Citizens Oppose Action of the Grand Trunk Re Railway Crossing

ELECTRIC LINE BLOCKED

Several citizens have added their opinions on the Railway dispute, to those formerly given in this journal. A number are given below:

Public School Trustee William Somerville—If the Grand Trunk Railway Company have the idea that they own this country, and can veto any proposition for the opening up of our rural districts and the benefits that would accrue to our city by the extension of the electric railway, then I would suggest that our merchants and shippers should remember that we can use other routes which do not antagonize our interests. I would also suggest that the business men call a mass-meeting, and consider the railway company's attitude towards our city.

Mr. A. C. Trudell—My views are much the same as those already expressed in the G. H. J. It is an injustice that the Grand Trunk should be allowed to block the extension of our electric railway, and especially so when the extension means much to all the business people in this section.

Ald. Potter—As an alderman I am prepared to work in the interests of the city by opposing the decision of the Railway Committee as strongly as I can. I think it is an injustice that the G. T. R. who are using our streets for shunting purposes, and

MUSICAL SUPERIORITY

A Few Exchanges Showing the True Value of the Gourelay Piano.—An Instrument that is Attracting the Attention of all Musicians.

The highest standard maintained by the Gourelay has resulted in many people exchanging the instrument they thought at the time they bought to be the best for a Gourelay. That it is without doubt the best piano made in Canada to-day, we are willing to convince all who will stop in at the exhibit now being held in the Scane Block, King street, this city.

The following persons are a few who have realized by comparison and use the superiority of the Gourelay, both in tone, touch and durability. We can give you list of hundreds of others:

A FEW EXCHANGES FOR GOURLAY'S.

Four Northerners from Halifax Conservatory of Music.

Norheimer from Miss Lena M. Hayes, violiniste, Toronto.

Mason & Risch from Mr. C. D. Chestnut, Toronto.

Heintzman & Co. from Alberta College, Edmonton.

Heintzman & Co. from Miss A. M. Pringle, Toronto.

Gerhard Heintzman from Thomas Agar, London.

Gerhard Heintzman from F. R. Beatty, Toronto.

Gerhard Heintzman from Rev. G. R. Faskin, Toronto.

Gerhard Heintzman from Dr. W. McLaren, Toronto.

There is "proof of the pudding," and we ask any who want to satisfy themselves about the way the above people are pleased with the Gourelay to write them. They will not be offended, but will be pleased to tell their experience in using different pianos, and we assure they are enthusiastic in their praise of the Gourelay Piano. One can buy a Gourelay now by ordering direct from the factory, have terms arranged to suit you, and buy at the same price the small dealer or agents pays for them.

Every instrument is guaranteed in writing by a company that have been for twenty-eight years in Toronto.

Exhibit open evenings.

DEPUTATION FROM WOODSTOCK INSPECTS CHATHAM PAVEMENTS

The Visiting Aldermen Were Delighted With The Up-to-dateness of Chatham and Received Much Valuable Information

A deputation of Woodstock gentlemen visited this city yesterday afternoon, to inspect Chatham's many fine paved streets. The party was composed of the following: Alderman John Mearns, chairman of the Finance Committee; Ald. W. M. Baker, Chairman of Fire and Light; Ald. R. G. Sawtell, Chairman of the Board of Works; Ald. Geo. E. Phillips, City Engineer; F. J. Ure, Mr. John A. McKay, street commissioner, and Mr. C. C. Dickson, G. T. R. ticket agent.

The party were met and welcomed at the station by Chairman Edmondson of the Board of Works, and Ald. Benson and Radley, and City Engineer E. B. Jones. From the depot they were conveyed to the Hotel Racine, where they had dinner. The Planet had a short chat with some of the members of the deputation before they left on their tour of inspection.

"What is the object of your visit?" asked the reporter.

"We are going to inspect your paved streets," replied Ald. Sawtell. "We are contemplating paving our streets in Woodstock."

"Has Woodstock any paved streets?"

"Oh, yes," was the loyal reply of Ald. Sawtell. "Y's of course we have paved streets, and Woodstock is a very pretty city—one of the prettiest in the province, but from what I have seen of Chatham it must be admitted that the Maple City is indeed a beautiful place too."

The Woodstock gentlemen were taken to visit all the places of interest in the city, and they unhesitatingly expressed great pleasure and appreciation at what they saw. They were particularly pleased with the residential section on King street west, where they asked that the carriage be stopped several times, that they might better enjoy the beautiful view. The deputation were shown the various factories of the city, and while at the fire hall an exhibition hitch was given. They were greatly pleased with all they had seen.

They returned to Woodstock on the 5.18.

COMPLAINTS ARE MISDIRECTED

So Says Homer Turner the Caretaker of the Cemeteries

REFUTES ACCUSATIONS

In last evening's Planet appeared an article drawing attention to certain complaints which have been made against the caretaker of the cemeteries. That gentleman has something to say in his own defense and answers the article with the following letter:

Dear Sir,—Will you kindly allow me space in your G. H. J. to reply to an item in yesterday's paper headed "COMPLAINT MADE."

I would like to state the facts in this case: a deliberate untruth being used by the undertaker in question. The corpse mentioned was the one from Dover, Thompson by name, who committed death by hanging himself, and when brought to the cemetery for burial was in such a badly decomposed state and the stench from it so strong that I refused to allow it to be taken from the ambulance until the grave was dug, but told the man to drive up farther so the men could dig. Now the undertaker wished it to be taken from the ambulance and placed along side of where the men were digging so as to be handy for them when they came out to lower it into the grave. This is what I refused to do.

