Walker; Secretary-Treasurer, C. C. McNaughton; Directors—Charles Webster, F. J. James, D. A. Mitchell, A. Gardiner and R. H. Murray.

FARM LOANS
Apply to V. T. FOLBY, 82 King Street, West, Chatham. Phone 180.

DISTRICT AND GENERAL

A new town hall will be built at Florence.

It costs 10 cents a day to board the prisoners in the Kent county jail.

Sinclair Meteor, aged 69, of Dutton, committed suicide by cutting his throat with a razor.

The annual reunion and picnic of the Graham clan will be held at Springbank on July 24.

Nearly 3,000 United States cars were handled by the ferries at Sarnia in one day recently.

Kent county has over one hundred garages in actual operation, not including gas filling stations.

Ontario auto license markers for 1925 will be the reverse of 1924 yellow figures on a black ground.

Wm. A. Campbell has been appointed postmaster at Strathroy in succession to the late David Evans.

The five-year-old son of Geo. Copley, of Raleigh township, had a foot nearly cut off by a mowing machine.

Dr. McWilliams, of London, has set out 40 acres of young walnut trees on his 100-acre farm near Evelyn.

A bill providing for Government inspection of Canadian banks has passed its final stage in the House of Commons.

The Butler woollen mills at Strathroy were partially destroyed by fire, entailing a loss on plant and stock of about \$30,000.

Edward Mooney, catcher for the Hesper baseball team, was bitten by a snake while in swimming and his ankle is badly swollen.

The Young People's League of Strathroy Methodist District will hold their annual field day on Wednesday, August 27, at Appin.

A former near Lansing, Mich., stabbed his wife nearly to death with a pitchfork, burned his barns and blew his face off with a shotgun.

The air tank in a garage at Court-right exploded and was blown through the roof. C. Jarvis, employed in the garage, narrowly escaped death.

Mrs. Annie Campbell, wife of John M. Campbell, of Chatham, died in the hospital there on Wednesday, aged 66 years. She was a daughter of the late James Dillon, of Raleigh.

John McGill, one of the pioneer residents of Aldborough, died last week, aged 89 years. He came from Scotland 72 years ago and lived on the farm where he died about sixty years.

Heads of families will now enjoy an exemption from income tax of \$500 for each child, instead of \$300, as a result of the adoption by the House of Commons of the Budget resolution proposing this increase in exemption.

Margaret Shields, widow of the late Archibald Campbell, died at the family residence on the ninth concession of Brooke on Wednesday. She was born in Scotland 80 years ago and came to Ontario when ten years of age.

After being in use for some fifteen years, the third and fourth readers of the public schools in the province will be changed after the coming school year. The public school speller and the public school hygiene will also become obsolete.

A recent report that the Federal Government is seeking an assistant or understudy for Hangman Ellis has caused four residents of London and Middlesex county to apply to the county jail for the job. They are satisfied with the suggested remuneration of \$1,000 annual retainer and \$75 a head for executions.

The death occurred at the home of her daughter in Middlemiss of Mrs. Jane Brown, widow of the late Joseph Brown, aged 72 years. Mrs. Brown was born in Metcalfe township. She leaves a family of six—William, Silas and Mrs. Alex. Williams, of Middlemiss; Thomas, of Newbury; Pernie, of Windsor, and Mrs. Whiteman, of Strathroy.

Magistrate Arnold, of Chatham, made a few caustic remarks about the new egg-grading laws when a case came before him in which two Chatham merchants were accused of breaking the regulations. The magistrate pointed out the difficulty of the farmers in conforming with this law, and concluded with the opinion that the people in these days were legislated to death.

Elgin county authorities are somewhat perplexed as to what action to take in the collection of more than \$5,000 in tax arrears and interest on that portion of the famous Dunwich swamp owned by a Toronto syndicate. The land was acquired some years ago for speculative purposes. Last year the county authorities decided to hold a tax sale in order to secure the arrears, but action was later deferred until this year.

SEVERAL HURT IN AUTO CRASH

Cars driven by Cecil Brown, of Tilbury, and Mrs. Keith Black, of Ekfrid, collided on the Longwoods Road at the intersection of No. 12 sideroad in Ekfrid on Sunday and the occupants injured more or less severely. Both cars were badly damaged and thrown into the ditch.

Mrs. Black was driving alone on the sideroad in the direction of Appin, while in Mr. Brown's car besides himself were Mrs. Brown and two children and Mrs. Calder and her little son, driving east on their way to visit friends at Hamilton. Mr. Brown was the only one to escape injury, though none of the others were seriously hurt, their injuries consisting of cuts and bruises more or less severe and nervous shock. They were all able to be about next day.

The Browns and their friends returned home to Tilbury on Tuesday, driving their car which was in the accident.

A similar accident occurred at this corner two or three years ago with somewhat serious results. It is stated that a clump of small pine trees prevents a clear view of the roads here.

THE LATE MRS. TOMLINSON

The death of a well-known and highly esteemed resident of the community occurred on Tuesday, July 8, when Mrs. William Tomlinson, 87, passed away after a brief illness at the home of her husband in the Gore of Ekfrid. The deceased lady was in her 86th year.

The late Mrs. Tomlinson was born in Ireland and was the daughter of the late John and Mary Lackie. She came to this country at the age of seven with her parents and the family settled in West Nissouri. She and her husband seven years ago celebrated their golden wedding.

There are five children—Edward, at home; John L. and William, of Glencoe; Mrs. J. E. Booth, of Toronto, and Blake, of Hamilton.

The funeral service was held at her late residence on Thursday afternoon and was conducted by Rev. D. G. Paton, of the Glencoe Presbyterian church, of which the late Mrs. Tomlinson was a member. There were many evidences of sympathy and the clerk is hereby instructed that the deceased was held. The pall bearers were six nephews. Interment was made in Oakland cemetery.

MOSA COUNCIL

A meeting of the Mosa council was held at Newbury on June 21st. All the members were present. The minutes of the last meeting were read and adopted.

Moved by A. McCready, seconded by J. A. Leitch, that Ross Willick be paid \$4, damages to auto owing to defective road; P. E. Lumley, \$18.20, for formaldehyde used in fumigating. Carried.

Moved by James Gilbert, seconded by A. McCready, that the application of James Bunda to have the Frederick Marsh drain repaired be accepted and the clerk is hereby instructed to request James M. McGregor, C. E., to make an examination of the said drain and report to the council. Carried.

The council adjourned to meet at Glencoe on July 19th at 1 p.m.

MISSIONARY MEETING

A regular meeting of the W.M.S. of the Presbyterian church was held at the home of Mrs. David F. Eddie on Tuesday afternoon, at which about sixty ladies of the congregation were present. Mrs. D. H. McRae had charge of the meeting. Mrs. (Rev.) G. S. Lloyd gave a message of encouragement in the good work being accomplished by the W.M.S. in gathering together and each doing her part to serve the Master. An outstanding feature of the meeting was the presentation of a life membership certificate to Miss Evelyn McLachlan in memory of her mother, the late Mrs. (Dr.) J. Y. McLachlan. A pleasing solo, "Do Something for Somebody," was sung by Mrs. A. E. Sutherland. The meeting closed with the Lord's Prayer. A dainty lunch was served by the hostess.

DEATH OF SARNIA LADY

The death occurred on Thursday, July 10, at the home of Mr. and Mrs. John Hick, Glencoe, of their niece, Mrs. Harry Hick, of Sarnia. The remains were taken to Sarnia on Friday and interment was made at that place on Saturday. Mrs. Hick leaves two sons and a daughter in Sarnia and a married daughter in England. Her husband died on May 11th of this year.

NEWBURY MEETS MT. BRYDGES

Newbury, July 14.—A fast game of ball was played in Newbury on July 12 between Walkers and the home team, the score being 2 to 1 in favor of Newbury. Batteries:

Walkers—Fletcher and McCallum; Newbury—Connelly and Fletcher.

Connelly had 11 strike-outs and Fletcher 10.

This was the last game between Walkers and Newbury.

The standing in the Big Four League:

Mt. Brydges, .667; Newbury, .667; Walkers, .500; Glencoe, .167.

A series of games will be played by Mt. Brydges and Newbury to determine the winner of the cup.

HIGH SCHOOL ENTRANCE

Results of the examinations for entrance to Glencoe High School are announced. Of sixty-five candidates writing all but nine were successful, as follows:

Ross Allan
George Berdan
Mabel Black
Evelyn Boyd
Archie Carruthers

TEACHERS' SALARIES

"It costs Middlesex county less to pay \$1,000 salaries to school teachers than it does to fix salaries at \$800," declared County School Inspector P. J. Thompson, of London, last week. This seeming paradox is explained in that the grant to school boards in rural districts paying higher salaries is much larger than the grants to those paying \$800 or so. On Thursday copies of the government schedule of grants were received at Inspector Thompson's office. Rural schools are particularly pleased with the maintenance of the old scale of grants. In districts of high assessment only a 5 per cent grant is made to schools paying less than \$800 a year to individual teachers. The system of grants is arranged on a rising scale, so that salaries of \$1,000 and over are assisted by 20 per cent. Inspector Thompson points out that Middlesex county is really saving from \$25 to \$35 on each salary by maintaining the higher mark in salary lists.

HIGH SCHOOL PICNIC

The third and fourth forms of the G. H. S. held a picnic at Springbank on July 9th. There were about thirty pupils present, chaperoned by Mr. Forke and Miss Steele. Most of the afternoon was spent in amusements and tennis. At five o'clock all sat down to a table laden with pies, cakes, tarts, sandwiches, chicken and pickles. The evening was spent in various entertainments. At ten o'clock the party left for home, after a most enjoyable day long to be remembered by those present.

POLICE COURT

Police Magistrate Morrison on Tuesday rendered his decision with regard to the charge against Miloe Miller and William McMaster charged with being intoxicated in a public place in contravention of the Ontario Temperance Act. The offence was alleged to have been committed at a ball game between Pratt's Siding and Wardsville on the 2nd of July. The magistrate decided that the evidence was not sufficiently clear, within the meaning of the Act, to warrant a conviction, and accordingly discharged the accused.

James A. Beatty, of the township of Mosa, appeared before Magistrate Morrison charged with having in his possession in an unlawful place a "Black Jack," or what is described in legal terms as a "skull cracker." The accused pleaded guilty to the charge and was fined \$10 or ten days. The weapon was discovered in the car owned by Beatty when Inspector Bolton was doing some investigating during the hearing in the Miller and McMaster case.

SPEED COP HURT

While chasing a speeding car on the provincial highway Sunday Arthur Black, provincial traffic officer, hit a rut on the road and was precipitated with his motorcycle into a ditch, sustaining a fractured collarbone. The accident occurred near Bothwell. County police will take up patrol work until another officer is sent down by the chief traffic officer at London.

ANNOUNCEMENT

From now on you will find me at the old stand next to post office, with a full line of both new and used cars, tires, auto accessories, gas and oil. A liberal share of your patronage solicited, and satisfaction guaranteed.—Wm. McCallum.

MORE SAFETY

More safety and fewer accidents is a great need of this country. There are too many preventable accidents on the streets, in the homes and in industry. In this province alone industry pays, through the Compensation Board, an annual tax of about six million dollars for accidents and this is only part of the loss, for the employer and employee alike suffer every time there is an accident involving loss of time. Safety is largely a habit of mind and like other habits can be acquired. "Thinking safety" will, therefore, produce safety, so that both management and workers should give thought to accident prevention to the end that the awful toll in human suffering and the very considerable sums of money lost may be reduced to a minimum.

More safety is a reasonable demand of industry in this country and is a demand which both workers and executives will support.

The Monk of Afflighem— A Musical Legend.

It is to be expected that music which is inextricably connected with the growth of the human race, should furnish the world with a wealth of legendary lore. And what legends there are! Musical history is full of them.

One, particularly, will interest music lovers. It is the story of the Monk of Afflighem, taken from Engel's Musical Myths and Facts. The story goes: "Towards the end of the eleventh century at the Abbey of Afflighem, in Dendermonde, East Flanders, when the pious Fulgentius was Abbot, an old monk no one ever remembered having seen before, knocked at the door of the monastery and announced himself as one of the brotherhood. The pious Abbot Fulgentius asked him his name, and from what country he had come. Whereupon the monk looked at the Abbot in surprise, and said that he belonged to the house. Being further questioned, he replied that he had only been away a few hours. He had been singing the Matins, he said, in the morning of the same day with the brethren. When, in chanting, they came to the verse in the nineteenth Psalm, which says: "For a thousand years in thy sight are but as yesterday," he pondered upon it so deeply that he did not perceive when the singers left the choir. He remained singing alone, pondering over the words. Presently he heard heavenly strains of music, and on looking up saw a little bird which sang with a voice so enchantingly melodious that he arose in ecstasy. The little bird flew to the neighboring wood, whither he followed it. He had only been a little while listening to the song of the bird, and now in coming back he felt bewildered. The appearance of the neighborhood was so changed he scarcely knew it again.

