THE ACADIANS.

Thousands Meet at Caraquet This Week.

ANNUAL CONVENTION.

Speeches by Dr. Comeau, Senator Poirier, Judge Landry and Others.

Caraquet, N. B., Aug 15.—Caraquet is joyous and in gala attire today because we have here the annual gathering of the Acadian brethren from various parts of New Brunswick, from all parts of Canada and from the United States. Excursion trains have been bringing them back to us for a welcome hand shake and a talk over other days and to gather and discuss matters of importance. The first day of the convention is a decided success and tomorrow promises to be even better.

The first excursion train to the Acadian convention arrived here this morning at 9 15 bringing about 300 people from the lower part of the maritime provinces. There is fine but windy weather.

Delegates and visitors immediately proceeded to the Sacred Heart College kept by the Eudist Fathers, at the rear of the college on the campus. A large altar had been constructed for the occasion, and in the presence of about 6,000 people mass was sung, Mgr. Richard acting as celebrant and Rev. Fathers A. D. Cormier and P. P. Arseneau respectively as deacon and sub-deacon.

After the Gospel, Father Le-Bastard, president of the Caraquet College, wished all a hearty welcome and thanked the delegates for having chosen Caraquet as the place where they would hold their fifth congress.

After communion Rev. Father J. R. Doucet preached a very able and eloquent sermon.

P. J. Veniot, collector of customs at Bathurst, has done much for the success of the gathering. He is the secretary of the transportation committee of the Acadian convention and as such had a very heavy task in completing all the arrangements with the railway and steamboat companies but had done it well.

Mr. Veniot has also been chosen by the executive committee to treat the question of the French language in the primary schools of the maritime provinces. This is considered the most important question before the convention, and it is the first time that it has been publicly discussed in the provinces.

At 2 o'clock in the presence of an immense crowd which had assembled on the campus of the Sacred Heart College, Dr. F. X. Comeau

made the opening address. Reviewing the work done since the last meeting, held at Arichat five years ago, he said he was glad to see that the Acadians were gaining ground in the hierarchy of the Catholic church and he was also glad to note the patriotism that was so well developed in the hearts of the Acadian people.

BURGLARIES.

Bonaventure County Terrorized Last Week.

TWO ARRESTS MADE.

Preliminary Trial at Cross Point on Tuesday—Both sent up for Trial.

Last week the Citizens of Bonaventure County were very much alarmed by the wild escapades and burglaries committed by two men travelling up and down the county from Pt. la Garde to Carleton. On Friday morning Charles O'Connor of Pt. la Garde missed a horse and wagon. All efforts to trace the missing rig were unsuccessful until later on in the day word was received from Nouvelle that the horse had been left at John Days', Nouvelle. The miscreants had exchanged O'Connor's horse for a new one and drove on to Carleton, where it was learned that the station of the A. & L. S. Railway had been broken into and drawers and desks rifled in a vain attempt to secure some cash. Bijou's store was also burglarized about \$10 or \$12 being taken from the till and a small quantity of goods. Some of the villagers had seen a couple of suspicious looking characters tramping about carrying a rifle and revolvers and by this time the whole country was becoming greatly alarmed. It was learned that the couple had gone into the Sandy Bay road and Mr. Day started in pursuit single handed in search of his horse, which he found in a very jammed condition.

The couple were next seen at Escuminac on Saturday evening and a number of the boys started in pursuit and passed them on the railway track, but in the meantime they had been disfigured sufficiently to put their pursuers off their guard, and thus escaped again. On Sunday afternoon they appeared at Point la Garde and a large posse were immediately on their trail, but again the fellows efficiently hid themselves in the woods.

Special constables Finley McKenzie and Chas. Kerr of Escuminac kept up the search, however, and on Monday morning they located their game just above Oak Bay Station. They were taken to Cross Point and lodged in the lock-up.

One of the men is a native of Bonaventure County, Astels by name, while the other man is an English sailor, giving his name as Peter Stewart.

The trial took place at Cross Point on Tuesday before Justices Doherty and Busted. Astels denied the charge of horse-stealing, while his companion pleaded guilty to all charges, and apparently glorified in his notoriety. They were sent to New Carlisle yesterday to await trial before the Supreme Court.

It is probable that these are the persons who burglarized Reid's and Hamilton's stores at Charlo last week, for they crossed from Dalhousie in a boat shortly afterwards. Besides those above mentioned several petty depredations were committed, such as the breaking of locks on barn doors, water tanks etc. A rifle and several boats were also stolen.

made the opening address. Reviewing the work done since the last meeting, held at Arichat five years ago, he said he was glad to see that the Acadians were gaining ground in the hierarchy of the Catholic church and he was also glad to note the patriotism that was so well developed in the hearts of the Acadian people.

DROWNING ACCIDENT

Alex LeBlanc and Peter Mercier meet Death

BOAT CAPSIZED

In the Terrible Squall Which Struck this Vicinity Saturday Evening.

Dalhousie, Aug 13.—Gloom was cast over Dalhousie on Saturday evening by the drowning of two of its best known young men in the harbor. Alexander LeBlanc, Peter Mercier and Henry Arsenault went for a sail in the harbor. When about half a mile from the shore a terrible squall broke out with rain and the boat capsized and sank. Arsenault, who could swim, held out and was saved. Mercier, who was 17 years of age and LeBlanc, who was 23, were drowned. The latter was to have been married in a few weeks to a popular young girl here. The whole community sympathizes with the bereaved. The bodies have not yet been recovered. During the squall another boat containing two lady visitors and a gentleman from Quebec, in charge a Norwegian captain, had a narrow escape. Their boat was filling when they were picked up by the crew of the dredger St. Lawrence. It was returning from the ballas ground. The body of Alex LeBlanc was recovered on Tuesday.

LICENSE CASE

Will Be Tried By The Supreme Court en banc.

In the ex parte case of Herbert E. Thomas, Chief Justice Tuck recently granted a rule nisi to quash all the liquor licenses in Campbellton. Since that he has discharged the rule. W. A. Mutt made an application asking his lordship to make an entry directing the entry of the case on the crown paper at the Michaelmas term. This application was granted, and the case will be tried by the supreme court en banc.—Sun.

OBITUARY

Chatham Head has lost its pioneer resident in the death of Capt. John Brown.

Capt. Brown as he was familiarly called was a hale and hearty old man, able to do the chores about the house until about two months ago when he was taken ill. He died Saturday aged 96 years.—Advocate.

GREAT FISHING

Two Americans Proud and Happy

MADE THE RECORD

Forty-two Salmon and one Grilse in Three Weeks.

There is an attested fish story that comes from the north, says the Telegraph of the 15th. John Porteous, of Norwich (Ct.) and Charles Brown—"C. B."—of New York, arrived yesterday from the Restigouche, where they have been enjoying a three week's paradise about the salmon ponds and streams owned by Fred W. Ayer, of Bangor (Me.), and Archibald Mitchell, of Norwich.

The camp is on the Restigouche just above the Metapedia. Mr. Brown exhibited a piece of paper that recorded thirty-nine salmon and twelve grilse as his own catch, and forty-two salmon and ten grilse for his friend, Mr. Porteous. The latter is the record for the camp. There were ten in the party and the aggregate is 221 salmon and twenty-eight grilse, a total of 3,105 1/2 lbs. of fish. Many of the others fished only a portion of the time.

One day, says "C. B.", His Lordship Bishop Dunn, of Quebec, was received into camp and dined with two fellow clergymen—Rev. Mr. Coleman and Rev. Mr. Roy. The Bishop was surprised that day when he saw Mr. Brown's boatmen bring home his three salmon and one grilse from the forenoon's fishing.

Mr. Brown has traveled over all Europe and pried into every nook of Scotland, but says he has never seen a more wonderful view than that from the top of Morrisey Rock, looking down the Restigouche, seven miles above Campbellton.

