DEALS.—Says the *Timber News* Liverpool, April 1: Importers at our West Coast ports where stocks are pretty high will read with interest the statement of a correspondent at St. John, N. B., when he says, after unfavorably commenting on our large stocks, "however, we have an unusually large cut this year, and it must go forward somewhere." It is to be hoped that only a moderate quantity will come forward to Liverpool.

MR. ALLISON NOTES.—The students at the ladies' college have all returned from their Easter vacation, and the work of the term is going on smoothly.

—The ladies' college has reason to be proud of its exceptionally good health record for the past winter. Although several maladies were epidemic there was not a single case of illness during the whole term.

—The Ecclesiastical Society will give their usual entertainment in Beethoven Hall, on Friday, 28th inst. A high class literary and musical program will be given and among other special novelties announced will be a tennis drill by 16 young ladies, and stately and chorus by "the first sunflowers of the season." Further particulars by posters.

Our Word has been received here of the death of Isaac Thompson, son of Benjamin Thompson, Upper Sackville, which occurred at Newburyport, Mass., a fortnight ago. The deceased left Sackville 5 years ago, and was at the time of his death about 60 years old.

Their large circle of friends extend heartfelt sympathy to Mr. and Mrs. Fred Ryan in their hour of sorrow over the death of their youngest son, little Russell. The little fellow was sick but 48 hours before he passed away. The funeral takes place this afternoon.

In another column is chronicled the death of Mrs. Wm. B. Fawcett, which occurred at her residence, Upper Sackville, on Sunday last. The deceased lady has been unwell for the past two years, but during the winter had been a greater sufferer than usually. The funeral took place yesterday. Mr. Fawcett receives the full sympathy of the community in his bereavement.

A telegram was received here on Monday announcing the death at Pasadena, Cal., of Robert Miller of Amherst. The deceased suffered from consumption and in January last with Mrs. Miller went to California in the hope that the climate would prove beneficial. For a time the patient felt an improvement, but it was only a temporary one. However, he was decided away on the 10th. The body left the west for interment at St. John yesterday. The deceased leaves a wife, formerly Miss Bell of Sackville, and mourns her loss.

Local Matters.

W. S. Hooper, agent of the Dom. Express Co. St. John, "tepped quietly to the States last week.

Word has been received from Hopewell Cape of the death of Capt. Barlow P. Jamieson, of the long Enterprise, which occurred either at Santos or on the voyage from Great Britain to that port. The deceased was 40 years old. He leaves a wife and two children at Hopewell Cape.

It has been reported in Memramook and adjacent places that Mr. Andre A. Viennet, of Memramook, had forged a policy to secure money from Rev. F. Lefebvre. Other reports of minor importance have also been circulated. All Mr. Andre Viennet has to say to these evil accusations is that they are utterly false in every respect, and he defies any man to prove the contrary.—Times.

Says the Times: Upwards of 50 friends gathered at the residence of Conductor John Berry, Robinson street, Wednesday night, to celebrate Mr. and Mrs. Berry's twentieth wedding anniversary. The evening was very enjoyably spent by all present, the gathering breaking up in the small hours of the morning. The handsome and useful presents of which Mr. and Mrs. Berry were the recipients, evidences the esteem in which they are held.

It is reported that M. A. Howard, formerly of Chatham, but who recently purchased the oyster saloon of Mr. Monahan, has eloped with a girl named Brown, of Salisbury. Howard left here Tuesday last saying that he was going to Salisbury to engage the girl in question to work. It is alleged that he was last seen in St. John in company with the girl in question. Mr. Howard arrived here from Chatham on Saturday to look into the matter.—Transcript.

Looking for Manufacturers.

The Success that Attended a Three Months Session of a New Concern.

A chosen committee of shrewd business men of the St. John board of trade met a few days ago to consider in what way the City would induce more manufacturing; to talk over the possibilities of their town for manufactures, and to make known its advantages.

This is one of the signs that the people of St. John are alive and seeking to increase its business and manufacturing output. Another sign is the success of the latest manufacturers and the success of the Hawker Medicine Company, which has just completed its first quarter of business. This is notably the case with the Hawker Medicine Company, which has just completed its first quarter of business.

This is the spirit with which these men took hold of the Hawker remedies, and the push and ability shown by the directors and management since the first of January has been such that as at the end of March the showing was such as to surprise, even the most sanguine directors. What is stated that the sales were so large that one quarter of their value paid their entire newspaper advertising, which appeared in seventy-five newspapers in the maritime provinces, then some idea can be formed of the popularity of the goods.

Much of this is due to good advertising, to practical traders and to energetic management; but all this would have been in vain, had not the Remedies themselves possessed the true secret of popularity—they are what they are represented to be.

—W. C. McDonald the millionaire tobacco man of Montreal has given half a million dollars to McGill to be applied to the law and arts departments. This makes nearly a million and a half he has given. His fortune is said to be between five and six millions.
