MORTGAGES

BILLS OF SALE

As the Census throughout the Dominion is to be taken early next month, a short account of the nature of the work, and the mode of carrying it on, will be found interesting.

All persons are to be registered in the Province and locality in which their home is and their families reside, whether they may be absent, such as fishermen or laborers, or those who are travelling abroad.

The census returns of Population and Property are to consist of facts as they exist on the 4th April 1881. Therefore any person who was alive on the 4th April, 1881, although he may have died between that date and the date of the enumerators' visit, is to be recorded as if living; and for the same reason, infants who may have been born after the 4th April 1881, are not to be recorded.

There are eight schedules which are as follows:-
1. Nominal return of the living.
2. Return of deaths.
3. Real estate, public institutions and industrial establishments.
4. Occupied lands, field products, plants, fruits and other products.
5. Live stock, animal products, home made fabrics and furs.
6. Products of the forest.
7. Shipping and fisheries.
8. Mineral products.

Every person will be registered by name, family by family, taken from house to house. There is a column for vessels with persons on board; one for temporary buildings, one for animals in course of construction and unattached. In entering the religion the enumerators must be careful to enter the information given by the person questioned.

The registry of death must be made with great care and attention. The census of the deaths are to be ascertained as nearly as possible. Real estate will include the total number of acres of land in the Dominion; public institutions and industrial establishments will include all institutions of a religious, scholastic, charitable or penal character, also manufacturing. Occupied lands &c., refer to lands in actual occupation.

Schedules 5 and 6 require no explanation. Shipping and fisheries will set out the number of vessel owners, the number and tonnage of vessels, number of fishermen, and the quantities of fish caught.

Mineral products relate exclusively to the extraction of mineral products.

Mr John Malby of Newcastle has been appointed commissioner for the County of Northumberland.

PERSECUTION OF OUR FEW BEARS.

We see by the estimates that the Government have set apart for the coming year, \$2,000 to be used towards the further prosecution of the bear. There is not a cent set down for the extermination of tigers, hyenas, or lion in devil. The whole malice and ill-will of the Government seem to be directed against the supposed bear, while the tiger, the hyena, and the wolf of this Province are as destructive of our sheep as the bear is. The only animal we know of that will not touch a sheep, and that has never been known to worry or kill ours is the dog, and this is the reason that the Government allow a bounty for killing dogs.

People who own sheep, are stupid enough to differ from the Government, however, on the "killing" question. They exonerate the bear entirely, and put all the blame on the dog. One man said to the writer the other day, "For the last three years now, I have lost 10 sheep. Every one of them killed by the dog. I have never had one killed by the bear yet, and never saw anyone who had." This gentleman lives on the South West Mountain. "Have you ever seen a bear?" asked the writer. "Never, and I have been in the woods now this 40 years."

But trusting to the Auditor General's Report we find that nine hundred and one bears were set to death in N. B. Brunswick last year, and that sum of \$2,700 paid to their murderers. In York alone, 170 bears fell

in Queen's the death of 165 is recorded, at least the hunters swore to that number of noses—in Northumberland the Ichabodians killed 113 bears, in Charlotte they killed 107.

We do not know exactly how near like a bears nose the object sworn to must be to satisfy the magistrate, but in some cases we suppose anything at all will do. We have been informed that "you can pass off that part of a cows foot near the horn, on most any squire for a bear's nose," and that "some people can make them just as good as if they grew on a bear." We learn of one squire who after certifying to the bears nose, hid the disjecta membra in a snow bank, but might sooner fell than the wary trapper dug up the nose, came along in a few days and sold it again. The same snout was sold nine or ten times that winter.

The fact of the business is if the government wish to put a little money in the peoples way, they will have to relax the laws, and pass a clause something like this:-
"Any Commissioner under this Act, shall certify that any applicant has produced a bears nose, provided the object exhibited have some resemblance to a bears nose, but no such object shall weigh more than fifty pounds, or less than a half ounce. In case where the commissioner has good and sufficient reason to doubt the veracity of the hunter, or the genuineness of the exhibit, he shall insist on the nose being flesh of some description, and not wood or other substances which would be sufficient in the case of reputable applicants."

And then to help the thing along the government ought to grant a sum for the erection of one or more bear nose factories.

Most people in this country now think if a man is so negligent, or too indifferent to go out and kill a bear that kills his sheep, he ought not to be pitied if the bear came and eat him out of house and home. It would be just as sensible to grant a bounty for every hundred potato bugs or army worms killed, as it is to grant a bounty for killing bears. For the grease, and the skin, and the sport men will hunt bears if the government never existed—and if any man is so indifferent that he will let bears come in and eat him up, if he has not some promise of reward for defending himself, then it is a pity and a shame the government should step in to defend him.

TOWN AFFAIRS.
(No. 1.)