"When the pious Abbot Fulgentius heard the monk speak thus, he asked him the name of the Abbot and the king who governed the country. And after the monk had answered him and mentioned the names, it was found to the astonishment of all that there were the names of the Abbot and the King who had lived three hundred years ago. Whereupon the monk lifted up his eyes, and said: "Now, indeed, I see that a thousand years are but as one day before the Lord."

"He then asked the pious Abbot Fulgentius to administer to him the Holy Sacraments; and having devoutly received them, he expired."

Truth Without Tears.

With all reverence, there might be added to the Beatitudes: "Blessed are the softeners of the truth, for they shall be well liked."

As we go through life there are times when the truth must be told. It can be spoken so that it hurts, or it can be softened so that little pain is felt. The truth gets home, but the point is not blurred. So: "Blessed are the softeners!" say I.

What makes a "softener"? Well, "softeners" are they who make it a rule to be courteous, always, everywhere and to everybody. They are unselfish, too, for they realize that it is not only the speaker of words who has to be thought of, but those who have to listen.

"Softeners" can perform an unpleasant duty pleasantly, and with consideration. They realize perhaps from personal experience—that hard words hurt tender hearts, and thus, when duty compels something hard to be said, they soften it.

We're not here very long, and we pass this way but once. And if, as it should, the appeal "to do all the good we can while we can" commends itself to us, then we can do a great deal of good by being "softeners."

Work—a beginner's work, his or her best, but very poor—may have to be criticized. A "non-softener" will hurt, and crush the spirit of the worker. A "softener" will so put his criticism that it will spur to better effort. It's not so much what we say as how we say it.

The other week in this town there was a house to let. It was taken within an hour. But for the rest of the day, and the next day, too, there came—with others—brides and would-be brides, with a great hope in their hearts that they might secure the prize and either be able to marry, or, if married, get out of uncomfortable "rooms." The landlord might have snapped an impatient "House is let!" to those who kept bothering him, but he was a "softener."

"I'm very sorry to tell you the house has been taken," he said sympathetically. "Hope you'll soon get one. Leave your name and address, and if I hear of anything I'll let you know. So sorry!" he said.

Courtesy, consideration, pity, and a little encouraging hope for the disappointed. Have you got the recipe?

A Helpful Porter.
It was the new porters first day on duty at a busy junction in Scotland. He had been instructed, says the Tattler, to shout on the arrival of each train, "Carstairs, change here for Edinburgh," but on the arrival of the first train he became so agitated that he forgot his words and raged down the platform shouting:
"Change here for whar ye gain. A' you in there here come out."

An ordinary railway engine is equal in strength to 900 horses.

RED ROSE

For particular people—
Roasted and packed same day in airtight cans

Surnames and Their Origin

WELDEN.
Variation—Weldon, Welby.
Racial Origin—English.
Source—A locality.

Welden, or Weldon, the latter of which is simply a different way of spelling the same family name, is easily established as a surname which in its first use merely signified the place at which, or near which, the bearer dwelt.

But you wouldn't know how the place name came into being unless you were unusually familiar with the less common words of the English language, or knew something of the ancient Anglo-Saxon speech.

The place name is composed of two Anglo-Saxon words, "weald," which means "wood," or "wooded," and "den," which in the speech of these first Englishmen did not mean a cave, but a depression in the ground, a little valley. The meaning of the combination is clear.

It has been held by some that the name is a combination of "weald" and "den," "den," or "ton," the ancient equivalent of our modern word "town," and that the ending "den" is but a change in spelling. The reverse, however, is the more likely explanation, for towns and fortified places in those days were not "wooded," but quite naturally, always cleared.

Welby is a family name derived from a place name which is a combination of "weald" and "by," signifying a habitation.

PITTMAN.
Variation—Pittman, Putman, Putnam.
Racial Origin—English.
Source—A locality.

Right away it comes to our minds, Pitman, Putman, Putnam.

It is one of the most helpful of exercises. It does not necessarily express boredom. It indicates relaxation and freedom from poisons in the system.—Dr. F. P. Millard, of Toronto.

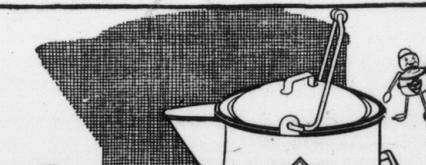

Mix Mustard this way

Mix Keen's Mustard with water to the consistency of a thick paste. Add water until the desired thickness is obtained. If a milder flavor is desired mix with milk. Mix mustard freshly for every meal.

but it must be Keen's

30,000 Island Route Georgian Bay

Daily service between Midland and Parry Sound. Fishing and Scenery unexcelled. Excellent train service from Toronto. Good Auto roads to Midland. Our Boat trips will please you. When in the Woods.

When in the woods be sure your match is out before throwing it away; don't throw cigars, cigarettes, and pipe ashes on the ground without being absolutely sure they are out; build small campfires away from brush and small trees; never leave your campfires unwatched; make sure you thoroughly extinguish your campfire with water; when it is dead bury it in wet earth; see that others do likewise; report to responsible parties all forest fires large and small.

WOMEN'S HANDICAPS

Headaches and Backaches Often Make Life Miserable.

A woman's health handicaps her almost always. She has pains and disabilities which do not afflict men. Nature does not give her a fair chance. Her blood is more often thin and poor than a man's, and she often neglects the first beginnings of ill-health. Many women who seemed destined to a life of frequent suffering have been freed entirely from their suffering through the wonderful blood-making qualities of Dr. Williams' Pink Pills. Many a woman toils all day with a pain in her back and side, a burning headache, and a sense of having no spine left.

What a pity women will not listen to their friends whom Dr. Williams' Pink Pills have saved from their misery. Whenever a woman suffers they will help her—in youth, middle-age and afterlife. Mrs. John Mitchell, of Mitchell, Ont., gives her experience for the benefit of other women sufferers. She says:—"Some years ago I was so badly run down I could hardly walk around the house. I tried to do a few chores but was able to do very little. My boys and husband had to do the rest. If I started up stairs I had to go very slow or I would fall, and I was just played out when I got to the top of the stairs. My head ached terribly, and my heart would beat violently. In this deplorable condition I began taking Dr. Williams' Pink Pills. When I had finished six boxes I felt much better. Then I got a further supply, and by the time I had taken these I could walk anywhere without being exhausted, the headaches had disappeared and I am now perfectly well. Any woman who is run down should not hesitate to begin Dr. Williams' Pink Pills at once, as I am sure from my own experience they will build her up."

You can get these Pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Portrait of An Old Lady.
As charcoal sketches, deft and spare. Suggest a foam that is not there; The low unshadowed coils of white Have coroneted her with light.

Her faintly colored lips are sweet With measured smiles that they repeat. And quaint reflective lights abide In eyes that evening opens wide.

The soft dull coolness of her flesh Has netted stillness in a mesh Of silky lines that touch with lace The mellow plainness of her face.

Where life, the wistful warrior-king, Recording battles, learned to sing. And left his dreams in low relief Like shadows in a curled-up leaf.

Very Necessary.
A clergyman was questioning a Sunday-school class and turned to the subject of baptism.

"Now, children, can anyone tell me what are the necessary things for baptism?"

Naturally he received the reply, "Water."

"Oh, yes, that is one, but can any of you think of the other?"

After a long silence a small girl held up her hand.

"Well, my dear, what is the other necessary thing?"

"Please, sir—a baby!"

Send a Dominion Express Money Order. They are payable everywhere.

Not Poison at All.
He lay on the roadside groaning and writing in pain. A policeman, hearing the groans, hastened towards him, inquiring what was the matter. He could get no definite answer. The man muttered again and again: "I ate one too—I ate one too."

The limb of the law soon arrived at a solution of the problem.

"Poison," he said to himself. Hastily procuring what he thought would be a suitable antidote, he administered it to the man.

The result, however, was rather surprising. Like a shot the man sat up and asked why he was subjected to such treatment. On being told he became angry.

"What did I eat?" he yelled. "Why, you idiot, 1812 is the number of the car that knocked me down!"

Ominous Signs.
"Uncle Dunkle is losing his mind, I verily believe!" said Farmer Fumblegate. "I was over at his house this afternoon, and he certainly acted mighty queer."

"Morty asked!" ejaculated Mrs. Fumblegate. "What did the poor old man do?"

"Why, I told him several stories, and as sure as I stand here not one of 'em reminded him of another story!"

Minard's Liniment Relieves Pain.

A New Kind of Rhythm for the Musician to Fathom.

Music lovers, take note! Someone has discovered a new kind of rhythm. Not the rhythm of the orchestra—not the rhythm of shuffling feet—not the rhythm of the proverbial alarm clock—but the rhythm of city life—the rhythm of London, the capital city of the British Empire.

The discoverer apparently has visited London recently. Whether he is a musician or not is not known. He doesn't mention the music at Queen's Hall, Albert Hall, St. Paul's, Westminster Abbey, or other places where music is expected to, and really does, flourish. Which makes us think he isn't a musician. On the other hand, as the following observations will testify, there is every probability he knows more about music and rhythm than the average person will ever hope to know. He states:

"There is one thing which impresses before all others, that thing is the rhythm of London; the eternal orchestration of London life, which rolls and jells of endless moving vehicles, and the myriad movements of countless people, expressing every key and every tone of sound, ringing the changes on every harmony, rising and falling in a perpetual diapason, like the undercurrent of organ music in the service of a great cathedral. The rhythm of London is the most subtle and the most fascinating characteristic of the capital. It is something more than mere sound, something more than a great orchestral piece; it is a part and parcel of the monster city, the very garment of her; the folk song she croons to herself and her millions, and the banner of sound she waves aloft to heaven as a sign for all who come near her."

RED HOT JULY DAYS HARD ON THE BABY

July—the month of oppressive heat; red hot days and sweating nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Trained to the Work.
1st Train Passenger—"Say, how'd that chap succeed in getting that window open?"

2nd Ditto—"Not so loud—I know him. He's a reformed burglar, you see."

GREEN TEA IN GREAT DEMAND.

Twenty-five years ago, Green Tea was more popular than Black, but due to the heavy importation of poor quality Japan and China Green Teas, the demand fell off. Ceylon and India started producing Green Tea on a large scale only in recent years. They were of such quality and delicious flavor that Green Tea drinkers immediately recognized their superiority and demanded them in ever increasing quantities. Salada Tea Company is practically the sole importer of Ceylon and India Green Teas in Canada.

He who feels the advantage ought also to feel the burden.

The best thing about telling the truth is that you don't have to remember what you said.

NEW DISCOVERY ROUTS CHICKEN LICE

Mineralize Water Gate Hind of Venereal or Granular. Liria Detoxe Themselves. Fine for Eddy Chicks and All Poultry.

This wonderful product keeps the poultry always free from the poultry louse doing any work. It is the simplest, easiest, surest and best method ever discovered.

Lice-Go, which is the name of this remarkable line remedy, is dropped in the chicken's drinking water. Taken into the food, the lice are got out through the oil glands of the skin and every lice or mite leaves the body. It is guaranteed to help the healthfulness of the egg and cause before the hatching of the egg or chick to be harmless to chicks and does not affect the plumage. A "five day" treatment at the start and then a little added to the drinking water each month is all that is necessary.

John H. Cooper, Bedford, Ont., says: "I purchased a package of Lice-Go from you last summer, and I gave some to a friend for his chicks that were very lousy, and he was so surprised at the results that they want me to send for some more."

M. A. Upshur, Bedford, Ont., says: "The Lice-Go does all you say they are. Will send larger order later."

Send no money—just your name and address. A card will do. We are so confident that Lice-Go will get rid of every louse or mite that we will send you one large trial package free of charge, enough for 100 chickens of water. When it arrives, pay postman with 25 cents for the next order. The trial package is absolutely satisfied after 30 days' trial your money will be refunded without question or argument, if 25 cents please. Send no money, have your own free cash orders prepaid. The A. B. WARDER Co., Sole Distributors, Box 11-B, Winton, Ont.

Mystery Creatures of the Jungle.

To those who imagine, as many do, that Nature has no further surprises in store for us in the shape of new animals and birds, the news that an expedition is in South America attempting to capture the hoazin, a very rare species of water fowl, will come as a surprise.

But the hoazin, with its cockatoo crest and its formidably powerful beak is by no means the only mystery creature known to exist today.

In the heart of Central Africa, where the jungle in many places has never been penetrated by white men, there is to be found a strange leopard-like animal striped after the fashion of a zebra, that so far has evaded classification by natural history experts.

