FASHIONABLE TAILORING,

Cutting will receive my
personal attention.

M. J. KEHOE.

VOL. IX. NO. 50.

Athens, Leeds County, Ontario, Tuesday, January 9, 1894.

GEO. G. HUTCHESON & CO.

WINTER UNDERWEAR

We are at last commencing to have weather more like winter and to feel the need of heavier clothing. We are well prepared for the demand, and have the fullest stock of Men's and Women's Underwear in Brockville. We have two special lines—a line of German Underwear, the special characteristic of which is its extreme softness, soft as down, will not scratch, and almost unshrinkable. Another is a line of Canadian Underwear, better than any Scotch goods imported, all wool, yet almost impossible to shrink them. These are two lines that sell whenever shown. We have them in Men's, Women's and Children's. We keep Men's heavy Undershirts from 25c up, and Women's vests from 25c up.

RETAIL SALE OF LIQUOR.

The Ottawa Journal Criticizes Dr.
Bourinot's Views.

WANT NO PARTIAL PROHIBITION

It is Clearly the Course of the Legisla-
ture to Await the Decision as to
Jurisdiction—What the Peo-
ple of the Province
Voted For.

OTTAWA, Jan. 8.—The Journal has a leading article dealing with Dr. Bourinot's views on the course which Sir Oliver should pursue in regard to prohibition.

It says: "Dr. Bourinot expresses the opinion that the Ontario Government is, in view of the prohibition vote of the province, bound to introduce a law prohibiting the retail sale of liquor. We think that Dr. Bourinot is entirely mistaken. The people of this province voted in favor of complete, not partial, prohibition.

"Sir Oliver Mowat cannot prohibit the manufacture and importation of liquors; at best he can but stop the sale in the shops and saloons. We don't think that the people of this province voted for prohibition in order that wine and liquor should be reserved for the use of the well-to-do, who may keep a stock in their homes, nor do we think the people voted for prohibition with a view of repeating the failure of the Scott Act, caused by the fact that often the district was attempting to stop the use of liquor while an adjoining district was encouraging it. We think the people voted that they are prepared for a complete prohibitive Dominion law extending from Atlantic to Pacific—nothing less."

Corrected Plebiscite Returns.

TORONTO, Jan. 8.—Complete corrected returns of the plebiscite in nine counties of the province are as follows:

Brant (incl'd'g Brantford) 10,000 for

THE STORY OF THE FIGHT.

The Massacre of the British by the French Was An Awful Blender.

LONDON, Jan. 8.—Col. A. B. Ellis, of the West Indian regiment, has telegraphed to the Right Hon. H. Campbell-Bannerman, Secretary of State for War, the despatch being dated Warina, Dec. 23, as follows:—

"Before daybreak this morning our camp was suddenly attacked by a strong force of natives, several of whom were armed with rifles. For forty minutes there was a hot fire. The enemy used trees for cover. The killed of the West India regiment are:—Lieut. Liston, Second Lieut. Wroughton, Sergt. Carraber and four privates. The killed of the constabulary were:—Capt. Lundy and two privates. The severely wounded were:—Sergt. Field and fourteen privates of the regiment and three privates of the constabulary."

"The fire slackening, we advanced and found seven magazine rifles and eight Chassepots. Shortly after a wounded prisoner reported that we had been attacked by Lieut. Moritz, of the French army, 32 Senegalese sharpshooters and 1,200 Kisi natives. The prisoner stated that Lieut. Moritz had left Farana with this force against the Sofas at the end of September and had arrived on December 21 at Tenbikundu, 50 miles north east of Warina. Lieut. Moritz, hearing that there was war in the Connoh district, believed it was being carried on by the Sofas under Porokerri, a Sofa chief, who was trying to escape from the British troops and join the Sultan Samundu. Lieut. Moritz left on the morning of December 21st and halted on December 23, fifteen miles north east of our camp. He left this point at midnight under a full moon and attacked us, believing us to be Sofas."

"I wrote to Lieut. Moritz explaining the situation. A letter had been previously sent on December 19 to the commanding French officer at Kisi in Santhars, giving notice of the approach of the British."