We propose calling public attention to the manner in which our town affairs are managed, and asking the ratepayers of the town to devote their attention to a consideration of local matters. We understand that our local parish officers, particularly during the past two years, have been selected for their political predilections, and that no matter how competent a man may be, if he does not profess the right political creed, he is not considered fit for a parish office. Assessors, collectors, road commissioners, even constables and hog-reeves are selected, not for their fitness for the respective positions, but for their political services. When the county was incorporated, we understand that the first councillors were opposed by the leading lights of the now, or lately, dominant political party. A number of those that party lampooned them on every possible occasion. This opposition was kept up for three or four years, until after the Dominion election, when a change came over the spirit of their dreams, and the same councillors became the candidates of the men who had opposed and reviled them. From this period too they seemed to have lost their independence, and to have become the mere tools of a political faction. It was certainly not an edifying sight to see a member of the Dominion Parliament degrading himself to the level of whipper-in at a petty parish election. We do not wonder, therefore, at the state of our Town affairs, but we do feel surprised, that the intelligent ratepayers of the Town should allow themselves to be made the tools of a clique, and have their councillors forced on them by a few disreputable wire-pullers. It certainly does not follow that because a man supports a certain candidate in the Dominion elections, that he ought to support his horse his ox or even his mule, and be bound to support any person he may select for municipal honors.

It is not creditable to the Town that it should allow its affairs to be managed as they have been; our streets, our fire department, our police, in fact all our public service requires reform, and we hope by directing public attention to them, to arouse a feeling amongst the ratepayers that will result in an improvement.

We trust that the system of mixing up politics in parish matters, a system that is condemned in every enlightened community, will be strangled by the ratepayers, and men selected for the office of councillor, who have some stake in the town, some knowledge of its requirements, intelligence enough to understand its wants, and independence enough to deal with

them in spite of local prejudices. As we consider our local affairs of more importance than remote public questions, we will in future issues deal with them, and we invite suggestions from the ratepayers on these matters.

THE ST. JOHN RAILWAY BRIDGE.

Some of the St. John people want a bridge built over the river St John at or near the Falls, that connexion may be had between the St. John and Maine Railway, and the International. There are a great many opposal to the project, because the scheme owes its origin to such men as J. Murray-Kay, Thos. B. Jones, and B. Robinson. It is believed by many, and we are one of the believers, that this bridge scheme is the old malice against the Grand Southern Railway, with a new face. However, if the bridge is built, it may turn out that it can no more "kill the Grand Southern" than did the defeat of the Extension Bill, up-stairs, or the purchase of the Carleton Branch, or the silly speech held in the Dufferin Hotel.

POOR NORTHERMBERLAND.

We see by the report of the Minister of Public Works, to which we shall again refer, that there is no provision made for building a railway line from here to Escumac or for establishing a station there. This is what comes of a county being unrepresented; for how was Dr. Fortin to know what we need here, or how was the Minister of Public Works to find out, unless through our county's representative? But while the estimates were being brought down, he was in England, and when at home he gives himself no trouble about the county's wants. He is worse in this respect than ever Hutchinson was. Northernberland made a sad mistake, and now she is finding it out.

Sir Garnet Wolseley either, is not without his enemies. He is soon to be raised to a peerage, and his enemies say he made his fortune "out of his little jaunt" to Red River, Canada, and but for Sir John Hawley Glover, Governor of Newfoundland, he would have met an Ish-tah-I-Ash-tue. The commander in chief, it is said, hates Wolseley. It is always so. Bage envy withers at another's joy. And hates that exults in it cannot reach.

Just as the Parliament is about to close, and all the business is ended, our member Snowball walks in and takes his seat. No wonder all the members of the House set up a laugh and a laugh, "have you risen from the dead?" when he entered the Chamber.

It has lately been reported from Transvaal that Sir Evelyn Wood who went out with reinforcements had been shot by the boers. It is the policy of the boers to kill all the officers possible.

Poor Sitting Bull wants to surrender, but he is afraid they will imprison or hang him.

It is said the Government will arrest Dillon.

PORT WARDENS.

From the Report of the Minister of Marine we learn that the following ports have, under the provisions of the "General Port Wardens Act," been determined by the Governor General in Council to be ports at which it is expedient that port wardens should be appointed. Halifax, Port Hawksbury, Port Mulgrave, North Sydney, Louisburg, Sydney, Pictou, Cow Bay in Nova Scotia, all the ports in P. E. Island, and Victoria and Esquimaux in British Columbia; Quebec, Montreal and St John, N. B. are under special acts.

The duties of a port warden consist in examining the condition and stowage of cargoes on board vessels, and if any goods are damaged, in ascertaining the cause and making a record of the same in his books of office. He is, also, when required to proceed to any vessel, warehouse, dwelling or wharf, and make a similar record of any goods alleged to be damaged on board any vessel. In like manner he shall, when required, be surveyor on any vessel which may have suffered wreck or damage, or which shall be deemed unfit to proceed on her voyage; he shall also be surveyor of the repairs necessary to render the vessel sea worthy, and his certificate that the repairs have been properly made shall be evidence that the vessel is seaworthy. He is also to have cognizance of all matters relating to the survey of vessels and their cargoes

arriving in port damaged, and when required, shall give certificates of such surveys. He is to act as arbitrator in all matters of dispute, etc. etc.

The first section of the "General Port Wardens Act," 37 Vic. Chap. 32, says "The Governor in Council may from time to time determine at what ports in the Dominion it is expedient that port wardens should be appointed, and at and for any such port, a port warden may be appointed by the Governor."

