WARM MOTORISTS OF TRAPS ON HIGHWAYS

Officials of Ontario Motor League Will Be Stationed at Points on Main Roads Where County Police Set Traps to Catch Drivers, and Alleged Persecutions Will Cease.

In several counties within a short
radius of Toronto are "traps" where
motorists are held up by police offi-
cials on charges of excessive speed-
ing and fined various amounts. The
Ontario Motor League is convinced that
in many cases motorists do not travel
in excess of the speed limit and that
they are persecuted by the county po-
lice, who benefit from the fines im-
posed. As a protection for its mem-
bers against these traps, the league
announced yesterday that men will be
stationed at various points to signal
to passing motorists the location of
these traps on police officials.

To Protect Members.

The announcement said that the On-
tario Motor League would hereafter
endeavor to protect its members from
traps on the different highways, be-
cause of the fact that many of the
members have been fined recently thro
their operation. "This is a method of
prosecution which we deem most un-
fair, particularly for the reason that,
in the vast majority of cases, only the
prosecutor's word seems to be the evi-
dence accepted."

Averse to Speeding.

"The league is averse to speeding,
but also averse to vexatious methods
of prosecutions. We have decided to
post a man in the vicinity of traps
over the week-ends. He will advise
members of the league carrying the of-
ficial badge on the radiator cap, when
they are approaching the trap. You
will be signalled by his swinging his
arm up and down. As a beginning,
men will be stationed at this Saturday
and Sunday on the Dundas-road near
Jellington, and on the Kingston-road
near Oakawa. The system will gradu-
ally be extended throughout the prov-
ince."

OFFICERS HERE FOR WALT DAVIS

Prisoner and His Wife Will Be Taken Back to New West- minster to Stand Trial.

Detectives will arrive from New
Westminster to-day to take back Wal-
ter Davis, alias Walsh, and his wife.
Davis is suspected of being one of the
gangs that looted a New Westminster
bank last September.

The local detective force did excep-
tionally clever work in landing Davis.
When arrested the man strenuously
denied that he was the party wanted,
but could not give a good account of
where he got the vast quantity of mon-
ey he had about his person and in his
room at the Palmer House. The num-
bers of various of the unchanged bills
found on him corresponded with the
numbers of the bills stolen from the
bank.

Correspondence found among his ef-
fects, which the detectives have thor-
oughly perused, comes from Banff, Alta.,
Portland, Ore., Montreal, Quebec, and
many other places.

It is expected that a matrimonial will ac-
company the detectives from New
Westminster to take care of the wo-
man en route there.

DARROW CASE BEFORE JURY

LOS ANGELES, Aug. 16.—(Can. Press.)
—In the case of Clarence Darrow,
charged with jury bribing, District At-
torney Fredericks did not conclude the
argument for the prosecution until late
to-day and Judge Hutton announced that
he would deliver his instructions to
the jury until tomorrow.

District Attorney Fredericks closed his
argument, which had extended thro
day and a half by urging the jurors to
convict Darrow, to set aside their sym-
pathy for him and, by finding him guilty,
put an end forever to the corruption of
jurors.

"If by reason of his age," he said, "or
for any other reason, you think he is
entitled to consideration or clemency, let
the court extend it. Gentlemen, I leave
it with you and your good. You can't
make any mistake if you find Clarence S.
Darrow guilty."

Fredericks declared that if Darrow was
convicted jury bribing would be safe-
forever.

FOUR CHILDREN BURNED TO DEATH IN THEIR BEDS

Entire Family of Mr. and Mrs. Thomas Harrison, Near Elgin, Was Wiped Out When House Caught Fire While Parents Were Milking.

ELGIN, Ont., Aug. 16.—(Special.)—The four children of Mr. and Mrs. Thomas Harrison were burned to death this morning while their parents were in the barn milking cows. Their ages were one, three, five and six years.

The accident happened on the farm owned by Thomas Dwyer, three miles from here, on the Phillippsville-road. Harrison is Mr. Dwyer's hired man. He and Mrs. Harrison had gone to the barn to milk, leaving their four children asleep in the house. They had been out only a short time when Mr. Dwyer noticed that the house was burning. He gave the alarm and rushed to the burning building. At considerable risk to himself he rescued the six-year-old boy, who was badly burned and lived only a few hours. The other children were overcome by the smoke, and their bodies were burned beyond recognition.

Geary, Hocken and Church In Cut and Dried Scheme To Get Municipal Offices

Mayor Was to Be Made Corporation Counsel and Church a Member of the Hydro-Electric Commission in Order to Allow Hocken to Run For Mayor Next Year.

Among certain members of the city council it is understood to be a cut and dried scheme as to who is going to be the next corporation counsel, mayor and hydro-commissioner, and now that Mr. Meredith has definitely declined the position, the proposed motion cutting has received an added impetus.

The consensus of opinion around the city hall is that the matter was re-vented a clash before the end of the year.

"Now they see the probability of Mayor Geary putting himself up against them for a fourth term if he doesn't land the corporation counsel job, and I am inclined to think that they will give way to the lesser of two evils and remove such strong opposi-
tion to their candidature by working for the mayor's appointment as coun-
sel."

Church's Position.

Controller Church wants to vindicate his actions by stating that "I have no spoken to a single member of the city council, and do I intend to on the subject, and the members can do just as they like. Every member knows this to be the simple truth."

"While the mayor was away, I thought it most improper to speak to anyone on the subject. It was only on or before September, that made it imperative to get a strong successor to Mr. Drayton so soon. I did my duty in this case as I saw it and carried the full responsibility for what was said and done."

Mr. Church presents the fact that the Toronto press has appointed him commissioner on single tax questions, and also says that he has no apologies to offer for the recommendation of T. G. Meredith for the position as corporation counsel.

Hocken for Mayor.

Considering that the tube question is still a live issue so far as Controller Hocken is concerned, it was expected that he would be the next candidate for mayor, that is, in so far as the majority of the board of control is concerned, because he would have no opposition from them.

Under these conditions Controller Church might have been offered the vacant position of hydro-electric commissioner, caused by the resignation of Harry Drayton, K.C., to assume the responsibilities of chairman of the railway commission. The position carries a salary of \$4000 a year and this, coupled with the remuneration received for services rendered as a member of the board of control, would be something worth going after.

As his share of the proceeds, it was understood that the mayor was to be appointed corporation counsel, but the salary was not mentioned, and the mayor's confidence had not been obtained by the time the whole thing exploded.

Controller Hocken has been out of the city all the week and therefore could not be approached with regard to the deal.

A Pretty Game.

Controller Foster is reported as saying: "It certainly was a pretty little game to keep the mayor in harness until the end of the year. To my mind it came about thro the inability of Controller Hocken to read Controller Church's intentions with regard to the mayoralty and vice versa. The one didn't know where the other was at, and this was their method for pre-

Another Rumor

A few of the most prominent business men of the city have the last two or three days been discussing a rumor that 'Eaton's have arranged to give, or are considering giving, possession in four years of their store property on Queen and Yonge-streets to hotel interests. The World does not know how well-founded this rumor is, but it is merely repeating what men who are always closely in touch with big happenings in this town are discussing among themselves.

That this would be a magnificent site for an hotel hardly needs to be said.

Accompanying the rumor are details of construction, but these are probably but amplification to the chief story. The hotel people would not be planning yet in all details what would not come to pass till four years from now.

This four years is significant. If the rumor is based on actual fact, it means that the Carlton-Yonge store will not be built and opened before that time.

TRIED TO RESCUE HUSBAND FROM DROWNING

Prof. Blewett of Victoria Col- lege, While Bathing a Few Feet from His Summer House, Sank in Go-Home Bay, Muskoka — Was a Keen Philosopher.