When the grave was ready Horace Rodgers, George Thomas, also my son Robert, helped him to take the corpse from the ambulance and lower it into the grave. Then it was when the undertaker came out to the cemetery. Now I am not supposed to handle the corpse; that is not my duty, although I have helped them when they have been short-handed.

About the other matter, the gates: I have never refused admittance to any person or persons, although they state I refused to allow a man with a corpse for interment to enter at the rear gates. That is a falsehood also. The rear gates have been kept closed on account of the stock running loose on the roads; not to prevent people from coming through. No one was ever refused admittance by me or told to go to the main entrance. Now, Mr. Editor, if you will publish this; it is only fair both sides should be told. Thanking you for the space used.

HOMER B. TURNER, Cemetery Superintendent.

The Typewriting Department is equipped with twelve thoroughly up-to-date machines, including one with French Keyboard, for French correspondence; and the latest methods are used in teaching. Pupils receive special instruction in the care of the machines and are taught to make simple adjustments.

The system followed in shorthand is the Isaac Pitman System, the one taught in the leading schools not only of Great Britain and Ireland, but in those of the United States and Canada. In connection with the Shorthand Department is a full library of all books printed in this system, and, in addition to this, pupils have the use of two weekly and two monthly periodicals printed wholly or in part in shorthand. This year a notable improvement has been made in the speed of the senior division and a number of the graduates this year will write from 100 to 125 words per minute and produce neat and accurate transcripts. One of the senior pupils has even before her graduation, distinguished herself by taking preliminary examinations with marked success. In no case, however, is accuracy sacrificed for the sake of speed, and special attention is paid to the correct oral reading back of all notes taken.

The number of demands for assistants sent into the school during the year has materially diminished the size of the graduating class. This particularly applies to the boys, of whom the supply was not equal to the demand.

For young students who have the time to devote to a thorough all-round training in Commercial Work the Collegiate Institute is now prepared to offer every advantage, and the Fall Term is likely to open with the largest attendance on record.

FIGHT OVER THE "T" RAIL

The W.E. & L.S. Railway is Having Trouble With Windsor Council

CHATHAM MEN SPEAK

The Windsor, Essex & Lake Shore Rapid Railway is at present endeavoring to induce the City Council of Windsor to allow them to use T-rails in Windsor. A Windsor exchange has the following to say in its account of a recent council meeting:

"W. R. Phillimore, of Chatham, who is financially interested in the success of the Windsor, Essex & Lake Shore Rapid Railway Co., placed the case of the railway before the council in a way that made it very clear to the council. His statements appeared to be sincere and at the conclusion of his address Ald. Foster announced that he has become a convert to T-rails."

"Mr. Phillimore explained the early history of the company and told how he and John Piggott, of Chatham, had become interested. They owned an interest in the road and were so tied up with the Union Trust Co. that should the latter carry out its threat to withdraw its loan to the company the speaker and other men who advanced money would lose every cent they possessed."

"He read letters from the engineers of London and St. Thomas showing that T-rails are well liked in those cities. He also told of the same rails in the city of Ottawa and other places and he claimed that the T-rail is the peer of the girder, any day."

"He denied the rumor that the road is to be run by steam. He said that the most expensive electric apparatus is to be installed and the company would not go to this expense if steam was to be used. Mr. Phillimore claimed that the action of the railway commission in deciding on a subway for Essex crossing had raised a barrier that will cause no end of trouble and expense. There is no drainage at Essex and if the subway is built a pumping station will have to be installed to pump out the water from the hole under the M. C. R. tracks."

John Piggott, Chatham, spoke along similar lines. He told of his connection with the road and said that with so many reverses he would be a happy man if he could withdraw from the enterprise. He said his money is tied up and the only way in which he can recover his own is to have the road completed. He asked the council to again consider the question and give the railway as fair a deal as possible. Mr. Piggott contended that the road will be of benefit to Windsor and inasmuch as the company is not asking the city right that they should receive some consideration."

THE BUBBLE BURSTS.

The antagonistic feeling existing between the Canada Company and some of the farmers of this district is reaching a very acute stage and there are well founded rumors in the air, of writs, actions, and law courts.

Many years ago the Imperial government made several grants of land to this company, who, in their turn, have in a great many instances, leased the land to farmers, in every case reserving all mineral rights on such lands, for themselves.

Some of these lands, thus leased, are situated in the township of Tilbury, where at present there is an oil boom of considerable magnitude, and the question of the Canada Company's right to this mineral product is doubted in many quarters, and there is considerable talk of testing the validity of these claims through the medium of the courts.

Considerable interest is manifested in this question throughout the Township and feeling against the Canada Company runs high. The Planet is informed that farmers from the district are being filled up with a remarkably untrue story which, given out when the feeling against the Canada Company is so bitter, can only be calculated to boom the interests of the man, who will carry the Liberal banner through the next Dominion election. This gentleman, of course, is heralded abroad as the enemy of this unpopular Company.

It has been stated to several farmers in Tilbury, according to report, that Mr. A. B. McCoig, during the recent session of the Legislature, was instrumental in getting an act through the House, requiring the Canada Company to pay taxes to the Township on their interests in lands in Tilbury, Romney and other places where they hold mineral reservations.

