The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the times at which twilight begins in the morning and ends in the evening, i.e., the times when the Sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 27"	-3' 43"	-1' 55"	0' 00"	+ 2' 1"	+ 4' 8"	+ 6' 22"	+ 8' 44"	+ 11' 14"
2nd Correction for each minute of latitude	+ 1".7	+ 1".8	+ 1".9	+ 2".0	+ 2".1	+ 2".2	+ 2".4	+ 2".5	+ 2".6

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20'... 1st correction — — 3' 43"	2nd correction + 1.8 × 20 = + 0' 36"
" " 47° 40'... " " — + 4' 8"	" " + 2.2 × 40 = + 1' 28"
" " 45° 10'... " " — + 0' 0"	" " + 2.0 × 10 = + 0' 20"

THE PLANETS.—The times of rising and setting of the five chief planets are corrected for refraction. The times of culmination, although computed for the meridian of 4h. 46m. W., will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 46°.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The column, SUN ON MERIDIAN, gives the time that a watch should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto, noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the Moon's centre passes the meridian of longitude 4h. 46m. W. When in the column headed Moon's rising or setting, or Moon on meridian, the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, and that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4h. 46m. W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 10 to October 10. It passes the meridian twice on October 10; and in the afternoon during the rest of the year.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1881 there will be two eclipses of the Sun and two of the Moon, and a transit of Mercury across the Sun's disc

I.—A partial eclipse of the Sun, May 27. Partly visible in Western Canada.

At Toronto the first contact occurs at 7h. 17-5m. p.m. Angle of first contact from the North Pole 40° towards the west for direct image.

The Greenwich mean time of first contact for places near Toronto may be found from the following formulae :

$$* \cos \omega = 2.09522 - [0.21583] \sin l + [9.63694] \cos l \cos (196^\circ 28' 16'' - \lambda)$$

$$t = 12h. 7m. 29s. - [3.63326] \sin \omega - [2.41710] \sin l - [3.78856] \cos l \cos (280^\circ 17' 48'' - \lambda).$$

* In the above formulae the co-efficients of the various terms are the numbers whose logarithms are the numbers within the brackets []; also, *l* denotes the geocentric latitude, and *λ* the longitude west of Greenwich.

The line along which the eclipse begins at sun-set passes through Long. 63° 3' W., Lat. 51° 28' N.; Long. 60° 50' W. Lat. 47° 42' N.; and Long. 76° 1' W., Lat. 44° 16' N.

THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Cæsar, having, by the help of Sosigenes, an Alexandrian philosopher, come to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Cæsar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and

now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 37 minutes and 10 seconds in a century, he ordered that every centennial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should not be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained away in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to eleven days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centennial years should, as in Pope Gregory's arrangement, not be bissextile or leap-years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by twelve days, our first of January being equivalent to the 13th old style. In Russia alone, of all Christian countries, is the old style still retained; and where it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus: ^{12th} 24th March, or ^{25th} 7th October; or, it may be, ^{25th} 24th December, 1870; or, ^{9th} 24th January, 1871.

CANADIAN PACIFIC RAILWAY.

The projected route of the Canadian Pacific Railway may be described as follows. Starting at a point near the south-eastern angle of Lake Nipissing, it extends towards the upper end of Lake Superior; from thence it is continued westerly, until it joins the line now under construction, which starts at the River Kaminitiquia. This portion of the line, however, has not yet been definitely located; only general examinations having been made. The route of the remaining portion of the railway, from Fort William to the Pacific Ocean, has, with the exception of a few sections, been established. The distance from the eastern starting point at Lake Nipissing to Fort William is estimated at 565 miles; and from thence to Burrard Inlet, at the Pacific Ocean, at 1,966 miles; the total being 2,531 miles. The first expenditure on construction was towards the end of 1874. Contracts were then entered into for the telegraph from Lake Superior to British Columbia along the route of the railway, including the clearance of the forest land to a width of 132 feet. The line was divided into four sections; on three of which the work was prosecuted with vigor, and the telegraph completed from Fort William to Edmonton, 1,200 miles, so that messages could be transmitted. The remaining section across the mountains to British Columbia remains incomplete. In the same year (1874), the grading of the Pembina Branch, for 63 miles north of the International Boundary, was commenced. In 1877 the grading was extended to Selkirk under the same contract; and in 1878 the track was laid on the whole length, 85 miles.

