CITY TREASURER'S DEPT. SALARIES TO BE REPORTED ON TO BE THOROUGHLY AUDITED

City Council Agree to Controller Spence's Amendment Giving Auditors a Specific Duty.

NOTHING SPECIALLY WRONG BUT WISE TO CLEAN UP

Investigation into the city treasurer's department is to be the next step in process of civic housecleaning. It was so decided by the city council last night when, on motion of Controller Spence, it was agreed to extend the powers of Accountants Henry Barber and Harry Vizeon to provide for searching enquiry and report, not only into general methods of bookkeeping, but into "any matter connected with the said accounts."

The board of control's original recommendation empowered the accountants to investigate the present system of bookkeeping and accounting in vogue in the various civic departments, and having regard thereto to recommend any changes which they might deem it desirable to suggest, and also that they be authorized to report upon the value of the several civic positions, with a view to their report in relation thereto being considered as a basis for the classification of the entire city service.

The controller succeeded in having appended the following clause: "And to further make an audit of the treasurer's accounts for the year 1907 and a special report upon any matter connected with the said accounts which their investigation may lead them to consider necessary or desirable in the public interest, going as fully and as far back into the accounts as may be necessary for this purpose."

The vote was: For—The mayor, Controllers Spence, Hocken and Harrison, Ald. Bredin, Foster, Keeler, McGhie, Adams, J. J. Graham, R. H. Graham and Hales—12. Against—Ald. Bredin, Whytock, Church, McMurrich and Saunders—5. A Canvassment Salaries.

A previous motion by Ald. R. H. Graham, to divest the accountants of powers to make salary recommendations, was defeated by the following vote: For—Ald. Whytock, McBride, J. J. Graham, Church, Adams, McMurrich and R. H. Graham—7. Against—Controllers Spence, Harrison, Hocken, Ald. Bredin, Foster, Keeler, McGhie, Saunders and Hales—12.

Ald. McBride objected to giving the accountants a commission to go ahead and probe into any department. It might take time and cost a heap of money. The mayor's reply was that experts had been engaged at a fixed sum per day, and that, if council wasn't satisfied to have them there after dealing with one department, it could be dropped.

CABINET COMPLETE. Asquith Announces Several Important Appointments.

LONDON, April 13.—Premier Asquith to-day completed the reorganization of the ministry as follows: C. F. H. Hobhouse, at present parliamentary secretary of the Indian office, becomes financial secretary of the treasury.

C. F. G. Masterman, Liberal member of parliament for West Ham, becomes parliamentary secretary of the local government and Thomas McKinnon, Wood, Liberal member of parliament for Glasgow, becomes parliamentary secretary of the board of trade.

The Marquis of Ripon remains lord privy seal, but at his request the Earl of Crewe, lord president of the council, will be the leader in the house of lords.

T. J. McNamara, now parliamentary secretary of the local government board, becomes parliamentary secretary of the admiralty.

TORONTO MAN'S RISE. Philipa Faribault Commands a Large Salary.

NEW YORK, April 13.—(Special.)—Philipa Faribault, chief of the engineering force of the building bureau, one of the most able and popular officials of the borough government, will leave the service of the city on May 1, to become a stockholder in and chief engineer of the H. T. Moyer Engineering & Construction Co., which has just been incorporated under laws of New Jersey with a paid-up capital of \$25,000.

Mr. Faribault's agreement with the company calls for a salary graded for his first, second and third years, from \$15,000 to \$25,000, in addition to a 5 per cent interest in the income of the concern.

Mr. Faribault is a native of Toronto, Canada, and is in his 46th year. He is a graduate of civil engineering from the Polytechnic Institute, a branch of the Laval University.

UNITED STATES COMPLAINS. LONDON, April 13.—The state department has made representations to Great Britain thru Ambassador Reid with regard to the seizure of two American fishing vessels off Newfoundland. The complaint has been forwarded to Sir Robert Bond, premier of Newfoundland, but he has not yet replied to it.

Councillor McMullen Resigns. FORT HOPE, April 13.—Owing to the customs regulations, John McMullen, who was elected to the seat in council for this town, has been compelled to resign the seat in council he has held continuously, except for one year, since 1885.

To Investigate Gotham

ALBANY, April 13.—Governor Hughes to-day signed the bill of Senator Page, providing for an investigation into the government of New York City. The law authorizes the governor to appoint within thirty days a commission of fifteen persons to enquire into the city government in New York, to suggest legislation, and, in its discretion, to make any administrative code for the city. The commission has authority to delve into all departments.

BREDIN ASKS THAT TWO DEPARTMENTS BE REORGANIZED

Files Notice of Motion Regarding Roadways and Engineering Management.

A brace of motions, of which Ald. Bredin gave notice at yesterday's meeting of the city council, are aimed at departmental re-organization at the city hall, and will create very live civic issues.

The first motion asks "for the transfer of the scavenging and street cleaning department to be placed under the engineer's department for the purpose of avoiding dual control of our roadways, and, by this means, placing responsibility for the condition of our roadways on one official head."

The other motion asks for the appointment of a special committee "to consider and report as to the best and most effective method for the re-organization of the engineer's department, with a view of placing said department on the best possible basis for the conduct of the city's affairs coming under said department."

It is also stated that the ministers are urging the three latter appointed harbor commissioners to help them out at the coming elections, as it is understood that all candidates in the city divisions will be held to pay their own election expenses, so that the rural counties may be better cared for.

Thus Major G. W. Stephens will be asked to contest St. Antoine against H. B. Ames, and the same request has been made to L. E. Geoffrion to oppose Mr. Monk in Jacques Cartier, and the third commissioner, Mr. Ballentyne, will run against Mr. Ebers, who will be the opposition standard-bearer in St. Lawrence. But neither of these named will send any great amount of opposition into the Conservative ranks.

SENATOR LOVITT DEAD. Passes Away at Yarmouth, Victim of Cancer.

YARMOUTH, N. S., April 13.—(Special.)—Hon. John Lovitt passed away this afternoon after an illness of several months, cancer being the cause of death. About a month ago he came from Ottawa and has since remained confined to his residence.

During the past year Senator Lovitt had been under physicians' care most of the time and had undergone several operations. Senator Lovitt has the reputation of being a very wealthy man. He was formerly president of the Bank of Yarmouth.

2000 DROWN? Disastrous Floods in China Are Reported—700 Junks Wrecked.

SHANGHAI, April 13.—Disastrous floods are reported to have occurred at Hankow in the Province of Hu Pei, and it is stated that 2000 persons have been drowned. Seven hundred junks were sunk or wrecked.

