FRENCH OFFENSIVE IN MOROCCO FAILS

POSSIBILITY OF
CAMPAIGN THIS
WINTER TALKED

Resistance Of Rifian
Rebels Remains
Rigid

PATIENCE URGED

Officials Say "Wait And See,"
But Grand Attack Not
Anticipated

By JOHN O'BRIEN
United News Staff Correspondent
(Copyright 1925 by United Press.)

CAIRO, French Morocco, Sept. 21.—The
question whether the French can
avoid a winter campaign against the
hardy Rifians, whose resistance is still
unmolested despite the present offensive,
is today the chief topic of conver-
sation among military officers here.
The period before the rains set in is
getting shorter. Thousands of troops
and long trains of supplies and equip-
ment are constantly moving north to-
ward the battlefield, the French line
has advanced appreciably in several
places beyond that held in the spring;
aviation camps have moved forward.
RESULT AN ENIGMA.
But what this tremendous force, the
greatest France has concentrated since
the war, can accomplish, remains an
enigma.

High French officials, in response to
queries replied cryptically: "Have pa-
tience, you will see most interesting
things."

Every one agrees there will be action
within a couple of weeks, possibly next
week in the eastern sector, but nobody
is willing to admit it will be a "grand
offensive" designed to smash the Rif-
ians, resistance such as that of the re-
capture of new attacks from the
tribesmen in the spring.

JUNCTION IS AIM

One of the most likely aims of the
coming operations will be the effective
junction of French and Spanish troops
in the east to prevent the Rifians from
being furnished with supplies from
Algeria.

But any suggestion of an advance in
the entire line or a rapid overwhelm-
ing movement to some point such as
Chechenou or Adjir is countered im-
mediately by considerations of trans-
port mobility, lack of roads and the
necessity of living in a country which
is almost a desert waste north of the
Ouergha.

HANSON MATTER UP
AGAIN THIS EVENING

Barriers' Society Council to
Continue on Unprofessional
Conduct Charge.

Special to The Times-Star.
FREDERICTON, N. B., Sept. 21.—
The council of the Barriers' Society of
New Brunswick will meet at eight
o'clock Tuesday night to continue con-
sideration of the charges of unprofes-
sional conduct preferred against R. B.
Hanson, K. C., by Dr. T. C. Allen, reg-
istrar of the Supreme Court, in the
matter of alteration of a degree of the
Chancery Court in the Nevins case.

Adjournment in this matter was
made from September 8th, when the
regular September meeting of the coun-
cil was held. The expectation is that
the investigation will proceed without
further postponement.

BARN IS DESTROYED

Horse and Cattle Perish, 40
Tons of Hay Destroyed in
Amherst.

Canadian Press.
AMHERST, N. S., Sept. 21.—A valu-
able barn owned by W. F. Beattie, Am-
herst, was destroyed by fire Saturday
afternoon with all its contents, includ-
ing 40 tons of hay, one horse and four
young animals. There was some insur-
ance, but not sufficient to cover the
loss.

Canadian Press.
ANNAPOLIS, N. S., Sept. 21.—Three
women received a bad shaking up and
a seven-months-old child was seriously
hurt, when a small car in which they
were seated, awaiting the return of the
driver, dashed down a steep incline and
dropped over a 15-foot embankment at
Kayside, near here, on Saturday af-
ternoon. The car was badly smashed.

United Farmers Warned By Leader Against Fusion With Other Groups

BRITAIN RESUMES MILITARY MANOEUVRES

Information on Canadian
Imports Refused in Ottawa

BY A. M. BILDING
Staff representative of The Telegraph-Journal and The Evening Times-Star,
who is now on an active canvass of Canadian importers and exporters
in behalf of the more general use of Canadian ports.

MONTREAL, Sept. 20.—There is a remarkable contrast between the way in
which Washington aids American manufacturers and the treatment Ot-
tawa gives to those of Canada. This applies to past Governments of Canada
as well as to the present one. Two concrete cases were brought to my at-
tention. Large quantities of paper are imported into Canada. The Canadian
trade naturally wanted this Canadian business. It was refused information at
Ottawa on the ground that this was a matter of confidence between the Gov-
ernment and the importer. Even the names of the ports of entry were refused.
This holds true of other importations. The Canadian manufacturers cannot
get a chance to bid because he does not know whom to approach. Consider now
an American case. A Quebec concern was exporting rough castings to Penn-
sylvania, quoting a lower price than that of American makers. Either the
American consul or someone else learned about it and advised Washington,
which immediately discontinued the American makers, and as a result of this
refusal advanced the duty on rough castings fifteen per cent.

FOR some time Canadian exporters were compelled to publish exact in-
formation about their business. This was at once seized and sent to
Washington, and distributed to American manufacturers, who went after the
business. After a long struggle Ottawa withdrew the objectionable
regulation. Again, the American Department of Commerce sends out polite
and innocent appearing enquiries to Canadian houses relative to the ex-
tent of their business, their markets and other valuable information, which,
if given, is at once utilized for the benefit of their own producers. Canada
is not so wide awake, and it is charged that Ottawa stands and has always
stood in the way.

Pursuing my enquiries today in regard to the rise of Canadian ports for
export and import business, I called on F. W. Stewart, of Cluett, Peabody &
Co., and was given a most cordial reception. He said the plea for more work
for our railway men and longshoremanship, handling goods through our own
ports, was exactly in line with the Made-in-Canada campaign, since it meant more
work and wages for our own people, and a better market for goods made in
Canada. He said further that he was sure I would find business men sym-
pathetic to an intensive campaign was needed; and therein lay the value of
my mission to the industrial provinces and farmers. He said, in addition,
to educate our manufacturers to buy goods made in Canada for themselves and
families, or they cannot consistently ask other people to adopt that policy.
Frankly, he must admit that he could not at the moment say whether all his
firm's trade was conducted through Canadian ports; but he would at once
make enquiry. I may add that the enquiry showed that while formerly they
did considerable business through American ports it is now confined to Cana-
dian. Mr. Stewart asked me to call again, and to say in what way he could
be of service in advancing my mission.

At the offices of the Dominion Glass Co., Ltd., I was kindly greeted by Mr.
Ferminger and Mr. Russell, who not only assured me that they use Canadian
ports, but had declined when asked to route goods via American ports. They
were in full sympathy with the policy of Canadian trade through Canadian
channels.

THE Howard Smith Paper Co., Ltd., I was assured by Mr. Smith, give
every bit of trade they can to Canadian ports, but they have to go
American for Mexico and Cuba and the Orient. Their shipments to Aus-
tralia, New Zealand and the West Indies go through our own ports.
They would much prefer using our own ports than New York or Boston,
in all cases, but cannot get the service in some directions.

Regarding imports, Mr. Smith called attention to a difference in the Cana-
dian and American laws. On every invoice over one hundred dollars the
exporter to the United States must pay a consular fee of \$2.50 in gold. These
fees pay for the whole U. S. consular service. Canada exacts no such fee. This
matter had previously been brought to my attention by another importer, who
declared Canada could pay for her trade commissioner service by exacting a
similar fee. Mr. Smith is of opinion that Canada has too many ports of entry.
Speaking from memory, and subject to correction, he said he believed Canada
has nearly six hundred ports of entry, compared with about three hundred and
twenty-five for the whole United States, with all its vast coast and border lines
and its enormous population.

I met several people who believed Canada should have better means of
communication with Mexico and Cuba, as well as South America.

I had also an interesting talk with Mr. Forbes of the White Star-Dominion
Line, who spoke of their service to Halifax, and explained that their connection
with the Canadian National Railways at Halifax and Portland. When I
suggested a service to Saint John he expressed regret that his chief, who could
discuss that subject, is now visiting the western provinces.

FIRST DISPLAY
SINCE 1913 TO
START TONIGHT

Forty-five thousand
Troops Scheduled
To Take Part

NEW ARMAMENTS

Event Likely to Have Important
Influence in Future
Warfare Methods

British United Press.
LONDON, Sept. 21.—Forty-five thou-
sand regular army and territorial
troops, aided by the newest type of
airplanes, anti-aircraft guns, tanks and
personal equipment, will start at mid-
night tonight, the first grand scale
army manoeuvres the British have con-
ducted since 1913.
The manoeuvres are awaited with
deep interest, for they are expected to
have an important influence on future
warfare as regards both methods and
weapons.

They will involve critical tests for
aircraft and will represent the final
trial of the efficacy of cavalry against
more modern arms of the service.

TRENCH WARFARE
The manoeuvres are also expected
to show whether trench warfare
as employed on the western front can
be replaced by the old-fashioned open
warfare of the past.

For several weeks the units selected
for the manoeuvres have been gather-
ing and going through preliminary
movements.

The manoeuvres have been started by
the constant procession of new, speedy,
unadvertised tanks, and glimpses of
new model machine guns and anti-
aircraft guns have interested on-lookers.
For the manoeuvres proper new
types of airplanes, speedy and well
armed, have been brought quietly to
the "battlefield."

Participation of territorial troops is
significant. Only on one occasion be-
fore—in 1910—have territorials taken
part in regular army war games.

But they will participate regularly
in the future because of the War De-
partment's new policy of making the
regular army a permanent, fixed num-
ber force, and in the event of war
basing all army expansion on terri-
torial units.

SOME FROM DOMINIONS
General the Earl of Cavendish, of
the imperial general staff, will super-
vise and direct the manoeuvres with
a staff of 74 officers, some of them
from the dominions.

General Alexander Godley, commander-
in-chief of the southern regular army
command, will have charge of the east-
land and central areas, and will be
under Sir Philip Chetwode, com-
mander in command of the great army
centre at Aldershot.

RHODES TO FEDERAL

Ottawa Story Declares N. S.
Premier Plans to Quit Newly

Special to The Times-Star.
OTTAWA, Ont., Sept. 21.—A rather
sensational rumor gained currency dur-
ing the week-end. It was to the effect
that Hon. E. N. Rhodes, Premier of
Nova Scotia, was planning a little later
to quit his newly won post in the Mar-
times and contest a seat for the House
of Commons. Confirmation or denial
of this story could not be obtained
owing to the absence of Premier Rhodes
on a fishing trip. He has been spend-
ing a few days in the capital city.

states that Russia has opened negotia-
tions with Turkey on the possibility of joint
action in the near East. The dispatch
states that Russia has promised to
support Turkey in its claims against
the British by the Mosul oil region, if
Turkey agrees to oppose the estab-
lishment of a British naval station in
the Black Sea.

