**VICTORIA BRIDGE.**—The work of rebuilding this bridge over the Speed which promises to be one of the finest and most substantial bridges in the County will be commenced at an early date. Messrs. Simpson & Wanless, Mount Forest are the contractors for the work, the cost of which is to be \$3,500. Mr. John Taylor of Elora, drew the plans and will superintend the work. The structure will be 275 feet long and 18 feet wide, the piers five in number, resting on 98 piles driven into the bed of the river. The centre span is 75 feet long.

**FATAL ACCIDENT IN ERAMOSA.**—We regret to announce the death of Mr. John I. Peters, of Eramosa, which took place on Tuesday last. He had been on Speedside on business on the 2nd inst., riding a young horse. He had received a letter from the post office and was reading it when the horse became frightened, throwing him off on the ground causing a concussion of the spine. He was carried home by some parties who happened to be passing along the road about the time. The injuries were of such a serious nature that he died on the 13th inst. He was the only son of the late James Peters, and had resided in Eramosa 48 years. He was a native of that Township, and was held in much esteem by all his friends and neighbors. He leaves a wife and seven children to mourn his loss.

**ROBBERY IN FERGUS.**—About 2 o'clock on Wednesday morning some clothes, a silver watch, a revolver and \$3.00 in cash, the property of three employees about the North American Hotel, Fergus, were discovered to have been stolen. A man who gave his name as John O'Clair, from Hamilton, who had been shown to bed in the room from which the articles were taken, and who had left unobserved before the discovery was made, was at once suspected. Constable Graham arrested the man about 4 o'clock a.m. upon an engine at the railway station. He was wearing the stolen clothes, and had the watch and revolver in his pocket. He was taken before the Reeve and Mr. Watt, who committed him to jail to stand his trial. Luke Farrell, a companion, was also arrested, but no evidence being produced against him his case was dismissed. While in the lock-up Farrell cut two holes through the boards with which the cells are lined, thinking to make his escape, but upon working through the wood he came upon a stone wall which made his labour in vain.—News Record.

**THE LATE REV. JAMES NISBET.**—We have some particulars from the *Montreal* concerning the death of the Rev. James Nisbet which took place at Kildonan on the 30th ult. For some months past his health and that of his wife's, has been breaking down, and they were forced to leave their field of labour among the Indians in the Saskatchewan Valley. They arrived at Winnipeg on the 9th ult., with the design of passing on to Ontario as soon as possible. But this was not to be. On the 9th ult., Mrs. Nisbet passed away, and on the 30th he followed. They were lovely in their lives and in their deaths they were not divided. Mr. Nisbet was a man of fair ability of great prayerfulness and diligence, and ardent zeal in the cause of missions. His funeral at Kildonan was largely attended. Rev. Dr. Clark and Prof. Bryce, of Winnipeg, Rev. Mr. Matthews of Little Britain, and Rev. John Black of Kildonan taking part in the services. Four orphan children, all young, survive their lamented parents. The deceased was the first foreign missionary of the Canadian Presbyterian Church. He went to the Saskatchewan in 1866, and from that time till his return he had been most laboriously prosecuting the work of the mission among the Indians of the Saskatchewan Valley, and with as great a measure of success, it is believed. But this is not all. He was the kind among the native tribes of this country.

### Attempted Patrieide in Stephen.

The *Exeter Times* contains an account of a very sensational affair which occurred in the township of Stephen, on Thursday last. An old man named McEachern, living on the 16th concession, was shot at by his son. It appears that the young man who is about 18 years of age, assisted his father in working their little farm. For some time past he was scarcely ever sober. On one occasion he came home in a drunken frenzy, and commenced beating his father, mother, and sister, turning him out of doors, and setting like a fiend. On Tuesday, last, when in his drunken rage, he commenced a quarrel with his aged father. Word followed word, and at last anger raged such a pitch of madness that the son, driven by liquor, snatched the shot gun from the wall, leveled it at the frightened and trembling father, who now stood helplessly before him, and discharged the contents of one barrel. Luckily in his excitement and rage he missed his mark. He a second time, with curses raised the gun and took deliberate aim. But by the mercy of heaven, prevented the firing of a horrible crime was averted and the father's life saved. As he was about to press the trigger, which would have sent his father into eternity and made himself a murderer, a strange hand suddenly grasped the gun and bent it downward, the charge at the same instant levelled at the frightened and trembling father, who now stood helplessly before him, and discharged the contents of one barrel. Luckily in his excitement and rage he missed his mark. He a second time, with curses raised the gun and took deliberate aim. But by the mercy of heaven, prevented the firing of a horrible crime was averted and the father's life saved. After a most careful comparison of opinions and a most solemn consideration of the elements of education affecting the interests of education for the white and colored population they have unanimously come to the conclusion that compulsory legislation by Congress in favor of mixed schools as a system of public education will be most pernicious to the interests of education in communities to be affected by it, and that the colored population will suffer the greater share of this disastrous influence. The report was accepted and approved as expressing the unanimous opinion of the trustees.