One day they say, tired of taking the bigger fish, they took their fishing rods and went toward Campbellton. There are fifty-two trout marked down for that day's trip.

This morning these two happy fishermen will leave for home "after an extraordinarily delightful time," though they have been there before.

Her skin was yellow

"I had only to try Dr. Hamilton's Pills to appreciate their merit," writes Miss Annie S. Bryce, of Woodstock. "My system was out of order. My blood was weak and thin. I had a nasty, unhealthy complexion. My skin was hard and dry. The first box of Dr. Hamilton's Pills made a complete change. I felt better at once. Healthy color came into my face. In about three weeks I was cured." Dr. Hamilton's Pills effect an easy cure. Try these good pills, 25c per box, or five boxes for \$1.00, at all dealers.

G. T. PACIFIC.

Will Compete with C. P. R.
Develops a Splendid Section of North West.

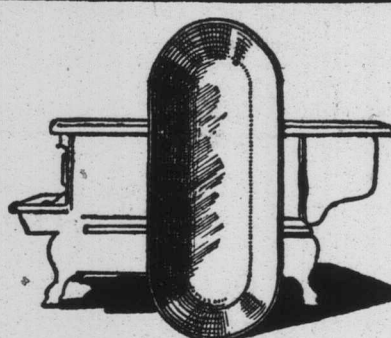

Ottawa, Aug. 12.—It has already been announced that the Governor-in-Council has approved the location plans of the G. T. P. Company for the line Westward from Portage laPrairie towards Edmonton to the extent of 275 miles, and that tenders will at once be called for. Some criticism of the plans has been heard inasmuch as the line is said for a considerable distance to parallel the Canadian Pacific. Whilst this may be the case, it appears on examination that the proposed line opens up new country between that traversed by the C. P. R. and the C. N. R., and will provide railway facilities for territory untouched by any railway, unless in some cases by branch lines, and to which homesteaders are flocking by the thousand. The line as located will also redeem the pledges of the Government which will be a great boon to the public regarding transportation and rates, and tend to reduce the congestion annually experienced when the crop begins to move to the seaboard. To give Manitoba these additional railway facilities, in so far as can be seen, is a wise move, whereas it would have been a great mistake to have located the line away North, where for some time there will be any great rush of traffic, and where relief by competition is not so much needed. Later on as the northern portion of the country fills up, other lines will no doubt be projected and the farmers will hope to find additional connections between the East and West not opposed but encouraged by the G. T. P. and the Canadian Northern Companies. It is understood that the G. T. P. will build into Brandon by means of a spur from the line about eight to ten miles long.

NEEDS OF THE COUNTRY.
What is wanted in this country, and especially in the Northwest, is all the transportation facilities the producers can get, as this is the one great problem to be settled. In Ontario the Canadian Pacific parallels the G. T. P. lines in every direction, reaching into all the important countries, and thus giving healthy competition for the benefit of the public. The policy of the G. T. P. Company has been to accept the situation in a philosophical manner, and not to oppose any charters applied for, even if opening up direct competition with their own lines. This is as it should be, and no doubt the same policy will dominate the C. P. R. in the Northwest, where it is sure to say the action of the Government in the location of the main line will be fully endorsed.

Wolves In Kent Co.

Wolves, which have been practically extinct in this section of the province for many years, have made their appearance here, says Richibucto Review. One evening last week, while Mr. Samuel Morton, of West Galloway, was passing through that portion of Galloway, known as the back settlement, he came upon three full grown wolves and a number of young ones. On discovering him, the old wolves retired to the woods with the young ones, and leaving them there, came back alone. They then circled around Mr. Morton for some time, howling wildly, and finally took again to the woods. It is supposed the wolves are following the deer, which are every year becoming more numerous, into the country; and if this is so, unless some steps are taken towards exterminating the wolves, the deer will soon be as scarce as they formerly were.

The Pandora Reservoir

The Pandora is the only range with a reservoir stamped in one single piece of steel and enamelled. It is the only reservoir without seams, rivets or places to catch dirt. It has no sharp angles. All angles are made with rounding curves, and the whole reservoir is beautifully enamelled.

McClary's are the only range makers in Canada with a plant for making enamelled steel reservoirs, and that is why the Pandora is the only range that has a one-piece reservoir.

DROWNED.

Chas Lord of Carleton Loses his life in St John River.

Sucked down to death in the swirling water between Suspension and Cantiver bridges, Charles Lord of Carleton was drowned about 6.30 o'clock last evening, while Harding Humphrey, also of West End, battled for life, and with success. It was life dearly retained, however, for his experience was such as few have gone through and lived.

The tragedy, the heroic struggle for life and the grand work of rescuers all while the seething waters swirled and tossed and roared—made a chapter of life such as none who watched from the Suspension bridge or river banks could have ever expected.

Lord and Humphrey upset from their boat. Lord sank and drowned, Humphrey aided by an oar, battled for life and to H. J. Fleming, Theo. Cushing, Capt. Granville, and four men from the schooner Manuel B. Cruz, and his own fine strength and spirit owes it that he is alive to-day. But he did not forget his companion. Humphrey could swim, Lord could not, and when the disaster came upon them Humphrey gallantly told his friend to cling to him. He did so for a time but the waters were too strong for his hold and he was swept away to death.

The whole sad affair was seen by many who had come to enjoy from the rustic seats between the bridges a look at the falls in the quiet of a summer evening.

The usual crowds on the bridge were getting away to their homes after the end of their day of toil or were hurrying to Seaside Park for the evening, but all, or nearly all, were alike unable to lend a hand in aid.—Telegraph, 8th

STATE OF REBELLION.

Whole District in Poland are up in Arms.

Warsaw, Aug. 10.—The police were busy this afternoon filling the jails with Jewish Socialists. They captured 250 armed with revolvers and daggers in a synagogue on Nowolipie street. Fifteen others were arrested by a patrol on Francis Skausia street, after an exchange of shots. A bomb was discovered in a street this morning and three policeman were shot. There were also disturbances in surrounding districts. Gangs of Revolutionists armed with revolvers and bombs attacked the Government of Treasuries in the three district towns of Opatow, Lubartow and Wengrow, resulting in a stiff fight with the police, several of whom were killed or wounded. Peasants destroyed the palace of Count Krasinski at Tykocin, near Byelostok.

\$200,000 FIRE.

Donald Fraser & Sons Great Mill Property Destroyed.

Fredericton, N. B., Aug. 11.—The most destructive fire which Fredericton has seen in half a century broke out at 5 o'clock this evening, destroying the Aberdeen mill, owned by Donald Fraser & Sons, and 10,000,000 feet of lumber, entailing a loss of \$200,000.

The mill was running full blast when the fire broke out and so sudden and unexpected was the onslaught of the flames that the hundred and odd employees had barely time to escape with their lives. They had to jump and run for it and quite a number lost their coats and waistcoats which were hanging on pegs on the wall.

The fire is supposed to have been caused by a hot box on a piece of shaffing in the basement and was not noticed until a sheet of flame shot through an opening to the floor above, where the men were at work.

The interior of the building being very dry and saturated with oil the flames went through it like a flash of lightning and in less time than it takes to tell it, the place was a mass of roaring flames.

Numerous casks of water were stored about the interior but the men had no time to reach them before the flames got in their work.

In less than fifteen minutes after the fire broke out the roof of the buildings fell in.

The mill was located at the end of the city on the bank of the river and was not equipped with fire-fighting apparatus. The city water pipes extend only to old government house, half a mile below, so there was practically no means of checking the flames.

The firemen were early on the scene in response to an alarm and laid a line of hose from the nearest hydrant at government house gate. As they had only a four inch main to work from, they were not able to cope with the flames to any great extent.

Just below the mill is a lumber yard covering about three acres, in which was piled an enormous quantity of spruce boards, scantlings and cedar shingles and through this the fire made a clean sweep.

