Another Enterprise for Bridgetown Being Talked Of.

For several years, at spasmodic intervals, the question of endeavoring to establish a boot and shoe factory in this town has been considered...

Without anything very tangible coming from it, the matter is now assuming a rather more practical form, and it is possible, may result in getting this highly desirable enterprise established.

A subscription is being taken step by step to raise funds to send some capable man to interview leading boot and shoe manufacturers in the States...

There is no doubt, there is an excellent opportunity in the town for an establishment of this description, if placed in charge of a thoroughly practical man with the right business qualifications.

The country is flooded with Canadian made boots and shoes. We should be able to get a good portion of this trade.

If a name and reputation for reliable work can once be obtained, the business will be assured.

We have a steam tannery right in the town, which, no doubt, could manufacture nearly if not all the leather required.

There is every facility for getting the best material to market, both by water and rail. Labor ought not to be difficult to obtain, and at reasonable rates.

Our citizens should hold out every reasonable inducement, and each do in his power to have such a concern open up among us.

The direct advantage would be of great importance, while the indirect results would be very potent factors in helping along the town.

Bridgetown has a very prosperous future before it, if the people only will consent to something to build up a live and enterprising town.

Money is never more easily applied to any cause than to the advancement of the town in which you live and intend to live.

The following from an exchange will bear repeating just now.

There are those who are hesitating whether to give encouragement to new industries or to let things drift along in the old way...

It is not the business of the State to give anything to build up a live and enterprising town, but we must not forget we do not live altogether for the present, posterity has claims upon us.

Local and Other Matter.

A new post office has been opened at Victoria west, with G. D. Moore as postmaster.

Hector McLean, Esq., to whom we referred in our last issue, has arrived in Bridgetown, and will reside here for some months.

Mr. W. H. McKenna of Granville, after absence of some months in other parts of this province, has returned home.

I have a very large stock of Canned Goods, which I am going to sell, R. Shipley.

We shall commence the publication of the "History of Annapolis Royal" from its first settlement in a very short time.

The new valves put into our by-draws are working with every satisfaction.

Remember, friends, we want news from every corner of the County. You can do your locality no inconsiderable amount of good by keeping it before the public.

A duty of half-cent per pound has been placed upon fresh fish entered by the coasters of other countries into the United States, and we see that a duty of one cent per doz. upon eggs is being talked about.

The Rev. H. D. deBelle will lecture in the New Hall, at Round Hill, on Thursday evening, 29th, on the occasion of the opening of that building.

A literary treat may be expected. Since collection for the fair has been made more strenuous than will be required for the day service, and by making some of these A. Yarns, some of the best of his life are now being prepared.

Thomas.

(From the Blackwood.)

(Continued.)

Mrs. Lobb got on prettily well after her

boy went. But she overtook her again

the poor, skinny baby died. Surely it

was a blessing in disguise when death took

him.

Eighteen years had gone by. The

Lobbs had passed altogether out of my

life. Thomas had never come back. I

heard that he had found his uncle in Mel-

bourne and had gone with him to Graham's

Town, South Africa. From there the

uncle had sent for Mrs. Lobb and Grace, and

that was the last I knew of them, or ever

expected to know.

I had given up the house in which I

had lived so long in England, and settled

in Italy, near Florence, where living was

cheaper than in England. There the

years slipped away peacefully

until the day when I was called to

my grave. I was buried in the same

grave as my mother and father, and

my sister Elizabeth, who is un-

married, and alone and delicate, went

to water at Rome, and invited May to go

with her. I could not refuse to let her

go; but we fell parting, for we had

nothing to say to each other. I was

going to the States, and she was

going to the States, and she was

going to the States, and she was

going to the States, and she was

FOR OLD PEOPLE!

In old people the nervous system is

weakened and that must be strengthened.

One of the most prominent medical

writers of the day, in speaking of the

prevalence of nervous troubles among

the aged, says: "The various pains, rheu-

matism, and other, which old people often

experience, and which materially dis-

rupt their comfort, result from disor-

dered nerves." There is in a nutshell

the medicine for old people must be a

nerve tonic. Old people are best with

constipation, flatulency, dyspepsia, dis-

tractions, indigestion, depression, neur-

algia, and other ailments.

MONTECAL P. Q.

These diseases are of nervous origin.

Their cure depends upon the

condition of the nervous system.

Old people are best with

constipation, flatulency, dyspepsia, dis-

tractions, indigestion, depression, neur-

algia, and other ailments.

"I have heard of you," I said. "You

do not know me," he went on. I

have just arrived from Rome. I know

your daughter and sister there, and I

thought you would not be coming.

"I could not help it. The last words

were said to himself, and seemed to have

escaped him.