### WELLINGTON FALL ADVIZES.

Court House, Guelph, Saturday, Oct. 17.  
HOOD vs. GOW.

The following is the conclusion of the evidence in this case.  
Frederick Passmore, P. L. S.—To Mr. Cameron—The bed of the river varies, and it is difficult to make measurements. The effect of the dam is to back the water at Mr. Hood's land and above that point to the point of the dam the fall in the bed of the river would be 3 feet 8 1/2 inches. The water deepened above the Rocky Bar and also below. If the dam were gone the river would be lower to the shoal. The Rocky Bar itself forms a dam of the river up to within 1 foot 2 inches of the present height of the river. The top of the dam from the bed of the river is 4 feet 7 1/2 inches; this is with the crown timber, without the slash-boards. The gravel ridge on Hood's land is 14 feet 9 inches high; there would be sufficient fall to drain the land next the river. Hood's land is 1 foot 7 inches higher than the bed of the river.  
J. C. Present sworn.—Own the first mill above Mr. Gow's at the mouth of the main branch of the Speed. Have known the water for about twenty-six years. Know Mr. Gow's stone dam. The present dam does not back water so far up as the first one did. The old dam backed water into my mill-race; the present one does not; I found this on Thursday, when my mill was stopped to test it. Mr. Gow's dam was then full.  
To Mr. Cameron—There is back water below my tail-race but not in it. Last summer there was back water there, when the high boards were first on the dam.  
To Mr. Guthrie—The dam I speak of was the one which was used for the tannery at first.  
William Bittle—Worked for Mr. Gow after the tannery was burned down. The second dam was in operation then.  
Robert Thomson, land agent, said:—Mr. Hood's land varies in value. The unimproved land, if dry, is worth about \$30 to \$100 per acre; if the next year the river is worth from \$50 to \$90 per acre. The low part would rent for pasture at \$3 per acre.  
This closed the case for the defence.  
Mr. Kerr then addressed the Jury. He stated the case involved the question of rights, the taking of the dam would be a serious matter to the defendant. He has gone to a large extent into manufacturing enterprises, and the verdict, if against him, may close those useful works. Now, even admitting that damage to the plaintiff has been done, there is a limit to the amount which only an action can be brought by him. It is only for the loss within the past six years that the plaintiff can claim damages, and these are to be reckoned at the yearly loss sustained. In this case the damages can only be of a trifling character. The amount of the loss that can be claimed by the plaintiff extends over the four years previous to the last two, during which his tenant has occupied the premises. The present value of the fifteen acres of land—82 an acre—would represent a damage during those four years of \$30 a year, or an aggregate of \$120, or value of the dam at \$1 each acre, the fifteen would represent \$60 damages during the four years named. But the last tenant has realized \$14 a month for pasture land, and taking this as a set-off from the damages claimed in this action brought by Mr. Hood, who is a neighbor of the plaintiff, the net result is that there is back water it is not caused altogether by the dam. The evidence shows the swampy character of the land. There are springs above it, and there are springs upon it, which saturate the land. There is a soilage from the gravel ridge above the low lands, and the water from freshets and rainy weather would percolate through this and cover the low land. The evidence to establish the backing of the water is various. That given by casual observers is not reliable and should not be depended on. There are constant rises which must be taken into account, such as the falling of rains either here or further up the stream which would certainly influence the stream. Mr. Cooper says there is a backing of water of 1 foot 8 1/2 inches. He went to the dam when the water was at its lowest. He has observed it in three different places. Another day he went and found that when the dam was full the water had risen at the bridge 1 foot 3 inches. Further up he finds that the water had risen six inches. The third day he found that the water had backed to an extent of five inches farther up the river than it did lower down. That would make the stream run up, and on account of its absurdity destroys all Cooper's testimony. The defendant's surveyor clearly shows that there cannot be a backing on Mr. Hood's land of more than one centimeter. I find it does not claim that the old dam did damage to him, and the evidence shows that the present dam is no higher than the old one. We claim that no trespass has been committed, but if so, we assert that the defendant is not responsible for it. The property has been leased to Mr. Gow's tenants. He has leased the power of the dam—not the abuse of it, to these parties—and if there is a trespass they are the responsible parties. If Mr. Gow's present dam does not back more water than the old one did he is entitled to the verdict. Having said the above, I am necessary to carry on the law, according to the law of prescription, to continue his works providing the dams built since that time back no more water than the old one. All the evidence shows that the present dam is no higher than the former ones. The old dam is shown to be out of water and the water flows over the present one, so that the latter cannot be higher than the former. Mr. Present's evidence is conclusive that the water is not backing on his property, and certainly he is an interested party. When Mr. Hood complained that his land had been damaged by the water which was necessary to carry on the industries which Mr. Gow with his public spirit, had established, Mr. Gow was willing to refer the matter to arbitration and either purchase Mr. Hood's property—as he had a legal right to do—or to settle the dispute in regard to the alleged damage. If the verdict is given against Mr. Gow he will be a ruined man because his works will