While bathing a few yards from shore and within sight of his wife and child, Prof. George Blewett of Victoria University was drowned in Go Home Bay, Muskoka, on Thursday morning about 11 o'clock. Prof. Blewett had been in the water only a few seconds. He waded out about 10 or 15 feet from shore and began to swim. Suddenly he sank below the surface and did not re-appear. Mrs. Blewett got into a boat and rowed out, but was unable to find her husband. A few minutes later the body was recovered. Death was due to heart trouble.

The remains arrived in Toronto yesterday afternoon on the Muskoka train. They were accompanied by Mrs. Blewett and her only child and several professors at the university. The funeral takes place to St. James' Cemetery this afternoon, following a service in the chapel of Victoria University at 3 o'clock.

Was Thirty-nine Years Old.

Prof. Blewett was a gold medalist at the University of Toronto and held a Harvard degree of Ph.D. He was professor of ethics and apologetics in Victoria College since 1907. He was born in North Yarmouth, Elgin County, 39 years ago, and received his early education in St. Thomas public and high schools. After graduating from St. Thomas Collegiate Institute he went to the west, where he stayed three years. He then took an arts course in the University of Toronto, graduating in 1895. He took post-graduate courses in Harvard, Oxford and a German university. Before going to Victoria Col-
lege he held a professorship in Wesley College, Winnipeg. Two years ago he lectured at Yale.

Keen Philosopher.

In philosophy the late Dr. Blewett stood first in Canada. He published many volumes on philosophical subjects, which gained considerable prominence in Canada and elsewhere. His best work was probably "The Study of Nature, and the Vision of God," a volume of studies in idealism and mysticism, published in 1907.

On account of their comrades' death Rev. Prof. S. H. Wallace, dean of the college, Chancellor Burwash and Prof. A. L. Langford came to Toronto from Penetang. "He was an indifferent swimmer and did not attempt any risks in the water," said Prof. Wallace. "But on this occasion he got beyond his depth. Mrs. Blewett saw her husband struggling, but he seemed to be making a little progress. But suddenly he went down and never came up again. It will be a terrible loss to the University of Toronto as well as to the Dominion. He was considered to be one of the keenest philosophical thinkers in Canada, and, coupled with dress, fell also and alighted on top of Wheeler. To make matters worse 300 pounds of slate fell on Patrick. Both men are badly hurt, Patrick the more seriously of the two, as he, besides suffering from the shock of such a high drop, received the impact of the heavier and jagged weight of slate.

Two Men Fell From Scaffold

T. S. Wheeler and Edward Par-
rick Critically Injured While
Slatting Roof of Dufferin
Street Church.

T. S. Wheeler of 677 Annette street fell 25 feet to the ground when a bracket to which the scaffolding on which he was working at the new Presbyterian Church on Dufferin street, near Hallam avenue, gave way yesterday afternoon at 3 o'clock. Edward Parrick of the same address, fell also and alighted on top of Wheeler. To make matters worse 300 pounds of slate fell on Parrick. Both men are badly hurt, Parrick the more seriously of the two, as he, besides suffering from the shock of such a high drop, received the impact of the heavier and jagged weight of slate.

Wheeler has severe internal injuries and a badly cut and lacerated scalp, besides other serious bruises; Parrick had the thumb of his right hand broken and is hurt internally. He is suffering much pain and is in a very critical condition.

Dr. D. S. Moore and R. S. Tomby had the men removed to their homes in Speer's ambulance.

SENATE STANDS BY PRESIDENT

WASHINGTON, Aug. 16.—(Can. Press.)—The senate to-day voted to sustain the veto of the president on the wool and metal tariff revision bills. On the metal bill, the motion to override the president did not even obtain a majority. On neither measure did the vote approach the necessary two-thirds.

Senator Simmons called up the metal bill, which was first disposed of. With-
out debate, a roll call vote was taken, and 32 senators voted in favor of over-riding the veto. Thirty-eight voted against passage.

Senator La Follette made the motion to repeal the wool bill. He asserted that the bill was a protective tariff measure, and was framed according to the tariff board's report on the wool industry. He analyzed the report of the tariff board and compared it with the bill. Senator La Follette asserted that the failure of the president to accept the "judgment of congress" was a usurpation of power.

Senator Heyburn denounced Mr. La Follette and denounced the bill as a Democratic measure.

When the vote was finally taken, 33 senators voted in favor of passing the bill and 35 against it.

evening.

Chahellad lives in Toronto, but his
address is not known. He is a carpen-
ter, and was engaged in putting up
frames for reinforced concrete work,
when a cave-in occurred. He was iso-
lated from his fellow workmen at the
time and they neither saw the cave-in
nor knew that he was missing until
one of them, having occasion to bor-
row a match, went to ask Chahellad
for one. He saw the vast quantity of
sand, no Chahellad and wondered. Then
he immediately came to the conclusion
that Chahellad was underneath that
sand. Calling other men to him, they
all took shovels and worked like de-
mons to extricate their comrade. They
got to him in about five minutes. He
was livid. His head was badly cut and
he was otherwise bruised and battered
and was unconscious. One of the num-
ber telephoned for Miller's motor am-
bulance, and he was hurried to the
Western Hospital. There it is said that
his condition is precarious, he will re-
cover. He was still unconscious at an
early hour this morning.

HEROIC ACTION OF REV. J. D. FITZPATRICK

Well-Known Minister Succeeded in Saving Five Others, Three of Whom Were Women, by Assisting Them to Reach Overtaken Launch—Mr. Jones Was a Well-Known Court Reporter in Toronto, and His Wife Was Very Popular—Percy Jones, a Son, Also Was Saved.

While shooting a rapids in the Severn River, two miles below Sparrow Lake, at 11 o'clock yesterday morning, Mr. and Mrs. G. R. Jones of 119 Hazelton-avenue, Toronto, were drowned, and six others had narrow escapes from death. The rapids are located near the Midland Power & Light Co.'s dam, on the Severn River, and are the scene of thrilling trips by adventurous campers during the summer months.

Those who were rescued were the Rev. J. D. Fitzpatrick, owner of the launch, and his daughter, Mary; Percy Jones, son of Mr. and Mrs. Jones; J. H. Robinson, Miss Gladys Robinson and Miss Gladys Plewes.

VICTIMS WELL KNOWN IN TORONTO.

Mr. Jones was a well-known stenographic reporter and court stenographer. His Toronto office was at 5 West King-street. He was about 50 years old. Mrs. Jones also was very well known in Toronto. She was about the same age as her husband. They are survived by two daughters and three sons. The daughters are Bessie, aged 19, and Lena, aged 21; the sons are Ashbury, aged 24; Percy, aged 12; and Harvey, aged 15.

Word of the tragedy reached Toronto last night, but full particulars as to how the six other campers were saved were lacking. It was learned that the heroic action of the Rev. Mr. Fitzpatrick was responsible for the rescue of five of the occupants of the launch.

STARTED TO SHOOT RAPIDS.

The party started out early yesterday afternoon from Massey's camp, where they were spending their vacation, with the intention of shooting the rapids in a small pleasure launch.

Soon after entering the rapids, the launch was caught in an eddy and capsized. The entire party was thrown into the water and commenced struggling. Mr. and Mrs. Jones were caught in the swirl, and were drawn under before any of their companions could render assistance.

PASTOR'S HEROIC WORK.

Rev. Mr. Fitzpatrick, who is an experienced yachtsman, kept his head, and at once shouted to the women not to get excited. He worked strenuously and succeeded in assisting the remaining women and Percy Jones and J. H. Robinson to reach the upturned launch, to which they all clung.

