## WOMEN IN WILD BATTLE

### Militants Mobbed by Angry Crowd in London

### Rescued by Police After Fierce Battle—Roughly Handled, several Badly Injured.

London, Mar. 16.—The suffragettes who again attempted to hold a Sunday afternoon meeting in Hyde Park, were mobbed by a crowd of 10,000 persons. They were pelted with clods of turf, oranges and other missiles, and when the police were escorting them from the scene the rioters tore off the hats and cloaks of the women and even struck some of them in the face.

For two hours, the park, where demonstrations until recently were held in peace, and Oxford street, nearby, were the scenes of the wildest disorders. The trouble began when "General" Mrs. Flora Drummond mounted a wagon on and started to speak to the great assemblage, which was largely made up of youths, who had armed themselves with ammunition of various descriptions or with trumpets, mouth organs and bells.

Her appearance at the front of the platform was the signal for an outbreak of deafening noises and a bombardment of missiles. She had hardly uttered a word when a clod of turf struck her in the mouth. Mrs. Drummond maintained her good nature, and her tormentors and continued to speak and a veritable tempest of cat calls, ragtime choruses and cries of abuse, "Go home, you chitons." For half an hour the crowds shouted, sang and pelted the suffragette commander-in-chief, whose clothes were a mass of mud, and Mrs. Drummond's speech, of which not a word was audible, came to an end, and a younger woman took her place. She faced no better and the police realizing the danger the women were in, called upon the chairman to close the meeting.

### In Wild Fight.

A large force of police, mounted and on foot, drew in about the suffragettes wagon and under this escort women were led out of the park, followed by a jeering crowd, which continued to pelt them with missiles over the heads and through the lines of constables. The police endeavored to plot the women to the tube station, but the crowd brushed the police aside and dragged the women up and down the street. In the melee one woman had her eye blackened and another had her hair cut. One of the speakers, a Miss Rogers, whose clothes were bespattered with mud and eggs, collapsed as she was being escorted from the park, and her clothes were on the point of being torn from her when the police succeeded in rescuing the woman.

### Police Attacked.

It was a regular standup fight between the police and the crowds, the former striking on right and left and endeavoring to arrest the ringleaders. Others among the rioters, however, would come to the aid of those taken by the police and forcibly take them out of their hands. Suddenly the cry would go up "here's one" and the police would fight their way to a fainting woman wearing the unpopular badge of the Women's social and political union. Every woman thus adorned was greeted with cries of "shop breaker, take her to the Serpentine," an artificial lake in the park while the crowd sang "Oh you beautiful doll" and other ragtime melodies. The police, after half an hour's struggle, got the upper hand and succeeded in getting the badly mauled women into the tube, from which all men were barred until order had been restored.

Mrs. Drummond, speaking of the Hyde Park affair this evening said it began by some boys shouting "hello, here's Mother Drummond." She declared that the crowd had shown no hostility, and that the trouble was caused by the police in interfering with free speech, and in their officious manner trying to escort the suffragettes from the park.

At Hampstead Heath another suffragette meeting was broken up, although the crowd did not attempt any violence. The people who had assembled satisfied themselves with shouting, singing and booing. The police finally had to order the women away.

### The Kidnap Plot.

The Referee, a Sunday journal devoted to sport and the drama, says the details of an elaborate kidnaping plot to carry off David Lloyd George, chancellor of the Exchequer, are only just beginning to leak out. "The whole thing," says the paper, "was well organized, but was given away by the over-zeal of one of the appointed abductors. The retreat of the honorable gentleman had been carefully arranged in an unfrequented park in the country and had natural

## Ireland's Sons Will Celebrate St. Patrick's Day

In nearly every part of the world March 17 is being observed by Ireland's sons and daughters. St. Patrick's Day, the one day of the year when the wearing of the green is the predominant feature of a universal pageant, has once more made itself manifest. In nearly every large city some sort of a celebration marks the event. In most cities great parades will march through the streets to commemorate a day dear in the hearts of the Irish.

## BULGARIANS AGAIN ACTIVE ALONG FRONT

### Continue String of Victories at Commencement of Spring Campaign—Capture Redoubt at Bayonet Point.

Sofia, Mar. 16.—With the improvement in the weather conditions, the armies in the near east have become more active, although thus far no news of a pitched battle of any character has come through. According to official reports issued at Sofia both the Bulgarians and Turks at Tchatalja have been moving, and reconnoitering parties have been in collision. In one case a rather sharp engagement resulted. Two Bulgarian parties sent out in the direction of Akalon took a redoubt, to the east of that village, at the point of the bayonet. The Turks having been reinforced attack lost three hundred dead and wounded who were left on the field. The same day the Turks advanced toward Kadikou, but were repulsed. According to Constantinople reports conditions in the Gallipoli peninsula are quiet. An engagement in the Turkish warships bombarding the Bulgarian positions at Silivri, but with what result is not known.

Late advices say that the Montenegrin siege guns have commenced a fierce bombardment of Scutari, a portion of which is flames. The Greeks continue to gather in stray bodies of Turkish near Arvalia, the Greek cavalry capturing two Turkish battalions comprising 1,570 men and 30 officers.

### Turkish Cruiser Safe.

Alexandria, Egypt, March 16.—The Turkish cruiser Hamedieh arrived here this morning and an enthusiastic crowd gathered on the quays to welcome her. The cruiser did not appear to have sustained any damage during the course of her Adriatic raid. She will leave tomorrow for an unknown destination.

### Allies' Terms Extravagant.

London, March 16.—There is little prospect of the acceptance by Turkey of the peace terms as proposed by the allies. Despatches from Constantinople tonight say that the leading members of the committee of union and progress have decided that the conditions could not be accepted, and it is understood that the council of ministers has adopted the same view. The grand vizier, Mahmud Scherif Pasha today visited the Red Crescent Society and begged the members to continue their efforts as the government was resolved to continue the war.

At other capitals and among the ambassadors in London, the allies' demands are considered extravagant, especially with regard to the payment of indemnity and the cessation of Scutari and the Aegean islands. Advantages which would enable quite a small party to spend the winter in a subterranean suite of apartments had been prepared for the captive and he would have had every attention. The plotters had even some doctor, devoted to the cause, to be in attendance on the chancellor during his captivity. When the government learned of the daring nature of the plot, the number of detectives guarding Lloyd George was largely increased.