The fire spread from the mill to the large warehouse in which was stored about \$55,000 worth of box shooks. The firemen played on this building for some time with a single stream of hose until driven away by the intense heat.

After consuming the warehouse the fire spread to the lumber piles between the river bank and Government Lane and raged unchecked among them for hours.

The mill employees worked with teams carting lumber away and hundreds of citizens took hold and helped them but little could be done to check the progress of the fire fiend. A stiff southwest breeze prevailed and sent showers of sparks high in the air, but fortunately they all lighted in the river without doing any damage.

The steam fire engine owned by the city was brought from Morrison's mill and after some delay was set to work on the bank of the river. A line of hose from it was laid to the large building used as a boarding house and office, and thanks to the strenuous efforts of the mill crew and firemen this building was saved.

Nearly the whole population of the city was attracted to the scene of the fire but there was little to be done other than to stand back and watch the element of destruction get in its deadly work. At 9 o'clock the fire was still burning fiercely and threatened to spread to several dwelling houses on the opposite side of Government Lane. The furniture from these houses as well as from the mill boarding house were removed to a place of safety quite early in the evening. The fire caused the greatest excitement among the citizens as it was feared that the wind would shift or freshen, in which case the whole city would be threatened.

At one time it was talked of telegraphing to St John for assistance.

It was 1 1/2 o'clock before the fire was got under control. All the

lumber piled on the lower side of the mill, estimated at from 6,000,000 to 10,000,000 feet, went up in smoke. Thanks to the strenuous efforts of the firemen the mill boarding house and four dwelling houses on the opposite side of Government Lane was saved. The house caught fire several times and water had to be poured upon them continually to save them.

Five million feet of lumber stored on the upper end of the lot, mostly spruce deals and a large quantity of firewood escaped. The lumber destroyed was mostly spruce boards and scantling which the firm intended shipping to South American ports. It was ready for shipment several months ago but was being held pending an improvement in the market.

The Aberdeen mill was erected in 1894, and gave employment to upwards of 100 men. It was equipped with all the latest machinery including rotary and gang saws, shingles and lath machines, box machines, planers, etc. It had also a complete electric lighting plant connected with the mill.

Donald Fraser, Jr., is manager, and at present he is on a visit to the Tobique woods so it is impossible to get a statement of the loss and insurance.

A prominent lumberman, who witnessed the fire, estimated that between 6,000,000 and 9,000,000 feet of lumber was destroyed.

Donald Fraser, Sr., head of the firm, who was in St John when the fire broke out, came to Fredericton by the evening train. He seemed to accept the situation with good grace and remarked that the firm would not allow a setback like that to discourage them. He was unable to give an estimate of the loss, but thought there was insurance amounting to about one-third.

Asked if the firm would likely rebuild he replied it was too early to give an answer to that question, but as considerable lumber was saved in all probability they would.

"If we do rebuild," says he, "we will see to it that we have a proper system of fire protection."

Mr. Fraser stated that several million feet of logs on hand would be manufactured in a St John mill. It is understood that the Imperial and Scotch Union carry a good portion of the insurance of the mill and lumber.

Messrs. Fraser have shown commendable enterprise in their milling operation and much sympathy is felt for them here over the serious loss sustained.

At 11 o'clock tonight the fire was still burning vigorously among the lumber piles, but there is little danger of it doing further damage.

HYMENIAL

very pretty wedding took place in Petit Rocher on Monday July 31st when Miss Martha Doncott, daughter of Edward Doncott of the I.C.R. was united in marriage to Mr John Frenette Duluth, Minn. The nuptial knot was tied by the Rev Father Carter.

The bride was becomingly gowned in white organdie with lace trimmings and chiffon hat to match. She was attended by Miss Alice O'Neil of Belledune who also wore white organdie and hat to match and carried a bouquet of cream roses. The groom was attended by Mr Hector Doucet, brother of the bride.

The happy couple then drove to the home of the bride's father where dinner was partaken off, after which they repaired to the home of the groom's sister Mrs. Thomas Arsenau where dancing and other amusements were indulged in by a large circle of friends. The young couple were the recipients of many beautiful presents. Mr and Mrs Frenette intend leaving shortly for Duluth Minn, their future home.

DO YOU KNOW
THAT BACKACHE
IS THE FIRST
SYMPTOM OF
KIDNEY TROUBLE.

It is! and you cannot be too
 careful about it.
 A little backache let run will
 finally cause serious kidney
 trouble. Stop it in time.

TAKE
DOAN'S
KIDNEY
PILLS.

They cure where all others
 fail. As a specific for Backaches
 and Kidney Troubles they have
 no equal. Here is what

MR. GEO. H. SOMERVILLE,
 of Stewart, N.B., writes: "I was so
 troubled with a sore back I could not get
 out of bed in the morning for over a year.
 I got a box of Doan's Kidney Pills and
 before I had them half taken I could see
 I was deriving some benefit from them,
 and before I had taken them all my back
 was O.K. and I have not been troubled
 since."

POLICE CHIEF SLAIN
Jack McArthur of Antigo
Murdered—well Known
Here

Antigo, June 26.—Chief of Police
 Jack McArthur, age 42 years was shot
 and instantly killed by an escape
 maniac from the Oshkosh insane
 asylum Saturday. The maniac, James
 Wittinger, escaped from Oshkosh
 institution about a month ago, and
 had at last made his way back to the
 vicinity of his former home. McArthur
 was notified that he had reappeared
 in the vicinity of an old hut, six miles
 from the city, and with Deputy Sheriff
 Michaelson went to effect a capture.
 They knew that Wittinger was
 dangerous, and finally determined that
 the man was in the woods near the hut
 when McArthur waited for the
 possible returning of Wittinger to the
 hut, Michaelson went to a mill a short
 distance away to call help. When
 Michaelson and millmen returned to
 help effect the capture, McArthur was
 found dead near the hut, having
 apparently been shot from ambush. A
 charged buckshot had entered his body
 causing instant death. McArthur had
 his drawn revolver in one hand and
 his club in the other, but had not time
 to shoot before the charge of shot
 was fired at him.

A posse will be made up tomorrow
 and taken into the woods to capture
 Wittinger dead or alive. How Wittinger
 secured a shotgun cannot be learned.
 McArthur leaves a widow and three
 children. He had been police chief for
 ten years and was a most efficient
 officer.

Jack McArthur is a cousin of
 Malcolm McArthur of this town.

NORTH WEST WHEAT CROP
Violent Hail Storm Does
Considerable Damage

Winnipeg, Aug. 7.—A hail storm
 did considerable damage in various
 parts of Manitoba and eastern As-
 siniboia on Friday evening. Glen-
 bor, Arnaud, Lytton, Moosimin
 and Brodviewall report loss, al-
 though confined in each case to a
 comparatively small area. At Ar-
 naud 500 acres were totally destroyed.
 Near Moosimin a strip nine
 miles long and two miles wide was
 badly hammered, but may be worth
 cutting.

The root of Neuralgic Headache

It is irritable condition of the nerves
 caused by cold. Relief comes quickly
 from Nerviline, the great pain reliever
 of to-day. "I consider Nerviline a
 magical remedy for neuralgia," writes
 Mrs. E. G. Harris of Baltimore. But
 I never worry when Nerviline is in the
 house. A few applications never yet
 failed to kill the pain. I can also
 recommend Nerviline for stiffness,
 rheumatism and muscular pains." In
 use nearly fifty years; try Nerviline
 yourself.

 The fishing has been a quite a
 failure this year. The latest reports are
 that the dog-fish have struck the
 hanks, if such is the case the fall
 fishing will not be more prosperous
 than the past season.

The farmers are very busy at their
 hay if the weather is favorable, there
 will be an abundant crop.

