# WAS THE EMPEROR TORTURED?

Rumor That a Red Hot Iron Was Thrust Through the Chinese Ruler—Mud Thrown at Europeans by Drunken Rowdies—The Trouble in Africa Apparently Not All Over Yet—News by Cable.

London, Oct. 1.—A special despatch from Shanghai says the announcement of the death of the Emperor is confirmed. The reports as to the means employed in his taking off differ. One story has it that he died by poison, and another that death was caused by strangulation, while a third states that he was subjected to frightful torture, a red hot iron being thrust through his bowels.

Europeans "Maddened."  
During the celebration yesterday of the festival of the Moon the drunken crowds which had gathered upon the streets threw mud upon Europeans who made their appearance. As a precautionary measure, the Russian Legation ordered an escort of Cossacks from Port Arthur. The British Minister ordered here a guard of 25 marines from Wel-Hai-Wel.

Another Bad Symptom.  
London, Oct. 3.—According to a despatch to The Times from Shanghai Hual-Ta-Pou has been appointed President of the Court of Censors and a member of the Grand Council. He is Hung Lu's chief supporter, and was recently dismissed from office by the Emperor. The projected imperial review of the forces at Tien Tsin has been abandoned.

French Admiral Advises Vigilance.  
Toulon, Oct. 1.—Admiral Humann, in the course of a farewell speech to the officers of the evolutionary squadron at the close of the naval manoeuvres, said that the friction in international interests was becoming more accentuated. Eventually which every soldier and sailor ought to look in the face, without, however, desiring them, impose the duty of vigilance on the forces.

Funeral of Queen Louise.  
Copenhagen, Oct. 1.—The date of the funeral of Queen Louise has not been fixed, but it will not be held prior to Oct. 4. The interment will probably be in the ancient cathedral of Roskilde, where most of the Kings and Queens of Denmark are buried.

Big Meeting of Afridis Summoned.  
Simla, Oct. 1.—General Egerton has summoned a great gathering of Afridis to meet at Peshawar, on Oct. 24, to hear the announcement of Great Britain's terms respecting the passes between Afghanistan and India.

Lord Bessford at Hong Kong.  
Hong Kong, Oct. 1.—Rear Admiral Lord Charles Bessford, who is on a special mission to China, arrived here to-day and will proceed directly to Peking.

HAD CHAMPAGNE TOGETHER.

Marchand Was Amicable When Kitchener Helped Him Out.  
London, Oct. 3.—A despatch from Cairo to The Daily Telegraph confirms the statement that Major Marchand had one brush with the Derwish gumbats, which had gone to fetch reinforcements. He was in sore straits and numbers of his men had died and deserted. On the arrival of the Sirdar he had the entire force of about 120 Senegalese and five Frenchmen entrenched on a small tongue of land. The natives in that vicinity were very menacing.

Major Marchand came to the water's edge to meet the Sirdar and chatted amicably with him. The Frenchman produced some champagne and drinks were had all round.

Marchand Promoted.  
Paris, Oct. 2.—Captain Marchand has been promoted to the rank of major.

French Flag Degraded.  
London, Oct. 2.—"Vanity Fair's" correspondent with the Nile expedition writes that Gen. Kitchener declared that a French flag was sent to the Khartoum at Ghardaia. But, it appears, its reception was undignified. The Derwish leader gave it to his Arab slave, who used it for cleansing himself before prayers.

Reinforcements Ordered Forward.  
Cairo, Oct. 2.—Reinforcements have been ordered from Omdurman to Ghadardah. Where the force under Col. Parsons has repulsed another Derwish attack with slight loss. There is no news from Fashoda, but in all probability Major Marchand will shortly evacuate his position there.

MONEY COMING SLOWLY.

Subscriptions for the Barbados Hurricane Sufferers Not Rapid.  
London, Oct. 1.—The subscriptions to the Lord Mayor's Fund for the relief of the sufferers by the recent hurricane in the British West Indies, are coming in quite slowly, and it is thought by many persons that if efficient aid is to be extended it will have to be by means of an Imperial grant.

A deputation from the West Indian Committee to-day waited on Lord Zetland, Parliamentary Secretary of the Colonial Office, and expressed the opinion that Imperial aid, probably on a large scale, would be required to relieve the distress, and to help those whose homes and crops were wrecked on their feet again.

Lord Zetland, on behalf of the Government, expressed great sympathy with the sufferers, and said that he would report the observations of the deputation to Mr. Joseph Chamberlain, Secretary of State for the Colonies, who is at present visiting his wife's relatives in the United States.

BAILLIFF IN ZOLA'S HOUSE.