SEX-EQUALITY AT
COLLEGE IS SHOWN

Mental Tests Also Demonstrate
Advantages of Selective
Process For Pupils.

British United Press.
EVANSTON, Ill., Sept. 21.—After
examining nearly 900 mental alertness
papers turned in by the new students
in the liberal arts, engineering and
public speaking departments at North-
western University, it was announced
Sunday that boys were just as bright
as the girls, thus refuting a popular
conception.

Furthermore, judging from the tests,
the crop of students this year is better
mentally than ever before. The au-
thorities say it is some indication that
the selective process designed to admit
only those who may profit most by the
type of work offered has begun to show
results.

Same Month, 1924.

1 HALIFAX, N. S., Sept. 21.—There
were 99 fires in Nova Scotia, causing
a loss of \$289,033 during the month of
July, according to a bulletin just issued
from the office of the Nova Scotia fire
marshal. In July, 1924, there were
118 fires, with a loss of \$166,611.

Boys Scatter Ashes
Of Five Cremated

United Press.
KEARNEY, N. Y., Sept. 21.—Three
boys carrying five urns were observed
scattering the contents of one of the
receptacles along the road. Investiga-
tion developed that the urns contained
the ashes of five former residents.
Further investigation is expected to
determine how the urns were ob-
tained.

DISCUSSION OF
RAIL TRAFFIC
IS EXPECTED

Conservative Leader
Speaks Tonight at
Moncton

TWO MEETINGS

Candidate To Be Chosen at
Sackville Today Also
Will Be Heard

By Canadian Press Staff Correspondent.
MONCTON, N. B., Sept. 21.—
Transportation matters will, it is
expected, constitute the main theme of
the speeches which Rt. Hon. Arthur
Meighen, Conservative leader, and
Hon. G. D. Robertson will deliver in
this railway centre tonight. As in
Charlottetown, Mr. Meighen will speak
at two meetings, one of which will take
place in the Capitol Theatre, and the
other in the City Hall.

The only speaker, in addition to Mr.
Meighen and Senator Robertson, will
be the Conservative candidate in West-
minster, who is to be nominated at a
convention in Sackville this afternoon.

C. N. R. POLICY.
Mr. Meighen has already indicated
the policy of the Conservative Party in
regard to that part of the Canadian
National System which was formerly the
Intercolonial Railway. Speaking in
Halifax recently, he said that dur-
ing the 1921 campaign he then general
manager of the system had telegraphed
to him stating that the Intercolonial
Railway from Halifax to Montreal
would be included in the Atlantic Re-
gion. He also indicated that his head-
quarters in the Maritime Provinces.
With the defeat of the Conservative
Government this policy had been nega-
tived, he stated.

On the question of railway rates, Mr.
Meighen will, it is expected, state his
policy, already outlined, of assisting
the Maritimes and the West by grants
from the federal treasury, to move
their products into the central markets
of Canada.

AT SHELDIAH SUNDAY.
The Conservative leader spent Sun-
day at Shediac, N. B., the guest of F. J.
Robitoux, a former Conservative
representative of Kent county in the
House of Commons. Senator Robert-
son returned to Charlottetown follow-
ing the meeting at Amherst on Satur-
day afternoon, to address a meeting of
railwaymen. Mr. Meighen's party will
leave for Sussex, where a meeting has
been arranged for tomorrow after his
meetings here.

Western Road Is
Offered To C. P. R.

Alberta Would Sell Northern
Line on Long-pay Terms—
Beatty Considers.

EDMONTON, Sept. 21.—An in-
formal proposal for the C. P. R. to
purchase the Edmonton, Dunvegan and
British Columbia road on long-pay
terms has been made to E. W. Beatty,
president of the system, by Premier H.
C. Greenfield. The proposal repre-
sents the present plan of the Govern-
ment for further negotiations with the
C. P. R., its desire being to clear the
northern railway liability by dis-
posing of its interests for a special
price.

Mr. Beatty took the offer away with
him and promised to give it consid-
eration. If he does not accept the offer,
the Government will again fall back
upon a choice between renewing a lease
for operating the road and a scheme of
Government operation under the Rail-
ways Department.

Presbytery At
Woodstock Meets

Rev. Dr. McConnell, Amherst,
and Prof. Shaw, Halifax,
Among Speakers.

Special to The Times-Star.
WOODSTOCK, N. B., Sept. 21.—
The organizational meeting of the
Woodstock Presbytery of the United
Church of Canada took place here this
afternoon. Among those here for the
meetings are the Rev. Dr. McConnell,
Amherst, N. S., and Prof. J. M. Shaw,
Dalhousie University.

It is expected that Professor Shaw
will deal with the Spiritual aims of the
Church of Canada while Dr. McConnell's
theme will pertain to the
maintenance and extension fund of
the United Church.

Pair Accept Ride And
Are Brutally Beaten

LONG ISLAND CITY, L. I., Sept.
21.—In accepting an offer of a ride
tendered by three men in an automo-
bile a young girl and her escort were
brutally attacked. Frank Green, 19,
was thrown from the car and Ellen
Schultz, a dress model was beaten
into semi-consciousness. Three men
are under arrest charged with the as-
sault.

Conservatives Endorse
Farmer Candidate

BEDFORD, Que., Sept. 21.—The
candidate of Dr. F. H. Pichel, of Sweet-
burg as an Independent-Farmer-Pro-
tectionist, was endorsed by the Conser-
vatives of Brome-Missisquoi at their
convention held on Saturday night.

Polar Party Aims To Settle
Discussion As To Whether
Norsemen Preceded Columbus

WASHINGTON, Sept. 21.—Carry-
ing out its plan of determining whether
there is a connection between the
authentic "Norse ruins of Green-
land and the ruins of Labrador," Com-
mander Macmillan and his scientific
staff, aboard his Arctic exploration
ship, Peary, are visiting various fjords
and ports to the south of Godthaab,
Greenland.

"If the comparison of the Labrador
ruins with those Greenland establishes
a direct connection between the two,"
the National Geographic Society said
yesterday, "a new chapter will be ad-
ded to American history."

For many years, history students
have engaged in spirited discussions
about the theory that the Norsemen
visited the shore of America, 400
years or more before Columbus was
born.
The question at issue is: "Are they
Norse ruins, did they belong to some
unknown Indian or Eskimo civiliza-
tion?" asks the society.

would have to renounce his Amer-
ican citizenship.

WINNIPEG, Man., Sept. 21.—The
United Farmers of Alberta were
warned against fusions with either of
the older parties with Labor by H.
Wood, president of the United
Farmers of Alberta, at a convention of
Progressives in Lethbridge on Satur-
day. Labor leaders were present at
the meeting and were allowed brief
speeches, in which overtures were made
to the agrarian organization. Mr.
Wood advised a consistent policy on
economic group action, industrially and
politically.

Progressive party nominations in Al-
berta are proceeding more rapidly than
in the two prairie provinces. There are
six candidates already in the field, four
of whom were members of the "Ginger
group" of the last parliament.

TO CONTEST 48.

Progressive party candidates will
contest 48 of the 60 or the 54 seats in
Manitoba, Saskatchewan and Alberta,
according to estimates made by party
officials here. Through only eight nom-
inees are in the field at the present
time, the majority of the nominating
conventions will be held before Octo-
ber 1.

Most of the urban seats are left to
the two older parties and Labor while
every rural district will have a farmer
candidate.

LESS THAN IN '21.

The Progressive party champions of
the next few weeks will assume none
of the Dominion-wide characteristics
of the election of 1921, when Hon. T. A.
Crear addressed meetings throughout
the west, in Ontario, and in the Mar-
time Provinces.

In 1921 the Progressive party had 130
candidates standing for election, but in
the present contest 48 in Western
Canada, together with the total farmer
nominations in Eastern Canada, will not
come near that total.

HALIFAX YOUTH IS

Canadian Press.
YORKTON, Sask., Sept. 21.—Elmer
McLeod, 23, who gave his home ad-
dress as Halifax, was sentenced to
30 days hard labor by Justice of the
Peace Caldwell, Saturday, after being
found guilty on a charge of vagrancy.
He remarked that "you might just as well

harvest will be over by the time I
am released."

Justice Caldwell said the prisoner
appeared dissatisfied, then he raised
the sentence to 60 days.
Evidence indicated that McLeod had
been spreading revolutionary propa-
ganda among the harvesters.

MANY ACCUSATIONS ARE MADE IN COURT

Family Differences Keep Magistrate Busy Till He Ends Case With Dismissal

The attention of Magistrate Henderson was occupied this morning in hearing a family difficulty brought to court when Robert J. Walker had his wife charged with assaulting him. Accusations flew back and forth at a lively rate, and the magistrate finally dismissed the case on account of conflicting evidence.

Mr. Walker said his wife had threatened to kill him and put him in Fenhill that once she threatened him with a club, and another time with a large rock, again with a butcher-knife. Yesterday, the witness declared, she jumped at him and at the same time told him she would "kill him." He said he caught her arms and then pushed her away, so that he could secure his coat and hat and leave the house. He added that he was afraid to eat food in the house. He said she had taken poison some time ago.

WOMAN'S STORY

Mrs. Walker swore that her husband had threatened to "kiss" a doctor to say she was crazy and put her in an asylum. She showed a black and blue spot on her arm, where she claimed her husband struck her. She said that he threw her to the floor and then she bit him. She added that she would bite him again under the same circumstances. She denied striking him in the face with her hat.

On one occasion, she admitted, she had chased her husband into the house with a club. She said that she objected to attentions he was giving another woman. It was over a dispute about this woman, she declared, that he struck her yesterday.

WOMAN DISCOVERED TORTURED TO DEATH

Body of Chicago Hotel Owner's Wife is Taken From Lake.

CHICAGO, Sept. 21.—Mrs. Marion Jacobson, aged 41, wife of a North Side hotel owner, had occasion recently to discharge a waitress whose men companions were not acceptable in the restaurant. At that time some of these men returned to the restaurant and attacked Mrs. Jacobson. She caused their arrest for assault with a deadly weapon, but nothing came of it. Saturday morning Mrs. Jacobson mysteriously disappeared from her home at about the hour her husband's restaurant was practically destroyed by a bomb.

Halifax Child Dies After Scalding

HALIFAX, N. S., Sept. 21.—Helen Peard, aged one year, died in hospital here yesterday, as the result of burns received on Saturday, when she upset a spill of boiling water while playing in her home on Barrington street.