We think that the importance and extent of the trade and navigation of Chatham demand that this act should be extended to it, and that a port warden should be appointed. We trust therefore that an Order in Council will determine it to be such a port, and we believe it would be a benefit in every way to have some regularly constituted person to arbitrate in matters of dispute, to survey vessels, and perform the duties laid down in the act. Chatham is a far more important port in regard to shipping than most of those named above; and should be similarly treated. By all means let us come under the "Port wardens act," and let a good competent man be appointed to the responsible position of portwarden. Our present slip shod system of irresponsible surveyors has been in existence long enough.

THE CHILIANS CAN FIND NO ONE WITH WHOM TO MAKE PEACE.

The president is hidden in an inland town. The country is in a state of anarchy, misery and despair.

There has been a shocking earthquake in Ischia, Italy—700 houses have been destroyed and hundreds of people killed. The terror and misery are indescribable. Since the great earthquake at Lisbon nothing so bad has happened.

The House at Fredericton is busy with supply today. The Opposition is broken up like a flow of ice after a heavy gale: or seems like.

Scattered sedge Afloat, with fiercer winds Orion arm'd Hath vexed the Red Sea coast.

THE PHYSICIAN AND SURGEON'S BILL.

Several times while the STAN was being published in Fredericton it pointed out that it was the duty of some honorable member to consult with the intelligent members of the medical profession in New Brunswick, with a view to drawing up a bill, protecting the medical profession, and for preventing it from running to seed, and to afford a guarantee to the public that some of the "M. D.'s" going around, looking at your tongue and prescribing "something" for you, are not horse doctors in disguise, and that unsuspecting people are not likely to be poisoned at any moment. For the last few years, the Doctor swarm in New Brunswick, has out-rivalled the potato bug, every 2nd and 3rd class school teacher nearly, having developed into an M. D.—and we pointed out that some steps should be taken to abate the nuisance.

In olden times if a man had a spare son, and some money, in casting his eyes around for a suitable profession for the boy, he would have no hesitation in deciding the medical profession to be an excellent one. The country had not then run to doctors, but those who were M. D.'s had spent four or five years in a respectable and recognized college. Now few men will think of giving a boy a four or five years course, for all he can get is an "M. D." and that the 3rd class school teacher can get in six weeks, and for any sum from \$20 upwards. Thus the country is threatened by quacks, who will carry their profession down to nullifying the sex of pigs, sheep, horses and bovines—who will pull out a tooth, set a joint, "cure the azime" or cut off a cancer "cheap,"—take buckwheat or put ites down, or a six months note in payment. Of course respectable men are driven out of such a field, and the mountebanks have it all to themselves.

We remember reading the other day of a medical hot bed in the States where one professor was convicted of having sold to applicants nearly two hundred diplomas, a large number of the parties purchasing not having spent a day in medical college. The professor put the money in his pocket—and is now we believe in jail, not of course for sending out nearly two hundred imposters, but for defrauding the institution. Some, and a good many too, of this famous two hundred came to New Brunswick and settled all along the St. John river. Of course the American colleges have turned out some excellent physicians and surgeons, and many of them are an ornament to the profession, but at the same time the evil complained of is so great, that it is the bounden duty of the legislature now to interfere. We are glad that a bill has been drawn, much within the terms of our suggestion, and will be, or has been, presented to the legislature. A copy of the bill is before us.

It is proposed to establish a Medical Council of nine members. The council

to organize one month after the passage of the act in Fredericton.

The Council will have a register—and every medical man must have his name, residence, his degrees, where obtained, when granted, etc., on this register—else he will be prosecuted for practicing medicine, surgery, etc.

Any person wishing to study medicine will have to undergo an examination in English grammar, composition, etc., arithmetic to extraction of the square root, algebra to end of simple equations; two first books in euclid, and in Latin, "One book, translation and grammar."

Such candidate goes off where he pleases to some college, or of standing to study, but on returning he must prove he has attended 12 months to a course of general lectures, had a 3 mos. course in medical jurisprudence, hospital practice of 12 mos., that he has taken a 6 months course in clinical surgery, and the same in clinical medicine—then he enters his name on the register paying a \$10 fee—he pays \$5 at the entering examination, etc., etc.

The bill it seems to us has a great many defects:

First, we think certain colleges or universities ought to be prescribed, a few colleges of good standing, in the States, in Canada, and in Great Britain and not give the student the privilege of going all over creation. There is many a college that will sell diplomas, and certify a hundred things for \$20. A half dozen respectable colleges or universities or so specified, would be enough—and any efficient Canadian colleges, should have a place on the list. The power of examining graduates should be very limited—if existing at all. We would expunge such a clause.

In Section 11 the English is very bad. The word "practice," being used as a verb, should be "practise," but it is misspelled all through the bill. "Shall be registered" in the same section, should be "shall have been registered."

In Section 12 "unless he shall satisfy" should read, "unless he shall be satisfied." The grammar is very bad.

In Section 13, the word preceding is spelled "preceding"—and elsewhere in the bill.

Sub section 8, of section 15 is vague. It has no reference to anything clearly specified in the bill, and in any case should not be there.