"At 11 o'clock Lieut. Moritz was found severely wounded. Despite all medical attendance he died at noon. Before his death he said that natives had told him we were Sofas and that he had no idea of our strength."

her about like a cloud and moving with her...

movement—a tempest whirl of spray. The...

excitement on shore became wild. Men...

shouted themselves hoarse; women laughed...

and cried; all marveled at the madness of...

the captain. The captain knew the Star...

was running a race with death. "She'll...

win it," he muttered. "She'll stand it.

Perhaps they'll have need of me tonight."

She won. The brave little vessel rode at...

THE GRIPPE EPIDEMIC.

A SOURCE MORE TO BE DREADED THAN CHOLERA.

Medical Science Powerless to Prevent its Spread—It is Again Sweeping Over Canada With Great Severity—How its Evil Effects Can Best be Counteracted—Only Prompt Measures Can Ensure Safety.

It is stated on high medical authority that an epidemic of la grippe is more to be feared than an outbreak of cholera. The latter disease can be controlled, and where sanitary precautions are observed the danger can be reduced to the minimum. But not so with la grippe. Medical science has not yet fathomed its mysterious, and is powerless to prevent its spread. Three years ago an epidemic of la grippe swept over this country, leaving death and shattered constitutions in its wake, and now once more it has appeared in epidemic form; not so severe, perhaps, as on the former occasion, but with sufficient violence to cause grave alarm, and to warn the prudent to take prompt measures to resist its inroads.

When, a few months ago, it was announced that cholera had broken out in Grimby, one of England's important seaports, it was feared that it would reach this continent, yet this once dreaded scourge was checked and exterminated with a loss of not more than half a dozen lives. That la grippe is more to be dreaded than cholera is shown by the fact that in London last week upwards of an hundred deaths were due to this trouble, and medical science is powerless to prevent its spread, and can do nothing more than relieve those stricken with the disease. At the present moment thousands of Canadians are suffering from la grippe and the misery it has caused would be difficult to estimate. Even when the immediate symptoms of the disease disappear it too frequently leaves even the most robust constitution shattered. The after effects of la grippe are perhaps more dangerous than the disease itself, and assume many forms, such as extreme nervousness, distressing headaches, pains in the back, loss of appetite, depression of spirits, shortness of breath on slight exertion, swelling of the limbs, an indisposition to exertion, a feeling of constant tiredness, partial paralysis and other distressing symptoms.

feeling better than I have done before in years.

Mr. W. A. Marshall, principal of the Clementsport, N. S. Academy, says:

"I had a bad attack of la grippe which...

left me weak, nervous, and badly used up.

I suffered almost continually with terrible headaches, backache and pains through the body.

I tried many remedies without receiving any benefit until I began the use of Dr. Williams' Pink Pills and the use of seven boxes has made me feel like a new man, as I am now as strong as I was before my sickness. I can heartily recommend them to others so afflicted.

Mr. B. Crouter, Warkworth, Ont., brother of Rev. Darius Crouter, who some years ago represented East Northumberland in the House of Commons, says:

"Two years ago I had an attack of la grippe which nearly cost me my life. My legs and feet were continually cold and cramped, and I could get little or no sleep at night, and you can understand what a burden life was to me. One day I read of a remarkable cure by the use of Dr. Williams' Pink Pills, and I made up my mind to give them a trial. When I began using the Pink Pills there was such a numbness in my feet that I could not feel the floor when I stepped on it. As I continued the use of the pills this disappeared; the feeling returned to my limbs, the cramps left me, I felt as though new blood were coursing through my veins, and I can now go to bed and sleep soundly all night. When I get up in the morning instead of feeling tired and depressed, I feel thoroughly refreshed, and all this wonderful change is due to Dr. Williams' Pink Pills. I believe Pink Pills have no equal for building up the blood, and I strongly recommend them to all sufferers, or to any who wish to fortify the system against disease.