The preliminary post mortem disclosed that scalding water had been poured over Mrs. Jacobson's arms, legs and hands until the flesh dropped off. Lighted matches or a torch of some kind had been used to heat her back and other parts of her body. No water was found in her lungs, showing she was dead before being thrown in the lake.

NEW SUIT STYLES

We have stirred up a lot of enthusiasm within ourselves over this Fall Suit display. We certainly gathered a lot of masterpieces. The looms never served us finer fabrics. The tailors never plied more skillful needlework, and the pattern designers have developed very unique and distinctive effects.

Our selection is broad at \$20 to \$50, with special emphasis on our feature value group at \$30 to \$45. Many with extra trousers.

COURT CASE FOLLOWS AUTO INCIDENT

John Garson Faces Charge of Operating Car Without Efficient Brakes.

As a result of investigations by detectives following the striking and knocking down of Mrs. Pearl Murray, of Golden Grove, last evening in Main street, John Garson was before the magistrate this morning on the charge of operating his automobile without efficient brakes. Detective Biddiscombe said that they found the brakes on the car were of no avail.

STUCK BY CAR

Mrs. Murray was knocked down by the automobile just after she had stepped from another car. She was taken to T. J. Durick's drug store and later was conveyed to the General Hospital in the ambulance. It was thought that she was suffering from a broken rib or ribs and an X-ray examination will be made.

A Fresh Note in Design

It's nice to know you have hit upon a Chesterfield suite with no other quite like it. The happy freedom of line in this suite is hardly reached in the above suggestion—the arms actually have less top curve but more swing out at the bottom. Which makes a great difference as you'll decide at the window.

All upholstery is Bronze Mohair, but one reverse of cushions provides effective contrast in a cameo cut motif. Large Heama flower on Old Gold, deep tone foliage and smaller blooms touched by Old Rose and Old Blue. \$282 for entire suite.

FLEET REVISITS HISTORIC AREA

British Warships of Mediterranean Force Cruise to Dardanelles

Experimenting for New Army Rifle—News Topics in Metropolis of Empire.

Times-Star Staff Correspondent

LONDON, Sept. 20—In the course of its autumn cruise, the Mediterranean fleet is revisiting historic scenes in the Dardanelles. Quite a large force is now at Lemnos, the island ceded to us by the Greeks in 1918 as a base for the allied fleet, and it is coincidence that Sir Roger Keyes, who as a commodore was the chief-of-staff to Admiral de Robeck during all the fighting on the peninsula, is now commander-in-chief in the Mediterranean. His flag, moreover, flies on the Queen Elizabeth, the first service of which ship, then new, was to bombard the outer forts of the Dardanelles as a test for her 16-in. guns, and on board which General Sir Ian Hamilton had his general headquarters during the landing of the army.

Withdrawn soon afterwards, owing to the fear of submarines, the Queen Elizabeth passed the rest of the war in the North Sea, and only last year was transferred to Malta. Salonic, Thessalon, Syria, and other places in the Aegean which became well known during the war will also see the Mediterranean fleet before it returns to Malta at the end of October.

PRINCE AHMED.

Reluctantly I find myself unable to share the film emotions of the tuppence-colored London press over the romance of Prince Ahmed. At close range it looks rather sordid. Twenty-seven years ago Prince Ahmed, quarrelling at his club with another young Cairo spark, the present King Fuad of Egypt, drew a revolver, and shot him badly. The dispute is said to have been over Fuad's behavior to Ahmed's sister, then newly married to Fuad, but since divorced. Ahmed was sentenced to seven years' penal servitude, but, after serving only a few months, was sent to an asylum in England. This favored treatment was secured by powerful influence backed by immense wealth. The same magic spells have now compelled Ahmed's escape from his asylum, and, if you please, the British Government is threatened with legal action for several millions damages. It should be an interesting case celebre.

HIS OVERHAUL DAYS.

John Burns must have reflected on the passage of time the other day, when he attended the funeral of his old chief, with whom he was associated 45 years ago in Nigeria. "It was Joseph Flint, Yorkshireman, born in Sheffield, who died about a week after Sir George Goldie, the founder of Nigeria. The late Sir George Goldie worked quietly from Surrey House in the interests of the chartered company—and the *British Empire*, as it proved—and the late Sir Joseph Flint was practically commander-in-chief in the Niger territories for 20 years. Mr. Burns, who was for 18 months an engineer at Akassa, Nigeria, in the service of the United Africa Company, in 1880-81, wrote to the London directorate asking for books and games to be sent out to the staff. This was the beginning of the *Empire* today. Mr. Burns was a "booky" man even in those early days of Empire-building. He has today the best private library in Africa."

THE MONO-RAIL.

Somewhere I doubt whether, despite the British Association's interest, our London tubes will adopt the mono-rail system. The history of this wonderful invention is a tragedy. With better luck it might have revolutionized railway travel the world over. Speeds of well over 100 miles an hour are easier and safer on the mono-rail than 50 on the existing lines. Thousands of pounds were spent on getting through Parliament a bill to make a mono-rail between Manchester and Liverpool—even then at 80 miles an hour—to a mere quarter of an hour's spin. Despite tremendous railway opposition, and questions to expert engineers about the effect of braking a train at 150 miles an hour, the bill passed. But vested interests killed the project, and the necessary capital was never raised.

MARSHAL PETAINE'S JOB.

France is exerting great efforts to end the Rif trouble decisively. Marshal Petain, whose reputation stands next to that of Foch with his countrymen, is the French Kitchener, and his command in Morocco has within a few weeks been brought up from 60,000, four-fifths of them native troops, to 150,000, mostly seasoned French soldiers equipped with all the latest military devices. Though this looks a big preponderance compared with the Rif's 80,000 irregulars, Marshal Petain's problem is as hard as Kitchener's in South Africa, and the fighting preponderance no greater. Mobility and capacity to stand the climate are great Rif assets, and Abdes Krim's boat is that, owing to these circumstances, his men are equal to holding up at least four times their number. France's difficulty will be to force a final decisive engagement.

EXPERT ON ANTIQUES.

Ramsay MacDonald is said by experts in such matters to know more about antiques, especially period furniture, than any other ex-cabinet minister. He has the "sense" of being able to detect a faked piece of furniture, even when it has been masqueraded as the true period by an artist cabinet-maker, and the trade says that he might have made a fortune if he had gone in for old furniture instead of politics.

RANKER COMMISSIONS.

A striking feature in connection with the recent large influx of army recruits is the enlisting of a large number of young men of high educational attainments. Many of them have public school and university training. Now that commissions are definitely opening more and more to the ranks, it is assumed that the entrants are attracted by the cheaper means of getting a commission by selection from the ranks for Sandhurst, then passing into the college as a cadet in the ordinary way. Some may, however, have turned the college age for direct entrance, and probably the non-existence of the

militia as a practical force, through which many young officers passed to regular commissions, may account for this new type of enlisting soldiers. An official report is to be made on the matter.

FREAK CLUBMAN.

For 20 years a distinguished chancery lawyer has walked from the Temple each day, called at his club, of which he has been a member for 30 years, sipped a glass of water, and proceeded again on his way home to Kensington. Ten minutes is all the time he spends in the club, which he never uses for any other purpose, but as a half-way house in this way. His fifteen guinea subscription is paid promptly each year.

FIVE YEAR TYPEWRITERS.

One of the principal firms of London engineers—with palatial offices in West-
minster—has been making a careful analysis of all its office experience with a view to greater economy and efficiency. One interesting result of this survey is a decision that no typewriter is to be kept in use in the office more than five years. Statistics show that, although a typewriter has a much longer life than this, it is cheaper and more efficient to sell the five-year-old machines, and buy new ones, rather than pay the regular charges for repairs, and overhauls that a machine demands after that period. This same company is now encasing all its typewriters in sound-proof cases, because it has been found that the typists work quicker and more accurately if they are not worried by the clatter. In a room occupied by eight typists with boxed machines, it is possible to talk from one side to the other without raising the voice.

THE NEW RIFLE.

Reports of the early issue of a new service rifle are premature. Experiments are still in progress to devise a weapon which, while of an automatic type, will also serve all military requirements. In the main, a much improved and lighter rifle has been evolved, but it has not reached a stage in details to justify its general manufacture. Concurrently, experiments are being made with a new ammunition of the "stream-line" pattern, and this it is believed will overcome the trouble of metallic fouling. It is practically ready for manufacture, but will be held up until existing large war stocks have been further reduced. Even if the new rifle were ready for manu-

facture, it is doubtful whether the Government would just now incur the expense of re-arming the services.

Many sportsmen of all sorts will hear with genuine pain of the tragedy that besets William Cook, son of the once famous billiards professional whose championship laurels fall to John Roberts, and himself no mean performer on the green cloth. There ought to be little difficulty in raising a fund to get Cook out of the London workhouse where he is now an inmate, and set him on his feet again in some modest capacity. He used to run a billiards room in Liverpool in his young days, varying the compilation with fascinating artistry of immense rail-cannon breaks by playing quite pleasantly on his cherished violin. Later he went to the London billiards Mecca in Leicester Square, but the abolition of the push-stroke rather cramped his favorite play. Amongst Cook's pupils have been Sir Thomas Lipton, Lord Saville, Lord Cook, Mr. Justice Bignell, Walter and Charles Rothschild, Mrs. Stanley Baldwin, and the Sultan of Zanzibar.

WOULD STOP COAL EXPORT

Cardiff, Wales, Sept. 20—A. J. Cook, secretary of the Miners' Federation in an interview, has declared his intention to induce the coal miners of Wales to strike with a determination not to allow the shipment of coal to the United States as this might jeopardize the success of the United States anthracite miners' strike.

MIGHTY EATING MARKS HARVESTING

Kansas Women Are Kept Busy While Wheat Crop is Gained.

KANSAS CITY, Mo., Sept. 21—Ten thousand young women of Kansas are as much a part of the harvesting of the thousands of bushels of wheat in Kansas as the many threshing crews which move from place to place in the wheat country.

When the crews move from one place to another, the farmers make preparations for the men and the farm wives are just as busy preparing to feed the hordes of workers who harvest the crop. The men must be fed and the women see to it that they are fed properly.

A report from one Kansas paper says that if all the chickens which are slaughtered for the men and the farm wives were placed side by side on one roost, it would span the distance from Montreal to Topolobampo. The mashed potatoes prepared would form a layer a foot thick over the average Kansas county.