Section 20 conserves the rights of homeopaths and clairvoyants!

Section 27 is quite superfluous.

In looking at section 29 we are led to ask, will physicians holding legal diplomas, but who have not registered under the act, be prosecuted under section 29; if so, and this seems the conclusion from the reading of what force is section 19, or why is it in the bill?

Section 29 prohibits Indians giving cherry bark, and dogwood bark medicines for pay, etc.,—and the section should be recast so as to exclude the Indians.

Section 30 offers rare inducement to informers. "is good—and if taken advantage of, will prove a better business than shooting bears under another act."

Section 35 is queer. It says "no suit shall be commenced under the act after one year from the date of the cause of action." Suppose it be malpractice, continued for two or three years? Does the cause of action commence only after the quack has blinded, or poisoned his patient? Look at the case of Diffin vs. Dow. Under this new act poor Diffin would have to let his suit and his reputation go unavenged.

Section 38 provides for one registration, and another section provides for another. We cannot see why there should be the registration provided by 38.

We do not know why Section 43 should prescribe "one Fredericton and two St. John newspapers" as advertising mediums. The North has many people, and many papers too.

Schedule B provides a curriculum, and insists on the medical candidate knowing of Latin—one book, translation and grammar. The book is not specified, it may be Cicero de Senectute, it may be one of the volumes of Tacitus, it may be a book of Caesar, or Virgil, or it may be Bryces first book. Some book or its equivalent should be defined.

The "optional" clause is silly, for it can serve no purpose to work it, or to let it alone.

The bill, modified some, ought to pass.

NEW DRUG STORE
(Opposite Hon. William Mitchell's Store and next door to Custom House.)

LOCAL MATTER
Epidemic
There are 12 children sick with diphtheria and scarlet rash.

Schooner Sold
Pilot Jas. A. Nowlan has pilot boat "Telegraph" to Mr. W. of Richibucto.

Kapan Buildings
Mr. George Dickson of Napaning a residence 30x24, with ell
Mr. James Dickson is also a residence which is to be built.

Kicked to Death.
A team belonging to Mr. Jas. M. of Baribogue was in the lumber this winter. The other night, thirty of the animals broke and kicked the other so badly, did almost immediately.

Our Town Affairs.
We have commenced upon another town affair, and we want our town to follow us carefully—and then what they think of the honesty, prudence and intelligence of Chatham management.

Tom Dark's Lamps.
Has any one ever taken the trouble to look at our town lamps? The tea of them, and so filthy are they you often cannot tell whether they are lit or not. They have never washed since they were stuck up for all that the town pays \$30 for them—\$300 for the lot.

Robins.
A gentleman living a few miles from town informs the writer that for two weeks a number of robins have been on the evergreens near his house. He says they came after the first snow set in, and left about an hour or two before May instead of March, never before knew robins to come so early he says.

Obituary.
Mr. John Grant of Lower New Brunswick died at the hotel Dieu yesterday at 10 o'clock. He was 65 years of age or two ago Mr. George Grant, a brother of his, died on the homestead at Newcastle. Both brothers kept "chairs hall," never being married were very comfortable. Mr. John was engaged for years preserving tinning salmon, and carrying on the fish trade. He was buried in the Roman Catholic Cemetery at bogues.

Obituary.
It is with a good deal of pleasure read the following paragraph in the number of the St. John Telegraph:
"Mr. J. J. Gayer, of Chatham, who was in charge of the articulation laboratory of the Guelph College of Arts and Surgery, was notified in the preceding week, has just won the Prizes for anatomy, and was awarded a diploma for anatomy, toxicology and surgery. Mr. Gayer's success in this branch of the study is a most remarkable one. He has been a student of the Guelph College for five years, and has won the highest honors in his course. He is a brother to Rev. Wm. Gayer, Carleton county."

Mr. Gayer is a credit to Chatham, to Memorial College as well as to our town, and we wish him honors still, and increased success.

St. Margaret's Notes.
This pretty little village is being built up of late. Mr. Edward H. is building a residence 26x32, which will move into when completed.

Mr. Patrick Finn is building a residence 24x30, which will be completed in coming summer.

Mr. John Quinn is also building a residence which will be about 22x30. The lumber for these buildings is sawn at Foley's mill.

There is to be a belfry erected for new chapel to be coming summer.

Foley's mill on Well's Brook is in a state of preparation for manufacturing cottons and water pipes for different parts of the vicinity. Five or six are employed in it during the winter.

STAR BRIEFS.
D. Connell is to have no opposition.
—Bass fishing gear has been clothed off the ice.
The Common Council will prorogue after next Saturday.
—Vendors are asking four dollars per ton for their hay.
—A son of L. J. Tweedie, Esq. months old, died this week.
—Youmans concert in the M. H. Hall on Monday night was well attended.
The vote on the Want of Confirmed motion was 24 to 15—just as on 26th ult, we predicted it would be.
—Sir Ches. Tupper has again relapsed and he is under the impression that his brain is affected. We note.
—Mr. Dennis Lays, and Mr. Smith are making preparations for coming season's lobster fishing. The gentlemen have just had a successful shipping season.
—Members of the Chatham H. of T. are to hold an entertainment on Friday night. Entertainment to consist of songs, recitations, etc. A collection will be up at the close of the proceedings.

one month after the passage of the... Frederick... will have a register—and it must have his name, his degrees, where obtained, etc., on this register—also proceeded for practicing, etc.

wishing to study medicine under an examination in summer, composition, etc., to extraction of the square to end of simple equations; algebra in euclid, and in Latin, translation and grammar. Graduate goes off where he can get a \$10 fee—he pays \$5 of examination, etc., etc. it seems to us has a great...