The floods are due to an unexpected freshet, which caught the people unexpectantly in the middle of the night.

SHOT TOBACCONIST Who Was Counting Cash in Montreal Store.

MONTREAL, April 13.—Alphonse Martineau, a tobacconist on St. Antoine-street, had a close call this evening while counting his cash two unknown men entered, and while one of them was pretending to want something the other made a dive after the cash.

When Martineau resisted one of the rascals whipped out a revolver and fired, the ball entering the storekeeper's left breast, and while the other was not fatal. The robbers disappeared.

IMMIGRATION POLICY UNDER ATTACK

Monk Arraigns System—Canada Great National Penitentiary, Says Armand Lavergne.

OTTAWA, April 13.—(Special.)—A return brought down to-day shows that since 1896, H. N. Bate & Co., of Ottawa, have supplied to various departments goods to the value of \$22,986, and the W. C. Edwards Co., lumber, etc., to the value of \$137,792.

Senator Edwards is the head of the latter firm.

That Canada had been paying bonuses on a large number of undesirable immigrants, and many others who passed out of the country shortly after their arrival, was pretty conclusively proved this afternoon by F. D. Monk (Jacques Cartier) who in a moderate arraignment of the system moved, on going into supply, that the time had come to cease paying a bounty to agents for bringing in immigrants.

He laid down the principle that none but the most desirable people should be admitted to Canadian citizenship, and that there should be no hurry to fill up our wide acres.

The experience of the United States should be a guide to Canada. That country had been attempting to restrict the immigration of foreigners.

The head tax had been increased and a commission of nine to investigate in Europe this problem, but in spite of the increase of restrictive measures immigration to that country had been climbing up year after year amounting to over four millions in past four years, and this without the expense of a copper cent for inspection.

In four years mentioned of over 47,000 were debarré from the United States. Exclusion Laws Are Arose.

Mr. Monk believed that our exclusion laws were lax. In 1904 over 30,000 immigrants entered the United States thru Canada and in 1905 the number was over 44,000. Examining the figures for 1906 he found that 12,853 of these came to Canada with the avowed intention of going to the United States. Of these 183 were debarré, but what became of them he was unable to ascertain.

Then 877 were destined for Canada, and 1,000 to the United States within a year, and of these 588 were debarré. A third class was composed of these destined for Canada, but who went to the United States after a year. The number was 19,308, of whom 749 were debarré. On how many of these did we pay a bounty?

There was no system of checking. Many immigrants had been debarré by the United States authorities because they were not in Canada. WILY WILLIE

WILLIAM MACKENZIE: Oh, little Willie knows how to set his pail on the turned down pail of The Public and get the sap for himself, all right, all right.

CITY QUINCELY BY 15 TO 6 KILL THE APPOINTMENT OF PARK COMMISSIONER

Controllers Warmly Deny Suggestions of Influx and Collusion, or that ex-Commissioner is to Be Favored.

By a vote of 15 to 6 the city council yesterday referred back the board of control's recommendation that Thomas Southworth be appointed parks commissioner at a salary of \$3500 a year.

The action does not in itself imply the absolute rejection of Mr. Southworth's nomination, it is not likely the controllers will stand to their guns.

Mayor Oliver denied yesterday that politics had played any part in the nomination of Mr. Southworth, whose qualifications had been endorsed by Hon. Nelson Monteth and Geo. Taylor, M.P., both Conservatives.

The vote was: For the board's recommendation—Controllers Spence, Hocken, Ward and Harrison, Ald. Hales and Vaughan—8. Against—Ald. McBride, Keeler, Foster, Whytock, Burchough, Bredin, J. J. Graham, Church, Adams, McMurrich, Saunders, R. H. Graham and Stewart—15.

In reference to the prevailing sentiment that more information should be obtained, Ald. J. J. Graham withdrew a motion to appoint James Wilson, but a majority of the aldermen showed leanings in his favor.

The debate of two hours, which ended with adjournment at 7 p.m., was marked by frequent expressions of resentment at the tactics of the board of control. The controllers stoutly denied the imputation of collusion, and also declared wholly false the insinuations that a plot to reappoint Mr. Chambers was in the making.

Probably the mayor's report was laid unostentatiously on the table at the beginning of the meeting by the mayor and was not referred to at any stage.

Control's Dress Rehearsal. The trend of sentiment was shown at the outset. Ald. Church charged that the board had not given proper consideration to the claims of the different candidates and declared that its action was being severely criticized throughout the city. The board had clearly gone thru a dress rehearsal before springing its nomination of Mr. Southworth. James Wilson had shown in 18 years' service that he was a park expert of high order.

Ald. McMurrich and Foster spoke in similar strain.

Controller Spence branded as a "stilly canard" the rumor that the controllers were engineering a scheme for the appointment of Mr. Chambers to a position under the new commissioner. The idea that politics played a part was a tribute to the strength of Mr. Southworth's position, but had been applied by the board to allow his name to be submitted.

Mr. Southworth was a man of big outlook, who could plan for a hundred years ahead. He was an organizer, administrator and enthusiast, and would be a successful head, even if he didn't know how to lay out a flower-bed. Technical information was always obtainable.

Mr. Southworth's Career. Great director of the bureau of forestry in 1885, Mr. Southworth had had considerable practical experience in reforestation, and it was on his

TO PROBE WALL STREET

ALBANY, April 13.—A bill providing for the appointment of a commission of nine to investigate Wall-street speculation, as recommended last week by Governor Hughes, was introduced in the senate to-night by Senator Davis of Buffalo.

It provides for the appointment of three members by the governor; three by the president pro tem of the senate, and three by the Speaker of the assembly.

The appointments must be made within twenty days after the passage of the bill.

Grand Tableau at Quebec Will Include Fleet, and Thousands of Performers.

QUEBEC, April 13.—(Special.)—Nearly four thousand performers will be required for the grand pageant on the Plains of Abraham next July to represent the leading heroic events in Canadian history. The grand stand, from which the pageant, with its background of river and battlements and distant hills, will be viewed, will accommodate 15,000 people. To enable all who desire to see the pageant to do so, several performances will be given.

At the state representation before the Prince of Wales, the tickets will probably run from \$1 to \$10 each, for it is intended to secure as large a return as possible of the cost for the benefit of the battlefields project. The public will be able to see other performances for 10c to 50c each.