Enough honey is fed the men to float a battleship and the ears of corn if placed end to end would nearly encircle the globe. Jam, preserves, jelly and pastries would fill the sweet tooth of the world for a day during the season. Harvesters have a reputation as heavy eaters. It is reported that the college men who help in the fields are not the lightest eaters. In fact, the farm wives say that these young men outdistance the regulars of the wheat fields when it comes to eating.

Intense Heat! —fast Cooking!

NOT least of the remarkable points about McClary's Gas Range is the full constant flow of intense heat that comes from the burners. This makes cooking fast—nearly twice as fast as with wood or coal—without fuss, muss or trouble.

- Other features which housewives prize in McClary's Gas Range are:
 - The porcelain enameled top, rust proof and sanitary.
 - The porcelain enameled oven, so easily cleaned and kept sweet.
 - Unbreakable Pyrex glass in oven doors with thermometer to regulate cooking.
- These are just a few of the qualities which have made McClary's known as the satisfactory Gas Range.

A Mistake

that some beauty seekers are making
They are misled on "olive and palm" soaps

DO you realize, Madam, that "olive and palm" soaps are ages and ages old? But never has one, before Palmolive, brought comparable results to the skin.

Palmolive Soap is a masterpiece, based on 60 years of soap study. It is a scientific creation, made to bring new beauty to the skin. Made to keep schoolgirl complexions.

Its unique results have led millions to adopt it. Now it is made in five countries, to supply the world-wide demand. It is made in France, because French women find in this their ideal of a soap.

Soft, velvety complexions are many times as common as they were before Palmolive came. Then don't accept ordinary "olive and palm" soaps, with artificial color, and often super-fatted.

Palmolive costs 10 cents—no more than the price of most ordinary soaps. But that is due to enormous production. Palmolive has become the leading toilet soap of the world. The only two soaps we know that fairly compare with it cost 25 cents per cake.

This warning is in your interest. There is a way to keep youthful complexions, and multitudes have found it. But that way is not a mere "olive and palm" soap. It is found in Palmolive alone.

Note the *unnatural* "too green" color of Palmolive imitators. What does that suggest? Men don't paint nature to improve it.

Olive and palm oils—nothing else—give Palmolive its delicate, *natural* color. Olive and palm oils—no other fats whatsoever—are used in Palmolive.

No "super-fating," no "super-anything"—the only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

Let no one convince you—for your own sake—that any ordinary type of "olive and palm" soap can bring you Palmolive results.

Wash, launder, cleanse with any soap you wish. But when beauty is at stake—take care. Use Palmolive, nature's formula to "Keep That Schoolgirl Complexion."

IN PARIS

French women are discarding French soaps for Palmolive

Palmolive is today one of the two greatest selling toilet soaps in France. Parisian beauties are happy to pay almost twice as much for a cake of Palmolive as Canadian women pay. And, in many cases, three times as much as for their own French soaps. Remember this when tempted by costly French soaps, or by "French" claims for soaps.

(MADE IN CANADA)

Note carefully the name and wrapper. Palmolive is never sold unwrapped.

MRS. H. KNOX IS KILLED IN ROAD

Thrown From Auto by Collision in Rothersey Avenue

Family Car and One Driven by Chipman Schofield Crashed

Mrs. Lillian Knox, wife of Harry Knox, 81 Sewell street, was killed last evening about 6.30 when she was thrown from an automobile in which she was riding with her husband and two children, by the force of a collision with another automobile, driven by Chipman Schofield, son of F. B. Schofield.

The accident happened near the Crosby Molyseps Company plant, Rothersey avenue, a spot where other fatalities have occurred recently. Near here Louise Amburg was killed about three weeks ago and last year Lawrence Currie was fatally injured in a fall from a motor cycle at about the same spot.

DID NOT SEE CAR

Mr. Knox, reporting to the police following the smash, said that he had not seen the other car until after the accident. He did not know whether there were any other automobiles on the road or not.

Mr. Schofield said that he did not know how the accident occurred. He had tried to pass between the street car and the Knox automobile, which was his right-of-way there as the line hugs the side of the road. He knew nothing of what had caused the crash and knew nothing of what happened after the car struck. He was very little hurt, a few scratches being the extent of his injuries. He was stunned momentarily, however, when his car turned over but was able to get out the left door, then above his head.

His car was righted later, the tire was put back on it and it was driven to the city.

The motorman of the street car said he had seen only two cars. He had known nothing of the accident until he saw Mrs. Knox flying through the air out of the car.

The ambulance was called and rushed to the spot but the unfortunate woman had been conveyed to the hospital in a touring car by Albert Stackhouse. Mrs. Knox was pronounced dead on arrival there and the cause of the skull being given as the probable cause. Coroner H. A. Porter was called and, after investigating the accident with Sergeant Detective John T. Power, Detective Patrick F. Blodden, County Constable Shortell and Provincial Constable Robert Crawford, decided to hold an inquest, probably on Tuesday.

PATENAUDE LAUDED BY CONSERVATIVES

His Exit From Quebec Field Is Regretted; Seen Worthy Man For Ottawa.

Canadian Press Despatch. MONTREAL, Sept. 21.—Opposing the intermingling of provincial and federal politics, the Conservative opposition in the Quebec legislature met in caucus and decided that no Conservative member of the local assembly should contribute his support to federal Conservatives, does so on his own initiative and represents himself only.

A resolution was also framed and accepted, expressing regret at Hon. Mr. Patenaude's leaving the provincial field, and re-entering federal politics. The resolution praised Mr. Patenaude's activities in the local legislature and expressed the belief that he would be a worthy representative of Quebec in Dominion affairs.

Floating Pulpit Is Stored For Winter

WASHINGTON, N. J., Sept. 21.—A floating pulpit used by the Rev. Frederick M. Gordon of Christ Church, Chapel, Culver's Lake, for Sunday services during the vacation months was put into winter storage here and insured for \$600 against fire.

The pulpit, which is unique in this section of the country, has, in addition to the rostrum, a gallery for the choir and is also equipped with a piano. On Sundays the pulpit is towed to the centre of the lake. The parishioners, in motorboats, rowboats and canoes, form in rows in front of it. After services the pulpit is returned to its berth.

Weddings

Bedford-Whelpley.

A very pretty wedding was solemnized by Rev. Canon R. P. McKim in St. Luke's church this morning at 10.45 o'clock, when Miss Gladys Martha Whelpley, daughter of Mr. and Mrs. Frederick E. Whelpley, of Saint John, became the bride of Cyril Francis Bedford, of Boston, son of Thomas Bedford and the late Mrs. Bedford of Somerville, Mass., formerly of Saint John.

The bride, who was given in marriage by her father, was charming in a dress of amethyst charmeuse, trimmed with grey squirrel, with hat of pearly satin and grey stockings and slippers to match her gown. She carried a bouquet of Columbia roses. Little Jean Wood, of Chester, Penn., made a dainty little flower girl in a faded dress of pale mauve organdy and crinoline skirt. She wore a mauve bonnet and carried an old-fashioned nosegay. George Lanyon, organist of the church, played the wedding music and Miss Emma Rand sang "O Promise Me" while the register was being signed. The ushers were Ernest W. Whelpley, a brother, and G. Eric Golding a cousin of the bride. Miss Josephine Morrison and Ernest Whelpley signed the register as witnesses. The church was prettily decorated by girl friends of the bride, with a profusion of flowers of autumnal tints. Many interested friends assembled at the church for the ceremony, besides the invited guests.

After the wedding a buffet breakfast was served at the home of the bride's parents, 82 Sydney street, the party being intimate friends and immediate relatives of the bride and groom.

Mr. and Mrs. Bedford left by motor for a honeymoon trip to Boston, via the White Mountains. They will reside in Boston. The going-away gift of the bride was a traveling dress of redolent pique, with hat of Copenhagen. Among the gifts were: a silver from the New Brunswick Telephone Company, where she had been employed in the office of the manager. The groom is employed by the Studebaker Car Company, of Boston, and received from his associates in the firm a going-away gift.

Among the out-of-town guests were Miss Gladys Bedford, of Boston, a sister of the groom; Mrs. Frank Cunningham and Mr. and Mrs. A. E. Frame, of Arlington, Mass.; William Magee, of Middleton, N. S., and Mr. and Mrs. Ralph Wood, Jr., and daughter, Miss Jean, of Chester, Penn.; and Mrs. Walter Lillo, of Calais, Maine, grandmother of the bride.

Wignore-Fitzpatrick.

The wedding of Miss Marjorie Fitzpatrick, daughter of Captain and Mrs. David Fitzpatrick, of Hillsboro, Albert county, was solemnized this morning, when she became the bride of Roy H. D. Wignore, B. Sc., son of Hon. and Mrs. Rupert W. Wignore, pastor of the First Baptist church, of Saint John. The ceremony was performed in the presence of relatives and intimate friends of the bride and groom. The bride was given in marriage by her father, Miss Hazel Megarity, Wright street, sang appropriate solos, accompanied by Miss Marguerite Barrett, of West Saint John. A wedding luncheon was served after the ceremony, following which the bride and groom left by motor for Moncton, where they took the train for Montreal. Those going from Saint John to the wedding were Mrs. L. Hoar, Albert Hoar, Miss A. Daniel, Miss McArthur, and Miss Barrett, as well as the parents of the groom, who expect to return this evening. The bride was recipient of many showers, and lovely gifts, both at home and in Saint John, where she was a popular visitor.

Cusack-McManus.

The marriage of Miss Annie Kathleen Cusack, daughter of Mrs. Sarah McManus, and Edward Joseph Cusack, son of Mrs. Mary Cusack, was solemnized this morning in the Cathedral of the Immaculate Conception, by Rev. William M. Duke, with nuptial mass. The bride, who was given in marriage by her brother, William Cusack, was wearing a navy blue pique tulle with hat of sand and tangerine and handsome fox fur, the gift of the groom. She carried bridal roses. Miss Mary McNulty attended the bride, wearing a pearly Canton crepe with black hat and fox fur and carrying a bouquet of sweet peas.

A wedding breakfast was served at the home of the bride's mother, 90 Prince Edward street, after which Mr. and Mrs. Cusack left for a motor trip through the province. Going away, the bride donned a sand-colored traveling dress with coat of rosewood shade and hat to match. On their return Mr. and Mrs. Cusack will reside at 202 Watloo street. Among the many gifts of cut glass, silver and linen was a substantial check from the bride's brother, Harry McManus of Montreal.

Record Attendance at Mt. A. is Anticipated

SACKVILLE, Sept. 20.—Mount Allison University opened registration Saturday but the classes will not start until Wednesday. Many students arrived in town over the week-end, and it is expected that the attendance will be a record one.

