MEXICAN REBELS IN NEW DRIVE

Plan to Capture the City of Leon and Cut Off Railways.

FIGHTING IS ACTIVE

War Materials Said to be Lacking—United States Send Rifles.

(By Canadian Press.) Mexico City, Jan. 5.—It is officially stated that rebels commanded by Gen. Manuel Diegues, have appeared in the vicinity of Leon, in the State of Guanajuato, evidently with the intention of taking the city and cutting railway communication with the north. It is believed that a battle now is being waged and that the fighting undoubtedly will be heavy.

Leon is an important city on the Mexican Central Railway thirty miles northwest of Guanajuato, the capital of the state of that name, and approximately 180 miles northwest of Mexico City.

Immediately upon receipt of information that the rebels had appeared in that vicinity the war department ordered Generals Artiz, Gallagos and Medina to hasten there to drive the force threatening communications with the north.

The war department announced that fighting is entering a period of great activity which soon will show the people whether supremacy rests with the government headed by President Obregon or the revolutionaries.

According to intercepted radio messages, the rebels lack war materials. Other intercepted radiograms indicate the rebels intend to attack San Marcos junction where Gen. Martinez has massed his best forces to repulse them.

Many Rifles Sold.

Washington, Jan. 4.—The United States government has sold 5,000 Enfield rifles, model 1917, 3,000,000 rounds of 30 calibre rifle ammunition, and eight planes to the Obregon Government of Mexico.

Secretary of War Weeks today said the terms of the sale called for one-half of the purchase price in cash and one-half within thirty days.

Oil Fields Captured.

Galveston, Texas, Jan. 5.—All of the Mexican oil fields are now in possession of the rebels, according to an official despatch received here today by Adolfo Jiminez from De La Huerta headquarters at Vera Cruz.

Montreal, Jan. 5.—An explosion of coal oil in the heater in their home yesterday afternoon, Mrs. Henri Goyer, 62, sustained burns which may have a fatal termination, and her son, Aurèle, aged 25, who suffered from heart trouble, was made unconscious by the shock of his fight with the flames. His condition is very critical.

According to Aurèle his mother emptied the contents of an oil can in the stove when it failed to heat.

Opens Door; In Runs Prize Fox

MARSHES, N. H., Jan. 5.—W. H. Belding, station agent of the Boston & Maine railroad here, has the easiest way of catching foxes of which old-timers around this section of the State know. All he does is leave the door of the station wide open. And he catches the wise fellows alive just as soon as they accept the hospitality of the warm station.

That's how he caught a prize fox recently.

Husband and Wife in Same Mill 50 Years

Augusta, Me., Jan. 5.—A Boston board of directors of a local firm met a few days ago to recognize probably the only record of its kind in the country, the service of half a century in the Edwards Manufacturing Company of a man and his wife, incidentally side by side.

QUESTION ABOUT ESTATE ARISES

Son of Sir William Mackenzie Left \$534,365—Matter of Domicile.

Toronto, Jan. 5.—Ancillary letters of administration have been granted for the estate of Richard MacKenzie, John Mackenzie, who died in Los Angeles on March 1 of last year. Like his father, Sir William Mackenzie, he was an oil and mineral contractor and had interests over the continent. Administrators of the estate are John Holmes, Vincent Winoules, financial; and Donald Alexander Campbell, Toronto, banker.

Some doubt exists as to the disposal of the estate, which centres upon the interpretation of the devolution of estates act. If the domicile of Mr. Mackenzie is held to be Manitoba, the entire estate goes to the widow, Mrs. Mary Elizabeth Mackenzie, of Winnipeg. If, however, it is held to be in Ontario, the widow inherits one-half, while the remaining half will be divided among a dozen brothers and sisters, nephews and nieces of the deceased.

Halifax, Jan. 5.—The entire crew of seven men of the schooner Donald Silver are believed to have lost their lives when the vessel foundered during a gale while en route from Curling, Nfld., to Gloucester, Mass., with a cargo of herring, according to a special despatch from Curling reaching the Evening Echo this morning. Five bodies have been recovered to date.

The crew consisted of the following names: Captain Joseph Hackett, married, seven small children; James Hackett, single; Jim Riddell, Jr., single; Leon Wheeler, single; Harold Swears, married; Best Swears, single. The Nuns, aided by their employees by such of the patients as were not crippled, helped all those who were unable to walk and in a few moments had nearly all the occupants of the building outside in safety. One patient, Adolphe Latonde, 64 years old, succumbed from heart trouble.

DR. VAN DYKE JOINS MODERNIST RANKS

Dr. L. Parks Cautions Against Belief That Fundamentalists Are Defeated.

New York, Jan. 5.—Declaring that the action of Bishop Moore of Detroit in calling off the trial of Rev. Lee W. Heaton of Fort Worth, Texas, for heresy, was all "that reasonably could be expected," Dr. Leighton Parks, Protestant Episcopalian, has cautioned modernists that the fundamentalists had been defeated, but a little to recognize their own responsibility.

Dr. Parks, who several weeks ago adopted the vestments of priesthood in the pulpit of the fashionable Park avenue church and said that he himself would welcome a trial, declared the action of certain modernists in speaking "in a tone which cannot fall to add to the bitterness of the present controversy." Present reactions, he said, must be settled not by controversy, but by exposition.

Dr. Henry Van Dyke, former U. S. minister to the Netherlands, who announced his resignation in his pew in the First Presbyterian church at Princeton, N. J., has definitely aligned himself with the modernists. Dr. Van Dyke announced that he had joined with liberal Presbyterian clergymen in signing a memorandum being circulated against efforts of the general assembly of the church to force all ministers to accept the five specified fundamental points. He also stoutly denounced ranking modernists of his church.

HIS WIFE WILL GET LARGE INSURANCE

Kels, However, Owes it to Hangman That Murder Motive is Accomplished.

Folsom, Calif., Jan. 5.—Alex Kels, one legally deaf and buried with all the honors usually paid a respected citizen, was hanged at the penitentiary here yesterday for the murder of Edward Meservey, an itinerant laborer.

The hanging accomplished for Kels the purpose that prompted the murder. An insurance company will pay his wife \$100,000 insurance he carried. Three months ago Kels murdered Meservey and permitted burial of the body as his own. He had become financially involved and after his apprehension admitted that he hoped his insurance would be paid to his wife.

NEW RUMORS ARE HEARD IN MURDER

Activities of Detective Biddescombe Enigma in Mrs. Whiteside Case.

VISIT HOUSE AGAIN

Detective Power Still Hopes for Clue to Run Down the Slayer.

Although many rumors are current about the city in connection with the murder of Mrs. Clara Whiteside, who was found dead in her home in East St. John on December 28, nothing could be learned this morning to substantiate these. One of the big questions of the day is: where is Detective Biddescombe? Some voice the opinion that he is in Boston looking up records. Others say that he is seeking relatives of the unfortunate woman, while again others maintain that they are convinced that he never left the city. Just where he is and what he is doing is being kept a secret by Sergeant Detective Power and others who may have inside knowledge of his movements.

Stewart (John) apparently does not mind his enforced confinement in a cell at police headquarters. Although he has been detained for more than a week he can frequently be heard singing. This morning when a representative of The Times was sitting in the police court the boy's voice floated up the stairway and although there apparently was no sense to the words, the air was carried clear and tuneful. He is being well cared for, but apparently does not realize his position.

Today Detectives Saunders and Kirkpatrick went to East St. John to continue their investigations. Sergeant Detective Power announced that every room in the house was being given the most minute inspection and hopes are still entertained that they may come across a clue that will eventually lead to the capture of the murderer. He said that they had been to East St. John yesterday and had visited the home of Constable Osmon and also questioned his wife.

STRIKE MAY HOLD BACK LABOR PARTY

Engineers and Firemen Numbering 60,000, Reject Wage Award.

LABOR CHALLENGED

Whole Aspect of Political Situation in England is Changed.

(BY HARRY N. MOORE)

(British United Press.)

London, Jan. 5.—The whole aspect of the political situation has changed within the last twenty-four hours with the declaration of the result of the ballot taken by the Associated Society of Locomotive Engineers and Firemen, which numbers a membership of over 60,000 on its register and which has rejected the award of the National Railway wages board.

The result of this vote is a direct challenge to the Labor party for it will probably mean a complete stoppage of work on the railways before the present month is out, unless some measure as yet unforeseen is taken to obviate this.

Labor Is Anxious.

Labor leaders are beginning to ask themselves if the party can hold the position gained at the general election if Labor assumes the reins of government and the difficulty of the position is growing more and more apparent every day.

