BLACK CAPE YOUTH DEAD AT PEMBROKE

Remains of Philip McLellan Are
Brought Home and Buried
Monday Afternoon

Black Cape, March 4.—Mr. and Mrs.
Robert McLellan have the sincere
sympathy of all classes of the com-
munity in the loss of their youngest
son, Philip, who died from pneumonia,
in the hospital at Pembroke, Ont., on
Thursday morning. The deceased was
in his 24th year, was of a bright
pleasant character, and to his many
friends, the news of his death was a
distinct shock. For some years he had
been employed in railway works, and
paid a visit to his parents last spring,
leaving in the best of health, in the
bright hopes of returning home in a
few years to visit his dear mother and
father. The remains arrived by Sat-
urday's train, and were met at the
station by a large gathering. Deceased
leaves to mourn their loss a kind
and loving mother and father, two
sisters, Mrs. William Jamieson, of
Bathurst, N. B., and Martha at home,
and two brothers, Murray, who is out
West, and Sydney of Black Cape.

The funeral took place on Monday
afternoon at 3 o'clock, and was largely
attended. Interment was made in the
Black Cape cemetery. We extend our
deepest sympathy to the sorrowing
family, in the loss of one cut off on
the threshold of manhood, almost ere
his eyes beheld the golden vista of the
future years.

It is with much sorrow we announce
the death of Mr. Alphonse Guite, which
occurred at his home on Sunday morn-
ing, the 8th, after a lingering illness.
Deceased leaves a wife and two small
children.

Mr. Blair Henderson of Inverness, C.
B., arrived here on Saturday's train to
visit his parents, Mr. and Mrs. J. B.
Henderson.

Mr. and Mrs. Stephen Campbell, who
spent a short stay in Black Cape, left
on Thursday's train for their home in
Port Hope, Ont.

We regret to learn that Mr. William
Burton is not feeling in the best of
health.

Mr. Eubulus Kerr of Caplin River,
passed through our midst on Saturday
on his return from Carleton.

Mr. Eattie Henderson drove down
to Chandler this morning on business.

MADAWASKA COURT

The March term of the Madawaska
County Court opened at Edmundston
on Tuesday morning with Judge Car-
leton presiding. There were four cases
on the docket. In the only criminal
one the prisoner was allowed to go on
suspended sentence.

3 To amend the law relating to as-
sessment and collection of taxes.

4 To authorize the town to issue
debentures for the sum of \$50,000
for the erection of a town hall, and
fire station, and \$20,000 for con-
struction of permanent streets and
sidewalks.

5 To change the date of the annual
election of Mayor and Councillors.
Council then adjourned.

FIRE THREATENS DALHOUSIE STORES

Good Pressure of Water Saves
Business Block From Destruc-
tion Tuesday Morning

Dalhousie, N. B., March 4.—Once
more Dalhousie's water system saved
the town from quite a loss by fire. On
Tuesday morning about two o'clock
fire was discovered in the warehouse
occupied by Mr. Nicholas Theriault,
Provision Merchant, but fortunately,
a couple of young men were moving
about in the town when they noticed
that the building was in flames, other-
wise the main store and residence oc-
cupied by Mr. Theriault as well as the
Royal Hotel, the Mercier and Magee
Store, the Dalhousie Mercantile Store
etc., would have been destroyed. The
fire brigade arrived in time, and as
there was no wind, the strong force of
water saved the business block of the
town. The warehouse was totally
destroyed, including all the stock it
contained, consisting of flour, feed
molasses, oil, etc., etc. It is not known
how the fire originated. The loss is
heavy for Mr. Theriault.

There is a movement among the lo-
cal curlers here to build a modern rink
in the shiretown. A meeting has been
called for Thursday evening to consid-
er the proposition. Plans have already
been prepared and all will be submit-
ted at the meeting. It is proposed to
build a combined rink for curling,
skating and hockey, and every modern
improvement for the comfort of all
lovers of that kind of winter sport. It
appears now that the only question to
be decided is the location.

Mr. Frank J. Allard of Carleton, P.
Q., owner of the S. S. R. R. Call was
here to-day getting a petition signed
to be forwarded to the Hon. John Mor-
rison, Minister of Public Works, Fred-
ericton, N. B., praying that the sub-
sidy which has in the past been given
to the steam ferry service running be-
tween Dalhousie, N. B., and Fleurant's
Point, Migasha, St. Omer and Carle-
ton, P. Q., be increased from six hun-
dred dollars to one thousand dollars.
The petition sets forth all the advan-
tages of a steam ferry service for the
farmers located between Fleurant's
Point and Carleton, who find in the
town of Dalhousie, their natural mar-
ket etc., etc.

It is rumored that Mrs. Frank Bar-
berie intends starting a dancing class
in the near future, and that she will be
able to get the use of the Star Theatre
every Thursday evening for that pur-
pose.