With the six people clinging to it, the upturned launch was swept down the rapids and into the calmer waters of the Severn, where people on shore immediately secured boats and rescued them.

The bodies of Mr. and Mrs. Jones were recovered a short time later, and were sent to Toronto last night.

WORD SENT TO TORONTO.

Word of the accident at once was telephoned to Toronto, and Ashbury Jones left immediately for Sparrow Lake. The bodies of his father and mother were sent to Toronto last night, and arrived early this morning. The funeral will be held from their late residence, 119 Hazelton-avenue, on Monday or Tuesday.

CAMPING FOR THREE WEEKS.

Mrs. Jones had been camping at Sparrow Lake for three weeks with her son Percy. Mr. Jones joined them a week ago. He was to leave there last Thursday, but decided to stay over until to-day on account of the enjoyable time he was having.

On his way up to Sparrow Lake Mr. Jones was in a railway wreck, but was uninjured. He was quite jubilant over his escape.

A COMMON THING.

Mrs. Alfred Young, a neighbor living on Hazelton-avenue, who just returned from Massey's camp, said last night that it was a common thing for campers to shoot the rapids in launches.

AFRAID OF TRIP.

The trip, which had such disastrous results yesterday, had been made by the same party in the same launch on several occasions. Only a few days ago Mrs. Young was asked to accompany the party, but refused, being afraid to take the trip.

The children of Mr. and Mrs. Jones, who are now in Toronto, stayed last night at the home of a neighbor, Mrs. Prittie, on Hazelton-avenue.

ATROCITIES BY MOHAMMEDANS.

CETTINJE, Montenegro, Aug. 15.—(Gen. Press.)—Terrible reports were gaining circulation in the capital to-night regarding a massacre at Berana. Women and children are reported to have been murdered by the wholesale. Many girls were made captive and carried off by the Mohammedans. The government has ordered the minister of war, Gen. Vukotic to proceed to the frontier and to personally take charge of the situation in an effort to maintain order.

Tesreau, Pitching in Grand Form, Downed Chicago 7 to 4 in Second of Series.

Many Toronto Teams to Play League and Friendly Matches—The List.

CHICAGO, Aug. 16.—With Tesreau pitching in fine form, New York defeated Chicago 7 to 4 to-day and evened up the series. The big right-handed pitcher held Chicago to three hits until the ninth inning, while New York drove two pitchers out of the box early in the game. New York forced Jimmy Lavender, who started the game for Chicago, to retire before he had pitched two innings. Tesreau was sent into the box, but gave way to Cheney in the seventh after New York had made four runs off him. New York got a run off Cheney in the eighth and he was relieved by Toney in the ninth.

It Sparkles With Purity. Huether's Pilsener Lager

A good lager is the most refreshing beverage for summer—in your home, at your club, or at your hotel. HUETHER'S PILSENER LAGER is an exceptionally fine brew—there's purity in every drop—there's a tonic and a food value in every glass—delightful, exhilarating, healthful—and it is so because only the very finest of ingredients that go to make the finest lagers are used in the brewing of it. The best of home-grown and imported hops—the purest of spring waters—carefully and scientifically malted and brewed by one of the most experienced and expert German brewers, in one of the most modern, cleanly, hygienic, and sanitary brewing plants in the Dominion. Discriminating people when they have tried it will insist on HUETHER'S PILSENER LAGER for the quality sake.

Huether's Wuerzburger Huether's Cobalt

A most excellent fine dark German Brewed to meet the demand for a non-lager—that has no peer in quality—intoxicating light summer beverage—most people prefer it to the imported but which contains all the tonic and German lagers—and you will, too. food elements of the heavier lagers.

Big Four Cycle Meet.

When Joe Scheider of Buffalo hooks up with Andrews and McMillan at Scarborough Beach next Wednesday night, the officials should see that good judges are put on the corners, as either Scheider or Andrews would put the other over the fence in a minute if given a chance. This should be one of the most exciting races ever put on by the Big Four, as Andrews and Scheider will watch each other like hawks, and McMillan, with the speed he's showing, will likely hand it to them both. FIVE IN A BED.

What have The Toronto Mail and Empire, The Toronto Globe, The Toronto Star, The Toronto Telegram and The Toronto News, jointly and severally, to say in opposition to the forthcoming melon cutting by the Canadian Pacific Railway Company, which means a rake-off of \$60,000,000 for its English, French, German, American and Canadian stockholders, upon which interest must be paid in perpetuity in the way of extortionate freight rates by the people of Canada, and especially by the people of western Canada? If the reader will take a piece of virgin white paper fresh from the mill, upon which no word has ever been written, hold it up to the light and examine it closely, he will ascertain just what the five journals above named have said, and are saying, in condemnation of the melon cutting.

Do these newspapers, especially the government supporters among them, realize what figures they cut and what impression they must be making upon the Canadian west. The west is groaning under oppressive, extortionate and discriminatory freight rates. It is told by the Canadian Pacific Railway Company that these rates cannot be reduced because the company has to divide a \$60,000,000 bonus among its stockholders. Naturally the west protests; it demands relief from the government.

A few months ago, especially before the Saskatchewan election, The News demanded drastic action by the federal government in the way of redressing these railway grievances. Where does it stand to-day upon this proposed melon cutting?

And how about our other contemporaries. Have they fallen out, or gone upon a long journey, or been suddenly stricken dumb like Zacharias? The railway issue is the supreme issue to-day in Canada. There is dissatisfaction in the west, growing more pronounced and more bitter every day. Reciprocity talk is a mere symptom, of no more present importance than the secession talk. What the western people are suffering from are extortionate freight rates and inadequate service. Instead of getting lower rates, they are likely to get higher rates, because they must largely pay the interest upon the \$60,000,000 which is to be diverted from the development of the railway into the pockets of the stockholders.

The west is aroused, and cyclone calls may be needed for those politicians who disregard its protest. The World is on the side of the people and is in sympathy with the west in this matter. The Toronto Globe, The Toronto Star, The Toronto Telegram and The Toronto News have yet to be heard from. We have no objection to their all speaking at once.

SIMPLIFIED SPELLING.

From Norway came in March of this year a very remarkable article supporting the movement for reform in the spelling of the English language. Contributed to The Morgenbladet by Mr. Noregard, he spoke with admiration of the English tongue and its literature and the claim that it is destined to become the common medium for inter-communication among the nations. But he remarks that "there is only one thing that really stands in the way and makes the learning of English unnecessarily difficult. That obstacle is its spelling, which is certainly very bad." Again he says that "the spoken and written language has drifted so far apart that there are multitudes of words whose spelling scarcely gives any clue to their pronunciation."

This it is, which strikes the intelligent foreigner, struggling with the intricacies of English spelling. In all parts of the imperial domain, not only is the same difficulty encountered, but the English tongue is placed under a quite unnecessary handicap by the improvements made in the spelling of the European languages with which it is thrown into immediate contact. This in South Africa, Mr. Hogarth of Johannesburg, in an interesting paper, shows what has been done for the Dutch vernacular by the simplification of its spelling. He quotes from the reports of various inspectors of schools passages testifying to the immense improvement of Dutch in the schools in consequence of its strictly phonetic character. This is amply confirmed by Mr. Maurice White, inspector of schools for the Transvaal, who refers to many difficulties which the

absence of phonetic laws occasions to the student of English. From all parts of the English-speaking world have come complaints regarding the lamentable waste of time caused by the chaotic condition of conventional English spelling. Children lose valuable hours and days and months, even years, in the formative period of their lives in wrestling with the absurd anomalies of English spelling. Other nations have simplified their spelling, but English, in its structure the simplest of languages, looks at this advantage by falling in with reform. Those who support the movement for simplified spelling are not faddists, for among its supporters are many of the most distinguished statesmen, scientists and educationists of the twentieth century. It is not so much a new departure that is wanted as a reversion to the earlier freedom and the choice of that spelling which reconciles both eye and ear.