If it is true that such information is being given out which in the event of it being authentic would prove valuable "boom stuff," it is only fair to declare, for the benefit of any of the farmers who might under these extraordinary circumstances be carried away with the idea that Mr. McCoig is looking after their interests, that the statement is entirely and absolutely groundless and untrue.

No act of this character was passed during the recent session of the Legislature, and if the Liberal machine finds itself in such straits that it is forced to resort to these debating tactics in its spasmodic attempts to keep its man within even halting distance in the rear, we can see nothing but ruin ahead for Mr. McCoig. The honest and fair-minded Liberals of Kent, who, we are pleased to know form the large majority in their party, are averse to such political dodges, and are strongly in favor of resting their case solely upon the true merits of their candidate and the policy of the government he upholds. These are true principles and the safest ones in the chance of a political election.

It is declared, moreover, that in the present instance, there is an awkward question in law as to the Legislature's right to interfere with a charter granted by the Imperial government and until this point is settled nothing can possibly be done in the matter by Premier Whitney.

A good apple crop is promised this year. Western and Northern Ontario are due to the effect that apples have set well after profuse blossoming and a big yield is looked for. From Nova Scotia, where the season is a little later, the outlook is reported fair, but it is yet too early to give a reliable forecast. Of the American crop, the Fruit Trade Journal of New York says: "Reports continue to come in of the promise of a great apple crop in all Western New York sections, and people are talking of another 1904 yield. Buyers and others who have been through the territory bring in these reports, all of the same tenor. The bloom was great and the set of fruit heavy. It is believed that the outlook for the crop is nearly if not quite as good in the spring of 1901."

BEEMER-STEWART

A very pretty wedding took place at Blenheim yesterday, when Miss Marion Stewart, a popular young lady of that town, became the bride of Mr. Fergus Beemer, of Taylor. The ceremony was solemnized at the bride's home at four o'clock, and was performed by Rev. Mr. Holmes. The residence was prettily decorated for the occasion with ferns and orange blossoms, and the happy couple were united under an arch between the parlor and the drawing room.

The bride was attired in white de-lights over silk, profusely trimmed with baby ribbon, and she carried a bouquet of white roses. Her niece, Miss Ethel Stewart, who acted as bridesmaid, wore a gown of Indian linen, trimmed with Valenciennes lace and insertion. She carried a bouquet of pink roses. Mr. Harry Beemer, brother of the groom, was best man. Miss Maud Henderson played the wedding march. At the conclusion of the marriage rites, the bridal party repaired to the dining room, where a tasty wedding dinner was served.

The groom's gift to the bride was a china cabinet; to the bridesmaid a locket and chain, and to the flower girl, a beautiful ring. Mr. and Mrs. Beemer left on the evening train for Detroit, Toronto, and other eastern points, the bride's going away gown being of grey cloth, trimmed with military braid.

About 75 guests were present, among whom were, Messrs Maud and Elia Groves, of Chatham; Dr. Sullivan and Clynton Clark, of Chatham, Mr. and Mrs. Edwin Mitten, and Miss Lydia Stewart, of Ridgeway.

SPORT

FOOTBALL

THE GAME OF THE SEASON.

A fast and interesting return game was played yesterday between Chatham's popular half-backs missed the train, and so both teams agreed to play ten men. The game was a most enjoyable and evenly contested one throughout. Chatham were in fine form and so were the locals, and so it was a case of "Greek meeting Greek." In the first half Kent Bridge boys were mostly on Chatham's goal and about half way through the ball was placed between the stakes but referee Cummings disallowed the point. The second half showed the brilliant stamina of the country boys. Chatham were as literally penned in their own goal, and when a short hilly in front of the uprights, Sydney Roseborough headed through amidst great applause. Chatham played up after this reverse, but the K. B. boys came again, and Courtney, of Chatham, put through his own goal from a splendid kick by Alf Langford.

Freel Riseborough hereabout eluded all opposition, and scored with a brilliant low shot, but again the point was disallowed on the plea of hands. Hard luck this. Not to be denied, however, the locals came again, and Wesley Riseborough put through after a brilliant rush by the whole forward string. This was the closing incident of the grand game. Both teams played good football, but Kent Bridge was always on top, and, though out-played, Chatham was by no means disgraced. In a game where all were stars it would be hard to single out any one for special praise, but mention should be made of the plucky K. B. halves, The Meadows stuck to the famous Chatham wing, Martin and Parrott, was a sight to witness, and never beaten, the K. B. boys owed a lot to him. On the Chatham side, Courtney, Coulter, Martin, Parrott and McKenzie's work-ed hard all through. Referee Cummings should be congratulated on the way he handled the teams, and with one or two like him refereeing, the game would take great steps for improvement in Kent County. The play was witnessed by a large crowd who enthusiastically cheered their special pets.

The line up was as follows:

Chatham—Goal, Harrington; b ck, Courtney, Coulter; halves, L. Parrott, Willson, Williamson; forwards, McKenzie, McQuarrie, Martin and P. Parrott.

Kent Bridge—Goal, L. Riseborough; b ck, Langford; A. Langford; halves, Stonehouse, Fleming, McQuarrie, McKenzie; forwards, Richmond, S. Riseborough and W. Riseborough.

