TOWN AND COUNTY NEWS.

The Rev. John McGill, of Dundas has accepted the call of the Central Presbyterian Church of Hamilton. The induction takes place on Tuesday, 23rd April.

Scottish History.—We are obliged to leave over the account of Mr. J. P. McMillan's lecture on Scottish History at Morrison till to-morrow.

The Lecture To-night.—Remember the Rev. Mr. Wardrop's lecture in the basement of Chalmers' Church this evening on "Woman's Sphere and Influence."

An Oddfellows Lodge is to be opened in the village of Harrison, this week. Galt is also anxious to have a society of the knights of the three links.

A new Masonic lodge has been formed in Erin Village, with Bro. David Kirkwood, W. M., Bro. Wm. Church, S. W., Bro. Jas. Broddy, J. W., and Bro. R. D. Boom-er, Sec'y.

Y. M. C. A.—The regular meeting of the Y. M. C. A. will be held in their room this (Thursday) evening, when Mr. Wm. Ryan will read his essay, "Three Stepping Stones on the Road to Success." The library will be open from 7 to 8 p. m.

The Credit Valley Railroad asked \$80,000 bonus from the County of Peel and propose to build 42 miles of road therein, or about \$2000 per mile. So says Mr. Laidlaid, and the Elora Observer wants to know why should he ask \$5000 a mile apply to JAMES MACDONALD on the premises or at this office. Title perfect. Feb. 22-1mdw

On Saturday night the barn of Mr. David Betzner, Township of Pilkington, was broken into, the lock of the door was broken. There was wheat and other grain in the barn, but the owner of the barn being sick and confined to his house for the past month, he cannot say what was abstracted.

On the 21st of March last year the first vessel cleared from Hamilton, the ice having almost entirely left Burlington Bay at that date. How different are things this season! Everything is frozen as hard as in the middle of January, and the prospects now are that navigation will not open for a month or more.

Mr. D. McInnes, President of the Canada Cotton Manufacturing Company, has lately been in Cornwall making arrangements for the commencement of building operations. It may be considered that the erection there of the extensive cotton works of this company is now fairly determined.

We rec'd it stated in a New York paper that within the last six years drunkenness has greatly decreased in Sweden, and one cause of this is said to be the substitution of Friday for Saturday as pay-day. It strikes us very forcibly that were the same change made general in Canada it would do thousands of families a great deal of good, and would do no body any harm who had reason, and justice, and morality on their side in complaining of it.

The Elora Observer says that the railway was blocked up and travel stopped by snow for the first time this winter on Tuesday last. The cutting between the railway bridge over the Grand River and the Elora station was filled up by the fall of snow and the blow of Monday night, continuing throughout Tuesday. At one time five engines were plunging, snorting and vainly endeavoring to force their way through with a train, and it was only after hours of shovelling by all the men who could be hired at Elora, and trying the train by piecemeal that a passage was eventually forced through.

METROPOLITAN CHURCH, TORONTO.—The new W. M. Metropolitan Church in Toronto will be dedicated on the 4th of next month. The sermon will be preached by Dr. Tiffany, of New Jersey, and the dedication services will be conducted by Rev. Mr. Panshon. The same afternoon a bazaar will be held in behalf of the church, and in the evening a public meeting, when addresses will be given by Dr. Tiffany, Mr. Panshon and others. The railway will issue tickets at a reduced rate to parties from a distance attending the dedication services.

DEATH IN THE FOOTLIGHTS.—During the representation of an allegorical play for the benefit of the Aged Women's Home, at the Newark Opera House, on Friday night, Miss Josie Coates, aged 14, passed near the footlights, when her clothing took fire, and she was instantly enveloped in flames. She ran across the stage twice, causing the greatest terror among the children, whose dresses were of the same light texture as her own, and before she could retreat, the clothing of Miss Hattie Lyon, aged 16, was also fired. Before persons from the audience could throw garments about the forms of the crushed, and a number of women were carried fainting into the air.

The Trunk Factory in Guelph.