There is an increased attendance at the academy this year, but there is still accommodation for a dozen more. About 25 university students are also expected to register at the academy. The attendance at the Business College shows an increase, especially in shorthand and typewriting.

Burglar Outwits His Woman Victim

NEW YORK, Sept. 21.—A quick-witted thief in Jersey City made his escape by drowning out the cries of his intended victim by his own shouts of fire.

Mrs. Mary McDuffy returned from a shopping tour to her home to discover a young man riding the drawer window and began to shout "police murder." The thief opened the door and ran down the stairs shouting "fire." The startled tenants joined the young man in the race to the front door. The burglar got away.

ENTITLED TO "V. D." AFTER THEIR NAMES

Order Issued Relative to Colonial Auxiliary Forces Officers' Decoration.

Recent militia orders from Ottawa publish the following order issued by the War Office, London, containing an additional rule and ordinance to the government of the colonial auxiliary forces' officers' decoration. It provides that the decoration shall not confer any individual precedence, but shall entitle the recipient to the addition of the letters "V. D." after his name.

Following this, as authorized by the Militia Council at Ottawa has published the following dated August 1, 1925, as a new paragraph to the regulations issued some years ago when the officers' decoration was authorized for 20 years' service in the Canadian Militia as an officer:

"The award of the Colonial Auxiliary Forces officers' decoration shall confer no individual precedence, but shall entitle the recipient to the addition of the letters "V. D." after his name.

When the grant of the officers' decoration was made in Canada some 20 years ago, it was felt that those officers who received it after serving in commissioned rank for 20 years, should have some public recognition, as a similar decoration in Great Britain entitled such officer to V. D. after his name, and later on decorations for 20 years' service were granted to the Territorial Forces, which authorized the letters T. D., and to the Royal Naval Reserve with R. D., and all these are generally used in England and duly recognized, so that all recipients in Canada may be addressed with the addition of V. D.

Among those who are now entitled to the distinguishing letters are Major General McClean, Colonel Murray Macdonald, Lt. Col. Armstrong, Lt. Colonel McLeod, Lieutenant Massey, D. S. O., and many others.

Sisters of Service Open Halifax Hostel

The acting Mother Superior of the Sisters of Service, Sister Ludwina, of Toronto, and Sister Rogers, of the Sisters of Service, Toronto, were in the city yesterday in their way to Toronto from Halifax, where they had accompanied a group of Sisters of Service and opened an hostel. The members of the order will do part work at Halifax. This order was organized by Rev. George Daly, C. S. S. R., who was at one time attached to St. Peter's rectory here. While in the city the two visiting sisters were guests at the Saint John Infirmary.

FOREST HILLS, N. Y., Sept. 20.—William Tate Tilden, II, remains the undisputed tennis champion of the United States. He won the title yesterday, when he turned back the challenge of his veteran rival, William M. Johnston, of California, in five sets. The score was 4-6, 11-9, 6-3, 4-6, 6-8.

Deaths

Mark N. Powers.

The death of Mark N. Power occurred yesterday after a lengthy illness. He was the son of the late T. Fred Powers, and had been in the undertaking business following the death of his father and his grandfather, Mark N. Powers, who was the founder of the firm, starting in 1868. He was a member of No. 2 Lodge Knights of Pythias, also of Hibernia Lodge No. 8, F. and A. M. He leaves to mourn two sisters, Mrs. E. C. Thompson and Miss Frederica Powers, of this city. The funeral will be held from his late residence, 79 Princess street, Tuesday afternoon, service at 2 o'clock.

Judson J. Nice.

The death of Judson J. Nice, on Sunday, Sept. 20, came after several months' illness at his home, 101 Lancaster avenue, West Saint John. Mr. Nice, who was 48, leaves besides his wife, his mother, Mrs. Frederick Nice of Watertown, Mass., formerly of Saint John; two sisters, Mrs. Jean Newcombe, of Watertown, with whom his mother resides, and Miss Nan Nice at home; three brothers, Asa, an engineer, W. Bradford, a plumber, and Walter, of the C. P. R. elevator service of West Saint John. His father, Captain Frederick Nice, formerly of the ferryboat service died some time ago. He was a prominent member of the Brotherhood of Locomotive Engineers, and of the Golden Rule Lodge, Independent Order of Oddfellows, West Saint John. Mrs. Nice was formerly Miss Lillian Phillips, of Fredericton Junction.

Mrs. George B. Dunn.

In Houlton, Me., on Friday, Mrs. Lucinda R. Dunn, wife of George B. Dunn, well known in the lumber business, passed away. She was a daughter of the late Mr. and Mrs. Andrew Cushing, Lancaster Heights. She leaves three children: Mrs. Louise Sawyer, Houlton; Mrs. Henry C. Chapman, Bangor, Me., and Mrs. George E. Dunn, Portland, Me. One sister, Mrs. C. S. May, resides in New York. Richmond H. Cushing, civil engineer, Lancaster Heights, is a brother.

Mrs. M. E. Davis.

After many years of suffering Maggie E. widow of Capt. S. Davis, passed away at her home, Hatfield's Point, Kings county, on Saturday evening, Sept. 19, 1925. She was in her 84th year and was widely known. She will be greatly missed and will be long remembered for her many gracious acts. She is survived by four sons, S. H. Davis, with M. R. A., Ltd. city, O. E. Davis, Hatfield's Point, P. C. Davis, Boston, and W. A. W. Davis, New York; and one daughter, Mrs. J. Vernon Keirstead, Lancaster Heights.

The funeral will be held on Tuesday afternoon at 2 o'clock.

Mrs. Jas. Leaman.

FREDERICTON, Sept. 20.—Mrs. Maude Leaman, wife of James Leaman, of St. John street, this city, died this morning in Victoria Hospital at the age of 48 years after a short illness. Surviving are her husband and one daughter, Pearl. The body will be taken Monday to Chipman for burial.

Is Too Big For Witness Chair

NEW YORK, Sept. 21.—The witness chair in the Brooklyn Supreme Court was inadequate as a seat for Mrs. Amanda Siebert, who weighs 325 pounds and is known as the fattest woman in Coney Island, where she is connected with an amusement resort.

Mrs. Siebert answered a call in court to testify, but she did not venture to sit in the witness chair. Its capacity did not appear adequate. She smiled at the Court and waited.

Justice Riegmann looked at the chair and then at the witness and said: "The witness may stand up while testifying."

Mrs. Siebert was a corroborating witness for her daughter, Mrs. Mary Noble of 61 Ashland Place, Brooklyn, who asked for an Inchoate Arden decree of divorce from her husband, Carl Noble, who has been missing since 1920, four years after their marriage. The court reserved decision.

Stores Open 8.30; Close 6 p.m. Saturday 10 p.m.

This is a store into which a man can come without any previous fashion knowledge. An examination of our suit and overcoat models will give him a complete and accurate survey of the situation for this fall and winter. One doesn't have to be on one's guard in selecting from among them. Any of the coats and suits shown in our men's shop can be taken at random, with an absolute confidence in its correctness. Our racks are cleared of everything but those styles which are approved.

Announcing Fall Opening In Our Men's Shops

Neckwear

Men who dress well will be wearing ties of silk and wool crepe, Irish poplin, Italian modagors, Swiss hand loomed silk, British Liberties or knitted silks. And they may choose from a great variety of color effects and patterns.

Gloves

M. R. A. Glove stocks are something to be justly proud of, for they comprise best makes in chamois, suede, sueded, doe skin, mocha, buck, cape, knitted wool and others. Among the most fashionable colors are putty, grey and beaver.

Hosiery

Special attention is called to cashmere, worsted and silk and wool hosiery in plain colors and heather mixtures. Also checks, plaid, embroidered stripes and ribbed effecters in popular weights. Golf Hosiery in many makes include the celebrated "Jaeger" woollens and others.

Shirts

The new season's novelties include pleated and corded fronts, the much talked of detachable, reversible cuffs and shirts with separate starched or soft collars to match. Patterns, fabrics and colors offer very pleasing varieties.

Hats

The new, wider, curling brim shapes are going to be in great demand for the fall and winter seasons. These may now be found here in Bardaleys hats, Borsalinos, Brocks, Biltmores and others. Grey will be an outstanding color.

Autumn Suits With New Style Points

Much that determines the quality of a suit isn't apparent on the outside. It's in the construction—the way the haircloth and felt padding are put together, and the canvas foundation shaped and sewn. The careful attention paid to these points make M. R. A. Suits have proper lasting proportions.

Topcoats Of Best British Makes

Of course, not all of our Topcoats are British make, but British makes are strongly represented in our stocks and many models bear the label of "Burberry" or "Maenson"—names well known to men who have made a study of the style question.

An Invitation

Men of Saint John and vicinity are cordially invited to visit our men's shops any day this week and look over the new fall stocks at their leisure. Our salesmen are prepared to give reliable information on questions pertaining to the style-trend for the coming colder seasons.

Adventures of the Twins

By OLIVE ROBERTS BARTON

TICK TOCK TELLS SOME HISTORY. The clock that Tick Tock pointed to, was made of white alabaster with ornaments of gold.

"No, that is what the story is about," said the clock fairy. "It was this way. Once when we had a great war called the Revolutionary War, there was a young Frenchman in search of adventure who came over to this country and helped General George Washington. His name was La Fayette. That's a pretty hard name to remember, but you can if you try. He was a marquis which was something like a lord or duke. You see he was a nobleman in France and it was pretty kind of him to come."

"He made many friends here in America by his bravery and good temper and charming manners, and also for jumping in and helping the way he did. One of his dearest friends was named Hamilton, who lived in New York on Wall street. It is a very important street now. He was first a soldier and later a great statesman and brave in more ways than one. Mister Hamilton was."

"Please go on," said Nancy. "We are listening." "La Fayette" laughed Tick Tock. "Where was I? Oh yes, I was saying that La Fayette was a friend of Hamilton's. Alexander Hamilton, his name was."

"Well, when the war was over, La Fayette went back to his own country, France, only to find war there, too. Only now, it was the fighting out of the frying pan into the fire, I think, and the first thing they did to La Fayette was to throw him into prison. That was because the country was divided and one-half hated the other half. Indeed, the war was between the two halves of the country."

"So La Fayette sent his young son, Napoleon, to America, so he would be safe. He was just a little fellow when he came."

"What happened then?" asked Nick. "Well, the boy grew up with the Hamilton children and didn't go back to France for years. By that time Napoleon was Emperor and his father was out of prison."