Scores of other equally strong recommendations might be quoted, but the above will suffice to prove the undoubted efficacy of Dr. Williams' Pink Pills in removing all the evil effects of la grippe or influenza, and those who have in any degree suffered from this dangerous malady should lose no time in fortifying the system by the judicious use of Pink Pills. They are the only remedy that strike at the root of the trouble and thoroughly eradicate its bad effects. Ask for Dr. Williams' Pink Pills and do not be persuaded to try something else. Sold by all dealers or sent by mail, post paid, on receipt of 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co.,

THE DANCE OF DEATH.

A Reminiscence of the Hurricane on Long Island in 1856.

The recent devastation by storm along the Mississippi and the Gulf coast is a terrible reminder of that stupendous storm of Aug. 10, 1856, when so many lives were lost and so many southern homes made desolate. Lost Island was a favorite summer resort and was crowded with people of wealth and fashion. The storm had increased in fury day by day, but still the gay throng heeded not. At the end a ball was in progress, and after that came death. The story of that awful night is thus graphically pictured by Lafcadio Heave in "Chita—A Memory of Lost Island."

The steamer Star was due from St. Mary's that fearful morning. Could she come? No one really believed it—no one. And nevertheless men struggled to the roaring beach to look for her, besting hope is stronger than reason. Perhaps it was such a feeling that forced men on the 10th day of August, 1856, to hope against hope for the coming of the Star and to strain their eyes toward faroff Terrebonne.

"Great God!" shrieked a voice above the shouting storm. "She is coming!" It was true. On she came, swaying, rocking, plunging, with a great whiteness wrapping her about like a cloud and moving with her movement—a tempest whirl of spray. The excitement on shore became wild. Men shouted themselves hoarse; women laughed and cried; all marveled at the madness of the captain. The captain knew the Star was running a race with death. "She'll win it," he muttered. "She'll stand it. Perhaps they'll have need of me tonight."

She won. The brave little vessel rode at last into the bayou. And still the wind increased its paroxysmal power. Cottages began to rock. Some slid away from the solid props. A chimney tumbled. Shutters were wrenched off, verandas demolished. Light roofs lifted, dropped again and flapped into ruin. And still the storm grew louder and blacker with every passing hour.

The Star rose with the rising of the waters, dragging her anchor. Then one of her hog chains parted, then another. Then

paid him the \$4 apiece and went our way,
but in the course of half an hour something

THE DANCE OF DEATH.

A Reminiscence of the Hurricane on Long Island in 1856.

The recent devastation by storm along the Mississippi and the Gulf coast is a terrible reminder of that stupendous storm of Aug. 10, 1856, when so many lives were lost and so many southern homes made desolate. Long Island was a favorite summer resort and was crowded with people of wealth and fashion. The storm had increased in fury day by day, but still the gay throng heeded not. At the end a ball was in progress, and after that came death. The story of that awful night is thus graphically pictured by Lafcadio Hearn in "Chita—A Memory of Long Island."

The steamer Star was due from St. Mary's that fearful morning. Could she come? No one really believed it—no one. And nevertheless men struggled to the roaring beach to look for her, because hope is stronger than reason. Perhaps it was such a feeling that forced men on the 10th day of August, 1856, to hope against hope for the coming of the Star and to strain their eyes toward faroff Terrebonne.

"Great God!" shrieked a voice above the shouting storm. "She is coming!" It was true. On she came, swaying, rocking, plunging, with a great whiteness wrapping her about like a cloud and moving with her moving—a tempest whirl of spray. The excitement on shore became wild. Men shouted themselves hoarse; women laughed and cried; all marveled at the madness of the captain. The captain knew the Star was running a race with death. "She'll win it," he muttered. "She'll stand it. Perhaps they'll have need of me tonight." She won. The brave little vessel rode at last into the bayou. And still the wind increased its paroxysmal power. Cottages began to rock. Some slid away from the solid prope. A chimney tumbled. Shutters were wrenched off, verandas demolished. Light roofs lifted, dropped again and flapped into ruin. And still the storm grew louder and blacker with every passing hour.

The Star rose with the rising of the waters, dragging her anchor. Then one of her hog chains parted, then another. Then

THE GRIPPE EPIDEMIC.

A SCOURGE MORE TO BE DREADED THAN CHOLERA.