Mr. Lascelles, master of the pageant, has given out the list of scenes to be produced. It includes Jacques Cartier planting the cross near the banks of the St. Charles, his carrying away of the Indian chief, Donnacona; the court of Francis I., when Cartier, by command of the king, relates his discovery of the western country; Champlain receiving his commission at the court of Henry IV.; other scenes in the life of Champlain at Quebec; Mother Marie, incarnation teaching the Indian children; Mgr. Laval receiving the Marquis Tracy and his brilliant suite; Daumont de St. Luson taking possession of the western country for the King of France; Frontenac receiving the messenger of Sir William Phillips at the Chateau St. Louis; Dornay and his sixteen followers defending themselves against the Iroquois, and, finally, a grand tableau of all the historical personages, troops, etc., with warships of different nations in the background saluting the whole, and making what Mr. Lascelles declares will be such an assemblage as neither the old world nor the new has ever seen.

TRAIN WRECKERS FOILED. Desperate Attempt to Ditch Fast Express.

ELMIRA, N.Y., April 13.—A desperate attempt was made to-night to wreck a westbound passenger train on the Delaware, Lackawanna & Western railway, near Lowman, about seven miles east of this city by piling ties on the track. The ties were placed across the rails and then laid from the top of these to the roadbed between the rails.

The train, which is due in this city at 6.40, was running sixty miles an hour. The obstruction was on a sharp curve and close to the river.

The locomotive ground one of the ties to pieces and shoved the others along on the rails. When the train was stopped a similar obstruction was found on the eastbound track and a freight train was due.

FUNERAL OF CHAS. LINDSEY.

The pall-bearers at Charles Lindsey's funeral this afternoon will be: Sir Mackenzie Bowell, Hon. Robert Jeffrey, Prof. James Loudon, John Ross Robertson, J. S. Whillson, Peter Ryan, Vernon B. Wadsworth and James Redley.

The service at the residence will commence at 8 o'clock.

BOUNDARY WILL BE MARKED AGAIN

Fisheries in International Waters to Be Placed Under Control of Commission—Treaties Signed.

OTTAWA, April 13.—(Special.)—In the house to-day Dr. Sproule read a press despatch from Washington to the effect that Secretary Root and British Ambassador Bryce had signed two treaties between United States and Great Britain. One provides for a commission to determine the boundary between the United States and Canada and the other regulates fishing in the great lakes and contiguous streams.

The boundary commission will be charged with the work of re-surveying certain sections of the boundary and determining the disputed questions in that connection. It is said that the fishery question also is placed in the hands of a commission by terms of the treaty.

Dr. Sproule asked if the government were in a position to give any information on this subject. Had they any control over the appointment of commissioners or over their selection, especially on behalf of Canada?

Treaties Have Been Signed. "I have just received a telegram stating that these two treaties have been signed," replied the prime minister. "One refers to the boundary. It is not contemplated to establish new boundaries, but simply to mark again the boundaries and describe them on the maps. The second deals with the fisheries. In contiguous waters we have had difficulties for many years owing to there being a close season on our side and none on the American side. By the treaty, all contiguous waters will be put under a commission which will make regulations for the fisheries. The appointments on the British side, exclusively, belong to the Government of Canada."

Mr. Monk's Request. Mr. Monk asked if the government will lay on the table the two agreements arrived at, also the correspondence connected with them. He cited a London cable to The New York Herald, dealing with Canada's attitude, and added that he judged from this that there must be considerable correspondence.

Sir Wilfrid Laurier replied that, as a matter of course, as soon as ratifications of the treaties had been exchanged and the government received them, they would be communicated to the house as well as the correspondence.

"I have not seen the article to which Mr. Monk refers," added the prime minister, "but I have seen articles in American press to the effect that there are some other questions as to what the correspondence is pending. The correspondence, of course, cannot be brought down until the matter is concluded."

Contracts Continued. Mr. Bennett asked if the appropriations to be voted this year for dredging at Midland and Tiffin harbors, \$75,000, and Victoria Harbor, \$75,000, had been given to the Canadian Construction Co. and the Owen Sound Dredging Co. without tender.

Mr. Pugsley replied that an order-in-council had been passed empowering him, as minister, to continue the contract for last season and that tenders would not be called for. He had received a strong report from the chief engineer, stating that in a number of places the matter was under consideration and both the report and order-in-council would be tabled.

Mr. Lennox asked about the report that new order-in-council had been passed relating to seed grain in the Northwest.

Mr. Oliver replied that an order-in-council had been passed to carry out the views of parliament, it having been found that the requirements were not as large as had been anticipated, and that sufficient grain had been purchased to fill those requirements.

Mr. Boyce (Algonia) asked if the application for seed grain had been received from the people in Northwest Ontario and, if so, would the government grant the same assistance as was given to farmers in the northwest provinces.

Mr. Oliver answered that such application had been received, but as conditions were not similar to those in the Northwest, no assistance could be given.

Mr. Bergeron asked when Judge Casels would begin his investigations into marine and fisheries department, and whether, in the meantime, the matter of marine was conducting enquiries.

Mr. Brodeur replied that he was investigating, for his own satisfaction, the affairs of the department as they arose from day to day. This investigation was not being made under oath.

Official Run for Mayor.

Mr. Fowler called attention to Immigration health officer at Halifax, Dr. A. C. Hawkins, who was candidate for the office of mayor; and other officials of the government, both in London and the U. C. E., were also taking part in municipal elections. Owing to Dr. Hawkins' campaign, a ship with immigrants was delayed in discharging her passengers.

Dr. Sproule said the minister of railways should make a statement. He had issued a circular forbidding electioneering taking part in elections. These men were doing partisan work.

It was denied by Mr. Flahing that taking part in municipal elections was partisan work, and Mr. Graham declared it would not be right to compel

The twenty-second annual meeting of the Queen City Yacht Club for election of officers and board of management takes place this evening at the clubhouse, Lake street, at 8:30 o'clock.

John Dymond was discharged by Magistrate Kingsford upon four charges of fraud upon which he was arraigned in police court yesterday morning. The cases were optioned in that of T. Jackson, who gave Dymond a cheque for stock in a gas engine company. He did not receive the stock, but instead accepted a note as repayment of the cheque, which had been cashed.

AQUEDUCT OPENS TO-MORROW

A well-known local sheet writer leaving Benning for Aqueduct to write sheet there wants to get in touch with a few conservative betters who want ONE OR TWO GOOD BETS A WEEK. Those interested know what kind of information this is and where it comes from. NO COINS NOTHING FOR FURTHER PARTICULARS AND INTERVIEW, so Apply Box 7, The World.