LOCAL MATTERS.
Epidemic.
There are 12 children sick in Derby with diphtheria and scarlet rash.
Schooner Sold.
Pilot Jas. A. Nowlan has sold his pilot boat "Telegraph" to Mr. W. H. Bell of Richibouctou.
Japan Buildings.
Mr. George Dickson of Napan is building a residence 35x24, with ell 26x16.
Mr. James Dickson is also building a residence which is to be the same size.
Kicked to Death.
A team belonging to Mr. Jas. McMann of Barboque was in the lumber woods this winter. The other night, in the slush, one of the animals broke loose, and kicked the other so badly, that it died almost immediately.
Our Town Affairs.
We have commenced upon an episode of town affairs, and we want our readers to follow us carefully—and then tell us what they think of the honesty, prudence and intelligence of Chatham town management.
Ten Dark Robbers.
Has any one ever taken the trouble to look at our town lamps? There are ten of them, and so filthy are they that you often cannot tell whether they are lighted or not. They have never been washed since they were stuck up. But for all that the town pays \$30 a piece for them—\$300 for the lot.
Robins.
A gentleman living a few miles out of town informs the writer that for the past week a number of robins have been singing on the evergreens near his residence. He says they came after the first weather set in, and fit about and sing as if it were May instead of March. He never before knew robins to come so early he says.
Obituary.
Mr. John Grant of New Westcote died at the hotel Dieu yesterday, of dropsy and heart disease. Only a month or two ago Mr. Grant, a brother of his, died on the homestead at lower Newcote. Both brothers kept "bachelor hall," never being married, and were very comfortable. Mr. John Grant was engaged for years preserving and tanning salmon, and carrying on a general fish trade. He was buried today in the Roman Catholic Cemetery at Barboque.
Honors.
It is with a good deal of pleasure we read the following paragraph in a late number of the St. John Telegraph:
"Mr. J. J. Gagnon, of Chatham, whose services in carrying off the atrocious scalping of the British village of Chatham and Burgess, was noticed in the press some time ago, has won fresh honors in the same Medical School. In the Forensic examinations he took the 'Vernere Gold Medal' for surgery and surgical anatomy, the Babcock Prize for gynecology and midwifery and the premiums for anatomy, physiology and anatomy. Mr. Gagnon's success is the more remarkable from the fact that these prizes were won over the heads of students of all years. Mr. Gagnon studied medicine in the Province under Dr. Bossy, of Miramichi, and is a brother to Rev. Wm. Gagnon, of Carleton county.
Mr. Gagnon is a credit to Chatham, and to Memorial College as well; and we have only to say we wish him more honors still, and increased success.
St. Margarets Notes.
This pretty little village is being fast built up of late. Mr. Edward H. Scott is building a residence 26x32, which he will move into when completed.
Mr. Patrick Finn is building a residence 24x30, which will be completed for the coming summer.
Mr. John Quinn is also building a new residence when will be about 22x28. The lumber for these buildings is all sawn at Foley's mill.
There is to be a belfry erected for the new chapel the coming summer.
Folys mill on Wall's Brook is at present engaged manufacturing tubes, hobs, cast-iron water pipes for different parties in the vicinity. Five or six men are employed in it during the winter.
STAR BRIEFS.
D. Connell is not without opposition.
—Bass fishing gear has been cleared off the ice.
The Commons will prorogue a week from next Saturday.
—Vendors are asking fourteen dollars per ton for their hay.
—A son of L. J. Tweedie, Esq., 6 months old, died this week.
—Yocmans concert in the Masonic Hall on Monday night was well attended.
The vote on the Want of Confidence motion was 24 to 15—just as on the 26th ult., we predicted it would be.
—Sir Chas. Tupper has again released—and is under the impression himself that his brain is affected. We hope not.
—Mr. Dennis Hays, and Mr. Geo. Smith are making preparations for the coming seasons lobster fishing. These gentlemen have just had a successful season shipping scallops.
—Members of the Chatham Head St. T. are to hold an entertainment at Chatham Head on Friday night; the entertainment to consist of songs, recitations, etc. A collection will be taken up at the close of the proceedings.