This threatened strike of the railway men would probably result in a walkout of the miners and the same thing in the building trades, thus crippling the entire industry of the nation.

DECREASE IN FIRE LOSSES IN MOST OF PRINCIPAL CENTRES OF PROVINCE

N. B. Fire Prevention Board Issues Advice to Property Owners

Hugh H. McElean, provincial fire marshal, has prepared interesting statistics regarding fire losses in New Brunswick, a brief reference to which was recently made in The Evening Times. The figures presented at that time showed that there had been a marked decrease in losses in 1923 from those of 1922.

Table with 2 columns: Year, Losses. Rows include Moncton City, Fredericton, Woodstock, Campbellton, St. Stephen, Sussex, Bathurst, St. John City.

The following statement shows the losses in the following centres: 1922 1923. The New Brunswick Fire Prevention Board has issued the following advice: Building chimneys with bricks laid on edge seems to be a popular practice in many parts of the country and it is one of the main reasons for defective chimneys in rural property.

Record of Wooden Shingle Roof. Wooden shingle roofs or equally combustible coverings have no more rightful place on farm buildings than on city or suburban structures.

Matches and Smoking. So often are the results of this type of carelessness brought home to every one through the medium of the newspapers and by personal observation, and so easily correctable is it by the exercise of plain common sense, that there is not the smallest excuse for matches and smoking taking the toll that they do.

An old Scotch pilot professed to be able to tell the home port of any incoming vessel within a reasonable distance by what seamen still call "the cut of her jib," meaning thereby her general appearance. To test his powers, an onlooker called his attention to one in the far distance. The pilot gazed long and earnestly, and eventually pronounced her an Aberdeen boat. He proved to be right, and a chorus of surprised voices inquired how he knew "No seagulls following her?" he said.

For ingenuity of plot, for wit and charm of dialogue, for oddity of situation and incident, for picturesqueness in delineation of character, for unexpectedness in the turn of events and for gripping interest they are unequalled.

MAKES AN APPEAL FOR BLIND PEOPLE

J. F. Down Asks That the Fortunate Give Aid to Stricken.

An eloquent appeal on behalf of the Maritime School for the Blind at Halifax was made at the meeting of the St. John Women's Council yesterday afternoon by J. F. Down, who is organizing an educational and financial campaign in the interests of the home and will be in St. John until Monday. He said the school was at present faced by a deficit of between \$20,000 and \$40,000 and there were 28 blind men in the province who were appealing for admission while the authorities could only answer there appeals with a regretful, "Not yet."

was one blind man to every 1,000 of the population and surely it was not too much to ask the other 999 to provide the means so that the one man might receive training to fit him for self support. It cost just \$600 to educate one blind child for one year and the education which was given at the school was as far as possible theoretical, academic, musical and vocational. He related pitiful cases of blindness being a terrible handicap and then told of two graduates from the Maritime School for the Blind, who had attained splendid success. One graduate was Charles McInnis, who now held the professorial chair of history at the Bristol University in England and the other was Professor Hollis Lindsay formerly of Woodstock, N. B., who was the gold medalist of the University of Chicago in both organ and piano studies and at the present time was the head of the musical instruction department of the School for the Blind. Mr. Down was assured of the sympathy of the members of the Women's Council when he returned to St. John to undertake a campaign in behalf of the school. SAYS DEMAND KEEN FOR SCHOOL BONDS His Lordship, Bishop LeBlanc, announced yesterday that there was a keen demand for the school debentures issued between Christmas and New Year's as first mortgage on the Catholic schools in St. John. The issue, which totals \$800,000, has been placed in the head office of the Bank of Nova Scotia and all the branches of the Bank of Montreal and is selling at par and accrued interest. The bonds, which are in \$50, \$100, \$500 and \$1,000 denominations, are dated Jan. 1, 1924, and are for 15 years each. They bear interest at five per cent, payable twice a year on July 1 and Jan. 1. The property covered by the debentures, His Lordship said, was valued at more than \$1,000,000. London has fewer traffic policemen on duty today than 10 years ago. Nearly 2000 aliens are refused admission to England each year.

Your Health

BY DR. CLIFFORD C. ROBINSON

AIDING HEART ACTION

If the real importance of the normal heart, in helping life extension often to ten, fifteen and even twenty years, could be fully impressed on parents and children, our life line would show surprising gain. The number of children who are placed under a handicap early in life, could be very much reduced through a heart examination by a competent physician. This test should be carefully and thoroughly made after children have apparently fully recovered from attacks of rheumatism, scarlet fever, tonsillitis or diphtheria. It is not infrequent for many children to be crippled for life with a heart action that does only about half its normal work. The use and development of muscles in the chest, arms and shoulders, that aid the heart in its normal action is also of prime importance. Erect posture has much to do in aiding a good heart action and healthy lungs. If the space to which the heart acts is narrowed or constricted by flattened chest or lowered breast-bone and incorrect working or resting posture, the interference is felt not only by the heart itself but by other dependent organs. You can greatly aid your heart to normal action by careful attention to the manner and time of eating. Hurried meals spoil many a good heart. Take at least twenty minutes for re- freshment. The action of the heart is quite different during certain periods of rest and sleep. While it is true the heart does not get a real vacation from action, it does obtain some rest during perfect sleep. Don't overeat your stomach late at night and go to bed with nothing but work ahead for your heart, pumping blood for unnecessary food supply. Every time you do it you shorten your life.

ADVENTURES OF THE TWINS

A TRIP TO TAFFY'S HOUSE

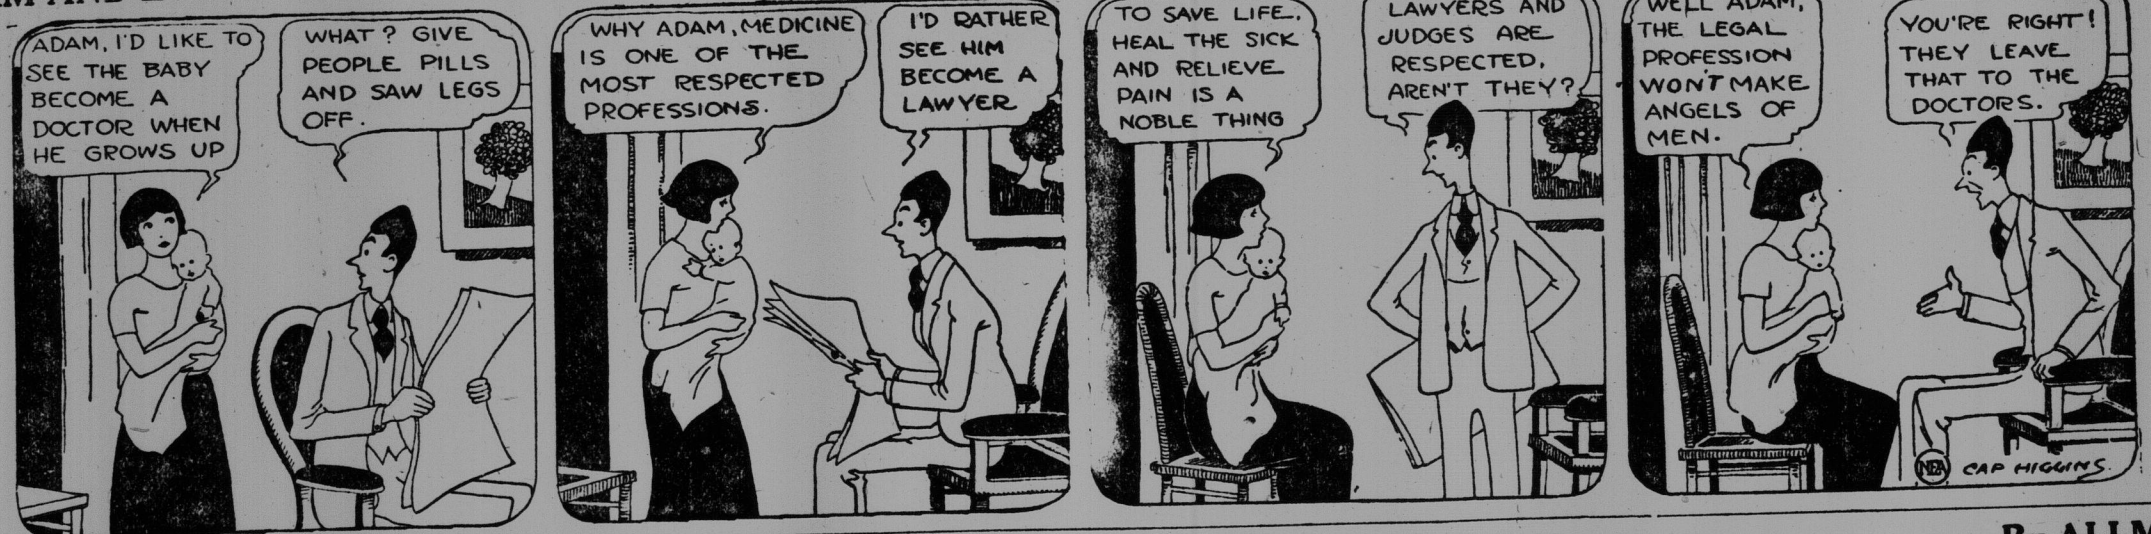

Soon the two boys were running as hard as they could go.