Medical Science Powerless to Prevent its Spread—It is Again Sweeping Over Canada With Great Severity—How its Evil Effects Can Best be Counteracted—Only Prompt Measures Can Ensure Safety.

It is stated on high medical authority that an epidemic of la grippe is more to be feared than an outbreak of cholera. The latter disease can be controlled, and where sanitary precautions are observed the danger can be reduced to the minimum. But not so with la grippe. Medical science has not yet fathomed its mysteries, and is powerless to prevent its spread. Three years ago an epidemic of la grippe swept over this country, leaving death and shattered constitutions in its wake, and now once more it has appeared in epidemic form; not so severe, perhaps, as on the former occasion, but with sufficient violence to cause grave alarm, and to warn the prudent to take prompt measures to resist its inroads.

When, a few months ago, it was announced that cholera had broken out in Grimsby, one of England's important seaports, it was feared that it would reach this continent, yet this once dreaded scourge was checked and exterminated with a loss of not more than half a dozen lives. That la grippe is more to be dreaded than cholera is shown by the fact that in London last week upwards of an hundred deaths were due to this trouble, and medical science is powerless to prevent its spread, and can do nothing more than relieve those stricken with the disease. At the present moment thousands of Canadians are suffering from la grippe and the misery it has caused would be difficult to estimate. Even when the immediate symptoms of the disease disappear it too frequently leaves even the most robust constitution shattered. The after effects of la grippe are perhaps more dangerous than the disease itself, and assume many forms, such as extreme nervousness, distressing headaches, pain in the back, loss of appetite, depression of spirits, shortness of breath on slight exertion, swelling of the limbs, an indisposition to exertion, a feeling of constant tiredness, partial paralysis and other distressing symptoms.

feeling better than I have done before in years.

Mr. W. A. Marshall, principal of the Clarendonport, N. S. Academy, says: "I had a bad attack of la grippe which left me weak, nervous and badly used up. I suffered almost continually with terrible headaches, backache and pains through the body. I tried many remedies without receiving any benefit until I began the use of Dr. Williams' Pink Pills and the use of seven boxes has made me feel like a new man, as I am now as strong as I was before my sickness. I can heartily recommend them to others so afflicted."

Mr. B. Crouter, Warkworth, Ont., brother of Rev. Darius Crouter, who some years ago represented East Northumberland in the House of Commons, says: "Two years ago I had an attack of la grippe which nearly cost me my life. My legs and feet were continually cold and cramped, and I could get little or no sleep at night, and you can understand what a burden life was to me. One day I read of a remarkable cure by the use of Dr. Williams' Pink Pills, and I made up my mind to give them a trial. When I began using the Pink Pills there was such a numbness in my feet that I could not feel the floor when I stepped on it. As I continued the use of the pills this disappeared; the feeling returned to my limbs, the cramps left me, I felt as though new blood were coursing through my veins, and I can now go to bed and sleep soundly all night. When I get up in the morning instead of feeling tired and depressed, I feel thoroughly refreshed, and all this wonderful change is due to Dr. Williams' Pink Pills. I believe Pink Pills have no equal for building up the blood, and I strongly recommend them to all sufferers, or to any who wish to fortify the system against disease."

Scores of other equally strong recommendations might be quoted, but the above will suffice to prove the undoubted efficacy of Dr. Williams' Pink Pills in removing all the evil effects of la grippe or influenza, and those who have in any degree suffered from this dangerous malady should lose no time in fortifying the system by the judicious use of Pink Pills. They are the only remedy that strike at the root of the trouble and thoroughly eradicate its bad effects. Ask for Dr. Williams' Pink Pills and do not be persuaded to try something else. Sold by all dealers or sent by mail, post paid, on receipt of 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co.,

WONDER WATCH

STEEL-WIND.