WHOLE ARMY MUTINIOUS

How The Times Seem To Speak In Troubled Russia

REFUSE TO OBEY ORDERS

St. Petersburg, June 22.—A serious mutiny, which for a time threatened to place the fortress of Sebastopol in possession of the mutineers, was suppressed Wednesday, according to a special despatch to The Novoe Vremya. The mutiny was started by a battalion of fortress artillery, which declined to obey orders, whereupon the men were promptly disarmed. Two other battalions then mutinied and took possession of the guns in the north shore batteries, but on the appearance of several loyal regiments of infantry the mutineers abandoned the idea of fighting and returned to their barracks. Gen. Niplett, commander of the fortress of Sebastopol, is represented to be greatly concerned about the temper of the sailors as well as the soldiers of the fortress.

That the morale of the whole army is being shaken by the revolutionary propaganda is proved by the continual extension of the rebellious outbreaks among the troops. It appears to be confirmed that the notorious Semenovskiy Regiment, whose name became synonymous with repression owing to the deeds committed by these troops at Moscow, are reported to have held a meeting and to have decided that they cannot any longer tolerate the public opprobrium and must wipe out the stain of the regiment.

The tenderness with which the military authorities are treating these and recurring exhibitions of the mutinous spirit among the troops is sufficient evidence that they fear the entire army is infected.

Terror at Sebastopol.

Moscow, June 22.—The Viedmostie yesterday printed a special despatch from Sebastopol describing the mutiny there, according to which a company of the fortress artillery sent to disperse a meeting on the boulevard Tuesday night refused to do so and later were disarmed by the Brest Regiment. Wednesday a battalion of the same artillery, acting in sympathy with their comrades, took possession of the north side batteries, broke open the magazine, loaded the guns and trained them upon the city. The same night the Brest Regiment, reinforced by a regiment of Engineers, surrounded the mutineers, who submitted without a fight. The population of Sebastopol was terror-stricken, fearing that the mutineers would open fire on the city.

SMALL FIRE

While on his rounds at 2.20 this morning Officer Thomas Groves noticed the reflection of a fire in the upper windows of ex-Ald. E. A. Mounteer's bakery on the corner of King street and the market square. He immediately informed some of the bakers who were working in the shop below, and the fire was extinguished before any serious damage was done.

Had it not been for the policeman's watchfulness, a serious fire might have resulted.

FEELING OF SYNOD

The following motion of local interest, adopted by the Synod during their present session:

"Introduced by Matthew Wilson, K. C., and seconded by Archdeacon Richardson, that the Synod of Huron notices with deep concern and sincere regret the suggestion that is proposed in the Lord's Day Act that some members of the community (Jews and Adventists) should be excused from submission to the clauses of that act relating to the observance of the Christian Sabbath, and this Synod urges that Christianity is the basis of such laws, and while unbelief therein should have freedom of action and faith as to abstaining from worldly labors on other days; yet, while living in this Christian land, all should be required alike to abstain from worldly occupations (except works of charity and necessity) on the Lord's Day, and that the opinion of the church in Huron be telegraphed to the Premier of Canada."—Carried.

Regal Beer Seized.

Toronto, June 22.—Officers of the license branch of the Provincial Secretary's department have seized large quantities of Regal beer in Cobalt and other New Ontario centres. Altogether twenty-four places were raided. In one hotel 150 barrels of the beverage were taken. The beer will be destroyed. The action of the department is the result of an analysis which shows the beer to contain more than 1-2 per cent. of proof spirits.

Ottawa, June 22.—A despatch received from Lord Elgin, as Secretary of State for the colonies, states that Richard Gregg of the Middleborough Chamber of Commerce is being sent to Canada by the Imperial board of trade to select suitable persons in the chief Canadian business centres to act as local correspondents of the British board of trade and to report from time to time such opportunities for British trade as may occur. He is due to arrive in Canada on July 3.

Queenston Heights Defended.

Niagara Camp, June 22.—Queenston Heights with an inferior force can't be taken by a much superior force. This was demonstrated by the sham fight which lasted from Wednesday night until the last unit came in last evening. In this fight the forces came close enough to hit opponents on the heads with guns and pleasantly prod them with bayonets, while the firing on the ridges was so close that some of the warriors' faces were filled with powder.

Owen Sound Celebrates.

Owen Sound, June 22.—This town's semi-centennial celebration yesterday was a pronounced success in every respect. The feature of the morning was the laying of the corner-stone of the magnificent new cement bridge on Port street. Mayor Joyce presided and the ceremony was performed by David Creighton, ex-M. P. P., of Toronto, one of Owen Sound's pioneer residents. In the evening the sky was brightened by a display of fireworks.

Balch street residents complain of the condition of that thoroughfare. They claim that only one attempt has been made towards cleaning the street up since the new pavement was laid, and that debris from the recent storm has not yet been cleaned up in that vicinity.

The Planet is indebted to Mr. Geo. K. Atkinson, formerly of this city, for a large photograph showing a group of land buyers leaving Stettin, Alberta, on June 11th. These prospective settlers give every appearance of thrift, and have splendid horses and wagons. Mr. Atkinson has greatly improved in health, and is delighted with the country.

Christ Church Branch of the Women's Auxiliary Missionary Association packed their semi-annual bazaar on Monday, this time for the new Indian school at Lac-la-ponge, Prince Albert, Saskatchewan. The society made eight quilts, 21 hoods, and 24 yards of carpet, and they were greatly encouraged by the generous aid of the congregation in warm clothing, groceries and \$10 to pay freight.