Octave Mirbeau Offered to Pay the Damages, But the Authorities Would Not Accept It.  
Paris, Oct. 1.—Octave Mirbeau's offer to defray the damages obtained against M.

Zola by the handwriting experts in the Dreyfus and Esterhazy cases, who charged him with slander, has been refused by the representative of the experts, because M. Mirbeau insisted that "full reserve" be mentioned in the receipt.

The judgment against M. Zola not having been satisfied, a process server, "valet" and clerks this afternoon visited the novelist's residence for the purpose of taking an inventory, etc., of the property there, for use in the judicial sale that has been ordered.

Admittance was refused by Mme. Zola, whereupon they forced an entrance. Mme. Zola, who had obtained counsel's opinion that M. Mirbeau's protest was valid, indignantly expostulated, but the bailiff was unmoved and listed the tapestries, paintings and other art treasures and belongings in another room. Mme. Zola's bedroom and the other apartments in the house. This incident will lead to another lawsuit.

Thinks Uncle Sam Would Help.  
London, Oct. 2.—The Standard says editorially this morning that it is convinced England could confidently reckon on the support of the United States in Japan in the execution of necessary measures in China.

Clyde Shipbuilding Booming.  
London, Oct. 2.—Eighteen vessels were launched on the Clyde in September. The tonnage of 45,922 is the record for this period. The total for nine months is about 500,000 tons. A few fresh orders during the month have congested the yards.

Will Not Wait for Marchand.  
Paris, Oct. 2.—In order to avoid loss of time the British and French Governments have decided not to await the arrival of Major Marchand's report, but begin negotiations immediately for the settlement of occupation of Fashoda.

An Important Musical Event.  
The keenest interest in the achievements of two young Canadian musicians will doubtless be displayed on Monday evening of next week when Miss Huston and Mr. Tripp give their piano and song recital in Association Hall. Both are old favorites, and both have been abroad long enough to justify the public in expecting a very finished rendering of the various numbers of their program. The plan opens to subscribers on Wednesday next at Gounay, Winter & Leeming's, and those who desire first choice of seats should either purchase subscription tickets or get their names on the subscription lists, which are in all the leading music stores. Remember it is a week from to-night.

Irishmen "Agitate" the Alliance.  
Cork, Oct. 2.—An orderly demonstration took place in the afternoon of the laying of the foundation stone by the mayor of the city, of a monument in memory of the Irish revolution of 1790, 1808, 1816 and 1847. Several Irish members of the House of Commons were present. A resolution was adopted congratulating Irish patriots on their patriotic efforts to prevent the forming of an Anglo-American alliance.

Insurgents Whipped.  
Madrid, Oct. 2.—A despatch received here from the Visayas Islands says the Tagales have been completely defeated by a Spanish column, after a sharp fight, in which 94 of the insurgents were killed.

CAROLINE MISKELL-HOYT DEAD.

Well-Known Actress and Daughter of Prominent Toronto Tobacco Merchant.  
New York, Oct. 2.—Caroline Miskell-Hoyt, one of the most beautiful women on the American stage, the wife of Charles Hoyt, who was born in Covington, Ky., on Sept. 15, 1873. She was Miss Caroline Scates. Her family has resided in Toronto for many years, her father, Job Scates, being a well-known wholesale tobacco merchant in that city. Her first appearance on the stage was with Robert Mantel. Later she played a season at Jaly's Theatre in this city. She made her first appearance in any of Hoyt's productions in "A Temperance Town." It was during this engagement she became acquainted with Mr. Hoyt, whom she married on March 4, 1894. She retired from the stage at that time, permanently it was said, but returned last year in one of her husband's plays, "A Contented Woman."

A Rush for Coon Furs at Dineen's.  
The greatest day for Coon furs ever experienced in any fall since Dineen's began business, over 30 years ago, was last Saturday. More Coon Coats and Coon Jackets were sold between 8 o'clock in the morning and 4 in the afternoon, on that day, than were ever sold through an entire week. Hunters say that the goosebore in winter this season than usual and predict great ing up furets stores in the woods are lapped with frost. The demand for Coon furs must be something else, even more reliable, which would demand for Coon furs so early this year. A week ago Dineen's advertised Coon fur prices. But the response did not come to the new store, 140 Yonge-street, cor. Temperance, until last Saturday—when it came with a rush.

Four Miners Burned to Death.  
Wilkes-Barre, Pa., Oct. 2.—Four miners were burned to death in the Midvale slope of the Lehigh Valley Coal Company at Midvale yesterday. A fire broke out at the slope about noon. At the time there were 170 men in the mine. All were gotten out but four.