The shiretown is to have a music
store. Mr. Wallace Sheehan, the son
of our popular station master intends
opening one during this month in the
Montgomery Block on William Street.
A library will also be added to the
new enterprise.

By the late will and testament of
Mrs. Louis Arseneault, who died re-
cently here, her two daughters, Mrs.
C. W. Nelson and Miss Irene Arsen-
ault, the head lady clerk of the Dal-
housie Mercantile Co. Ltd., become the
owners of her estate, which consists
of a valuable residence, located on
William street and some personal
property.

Mr. James B. H. Storer of Bathurst,
was in town to-day, a guest at the
Queen.

Mr. and Mrs. Numa Bernatchez of
Campbellton, spent Monday in town
the guest of Mr. and Mrs. Geo. E. Mer-
cier.

Mr. Beverly Scott, who is attending
the University of New Brunswick at
Fredericton, N. B., spent a couple of
days in town recently, the guest of his
parents, Mr. and Mrs. T. G. Scott.

Mr. James E. Stewart and Mr. John
McKinnon left here on Monday morn-
ing for Fredericton, to attend the
Farmers' and Dairymen's Association
meeting, as delegates from the Dal-
housie Agricultural Society. Mrs.
Stewart accompanied her husband to
the Capital.

Mr. John J. Letourneau arrived
home on Friday last from Richards,
where he was Mill Wright for Mr.
Michaud, who lost his mill by fire re-
cently. He expects to return to his
work in a few weeks.

Mr. and Mrs. H. MacMillan of Jac-
quet River are spending a few days in
town at Mrs. McMillan's old home.

Mr. Ernest Allard, of Robitaille, P.
Q., and Louis Bigaud of Carleton,
were among the visitors to Dalhousie
to-day.

Mr. and Mrs. David Harquail of
Campbellton, spent Sunday in town,
the guests of Mr. and Mrs. James
Harquail.

Mr. and Mrs. Arthur J. Arseneault,
are receiving congratulations on the
arrival of a baby boy on Wednesday
last.

FREDERICTON CO-EDS WIN IN HOCKEY

Campbellton Ladies Trim The
U. N. B. Team By Two Goals
to One

Fredericton ladies played a return
match with Campbellton, last Friday
evening. The skating rink was well
filled as the ladies' games are always
a popular drawing card. Three peri-
ods were played at the end of which
the game was a tie, each team having
scored one goal. Two periods of five
minutes each were decided on. In the
last of these the Campbellton ladies
managed to tally a point, thus winning
the match.

The line-up and officials are as fol-
lows:—

U. N. B. Co-Eds	Campbellton
Townsend	Goal
Bliss	Point
Crockett	Cover
Palmer	Rover
Anderson	Centre
Lockary	R. Wing
	Ferguson

Miss Edgecombe replaced Miss Lock-
ary in the third period.
Referee, R. J. Lavoie. Goal judges,
W. Ferguson and F. Mowat. Time-
keepers, Hazel Lingley and A. Mowat.
Penalty, D. A. Gillis.

Campbellton pressed from the face-
off and the game had barely started,
when Miss Graham, who was unmark-
ed, got possession and scored the first
goal. U. N. B. were now bent on
equalizing, but the home defence prov-
ed equal to the calls made on them,
and the game continued of a ding dong
nature with end to end rushes. The
visitors centre tried several shots at
long range which were effectually
dealt with. Just before the bell rang,
Miss Crockett was successful in tally-
ing the first point for the visitors.
The second and third period were a
repetition of the first so far as play
was concerned. As stated above, at
the end of the third period, the game
was tied. The first extra five minutes
gave no decision, and three minutes of
the second extra period had gone be-
fore Miss Murray, during a sustained
attack on the visitors goal notched the
winning point.

Misses Murray, Graham and Keat
starred for the locals while for the
visitors, Misses Crockett, Palmer and
Edgecombe were prominent. Miss
Crockett was here, there and every-
where, even visiting the penalty box
for periods of one and two minutes,
while Miss Edgecombe rested up for
one minute.

After the game the visitors were en-
tertained at a dance in the Oddfellow's
Hall, at which a large number were
present. The guests were received by
the chaperons, Mrs. A. A. Andrew,
Mrs. F. E. Shepherd and Mrs. Hager-
man of Fredericton. Refreshments
were served during the evening, and
the Co-Eds escorted to the train in the
morning by the ladies of the local
team and their friends.

Miss Annie Dickie of Point la Neuf
spent the week end in town the guest
of her sister, Mrs. Art. MacMillan.