Jack and Jill were giving a party in the house that Jack built and all the people in Daddy Gander Land were having a fine time. But suddenly Misses John, Jack's mother, discovered that all the refreshments were missing. Someone had run off with all the pies and cakes and ice cream. And Misses John declared that although she didn't like to say it, Taffy Weichman must be the culprit, because she had invited Taffy and for some mysterious reason Taffy said he couldn't come. "I'll go and see," declared Jack, putting on the cap Misses Foster had given him for his birthday. "And I'll go with you," said Nick. "Good!" said Misses John, and soon the two boys were running as hard as they could towards Taffy's house, and rang his front-door bell. But nobody came. Then they knocked as loudly as they could and I'm afraid they even used their toes some. At any rate, they made a perfectly dreadful noise. And a window went up and a head in a nightcap stuck itself out. "Wh-what do you want?" asked the person in the nightcap, yawning so he could hardly talk. "Is the town on fire or has Mother Goose come back or what?" "We want to know where the pies and cakes and ice cream are," demanded Nick. "Somebody took them from Jack and Jill's party." "Taffy was in bed and doesn't know anything about it," announced Nick. "Then where do you suppose those pies are?" cried Misses John. And you can't blame her, poor soul, for without anything to eat, she felt that their first party in their brand-new house was a failure. Suddenly Nicks thought of something. "I haven't seen Jack Heest for half an hour," she exclaimed. "Maybe he knows something!" "That's right!" exclaimed Daddy Gander. "I have an idea. I'll get my magic dust-pan and you and Nick shall ride on it with me until we find him." (To be continued.)

BRITAIN NOW NEEDS CATTLE OF CANADA

Homeland Dairy Herds Badly Depleted by Foot-and-mouth Disease.

How devastating has been the effect of the foot-and-mouth disease upon the live stock in Great Britain during the past few weeks is indicated in a communication by Dr. J. H. Girdler, Deputy Minister of Agriculture, Ottawa, says the Toronto Globe correspondent there. He wires that a total monetary loss of 27,000,000 has already been sustained. As a result of the total of 978 outbreaks of the disease in the past three and one-half months 65,220 head of live stock have had to be slaughtered in Britain, of which 2,800 were cattle, 18,500 were sheep and 17,750 swine.

Call for Canadian Cattle.

Owing to the serious depletion of Britain's dairy herds an acute shortage of milk has developed and a flood of petitions has reached the British Government urging that every step be taken to facilitate the importation from Canada and elsewhere of cattle suitable for the re-establishment of those dairy herds. The petitions also urge that the Government hasten to discover some other and less destructive means of stopping the spread of the foot-and-mouth disease, as slaughter on the wholesale plan as now practiced might in a few months almost exterminate Britain's live stock.

Prices of Stock Rise.

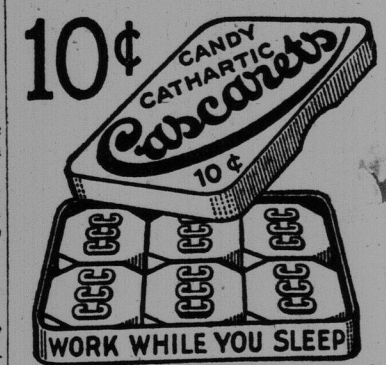

Another effect of the outbreak, of course, has been an abnormal enhancement of prices of live stock, an increase of at least 25 per cent, having taken place in the past three months and since the outbreak. Not all the rise in price may be attributed to the scarcity of British cattle caused by the slaughter of diseased cattle and other live stock, but it has a very considerable effect on the market value of Canada's exportable stock.

It's Good to Have a Quarrel Now and Then!
The Wife Who Declares Herself Gets Along Best With Her Husband, Says Author-Physician

(By Marian Hale.)
New York.—The family quarrel is an excellent institution so long as you don't overdo it, according to Henry K. Marks, physician, psychologist and author of "Undertow."
"You may depend upon it," he remarks, "the husband and wife who have it hot and heavy for a while and clear up the atmosphere are much more healthy physically than the couple who never have even a tiff and are always in accord."
The woman who doesn't assert herself and take her husband in hand once in a while is really nothing more than a moron. Men never have a grudge against women, except what they want them to do, without having a struggle. And they never will. Men aren't built that way.

HENRY K. MARKS.

"This is true in the home as well as in political and social life. Women have to know what they want and then fight for it. If they don't, they are spineless for themselves eventually become colorless, vague, negative."

prompted by real love, it may conceal actual hate.

"Many a woman realizes she hates her husband," the doctor continues, "and regards it as a shortcoming on her part and her first impulse is to conceal her discovery. So she tries to stifle her anger, but she believes in her gutt in not loving her husband by going to the other extreme and showing the most exaggerated solicitude for his welfare. But she is just as much of a neurotic as the woman who flies into hysterics."

Don't Fool Yourself
If we could take a look into the psychical life of the Polyannas about us we probably would find their omnipresent optimism just another form of over-compensation, he says.

"Polyannas conceal their fears and their honest doubts beneath an armor of forced gladness," he explains. "It isn't natural to smile all day and be cheerful when the cook leaves or the baby spills ink on the new rug any more than it is never to quarrel or lose your temper when your husband gets too unreasonable."

"So don't be afraid of a good blues now and then, or a fit of the spleen and of those honest emotions that you feel ashamed of afterwards. They indicate that you are normal and healthy-minded."

**TORONTO'S FIRST
LADY MOTHER OF 7**

Mrs. W. W. Hiltz Has Intimate Knowledge of Civic Affairs.

In spite of the fact that the members of the Hiltz household had been kept up nearly all night with the excitement of election, they were all awake this morning, when the congratulations began to pour in, says the Toronto Star Tuesday. One of the six-year-old twins looked in at The Star reporter and announced, "Daddy's Mayor!" A continuous procession of telegraph messengers rang the front door-bell, and the telephone fairy sang its congratulatory song.

"It didn't stop so that it was possible for us to get to sleep until two o'clock this morning," said Mrs. Hiltz. Mrs. Hiltz was very much gratified at the vote of confidence which Toronto had passed so overwhelmingly in favor of her husband. As she is the busy mother of a family of seven she has had a great deal of opportunity of helping with her husband's political campaign in public.

The family ranges from June and Jean, the six-year-old twins, to Wilfred Hiltz, who is twenty-three, a graduate of Toronto University, and Jack, fourteen and seventeen years old respectively, and students at Riverdale High School, and Miss Beth Hiltz, who is in her third year at Victoria College, and is at present attending a conference as a college delegate in Indianapolis. Miss Beth Hiltz was the only member of the family absent when the news of Mr. Hiltz's success reached the household. The twins had been in and out of the house all day demanding intervals, "Is Daddy Mayor yet?" and were put to bed, completely satisfied.

Mrs. Wesley Hiltz, now first lady of Toronto, takes a keen interest in municipal politics, and although her connection with them is indirect, her knowledge of what goes on in the municipal building is immediate and intimate. She is a member of the League of Women Voters, and also of the Samaritan Club, and is actively engaged in church work. She is a very friendly and charming person, and it is not surprising young to be the mother of so large and active a family.

Mrs. Marion Jack, of New York, is the guest of Miss Helen Ramsey Jack, 82 Wright street.

Miss Ellen G. Love, of McAdam, has returned to her home prior to returning to her studies at Mount Allison Ladies' College. During the holidays Miss Love visited friends in St. John and Rothesay.