What is known as the hippo-horse is another mysterious beast that roams the African wilds. The natives have long spoken of it, but it was not until a few months ago that a white man, Mr. H. E. Lee, made its acquaintance.

He saw the animal half-immersed in a pool. Its mouth, cheeks, and ears were like those of a horse, but its head was like that of a hippopotamus, with two long, erect horns on its snout.

The New Guinea forests are believed to be the home of more than one animal unknown to natural history, while the dense jungles of Borneo and Brazil contain others, among them a long lizard-like creature that is said to be capable of flying.

The Giant Bush Pig of Kenya Colony is another beast that is so rarely seen that its existence is doubted by some, although several reputable travellers claim to have observed it.

He Didn't Need to be Told.
A certain sales manager down in Connecticut, says Hidden Treasure, was administering a well-deserved rebuke to one of his salesmen recently. The salesman became indignant and said, "Don't talk to me that way! I take orders from no man!"

"I noticed that in the report of your last trip," replied the sales manager softly.

SUFFERED WITH ECZEMA 3 YEARS

Itched and Burned So Could Not Sleep. Cuticura Healed.

"I suffered for three years with eczema which broke out on my limbs, and soon spread to my neck and forehead. It itched and burned so that it was most impossible to sleep at night, and every time I scratched it, it would bleed. The itching out caused disfigurement."

"I began using Cuticura Soap and Ointment and after the first week I got relief. I continued the treatment and in about six months I was completely healed." (Signed) Mrs. George Pottle, R. F. D. 1, Box 22, Freedom, Me., Aug. 15, 1923.

Use Cuticura for all toilet purposes. Sample Each Free by Mail. Address Canadian Branch, 100 St. James Street, Montreal. Price: Soap 25c, Ointment 25c and Jar, 50c. Write for our new Shaving Stick.

MRS. BUDGE SO WEAK COULD HARDLY STAND

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

River Desert, Que.—"I used to have a severe pain in my side. I would be unable to walk fast and could not stand for any length of time to do my ironing or washing, but I would have to lie down to get relief from the pain. I had this for about two years, then a friend told me to try Lydia E. Pinkham's Vegetable Compound, as she had had good results. I certainly got good results from it, too, as the last time I had a sore side was last May and I have not had it since. I am also glad of having good nursing for my baby, and I think it is your medicine that helped me in this way."—Mrs. L. V. BUDGE, River Desert, Quebec.

If you are suffering from the tortures of a displacement, irregularities, backache, headaches, nervousness, or a pain in the side, you should lose no time in trying Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write for it to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario. This book contains valuable information that every woman should know.

The indications of worms are restlessness, grinding of teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased

The Transcript
 Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—in Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.
 Advertising.—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townpeople. It is a first-class advertising medium. Rates on application.
 Job Printing.—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.
 A. E. Sutherland, Publisher.

The Prince of Wales described Canada in very happy language when he spoke of this Dominion as "a great, clean country, full of hope and confidence in the future."

After a young couple from Arkona were married in a Forest church they requested the local newspapers to make no mention of the event. It would be interesting to know which was "shamed of" other.

There is a proposition to dredge the Thames River from London to Chatham, presumably to make it navigable. Before public money is wasted on such a project, it might be well to recall London's calamitous experience in 1881 at navigating the Thames.

With an increase in motor car traffic as great in the next few years as in the past, it may even be necessary to provide separate paths for bicycles and horse-driven vehicles, as well as for pedestrians, suggests the St. Thomas Times. Then another for the road hog and one for the boozier.

Quite frequently United States tourists in Canada may be seen flaunting their country's flag on their cars, omitting the British flag or giving it a secondary place. If these flag-wavers choose to make themselves ridiculous in this manner Canadians will not object. In fact we rather enjoy its amusing side.

The big printing firms of Toronto which have the name of their publishing house prominently advertised on every school book they publish do not print text books at the price advertised on the books. They get direct grants from the Legislature to pay the cost of the plates and any loss they may have at the low price of printing the school books. This

extra comes under the heading of what is known as subventions to publishers as supplementing retail prices of text books. Here's the haul six firms got from the Provincial Treasury:—Copp Clark Co., \$13,578.18; T. Eaton Co., \$106,692.94; W. J. Gage & Co., \$13,212.76; Hunter Rose Co., \$174.59; McMillan Co., \$1,475.16; Ryerson Press, \$22,921.15. The T. Eaton Co. isn't printing those public school books so cheaply after all.

The problem of finding farmers to buy the farms in Western Ontario vacated by retirement and other causes is receiving the attention of the Western Ontario United Boards of Trade, in the solution of which cooperation is sought. The question is discussed in an article which appears in another part of this paper, which should be read and given due consideration. No class of the community is in a better position than the farmer to discuss the problem and assist in arriving at its solution, and we would be very glad if some of our farmer readers would state their views in letters to the editor for publication in The Transcript.

As a farmer to see his horses, cattle and grain, and not as a sight-seer to entertain and be entertained, the Prince of Wales comes to Canada in August. Thus, in his own way, His Royal Highness is doing his bit for agriculture, the world's greatest basic industry.

Existing immigration restrictions will be continued according to the Canadian Minister of Immigration, who said that a lifting of these precautions would result in artisans and laborers of Northern Europe flocking to Canada in large numbers.

A future Jewish nation on old Jewish territory, Palestine, will be the subject of an international Jewish Conference in Jerusalem in December. About fifty million dollars has been subscribed by American Jews to pay the expenses of the emigration of 50,000 Jews to Palestine yearly.

Supplementary estimates provide \$200,000 to assist in cheapening the carriage of coal from Alberta mines to Manitoba and Ontario. Few people will criticize an experiment looking to the independence of our country in a commodity which is used in almost every Canadian home.

Following close on the heels of Dr. Glover's tuberculosis serum, and Dr. Hanting's insulin, comes a cure for paralysis by Professor Hunter and Dr. Boyle, of Sydney, N.S.W., who claim to have obtained remarkable

results. Research having to do with the relief of human suffering is one of the best finger points of the present age.

The Crow's Nest Pass Agreement, which came into full force again on Monday, affects freight rates in Western Canada, providing substantial reductions on specified commodities. According to the Shippers' Bureau at Winnipeg, the schedule of freight rates which has again become effective will mean a saving of at least ten million dollars a year to the consuming public and will materially assist in the progress of the West.

That only twenty per cent. of the electors voted in the prominent by-election in Northwest Toronto when W. H. Edwards, Conservative, was elected, is a recent evidence of the wide-spread neglect of the ballot. Dr. Joseph Fest Newton, late of London, an internationally known student of public affairs, stated the other day that taking all kinds of elections into account, hardly more than thirty-five per cent. of the people entitled to vote ever voted on any issue.

A decrease in gross receipts of the Canadian National Railway is responsible for the offer of President Thornton and staff to work one day a month without pay, a reduction of 4 per cent. in the monthly cheques. If all "married" employees not under agreement but receiving at least \$150 a month, and "singles" at \$100 a month or over, accept this lead, an annual saving of about \$5,500,000 will be effected. The direct effect of this innovation would be to keep more men employed and thus distribute the load.

AUCTION SALES

On lot 17, con. 3, Ekfrid, on Tuesday, July 22nd, at 1 o'clock:—1 aged mare; 1 Percheron gelding, 7 years old; 1 Percheron gelding, 4 years old, weight about 1600 lbs.; 1 chunky driver, 5 years old, well broken; 5 cows, freshened last spring; 1 cow, newly freshened; 1 cow, with calf by side; 1 cow, due to freshen soon; 7 calves; 1 sow; 11 shoats; 35 Rocks, bred-to-lay; 25 Rhode Island Reds, bred-to-lay; 150 Rhode Island Red Chicks, bred-to-lay strain; 100 mixed chicks; 28 young turkeys; 2 hen turkeys; 27 goslings. NOTICE TO CREDITORS

In the Matter of the Estate of Thomas James Devlin, Late of the Township of Ekfrid, in the County of Middlesex, Farmer, Deceased.

Notice is hereby given that all persons having any claims or demands against the late Thomas James Devlin, who died on or about the second day of July, 1924, are required to send by post prepaid or to deliver to the undersigned, Solicitors for Hazel Elizabeth Devlin, Administratrix of the estate of the said Thomas James Devlin, their names and addresses and full particulars in writing of their claims and statements of the securities held by them.

And take notice that after the 16th day of August, A. D. 1924, the said Hazel Elizabeth Devlin will proceed to administer the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which she shall then have had notice, and that the said Hazel Elizabeth Devlin will not be liable for the said assets or any part thereof to any persons of whose claim she shall not then have received notice.

Dated at Glencoe, Ontario, the 14th day of July, A. D. 1924.
ELLIOTT & MOSS,
Solicitors for the said Hazel Elizabeth Devlin.

Best garden party of 1924, Monday, July 21st, on grounds of W. D. Moss. Hear the Brunswick Trio, "The Harmony Boys," comedian and musical specialists, and the Syncope Orchestra. Decorated refreshment booths. Admission, 35c and 15c.

A GOOD NAME THE BEST ASSET:—A good name is rather to be chosen than great riches, and loving favour rather than silver and gold.—Proverbs 22: 1.

TOWN AND VICINITY

Miss Gladys Bechill has been engaged to teach in a school near Merlin.

S. S. No. 7, Ekfrid, have engaged their teacher, Miss Catharine Eddie, for another term.

P. J. Morrison has sold the house and lot next to his residence on Victoria street south to W. F. Hayter.

Miss Gladys Lunn, teacher in Union S. S. No. 14, Metcalfe, has been engaged by the trustees for another term.

Special attention is directed to Mrs. W. A. Currie's July Clearing Sale announcement elsewhere in this issue.

Motorists who contemplate knocking a railroad train off the track should bear in mind that they get only one chance.

Glencoe and other West Middlesex Orangemen celebrated the 234th anniversary of the Battle of the Boyne at Forest on Saturday.

Glencoe Chautauqua guarantors came out with \$65.35 to the good this year, and after some small accounts are paid, will still have a surplus.

A game in the West Middlesex Baseball League will be played at Appin on Saturday, July 19th, at 5 p. m., between Fernhill and Appin.

Miss Mary Laughton, a pupil of Miss Saxton, has passed with honors her primary examination in connection with the Toronto Conservatory of Music.

"Maudie Mitchell," owned by P. Laughton, of Appin, captured second money in the 2.50 pace at Chatham in the final horse races featuring the Chatham old boys' reunion.

A number from Glencoe and vicinity attended the funeral at Windsor of Mrs. Jessie Miller Jones, wife of Alderman Joseph Jones of that city, who passed away on July 2nd.

The July meeting of the Women's Missionary Society of the Methodist church was held at the home of Mrs. Thomas Stinson on Thursday last. Thirty-five ladies were present.

Miss Madeline Jeffery, of Windsor, a guest of Mr. and Mrs. Wm. McCallum, sang a solo in the Presbyterian church on Sunday evening, which was much appreciated by the congregation.

Strathroy Age:—J. E. Burns, of Lambeth, is the new manager and lessee of the Caradoc-Ekfrid Telephone System, succeeding W. R. Wadsworth. Mr. Burns will move to Mount Brydges shortly.

Glencoe Presbyterian church was well filled for the morning service on Sunday, when the congregation had the pleasure of listening again to one of their former ministers, Rev. G. S. Lloyd, of Virden, Manitoba, who is here on a visit.

A union picnic under the auspices of the Presbyterian and Methodist Sunday Schools will be held on July 30th at Springbank. Cars will be at the public school grounds at 9 o'clock on that morning to take the children.

At Edmonton, Alberta, the Fidelis Club of Knox church repaired to the home of Miss Marion Keith and gave her a great surprise by presenting her with a gold wrist watch as a souvenir of her happy association with the club before her departure for the east.

Believing it to be in the best interests of the Middlesex county police and one that will tend to greater efficiency amongst all officers, High Constable Wharton is inaugurating a plan this month whereby all the constables under his supervision must submit to him a monthly report of all their activities.

The funeral took place from the residence of her parents at Campbellton on Sunday, July 14th, by the Rev. Mr. J. L. Brunetto, formerly Miss Jeanie McPherson, daughter of Mr. and Mrs. John McPherson, who died in a Cleveland hospital after an operation for cancer. Deceased was 29 years of age and was married 17 months ago.

It is highly creditable to the principal staff of the Glencoe public school that out of twenty pupils who wrote on the high school entrance examinations nineteen were successful. Out of the twenty fifteen were junior pupils. Five of those successful had honor standing, four of whom were juniors.

Two new moons in one month is an augury of ill, according to some of the old-time prophets, and July is the month. Records show that not since 1814 have two new moons appeared in one month, and during the summer snow fell in July. In that year the crops grew rapidly, but none of the grain matured.