THE REAL THING

E. F. Honsinger, cigar manufacturer, St. Thomas, is in the city today selling one of his many excellent brands of cigars that is known as "The Real Thing." This five cent cigar has had a large sale in the east and the popularity of this brand is well known amongst the dealers. During to-day Mr. Honsinger has taken orders for several thousand cigars, and they will be handled by the principal dealers in the city.

HOUSER—BARBOUR

At Christ Church yesterday, at high noon, the marriage ceremony uniting Miss Norma D. Barbour and Prof. C. Houser, of Louisville, Ky., was solemnized by Rural Dean Robert McCosh, in the presence of a large number of the friends of the contracting parties.

The bride entered the church on the arm of Rev. J. C. Richards, preceded by the bridesmaid, Miss Madeline Hunton, of Detroit. The bride and her party were met at the church by the groom and his best man, Mr. Robert Day, Jr., of Chatham. At the conclusion of the ceremony the bridal party repaired to the residence of Mrs. Hawkins, Wellington street, where congratulations were extended and a hearty luncheon served.

The bride formerly resided in Chatham, but for a number of years has been teaching in the schools of Louisville. The groom is a teacher in the High school of the same city, and is regarded as one of the leading educators of the South. The bride and groom will remain in the city for several days, when they will leave for Detroit and St. Paul, Minn., travelling via the lakes. They have the best wishes of a host of friends in this vicinity.

COURTNEY vs PIGGOTT

The case of Courtney vs. Piggott, which was tried in the Division Court on Wednesday, was argued out in the Judge's Chambers yesterday morning. This is an action on a promissory note for \$150, on the premium on the life insurance policy to be issued by the State Life Insurance Company of Indianapolis, Ind., solicited by the plaintiff from the defendant. The defendant refused to pay on the grounds of failure of consideration, misrepresentation, and fraud, in that the plaintiff leading up to the securing of the application, and the policy of insurance furnished was not the class and character stipulated for. The case came up at the division court on Tuesday, was enlarged until

Wednesday, and was referred to chambers for argument.

THE "EXCELSIOR" LIFE

President Fasken and General
Manager Marshall Testify.

President Held About Two-Fifths of
the Stock and the Gooderham Estate
About One-Fifth, But They Did Not
Attempt to Control the Company, as
Their Interests Were Not Common—
Had No Call Loans.

Toronto, June 21.—The investigation
into the affairs of the life insurance
companies was resumed yesterday be-
fore the Dominion Commission. The
counsel for the Dominion examined
David Fasken, president of the Excel-

sior Life Insurance Co.
His evidence showed it to be the first
concern taken up that came into ex-
istence through letters patent issued by
the Province of Ontario; a license from
the Dominion was received later.

Mr. Fasken, as well as being presi-
dent, owned about two-fifths of the
stock, and the Gooderham estate holds
about one-fifth more, but the witness
said they did not work together to con-
trol the concern. He did not consider
that their interests were common.

The Excelsior Co. did no business
in call loans, railroads or with brok-
ers, but confined their investments al-
most entirely to real estate mortgages
and loans on policies.
The company had made a plunge into
"industrial" insurance, but had given
it up in a short time because it
took too much money from "ordinary
life" to develop it.

Mr. Geary submitted the witness to
a very short examination.
Manager on the Stand.
Edwin Marshall, general manager of
the Excelsior since 1900, was called to
the stand at the beginning of the af-
ternoon session. He told how the
company was formed, that the induc-
ements held out to shareholders were
the same as Canada Life or Confedera-

tion Life. Under their agents' con-
tract, commissions terminated with the
contract.
The salary list was not a heavy one.
President David Fasken receives \$2,000
a year; Dr. Ferguson, medical referee,
\$1,500; General Manager Marshall, \$3,-
500, and the next salary in head office
was \$1,000. The company paid its sol-
icitors \$300 a year for general advice.

To Stop Rebating.
They had made efforts to stop rebat-
ing, and witnesses straight saling,
and had induced agents to work bet-
ter than commission. The present
method of loading on the ordinary life
plan was 20 per cent, plus \$3. Witness
was opposed to "industrial" insurance,
and by the company from the start, and
after four years' experience, that
branch was dropped in 1900. In 1897
the expenditure in the industrial ex-
ceeded the receipts by \$2,000; in 1898
by \$9,083; in 1899 by \$3,393. In 1900
another system was adopted and these
losses were recovered in a few years.

The Agents' Manual.
Mr. Tilley then took up the agents'
manual, over which he spent consider-
able time. He touched on the method
adopted by the company in meeting
the needs of the market. The valuation
of the basis of reserves was charged on
a gradual process as the directors thought
that the wisest move, instead of mak-
ing the advance it would necessitate
the doing away with a dividend.

Spain's Foreign Minister Dying.

Madrid, June 21.—The illness of the
Duke of Almodovar, the Minister of
Foreign Affairs, has become grave. The
sacrament of the dying has been ad-
ministered to him, and King Alfonso
has temporarily confided the portfolio
of Foreign Affairs to Premier Moret.

DEATH IN RAILWAY TUNNEL.

Air Chamber Fills With Water After
Two Workmen Are Killed.