Miss Frances Tilton, daughter of Mr. and Mrs. F. Tilton, received a letter from her mother yesterday afternoon when a not-out tea was greatly enjoyed by about 75 friends in the dining room of the Tiltons was prettily gowned in grey chiffon velvet. Mrs. Phillip Simms presided at the tea. The room was decorated with bright scarlet geraniums, red carnations and white narcissus. Red candles and red shaded lights added a festive glow to the room. Those who assisted in serving the guests were Miss Mabel Currie, Miss Ella Keo, Miss Audrey Robinson, Miss Sophia Tilton, Miss Margaret Anderson and Miss Caroline Smith, who cut the ice. Miss Doreen Robinson and Mrs. Frank Tilton replenished. Mrs. A. C. Currie and Miss Annie Tilton assisted Mrs. Tilton in entertaining the young people.

Among those present were Miss Helen Ramsey Jack, Miss Lois Fairweather, Miss Ellen Campbell, Miss Dorothy Stewart, Miss Marion Williams, Miss Eleanor Matthews, Miss Jean Matthews, Miss Frances Gale, Miss Jean Blair, Miss Lauretta Benjamin, Miss Nora Banks, Miss Marion Bullock, Miss Helen Peterson, Miss Dorothy Sutherland, Miss Marion Bell, Miss Viola Seeds, Miss Marjorie Northrup, Miss Ines Bedell, Miss Muriel Curren, Miss Doris Brennan, Miss Myrtle Peterson, Miss Thelma Alward, Miss Mildred Parker, Miss Constance Watson, Miss Bernice Somerville, Miss Ann Coleman, Miss Margaret Stevens, Miss Frances Gilbert, Miss Eloise Wilson, Miss Mary Murray, Miss Frances Smith, Miss Roberts Smith, Miss Helen Haycock, Miss Margaret Gilmour, Miss Daisy Stephenson, Miss Muriel Carter, Miss Edith Lauranson, Miss Helen Smith, Miss Dorothy King, Miss Ellen Keefe, Miss Kathleen Keefe, Miss Vera Day and others.

A family reunion was held this week at the home of Mr. and Mrs. Frank Ashe, 244 Paradis Row, and when dinner was served. The invited guests were Dr. F. X. Comeau and Mrs. E. J. Curran, Dr. J. T. Curran, Dr. and Mrs. R. C. Comeau, of Dalrymple, and Master David Corkery of this city, Mrs. Harold McGuire and Mrs. Thomas McDuffie, of Calgary, and Miss Marie Ashe.

**GIRL'S MURDER IS
DISCLOSED BY DOG**

Madrid, Jan. 4.—The murder of a servant girl by her jealous mistress has been revealed in strange fashion by the sagacity of a dog.

The dog suddenly appeared amongst the occupants of a farmhouse in the small town of Los Almadines carrying in his mouth a piece of the girl's dress. The animal then led them to a place called El Chaparran where he began to scratch. An excavation was made, and the searchers came upon the mutilated body of a girl, identified as that of Juana Romero Sanches, one month ago, Luis Romero Jimenes, a farmer for whom she worked, said she had gone to live with her parents at Velaz Rubio. Investigations, however, revealed a terrible drama of the land.

FATAL WHOOPING COUGH
In the six month period ending July 1, 1923, there were more deaths from whooping cough than from the three diseases, diphtheria, typhoid fever, and scarlet fever," is the surprising statement made in the December Bulletin of the Medical Society of Nova Scotia, just issued. The writer of the article attributes this to the fact that "the preventive work done in each of the three is much greater than that undertaken to control whooping cough."

"The habit of looking upon a disease which a child must get through with," and many Boards of Health make no effort to stop its ravages," reads the article, and adds that "the latest number of the American Public Health Journal refers to an article on the curative and prophylactic results of whooping cough vaccine and arrives at the conclusion that for both purposes the results justify its use."

KINDERGARTENS TO REOPEN
The executive of the Free Kindergarten Association met yesterday morning at the home of Mrs. Allan G. McAvity, the president, in King street East and arranged for the re-opening of the kindergartens on Monday. Plans were also made for the bridge this month to raise funds for the support of the kindergartens. With regret the resignation of Mrs. Fred Anderson as convener of the house committee was received and accepted. In planning for the reopening of the kindergartens the exchange of assistants was arranged.

**Sister Mary's
KITCHEN**

KITCHEN TOOLS.
Do you ever take an inventory, so to speak, of your kitchen utensils and weed out the old and worthless to make way for the new and necessary? It's quite as important for the housekeeper to have a full set of good tools as it is for the carpenter or plumber.

Sharp knives, broad blunt knives, stiff knives, limber knives, one long two-tined fork, one short three-tined fork, assorted spoons, a pair of scissors are as necessary in the kitchen as the bits and chisels and saws and hammers are in the carpenter's tool chest. And the housekeeper uses her tools three times a day, 365 days in the year, rain or shine.

A nicked or bent-edged paring knife is worthless in the kitchen, so throw it away and invest in a good steel knife with a sharp, easily turned edge designed specially for paring and then use it. Don't cut down on a hard surface with a paring knife. For instance, when mincing parsley, put the parsley on a small board rather than an old plate or saucer.

Keen Edge.
If you would keep your temper dull, keep your paring knife sharp. A sharp knife is an economical device in that thinner parings can be taken in less time, thereby saving both time and food.

A long thin case-knife with a round end is valuable for cutting butter, spreading sandwiches or toast, putting on some kinds of cake frostings, cleaning vegetables and the like. Very often in cooking the stiffness of a case-knife makes it possible to loosen some tiny corner which has stuck and won't yield to the spatula. After trying prying loose with the case-knife, slip the spatula under to turn without breaking.

And no woman can keep house without one of these long, broad, limber spatulas. They are used for turning pancakes, potato cakes, meat balls, fish, any vegetable or meat that is to be browned on top the stove. The flexibility of the blade makes it possible to slip it under a cake in the pan or remove it without breaking. Or run under the contents of a mold.

Economical, Too.
When you are baking cookies you will use the spatula to remove them from the molding board and again to remove the last bit of dough from the mixing bowl. A light, fluffy cake frosting is spread with the spatula and the last trace of the frosting is removed from the platter or bowl with this same tool. A spatula will save many times its cost just by being the means of using every bit of batter or frosting of pudding or omelet or anything which must be mixed in a bowl. A wooden spoon is essential for creaming butter and sugar and beating stiff mixtures.

A slotted spoon is convenient for beating cakes, stirring gravies and sauces, or beating mashed potatoes if a wooden masher has been used. A wire whisk is as necessary as a

If you would keep your temper dull, keep your paring knife sharp. A sharp knife is an economical device in that thinner parings can be taken in less time, thereby saving both time and food.

A long thin case-knife with a round end is valuable for cutting butter, spreading sandwiches or toast, putting on some kinds of cake frostings, cleaning vegetables and the like. Very often in cooking the stiffness of a case-knife makes it possible to loosen some tiny corner which has stuck and won't yield to the spatula. After trying prying loose with the case-knife, slip the spatula under to turn without breaking.

And no woman can keep house without one of these long, broad, limber spatulas. They are used for turning pancakes, potato cakes, meat balls, fish, any vegetable or meat that is to be browned on top the stove. The flexibility of the blade makes it possible to slip it under a cake in the pan or remove it without breaking. Or run under the contents of a mold.

Economical, Too.
When you are baking cookies you will use the spatula to remove them from the molding board and again to remove the last bit of dough from the mixing bowl. A light, fluffy cake frosting is spread with the spatula and the last trace of the frosting is removed from the platter or bowl with this same tool. A spatula will save many times its cost just by being the means of using every bit of batter or frosting of pudding or omelet or anything which must be mixed in a bowl. A wooden spoon is essential for creaming butter and sugar and beating stiff mixtures.

A slotted spoon is convenient for beating cakes, stirring gravies and sauces, or beating mashed potatoes if a wooden masher has been used. A wire whisk is as necessary as a

ARMY AND NAVY FLIERS SET FOR WORLD-GIRDLING RACE

Washington—Hopping off into the uncharted ether lanes early this spring, 11 intrepid army and navy fliers will launch out from here as aeronauts of the air on the first lap of a globe-circling race destined to make aeronautical history.

To sponsor the epochal flight it is most fitting that America, which cradled practical aviation, should be first to circumnavigate the skies in motor-driven devices of its own inspiration.

The navy birdmen start from Washington about Feb. 21, according to present intentions. They will fly six De Havilland super-powered ships, equipped with Liberty motors.

From the west coast the next leg of the air journey will bring them to Hawaii, from thence to Guam, then on to Manila and from there to Hongkong.

Leaving that China city behind, they should be in Calcutta, thence to Bombay, Cairo and lastly to Rome.

These globe-circling trips are expected to put America in the forefront of aerial development, ahead of European contenders.