THE PARCEL POST. The two houses of congress are in conference respecting the establishment of the parcel post system in the United States, and some legislation will undoubtedly be approved within a day or two. The matter first came up in the shape of a "rider" attached to the house of representatives to the postal appropriation bill, providing for the same domestic rates and regulations in the matter of parcel post as those effective between the United States and many other countries. The international rate is twelve cents a pound, and the weight limit is eleven pounds; the domestic rate is sixteen cents a pound and the weight limit is four pounds. The house did away with this inequality; it also provided for a five-cent a pound rate between points on the same rural mail free delivery route.

The senate has substituted another bill by way of amendment, establishing a parcel post, the charges varying with the distance and rising from five cents to twelve cents a pound. It goes much further in the direction of a real parcel post service than does the measure passed by the house, but it departs from the wise principle of the flat rate which has been so big a factor in making the postoffice a money saver for the government, and a money saver for the people.

The Philadelphia Record, however, considers both proposals to be shortsighted and ineffective. It believes that the weight limit should be at least ten times the proposed maximum of eleven pounds. In Germany it says the parcel post carries everything from live fowl to a weekly wash, and in England it carries to the city dweller, in time for his breakfast, fish taken that same morning from the sea. The New York Sun, on the other hand, believes that the way to start a parcel post system, is to start it, and respecting the senate measure, commonly known as the Bourne Bill, it says:

It is pitifully that Senator Bourne's scheme for a parcel post, now included in the postoffice bill, should it become a law, will prove entirely satisfactory in operation. Its chief value lies in the evidence its adoption by the senate supplies that the government is no longer to deny this service to the public. Any kind of a parcel post will do as the starting point for improvement. Once established it will never be abandoned.

As for the terrifying predictions that have been made with regard to the effect of parcel post on country and suburban merchants, let us await their non-fulfillment with complete patience. The trading of the nation is not going to be monopolized by a few mail order houses simply because quick, safe and cheaper transportation of packages has been undertaken by the government, any more than it has been by the department stores against which that famous political economist, Richard Croker, was wont to raise a trembling and plaintive voice. The crossroads store is not yet doomed.

Canada may not be ready for the parcel post as it exists in Britain and Germany, but surely she should make as efficient as the international parcel post service. Why should it cost more to send a package from here to Hamilton than from here to Liverpool? Why should the Canadian Government accept a parcel weighing eleven pounds from a man in Toronto, for transmission to England, but refuse to accept from the same man, any package weighing more than four pounds

HOW DAYTON LADIES CURE THEIR CORN-PINCHED TOES. Miss M. Lukay of Zena Ave., Dayton, Ohio writes: "Before using Putnam's Painless Corn Extractor I was quite laid up with corns, and could not even stand the pressure of a loosely buttoned shoe. FOOL OR KNAVE? Real estate exploitation, and The Toronto World as its prophet, is the enemy, not the friend, of the masses of the people.—Evening Telegram. This is the funny comment of our evening contemporary last night in an issue with 27 columns of real estate advertising. If it be a tribute to our superiority as an advertising medium we accept the compliment gracefully. If it be an argument to prove that The Telegram does not exploit real estate and The World does, it is as wobbly as the stove pipes put up by an amateur.

Says The Telegram: "Toronto property owners vote a credit sufficient to build civic car lines. The World's friends, immediately subdivide the farms that are being tapped by these lines and mark up the price of land so that the working man has either to dwell in the slums of the city or seek ground for a home at points remote from the terminals of the new civic car line."

If this means anything at all it means that whoever owns land near the civic car lines should refuse to cut it up for the poor man, but hold on to it in its unimproved condition, as it is to be presumed The Telegram's friends do. Then when the price goes up to fabulous figures, they sell it to some one else to cut up for rich men's mansions. Will The Telegram please explain how the poor man is to get a lot of real estate men do not cut up their land into building lots? Will The Telegram please explain why it ignores The World's policy of taxing land values, and not the improvements made on land. That latter method is the cause of that cancer land being held near the city center which the poor man has no chance of getting? The World has proposed every conceivable remedy for the congestion in the real estate market. The Telegram has constantly and consistently misrepresented The World and incidentally represented the interests of downtown real estate holders who do not want the population to spread itself out, and who oppose all measures of taxation or transit that would enable the poor man to get near cheap land.

The Telegram seems unable to see, we prefer to think it silly rather than knavish, that it is playing the street railway company's game, playing the game of the big real estate interests, playing the game of so much against the poor man when it opposes the policies that would bring cheap land into competition with dear land; that would tax the land held by the wealthy till it gains value from the thrift of the poor; that would coop up the whole population in the least possible area. If The Telegram can show where The World does these things, except in The Telegram's own vain imagination, we shall be obliged for the service. The Globe apologizes for a misplaced line having rendered one of its sentences meaningless. We had not noticed that it differed from the rest. But surely it was not the linotype man who slung the Rosedale Ravine over to Bathurst-street yesterday?

WORKS OF GREATEST ARTISTS

ON VIEW AT THE EXHIBITION

Manager Orr Has Gathered Together One of Best Collections of Paintings Ever Seen on Continent, Including Best Work of Best European Painters.

The British art collection to be exhibited at the Canadian National Exhibition this year will be of more than ordinary interest. As usual it will embrace all schools and represent many artistic points of view. Dr. Orr, the manager of the greatest annual fair on earth, succeeded in obtaining loans from many of the great municipal galleries of England and also from the studios of many distinguished painters, who are anxious that the empire at large should become acquainted with the work of the artists who are the greatest in the world. It contains the names of the living and the dead. Many will see for the first time the work of Richard Dadd, who died in 1826, when but 27 years old. His painting "In an Old Normandy Town, with its Aqueduct" is a masterpiece of color and composition. Skipping a name or two one finds the mention of two water colorists whose genius as colorists is renowned among artists and whose imaginative renderings of the Arthurian legends are wonderful. The wonderful pastoral paintings of Arnesley Browne, who is represented by a characteristic piece, "The Bridge," need no introduction to picture lovers. Sir Alfred East, whose "Gethsemane," attracted so much attention at the London National Exhibition last spring, will be represented by a Japanese landscape, "Snow in Spring." It is interesting to note that Sir Alfred was once a commercial traveler, who gave up trade for art, and now has letters innumerable after his name. The Londoner, William Orpen, Brian Riviere, David Murray and J. J. Shannon, figure further down in the catalog, all it may be said represent the best of the British school. The painters mentioned represent less than a tithe of those whose pictures will be seen in the art gallery on the opening day. Only a few of the British artists sending pictures have been mentioned and in addition there are scores of Canadian and American painters of the highest rank who will be represented.

ASQUITH'S END REAR. So Says F. E. Smith, M.P., Now at New York. NEW YORK, AUG. 16.—(Can. Press.)—The first cabin of the Mauretania, which arrived here this morning, was filled with returning tourists and members of parliament and there were also a number of members of the British aristocracy on board. Among the latter were the Duke and Duchess of Sutherland, their daughter, Lady Rosemary Lovelock-Lovell, and her husband, Lord Alastair Lovelock-Gower. In an interview, F. E. Smith, K.C., M.P., a prominent Unionist, declared that the Liberal Government in England was going to pieces very fast. He insisted that it would be shattered completely before the home rule bill could be brought before parliament.