THE WORLD'S TRIPLE BASEBALL CONTEST

One for Men, One for Women, and the Third for Both Sexes

COUPON NO. 9

No. 1 Ladies guess official paid attendance at opening game in Toronto. No. 2—Men guess Toronto club's percentage on the morning of May 28. No. 3—Open guess, men and women. Name the Toronto players in correct order who will score the first three runs on the home grounds.

I vote on Competition No. (1, 2 or 3)

NAME _____ ADDRESS _____

The World offers three season tickets, one for each of the first correct guesses in the above competitions, or, failing to guess correctly, the nearest to the games up to Victoria Day week played by the Toronto club are as follows:

AT HOME. At Jersey City—Apr. 23, 24, 25. At Providence—Apr. 26, 27, 28, 29. At Baltimore—May 1, 2, 4, 5. At Newark—May 6, 7, 8, 9.

To figure out the Toronto's percentage, divide the number of games won, adding two eighths, by the number of games played. Always continue to the fourth figure and if over five add one to the percentage.

Coupons are issued continuously from April 6 to May 3 in The Daily and Sunday World. Only one coupon will be accepted from any one person of any one coupon.

Address all coupons and communications to the Sporting Editor of The Toronto World.

THE VIADUCT.

The board of railway commissioners for Canada have asked the City of Toronto to state the amount it is prepared to pay toward the construction of a viaduct along the waterfront.

The contention of the city is that a viaduct is the only plan which will permanently eliminate the level crossing.

We would suggest to Chairman Maybee that this is the business-like way of dealing with the matter.

THE INTERCOLONIAL RAILWAY.

It has been argued in some quarters that the recent disclosures showing serious mismanagement on the Intercolonial prove that public ownership of railways is a failure in this country.

Two facts were clearly established in connection with the Intercolonial Railway. First—The necessity of a better supervision of the accounting department.

The present minister of railways has taken hold of his department with perhaps a better comprehension of the right of the people to protection of their interests than was evidenced by any of his predecessors.

It would be a wise move on the part of the government to give commission management a trial. The result cannot be more disastrous than has been experienced under the political regimes.

MR. ASQUITH'S CABINET.

Mr. Asquith's cabinet is now complete and the changes made are substantially in accordance with the forecast published some days ago by The London Chronicle.

The passing of Mr. John Morley from the storm and stress of the popular house to the dignified repose of the chamber has more than personal

significance. In all probability it means the abandonment of the campaign against the house of lords, at least on the lines laid down by the late premier.

Of the other appointments those of Mr. McKenna to the admiralty and Mr. Winston Churchill to the board of trade will be the most productive of speculation, the former administrative and the latter electoral.

Mr. Asquith himself not long ago declared his adhesion to the two power standard, and it will be for Mr. McKenna to formulate what that standard means.

REPORT ON CITY FINANCES.

City Treasurer Coady Issues His Annual Statement. Total receipts of \$18,121,499.49, and expenditures of \$11,674,724.10, are shown in the city treasurer's financial statement for the past year.

Other large items are waterworks, \$2,615,611.11; city property, \$245,308.54; licenses, \$182,017.66; Industrial Exhibition Association, \$20,515.92; with other items making a total of \$1,659,968.41.

Special deposits totalled \$1,937,522.86, including taxes and the proceeds of debentures issued for the purpose of financing the city's debt.

The disbursements included \$3,671,977.63 in civic financing, including provision for sinking funds and debentures, \$366,475.45; and buildings for the board of education, \$239,907.21.

NEWS OF KINGSTON.

Civil Servant Assessments—A Reformed Convict. KINGSTON, April 12.—(Special.)—The city assessment department is investigating the law in regard to the taxation of Dominion civil servants.

The local painters are contemplating asking for a raise from \$2 to \$2.25 per eight-hour day. The plumbers, who are under arrest, charged with holding up, assaulting and robbing their aged father at his home.

A liberated convict called on Magistrate Farrell to thank him for a five-year term. His sentence led to his release, and he has become a race-track bookie, offering to give the magistrate a sure tip if he would look him up.

Bert Quinn and R. Fowler had a narrow escape from being shot by Walter Ruttan. The two former were thought they were burglars and fired two shots, narrowly missing them and lodging in the horse. Ruttan settled the case by offering to pay damages for the horse.

CHAMBERS AND OTHERS COME IN FOR CENSURE

Former Parks Commissioner Was Not a Big Enough Man For the Job—Dealings With Nurserymen Criticized—Good Word For Mr. Kimmings.

"The growth of the parks department within the last few years has been such that it requires its head a man with good administrative ability, rather than with technical knowledge, and in my opinion, Mr. Chambers lacked that administrative ability which was necessary for the successful operation of the several branches of the department under him."

The above is an extract from Judge Winchester's report on the system—or lack of it—in the management of the city's parks for years past, submitted to the mayor yesterday.

Of John Chambers, the ex-commissioner, who resigned while "under fire," the report says that the evidence clearly established his inability to perform the necessary executive work.

The recommendations contained in the report, briefly summarized, are that: A chief auditor or comptroller should be appointed by the council.

John Crilly, who has occupied a house in High Park for fifteen years, having disregarded previous orders to leave, should be removed from his present house at once.

Mr. Chambers is severely criticized for his statement that he "never, or seldom, looked inside the accounts to see the items of the amounts of same."

The Bank of Hamilton has begun an action for \$250,000, claiming \$1038.99 on an overdue promissory note.

John Wright of Allandale is defendant in an action brought by Alexander Elliott & Co. to recover \$288.67 for goods sold and delivered.

In the action brought by one Bartels against the Toronto Railway Company for injuries received by reason of a trolley car striking the plaintiff at the corner of Adelaide and York streets, in September last, the plaintiff recovered \$300 and costs.

The Massey-Harris Co. appealed to the divisional court from the judgment of the first division of the County Court in its agreement, so Harry S. Coffey for \$1000 down and \$1,734 to be paid by the company to Wilson.

The two weeks' work done by Charles Chambers in the parks department, 1906, for which he received \$50, while also being paid by the city clerk, is thus referred to:

Mr. Littlejohn denied giving his consent to Mr. Chambers taking his holiday in this way, and Mr. Vaughan, the chairman of the committee, stated that he promised that he would receive payment for doing such work.

Only once in twenty years were Stone & Wellington obliged to tender, and the presence of Superintendent Goodall and Mr. Wellington, Goodall and Glichrist said prices were exorbitant, and "neither had any reason for making false statements." The department should consider this in dealing with the balance owing the firm.

Of others who figured in the investigation, his honor considers that: World Kimmings, superintendent at Island Park, "is a faithful servant of the city."