R. A. Finn, of the department of agriculture, is becoming more optimistic regarding the hog situation in the county. He states that prices are improving, and that farmers who use the bacon type of sow for breeding purposes are doing well. Some 21 per cent of hogs shipped from Middlesex recently were graded as selects.

R. A. Finn, of the county department of agriculture, London, reports that there is still a brisk demand for farm help. One day last week ten farmers called on Mr. Finn looking for men to help on their farms. Wages offered were \$1 per day with board. In a few cases farmers were willing to pay more for men with real experience in farm work.

Mrs. Levi Smith received word on Thursday of the death of her brother-in-law, Warren Clifford, at Loverna, Sask., from injuries sustained by a kick from a horse. Mr. Clifford, who was a prosperous Saskatchewan farmer, leaves his wife, formerly Miss Ada Small, of London, and two children. Prior to her marriage Mrs. Clifford resided for five years with her sister, Mrs. Smith, in Glencoe.

An entirely new form of road guide is published under the direction of A. A. Briggs, Advertising Manager of the Dunlop Tire & Rubber Goods Company, Limited. The book, the culmination of more than two years' work by the author, has had for its object the compiling primarily of mileage information between every point in the province, but it also serves as a condensed guide to summer hotels, camp sites and golf clubs, and provides data on every scenic trip of note within the area covered. A fuller description of the book will be found in our advertising columns.

PERSONAL AND SOCIAL

—Mrs. C. B. Goodship, of Detroit, is visiting her niece, Mrs. Levi Smith.

—Mrs. Harry Smith and daughter Grace and son Preston, Miss Jennie McAlpine and Miss Etelle White, all of Detroit, motored to Glencoe and are spending this week with friends here.

—Mr. and Mrs. W. E. Mercus and little son Gordon motored from their home in Toronto and are visiting with Mr. and Mrs. D. A. Coulthard, Mrs. Mercus and Mrs. Coulthard are sisters.

—Mr. and Mrs. Robert Casement are holidaying at the home of her parents, Mr. and Mrs. G. W. Sutton. Mr. Casement has recently been promoted to general superintendent of the Canadian Toledo Scales Co. of Windsor.

—Mr. and Mrs. John Hick were in Sarnia on Saturday attending the funeral of their niece, Mrs. Harry Hick. They were accompanied home by Miss Elizabeth Currie and Elsie and Wilfrid Hick, who will remain here for a visit.

—Clayton Armstrong, wife and children, of Detroit, who have been holidaying near Newbury and in Glencoe, returned home on Tuesday, accompanied by the former's sister, Mrs. Wm. McRae, and two sons, Kenneth and Douglas.

SPECIAL NOTICES

Buy your meat at Jelly's.
All fruits in season handled at close-cut prices, at W. A. Currie's.

Call at Scott's Shoe Store before buying elsewhere, and see our prices for cash.

Be on the lookout for particulars of Appin annual garden party, Wednesday, August 6, afternoon and evening.

Ford cars now on display.—M. J. McAlpine, Ford service and sales, Glencoe; Galbraith Bros., Ford dealers, Appin.

Take advantage of Mrs. W. A. Currie's July Clearing Sale and get some of the bargains.

Prime corned beef at Jelly's, 10c a pound.

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 63.

For sale—Studebaker touring car, in first-class running order. Price ridiculously low and terms to suit purchaser.—E. Mayhew & Son.

Wanted—a few good year-old calves or yearlings. Phone 606-22.—Lewis Waterworth, Wardsville.

A new line of fresh cakes offering at 25c; sold elsewhere at 35c.—W. A. Currie's.

See Jelly for meat. Stews, holls, 8c, 10c, 12c lb. Good roasts, 14c.

Anniversary services of Kintyre Presbyterian church will be held on Sunday, August 10th, with a social entertainment on the evening of the 11th. Full particulars in next week's Transcript.

The Ladies' Aid of Melbourne Methodist church are holding a garden party on the parsonage lawn on Thursday, July 24. The Londonian Quartette, of London, will furnish the program. Gordon Knapp, of London, will give a number of humorous selections. Admission—adults, 35c; children, 20c.

Clearing sale at close-cut prices on new, fresh groceries for thirty days, at W. A. Currie's.

The Campbellton annual garden party will be held on the evening of July 18. Program—Harry Bennett, of Toronto; Miss E. Graham; the David brothers, of Toronto; the Imperial Male Quartette, of London; Miss May Lethbridge, 7-piece orchestra, London. The chair will be taken at 8.30 by J. H. McIntyre, of London.

CAIRO

Miss Delta Hands, of Detroit, spent the week-end at her home here.

Mrs. Robert Annett has returned home after spending a few weeks with her daughter in Hamilton.

Hiram Smoke, of Hamilton, is visiting his brother, Geo. Smoke.

Miss Barbara Armstrong, of Detroit, is visiting at her home here.

The Timber Wolves and Lion Tamers played an exciting game of softball Friday night, the Timber Wolves winning with a score of 17-10.

PRATT'S SIDING

The members of the Book Club held their July meeting at the home of Mrs. Jas. Watson recently. There was a good attendance of both members and visitors. At the conclusion of the program daily refreshments were served by the ladies. It was arranged to hold the August meeting at the home of Mrs. Rich. Reycraft.

On Saturday evening of last week the Pratt's Siding softball team played the Cheerio team. The score resulted in favor of Cheerio.

"The Dunlop Trail"

Summer Resorts of Ontario in a Nutshell for the Motorist.

"The Dunlop Trail" is the "new-idea" touring book, which represents the first attempt to lay Ontario before the holiday-seeker in such a way that he can motor over the Province systematically.

The whole story of Ontario is told in sequence—Ontario from Winnipeg to Cochrane, to Windsor, to Montreal—yet the book only comprises forty pages, and is pocket size.

Not a reference page from cover to cover—in other words, you get the whole story of a district when you are at the two pages covering that particular district. No advertising of any kind in "The Dunlop Trail."

All maps and illustrations specially drawn; all material specially compiled. Think of this feature: All your mileage figured out for you over the entire Province—the first time this has been attempted in the history of motoring.

In "The Dunlop Trail" you find every River and Lake trip in Ontario that has a schedule; also special Train trips; combination Auto, Boat and Train trips; the first complete list ever published of places in Ontario where Summer Hotels are located; every Golf Club and Camp Site in the Province, and real information, where you want it, about steamer and ferry services for taking autos aboard.

In order to keep the circulation of "The Dunlop Trail" in the proper channel a nominal price of fifty cents has been put on it. Any Garage or Tire Dealer in Ontario will take your order for "The Dunlop Trail" or you can procure it direct from this Company at any of the Ontario Offices mentioned below.

Less Air, More Comfort

"When Hearts Command"

By ELIZABETH YORK MILLER

"When hearts command,
From minds the suggestiveness depart."

CHAPTER XXVI.

It scarcely seemed possible that everything was over. Yes, and safely over. Not one break or hitch in the delicately balanced situation.

Hugo behaved beautifully. He was as quiet as a little mouse, as self-effacing as no one could have hoped for, as tactful as the ideal diplomat. Jean need not have suffered one moment's uneasiness. Needless to say, she was concerned.

But from the first moment when Philip Ardeyne's keen glance swept him at the station in Genoa, and the greeting, "I hope you're keeping well, Mr. Ballas," had been addressed, Hugo was on guard.

The sight of Ardeyne brought back to him all the horrors of captivity, the memory of long years in That Place, and their unspeakable dreariness. Hugo would rather cut his throat, he said to himself, than be made to go back, and Ardeyne was closely associated in his mind with Broadmoor. Hence—although Jean was unaware of the cause—Hugo's perfect docility. He was a little lamb of meekness, a little lamb which quivered under the wolf's ravishing gaze. Every time Ardeyne looked at him, he felt a certain speculation in the doctor's eyes, and it was only too true.

But poor Hugo was far from guessing the real reason for Ardeyne's revived professional interest in him. The doctor was not asking himself if Hugo Smart's insanity had begun to re-manifest its symptoms. He harbored no cruel intentions towards the little man whom he had every reason to believe was Alice's father. The doctor's thought ran very differently. He was now trying to believe that madness is really curable; that perhaps Hugo Smart had never been mad, or that—if once insane—he was now cured; that too much stress is laid upon heredity by unfeeling scientists.

Ardeyne was faced with such a problem as most other people might solve lightheartedly, and with no care for correct results, but which for him was rendered impossible of solution because of his conscience and his knowledge.

Giving up Alice did not enter into it. He had no intention of giving her up. He loved her too well to leave her to the mercy of chance, too well to forsake his intention to look after her himself. No one was better qualified; yet on the other hand, no one could suffer more than he in doing so.

He had never been religious, but now dimly he began to perceive that greatest of all living truths, that a man needs something apart from himself upon which to lean for help and guidance.

But for one thing, he did have sufficient strength. No one dreamed what was passing in his mind; no one—least of all Alice—suspected his great dread of the future.

He met her with the ardent tenderness of the conventional bridegroom; he was gay and cheerful, and Mrs. Carnay, taking heart of grace, drew in a deep breath of thankfulness. Had she faintly guessed what was in his

Making wash day pleasant

Just use Rinso where you used to use bar soap—for soaking, boiling, or in your washing machine.

THE hardest part of wash-day, rubbing, rubbing, rubbing, has given way to the new method of soaking the clothes clean with Rinso. This wonderful new soap gently loosens the dirt and a thorough rinsing leaves things white and glistening as you never could get them before.

Only spots where the dirt is ground-in, such as neck bands, cuff edges, and the like need a light rubbing, and a little dry Rinso rubbed on these spots quickly makes the dirt disappear.

Rinso is sold by all grocers and department stores

Rinso

MADE BY THE MAKERS OF LUX

WRIGLEYS

Chew it after every meal

It stimulates appetite and aids digestion. It makes your food do you more good. Note how it relieves that stuffy feeling after hearty eating.

Whitens teeth, sweetens breath and is the goodie that keeps the mouth shut.

It was Hugo who brought her to her senses. Hugo, who had behaved so beautifully, all at once became a terrible scandal. He let out a shriek like an Indian war-whoop, threw his hat as high into the air as ever he could and gave free utterance to his feelings of intense satisfaction that all was over. What he actually said does not really matter. He meant no blasphemy. He merely was glad, pug-nantly, almost inexpressibly glad, to see that train roll out of the station, and to know that as each moment passed it was taking Dr. Philip Ardeyne farther and farther away from him.

"Hugo!" Jean cried, aghast at such totally unexpected language. "Oh, Hugo!"

Her tear-blurred eyes hastily inspected the platform. Did any of those Italians understand the English vernacular?

Hugo was dancing about excitedly, throwing up his hat and catching it, promising himself champagne and a giddy evening at a music-hall, nearly losing his eye-glasses and jabbing them back just in time, muttering fiercely, "Horribly."

It was a great relief to see how Gaunt took this outburst. Indecisive laughter trembled at the corners of Jean's mouth, when to a modified extent Hector Gaunt joined in Hugo's ecstasy. He clapped the little man on the back and mopped his own forehead.

"By the powers, Hugo, I'm with you! A wedding is woman's work entirely. They love all the fuss and the crying and the terrible, terrible business of it."

"It wasn't the wedding," chortled Hugo. "I could've stood a dozen of them. It was that prig, Ardeyne. Always watching me. For two pins he'd've tried to clap me back in That Place. I hope I never see him again."

So that was why he had been so good. Jean was vaguely frightened as they hurried him out of the station and into a cab.

He was breathing like someone who had just finished a race. His face was white, glittering with perspiration; his narrow chest rose and fell laboriously.

"If I ever meet Ardeyne again I'll kill him," he squeaked.

"Just shuddered. Oh, indeed—give thanks to Heaven that Hector Gaunt was here! What would she have done without him?"

"To think that my daughter is married to a man like that! Then he began to cry. "I'll cut my throat sooner than go back to That Place. You needn't think I'm crazy. If you'd lived with lunatics as long as I have, I guess your nerves would be a bit shattered too."

"Oh, Hugo!" was all Jean could manage.

"Don't be an idiot, old chap," Gaunt's voice broke in coldly. "For one thing, Ardeyne hasn't the least idea who you are."

Hugo subsided like a pricked balloon.

"Of course he hasn't, Hector—of course he hasn't," then he began to cry. "I'll cut my throat sooner than go back to That Place. You needn't think I'm crazy. If you'd lived with lunatics as long as I have, I guess your nerves would be a bit shattered too."

"I'd have gone entirely off my head," Gaunt agreed. "You're all right, old chap, and a little celebration will do us all good. Now for dinner and that music-hall. What do you say, Jean?"

"Whatever you and Hugo like," Jean replied, she had believed possible.

Gaunt came to her room while she was dressing for dinner and she talked to him at the door.