TOURING CAR DAMAGED. In some unexplainable manner the fine, large, new, gray motor touring car owned by the Provincial Motor Car Company of West Toronto, was caught fire at the corner of University and Queen-st. yesterday afternoon. There were a large number of tourists in the car when the fire started, and they were forced to hurriedly alight to save themselves from the flames. A man quickly responded, threw a bucket of water on the fire, and put the blaze out, but not before the motor of the machine and the back seat had been destroyed. The damage is estimated at \$150.

The Daily Hint From Paris

PLAIN AND STRIPED LINEN.

The distinguished feature of this dress is the clever way in which the inset panels, on the hip and elbow, are used to shape the garment at these places.

The plain linen is blue and the stripe is white on a blue ground. The chemise of white linen lawn is decorated with bands of the blue and the large buttons are covered with the same. A belt of enameled leather with a pearl buckle is worn.

Eczema Always Burning and Itching

Used Box of Cuticura Ointment and It Completely Disappeared.

"I have suffered from eczema for two years. The trouble began on one arm where it appeared a red spot of about a five-cent size, and it always widened, all the time itching and burning. The first days I didn't care, but seeing that it gained in size, I tried without success. It was very burning and itching. Having seen in the newspaper the advertisement of the Cuticura Remedies, I tried a little, and, seeing that it improved, I bought a box of the Cuticura Ointment. After having used one box, my eczema completely disappeared. The Cuticura Ointment should be kept in every home." (Signed) N. Ostiguy, Mariville, Que., Jan. 14, 1911.

A Generation of Success

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest, most economical treatment for itching, burning, scaly and bleeding skin and scalp humors, of young and old. A single set is often sufficient. Sold by druggists and dealers in Canada. Write for a free copy of Cuticura Soap and Ointment, post-free with 25-c. book on skin eruptions, send to Foster Drug & Chem. Co., 100 Columbus Ave., Boston, U. S. A.

The Nursery

GOOD IDEAS.

How to induce children to drink milk when they are not really fond of it has been found out by two mothers. One learned that atrax, such as are provided at soda fountains, if used in the milk glasses, made the milk disappear very quickly and delighted the children, too. The second mother pasted a pretty picture on the outside of the bottom of the glass in such a way that the child could see only the glass was empty. She changed the picture nearly every day, and the child was so anxious to see it that he gladly emptied the glass for months.

A pleasant way to clear up a room and to turn the dust into a gain, is to tell the children you have a certain object which is out of place in the room, letting them guess what it is. In this kind of game, the children will be glad to help you. A splendid way to keep children out of doors is to get them interested in playing "Architect." A story vacant lot or an open field is the playground, and the children sit with one another in gathering large pebbles and, with them, making "five-size" bungalow plans upon the ground. The pebbles found become make-believe houses for the little folks to play in. Children seem to keep up interest in this kind of game for months.

Outdoor porches are being used more and more for sleeping. Now one finds a sleeping hammock for the youngest member of the family. It is of light and on quite the lines of the full-sized ones; the mattress is most comfortable and will hold a child of any size, or, if laid in position, the baby is safe for his nap in the air.

THE HORSE SHOW.

The last day of Cobourg's Annual Horse Show is always the best. Take one of the Canadian Northern Ontario's solid vestibled trains, and enjoy an afternoon among the equine beauties who are entered from all parts of the continent. The boys' Canadian Troop's musical ride is also a feature. A special single fare rate of \$2.25, including admission to the grounds, has been declared, which is indeed a convenience. Tickets and all information may be had at the ticket offices, either King and Toronto-sts., Main 517, or at the Union Station, Main 566.

Aunt Sally's Advice to Beauty Seekers

W. C. D. says: "My elbows are so thick-skinned, goosy and muddy, I can't wear short sleeves. How can this condition be overcome?" Don't use cheap soaps. The treatment recommended by Aunt Sally will make your elbows quite presentable. Ellen B. asks: "What should I do for deep lines under my eyes and across my forehead like the picture? My wrinkles are best hidden by bathing affected portions in a good astringent and using lotion, which strengthens and draws out the relaxed tissue. Here's a reliable formula: 1 ounce powdered kaolin, 1-2 pint witch hazel, mix and use daily until entirely relieved."

Minnie L.: "The undue redness, as well as the pimples, may easily be removed by using ordinary mercurized wax. Apply it night and morning, and erase pimples with warm water. Soap will have a beautiful white, clear, soft and velvety complexion. Mercurized wax, sold by any chemist, is better than cosmetics for any complexion trouble. One ounce suffices for most conditions.—Woman's Realm.

MISS HASWELL'S FAREWELL

Monday evening, Aug. 26, will usher in Percy Haswell's "good-by" week. For her farewell Miss Haswell has decided to present "The Marriage of Kitty," in which she made her first appearance at the Alexandra Theatre three seasons ago. Miss Haswell will follow this with her own famous playlet, "Master Will's Players," with which she created such a furore in vaudeville. Seats for the entire week will be placed on sale next Thursday morning.

VAUGHAN GLASER'S SERIOUS PLAY

GRAIN OF DUST AT THE ROYAL

Popular Actor Will Open Grand Opera House on Monday With Splendid Offering.

Miss Haswell Will Give "Making a Man of Him," Supported by Strong Cast.

Among the season's productions of special merit a prominent place must be given to "The Grain of Dust," by the late David Graham Phillips, whose wanton assassination just a year ago at the hands of a lunatic, stirred the nation to such a degree that it has become a literary work. It will be presented at the Grand next week by Vaughan Glaser and his own company. Almost everyone has read this fine book, but for the benefit of the few that have not, a slight sketch of the story may serve. Frederick Norman is a brilliant young corporation lawyer who has practically put himself at the head of his profession despite his youth. Especially successful in a social way, he is engaged to pre-eminently the "catch of the season," Josephine Bur-

Next week at the Alexandra Theatre the Percy Haswell Company will give their many patrons an opportunity to see what they can do in a more serious play than those they have been presenting. "Making a Man of Him" is a new play written for Miss Haswell and should it come up to her expectations it will be used by her as a starring vehicle. The story, which is cleverly told, concerns a sister's devotion to a wayward brother, Doris Joyce, a young artist, who by hard work and sacrifice has won success for herself. Lives with her younger brother, Bob, who is a model and who has been shielded by her from all responsibility. Doris is interested in philanthropic work, she meets Dr. Worthing, a great deal. Worthing interests her in Rose Mulqueen, a young girl whom he has adopted as a ward, a serious illness. Doris employs her as a model and thus Rose meets Bob, who becomes infatuated with her. Bob sets up an establishment for Rose but finds that he cannot pay the extravagant demands. The girl makes insinuations to her regarding the interest shown in her by Worthing and by keeping him jealous is able to secure the desired result. Worthing received a gift of \$500 towards the hospital fund and Doris, as treasurer, takes charge of the benefit. The doctor asks for the desired sum and Doris is able to meet the demand. Later in the day Worthing discovers that Doris is infatuated and calls at Doris's home to tell her about it. He meets Rose, who tells him about her affair with Bob. She intends to blackmail Bob's sister, and to save the woman to whom he has just proposed marriage, Doris is obliged to meet her. Rose shows Bob the cheque. He is with jealousy and gives her the bond in exchange for her. He meets Doris, who tells him about her affair with Bob. GLEN GROVE PARK ANNEX

One of the Most Picturesque Spots in or Around Toronto

Situated in Toronto's finest residential district—popularly known as "On The Hill"—North from Upper Canada College. Within thirty minutes of the City's central business activities. A beautiful spot for the Home-seeker, with exceptional opportunities for the Investor.

