Post Office Department, 15th May 186 Sir,-1 am in resent of your favor is forning me that you had been desired His Excellency the Lieutenant Govern to request that I would distribute the on ten, and twelve and a half Postage Stam procured by me, and to take steps to pr sure a fixe cent Stamp for future distrib You will inform His Excellen that I was authorized by Minute of Cou cil in December last, to precure a one, fi ten, and twelve aud a haif eent Posts Stamp, and that all these denomination are now in the Office of this Departme ready for discributing.

I have, &c. (Signed) CHARLES CONNELL illeg.

(Copy) Secretary's Office, May 12th 18 Six,-I have laid before His Excelled the Lieutenant Governor your Letter the 15th instant, relative to the distri tion of Postage Stamps, and I am dir ed to inform you that he has referre for the consideration of his Council.

- I have, &c. S. L. TILLEY (Signed) The Hon'ble C. Connell, &c. &c.

I have felt it my duty to lay before Y Excellency this Correspondence, toge with the Minute of Council, and have desire to make any comment thereor I think it will speak for itself.

I may remark, however, that I ca

wincial interest involved. The people on the Saint John River and those in other sections affected by the asspension of these works, are become justly alarmed that their interests are er tirely overlooked, white the energies of the Government are applied and there completion of the Saint John and Shediac Railway, which affords no prospect of repaying the large amount that has alread been expended and will be required for its completion, which will amount to little short of £1,500,000, and if the propose extension from the Terminus to deep water wharves are carried into effect, will enot less than £75,000 in addition to this -a tax for the interest on the whole

Large claims are also being made b Contractors on this line, the justice or us justice of which I am not prepared to offe an opinion, but the course now beir pursued by the Government will not les to a speedy settlement of these claims; the Commissioners and Chief Engineera competent to discharge their duties ! give effect to the Law. The Gavernm should have such knowledge of this is portant work, either to sustain the acr of the Commissioners and Engineer. place susch men in their places as are com petent to perform their duty.

this country of little short of £90,000

The action of the Covernment has the effect of denuding those officers of the power which is so necessary in the prosecution of so important a work.

While large sums of money are being expended in constructing Bye Roads an Bridges leading to the Bailway, (the pay ment for which is illegally made from the Railway Funds,) the people in the intent of the country who reap no benefit, bu still have to pay their share of the tax for this large expenditure, have been denie a small grant of £15,000 or £20, 090 fe the purpose of erecting a Bridge over Sain John River at Woodstock, which would have the effect of epening up a communi ention with the Settlements, and increas the number who are now locating on the Crown Lands, which arrof great value for farming purposes on the eastern side of the River Saint John between the Tobique an Nackawickak Rivers, comprising an are of apwards of 300.000 acres.

The well known interest Your Excel lency has taken in furthering the settle ment of Crown Lands, and your knowledge of the value of the land comprised in this district. Your Excellency will not be sur prised at the distratisfaction that exists at refusal to commence so important a wor thereby injuring a great Provincial in terest, an injustice as one of the Ropie sentatives of the People, and a Member o the Government, I am not prepared to

sabmit to. Having felt this and other matters for some time past, and at the same time feeling reluctant to take a step that I saw pressing on me, I delayed action, but the recent act of my colleagues in the Government has brought matters to a crisis; the want of that support on their part on a subject which I believed I was authorized in the action I had taken, as will appear by the following Minute of Council and correspondence: --

"Postrasster General to obtain new Postage Stamps in one, five, ten, and twelve and a half cents.'

A MOMAN'S QUESTION. Before I trust my fare to thee,
Or place my hand in thine,
Before I let thy future give
Color and form to mine,—
Before I peril all for thee, question thy
soul to night for me.

I break all slighter bonds, nor feel One shadow of regret:

Is there one link within the past

That holds thy spirit yet?

Or is thy laith as clear and free as that which I can pledge to thee?

If so, ar any pain or cost, O tell me before

Lock deeper still. If thou canst feel Within thy inmost scul That thou hast kept a portion back, While I have staked the whole, Let no false pity spare the blow, but true mercy, tell me so.

Is there within thy heart a need That mine cannot fuffi?
One cherd that any other hand
Could be ter wake or said? Speak now, lest at some future day, my whole life wither and decay.

Lives there, whithin thy nature hid Shedding a passing glory still It may not be sky fault slone, but shield my Leart against thy own.

Couldst thou withdraw thy hand one day, And answer to my claim That fate, and that to day's mistake. Seme soothe their conscience thus; but thou - O surely thou, will warm mer

Belert Story.

MR. TRADDLES' TALE.

Down in Link's Hollow, where the gibbet was." "Aye."