Some time ago we stated that Messrs. G. Jackson & Co. were fitting up the old tannery on Cardigan-st, formerly occupied by Mr. John Harvey, as a trunk factory, where they were to carry on, on an extensive scale, the manufacture of bureau travelling trunks, designed and patented by Mr. H. Mackinnon, one of the firm. The factory has been for some weeks in operation, and already employs about fifteen men, but as soon as the necessary arrangements are made and accommodation provided, the firm expect to give constant employment to at least 50 men, and to turn out as many trunks a week. The power for running the different machines required is supplied by a 14 horse power engine. On the main floor are the circular, jig and other saws used in cutting the wood into the required sizes, a handy little planer, a sand drum for reducing the boards to one thickness and giving them a perfectly even face, and a dove-tailing machine—the only one of the kind, we believe, yet in Canada—which cuts the dove-tails in the bevelled edges of the boards which forms the frame of the trunk. This is a most ingenious machine and does its work so perfect that the dove-tailing is made a comparatively easy job, while the greatest possible strength is given to the joints. After the frame of the trunk is put together it is taken into the finishing room where it is covered with leather, the drawers, locks, &c., fitted in, the straps put on, and the whole varnished and finished in first-class style.

The great feature about this trunk is that it answers not only the purpose of a travelling trunk, but, if required, a bedroom bureau, or toilet stand. It is fitted with two or more large drawers, besides smaller ones, and in the centre, between the drawers, in the lid, is placed a looking glass. When used as a bureau the front is taken off, and then the drawers are seen just as in a common bureau. One half of the lid, which is fitted with hinges, is turned back, exposing to view the smaller drawers and looking glass. It is raised to the required height by castors or feet, which can be taken out or put in at pleasure. The drawers are all locked and unlocked simultaneously by a most ingenious contrivance, and the trunk when used for travelling is locked again, so that there is double security from burglars or any attempts to break it open. For all these conveniences the trunk does not occupy a great bulk, nor is it heavier than those of the ordinary kind now in use, while it is far more serviceable and will keep clothes in a better state than any now made. They are all made of the best material, strongly and carefully put together, and finished and fitted up in a most tasteful manner. Four sizes are now made, namely, 30in., 32in., 34in., and 36 inches.

We are glad to learn that there is quite a demand for these trunks both in the States and Canada. Parties are applying every day for agencies, and the Company cannot, at present, supply the demand. We trust they will soon be working to their utmost capacity, and that this new factory will ere long have to be largely increased in dimensions, and become a prosperous institution, beneficial to Guelph, and profitable to the enterprising proprietors.

Arrest for Embezzlement.
Chief Constable Kelly, on Wednesday arrested in Montreal a young man named Wm. McCuaig, charged with embezzling a sum of money, about \$150, belonging to the Grand Trunk Railway Company at Guelph, in February of 1871. McCuaig was a clerk in the freight office, in this town, and in February of last year ran away, taking with him a sum of money belonging to the Company, which had been received for freight. Diligent search was made for him at the time and after, but no trace of him could be found. No doubt he went to the States. Thinking all of his pursuit of him was given up, and that he would not be known, he lately returned to Montreal, where he was spotted. Chief Constable Kelly left Guelph on Monday for Montreal, armed with a warrant, and on Wednesday succeeded in arresting him. On his arrival in Guelph he will be brought before the Police Magistrate here for examination.

Curling Match.
The two crack rinks of the Fergus Club paid a visit to Guelph on Wednesday and played two rinks of the Guelph Club. After a keen contest—the game being one of the best played this winter—the Guelph men came off victorious by four shots. The following is the score:—

GUELPH.	FERGUS.
Rink No. 1.	Rink No. 1.
Wm. Roper.	John Black.
Robt. Emshie.	John Davie.
Adam Robertson, Jr., A. Forrester.	A. Congalton, skip 18, Jas. Wilson, skip 16.
Rink No. 2.	Rink No. 2.
John Oliver.	T. W. Gordon.
Jas Dobbie.	John Watt.
J. T. Nicholas.	A. Anderson.
Thos Dobbie, skip 23, H. Michie, skip 21.	

A report has reached Paris that the Carlists of Spain are attempting to secretly import arms, with a view of rebelling against the Government. Like many other conspirators, however, they are weakened by internal dissensions, and it is thought this fact will render them harmless.

BY TELEGRAPH

THIS MORNING'S DESPATCHES

Proposed Alliance Between Italy and Germany.

Paris, March 21.—It has been proved that Marshall Bazaine dined with Prince Frederick Charles of Prussia shortly before the capitulation of Metz.

Destructive Fire in Louisville.

Louisville, March 20.—The Ohio Falls Car works at Jeffersonville, Ind., were destroyed by fire this afternoon. The works were the most extensive and complete of the kind in the country, the buildings alone covering five acres of ground. A large amount of machinery of the finest quality, and a large quantity of car material were in the building, the loss of which will reach \$500,000 and the Insurance covers about \$300,000. Six hundred and sixty men were in the shops at the time, nearly all of whom lost their tools. One man is missing, and it is feared that he was burned to death.