OBITUARY.

 lingering and painful illness Thos.
 DesBrisay, son of Thos. DesBrisay,
 passed away on Thursday morning at
 the age of twenty-one. His removal
 has cast a gloom over his young
 associates, among whom he was
 deservedly popular. The funeral took
 place yesterday afternoon and was
 largely attended, interment being in
 St. Paul's churchyard. Rev. Archdeacon
 Forsyth officiating. The pall-bearers
 were Jack Nichol, Harold Loggie,
 James MacNaughton, A. McLennan,
 H. McLean and W. B. Bentley. Among
 the floral offerings was a beautiful
 crown of roses, carnations and smilax

 last week with Mr. Joseph S. Dumas.
 Mr. J. W. Dumas and his daughter
 Miss Josephine Dumas made a
 flying visit to Bathurst last week.
 Miss Emma Blanchard is spending
 a few days with Miss Lucia Theriault.
 A few weeks more and the school
 children will have to take back their
 books set a side six weeks ago.
 Let us hope that after spending a
 pleasant holiday, they are all well
 and pleased to resume their studies.
 Miss Josephine Dumas will take charge
 of the upper school for the coming
 year. Miss Dumas has been a pupil
 in that same school only four years ago
 and now is a very successful teacher.
 Miss M. Landry of Caraqueet spent

GASPE COUNTY

Large Amount of Money to be Distributed for Colonization Roads.

(Special Correspondence)
Mont. Louis August 7th. 1905
Mr. Editor—

I am glad to let you know that a large amount of money has been distributed in the county for colonization roads. Honorable Gouin's government is extremely popular in this section of the county and we feel that it is our interest to be represented in the Quebec Parliament by such an active deputy. Dr. Lemieux M. P. P. The doctor has obtained from the Quebec Government for Gaspé county during the last session over \$12,000. Money has been distributed all over the county such as, Ste Anne des Monts, Claude River, Douglastown, Mont Louis, Brilliant Cove, Pleureuse Cove, Seal Cove, Gros Morne, St. George de Malbaie, Mancho d'Espe, Barachois, Cote du Portage, Corner of Beach, Riviere a Pierre, York, Petite Vallee, Portage Grand Elang, Perce Falls, Cap Chat, Perce, St Yvon, Beaufils Cove, Chloiydorne, Cape Cove, Petit Cap, Little River, Fox River, Breche a Manon, Griffin Cove, Margoriz ne, Grande Riviere, Grand Pabos, Lause a Louise, New Port, Cap Rosiers, Gaspé.

It is the largest amount of money that we have ever obtained from the Quebec Government and our popular member Dr. L. J. Lemieux has done more for us than any other Quebec member since 1875.

We hear that a large amount of money will soon be distributed for educational purposes at Mont Louis. The settlement is unanimous in his favor and if he does us the honor of a visit this summer he will receive a grand reception.

STABBING AFFRAY

Jas Naves of St John Stabbed Seven Times.

St. John, Aug 15.—James Naves, of the North End, was found nearly murdered on Mount Pleasant a little before midnight. He was stabbed seven times, getting four thrusts in the back one in the neck, one in the head and one on the hand. He was also severely bruised about the head. He was driven to his home and it is believed he will recover. Jealousy is thought to have been the cause. Naves would not reveal the name of his assailant. He has been a widower for about a year and as far as could be gathered he and another man have been rivals for the woman in question. Naves is well known in the North End and has always borne a good reputation for sobriety and industry.

MR SCHWAB GOING A-BROAD

Will see Mr. Carnegie—Archibald Johnston and John McKane Accompany him

It was learned yesterday that Mr Schwab proposes to sail for Europe on Tuesday next. Accompanying him will be Archibald Johnston, an engineer of the Bethlehem works, and John McKane who is interested with Mr Schwab and is superintendent and general manager of the latter's Nevada mining interests.

It is understood that the party will visit Mr. Carnegie in Scotland before returning. The trip is said to be a business one.

Mr McKane was formerly well known on the Miramichi as the manager of the local branch of the Royal Bank of Canada at Newcastle, where his energy and keen business ability were recognized and appreciated since he moved from the confines of modern towns in the east to the wide field of action in the west. We are glad to hear that he has met with that success which his friends prophesied of him. Out on the sierras of Nevada "where the world is so new you can smell the paint" he has found the proper scope for his pluck and enterprise. He has "struck it rich" as the saying goes, and we find him now moving among the "big fellers", the captains of industry, playing in "blue chips" and smoking United States Steel cigars, not the common but the preferred seven per cent. dividend brand with the picture of C M Schwab on one side of the wrapper and that of Andrew Carnegie on the other. Mr. McKane we understand will make Miramichi a visit on his return from Europe where his many friends will be glad to welcome him.

SALMON AT RICHIBUCTO

The First Fruits of the Restigouche Salmon Hatchery

Richibucto, Aug. 12.—A few days ago one of our fishermen in the employ of R. O'Leary on taking in the salmon nets found on the first day 95 salmon, and on the second day 105 salmon. For these he received \$1.00 each. The feature however about the salmon catch remarked by Mr. O'Leary is that for the first time within his observation the salmon catch had the peculiar black marks which distinguish the Restigouche salmon from those of other waters. The salmon usually caught at Richibucto are those of the Miramichi river in their marking. The interpretation which Mr. O'Leary places upon the recent catch is that it is the first fruits of the salmon hatchery which has been in operation for several years upon the Restigouche river. As the salmon usually return to the river in which they are hatched Mr. O'Leary expresses the opinion that there would be in the course of a few days, possibly, the largest run of salmon ever known on the Restigouche river.

SUDDEN DEATH

James Copp Freight Agent of Newcastle Expires

Mr James Copp, of the freight department of the I. C. R here and a well known and respected citizen died at his home Friday afternoon last. Mr Copp was unwell for two weeks and had not been able to work but no serious results were thought of and the news of his sudden demise came as a shock to his large circle of friends. On Friday he was about as usual. In the afternoon he was quite cheerful and was sitting up talking to his wife when he suddenly gasped and died. The blow was

STORES ROBBED.

James Reid, M. P., and Peter Hamilton, of Charlo, Losers.

Dalhousie, N. B., Aug. 9.—The stores of James Reid, M. P., and Peter Hamilton, of Charlo, were burglarized yesterday morning and a lot of dry goods stolen therefrom. Some of the articles were found under an I. C. R. culvert at Upper Charlo.

When William McNair, who found the goods, and his wife went to their barn to unload some hay, two men who were hiding in the barn came out and frightened them away. Policeman Dixon, of Dalhousie was notified and spent night searching in vain.

It is reported that the two men set fire to some buildings at Eel River.

a severe one to his beloved family and they have the sympathy of the entire community.

Deceased was born in London, England on Feb 12, 1826. When only eight years of age he came to Newcastle where he has since resided. For a time he acted as deputy sheriff of this county. About twenty seven years ago he accepted the position of freight agent of the I C R at the freight house here, the responsible position which he ably filled up to the time of his late illness. A man of kindly temperament and steady habits, he ever was a favorite. He had a very retentive mind and could talk entertainingly of Newcastle's early history of the times when he was a boy.

The funeral from his late residence Sunday afternoon was very largely attended, interment being in St. Andrew's cemetery. Services were conducted by Rev T H Cuthbert. The pall bearers were Messrs. Chas Call, P B Wheeler, Sam'l Miller, Keith Anderson, Jos McKnight and C Craig. He was 79 years of age.

A wife and three children, one son William, of Newcastle and two daughters Mrs W. J. Buckley, of Methuen Mass, and Miss Bertie of Newcastle survive.—Advocate.

DIED.

At Kempt Road, Bonaventure Co Quebec Myrtle Mary daughter of Nathaniel and Christina Ingram aged 27 years and 4 months.

At Newcastle, August 13, of cholera infantum, the infant daughter of Mr. Peter Gaynes, aged four months.

At the Parsonage, Gibson, on August 6th, after a very brief illness, Margaret Helen, daughter of William R. and Frances M. Robinson, aged 10 months.

At Campbellton on the 16th inst, Leo son of John Connors aged 8 months.

TENDERS FOR DREDGING.