The length of line now under contract consists of the following sections:—Fort William to Selkirk (main line), 410 miles; Selkirk to Emerson (Pembina branch), 85 miles; west of Red River (main line and Winnipeg branch), 160 miles; in British Columbia (main line), 127 miles. Total under construction, 722 miles.

The charge for Registration (use Registration Stamp), in addition to the Postage, is as follows, viz.:

- On Letters to any other place in Canada or British North America 2 cents.
On Letters for the United States 5 "

Registration Stamps cannot be used in payment of postage, nor can Postage Stamps be used in payment of Registration fees, except on parcels and samples for delivery in Canada.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

BOOK POST.

A Book Packet may contain any number of separate books, publications, works of literature or art, maps or prints, photographs, daguerreotypes, when not on glass or in frames containing glass; any quantity of paper, vellum or parchment [to the exclusion of letters]; and the books, maps, papers, &c., may be either written, printed or plain, or any mixture of the three; and may be either British, Colonial or Foreign. No package must exceed 4 lbs., 6 oz., in weight, nor must the size exceed two feet in length, or one foot in width or depth.

Book Packets must be open at both ends or both sides, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada, and to Newfoundland and the United States, is 1 cent per 4 oz., which must be prepaid by Stamps.

No Parcel must exceed 5 lbs. in weight, and must be prepaid by Stamps.

On transient newspapers addressed to the United Kingdom the rate will be two cents per 4 oz.—to be prepaid by Postage Stamp. Each newspaper is liable to a separate rate of postage, whether sent singly or in a packet, and if above 4 oz. in weight, it is liable to two rates of postage. COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c., must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statutory, &c., a written description of the same must be furnished. The fee for registering a Copyright is one dollar, and

it runs for twenty-eight years. It may also be renewed for a further term of 14 years upon the same conditions. An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a designation of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars. The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine of not less than ten cents, nor more than one dollar, for every copy found in possession.

POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks in Ontario and Quebec are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from \$1 up to \$300, or more with the permission of the Postmaster-General.

Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

Deposits for children under 10 yrs of age may be made— Firstly—By a parent or friend as trustee for the child, in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums

paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster-General's office, in Ottawa, and in addition to the Postmaster's receipt in the Pass Book, a direct acknowledgment from the Postmaster-General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster-General, by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the Pass Book is not sufficient without the further receipt for the money from Ottawa.

Every depositor must send his book once a year, viz., on the anniversary of his first deposit, for comparison with the books of the Department, and for insertion of interest. The book will be returned to him by first mail. At no other time should a depositor suffer his book to be out of his own possession.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster-General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

COLLEGIATE INSTITUTES AND HIGH SCHOOLS.—Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Council, except where there is only one school in the county. The head master must be a graduate of a British or Colonial University, unless certified and appointed before 18th September, 1865. Besides fees, local rates to the extent of half the government grant must be raised for the master's salary. The grant is payable to those schools only which attain a certain standard, and is based on the average attendance of pupils in the prescribed studies. High Schools which have an average attendance of 60 male classical pupils, may be made Collegiate Institutes, and receive \$750 additional grant. An extra grant is provided for masters taking certain meteorological observations and giving scientific knowledge preparatory to military instruction. Pupils attending these schools are prepared for Matriculation in the Universities. There were 94 High Schools and 10 Collegiate Institutes, with 12,136 pupils, in Ontario in 1879. James A. McLennan, M.A., J. M. Buchan, M.A., and S. Arthur Marling, M.A., Inspectors of High Schools.

PUBLIC SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,123 Public Schools, with 487,012 pupils, in Ontario in 1879.

Up to the end of December, 1879, about 1,600 Libraries had been thus established, with 298,743 volumes.

SUPREME COURT OF THE DOMINION AND COURT OF EXCHEQUEUR.