Fire in Chatham.

Special despatch to the Mercury. Chatham, March 21.—A fire occurred about 4 o'clock this morning, at the corner of King and William streets, destroying a row of frame buildings belonging to Mr. Hunter. Loss about one thousand dollars. It was insured for a small amount. They were set on fire in two places, one of which was put out by two men who happened to be passing a few minutes after.

Hillsburg Correspondence.

As you have heard through another correspondent, the bi-monthly Fair at Hillsburg on the 12th was well attended, and there was a goodly number of fat and lean cattle on the ground. There were not many buyers, perhaps on account of other fat cattle fairs having been held on the same day. The sales we heard of are as follows: A. Mercer, 1 yoke do., \$112; Robert Barden, 1 yoke do., \$110; C. McMillan, yoke of steers, \$70; J. Young, cow and calf, \$27; J. Collins, 1 steer, \$26. Robert Everdell had a very fine Durham bull on the ground, Henry How a fine Berkshire boar, and George Hurd a ram, which they were showing.

After the fair was over the people divided, some going to one hotel, some to the other. Those who had Credit Valley Railway on the brain began discussing it and the narrow gauge. Among the speakers were Messrs. D. McMureh, Wm. Wansborough, T. Young, P. McGill and others. The majority in Hillsburg are in favor of a medium gauge, but if they cannot get that they will go on the principle of half a loaf is better than no bread, and go for the narrow gauge.

Hillsburg, March 17, 1872. C. M.

Douglas Correspondence.

There was a heavy fall of snow last night, and this morning it is drifting furiously. It is to be hoped that the warm weather will soon come, as feed is getting scarce.

The school in the village has again opened, as scarlet fever is subsiding.

A grand demonstration was made here by the Temperance Society last night. Besides numerous recitations, dialogues and short speeches from the local talent of the lodge, speeches were delivered by the Revs. P. Brown, Little, Jones and Trynd on the immense injury to society resulting from alcohol. The Elora Temperance choir enhanced the proceedings by singing some choice music specially arranged for the occasion. Altogether a very pleasant time was experienced.

The prospect of the Credit Valley Railroad running past here, and of giving us a station, is engrossing much of the attention of the people in this locality.

Douglas, March 19, 1872.

Vaccination in St. Catharines.

On Saturday, the council chamber presented a scene the like of which has never been witnessed in St. Catharines before, and because one of our well-known citizens had contracted a disease—the small-pox—which has frequently visited the town before. For many days the physicians have been kept busy vaccinating old and young, and now the first and principal subjects of conversation are vaccination and the small-pox. In accordance with announcement Dr. Dougan attended at the council chamber on Saturday afternoon to vaccinate all who might present themselves, and assisted by Mr. Ed. Miller, succeeded in performing the operation on 118, when the vaccine gave a most excellent result.

On the 17th were present, and the school was crowded with an intelligent and appreciative audience—showing the interest the people of Alma and vicinity take in the Temperance cause. Able and interesting addresses were delivered by the Rev. Messrs. Davidson and Johnston and Messrs. Farnow and Congalton. The proceedings were enhanced by the musical talent of the Elora Life-boat Lodge of G. T., who contributed largely to the evening's entertainment. Several recitations were also given by members of the Division. During the evening a pledge of total abstinence was handed around and received thirty-five signatures of persons not belonging to any temperance organization. Votes of thanks were given to the speakers, the Elora choir, the trustees of the church, and also to the chairman, M. T. Lyons, Worthy Patriarch of the Division, for the able manner in which he had conducted the business of the evening; after which the Rev. Mr. Johnston pronounced the benediction, and the meeting dispersed, every one highly pleased with the entertainment. The speakers and the friends from Elora and elsewhere, then adjourned to the Division room to do justice to an excellent repast provided for them. The entire proceedings received the credit of the members of Alma Division, and this success will probably induce them to hold meetings more frequently.

Open Meeting at Alma.