"My dear," he said tenderly, noticing—as he could not help doing—how hot and red her eyes were. "Don't worry about the little chap. He's quite calmed down and happy. Bless my soul, I felt like throwing up myself."

"Hector, you don't think—"

"Not a bit of it. Hasn't he been an angel ever since we struck this town?"

"Yes, I must admit he's behaved as I shouldn't have believed possible."

"Well, there has to be some reaction. I'll look after him. That's my promise, dear Jean. And I want you to promise me that you'll give up all those apprehensions of yours. You're wearing yourself out with them."

She gulped down a lump in her throat, she had believed possible.

"Oh, what's the good of my promising a thing like that! I couldn't keep it."

"You could try. I mean to help you always. Not merely for just now."

"But, Hector, it would mean giving up your farm."

"Oh, no. You must both come and stay with me."

Jean shook her head more vigorously.

"It isn't to be done... not after what you said to me the other day."

"You're a long, tense moment, into tired eyes. Then he turned away down the corridor."

Jean shut her door and leaned against it heavily, her strength all gone.

"Hector—Hector," she whispered. "The long years... the lonely years! I've tried to clap me back in That Place. I hope I never see him again."

She flung herself on the narrow hotel bed, weeping bitterly.

(To be continued.)

Woman's Interests

ALUM FOR BUGS.

In old houses sometimes one finds that even the former occupants, though careful housekeepers, have not solved the problem of keeping out the insect creatures that love to inhabit old residences. The new occupants may have to combat ants that will creep in everywhere, and such bugs as prefer to live about water pipes and steam pipes and the nooks and crannies in bedrooms as well.

The solution of this problem is simple—common alum and hot water. The solution should be applied with a brush—a soft paste brush or painter's brush—around all water pipes and woodwork where either ants or other bugs are seen. When dry, this solution leaves the alum crystallized upon the surfaces upon which it has been painted and immediately the troublesome visitors disappear.

WHIPPED CREAM CAKE ICING.

Whipped cream, beaten till stiff and dry, then sweetened and flavored nicely makes delicious cake icing.

A cup cake baked for immediate use, is the best foundation, but in proper temperature the cake and the icing will keep well for several days. As a dessert, I cut the cake in squares, make a little nest in the whipped cream and add a tablespoonful of strawberry or any other preferred jam. I also sprinkle chopped nut meats over the icing, which makes the dessert very delicious. Chopped candied fruit or fresh fruits are other possibilities for varying this icing.

A DAINTY BEDROOM SET.

I recently saw a most attractive bedroom set, the result of a busy mother's hard thinking. She wished curtains and spread of unbleached cotton, but felt she did not have the time to do embroidery or applique work. For decoration she used straight bands about two inches wide, cut from a fancy ticking that had a floral stripe design. The band was stitched about the edge of the spread, which had cut corners, across the ends of the scarf, which covers the pillows,

and on the curtains. She said the set was very quickly made and has proved durable and easily washed. And I can add that it is very dainty and, as a color scheme could be used, it is easily copied.—G. B.

STAGGERING FIGURES.

A farm woman sat down with her pencil one rainy, dull day and figured up all the work she had done in the 30 years of her married life.

In that time she had served 235,425 meals.

She made 23,190 loaves of bread.

She made 5,930 cakes.

And 7,960 pies.

She canned 1,550 quarts of fruit.

Raised 7,660 chicks.

Churned 5,460 pounds of butter.

Put in 36,460 hours sweeping, washing and scrubbing.

She estimates the worth of her labor conservatively at \$115,485.50, none of which she ever collected. But she swears she still loves her husband and her children and wouldn't mind starting all over again for them.

Cruelty to animals is, after all, the most extreme form of cowardice.

WE WANT CHURNING CREAM

We supply cans and pay express charges. We pay daily by express money orders, which can be cashed anywhere without any deduction.

Our Present Price is 33 Cents Per Pound Butter Fat.

Nett to you at your station.

Price is subject to change without notice. To obtain the top price, Cream must be free from bad flavors and contain not less than 30 per cent. Butter Fat.

Sea Ceremonies.

The "burial at sea" of the battle cruiser Australia, of Sydney recently, recalls other impressive ocean ceremonies.

A few years ago the Franconia sailed out into mid-Atlantic with a chosen company of passengers, all friends and admirers of the late W. T. Stead. Her engines were stopped over the exact spot where the ill-fated Titanic went down after striking an iceberg, and there wreaths of laurel and flowers were cast overboard into the ocean as a tribute to the dead publicist and those who perished with him.

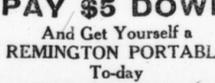

For many years, at the close of the winter season, a similar custom has obtained on the Potomac River. A boat laden with flowers is started down the stream, while thousands of bareheaded spectators line the banks. As the flower-laden craft drifts seaward the warships and other vessels in Chesapeake Bay dip their flags. The ceremony is a graceful tribute to the memory of those who have perished at sea during the year.

King of Norway Runs Circulating Library.

King Haakon of Norway runs a circulating library of Nordic literature, scholars will be interested to learn. The library consists of several hundred volumes and circulates through leading universities of western Europe, remaining several months in each place. It is now at the University of Berlin.

The King's object is to facilitate acquaintance of Europeans with Scandinavian art and letters. The King personally bears the expense of the enterprise.

Music's Appeal.

More and more the developmental and remedial possibilities of music are being appreciated. The news now comes that, as a result of a sixty day test, good music is henceforth to have a place in the therapeutic resources of the New York Nursery and Child's Hospital.

From Good Health I quote this statement by Dr. Harold C. Cox, resident physician of that hospital:

"The test was tried mainly with the mothers in the maternity wards, but also with the babies and sick children."

"Whether it was the appeal of rhythm, we do not know, but the tests have amply demonstrated that music has a marked therapeutic effect on the spirits and general morale of hospital patients."

This statement certainly is guarded enough. The fact seems to be that music, good music, has a tonic value to the bodily processes in general. This would naturally follow from its possibilities in the way of pleasantly stimulating the emotions.

When one listens—as I listened only a few days ago to the singing of a master of artistic expression—to melodies and songs sensitively interpreted, one's whole being is temporarily exalted. The cares and worries and problems of everyday life are for the moment forgotten. One lives in the ideal.

The friendly past again emerges, with its host of treasured memories. The surge of youth is in the veins. A golden glow haloes the future. Peace and confidence have undisturbed possession.

Obedient to the impulses of the triumphant, exulting soul the body stirs to new endeavor. If disease is present, it fights to down it. The cry of the soul is, "Power! More Power!" And from the depths of one's being—mayhap from the supreme External Course of all power—as by a miracle power responsively emerges.

Too long we have ignored the practical significance of music's appeal. We have deemed it a distraction, a recreation, an avocation for the leisure hours. Even as we need food and air and light, we need music if we would live to our maximum—aye, and defeat the forces that industriously strive to cut our lives short.

"Music," one enthusiast declares, "is a fine art which more than any other ministers to human welfare. Music is the voice of prayer. There is no greater truth obtainable to man than comes from music."

"Music is a kind of inarticulate, un-fathomable speed, which leads us to the edge of the infinite. The influence of music is not measurable."

This may be deemed the language of ecstasy, of hyperbole, of mystic exaggeration. I do not think it is. And I do think the day will come when mankind, far more generally than at the present, will sense the need for music in the life of every human being.—H. Addington Bruce.

Understand at Least One Musical Instrument, School Teacher Tells Pupils.

A school teacher who had taken no small amount of interest in the musical education of her pupils, not long ago availed herself of the opportunity of taking her class to hear a famous symphony orchestra at an afternoon musicale especially arranged for the school children. While the various players were fling in on the platform, the teacher distributed programs to each pupil, remarking at the same time:

"Boys and girls—music is one of the finest things in the world. But good music as you are about to hear to-day, should be heard over and over again. You all know if you see a fine piece of art, how lovely it is and how each time you look at it you see something in it you hadn't seen before. Well, it is the same with music, it grows more beautiful and more interesting every time you hear it. So listen attentively, then take the program home with you. Try to learn how to play some of these pieces on a piano or other musical instrument. Ask others in your family to play this great music for you. But best of all, learn how to play it yourself."

"Understand at least one musical instrument."

Man-Made Volcanoes.

Flooded mines are common enough, but mines which have been on fire for years, and which nothing suffices to extinguish, are not quite so usual.

There is, however, such a mine at Brule, near St. Etienne. It gives the district quite a volcanic aspect. Another burning mine at Zwickau, in Saxony, has been turned to practical account. The fire began as long ago as the fifteenth century, and in 1837 an ingenious system was contrived by which the hot vapors were conveyed through pipes to warm very extensive conservatories.

Similar results were hoped for at one time in the case of Staffordshire's Burning Hills, near which snow never lay, however thick it was elsewhere, and where the grass was always green. For a time tropical plants, imported at great cost, flourished there; but the fire died out at last, and the plants perished.

Nature Invented It.

Johnny came back from the circus very much excited.

"Oh, mamma," he cried, as soon as he got into the house, "Kate split some peanuts, and what do you suppose the elephant did? He picked 'em all up with his vacuum cleaner!"

Soils and Woods

Address communications to Agronomist, 73 Adelaide St. West, Toronto

THE ADAPTABILITY OF BARLEY IN LIVE STOCK FEEDING.

As a utility feed for live stock, the value of barley is generally accepted, but its particular value in this respect is less fully appreciated. Barley, like corn, is a carbonaceous feed and, generally speaking, it may successfully be used to replace corn in the rations. When fed alone it is open to criticism because of its lack of palatability as compared with oats, corn or wheat; but when fed in grain mixtures this objection is negligible. It is rather heating in character, and because of this must be fed with discretion to such classes of stock as idle work horses and pregnant brood sows, if used at all.

When fed in an experimental way to work horses, it was not consumed with the same relish as oats, nor did it possess as high a food value. The difference in this latter respect was, however, comparatively slight.

For the feeding of steers or beef cattle, barley has a high commercial value. In a test conducted at the Brandon Experimental Farm, in which barley and frozen wheat were compared, the barley chop gave an average daily gain per steer of 1 lb. 13 oz., while the frozen wheat gave a gain of 1 lb. 3 oz. At the Indian Head Experimental Farm, in a test covering a period of 77 days, barley was compared with elevator screenings. The barley-fed lot made an average daily gain per steer of 2.18 lbs. while the screenings-fed lot made a gain of 1.78 lbs. Barley also holds a prominent place in the meal ration of dairy cattle.

The suitability of barley for bacon production has been repeatedly demonstrated by the Dominion Experimental Farms, particularly for finishing. It is not a desirable feed for brood sows before farrowing or during the early part of the nursing period, but may be introduced into the sow's ration after the pigs are a week or two of age. Because of its carbonaceous nature it should not be fed to newly-weaned pigs in any appreciable quantity but find its chief use in the rations of bacon hogs after they have attained the age of about three months. At this time it may safely be introduced and gradually increased until it comprises upwards of 50 or 60 per cent. of the meal ration as the hog approaches marketable weight.

In comparison with corn for the feeding of market hogs it has given 0.11 of a lb. lower daily gain per hog and cost 0.26 of a cent more per lb. of gain in feeding tests recently conducted at three Dominion Experimental Farms in Eastern Canada. The deductions drawn from these tests with swine were as follows: 1. That bacon hogs are capable of making slightly greater gains on corn. 2. That pound for pound, barley has a slightly lower feeding value than corn. 3. That barley-fed hogs are more evenly fleshed. 4. That barley-fed hogs give a superior quality of bacon. 5. That home-grown barley can be fed more economically than corn (generally an imported feed).

It might be well to emphasize the importance of using home-grown feeds for economical production under present market conditions. Barley can be universally grown, is a relatively heavy yielding, and is particularly well suited for adding to the rations of cattle, sheep, and swine where a carbonaceous feed is required.

VALUE OF SELECTION ON MILK PRODUCTION COSTS.

During the late summer the majority of the cows on the well-managed dairy farm are nearing the end of

their lactation period. That is, then, the time to make a selection of all profitable producers, and cull out those which have not proven their ability to produce above a certain standard. Just what this standard should be in a grade herd depends to some extent on the locality in which the herd is situated, the marketing facilities and prices obtainable for feeds as well as for milk or butter-fat.