## SUDDEN DEATH IN MONCTON, YESTERDAY, OF P. S. ARCHIBALD

### Former Chief Engineer of I. C. R. was Stricken on Thursday and Passed Away Yesterday Afternoon.

Special to The Standard. Moncton, Mar. 16.—The news of the death of P. S. Archibald, C. E., which occurred this afternoon at one o'clock, came as a shock to his many friends and the community in general. Mr. Archibald had been in failing health for some years, but his condition was not regarded as immediately serious. On Thursday while enjoying a walk on Thursday while enjoying a walk a short distance from his home he was suddenly taken ill and fell in a fainting condition. He was assisted to his home where medical attendance was summoned, and it was hoped the patient would be around again in a few days. This morning, about four o'clock he became suddenly worse, and gradually sank until the end came.

Mr. Archibald was born at Truro, N. S., March 21st, 1844, and was consequently approaching his 69th birthday. After receiving his education in the Truro Normal and Model schools he chose a railway life and joined the staff of the Intercolonial in the construction of the Intercolonial in September, 1876, acting in the capacity of district and resident engineer. In 1879 he was appointed chief engineer of the Intercolonial and held that position until 1898 when he retired. Since that time he has done much important work as a consulting engineer and has also been engaged in many important arbitration cases.

The most important of the latter was the Reid claim against the Newfoundland government in which the sum of two million dollars was involved and in which Alfred Lyttleton of England was associated with Mr. Archibald. He was also engaged in the adjustment of the C. P. R. freight rates in the west and in other important railway arbitration cases in Ontario.

Mr. Archibald was connected for some years of late with the management of the Elgin and Petrolia Railway and was one of the commissioners of the Central Railway, in which capacity he has rendered good service. He married, in 1874, Clara G. Lindsay, daughter of the late T. S. Lindsay, of Rockland, Maine, and is survived by his widow, one son, Mayne, now in Vancouver, and one daughter, Mrs. Beulah Harris at home. There is also surviving one brother, I. C. Archibald of Antigonish and three sisters, Mrs. Edward Mcweeney of Moncton, Mrs. S. P. Borden of Pugwash and Mrs. W. D. McMillan of Antigonish.

Interment will take place on Wednesday at Antigonish, N. S., to which place the body will be taken on Tuesday in Mr. Pottinger's private car. As an engineer Mr. Archibald had a wide reputation and as a citizen of Moncton for more than 30 years he had the esteem and respect of all classes.

## THEY BELIEVE SUFFRAGETTES IN FRIEDMANN IN NEW LEAGUE

### Toronto Physicians Have Every Faith that German Doctor Has Discovered Real Remedy for Tuberculosis.

Toronto, Mar. 16.—Local physicians who were with Dr. P. F. Friedmann during his clinics here are enthusiastic in their praise of the doctor's personality, his sincerity, and whole-hearted devotion to science.

"Dr. Friedmann made a most favorable impression upon all with whom he came in contact," was the comment of Dr. J. J. MacKenzie of the University of Toronto.

"Any doubt of his absolute sincerity was removed within a few hours after his arrival here. Any physician who talked with him, realized at once that he is an authority upon the treatment of tuberculosis, and his twenty-three years of research was evident in everything he said and did. If Dr. Friedmann has not actually discovered a cure for tuberculosis I don't know who in the world can be expected to do so."

"I was with Dr. Friedmann during his clinics in both Ottawa and Toronto," said Dr. Allan Adams, another authority on tuberculosis, "and I have nothing but praise for him. He has such wonderful faith in himself and his work that everyone who meets him is inspired by his enthusiasm to believe that a cure for tuberculosis has at last been given to sufferers of humanity. We all know that such a cure is bound to be discovered and there is not reason to doubt that Dr.

## CHARGE UNITY OF ALLIES IS THREATENED

### Balkan Union May Be Broken Through Greed of Greece and Servia—Bulgars Will Be Firm.

Sofia, Mar. 15.—Premier Gueshoff's statement in the Sobrane, Friday, that despite the incidents at Nigritia and elsewhere, the allies composing the Balkan League were firmly united, was also the subject of an extended debate in the house today.

The opposition leaders declined to share the premier's optimism regarding the final results of the Balkan League. They denounced the Greeks and Servians, whom they accused of cupping their ears to the denationalizing them. They asserted that Bulgarian schools had been closed, churches and monasteries violated, priests driven out or compelled to change their ecclesiastical allegiance by the Greek and Servian authorities, who were constantly interfering with the religious affairs of the populations.

An open propaganda has been carried on with a view to forcing the Bulgarians to change their nationality, and finally came the engagements between the Bulgarians and the other members of the alliance at Nigritia, Subotaska and other places. The speakers contended that these acts were not due to excessive zeal of subordinates, but were part of a system of hostility to the Bulgarians, compelling that the Balkan union was endangered by territorial ambitions.

If the Greeks and Servians cherished the idea of a "great Servia" and a "great Danube," they would be bitterly disappointed. Salonki, they declared, was the port of all Macedonia, even of Sofia, and should not be given to Greece.

The opposition representatives urged that the Bulgarians government display greater firmness in dealing with the unjust claims of Roumania.

## DRESSMAKERS STRIKE OVER

### About 6,000 Operatives Return to Work With All Demands Granted—Shorter Day and More Pay.

Boston, March 15.—The strike of 6,000 shirt waist and dress makers, who make up one of the three principal divisions of the garment work in this city, was settled today by an agreement in which the strikers received most of their demands.

The agreement gives all general week-work operatives, now receiving less than \$10 a week, a 10 per cent. increase; those receiving more than \$10 a week are to receive a five per cent. advance, and all piece workers are to get a 10 per cent. raise. Other terms are included for cutters and pressers. The regular working week is to consist of 50 hours, but will be one hour less during the summer.

## PUGSLEY DISGRACES ST. JOHN IN OTTAWA

### Liberals Under His Leadership Break all Bounds of Decency and Precipitate Near Riot

### MOST DISORDERLY SCENE IN PARLIAMENT'S HISTORY

### Pugsley Makes Threatening Gestures at Chairman Robidoux and Altogether Comports Himself in very Undignified Manner—The Party of Laurier Utterly Disgraced by Rowdy Tactics of ex-Minister—Another Grit Named by Speaker Forced to Apologise.