The members of Alma Division Sons of Temperance held an open meeting in the Presbyterian Church in this village, on the evening of Monday the 11th inst., which proved quite a success. Every part of the edifice was crowded with an intelligent and appreciative audience—showing the interest the people of Alma and vicinity take in the Temperance cause. Able and interesting addresses were delivered by the Rev. Messrs. Davidson and Johnston and Messrs. Farnow and Congalton. The proceedings were enhanced by the musical talent of the Elora Life-boat Lodge of G. T., who contributed largely to the evening's entertainment. Several recitations were also given by members of the Division. During the evening a pledge of total abstinence was handed around and received thirty-five signatures of persons not belonging to any temperance organization. Votes of thanks were given to the speakers, the Elora choir, the trustees of the church, and also to the chairman, M. T. Lyons, Worthy Patriarch of the Division, for the able manner in which he had conducted the business of the evening; after which the Rev. Mr. Johnston pronounced the benediction, and the meeting dispersed, every one highly pleased with the entertainment. The speakers and the friends from Elora and elsewhere, then adjourned to the Division room to do justice to an excellent repast provided for them. The entire proceedings received the credit of the members of Alma Division, and this success will probably induce them to hold meetings more frequently.

Interesting from Manitoba.

Mr. Wm. McCarthy, of Rockwood, who was out in Manitoba last year, received some letters a few days ago from that Province, from which we propose to give a few extracts. The first letter is from Mr. Geo. West, who lives close to White Mud River. Writing on the 15th Feb., he says:—As regards the winter I am well pleased with it, and so are all my neighbors. It is not so cold as we expected to find it. I have lived a good many winters in Ontario, and several in the Western States, but in neither place are the winters so pleasant, or the weather so congenial to my feelings as this winter in Manitoba has been. It has been clear, cold and pleasant. The snow is about 18 or 20 inches deep. We have had only one big fall of snow, and that was on the 12th of Nov., and it fell then about a foot. We are not much troubled with Indians yet, but expect to be so soon as they find us out. I believe they are a great pest about the Portage.

The price of principal staples at present are, wheat 1.12 1/2 bushel; barley 75c; peas \$1.00; oats 75c; potatoes 50c; pork fresh and by the four quarters 8c to 9c; butter 37c per lb., and very scarce, flour \$5.00 per cwt.

The English Church, Presbyterian and Methodist Missionaries visit us occasionally. We have also a debating school once a week in our neighborhood, and have applied for a post office.

Another letter is from Mr. Donald Ferguson, from the County of Huron, dated Palestine, Feb. 10, 1872. He says, "Today is somewhat colder than usual. The mercury stood 40 below zero this morning. The winter set in early this season, and very severe. December was the coldest by a great deal. Since the 1st of January we have had the nicest winter weather that I ever saw, every day clear and bright, with very little snow. I never saw nicer weather for this season of the year. I would much rather have it than the winters in Ontario."

We expect a large immigration from different parts of Ontario next summer. As you wished some information about the route, and whether it would be better to bring a team, I would say that it would be advisable to bring a team, for horses are an enormous price here, and it would be much more agreeable for you to travel together.

Surprise Party and Presentation to Mr. Isaac Clemens.
(From a Correspondent.)
On Tuesday evening, the 19th, Mr. Isaac Clemens, M.P.P. was surprised by a small company, representing the Wesleyan Sabbath School in the Zion neighborhood, Berlin Circuit, in consideration of his having a few weeks ago very kindly presented the school with a library of twenty-five volumes, well selected and substantial in their character.

After a sumptuous tea and some hours of social enjoyment, the following address was read:—

MR. ISAAC CLEMENS,
Worthy and respected friend.—For your very handsome present to our Zion Sabbath School, you will please accept on its behalf, this expression of gratitude and appreciation. We do not but it was with pleasure that you returned from the place of your parliamentary duties, bringing with you a donation at once so valuable and so expressive of your sympathy with the work of the Sabbath School in our neighborhood. With pleasure likewise we come to greet you.

We assure you that your generous gift, having been received with cordiality, will be held in possession as a prize and a memorial. In our library and in our hands we shall henceforth have another tangible evidence of your having at heart the spiritual and religious welfare of this our community. In conclusion we deem it a privilege to pray that your kind bestowal may be productive of much good. May you long live and have thus to distribute in so wise and pious a manner. May you be enabled with increasing power and benefit to wield your position of influence to the end; and in Heaven's reward-day, may we each by the grace of God, have a title to that inheritance which shall be rich as the resources of omnipotence and enduring as eternity.

In response Mr. Clemens expressed himself pleasantly. He had been surprised indeed, he thought the school needed a library, and therefore he purchased one for it, not expecting any complimentary acknowledgment whatever, he only hoped it would answer the purpose. He heartily welcomed his visitors, the reality of which welcome they can testify he evinced by his warm friendliness, and invited them to come and see him again when opportunity might favour.

Permit us to add that this is not the first service and favor Mr. Clemens has done the school.

