MONDAY MORNING JUNE 9 1919

VOL. XXXIX.—No. 14,089 TWO CENTS

YESTERDAY'S GREETING TO RETURNED SOLDIERS.

A huge crowd turned out to meet the returning 75th and 102nd Battalions at North Toronto Station last evening. The men of the battalions who had already returned home and been demobilized are here seen leading the regiment down Yonge street.

EMPLOYERS DECLINE THE PLAN SUGGESTED BY RY. BROTHERHOOD

CHARGE BETRAYAL OF EDITH CAVELL

Sixty Witnesses to Testify at Trial of Alleged German Spy.

Paris, June 8.—Gaston Quen, also known as Luc, who it is believed played a prominent part in the betrayal of Miss Edith Cavell, executed in October, 1915, will be placed on trial next month.

A long preliminary inquiry established that Quen was serving a sentence in the jail at St. Quentin in 1914 and was liberated when the Germans first took the town. It is said he entered the German service as a spy and got employment in Miss Cavell's hospital at Brussels. Soon after he began to work there, it is alleged, Miss Cavell was arrested and executed.

Sixty witnesses have been called. They include Princess Maria of Croix, also denounced by Quen, and Madame Bovard, tried at the same time as Miss Cavell.

Winnipeg Strike Situation Shows Little Change Altho Many Workers Are Stated to Be Going Back to Work Today.

Winnipeg, June 8.—While strike leaders today were appealing to wavering union men to stand firm "because a settlement is in sight," the Winnipeg citizens' committee of one thousand announced that the sympathetic strike phase of the industrial deadlock "will be fought out to a knockout."

The industrial employers declined to approve, as a basis of settlement, the section bargaining plan submitted by the mediating railway "brotherhoods" executives. It was announced. The metal trades accepted the plan last week.

Declarations were made at the board of trade that hundreds of men and women would return to work tomorrow. The returned soldiers have eliminated the weapon of intimidation. Union leaders, however, asserted the "striking forces are standing firm."

An unconfirmed report tonight was that railway carmen, machinists and sleeping car employes had decided to return to work immediately. Winnipeg commercial telegraphers tonight postponed until Tuesday their vote on all union operators returning to work. Twenty-five operators who opposed postponement said they would return to their places tomorrow.

The controversy between the city and members of the Police Union is set for final consideration tomorrow morning. The police commission demanded the patrolmen sign a pledge not to participate in general sympathetic strikes in the future. The officers refused, but have been attempting to arbitrate the question.

Strike Still On.

Winnipeg, Man., June 7.—Despite pressure from union men representing the Winnipeg general strike, the central strike committee this afternoon declined to call off the sympathetic walkout. It was also intimated that such action by the committee would have led to adjustment of the general labor controversy.

W. E. Baker, chairman of the conciliation committee of the railroad brotherhoods, announced today that indications were that there could be no settlement before the next week. The railroad executives obtained settlement proposals from both the metal trades council and the industrial employers but the union leaders, with the federal, provincial and municipal governments solidly behind them, insisted the peace cannot come until the sympathetic strike is terminated. The leading speaker of the one union promoters, had been repudiated.

"There is no chance of going back we are extending the strike. Let us talk of starting work next week. No talk will go back but will try hard to pull out of the strike. A thousand workers who today are unorganized," said the western Labor News, the official organ of the strikers, today.

Strikes Still On.

Statements were made at the city hall and at the board of trade, where the citizens' committee of 1000 has headquarters, that the action of the labor leaders, indicated a determination to stake their fortunes on the fate of their sympathetic strike action.

Winnipeg was orderly today. There was no parade, altho union men again protested Mayor Chas. F. Gray's proclamation prohibiting such demonstrations. The only gathering of importance was a strikers' mass meeting at which the mayor was the leading speaker.

Two days ago a strike demonstration attempted to march on the city hall, however, he went to the meeting at Victoria Park alone.