Edwards-Baugh & Co., patent selection: excelsior, hair, comb, brushes, toothbrush, soap, etc.

Mr. Fred Vize, the popular young comedian who entertained many benevolent entertainments last winter, has arrived in the city and will be heard from this season again, as he is booked for a number of engagements.

## ROSSLAND MINES BOOMING

The Output of Three Properties Aggregates a Rate of Six and a Half Millions a Year.

Rosslund, B. C., Oct. 2.—(Special.)—The expectations of the most sanguine mining men are now being realized. Three mines are shipping ore to the value of \$4,500,000 a year, and several others are ready to double the output as soon as the owners see fit. Twelve hundred men are working in the mines and drawing \$125,000 a month. The payroll will be largely increased within a month, when Le Bol, War Eagle and Centre Star will employ 900 men. The shipments for last week again break the record, aggregating 4619 tons. Of this Le Bol shipped 2907, War Eagle 1500 and Iron Mask 62.

## LACERATED BY A LION.

Animal Trainer With a Circus Struck by One of the Beasts and May Not Recover.

Better Mont, Oct. 2.—Walter Blanchard, better known as Zeke Walters, the animal trainer with Lehman Bros' Circus, was attacked in the lion cage by one of the lions, who felled him with a blow on the head with its paw and continued the attack as he lay prostrate. Walters grabbed one of the bars of the cage and drew himself to his feet at the same time attempting to fight off the brute. Almost blinded by blood from the wounds in his head, Walters dragged himself to the door at the rear of the cage. Unfastening it he leaped to the street and fell unconscious to the ground. The door slammed shut after his exit, thus preventing the escape of the animals. Walters' back is terribly lacerated. The doctors say he cannot live.

## DEATH OF ALEX HUNTER.

A Popular Employee of the G. N. W. Taken Off by Typhoid.

Alex Hunter, aged 37, for over 30 years assistant chief operator Great Northwestern Telegraph Company, this city, died at his home at an early hour this morning of typhoid fever, after an illness of ten days' duration. He was well and favorably known to the telegraph fraternity throughout the entire Dominion. He was a member of the Queen's Own Regiment and participated in the memorable Fenian Raid of '66, being one of the first to go to the front from Toronto on that occasion. Loyal to his country and to the interests of the corporation he served, his co-laborers lose a true friend and the company a trustworthiest servant. Mr. Hunter is survived by his widow and five children—two sons and three daughters.

## DIFFERENCES NOT GREAT

And in the Opinion of Lord Herschell They Will Be Easily Overcome.

Montreal, Que., Oct. 2.—(Special.)—The dinner to Lord Herschell last evening by the Montreal bar, presided over by Sir Alex. LaCocque, was a great success. The guest of the evening referred to the amicable feeling that was growing and would still grow between the United States and Canada. He said that one of the chief discoveries of the commission had been that after all the differences between the two countries were slight, and would no doubt be got over.

## TO PLEAD FOR RECIPROCITY.

Hon. D. H. McMillan Has Left Buffalo for Quebec.

Buffalo, N.Y., Oct. 1.—Hon. Daniel H. McMillan started this afternoon for Quebec, where on Monday he will appear before the Anglo-American Commission to make an argument in favor of a reciprocity treaty, which shall so adjust the duties on Canadian barley and on American corn as to make the exchange of products between Canada and the United States more satisfactory. He will urge the commission to recommend a return to conditions similar to those which prevailed in 1890. It is desired that corn from the United States be admitted to the Canadian provinces at a very low duty, or free and that Canadian barley, particularly that from the Bay of Quinte territory, be admitted to the United States practically free of duty. Mr. McMillan will appear before the commissioners as the representative of a very large and important commercial interests.

## BERTHA KILLED HER MOTHER.

Then Fired Four Bullets Into Her Own Body—Was Despondent.

Pittsburg, Pa., Oct. 2.—Bertha Belstein killed her mother to-day and later put four bullets into her body, from the effects of which she cannot recover. The only explanation given for her terrible deed were these words: "I wanted to die and did not want my mother to live and fret over my death."

Frederick Belstein, the father of the family, was one of the best known residents of Allegheny. He died suddenly in December last from apoplexy, and since then the daughter has been despondent.

## BURNED IN AN EXPLOSION

Rusty Nail in His Finger—James McLeod Not So Well-Little Mishaps.

