PAIR OF BIGAMISTS LET GO. London, March 7.-In the Derbyshire assizes Justice Hawkins refused to punish two bigamists, asserting that ne preferred to put humanity before the law. Wm. Bradley, aged 35, and Fanny, his wife, pled guilty of bigamy. They married in 1884 and separated three months later. Each married again in 1891, and they lived respectably within half a mile of each other. Justice Hawkins blamed the officers for charging them with bigamy. He said they found their marriage unhappy, and yet there was no cruelty to justify judicial separation or misconduct to warrant a divorce. Not a single circumstance could be raked up against either prisoner. It was urged that they should be prosecuted in the interests of justice, but it seemed to Mr. Justice Hawkins that in the interests of humanity they might have been left quietly alone. He ordered both bound over in their own recognizances to come up for judg-

ment when called upon. CABLE NOTES.

> London, March 7.—The Pekin correspondent of the Times says: Russia has demanded that China surrender to her all sovereign rights over Port Arthur and Talien Wan for the same period and on the same conditions as in the case of Germany at Kiao Chau. Besides this, Russia demands the same conditions as the Trans-Manchurian Rallway from Petuna, on that line (near the River Sungari), to Kwang ashore Chung Tau, Mukden and Port Arthur. Five days are given for reply, and the agreement must be signed within a month. In the event of non-compliance, Russia threatens to move her troops into Manchuria. China will perforce yield. By this agrement Russia will obtain the right to send soldiers into Leao Tung, estensibly for the protection of the railway and engineers. Russian assurances that the ports will be open to the world are deceptive, inasmuch as, while conforming to these assurances, Russia can convert either port into a second and strong Vladivostock. Statement That Spain Has Bought Three German Warships Denied.

Lively Scenes in the Harbor of Havana -A Kansas Minister Wants Spain Clutched by the Threat-Slump on the Stock Exchanges.

The following cable from London is in the New York World: "The manager of the Vulcan shipbuilding works, in Stettin, Germany, being asked by telegraph if that firm has sold, as was reported, three cruisers to the Spanish Government, wired this answer: Stettin, March 6.—To the New York World: We have sold no cruisers to the Spanish Government. (Signed) Vulcan." The rumors of Spanish attempts to buy warships in British yards have caused eager discussion circles. Even in Spain had the money it is believed that, in the present conditions threatening the relations tween France and Great Britain, Lord Salisbury's government would prevent any such transaction being carried

RESIGNATION OF CONSUL BAR-KER. New York, March 7 .- The World's Havana correspondent sends word that Walter B. Barker, United States consul at Sagua La Grande, has resigned. According to the correspondent, Consul Barker teels that the American Government, in its inactivity regarding Cuban affairs, has ignored all the consuiar reports, and that the consuls to all intents and purposes are useless as

channels of information. SPANISH SENTIMENT IN CUBA. New York, March 7.-A dispatch to the Tribune from Havana says: The arrival of the Spanish warship Oquendo, while the Spanish population was still rejoicing over the coming of the Japanese minister to China, has de- exaggerated nation of Spain's navai Vizcaya, has given the Spaniards an Japanese minister to China, has demanded an officially signed assurance of the payment of the indemnity due exaggerated notion of Spain's naval of the payment of the indemnity due exaggerated notion of Spain's naval of the president in all proper measures without any thought of political advantage. The idea may seem ridiculous in the States, yet the existence of this belief among a large element of the population or Havana should not be ignored. These Spanish warships encourage the notion that the result of the Maine inquiry is a subject of indifference to the Spanish Government.

THE ROAR OF ROCKETS. New York, March 7.-By the hiss and roar of rockets and military music, Havana was awakened Sunday, and at plaint, with corresponding demands for craft, summoned by signals flying at Morro Castle, announcing the arrival of another ship, says the Heraid coredge that the British late loan negotia- so diers from Spain. As she moved to to advance China's welfare and to piers with bands on board, and rocket batteries, ancat and ashore, roared a welcome to the new regiments which Spain pours into the western world. On the tugs which circled the Alfonso XIII. were bands playing patriotic airs, and the soldiers replied with a mighty cheer as the ship crept by the cruisers, the Viscaya and the Oquendo. Rockets and batteries for an hour were never silent, and bugles sang

A KANSAS MINISTER TALKS "WAR." Kansas City, Mo., March 7.-Rev. Stephen A. Northrop, of the First Baptist Church, in a prelude to his sermon, taked strongly in favor of war. "I cannot help but feel that war is inevitable," said he. "But humanity is a larger word than America. These dogs of war ought to be driven back to their kenness, not merely because of this Maine disaster, but because of liberty-loving, body-starving Cuba. STOCKS AFFECTED. New York, March 7.-There were enormous selling orders in the market at the opening on account of the new Cuban complications over Consul-General Lee, and losses ranged from 2 points to 5. The flatness of Americans in London, where the declines ranged up to 2% in St. Paul, gave a foretaste of what was to come, and even more significant indications of the apprehension there, with a decline of 2% in Spanish fours. Sugar slumped an extreme 51/2; Metropolitan Street Railclines throughout the list ranged be-tween 2 and 3 points, and very heavy

blocks changed hands in the dealings. Secondary transactions showed better prices, the market rallying almost instantly from 1 to 3 points.

London, March 7—12:30 p.m.—Spanish fours fell to 5677 sian and Turkish went down 4. The American securities at 12:30 p.m. showed losses of % to 2% from Saturday's closing, the latter figure being the drop in St. Paul. Consols for money fell

5-16, and consols for account dropped % from Saturday's closing quotations. Business on the stock exchange was adversely influenced by the news from the far east, West Africa and America. CONSUL LEE'S STATEMENT. Havana, March 7 .-- Gen. Fitzhugh

Lee, the United States consul-general, when questioned regarding Spain's de-mand for his recall, said: "I shail continue to do my duty, which is to guard American interests.

Bailey, Democratic leader in congress, has given the World a signed statement on the present national situation, wherein he asserts his belief that "this country is on the verge of war." He further says: "I am very frank to say that ten days ago I would have spoken and voted against the bill adding two artillery regiments to the army, because I then thought them unnecessary and considered it merely an effort under a war excitement to increase the standing army of the United States in times of peace. But conditions have changed so much that I shall now both speak and vote for the bill, because I

consider it a safe and proper precautionary measure." "The men who have accused us of clamoring for war without being willing to prepare for it, will find that the Democrats in congress will be ready to vote both men and money long before the administration will be ready to use

SEMI-PANIC London, March 7.-A state of semipanic prevailed on the stock exchange throughout the morning, owing to the Cuban crisis, the fear of war with Russia in the far east, dear money and the near approach of the settlement. Later, the operators became calmer, al-though the effect of the scare was still serious. New York pressed sales, which, with the aggressive attitude of Spain, added to the alarm. Spanish

securities were most flat. REQUEST FOR LEE'S RECALL WITHDRAWN.