Mr. Henry Lamont, who sued the Canadian Transfer Company for \$450 for a bracelet lost in transit, has been awarded \$50.

Overdue Note. The Bank of Hamilton has begun an action for \$250,000, claiming \$1038.99 on an overdue promissory note.

Scotch and Irish. John Wright of Allandale is defendant in an action brought by Alexander Elliott & Co. to recover \$288.67 for goods sold and delivered.

Toronto Railway Company Loses. Regarding Mr. Chambers' dealings with Stone & Wellington, the report says that the invoices were split up and prices changed, whether prices were in the account, the evidence is limited to show Chambers would, however, have shown deeper interest in the department if he had always obtained wholesale rates.

The habit of parks employees taking vacation and working for the exhibition board to earn two salaries is condemned. In no case should Mr. Chambers have allowed them to enter into any arrangement with the Exhibition Association without the consent being first had of the board of control or the parks committee.

It was also proved that one McNally was paid for work in October, 1906, which he didn't perform.

Holidays and Extra Work. The two weeks' work done by Charles Chambers in the parks department, 1906, for which he received \$50, while also being paid by the city clerk, is thus referred to:

Mr. Littlejohn denied giving his consent to Mr. Chambers taking his holiday in this way, and Mr. Vaughan, the chairman of the committee, stated that he promised that he would receive payment for doing such work.

Only once in twenty years were Stone & Wellington obliged to tender, and the presence of Superintendent Goodall and Mr. Wellington, Goodall and Glichrist said prices were exorbitant, and "neither had any reason for making false statements." NOW IT'S THE GAS CO. TO BE INVESTIGATED

Council Delegate the Task to Controllers—Mr. McNaught Not Officially Thanked.

The board of control will investigate charges of Ald. J. J. Graham that the quality of gas supplied in Toronto is poor and that within the past year, thru defective meters or other causes the cost of gas to consumers has greatly increased.

Before the alderman introduced his motion at yesterday's meeting of the city council the mayor read a letter from W. H. Pearson, manager of the Consumers' Gas Company, pointing out that a Dominion Government inspector made daily tests of the illuminating power of gas, and at least, semi-weekly tests as to its purity, which reports were open to the public.

For a great many years the illuminating power of the gas has been considerably over the government standard, and it has always been found to come up to the standard. With more than 3,000 meters in use it is to be expected that a number of consumers would be dissatisfied. They could have the meters tested by the government inspector and an allowance made if found to be justified. Many complaints were made last year in several sections of a poor supply of gas, to remedy which many miles of larger mains had been laid.

"The people of West Toronto are paying 20 per cent to 30 per cent more for gas than a year ago," said Ald. R. H. Graham, adding that he had heard of an explanation that the enlarging of the mains caused the greater pressure.

Did His Duty. The propriety of passing a resolution thanking W. K. McNaught, M.L.A., for his fight on behalf of the city against the street railway was discussed by Ald. Foster, who contended that Mr. McNaught had simply done his duty. Controller Hocken's explanatory resolution, seconded by Ald. Hales, failed to obtain the two-thirds vote necessary to permit its introduction.

The vote was: For—Controllers Hocken, Harrison, Ward and Spence, Ald. Hales, McBride, Bredin, Chisholm, Vaughan, J. J. Graham, Church and R. H. Graham—10. Against: Ald. Foster, Keele, Whytock, Lytle, Hengough, McHie, Adams, McMurich, Saurman and Stewart—10.

Residential District. A large deputation from the sixth ward was on hand to protest against permission being granted to Thomas Kinnear to locate stores on a lot purchased by him two years ago at the corner of Dovercourt-road and Dewson-street. A petition along the same line, signed by Robert Copitt and others, was submitted. They claimed that the district was a residential one, and that the proposed stores and his solicitor, ex-Ald. Hearn, near and sought to combat, but the vote on a by-law to create the area was carried by 10-9. The vote was: For—Ald. Foster, Vaughan and Hengough—10. Against—Ald. Hales, Spence, Bredin, Chisholm, Ward and Spence, McBride, Lytle, Hengough, McHie, Adams, McMurich, Saurman and Stewart—9.

Communication from R. F. Stupard, director of the meteorological observatory, asked that the members of his staff be exempt from salary assessment on the ground that the city was a gainer by the presence of the observatory. The city council and that the Ottawa civil service employees were exempt. Time was given gratuitously each day to the observatory, and maps given free to the board of trade and shipping firms.

WAVE HIT TWIN. Author Prevents Little Girl From Being Washed Overboard.

NEW YORK, April 13.—Earl Grey, Governor-General of Canada; H. H. Rogers and Samuel L. Clemens (Mark Twain), were passengers on the steamer Bermuda, which arrived to-day from Bermuda. Twain was hit by a wave during the journey, and succeeded in rescuing a little girl who was in danger of being washed overboard.

A Trip to Europe. If you are contemplating a trip to Europe now is your time to secure your reservations as the rush is on. The Canadian Pacific Atlantic steamers have some exceptionally good accommodations on hand, both first and second-class. If you are looking for solid comfort, speed, excellent service we have it, and there is nothing finer from a Canadian port, and if you wish a moderate price and big value take our one-class steamers. Everything connected with these steamers is up-to-date, and it will pay you to call on Mr. S. J. Sharp, western passenger agent, 21 Yonge-street, before you decide on what line you will travel by.

LIBERAL EDUCATION.

Rev. Abbe Choquette's Address Before the Canadian Club.

Rev. Abbe Choquette's address at the Canadian Club yesterday was a pleasant and interesting illustration of the versatility and adaptability of our Gaelic brethren in Quebec. He is principal of the great college of St. Hyacinthe, founded 300 years ago, and which is still kept in touch with Ontario. Sir Alexander Campbell was one of its directors, said the abbe in recalling some of its history, and he trusted that Canadians would dwell on what brings them toward each other and not on what divides.

His subject was "Liberal Education." What will the name of nations but using a language other than his own he dwelt on the value of the Greek and Latin classics and of broad literary and artistic culture generally.

He quoted Rt. Hon. James Bryce's utterances on his recent visit to Canada. He was a diplomat, however, and one always suspected that a diplomat's language meant more than appeared.

Not those nations which acquired wealth most rapidly left most impress, but those which left something in the arts, poetry, literature, learning and science. In two words, they must work for posterity, and posterity required a liberal education.

Instead of storing up facts the mind should be cultivated; they should refine and purify the taste and develop the higher enthusiasms.

"Work for posterity," enjoined the speaker. "What remains of nations but what they have afforded to the adornment and refinement of the human mind?"