Joseph McLaughlin of 85 Curzon-street, an employee of the Diamond Machine and Tool Company, Wellington-street west, went to the Emergency Hospital last night and had a small piece of emery stone removed from his left eye. John Cowan, who lives at 68 Sydenham-street, works on Mr. George Gooderham's steam yacht as a cook, and yesterday while about the boat he had the misfortune to have a rusty nail run into a finger of his right hand, as far as the bone. The injury was dressed at the Emergency Hospital by Drs. Graham and Sutherland.

James McLeod, who has been lying at the Emergency Hospital for the past week suffering from dreadful injuries received by falling 50 feet in the Gale Building in Mincing-lane, was not so well yesterday. It is expected, however, that he will recover.

Michael Riordan, the young man who was found lying in an unconscious state early Saturday morning on Wellington-street near Simcoe, and was removed to the General Hospital, was able to leave that institution yesterday morning.

Bridget Jacobs of 228 Albany-avenue, while carrying a lamp in her hand Saturday night about 11 o'clock, accidentally let it fall to the floor and it exploded. The blaze caught her skirts and she was badly burned. Dr. Harrington attended her injuries, after which she was taken to St. Michael's Hospital.

# MONCK SOLD HIS VOTE FOR \$3.

That Much Was Proved in the Kingston Election Trial by the Mouth of S. S. Montgomery, Who Was Jailed for Several Hours Before He Would "Peach"—Others Got \$4 and \$5 Each, But Could Not Tell Exactly How.

Kingston, Oct. 2.—Only one charge so far has been proven in the Kingston election protest. S. S. Montgomery acknowledged buying S. Monck's vote for \$3. Before Mr. Montgomery would tell he spent some hours in jail for contempt of court. Three other cases held over, but on Saturday the most of the charges were abandoned or dismissed. There were three sessions of the court, 9 to 1, 2 to 7, and 8 to 11. The judges wanted the trial rushed, as they had much work to do. The election trials were hampering the ordinary litigation of the country.

Early in the day the petitioner's counsel found difficulty because of the absence of witnesses. They had only been paid for Friday and the court held that unless they were paid previously to Saturday they were not compelled to appear and would have to be served again. Counsel argued otherwise, but the contention was overruled. A half dozen witnesses who did appear asked for their fee and got it.

Corroborative Evidence Lacking.  
Case after case came up, in which one man swore he got money and the person accused of giving it to him swore he never made the purchase. There was no corroborative evidence, and the charges were dismissed, the court holding one man's word as good as the other and giving the accused the benefit of the doubt. There were several interesting episodes. It was told by two Conservatives that Michael Sullivan, in a crowd in a gateway, gave money to E. Tyo and M. Stamford. Nothing was said. It was contended by Mr. Edilton that the evidence did not prove that the votes were bought. The judges held that, however suspicious the affair seemed, yet nothing was established. It was suspicious that on election day a voter had been paid money in a gateway, but the fact that it was given before a crowd led them to believe it was not an illegal act. The money might have been paid in connection with a legal debt. Tyo and Stamford were not available.

## THESE WERE \$4 MEN.

Gordon Hardy, Nelson-street, said he and a friend named Harrison got \$4 each for their votes. John C. Hunter got \$5 in an envelope and James Bennett got \$5, but they could not identify any men as having paid them. Hardy found the money at home after he voted. Hunter was given his in the dark and Bennett got his in a cab from a man he has never seen since, and Bryant, who was with the unknown man when the money was paid, was now working in the United States. Chancelor Boyd asked Dr. Walker if he was bringing forward his strongest charges first. "Yes," responded Dr. Walker. "Well, you know," continued the Chancelor, "we are taking away in the same mud heap and getting nothing out of it."

## RICH CLUB MAN ROBBED.

The Calumet of Chicago, Composed of Millionaires, Went to the Scene of a Bold Hold-Up.

Chicago, Oct. 2.—Jewelry worth \$750 and \$150 in money was taken from Gerald M. Alexander, a local business man, early this morning by three robbers, who entered his apartment in the Calumet Club house. He saw they obtained the property the thieves held revolvers to their victims' face and marched him into the closet of his bedroom, where they locked him in. When the trio disappeared Mr. Alexander pounded on the closet door and yelled for 15 minutes, whereupon other members of the club who slept in near-by apartments came to his assistance. The key to the closet had been thrown away by the intruders, and it was some time before the prisoner could be released. His perilous position in the closet, devoid of air.

The Calumet is one of the oldest and decidedly the richest clubs in the West. P. D. Armour, Marshall Field and nearly every local millionaire being numbered in its membership.

## QUEBEC ITEMS.

Marblehead Under Orders—Cotton Mills for Chicomint.

Quebec, Oct. 2.—The American munition firm Marblehead is under instructions from Washington to be ready to leave the port of Quebec at any moment for the south.