Washington, D. C., March 7 .- Spain has withdrawn her request for the recall of Consul-General Lee, and it is now believed that the incident is practically closed. The withdrawal came in today in the shape of an official communication from Minister Woodford. It is now stated that the request was never put in the shape of a demand, but that it was merely a suggestion on the part of Spain, and when she found that it would not be pleasantly receiv-

Radway & Co.—

Dear Sirs—I have been keeping in the house your Radway's Ready Relief for the last six years. Fhave used it in every way, and found it to be the best on earth. Six years ago I was eick. I tried all kinds of medicine, but they did me no good. My father saw the advertisement in the paper: he told me to try a bottle. I did so, and by using it three days I was able to be out. I have kept it on hand ever since, and have told my neighbors about it. My wife has been troubled with toothache. I gave a trial of the medicine and it cured her pain instantly. I was gathering corn and got my hand caught between the wagon bed and standard and mashed it badly. I ran to the house and poured on a lot of Radway's Ready Relief and had no more pain. I tied my hand up with a piece of flannel, poured on more Radway's Ready Relief, and in an hour I was ready to take hold of my work again. I cannot be thankful enough. I could write a great deal more, but this paper would not hold half of what I could write. Yours truly.

REV. DR. CARMAN GOING

His Visit Eagerly Awaited by Canadian Missionaries in Japan.

Toronto, March 6.-Rev. A. Carman, D.D., general superintendent of the Methodist Church in Canada, will take the first C. P. R. Pacific steamer in April for Japan to investigate the condition of the mission work there. He goes as a result of a resolution by the Japan conference, passed last year, asking for a deputation from the home board, which would then be in a position to make a personal report to the general conference here upon the various differences which have attracted so much public attention within the past three years. The general board asked the general superintendent to accept the commission, which, after due reflection, he consented to do. A letter just to hand from the official correspondent of the mission council there, the Rev. H. H. Coates, says in respect to Dr. Carman's appointment: "Since word reached us of the choice of the Rev. Dr. Carman as the representative of the board of missions to be sent to visit us this year, we have been looking forward very eagerly to the time of his arrival, and it is our hope that his coming at this most important epoch in the history of our church's work in Japan may result in great good to all of us, foreign and Japanese, and to the church at large. No doubt many important matters will call for treatment." Of the mission work he says: "Buddhists as well as Christians continue earnestly to propagate their faith, and in many ways the Buddhists seem to show greater sagacity in their work than we." Speaking of the recall to the premiership of Japan of the Marquis Ito, Mr. Coates says: "The dissolution of the diet by imperial decree, the resignation of Count Matsukato and cabinet, and a few days later the formation of a new cabinet with Marquis Ito, by far the greatest statesman of Japan, was a most important political event. It seems that Japan cannot get along for any space of time without having him at its head, and in view of the many pressing questions, perhaps he has not returned to power any too soon."

The text of this letter shows that it practically amounts to a manifesto in favor of legitimism as the sole remedy for the manifold evils The Carlists are using the manifesto for all it is worth, declaring it to be one of the blackest, yet most truthful paintings, of the condition of Spain under the regency of Maria Christina.

The Correo, organ of the Carlists, calls the pastoral letter "an outburst from a patriotic soldier's heart suffering for the miseries of the fatherland and indignant at the insults offered to the Spanish flag by the North American merchants, from the heart of an aposile filled with compassion for our brave soldiers fighting and dying without glory, the victims of treachery," and says: "The prelate clearly points out that the Carlists are the only party with the necessary cohesion, strength and faith to carry on the glorious traditions of Spain.'

REMODELING THE "OLD FLAG." The lobbies of the House of Commons are immensely interested in some big and bravely colored new designs for an improved British Royal Standard and Union Jack, produced for inspection by some of the Weish members. The change proposed for the standard is to delete one set of the Plantagenet lions, which give England a double representation and put in the quarter under the Scottish lion a fine ed dragon to symbolize Wales. In the Union Jack nothing is to be removed, but the Maltese Cross is to be supermposed in the center. This latter change nobody liked much, but if the private members of the house decided the matter, the dragon would go on the standard at once. Mr. Balfour is to announce the decision of the cabinet agitated by the people of Wales-which out heraldic cognizance-but never before were the Welsh able to agree as to whether Llewellyn's four lions, the historic leek, Tudor's lion rampant or the right thing. A SURPRISE.

The semi-consternation which was ereated at the time of Prince Henry's visit when the German warships Deutschland and Gefion suddenly loomed out of the fog without having previously been sighted, has aroused the British authorities to a sense of the necessity of taking additional precautions, and they are now erecting quickfiring guns and searchlights. At the entrance of Portsmouth harbor there will be a light powerful enough to sweep Spithead, and guns will be so placed that ships entering must pass under their muzzles. The admiralty has also ordered the prompt delivery of ten 12-inch guns and 24 6-inch quickfiring guns of the new pattern, the special features of which are their breech mechanism, and a new apparatus for working the primers. The new guns work wholly automatically, and, at their firing trials, they gave the greatest satisfaction, the round taking only 61/2 seconds. They have a striking power of 5,374 foot tons, against 3,241 attainable by the present guns. MISS WILLARD'S SECRET. Lady Henry Somerset is writing a sketch of Miss Frances E. Willard for the Sunday School Chronicle. She asks: "What was her secret? Without money or wide influence, she has managed to leave a name that will be carved in history. She has, uncon-sciously, best described it when she said: 'In all this wondrous battle let our motto be womanliness first and afterward what you will."

THE G. O. M. Mr. Gladstone's health continues to improve in the sunshine of the coast at Bournemouth. His daughter reports him infinitely more vigorous in movements than for some time. His voice is strong and clear, and his mental capacity and appetite for work as keen as ever. According to the Westminster Gazette, however, Mr. Gladstone has stopped work. His friends read to him, play for him and favor him with many visits.

Three sets of statistics in the government reports point to a steady growth of prosperity in Ireland. and Indigestion Will Vanish at Once and For Ever. Why will some people suffer pain, when there is absolutely no necessity for them to do so? No man would think of putting his hand in the fire "just for fun."

But thousands of persons suffer the miseries of Indigestion, Dyspepsia, Sour Stomach, Nausea, Waterbrash, Biliousness, Colic, Nervous Prostration, and other stomach diseases, week after week, although they need not do so, any more than they need to put their hands in the fire "for fun." There's not a bit of guesswork about this statement. It is "dead certainty." It is the plain, unvarnished truth. So long as Dodd's Dyspepsia Tablets can be got, there need be no such things as stomach diseases. This is another fact, another piece of the simple truth. If you don't believe it-test them. THE NEW RULES.