Open Meeting at Alma.
The members of Alma Division Sons of Temperance held an open meeting in the Presbyterian Church in this village, on the evening of Monday the 11th inst., which proved quite a success. Every part of the edifice was crowded with an intelligent and appreciative audience—showing the interest the people of Alma and vicinity take in the Temperance cause. Able and interesting addresses were delivered by the Rev. Messrs. Davidson and Johnston and Messrs. Farnow and Congalton. The proceedings were enhanced by the musical talent of the Elora Life-boat Lodge of G. T., who contributed largely to the evening's entertainment. Several recitations were also given by members of the Division. During the evening a pledge of total abstinence was handed around and received thirty-five signatures of persons not belonging to any temperance organization. Votes of thanks were given to the speakers, the Elora choir, the trustees of the church, and also to the chairman, M. T. Lyons, Worthy Patriarch of the Division, for the able manner in which he had conducted the business of the evening; after which the Rev. Mr. Johnston pronounced the benediction, and the meeting dispersed, every one highly pleased with the entertainment. The speakers and the friends from Elora and elsewhere, then adjourned to the Division room to do justice to an excellent repast provided for them. The entire proceedings received the credit of the members of Alma Division, and this success will probably induce them to hold meetings more frequently.

THE WASHINGTON TREATY.

MR. HORSMAN'S QUESTION REPEATED. London, March 20.—In the House of Commons to-day, Mr. Horsman, in accordance with his before expressed intention, again asked Her Majesty's Government to assure Parliament that, in case of fresh negotiations relative to the Alabama claims were entered upon with the American Government, no proposals would be finally accepted until they had received the sanction of Parliament.

Mr. Gladstone, in reply to Mr. Horsman's question, said he informed the hon. gentleman last night that he had been unable to consult with his colleagues on the subject. He added that he was yet without the opportunity to do so, and consequently was not able to give the assurance asked for. He would state, however, that Parliament would be informed at all times of the spirit, aim, direction and policy of the Government on all important questions. As far as the Alabama claims were concerned, he believed the Speech of Her Majesty at the opening of the session gave all the necessary information. Mr. Gladstone, in conclusion, said it would be impossible for the Government to delegate to Parliament the power of making treaties.

Mr. Horsman, in reply to the last position of Mr. Gladstone's remarks, stated that the American Senate had power to ratify or reject any treaty which the Government may negotiate. Mr. Gladstone repeated his assertions that it would be impossible to allow Parliament the treaty-making power, but at the same time stated that it was the duty of the Government to keep Parliament informed of any alteration in the Government policy.

Blackmailed to His Death.

(From the Buffalo Commercial.) A few months ago a man died in a little town on the Canada side, who in early life was one of the most promising clergymen in the City of New York. He died a broken-hearted man, and a victim to a "merciless attempt to blackmail" which had been tried upon him soon after his entrance upon parochial duties. He was summoned one day to perform a clergyman's offices in a house where he had had no previous acquaintance. The story told by the parties who summoned him was a very plausible one, and he went without hesitation into the trap prepared for him. As soon as he arrived at the sick chamber he was confronted by two men, who maintained that he had visited the house with impure motives, and threatened to expose him unless he paid over a certain sum of "hush-money." The man in his bewilderment took precisely the wrong course. He felt that he could better submit to pecuniary extortion than to allow his name to be used in connection with a disgraceful affair, no matter how innocent he might have been of the charges brought against him. He therefore paid the sum demanded. From that hour he was a doomed man. At regular intervals his persecutors called for more money. He refused to pay they held the threat over him, and it was not doubly strong from the fact that he had paid once to keep the matter a secret. His life became a torture to him. He resigned his parish in the metropolis and tried to be concealed in a more humble parish in another part of the country; but go where he would the relentless blackmailers were on his track. Finally he told his friends the terrible secret of his life. This thwarted his persecutors, to be sure, but their wretched victim was already a ruined man; as we have said he died a few months ago in a quiet-ude-of-the-way Canadian town.

NEWS ITEMS.