of the future. Small lobsters do not pay to pack, but they are caught with the large ones and so the fishing is destroyed. It is surprising what quantities are landed round those shores every day during the season. The fishery would not look after this fishery as it ought to be for they have their hands full with the salmon fishery which is at its height at that time. The only remedy is to appoint persons for certain districts to look after the lobster fishery and nothing else and to select persons who will do their duty fearlessly.
Fiddles and fiddlers were of some account on Monday night. We had two weddings down here, the parties being Joseph Jimmo, pilot and Miss White from P. E. I. and Mr. James Whalen of Chatham and Miss J. O'Leary of the Hardwood settlement. Oh, it was a merry time: two 'houses full of young lads and lasses (and old ones too for that matter) tripping the light fantastic. We are going to have a new school house in the centre of the district [No. 1] the dimensions being 30 by 20 feet, 10 feet posts the building to be finished in the fall. The old school is not in the centre of the district and people at one end find it far to send their children. It is an unsightly comfortless old affair behind the times.
I see the Star is trying to refresh Dr. Forin M. P.'s memory on our wants. The coast Telegraph to the Point which has been talked of so often but which seems to be still in the future would be a great benefit to shipping and shippers not to mention pilots, ship chandlers, stevedores, fishermen and fish merchants, tug men, Insurance Companies etc., and if weather or storm signals are of use it is my opinion the Point is the place for them, as fishermen from all parts rendezvous there and with a storm station at the Magdellen Islands which are connected with Telegraph it is natural to suppose that a N.E. storm will strike there first and sometimes be a long time reaching here and vessels fishing off the Point could be warned in time. In 1873 there were upwards of 40 fishing vessels lost at the point. Probably the property was all the losers owned and was a great loss to them. If warned in time they could have got into Miramichi and been safe. It is time we people were abreast of the age.
In conclusion I have to say that I hope you will never tire of arguing on all good works and a telegraph line to Evumincus is one of them which should be in this age of railways and electric like flash be accomplished fast.
Yours truly,
RAWLER.

PROVINCIAL NEWS.
On the 5th instant the steamer "Albion" from Trinidad brought in to New York the captain and crew of the barque "A. E. Botford," of Sackville, N. B., wrecked on Barbadoes Island on Feb. 10th in a severe storm. Capt. Atkinson, of the "Botford," reports that while on the rocks 21 natives put off from the island in three boats to rescue them, but the boats capsized on a heavy sea and thirteen of the natives were drowned. After remaining on the rocks for three days the sea went down and the crew were rescued.
The funeral of Hon J. S. Coverd took place on Sunday, at Sunbury, and was immensely large.
Dr. Connell intends running for Carleton County in the place of the late Mr. Connell, deceased. If Dr. Connell is elected by acclamation, it will be nearly the same, his majority will be so large over any other possible candidate. We want our friend Mr. Chas. O'Donnell, to be as negative as possible this time, unless he sees his way towards helping along the popular cause.
We are surprised that some provincial papers have thrown their comments open to the presumptuous and impertinent assaults of David Sparks Kerr on some of our Supreme Court Judges. At the bar Mr. Kerr is suffered to talk his supercilious pedantry, and no one takes any notice of him, but the case is quite different when he gets into print. We hope the Judges of our Supreme Court will in this case maintain their traditional dignity, and pay no attention whatever to the presumption and ignorance of Mr. Kerr. Our low-grade St. John papers think the judges should come down from their lofty seats on the bench to measure swords with this harlequin Kerr, but Heaven forbid that such a spectacle should ever be seen in New Brunswick. It is a long time before since we have seen such a piece of monstrous advice, but it is only what one might expect from a quarter which exploits the election of a Judge by the excited rabble, as a ward politician is elected.
Says the *Quebec Tribune*: "Mr. Wm. J. Tilley, one of the court ladies at Hides Hall, gave a grand ball last week, and no was served, an unusual innovation at the table of an English nobleman."
His Lordship Bishop Sweeney is to leave St. John for Rome about the 19th inst.

OTTAWA NOTES.
On Friday night the following items came up for consideration. The items mentioned were in the estimates of Shippegan, \$3,000.
Mr. Anglin called attention to the fact that the promised return relating to this work was not down.
Mr. Langvin explained that it was for repairs to the cut, also for the protection of the works and breakwater.
Mr. Anglin asked would the Minister appoint the same superintendent?
Mr. Langvin said he would appoint another superintendent—and Mr. Langvin was in the right of it.
There was \$15,000 granted to build a breakwater at Quaco. For Coconago \$5,000 was granted. For River St. John \$2,000—the total grant for this province was \$70,000. There was no one present to say poor Northumberland wanted anything, and therefore she got little.
We are glad to notice that Hon. Mr. Langvin informed Mr. Burpee of Sunbury that the government would find away no more money for the present on the Oromocto Shoals.
In answer to a query, the Minister of Public Works stated that the Dredge New Dominion needed \$1,000 repairs. For dredging in the maritime provinces \$42,000 was granted. We anticipate some good work on the bars at the mouth of our river this season.
They have increased the drill pay for the useless military from \$175,000 to a quarter of a million. This just means that we pay a quarter of a million next year for supplying 17,000 of our men, filling a lot of them with military notions, and the conceit that they are too good to fish or farm after having on the Queen's scarlet. They then passed \$15,000 for seamboat inspection. It was out of this service that Snowball promised to reward Mr. Rice for his assistance at Smith election! He was going to turn out the government Inspector, so he told Rice, and put Rice in, but when he came away from Rice, he laughed to his benches, and said "How easy it is to catch some men!"
The Revenue of the Dominion for February, 1880 was \$2,765,720 " 1881 " 3,189,937
Increase, \$374,217
We are going sadly behind!
Sir Charles Tappers health is by no means restored. While very weak, and in his bed, he tried to attend to public business, and this has put him far back again.
The Minister of Agriculture's Report tells a hard story on the Great Lakes. The Grists took power in 1873. In that year 90,000 immigrant passengers and settlers came into the country,
In 1874 there came 65,000 " do 1875 " 33,000 " do 1876 " 25,000 " do 1877 " 24,000 " " " "
"O'Hamlet, what a falling off was there!" Had they stayed in till now, we would not have an immigrant at all. But the next year the Conservatives came in. So watch how the wheel turns back.
In 1878 there came 28,000 to our country in 1879 " 51,000 " do 1880 " 75,000 " " " "
And in the face of such figures, the Governments opponents will have the impudence to talk. We want our readers to cut out and keep the above figures. They are official.
In the Senate, Hon Mr. Almond of Halifax, has given notice of an amendment to the bill to amend the Canada Temperance Act, which he will move on the third reading, namely, to exempt also lager beer and light wines from the operation of the Act.
Senator Boyd gave a dinner to the press gallery and other distinguished persons.
A fortnight more, will likely end this parliament. Just as all the members are about starting for home, Snowball arrives at Ottawa!—Ed. Stan.