Yesterday morning at 5 o'clock a man named Magloire Cariveau, a turner by trade, living on St. George-street, was found dead in his bed.

A scheme is on the tap for the establishment of large cotton mills at Chicomint. The future capital of the Saguenay is making marked progress. The house building has been quite extensive this year, and many new streets have been opened.

The great military church parade at 2 o'clock this afternoon was a grand success, and was witnessed by many thousands. Major-General Hutton was in command.

## A NEW KIND OF THIEF.

A comical kind of larceny these days is that of the glass globe for incandescent electric lights. There are men going about who do not hesitate to unscrew a globe and slip it into their pocket and then sell it, and there are others who keep their own lights supplied with globes that they rob from public buildings, hotels, newspaper offices, etc. There are still others who make the company proprietors of the globe-globes company or concern that employs them keep them in globes for use at home.

**Character of the Ore in the Le Roi Mine.**

**How it Has Varied in Quality From the Surface to the Present Lowest Workings—Increased Percentage of Copper Found With Depth—Little Free Gold Found on the Property.**

As the Le Roi is a pioneer among Rossland mines, the variance in the character of its ores from the surface downwards is of interest. Mr. Nicholas Tregear, superintendent of the property, is quoted at length on the subject, and, according to him, an increased percentage of copper and a slight increase in the siliceous character of the ore are the only changes in the character of the Le Roi ore that have demonstrated by increased depth. In the way of gold and silver values they have been practically the same from the surface down to the 700-foot level. There seems to be little probability that the future development of the property will show any material change in the character of the ore as depth is reached. Free gold is, of course, associated with the siliceousness of the ore, and since the company have seen only two samples of visible free gold from the whole property. In the west 450-foot level, the ore once found a piece of calcite that was fairly representative with the precious metal. Captain Hall, the late superintendent of the property, picked out dozens of pieces of gold with his pen-knife, and then had it assayed. It went \$1400 to the ton, and the 500-foot level was found a bit of free gold specimens represent all the visible free gold ever seen coming out of the mine.

One can take the iron oxides found on the surface of the ore, however, and find native copper, too, which has never been seen in the underground workings. It is a splendid ore on the surface of the Le Roi. One can get a \$100 assay without difficulty right from the very top of the ore. In the early days two magnificent pieces of the property shipped some \$17,000 worth of ore from an open cut near the present machine shops. As the ore has been packed out on the surface, it is plain that it must have been of very high grade.

The surface cut from which the ore was taken shows that at the grassy level the red ledge is about 12 feet in width. As depth was reached it steadily increased in size until at the 450-foot level the vein reached the enormous width of 50 feet, and for the full width of the ledge.

From the surface down to the 600-foot level the vein was divided into three distinct streaks. Next to the hanging wall was a fine streak, where the smelting ore was found. Underneath the smelting ore lay a large body of siliceous ore, and next to the foot wall was a deposit of low grade iron ore, carrying values around \$3 and \$6.

Down at the 700-foot level, which at present is the deepest working in the ore, the siliceous ore and the iron ore have given way to a solid body of clean smelting ore 28 feet wide. Every opening and road crossed down by the ore, and to the smelter, it is impossible to sort it.

**Iron Mask Deal.**

Extracts from a report just received from Rossland by a firm of brokers: "As regards the Iron Mask deal, the option is off and as we understand it, Mr. Williams would put up his deposit before examination and the experts were ordered out of the mine before examination was completed."

**The No. 1.**

The development of the No. 1 continues entirely satisfactory. The ore body in the tunnel has widened from six to seven feet in width. The ledge is now much wider. The vertical shaft is now down 133 feet. Arrangements are being made for the No. 1, and three drills are now employed on the property. Of these one is in the face of the tunnel and two are working in the shaft. Superintendent Long has been handicapped in the past by the lack of power, for the air was obtained from a local compressor, which was badly crowded. With the additional air from the Le Roi plant Mr. Long will be able to push operations on both properties.

**Development of the Josie.**

The Josie is being developed entirely at the 300-foot level at present, in accordance with a plan of exploration which includes the general exploitation of the mine at that point. The ledge is broken considerably, and the problem of understanding the system of breaks is to be solved.

**PLEBISCITE RETURNS.**

Straggling returns of Thursday's voting are still coming in. The most notable feature is the overwhelming vote against prohibition in Quebec. Hence County Five is anti-prohibition. At Rimouski 1664, Montmagny 1298, L'Islet 1145, Lewis 242. Manitoba shows additional majorities for prohibition, and some Ontario constituencies are adding to their majorities "for." North Brant shows 1014 that way, and Bothwell 1206. North Grey gives a prohibition majority of 1106, and South Grey almost as much, while Centre Wellington goes over 900. Nipissing is against by 317. British Columbia, as far as heard from, gives a majority of 488 for.