"One Christmas after Mister Hamilton was dead, a ship brought Mrs. Hamilton a present. It was this clock sent by La Fayette. Indeed, he never forgot her for her kindness to his son. And she lived to be an old, old lady. Betsy Hamilton did."

"But why did he give it away?"

"I wonder, too," said Tick Tock. "Maybe he did not like Napoleon. Nobody knows. But it is a fine old clock just the same."

To Be Continued.

TWEED in a delightful shade of soft gray-blue makes the simple coat shown above. The model is made on straight lines, with a notched collar, also of the tweed. The attached cape drops from beneath the collar and almost hides the sleeves. With this is worn a tiny felt hat of dark blue, with a gray red feather stuck in the grosgrain ribbon band.

AIRSHIP RELICS SEIZED IN RAIDS

WHEELING, W. Va., Sept. 21.—In a series of raids on private homes and business establishments in Northern West Virginia and Eastern Ohio Government agents recovered four truck-loads of wreckage of the destroyed naval dirigible Shenandoah that had been carried away by residents as souvenirs following the wreck of the ship near 'Ava.' The raids were made by 90 Department of Justice agents, assisted by Federal and State prohibition agents. Among the recovered articles, which were placed in the Federal Building here, were personal grips of several members of the ship's crew and a cap said to have been worn by Commander Zachary Lansdowne.

Napoleon had given it to him?" asked Nick. "I wonder, too," said Tick Tock. "Maybe he did not like Napoleon. Nobody knows. But it is a fine old clock just the same."

Why pay more? Slumber King is the best steel-fabric spring built

What do you want in a bed spring? Comfort, long-life and value? In all three qualities, the Slumber King gives you most for your money. Slumber King has no equal for comfort. Four rows of sensitive coil springs, joined by 26 steel strips, making them silent, sagless, yielding.

With its tempered steel and stout construction it outlasts all others. Its low price results from the savings of larger scale production. High risers add to the looks of your bed. Aren't all these sound reasons for insisting on having a Slumber King? See it at your nearest merchant's.

REV. DR. PILCHER GIVES SERMONS

Special Preacher is Heard at Continuation of Centenary Celebration.

Orangemen Parade to Carleton Methodist Church—Rev. Dr. Morrison at St. Matthew's.

In St. John's (Stone) church yesterday special services were held in continuation of the centenary celebrations and Rev. Dr. C. V. Pilcher, of Wycliffe College, delivered sermons of great eloquence and fervor.

GILLETT'S LYE EATS DIRT. Gillett's Lye is a powerful cleanser for all household purposes.

Nonsuch LIQUID STOVE POLISH. Odorless and does not burn off. Established, owned & made in Canada for over 30 years by Nonsuch Mfg Co Limited, Toronto.

Richard Law, son of the late Rt. Hon. Andrew Bonar Law, who was a week-end guest in the city visiting Colonel Murray MacLaren, C. M. G., M. P. Col. A. E. Masie headed the St. Andrew's Society members in their parade, a telegram of regret at inability to attend having been received from C. B. Allan, president of the society.

MARCH TO CHURCH. Almost 800 members of the Loyal Orange Order in West Saint John, Fairville and Lorneville paraded to attend a special service in Carleton Methodist church yesterday afternoon and heard with appreciation and close attention an address by Rev. F. T. Bertram on the theme "Why we are Protestants."

SEEK THE KINGDOM. Dr. Pilcher believed that if there was one lesson which the present age most needed to learn it was the message "Seek ye first the Kingdom of God." He had just come from the Old Country where there was an industrial struggle going on and in the world today the spirit of unrest was everywhere apparent.

All the food you need SHREDDED WHEAT Fits you for the day's work.

Beautiful flowers decorated the church. The choir under the direction of F. J. Punter led the hearty singing. A quartette gave a special selection, an anthem was rendered by the choir and F. J. Punter sang a solo. Miss Ada Thompson was at the organ.

EXCHANGED PULPITS. Rev. D. J. McPherson, of Sussex, exchanged pulpits yesterday with Rev. A. L. Tedford, pastor of the Tabernacle Baptist church in Saint John, and large congregations attended in the city chapel to hear Mr. McPherson.

SYDNEY PREACHER HERE. Rev. W. A. Faris, of Sydney, C. B., conducted the services in the Carmarthen street United church yesterday in the absence of Rev. A. D. McLeod, who is on his vacation. Next Sunday Rev. Henry Penna, a former minister, will be the supply preacher in the church at St. Matthew's.

And Now-- Real Balbriggan Dresses. Are all the go, and no wonder, for they are the smartest little garments we have seen for a long time and have won themselves everywhere a place in the smart Fall wardrobe.

Social Notes of Interest. Mrs. George K. McLeod, with her daughter, Miss Audrey and her sister, Mrs. J. W. Busby, motored to Montreal, leaving yesterday.

SKINNY MEN RUN DOWN MEN NERVOUS MEN. Don't Miss This. You're behind the times if you don't know that Cod Liver Extract is one of the greatest food producers in the world.

And Now-- Real Balbriggan Dresses. Several other pleasing models have just arrived, but you will have to see them to really appreciate their style value. They appear in such smart shades as Algerian red, dozar blue, copper, pansy and wisteria, ispanhan green, chucker brown, etc.

How old is 85? Dr. Robt. G. Jackson says it's mere youth. Last year at 65 he won the \$1,000 Physical Culture prize and a 1300 mile bicycle contest against a man 85. Dr. Jackson was formerly a physical wreck but Roman Meal, milk and vegetables transformed him into a vigorous "youth at 65", 98% perfect physically.

Through An Arched Doorway A Vision of Decorative Beauty. "THE walls of home". The phrase is, of itself, eloquent of woman's love of the refined and beautiful. For decorated walls are the greatest single factor in making home a place of constant charm.

PLANS FOR CONVENTION. Preliminary plans for a convention for C. G. I. T. members from Saint John, Kings and Queens counties were made at a meeting of the Saint John Girls' Work Board held on Saturday evening in the M. R. E. C. rooms in Prince William street.

Fretful Wives. "STRANGELY exacting, pessimistic and irritable--what has happened the wife lately?" We see them often, women who are wearing out prematurely, whose glowing health is slowly fading.

STAUNTON Semi-trimmed WALLPAPER. Baird - Thomas - Scott, Limited Maritime Selling Agents, Staunton's Superior Wall Paper.

The Whole Food. Of Fresh Cow's Milk--the Strength of Finest Wheat Flour--in the Light, Delicious, Golden Loaf. Bony Bread. Give Growing Kidlets plenty of Bony Bread, which builds sturdy bodies and healthy, keen active minds.

Instant Postum. "There's a Reason". You know how many children do not like the taste of milk. You know how they like to have the same drink as the "grown-ups". You know, too, how good it is for them to have a hot drink!

OTTAWA, Sept. 21--An innovation designed to reduce the cost of railway transportation to extraordinary cheapness was tried out Saturday on the Montreal and Ottawa. It consists of an oil-electric train on one split-coach operated by a Diesel engine, the whole built up by the mechanical staff of the Canadian National road, under the supervision of C. E. Brooks, superintendent of motive power.

MOTORS LEAD UPWARD TREND IN WALL STREET

General Motors and Studebaker Reach New Highs Hudson Advances

TRADING IS DULL AT MONTREAL OPENING

Brazilian, Montreal Power and Shawinigan are Only Active Features.

NEW YORK, Sept. 21.—Motor shares continued to hold the leadership of the upward movement in the stock market as trading was resumed today. Heavy buying orders accumulated over the week-end for the leaders in this group, sending General Motors and Studebaker to new high records and lifting Hudson Motors five points in the initial dealings. Popular specialties also were in demand with gains of 1 to 2 points scored by Pullman, United States Cast Iron Pipe and International Harvester.

DULL IN MONTREAL. MONTREAL, Sept. 21.—Trading was dull at the opening of today's stock market, with Brazilian, Montreal Power and Shawinigan rights the only active issues. Brazilian was unchanged at 7 1/2, Power off 1-8 to 2 1/2, while the rights advanced a similar fraction to 8 1/2. Wayagamack, the only paper to receive attention, was off 1/4 to 5 1/2. The strong spot was Mackay, up 1/4 in a small lot transaction to 138. The following stocks sold unchanged: MacDonald, 12; Brampton, 24; Dominion Glass, 10 1/2; Winnipeg Ralls, 46 1/4. In small lot transactions, National Breweries was up 1/4 to 87 1/2, Canadian Contractors, 1 to 30, and Bank Montreal, 1/4 to 26 1/2.

Morning Stock Letter. NEW YORK, Sept. 21.—Saturday's market closed with wild moves to our already big collection of the last week. These moves are not the best thing for the market and some anxiety may be expected in the shape of a technical reaction this time. Nevertheless there is no change in fundamental conditions and the upward movement in many stocks is not over. One must watch what and where he buys but a great many stocks are going to see higher prices. For some time we have been saying General Motors will reach 110 on this move and Fisher Body 100, with the latter eventually selling at the same price as the former. Calif. Packing should indicate higher prices if it goes above the old high of 115. We are still very bullish on this stock for the long pull. A. G. has made very good and likely to sell higher. A. G. P. is slow but will sell above 100 in six months. Repeating Steel is being bought and will go higher. Steel and equipments are likely to have moves this week. C. & O. ordered fifty heavy locomotives from Amn. Loco., the largest order in recent months. In the railroads, believe So. Ry. and C. & O. are still among the best speculations. LIVINGSTON & CO.

Brokers' Opinions. NEW YORK, Sept. 21.—Hornblower and Weeks—"Continue to buy and hold copper, radio issues and mainly may be Block Maloney—"We would tie up to day that his men are in Fort Colborne. He refused, however, to divulge any part of the information being flashed to him by them. Intimations, however, tend to show that the rum fleet has reached an unprecedented size and is steadily growing. More than 15 boats make up the fleet at the present time, it is stated on good authority. New Society Is Formed in West End. The Assumption Dramatic, Literary and Athletic Club, was formed last evening at a largely attended meeting called by Rev. J. J. Ryan. The new club was inaugurated with a large membership and it plans to arrange a big programme of winter activities of literary, dramatic and athletic endeavors. One entertainment is already in course of preparation. The officers are President, E. A. Fitzmaurice, vice-president, Miss Susie Murphy; secretary, Mrs. Marion Farren; additional members of the executive, Mrs. Lena O'Reilly, Miss Agnes Collins, Miss Mabel Scully, P. J. Joyce, C. O. Morris and Jack O'Reilly.

