrated classic "Charles O'Malley."

Sousa's opera, "El Capitán," was put on by the Jules Grau Opera Company at the Grand last night. The piece has been produced in London many times, but despite this, it was quite a large audience that greeted the production last night.

The company is fairly strong, with several really good voices, and the couple of dozen dainty chorus girls sing very well. The costumes were exceedingly tasty and natty, and the production as a whole was pleasing. Mr. Human West, the viceroy, who gets into the neck of trouble apportioned him, was equal to the part, and took just about as much humor out of it as it is possible to extract. As Pozzo Mr. John Henderson acquitted himself cleverly, as did also Mr. Albert Wilder as Scaramba, the Sergeant.

Mr. Joseph W. Smith has a tenor

GROWING LENGTHWISE

You want the children to grow, but not all lengthwise. When they start that way Scott's Emulsion will help them to grow right—with due plumpness and outward proportion, and with inward vigor and good spirits.

The Emulsion increases digestive power and strengthens the vital organs to get the best and make the most out of all the other food. It gives a kind of help that every growing child ought to have.

in "Fools of Nature" there occurs the line, "Why did you marry her? Why didn't you marry me?" It is uttered by Lord Braconer to the man who is cursed with an impossible wife from whom he had separated six years ago. The woman's question is, "Will straight from her suffering heart. It means much. It is the blundering and poignant utterance of deep agony. It carries any hint of humor it is the kind of humor that is relished by people who regard the column of divorce proceedings in their newspapers as rather comic reading instead of human tragedies in little. Miss Marlowe—whose artistry is always perfectly poised—spoke the line beautifully, giving it great tragic value.

But the audience of presumably discriminating first-nighters at Powers' heard the line with a different tone. They were hearing a rude story over their glasses could not have been more tickled.

How do you account for that? Is it ignorance, or just heedlessness, or overwrought feelings seeking relief in laughter when tears are dangerously near the surface?

Whatever the cause, you could see the actress fairly shudder when the ill-timed laughter came to her ears. She knew that that particular portion of the scene had been ruined.

Worse and more of it was of nightly occurrence during Mrs. Bloood's engagement at Powers' last month. In the scene that follows that superb third act of "The Girl With the Green Eyes" the curtain lifts on the suffering, bewildered wife sitting alone. All night she has been wrestling with her trouble, and she can find no way out of it save death.

"What a night!" In a rear seat at a performance of this play sat a man who looked like a well-bred human being. Promptly this line was spoken:

"A Clean Slate," the new comedy which was seen here a short time ago, has made some friends in New York, but as a rule it is the cast that saves the play. The New York Post, for example, says:

"A Clean Slate," at the Madison Square Theater, has been lucky enough to get a much more respectful reception than it deserves, the excellence of the acting diverting attention from the rickety structure and the clumsy plot of the play. One would have thought that such ancient expedients as the comic fit, the gooseberry wine joke, the blarney idiot, and the old-fashioned pre-amble drama, and all the rest of them, would have excited weary protest, but they seem to have been accepted as genuine comedy. The only moral is that clever performers can cover up a multitude of sins in a play. It is always a pleasure to watch and to listen to Miss Millward, and on this occasion she is supported by a competent company. Mr. J. H. Gilson, who is her leading man, looks in the modern admirer in muffled vest, but might endow him advantageously with a little more robustness of character and a more hearty manner. Even the admirers are careful to betray no traces of their domestic subjection when on parade. But Mr. Gilson's reversion to questions which I touched on earlier, and which are, really, for many readers, the central points of interest in any discussion of the new British jangle across the seas, namely: Is it worth while to emigrate to Canada? If so, where to? To emigrate? And where should they go? Bearing on these questions I notice some paragraphs in the last issue of the Sheffield Weekly Independent in July to South Yorkshire correspondent, the effect of which is that certain miners went out from the Rotherham district in July to British Columbia, 19 to 28 shillings per month being offered to them, and they have now gone into the States, dissatisfied. One of them writes home that he had to sleep on hard boards for five days in the train, then had to sleep out for four nights, and to beg for a bit of bread from door to door. Our correspondent suggests that the Department of Emigration for Canada ought to take steps to prevent men being inveigled into the country and left to starve there.