As An Investment

Toronto must grow northward. The City extends fully twelve miles from East to West and only 2 1/2 miles from North to South. Property to the North is increasing in value at a rapid rate. The several developments now in progress in this district—mainly North Toronto annexation—cannot help but considerably enhance all land values there. Satisfy yourself—see the property personally—compare our prices with others and you will be convinced. Glen Grove Park Annex will surely pay large dividends—rigid building restrictions mean substantial, steadily increasing values.

Beautifully Situated—High Dry and Healthy

The Ideal Suburb

Here you find nature in all her glory. A fitting setting for either bungalow or mansion. Building restrictions placed on this property by the owners will preserve and increase the natural beauty of the district.

Follow Their Lead

Within the boundaries of the "Hill" section are to be found the estates of such prominent and well-to-do Torontonians as Sir Henry Pellatt, Sir William McKenzie, the late Samuel Nordheimer, R. J. Fleming, J. C. Eaton, Jas. Armstrong, Dr. Trotter, J. F. Ormsby and others.

Is not that fact significant? Come out to Glen Grove Park Annex with us to-morrow.

Sale Opens To-morrow—How to Get There

At the present time Glen Grove Park Annex, from every point of view—especially as an investment—is the most logical and promising sub-division on the market. People who have already seen the property are anxious to buy—their opportunity and yours will arrive to-morrow. Write, call or phone your desire for further information or make an appointment to go out with us. Glen Grove cars leave Yonge Street every 15 minutes. Our Automobiles will meet them at Glen Grove Avenue to-morrow afternoon. DON'T FORGET TO BE THERE.

REAL ESTATE NEWS

WILL TENDERS SELL GOVT. LAND?

Some Doubt as to Whether This Method Will Prove Profitable — Valuations According to Present Market.

The World heard yesterday from a very good source that no railway company will bid for the Normal School grounds. The C.N.R. are the only corporation that could use it and they apparently are already fixed as to a downtown terminal site. Real estate men average about \$50,000 as the market value of the property, but it is doubtful if the government will get anywhere near this amount. The experience of selling large properties by tender has always been that the tenders refuse to take the risk of having to pay twenty per cent or so more if they are successful than the next highest tender when a mere two or three per cent higher would have sufficed.

As a rule, bidders by tender of large properties has not been very successful in this city, and even very few auction sales of extensive parcels have been concluded at the time of selling, also auctioning a property often secures the identity of possible purchasers and enables the vendors to complete a deal by private treaty. The value of the Normal School property is so high and the amount of cash needed for its purchase so great—\$200,000—cash at acceptance of property, and the balance within three years—that the tenders received by the government will, it can be safely said, be but for small sums intended to pave the way for direct negotiations.

SCHOOL GROUNDS REPORTED SOLD

Unknown Purchasers Paying \$400,000 for the Bishop Strachan School Property.

Efforts yesterday to discover the identity of the purchasers in the deal now proceeding for the Bishop Strachan School property, were unavailing. The men known as figuring in the transaction had been asked not to divulge the names of the parties purchasing and are standing by that request. Real estate men had to resort to guesswork. The probability that the purchase was given color by the noncommittal words of W. Parkyn Murray, The World was told by a man as closely connected with the transaction as anyone that the Murray-Kay people are not the buyers, and also that while the deal has been going on for a long while and is practically closed, that several other deals for the property had reached a similar stage and then fallen thru.

A couple of times recently The World has reported rumors that a deal was on for this school property at the price of \$400,000, but these deals, unless one of the stories concerned the present transaction, never were consummated. The price, which gives a valuation of \$700 a foot for College-street, and \$200 a foot for Bay-street is very low. The bidders could afford to spend, if necessary, considerable money to have removed the one foot restriction that hinders the converting of the property to hotel or theatre uses.

W.G. BROWNLEE HAS RESIGNED

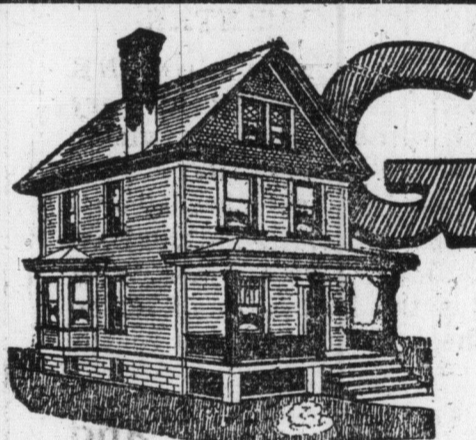

General Transportation Manager of Grand Trunk Railway to Take a Year's Rest.

W. G. Brownlee, general transportation manager of the Grand Trunk Railway, has resigned. The official announcement of his resignation, emanating from the president's office in Montreal yesterday. It was also stated that Mr. Brownlee's former post will be abolished in consequence of his leaving the company, and that divisional superintendents and others, who formerly reported to Mr. Brownlee, would henceforth report direct to Vice-President Kelly, who is in charge of operation. Mr. Brownlee resigned in order to get a year's rest. Altho stationed in Montreal, Mr. Brownlee was well known in Toronto. He was here during the employees' strike and was largely instrumental in clearing up this labor dispute. He was divisional superintendent of the Missouri Pacific Railway when he was appointed assistant superintendent of the east-end division of the G. T. R. in 1900. He was stationed in Toronto for some time and in 1907 was appointed head of transportation with headquarters in Montreal. He is director of the Great Western Railway, the St. Clair Tunnel Co. and the Detroit, H. G. and M. Co. His resignation caused a great deal of surprise in Canadian railway circles.

BOY STRANGLER BY LIQUOR.

BELLEVILLE, Aug. 16.—(Special.)—On the morning of the 13th inst. a boy named McFall was found dead in bed at his parent's home in Marmora Township. An inquest was held at Marmora yesterday when it was ascertained the boy, who was 14 years of age, had the previous evening obtained a quantity of liquor and drunk it. Strangulation caused his death.

Borden has given his solemn word that his naval policy will be submitted to the people. He said, "The only way he can submit his policy is by way of a general election, and I think he will call for this, using redistribution as an excuse." He said that the Liberals were ready for anything the premier wished to spring, and they were quite satisfied with the situation.

Ward Seven

Since one side of Dundas-street has been closed, owing to the alterations being made to the car tracks, much of the heavy traffic which hitherto used this street is transferred to Annet-street. The result is that from Inglewood to Keele-street the dust is worse than ever before. At the crossings it is ankle-deep, and numerous complaints of ruined dresses have been sent in. The roadway on this part of Annet-street is not even macadamized and the depth of the dust, which must be formed, may be imagined when one thinks of the continuous procession of heavily-laden trucks, lorries and brick and gravel wagons which pass over it during the day. The board of education yesterday took out a permit for a truck containing well along their property on Clendenan-avenue, near the new Annet-street public school. It will cost about \$7500. Instead of retracing the old Keele-street "Y" the street railway company are going to lay a new "Y" on the south side of Keele-street. Formerly the cars turned down Keele-street towards Weston, and then backed up to Dundas-street in the Lambton direction. When the new "Y" is finished the cars will turn south and back up north to Dundas-street. As promised two weeks ago a day and night gang are now at work upon the relaying of the tracks on Dundas-street. With this impetus given to the work, it is to be hoped that the cars will be running as far as Keele-street by the time the exhibition opens. The Dominion Carriage Co. and the Beavers will play the first game of the West Toronto Baseball League to-morrow afternoon at 2 o'clock at the Perth-avenue diamond. At 4 o'clock the Claremonts will endeavor to take a fall out of their old rivals from the Russell Motor Car Co. Penny Law's aggregation of players play the Matlands at Lambton Park to-morrow afternoon. This game will see the final of the Senior City League games between these two teams for this year. "Jack the Peeper" in Kingston. KINGSTON, Aug. 16.—(Special.)—Jack the Peeper is well known to the different parts of the city, and he has been seen in the yards and back lots of the city. The police are hot on his trail.