He adduced Andrew Carnegie and his libraries as an illustration of the vanity of human wishes.

What will the name of Carnegie be in fifty years? Nothing more than the names on our streets, which have no significance, even to the mind of glib student, (Laughter.)

Very few could spend life in the pamperment of business and then turn for the remainder of life to philosophy and science.

Mr. Carnegie spent more to get his book on the shelf of a library than for the whole building. The poor fellow, bitten by the passion for writing, has often had to feed on glory oily, and glory is a meagre diet. (Laughter.)

Everyone is bound to work for his living from the beginning. Scholars and intellectuals are satisfied with very little. Masterpieces are often created in conditions of extreme poverty. The French have a proverb—"Feed horses and poets; do not fatten them."

"Let us have pensions, endowments and prizes. There are millions of surplus in the budget," said the abbe, amid much laughter. "Let us press the minister to appropriate \$100,000 for literature, art and science—\$100,000 for the future of Canada. (Applause.)"

Higher education, then, was higher consideration for men of letters. He hoped in conclusion that Ontario would yet produce men like Derby, who could render Homer at sight in perfect English, or Gladstone, who could turn classical odes into English poetry; or Beaconsfield, familiar with the literature of all ages; or Elgin or Dufferin, come in Latin as well as Greek. (Applause.)

Next Tuesday evening Senator G. W. Ross will address the club on "Senate Reform."

MARKETS MUCH BROADER AT STRONG QUOTATIONS

Active Issues Are Silver Leaf, Silver Queen and Temiskaming—Shipments Are Smaller.

World Office, Monday Evening, April 13. A much wider market was experienced for the Cobalt stocks to-day, and the additional speculation showed itself in the strength of quotations. The active securities were Silver Leaf, Silver Queen and Temiskaming. The suit in connection with Silver Leaf was a factor in this issue, but it was also stated that the company was producing over 4300 each day and this encouraged further buying. Substantial investment buying of Silver Queen was in evidence to-day and the stock closed firm. Temiskaming, which reported well bought and all offerings were taken at steady quotations. (Crows) Reserve sold several points higher, but the demand for the shares slackened on the sharp advance. The shipments from the camp this week were not as heavy as recently, but it is stated that a good deal of ore was delayed owing to the bad state of the roads.

To the Grocers of Toronto

Let us send you, free of charge, the particulars of a method that will save money you are now losing and bring you more business at better profits

YOUR business is a complex one.

You carry a tremendous number of different lines.

To make your business a success you must be able to give your entire mind and all your time to buying advantageously and managing it.

Even as important, you should be able to personally greet your customers.

You are worried by details—you feel that your store methods are not strong enough to carefully record the full particulars of every sale—that is how you miss buying opportunities that would mean bigger profits to you.

Besides this, you are probably losing money that you can't trace by your present method.

Now, we want to mail you full particulars of a method that it took twenty-two years of experimental work to perfect. We send you this absolutely free.

Suppose one of your clerks sold, on credit, to Mrs. Jones, five pounds of butter for \$1.50—another customer comes in just as he is seeing Mrs. Jones out. By the time he has waited on the second customer he has

entirely forgotten to charge the butter to Mrs. Jones.

You lose what you paid for the butter, as well as your profit on it.

You know that all losses must come out of your net profits. Let us show you how to stop them.

You know your clerks, in a rush of business, often forget to do things you ask them to do. They forget other details too—details that cost you considerable money each week.

You make mistakes yourself.

Our method will prevent you losing customers by their being charged with amounts they have already paid for, being overcharged on cash purchases. It will also give them quicker service. Your customers will appreciate these points and give you more trade in consequence.

Our method will tell you the total amount of cash and credit sales made by each clerk and the number of customers he waited upon. You'll know exactly what each clerk is worth to you.

This will spur them on to do more work for you.

Our method will keep you in close touch with every detail

of your business. Tell you every sale that takes place while you are away from the store.

The key-stone of this method is the NATIONAL CASH REGISTER—the ever-wakeful watch-dog of business.

The National Cash Register will put an advertisement of your business, your store policy, or some special lines, in the hands of one thousand persons at a total cost of eight cents.

Let us mail you the full particulars of the method that will do all this for you!

CANDLES AND CROSS.

Innovations at St. Luke's Church Which Cause a Little Talk.

Rev. A. G. H. Dicker of St. Luke's Church has adopted the English cathedral standard in the form of service, and a processional cross was carried on Sunday. The cross was the gift of some old members of the church.

There may be a little unrest and uneasiness in St. Luke's over these matters at first, but I expect it will not be important," said the rector yesterday.

Thirty years ago Dr. Langtry, my predecessor, introduced the surpliced choir. This was then considered a bold innovation, and some of the congregation stood aloof, but in the end, in spite of that the congregation stood loyally by him and came to admit that he had been rightly guided after all.

In proof of the fact that the candles are of Anglican character one has only to go to Quebec City, where, in the English cathedral, there are two hand-some silver altar candles presented by King George III, who was essentially anti-Roman in his views."

Want Mr. Bowman. A deputation waited on ex-Congressman Bowman from West Toronto with a petition signed by over three hundred West Torontonians asking him to accept a nomination for the legislature. Mr. Bowman asked for some time to consider.

To Investigate a Theory. DUNKIRK, France, April 13.—The Jacques Cartier, bearing the Polar expedition under command of Lieutenant Benard, sailed from here to-day.

The primary object of the expedition is to investigate the theory that whales, which are now disappearing off Newfoundland, have sought refuge in the Barents Sea, in the Arctic Ocean, that is always free of ice. Other scientific investigations also will be made.

T. & N. O. Coal Supply. The Toronto Northern Ontario Railway Commission will meet on Wednesday. At this meeting it is understood a number of important contracts will be considered, including contracts for the road's coal supply, new plant and rolling stock. The coal contract will be the most important, as about 50,000 tons of coal are required for the year.

Miners Sign Contract. WHEELING, W. Va., April 13.—"All contracts between the United Mine workers and operators will be signed except of Illinois, will be signed by the first of May," said President Lewis of the Miners' Union to-day.

CANADA LIFE PROMOTIONS

Important Official Positions Filled From the Company's Head Office Staff.

Announcement is made that at the meeting of the board of directors of the Canada Life Assurance Company, held yesterday, Mr. Frank Sanderson, joint general manager, was appointed a director of the company.

The following appointments from the head office staff are also announced: To be secretary, Mr. A. Gillespie.

To be chief inspector of agencies and editor of company's literature, Mr. J. K. McMaster.