In the talk about ousting the rowdy, the adoption of new playing rules at St. Louis was nearly lost sight of by the baseball public. The new sections relating to the powers of umpires were written over and Hanlon's idea that the umpire's power of suspension should be limited was met by the rule that he can suspend players for three days at a time only, while the power of further suspension rests with the can be seen to the caddie's pocket, and the hole was awarded to Allan. The latter won, 4 up and 2 to play. Allan had been prominent in amateur golf contests about Edinburgh for two years. His first exhibition of championship form was in the 72 hole contest at Musselburgh in June, 1896, when he and A. of further suspension rests with the president of the league, in cases where the umpire's report of violent conduct seems to demand further punishment. As Mr. Hart proposed, the earned run was abolished by a close vote; and another change in the scoring rules is that making a return to the old way of crediting a stolen base only when it is actually stolen, and not accompanied by a hit, wild throw, etc. The bunt hit was left undisturbed.

On Wednesday afternoon the Melrose rifle club engaged in a hot contest for an oyster supper. The captains, Steinhoff brothers, must have been keeping a close eye to business by the even manner in which they chose their men. The match was a close one, Captain D. Steinhoff's side winning by three points. After shooting the club retired to the residence of Mr. E. J. Shaw, Melrose Station, where they in company with about 40 couples from London, Ivan and the surrounding vicinity, sat down to an excellent spread, prepared by the lady friends of the club. The successful manner in which this part of the evening's entertainment was conducted did much towards gaining for them the highest opinion of the club. The tea was cleared away by 8 o'clock, after which the club held a short meeting, then all joined in having an enjoyable evening. Miss Hill and Miss Barkley, both of London, favored with instrumental music. Mrs. D. Steinhoff, Miss Smith, Mrs. A. Vennor, Mr. and Mrs. Chas. Tuckey and Mrs. R. Hedges gave vocal selections, 'to say nodings boudt dot Billy Brock vot geebs dot leedle gun shops down in London, vot kraut." The best joke of the evening dould us all boudt how do make sauerwas due to an error of 10 points in the first count of the score, which credited Mr. A. Steinhoff and his men with the honors until after tea, when the score was recounted and the error located. This, however, was not done in time to give the losing side the task of waiting on the victors at tea, for they had been waited on already. The change cast a sudden gloom over the counter All were further disappointed when it was learned that the ring had not been finished which was to have been presented to Mr. A. Steinhoff, the winner of the capital prize, necessitating the presentation to be postponed until March 16, which will be the day of the next regular meet. Following are the scores:

ATHLETICS. McCOY THE NEXT CHAMPION. While the sheriff at Hot Springs was out in the country looking for a "stolen horse," the fight between Kid McCoy and Nick Burley was hurriedly pulled off. The police were delighted specta-tors at the knockout. Gev. Jones made big efforts to stop the mill, but could not arrive in time. There were 2,000 present, and of course the purse of \$2,500 was like easy money for McCoy. Burley was never able to touch the champion, and McCoy landed a heavy swing on the jaw in the second that sent Burley into the land of dreams. Kid McCoy, who has just returned

from Hot Springs, said in an interview: "I have \$5,000 up which says I stand ready to meet any man in the world. Three have accepted my defi.— Maher, Choynski and Ruthlin. I have seen fit to accept Ruthlin as the first man, and my brother will meet Billy Madden at Cincinnati on next Wednesday, March 9, and there post \$5,000 in cash to fight him."

Free Trial To Any Honest Man

The Foremost Medical Company in the World in the Cure of Weak Men Makes this Offer.

HEALTH AND ENERGY ASSURED. HAPPY MARRIAGE, GOOD TEMPER, LONG LIFE.

In all the world to-day—in all the history of the world—no doctor nor institution has treated and restored so many men as has the famed ERIR MEDICAL CO. of Buffalo, N. Y.

This is due to the fact that the company controls some inventions and discoveries which have no equal in the whole realm of medical science.

So much deception has been practiced in advertising that this grand old company now for the first time makes this startling offer:—

They will send their costly and magically effective appliance and a whole promise control of the costly and magically effective appliance and a whole promise control of the costly and magically effective appliance and a whole promise control of the costly and a whole promise control of the costly and a whole promise costly and a whole costly and a whole costly a whole costly and a whole costly and They will send their costly and magically enec-tive appliance and a whole month's course of re-storative remedies, positively on trial without expense to any honest and reliable man! Not a dollar need be advanced—not a penny paid—till results are known to and acknowledged by the patient. paid-till results are known to and acknowledged by the patient.

The Erie Medical Company's appliance and remedies have been talked about and written about all over the world, till every man has heard

MANAGER John Cameron. London, Monday, March 7, 1898.

Duty of the Hour.

It is announced that a caucus of all the Conservative members and party managers will be held at Toronto on Wednesday next. The object is to arrange for the protesting of a number of seats of Liberal members-elect. This kind of action must not be allowed by the Government and its friends to be bne-sided. In this connection, the Brantford Expositor gives good advice when it says that the victory which the Liberals here won must be maintained at all hazards. The Liberals "must be up and doing, or they may lose at bye-elections some of the ground they have held or won at the general election. Their first duty is to collect assiduously all the information they can possibly unearth as to the practice of corruption by their opponents. Now is the time to do this, while

the suspicious incidents are fresh in the minds of those who witnessed them. This should be done in every constitbasis for petitions to unseat elected Conservatives, and for cross-petitions to prevent the seating of defeated Conservetives. A few days of hard detective work by the Liberal committees just how many bear an abundant fruit hereafter." And our contemporary fitly adds:

"There is not, so far as we can discover, any feeling of defeat in the Liberal party. There is abundance of enthusiasm to carry it through to a more complete victory, if it is promptly, persistently and intelligently directed. Lib. erals know now whom they have to fight. Their contest is with 'Tupperism' and all that the term signifies Many Liberals made light of such statements a few days ago. They did so, however, to their own cost, and this mistake will not be repeated."

Be patient with a street car conductor. He has trouble enough with cranks. You get the best service from everyone in his position by kindliness.

London, Hold Your Own.

Even after the contest is over, and London and the West have indorsed the educational policy of the Ontario Government, there is still opposition in the Conservative ranks to the erection spectively in 1922, 1923, 1924 and 1927. of a Normal School in this city. The They would not allow for accrued in-Hamilton Spectator, a leading Oppoterest from the date of the debentures Dec. 31, 1897, to the date of delivery,

timents of its political friends: "London may as well give up all idea of getting the Provincial Normal

Schools in the province now." It is apparent from this express declaration, as well as from the antagonism of leading Conservative M. P.P.'s- were: G. A. Stinson & Co., Toronto, elect that the necessity for Londoners | \$238,615; Imperial Life Association of Canada, \$238,642 60; R. Wilson Smith, pass away for some time to come.

Tiny Majorities.

Only one Liberal was elected in the late provincial contest with a majority of less than 25-Mr. McNish, of West Elgin. But five Conservatives got in with majorities respectively as follows: Mr. Beck, West Huron, 2 majority; Mr. Monteith, South Perth, where a Liberal and a Liberal Patron ran, 5 majority; The odds in the recounts are decidedly in favor of the Liberals.

Prophecies Past and Present.