Our correspondent must forgive me for saying that his comments are not only misplaced, but also, to point an altogether wrong moral. In my travels I saw a great deal of the work of the department, and I can assure you that it was good. It is obviously of the greatest importance to the Canadian authorities that people who emigrate should be wisely chosen, properly conveyed to a suitable destination, and be set to work in such a manner as to leave them contented and hopeful; otherwise the development of the country will be retarded, and dissatisfaction will cause Canada to get a bad name. But the difficulty is not to get people to emigrate, but to get them to stay. The Department of Emigration cannot make itself responsible for the guardianship of everybody who will hastily rush out to the country. It offers full information, but if men do not take that information, and elude its vigilance, it is not to blame, and Canada is not to blame.

Over and over again I have felt something like despair on realizing how blindly men will rush away four or five thousand miles into a strange land with no money in their pockets, and no information in their heads, and then will say because things are as they are, and will say they have been deceived. Look at these statements by our South Yorkshire correspondent:

THEY CAPTURED LAYBORN TROPHY TWO YEARS IN SUCCESSION

John Derry, one of the correspondents who recently made a tour of Canada in the interests of British journals, writes as follows in the Sheffield, England, Independent:

Perhaps before I continue the narrative of my travels in Canada, following the journey homeward, it would be well to revert to questions which I touched on earlier, and which are, really, for many readers, the central points of interest in any discussion of the new British jangle across the seas, namely: Is it worth while to emigrate to Canada? It offers full information, but if men do not take that information, and elude its vigilance, it is not to blame, and Canada is not to blame.

Could there be a sorer commentary on the dramatic tastes of our public than the fact—proved over and over again—that such rude trifles will make more than half the people in a standard theater laugh uproariously?

And the coughers! At Miss Adams' performance of "The Pretty Sister of Jose" last Tuesday night it was no inappreciated pneumonia that caused the coughing, but just very young, childish restlessness. That was proved by the fact that when the play struck over the eight feet away, they were interested in the dialogue the noise stopped instantly.

There is this to be said, however, in excuse for much of the restlessness at Miss Adams' and Miss Marlowe's performances. The entracte waits to these ladies subject their following are intolerable—15 and 20 minutes. There is no excuse for it. The artists pay the penalty. The spectators grow tired and fussy and are put out of conceit with themselves and the play.

A theater, little as some people seem to realize the fact, is built to hear in. A whisper carries far. If the conversationalists would remember that they might restrain themselves a bit more. During a performance of "Hearts Courageous" a man and a woman carried on an animated discussion as to whether the French revolution occurred before or after the American revolution. They whispered, but you could hear them eight feet away. They were quite resentful when they got the deadly feminine glare from three points of the compass simultaneously.

Of Patti's re-appearance in New York recently, the Herald says: "A lady's age should be a subject by rule tabooed, yet more than one old timer found himself casting the years which have gone since she first sang in New York, and saying 'Wonderful, she doesn't look any older now.' There is no need in the present year of grace to tell just how Mrs. Patti sings. Those who have ever heard her remember a certain fluid birdlike tone quality, a style elegantly finished, a manner charming, and all these attributes of the great singer are still hers. To say that she still retains all the splendors of her prime would be untrue; but it is safe to assert that fully 80 per cent of her powers are still at her command. Perhaps she has lost somewhat of her marvelous facility in floriture—it is always the details of technique which are most difficult to retain—but in the florid passage work of 'O Luco,' from 'Linda de Chamonix' and that of the Ardui 'Linda de Chamonix' she exhibits an old-fashioned virtuoso manner, her charming tricks of finish, and in pianissimo passages was resourceful as ever."

The play is calculated to stir up the emotions.

Queer Doings of a Rifle Ball. I myself made the most extraordinary shot at an antelope that I ever heard of, which, however, has nothing to do with good shooting, but rather with the erratic course that a rifle ball may take. With several scouts, white men and Indians, I rode over a hill, to see three or four buck antelopes spring to their feet, run a short distance, and then stop to look. I made a quick shot at once, which dropped, and on going to him I found him not dead, though desperately wounded. The animal had been standing broadside on, his face toward my left. The ball had struck the left elbow, splintering the olecranon, passed through the brisket, broken the right humerus, turned at right angles and gone back, cutting several ribs, broken the right femur, then turned again at right angles and came out through the inside of the leg, and struck the left leg joint, which was dislocated and twisted off, so that it hung by a very narrow string of life. I never again expect to see so extraordinary a course for a rifle ball—Outing.