New York, June 21.—Two men lost
their lives, another was fatally in-
jured and six more were severely in-
jured as a result of an accident in the
Pennsylvania tunnel yesterday. Twen-
ty-four of the thirty-five men who were
at work in the tunnel at the time of
the accident escaped without serious
injury, after having faced death by
drowning.

The accident was caused by the trem-
endous pressure necessary at the
mouth of the tunnel to hold back the
soft mud into which the shield is forced.
The mud under this shield was
blown out, and two of the workmen
who were caught in the flow of air
were swept down to death in the river,
the penetrating, heading was emptied
of air, water rushed in through the open-
ing and threatened to drown the sur-
vivors. So rapidly did the water flow
into the uncompleted compartment that
before the last man came to pass
through the little door he was stand-
ing neck deep in the water.

SCHOONERS WRECKED.

Storms Along Newfoundland Coast
Caused Loss of Life.

St. John's, Nfld., June 21.—Ship-
wrecks of the schooner Blossom and
Reindeer were reported yesterday,
parts of their hulls being found along
the coast.

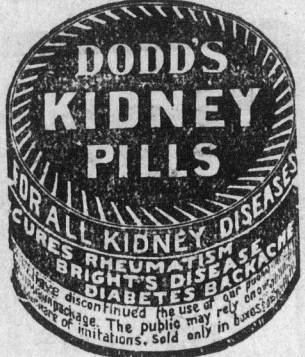

The vessels went to pieces in last
week's hurricane, and it is feared the
crews have perished. The Blossom
was reported yesterday brought
to port a large number of fishermen
who were picked up from drifting
boats.

The entire crew of the schooner
Avenger was brought in, having been
rescued from their ship just before
they sank. Several fishermen adrift in
small boats were drowned.

Lightning's Freaks.

London, June 21.—Probably the most
remarkable dental operation on record
is that performed by the electric
storm which passed over the vicinity
of Hyon, had nearly all his teeth
knocked out by the lightning, but
escaped without further injury.

Hesperia, June 21.—Yesterday after-
noon, Wm. Rife, son of A. Rife, was
struck by lightning and knocked un-
conscious. His neck is badly swollen
and he cannot swallow. He will likely
recover.

Farmer Instantly Killed.

Strathroy, June 21.—Duncan McKel-
lar, a prosperous farmer of the Town-
ship of Carleton Place, was killed in-
stantly last evening between 5
and 6 o'clock. While helping Archie
Campbell in taking down an old frame
building on his farm, in lowering one
of the beams, one of the others fell in
on him, striking him on the head, kill-
ing him instantly.

There are some women who seem to
be personally youthful. The grown
daughters are companions as well as
children, and the color in the mo-
ther's cheeks, the brightness in her
eyes, the roundness of her form, all
speak of abounding health. What is
the secret of this matronly health and
beauty may be told in the brief
phrase, Dr. Pierce's Favorite Pres-
cription. The general health of
women is so intimately related to the
local health of the delicate womanly
organs, that where these are diseased
the whole body must suffer. "Fav-
orite Prescription" dries the debilitat-
ing drains, heals ulceration and in-
flammation, cures female weakness
and imparts to the delicate female
organs natural vigor and vitality. Women
who have lost their health and
their beauty have been made re-
bust and rosy checked by the use of
this marvelous medicine.

To Pay President's Expenses.

Washington, June 20.—The House
committee on appropriations yesterday
voted a favorable report on the Wat-
son bill, authorizing an annual ap-
propriation of \$50,000 to pay the traveling
expenses of the President of the United
States and such guests as he may
invite.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

In trying kindness on a mule always
apply it to the front exposure.

If a man will studiously practice
looking wise it will go for the real stuff
with most people.

It is a mighty poor astrologer who
cannot predict whatever the man wants
who is paying the bill.

You can depend on more steady re-
sults from a garden when the man
with the hoe is a woman.

If a bumblebee were to try to have
its way through kindness, the human
race wouldn't begin to respect the lit-
tle fellow as much as it does.

Truth crushed to earth will rise
again, but it always takes it several
days to recover from a horse trade.

A lie that is half truth is not im-
proved much by reason of its better
half.

It would be a much happier world if
the postmen could be broken of the
habit of leaving duns in the mail box.

The man who says he is at home
where his hat is off changes his mind
when a cyclone comes along and lifts
his lid.

Truly Rural.

There are chunks of inspiration
in a bunch of country air.
Take a trolley to the country.
And get off somewhere.
Or, still better, hitch up Dobbin
for a distant rural drive.
Back to nature, and I venture
You'll be glad you are alive.

Breathing in the balmy ozone,
Gazing on the flowers of spring,
Gladly soaking in the sunshine,
Listening to the birds sing—
Will be good for your complexion
Or for twitches in your back
And a fine thing for your liver.
If it's slightly out of whack.

As the friendly winds of springtime
Through your glossy whiskers play,
Making music soft and soulful,
You'll be glad you came away;
Glad you left the noisy city.
For the rugged rural trail,
If you do not meet a rainstorm
Mixed with chunks of storied hail.

Charter, then, the raging trolley
Or put Dobbin in the thrills;
For your health 'twill do more busi-
ness
Than a bunch of doctor bills.
Get out where the grass is growing,
Donning its new summer dress,
Where you'll feel like turning hand-
springs.
And you'll sleep that night, I guess.

Just the Difference.

"He caught the
grip from a
slight draft."