TENDERS addressed to the undersigned and endorsed "Tender for Dredging at Sand Point Slip," will be received up to and including August 18th, 1905, for the dredging required at Sand Point Slip, St. John Harbour, St. John County, N. B.

Specifications can be seen and form of tender obtained at the Department of Public Works, Ottawa, or at the Department of Public Works, St. John, N. B., tenders to include towing of plant to and from the works. Only dredges can be employed which are registered in Canada at the time of filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for twenty thousand dollars (\$20,000.00), must accompany each tender. The cheque will be forfeited if the party tendering declines the contract or fails to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order, FRED GELINAS, Secretary.

Department of Public Works, Ottawa, July 29, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

The town hall flagstaff which has been without halyards for two years or more, was supplied with steel halyards last week. The work was done by a chimney-sweep who climbed the pole and did the job for \$5. The arrangement we understand, was that the man would be paid \$5 upon completion of work, or be buried at the town's expense in the event of killing himself. Commercial cash.

The Rev. Edward J. Stobo Sec. has during July and August visited the following districts in Bonaventure and Gaspe Counties, Matapedia, Escuminac New Richmond, New Carlisle, Port Daniel, and Gaspe. He conducted 30 services and had a good audience and an awakened interest in Bible work.

He sold about 400 copies of the Scripture and 100 copies of the story of Mary Jones and her Bible. He was the recipient of great kindness and desires to express his gratitude to the society's friends.

 —Telegraph.

The Central Telephone Co took over the local telephone service on Tuesday in conversation with a representative of the new company we learned that the line to Dalhousie will be completed this fall, that our local line will be through overhead and improved and that new instruments will be installed. The company has in the vicinity of thirty subscribers in Dalhousie.

Wm. Clarke, livery stable proprietor of this city, drove from a number of miles up the river to this city early this morning, and reports that much damage was done to crops in the parish of Douglas last night by frost. It will be remembered that last year at the same time of August's full moon, the crops were badly damaged by frost, and there seems to be a repetition this year. A cold wind from the North was blowing and it was very chilly in this city at a late hour last night and early this morning. The wind blew from the river to the Douglas shore, and to-day Mr. Clarke reports the fields were white with frost. The buckwheat crop is reported to have suffered most.

WEDDING BELLS.

A very pretty wedding took place at Dalhousie Monday afternoon when Mr. Joe Allard was united in marriage to Miss Lizzie Leclair of Charlo. The bride was supported by Miss Laura Malta of Fall River while the groom was supported by Michael Leclair brother of the bride. After the ceremony the happy couple took the local for Campbellton where a pleasant time was spent at Mr. Sandy Pinet's and took the train for NewCastle where they will reside.

Tuesday Aug 16th the home of Benjamin Steeves Esq. of Flat Lands was the scene of an event of more than usual interest to that quiet community when his eldest daughter Miss Dellah was united in marriage to Mr. Frank R. Gorham of Campbellton. The bride was neatly attired and made a charming appearance as she entered the room carrying a large bouquet of carnations and leaning upon the arm of her father. The closest friends of the contracting parties were present to honor the occasion and the ceremony was performed by Rev. J. W. Keirstead of Campbellton. After justice had been done to the beautiful repast Mr. and Mrs. Gorham left by the Ocean Limited for Quebec where they will visit the Squadron of Cruisers now at that city. The presents were numerous and quite expensive and attest to the popularity of the bride in her wide circle of friends.

When we say "Cut prices" it means something. People know it and we get the business —Fraser's Oak Hall.

THE ACADIANS

(Continued from first page)

All the speeches were well received. The principal personage assisting at the wedding was, Mr. Richard. Senator Poirier, Judge Landry, O. J. LeBlanc, M. P. Hon. C. H. LaBillico, Hon. A. D. Richard, O. M. Melanson M. P. E., Rev. Fathers Gauthier, D. D. Cormier, Bellevue and Bourgeois, Inspector Rochon, N. A. Landry, P. J. Veniot, Dr. E. T. Gaudet, Dr. F. X. Comeau and Judge Breaux, Louisiana. Messrs Rodolph Lemieux, representing St. Wilfred Laurier, F. D. Monk and Turgeon arrived here at 11 o'clock on an excursion train from Quebec.

Word was received Tuesday morning of the death of May Kelly, eldest daughter of Mr and Mrs Jas. Kelly, at Boston Mass. Mr Kelly left yesterday morning for Boston and the remains will be brought home for burial. Mr and Mrs Kelly and family have the sympathy of the community in their sad bereavement.

If Your Liver is Wrong You are Wrong All Over

A torpid, inactive liver goes hand in hand with constipation. Such a chronic condition requires a systematic effort to overcome it and establish good health and perfect body drainage. Smith's Pile and Butternut Pills, containing the two needed elements to increase liver activity and muscular action go accurately to the sluggish liver and bowels, restoring them completely.

Suppose your bowels failed to move for a week or ten days. Don't you know you would be quickly prostrated? It is just the same, differing in degree, when your bowels do not move at least once a day. You know you soon become languid and tired, your blood gets bad and you feel mean and sick all over. You should have a full, healthy passage daily. Don't let serious conditions develop. Smith's Pile and Butternut Pills will drive bowel poison out of your system and establish regularity. They are purely vegetable, and cure in one night. We will send you a generous sample of these pills absolutely free, sealed and postpaid, that will convince you beyond doubt of their wonderful curative properties. Address, W. P. Smith & Co., 185 St. James Street, Montreal, Canada.

branch surgery and dispensary at Lower
Brixton road, two miles away. This
Dr. Barnicot is an enthusiastic admirer
of Napoleon, and his house is full of
books, pictures and relics of the
French emperor. Some little time ago
he purchased from Morse Hudson two
duplicate plaster casts of the famous
head of Napoleon by the French sculptor
Levine. One of these he placed in his
hall in the house at Kennington
road and the other on the mantelpiece
of the surgery at Lower Brixton.
Well, when Dr. Barnicot came down
this morning he was astounded to find
that his house had been burgled during
the night, but that nothing had
been taken save the plaster head from the
hall. He had been carried out and
had been dashed savagely against the
garden wall, under which his splintered
fragments were discovered.

Holmes rubbed his hands.

"This is certainly very novel," said he.

"I thought it would please you. But I have not got to the end yet. Dr. Barnicot was due at his surgery at 12 o'clock, and you can imagine his amazement when on arriving there he found that the window had been opened in the night and that the broken pieces of his second bust were strewn all over the room. It had been smashed to atoms where it stood. In neither case were there any signs which could give a clue as to the criminal or lunatic who had done the mischief. Now, Mr. Holmes, you have got the facts."

"They are singular, not to say grotesque," said Holmes. "May I ask whether the two busts smashed in Dr. Barnicot's rooms were the exact duplicates of the one which was destroyed in Morse Hudson's shop?"

"They were taken from the same mold."

"Such a fact must tell against the theory that the man who breaks them is influenced by any general hatred of Napoleon. Considering how many hundreds of statues of the great emperor must exist in London, it is too much to suppose such a coincidence as that a pronounced iconoclast should chance to begin upon three specimens of the same bust."

"Well, I thought as you do," said Holmes. "On the other hand, this Morse Hudson is the purveyor of busts in that part of London, and these were the only ones which had been in his shop for years. So, although, as you say, there are many hundreds of statues in London, it is very probable that these busts were the only ones in that district. Therefore a local fanatic would begin with them. What do you think, Dr. Watson?"

"There are no limits to the possibilities of monomania," I answered.

"There is the condition which the modern French psychologists have called the 'idée fixe'—the idea which is a character and accompanied by complete sanity in every other way. A man who had read deeply about Napoleon or who had possibly received other works of art upon the counter, lying shivered in fragments. He rushed out into the road; but, although several passersby declared that they had noticed a man run out of the shop, he could neither see any one nor could he find any means of identifying the rascal. It seemed to be one of those senseless acts of Hooliganism which occur from time to time, and it was reported to the constable on the beat as such. The plaster cast was not worth more than a few shillings, and the whole affair appeared to be too childish for any particular investigation."