COLLEGE NOTES

On Friday evening, Feb. 27th, in one of the fastest hockey games ever seen in Sackville, the University of New Brunswick was defeated by Mt. Allison, the score at the end of the third period being 4-2. The game, which was witnessed by over a thousand people, was the deciding one in the intercollegiate series, U. N. B. and Mt. Allison each having defeated Acadia and King's. Thus, this victory made Mt. Allison, intercollegiate champions for 1914. The game was very closely contested throughout. The score at the end of the first period was 2-1, in favor of Mt. Allison, during the second period neither team scored. In the third period, U. N. B. tied the score; but in some exceptionally fast hockey following, Mt. Allison scored two more. There was no further scoring, the game ending with the count 4-2 in favor of Mt. Allison. Mr. E. G. Asker of Campbellton played good hockey at point for U. N. B.

On Friday evening, March 7th, the most brilliant social function of the college year, "Seniors at Home", will be held in the University Residence. Already fifteen hundred invitations have been issued, and the event bids fair to be of exceptional interest to friends of Mt. Allison.

FATAL ACCIDENT AT NIGADOO
(From the Gloucester Northern Light)
A shocking accident occurred at Nigadoo on Tuesday of last week, Feb. 24th, when the baby son of Mr. and Mrs. Frank C. Roy, one year and four months old, overturned a pot of boiling water on itself, causing injuries that resulted in its death after six hours of excruciating suffering. The mother of the little one had left the house for a few minutes to attend to some duties, leaving her four children, the oldest one eight years of age in charge of the house, and had been in the barn only a few minutes when one of the children came running to her to tell her that the baby had scalded himself. The distracted mother rushed to the house, but on endeavoring to remove the child's clothing, was horrified to find that its flesh was a mass of blisters. Medical aid was procured as soon as possible, but nothing could be done to save the life of the little boy. Mr. and Mrs. Roy have the sincerest sympathy of the community in their very sad bereavement.

"AS FAR AS EAST"
Apart altogether from any political
discussions, there is shown more
and more every day the trend of political
feeling that the "East is far distant
from the West." It is a common utter-
ance now from ministers, where any
project for the benefit of the Maritime
Provinces is concerned to ask, "Does
it pay?" It is not necessary to give
instances of this, they are too numer-
ous and too fresh in the public mind
to be forgotten, but we might draw a
few comparisons. On the surface it
looks as if Ontario and the West con-
sidered they were the "Be all and end
all" of Canada, and the Maritime Pro-
vinces only appeared on the map by
the grace of the I. C. R., or was it the
C. P. R.?
Railways and trains which should be
run for the development of our coun-
try, are ruthlessly attacked because
"they don't pay," while in the West
the government expend \$250,000,000
on the Georgian Bay Canal project,
without ever a thought of it paying
operating expenses. The St. Lawrence
Canals may be another cited case, and

the last is the Hudson Bay Railway.
It is a most lopsided business. We in
the East are to be taxed to the amount
of millions to be expended on the Rail-
ways and Canals for the development
of the West, and sit down and calmly
submit to the cancellation of trains
and railway facilities on the ground
that they are not producing revenue.
Truly we are a long suffering people.

THE DEFAULTERS
In this issue by the authority of the
Town Treasurer, we published a list of
defaulters, which for a town of our
size is altogether too large. A study
of this article will convince any one
that the Council have done wisely in
asking legislation to amend the law
regarding the assessment and collec-
tion of rates for the amount now out-
standing is altogether cut of propor-
tion. No business could be run on such
a system and the town affairs should
be conducted on the highest plane of
business efficiency and economy, and
until the act governing the assess-
ments and collections is changed, we
cannot hope for much better progress.
In this connection we have certainly
to take off our hats to Dalhousie who
although their assessment is only a
tenth of ours, they can appear at the
end of the year with a clean sheet and
not a penny piece outstanding in the
defaulters list.

APPRECIATED
Hon. F. D. Monk is respected by
men of all shades of political opinion,
because he had the courage to resign
a lucrative position rather than sup-
port a policy that he was not in hearty
sympathy with. Canadians every-
where will regret that continued ill
health has now compelled him to re-
sign his seat in Parliament. There is
room in the public life of this country
for more men with the courage of
their convictions.

What Do You Know About It?

That's what a customer asked me recently about a patent med-
icine I had sold for years, and I was forced to admit that in real-
ity I knew nothing more than what appeared on the label, wrap-
per and advertising.
Some of the claims made were so extravagant that of course I
could not take them seriously, but I concluded I had better find
a line of remedies I did know something about.

in them I wouldn't recommend them to you.

TRAVEL TALK

From the Gloucester Northern Light) The Masonic Hall, Bathurst, contained a good audience last Monday evening when Rev. T. P. Drumm, B. D., of Campbellton, delighted his hearers with a very interesting lecture, or as he called it, a "Travel Talk". Mr. Drumm took his hearers with him on a trip from St. John to Victoria, B. C., and made every stage of the journey very entertaining. The views which he used to illustrate the different points of interest were very fine, and the evening was much enjoyed by those fortunate enough to be present.