The Supreme Court, as a high Court of Appeal, constituted by Dominion Statute, 38 Vic. cap. 2, assented to 8th April, 1875, is composed of a Chief Justice and five Puisne Judges, and has appellate, civil and criminal jurisdiction within and throughout the Dominion of Canada. The Judges reside at Ottawa, where the Supreme Court holds annually three Sessions—the first beginning on the third Tuesday in February, the second on the first Tuesday in May, and the third on the fourth Tuesday in October. The Exchequer Court, presided over by the same Judges, possesses concurrent original jurisdiction in the Dominion in all cases in which it is sought to enforce any law relating to the revenue, and exclusive original jurisdiction in all cases in which demand is made or relief sought in respect of a suit or action of the Court of Exchequer on its revenue side against the Crown, or any officer of the Crown.

Hon. William Johnston Ritchie, Chief Justice.
Hon. Samuel Henry Strong, Puisne Judge.
Hon. Telesphore Fournier, Puisne Judge.
Hon. William Alexander Henry, Puisne Judge.
Hon. Henri Elzéar Taschereau, Puisne Judge.
Hon. John Wellington Gwynne, Puisne Judge.
R. Cassels, jun., Registrar.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the Act 37 Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurer and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner

as the various Law Societies of England. By Revised Statutes of Ontario, c. 138, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex officio* members, elective by the Bar, the *ex officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. The Judges of the Superior Courts are Visitors of the Society, and, on the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

appointed by commission under the Great Seal. Their
duties are to determine claims to lands in Upper Canada,
for which no patent has issued from the Crown in favour
of the proper claimants, whether as heirs, devisees or as-
signees. Sittings at Toronto, first Monday in January
and July in each year. Clerk of Commissioners—W. B.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—
The nature of these courts is sufficiently indicated in
their title. In respect to elections for the House of Com-
mons of Canada, the Superior Courts, by one of their
Judges appointed in that behalf, are invested with special
jurisdiction for the trial of contested elections, and appeals
lie to the Supreme Court at Ottawa. In respect to elections
for the Local Legislature of Ontario, the Judges of the
Court of Appeal and of the Superior Courts of Law and
Equity meet annually in Michaelmas Term and severally
select, by a majority of votes, a Judge of their respective
Courts to be placed on the rota for the trial of election
petitions. In the case of death or illness of a Judge so
chosen, the Court of which he is a member meet and elect
another Judge. Trials involving corrupt practices are
presided over by two Judges, otherwise a single Judge
presides, and an appeal lies to the Court of Appeal of the
Province.

COUNTY COURTS.—Presided over by a resident Judge in
each county, assisted in some counties by a Deputy or
Junior Judge. Their jurisdiction extends to all personal
actions where the debt or damages claimed do not exceed
\$200; and to all suits relating to debt, covenant or con-
tract, where the amount is ascertained by the acts of the
parties or signature of the defendant, to \$400; and to all
bail bonds and recognizances of bail given in the County
Court; to any amount; but not to cases involving the
title to lands, validity of wills, or actions for libel, slander,
crim. con., or seduction. An appeal lies to the Court of
Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SES-
SIONS.—The County Judge in each county holds a sitting
of his Court and a Court of General Sessions in his county
semi-annually on the second Tuesday in June and De-
cember, except in the county of York, in which county
said court is held four times, commencing on the first
Tuesday in December and March, and the second Tuesday
in May and September, the latter Courts for the trial of
cases of felony and misdemeanor, but treason and capital
felonies are exempted from their jurisdiction. The Judge
may also, in his discretion, hold additional sittings at such
times as may be deemed expedient to expedite business,
but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed
to jail for trial, on charge of being guilty of any offence
for which they may be tried at a Court of General Sessions,
may, with their own consent, and subject to the provisions
of the Act in that behalf, be forthwith tried by the Judge
of the County Court and General Sessions without a jury,
and if convicted, be sentenced by the said Judge; and the
Judge sitting on any such trial for all the purposes thereof,
is constituted a Court of Record, and the record in any
such case shall be filed among the records of the Court of
General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually
Courts of final revision of the Assessment Rolls of each
Municipality, being in the light of Courts of Appeal from
the first Court of Revision held by the Municipality; and
also Courts for the Revision of the Voters' Lists, being
equivalent to the Courts held by Revising Barristers in
England.