The most wonderful watch production of the age. Latest achievement of mechanical skill. High-priced watches "Nox out of sight," is no fake that takes all day to wind up, or a big clock-watch so extensively advertised, but a handsome, ordinary size Watch that is warranted for five years. Solid Silver case of the best quality, unequalled for durability and service, guaranteed to wear a lifetime. European Watch Makers have spent years in experimenting in order to produce a Watch of merit at the lowest possible price, the result is the "Wonder" which is a marvel of cheapness, durability and excellence, that stands in quality, style, finish and price, guaranteed an accurate time-keeper. One sample Silver Steel-Wind "Wonder" Watch as above described, forwarded express charges prepaid to any part of Canada or the United States, on receipt of \$2.25 or four watches for \$8.50. For 75c. extra we will send an Elegant Sash Lined Plush Case, containing this Watch, also a handsome Gold Plated Chain and Charm that is warranted. All for \$3.00. Cash with order. No samples sent C.O.D. If goods are not found exactly as represented your money will be cheerfully refunded. In ordering simply enormous, as it is the only reliable Watch on the market for the price. Beware of all free offers for cheap sun dials, etc., and send your order direct to us and get big value for your money. You may have the same Watch in a fine Gold Plate for 25c. extra. Address:

TOO MANY SUITES

I have an overstock of Bedroom Suites; more, in fact, than I can set up, even in my large show rooms. Many are still in the canvas, just as they came from the manufacturers, but a large number are set up ready for your inspection. To reduce the stock I have reduced the prices again. That brings some of them down very low; for instance, that \$15 suite that I reduced to \$18, I have now cut to \$12, the \$18 to \$15, the \$20 to \$17, and so on; but this will only last until I get some of them sold, because there is no money in it, except for you.

From Cleanings in Bee-Cultures.

BEES ON A RAMPAGE.

They Stung Everything on the Farm; Was it a Case of Robbing?

FRIEND ROOT:—I am inclined to think there are times in the life of every bee-keeper when he wishes he had never seen nor heard of a bee, no matter how enthusiastic he or she is or ever was. Such were my thoughts and experience late one evening during the latter part of last August. The fuss began near sundown. Had it been earlier in the day, I really do not know what would have become of us all. It seemed as though all of my 50 colonies went on a rampage all of a sudden, which vexed me so I felt that, if it were in my power, I should like to kick the whole outfit clear across the continent into the middle of the Pacific Ocean, so furious were my little pets. The strife and havoc were terrible while the trouble lasted. The first intimation I had of the fuss, I was quietly cutting some weeds from under a clump of rosebushes that grew on the lawn, when, all at once, about half a dozen bees stung me in the face and on the back of the neck. It struck me at once that I had cut into a swarm that had settled there. The bees kept popping it to me as I broke to the house for a veil. Then I heard my little boy, 12 years old, cry out, "The bees are stinging!"

Grandpa, who was in the barn lot pumping water for the stock, was told to run or they would sting him to death. I got a bee-veil, and my wife grabbed several pieces of old carpet off the fence. Grandpa was down, all covered with bees. We got him up, and all hands made a dive and got into the barn. I peeped out from my hiding-place, and saw the cows running wild for the pasture, with their tails high up in the air. The horses were running, stamping, biting, and kicking, all at the same time. Pigs were squealing, running, and twisting their bodies in all shapes. Our old tomcat ran into the barn, with his tail as large as a rolling-pin, while the dog ran off the place. The chickens and turkeys came in for their share, and such a scattering and squalling were never seen or heard before. Several half grown turkeys were stung to death. Every fowl as well as every quadruped on the place, I think, was stung more or less. The onslaught lasted until dark. Had this thing happened earlier in the day I do not know what would have happened. As it was, had no one help grandpa, he

was a boy. This presence of mind saved my life. Next morning they came straggling in. They had been on the rampage and had exhausted their fury in the dark. The air was thick with bees. They ever after acted as innocently as if they never contemplated mischief.

Now, Friend Root, I think there are several things that lie beyond our ken about bees, as well as the invisibility of man.

Rampage usually occurs when the bees are generally quiescent, in the cases I have observed or heard of. The larger the apiary the more intense the disturbance.

W. S. HOUSE.

QUABBIN.

MONDAY, JAN. 8.—The municipal election passed off quietly last Monday, the Reformers coming out victorious, returning their five men with a good majority.

The patrons of Mallorytown Union Cheese Manufacturing Company held their annual entertainment in the Old Fellows' Hall. The Mallory orchestra, from Brockville, furnished excellent music for the occasion. Speeches from Prof. Robertson, D. Derbyshire, Rev. J. J. Wright, Rev. Lewis Conley, and others. Altogether, a very enjoyable evening was spent.