"Pshaw, I lost
my grip from a
slight draft."

Lacks Strong Point.

"His wife always makes him carve
the turkey."

"I suppose he likes it by this time."

"No; he never can catch on, he is so
terribly handicapped."

"Can't sharpen his knife?"

"No; he never learned to swear when
he was a boy."

Going the Limit.

"Is he in love with her?"

"Is he? It is a positive pleasure for
him to have her stand on his corns
when they are riding in a crowded
street car."

Elusive.

"What is he doing for a living?"

"Following the races."

"Why, he was doing that last sum-
mer. Hasn't he caught up with them
yet?"

Worth Talking About.

"I had a bad quarter of an hour this
morning."

"Huh! That's nothing. I had a bad
quarter of a dollar."

Better Place.

To wear a birdie on your hat
is wrong; we all agree to that.
To wear it underneath your vest
or pinafore is much the best.

Proof of It.

"Some scientists are disputing the
laws of gravitation."

"Guess they never stepped on a ba-
nana peel."

Looking Ahead.

"Do you think they are engaged?"

"They must be. She can pass an ice
cream parlor without dragging him in."

Held the Book For Him.

"He has learned to love another."

"Yes, but I understand she made the
lessons very easy for him."

STABBED THE CLERGYMAN.

Mysterious Attack on Sunday Evening
While Driving to Church.

Port Hope, June 21.—The residents
of Balleboro, a small village about 12
miles north of Port Hope, are excited
over a stabbing affray. On Sunday
evening, while driving to church, Rev.
E. R. Nicholls, pastor of Balleboro
Baptist Church, and formerly of To-
ronto, was attacked by an unknown
man in a thickly-wooded spot near
Sackville's Mills.

Without warning, a man sprang out
at a sudden turn in the road, and made
a savage lunge at the clergyman with
a knife. The blade struck his left
shoulder and glanced down the arm to
the elbow, inflicting a nasty gash.
Whipping up his horse Mr. Nicholls
escaped. A search party was organized,
but no trace was found of the man.

Inane Tailor Shoots Man.

Hamilton, June 21.—An insane tail-
or named Clement Wilkinson, with a
rapid firing revolver caused all kinds
of excitement by firing many shots in
the heart of the city yesterday after-
noon about 2 o'clock. Lawrence R. His-
lop of the Laurentian Publishing Co.,
room 26, Church street, Toronto, a
young man, had the bad luck to get in
the way of one of the random shots,
and he is laid up in the City Hospital.
The bullet struck him in the temple,
but glanced off, making a painful but
not dangerous wound. He will recover.
Wilkinson will likely be committed to
an insane asylum.

In the old act there was provision for
such an officer but it was not taken advantage
of. The intention of the Government
in appointing a provincial inspector is
to see that the local license inspectors
do not neglect their duties.

Learn Dressmaking

IN TWO WEEKS

Have you commenced your spring
and summer sewing? Are you in-
terested in Dressmaking, either pro-
fessionally or for your own family
sewing? Have you broken away
from the old way of depending on
patterns.

Please pardon so many questions,
but each one means something to
you.

We have a wonderfully complete
systems in dressmaking—15 in all.
These lessons will be of lasting ben-
efit to you. They will throw new
light on the subject, and instead of
being tedious and tiresome you will
find dressmaking one of the most in-
teresting of all your diversions. It
will no longer be a "duty," but a
pleasure to make a dress, and your
dresses will have a fit such as few
women can accomplish.

We teach you how to cut, fit, and
put together everything in the fash-
ion books, from the plainest shirt-
waist to the most elaborate toilet-
ette. We furnish everything to work
with except tape measure, scissors,
tracer and pencil.

Why spend months at a shop
when you will learn nothing but
how to sew on hooks and eyes, over-
cast, etc., and then, after you are
through, what did you learn about
cutting? Absolutely nothing. For
you will know no more about cutting
after being there a year than you
did the first day you went there.

CHATHAM MEN WON ABOUT "T" RAILS

The Bowlers Have a Pleasant and Satisfactory Day's Outing in Windsor

The Chatham Lawn Bowling Club sent three rinks to Windsor yesterday. The local men were successful in a closely contested game and defeated the Windsor rinks by a margin of seven shots. The following were the men who composed the Chatham rinks:

Rink No. 1—Messrs. Williams, Gosnell, McDonald and Robinson, skip—5 shots up.

Rink No. 2—Messrs. Porterfield, Pilkey, Col. Rankin and Mitten, skip—3 shots up.

Rink No. 3—Messrs. McCorvie, Mounter, Oldershaw and R. G. Fleming, skip—1 shot down.

The total, therefore, was 7 shots in favor of Chatham.

Mr. Fleming gives out the information that the Chatham tournament will take place this year on July 2nd and 3rd. The Ridgeway tournament will be held on July 10th and 11th.

Consul Geo. N. Ifft Will Carry To Germany Many Good Wishes

Mr. Harry A. Conant, United States Consul, of Windsor, was in the city yesterday, the guest of Consul Geo. N. Ifft. Mr. Conant was here preparing to take over the business relating to the local consulates which will come under his jurisdiction upon the removal of Mr. Ifft. Mr. Ifft, in a conversation with The Planet this morning, said in reference to his approaching departure that he was sorry to leave his many friends who have been more than courteous to him during his residence here. He was sure, however, that the people of Chatham would find in Mr. Conant, of Windsor, a pleasant, courteous and obliging gentleman. Mr. Conant will still reside in Windsor.