WRECKED ON I. C. R.

Moncton, March 3.—A freight special, north bound, was wrecked about 20 miles north of Moncton this morning at 7 o'clock. The locomotive and six cars left the track. The wrecking crew was called from Rogersville, where they were working clearing the wreckage of the Maritime express of Sunday last.

VICTORIA COURT

With Mr. Justice Barry presiding, the March sitting of the Victoria Circuit court opened at Andover on Tuesday. Of the criminal cases, no bill was found by the grand jury in the Owens rape case. This action came as something of a relief to the bondsmen, as the defendant did not put in an appearance. A true bill was found in the case of Carl Hansson, charged with setting fire to C. L. Olmstead's camp in the woods. The prisoner is 74 years of age, and undefended.

BOTHERED BY STORM

Wire troubles near Montreal occasioned a temporary break in telegraphic communication with that city by the C. P. R. Tuesday afternoon. The damage was repaired in a few hours. DRINK HABIT

Dr. Richardson, Leading Alcohol Expert of the World, Says It Can Be Cured In Three Days

Dr. Richardson, in his Treatise on the Liquor Habit, says: "While the oldest methods for the Liquor Habit took one to three months or more, and were not satisfactory, the Gallia is a scientific treatment which accomplishes this result in just three days. This is harmless, as even a child can take it, and there is not even one case on record where it has failed to cure. They have 67 institutes and have effected over 100,000 cures."

Not only to the poisonous alcohol taken from the system, and an abstinence given for all strong drink, but health and strength are soon restored, nerves steadied, sleep and appetite regained, and a man becomes master of himself.

The Gallia Institute has nothing whatever to do with any other Cure for the Liquor Habit, whether 3 Day Cure or longer period, whatever.

ADVICE ABOUT FOXES

The silver fox industry is not new nor of mushroom growth. It has been carried on successfully on a pelt basis for thirty years, although only within the last three years has it attracted public attention outside of those directly interested in breeding purposes. Now, almost everybody who is anybody, financially, politically, officially or commercially, is engaged in, or has investments in, fox breeding. The Lieut. Governor is president of a fox company and an investor in a number of others. Every member of the Government is connected with the industry as president, director, or ordinary shareholder in corporate companies. The Leader of the Opposition is president of a fox company; our Senators and members of Parliament are large investors or directors in one or other of them. Nearly all the professional men are interested in, and almost without exception the principal commercial houses are connected with the industry. It is estimated that at least 85 per cent. of the total investment in the silver fox business is Island money, and that without depleting the savings locked up in the banks. Enquiries at the joint-stock banks in the Island bring us the satisfactory information that at present, there is more money on deposit than there was a year ago, while the Dominion Savings Bank, in which something over two million dollars was on deposit a year ago, has since had withdrawals of but \$300,000 in excess of deposits. Money is coming back into the banks as dividends of fox companies are being paid. In no other community in Canada with a population mainly of farmers is there so large a volume of deposits in proportion to population as in Prince Edward Island today.

The silver fox industry has in no way "tied up" financially. While all over Canada trade and commerce has suffered a certain amount of depression as a result of the tight money market, the Island has been happily free from such experience. The reason is obvious. The fox industry is practically a cash industry. The share capital has been subscribed in

BLACK CAPE

(Held over from last week)

We have had some very cold and stormy weather since the first of the month. The thermometer has registered at 32 below zero for a day or two, but often it was from 20 to 25 below.

The Quebec Oriental Railway trains has had quite a time to keep the road open for the last two weeks, but there is no doubt that Mr. E. R. Scoles, the popular manager has been doing his best to get the trains through without too much delay, but, however, we notice that there is now a daily mail.

Mrs. David Steele and her sister, Miss Wave Fairservice, have gone on an extended visit to Washington.

Miss Clara Campbell who has been spending some time visiting her home here, has returned to Hartford, Conn., to take up her duties as nurse.

Miss Jennie Campbell, our popular teacher, has returned from a trip to Campbellton.

Misses Ina and Bessie McLellan, Renie McNair, Bessie Burton, Ruth Campbell and Master Evan Johnston, who are attending the high school in New Richmond, spent Sunday at their homes in Black Cape.

The many friends of Mr. William Campbell will regret to learn that he is confined to the house with a very sore foot.

We regret to learn that Mr. Philip McLellan who has been in Ontario for some time, is very ill in the hospital there, but we hope for a speedy recovery.

Specialist Could Not Remove Stone in The Bladder

GIN PILLS PASSED IT

JOLISTY, P. O.

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the Bladder.

He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try GIN PILLS.

They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take GIN PILLS, and to my great surprise and joy, I passed the stone.

GIN PILLS are the best medicine in the world and because they did me so much good, I will recommend them to all the rest of my life."