**ENCOURAGING INCREASE—Exports From Toronto Are Picking Up, Though Imports Were Light.**

The returns of the Inland Revenue division of Toronto for the month of September are:

Spirits, ex warehouse	\$47,642 81
Malt, ex warehouse	14,238 75
Tobacco, ex factory	443 50
Tobacco, ex warehouse	15,237 75
Acetic acid, ex factory	3,072 06
Raw leaf, ex warehouse	1,941 50
Cigars, ex factory	1,503 03
Cigars, ex warehouse	1,718 33
Bonded manufactures	1,429 66
Methylated spirits	2,501 27
Petroleum, insp. fees	633 80
Other revenue	356 00
Licenses	1,000 00
Total	\$89,846 45

The goods brought into the port of Toronto of date showed an increase of over \$30,000, as compared with last year. During September, 1897, free imports totalled \$607,106, while in September, 1898, they amounted to \$630,967. The different items last month were: Products of the mine, \$142,401; products of fisheries, \$2083; products of the forest, \$12,452; animals and their products, \$94,363; agricultural products, \$37,139; manufactures, \$227,105; and miscellaneous, \$120,031. Notwithstanding the fact that there is a marked decrease in the value of imports, the statistics of exports show an encouraging increase, that of bacon and animals alone amounting to over half a million dollars.

**ACTOR EMERSON A FREE MAN**

**Verdict of Not Guilty Returned by the Jury in London.**

The decision was cheered by the crowd in Court—After the Result Was Announced Emerson Walked Out and Received the Congratulations of His Friends.

London, Oct. 1.—William Emerson, the actor, was found not guilty this afternoon on the charge of murdering James Tuttle at the Music Hall on the night of April 1, and he is now a free man. The jury in the case retired to their room at 10.15 o'clock this morning, and at 15 minutes to 2 it returned and announced its verdict. The crowd seemed to rise together, and the probable outcome of the deliberations of the chosen twelve. Many ladies were in the audience and were keenly interested.

The hands of the clock pointed to 1.45 as word reached His Lordship that the jury had come to a decision, and Deputy Sheriff Cameron ordered the jurors to be brought into the box.

When they took their places every eye was upon them, but their looks were never have indicated what conclusion had been reached.

A minute later Emerson and his wife took their places, the former in the box and the latter beside the counsel for her husband.

When the question, "Is the prisoner guilty or not guilty?" and the answer "Not guilty," were given and answered, a death-like silence passed over the room, followed by a scene which probably has never been witnessed in the court before. The crowd seemed to rise together, and the cheering could have been heard a block away.

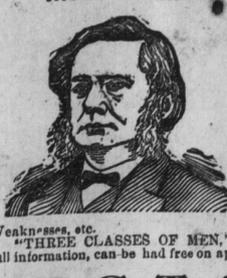

Mr. Heyd, the Crown counsel, announced that there were no further charges against the prisoner. Emerson walked out of the dock surrounded by many friends, after saying good-bye to jailer, turnkey and the matron. Meanwhile a band had been telephoned for, and when the Emersons were ready with light step they walked to the street in front of the great hall of justice and entered the hack which had been engaged. Ed. Flock. When they appeared a great cheer arose, and continued during the trip to the Griggs House.

**IN THE HIGH COURT OF JUSTICE.**

The Master-in-Chambers: Tuesday, the 27th day of September, 1898.

Between the Bank of Hamilton, plaintiff, and C. H. Appleton and R. Pearce, defendants.

Upon the application of the plaintiff, upon hearing the solicitor for the application, and upon reading the affidavit of John Jennings, filed:

1. It is ordered that service upon the defendants, C. H. Appleton and R. Pearce, of the writ of summons in this action, by publishing the same, proceeding the 19th day of October, in the City of Toronto, be deemed good and sufficient service of said writ.

2. And it is further ordered that the said defendants, C. H. Appleton and R. Pearce, do enter an appearance and file a statement of defence to the writ of summons, at the central office of this court, at Osgoode Hall, Toronto, on or before the 9th day of November, 1898.

(Signed) JOHN WINGCHESTER, M.C. The plaintiffs' claim is against the defendant, C. H. Appleton, as endorser, and against the defendant, R. Pearce, as the maker of two promissory notes.