To be manager of central Ontario branch, Hamilton, Mr. G. D. Burns.

To be chief accountant, Mr. C. R. Acres.

To be cashier, Mr. C. W. Ricketts.

All of the above named gentlemen have been in the service of the company for from twenty to thirty years, and have earned their promotion by faithful service in various posts from junior upwards.

These promotions to important official positions of members of the company's permanent staff, indicate that the Canada Life in its own ranks has been training up a class of men competent to fill the most responsible positions in the service of this, our oldest and largest life company.

Lucumeth St. Route Not Agreeable. Manager Fleming writes the city engineer that the street railway cannot approve the Lucumeth-street route to the exhibition grounds.

"Outside of the public interest this company has no desire in the matter," he says referring to the old fort route.

RENNIE'S SEEDS

"THE FINEST IN THE LAND"

A NEW WHITE OAT RENNIE'S "BUMPER KING"

We have just imported this new oat from the north of Ireland. It is of surprising weight, extremely early and highly productive. Change your seed this year; the older varieties at best can only yield light "chafy" oats, poor and unprofitable. Rennie's Bumper King is new, extra heavy and will yield twenty bushels more per acre than the older sorts.

Price, ex warehouse, Toronto—Peck 50c, bushel \$1.75.

THE BEST BLACK OAT RENNIE'S "FIFTY POUND"

Oats weighing 50 lbs. to the measured bushel are not very common, but when we state that it is a first-class variety rarely produces higher oats, farmers generally will be anxious to try it. "Fifty Pound" is a first-class cropper, with strong, stiff straw and heavy side heads. Price—Peck 50c., bushel \$1.75.

A GRAND NEW SUGAR BEET RENNIE'S "LEVIATHAN"

Highest Nutrient, Unsurpassed in Yield.

For over twenty years the attention of the leading European sugar beet expert has been devoted to the development of this grand type of sugar beet, which excels all others in growth, size, shape, yield and nutriment. It has now been perfected, and this year we are introducing it to Canadian growers for the first time. In the first place, it contains five to six per cent. more nutriment than other sorts, being simply saturated with sugar; also, in size it is much larger than its nearest rival; the shape of the root is perfect, and the habit of growth renders it so easy to harvest that it can be lifted out of the ground with the slightest push. There are no coarse, prony roots in fact, the beet is as smooth as if moulded. The skin is red, making a clean contrast to the close-grained, solid, tender, surpassingly white flesh. In yield it is equal to our now famous "Jumbo," which it closely resembles, excepting for the skin color. We have had many critical tests made with it in this country, and the carefully tabulated results have proved that it surpasses all other varieties as a stock feeder, an immense cropper, and a hardily constituted sugar beet. 1 lb. 40c., 4 lbs. \$1.50 by express; by mail postpaid, 4 lbs. \$1.70, 1 lb. 45c., 1-2 lb. 20c., 1-4 lb. 25c.

RENNIE'S XXX VEGETABLE SEEDS

Don't order your vegetable seeds until you have read all about these new kinds in the "Rennie Seed Annual" for 1908. We will mail you a copy of this book free if you have not already had one. There are twenty-four varieties of "Rennie's XXX Vegetable Seeds"—all the most useful sorts and positively the best of their kinds. Anybody can grow prize vegetables with our XXX seeds—try them this year.

Everything Indicates Coming of Bumper Crop. WINNIPEG, April 13.—Despatches received as to the seeding of Western Canada's wheat crop are of a most prosperous and bumper nature throughout the Northwest.

Never before in the history of the wheat crop has there been so bright and a magnificent start has been made with farming operations which seem to assure positive success. The rain is drying very quickly, and there is little or no water on the surface, even in the lower lying parts.

With the commencement of seeding operations and the early opening of spring, some of the old-time western optimism is returning. Old-timers everywhere are jubilant over the prospects, and say that signs of a good season were never more apparent.

Seeding is in the earliest in many districts for years. Government advances of seed grain will be made to compare to the figures for lighter examples of years past. The weather continues fine and dry and is in good shape for a record crop.

A feature of the world's grain trade last week was the purchase in New York of considerable quantities of Argentine oats at prices which, while not made public, are known to have cast much gloom in the camp of those who have been predicting jubilee prices for that cereal. Argentine oats are not heavy, but on the whole about as good as the general run of the American crop of 1907. Winnipeg has been offering heavy oats for milling purposes at prices which look cheap when compared to the figures for lighter examples on this side of the line, and most of the commonwealths which had any heavy grain of the kind to sell are proud to keep covered tightly and set it on the back of the stove where it will just keep warm. When changing the calves from new to skimmed separator milk begin adding a little of this jelly, a tablespoon or even less at first, and increasing gradually to a teaspoon. When the calves are old enough to eat either whole or crushed oats dry give them a handful after their milk and increase this gradually until they get a pint each. This with good pasture or good hay will make calves quiet as good as if they had run with their mothers—after, in fact, as they have no setback at the weaning time of the others and at a year old are often better than the whole-milk calves and much quieter.

Chicago Cattle. Marshall, Spader and Co. wired to J. G. Besty at the close: Wheat—Influenced by continued dry weather and light receipts, prices responded readily early, on which bulge considerable selling was indulged in, and the market showed the effect of a reduced short interest.

As an offset to the southwestern situation, spring wheat seeding is progressing under ideal conditions, and cash business has shown no improvement. Statistical figures are more favorable to the long position, and taken in conjunction with the operations in the nearby futures by elevator interests, may have considerable effect on old crop values later on. We are not disposed to advise further short selling of wheat, except on bulges.

Ennis and Stoppard wired to J. L. Mitchell at the close: Wheat—There was a fairly good trade in wheat to-day, with undertone of the early trading firm, but late in the day market eased off on fairly good selling by several of the leading commission houses and pit crowd. Reports of rain in the southwest, final figures showing 1/4 loss for the day. Cables were easier and expected sign markets all lower. Working ship and amount on passage decreased 324,000. We look for a traders' market and advise purchases on declines.

Corn was firm and higher early, making a new high record for corn, but late in the day market eased off on fairly good selling by cash houses. The situation continues strong. Oats were inclined to follow other grains, but trade was inclined to dulness. Provisions—There was a small trade to-day, with market rather easy.

J. R. Helms and Co. wired R. B. Holden: Wheat—No rain, and prospect of any. There was some commission house selling, but the offerings were well taken and market held pretty well for a time, but as support was weak and pressure so great it broke, but unless there is rain very soon the shorts are liable to get nervous and run to cover. As the short interest is large, they will put prices materially higher.