HUGH A. CARR, Agent, Campbellton, N. B.

We are asked if the industry is so profitable why it has not received the official stamp of approval of the Board of Trade, or the Provincial Government? Perhaps the Board of Trade could have done more in endorsing the bona fides of the industry, but certainly the Provincial Government could hardly stamp it more officially and effectively than by taxing the profits which it has done to the tune of \$3,700,000 for the present year.

This constitutes the substance of the replies we have had to make to private enquiries, and we may as well make it public. We have always added, and desire to do so now, that there is an element of risk in the industry, as young stock may die; but what industry is without its risk? There is little chance of an epidemic, as has been suggested to us more than once; but to make assurance doubly sure it might be as well for the Government to extend their veterinary inspection system to include periodic inspection of all registered ranches.

Makes Hair Grow

All drug stores sell SALVIA, and it is guaranteed to grow hair or money back.

The time to take care of your hair is when you have hair to take care of. If your hair is getting thin, gradually falling out, it cannot be long before the spot appears.

The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.

And remember, it destroys the Dandruff germ, the little pest that saps the life that should go to the hair from the roots.

SALVIA is sold by first-class druggists under a positive guarantee to cure Dandruff, stop falling hair and itching scalp in ten days, or money back. A large bottle costs 50c. The word "SALVIA" on every bottle. Sold at Whites Drug store.

NEW BRUNSWICK NAMES

(American Lumberman).

R. E. MacLean, secretary and treasurer of the I. Stephenson Company, Wells, Mich., forwards a classic of the Maine woods, "Sweet Maiden of Quoddy", written by Prof. DeMill, which had been sent him by a prominent clergyman in St. John, N. B. It is published here as a piece of literature worthy of preservation:—

SWEET MAIDEN OF QUODDY.
Sweet maiden of Passamaquoddy,
Shall we seek for communion of souls
Where the deep Mississippi meanders
Or the distant Saskatchewan rolls.
Ah, no! In New Brunswick we'll find it;
A sweetly sequestered nook,
Where the sweet gliding Skoodawabkooksis
Unites with the Skoodawabkook.

Moduxnakik's waters are bluer;
Nepisiguit's pools are more black;
More green is the bright Orontoc,
And browner the Petitediac.
But colors more radiant in autumn
I see when I'm casting my hook
In the waves of the Skoodawabkooksis
Or perhaps in the Skoodawabkook.

Let others sing loudly of Saco,
Of Passadumkeag or Miscouche,
Of Kennebecasis or Quaco,
Of Miramichi or Butouche;
Or boast of the Tobique or Mispec,
The Musquash or dark Memramcook;
There's none like the Skoodawabkooksis,
Excepting the Skoodawabkook.

Thing not though the Magaogadavic
Or Bocabec pleases the eye;
Though Cheputneticook is lovely,
That to the notice of we will fly.
No! when in love's union we're plight-ed,
We'll build our log house by a brook
Which flows to the Skoodawabkooksis
Where it joins with the Skoodawabkook.

Then never of Waweg or Chamkook
I'll think. Having you in my arms,
We'll seek not of Digdegush beauties;
We'll care not for Popelogan's charms.
But as emblems of union forever
Upon two fair rivers we'll look,
While you'll be the Skoodawabkooksis
I'll be the Skoodawabkook.

FARM SCHOOLS FOR NEW BRUNSWICK

Mr. Robert Newton of McDonald College Will be in Charge of New Departure

Until recently the government of New Brunswick has done little in the way of providing agricultural education for its farming population. Now, however, there are hopes that the policy being organized and put into effect will eventually place New Brunswick in the front rank as regards matters agricultural.

The general direction of this work has been given to Mr. Robt. Newton, a graduate of Macdonald College, who for the past year has been Chief Assistant in the Cereal Division at the Central Experimental Farm, Ottawa.

The present plan is to establish three centres in the province, at two of which courses of a few weeks duration will be held each winter, and at the third a longer course will be developed. Woodstock has been selected as the location for the main school, and from there the whole system will be directed. A substantial building is now being completed there, and later land will be purchased for experimental purposes.

The work conducted at the three special centres will be supplemented by short courses held in various districts, by farmers' meetings. "Better Farming Specials", and other field demonstration work. Co-operation will be a special feature, and every encouragement and assistance will be given to farmers in their efforts to organize and work along co-operative lines.

Operations will commence with a short course at Woodstock during the first three weeks of March.

In addition to the general direction of the whole work, Mr. Newton will personally take charge of the work in field crops.

Possibly no student has left Macdonald College with the enviable re-

putation Mr. Newton did. He was never beaten in examinations, and in addition to this is an agricultural enthusiast. With his experience in district representative work at Shawville, Que., and his field crop work under Prof. Clinck at Macdonald, and Dr. Saunders in Ottawa, he is well able to take hold of his new duties in New Brunswick.