The Experimental Farm, Nappan, N.S., working under average conditions for the Maritime Provinces along these lines, is conducting a grading-up experiment, using pure-bred sires on heifers of unknown parentage and of the average type and production of the dairy cattle throughout the country. The progeny from these matings are also bred to pure-bred sires and a record is kept of the production of milk and butter-fat, the feed consumed, and the profit over feed cost with each individual. It was found that a heifer producing less than 5,000 pounds as a two-year-old did not, except in a very few cases, show a profitable increase during her three and four-year-old form. To illustrate, fourteen heifers, grade Holstein and Ayrshires, which went over 5,000 pounds as two-year-olds, showed in that year an average production of 5,621 pounds of 3.9 per cent. milk in 346 days, or a daily average production of 16.2 pounds. The profit over cost of feed was \$31.74 per cow or 14.5 cents for every pound of butter-fat produced. The three-year-old period of these same cows, averaging 327 days, showed a production of 6,819 pounds of 4 per cent. milk, or 20.8 pounds per day. The profit was \$49.90 or 18.3 cents per pound of butter-fat produced. As four-year-olds, they produced an average of 7,238.3 pounds of milk, testing 3.9 per cent. fat in 308 days. This was a daily average of 23.5 per cent. and the profit realized was \$56.57 or 20 cents per pound of butter-fat.

The results obtained from twenty-seven heifers with less than 5,000 pounds of milk as two-year-olds were striking in their contrast with the above. Their first lactation period (344 days) showed an average production of 3,819 pounds of 4.2 per cent. milk, a higher butter-fat test, truly, than the fourteen in the first group, but the profit over feed cost was only \$14.08 or 8.8 cents per pound of fat produced. As three-year-olds, they averaged 4,178 pounds milk, 3.9 per cent. fat in 286 days or 2,646 pounds less than did the first group of fourteen, and the profit was only \$22.07 or 13.5 cents per pound of fat, one cent less than the first group of two-year-olds. In their four-year-old form (in 290 days), they averaged 4,799.6 pounds of milk testing 3.9 per cent. fat, gave a total profit over feed cost of \$26.87 or 14.2 cents per pound of fat produced. The increase shown by Group 1 over Group 2 in this period was 2,438.7 pounds milk, \$29.90 in profit over feed cost, and 5.8 cents per pound of butter fat. Ten cows in Group 1 would give more profit as four-year-olds than twenty-one cows in Group 2. This shows that the average heifer in this case with a production of over 5,000 pounds of milk as a two-year-old is 110 per cent. superior to the average heifer below 5,000 pounds at the same age.

Considering the fact that the average production of milk from all cows in Canada is less than 4,000 pounds per year, something must be done to bring up the average and cut down the number of unprofitable producers. By adopting a reasonable standard upon which to base our selection, we may materially decrease the cost of milk production and increase the labor income which at the present time is far too low.

By and by the children come. Mother punishes John when he objects to Mary's list of toys. "It is not kind and generous," she tells him. When Mary cries because John has taken her prized plaything, the little girl is punished for being sulky and selfish. Grandmother gives John a toy, but Mother acts as if the gift had been made equally to the two children. In every way she kills in them that natural instinct for pride in ownership.

Especially is this true when dry mash is hoppers fed and is constantly available to the hens. Two ways of accomplishing the object are in use by careful poultrymen. One is to weigh out the approximate quantities of grain and mash needed for a week with the expectation that the two mixtures will become exhausted at the same time. Any surplus that remains may be weighed back at the end of the week. Another method is to use grain and mash supply boxes on the inside of which have been marked scales to indicate at a glance just how much feed is in the box. When mash is fed in large hoppers the scale may be marked on the inside of the hopper itself.

With the facts at hand week by week and necessary variation may be made in the quantity of scratch feed given daily in order to keep the desired ratio of grain to mash. Sun and light make for sanitation in the pig sty.

A feature of the Canadian exhibit at the British Empire Exhibition is a model, made entirely of butter, of the Prince of Wales standing outside his Canadian ranch house. Two and a half tons of butter were required for this model. It is contained in a very fine refrigerator cabinet and attracts an unusual amount of attention.

Spraying Potatoes is Necessary in Order to Keep Them Free From Beetles, Blight and Rot and Other Diseases.

Spraying, in order to be effective, must be timely, and thorough, and should be commenced when the potato beetle eggs are just hatching, which is usually about the time the plants are from five to eight inches high, and the foliage should be kept covered throughout the season, special precautions being taken to see that it is well covered during wet weather, so says Prof. J. E. Howitt, Dept. of Botany, O.A.C. Never put off spraying because it looks like rain for once dry the spray mixture will withstand rain and be on the plants at the critical time. Bordeaux is by all means the best fungicide for potatoes. For the first application use four pounds copper sulphate, eight to twelve pounds hydrated lime and forty gallons of water, and 1½ pounds of arsenate of lime to each forty gallons of the liquid spray. Paris green and arsenate of lead may be used as a poison instead of arsenate of lime but are much more costly and no more effective in keeping beetles under control. Repeat spraying with the Bordeaux mixture often enough to keep the foliage covered. Add a poison to the Bordeaux only when required for beetles. No stated number of applications of the Bordeaux can be recommended. The number depends on the weather, the wetter the weather the larger the number. If the season is favorable for blight not continue spraying until the plants have finished

their growth and died. This is necessary to prevent tubers rotting after they are dug. Be sure and use plenty of Bordeaux at each application. Forty gallons may be sufficient to cover the plants when they are small, but eighty to one hundred gallons will be required when the plants are large in order to do thorough spraying. The best type of spray is one with nozzles which provides for spraying the under-surface of the leaves. Bordeaux dust is also recommended for the control of late blight and rot, but sufficient experiments have not been conducted to demonstrate its superiority over the liquid spray.

Jelly Sold Green Apples. After a bad windstorm the ground under our apple trees was strewn with small, very green apples. Although they were extra good for jelly, merchants said people generally didn't think of them, and such fruit was hard to sell. So they wouldn't pay us enough to make it profitable to haul the apples to town.

We made glasses of jelly, and left one with each merchant for him to display on top of a pile of the fruit. People caught the idea, and soon we sold all the green apples at the current price for cooking apples. Since then, when we thin the apples on our trees, we use the same plan.—N. S. Ives.

As the margin of profit grows narrower the more important it is to weed out the poor cows, and the greater the percentage of cows falling below the profit line.

Home Education

"The Child's First School is the Family"—Froebel.

Mine and Thine—By Jennie Ellis Burdick

Just the other day I received a letter from a mother which was a cry for help.

"My boy, John, has been taking money from my pocket-book. What shall I do? I do not want him to grow up a thief."

Alas! this mother is not the only one with such a problem; unfortunately there are many parents who at some time or another are confronted with this same unpleasant experience. The mother facing the problem must take drastic measures to break off a habit which should not have been allowed to form and to teach the principle of "Mine and Thine." Whipping will not do it; more patient and painstaking methods are required.

Laughingly we often say: "What's mine is my own, and what's yours is mine, too." This expression is all right as a joke, but it is all wrong when we put it into practice. Yet so many young married people practice it.

The wife assumes that the home is absolutely hers, and her husband's things are gradually pushed aside. If she wants to use any of his belongings—tools, handkerchiefs, slippers, or even his razor—she takes them, regardless of the value he places on them. Occasionally he protests, sometimes emphatically, but more often to gently for her to realize his justification in doing so, and she continues to treat his things as though they were her own. He states his objections less and less strenuously until he ceases; he consoles himself by saying, "She does not interfere at my place of business and I ought not to object to what she does at home, for that is her place of business." But he keeps his treasures at the office and club.

By and by the children come. Mother punishes John when he objects to Mary's list of toys. "It is not kind and generous," she tells him. When Mary cries because John has taken her prized plaything, the little girl is punished for being sulky and selfish. Grandmother gives John a toy, but Mother acts as if the gift had been made equally to the two children. In every way she kills in them that natural instinct for pride in ownership.

Then comes a day when she fusses because the children do not take care of their toys, do not pick them up, do not realize that they have money value. But why should they? These things are common property—there is no sense of personal responsibility. If John can take Mary's things without leave or license, and she can take his, and Mother can do the same with Father's, what's the difference if they take Mother's? The children are old enough now to know that money buys candy, money will get admission to the movies, money is needed for that "twenty-wenny" doll or those marbles down at the corner store. They have seen Mother pay for the things she bought at the store. So now, not having any money of their own, they take it out of the pocketbook which belongs to Mother, but which to their way of thinking is a family affair.

Each member of the family should understand and should practice the principles relating to ownership. There should be no appropriating of one another's belongings without a request and a "thank you." The forming of this habit will require persistent patience on the part of the adult members of the family. A penalty might be imposed for every infringement of the rule.

Of course, each child should have an allowance out of which he must first purchase some necessary article. At first the amount should be small and the requirement a simple one. For example, when he first enters school, it might be well to insist that he pay for his own pencils. As he grows older, add an item at a time, and at the same time increase his allowance.

This allowance should not be "something for nothing." Each child should have certain duties about the house, the performance of which will entitle him to his allowance, and the neglect of which will cause the withholding of it.

Thus the child learns that money is obtained by rendering service, that each member of a family has work to do, if the house is to be a home, and that respect for the rights of others is one of the first rules of life.

THE WOODLOT ON THE FARM

Greatest Harm Done by Allowing Cattle to Graze Where Young Trees Should Have a Chance to Develop.

BY ARTHUR HERBERT RICHARDSON.

During last summer a survey was made in one of the old settled parts of Ontario, to determine the amount of forest land available for tree planting, and to classify the kinds and conditions of farmers' woodlots. The work was done in a county where the prevailing species are hard woods, such as beech, birch, maples, etc., and where the valuable sugar or hard maple was so common that by some it was considered a weed. Each piece of woodland one and one-half acre in size, or over, was examined and a report was made out giving answers to carefully prepared questions.

One of these was "Has the woodlot been seriously damaged by cattle?" In 4 townships examined, where the above hardwood species are common, the answer too frequently was in the affirmative, and of the total number of woodlots examined during the summer, a large per cent. had been given over to cattle to be browsed, weakened, retarded in growth and finally to produce inferior timber for fuel.

When Nature is allowed to produce trees in her own way without the devastating effects of stock, the floor of the forest is made a source of food and recuperation. If the woodlot is made up of mixed hardwoods of nearly the same age, or if it consists of cut-over land which is beginning to sprout or seed in itself, an examination of the underbrush and forest floor will be instructive to the man who is interested in the betterment of his bush.

On the ground, beneath the larger trees, if these are present, is a thick network of young growth ranging in size from a match to a white-stalk. These are the children of the forest and on them, just like the children in any community, depends the future of the woodlot. Beneath these is an accumulation of forest debris made up of leaves of successive summers, droppings of twigs and pieces of bark, pressed down by snow of many winters. This layer, which is often called duff, serves as a mesh to the forest trees. On top it is coarse and irregular but as it nears the ground it becomes finer and richer until it mixes with the virgin soil. This is Nature's seed bed, her storehouse for food, her reservoir for moisture. If the forest floor is therefore destroyed, the children of the forest are killed, food is not permitted to accumulate and moisture is denied

anyone to notice instances in which hens act like the higher bipeds. They are snobbish. If you introduce a new hen to a flock, the older residents will at once attack her; and until she has proved her qualities she will be kept away from the feed box at least until the old-timers have had their fill. At night she will not be permitted to roost among the native daughters, but must find a peg apart in the slum corner of the henhouse. When the flock is roaming in the fields she will be "cut" and left to scratch for herself; but if she finds a good place for worms, the old settlers will "jump her claim" as soon as they discover her luck.

But in time of fear or trouble hens, like human beings, are likely to forget their social distinctions. If at the end of the day the flock finds that the wind has shut the henhouse door and that they must seek shelter under a bush, they will all huddle together, immigrants and native stock, without discrimination.

Among hens as among human beings the strongest and boldest rule. If there is a rooster, his leadership is accepted without a dissenting squawk; but if all are hens, there is sure to be a fight to determine who is to be the social arbiter. In picking roosting places for the night hens observe a system of rank as rigid as that of a diplomatic dinner in London. If a pariah ventures to push in among the aristocrats on the top roost, the others peck her until she returns to her proper station.

Once the hen leader has been chosen there is little insubordination, but let the social boss weaken and woe unto her! A rival is always ready to take her place. And in eliminating competitors hens are most businesslike. If a hen feels under the weather or is injured, there is none so magnanimous as to refrain from giving her a jab. If she disappears for a time to hatch a brood, she must give a strict account of herself upon her return. But no matter how meek a hen has been she will when she becomes a mother defy the queen of the flock in defence of her young. Similar new courage has been noticed in human mothers.

A Prayer.

If I have faltered more or less

In my great task of happiness;

If I have moved among my race

And shown no glorious morning face;

If beams from happy human eyes

Have moved me not; if morning skies,

Books, and my food, and summer rain

Knocked on my sullen heart in vain;

Lord, thy most pointed pleasure take,

And stab my spirit wide awake.

—Robert Louis Stephenson.

If the slats in the pig creep are placed vertically instead of horizontally, the creep can be used without changing until the pigs are much older.

THE CHILDREN'S HOUR

WHISTLE BLINDMAN'S BUFF IS A STEP-LIVELY GAME.