TIME CHANGES, C. N. R. LINES, EFFECTIVE SEPT. 27. With time changes effective on Sept. 27, Train No. 20, the evening Express for Moncton and Truro will leave at 6:15 p.m., instead of 6:10 p.m., and will make suburban stops between Saint John and Hampton, replacing Suburban Train No. 184. Suburban Train No. 184, now leaving Saint John at 6:15 will be cancelled Sept. 26, also Suburban train No. 185, leaving Hampton at 6:35 p.m. No. 24, the Sussex train, will leave at 6:15 p.m. (Atlantic time), instead of 6:10 p.m. The morning train from Sussex, will arrive at 6:45 a.m. Suburban trains will leave Saint John for Hampton at 12:30 p.m. and 10:30 p.m. Suburbans will leave Hampton for Saint John at 6:40 a.m., 1:40 p.m. Other trains on main line are not changed.

On the Valley Railway, train No. 45, leaving for Fredericton at 4:35 p.m. (Atlantic time), will operate on Tuesday, Thursday and Saturday, instead of daily, except Sunday. Train No. 46 will leave Fredericton at 9:30 a.m. on Tuesday, Thursday and Saturday, instead of every week day, arriving in Saint John at 12:45 p.m. The early morning train on Monday from Fredericton to Saint John, arriving at 7:30 a.m., will be cancelled. Train No. 242, leaving Fredericton for Saint John at 6:45 a.m., will run on Monday, Wednesday and Friday, arriving in Saint John at 11:45 a.m. (Atlantic time).

Liquor Flow Along Frontier Increases Despite Blockade. BUFFALO, N. Y., Sept. 21.—The flow of Canadian rum along the Niagara frontier has been unbroken again. Thousands of cases of choice liquors are being transported across Lake Erie from the vicinity of Port Colborne, Ont., each night, according to reports from the rum runners' camps where customs department investigators are "planted" as spies. J. L. Gordon, chief of the customs investigation department, admitted today that his men are in Fort Colborne. He refused, however, to divulge any part of the information being flashed to him by them. Intimations, however, tend to show that the rum fleet has reached an unprecedented size and is steadily growing. FORMER FRIEND OF KING DIES PAUPER. Walter W. Butler Nearly Millionaire in Days When Edward VII. Ruler. LONDON, Sept. 21.—A man who once was almost a millionaire and so friendly with King Edward they called each other "Teddy" and "Walter," died in the workhouse infirmary at Luton, aged 77. He was Walter William Butler, who years ago was a wealthy Liverpool shipbuilder and a personal friend of the King, who he frequently met at Brighton and elsewhere. Butler was reckless in his generosity, lending large sums, which were never repaid. This and business losses so reduced his circumstances that he was glad to do odd jobs for a few pence, tramp about the country searching for work, and at one time acted as porter at the workhouse infirmary where he died.

There Is a Big Difference in Furnaces. Compare the Hecla. MOST furnaces are pretty much alike. But patented features make Clare Bros. Hecla better than any other furnace you can buy. The famous Clare Bros. Steel-Ribbed Firepot alone meets today's fuel situation. Even where coke or soft coal must be used, it won't burn out, because it radiates the heat more quickly. And it is used only in Clare Bros. Furnaces. The Steel-Ribbed Firepot has over three times the radiating surface of other firepots of the same size. It saves one ton in seven. Other Exclusive Hecla Features: Patented Fused Joints, which mean no gas, no dust—even with soft coal. Separate Grate Bars for easy shaking. Big Circular Waterpan to insure lots of moisture to every room. Big Door for easy coaling. A Complete Line at All Prices. Write for Free Heating Booklets and Money-Saving Plans. The NEW RADIO. \$175. The Masterpiece of the year! THE DeForest Model R5 depicted above typifies the achievements on which three of the most successful organizations in the Radio industry have been working. This five-tube receiver utilizes a special type of tuned radio frequency application—a circuit with unique tone-recreating qualities. Gone are all the "aqueaks", "howls" and "hisses". It instantly gives the studio programme, clean and clear, with life-like realism. You can "log" this set with precision, getting a station at a fixed point on the scale every time. Gone is the untidy mess of wires and exposed batteries, the ugly black panel, the mechanical look. Instead—a compact unit, batteries all enclosed in a beautiful cabinet fashioned in two-tone mahogany by Canada's finest furniture craftsmen. A dull satin-black panel from which the indicating marks gleam like burnished gold. The price—like every model in the New "R" series—establishes a standard of dollar-for-dollar value never before available in Canada. James S. Neill & Sons, Limited, Fredericton, N. B. Young Local Boy Makes Baseball History as Bathurst Goes Down to 14 to 1 Defeat. Corrigan's Hitting Was a Feature

SPRINGHILL, 1925 Nova Scotia pennant winners, will clash with the Saint John Watermen, New Brunswick title holders, in a five-game series for the semi-finals of the Maritime championship, opening here either Friday of this week or next.

SPLENDID PERFORMANCE. Baffling curves, deceptive drops and a fast straight one that carried enough smoke to warrant calling out the fire department, carried Lloyd Stirling to a record no-hit, one-run contest.

DETAILS OF PLAY. Opening the game, McKenna drove a long foul fly that Murray Stiles gathered in after a grand run.

By JOHN J. DUNLOP.

THE EXPECTED happened as far as results went on Saturday on the East End grounds but what the several thousands did not plan on seeing was a no-hit game, the first of the season in senior circles and one of these rare ones in the history of baseball here.

T. E. W. "Skating Fan." In reply to your query, would say that the city championship skating races were not held last winter under the auspices of the Saint John A. S. A.

A RATHER gloomy view on amateur sport is taken by the Hamilton Herald recently, its opinions being prompted by Ex-President Findlay's remarks at the annual meeting of the Canadian Amateur Athletic Union recently.

YOU'D HAVE to dig down several years to find amateur teams battling for the Maritime title as late as this. Baseball has boomed wonderfully this year.

WE BELIEVE the time now is ripe for the formation of a New Brunswick Amateur Baseball Association similar to the governing body in Nova Scotia.

Springhill en Fete Saturday Over Winning Title

Special to The Times-Star. SPRINGHILL, N. S., Sept. 21.—Springhill was en fete Saturday at its returning victorious ball team.

Since 1921, when Springhill first won the Nova Scotia title, they have been in the finals every year. In 1922, after Yarmouth had beaten them one and they had won that memorable 3 to 1 1/2-inning victory at Yarmouth, which ushered Albion into fame, no play-off took place due to an argument over a suitable place.

Springhill scored two in the first and one in the sixth, Westville getting one in the first and two in the sixth.

The official score and summary follows: Springhill—A. B. R. H. P. O. A. E. Burden, lf, 3b 4 1 1 2 0 0 0.

Westville—A. B. R. H. P. O. A. E. B. Dunbar, lf, 4 1 2 0 0 0 1. Oliver, 2b, 4 0 0 0 2 1 0.

Summary: Earned runs, Westville 6, Springhill 2. First base on balls, off Albion, 1. Left on bases, Springhill 4.

Why so glum, Bill? We all have our off-days in this game. I know, but my nerves seem all shot," the other said. "Do you suppose it's my smoking?"

No, I smoke as much as you do, but maybe you are not on a little trick that I've used for a long time."

Then his friend explained about Life Savers, those little candy mints with the hole; how they freshen your mouth between smokes, soothe your nerves and make the next smoke taste ten times better.

It's a fact: Life Savers, those delicious little candy mints with the hole, easily double your smoke enjoyment.

Miss Mackenzie is Winner Of Tourney

OTTAWA, Sept. 20.—After breaking even on the eight holes that were not played in the morning round of eighteen holes in the thirty-six hole final for the Canadian ladies' twentieth annual golf championship and the Duchess of Cornwall gold cup here yesterday, at the Royal Ottawa Club, Mrs. W. G. Fraser failed to take advantage of an opening presented to her by Miss Ada Mackenzie of the Mississauga Club, of Toronto, at the first hole of the afternoon round and this proved to be a costly oversight, as she was never given another opportunity to take the lead, so the title and trophy were won by the Toronto player at the fourteenth hole of the afternoon round, 5 and 4.

HEAR GOOD REPORTS ON Y. M. C. I. STATUS

Members Assemble For First Meeting of New Season—Fr. Floyd New Chaplain.

The Y. M. C. I. directorate resumed its meetings yesterday afternoon after the inactivity of the summer season. There was a good attendance of members, and the addresses delivered were most interesting. Joseph P. Coughlan, the president, was in the chair, and he spoke of the great encouragement which the members felt in the present state of the work. He cordially welcomed Rev. Joseph E. Floyd, who had been appointed the new chaplain, succeeding Rev. William Duke, who had been the chaplain of the Institute since its organization. Father Floyd spoke of the great opportunities which the Institute had to offer and asked the hearty cooperation of all the members in furthering its work. A detailed financial statement was presented by Richard Sullivan which showed a marked improvement in the finances over those of the previous year. The Institute has a good start for the present season, and the enrollment of new members has been gratifyingly large.

The Tune Has Changed Since Autumn, 1923

FUNNY WHAT A DIFFERENCE TWO YEARS MAKE!

Do you remember how Snyder's "Sani-Bilt" Mothproof Furniture was scoffed at, and scorned by other makers, when first placed on the market in the autumn of 1923?

Fake! Impossible! Bunk! Those were some of the kindly things said.

A Great Need. However, there was a great need for mothproof upholstered furniture. People investigated for themselves—found that we were a reliable firm—saw that we backed our mothproof claims with a real, honest guarantee—and they bought with confidence.

They bought so heavily that competitors were stounded. Then, the tune changed. "Yes, Snyder's is a mothproofing process but it's an experiment, you know. Too soon to say it's any good." And so on.

But now, in the Autumn of 1925, what is the tune? It is changed again. It is: "Ours are mothproof, too. Just as mothproof as Snyder's. Sure, ours are mothproof." Those who derided Snyder's "Sani-Bilt" Mothproof Furniture in 1923 now want to share in our success.

But merely changing the tune doesn't make competitive chestfields and chairs mothproof. At least, not permanently mothproof. And that is the big

feature of Snyder's solution and process. It makes furniture permanently mothproof.

Not a Poison. We do not squirt moth poison or another on to our coverings or our fillings. Scientists will tell you that these moth poisons evaporate, in time, and leave the goods an easy prey to moths.