The Council asked for tenders to repair the stone work of the Drill Shed, the said tenders to be handed in to the Clerk not later than the 18th inst. The Council also bound themselves to give Mr. W. The Lincoln Monument.  
The handsome marble monument which a grateful nation has raised to the memory of Abraham Lincoln, the martyred President, over his remains in Springfield cemetery, was unveiled on Thursday with becoming ceremonies. Over 25,000 persons assembled to witness the simple proceedings; and among the notabilities were President Grant, several cabinet officers, General Sherman at the head of the members of the society of the Army of the Tennessee, many prominent officers of the American Army, Sir J. Fowell Buxton, M.P., and Mr. W. G. Foster, M.P., England, also the only surviving son and sister of Mr. Lincoln.

After an eloquent address by ex-Governor Oglesby, of Illinois, the monument was unveiled in presence of the assembled multitude, whose profound silence gave evidence of the emotion they felt. President Grant then stepped forward and in a few sentences truthfully sketched the character of his illustrious predecessor. He closed his remarks by saying: "From March, 1864, to the day when the hand of an assassin opened a grave for Mr. Lincoln, then President of the United States, my personal relations with him were as close, as intimate as the nature of our respective duties would permit. To know him personally was to love and respect him for his great qualities of head and heart, and for his patience and patriotism. With all his disappointments from failures on the part of those to whom he entrusted command, and treachery on the part of those who gained his confidence but to betray it, I never heard him utter a complaint, or cast a censure upon any man. It was his nature to find excuses for his adversaries. In his death the nation lost its greatest head. In his death the South lost its most just friend."

We cannot refrain from quoting the following just tribute to the memory of Mr. Lincoln from the New York Tribune:—"His tomb is a large, handsome and stately structure, overlooking a green valley and hillside, filled with the graves of the friends and neighbors, who saw Lincoln going in and out among them for thirty years, who learned to honor and love him day by day, and to whom he turned, in the solemn hour of his last departure from Springfield, to ask their prayers for Divine assistance in his heavy task. It is altogether fitting that his bones should lie there as long as the inexorable laws of nature will permit. But for his glory, monuments and processions can do very little. The most brilliant array of official visitors is eclipsed by the simple grandeur of the now almost mythical figure, which has grown up in the hearts of the people of the hero and martyr, who, as they believe, saved our liberties when they were imperiled, and gave freedom to those that were in bondage. The world is rapidly outgrowing monuments. It is hard to decide who merits them, of those who obtained them. But it may safely be asserted that no man conquers the love of Christendom without merit. Lincoln has become a myth and type of ideal democracy in every country on the earth where the history of our wars is read, and where the masses are working for a better future. Every one blesses him now, less than ten years after his death."

The Hon Mr. McKellar has decided to remain by his Bothwell friends, and be a candidate for that constituency at next election.

At the Reform Convention at North Williamsburgh, on Saturday, Mr. S. S. Cook, M.P.P., received a unanimous nomination to represent Dundas County in the Local House.

At a large and influential meeting of the Reformers of the West Riding of Northumberland, held at Cobourg on Saturday, Mr. Kerr, (who was lately unseated), received a unanimous nomination as candidate for the representation of that constituency in the House of Commons.

THE SOUTHERN EXTENSION.—The prospects for the opening of this Railway seem to be darker than ever. We are informed on the best authority, and our information has been confirmed by a telegram which the Lucknow Sentinel says Col. McGivern, President of the Company, has sent to the Reeve of that village, that the recently elected Board of Directors of the Great Western Railway have refused to accept the offer of the Wellington, Grey and Bruce Company with regard to the opening of the Branch to Kincardine. What will now be done we cannot pretend to say. There seems to be a deadlock between the Company and the Great Western Directors, and unless the Legislature take some action in the matter, we see no chance of the road being opened.