Here's a kind of Blindman's Buff that gives the "blindman" a better chance of making a capture. The player must be a quick dodger to get away from him.

The player makes a large circle and counts out, "one, two, three," to see who must be "it." "It" is blindfolded and led to the centre of the circle. Around his neck is put a ribbon on which there is a whistle which hangs down the middle of his back.

Then the game begins. Each person in the circle takes his turn at sneaking up and blowing the whistle. If the blindman turns quickly enough to take the player before he gets back to his place, then the one caught must take his position in the middle as the blindman.

The blindman will be alert to the steps of the player behind him and will be ready to give a good whack the minute the whistle sounds. The clever player is the one that creeps up softly without a sound and blows the whistle without pulling the cord around "its" neck.

The players should tease the blindman a little, too, by not coming up at regular intervals when he will be expecting them, but by following each other in quick succession a few times, then letting a little time elapse while they watch with amusement the "blindman" bat his arms at imaginary whistlers he hears stealing on him.

BRUIN GOES FISHIN'.

Bruin had his work all finished and it was only three o'clock in the afternoon. The lawn was all mowed, the new fence built around the flower bed, and the garden hoed so carefully that a weed would not dare to show its head for a week.

"It's just the kind of a day to go fishin' down by the old creek," said Bruin to himself. "The work's all done, too, so I guess I'll go. Oh, Rolly," he called.

Rolly did not answer, but Bruin soon found him way out in the barn making a little bird house. Rolly was so anxious to get the bird house finished, for he thought the little bird that had had the broken wing and had eaten up all the cabbage worms might come back and build a nest in it, that he didn't want to go fishing. So Bruin went alone.

With his crooked fishing pole, which was really only the branch of a hickory tree, and his can of big wiggly worms, he climbed out on a big stone in the old creek where he always fished.

"Oh, his hook baited with the biggest wiggly worm in the can, he was ed and waited for a fish to come along and bite it. But no fish came, not even one nibbled it.

"If I was only out on the next big stone," thought Bruin. "I could catch a big fish there. But it's farther than I can step. I'll just get a log and make a little bridge."

So he climbed back to the shore, got a piece of an old log and placed it between the two stones. Soon he was out on the farthest stone where he could fish way out in the middle of the creek.

Then, "Whee—ee—ee—ew." Down went his bobber with so much force that Bruin thought a whale was biting his hook. He pulled and pulled on the pole. Oh, how hard he pulled! "Oh, ho, I have a big one this time. My, won't Rolly Rabbit be surprised," said Bruin. "He'll make a fine supper for us," and Bruin kept on pulling.

Now the big fish was just at the top of the water. Bruin was so excited thinking what a big one he was, what a nice supper he would make, and how surprised Rolly would be, that he forgot to be careful. His foot slipped and kerplunk! went Bruin into the water. What a splash! Water was in his eyes, in his ears, in his pockets, in fact he was just soaked.

He went scrambling up the bank, water dripping at every step. He shook himself and rubbed the water out of his eyes just in time to see the big fish, pole, line and all, drifting out into the big lake.

"Oh, there goes my pretty new red bobber," said Bruin, "and just look at my clean overalls. I guess this is what I get for counting my chickens before they are hatched."

He went limping back to the house with some very wet clothes and with a resolution to be more careful when he went fishing again.

Stable Ventilation.

When planning the changes to be made in the farm stables this summer, give the question of ventilation first consideration. Animal life is dependent upon oxygen. Food that is eaten would never be of service to animals or to humans if it were not oxidized or combined with oxygen in the body. Fire cannot burn without air and food cannot be "burned" in the body without air. It is strange that so much time and study have been expended on the problems of breeding and feeding, and that so little attention has been given to the most important demand in the life of a domesticated animal—pure air. Plan the stable in such a way that pure air will be available to the animals every hour of the day, so says L. Stevenson of the Ontario Agricultural College.

POULTRY

During warm weather it is highly important that special attention be given to the water supply of both hens and young chickens in order to insure an abundant supply of clean, cool water at all times.

Growth and egg production are both severely handicapped when the water supply is insufficient.

An easy way to handle the summer watering problem where running water is available is to run a line of half-inch pipe out to the range, letting it lie right on the ground. Branch lines may be run to each section of the range or, if desired, to each colony house.

If the pipes are laid in a deep furrow and covered the water will be kept much cooler than if they are left above ground, yet there will be no serious inconvenience when the time comes for taking the pipes up in the fall.

A simple and cheap watering trough for the range may be made by soldering a flat piece of tin or galvanized iron to each end of a section of rain gutter or eavestrough.

When one is attempting to keep the mash consumption of a flock of hens in some definite relation to the grain consumption, as for instance equal quantities by weight, he may find it difficult to measure the results and tell just how well he is succeeding.

Especially is this true when dry mash is hoppers fed and is constantly available to the hens.

Two ways of accomplishing the object are in use by careful poultrymen. One is to weigh out the approximate quantities of grain and mash needed for a week with the expectation that the two mixtures will become exhausted at the same time. Any surplus that remains may be weighed back at the end of the week.

Another method is to use grain and mash supply boxes on the inside of which have been marked scales to indicate at a glance just how much feed is in the box. When mash is fed in large hoppers the scale may be marked on the inside of the hopper itself.

With the facts at hand week by week and necessary variation may be made in the quantity of scratch feed given daily in order to keep the desired ratio of grain to mash.

Sun and light make for sanitation in the pig sty.

A feature of the Canadian exhibit at the British Empire Exhibition is a model, made entirely of butter, of the Prince of Wales standing outside his Canadian ranch house. Two and a half tons of butter were required for this model. It is contained in a very fine refrigerator cabinet and attracts an unusual amount of attention.

YOUNG SCOTS IN QUEST OF FORTUNE

Finding the routine of city office life ungenial, four young men from Glasgow, who were college chums together, have set out to jointly try conclusions with fortune in Canada's broad spaces.

Of ages ranging from 19 to 21, the

young adventurers—Frederick S. Blaine, Walter Mortimer, James C. Fleming, and Norman J. McGaw—sailed from Liverpool for the Dominion recently on the Canadian Pacific S. S. "Montroyal," as third-class passengers. Educated at the Fettes College, Edinburgh, they worked for some months in stockbrokers' and shipping offices

in Glasgow, but found a clerical occupation unpalatable. Each of them secured £100 capital from his parents before starting out on their venture, and they will travel right through Canada from Quebec to Vancouver. All four are fine specimens of young Scots, and they expect to take up farming or fruit growing in the west.

HUMAN NATURE IN HENS

anyone to notice instances in which hens act like the higher bipeds. They are snobbish. If you introduce a new hen to a flock, the older residents will at once attack her; and until she has proved her qualities she will be kept away from the feed box at least until the old-timers have had their fill. At night she will not be permitted to roost among the native daughters, but must find a peg apart in the slum corner of the henhouse. When the flock is roaming in the fields she will be "cut" and left to scratch for herself; but if she finds a good place for worms, the old settlers will "jump her claim" as soon as they discover her luck.

But in time of fear or trouble hens, like human beings, are likely to forget their social distinctions. If at the end of the day the flock finds that the wind has shut the henhouse door and that they must seek shelter under a bush, they will all huddle together, immigrants and native stock, without discrimination.

Among hens as among human beings the strongest and boldest rule. If there is a rooster, his leadership is accepted without a dissenting squawk; but if all are hens, there is sure to be a fight to determine who is to be the social arbiter. In picking roosting places for the night hens observe a system of rank as rigid as that of a diplomatic dinner in London. If a pariah ventures to push in among the aristocrats on the top roost, the others peck her until she returns to her proper station.

You Will Want One of These Smart Ratine, Voile or Linen Dresses at \$3.48

Included in this Sale of New Dresses is a Big Purchase from the Hampton Dress Co. Among them are some of the smartest New York Styles and at such low prices you will be able to afford at least a couple, \$4.50, \$5.00 and \$6.50.

What looks nicer than Gingham Dresses for the Porch and Morning Wear? And so low in price, \$2.75

Ladies' Summer Vests (no sleeves)
19c
Regular 35c value

Mill-ends Gingham, 2, 3, 4, 5 yds to a piece
21c yd.

New Snappy Slippers for Ladies, from \$2.50 up.

Mr. Man! Here is glad news:—A Fine All-wool Indigo Blue Botany Serge Suit, Made-to-your-measure, for **\$35.00**

Men's and Young Men's Smart Summer Suits, Snappy Up-to-the-minute Models, \$15.00, \$16.50, \$19.50.

Get your Straw Sailor at Mayhew's, \$1.50 up.

Great reduction this week in Wall Papers, Linoleums, Window Shades, Curtain Materials, Etc.

QUESTIONS and Bible Answers

How did Jesus end his great "Sermon on the Mount?"—Matt. 7: 24-27

NEWBURY

Miss Ella May Miller, of London, spent the week-end at her home.

Miss Dorothy Waterworth, of Glencoe, is visiting her grandmother, Mrs. John Grant.

Miss Theresa Miller and Mrs. Fred Mann and sons Jack and Bob, of Detroit, visited friends in town this week.

Miss Helen Webster, of Margo, Sask., arrived on Thursday on a visit with her uncles, Donald and Bruce Fletcher.

George Holman and daughter, Mrs. Milo Styles, of Lapeer, Mich., and the former's nephews, Reeve Holman and C. A. Blain, last week.

Ab. Root, wife and daughter Clara and Miss Jean Bond, of Mount Brydges, visited Mrs. C. A. Blain last week.

Misses Frances Archer, of Detroit, and Nessie Archer and M. Richardson, of Elora, are visiting at John O. Archer's.

Miss Bella Gray, of Detroit, is visiting her mother.

Arthur Tibbets, two daughters and son and grandchildren, of Detroit, called on their cousin, Mrs. Matthew Armstrong, on Sunday.

The Newby-Mosa W. L. will meet in their rooms today (Thursday) afternoon.

Miss Jean McEachren, of Glencoe, has been engaged to teach in the senior room of the school, taking Mrs. Vanduzer's place.

Little Frances Winters fell on the sidewalk near her home Friday evening and broke her arm between the wrist and elbow.

A lively game of baseball was played in Old Boys' Park Saturday evening between Walkers and the home team. Not until the ninth innings did the visitors get a run. The score was 3-1 in favor of the home team.

WARDSVILLE

Mr. and Mrs. George Pauls and Ray spent the week-end with relatives in St. Thomas.

Arthur Murphy is spending his holidays at his home here.

Mr. and Mrs. G. McMaster and P. O'Malley attended the funeral on Sunday of Mrs. J. Kelly.

Miss Florence Palmer is spending some time in Rodney.

Ford Murphy spent the week-end at his home here.

Elmer Storey was in London last week where he underwent a slight operation on the nose.

Mrs. Spence and daughter, of Tonawanda, N.Y., spent a couple of days with Mrs. F. Radcliffe, Miss Bessie Spence, who has spent the past eight months with her aunt, returned home with her mother, and Miss Lily Spence, who has been visiting here, also returned home.

Fred Black, the speed cop, sustained a broken collar-bone on Saturday when his machine skidded into the ditch when he was after a speeding car.

A number from the village motor-ed to New Glasgow on Sunday and spent the day with the Wardsville girls who are camping there.

Notice.—Monuments, in Scotch and Canadian granites; inscriptions engraved at your cemetery a specialty.—Wardsville Granite & Marble Works; Chas. Mimma, proprietor.

NORTH EKFRID

Mr. and Mrs. Will Hardy and family, of Mount Brydges, spent Sunday with Mr. and Mrs. Harry Hardy.

On Wednesday evening of last week the North Ekfrid soft-ball team played the Bethel team. Score in favor of Bethel.

There were large congregations at both services here Sunday and the Appin male quartette gave several fine selections which were much appreciated.

Tait's Corners baseball team played the North Ekfrid team here Saturday evening. Score was 7-4 in favor of Tait's Corners.

Mr. and Mrs. Gordon Mills, accompanied by Mr. and Mrs. Gordon Purdy, of London, were guests of Wm. Mills on Sunday.

Mr. and Mrs. Roy Brothers, Strathroy, called on friends here Sunday.

Mrs. Casper Ramey and Mrs. John Chisholm spent a few days last week with their sister, Mrs. Ed. Cobban, of Sarnia.

Sam Ramey spent a few days last week with his daughter, Mrs. Floyd Webber, of Windsor.

Miss Margaret Cobban, of Sarnia, is holidaying in this vicinity.

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

CAIRO

Claude Clifford and family have returned to their home in Detroit after spending a week with his father, T. C. Clifford.

Mrs. Mary Annett and daughter Leona spent Saturday in Chatham.

Rexford Annett has returned to Cleveland after visiting a few days with his parents here.

Mrs. Will Fraser has returned to her home in Walkerville.