The shorts covered freely. There is no indication of the big longs liquidating. There is no use looking for any marked reaction. The supply of Oats—Nothing new to say of this market. Market dull and featureless. Provisions—Very quiet. There were a few profit-taking sales and prices eased off a little, but the sentiment seems to favor purchases on breaks.

CATTLE MARKETS.

Cables Unchanged—Hogs Are Easier at Chicago Market.

EAST BUFFALO, April 13.—Cattle—Receipts, 2000 head; fairly active and steady; prime steers, \$5.00 to \$7; shipping, \$5.75 to \$6.50; butchers', \$5 to \$6.25; heifers, \$4.50 to \$6.15; cows, \$3.25 to \$5.50; bulls, \$3.50 to \$5.25; stockers and feeders, \$3.50 to \$4.75; stock heifers, \$3 to \$3.75; fresh cows and springers, good, active and strong, common dull, \$2 to \$2.50.

Hogs—Receipts, 2200 head; active and steady, \$5 to \$6.25. Hogs—Receipts, 18,000 head; slow and steady, \$5 to \$6.25. Hogs—Receipts, 18,000 head; slow and steady; heavy and mixed, \$4.40 to \$4.85; Yorkers, \$4.50 to \$4.85; a few \$4.35 to \$4.50; roughs, \$4 to \$5.50; stags, \$4 to \$4.50; dairies, \$2.50 to \$4.00.

Sheep—Receipts, 10,000 head; active and steady; heavy and mixed, \$3.00 to \$3.40; lambs, \$3 to \$4; a few \$3.50; yearlings, \$2.75 to \$3.75; wethers, \$2.25 to \$3.50; \$2.25 to \$3.50; sheep, mixed, \$3 to \$3.50.

British Cattle Markets. LONDON, April 13.—London cattle are steady at 13c to 14c per pound, dressed weight; refrigerator beef is quoted at 11c per pound.

Montreal Live Stock. MONTREAL, April 13.—(Special.)—At the Montreal Stock Yards West End Market, the receipts of live stock at the week ending April 11 were 3800 cattle, 254 sheep and lambs, 470 hogs and 1238 calves. The offerings for the local trade this morning were 1800 cattle, 250 sheep and lambs, 2500 hogs and 300 calves.

This being the Easter market, the attendance of buyers was unusually large, including some from Quebec and Ottawa, and there were also present a few exporters. The weather was favorable, and the condition of the market was all that could be desired by both buyers and sellers, and especially by the latter, in showing a stock. The supply of cattle was much smaller than was generally expected, and as the bulk of it was superior in quality to what generally is offered, a much stronger feeling prevailed, and prices advanced 1/2c to 1c to 1 1/2c for top quality while in a few odd instances some fancy figures were paid.

The demand was active and a brisk trade was done from start to finish. The highest price realized for fancy Easter steer beef was \$c per pound. The price was paid by J. Drolet & Fils of Quebec to T. A. Marquis of Sunderland for one steer, which was 25 months old and weighed 1725 pounds. This steer was fed and bred by J. Stone of Saint-John, Ont., and took second prize at the Grand Fair in 1907. There were a few other sales made of prime Easter steers at 7c to 7 1/2c per pound, the bulk of the trading being done in choice stock at 6c to 6 1/2c per pound. Good, useful cattle sold freely at 4c to 5c per pound, and the supply of white common grades brought all the way from 3c to 4c per pound.

Liverpool grain and produce market on Saturday reported an advance of 1/2c to 3/4c per pound, and quoted American steers at 15 1/2c to 15 3/4c, and Canadian steers at 15c to 15 1/2c. There were no new developments in the market for sheep and lambs; supplies were small, for most of the week, and the supply of local consumption, and in consequence prices are firmly maintained.

Prices of small lots of choice yearling lambs were made at 7c to 7 1/2c, and good at 6 1/2c to 6 3/4c, while choice lots of sheep sold at 4 1/2c per pound. The supply of spring lambs was also small, which met with a ready sale at prices ranging from 15c to 16c per pound. There were a few choice, milk-fed calves on the market, for which the demand was good, and sales were made at 8c to 8 1/2c per pound. Fair some holders were asking as high as 7c to 7 1/2c per pound. Good calves sold at 5c to 5 1/2c, and fair at 4c to 4 1/2c per pound. A weaker feeling developed in the hog situation, and prices show a decline of 1/2c to 3/4c per pound since this day week. This was due to increased supplies and in sympathy with reaction in the market for hogs. There were a few profit-taking sales and prices eased off a little, but the sentiment seems to favor purchases on breaks.

Easter Oxforas For the Men

Time was when a man gave little thought for the style of his footwear at the change of the seasons. It's different to-day, and that's why many a man, as soon as it's time to take off the heavy top-coat, considers it part of the season's change to put his feet into a pair of Oxford shoes—and tan ones at that—they're the right thing, you know.

WOBURN. Scarborough Council Take Up Question of Market Accommodation.

WOBURN, April 13.—The members of the Scarborough Township council at their regular meeting, held here this afternoon, took strong ground with respect to the action of the city council in allowing the St. Lawrence Market to be closed to the farming community.

"I have been attending the St. Lawrence Market for 30 years," said Mr. Thirli, and last Saturday was one of the most disagreeable days of his life. A feeling of dissatisfaction was being engendered at the length of time during which the market has been closed and will remain closed.

A bylaw dividing the township into the several road divisions as required by the return to the old system of statute labor was passed and the several pathmasters appointed.

The Dominion Bank statement showed the township account as being: General account \$2817.08 Clergy rest principal 2983.80 Interest 110.35 Real estate 31.70 Tax sale 237.05

Harrington Bros. were given the contract for the manufacture of the sewer pipe needed for the 160 lengths of 10-inch, 100 of 12-inch, and 40 of 15-inch. This order is practically the same as last year.

EAST TORONTO. Town Council Decide to Improve the Kingston Road.

EAST TORONTO, April 13.—An old-time acrimonious session of the town council was held to-night, the storm centre of which was the report of the roads and property committee, presented by Councillor Lyonde, and which was debated for more than an hour.

The report advised the expenditure of some \$4000 altogether in road improvement and the removal of garbage. The amount was not excessive, but the council did not take kindly to the idea that the streets to be served were to be left to the discretion of the committee. The purchase of a team was also frowned down.

Councillor Phelan made a strong appeal for the expenditure of the total sum on the Kingston-road within the town limits, naming \$800, the cost to be divided between wards one and two in the proportion of 40 per cent. for ward two and 60 per cent. for ward one, as per assessment.