The Toronto World is beginning to reassume its senses. For days it expressed confidence that Mr. Whitney had carried the province. Now it confesses that Premier Hardy has a majority, but it tries to let itself down easily by saying that in a few months the Government will collapse. This reminds us of Sir Charles Tupper's prophesy regarding the new Liberal Government at Ottawa. The Opposition leader for weeks after the election of June 23, 1896, insisted that the Laurier Government could not live six months. It has now endured eighteen months, and its majority today is over 40, or double what it was at the time Pope. Sir Charles spoke. We know that Sir Charles is not regarded by the wing of the Conservative party to which the World belongs as much of an authority, but there are others who will believe that the World is no more likely to be successful in the business of prophecy than the Opposition leader at Ottawa. Rather will they believe with the World, when, in a saner declaration, it affirms: When a Government pulls through an election with a small but sufficient majority, it can build up that majority out of the bye-elections." That is the condition in which the Ontario Government really feels itself, and with a knowledge, now coming to light, of the underhanded influences to which it owed its loss of seats, or decreased majorities, it is now in a position, with the help of the friends of Liberalism, to begin a new career that will be highly beneficial to the province while conducive to its own safety.

Good and Bad Ballots.

Other tenders, which were independent of accrued interest, Montreal, \$239,785; Jas. A. Meldrum, Toronto, \$237,469; Andrew T. Drum-mond, \$234,398 30; Bank of Commerce, \$237,476 40; H. O'Hara & Co., Toronto, \$99 56 per \$100. Tenders were also called for the

city's banking, which has hitherto been done by the Bank of Montreal. The tender of the Molsons Bank was recommended for acceptance, subject to the city solicitor's opinion as to the legality and effectiveness of the change. The Bank of Montreal offered to continue its former rate and allow 5 per cent rate of discount; 5 per cent rate of interest on sinking fund up to Mr. Powell, Ottawa, 2 majority; or three months, 3 per cent, without Mr. Marter, North Toronto, 24 majority; notice; checks payable and taken at Mr. Brower, East Elgin, 17 majority. erica offered a 4 per cent rate of discount, 4 per cent rate of interest on sinking fund; 3 per cent on deposit receipts, with fifteen days' notice. The Molsons Bank offered a 41/2 per cent rate of discount, 41/4 per cent interest on sinking fund; 3 per cent on deposit receipts, and 2½ per cent on the minimum monthly balance. The Merchants' Bank offered a 4 per cent rate of discount up to amount of credit and 5 per cent on further sums; 4 per cent interest on sinking fund; 3 per cent on deposit receipts, and 3 per cent on minimum monthly ances. The mayor estimates that an annual saving of about \$2,000 may be made by the change, owing to the interest on the monthly bank balances,

which average \$10,000. The chairman and city engineer will confer on the street railway matter with a view to an improved service A number of accounts and tax petitions were dealt with. There were Ald. Winnett (chairman), Nutkins, McPhillips. O'Meara, McCallum, Mayor Wilson and City Treasurer

TWO BRIDGES

To Be Erected by Middlesex and Elgin

Counties-Contracts Awarded. County Engineer Talbot and Mr. Simon McLeod, chairman of the county board of road directors, were in St. Thomas on Thursday opening tenders for two bridges to be erected jointly by Middlesex and Elgin.

One is known as the Ling bridge, over a small creek on the boundary line between Westminster and Southwold townships, and the contract for the superstructure, which is of steel, was awarded to the Stratford Bridge Company, at \$179. The contract for the two abutments of concrete was awarded to George A. Ponsford, of St. Thomas, whose figure was \$379, making the total cost of the bridge \$558. The second bridge is of wood, 250 feet long, over the Thames, on the boundary line between Ekfrid and Dunwich, and known as the Coyne road, or Tait bridge. Lang Anderson, St. Thomas, got the contract, at \$3,900, on condition that he furnishes security and executes the bond within a week. In the event of Anderson failing to do this, the contract will be awarded to John N. Gibb, of Mosa, at \$4,457. The highest tender was \$5,224.

STRUCK BY A TRAIN. St. Thomas, March 7.-Mr. Richard Howarth, Barnes street, an M. C. R. brakeman, had a narrow escape from death on Friday night. Mr. Howarth was brakeman on Conductor T. Reynolds' east-bound freight, which took the side-track at Welland to let No. 85, T. H. and B. express go by. Mr. Howarth stood near the track, and was struck by the engine of the express and thrown with great force on his face on the ground. His right hip and arm were badly bruised, his jaw broken in two places, teeth broken and knocked out, nose split open and torn at one side, and besides all this he received several scalp wounds, and wounds and bruises all over the face. It is believed, however, that he will recover.

Curious Symptom of Indigestion

Haven't you often heard people say, I love this, or I love that, but I am afraid to touch it. It disagrees with me. You may depend that this fear is based on actual experience, for people don't give up these things unless they have to.

When simple indigestion has developed into chronic dyspepsia the disease becomes one of the mind as well as of the stomach, and the fear of food exaggerates itself to such a degree that the poor sufferer finds it difficult to keep body and soul together.

A few weeks ago, what is perhaps the most representative medical organization in the United States, the New York Academy of Medicine, devoted an entire evening to a consideration of the treatment of dyspepsia. The consensus of opinion was that the disease is readily curable, but not by resort to drugs; as one eminent spe-cialist expressed it: "Little can be expected of drugs. We must depend upon nourishment, for when properly nourished, the body will overcome its own infirmities.'

The fear of food is simply nature's way of telling the invalid that this or that substance will not be digested even if eaten, and should, therefore, be let alone.

Whenever simple indigestion or chronic dyspepsia appear, the proper treatment is artificially digested food. By resort to food of this class one can virtually force nourishment upon the system regardless of the condition of the stomach. With returning strength digestion will appear, and as digestion comes the fear of food will disappear, and the first thing we know, the dyspeptic will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good dispersion will say: "I believe I could not a good no and the first thing we know, the dyspeptic will say: "I believe I could eat a good dinner today," and he will, and furthermore, he will digest it without discomfort. From that point on, recovery is very rapid. Nutrol is the highest development

of artificially digested foods. It is promptly absorbed, it aids the digestion of other foods and increase of 135 appetite, strength and weight can usually be noted from the very first You don't have to wait long, weary months for a slight improve ment. HAS ANTITOXIN BAD AFTER-EFFECTS.