### Special to The Standard.

Ottawa, March 16.—The Canadian House of Commons was the theatre, Saturday night, of the most disgraceful scene in its history when the Liberal members, under the leadership of Hon. William Pugsley, broke all bounds of decency and precipitated a near riot. It was the culmination of a long drawn and deliberate resistance of the standing rules of the house carried out on apparently pre-arranged lines.

### DR. CLARK NAMED BY CHAIR.

For the first time in the Canadian parliament the speaker was forced to name a member whose persistent disregard of the rules of the house made this course necessary. The member named was Dr. Michael Clark, of Red Deer who, since entering the politics of the Dominion, has more than once posed before the house as an adherent and exponent of British parliamentary procedure.

The opposition revolted against the house rules as soon as these rules were applied late Friday night and continued the fight all night and all day, dividing the house eight times on questions of order and finally adopting a position of open defiance of the speaker.

### PHYSICAL CLASH NARROWLY AVERTED.

So tense was the situation from eight o'clock till the hour of adjournment that more than once it seemed impossible to avoid a physical collision of the warring parties. That this extreme act of parliamentary degradation was avoided was due wholly and solely to the masterful control and cool headed generalship of the prime minister supported by the extraordinary restraint placed upon themselves by the Conservative members. The day was replete with developments in a situation already unprecedented.

Great crowds of people jammed the House galleries for the final act of the two weeks obstruction and were witnesses of the opposition's violent repudiation of the established and time honored usages common to representative parliamentary bodies under the British system. The most significant of these developments was the struggle for the active leadership of the Liberal party in the House.

### GRAHAM OR PUGSLEY, WHICH?

In the absence of Sir Wilfrid Laurier, the acting leader is commonly supposed to be Hon. George Graham. He has been and is the Laurier selection. Mr. Graham was, however, forced into the background from the beginning of the Saturday battle. The opposition for the whole twenty-four hours was obviously under the control of Hon. William Pugsley. Mr. Pugsley was cheered repeatedly when entering the chamber and when rising to block the application of the rules. There was no such enthusiasm shown for Mr. Graham. In the last scene when the prime minister called for a statement from the "Active leader of the opposition," the Liberal situation became ludicrous. Mr. Graham looked at Mr. Pugsley, Mr. Pugsley looked at Mr. Graham. The prime minister had at last to mention the South Renfrew member, and Mr. Graham, with some hesitancy, rose to his feet.

### A CAREFULLY PREPARED PLOT.

There were numerous evidences throughout the evening of a carefully prepared plan by the opposition to force the position up to the point where under the British precedents, some member persistently violating the rules would be forcibly ejected from the chamber. There were to be, it is said, an English speaking and a French speaking "Martyr," Adphonse Verville, Liberal member for Maisonneuve, formerly an independent labor member, was to be the first sacrifice.

Verville did declare his determination of speaking whether the chairman liked it or not, and was loudly applauded, but the incident passed and the plan failed for the time being. When Dr. Clark, of Red Deer, later in the evening, was named by the Speaker the programme failed again. This time through the ready action of the prime minister, Mr. Borden first wrote what on-lookers took to be a motion for the suspension of the offending member. Then he advised Dr. Clark that it would be better if he were to obey the rule and apologize, which Dr. Clark did.

### OBSTRUCTIONISTS APPLAUD ROWDYISM.

During this incident and later when William A. Martin, of Regina, refused to withdraw the word "closure" on the order of Chairman Blain, the conduct of the opposition was indescribable. Every defiance of the rules was loudly applauded.

## NEW YORK TURNS TO CANADA FOR SAMPLE OF BUSINESS METHOD

### W. Richmond Smith, Canadian Newspaper Man, Plans Scheme to Save Taxpayers of Gotham Millions of Dollars

New York, March 16.—This city, the largest on the continent, and the greatest municipal organization in the world has turned to Canada for the model for a purchasing system, which it is expected will save the taxpayers millions of dollars each year. Comptroller Prendergast has submitted to the Board of Estimates a plan for the appointment of a single purchasing agent and a central storeroom, who will buy and care for all the supplies needed for the various departments and institutions under the control of the city.

In his letter transmitting this document the comptroller says that the plan outlined was developed and prepared by W. Richmond Smith, superintendent of the Bureau of Standardization of supplies of this city, and formerly a well-known newspaper man in Ottawa and Montreal, and a war correspondent in South Africa and Madagascar. The plan which has received the unanimous approval of the executive committees of the Merchants' Association, the allied real estate interests, the city club and various other commercial and civic organizations, is modelled after the system of the Canadian Pacific Railway, which, as the comptroller points out, buys four times as much as the City of New York.

## A Constant Change In Body's Tissues

"Our bodies," says Huxley, "may be likened to an eddy in the river, which retains its shape for a while, though every instant each particle of water is changing."

The issues of the body, composed of millions of tiny cells, are being constantly broken down and wasted away by the process of life, and especially by overwork, worry and disease.

In order to reconstruct these wasted tissues there are necessary such elements as iron, sulphur, magnesia, potash, etc., and when these are not supplied in sufficient quantities in the food we eat, it is necessary to aid nature by the use of some restorative preparation.

### IMPRESSIVE FUNERAL OF HON. J. G. HAGGART

His Old Regiment Conveyed Body of Late Parliamentarian to Last Resting Place.

Perth, Ont., March 16.—An impressive military funeral was accorded this afternoon to the remains of the late Hon. John Graham Haggart, ex-Minister of Railways and Canals and for forty-two years representative of the riding of South Lanark in the federal parliament, whose death occurred at Ottawa on Thursday last.

The 42nd regiment, with which deceased saw active service as captain at the time of the Trent affair, in command of Colonel Balderson, conducted the cortege with Major De Hertel, a nephew of the deceased, in charge of the firing party; the remains being borne to the cemetery on a gun carriage; several ministers of the crown and members of both sides of the house were among the mourners, including Colonel the Honorable Sam Hughes, Minister of Militia; Hon. W. B. Nantel, Minister of Inland Revenue; Hon. J. D. Reid, Minister of Customs; John Stanfield, M. P., chief Conservative whip; Mr. Speaker Sproule, Senator Edwards and others.

London Women Did NOT USE THEIR VOTES

Special Cable to The Standard. Registered in Accordance With The Copyright Act.