"The second case, however, was more serious and also more singular. It occurred only last night."

"In Kennington road and within a few hundred yards of Morse Hudson's shop there lives a well known medical practitioner named Dr. Barnicot, who has one of the largest practices upon the south side of the Thames. His residence and principal consulting room is at Kennington road, but he has a

of the house lined by a curious crowd. Holmes whistled.

"By George, it's attempted murder at the least! Nothing less will hold the London message boy. There's a deed of violence indicated in that fellow's round shoulders and outstretched neck. What's this, Watson? The top steps swelled down and the other ones dry. Footsteps enough, anyhow! Well, well, there's Lestrade at the front window, and we shall soon know all about it."

The official received us with a very grave face and showed us into a sitting room, where an exceedingly unkempt and agitated elderly man clad in a flannel dressing gown was pacing up and down. He was introduced to us as the owner of the house—Mr. Horace Harker of the Central Press syndicate.

"It's the Napoleon bust business again," said Lestrade. "You seemed interested last night, Mr. Holmes, so I thought perhaps you would be glad to be present now that the affair has taken a very much graver turn."

"What has it turned to, then?"

To murder. Mr. Harker, will you tell these gentlemen exactly what has occurred?"

The man in the dressing gown turned upon us with a most melancholy face.

"It's an extraordinary thing," said he, "that all my life I have been collecting other people's news, and now that a real piece of news has come my own way I am so confused and bothered that I can't put two words together. If I had come in here as a journalist I should have interviewed myself and had two columns in every evening paper. As it is, I am giving away valuable copy by telling my story over and over to a string of different people, and I can make no use of it myself. However, I've heard your name, Mr. Sherlock Holmes, and I'll only explain this queer business I shall be glad for my trouble in telling you the story."

Holmes sat down and listened.

"It all seems to center round that bust of Napoleon which I bought for this very room about four months ago. I picked it up cheap from Harding Bros., two doors from the High Street station. A great deal of my journalistic work is done at night, and I often write until the early morning. So it was today. I was sitting in my den, which is at the back of the top of the house, about 8 o'clock when I was convinced that I heard some sounds downstairs. I listened, but they were not repeated, and I concluded that they came from outside. Then suddenly, about five minutes later, there came a most horrible yell—the most dreadful sound, Mr. Holmes, that ever I heard. It will ring in my ears as long as I live. I sat frozen with horror for a minute or two; then I seized the poker and went downstairs. When I entered this room I found the window wide open, and I at once observed that the bust was gone from the mantelpiece. Why any burglar should take such a thing passes my understanding, for it was only a plaster cast and of no real value whatever."

"You can see for yourself that any one going out through that open window could reach the front doorstep by taking a long stride. This was clearly what the burglar did, so I went downstairs and opened the door. Stepping out into the dark, I nearly fell over a dead man who was lying there. I ran back for a light, and there was the poor fellow as I have said, with his head on the floor and his arms outstretched and the whole place swimming in blood. He lay on his back, his knees drawn up and his mouth horribly open. I shall see him in my dreams. I had just time to blow on my police whistle, and then I must have fainted, for I knew nothing more until I found the policeman standing over me in the hall."

"Well, who was the murdered man?" asked Holmes.

"There's nothing to show who he was," said Lestrade. "You shall see the body at the mortuary, but he was made nothing of it up to now. He is a tall man, sunburned, very powerful, not more than thirty. He is poorly dressed, but any burglar should take him for a laborer. A horn handled clasp knife was lying in a pool of blood beside him. Whether it was the weapon which did the deed or whether it belonged to the dead man I do not know. There was no name on his clothing and nothing in his pockets save an apple, some string, a shilling map of London and a photograph. Here it is!"

It was evidently taken by a snapshot from a small camera. It represented an alert, sharp featured simian man, with thick eyebrows and a very peculiar projection of the lower part of the face, like the muzzle of a baboon.

"And what became of the bust?" asked Holmes after a careful study of this picture.

"We had news of it just before you came. It has been found in the front garden of an empty house in Campden House road. It was broken into fragments. I am going round now to see it. Will you come?"

"Certainly. I must just take one look round the window. The fellow had either been standing or sitting on a most active man," said he. "With an area beneath, it was no mean feat to reach that window ledge and open that window. Getting back was comparatively simple. Ah, you coming with us to see the remains of your bust, Mr. Harker?"

The disconsolate journalist had seated himself at a writing table.

"I must try and make something of it," said he, "though I have no doubt that the first editions of the evening papers are out already with full details. It's my luck! You remember when the stand fell at Doncaster? Well, I was the only journalist in the stand and my journal the only one that had no account of it, for I was too shaken to write it. And now I'll be too late with a murder done on my own doorstep."

As we left the room we heard his pen traveling shrilly over the foolscap.

The spot where the fragments of the bust had been found was only a few hundred yards away. For the first time our eyes rested upon this presentment of the great emperor, which seemed to raise such frantic and destructive hatred in the mind of the unknown. It lay scattered in splintered shards upon the grass. Holmes picked up several of them and examined them carefully. I was convinced from his intent face and his purposeful manner that at last he was upon a clue.

"Well?" asked Lestrade.

Holmes shrugged his shoulders.

"We have a long way to go yet," said he. "And yet—and yet—well, we have some suggestive facts to act upon. The possession of this trifling bust was worth more in the eyes of this strange criminal than a human life. That is one point. Then there is the singular fact that he did not break it in the house, if to break it was his sole object."

"He was rattled and hustled by meeting this other fellow. He hardly knew what he was doing."

"Well, that's likely enough, but I wish to call your attention very particularly to the position of this house in the garden of which the bust was destroyed."

Lestrade looked at him.

"It was an empty house, and so he knew that he would not be disturbed in the garden."

"Yes, but there is another empty house further up the street, which he must have passed before he came to this one. Why did he not break it there, since it is evident that every yard that he carried it increased the risk of some one meeting him?"

"I give it up," said Lestrade.

Holmes pointed to the street lamp above our heads.

"He could see what he was doing here, and he could not there. That was his reason."

"By Jove, that's true," said the detective. "Now that I come to think of it, Dr. Barnicot's bust was broken not far from his red lamp. Well, Mr. Holmes, what are we to do with that fact?"

"To remember it—to docket it. We may come on something later which will bear upon it. What steps do you propose to take now, Lestrade?"

"The most practical way of getting it in my opinion, is to identify the dead man. There should be no difficulty about that. When we have found who he is and who his associates are we should have a good start in learning what he was doing in Pitt street last night and who it was who met him and killed him on the doorstep of Mr. Horace Harker. Don't you think so?"

"No doubt, and yet it is not quite the way in which I should approach the case."

"What would you do, then?"

"Oh, you must not let me influence you in any way. I suggest that you go to the great cash in his house and compare notes afterward, and each will supplement the other."

"Very good," said Lestrade.

"If you are going back to Pitt street you might see Mr. Horace Harker. Tell him for me that I have quite made up my mind and that it is certain that a dangerous homicidal lunatic with Napoleonic delusions was in his house last night. It will be useful for his article."

Lestrade started.

"You don't seriously believe that?"

Holmes smiled.

"Don't! Well, perhaps I don't, but I am sure that it will interest Mr. Horace Harker and the subscribers of the Central Press syndicate. Now, Watson, I think that we shall find that we have a long and rather complex day's work before us. I should be glad, Lestrade, if you could make it convenient to meet us at Baker street at 6 o'clock this evening. Until then I should like to keep this photograph found in the dead man's pocket. It is possible that I may have to ask your company and assistance upon a small expedition which will have to be undertaken tonight if my chain of reasoning should prove to be correct. Until then, goodbye and good luck!"