The opponents of the serum treatment of diphtheria have maintained that it is often followed by bad results, sometimes by serious cases, chief among which is paralysis. In a discussion of the matter in the Medical Record. Prof. Joseph McFarland, of the Medico-Chirurgical College, Philadelphia, tells us that though paralysis often follows the administration of antitoxin it does so not because of the treatment, but in spite of it, and is due to insufficiency of the dose. Says Dr. Merarland:

"It the treatment of a case of diphther a according to the rules given for the administration of antitoxin, the physician injects as his first dose a quantity of the serum that is more than enough for the cure of a mild case, and probably enough for the cure of a bad case. In doing this, however, he makes no mistake, for the impossibility of estimating exactly what work the remedy has to do must not be forgetten. The one dose may be all that is necessary for the cure, or it may need to be repeated, sometimes may need to be repeated several times. In either case, if the patient recovers the physician has done one or the other of two things-either he has exactly neutralized the toxin in the child's body, or he has done more than exactly neutralize it. In the latter case

nothing of interest will be noted; in the former case the exact neutralization that would save life may not be enough to prevent the sequelae of the disease, and that most common oneparalysis-will appear. 'Need I add that in this illustration the antitoxin is not the cause of the palsy? Yet in a certain sense it is, for if the patient had died he would not

have had palsy. It is because he lived that he has palsy; he lived because he received antitoxin; therefore he has palsy because he had antitoxin! This argument will surely make clear to everyone that palsy is more common in diphtheria treated with antitoxin than in diphtheria treated without it. I would be glad to have the palsy if only I could be cured of the dreadful disease. The only suggestion for the avoidance of the palsy that I can give is to use more of the remedy, and let the increase be given at the first dose.

One portrait was of a prominent banker. He had been sentenced to be hanged, and Gladstone, who was informed of it, saved his life, as he had saved the lives of hundreds of thousands other Armenians, said Mr. Filian. You call Mr. Gladstone the Grand Old Man," he continued; "I call him the grandest old man in the world.' Mr. Filian predicted the immediate downfall of the Turkish empire. At present it has outward support from the European powers owing to selfishness and jealousy, but that support will be removed in a few months. Then, like a rotten building, will the empire of Turkey tumble down. The lecturer concluded with a few complimentary remarks on the freedom and refinement of Canada and an appeal for funds to aid his fellow countrymen. The audience was unusually large,

Adelaide Street Baptist Anniversary. The anniversary services of Adelaide Street Baptist Church were conducted yesterday morning and evening by Rev. Wm. Hartley, of the First Baptist Church, St. Thomas. were good congregations on both occasions, the reverend gentleman's able, earnest and practical discourses being listened to with unflagging interest. Choice flowers in blossom lent their fragrance and beauty to the preacher's desk and platform, while the special music sung by the choir and quartet was appropriate and well-rendered. Rev. Mr. Hartley based his morning sermon on Luke, xvi., 8-For the children of this world are in their generation wiser than the children of light"-part of the parable of the unjust steward, who, though a rascal, was commended by his master for making provision for the future. The preacher spoke rapidly and fluwithout the aid of notes, and treated his subject in a masterly manner, showing where the church earn many practical lessons from the world. The first of these lessons was the necessity for a definite aim and purpose. That aim should be first to become hely men and women, then to win the world for Christ. Another future—as the gold hunter is willing to endure all manner of present hardship so as to secure wealth for the chant advertises his goods and pushes his sales, keeping abreast with the times. The church is apt to be antiquated in its methods. Christians say: Our church is built-let the people come in." Christ says: "Go out into the highways and hedges and compel in which the world sets an example for the church to follow is in earnest, Heavenly Rest, or to go to heaven in palace car. Other lessons to be learned from the world were those of easeless activity, perseverance, and berality in giving. The world pays out its money with a lavish hand. Christians have to learn that money a thing consecrated to God. church, too, should learn the value of tion. consecrated business enterprise and push-things in which it is behind the orld, though working from a higher motive—not money, but the love of a perishing world. Filled with mixed sheep, \$4 35 to \$4 60; common to this love, and imbued with the holy spirit, one church could shake the city of London from its center to its ciran earnest appeal to the unconverted to consider that the most important business of life was to be right with

larger even than that of the morning. Rev. Mr. Hartley gave a most impressive discourse from Galatians, vi., 7-8—"Be not deceived, God is not mockket in sheep and lambs; lambs sold at \$4 50 to \$4 50 for inferior up to \$5 25 to \$4 50 for inferior up to \$5 25 sheep sold at \$3 to \$5 55 for fair to prime flocks, feeders selling at \$5 to \$5 25; sheep sold at \$3 to \$3 50 for the poorest to \$4 40 to \$4 60 for good to choice flocks, with year-lings selling at \$4 50 to \$5. Receipts—Cattle, 200; hogs, 2,200; sheep, 2,500. bad—according to the nature of the seed sown. During the services, the quartet, "When the Mists Have Cleared Away," was sung by Miss L. Wood-burn, Miss Ruth Finch and Messrs. Bragg and Gilles. Another quartet, "De Massa ob de Sheep Fold," was sung with marked effect by Messrs. Chas. Maynard, Alfred Bragg, John Drew and the organist, Miss Rendell -Mr. Maynard taking the solo part. Rev. Thomas S. Johnson preached yesterday at Strathroy. Rev. Mr. Fothergill, the pastor, taking Rev. "Whereas large quantities of intoxicating liquors are being imported into the Yukon district, the Government having thus far contented itself with taxing instead of prohibiting; and whereas a mining population in an Arctic climate presents conditions, moral and physical, that even avowed opponents of prohibition agree render the use of alcoholic liquors a terrible menace to the moral and social well-being of the inhabitants; and whereas, Canada has had an enviable name among the nations for the wise government of her territories, and its continuance can only be secured by judicious legislation in the Yukon, upon which the eyes of the world are now turned; therefore be it resolved that we heartily indorse the resolution recently presented by the Dominion Parliamentary Temperance Committee to the Government, which is as follows: 'That it is the strong opinion of the Parliamentary Committee of the Dominion Alliance that no such permits for the sale of liquor should be granted or permitted to be granted in the Yukon territory, or on the routes thereunto, and that effec-tive steps should be taken to entirely suppress such traffice. Death of London's First Mayor.

Mr. Murray Anderson Called Home in His 85th Year.

Sketch of his Long Life of Useful Citizenship-What He Did to Promote London's Prosperity.

Mr. Murray Anderson, one of the most prominent figures in the history of London, and he who bore the distinction of being the first reeve and mayor of the city, departed this life Saturday at the advanced age of 84 years and 2 months. In the death of this venerable citizen is severed a link which connected the prosperous London of the present day with the struggling little village of the thirties. Few such links still remain. And in no small measure was the subject of this sketch instrumental in London's deelopment and growth. Many worthy enterprises were established here through his influence, and the city's best interests promoted by him in various ways. His was a long life of upright and useful citizenship. In his business career he was one of the foremost merchants of Western Ontario. In public life, as mayor and as a memer of the city council for many years, he rendered valuable aid in improving

the city and developing its trade. It was Murray Anderson who projected the building of the London and Port Stanley Railway, and on its completion the road was stocked on credit with Mr. Anderson's personal note for \$50,000 security. For twenty years he was identified with the road, most of the time as its president. Mr. Anderson also took a prominent part in projecting and developing the London, Huron and Bruce Railway, and in numerous ways aided the prosperity of London as a manufacturing and commercial center.