As John Hughes, of Newmarket, was riding on a bus to the station on Wednesday morning for the Toronto dailies, his hand seat being unfastened, he fell with it to the ground on his head, and sustained a severe shock, producing commotion of the brain. He lies in a precarious state. A few days ago a young boy, eight years of age, son of Mr. Burkholder, of Pickering, while playing by himself with a swing made out of a logging chain in the barn, accidentally slipped off, and by some means was caught by the neck, and when found life was extinct. A paper bill about 500 miles from Bradford, on the canal, was destroyed by fire on Tuesday night. Cause of the fire unknown. The freeholders of Windsor voted on Wednesday upon a by-law to establish water-works upon the Watrous system. The by-law carried by a unanimous vote, with the exception of one discharged constable. The Canadian Customs' tariff has been adopted by the British Columbia Legislature. A copy of Shakespeare, printed in 1661, brought seven hundred dollars at an auction in London last week. Many railroads are so thickly covered with a snow blanket 12 feet thick, it is expected they will come out all right in the spring. According to the Kingston Whig, the latest ingenious application of a proverb is saying that Whiskey Mason in the penitentiary is the "right man in the right place." The approaching boat race between Oxford and Cambridge is exciting considerable interest in England. So far the Cambridge crew is the favorite. Two of the leading members of the Japanese Embassy have already left Washington for Japan. They will report to their imperial master on their return their negotiations for a new treaty between Japan and the United States.

DEATH OF AN OLD SETTLER. We regret to record the death of Mr. Samuel Broadfoot, an old and respected resident of Nichol Township, which took place on Saturday last. Some two weeks before his death, Mr. Broadfoot caught cold, which was accompanied by a very severe and racking cough. This strained his system so that he burst a blood vessel, by which he lost nearly every drop of blood, and which caused his death. The deceased was one of the oldest residents of Nichol, having settled in that Township about 10 years ago. He had a large family of sons and daughters, and his grandchildren, we believe, number 30. He was a genial companion, a kind hearted man, and a worthy neighbor. His death will cause a blank in the section in which he lived, and where he was so well known and highly respected. MR. STURDY'S MEETINGS IN PESHAWAR. Our readers in Peshawar will see by the advertisement in another column, that at the request of a number of his friends and supporters, Mr. Sturdy, M. P., will address a meeting at the School House, Killoran on Tuesday evening, 26th inst., and another at the Town Hall, Merivon, on Wednesday evening, 27th. A cordial invitation is extended to all.

FUNERAL OF MRS. MACDONALD. — The funeral of Mrs. Macdonald, wife of Judge Macdonald, took place to-day at 2 o'clock, and was very largely attended. As a mark of respect to the memory of the deceased, the stores on Wyndham-st. were closed during the time the funeral cortege passed through the streets, and while the services were being held at St. George's Church.

THE NEW SCHOOL LAW.—Mr. John Anderson has sent us a copy of this pamphlet, which gives in compact shape the regulations relating to the New School Law, and the duties of Trustees. Such a work is almost a necessity to Teachers and Trustees.

ONE CHANCE MORE.—We will give subscribers in arrears, and those who have received accounts and not yet paid them, one more chance before taking steps to collect them. We will extend the time to the 11th of April, after which accounts then unpaid will POSITIVELY be put in suit.

CANADA LIFE ASSURANCE COMPANY

ESTABLISHED 1847. Cash Income over \$1,000 per day. Investments over \$1,250,000. Affording with the un-called capital of \$875,000 a Security of Over \$2,000,000. For the exclusive protection of Assurers. Claims paid for Deaths since commencement \$800,000. Annual Income over 400,000. Sums Assured nearly \$10,000,000. The strong financial position of this Company and its MODERATE RATES. Render it one whose advantages are not surpassed by any other, and explain the fact that it stands at the head of all the Life Companies in Canada. Detailed Reports and Tables of Rates may be obtained at any of the Company's offices or agents.

A. C. RAMSAY, Manager.

March 2, 1872. W. M. STEPHENSON, ACTON STATION, Grand Trunk Railway West. Parties wishing to purchase Ploughs are respectfully invited to Examine William Stephenson's Iron Plough, PATENT WROUGHT IRON SHARE, and satisfy themselves of its strength and durability. WE beg to call attention to Mr. Horsman's advertisement about Ploughs. The Plough referred to is having a large demand, so great has it become that three car loads have been forwarded to Mr. Horsman to supply the farmers in this neighborhood this Spring. All pronounce them the best general purpose Plough made; as a guarantee of this we need only say that they are manufactured at the celebrated Agricultural Works of E. W. Glen, Oshawa. The price it will be observed will be kept at \$13, the old figure, until the 1st of April, when it will be raised to \$15 in consequence of the advance in Iron and Steel. We should therefore recommend our farmer friends to lose no time in procuring one at Mr. John Horsman's, Hardware Merchant of this town.

Buck's Evening Mercury
 THURSDAY EV'G, MARCH 21, 1872
HELEN MOIR
 —OR—
LOVE AND HONOUR.
 —A TALE OF THE CLYDE.
 CHAPTER XXII.