INSOLVENT DEBTORS' COURTS.—These Courts, which had
reference to traders only, were regulated by the Act known
as "the Insolvent Act of 1875," which consolidated and
assimilated the practice in Bankruptcy and Insolvency in
the several Provinces of the Dominion. The County Judges
in the several Counties presided, and official assignees were
nominated by the Governor in Council, and were officers of
the Court having jurisdiction in the County or District
for which they were appointed. And appeals lay to the
Court of Appeal of Ontario. This Statute has now been
repealed, and the Courts and Assignees are only continu-
ing to wind up pending cases.

SURROGATE COURTS.—The jurisdiction of these Courts re-
lates to all testamentary matters and causes, and to the
granting or revoking of probate of wills, and letters of
administration of the effects of deceased persons having
estate or effects in Upper Canada, and all matters arising
out of or connected with the grant or revocation of probate
or administration, subject to an appeal to the Court of
Chancery. The County Judges are also Judges of the Sur-
rogate Courts. Chief Surrogate Clerk at Toronto—Sir J.
L. Robinson, Bart.

DIVISION COURTS, for the summary disposal of cases by
the presiding Judge, being the County Judge or his
Deputy, or any Barrister appointed to hold the same; but
a jury of five persons may be demanded in certain cases.
Their jurisdiction extends to actions of debt or contract
amounting to \$100, and to \$200 when the amount is ascer-
tained by the signature of the defendant, subject to an
appeal to the Court of Appeal; injuries or torts to personal
chattels amounting to \$50; and personal actions to that
amount, if not excepted from their jurisdiction; but not to
actions for gambling debts, liquors drunk in a tavern, or
notes of hand given therefor, ejectment, title to land, &c.,
or any toll, custom or franchise, will or settlement, malici-
ous prosecution, libel, slander, crim. con., seduction or
breach of promise, or actions against a J. P. for anything
done by him in the execution of his office, if he objects to
it. Each Judicial District is divided into Court Divisions,
and Courts are held once in two months in each Division,
or oftener, at the discretion of the Judge. The Divisions
are established by the Courts of General Sessions, and in
certain cases by the Judges.

BOARD OF COUNTY JUDGES—Chairman—J. R. Gowan,

GIVE YOUR SONS A CHANCE.

PREPARE THEM FOR BUSINESS.

Train them for the highest walks in Commercial life. No course of Training is so well calculated to develop the minds of young men and women in a practical direction.

In the British American Business College the student begins by recording in his books a few simple transactions, and by gradual process soon masters the intricacies of Double Entry Bookkeeping. After this he enters the practical department of the College. There he originates the transactions which are entered in his books, by buying, selling, accepting drafts, &c., &c., until he in turn becomes a jobber, importer, commission merchant, banker, &c. If you wish to know how business should be done, go to the

British American Business College,

112 and 114 King Street West, Toronto,

- Because** its Course of Instruction is a specialty in each department and is admirably adapted to the wants of the business community.
 - Because** its Teachers know how and what they teach. They have the entire confidence of all business men.
 - Because** its Penmanship has been awarded the first prize at the Provincial Fair for many consecutive years, when it was entered for competition.
 - Because** its Graduates are to be found to be rapid and reliable Accountants, many of whom are occupying the highest positions of trust.
 - Because** its revenues are adequate to maintain a first class school. Its rates of tuition are as low as possible.
 - Because** in it young men will learn more about business in six months than they could possibly do in a large counting-house in two years.
 - Because** in a merchant's office a young man may spend an entire year behind the desk as an entry clerk or on other routine employment.
- Visit the School** (or send for circular), which is practically the largest counting-room in the city, and verify these statements.

THE MOST
PERFECT SUBSTITUTE
FOR MOTHER'S MILK.

The Highest amount of Nourishment in the Most Digestible and Convenient Form.

THE ONLY FOOD SPECIALLY PREPARED FOR INFANTS.

"The Adult CANNOT thrive on the Milk provided for the Infant, while the food adapted for Adults MUST be too strong for Babies."

Abounding in FLESH-FORMING and BONE-FORMING substances, this FOOD perfectly fulfils its object, whereas other so-called FOODS, such as Corn Flours, being entirely devoid of nourishing properties, induce a rickety and idiotic condition. It is also carefully freed from the ground husks of the wheat, which cause irritation of the bowels, diarrhoea, &c.