In religion he was a staunch Methodist and one of the pioneers of the denomination in the city. In conjunction with Mr. Wm. Bowman, Mr. A. Keenleyside, and others, he instituted the Dundas Center Methodist Church, and was one of its most liberal sup-

and his birthplace was the battle-ground of Lundy's Lane. His grandparents, both on his paternal and maternal sides, were historical characters the Revolutionary war United States, and were distinguished for their patriotism and bravery. In their lives were many romantic incidents. His father's father, Col. Peter Anderson, was an English officer who at the time of the rebellion in 1776 had charge of the King's Rangers, then stationed at New York, and at the battle of Princeton he measured swords with both Washington and Lafayette. He was married to Miss Abigail Fortner, a niece of Sir Charles Brooks, daughter of Robert Brooks, a London has had hundreds of cures native of New Jersey, who, in company with James Lundy, after whom Lundy's Lane was named, and a Mr. Howie, left New Jersey for Canada on account of fealty to the motherland.

Anderson became a captain in the in most of the battles in the war of The subject of this sketch was born at the close of the war, and received his name from General Murray. In 1835 Murray Anderson came to London, stayed here a year, and returned to Hamilton, where he was connected with the late Edward Jackson. In 1837 he married Miss Jane C. Kerr, a native of Albany, N. Y.; and to the union were born three children: William, Edward,

When London was incorporated as a city in 1865 he was elected its first mayor, and for three terms previously he had filled the reeve's chair. Mc-Kee, North Essex; J. J. Foy, South conto; James S. Duff, West Simcoe; Col. Francis Leys, London; Hon. George W. Ross, West Middlesex; Hon. A. S. Hardy, South Brant; John Smith, Peel, John Richardson, York.

In North Lanark, the official majority for Caldwell (Lib.) is 161. East Hastings-Russell (Lib.) has 128 official majority. Lennox-Aylesworth (Lib.) has 33 majority. North Norfolk-Carpenter (Lib.) has

250 majority.
East Lambton—The official count is: Pettypiece, 2,631; McCallum, 2,321; Mc-Leay, 116. Total vote, 4,798. Plurality for Pettypiece, 40. North Grey-Official count: G. M. Boyd (Con.), 2,709; Jas. Cleland (Lib.), 2,572. Majority for Boyd, 137. West Victoria-Official count gives

Fox (Con.) 72 majority. The official declaration for West Huron has been adjourned for one week, owing to the neglect of three deputy returning officers to fill in the statement in the poll books. The returning officer decided to take legal advice, and adjourned the matter till next Saturday. Sheriff Reynolds declared A. Hyslop, of East Huron, elected by 498 majority.

In Carleton, Kidd (Con.) has 746 official majority. In Lincoln, Dr. Jessop (Con.) has 353 In South Ontario, Calder (Con.) has 96 official majority over Hon. John Dry-

Mr. Marter, during the elections, sent a dispatch to Parry Sound, saying: "Vote for any person, Independent, Conservative or Liberal, but beat W. R. Beatty." The claim of the Conservatives upon him under these circumstances is absurd. Mr. Beatty has telegraphed Premier Hardy that he will support him.

RECOUNT IN WEST ELGIN. St. Thomas, March 7 .- A second appointment for a recount in West Elgin has been taken out. The Conservatives took out an appointment on Wednesday last before Mr. D. J. Hughes. county judge, and the recount was fixed for 10 oclock today before him. This proceeding was clearly illegal, as the election act says that the appointment must be taken out within four days after the returning officer has made his declaration. On Friday the Reformers took out an appointment before Mr. C. O. Ermatinger, junior judge, and the recount is fixed to take place before him at 9 a.m. today. The Conservatives are so anxious to have the recount before Judge Hughes that they took out another appointment before him, and sought to serve Mr. Macnish, but could not, as he was The proceedings are in progress as

New York, March ? .- Adrian Braun. a convict in Sing Sing, prison, on Saturday murdered his wife, who was paying him a visit, by stabbing her with a

Braun is a German, 35 years old, and ond degree, and was received at Sing Sing on Sept. 1. He was convicted on having beaten his wife, but notwithstanding this, Mrs. Braun forgave her husband, and expressed sorrow because of his imprisonment. She has been living in New York city with three of her children, her other two children having been placed in an asylum.

Mrs. Braun decided to visit her husband Saturday afternoon and arrived at the prison at 3:30. When the two met they kissed each other and were very friendly. They sat for half an hour conversing only a few feet away from the desk of Detectiv Jackson, who was present. Finally Detective Jackson informed Braun that his time was up, but Braun pleaded for

a little longer, saying, "Can't we have a few minutes more." Because of the trouble Mrs. Braun had taken to pay her husband a visit the plea was granted. Suddenly Braun raised his arm, and the detective saw the glitter of a long, thin knife. Braur brought it down with fearful force One cut severed the great blood vessels and almost instantly the woma was dead.

Detective Jackson sprang upon Braun, but the convict had time to gash the woman's head several time more. Two other convicts who were in the corridor came to the detective's as sistance, and the murderer was sul dued. Warden Sage had him remove to the death house, but not, howeve before another knife, similar to the on he had stabbed his wife with. w found concealed in his pocket. Brau refused to say anything. Later he seen ed to be sorry for what he had done

Toronto, March 7.-McNamee's cut, the scene of the terrible drowning accident one Sunday afternoon in August last, was the scene of another double fatality on Saturday night. victims were Thomas McDonald, age 43, who lived in one of the cottages on Fisherman's Island, and his young daughter, Mamie, age 13. Those who escaped a watery grave were Francis McDonald, brother of Thomas, and Mrs. McDonald, the wife of Thomas brother of Thomas, had been visiting them, and about 9:30 Thos. McDonald and his wife and daughter Mamie, and Frank McDonald, the brother, were all coming back to the city in a scow. The scow leaked badly, but they thought it would hold until they were across. All at once, however, it filled across. All at once, however, it inter and went down, leaving them all struggling in the water. Frank suc-ceeded in reaching the shore with Mrs. McDonald hanging to his clothes. The father was less fortunate with the litthe girl, and the younger brother and wife saw them perish before their eyes, screaming for the help which

Women Worry One Another With Water-Vrocman the Robe Thief Gets 14 Days.

Frederick Johnston, the wretch who, on Feb. 28, meandered round in a disgraceful state, chasing women on Queen's avenue, William, Dundas, and York streets, was brought before Magistrate Parke's justice bar this morn-

The charge was read to Johnston, and when asked to plead, he said: "It's just like this, your honor; I was drunk, and I don't know whether I did it or not; but if I did, I'll likely be sorry for it. "Altogether likely you will," replied the magistrate. Mr. Love, who had been asked by Johnston's friends to take the case,

held a short consultation with the prisoner, after which the latter pleaded guilty, and was sentenced to the fullest extremity of the law-six months in the Central Prison. Woman's Love.

His eye kindled, and his face glowed with excitement, but it was for a moment only, as if a flash of summer lightning had lit up a stormy sky and a gloomy earth. He remained silent some time, so bowed down in body, so depressed in spirits, and so sick at heart, that my whole soul was melted with pity for him. I could no longer keep back my tears.