THE HOPS ARE POPULAR.

The Dayton & McCormick hops seem to increase in popularity. Last night 150 young people visited the Palace Academy and danced to the pleasing music of the Academy Orchestra in such good condition was the new floor that the crowd was not any too large, and a half-hour was given after the closing hour of midnight.

SCOTTISH SUPPER AND CONCERT.

The Scottish supper and concert, which is being arranged under the auspices of the Ladies Aid and Whatsoever Circle of the First Congregational Church, to be held on Nov. 28, promises to be an enjoyable gathering. The programme is almost completed, and among those expected to assist are: Mrs. Wheeler, Mrs. Munro, Mr. Thompson, Mr. Alexander and Miss Anthistie, and Mrs. J. J. Pettipiece, M. P., who will speak.

WAS KNOWN IN LONDON.

Mr. Lawrence Kelly, a coachman for United States Senator Russell A. Alger, was killed at Cumberland, Ind., the other day, while taking the senator's horses to Washington. He was a resident of Detroit, and the funeral was held there yesterday under the auspices of the C. M. B. A. and Knights of Equity. Mr. Kelly leaves a widow, who resides at 47 Baker street, Detroit, and who is well known in London, having lived here for some years. Mr. John Gardiner, of Dundas street, this city, is a brother of Mrs. Kelly and Mrs. Robt. Hogg and Miss Fanny Gardiner, of Detroit, are sisters. Mr. and Mrs. Kelly had been married but a short time.

PROGRAMME PREPARED.

The Ministerial Alliance has its programme ready for the winter. The list of papers that will be read at the monthly meetings is as follows: November, "Sunday School Methods," Principal F. W. LECTURE AT AUDITORIUM.

Prof. Alexander addressed a large audience again last night at the Auditorium. His subject was "Who Are Our Benefactors?" which he made most interesting. A man, he said, could make his home so pleasant that his children would love to stay there. These were all benefactors, showing the heads of Spencer, Huxley, Darwin, and Mill, as the types of the highest development, the lecturer pointed out that this development was the misunderstood that caused so many troubles. Prof. Alexander will continue his very entertaining and instructive lectures next week. Tonight he will speak on "How to Read Character by Temperament."

Bell Company, However, Wants
to Raise Rates \$5.

Ald. Campbell's Scheme for Civic
Officials Goes to Council.

It was expected that the Canadian Telegraph and Telephone Company would have their application for a franchise come up before No. 1 committee at its meeting yesterday afternoon, but such was not the case. The matter came up incidentally, however, and Chairman Judd made some important statements regarding telephone matters in this city.

The Bell Telephone Company, it appears, are ready to make a new agreement with the city and pay \$2,000 to the city annually for an exclusive franchise, providing the company are permitted to raise their rates \$5 a month. The agreement is to extend over a period of five years.

Ald. Judd added the information that this proposal was made some time ago and that the company has stated that agreement or no agreement they were going to increase their rates \$5 on each instrument beginning on January 1, next.

As the application from the new company is expected to be received any day the committee decided to allow the matter to rest for awhile.

DISEASE IN THE TICKETS

M. H. O. to Begin Campaign
Against Local Bakers.

Will Compel Them to Adopt Regulations of the Board of Health.

It would appear from the experience of the board of health that it is one thing to make a law and quite another thing to have it observed.

On the 6th of October, 1902, the board enacted a law which made it an offense for bakers and milk dealers to use any other than metal checks for tickets, or coupon books, no paper ticket to be used more than once.

The reason for the passing of the law was the fact that the old ticket system was the cause of the spread of disease in a large number of instances, tickets going the rounds of the houses from month to month, and it might be from year to year, becoming impregnated with disease, and actually greasy and filthy.

The milk dealers of the city, it is said, adopted the rules of the board of health far more readily than the bakers of London, the latter for the most part using the old-fashioned greasy bread tickets.

Medical Health Officer Hutchinson is of the opinion that the matter has gone far enough, and it is likely a vigorous campaign will at once be inaugurated to compel all bakers to use the metal check and coupon book ticket system, in accordance with the board of health regulations.

Certain members of the board of health, as well as many of the physicians of London, believe that the recent spread of diphtheria and scarlet fever in this city was aided and abetted by the old-fashioned tickets used by the bakers and many of the milk dealers, and the campaign to do away with the ticket system, in accordance with the board of health regulations.