London, March 16.—The London municipal elections showed a plurality of 100,000 for the municipal reformers, who represent the Unionist party. The main interest lies in the fact that only four Socialists secured election, and in a marked disinclination of women to vote.

It has been urged for female suffrage, that women are especially qualified to deal with certain matters affecting children, education, sanitation and the like. These matters, however, fall largely in the province of municipal and local bodies, for which many women have votes, but as a rule they make little or no use of their privilege. This throws a curious light on the desire of women to obtain the vote in order to benefit their own sex and their children.

Various rumors are afloat of an early general election and many astute party agents declare it may occur at any moment. For myself, I cannot see any reason why the Asquith government should appeal to the country now, and I adhere to my forecast of an election in 1914. Still these are strange times.

The Mudding Militants. (Pittsburg Dispatch) It is fairly apparent now that the militants have ruined the suffragists' cause in Great Britain. They have hoisted themselves with their own petard.

### FRANCE WILL SEND SHIP TO DARDANELLES

Will Force Turks to Release French Merchant Steamer—Greece Makes Appeal for Assistance of Italy.

Paris, March 15.—The French foreign minister, Charles Jonnart, has instructed the French ambassador at Constantinople to send the cruiser Leon Gambetta now stationed at the Turkish capital, to the Dardanelles in order to enforce respect for the French flag by compelling the Turkish authorities to release the French steamer Henri Fraissinet from Marseilles which has been detained by them on the allegation that she has contraband on board.

#### Asks Italian Aid.

Rome, March 15.—Chairman Gryparis the former Greek minister to Turkey arrived here today for the purpose of urging the Italian government to assist Greece to secure the annexation of the Aegean Islands, which the Greeks occupied during the war.

M. Gryparis is the bearer of credentials from the king and Premier Venizelos. He will present a long memorandum enumerating racial, historical, religious and educational reasons in a view of annexation. He will point out in addition the advantage to the powers generally and to Italy particularly, why further complications should be removed.

If the Greek desires are not satisfied, he will urge there is certain to be a serious situation in the Mediterranean as the Greek nations are determined to fight to the bitter end to keep what they have won by the blood of their soldiers.

### LAWLESSNESS IN PORCUPINE

Ontario's Provincial Police Start for North Country Mining Camp to Quell Trouble Arising from Strike.

Toronto, March 16.—A revival of lawlessness in the Porcupine mining district has assumed such serious proportions that Supt. Rogers of the provincial police, has detailed 15 men to proceed at once into the north. The trouble is now centred about the McIntyre, Pleonorum and Jupiter mines which some time ago affected a conciliation with their men and are now in operation.

The rigors of the cold season, and the fact that the mines were running with imported labor influenced some of the strikers to return to work and this has caused the bitter feeling among some of the leading spirits who are still out.

In consequence the practice of way-laying the returning workers at night and beating them up has grown alarmingly during the past two weeks, and increased police surveillance was asked.

The frequency of these attacks is occasioned by the men leaving the mine premises at night and walking to Timmins, Dome and South Porcupine. These stretches are long and barren so that it would require almost a regiment to guard travellers. Moreover when an arrest is made there are scores of colleagues. It is alleged by the police, to swear that the accused men were miles away from the spot on that particular evening.

Supt. Rogers expresses confidence in their ability to put a stop to this state of affairs.

# Beer Exposed to Light for 5 Minutes Becomes Undrinkable

This is not our statement, but the deliberate opinion of one of the most renowned scientists in the world. Read the entire statement:

"We have tested beers repeatedly, placing the bottles in the direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are, therefore, recommended."—Wahl-Henius Institute of Fermentology.

It is not enough that beer be brewed pure, it must be kept pure.

Many Americans prefer beer in a light bottle. Most brewers follow the course of least resistance.

Light starts decay even in pure beer. Dark glass gives the best protection against light. Schlitz is sold in Brown Bottles to protect its purity from the brewery to your glass.

See that crown or cork is branded "Schlitz."

London, March 14.—Four hundred and seventy-six bales of cotton export Marianne (Aus), stored on the wharf at Plum, were partially destroyed by fire.

THE BATTLE LINE.

The steamer Trebla, Captain Starrett, arrived at Hounale on 14th from Genoa.

ISLAND BOATS.

Both steamers got across between Pictou to Georgetown on Saturday.

SOUTH AFRICAN TRADE.

The Elder-Dempster line report the certainty of a largely increased trade between Canada and South Africa this year. The Nlinan chartered from the Leyland Line, for this trade sailed from St. John this week, to be followed by the Tronto which sailed from Liverpool last Sunday.

FAILED TO FIND CABLE.

Abandoning a three days' search for the 300 fathom steel cable lost overboard when the steamship Uranium was floated at Chebucto Head by the Furness liner Rappahannock last January, the wrecking steamer Amphitrite left Halifax Saturday for Chester, where she will lay up. During the past three days the Amphitrite has been grappling in those waters with a cableship grapple, but failed to locate the steel hawser, which is valued at \$200.

REPORTS OF LINERS.

The Granpian of the Allan Line due today or tomorrow from Liverpool, has on board 1660 passengers.

EMPTIED OF SALT.

Finishing the discharge of her salt load, the White's wharf, Halifax, the Swedish tramp Emmanuel will move up to Richmond where she is to load for the west coast of Britain. The

ROYAL GEORGE NOT COMING

Recent reports from the Old Country make it practically a certainty that the Royal George will not be available from the repair yards before navigation re-opens in the St. Lawrence, so she may not be seen on this side until next autumn. It is possible, however, that she may be finished in time for one trip this way, but present indications do not point this way.

ORURO IN FLOATING DOCK.

During her present stay in the West Indies, the Pickford and Black Line Oruro was placed in a floating drydock, at Port-of-Spain, Trinidad, where she underwent an overhauling. While on her last visit down south the Oruro, which sailed yesterday, was similarly fixed up.

HEAVY COAL TRADE.

A more prosperous season than last seems to be the general anticipation in shipping offices with regard to navigation on the St. Lawrence this year. The Dominion Coal Company shares the prevailing optimism with those who represent ocean steamship lines. Alex. Dick, general agent of the company states that it was too early yet to form a conclusive estimate of the probable volume of their St. Lawrence trade this season, as there were many contracts which would be made yet, but that enough was already known to enable him to say that a minimum quantity of 1,650,000 tons of coal will be brought up the river this year. It may be taken for granted that this is a conservative estimate based on contracts which have been already signed, and that the actual volume of the company's St. Lawrence business for 1913 will considerably exceed the above figure.