"God bless you, Phebe," he exclaimed and he pulled himself together, and began to consider my affairs. "I cannot think the deed your father wished you to sign was what you imagine," he said, "it must be something else, which we shall know of by-and-

Again I felt baffled. "Are you going down to the Priory?" he asked; "I have little doubt I can get you some allowance made for your maintenance until matters are set-

"But that will be taken from the creditors," I said. "From the estate," he replied. "This is being wound up now; but there are great hindrances, as your father has carried away all books of the companies. But till everything is settled, a small allowance might be obtained for you; at least I would try for it. Whether the Priory and its contents can be included with 'he other assets is a debatable point. It was bought in your name, but it is hardly a question that the purchase money belonged to the companies. But your father tas carto the Priory and establish yourself in possession. "But the tenth is justice and common honesty," I said. "I shall not take possession of the Priory, and if it should be decided that it is mine, I will give it up at once."

That is very noble of you, Phebe," he answered, sighing, "noble and grand, but very, very young. Your father and I would have declared the same when we were your age. But no human being can carry out a counsel of perfection; and we must do as other people do in this world. There is not a rational man in the city who would blame your father for making a reasonable provision for his wife and children." "But he was not solvent when he

CHAPTER X.

I did not know when I crossed the threshold of the little bookseller's shop in Churchwarden street, how utterly my life was about to change, not only in its outer circumstances, but in that conscious, intrinsic being, invisible and immortal, the germ of which we bear in our inmost souls.

Hitherto I had dwelt in a world of Mammon worshipers, or, at the least, those who strove to perform the impossible task of serving both God and Mammon. Money, either getting or spending it, was the chief factor in our daily existence. It was the mainspring of all our actions, though lying so closely at the root of them it was well concealed.

"The world is too much with us, late Getting and spending we lay waste our powers.'

I did not see the whole truth of that until I left my old mode of life behind me, and looked back upon it from a height which had been unknown and unseen by me. For I had never supposed I was not as good a Christian as I need be. I was a self-willed, highspirited girl, but I observed all the customary forms of religion as sedulously as any of my companions. If I had been taken to task and examined in the Ten Commandments, I should and Early Etampes 94. have answered all the young ruler answered our Lord, "All these I have kept from my youth up." I had been wont to help cordially in sales of work, and charity concerts, and parochial penny readings. I was a member of the guild for making clothes for the poor, and I made twice the allotted number of garments, and I had been careful to give away a tenth of my allowance. I had always been a favorite with our rector, and the many curates who had frequented our house. With the unmarried curates I had been more than a favorite.

Now I was about to live with people, very poor, but with whom money was the last thing thought of. All worldly cares were laid aside as though unworthy of occupying the heart and mind. I had stepped out of the kingdom of money into the kingdom of heaven. I was about to learn how great a share God may have in a small house. David Palmer was watching for bur

arrival, with a radiant smile on his delicate face, and I detected a corresponding gladness on Abby's countenance. I, chaser of the estate for anything like gers, and looked into my face with an Yes! You had better go down expression of chivalrous tenderness. "I cannot tell you how welcome you

are," he said, simply and earnestly. He led us upstairs, and showed us our two rooms, the sitting room over the shop and the bedroom over the kitchen behind it. Both rooms were small, but exquisitely clean. As I discovered later on, the whole house was clean with the cleanliness of the deck of a manof-war, immeditely after it has been holy-stoned. Abby's small pieces of furniture, which we had sent by carrier the day before, looked dingy beside this spotlessness. A small, new square of art carpet covered the middle of our sitting room; and in the bednecessary furnishing was allowed in

the house. "Plain living and high-thinking" had taken the place of superfluities. And when one begins to strip off superflu- a yield of 42 bushels and 24 pounds. ities, the externals of life become very simple. As there was nothing unnecessary to do, the household work was wonderfully diminished. Yet the profusion of books made the house appear neither empty nor squalid. Tea was already laid on Abby's little round table in our sitting-room, but I

fancied I saw a shadow of disappointment in her manner, as she saw these preparations. There were only two teacups, and I guess she wished for three, though she hesitated to suggest it. "We hoped you would have tea with us," I said, putting my hand on David 22 bushels 7 pounds. Palmer's arm as he was going to leave us to ourselves. "We do not want

to be treated as lodgers, but as your guests. And L understood we were coming to help, not to be waited up-

I wished to show you all due respect," he answered courteously. "Tomorrow you shall arrange the customs of our household as you please. But I cannot take tea with you here, because of the shop. If a customer came in I should be too far away." So that evening Abby and I took our first meal in dignified solitude. But

we carried our tea things downstairs ourselves, and as David Palmer was actually engaged with a customer - a rare event, as we afterwards discovered -we went into a tiny soullery beyond the kitchen, and washed them and put them away. Abby wore an air of lifelong housewifery which amused me exceedingly.

CANADIAN INDIANS.

Facing Starvation in Keewatin-Ser ious Statement by a Missionary.

Toronto, March 7 .- Rev. Dr. Sutherland has received a letter from Rev. Fred G. Stevens, missionary to the Indians in the Keewatin territory. In it Mr. Stevens says: "This is the hardest winter ever known in this land. So say all the Indians and traders. The deer are gone, also the rabbits. Our people were too poor to provide themselves with nets for the fall fishing, and consequently fish in store are scarce. So far, I have not been able to buy a deerskin for traveling, and that is a proof of destitution, for our people had not them to sell. I am afraid some of our people will starve before spring. We are well provided for. Our only lack is for meat, and of that we get very little. What meat we do get is brought four or five days' journey by dogs. Our house is cold and old, but we keep fires going night and day, and thus are comfortable. The thermometer has been down to 42 degrees below zero, and we expect

it to go down to 60." LIFE SAVED.—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this

Grain and Roots Which Show the Best Results.

Some Enormous Yields-British Columbia's Phenomenal Crops of Turnips and Corn.

A bulletin has been issued by the Dominion department of agriculture showing the results of experiments with various varieties of seed grain at the different experimental farms in the Dominion.

This bulletin contains information of great value to the farmers of Canada. It shows the varieties of grain and roots from which the best results have been obtained. A summary of the facts given in the bulletin will be found below.

EXPERIMENTS IN OATS. Sixty-three varieties of oats were tested during the season of '97. At the Ottawa farm Goiden Giant gave the best yield, 57 bushels 12 pounds. Mennonite came next with 56 bushels pounds, and Improved American Early Etampes and White Schonen followed with a little over 53 bushels each. Although the Golden Giant gave the best yield it also took the longest time from sowing to harvesting, 103 days. Mennonite only required 91 days, while White Schonen Improved American required 93 days

In Nova Scotia the biggest yield was obtained from Wallis, 87 bushels 22 pounds. Flying Scotchman and Siberian, O. A. C., coming next, with 82 bushels and 12 pounds each. At the Nova Scotia farm the Wallis oats were 98 days in maturing, the Flying Scotchman 93 days and the Siberian O. A. C. 109 days. The Golden Giant, which only gave a yield of 53 bushels, 18 pounds in Nova Scotia, was 117 days in maturing at the experimental farm in that province. The biggest yield of oats obtained anywhere in the Dominion was at the experimental farm in British Columbia, Early Maine and Black Beauty giving 92 bushels and 32 pounds each per acre. Early Maine was 117 days in maturing and Black

Beauty the same time. Improved American gave the best average yield of all the farms, 72 bushels and 22 pounds, and it matured in 93 days in Ontario. BARLEY TESTS.