OUR LOCAL LEGISLATURE IN SESSION.
HOUSE OF ASSEMBLY.
WEDNESDAY'S PROCEEDINGS.
FREDERICTON, March 7.
Mr. Johnson gave notice of a motion for a committee composed of one member for each county to take into consideration the manner of distributing the by-road grants among the different Counties.
Hon Mr. Wedderburn submitted a financial statement for 1880, and the estimated income and expenditure for 1881. A statement of amounts charged on account of displaced territory, and a statement of the earnings of subsidized steamers for 1880.
Hon Mr. Wedderburn presented the petition of James Hunter, Thomas Walker, A. D., and 80 others praying that the Act relating to the St. John Relief and Aid Society might pass.
Mr. Willis gave notice of motion for a select committee, to whom should be referred all papers relating to the sales of lands in the County of Hants County, Gloucester, Northumberland, Kent, Saint John, Kings, York and Victoria, with power to bring persons and papers before them and examine witnesses on oath, and report their opinions and the evidence and proceedings of the committee thereupon.
Mr. Gillespie presented the petition of Edward Hays, Daniel McLaughlin and 104 others, requesting a grant for repairing a road on North side of Benouville, in the parish of Sackville, and moved it be referred to the Government. The Speaker ruled that it could not be received, as it related to money matters.
Mr. Vall submitted the report of the Management Committee, stating they had ordered the following payments: Passage February \$200 25, Eater, Alwood & Co., rubber bands, \$24.80. Total, \$225.05.
The House went into committee on a bill relating to the local government of the City of St. John. Hon Mr. Marshall said the bill was considered on Saturday and related to the licensing of shops for the sale of poultry, etc. The House (as was fixed at a sum not exceeding \$10 and the penalty at the same figure. The bill was agreed to.
Receipts.

MONDAY AFTERNOON.
In reply to Mr. McInnis the Provincial Secretary said \$250 of the Irish Relief Grant had been paid to the Diocese of Miramichi, and \$250 to the Mansion House fund, and receipts had been acknowledged.
Mr. Gillespie introduced a bill to enable the corporation of the County of St. John the Evangelist at Bay du Vin to dispose of certain lands.
Mr. Landry gave notice of a resolution to introduce a bill relating to the Credit Foncier Franco Canadian Company.
TUESDAY'S SESSION—FORENOON.
The Provincial Secretary brought down study papers.
Mr. Barberie moved for a return of the lands in Kostiouche advertised to be sold on the first Tuesday in March. H. said some lots were withdrawn on the day of sale, &c.
Hon Mr. Adams said his attention was directed to the sale of crown lands in Kostiouche. He found there were six petitions signed in the usual way, but was informed by Mr. Mowatt that the names except his own were fictitious and in consequence he thought it prudent to withdraw the lot.
So it will be seen "Canard Barbare's" little bubble has also burst. It is a pity it should be deemed necessary at all to reply to questions put by men like Willis, and Barberie, and Ritchie, and Fred Thompson.—Ed. Stan.
Mr. Marshall, in dealing with a St. John wharfage bill, informed the House that a half penny was a cent. Now, a half penny is not a cent.
A bill relating to the boundary between Hants County and Gloucester, passed.