The following are the particulars: Promissory note, dated the 16th day of April, 1892, made by the defendant, C. H. Appleton, and endorsed by the defendant, C. H. Appleton, together with interest and notarial fees \$400 35.

Promissory note, dated the 20th day of May, 1892, made by the defendant, R. Pearce, and endorsed by the defendant, C. H. Appleton, payable two months after date, together with interest and notarial fees \$48 63.

**"OLD NANCE" IN PRISON.**

The Bridgeport Midwife Captured by a Scotland Yard Man in Old London.

London, Oct. 1.—Dr. Nancy Guilford, the midwife of Bridgeport, Conn., who is wanted by the American police on the charge of having been connected with the death of Miss Emma Gill, the young woman whose body, cut into several pieces, was found some time ago, near Bridgeport, has been arrested.

Mrs. Dr. Guilford was arrested by Inspector Preece of Scotland Yard, who has been on her track ever since she landed at Liverpool, from Montreal, on Tuesday last, on the steamer Vancouver. She was taken into custody at a middle class boarding house and gave the name of McCallister, though on first arriving in London she declared her name was Catherine Wilbur. The prisoner was taken to Bow-street Police Court, where she was formally charged and remanded.

**BACK FROM HUDSON BAY.**

Messrs. Parks and Carter Had a Rough Time Up North.

Mr. A. P. Parks, B. A., and Mr. W. E. H. Carter have returned to Toronto on Saturday morning from Moose Factory, Hudson Bay. They left Toronto May 23 and returned after a very long and arduous trip. Mr. Parks, being the Ontario Bureau of Mines to report on the geological and mineral character of this new country.

They went north by way of the Abitibi River, returning by the Mississauga. They have had some very rough but very interesting experiences. They estimate they have travelled in all their fifteen foot canoe with 200 pounds of "dunnage," carrying the canoe and the baggage from 1200 miles, at the hour of 11 o'clock in the forenoon, at his Chambers in Osgoode Hall, in the City of Toronto, to pass the accounts of the Liquidator, and to settle the remuneration of the said Liquidator, and to call parties attention to the 20th day of September, 1898.

They were fortunate in being at the Moose Factory while the annual ship from England was there.

Both return well in health, but having to come back in their "travelled" clothing looked pretty tough, so much so that it was with difficulty they could get entrance to the Pullman car.

They were with the late time about the 10th of August. Mr. Niven expected to start on his return trip from the Moose about Oct. 1.

**A Few Small Blazes.**

An alarm was rung in box 317 at 12.05 p. m. yesterday. A chimney on Front-street, near the corner of St. George-street, was the cause of the alarm. No damage done. A fire in a heap of rags in a lane off Beacoon-street brought an alarm from box 180 at 7.30 p. m. This time an incendiary had started a fire in a shed at the rear of Mrs. Cuff's residence, 127 Lisgar-street. Damage \$5, insured for \$50.

A still alarm came from section No. 2 at 7.40 p. m. Fire was in a shed at 150 Decrepour-road. Damage very slight.

**THE PEACE COMMISSION.**

No Formal Action at the Conference on Paris on Saturday.

Paris, Oct. 1.—There was no formal action at the conference. The members talked in groups for some time before they took their places at the table, and they continued to talk in pairs after they were seated. There were no speeches, the entire session was devoted to mapping out the future work. But even on this point nothing definite was arranged. The two secretaries were ordered to draw up a program, which will be submitted later to the commission.

**Post's Financial Cable.**

New York, Oct. 1.—The Evening Post's financial cable from London says: "The stock markets were lifeless today, except for the monthly statement, showing a big saving in working expenses. Americans were dull on the New York lead. Investment stocks were better on cheaper money. There are faint indications of revival of public interest in America. Whether it will develop depends entirely on politics."

The London market discount rate is 2 1/2 per cent. The supply of bills presented for discount is scarce, which causes ease in time money.

**Degrees at Queen's.**

Kingston, Oct. 1.—Queen's University, as a result of the supplemental examinations, has granted the following degrees: Bachelor of Arts—J. K. Johnston, West Lorne; P. M. Thompson, Allan's Mills. Bachelor of Arts—P. F. Munro, Lancaut; J. A. Sipple, Pembroke; Miss Sophia Williams, Ottawa. M. D. C. M.—H. G. Oglvie, Jamaica; F. F. Kilbourn, Oso Station.

**Change for 1899.**

A good deal of reference is still being observed by the trade in general with regard to the changes that will be made in '99 models. Particularly is this secretiveness noticeable regarding the Cleveland bicycle, which, from the mechanical accounts which have leaked out, promises to prove a revelation in the art of bicycle construction.