M. C. Trickey is on the sick list. Miss Libbie Thomson, our former teacher, is attending the Brockville high school.

Mr. and Mrs. C. Monroe, of Toronto, are visiting at A. H. McDonald's.

Miss May Cook, Yonge Mills, has been engaged as teacher for 1894. At our annual meeting M. N. Kavanaugh was re-elected as trustee.

La grippe is quite common in this section. The majority of people have had it.

The trustees of this section intend building a new school house next summer.

Miss Jessie Trickey returned to Brockville to day, where she is attending the business college.

Mr. Gene Haermaa's new residence makes a great improvement to Main street.

Mr. T. Gavin purchased a very fine piano last week.

Registry of Births, &c.

Parties whose duty it is to register births, marriages or deaths with the village clerk, Athens, must do so before Saturday next, 13th inst., or be liable to a fine of \$20.00 and costs. Don't

JOSIE MANSFIELD AGAIN.

She and Her Husband, Robert L. Reade, Agree to Separate.

The woman who is best known to the public as Josie Mansfield has separated from her second husband, Mr. Robert L. Reade, whom she married in London Oct. 16, 1891. Mr. and Mrs. Reade have parted company on anything but amicable terms, according to the New York Herald. Mrs. Reade returned to America with the intention of settling down in his native land and allowing the Atlantic to roll between himself and his wife.

Mrs. Reade was probably the subject of more gossip 20 years ago than any woman who had ever lived in this hemisphere. That was long before she met the man from whom she is now separated. It was on her account that Edward S. Stokes killed James Fisk, Jr.

She was wonderfully charming at the time she enamored the gallant Colonel Fisk, more than a score of years ago. Her smart carriage, her gorgeous diamonds and her fetching dresses—all gifts of the great operator in Erie stock—were the talk of the town. Her name was a household word. Bonnets, mantles and a peculiar fashion of dressing the hair were named for her.

She quarreled with Fisk and he became jealous of the attention she received from Stokes. After long bickering threats were made that all the letters and telegrams Fisk had sent her would be published. The great speculator obtained an injunction preventing Stokes from making these papers public. The shooting of Fisk followed soon afterward.

Josie Mansfield sued Colonel Fisk's widow for \$200,000, claiming that the colonel had owed her that amount. She lost this suit and then went to live in Boston. She found the life a most uncomfortable rest.

dence, as crowds followed her and hooted at her in the streets. She fled to Paris where she has since lived.

Her first husband was Frank Lawlor, an actor of some note. She was in San Francisco at the time of her marriage to him. Her maiden name was Warren. Lawlor after the Fisk shooting, declared in an interview that he had married her to protect her from her parents, who had tried to blackmail a man named Perley through her. She and Lawlor lived together until 1890, when she divorced some years ago.

as the sympathy of all who
in for the loss he has sustained.
A. Chapman is rapidly complet-
s saw mill and expects to have it
ing in about two weeks.
t. R. Hawkins and J. Randall are
sting things ready to commence build-
air new boat.

Mr. R. Harvey, of the Lyndhurst
Roller Mills, issued posters last week
thanking his patrons for past favors
and soliciting a continuance of their
trade. He keeps his mill in first-
class order and has lately added a
machine for grinding corn and cob
together. He buys all kinds of grain
for which he pays the highest price.

Meet Your Obligations.
At the beginning of the year, when
it is general pay day and there is a
strait all around, it is more than
usually incumbent upon everybody to
meet obligations promptly and so ease
the situation. There is great com-
plaint that payments are slow. A
little consideration for what is due
one another would help to make
things pleasant all around. One debt
paid enables the creditor in his
turn to pay another, and so on
through a whole line of obligations.
Every man or woman engaged in
business or in any profession realizes
how important it is for everybody to
do the best for the common good.
Let there be a lively emulation to pay
bills promptly.