DANCING PREDICTS AN ELECTION

Hon. George P. Graham Thinks Government Will Go to Country. Hon. George P. Graham, ex-minister of railways, predicts a federal election within the next year and a half. When interviewed at the Prince George Hotel yesterday he said that the naval policy and redistribution would bring about the next tussle between the Conservatives and the Liberals. "Mr.

WILLIAM FORSTER DEAD

Former Torontonian Passed Away at Swift Current on Sunday. William Forster, aged 83 years, who three years ago went west to homestead, after several years' residence in Toronto, died last Sunday in Swift Current, Sask., following a paralytic stroke. The funeral will take place here in St. James' Cemetery. The late Mr. Forster came to Toronto in the eighties from the North of Ireland. When 52 years old, he believed that he was not too old to farm, so he went to Swift Current to "prove up" some land. He is survived by three sons, Frank G., who is regarded as perhaps one of the brightest men behind Hon. Fred Haultain, Conservative leader in Saskatchewan; William A., a well-known local contractor; and James H., one of the managers in T. Eaton Company's store, Winnipeg.

The Most Desirable of the City Suburban Districts Are to the North and That is Where the City is Showing the Greatest Development.

BRIAR HILL PARK

Is situated about four miles north of King Street, a short distance west of Yonge Street. It is delightfully located on one of the highest points in North Toronto district, directly north of Upper Canada College. In what is acknowledged to be the best restricted district in and around Toronto, city conveniences are available. Convenient to colleges, schools, churches, stores, banks, bowling greens and golf links. Has excellent transportation facilities to-day, and which are to be greatly added to in the near future. Notwithstanding all these advantages, lots may be secured now for homesites or for investment at

No Taxes This Year

There has been a Phenomenal Demand for Lots Up To Date--and Building Operations have already commenced--Development will be Rapid and Values will Go Up by Leaps and Bounds.

Now Is the Time to Buy

On Civic Car Lines DANFORTH-WOODBINE PARK is right between two civic car lines. The Danforth line is now actually in course of construction from Broadview east, and will be all completed within a few months. The Gerrard Street line is rapidly approaching completion as well.

THE BLOOR STREET VIADUCT--When the Bloor Street viaduct is constructed it will connect this thoroughfare with Danforth Avenue direct, and will then form one great continuous busy highway--making a great avenue of business--and will be in closest touch with DANFORTH-WOODBINE PARK.

These Transportation Facts are a Guarantee for an Assured Handsome Profit to the Investor.

IF YOU BUY FOR A HOMESITE--DANFORTH-WOODBINE PARK is in a particularly desirable section for the home of the workman, artisan, and the mechanic, as it is convenient to a large section of the city which is developing into A GREAT MANUFACTURING CENTRE.

IF YOU BUY AS AN INVESTMENT--DANFORTH-WOODBINE PARK is a particularly desirable section, a district where from its very situation and the transportation facilities, which will be completed within the next few months, VALUES ARE BOUND TO RISE RAPIDLY. BUY NOW, and by the time you wish to turn your property over these transportation facilities will be there, and will put this great section in the East in as close touch with the heart of the city as Dufferin Street in the West is to-day. DANFORTH-WOODBINE PARK is the last piece of unimproved property between East Toronto and the built-up sections of the west of it.

IMPROVEMENTS--Sewers, Water, Gas and Electric Lighting are now being arranged for, and will be provided in near future.

LIBERALS ADHERE TO NAVAL POLICY

Ottawa Free Press Quotes Prominent Party Leader's Statement, That Attitude is Unchanged.

Gunmen on Trial Starting Sept. 3

NEW YORK, Aug. 16--(Can. Press).--With District Attorney Whitman out of town for the week-end and the grand jury not in session, interest in the Rosenthal murder and its core of police graft referred to-day in Governor Dix's appointment of Supreme Court Justice Goff to hear the cases in an extraordinary session, beginning Sept. 3. Justice Goff's selection at this time comes before all indictments in the case have been returned. Becker alone having been indicted so far for murder, but the district attorney's staff regards the return of the other true bills as a foregone conclusion. They will be handed up probably early next week, after the testimony of Sam Schepers has been heard.

First to be placed on trial, according to present plans, are the gunmen. Becker's trial will likely come last. John F. McIntyre, counsel for Becker, is in Baltimore to-day, but he has said that his client is ready to go before the bar at any time.

Twin Elector Plan is Dishonest, Says Taft

WASHINGTON, Aug. 16.-(Can. Press).--President Taft to-day made his first political speech since that he made when notified of his re-nomination.

He declared bluntly that presidential electors names appear on the Republican ballot and intended to vote for the candidate of another party.

He asserted that those who were not for the Republican party were against it and should get out of the way.

"All we ask is a fair fight. A man cannot be in the Republican party and in a third party at the same time and should be compelled to make his selection," said the president.

ANOTHER SUDDEN SPURT IN CHICAGO'S WHEAT PIT

Consistent Demand from Shorts Carries Prices Higher—Wet Weather in West Behind Movement—Corn and Oats Stronger.

CHICAGO, Aug. 16.—Unsettled weather and a continuance of cash demand helped to run all grain values up to-day. At times shorts, seeking to cover, induced rapid advances. The close was strong in all lines with wheat from 5-8c to 7-8c up. Corn finished from 5-8c to 1c higher, and oats showed a gain of 3-8c to 5-8c, while provisions were from 1c to 1 1/2c higher.

Expectations of lighter arrivals based on heavy weather forecast for practically the entire producing area was a large factor in advancing wheat prices. This was supplemented by a steady increasing demand and strong cash market. Lower cables, based on better crop conditions in the United Kingdom and prospects of increased demand and South American shipments, had little deterrent effect.

Spot corn fell the upward induced by showers over the northern part of the corn belt more than the distant demand. The market was strong all day, the wheat held prices within moderate limits and offerings of oil crop increased. Cash products were higher with a fair demand. The close was near the top, September making a net gain of 1c.

Cash followed the major grains with narrow limits, being responsive to similar market conditions in which the weather and cash demand played a large part. Export business took about two-thirds of the cash sales, which totaled 305,000 bushels. The close was slightly below top prices.

Increased demand for the January product was a salient provision feature. First month pork finished 12 1/2-13c higher.

GROWN CHARTERED MEETING NEXT WEEK

Big Shareholders to Discuss Future Plans for Company—Uncertainty as to Payment.

It is stated in local mining circles that no official notices have been sent out, that a meeting of Crown Chartered stockholders of Rochester, New York, Montreal and Toronto will be held in this city next Thursday afternoon, probably at the King Edward, to discuss matters relative to the future work to be done at the property. John P. Hefferan of Montreal, Dr. Barber and Solicitor Durand of Rochester, N. Y., are expected to be present.

BOARD OF TRADE MEN SAW GOLD "CLEAN-UP"

Visitors to Hollinger Mine See \$18,000 in Molten Gold Made Into Brick.

SCHUMACHER, Ont., Aug. 16.—Members of the Associated Boards of Trade stood on barrels and boxes in the "clean-up" house of the Hollinger mill morning and watched \$18,000 in molten gold poured into moulds. The process of retorting happened to be in progress when they walked over to the Hollinger, so they were able to see the proof of the wealth of the mine. Later they inspected the gold brick which represented the weekly "clean-up" of the mill.