" A ugly place and a ugly night. wouldn't go.' "It won't be the first time that gibbet

kept him here, said the landlord between the whiffs of his pipe, "as his wife could tell. Ever hear about it, Sir ?" "No," said the pimple-faced man, who gros.

was a stranger. "Come sit down, Traddles, and toll

Mr. Traddles looked at the fire and at this ame of night." the window; he east an upward glance "Arms," says the farmer. "Aye, and at the sniring brasses on the shelf; a lists at the end of 'em.' certer of his eve took in the preparation for supper which were going on quietly: a pewter measure threw go offee ionate pleasant ride, and went away. twinkle at him, which said "Stay ;" the "The farmer mounted , is horse as stout ald arms of the wooden settle stretch | role off | He had ten good miles before ed themselves out in their rough but him, and most on em across a comm kinaly fashion, and said, Come, non with no house near, not even a cottag sense about going - sit down and don't He looked about as he lett behind hi bother!' The sectle finished it. Such the last house he should see that he resen beaming good humor there was in its eahis own, and then set off at a gro polished back - such an air of reckless jul- whisting as he went. He had often gon lity in the way its arms were held out, the same thing before; he has often hid and its feet, one kicking one way, one den home as late, with as much money i another; and so shiny was its seat, from in his pockers, and he had no lear now - much rubbing of drab unment, onables Vory soon he heard the ring of hoors on and marvellously embroidered smack the hard road behind him. He quicken-660 such a settle as that; for the marca love he was aware, a barse was so of civilization and refinement is against neck for-neck with his, and a blow from settles, and chim: by corners, and high some wenpon staggered him in his seat,

amongst the hams sid flinches for hispi . Arms, is it? Aye, and its at the ene ration, and the pimple tweel may proffer of 'em. Your health, my friend?"

mantles with glittering brasses.

R.L

Does there withis thy diamest dreams
A possible future shine,
Wherein thy life could henceforth
breathe,
Untouched, unshared by mine?

The sent me—being a lad of genius, but,
as she called it, poor soul, "a Jack of all
trades, master of none"—away to learn
farming, expecting I should have money
left me—which I had, but that's neither.

See the smoke curling up from the chim—
ney, and knew his wife was sitting there
withing the many states of the smoke outling up from the chim—
they may be stated in the state of the smoke outling up from the chim—
they may be the smoke curling up from the chim—
they may be the smoke outling up from the chim—
they may be they may be brought out in a little railway ear, and

THE GREATET Medical Discovery, OF THE AGE.

Dr. KENNEDY, of Roxbury, has discovered

EVERY KIND OF HUMOR

from the worst scorfula down to a common mangle
the has tried it in over cloven hundred catest, and never failed except in two cases,
(both thunder humor.) He has now in his
possession over two hundred certificate of its
value, all within twenty miles of hoston.

Two hottics are warranted to care a nursing
sore in uth.

Out three bottles will sure the worst kind
of hisplass on the face.

Lasale L w, the lo lowing GOODS:—
Dark & Pale Brandy,
Cin, a naise it in,
a total whick y,
Case in Header humors,

Carraway

Two bott es are warrnted to cure the worst Golden Sy up,

Two or three bottles are warranted to oure le worst ease of rigworm.

Two or three bottles are warranted to cure the most pererate cose of the unatism.

The so or fur bottles are warranted to cure the most pererate cose of the unatism.

The so or fur bottles are warranted to cure the most pererate cose of the unatism.

Five to eight bottles are warranted to cure Wash Boards,

Five to eight bottles are warranted to core the worst case of scorfula.

A benefit is always experienced from the first bottle and a yerfect core is warranted when the above quantity is taken

Reader, I have peddled over a thrusand bottles of this in the vicinity of Bosten.

Know the effect of it in everycase. So sure as water will extinguish fire, so sure will tails cure hunor. I have never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me supprising; first that it grows in our pastures, in some placer vaite plantful, and yet its value has nover boom known and if discovered it in 181—assembly, that it should cure all kinds of hunor. In order to give some blee of the sudden distant in April, 1534, I gold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that aritaing in the analts of patent medicine was over like it. There is a universal praise rom all quarters.

In my own practice I always kept it strictly for humors—but since its introductin as a general family medicine, great and wonderful virtues have been found in it that I never as poeted.

Several cases of cpileptic fite—a disease.

posted.

Several cause of epileptic fite—a disease which was always on addred ineutrable, have been cared by a few nottles. O, what a morey if it will grove of estal in all cares of that awful malady—there are but few who have seen more of it than I have.

Georgies, Liquors Flour, &c. Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, blood by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on eap part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in

blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depreses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consestand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrof dous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain,

and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermised by it.

To cleanse it from the system we must renovate the bleed by an elegation. the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparillar the most effectual remedy which the modical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the Eystem from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, Rose, or Envirences, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter BLOTCHES, BLAINS and BOILS, TUNORS, TETTER and SALT RIBOM, SOALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURAL DISER'SE, DROPSY, DYSPETSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITLATED OR INFURE BLOOD. The popular belief in "impurity of the blood" is founded in with, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIO,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is lowed down with pain or physical delility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every lody, but also many formidable and dangerous diseases. The agent below menci is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costiceness, Hearthurn, Headache arising from disorderal Stomach, Nausea, Indigestion, Pain in and Markhitte, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseners, Croup, Pronchitis, Incipient Consumption, and for the relief of Consumptivo Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of courty all ounds in persons publicly known, who have I cen restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the publish no longer hesitate what antidote to employ for the distressing and dengerous effections of the pulmon-ry organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred tenefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. be forgotten.