WHEAT MARKETS STILL WEAK Chicago Futures Depressed on Saturday.

Continued Large Receipts at First Points and Reports of Freer Movement from Russia Chief Bear Factors—Interesting Statistics of This Year's World's Crop—Notes and Gossip.

Saturday Evening, Oct. 1. Liverpool wheat was heavy today. The spot article declined 1/4 to 1/2 cent and December futures 3/4.

Chicago receipts at primary points and freer offerings from Russia were factors in the maintenance of general weakness in the Chicago market today. The cash article declined and the remote options fell off about 1/4 cent bushel.

December wheat puts at Chicago, 61 1/2; calls, 62 1/2. Corn puts, 29 1/2; calls, 29 1/2. Total clearances to-day: Wheat and flour, equal to 626,000 bushels; corn, 556,000 bushels.

Exports at New York to-day: Flour, 3072 barrels and 20,000 sacks; wheat, 231,435 bushels.

Primary wheat receipts today, 1,601,000 bushels, against 1,308,000 the same day last year.

Wheat receipts at Minneapolis and Duluth to-day, 1,277 cars, against 1,183 the same day a year ago.

St. Louis wheat receipts today, 150,451 bushels, against 11,924 bushels the same day a year ago.

Car receipts of grain at Chicago to-day: Wheat, 622,000 bushels; corn, 556,000 bushels. Receipts of logs at principal points to-day 37,000; against 34,500 a year ago.

In Ohio the work of wheat seeding has been delayed in the western part of the state because of the heavy rain, but the moisture is very beneficial to the seed, and a good stand of wheat is now assured. The early sowing is coming up in excellent shape.

Statistical Snow reports as to winter wheat generally being estimated at 425,000 acres for fall plowing and seeding of winter wheat has been a perfect one. As a result, a heavy increase in the acreage sown to winter wheat is reported from all sections. Seed has germinated evenly and the crop will go forward with a much better outlook than last year.

STOCK MARKETS OF A WEEK

Fall in Industrial Leaders Depressed the List.

Market Has Botted and is Nervous in View of the Congressional Contest Now Under Way—Canadian Securities Irregular, With an Easier Inclination in Some Issues—Notes.

Saturday Evening, Oct. 1. The history of Wall-street during the past week is that of a hesitating and even depressed market. On Monday, Tuesday and Wednesday there were three successive breaks in American tobacco, and the market was in a sympathy.

On Thursday a little better feeling was exhibited, and, with easier money, the general market improved to the extent of a fraction to 1 per cent. Yesterday and today have been marked by the renewed up-the-week after a final break, still heavy, in leading stocks since last Saturday.

The feature of the present market is that it is an almost purely professional one. Some time past the market has been quietly taking large profits, and, as a result, the public has largely "got out of it." Many of the leading industrial stocks have largely discounted the existing favorable conditions, and others have gotten out because of the pending Congressional campaign.

Thus, October opens with a halting and nervous market, which is likely to continue until after Nov. 4, however, if the other side of the market loses its present inertia. Canadian Pacific has been easy for a few days on the somewhat unsteady market, but its recovery is likely to be a sharp upturn.

As for Canadian securities their tone has been irregular during the week, with no general or concerted move in either direction. At the outset on Monday and Tuesday British and Western Assurance moved upward rapidly; they eased off later, and closed the week in sympathy with the market. Canadian Pacific has been easy for a few days on the somewhat unsteady market, but its recovery is likely to be a sharp upturn.

American falls in London today closed 1/2 to 3/4 higher on Monday and Tuesday. Consols, money, closed 1/4 lower. In Paris, 3 per cent. rentes were at 102 1/2.

French exchange on London, 257 3/8. Exports of gold and silver from New York for the week ending today aggregate \$1,001,848 silver and \$13,000 gold. Erie gross earnings for August decreased 42 per cent. over the same month of the year ago. The net decreased \$10,102.

Bank clearings at 89 cities in the United States for the week ending Sept. 24, 1918, an increase of 1.8 per cent, as compared with the corresponding week last year. Outside of New York the clearances were \$460,943,372, increase 1.9 per cent.

The New York weekly bank statement: Surplus reserve, increased \$7,074,275; loans, decreased \$6,588,000; deposits, increased \$760,200; deposits, increased \$1,374,900. The bank now has \$1,327,150 in excess of legal requirements.

On the local market call loans are at 4 to 5 per cent. In New York call loans to-day were at 3 to 4 per cent, the closing loan being at 2 1/2 per cent. The Bank of England discount rate is 3 per cent, and the open market rate 2 1/2 per cent.