MARITIME RUN-OFF NEAR ROGERSVILLE

Passengers Rudely Awakened From
Slumbers Have Narrow Escape
Saturday Evening

(Moncton Times)

The passengers and trainmen on No. 33, the Maritime Express, going north on Saturday evening, had a narrow escape from receiving serious and perhaps fatal injuries as the result of the tender of the engine and the rest of the train leaving the rails and tearing up the tracks for a distance of about five hundred feet. The accident occurred at a place called Lakeland, which is a short distance west of Rogersville, and the line was blocked for nearly twelve hours. The tender and every car of the train left the rails, the two Pullman cars toppling over on their sides, while the first class car was turned square across the track. The second class car, the baggage, mail and express cars left the rails, but remained upright.

The passengers who were travelling in the Pullman cars were rudely awakened from their slumbers, and it is certainly miraculous how some of them escaped being injured. Not a passenger or a member of the train crew was injured to any extent, although all received quite a bad shaking up. The windows in the Pullman and first class were nearly all broken, and some of the seats were also broken.

The train was in charge of Conductor William Crockett of this city, with Driver George Anderson, also of Moncton, at the throttle. There is no agent at Lakeland, and the Conductor and Superintendent Fitzmaurice, who was a passenger on the derailed express, had to walk to Barnaby River, about six miles from where the run-off occurred, to acquaint the dispatchers of the wreck and ask for help. In the meantime the train was lost to the dispatchers, along the line, and there was much concern until the true facts of the case were learned. Finally the operator at Barnaby River got into communication with Newcastle, and an auxiliary train with the wrecking crane was ordered out from Moncton.

A train was also sent out from Chat, ham to the scene, which took the passengers and baggage to Chatham Junction, where a special from Newcastle took the passengers as far north as Nepisiguit Junction, where they were met by another special which continued north as the Maritime express.

The auxiliary and the crane were successful in getting the line cleared up about half past eleven Sunday morning traffic on the northern division between Moncton and Campbellton being practically at a standstill. It was not deemed advisable to right the overturned Pullman cars with one crane as the cars might break, and consequently another I. C. R. crane at River du Loup has been ordered and is now on the way to the scene of the runoff.

The accident, it is believed, was caused by a broken bar on the tender dropping down and opening up the switch, throwing the tender and the rest of the train off the track. The I. C. R. will hold an investigation as to the cause.

An immigrant special which arrived in the city yesterday morning from Halifax at ten minutes to four o'clock, was held here until ten o'clock on account of the line being blocked.

You judge a man not by what he promises to do by what he has done. That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all dealers.

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all dealers.

PORT DANIEL
(Held over from last week)

The local Lodge of Good Templars held a largely attended meeting on Wednesday, 18th, in I. O. G. T. Hall.

It was decided to hold the meeting on Tuesday evening during Lent. Among other items of business, the question of finishing the interior of the Hall, was thoroughly discussed, and trustees given authority to proceed with the work. No doubt next, Tuesday the members will find the Hall not only vastly improved in appearance, but much warmer as well.

Experiments in the use of asphalt popular for shingles show that the shingles do not check in seasoning, and that they turn water satisfactorily, but they are too easily broken in handling.

FOUR DEATHS OF RETIRED MEMBERS

Reported by Railway Employees Relief and Insurance Association in February.

A feature of the report of Secretary Paver of the Intercolonial and P. E. I. Railway Employees' Insurance Association, for the month ended Feb. 28th, is the comparatively high fatality among the retired members; four of the seven deaths reported being of this class. The death list is as follows:

John F. Anderson, retired member, Moncton, cerebral hemorrhage, insured for \$250.

Edwin Thomson, retired employee, Moncton, arterio sclerosis, insured for \$500.

Joseph H. Moore, retired employee, Moncton, old age, insured for \$1000.

Joseph McGuigan, engineer, Moncton, arterio sclerosis, \$250.

Joseph Labrie, locomotive wiper, Levis, typhoid fever, insured for \$250.

Allan McInnis, retired employee, P. E. I., cancer, insured for \$250.

Joseph F. Arseneau, section foreman, Campbellton, accident, insured for \$250.

The fees and levies are \$1.50 in class A, \$1.10 in class B, and .75 cents in class C. The number insured was 730 in Class A, 256 in Class B, and 4925 in Class C, a total of 5910 as compared with 5705 in December last. This indicates that the number of employees is steadily increasing.

DIED AT BATHURST

Mr. W. R. Murray, of the Bank of Montreal, Bathurst, died on Wednesday last. Mr. Murray had been ill for some time with an affection of the heart, but had returned to his duties at the bank, and was apparently well on the road to recovery, when he was taken with a severe attack of pneumonia, from which he was unable to rally. His remains were taken to his former home in Yarmouth on Thursday.