Total, \$586,136.74.
Estimated Expenditure, \$577,113.42

Communications.
TO D. G. SMITH,
(For the Star.)
Sir,—After my return from Frederiction a few days ago, my attention was called to an article which appeared in your issue of the *Advertiser* of the 21st inst., wherein you take occasion to malign the Messrs. Anslow for maliciously publishing the report of the Surveyor General, previous to its being laid before the House; and you prove your case by stating that the Anslow are acting in this manner because the Surveyor General allowed me to write and publish "his own" communications written by me to your paper in October last.
Now sir, see how plain a tale will put you down! During the said month of October, there appeared an article in the *North Star* stating that Chatham was going to supply a candidate for councillor to Newcote in the person of myself and I was looking forward to see said statement contained in the issue of the *Advertiser* which appeared a few days thereafter; but in my own astonishment when picking up the next issue of the *Advertiser* I found said statement not only retracted, but used as a canvass against my election. In the issue of the 12th inst. I wrote the communications for which the Surveyor General is held accountable; and as you are aware, sir, I wrote them and sent them in to the Star and the *North Star*, respectively, with no other commiseration, any one, and you see, if you had given yourself time to think the matter over, would have remembered that you were stating that which you knew to be untrue, when you stated that the Messrs. Anslow or any one else, could hold the Surveyor General accountable because sir, you know that the communication written to your paper, was sent into your office before you closed on the morning of the day on which the address of the *Advertiser* appeared, and that therefore, the Surveyor General could not have seen it; but after writing them out, I put them in a prior letter to a noble son of the night and I know that I had committed an error in computing the time required for said communications to reach the printer, and I accepted the risk in the next issue of the *Advertiser* without replying.
With this state of facts before you, where has the argument of your article, to prove that the Messrs. Anslow published the Surveyor General's Report from malicious motives and for the purpose of acquiring accounts between the Anslow and themselves? Your argument falls flat, and the public will have seen another reason why anything written by you should needs be taken with a grain of salt. And now sir, having gone over the whole ground, let me thank you for giving me the credit of being "one of the recognized lights of the Conservative party" but I may add that I am not looked upon as such. A party in your idea such as the Liberal party of this country, may be so devoid of men of lofty standing as to believe that it is willing to accept as "one of the recognized lights of the party," a person so poorly qualified as I, but remembering that only one of known ability in the Conservative party and so highly honored, and I have not yet become one of these. I can well understand sir, that in making a comparison between the representative of your party in this county, and any of the young men in it, you can not be held accountable for stating that which is untrue, when you state that they are recognized lights of the party, because sir, I got well satisfied that that Mr. Snowball could not be held accountable for your judgment, as I consider that above from you is the best definition of the words "light" and "wise" man. I have so many reasons for my writing now, really you approached the quality, in your own opinion, when you stated you were not a party, but a party of the party, and I have not yet become one of these. I can well understand sir, that in making a comparison between the representative of your party in this county, and any of the young men in it, you can not be held accountable for stating that which is untrue, when you state that they are recognized lights of the party, because sir, I got well satisfied that that Mr. Snowball could not be held accountable for your judgment, as I consider that above from you is the best definition of the words "light" and "wise" man. I have so many reasons for my writing now, really you approached the quality, in your own opinion, when you stated you were not a party, but a party of the party, and I have not yet become one of these. Sheriff's Sale

To be sold at Public Auction on WEDNESDAY the 1st day of June next, in front of the Post Office, in Chatham between the hours of 12 o'clock noon and 5 o'clock P. M.

All the Right, Title and Interest of Henry Sargent, in and to all of the several Lots or parcels of Land and premises situated, lying and being in the Parish of Harlowe and County of Northumberland, bounded and described as follows, to wit:
All that lot or parcel of land situate in the Parish and County aforesaid, bounded in front or northerly by the Lower Bay du Vin, Bay or Shore, easterly by lands owned by John O'Neil, westerly by lands occupied by Thomas Lewis and in rear by the base-line of said lot having a frontage of 30 rods more or less, and containing 50 acres more or less.

Also, all that other lot or piece of land situate, lying and being in the Parish and County aforesaid, and bounded in front or Northerly by the base line of the front lot, westerly by lands occupied by John Walsh, easterly by lands occupied by Patrick Walsh and in rear by wilderness lands—having a frontage of twenty six rods more or less and containing fifty acres more or less, and being the Lot of land and premises on which the said Henry Sargent at present resides.

Also, all that other lot or piece of land situate in the parish and County aforesaid bounded on the Northerly side by lands occupied by John O'Leary, westerly by lands owned by Michael Garrah, easterly by wilderness lands and southerly by lands owned by the late Thomas Sargent, deceased—being a meadow lot.
The same having been seized under and by virtue of Executions issued out of the Kent County Court at the suit of Henry O'Leary against the said Henry Sargent and Thomas Sargent, and out of the Northumberland County Court at the suit of Thomas H. Fleisher against the said Henry Sargent.

LEMON'S

VARIETY STORE

FREDERICTON, N. B.

established 1844, and has kept up to the times. Know a little one it has grown to be a strong one.

We thank our patrons for past favors, and solicit a continuance of their trade. All the people within fifty miles must know where LEON'S ORIGINAL VARIETY STORE is, and that in it they can find the largest, best selected, and Cheapest Stock of HOUSE FURNISHING GOODS in the City. LEON'S VARIETY STORE is a house hold word.

We don't have to pay any \$600 Store Rent, as we own our Establishment. Our expenses are small. We buy our Goods first Class, consequently can sell them cheaper than any other storekeeper.

We employ workmen in our CABINET WORKSHOP making

Furniture to Order.

We have more Goods than Money, and for money will give the best value to all who are in want of the Goods we keep.

LEMON & SONS.
Fredericton, Sept. 18. 1880.