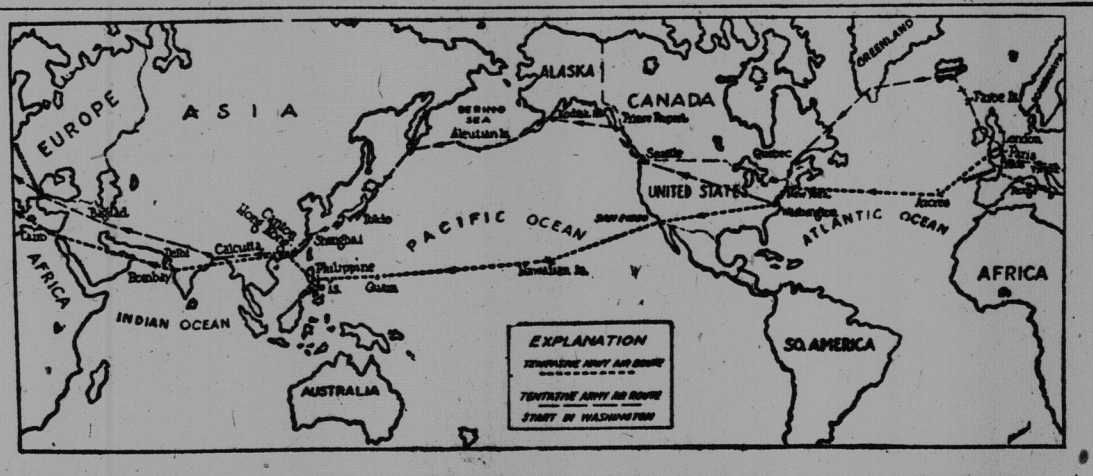

The members of the senate of the United States, who will be in charge of the project, are: Major F. L. Martin, who will pilot five Douglas cruisers.

Under his command will be Lieut. Leigh Wade, Eric Nelson and Capt. Lowell Smith. One more pilot and five assistants are yet to be selected.

The navy fliers will wing their way from the nation's capital to San Diego, passing en route over some of the country's principal cities.

LT. J. D. PRICE, U.S.N.

Francis recently attempted to circumnavigate the globe, but was forced to abandon the idea shortly after flight was commenced. Great Britain had the same experience. Adequate preparations have been made to insure safety of the aerial pathfinders. Squadrons of destroyers will stand out to sea along the coasts to be followed, and with steam up, will dash to Aleutian Islands; to Kamohatka; across Japan, China and Indo-China, Siam and Burma; across India and the Persian Gulf; across Turkey and Europe to England; by northern route over Faroe Islands to Iceland and Greenland and Cape Farewell; to Canadian Mainland, Quebec, Montreal and back to Washington.

BEQUEST PUT HIM ON WRONG ROAD

Youth Became Spendthrift; Now is a Modern Raffles.

OF GOOD FAMILY

Woodhouse, Sent to Jail, Learned There to Become a Burglar.

London, Jan. 4.—Bertram Wyndham Woodhouse (for James Clarke) is an amazing personality. In jail he learnt the art of burglary, and for nearly seventeen years has plied that trade whenever opportunity was out of prison.

This, however, did not destroy his gentlemanly instincts; the further he sunk into the abyss the more refined became his tastes.

Victims of his burglaries have thanked him for his consideration in their houses, and a number of them have combined to open a landing account for him and give him a fresh start in life when his term of imprisonment expires.

James Clarke—or, to give him his right name, Bertram Wyndham Woodhouse—has a really remarkable history. He was born at Brighton 39 years ago, the son of a major in the regular army and a member of an exceedingly well-connected family.

He proved to be a model prisoner and received a public school education, but he displayed such an aptitude for the service that after attending a number of exclusive private schools he became a member of the staff of a boarding school.

Some years later a fortunate thief, leaving him a sum of \$10,000, he left the Worcester and set out to dissipate the money in the shortest possible amount of time.

So successful were his efforts in this direction that he was eventually arrested and he had nothing to show for it beyond a taste for extravagant living.

ASKS VOTE OF ALL PRESBYTERIANS

Toronto Branch of Association Determined to Have Mandate.

Toronto, Jan. 4.—A vote of the people of the Presbyterian church throughout Canada on the question of church union should be obtained before the union committee seeks to get the enabling bill passed at the coming session of the Dominion Parliament. This was the firm stand taken yesterday at a meeting of the executive of the Presbyterian Church Association, Toronto branch. A statement to the press makes it clear that a determined effort will be put forth to compel the securing of such a mandate. Absolute confidence is expressed that if the unionists force the issue in parliament, they will find that such a vote will be required before the enactment of any legislation.

The Presbyterian Church Association, if an appearance of its representatives before parliament is found advisable, will urge that each presbytery be considered an electoral district, and that the total votes cast by all the members in all the churches in each presbytery be counted for or against or in favour of union. It is contended that such a course would minimize the danger of factional disputes in individual churches, would permit of a fair vote on the merits of the question and would make the task of the minister, regardless of which side he might be on, much easier.

NAMED RADIO INSPECTOR. John M. Colton, who was formerly in charge of the Newcastle wireless station, but now Government radio inspector in Montreal in summer, and in St. John in winter, has been appointed radio inspector of the Montreal district permanently.

TOMORROW FEAST OF THE EPIPHANY

Day Observed in Many Lands — Commemorates Manifestations of Christ

Tomorrow will be the feast of the Epiphany, Twelfth Day or, as it is otherwise termed, Old Christmas, or Little Christmas. Epiphany is one of the great feast days of the Christian calendar and is elaborately observed in the ritualistic churches, both in the East and in the West.
The Eastern church has long observed the day as Christmas, but this year many Greek, Russian and Balkan State churches observed the Feast of the Nativity according to the Gregorian calendar. The word Epi-

phany is of Greek origin, meaning appearance or manifestation.
In the Catholic church the feast has a triple significance. It commemorates that manifestation of the Lord when the star led the Wise Men to adore Him. Secondly, it commemorates the manifestation of Christ when He was baptized in the Jordan and God the Father proclaimed Him His Son. Thirdly, it commemorates the occasion on which Christ manifested His glory by turning water into wine at the wedding feast in Cana. It is the first of these manifestations that is chiefly observed tomorrow.
As the day falls on Sunday this year Monday will be a legal holiday in Quebec Province and in the following countries: Argentina, Austria, Brazil, Bulgaria, Canary Islands, Cyprus, Dominican Republic, Estonia, Fernando Po, Finland, Germany, Guatemala, Hungary, Italy, Jugoslavia, Malta, Mexico (half day), Nicaragua, Peru, Poland, Siberia, Spain, Sweden, Tripoli, Venezuela (Epiphany), Lithuania, and Madeira (Twelfth Day), Uruguay (Children's Day), Abyssinia, Bulgaria, Cyprus, Egypt, Greece, Roumania and Liberia.

IS ILL IN ROTHEWAY
Friends of Jack Blair, Rotheway, will regret to know that, since his return recently from Quebec, where he spent the summer and fall months, as a member of the staff of the Canadian Pacific Steamships passenger service, he has contracted typhoid fever, and is now very ill at the home of his parents, at Rotheway. Mr. Blair is recognized as a courteous and obliging official and it will be the very earnest wish and hope of his numerous friends that he will soon be restored to complete health.

Church Union in Canada

Canada Leads the World Toward Christian Unity

THROUGHOUT the English-speaking world, there is evidence of a drawing together of the Christian Churches and of a growing confidence in the desirability of Church Union. Canada is giving leadership, because our needs forced definite action. Here the subject has been carefully investigated and its realization has moved steadily forward for twenty years,

impelled by the necessity of facing in a more adequate way the pressing problems and wonderful opportunities of this great, new country.

Parliamentary and Legislative approval of the Union of the Presbyterian, Methodist, and Congregational Churches is designed to protect the rights of both unionists and minorities.

All Essentials are Preserved

- 1 The creed of the United Church contains the "Doctrines of Grace" that made the Reformation.
- 2 No minister can be ordained in the United Church until he accepts the Church's creed.
- 3 The ordained eldership is retained in the United Church.
- 4 Congregations of the United Church have the right to "call" their own minister, subject to the Settlement Committee's approval, as Presbyterian Congregations are now subject to Presbytery.