EARNINGS OF SHIPS.

There is often more money in ship-owning than in "inside" real estate. Take the case of the sailing vessel Commerce, which has been chartered recently to carry lumber from Puget Sound—instead of Vancouver or Victoria, as might have been the case, January took on 300,000 feet of timber and will receive for the voyage \$16,425. Her disbursements will amount to about \$6,000, leaving a net profit of \$10,425. The ship will probably obtain a good rate to Honolulu or San Francisco with coal, and so finally work in a profitable way.

ROBERT REFORM IS DEAD IN MONTREAL.

Montreal, March 15.—Robert Reform, president of the Robert Reform Company, Ltd., and one of Montreal's most prominent citizens, died in Montreal at 2 o'clock this morning in his 82nd year after being in indifferent health since last summer.

Prominent Shipping Man Passes Away in 82nd Year — Was well Known in St. John.

Mr. Reform was born in Belfast, Ireland and came to Canada in 1845. He married Miss Sarah Ann Stewart, Scotland, who survives together with three sons and two daughters Robert Wilson Reform, connected with the firm of Anderson, Reform, Dr. Lewis L. Reform, James Hartland McNeil, and Miss Kate Reform, all of Montreal. Mr. Reform was a governor of McGill University and during the campaign carried on last year donated more than \$150,000 to the university. He was president of the Crown Trust Company, president of the Mount Royal Milling and Manufacturing Company and a director of the Bank of Toronto and the Lake of the Woods Milling Company and Nova Scotia Steel Company.

When Sciatic Pains Burn Like Fire Rub with 'Nerviline'

It Kills the Pain, Cures the Suffering, Destroys Every Trace of Sciatica.

READ THIS INTERESTING LETTER 'I think you ought to make your claims stronger about the marvelous power of Nerviline on Sciatica, and Lumbago. This is how Mrs. A. C. Corrigan opens her letter written from Victoria. "So many people are suffering, and so few get proper treatment, that I am anxious that thousands should know of how Nerviline cured me. Sciatica is just about the most awful pain humans are called upon to bear, and in my case there was at times the additional misery of Lumbago. Nothing attracts attention to particular forms of suffering like personal experience, and that is why I am so enthusiastic about Nerviline. I had the luck to use the right remedy (Nerviline) almost at the beginning, and cleaned it right out of my system. But most people use the wrong remedy, and get Sciatica in chronic form. Nerviline eases the pain at once, and stops the inflammation before it becomes chronic. I say that with a hint that Lumbago, Strains, tired muscles and inflammation from cold."

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

J. S. BACHE & CO. ON MARKET OUTLOOK

New York, March 15.—It is from the investment point of view that the market must be regarded. It is true that prices have speculatively discounted most, if not all, of the unfavorable factors over here, like tariff, legislation and trust prosecution.

REAL ESTATE

Keith and Gates have completed the sale of three leasehold dwelling houses two double tenements and one self-contained, situated in Munro's alley, off Paradise Row.

REPORTS FROM MARKETS OF TRADE

(J. C. MACKINTOSH & CO.) New York, N. Y., March 15.—California commission says its information is too meagre to enable it to render decision on Union Pacific dissolution plan, unless plan is approved today by commission and circuit court, the syndicate dissolves.

COTTON MARKET ADVANCED A SHADE

(F. B. McCURDY & CO.) New York, March 15.—While there is no disposition in local speculative circles to consider that the stormy weather in the south has yet rendered the new crop outlook any less promising, the reports of an improved spot demand appear to have made some impression on sentiment, and this morning there has been quite a good deal of scattered southern buying, which might be taken as indicating that the southern weather is not altogether favorable even if crop preparations were well advanced.

CLOSING STOCK LETTER

(J. C. MACKINTOSH & CO.) New York, March 15.—The general disinclination to make fresh speculative commitments in the stock market was accentuated today by the tendency of the U. S. P. dissolution matter. There was much uncertainty as to the outcome but the market appeared to have discounted the probabilities. The possibility of a decision in the Minnesota rate case on Monday was another repressive factor. Otherwise there was little news worthy of the name and the financial situation at large showed no appreciable change.

THE STOCK MARKET PRICES TO ADVANCE

(F. B. McCURDY & CO.) New York, March 15.—American—Dullness and firmness in the stock market may be considered as indicating that the next activity will be on advancing prices. World—The buying is almost wholly professional and comes chiefly from the short interest.

EXTENSION OF THE TRADING MOVEMENT

(F. B. McCURDY & CO.) New York, N. Y., March 15.—The Times says that the Balkan allies offer peace terms which the powers must refuse. The fall of Adrianople and Scutari appears to be at hand. That Paris crowds riot over an army bill. That McReynolds has refused aid to the Union Pacific modified dissolution plans as he has not seen them. The World says that the Union Pacific will forfeit \$1,250,000 if the new plans are not accepted by the federal court by midnight tonight.

CLOSING COTTON LETTER

(J. C. MACKINTOSH & CO.) New York, March 15.—Today's cotton market was narrow and uninteresting with no considerable change of prices. The continuation of wet weather over the belt with complaints of delayed crop preparations at various points had a steadying influence but sentiment at large was bearish on prevailing underlying conditions and there was no disposition to follow the early rallying. The persistence of unfavorable weather at the south for a few days longer would likely make an impression on sentiment but this far the feeling is that the soil is being well fortified with moisture which will tend to offset a moderate delay in planting.

CLOSING STOCK LETTER N. Y. MARKETS

(F. B. McCURDY & CO.) New York, March 15.—The cable came over this morning at practically steady prices, there being very few changes as compared with last night's closing, either here or in Wall Street and such changes as took place being of insignificant amounts. C. P. R. went to 225 and that was the price also at which it sold here and in New York this morning. It is not generally expected that C. P. R. will show any great recovery until the situation adjusts itself on the other side of the Atlantic.