The mayor denounced the sympathetic strike of city employes and the efforts of the union leader, who control the Winnipeg food supply. He insisted that he was a friend of labor — "As war is a friend of honest union labor as he was a bitter enemy of anarchy and Bolshevism."

"I have been pressed time and again to issue a proclamation calling upon the military to act, but I refused," said the mayor. "I told these people that such action was not necessary."

The statement was applauded.

"The Labor News says I am a crazy man. When this thing is over—and you know the facts, you will thank God you had an idiot in the executive's chair."

Asked what would be done if labor men decided to parade in opposition to the proclamation the mayor replied, "We will stop the parade."

R. E. Bray, leader of the minority returned soldier faction, which has been supporting the strikers, announced that a union committee considering the parade problem, "decide there would not be any more parades and that if a parade was attempted the marchers will have to pass over the dead bodies of our committee."

City Stands Firm.

Mayor Charles F. Gray faced a heckling crowd of strikers and sympathizers Saturday at Victoria Park, and told the mass meeting that the city would not recede on its determination to employ every legitimate means to maintain order, to feed all citizens and to combat the strike of municipal employes. Mayor Gray told the strikers that he would be "a spineless man" if he acted otherwise. He held out no offer of compromise to those who ask to be given their old places.

The mayor intimated that former employees must enter the city service as newly hired workers.

The Railroad Brotherhood mediators, this afternoon received a reply from

TREATY SPELLS DEATH IS AUSTRIA'S LAMENT

Declaration of President Seitz in National Assembly—Foreign Minister Asserts Treaty Is Peace of Hate—Crowds Say "Don't Sign."

Vienna, June 7.—The peace terms presented to Austria are impossible and mean the death of the country by starvation, President Seitz declared in his address opening the extraordinary session of the National Assembly today. The galleries were filled and the members of the assembly, who are generally referred to as a Bolshevik, was listened to quietly while he read six pages of manuscript.

Foreign Minister Bauer made a report on his conference at Feldkirch with Dr. Renner, the head of the Austrian delegation. Bauer, who is not popular either in Vienna or in the country, who is generally referred to as a Bolshevik, was listened to quietly while he read six pages of manuscript.

After declaring that the treaty was a peace of hate, the foreign minister released his personal viols of wrath against the Czechs, who, he said, had taken all of Austria's sugar and other industries. The loss of German Bohemia to Austria, he added, meant not merely the subjection of 3,500,000 Germans to foreign rule, but the loss of the most valuable parts of German Austria, industrially and culturally.

Dr. Bauer declared that the people of the Tyrol who love freedom above life would never submit to the peace terms which they had the sympathy of all Germans. He added that several months ago the Austrian government had submitted to the Italian govern-

TORONTO GREETED HER GALLANT MEN

75th and 102nd Battalions Parade Thru Cheering Throgs.

Warm was the welcome that was given to the returning warriors of the 75th and 102nd battalions when they arrived at North Toronto station on four trains between 5.30 and 6 o'clock last night. Toronto opened its arms to the homecoming veterans and paid an earnest and soul-stirring tribute to the men who fought and won. It was a memorable parade. Military ranks and order were swept aside. Men, women and children broke into the streets to greet the gallant men. The streets were gay with decorations and large streamers, expressing appreciation and welcome.

Every point of vantage was utilized by the admiring onlookers. From the depot, there was plenty of glad welcomes rang forth as the khaki clad ranks, interspersed with civilians, passed triumphantly along.

SENATE MAY AMEND STRIKE OUTLOOK PROHIBITION BILL BETTER IN PARIS

Probably Take Action Equivalent to Throwing Out "White's" Measure.

Ottawa, June 8.—While the senate has adjourned until June 17, a number of senators are remaining in the city over the recess, and some of them talk quite freely about the impending fate of the prohibition bill. It is said that an amendment will probably be carried to restrict the operation of the order-in-council prohibiting importation and inter-provincial traffic to the period of the war. This would be equivalent to throwing out the bill, as the order-in-council would be effective until the proclamation of peace without the sanction of parliament.