He turned and walked together to the High street, where we stopped at the shop of Harding Bros., whence the bust had been purchased. A young assistant informed us that Mr. Harding would be absent until after noon and that he was himself a newcomer who could give us no information. Holmes' face showed his disappointment and annoyance.

OUR SCENERY

Pleases Toronto Globes
Representative—The Mat-
apedia Valley.

(Toronto Globe.)

The famed Matapedia River,
flowing through the Matapedia valley
makes a scene of beauty wherever it
meets the eye. In the 30 miles of
its course it has 22 rapids, great and
small, now swift and deep, now gently
rippling over beds of shining gravel
and golden sand. Here and there are
deeper pools in which lurk salmon of
astounding size, for this is one of the
salmon streams of which every
fisherman has heard. For mile after
mile the traveller watches the course
of the river, so strangely pent in by
the mountains on either hand, rising
in every shape that mountains can
assume. Some are almost perfect cones,
others rise swiftly into precipices, and
others have such gentle slopes that one
feels that he would like to stroll
leisurely upward to the summit, but
the height, as a rule, is from 600 to 800
feet. Beauty is everywhere. The "Ocean
Limited" Express passes through this
land of enchantment in daylight.

Campbellton on the South side of
the boundary River, Restigouche, is the
first place in New Brunswick seen by
the traveller from Quebec.

From Campbellton the steamer
"Lady Eileen" makes regular trips to
Gaspe Basin. Perce and its rock at
the Eastern end of the peninsula
should be especially mentioned.

The Maramichi is a beautiful river
in every scene of the world, and is
a sportsman's standpoint it is almost
perfect.

Fredericton the capital of New
Brunswick, is a most delightful place
for a summer sojourn. It is beautifully
situated at one of the most picturesque
points on the St. John River, and,
although not the commercial metropoli-
s, it is the business centre of im-
portance.

Farm Laborers
Excursions 1905.

This year's wheat crop in Manitoba
and the Canadian Northwest has
matured early, owing to the very
favorable conditions that have pre-
vailed throughout the entire season,
and will far exceed in quantity and
quality that of previous seasons. It
is estimated that not less than 25,000
laborers will be required to assist in
the harvesting, and an additional
5,000 as soon as threshing commences.

The Farm Laborers excursion from
the Maritime Provinces is the first
excursion to be run this year, and Labor-
ers from our Provinces will therefore
have advantage over those from other
sections inasmuch as they will be the
first on the ground, and will have the
choice of positions and the longest
period to work, and it is expected that
the number to go from the Provinces

will be large.

The object of this excursion is to
assist the Farmers of the Northwest
in harvesting their crops, and incident-
ally to enable the excursionists to visit
and look over the country at the same
time earning sufficient money to defray
the expenses of the trip.

The excursion from the Maritime
Provinces has been arranged as follows—

From stations in Nova Scotia East
of New Glasgow excursion will be
Friday, Aug. 19th. An extra train
will leave Sydney at 11:00 A.M. stop-
ping at all stations between Sydney
and New Glasgow to pick up excursion-
ists.

From other points in Nova Scotia
and from points in New Brunswick,
excursion will be on Saturday, August
19th. The I. C. Ry. will start a pas-
senger extra train from Halifax at 7:00
A.M. which will run through to St.
John stopping at all stations to pick
up excursionists. Business New
Glasgow to Truro and Pictou to Ox-
ford Junction will be carried on regu-
lar morning trains to main line Jct.
points. From points North of Mon-
cton to Campbellton, excursionists
should proceed to that point by local
trains taking Maritime Express from
Campbellton.

From the Canada Eastern section,
excursionists will be carried by regular
trains to Campbellton, excursionists
should proceed to that point by local

operating the mills in the western
Maine and in New Hampshire
report that spruce lumber has taken a
decided jump in price during the past
few days. It is the true of
spruce boards and dimension material.
This kind of lumber has been quoted
at wholesale for several weeks past from
\$20 to \$22 per thousand feet, but the
price has been jumped from \$22 to \$24
per thousand, which is the highest it
has ever been.

Last year at this time the same kind
of lumber was quoted from \$10 to \$20
per thousand, and while the dealers are
not expecting another advance right a-
way, it is said there is no telling how
soon there will be one.

The cause for the rise in price is due
to the increasing demand for this grade
of lumber. From seven to eight years
ago spruce lumber sold from \$12 to \$14
per thousand, but the price has been
steadily increasing every year, until
now it has reached the top notch price.
The dealers say that there is a great
deal of building locally and in different
parts of the State, and this will keep
the supply up, as the supply cannot be
increased, therefore the only thing to do
is to jump the price.

Spruce claspboards have also made a
very sharp advance, having recently
been quoted \$37 to \$42 per thousand,
but one price and that is \$44 per thou-
sand. On clear the price has advanced
several dollars, and these are now quot-
ed \$37 to \$39 per thousand. Laths
have also experienced a jump owing to
the increased demand in common with
other material. Laths have been sell-
ing at \$3.45 per thousand, but they can-
not be bought to day short of \$3.65.

A representative of one of the largest
lumber firms in Bangor said that when
the market was high just at present, it
would be difficult to give quotation on
spruce, on account of the uncertain
and peculiar condition of the trade.

Wide randoms—nine inch and upwards
are worth from \$17 to \$18 per thou-
sand, and 6 to 8 Bangor, and dimensions
about \$18 to \$19, while small size and
narrow widths of random run down to
\$15 and \$16. To get the New York
prices \$5 per thousand should be add-
ed, to cover freight, insurance, interest
brokerage and other charges.

Water in your Blood

Lots of people have thin watery blood—
they eat plenty but it won't digest.
When digestion is poor, food is not con-
verted into nourishment—in conse-
quence the lowest strength. To pos-
sibly renew health, nothing equals Fer-
rozine. It excites the appetite, makes
the stomach digest, forms life sus-
taining blood, abundant strength is
sure to follow. If you need more
vitality, extra energy, better nerves,
then use Ferrozine the medical tri-
umph of age. Fifty cents buys a box of
fifty chocolate coated Ferrozine tablets.

MOTORMAN WALDEN'S Story of His Illness
and Subsequent Recovery Through
Using Psychine.

Mr. Walden says: "About six years ago
I was taken down with a gripe, then
pneumonia and typhoid fever, inducing
serious lung trouble, which soon developed
into consumption. I had a serious trial of
it, and was under treatment by several
physicians of Toronto. The disease
gained such headway that hospital treat-
ment was resorted to, but gave me no hope
of recovery. I also spent some time in the
Convalescent Home, but the disease re-
turned with increased severity, and I was
regarded as a hopeless case. I left the
city for the country under the belief that
it would renew my strength and make me
well. On parting with my brother he said
afterward that 'he never expected to see
me alive again.' While out of the city I
began using Psychine, and I am proud to
say it has been a blessing to me. I was
enabled to return home after using it for a
short time, and continued the treatment
until several bottles had been used and I
was able to go about. When I began the
remedy my weight had been reduced to
140 pounds—now I weigh fully 210 pounds.
Psychine is a wonderful flesh-producer. I
do not know its medical properties—only
that Psychine, and nothing else, has re-
stored me to health. Those who know me
are aware of what my condition was and
the hopelessness of my case. There is no
medicine in the world like Psychine for
lung trouble, and I am sure if it had not
been for it I WOULD HAVE BEEN A
DEAD MAN."

BATHURST NOTES.

Quite a number of our Acadia enthusiasts joined the excursionists to the Carquet Convention on Tuesday and Wednesday, which was pronounced a grand success.

Hon. C. H. LaBillette of Dalhousie was in town on Monday enroute to the Carquet Convention.

Miss Jessie Wheeler of Newcastle is visiting her friend Miss Regina Burns.

Mr and Mrs Clay Adams, of New York, are visiting friends in town for a few days.

Miss Agatha Melanson is home from St. John.

John Landry, of Dorchester, is visiting his uncle, N. A. Landry.