Wilford Nash, of Bothwell, called on friends here on Sunday.

Meryl McKeown has returned home after visiting for a week with friends in Windsor.

KILMARTIN

Rev. Robert Stewart, of Dutton, will exchange pulpits with Rev. D. Robertson, of Burns' church, next Sunday.

Mrs. Andrew Leitch and two children, Roy and Catharine, of Bethany, Penn., are spending their holidays at A. M. Leitch's.

R. N. Campbell is confined to his bed.

Quite a number from here attended the funeral of the late Mrs. Arch. (Laird) Campbell, of Rokeby, on Friday last.

Dr. and Mrs. Hawley and family, of Detroit, and Mrs. Stelr, of Seattle, Wash., are holidaying with D. R. McAlpine.

Mrs. Scott, of Wallaceburg, and Mrs. Gough, of Cleveland, visited their sisters, Mrs. McAlpine and Mrs. A. L. Munroe, recently on Saturday when his machine skidded into the ditch when he was after a speeding car.

A number from the village motor-ed to New Glasgow on Sunday and spent the day with the Wardsville girls who are camping there.

Notice.—Monuments, in Scotch and Canadian granites; inscriptions engraved at your cemetery a specialty.—Wardsville Granite & Marble Works; Chas. Mimma, proprietor.

EKFRID STATION

Misses Annie McCallum and Anna Eaton are attending summer school at Alma College, St. Thomas, this week. Miss Eaton is a delegate from Union Sunday School, Ekfrid.

Philip Eaton, of Dundas, is spending a few days at his home here.

APPIN

Evon McMaster was home from Detroit for a week's holiday.

Appin Women's Institute will hold their next monthly meeting at the home of Mrs. Duncan Campbell on Thursday, July 24th.

The services of Appin Presbyterian church will be held in the town hall next Sunday, on account of the church being redecorated.

Quite a number from L.O.L. No. 881 took in the celebration at Forest on the Twelfth.

Mrs. John McMaster spent a few days in Detroit with her son Morley last week.

Special reopening services will be held in Appin Presbyterian church on July 27th. Rev. Mr. Atkinson, a former pastor, is expected to preach, and there will be special music by the choir.

Very successful special services were held at North Ekfrid last Sunday afternoon and evening. Rev. Mr. Stevenson preached two excellent sermons, and a male quartette, consisting of Dr. McDonald, Cyrus Henry and Charles and Alfred Bard, well rendered several selections in a pleasing manner.

Miss C. Thornicroft presided at the organ and the church was well filled at both services.

Congratulations are due to Mr. Payne and his pupils for the excellent showing his entrance class made this year, as well as the promotions that were made in the local school.

Mr. and Mrs. Fred Brown, of Cleveland, Ohio, visited at Alf. Bardwell's and H. Eddie's last week, and Miss Annie Eddie accompanied them on their return, going via Niagara Falls and Buffalo.

Mr. Musgrove has erected a new chopping mill near the grain store, to be in charge of Mr. Laughton.

The W. M. S. held their monthly meeting at the home of Mrs. E. V. Thornicroft. In the absence of the president Mrs. Allan presided. Arrangements were made for buying carpets for the church and other business in connection with the society's work was transacted. Misses Gertrude McGill and Marguerite Allan favored the gathering with a pleasing duet. A dainty lunch was served by the hostess.

George McGill, jr., has returned to Detroit after spending holidays in Appin and vicinity.

Mr. Littleproud, of London, will preach in Appin town hall Sunday evening at 7.30.

CASHMERE

Mr. and Mrs. Art. Davis and son Orlean and daughter, Mrs. Finch, and her two children, of Detroit, are visiting relatives in this community.

A pretty wedding was solemnized at the Methodist parsonage, Wardsville, on Saturday at 11 a.m. when Miss Jean Taylor, eldest daughter of Mr. and Mrs. Willie Taylor, and Clifford Tunks, son of Mr. and Mrs. Chas. Tunks, were united in wedlock. Rev. A. Bridgette officiated. The bride was charming in white satin with radium lace and white silk hat. They were attended by the groom's twin sister, Miss Jean Tunks, and Gordon Brooks. After the ceremony a wedding dinner was served at the bride's home. The bride donned a mannish blue tricot suit for traveling, and the young couple left amid showers of rice and confetti for Detroit and Pontiac. The bride and groom are both popular members of the church here and the community. They will reside here.

MELBOURNE

An interesting game of ball was played here between Melbourne and Delaware. The score was 15-11 in favor of Delaware.

Rev. G. W. Oliver organized a teenage class in the Sunday School recently, and the following officers were elected: President, John Coombs; vice-president, Blanche Laing; secretary, Jean Lockwood; treasurer, Argyle McGagan. Arrangements have been made for the members of the class to take turns at teaching.

Misses Annie and Jennie Black spent the week-end with Tom friends.

Thomas Annett has returned to his home in Saskatchewan.

Mrs. Campbell and son have returned to their home in Toronto after spending a couple of weeks with Mr. and Mrs. Laing.

Mrs. Long, of Bridgen, is the guest of her niece, Mrs. Gilbert Melnam.

Mrs. (Dr.) Howell is visiting in Cleveland.

Mr. and Mrs. Laing and daughters are leaving for a motor trip. They will camp at Niagara, visit Buffalo and several places in the state of Ohio.

A number of the members of the Robeah Lodge here motored to Kerwood to attend the I.O.O.F. banquet.

Rev. J. M. Colling called a meeting of all boys interested in having a Trail Rangers Camp. The meeting was well attended and much interest and enthusiasm shown by the boys, who have arranged to organize on Thursday evening of this week.

Mrs. Annett, who has been moved to Strathroy hospital, is not showing signs of improvement.

Misses Melina and Anna McGagan are holidaying in the Canadian West.

Misses Mildred and Muriel Richards are spending the summer vacation with their brothers at Banff. They will visit the coast before returning home.

While Joseph Long was driving with a horse and buggy he collided with a car driven by Howard Hansford. A buggy wheel was broken and Mr. Long was thrown out, but apart from a bad shaking up there were no serious results.

Mrs. Spangling Clark, who has been confined to her bed for some time, is now improving slowly.

Mr. and Mrs. Ed. Dyer, of Toronto, are the guests of Mr. and Mrs. Jas. Collier.

Mrs. Brandon, of Wardsville, spent a few days with friends here.

Donald Fletcher, of Windsor, is visiting relatives here.

Rev. G. W. Oliver and family are leaving for a motor trip north. They will be absent three weeks. Rev. Dr. McKee will have charge of the morning service for two Sundays and the evening services will be union, in charge of Rev. W. Colling. Next Sunday evening the service will be held in the Methodist church. The subject will be: "The seven great mistakes of life."

A game in the West Middlesex Baseball League was played here on Tuesday evening between Appin and Delaware. Score, 11-7 in favor of Appin.

Thirty pupils wrote on the entrance examination at Melbourn Continuation School, of whom six obtained honor standing, as follows: Dorothy Hiscox and Clarence Beatty, pupils of Miss McNabb; Minnie McCracken and Isabella Campbell, pupils of Mrs. Squire, and two Indian boys from Mount Elgin Institute, Clara Near, Marion Campbell, Blanche Hardy, Marguerite Hansford and Laura Collier were other pupils of Melbourn school who wrote, and all passed.

A WESTERN ONTARIO PROBLEM

Townships and municipal councils, boards of trade and chambers of commerce of Western Ontario will prosper in the future, as elsewhere in Canada, is dependent largely upon agriculture and it will be admitted that no greater calamity could befall an area dependent for its prosperity upon agriculture than the loss of its skilled agriculturists. Yet this, it is claimed, is what is happening through the process of time in Western Ontario. The regrettable fact that the younger generation are flocking to the cities and towns, and the lack of adequate means to replace the shrinkage in the numbers of skilled farmers caused by migration, retirement and death, have brought about a condition the results of which are already sufficiently obvious to demand attention and action.

For some years the Western Ontario United Boards of Trade, an affiliation of many of the Boards of Trade and Chambers of Commerce of Perth, Brant, Huron, Waterloo, Kent, Essex, Grey, Lambton, Elgin, Wellington, Oxford, Middlesex, Norfolk and Bruce, have given attention to certain broad aspects of agriculture. With the aid of township clerks of the fourteen counties above named—over two-thirds of the total of 157 township clerks having cooperated—some facts have been secured which, it is claimed, not without justification, indicate a marked tendency towards reduction in the number of Western Ontario's skilled agriculturists actively engaged in productive work. The farmers of the present generation are, of course, growing older and in many instances farms are growing larger, as the most likely purchaser of farm property is the neighboring farmer and the figures which follow show that there is an obvious tendency towards increase of cleared but idle land.

The figures secured must be accepted at face value. They are obtained from over a hundred independent sources and compiled merely with a view to ascertaining actual conditions. They show that of the farms of the fourteen counties of Western Ontario, 212,697 acres are known to be for sale; farms actually vacant, not including those abandoned as useless for agricultural purposes, have together 75,000 acres, and there is reported also 100,000 acres of cleared land in pasture over necessary requirements. According to statistics secured from the Provincial Department of Agriculture's Crop Reports (1922) 100,000 acres in general field crops yields \$2,000,000 annually. Of course it can quite justly be said that an increase in the demand for beef cattle would reduce the unproductive land in pasture; that farms offered for sale may be cultivated by the present owners for many years and the increased production, if the land were fully cultivated, might adversely affect the already inadequate remuneration of agriculture at present prices for produce of all kinds. These are, of course, circumstances which should not be lost sight of, and there are possibly other phases of the matter requiring consideration.

However, the area reported to be for sale, or in vacant farms, or in unproductive pasture with one-third of Western Ontario yet to hear from—approximately 400,000 acres or about one-sixteenth of the total cleared land of the fourteen counties of Western Ontario—indicates a well defined tendency towards reduction in the number of Western Ontario's skilled agriculturists and if this is admitted, it is claimed, a basic condition striking at the root of prosperity which cannot be disregarded without risk.

Members of the United Boards are asking where skilled agriculturists are to be found to buy and cultivate the farms now offered for sale and those of other farmers who may in the natural course of events be expected to retire. If there is a tendency detrimental to the interests of Western Ontario, it is considered folly to ignore it, and Western Ontarians should, it is submitted, get together and see what can be done to check it.

AN OIL OF MERIT—Dr. Thomas' Electric Oil

is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

PUBLIC SCHOOL PROMOTIONS

Middlemias
Entrance.—Henry McNeil, Margaret McNeil, Willie Richards.
Sr. III. to Jr. IV. (Total, 550; pass, 230)—Howard Gardiner 381, Howard McDonald 375, G. M. McIntyre 318, Harold Williams 299.
Sr. II. to Jr. III. (Total, 560; pass, 330)—Bud Lucas 395, Lena Clarke 251, Viola Clarke 249.
Promoted to Class II.—Cassie Clarke (Easter), Clifford Anderson (June).
Promoted to Class I.—Bruce Lilley.
Primer Class.—Volley Williams, Bruce Williams, Alvin McNeil, Kathleen Williams.

S. S. No. 7, Mosa
Names are in alphabetical order. Those marked with an asterisk obtained honors:
Entrance.—Jane Gates, Clarence Scott.
Jr. IV. to Sr. IV.—Clinton Armstrong, Edith June, Irene McLarty, Jessie McNaughton, Etta Scott.
III. to IV.—Mac Gates, John Turner.
Jr. III. to Sr. III.—Cecil Goldrick, Tom Turner.
II. to III.—Douglas June.
Jr. II. to Sr. II.—Wilbert Cucksey, Russel McVicar, Albert Shred.
I. to II.—Clara Gates, Irene Harris, Meryl Harris, Wilfrid June, Mildred Leitch, Mary McVicar, Ruby Stuart, Jennie Turner.
Primer A to I.—Mildred McNaughton, Ethel Regis.
Primer B to A.—Helen Armstrong, Percy Clements, Robert Davis.
Primer C to B.—Burton Babcock, Alice Shred.
Ages McEachren, Teacher.

S. S. No. 9, Mosa
Those marked with an asterisk obtained honors:
Entrance.—Donna Gillies, Martha Livingstone.
Jr. IV. to Sr. IV.—Kenneth Gillies, George Innes.
III. to IV.—Alden Gillies.
Sr. II. to Jr. III.—Leland Innes, John Mitchell.

Buried Treasure!

LONG AGO, men seeking a safe and secret depository for their money and plate, dug a hole in the ground and buried their treasure, often to lose it from one cause or another.

TODAY, even after centuries of progress and enlightenment, there still are people who prefer to hide their money in "secret" places, only to lose it by fire or theft.

The safest depository for your money and valuables is the one everybody knows about—The Bank.

THE ROYAL BANK OF CANADA