Under the Doherty act any province can prohibit the importation of intoxicating liquors, but quite a time will probably elapse between the proclamation of peace and the passing of such legislation, and during that period liquor could be imported into Canada and could be shipped from one province to another. It could also be manufactured. The prohibitory legislation passed by the various provinces does not prevent importation for personal use by a householder, and such importation is only at present illegal because made so by the Dominion government's order-in-council under the war measures act.

CLOTHING COMING DOWN SAYS COST OF LIVING MAN

Parliament to Consider Commissioner's Report That Middleman is Taking Off Undue Profits and Holding Up the Price of Men's Wear.

Ottawa, June 8.—The cost of living commissioner is laying a report before the minister of labor which shows that the prices of textiles and staple articles of clothing should decline in the near future. The ordinary story of the salesman of such goods is that prices are going higher than ever, but in view of such statements, preliminary investigations have been made into the matter. Information collected from the leading manufacturers shows conclusively that insofar as the price of goods at the mill affects the situation, these statements are utterly misleading. The situation regarding woolsens and worsteds is that Canada is more heavily supplied with the raw material than ever in her history and the price for the same is very much lower than last fall. The finished cloth is now coming on the market more freely than when the looms were engaged in weaving khaki cloth, and the cloth sold this spring reached the wearer this fall was sold at lower prices than the material sold at last season.

In many instances, Canadian cloth for suitings and overcoats is going forward for sale at an 8 to 10 per cent decrease. Apparently, the middlemen are loaded with old stocks of the higher priced materials which they desire to sell to the public at the old prices.

It is particularly unfortunate that returned soldiers should be stampeded into buying by such false rumors when by waiting a little time for part of their output they should be able to buy at better advantage. These tales are causing an artificial and unhealthy demand upon the market, which in turn causes inflated prices. In the case of cottons, the manufacturers' prices have also declined since last fall, and the stocks coming ahead for retail sale have cost the middleman decidedly less than earlier stocks. The retail prices of such commodities should be reduced. Evidence at hand so far indicates that a moderation of profits should allow an immediate drop in prices. In addition to large and increasing manufacturers' profits, the middleman has added a very heavy percentage of profit to the manufacturers' prices. Evidence given in the report shows that in many cases the retail price is more than double the manufacturers' price. The margin taken by the middleman is greater than the whole amount that went to farmer, manufacturer and laborer. There are even cases of this shown where the goods were purchased direct from the manufacturer by the retailer. This preliminary report will be tabled before the house committee on the high cost of living. Further reports on these commodities will be made later to the minister of labor.

MAJOR REG. GEARY HERO FALLS DEAD ON LAST PARADE

Marching in Triumph With Seventy-Fifth, George Coull Collapses.

A sad incident, noticed by few, occurred as "A" Company of the 75th Battalion passed the parliament buildings, when Pte. George Coull, aged 40 years, of 52 Albert street, St. Catharines, fell dead. He was carried from the line by soldiers who believed their comrade to be suffering from heat prostration. They carried the lifeless body to the General Hospital, where it was stated in the emergency ward that Coull was dead. His military number was 550628. It is believed relatives were in Toronto to welcome their soldier-hero home, but at midnight the hospital authorities said no relatives had caller to inquire regarding the dead soldier.

LARGE FUR BUSINESS

Although it is June and we are right into summer weather, the fur business is thriving—it just shows that there are a lot of wise people in the city and beyond it who realize that this particular time of the year is the proper one in which to purchase fur because the winter's crapping is in and all the new fashions for next winter have been decided upon and, better still, prices are very much lower than they will be during fall and winter. The Dinsen Company models are now ready and you are invited to examine the handsome styles for next season in Dinsen's showrooms, 140 Yonge street.