Regret at Mr. Ifft's removal is universal. During the time he has acted as consular agent here he has made many friends who look forward with disappointment to the time when they will have to sever their pleasant relations. The post to which Mr. Ifft is going is, however, far more important than the one he has filled here, and he is to be congratulated that he is deemed worthy of handling the business of the United States in such a large centre.

The local office will be closed on the 31st of June, and Mr. Ifft will shortly after leave for his home in Pocatello for a six weeks' vacation. He expects to sail from New York for Germany about Sept. 1. The charge to which he goes includes the cities of Annaberg, where he will make his home, Buchholz, and Marienburg. Germany. Annaberg is a city of 55,000 people, and does a big export business in dress trimmings. Buchholz is a paper manufacturing city, and Marienburg is the centre of the toy industry. These cities form one large consulate, and Mr. Ifft's duties will be by no means light. An idea of the increased responsibilities will be gained from the fact that his salary has been increased to double its present amount.

Mr. Ifft will carry with him the good wishes of every Chathamite, who is fortunate enough to have made his acquaintance, and it is the popular hope that he and his family will enjoy every happiness and prosperity in their new home.

HE GOT TWO YEARS

Farmer Who Shot Wm. Scott, C. P. R. Contractor, Goes to Prison.

Bracebridge, June 22.—John Kelly, a farmer, living at Footes' Bay, Lake Joseph, was sentenced to two years less one day, for shooting William Scott, a C. P. R. contractor.

Kelly shot at Scott with a Winchester rifle for trespassing on his property, the bullet taking effect in his right side. Scott will recover.

Raid on Small Gamblers.

Toronto, June 22.—The police suddenly went out with a drag-net yesterday afternoon. They paid their attention to the alleged bucket shops and hand-book men, with the result that some 50 of the latter were landed in No. 1 police station and summonses were issued to about the same number for those who "deal" in stocks.

This raid had been planned for the past three weeks. Sixty police and detectives were sent to certain points and they simultaneously visited the suspected places and made a round-up.

annoying us with their hog-pops should block the development of our street railway, which means so much to us in the way of commercial advancement.

Ald. Beeson—You can certainly put me on record as being opposed to any action on the part of the Company or the railway commission to block the C. W. & L. E. As an alderman I will work in the citizens' interest by assisting the C. W. & L. E.

Ex-Mayor G. W. Cowan—It certainly doesn't seem a fair deal that the G. T. R. should take such a hard and selfish stand. But if the company are presented with the views of the Chatham business men on the matter, I think the Grand Trunk will see that it is to their interests to make some proposal which is fair to the radial people.

Ex-Ald. James King—It is an outrage that our railway should be treated in this manner, and have their plans for extension frustrated. The business men should get together and give the G. T. R. people to understand that such a proposal will not be in accord with their customers in this city. I will certainly sign that petition if they bring it around my way, and I am willing to do anything in my power to help the electric line to secure a right of way. I think all the other business men hold the same views.

Ex-Ald. J. C. Wanless—I don't for the life of me see how the G. T. R. can hold up the electric line extension in this manner. The G. T. R. cannot surely run the town.

Mr. H. Macaulay—I trust that the Commissioners in their wisdom will not allow the radial company to be blocked in this manner. The radial railway means much to the farmers of Kent and to the citizens of Chatham. Our representative at the Dominion House should be asked to take up this matter.

A woman always envies the man the comfort of his mode of attire.

FIRE AT NICOLET

Cathedral and Other Church Buildings Were Destroyed.

Montreal, June 22.—The new cathedral, the old parish church, the residence of Mgr. Suar, former bishop of the diocese, and the convent of the Sisters of the Assumption, were all destroyed by fire at Nicolet last night.

No one was injured, although there were 100 sisters in the convent.

The fire started in the church, but how is not known. Loss about \$400,000.

Ye Olde Firm Heintzman & Co.

Ye Olde Firm Heintzman & Co., of Toronto, Established 1850. Who have been manufacturing pianos for over Half a Century, wish to say a word to Piano Buyers in Chatham and vicinity.

In the manufacture of our pianos we employ only the very Best Material and Labor, and consequently produce but One Grade of pianos, have no desire to compete in prices with manufacturers of cheap pianos. This point should be distinctly understood. While our pianos are The Best that can be made in reality only moderate prices are asked for them. It would be impossible to sell pianos of this grade for less money, since while nothing is omitted that can improve the instrument in any respect, strict economy is maintained in the manufacture, so that no material is wasted, or unnecessary expense incurred, for which the purchaser has to pay.

We have always sold Directly from the Factory to the Customer, and do now, through salaried salesmen. Thus saving to the Buyer, the Agent's, Dealer's and Middle Man's profit and Commission.

In order to give the music loving public of Chatham and vicinity an opportunity to see and hear the World Renowned Heintzman Piano we have leased for a number of years a store in the Garner House Block, Chatham, where our many styles are constantly on exhibition.

Miss Richards, a musician of High Class, is always in charge of the store.

Buy your Piano Direct from the Manufacturer and save Dealer's and Agent's profits.

Terms arranged to suit purchasers, weekly, monthly, quarterly or yearly payments. Call and get our prices before buying. Remember the place, Garner House Block, Chatham.