The death occurred in Montreal of the Congregation of Notre Dame on Wednesday last of Rev Mother St. Virginia, who had been in the community for 21 years. She was formerly Miss Margaret Burke of this place.

Miss Nellie Burke, of Boston, is visiting her people here for a few months.

Misses Lorette and Cecile Langis of St. Anthony, Kent Co., are spending a few weeks vacation with their uncle, Jas. Melanson.

Miss Albertin Bourque of Moncton is visiting friends in town.

Fire on Tuesday completely destroyed the house recently owned by Mrs. Lodge up the Basin Road, which had lately been purchased and occupied by Stephen Branch and family.

Mr. Clark of Moncton was in town on Tuesday.

Willie McCon of Hudson Summer & Co., Montreal, spent a few days in town this week.

Misses Elodie and Evangeline Bourque are visiting friends in town.

O. F. Frenette of Campbellton spent Wednesday in town.

Geo. Kelly, of St. John was in town this week.

FAME POINT.

Once again we are asked to give a few notes hoping they will be acceptable. We notice great stir around the Lighthouse lately and also around Fame Point. The Marconi construction crew arrived on board S. S. Stanley on July 11. They have placed three more poles and also built a new engine room on their dwelling house. The construction crew left on August 5. The station is in charge of Mr. F. E. Burrows of Ireland, Engineer and Geo. Pearson Operator of Montreal. The Stanley came in for them.

Among those who visited the Light-house were Mr. McWilliams, Mr. Biscayart, Mr. Harris and Mr. Lait, Marconi operators, who are going to different stations in the Gulf.

S. S. Seguin also called at Fame Point enroute to Quebec. Mr. J. L. Richard and Mr. Samson landed from her but proceeded to Quebec again.

Among the visitors at the Light-house during the last few weeks are as follows: Mr. and Miss LeGallais, Miss Hayet LeGallais, Mr. Simmers, Mr. Phillips, Mr. Ryan, Mr. Farley, Mr. Aubert, also Mr. Geo. Harlow, Mr. Lewis Annett, Mrs. John N. Asch, Mr. Jos. Cass, Mr. Thomas Miller, Mr.

Dr. Dargy and Advocate Couture of Fox River paid a flying visit to the lighthouse on Saturday.

The work at the new fog alarm is progressing swiftly under the management of Mr. Alphonse Cantin of Quebec who with his able crew of 23 workmen are rushing work.

The haymakers are busy at their hay; they report a good crop.

We hope the weather will be as fine as it has been for the past few weeks; it has been the hottest summer for many years with little or more rain.

Fishing is good now.

Mr. Hurlbert L. Asch purchased a fine new horse.

D. G. S. Minto with his excellency Lord Grey and party on board passed up to-day on route to Quebec.

UPPER CHARLO SCHOOL.

This school opened to day (the 14th) with a large enrollment of pupils for the present time. The school is still in charge of Miss Emma Harquail of Dalhousie who is recognized as a very competent and efficient teacher as shown by the progress of the pupils during the past year.

As there is an enrollment of over fifty pupils the trustees has engaged a class room assistant their choice being Miss Flora McIntyre an advanced pupil of class VI.

The teacher will keep a record of the merit work to which the pupils are daily entitled for good attendance good behavior and satisfactory progress and at the close of the school term the names of the deserving pupils will be inscribed on the merit roll of the school like the merit roll of the past year which is nicely framed and hung up in the school room containing the names of the pupils who won the distinction.

In class VII Gertrude Savie, Mable McNair, Gordon Craig.

Class VI—Ethel Hogan, Flora McIntyre, Byron Craig, Charles McIntyre, Nellie Shannon, Austin Cullahan.

Class V—Eugene McIntyre, Agatha Babin, Winnie Savoie, Melvin Alexander.

Class IV—Howard McNair, Annie Alexander, Laura Shannon, Charlie Cullahan.

Class III—Ello Craig, Hazel McKenzie, Mamie Shannon, Louisa Babin, Edna Comeau.

Proved in Mount Forest.

Every Dr. in this town tried to relieve Mrs. J. Witham of Asthma; none succeeded. "For years, she states I was a dreadful sufferer; nothing gave relief. At times I found it necessary to have all the doors and windows open to get my breath. When in despair I heard of "Catarrhzone." I used it and now am perfectly cured." This proves beyond doubt that any case of Asthma is curable with Catarrhzone. No remedy so pleasant, none so absolutely certain to thoroughly cure; try "Catarrhzone" yourself; it is guaranteed.

NEW RICHMOND.

Although New Richmond notes of last week contained a report of Mr. Edward Steel's death, yet we, the people of Black Cape, feel that we cannot allow your valuable paper to go to press again without also paying a slight tribute to his worth. Mr. Steel was born Aug. 12, 1848 and up to the time of his first illness about the beginning of July was a robust strong man. Although Mrs. Steele called three doctors and a trained nurse, and his sons Messrs John, Ernest and Arthur, and his daughter Pearl, worked day and night and spared not expense to give him all the care and attendance possible yet he succumbed to the disease. Sane Paralysis of the Brain, brought on by overwork on July 30. Mr. Steele leaves six sons and three daughters to mourn the loss of a kind and loving parent. He was married to Miss Emma Cooke of New Carlisle and early in life he took a very active interest in the Temperance cause which continued up to the time of his first illness, having just re-organized the I. O. G. F. He will be ever much missed from schools, Council and Church. He never hesitated to lend a helping hand, and was an active worker in every good cause. The funeral conducted by the Rev. J. F. McCurdy and the I. O. F. was largely attended, and gave evidence of the worth in which he was held by friends and neighbors. God in his wisdom called him to a larger sphere. Our earnest prayer is that He may strengthen and guide the widow and orphans.

On Tuesday Evening Aug the 10th the Lord Bishop of Quebec assisted by the Rev. E. R. Roy of the Matapedia Valley Mission held Conformation at Pomeau Cottage, Black Cape, in the home of Mrs. N. Johnston. The Service was very impressive and a large number were present who listened very attentively to the addresses called the Bishop. There were three Candidates for Conformation two children of J. Meredith of New Richmond and a son of J. A. Campbell also of the same place. The singing was very hearty and Miss Fair kindly presided at the organ. The following morning the Lord Bishop again assisted by the Rev. E. R. Roy held a Celebration of the Holy Communion at 8 o'clock. And after partaking of breakfast left by train for Matapedia. Bishop Dunn by his genial hearty manners endeared all to him. His visit was an outcome of the work done by his son Prof Dunn

of Lunenburg. Mrs. R. Archibole of Archibole Settlement and Mrs. A. McDonald of Onanah, who have been visiting their sister Mrs. Wm. Johnston Black Cape left last Saturday for their home.

School Opening.

The Public Schools of the Town of Campbellton will be re-open on Monday, Aug. 28th, at 9 a. m.

The attention of parents and teachers is hereby directed to the following Laws and regulations relating to Schools:—

(1) Before entering any child upon the Register of any Public School, or admitting such child to such Public School, there shall be produced by such child, or by its parent, or guardian, or some person acting in behalf of such child, a certificate, to the satisfaction of the teacher of such school, or in case there are more teachers than one of any such school, to the satisfaction of the Principal thereof, that such child has been successfully vaccinated within three years from the time of such request for registry or admission; or if such child has been vaccinated within the said period of three years and the vaccination has not been successful, there shall be produced to such teacher or Principal satisfactory evidence that by reason of such child having been previously successfully vaccinated, such recent vaccination will not be successful, or that such child is immune.

(2) No teacher shall enroll upon the school Registers the name of any new pupil IN ANY TERM without the permit of the Secretary of the Board of School Trustees. Teachers shall carefully preserve all permits so received till the expiration of the term.

No permit shall be granted to any pupil for enrollment in Grade 1 (except by transfer) later than THREE WEEKS after the opening of the School in any TERM.