When Anti-Unionists deny the above truths, it is only necessary to place their charges side by side with the provisions of the official "Basis of Union":—

The Charges The Facts

- (Quotations from advertisements of the Anti-Unionists)
1. "The Ministers will not be pledged to any system of truth."
 2. "The ordained eldership will be dropped."
 3. "The right of a congregation to 'call' its own Minister will be taken away."
 4. "The right of a Presbytery to ordain and induct its Ministers will be taken away."
- Before a minister can be ordained, he must "satisfy the examining body that he is in essential agreement with" "The Statement of Doctrine" of the United Church.
—See "Basis of Union"—page 26.
- The oversight of the spiritual interests of each charge shall be entrusted to "the Minister or Ministers and a body of men specially chosen and set apart or ordained for that work, who shall jointly constitute the Session."
—See "Basis of Union"—page 26.
- "Any pastoral charge, in view of a vacancy, may extend a call to any properly qualified Minister or Ministers." This is subject to the approval of the Settlement Committee, as now to Presbytery, the only difference being that, if the call fails, the Settlement Committee may send a Minister, a provision which will remedy the abuses of the present "call" system.
—See "Basis of Union"—page 24.
- "It shall be the duty of the Presbytery to induct or install Ministers . . . to inquire, each year, into the personal character, doctrinal beliefs and general fitness of candidates for the ministry . . . to license them to preach and to recommend them for the ordination of the Conference."
—See "Basis of Union"—page 22.

Each of the three uniting Churches is contributing to the others much that is beyond price in tradition, history, experience and in zeal for humanity. Let not any of us selfishly retain for our own enjoyment whatever in our glorious past may contribute to the spiritual advancement of others.
The religious life of the ordinary congregation or individual will be practically undisturbed by the Union. What we give up is as nothing compared with the potential value of Union in the building of the Kingdom in the sparsely-settled sections of our own country and in the vast missionary fields, in both of which our divisions have been a real hindrance. The eyes of the religious world are upon Canada. Let us show that we are worthy of leadership.

The Joint Church Union Committee

Alfred Gandler, Moderator of the General Assembly of the Presbyterian Church in Canada.
Geo. C. Pidgeon, Convener of the Committee on Church Union of the Presbyterian Church in Canada.
S. D. Chown, General Superintendent of the Methodist Church.
W. R. Young, Chairman of the General Conference Committee of Methodist Church.
J. W. Fedley, Chairman of the Congregational Committee on Church Union and Chairman of the Joint Church Union Committee.

Copies of the "Basis of Union" may be had on application to any one of the joint secretaries of the Church Union Committee: Rev. J. H. Edmonson, D.D., Confederation Life Building, Toronto; Rev. T. Albert Moore, D.D., Wesley Buildings, Toronto; or to Rev. W. H. Warriner, D.D., Congregational College, Montreal.

FALLS IN STREET, LEG IS BROKEN

J. Harold Wilson, son of Hon. John E. Wilson, assistant receiver-general and manager of the Government Savings Bank, while on his way home from Thursday evening, slipped on the icy sidewalk, fracturing his right leg between the ankle and knee. He was removed to the St. John Infirmary where he is being treated.

The city sidewalks were in a dangerous condition Thursday and Friday, while the city sand men were strewing sand over many sidewalks, all were not covered, it is said. A citizen suggested last evening that if the sand were screened and put on ice warm it would stick to and not slip off or blow away in cold sand.

The report from the hospital last night was that Mr. Wilson was resting as comfortably as could be expected and that it would probably be some time before he would be able to be about again.

News Notes Gathered From the World of Stage and Screen

ST. PETERS PLAN ANOTHER OPERA

Assistance of Professional Folks During Preparation Appreciated.

Preparations are almost now complete for the staging of another comic opera in St. Peter's beautiful auditorium. Those who will recall the last one will realize what a treat it is store for them.

The young people of St. Peter's are deserving of great praise for their activity. There is hardly a month passes that they are not responsible for some attraction. With such a spirit as this, it is not to be wondered at that they are becoming very capable, and are receiving the due praise from those competent to judge.

Speaking of one of their productions, Frederick G. Spencer, of Spencer's Ltd., said he would be pleased at any time to witness a performance by these clever amateurs.

The next offering will be a Chinese comic opera. It is the latest work of Mr. Arthur Penn. This composer of bright, tuneful music, is no stranger to music lovers. With the fact that St. Peter's young people are going to produce it, this will be enough to insure a pleasant evening. The St. Peter's management owes much to John Gordon and Miss Virginia Odeon of the Carroll Players for their kind assistance shown during the course of the preparation of the opera.

YOUTH AND BEAUTY FIRED FROM CHORUS

Management Takes This Step to Reduce Number of Employees.

Brunswick, Germany, Jan. 4.—The half-headed row of Brunswick's State opera is much exercised because the management, in cutting down the number of employees, discharged all the young members of the chorus.

While the portly old men retained are declared by the patrons to be worthy and conscientious in their efforts, the stage juveniles have threatened to boycott the opera if the management fails to restore some of the youth and beauty.

FILM FLASHES

First National has begun production on "Lilies of the Field" from the stage success by William Inge, Corinne Griffith and Conway Tearle are featured.

Virginia Brown Faire has been loaned by First National to Belasco Productions for a role of a young Jewish girl in "Welcome, Stranger," Italian and French in origin. Miss Faire has an exotic Latin beauty, with the animation of that blood which enhances her appeal in roles of unusual dramatic intensity.

Frederick Stanley, Boston newspaperman, who recently left the First National Publicity Department to become a scenario writer, has completed his first work on his new job with an adaptation of "Spide Courten" comic drama of particular intensity. Stanley is an excellent newspaper man, an adequate press agent and a promising scenario writer.

ONE ON THE SCENARIST

Among the persistent pests that haunt the film studios is the Hollywood "would-be" scenarist. Latterly one young man attached himself to the unit engaged in filming "Long Live the King," Jackie Coogan's first Metro picture. His intrusion was irritating but he was permitted to remain.

One day he strolled up to Jackie, who was resting near a huge bronze "prop" store. Wanting to enter the good graces of the young star, he pointed to the store and said patronizingly, "Isn't that a nice big store? Now, what do you suppose they burn in it?"

"Some things they burn wood, some times coal," answered Jackie, "but mostly scenarios."

The pest disappeared soon after!

1924'S "BABY STAR"

Clara Bow, who leaped into movie fame in "Down to the Sea in Ships," and is now playing featured roles in Preferred Pictures, heads the list of actresses just selected as the potential stars of 1924 by the Western Motion Picture Advertisers. At their annual frolic that organization will formally introduce Clara as one of their safe bets for stardom during the coming year. Little Miss Bow has the role of the fapper in "Black Oxen."

DECALOGUE IS FILM MASTERPIECE, BUT MODERN SEQUENCE IS RATHER WEAK

(By Jack Jungmeyer.)

Hollywood—Cecil De Mille's version of the Decalogue as the social cement of all time, shown here in world premier, creates a screen symphony for majesty. It stands apart and atop in august drama and awe-full beauty. It sets also a new standard in picture production in many of its elements. If films had voice, this one would echo something of that oracular thunder with which the Pentateuchal authors invested the origin of Mosaic law on Sinai.

These things one may say of "The Ten Commandments" as done by De Mille, by Jeanie Macpherson, who prepared the script, and by the capable band of players and technicians, and yet remain within the bounds of critical conservatism.

Even those who had come with cynical reservations uttered them at the opening in Grauman's Hollywood theatre, a red-letter social event in the movie capital.

They inhaled largely, almost wholly, in the first half of the picture: the Biblical prodigies which depict the heroic episodes of the Exodus, from the bondage of Israel in Egypt to the reveal of the Golden Calf.

Then comes a sharp transition, a fade-in to modern city life by which De Mille works out his theme that "you can't break the Ten Commandments, they break the violator, today as surely as yesterday, not because they are to be observed as a personal favor to God, but because they are the law."

The modern sequence lapses considerably. The trading trend and sonorous cadence of the latter part begins its tragic evolution from the Red Sea crossing to Sunday afternoon jazz dancing in a San Francisco home. But the second half of the picture might have been a complete flop, and still the magnificent prelude uphold it for great photodrama.

In appraising De Mille's epic it might be well to consider that while drama is easily visioned in a retrospect of history and venerable legend, we sense but vaguely the dramatic significance of our own time and estate. One catches the perplexity of the producer and his scenarioist in seeking to couch the contemporary fact in impressive terms. But it was precisely in the complexities of modern American life, in the chain of contacts from home to office, from golf to graft, from pew to peddler, from the Bible class to bawling, that De Mille set out to show the social validity of the Decalogue. In the trial, as well as the transcendent.