THE BROWN LIME SUITS.—Hon. George Brown's action for libel against the proprietors of the Sarnia Canadian was tried at Brantford on Saturday before Mr. Justice Strong. Mr. John Hillyard Cameron in his opening speech stated that his client did not seek heavy money damages but a verdict by the jury that the infamous libel complained of was uttered without foundation. Mr. Van Norman, counsel for the defendants, said his clients regretted as much as any one the publication of the matter complained of in their paper, and had they been applied to, for an apology before the action was brought, they would have given one. The jury returned a verdict for the plaintiff, damages \$50. The excuse put forward by the defendants, that they would have made an apology if it had been asked for, is a very paltry one. Had they felt a desire to make full reparation for the injury done, they would have published their apology immediately after Mr. Brown's denial

of the fabrication and without waiting to be asked for an apology.

CONDUCT OF CIRCUSMEN.—A fray took place on Thursday night, at Tavistock, between some men connected with Cole's Circus and some of the inhabitants of that place. No fewer than eight of the citizens received severe injuries. Steel truncheons appear to have been used, and one man was stabbed in three places. One man had his ears bitten off. He is recovering, though for a time it was supposed that life was extinct. He was pounded, cut and bitten in such a fearful manner that he could scarcely be recognized as a human being. No arrests have yet been made, although the proprietor of the circus offered to do all his power to further the ends of justice.

COUNTY OF WATERLOO TEACHERS' ASSOCIATION.—This association met at Berlin, on Saturday, 10th inst. The weather being very unfavorable, there were only a few members present. It is proposed in future to have half-yearly meetings of two days each, instead of the present quarterly meetings. The January meeting will be held for two days, and it is proposed to secure the services of an able lecturer for the evening of the first day.

**WELLINGTON FALL ASSIZES.**  
have to be stopped entirely, and it is thus a serious matter to him, while the damage done to Mr. Hood's land is not, even if proven, nearly equal to the amount of claim—\$2,000.

Mr. Cameron then addressed the jury on behalf of the plaintiff—He deprecated the idea that Mr. Gow had erected his works in the public interest. If Mr. Gow engages in public works he must not do so at the expense of Mr. Hood or anyone else when the necessity of water—if such there may be—can be obtained by employing steam as a motive power. The evidence of the surveyors was referred to as proving that not only the present dam, but the second one also, exercised an influence in backing the water. Mr. Hobson made an examination in 1862 and found a current in the water near Hood's property, but on a second visit in 1868 this current was not to be seen. The evidence of Mr. Cooper, which opposing counsel considered curious because it made the water run up stream, was clear when it was known that water is compressed by the banks on a stream it is consequently turned of a deepened. This accounts for the fact that Mr. Cooper found the water in the stream deeper than it ever flows. The fact that Mr. Hood's dam drains the land could be proved that at one time and that, in fact, the water ran through the main drain to the river, which must have then been lower than it is now. In answer to the question that the first dam backed the water as much as the second one Mr. Miller's evidence was alluded to, to show that these drains were cut after the second dam was made, and that the water flowed freely. Referring to the question of damages, it was said that Mr. Hood had paid \$2,000 for the property and built a house costing \$3000 on it. The rent now is \$150 per year, while the interest on the money invested at the purchase at 6 per cent would be \$170. In view of these facts, and the fact that the water in the stream is to be retained as a market garden, which would bring in a considerable revenue, the amount at which Mr. Hood estimates his loss \$2000—is inconsiderable.

His Lordship then addressed the jury. He considered the case was a most important one, but a great number of witnesses had been examined, whose evidence was not of great weight. The first question was, does the dam back water on Mr. Hood's land? The evidence of Mr. Paemore, as well as others, was favorable to the affirmative. But the real injury which Mr. Hood has sustained is merely that which has been caused directly by the building of the dam. His land is naturally marshy, and he claims that he has been prevented from draining it, as he could have done, if the river were in its natural state. The evidence shows clearly that the plaintiff's land was flooded, and that the water in the river had been raised higher than it was before the dams were built. If the second and third dams were lower than the first one, the right of prescription would be allowed Mr. Gow, because by the existence of the first dam for twenty years, he had obtained the privilege of use. The plaintiff is not entitled to recover damages for more than six years. The amount of the damages will be according to whether the land can be brought to its former state, which was not, as is known, better than a marsh. At the close of the Judge's address.