Of the parting between Herman and Helen we dare not trust ourselves to write with anything like particularity. The thought could not be shut out from the minds of either that they might never meet again; that, perchance, Hermann would fall on the field of battle, sacrificing his young life for the defence of the Fatherland. It was a parting then whose pang could not be mitigated. Hope or comfort could not struggle through their tears; all was pain and grief and terrible foreboding.

In the depth and tenderness of her love and grief, Helen clung to him with passionate tears and sobbing. At that moment all her affection was revealed in its intensity; firmness and composure alike forsook her, and she held him with something like the will energy of despair. But, alas, the hour is come. The Dandie was waiting at the quay, and waiting, as it seemed, for him alone—all the rest of the passengers having gone on board. The kind-hearted inspector, divining the character of that tender leave-taking, did not hurry the withdrawal of the gangway, and he and the captain, in the fulness of their sympathy, delayed the departure of the vessel till the last possible moment. But that very last moment did arrive, for he must be at Helsingburgh in time for the Glasgow train, and had reluctantly to say, as he stood with his hand on the brass hand-rail—
 "We must go."
 "So the last kiss was exchanged, the last "Farewell" said, the last "God bless you" breathed by their quivering lips, and Hermann sprang on the vessel's deck, while Helen stood on the pier in a half fainting condition.

Her father, who was a few paces away, came up and supported her, and together they watched the Dandie as she passed away up the river. Hermann stood on the very end of the saloon, and kept waving his handkerchief so long as their forms could be distinguished by each other. But "Aloek," the engineer, having been told to increase the speed to make up for the slight delay at starting, they were swiftly carried out of each other's sight, though Helen could not leave the quay till the vessel disappeared round the Kileregan point, nor even so long as her smoke was visible in the air. Then, when the last lingering haze had faded into the blue, she gave vent to a long, low agonising moan, and asked her father to lead her back to the villa.

The Police of London.

The latest and most complete account of the police force of London is given by a writer in the *Dark Blue* magazine, who says—"In London the police forms a very respectable army in numbers, is organized on a military basis, with a complete hierarchy of officers, and of late has received a cavalry contingent, which will soon, no doubt, be the glory of its military directors. The city has been mapped out into new divisions for police purposes, and each street, or series of streets, is placed under the special guardianship of an individual officer. Telegraph wires running under ground connect the various districts with head quarters; and with the military discipline inflexibly maintained, render the force as effective for great or little service against the enemies of society as any human arrangement yet invented has proved to be. There are at the present moment, under the Commissioner and Assistant Commissioners (all military officers), 26 superintendents, 257 inspectors, 955 sergeants and 7,922 constables, to watch over the enormous population and boundless wealth contained within the police radius of 684 square miles. The 9,000 men of the force are divided into 29 divisions, 19 of which are known as by letters of the alphabet, each one numbering on an average from 150 to 500 men. The K or Stepney division is the strongest, having close upon 700 rank and file; with the exception of the Thames, an unlettered body, the H of Whitechapel division is the smallest, numbering less than 300. The "Fancy A," as it is called in the force, is the favored division, being set apart to guard the palaces and the House of Parliament, and generally to assist in the State pageants. It has three superintendents all to itself, and there are 35 inspectors and 97 sergeants to look after its 401 constables. The other divisions are more sparingly officered, even the K have to manage with one superintendent, 13 inspectors and 79 sergeants. No particular rule governs the number of inspectors in each division. The H or Whitechapel men, with an area of 64 miles to look after, have but 7 inspectors, while the H or Green, with three miles less, have four officer-mores. Each division is complete in itself, and looks after all the beats within its own bounds. In times of disturbance it gives or receives assistance, but in ordinary times it would be considered a monstrous offence for an M to trench on the ground of an N, or a C to walk on a D's side of the way.

There is a considerable commerce in trade between France and England. A load of good size in fair condition will fetch 25 cents in the London market, and a dozen of extra quality are worth \$5. You may see them in all the market gardens where the soil is moist, and the owners of these gardens even prepare shelter for them. The road is very helpful to the husbandman as a destroyer of injurious insects on which it chiefly feeds.

The Ottawa *Chief* is responsible for circulating report to the effect that the ex-Prince Imperial will make a tour of Canada and the United States during the ensuing summer.

The Way to minister to a mind diseased is to take Peruvian Syrup, a protected solution, of the *protocid* of iron, which gives strength and vigor to the whole system, restores the digestive organs to perfect health, thereby restoring the mind to its natural vigor.