DEFINES POLICY TOWARDS POLICE

British Government Sympathetic, But Won't Stand for Union.

London, June 8.—In the house of commons yesterday Right Hon. E. Short, home secretary, who asserted that the police union had broken the agreement entered into last August and was associated with the extreme party, stated that the government had definitely decided that the present state of things could not continue. Members of the force would be called upon to constitute a body which every policeman would be entitled to take his grievances to the highest authority. The government would be called upon to insist on remaining would cease to be policeman.

NICARAGUA ASKS U. S. TO SEND ASSISTANCE

Washington, June 8.—Nicaragua has asked the United States to land forces to cooperate with a threatened invasion from Costa-Rica. The department is investigating the situation.

GREAT THINGS THAT WE WILL NEVER SEE AGAIN!

So many things, away out of the expectations of any of our years ago, have happened to the Canadian people since the war began. We never thought we would suddenly be projected into the greatest war of history; that we would send nearly half a million of our sons to take part in a war in Europe, to fight for human liberties and free government; and that more than twenty-five thousand Canadian soldiers would give up their lives in that war.

Now did any of us think that we were to live thru that war and witness its unprecedented events; nor to see such scenes as we have seen in the past few weeks: every week, of hundreds of houses, big and little, each in its turn decorated with flags and welcomes, each for some member of the household who was coming back! Two or three weeks, and they will all be back, and the little and the big houses, with the war welcome decorations, will disappear forever, as far as this generation is concerned. The war will be a memory: it is still with us as a great action. But sane houses will never be decorated!

What we are seeing and living thru has come to the people of the mother country in a still more strenuous way; and they, like us, are still living thru it as a great action: in a few days more to be for them, as for us, a memory.

But a memory of great events, of great actions, of elevation, of character-building. Also a memory and sore hearts, of great sacrifices, of devotion and of the memories for those who will never see their home land again. Lochaber no more!

The great actions, the great sacrifices, will pass into memory, and then into history. And the memories, the recollections, will gradually pass away; but the record will live forever. The ages. And those who died and rest on the fields will be an inspiration hereafter. Freedom and human liberty and veneration for great achievement and great sacrifice will be worked into the fibre of our lives, and those of our successors. We are not the same people; we are a nation that has seen a vision!

But the little houses with the glad decorations are the greatest thing in the life of Toronto.

"BOYS"

Where does father buy his clothes?

We ask that question because the other day we sold a gentleman a Suit who had been coming here for years with his boys and getting them fitted with such dependable Clothes that it just occurred to him that we might do as well for himself. It didn't take long to fit him, and less time to convince him that the same good Boys' service was duplicated in our Men's. So we say to you, if "Dad" does not buy his Clothes from us, tell him he's missing a good thing.

OAK HALL, Clothiers

Cor. Yonge & Adelaide Streets

Store Open Till 10 Saturday Night

J. G. Coombes
MANAGER.

The industrial employers outlining the terms upon which they would agree to a settlement of the strike of the metal trades employes. The terms were not immediately made public, but it was understood that the first demand made is that the sympathetic strike be called off.

With the addition of 1300 veterans to the police force, parades have ceased by order of Mayor Chas. F. Gray.

Among the developments during the night in western Canadian cities was a decision of delegates from all labor unions in Prince Rupert, B.C., against calling a general strike.

Telegraph operators on strike here will hold a meeting late this afternoon to consider the question of returning to work in a body on Monday. It is understood that other unions will meet to decide whether they shall continue on strike.

A report was current that the strike leaders were ready to order all union men back to work, if they could be assured that the strikers would get their jobs back.

A communication signed by James Winnip, president of the Winnipeg Trades Council, declared that the council endorses the movement for the "deportation of all undesirable aliens" was delivered to the Winnipeg newspapers.