Thirty-five varieties of barley were tested at the different farms. At the acre.

It is the primary duty 3 of every woman to wear in her face the lilies and roses of health. It is one of woman's nat ural missions to please, and one of the first attributes of a pleasing woman is a complexion that shows the bloom of health. No matter how beau-tiful a woman may be

at the outset, if she suffers from weakness and disease of that delicate and important organism that is the threshold of human life, she will soon show traces of suffering in

her face, and very shortly become haggard and homely. She will lose her animation of manner, the sparkle will fade from her eyes and the roses from her cheeks, her form will lose its roundness and her step its sprightliness. Dr. Pierce's Favorite Prescription imparts strength, health, vigor and virility to the feminine organism. It allays inflammation, heals ulceration and tones the nerves. It makes weak women strong in a womanly way and able to bear the burdens of maternity. It banishes the suffering of the period of gestation, and makes baby's advent easy and almost painless. It restores the lost complexion and imparts strength, vitality and health to the entire system.

"I am very thankful for what Dr. Pierce's Favorite Prescription has done for me," writes Mrs. Etta E. Smith, of Grenola, Elk Co., Kans. "About a month before I was confined I had such pains that I could stand up only a little while at a time. I could not red at night or at any other time. I could scarcely eat anything. I began taking Dr. Pierce's Favorite Prescription and after the second dose I felt better. From then until I was confined I carried all the water that was used up a long hill and worked in the garden every day, besides my other work and did not feel at all bad. When the baby was born I had a very easy time. The women said I had an easier time than any one they ever saw for the first time. The baby is very healthy. I got up when she was five days old. After twe days I began my own work and felt stout and healthy." "I am very thankful for what Dr. Pierce's

THE DEAF HEAR.

DR. CHASE'S CATARRH CURE Working Wonders in Toronto.

Gave MRS. BINDON her hearing when Specialists failed.

About 3 years ago, Mrs. Bindon, of 11 Maitland St., Toronto, was attacked with la Grippe, which affected her hearing to such an extent that she was completely deaf. It was a serious affliction and she tried many remedies and consulted a prominent specialist on ear diseases, but derived no benefit. By a happy circumstance she was led to use Dr. Chase's Catarrh Cure, and before she had completed 3 boxes her hearing had partially returned.

She persisted in the application of the remedy, so confident was she of ultimate cure, and by the time 12 boxes had been used her hearing was completely restored. For 3 months now she has been free from deafness, and no emancipated sufferer was ever more delighted than Mrs. Bindon. On Sunday she goes to church and enjoys the service, a thing she was unable to do before Dr. Chase's Catarrh Cure gave her

For two hours he held his audience spellbound, while in a masterly way he portrayed in vivid and realistic imagery the character of Dickens. He thrilled with pathos, he panted with indignation at tyranny and baseness, he glowed with joy and gladness at the triumphs of justice and right, in fact, he seemed to live the characters of Dickens in a manner so life-like and actual as to charm his audience.

London musicians, by the way, are not a little proud of the musical status of their beautiful city. At the recent Guilmant reception given by the Clef Club at Webb's, the chairman introduced as one of the speakers Mr. W. H. Hewlett, of London, and referred to the good work Mr. Hewlett was doing in "London-in-the-Woods," a remark which drew forth a good natured protest from the Forest City representative, who challenged any Canadian city of whatever size to show a higher standard of musical life than that which obtained in London. He drew attention to the fact that some of the finest organs in Canada were in the possession were in the possession of several of the leading churches of London, and leadined with no small degree of elo-

LEFT WOODSTOCK.

Departure of George J. Fraser, Inland Revenue Officer.

The Toronto Mail and Empire publishes a special from Woodstock to the effect that George J. Fraser, who for years has been in the Government's employ as inland revenue officer in Woodstock, left town last week. Henry N. Orr, of Listowel, is now in charge of the local office. The dispatch goes on to state that

an official inspection of Mr. Fraser's accounts showed discrepancies of from \$500 to \$600. This amount is secured LONDON'S MUSICAL PRE-EMIN- to the government through his bondsmen, D. Richards, soap manufacturer, and John Morrison, town cierk. It is known positively, however, that Mr. Fraser took no money with him, and the universal regret heard expressed is that he should not have remained in town to straighten out his affairs. Mr. Fraser was one of the leading public men in Woodstock, and much sympathy is expressed for his family.

Mrs. Rorer was induced by the women's board of managers for Illinois at the World's Fair in Chicago, in 1893, to undertake the superintendence of its model kitchen in women's building, with the result that each morning during the six months she delivered a two-hour lecture on the subject of corn and other food products.

The Women's Auxiliary to the Young Men's Christian Association have succeeded in securing Mrs. Rorer's services for one week only, beginning today, at 2:30 p.m., in the Auditorium, when she will start a series of six demonstration lessons. The programme for the week is as follows: Monday—Simple cookery — French omelets, omelet souffle, corn puff, kibbar and coffee.
Tuesday — Breads — Whole wheat

bread, white bread, bread sticks, rolls and pop-overs.

Embro Courier: We briefly noticed in a part of our last issue the decease of Squire Laughlin Fraser, which took place at his residence on Argyll street, at the advanced age of 85 years. Deceased was a native of Inverness, Scotland. At an early age he joined the First Regiment (the Royals), but, on account of his splendid physique and stature, was drafted into the Royal Artillery. While in the military service he was raised in 1832 to the sublime degree of master mason in Royal Thistle Lodge, No. 222, G. R. of Scotland, he being thus at the time of his death one of the oldest Freemasons in the country. After some seven years of inglorious inactivity he retired from the army and came to Canada. He was married in 1845 in Galt by the late Rev. Dr. Bayne. He subsequently was engaged in business in Galt and Montreal, but having been appointed the first jailer at London and instructor to the militia, he removed to that city, then known as the "Forks of the Thames," in 1848. The "Forks" jail was a very primitive log structure, which, however, he did not occupy very long, having purchased a farm in Caradoc. During the construction of the G. W. R. he was associated with Mr. J. W. Sifton in the excavation of "Sifton's cut" west of London. The Hon. Clifford Sifton, minister of the interior, was then a half-grown lad, running wild among the railroad navvies. About 1854 he exchanged the Caradoc farm for the one on the 15th concession of East Zorra, and transferred his residence from the sand ridges of Middlesex to