We have seen it stated in various papers throughout the country, that Agents for the sale of *Sheridan's Cavalry Condition Powder* were authorized to refund the money to any person who should use them and not be satisfied with the result. We hold this at first, but the proprietors authorize us to say that it is true.

Reinforce your Physical and Mental Strength of persons who use *Fellow's Compound Syrup of Hypophosphites*, their augmented facility of endurance, the regular and healthy action of the Heart, Lung, Stomach, and Bowels, and their improved appearance, demonstrated in a number of cases, within our knowledge, the power of restoring the great sympathetic and muscular system on which full and healthy development depends, is certain.

LAZARUS, MORRIS & CO.,
 MONTREAL.

Have, with a view to meet the increased demand for their
CELEBRATED
Perfected Spectacles.
 APPOINTED
MR. D. SAVAGE
 As their sole agent for this place. They have taken care to give all useful instructions, and have confidence in the ability of the Agent to satisfy the requirements of all customers. An opportunity will be thus afforded to procure at all times.
 Spectacles procured by any for their Strengthening and Preserving Qualities.
 Too much cannot be said as to their superiority over the ordinary glass worn. They are so glistening, waving, or so light, that they do not cause any irritation of the eyes, but on the contrary, from the peculiar construction of the Lenses, they are soothing and pleasant, causing a feeling of relief to the wearer and producing a clear and distinct vision as in the natural and healthy sight. They are the only spectacles that preserve as well as assist the sight, and are the cheapest because the best, always lasting many years without change being necessary.

HAVE YOU A COUGH?
HAVE YOU A BRONCHITIS?
HAVE YOU THE ASTHMA?
HAVE YOU ANY LUNG DIFFICULTY,
OR WEAKNESS, IN YOUR
THROAT?
READ THE FOLLOWING:
Mrs. Any Kennedy, of Painesville, Ohio, says: I
have suffered with Asthma 23 years, have been
doctored by many Physicians, as soon as I took
the Balsam it relieved me, I cannot express
the gratitude I feel for the benefit your Allen's
Lung Balsam has been to me.
Dr. Harris, of Middlebury, Vermont, says:—I
had been troubled with Bronchitis for two years,
so affecting the organs of speech that I could
not speak aloud for six weeks, I had with it a
severe cough and cold night sweats. I took two
bottles of Allen's Lung Balsam, and an entirely
cured.
Capt Foster, of Barre, Ont., says: I have
been troubled with a cough at times very severe
for years past. I have found Allen's Lung
Balsam to relieve my cough more readily than
any other cough medicine I have ever tried. My
wife also used it with the most satisfactory re-
sults.
The Balsam is sold by all druggists. Price
25c per bottle.

Perry Davis & Son
FELLOWS
COMPOUND SYRUP OF
HYPOPHOSPHITES
All life-endowed bodies, whether
they be Beasts, Birds, reptiles, insects,
or even Zoophytes, and subjects of the Vegetable
Kingdom are governed by vital force, which
binds all the springs of existence, and as nothing
can give them from dislocation, when this
vital force leaves them, the discovery of means
whereby vitality may be sustained in the living
body is in fact a boon to the world.
Modern Chemistry has ventilated the question
and discovered the ingredients constituting the
brain, muscles and nerves, and by introducing
these ingredients in proper proportions
the brain and nervous system are strength-
ened.
It is substantially the basis on which
Evaporated Milk is built, its direct
action upon the Blood, the Brain and Nervous
system, and the Muscles, strengthening
the Nerves, it causes the rapid distribution of
Vitalized Blood in the Muscular Organs of the
Body.
Rousing the Stagnant Heart and Liver,
strengthening the Action of the Stomach and
Bowels, and enabling the Lungs to be fully
satisfied with Oxygen.
It is adapted for all cases of Weakness and
Emaciation, whether arising from a Sedentary
life, a tropical climate, from fever, or debility
from any cause, and is especially in Pulmonary
Consumption, many confirmed cases having
been cured and all benefited, where its use
has been continued over a fortnight.
In Bronchitis it is a specific, and in Asthma
it gives relief where every other remedy fails.
For Nervous Debility it stands unrivalled,
and may be used with confidence in all cases.
As this is a costly medicine, and different from
every other preparation of Hypophosphites, be
careful to ask for Fellows' Syrup, and take no
other.

SOLD BY APOTHECARIES
PRICE, \$1.50. SIX FOR \$7.50.