A devout mother, mindful of the law rather than the spirit of Biblical injunction, drives one of her two sons from her home because he "apologizes to God" for what she believes sacrilege. Fretted by her spiritual myopia, she scoffs at canonical law as "the bunk." No commandment shall curb his personal liberty and financial success. Thus he goes out into the world, not bitterly but boyishly exultant, to smash every commandment. His brother pursues a different course. What offends the brothers and the mother constitutes the modern story.

The film, not essentially of religious tone, gives no comfort to unctuous pariahs. Last these might ridicule the pictorial parade, De Mille puts into words, "Danny, my son, mine is the blame because I taught you to fear God instead of love Him." She is destroyed under the crashing walls of a church which the cynical son has built with graft-rotten cement—the crescendo of the modern sequence.

While the Biblical prodigies depend on its impressiveness upon grandeur of episode rather than any of all players, Theodore Roberts gives the immortal

THEODORE ROBERTS AS MOSES.

performance of his ripe career as "Moses." Rod La Roche, Richard Dix, Elyse Chapman, Charles De Rube, Estelle Taylor, Leatrice Joy, Nita Naldi and other principals give their roles distinction. And certainly the thousands of extras, the "children of Israel," add to the effect of the picture.

Victor, arresting detail has not been smothered by prodigious elements of the picture, handling his human mass with a consummate artistry. De Mille balances broad sweeps with poignant incidents—Moses taking the hand of a child as he leads his flock from bondage; the arrogant son of Ramesses lashing the law-giver before the court; Miriam loathing her leprous hands, tainted while fashioning the Golden Calf; a face in the scudous, tempest-tossed sea; a man, a goat suckling his young, defying the haste of the night captivities.

The most awesome moments the screen has produced are the tumultuous parting of the waters for the fleeing host and the crashing impact upon Pharaoh's pursuing charioteers, and the pyrotechnical projection of the stone tablets upon Sinai while a majestic old man communes with Jehovah—technical miracles these to stir the most goose-bumped movie veteran. Such things only the screen may accomplish. The prudent-minded will find little fodder in "Ten Commandments." Estelle Taylor, as "Miriam" at the adorable rever of the Golden Calf, and Nita Naldi in the role of her modern counterpart—Sara! with a majestic old man commune with Jehovah—technical miracles these to stir the most goose-bumped movie veteran. Such things only the screen may accomplish.

I have tried to indicate that "The Ten Commandments" has weak spots, craftmanship that may be faulted, but it is nevertheless a motion picture masterpiece. And in that consummation everyting that she might know that he loved her.

one of Cecil De Mille's associates shares. The last six reels may be forgotten as soon as any other ordinary movie; the first four will remain as a classic. It doesn't quit drama. It will make the boiler-billy-blow squirm quite as much as it is likely to sober the apostate. One curious incident at the Grauman premier showed that.

As the initial commandments flashed from the screen many of the profane story righteously, thinking of unregenerate neighbors, stormily applauded "Remember the Sabbath—!" The applause died to a whisper as the implications of sterner laws were unveiled and the pictorial bars fell with deeper than surface discrimination.

Bernhardt's Mother Was German Girl

A book has just been published in Paris that is bound to attract much attention, for it bares the secret of Mme. Bernhardt's birth, a secret the actress guarded so closely that her most intimate friends never shared it.

Her mother was a German woman, born in Berlin, and who came to Paris when 18 years of age. Here she met and fell in love with a young Parisian law student. After a whirlwind courtship they were married, and the child of the union afterward became the world's greatest actress.

Soon after Sarah's birth her father deserted wife and child, and little is known of his career from that time. He seems to have deliberately sought obscurity.

Sarah's mother, according to the book, became well known as a gay woman about town and took an active part in the night life of Paris, although no scandal is attached to her memory.

SH-H-H—A SECRET.

Because of her devotion to her art Mary Alden, noted screen actress now appearing in Reginald Barker's newest attraction, "Pleasure Mad," suffers under the wide-spread false impression that she is an elderly woman. But Miss Alden is quite young. Make-up and her brilliant ability to play motherly roles are responsible for the false impression the public has of her.

Why I Returned To The Screen

(By Alice Joyce.)

There have been so many statements made concerning my return to the screen, all by other people than myself

ALICE JOYCE.

and incidentally all different, that I feel it is about time to clear up the matter. In the first place I never announced my retirement from the screen, which, of course, disproves the statements that I was tired of the film and wanted to return to the stage because I have never been on the stage. Neither did I say that I thought a woman's place was in the home and that upon the occasion of my marriage I was determined to practice what I had preached. Nor does my husband object to my appearing in film. On the contrary, he rather encourages me to appear.

When I finished my last contract I determined to wait until I could find the perfect part from my standpoint. This, of course, is the usual thing and it is the reason why so many stars who are independent make only one or at the most two pictures a year. On the stage stars will sometimes play the same role for three or four years because they have been unable to secure another part

Following in His Father's Footsteps

Now that the week is practically over, perhaps it will not be considered a glaring breach of confidence to announce the fact that little "Bobby Watson" who enacted the role of Tommy in "Mrs. Wiggs of the Cabbage Patch" at the Opera House was not Bobby Watson at all—that was only the name which was wished on him for the week—a sort of "nom de stage" as it were.

The truth of the matter is that Tommy is in real life little Jimmy Coll, young son of a talented father—Owen Coll, who impersonated Mr. Wiggs. Jimmy will tomorrow celebrate his third birthday and this was his first appearance before the foot-lights, and at first his very marked talents were devoted to the piano. A preference for the cello, however, soon asserted itself strongly. Jimmy's first appearance was a success and his favor with the large audiences was immediate and complete.

Sylvia Breamer has returned to Hollywood from New York. She will have a prominent role in "Lilies of the Field."

A DANGEROUS JOINT

There is hardly a member of the Hollywood film colony who has not his or her favorite joke. They tell jokes at each and every opportunity to lighten the strain of work before the camera. And each joke is in most cases an actual observation in some corner of the big film world. Thus for instance Viola Dana, passing a corner of Hollywood where an independent studio had just set up a rehearsal studio, noticed the work of the new casting director. "Butcher Went—Man who must be able to cut and serve customers."

Artists Who Compose The Hambourg Trio

Biographical Sketches of Boris Hambourg, Geza de Kresz and Reginald Stewart.

Boris Hambourg

Boris Hambourg today recognized as one of the great cellists since the days of Alfredo Piatti, was born at Voronezh, Southern Russia, in 1884, the third son of Michael Hambourg, a prominent professor of music. Boris' musical education began in London when he was eight years old; and at first his very marked talents were devoted to the piano. A preference for the cello, however, soon asserted itself strongly. Jimmy's first appearance was a success and his favor with the large audiences was immediate and complete.

Geza de Kresz

In 1908 Mr. Hambourg made a tour of Australia and New Zealand with his brother, Mark, the pianist. In the same year he appeared in Garmont, Germany, at the first "Tschakovsky Festival" ever held, and in many concerts on the Continent. The summer of 1904 and 1905 he spent at Goddine, Belgium, Holland, and South Africa. His American debut was made in October, 1910, in Pittsburgh, and soon after he made his first New York appearance, and his triumph in Philadelphia, Memphis, St. Paul, Pittsburgh, Baltimore, Washington, Chicago, Cleveland and Louisville.

Boris Hambourg has appeared as soloist with the following orchestras: The London Queen's Hall, The London Symphony, The New Symphony, Berlin Philharmonic, Nurnberg Symphony, Astoria Symphony, Pyramus and Thisbe Orchestra, Chicago, St. Louis, Cincinnati, St. Paul, Minneapolis, Russian Synphonist Orchestras, etc.

Geza de Kresz

Geza de Kresz was born in Hungary, the land of violinists. He was long a pupil of Hubay. Later he became a favorite disciple of the Bohemian master, Sevcik, who holds him in highest esteem. Eugene Ysaie, hearing him play induced him to accompany him to Brussels and Goddine, becoming not only his master but his close friend.

Geza de Kresz was brought out by the Bucharest State Conservatory. He remained from 1909 to 1915, forming in this and several subsequent seasons such a great favorite at the Court of the Roumanian artist-queen, Carmen Sylva, as well as at the Conservatory, that the greatest efforts were made to retain him permanently. However he accepted the position of concert-master of the Berlin Philharmonic Orchestra, conducted by Nikisch, which he has held since he was less than twenty-three, thus in three seasons, playing practically all the well-known concertos.

Geza de Kresz, in addition to appearing at so many concerts, conducted a Master-school at the State Conservatory. A number of his pupils have attained reputation as soloists and several occupy posts of distinction, among these being Concert-masterships of the Bucharest and Goteborg Philharmonic Orchestras, and of the Berlin Bluthner Orchestras.