At the Dome they witnessed a whole hillside of gold ore being quarried and drawn, a ton and a half in a car, to the mill, which is now turning out its bullion daily.

South Porcupine paid its respects to the visitors who they entrained for the journey southward.

COBALT, Aug. 16.—A record was made for value of shipment of ore taken yesterday by the McKimley-Darragh, which sent out a car valued at \$142,241. The previous record was held by the Casey mine, which last June sent out a car of high grade value of \$132,235. Prior to that time the Timiskaming held the record on a \$127,000 car, shipped early this year.

GOOD DEMAND NOTED FOR COBALT STOCKS

McKinley Darragh Leads Silver Mining List—Prices on Up Grade—Hollinger at Advance—West Dome Offered at 8.

World Office, Friday Evening, Aug. 15. Responsible bidding for the Cobalts was, in effect, the only feature of an exceedingly dull session of the mining exchanges, and while little appreciable change was made in market prices, the sustained demand was hailed as a significant factor. Some of the lesser lights, which have not appeared on the quotation list in some time, were asked for, and in some instances bids were raised by large fractions without attracting any offerings.

During the last month there has been a quiet accumulation of bids, and a revival of public interest in the near future. The new issues have not been brought to the front by the resumption of work on so many properties which had been considered practically down and out, and by the belief that a given fair chance, the so-called "dead ones" would eventually return something to their owners.

McKinley Darragh leads the silver mining list, with prices on an up grade. Hollinger is at an advance, and West Dome is offered at 8.

The Test of an Investment

Before a shrewd investor puts his money into any proposition, he asks regarding it three questions: 1st—Is it safe? 2nd—Will it yield a fair rate of interest? 3rd—Will it grow in value?

SAFETY—The Company own 240 acres of patented lands situated in Coalinga, California, the richest district in what is admitted to be the greatest oil fields in the world.

YIELD—It is a conceded fact that no other industry pays the returns that are monthly being distributed by the producing oil companies of California.

GROWTH IN VALUE—That the property behind this stock, and therefore, the stock itself, will constantly increase in value is a certainty.

Bank of Ottawa To Issue Capital--Stock Market Apathetic

HOLIDAY TRADING RULES MARKET

Toronto Railway the Only Feature--Industrials Are Strong--Rio Not Dealt in in Toronto Exchange.

The apathetic nature of the Toronto Stock Exchange yesterday was plainly exemplified in the fact that transactions in Rio, usually the most prominent issue in the list, were limited to just one share of the new stock, which was offered to the shareholders last January. Bids appeared at intervals on the old stock, but at no time were buyers and sellers at all on a parity. The close was at 147 bid, a point below the last sale on Thursday, but of course that fact was not to be accepted as indicative of a weaker disposition, since a bid quotation may be put in at any level. Sao Paulo was traded in on a very small scale, the total transactions amounting to less than a full board lot. The price held around 23, and at the close the shares were still on offer there, with no bids in evidence. Sao Paulo dropped receipts sold at 25, a full two points under the last previous sale put thru at the close of last week.

The real feature of the day was a further advance in Toronto Railway, which sold up again to 144, a net gain of two points for the day, and 3 1/2 points above Thursday's low. The buying was reported as being for Montreal account and the most significant feature of the movement was the small amount of stock which came out on the advance. The shares closed at 143 1/2 bid.

Continued strength in some of the industrials kept those issues well in the limelight. Locomotive was the feature, with a further bulge in both the common and preferred stocks. The common closed at 25 bid, up a couple of points, and the preferred reached 55, a full two points above the previous day. Steel Co. preferred rose nearly a point at 92, for a broken lot. The Bunt was in good demand, the common at a two point gain to 116, while the preferred moved up half that amount to 113. Spanish River, Canam, and Winnipeg Electric were earlier, the former changing hands at 62, over a point below the former sale.

Bank Ottawa To Increase Its Capital

Announcement is made that the Bank of Ottawa will issue \$500,000 par value of new stock to shareholders of record on August 31 next, at \$200 a share, in the proportion of one share of new stock to five shares of old stock. This is the second increase in the capitalization of Canadian banks to be announced within the week, the Bank of Nova Scotia having signified its intention to put out \$1,000,000 par value of its stock to shareholders at \$240 just a week ago.

The Bank of Ottawa was founded in 1874, when the capitalization was \$1,000,000, which became paid up in 1885. In September, 1891, there was an increase of \$500,000. In December, 1897, authority was given to increase the capital from \$1,500,000 to \$2,000,000. A bylaw was passed at the annual meeting on December 10, 1902, authorizing an increase of the capital from \$2,000,000 to \$3,000,000 and again on December 11, 1907, a further increase in the authorized capital to \$5,000,000 received the assent of the shareholders. Allotments of capital stock have been made from time to time as follows: Previous to 1885, \$1,000,000; October 31, 1891, \$500,000 at 142 1/2; September 30, 1899, \$500,000 at 175; February 2, 1903, \$500,000 at 190; November 15, 1905, \$500,000 at 200; November 30, 1909, \$500,000 at 200--a total of \$3,500,000.

The Bank of Ottawa at present is paying a dividend of 11 per cent, and last year its net earnings amounted to 17.01 per cent, on the paid-up capital. The stock has been ruling around \$210 in the open market.

LOWER TREND IN WALL STREET

New York Market Influenced by Political Situation--Specialties Continue to Show Much Buoyancy.

NEW YORK, Aug. 16.--Further modification of recent bullishness was suggested by the trend of stocks today. The speculative favorites were under pressure most of the session, particularly the important railway issues, which have shown a considerable degree of heaviness in connection with the agitation accompanying the Panama Canal bill at Washington.

Coppers and equipment stocks figured more than proportionately in the day's moderate dealings, which were marked by frequent pauses. Chino was the feature of the metal shares, the convertible bonds as well as the stock registering material gains. Other specialties were active and strong, including Pullman Car, which made its best price in several years, while American Tobacco was conspicuously weak. On the other hand some of its former rallies were up 1 1/2 points.

For the first time this week Canadian Pacific showed the result of liquidation, while Union Pacific, St. Paul, Reading, Lehigh Valley and Steel barely preserved an even position until the final hour, when, after selling at lowest quotations of the day, they rallied to a level which left a majority of net gains. This late recovery was generally ascribed to Washington despatches stating that the senate had refused to pass the steel tariff bill over the president's veto.

European financial conditions were without direct bearing on our market. Paris prices were firm with irregularity in Berlin.

Every day sees a new shipment of fabrics, each more beautiful than the last; from rich, expensive brocades to dainty washing chintz, the same great care is shown in the selection of each piece.

NEW "COLONIAL" FABRICS.
"Colonial Fabrics," one could easily believe these the daintiest, most artistic range of drapery materials manufactured. The names carry a charming suggestion: Versailles Chintz, Mag-nolia Taffetas, Reillys Taffetas, Gloria Tickings, etc. There is a profusion of beautiful colors. All are 34 inches and 36 inches wide. Prices range from 30c to 75c yard.

REVERSIBLE VELOURS FOR PORTIERES.
Imperial Linen Velours, rich and durable. The pile is thick and full, making very effective hangings. Our new stock includes all the leading shades of green, brown, tobacco, blue and crimson, 50 inches wide, yard **2.00**

BLACK TAPESTRY.
Silk Mercerized Tapestry Curtains, in all colors and many prices. One certain selling at \$6.99 is well worth special mention, taking the range from \$2.25 per pair up to \$18.00; the selection cannot be bettered, as we ask you to prove for yourself by calling here Monday.