\$3.00 THE EVERYMAN ENCYCLOPAEDIA \$3.00
IN TWELVE VOLUMES

In producing this work, the Publishers have been influenced by a desire to add to the Reference Section of "Everyman's Library" a work which shall be specially adapted for the use of those readers, particular attention having been paid to literary subjects and historical data. All new and recent developments in Science, Arts, and Industries, together with those of Politics and all other branches of thought and action, are fully described in its pages.

The work will be published in Twelve Volumes, of about 640 pages each. The type has been specially arranged so that each page will contain about 900 words, and yet be clear and legible.

The format is unusual with that of "EVERYMAN'S LIBRARY," but the paper is especially opaque, and of a pure colour, which will have the effect of making the comparatively small type unusually clear.

This fine Encyclopaedia is just off the press, and is not a cheap reprint American edition as offered by other papers, but a genuine up-to-date work from the well known English publishing house of J. M. Dent & Co., London. We are offering a limited number to paid in advance Graphic subscribers at

The Sable Lorcha

By Horace Hazelton.

A white man would either have in-
stated, or apologized, but the yellow
man has a way of his own. Yip Sing
remained silent until I had finished.
But whether or not he heard me was
manifested neither by word nor sign.
Without change of facial expression or
alteration of tone, he placidly proceed-
ed, choosing his phrases with infinite
care and rounding his periods with a
facility that for an Asiatic was little
short of marvelous. Had he been
any one else in the world I should
have admired him. As it was, his cle-
verness only added to my aversion.

"There is a story," he went on, "a
true story familiar to all Chinamen;
to some Chinamen especially it is a
very bitter, a very pathetic story, be-
cause it has to do with the passing of
their kinsmen—their fathers, their
brothers, and their sons. Death some-
times is glorious, as we all know. To
die for one's country, or for one's hon-
or, is to be privileged. To die of pes-
tilence or famine is deplorable. But
to die by treachery is to leave a poor
legacy to those who follow—a legacy
of unrest until vengeance has been
wrought."

He paused for just a moment and I
moved impatiently. But if I thought
to disconcert him by my action I was
not rewarded.

"It is possible, Mr. Clyde," he con-
tinued, "that you are familiar with the
history of the trade in coolies be-
tween your country and mine?"

I nodded. "Yes," I answered, "pas-
sably familiar. I know that at one time
it was black with outrages. I know
that in 1832 a Chinese exclusion act
was passed, and that in 1832 the Geary
law followed."

He paused for just a moment, per-
haps, that in spite of your laws, the smug-
gling of Chinamen—of Chinese labor-
ers—into this country, has been al-
most continuously practiced?"

"It is quite possible, I dare say. I
do not know the facts, however."

"The facts in a general way are not
material," Yip Sing assured me. "I
shall inform you of a single, specific
case. Sixteen years ago there ap-
peared in Canton, a white man, self-
proclaimed a Scotchman, calling himself
Donald McNish, and representing, ac-
cording to his own statement, certain
large American interests. Through a
native agent he became known that
McNish was in search of coolies. Very
soon, circulars appeared throughout
the district, worded somewhat after
this fashion: 'To the countrymen of
Ah Shoo. Laborers are wanted in the
land of California. Great works to be
done there, good houses, plenty food.
You will get \$20 a month and good
treatment. Passage money required,
\$45. I will lend the money on good
security, but I cannot take your wife
and child in pay. Come to Canton,
and I will care for you until the ship
sails. The ship is good.' The circular
was signed by Ah Shoo, the agent. In
response to it, exactly ninety-seven of
my countrymen, having left good se-
curity for the required passage money,
were led stealthily aboard a small
coasting vessel one night, and the ves-
sel slipped quietly down the Chu-Kiang
to the open sea, with McNish and him-
self at the helm, and a Eurasian named
John Woo, in the galley."

The Vice Consul was now consult-
ing a slip of paper bearing, as I could
see, certain Chinese characters.

"If I am in error," said Yip Sing,
addressing the Consul, "I pray you
to correct me." Wherever Mr. Chen
Mok smiled reassuringly.

"You are in all particulars accu-
rate," he announced; and the Mott
street merchant, thus encouraged, pro-
ceeded.

The vessel, you understand, Mr.
Clyde, was a lorcha. It was not so large
as a junk and it differed in other re-
spects as well. It—

"I think I have seen a rude, but
more or less effective representation of
it," I interrupted.

"I know to what you refer," was the
speaker's rejoinder. "But that was
more or less conventional. As I told
you, every child draws boats like that.
However, the lorcha was to be used
merely to convey the passengers to
McNish's steamship, which had al-
ready cleared from Hong Kong, and
which waited off the coast well out of
sight of prying cruisers. Such, at
least, was the explanation. Whether
McNish ever had a steamship is a
matter for conjecture. Whether a
United States cruiser of the Pacific
Squadron, having received a hint as
to his purpose, bore down upon him,
as has been said, is likewise open to
question. But of the truth of the in-
cidents which followed there can be no
dispute."