THE OUTLOOK

A further extension of the covering movement may be seen today. Traders are awaiting real news developments before taking an aggressive position. We think the buying is of better character than the selling. We would try for moderate profits on both sides, but would favor the long side on reactions. Union Pacific is well bought. Reading should be taken on soft spots. Offerings in Amalgamated are said to be limited and the short interest has not covered. Barush is reported to have been selling Southern Pacific, continued adverse rumors of tariff changes will cause offerings of the paper stocks to be made. Speculative circles are buying corn products.

The Brighton Black Fox Co. CAPITAL \$75,000 Head Office - Charlottetown, P. E. Island Offers for Subscription in New Brunswick \$20,000 CAPITAL STOCK AT PAR This is without doubt in every way the soundest and most attractive black fox proposition yet placed on the market. The Brighton Company makes no guarantee of any dividend percentage. What it does guarantee is a sound business project, conducted in a business like manner, under most favorable circumstances, and with conditions which, to the best of human judgment, should enable it to become the most profitable enterprise of the kind yet established. The Brighton Company is capitalized at Seventy-five Thousand Dollars. It owns six pairs of Dalton-Oulton-Tuplin foxes, costing twelve thousand dollars per pair. Only three thousand dollars is thus allowed for organization expenses. So that in this company there is not a drop of water. The stock is divided into shares of One Hundred Dollars each. Ten per cent. of the subscription is payable with application, the balance being payable on or before August first next.

The Provisional Directors: Mr. Arthur G. Peake, Lieut. Col. of the 4th Regt. Artillery, a successful business man of Charlottetown. Mr. Weston Peake, brother of the above, and associated with him in business. Mr. J. J. MacKinnon, Commission Merchant, and property owner, Grand Secretary of the I. O. M. F. Mr. Edwin Aitken, of the firm of Carvell Bros., the largest wholesale house in P. E. Island. The solicitor for the company is Hon. D. A. MacKinnon, former Governor of the Province.

Ranching Conditions: The company's ranch is located on the edge of Charlottetown, on properties of thirty-eight acres, formerly the homes of Premier Fred Peters and Premier, the late Arthur Peters. The ranch is supplied with water from the city service, is within a few yards of fire hydrants, which thus give it protection secured by other ranches only at very large cost. It is surrounded by electric lights, is beautifully situated in a birch grove, and is in every other respect suited to the purposes for which it was built. It is in charge of an expert fox-rancher whose experience is a guarantee of success in breeding and raising the pups. There is no favorable condition possible that this ranch does not enjoy, nor is there any weak point about the plans of the company by which the prospect of future success can be affected.

TO OPEN CREAMERY IN ALBERT COUNTY

Meetings Held Throughout Section to Argue Point with Farmers—Other Items from Hopewell.

Hopewell, March 14.—L. C. Daigle, provincial dairy superintendent, and Nelson Eveleigh, Sussex, addressed a public meeting at Hopewell Hill, last evening on the subject of butter factories and dairying.

Quite a number of Waterville farmers have signed, but the men at the Hopewell Hill meeting seemed disposed to hold off, though there was considerable feeling in favor of the scheme. Should it be decided to build this year, it will be necessary to establish a factory for Hopewell and Harvey. At least 300 cows would be necessary for a start and it was considered \$2000 would be sufficient to equip a creamery suitable for the purpose.

The funeral of the late Peter J. McChelan took place this afternoon from his home at Albert, and was largely attended. The services were conducted by Rev. Thomas J. McChelan, pastor of the Hopewell Methodist church, assisted by Rev. J. M. Love, pastor of the Baptist church.

**AROUND THE CITY**

**A Disorderly House.**  
Patrolmen Ross and O'Leary have reported George Goodwin for keeping a disorderly house at 150 Bussela street.

**Matinee Seats Reserved.**  
In order that the immense crowd may be accorded all convenience possible, seats will be reserved for the day's matinee at the Opera House, the same as evenings. Sale opens at 8 o'clock this morning. All seats, 25 cents.

**Resolution of Sympathy.**  
At the last meeting of the Coal Handlers and Trimmers Union a resolution was adopted expressing the sympathy of the members with the relatives of Patrick Hennessy who died recently, and it was ordered that the charter be draped for forty days.

**Austrians Arrested.**  
Late Saturday night Patrolman Briggs arrested Fred Sermack, an Austrian, on Dock street and charged him with begging. Early yesterday morning Policeman Anderson, while patrolling Mill street came across Unises Smeova, an Austrian, who was wandering about. He was placed under arrest, and is charged with not giving a satisfactory account of himself.

**A Presentation.**  
Monsignor Chapman, V. G., of St. John the Baptist Church, has arrived home from Norfolk, Va., and from the Johns Hopkins Hospital in Baltimore where he successfully underwent an operation. Last evening the congregation showed their high esteem towards him by presenting him with a well filled purse, and the presentation on behalf of the congregation was made by Rev. Father Holland.

**The New Piling Scheme.**  
The City Council will meet today, when it is understood petitions will be received from a number of property owners asking the city to pave their streets and charge them with half the cost. A petition in favor of having the city pave Union street between Charles and Waterloo on the plan of charging the abutters with half the cost was circulated among the property holders interested last week and it is said was generally signed.

**Charged with Theft.**  
Between twelve and one o'clock Saturday afternoon Detective Killen and Deputy Chief Jenkins placed on suspicion of having stolen a silver watch, the property of his brother Charles Duffy, of 39 St. Patrick street. It is claimed by the police that Duffy is under suspicion of having stolen other articles from his St. Patrick street home. He was arrested a few weeks ago for drunkenness and was let by the police magistrate under a pending sentence, with the promise that he would do better in the future.

**Rain Damaged Streets.**  
The heavy rains have caused considerable damage to some of the streets of the city. In a number of places on King street the rain water rolling down like a rapid, loosened the top binding of the Macadam pavement and will give the horses a good chance to dig gullies in the surface unless it can be rolled again. Wherever there was a slope the rain carried off the winter's accumulation of dirt and sediment and deposited it on the lower levels. It will put the city to some trouble to get the streets cleaned up.

**Sixteen Prisoners.**  
No less than sixteen prisoners are registered on the police blitzer. Thirteen of these were gathered in on Saturday afternoon and night, and three were taken into custody yesterday morning. Of the lot, nine are charged with nothing more than drunkenness, four for theft, one for lying and lurking, one for wandering about the streets and not giving a satisfactory account of himself, and another for begging. Among the drunks was one woman. Three of the prisoners were allowed out yesterday on deposits for their appearance in the police court this morning.