Instead, we make our coverings and interiors unattractive to moths. They cannot eat on them or in them, because the Snyder process makes them impenetrable for moth-worms to eat. It is a moth-proofing solution, based on a Snyder Chemical, it would die of starvation.

Starvation is, we believe, the only permanent method of mothproofing. Poison is only temporary.

Years of Research. Making woolen or other coverings and fillings permanently unattractive without injury to the materials, without changing their color or appearance, is not easy. It took a group of foremost European industrial chemists and scientists many years to discover how to do it. And it is their method, their starvation process and their mothproofing solution that we secured the right to use and have used so successfully since the Autumn of 1923.

Why take a chance on any so-called mothproof furniture that has been rushed on the market to take advantage of the demand created by Snyder's? Why not get the real, genuine Snyder's "Sani-Bilt" Mothproof Furniture that the others are now so anxious to imitate and to follow?

Imagine a Shotgun Load that, in addition to giving from 15 to 20 yards greater range, gets the "high-flyers" at 60, 65 and even 70 yards.

Experienced Sportsmen have called the Western Super-X the greatest development in shotgun ammunition since the invention of smokeless powder. Through the use of a new-type progressive burning powder—developed especially for this purpose—Western Super-X adds 15 to 20 yards to the shotgun's effective range, at the same time giving higher velocity, more concentrated shot column, and better patterns at all ranges, as the entire shot charge of Super-X leaves the gun as a compact group, the string of the load is about one-half of any other type of load thus far tested by the "Western" people. Super-X is your ideal load for difficult long-range shooting.

NOTED VISITOR AT HIGH SCHOOL

Richard Law Addresses the Pupils in Union Street Building

Admires Museum Collection and Has Talk With Friend of Father.

Richard Law, son of the late Andrew Bonar Law, Premier of Great Britain, who is in the city visiting Col. Dr. Murray MacLaren, M. P., Coburg street, spoke to the senior High School classes of both sexes this forenoon. Accompanied by Dr. MacLaren, Mr. Law was introduced by Principal W. J. S. Miles, who explained to the scholars Mr. Law's family relationship and the purpose of his special visit to the school, last week, where a cairn was unveiled in memory of his father, marking his birthplace. The students gave the young Englishman a very cordial welcome.

Mr. Law's remarks were more of a personal character than having to do with imperial relationships. He told the scholars of his sojourn in Turkey, where in many respects the people were living under conditions 3,000 years behind the times. Already in Canada during his 10 days stay he found many utilities more modern than in England itself.

At the time of his impromptu visit to the school one of the classes was studying stocks, bonds and other securities. Mr. Law observed this, and remarked that in his school training, even at Oxford, he had not been privileged to be tutored in this department of finance.

When talking to the girls, the English visitor said he felt more like sitting at a desk and being talked to than standing attempting an extemporaneous address. In fact, he was but a short time removed from school himself.

VISITS MUSEUM.

Dr. MacLaren escorted his guest to the Natural History Society building, across the street from the High School, where Dr. William McIntosh explained the splendid collection of New Brunswick samples of natural products and many of the antiquities, telling briefly the history of this province from its Indian days. The traveled visitor was greatly interested in the collection and complimented the curator upon its comprehensiveness.

At midday Mr. Law called upon Dr. H. A. Powell, an old school chum of his father at Hillsborough and chatted with him until the lunch hour. He will leave this afternoon for Shediac, where he is being entertained at the home of Dr. J. Clarence Webster, through whose initiative and assistance the Law memorial cairn idea was formulated and carried out. In a short while the overseas visitor will go to Montreal, and it is probable he will see more of Canada before he returns to England next month.

LEONARD COWAN OF SAINT JOHN DEAD

Prominent Commercial Traveler Passed Away Saturday in Norfolk Downs, Mass.

On Saturday, at the home of his brother-in-law, A. B. Mills, Norfolk Downs, Mass., Leonard Cowan, formerly of this city, passed away after a brief illness. He was a son of the late Charles W. and Lucy (Thompson) Cowan, of this city.

Mr. Cowan was a well known commercial traveler and covered New Brunswick and Nova Scotia. Some years ago he moved to Boston and since that time had represented nationally advertised articles, traveling all over the United States and Canada. He is survived by three sisters, Mrs. A. B. Mills and Miss Susie Cowan, of Norfolk Downs, Mass., and Mrs. J. R. Morley, of this city, and a large number of relatives in Saint John. The funeral will be held tomorrow afternoon and interment will be at Hampton, N. B.

ASSISTANT AT ST. GEORGE'S PRAISED

Rev. Dean Sampson Speaks of Mr. Pocock's Work—Rev. J. N. Blodgett Preached.

Rev. J. N. Blodgett of Wycliffe College, Toronto, was the speaker at St. George's church last evening. He told of Wycliffe College and said there are now 15 Wycliffe men in the Fredericton diocese.

Rev. Rural Dean W. H. Sampson, rector of St. George's, mentioned that L. B. Pocock, who has been an assistant for the summer was about to return to his studies at Wycliffe. Rev. Dean Sampson paid a tribute of regard and expressed satisfaction for the congregation, as well as personally for the sympathetic services given the church by Mr. Pocock during his stay here. He hoped he would have great success in his studies and that he might return to this diocese. Many expressed high regard for Mr. Pocock and his work, after the service had concluded. Rev. Blodgett is to be in the city for several days.

DIED IN MELROSE, MASS.

The death of Miss Annie Vaughan occurred on Saturday at the residence of her niece, Mrs. Theodore Williams, Melrose, Mass. She was a daughter of the late John and Mary J. Vaughan, of this city and had lived for many years in Boston. She is survived by three sisters, Mrs. Robert Crawford, Boston; Mrs. Bradford Hines, Toronto, and Mrs. John Walsh, of this city, and two brothers, David and Tobias, of Boston. The funeral will be held tomorrow afternoon on the arrival of the Boston train, to Cedar Hill.

CONFERENCE IS OF MUCH PROMISE

F. Maclure Sclanders Speaks of Big Economic Gathering in Winnipeg

Board of Trade Follows Up Adverse Report on Marine Insurance Matter.

F. Maclure Sclanders, Commissioner of the Saint John Board of Trade, who arrived here on Saturday after attending a meeting in Montreal in connection with the holding of a Canadian economic conference, said the meeting was most successful and he believed that the coming conference would be one of the biggest things in Canadian history. From the reports received at the meeting he was convinced that it would be bigger than was dreamed of by the originators of the conference and the results would be far-reaching and go a long way to solving some of our difficulties.

The conference is to be held in Winnipeg on November 16-17-18 and will be attended by representatives from all parts of the Dominion. Each section of the country will be given a full opportunity to place its own problems before the gathering and a determined effort will be made to remedy present conditions.

INSURANCE HANDICAP.

The Saint John Board of Trade is watching developments in the matter of reported opposition in England to placing the Saint John Board of Trade with Halifax in the matter of marine insurance rates. A London despatch reported much opposition among British underwriters to the bringing into effect of the recommendation of the Imperial Shipping Committee that Saint John be put on a plane of equality with Halifax. It was said that more than one underwriter expressed disapproval of the suggestion for freeing Saint John from additional premium, the objection being based on more severe physical hazard which the Bay of Fundy is alleged to offer shipping as compared with the open approach which Halifax offers. A Joint Hull Committee is to meet soon in England.

FAVORABLE REPORT.

Speaking of this today, Mr. Sclanders said that the board was following this matter closely and had the situation well in hand. He said the board had taken the matter up directly with London and had received authoritative information that the leading insurance men of England were favorable to granting the request of the Imperial Shipping Committee that Saint John be placed on an equal footing with Halifax and United States ports.

FOUND WEST FAVORS MARITIME CLAIMS

H. Eldon Beves, Home From Coast, Tells of Popular Feeling.

That the people in Western Canada at the present are in sympathy with the Maritime Provinces to a much greater extent than with other provinces was the opinion expressed by H. Eldon Beves, manager of The Equitable Agency Company, Limited, who returned to the city on Saturday after an extended tour of the West. Mr. Beves had attended a convention of officials and agents of The Ontario Equitable Life and Accident Insurance Company at Jasper Park, Alberta, and took advantage of the occasion to take a trip to the coast.

There was considerable talk in the Pacific Review meeting in Fredericton the Maritimes, and everywhere there seemed to prevail a feeling that the Maritime grievances should be given immediate and favorable consideration. The people, added Mr. Beves, were very chery over the bumper wheat crop which had by far exceeded all recent years.

Considerable interest was being taken in the coming election, said Mr. Beves, and the people seemed to be taking an especial interest in the question of immigration and were looking to each party to define its policy along these lines. Mr. Beves had a very enjoyable trip and experienced a good share of fine weather.

Louise Lewin Mission Band of Fairville Has Enjoyable Garden Party.

Eleven members were added to the roll of the Louise Lewin Mission Band of the Fairville United Church, at a garden party held on the church grounds during the week-end. Mrs. Arthur Long, leader, received the guests. Each member brought an invited guest, and a meeting was held in the open, presided over by Miss Muriel Kirkpatrick.

Plans were made to hold entertainments monthly during the winter, so that the band may retain the banner won at the branch meeting in Fredericton recently. They will hold another social time in October. The older girls treated everybody present to dainty refreshments, after which games were played and races run, with the following winning prizes: Hazel Craft, ring toss; Hazel McCumber, bean board; Elizabeth Pinkerton, Margaret MacPherson and Signa Ritchie, races. The banner won by the band was for general efficiency in all branches of the work of mission bands. The band was named for the late Miss Louise Lewin, daughter of Mrs. Richard Lewin, who was a earnest worker in mission work.

FOR ORPHANS' TREAT.

Ruth Currie, Mary Watters and Mildred and Mary Mills, all of Duke street, held a bazaar last week at H. Usher Miller, secretary-treasurer of the New Brunswick Protestant Orphan's Home. They asked that the money be used to give the little ones in the orphan's home a treat.

Disston's? They're All Right!

That's the unanimous opinion of every craftsman, every carpenter, every handy man—who has used Disston's Saws.

They know from long experience that a Disston Saw stands the test of time; not "just a saw" for a few months' use perhaps, but a true lifelong pal, always ready to stand by you on the roughest job and see it through.

So we say "Buy a Disston"—on display in our Builders' Hardware Department.

A Nice Pickle

You'll be in a nice pickle this week if you are down for a heavy batch of pickling, relishing and preserving with wash day also hanging over your head.

Why not up and phone the New System Damp Wash. Theirs is so much cleaner, and at 4c the pound the bag comes to a mere nothing compared to the other way.