Mr. Kerr requested his Lordship to read Robert Crowe's evidence, which was done. The jury retired about one o'clock, and returned in half an hour with a verdict for the plaintiff, with damages at \$300. Mr. Kerr took several legal objections, which his Lordship noted, for the purpose of bringing the case up before the full Court. **DEAN VS. SPIERS.**—Referred to the arbitration of Henry McPherson, Esquire, Judge of the County Court, Co. Grey. Verdict for the plaintiff \$200, subject to the arbitrator's award. **DEAVES VS. MILLAR.**—Referred to the arbitration of Archibald Macdonald, Esq. Verdict for plaintiff one dollar, subject to increase. Referred.

The following cases were laid over:—**BYAN VS. HORTON;** Canada Company vs. Creighton; **HARD VS. McDougall;** **LEESON VS. O'HEARN.**

This finished the business of the Court which rose at two o'clock. **MARKING PENS.**—A novelty has been introduced in this line in the shape of a glass pen which will not corrode or wear out, there is no split at the point to catch or spatter, and the ink flows freely off the point. This pen and a bottle of Payson's Indelible Ink should be in the possession of every house-keeper.

Remember the Store—THE GOLDEN LION—where the once wonderful John Hogg was, and where the now wonderful J. D. WILLIAMSON is. Although unprincipled men have been trying to impose on the people that the Lion has been moved up street, the Lion is still in the old spot, next door to Mr. John Horsman's, Lower Wyndham street. Where the Lion is, there the Bargains are.

Golden Lion, Wyndham Street, Guelph.

J. D. WILLIAMSON.

**THE NEW STORE**

WONDERFUL ATTRACTION!

TREMENDOUS RUSH

**JOHN HOGG**

Has now got his New Store, New Goods, and New Prices into full order, and his old Friends and Customers are pouring in to welcome him back again to serve them.

I wish it to be distinctly understood that I have no connection with any Golden Lion, in Guelph or elsewhere, as my New Store only contains New Goods fresh from the Looms. I have no old Shop-keepers' to palm off. My prices for the Best and most Stylish, fresh and New Goods are 20 per cent under the old prices charged for Stuff in the other Stores.

"DOWN WITH HIGH PRICES."

Twenty-one years ago I commenced a War of extermination against long prices and long profits—and I succeeded; but, alas, on my retirement from the Mercantile business four years ago, again the thirst for long prices and long profits began to show Signs of Life, and has continued up to this present time.

But, lo! what a Commotion there is now in the Camp of long prices and long profits, and well may there be that Commotion, because the WONDERFUL JOHN HOGG is up and at it again.

**CLEAR THE TRACK!**—Look at the immense throng about his Store. The Public appreciate an ENTERPRISING man and support him.

Call at once at the New Store, Upper Wyndham Street, Guelph. Ask for John Hogg himself, as many who would like to be John Hogg do not hesitate to deceive strangers enquiring for that Wonderful Man.

All branches of the business carried on. Tailoring done to order. The finest assortment of all kinds of Coatings, Vestings, and Trousers in the Dominion.

Ready-made clothing in Men's, Youths, and Boys' sizes, 25 per cent under anything in Guelph.

My general Stock of Goods is stirring up the Slow Coaches and making them open their eyes, saying "Hogg is losing Money."

REFORM, not only in the high prices changed, but in the quality of Goods offered to the Public.

The Public may at all times feel safe while I am in the business. I shall keep a watchful eye not only on the character of the Goods offered but on the prices charged.

Yours Truly,  
**JOHN HOGG.**

Alma Block, Upper Wyndham Street, Guelph.

N.B. Mr. William Knowles, long and favorably known to the Public, is again with me and will be glad to see old friends and customers.

**Special Notices.**  
**THE GREAT SUPERIORITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND GALLIC ACID.**—Consists in its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, and thus preventing nervous prostration and general debility. For building up constitutions of low vitality from scrofulous, or consumptive diseases, or impaired by dissipation and bad habits, it is unequalled, as it immediately imparts energy to the digestive apparatus, and creates healthy blood, tonic and vitalizing all the organs of the body in the same manner as our daily food. Phosphates are the only compounds of Phosphorus assimilated by the system, and Dr. Wheeler's agents for maintaining the vital powers.

**THE GREAT ENGLISH REMEDY.**  
**Dr. Williams' Pink Pills for Pale People.**  
Before Taking. After Taking.  
**Specific Medicine**

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over-indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhoea, Impotency, and all diseases that follow as a sequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to debility or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over-indulgence.  
The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.  
The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money, by addressing

**Glines' Patent SLATE ROOFING PAINT!**  
AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

**The Paint is Fire-Proof**

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tinned Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

**EXTREMELY CHEAP!**  
Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eaves before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

**ROOFS EXAMINED. ESTIMATES GIVEN.**  
And when required will be Thoroughly Repaired.