**HEARTILY ENDORSE BORDEN'S NAVAL POLICY.**

At a meeting of the Liberal Conservative Association of the City and County of St. John, held on Saturday evening, the following resolution was adopted unanimously:

Resolved that the Liberal Conservative Association of the City and County of St. John heartily endorses the naval proposals of the Borden government, and trust that the same may soon be passed, and effective aid given to the Mother Country in her hour of need.

And that copies of this resolution be sent to Premier Borden and the Minister of Marine and Fisheries.

**LARRY CONNOLLY WILL GET \$20,000**

**Popular Ball Player to Receive Half of \$40,000 Estate Left by an Uncle — in Providence.**

A letter from Providence, R. I., shows that Larry Connolly, who for a few seasons was a prominent player with the Marathons in the Maine and New Brunswick leagues, has become very prosperous since leaving St. John and his many friends will learn with pleasure of his good fortune.

Larry is now engaged with a large construction company, is in charge of a large number of men, and is getting along so well that he says he does not think he will ever again go into professional ball.

Larry and his brother have had the good fortune to have been left the tidy sum of \$40,000 to be divided between them. This large amount was left to them by an uncle recently deceased. They will come into the legacy in a couple of years when Larry's brother becomes of age.

**NEARLY 2000 PASSENGERS LANDED HERE YESTERDAY**

**Empress of Britain Brings 1459 and Lake Michigan 476— A Very Busy Sunday at Sand Point—Baby Born on Trip Across Ocean.**

Yesterday morning the C. P. R. steamer Empress of Britain, from Liverpool with 1459 passengers, and the Lake Michigan from London and Antwerp with 476 passengers docked at Sand Point. The steamers landed a total of 1935 passengers, and with the handling of such a large number of people it was rather lively about the docks all morning and afternoon. A large squad of customs officials were on hand examining the baggage, and the Canadian and United States immigration officials were kept on the jump examining the passengers. Then the railway officials had a busy time of it handling the baggage and getting special trains in line to convey the passengers who were all en route to the west.

The Empress of Britain from Liverpool via Halifax, arrived off Partridge Island Saturday afternoon about four o'clock, and owing to the very thick weather she was not docked until about 7:30 o'clock yesterday morning, when she tied up at No. 2 berth. The Empress brought out 166 saloons, 472 second cabin, and 821 third class. Of the first class passengers 21 disembarked at Halifax.

Among the third class passengers arriving was a large party of English girls who are en route for Alberta, and are in charge of Mrs. Joyce.

During the voyage out a baby boy was born to a Mrs. Paterson in the third class, and both the mother and child are doing well.

The officers of the Empress report a moderate voyage, and her daily runs out to Halifax are as follows:—March 8, 872 miles; March 9, 254; March 10, 480; March 11, 405; March 12, 402; March 13, 418. This is considered very good time as the Empress went about 250 miles south of her regular course.

The first two days' out from Liverpool were very rough and a sea was shipped which sent a dozen or more

**JUDGE RITCHIE IN STRONG ADDRESS ON THE LIQUOR TRAFFIC**

**Makes Appeal to Men at Every Day Club, Last Evening— Tells of Ill Effects of Drinking Habit.**

The Every Day Club was crowded with an interested audience including over 30 of the boys of the club last evening when Judge Ritchie delivered a strong temperance address. A short musical programme was also enjoyed. Walter Brindle rendering a solo, while Mr. Brindle and his little daughter were heard in a pleasing duet.

Taking "Facts not Fancies" for his text, Judge Ritchie opened his address by pointing out the large amount of drunkenness in this city, and instanced the fact that on a certain Monday morning 11 empty gin bottles were found on the long wharf, showing liquor could evidently be procured on Sundays.

At one time, said the speaker, white men would not think of drinking from a bottle, and this custom was generally credited to the Indians. But now white men also followed this filthy habit.

Judge Ritchie then pointed out in a forcible manner the ill-effects of the drinking habit, and made special reference to the fact that Christians, so-called, both Protestant and Catholic, were found practically every day upon the prisoners' benches in the police court. However, said the speaker, "I have yet to have a Jew, a member of a generally despised race, brought before me for drunkenness."

The speaker stated that by walking along the streets of an evening, the extent of the liquor traffic could be seen, the bars being literally lined with men. A glance in the grocery, boot and clothing stores, however, would show no such condition.

In closing Judge Ritchie urged the total temperance pledge upon his hearers, pointing out that this would increase not only their appearance, but their prospects in life.

At the close of the lecture a hearty vote of thanks was tendered Judge Ritchie.

**DRUNK WANDERS INTO PUBLIC HOSPITAL**

**Finds Way into Nurses Dining Room—Is Allowed Out on Deposit and is Arrested Again for Protection.**

Shortly after five o'clock yesterday morning Dr. F. D. Weldon, of the General Public Hospital called up the central police station and stated that there was a man lurking about the institution. Sergt. Caples responded to the call and found a man there who gave his name as Owen Cameron and placed him under arrest. Cameron appeared to have been out in the rain all night, as he was drenched, and acted like a person who had been drinking hard. He did not know what he was doing.

It was reported to the police that early yesterday morning Cameron was found in the nurses dining room, on the ground floor of the hospital. He appeared to be stupid, and could not satisfactorily tell the hospital officials how he got there or what he was doing. It was stated that Cameron fell off a train while coming to St. John Saturday night, and although he was not injured, he appeared to have put in a bad night.

He had about seventy dollars in his pockets and return tickets from St. John to Boston, also a ticket from St. John to Amherst. He was allowed out of the central station on an early train this morning.

At one time, said the speaker, white men would not think of drinking from a bottle, and this custom was generally credited to the Indians. But now white men also followed this filthy habit.

**LIVINGSTONE'S CENTENARY IS CELEBRATED**

**Works of Great Missionary and Explorer Told of in Churches—His Unconquerable Faith in God.**

In several of the city churches yesterday the pastor made reference to the centenary of the great missionary and explorer, Livingstone, who was born in Scotland on March 19th, 1813.

In St. David's church, last evening Rev. J. A. MacKelgan preached an interesting sermon dealing with the significance of the life of Livingstone, and the secret of his greatness. Of Livingstone as of General Gordon it might be said:

He was not great by gold or royal state,  
Sharp sword, or knowledge of the world's wonders;  
But more than all his race he saw life face to face.