He hesitated long enough for the
Vice Consul to echo: "No dispute,
whatever, Mr. Clyde," and continued:
"On the second morning after leav-
ing Canton, an hour after dawn, when
he at least pretended to see the cruiser
in full chase, he ordered his passen-
gers below, declaring that their safety
depended upon their keeping out of
sight. No sooner, however, were they
below decks than he battened down
the hatches, and imprisoned the cook
in his galley. A white fog prevailed
and the sea was very calm, both of
which were conditions favorable to

Large Number of Men are Now Employed Removing Snow From the Streets

New York, March 3.—New York be-
gan to-day to dig itself out of the
snow. The weather is fair and the
temperature is rising with warmer
days in prospect, according to weath-
er bureau announcements, to aid the
army of snow shovellers at work in
the streets and on the railways in the
storm area. With a foot of ice and
snow packed hard upon the heavy
coating of snow left by the two pre-
vious storms, the city to-day is assum-
ing something like normal conditions,
after sixteen hours of blizzard weath-
er. The removal of snow from streets
and sidewalks is the chief occupation
of practically every person not other-
wise employed.

It was estimated that in New York
and vicinity, including the employees
of the railroads, that an army of 50,
000 men is engaged in raising the
snow embargo.

Street car and railroad traffic im-
proved today. All trunk lines with
terminals in New York, Jersey City
and Hoboken and Weehawken began
moving trains to distant points for the
first time in two days and hundreds of
passengers marooned in stations, re-
sumed their journeys.

Mails that have accumulated, be-
cause of the traffic tied-up, began mov-
ing and local telephone service, which
was interrupted and in some cases
suspended, was almost normal.

With the resumption of railway
traffic, the threatened milk and meat
famines passed away. It was believed
that the supply of coal would be
sufficient because of the warmer weath-
er. Difficulty in moving coal result-
ed in much suffering during the past
several days, especially among the
poorer classes. Inability to make de-
livery also created a shortage of beef.
This condition was not expected to
continue long today.

The storm caused much trouble to
shipping, the harbor being filled with
ice, while the almost constant high
winds menaced all vessels. Inbound
liners, which had been waiting in the
outer harbor ventured into port yester-
day, and today. Off Fire Island yes-
terday, eight barges laden with coal,
were cast adrift by tugs towing them.
Each barge has four men aboard and
it was feared that they would drag
anchor and be dashed to pieces on the
shoals.

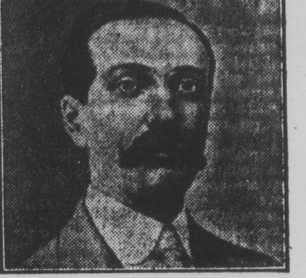

The tugs are standing by to pick up
the barges as soon as weather moder-
ates sufficiently.

The loss to business, railroads and
the cost to the city and public and
private corporations and companies
for snow removal, will run into the
millions.

Wire communication with points
south and west, while far from nor-
mal, was improved to-day.

LIFE THREATENED BY KIDNEY DISEASE

His Health in A Terrible State Until He Took "Fruit-a-Lives"

B. A. KELLY, Esq.

HAGERSTOWN, ONT., Aug. 26th, 1913.

"About two years ago, I found my
health in a very bad state. My kidneys
were not doing their work, and I was all
run down in condition. I felt the need
of some good remedy, and having seen
"Fruit-a-Lives" advertised, I decided to
try them. Their effect I found more
than satisfactory. Their action was mild
and the result all that could be expected.
"My kidneys resumed their normal

dozen boxes and I regained my old-time
vitality. Today, I am as well as ever,
the best health I have ever had."

FREIGHT DITCHED AT RIVIERE DU LOUP

Train went badly Off the Track
But no One Was Seriously Injured

Early Monday morning, No. 76, east-
bound fast freight jumped the track
near Riviere du Loup, Quebec, tearing
up the track and badly ditching a large
portion of the train. Fortunately so
far as can be learned, no one was in-
jured in the run-off.

The accident occurred before No. 34
Maritime Express came along and that
train is now stuck on the other side of
the wreck and is likely to remain there
until the wreckage is cleared away.
The Maritime east of Moncton was
cancelled this morning, and the local
business handled by No. 2 express.

BIG BLAZE AT THE INTERNATIONAL STATION

Last evening an alarm was rung in from the I. N. R. station, calling the brigade to a blaze in the oil shed, situated on the south side of the track. The brigade were prompt on the scene and succeeded in extinguishing the flames, but not before the shed and contents were totally destroyed. The loss which will be considerable, is covered by insurance.