A Story of A Cat.
A few days ago the Reporter dropped
into one of the leading dry goods stores
and the proprietor drew our attention
to a very fine Thomas cat that occupied
a rug in the best chair in the office.
"That cat," said he "is the most intelli-
gent cat in the village," and as proof
of the assertion told the following
story: About a week

Events as Seen by Our Knight of the
Penell.—Local Announcements
Rolled Right Down.

Mr. A. M. Chassells, who has been ill
for a few days, is recovering.

Parties who have promised to bring
wood to pay for the Reporter are re-
quested to do so at once.

Miss Beach, of Athens, has been en-
gaged to teach the Leebly school for '94.

A can of corn, can of peas, and
can of tomatoes for 25c at Mott &
Robeson's.

Carriages built to order, repairing
and painting done in first class style
at moderate prices.—A. James.

97-piece dinner sets at Mott &
Robeson's for \$7.00.

This week Mr. H. S. Moffat com-
mences a great slaughter sale of
general goods at Rockspring. See
bills.

Colored bedroom sets at Mott &
Robeson's for \$2.50.

Lost.—Between Sheldon's S. H.
and Athens, a lady's silver watch
with gold chain attached. Finder
will confer a favor by leaving at
Knowlton's Jewelry store, Athens.

In Glengarry county the farmers
have gone into winter dairying. It is
said that the factory at Martintown
manufactures 26,000 pounds of milk
per week.

Mr. W. A. Bullie, of Delta, is
doing a rushing grocery business and
this week issues circulars containing
quotations that should still further
increase his trade.

Africa is gradually being civilized.
The same ship which landed a mission-
ary on the shores of the Dark Conti-
nent the other day, also landed 500
barrels of rum.

Messrs. Mackay & Co., of Lynd-
hurst, have decided to give up busi-
ness in that village, and announce
their intention of selling by retail
their \$10,000 stock before 1st of
March next. This should mean bar-
gains for somebody.

Thos. Hazelton, Delta, writes: "I
received the special Christmas number
of the Athens Reporter and am much
pleased with it—much better than the
Recorder's Christmas number of 1893.
It is a credit to the village and to the
publisher."

The reeve and councillors elect for
the village of Athens will meet in the
council room, Central block, on Mon-
day, Jan. 15th, at 11 a.m., to make
the usual declarations of office and
transact any other business that may
be presented.

Many of our American sub-
scribers are under the impression that
we do not take American money on
subscription account. We can find
places for all our friends will send us.
U. S. stamps taken for fractional parts
of a dollar. Money in a well sealed
envelope at our risk.

We have 50 copies of the
Christmas number of the Reporter
left. We will put them up in strong
wrappers and send them to any
address, post paid, for 10 cents each,
or will sell the balance left, over the
counter, for 8 cents. All new sub-
scribers to the Reporter will be given

The funeral of Miss Jennie Earl (a
notice of whose death appeared last
week) took place on Thursday and was
attended by a very large number of re-
latives and friends.

Mr. Robert Young, classical master
at Renfrew high school, has resigned
his position to accept the principalship
of Alexandrian high school.

The Christmas number of "Tol-
lettes" has reached us, with the fairest
creations of the artist for the festive
costumes of the month. What won-
derful taste this magazine shows. It
seems to have the art of idealizing a
present fashion making a thing not
only for to day but for all time. This
is the thought suggested by the
charming costumes which fill its
pages, but especially by its supplement
of ball costumes, reception dress, etc.,
which our lady friends would pro-
nounce beautiful as a dream. The
number is altogether magnificent. It
can be obtained from all newsdealers,
or direct from Toilettes Publishing
Co., 126 West 28rd St., New York.
Single copies 15 cents: Yearly sub-
scriptions—\$1.50.

The Leaflets Still There.
This morning a gentleman handed
us the following note, which is self-ex-
planatory: "After an absence for some
time from the services of the Methodist
church here, I was among the worship-
ers last night and was surprised and
disgusted to find that the practice of
roughs congregating in the vestibule of
the church and 'carrying on' as the
worshipers passed in and out is still the
custom here, and am surprised that the
church authorities do not once and for-
ever put an end to it."