And heard the still small voice amid the thunders.

In the wilderness of Africa, amid the conflicts of the blacks or whites, in England amid the applause of the multitudes, thronging to do him honor, he heard the still small voice calling to him to open the world to his King. His was the greatness of a surrendered soul, acknowledging the primacy of Christ.

Had Faith in God.

Continuing, the preacher analyzed the secrets of Livingstone's greatness. It was not extraordinary talents that made him pre-eminent, but his faith in the divine goodness and the consecration of his life to the divine will. He made his religion an every day business, not a matter of fine and stasis. The secret of his personal power was an unconquerable faith in the power of the gospels of Christ, to change the life of the most degraded of savages. When a man loves God he loves his fellow men; faith in God's power means faith in man's possibilities. Livingstone's whole life was an illustration of this. His humanity and gentleness gave a peculiar power and charm to his personality, enabling him to go among hostile savages and win their confidence and friendship. His faith in God which led him into the jungle of human need, sustained him in danger and tribulation; his surrender to the love of God and humanity never wearied in well doing.

The speaker pointed out that perseverance and determination were among the principal traits of the great missionary. These qualities enabled him to get an education in the face of the most determined opposition. His fast in his determination to penetrate the heart of the dark continent or perish in the attempt. When Stanley tried to persuade him to return to the central police station, the missionary said: "No, I must stay and finish my task." Another thought brought out by the preacher was that Livingstone's life was a testimony to the value of prayer.

At Leinster street Baptist church Sunday morning Rev. Wellington Camp taking for his text 1st Corinthians 4 and 5, preached an interesting sermon, dealing with the life and work of the great missionary and explorer. He spoke first of Africa, which is the largest continent of the globe, and has a population of over 200,000,000 people. Until Livingstone began his explorations, little or nothing was known about the interior of the vast continent by white men.

The explorer was born in Scotland on March 19, 1813. At ten years of age, he went to work in the cotton mill, but he had a dream that he would be 19 when he entered the University of Glasgow, completing his studies he went to London and offered himself to the London Missionary Society for work abroad. In 1840 he went to Cape Town.

The speaker gave a vivid description of Livingstone's work in Africa as both an explorer and missionary. He dwelt with his three great trips into the heart of darkest Africa, his walk from Cape Town to Genoa, his journey to Linnait, and the Zambesi, where he discovered the Victoria Falls, greater than Niagara, and his trek from Zambesi to the East Coast, a journey of 11,000 miles on foot.

After this Livingstone returned to England and was received with great honors, but in two years he returned to Africa with his wife and set out for the interior again. His wife dying shortly after reaching Africa.

For two years nothing was heard of Livingstone, then Gordon Bennett, proprietor of the New York Herald, sent Henry M. Stanley into Africa in search of him. After two years he was found at Ujiji, but he would not listen to Stanley's advice to return to civilization.

Shortly after Stanley returned, Livingstone was taken sick and died at Ijala in May 1st, 1873. So great was the devotion which he had inspired among his followers, that they organized a force and carried his body to the coast, a journey of over a year. Later the body was taken to England and honored by burial in Westminster Abbey.

As illustrating the quality of the man, the speaker said that Livingstone had never fired a shot at a native of Africa, though he was the first white man to invade the wider regions of the continent. Everywhere he went he preached the gospel and being a medical man he healed the sick. His life was marked by singular self-devotion and gentleness, and his name was honored as that of one of the greatest missionaries and explorers of any age.

There will be special services in some of the city churches on Wednesday in honor of the 100th anniversary of the birth of the missionary explorer.

Trade Unions Much Gratiified.

The officers of the local trade unions are much gratified at the action of the provincial government in passing the bill providing that in future all contracts let by the government shall contain a clause binding the contractor to pay fair wages.

**Spring Opening and Easter Exhibit of Costumes and Coats**

**This Morning**

Models which Sound the Keynote of Authoritative Style Presented in a Range of Wonderful Extent and Variety.

The fashion centres of the world have contributed the most acceptable of their style offerings to this opening display. Each suit and coat has some exclusive feature which entitles it to a place in this exhibit, which may be said to include only the most becoming and distinctive of the new Spring Styles. The novelty of the season in costumes are the Bulgarian and Russian coat styles and they are very closely allied. The cut-away effect is brought out in a great number of shapes, in some instances indicated slightly, while in others rather exaggerated, all of them, however, attractive and dressy. Combinations of bloused coats and cut-aways are shown in some models. Turned-back cuffs finish off all sorts of sleeves; collars are in the wide, flat, Directorate effects, as well as notched styles. The long roll collar is another type shown this season. Collars, cuffs, revers and belts are of contrasting fabrics, trimmed in Bulgarian colors, and the new reds, yellows, greens and blues. Skirts are plain tailored, pleated or draped, and the width of the average skirt continues narrow.

The new separate coats in three-quarter and full lengths hold to the Oriental effect, and this influence is noted in collars, cuffs and revers, which are made of printed ratines or silks, in Indian or Bulgarian colorings. Colored trimmings are very much in evidence in coat decorations this season and some of the models are elaborately embellished in different shades. For practical wearing straight line models will be in demand, and in mannish effects pockets are very large at the lower sides, while in more dressy draped types they are not so dominant.

**COSTUMES**, in serges, Bengalines, Bedford cords, whipcords, poplins, moire silk—greys, navy, tans, fawn, cream, mauve, brown, black, etc. Ladies' sizes, 34 to 44, priced from \$19.25 to \$55.00. Misses' and Juniors' sizes, 13 to 18 years, \$15.00 to \$35.

**SEPARATE COATS**, in Bedford cords, whipcords, eponge, serges, tweeds—stripes, checks, plain colors, including greys, fawn, tans, reds, navy, mauve, mustard, Copenhagen, etc.; also broadcloths, in black, Bulgarian and Russian styles, plain, box pleated and draped effects. Ladies' and Misses' sizes, priced from \$8 to \$35.

**SATIN, PONGEE, BROCHE, BENGALINE AND MOIRE SILK COATS**, with touches of trimming, in silks, braids and Bulgarian colors \$11.50 to \$50.00.

**CHILDREN'S COATS**, a large assortment of the newest ideas in colors and styles. Tweeds, serges, stripes, shepherd plaids, also pongee.