CAUTION.—A Genuine Food should not contain an excess of sugar, nor be too palpably sweet. Such Foods may be palatable, but they are also pernicious. For this reason, so-called Milk Foods, Condensed Milks, &c., are prejudicial to the health of Infants, from the large proportion of beet sugar they contain, rendering them utterly unlike the article they are supposed to represent, viz., MOTHER'S MILK.

ASTHMA, DIFFICULT BREATHING, &c. DATURA TATULA INHALATIONS

AFFORD THE MOST PROMPT AND EFFECTUAL RELIEF.

Spasmodic Asthma, as well as the milder forms of the disease, and other complaints attended with short and difficult breathing, loss of rest, &c., quickly yield to the soothing influence of the fumes of Datura Tatula, and painful paroxysms are either averted or quickly subdued by its use in either of the following forms:—

Cigars and Cigarettes—Boxes, 3s., 8s., 15s. Pastilles and Powder (for Non-Smoker's use)—Boxes, 2s. 6d., 5s., 10s. For use as Tobacco—Tins, 2s. 6d., 5s., 10s., 15s.

A SPECIAL FORM OF NUTRIMENT IN

CONSUMPTION, and where there is a tendency to other WASTING AND DEBILITATING DISEASES, attended with loss of power to digest and assimilate Food. PANCREATIC EMULSION OR MEDICINAL FOOD

Restores Digestive Power, Appetite, Strength and Weight.

By supplying the system with the *solid* form of nourishment required, PANCREATIC EMULSION, is infinitely more efficacious than *fluid* fats, such as Cod Liver Oil and Oily Emulsions of any kind—while it has also the advantage of being pleasant to the taste, and not disagreeing with the delicate stomachs of Invalids or Children.

Prescribed by the leading Physicians in the United Kingdom, America, India, and the Colonies.

CHOLERA, DIARRHŒA, DYSENTERY, &c. JEREMIE'S SEDATIVE AND ANTI-SPASMODIC

is held in the highest repute, especially in India, where it was introduced by an experienced officer of the opium department about 50 years ago. It is acknowledged to be a most valuable remedy for—

DIMINISHING NERVOUS EXCITEMENT, ALLAYING PAIN, PROCURING TRANQUILLITY AND REPOSE,

Without the unpleasant symptoms and objections which attend the employment of other Sedatives.

DR. JACKSON, APOTHECARY GENERAL, CALCUTTA.

"I have constantly used it, and always with the most favourable results."

CIVIL SURGEON WYNNE, PATNA.

"It affords me great pleasure and satisfaction to bear testimony to the efficacy of JEREMIE'S Sedative in Cholera, in no instance have I met with a failure of recovery."

From SIR CHARLES D'OYLEY, BART.

"JEREMIE'S Sedative was frequently administered to me by Dr. KING, and always completely soothed the pain, leaving no bad effects; it has, indeed, saved my life more than once."

WE have great pleasure in informing our friends that we have REMOVED from 47 FRONT STREET EAST, where we have been located for the past eight years, to that central and very superior building

9 FRONT ST. WEST, (Next to the Custom House),

Where we shall be glad to see them when they visit Toronto. Our New Premises are contiguous to the Great Western Station, and very convenient to the Union Station for the Grand Trunk, Credit Valley, and Toronto, Grey and Bruce Trains.

In every respect our present Warehouse will be found a vast improvement; it is much more roomy, having FOUR FLATS of 170 feet deep, by which we shall be able to make a far better display of goods, while we shall have splendid light through the building.

BALDNESS!

Neither Gasoline, Vasoline, Carboline, or Allen's, Ayer's, or Hall's Hair Restorers have produced luxuriant hair on bald heads. That great discovery is due to Mr. WINTERCORBYN, 144 King St. West, Toronto, as can be testified by *hundreds of living witnesses* in this City and the Province. He challenges all the so-called restorers to produce a like result. The RESTORATIVE is put up in bottles at \$1 per bottle, or six for \$5. For further information, address

CHARLES MAITLAND WINTERCORBYN,
144 KING STREET WEST, TORONTO.