Masonic Concert.
Every seat in the high school hall
was occupied Friday evening at the
Masonic concert. Mr. J. P. Lamb
presided. The instrumental numbers
on the programme were much enjoyed.
The piano duets were excellent, and Mr.
Teigmann (who, by the way, strongly
resembles the late Sir John MacDon-
ald) made a decided hit with his violin
playing, and well deserved the frequent
encores he received. The vocal se-
lections contained rather too much of
the comic and ridiculous for a first-class
concert, and a little improvement along
this line could be easily made. Mr.
Thornton is possessed of a good voice
and his sentimental selections were
well rendered. The elocutionary num-
bers were scarcely up to the Athenean
standard. Altogether, the entertain-
ment was pleasing, and the society un-
der whose auspices it was held is well
satisfied with the result.

On the timber limits of Mr. S. Y.
Bullis, near Athens, a large force of
men are employed cutting logs and
cordwood, which are being hauled to
his mill-yard at the station. Mr. Wil-
son Riley is scaler at the yard here.

On Friday evening, Jan. 12, the
Epworth League, of Frankville, will
hold a tea meeting in the church hall
in that village, at which Rev. A. A.
Radley, a former pastor, will deliver a
lecture on "Wycliffe and His Times."
Several other rev. gentlemen are also
expected to be present and deliver
addresses. Admission, 30c. Those
who have had the pleasure of hearing
Mr. Radley will gladly avail them-
selves of this opportunity of learning
more of the great English reformer.

Annual Report of Johnson's Creamery,
1893.

Total lbs. milk received, 1406246 lbs.
Total lbs. butter made, 59994 lbs.
Total amount received for butter,
\$18350.15 1/2.

Average lbs. of milk required to make
1 lb. butter 28 489/1000 lbs.
Average price received per lb. butter,
22 252/1000 cts.

Value of milk per ton (gross), \$18
988/1000.

Value of milk per ton, manufacturing
deducted, \$16 427/1000.

RICHARD E. CORNELL, Secretary.

Itch of every kind, on humar of
animals, cured in 80 minutes by
Woolford's Sanitary Lotion. Warr-
anted by J. P. Lamb.

English Spavin Liniment removes
all hard, soft or calloused Lumps and
Blemishes from horses, Blood Spavin,
Curbs, Splints, Ring Bone, Sweeney,
Stiffes, Sprains, Sore and Swollen
Throat, Coughs, etc. Save \$50 by
use of one bottle. Warranted by
J. P. Lamb

RHEUMATISM CURED IN A DAY.—
South American Rheumatic Cure for
Rheumatism and Neuralgia radically
cures in 1 to 3 days. Its action upon
the system is remarkable and myster-
ious. It removes at once the cause
and the disease immediately disappears.
The first dose greatly benefits. 75
cents. Warranted by J. P. Lamb.

Rebecca Wilkinson, of Brownsvalley,
Ind., says: "I had been in a distressed
condition for three years from Ner-
vousness, Weakness of the Stomach,
Dyspepsia and Indigestion until my
health was gone. I bought one bottle
of South American Nervine, which
done me more good than any \$50
worth of doctoring I ever did in my
life. I would not have believed it
possible for me to get so well as I
now am."

GOOD AGAIN.

At the World's Fair cheese com-
petition, the cheese made at John J.
Macdonald's factory, at Elm Bank,
N. S., by Wm. M. Topping, of Athens,
carried off the highest honors for the
Maritime Provinces, being awarded
98 1/2 points out of a possible 100. Mr.
Macdonald, we understand, intends
starting a factory at Cape George next
season, and wants an Athens cheese
maker to take charge of it.

FARMERS' INSITUTE
MEETINGS AT
Lyn, January 12th, 1894
Mallorytown, Jan. 13, '94

Practical addresses on important agricul-
tural subjects will be given by John McMillan,
M. P., T. W. Steinhoff and Capt. Geo.
Farwell. In addition, at the Lyn meeting
Jas. Cumming and Geo. P. Graham will
speak, and at Mallorytown Rev. J. J. Wright,
M. A., will deliver an address.
The subjects to be discussed embrace almost
every department of farm work, and no pro-
gressive farmer should fail to be present.

W. H. McNISSE, Sec'y
Lyn, Ont.

1894.