Geza de Kresz is the fortunate possessor of a fine collection of instruments including two Guarneri one of which was presented to him at the age of twelve by an admirer.

Reginald Stewart

Born in Edinburgh, Reginald Stewart started the study of music at the age of five, with his father and with the noted Dr. T. E. Robinson, organist of St. Mary's Cathedral, where he was boy soloist and assistant organist at the age of twelve. He made his first public appearance when he was seven years old and has since studied with many famous teachers, both abroad and on this continent.

Reginald Stewart has earned popularity with the music-loving public and the high endorsement of critics through his many varied activities. In addition to his enviable reputation as a pianist, he is exceptionally gifted as a Symphonist Conductor; his founding of the Canadian Operatic Society (The Savoyards); his musical directorship at Hart House (season 1922-23); his membership in the famous Hambourg Trio, are all features which have added lustre to a career of brilliance, while his success as a teacher has demonstrated in still another fashion the authority of his musicianship.

A PAIR OF EACH

Barbara La Marr who appears in "The Eternals" through Reginald Barker's recently completed production is fond of relating the following story of her little adopted son who has an ardent admirer named Frances, who is several years his senior and still uses "baby talk." One afternoon when it was raining, she decided she wanted to come over to play with him. Her mother refused to let her out in the rain. She began to cry bitterly, and repeated over and over again—"I want my Suzanne." That was all that could be understood. Frances' mother knew all her playmates and wondered who Suzanne could possibly be. The little girl was finally quieted long enough to be asked who Suzanne was. She answered with the tears streaming down her face—"My suze and stockings, of course!"

Roy Stewart has returned to Los Angeles from Lee's Ferry, Ariz., where 1,800 longhorns swam the Colorado River to add a thrill to "Sundown," photodrama of the passion of the old West. The big range riding cowboy is one of the all-star cast.

CUT DOWN 36 TREES IN SQUARES

City Forester Reports on the Work of 1923 and Makes Recommendations.

The annual report of H. E. Good, city forester and arboriculturist, has been filed with Commissioner Frink. It contains a summary of the work done during the year to beautify the squares and recommendations for future operations along those lines.

The report shows that in the King Square seven dead trees were removed and replaced, new borders of shrubs and perennials and 35 beds of bulbs were planted; the double experiment was a success. In the Old Burying Ground 11 trees had been removed and 15 new trees planted. In Rodney Square 6 new trees had been planted. In Tilley Square arrangements had been made for the planting of perennials during 1924, and in the triangle at the foot of Garden street, 50 shrubs had been planted. Just at the present time there was 1,800 perennials and 10,000 annuals in the green houses and census showed that there was 650 living trees in public grounds.

Mr. Good recommended that plans be provided for the beautifying of Queen Square west, and the work be started during the year, that more benches be placed in King Square and at Indiantown; that provision be made for the collection of top soil on the Shamrock grounds for use in the boulevard streets; that the south-east end of the Old Burying Ground be levelled and re-seeded and shrubs planted, and that the grass plot at Reed's Point be enlarged, as per the plan of the road engineer.

POULTRY BRINGS HIGHER PRICES

Meagre Supply in Market, Due Chiefly to River Conditions.

It was a very meagre display of produce that greeted prospective purchasers at the City Market this morning. The fact that the rivers are frozen over sufficiently to prevent boat traffic, but the ice has not until this morning become thick enough to allow of team traveling are given as reasons for the scant supply.

As a consequence there was a considerable stiffening in the prices of dressed poultry, fresh chickens being in good demand at from 40 to 50 cents a pound, white feet brought from 20 to 40 cents as compared with 25 cents last Saturday. There were a few turkeys, which were being purchased at 50 cents a pound, while a small supply of ducks and geese commanded 35 cents. Fresh eggs sold from 20 cents a dozen, storage extras at 50 cents and No. 1's at 40 cents. There was little or no change from vegetable and meat prices which prevailed at the first of the week.

LIQUOR STILL IS IN WAREHOUSES

There is still a quantity of liquor warehouses in the city, tied up through the coming into effect of the law preventing export, which took place on November 30, when the action of the owners of export warehouses, which were closed by the no-export order, will take effect. It was determined but there is a general feeling in official circles that the only way they can get rid of their stocks now will be to turn them over to the Provincial Board of Liquor Vendors.

C. B. Lockhart, Collector of Customs for the Port of St. John, has taken the matter up with his department at Ottawa and has been advised that no action will be taken until the provincial authorities have taken the question up with the Ministry. Meanwhile the bonds will remain locked up.

MORE GET AUTO LICENSES EARLY

That a greater number of automobile licenses had been issued up to this date than for the same period of 1923 was stated by W. E. McQuade, provincial inspector, this morning. This, he said, was due to the fact that it was easier to operate a car this year than last.

Mr. McQuade issued a warning to persons who were driving cars with the 1923 tag attached, and stated that after the first of the week offenders would be brought to book. He said that the idea that there was a certain number of days of grace to get a license was without foundation, and any person who drove a car with a 1923 tag five minutes after midnight on December 31 was liable to arrest and fine.

FIRE MATTERS

Commissioner Thornton when asked this morning if he had received any further communication from the residents of Beaconsfield in connection with fire protection by the city for that section, said that he had not heard anything more about the matter.

The commissioner said that while he believed the city should help out whenever the need arose, he did not feel that it was fair to ask the city to pay for the chemical used in cases such as that which happened recently in Beaconsfield when the city department used two tanks of chemical and saved a house. He drew attention to the fact that East St. John was also to a certain extent depending on the city for fire protection and had as yet taken no steps to install the hydrants which had been authorized. The department had standing orders to respond to a call from the St. John County Hospital or the Municipal Home, but aside from these special permission had to be obtained.

Owing to the efforts of the Board of Trade St. John will in future be listed on the chart of the Sunday shipping edition of the New York Herald. Yesterday a communication was received stating that on January 6 the name of St. John would appear on the chart.

CAUSE OF SHOOTING NOT DISCLOSED

Some Evidence in Syrian Hall Trouble Taken in Police Court.

The preliminary hearing in the case of Charles Simon, who was arrested on a charge of wilfully shooting with a revolver and doing grievous bodily harm to Louis Corey and Thomas Stephen in the Syrian Hall in Prince Edward street on the evening of January 1, was commenced in the police court this morning before Magistrate Henderson. George Corey, Michael Mitchell and Raymond Tobias testified.

Tells of Row.

George Corey said he was in the Syrian Hall on New Year's night, talking with Louis Corey and others, when Thomas Simon approached and struck him a blow on the head. Just before that time Corey saw Louis Corey take out a revolver and the latter struck him on the head. Corey stepped between them and the defendant walked across the hall to where his overcoat was hanging and drew a couple of feet and then fired a shot. He heard Louis Corey say "I shot." He then saw Fred Isaac take hold of Charles Simon and heard the latter say, "Stand back or I'll shoot you." The witness said he then left the hall to secure a doctor. The defendant was still in the hall, he said, and he did not see what was done and he did not know any more of the shooting. Detective Power showed him a revolver, which he resembled the one he saw in the defendant's hand.

Michael Mitchell was then summoned. He saw George Corey start to take his overcoat from the hall and saw Thomas Simon strike George Corey. He also saw Charles Simon start to take his overcoat from the hall, but did not see him draw a revolver from one of his pockets. He heard Corey yell that he had been shot. He saw blood on Mr. Corey's trousers, and he also saw Thomas Stephen walking lame. He said he did not know what started the trouble.

Saw Simon With Revolver.

Raymond Tobias said he was standing with George Corey, Fred Isaac, Louis Corey and others and they were discussing plans to entertain a friend who was visiting in the city, when George Corey rushed in and took his overcoat from the hall. He also saw Thomas Stephen walking lame. He also saw Charles Simon start to take his overcoat from the hall, but he did not see him draw a revolver from one of his pockets. He heard Corey yell that he had been shot. He saw blood on Mr. Corey's trousers, and he also saw Thomas Stephen walking lame. He said he did not know what started the trouble.

Just what started the trouble was not disclosed during the hearing, although one of the witnesses said he saw the defendant with a revolver in his hand and heard Louis Corey yell that he had been shot. He then saw Thomas Stephen walking lame. He also saw Charles Simon start to take his overcoat from the hall, but he did not see him draw a revolver from one of his pockets. He heard Corey yell that he had been shot. He saw blood on Mr. Corey's trousers, and he also saw Thomas Stephen walking lame. He said he did not know what started the trouble.