When the One Big Union convention was held at Calgary some weeks ago one of the leading resolutions passed demanded that the government should release all political prisoners. Some of the Winnipeg labor leaders championed this resolution.

PROTECT KING'S MAIL WITH ARMED FORCES

Hon. C. C. Ballantyne, in Quebec Speech, Says Ready to Use Winnipeg's Military.

Montreal, June 8.—Severe steps to put a stop to those who advocate the destruction of constituted authority and law and order are to be taken by the federal government, declared Hon. C. C. Ballantyne, minister of marine and fisheries and naval affairs, in addressing the Verdun Council of Imperial Order of the Sons of the Empire at the Verdun city hall on Saturday night. The minister, referring to the western trouble, explained the stand that the government had taken, and was taking, and emphasized the fact that the government does not intend to reinstate those postal authorities who went out on a sympathetic strike, and refused to go back to work in the time specified by the government.

Winnipeg's Military Strength.

To those who criticized the government for delay in interfering in Winnipeg, the minister pointed out that it is not the business of the federal authorities to interfere until federal authority was attacked or threatened, and that authority had been interfered with by the use of armed forces. It is necessary that the King's mails were interfered with and that law and order was maintained. There were sufficient armed forces in Winnipeg to protect constituted authority and they would be used if necessary for that purpose.

C.M.A. GENERAL MEETING.

It is announced that the annual general meeting of the Canadian Manufacturers' Association will be held in the King Edward Hotel, Toronto, Tuesday, Wednesday and Thursday of this week. The sessions will open at 9 o'clock tomorrow morning.

SCALDED BY COFFEE

MUCH MANOEUVRING BY OTTAWA MEMBERS

(Continued From Page 1.)

sub-amendment would, of course, be overwhelmingly voted down, and would not receive the support of a great many Liberals. Then, if the proposed plan were carried out, the western members might argue that they were quite justified in voting against the McMaster amendment, because the Liberals were as heterogeneous on the tariff questions as the Conservatives.

The only defect in this plan, of which the westerners up to this time are happily unconscious, is the fact that it will not work. Under the rules only one amendment can be moved to the motion to go into committee of ways and means and no amendment to the amendment is permissible. At some later stage the westerners might move their amendment, but for the moment they will find themselves face to face with the disagreeable duty of first voting 'yes' or 'nay' on the McMaster amendment.

They are to have a caucus tomorrow morning and, some other plan may be evolved, but the Liberals have the strategic position, inasmuch as the session of the house will be in possession of the amendment and he can force a vote upon it as presented.

It is figured that from 17 to 19 western Unionists may bolt when the vote is taken on the McMaster amendment. The latest sizeup which The World believes to be well grounded follows:

From Saskatchewan, Mahars, Knox, Reid, Johnston, Argue, Levi Thomson, McNitt and Wright are practically sure to vote against the government, with Long and Lings in the doubtful column.

From Manitoba, Hon. T. A. Crerar and Messrs. Davis, Campbell, Cruise and Andrews are counted upon to bolt with R. C. Henders likely to follow the lead of Mr. Crerar. From Alberta, Dr. Michael Clark, James Douglas and W. A. Buchanan are almost certain to vote for the McMaster amendment, with Shaw and Halliday, also of Alberta, in doubt.

In Eastern Canada the government will probably lose the support of Hon. W. S. Fielding, Fred Pardee, and one or two others. On the other hand the government may pick up a few votes from the protectionist members of the opposition, including F. N. McCrae of Sherbrooke, and L. A. LaPointe of St. James, Montreal.

ESCAPED FROM JAIL, NO BOLSHEVISTS STOLE MOTOR CAR IN B'NAI B'RITH

Recaptured by Owner, Heavily Sentenced, Goes to Kingston. Three Hundred Jewish "Children of Covenant" Hold Banquet.

Three youths who escaped from Burwash and stole a motor car with the intention of motoring home to Toronto, and who were recaptured near Parry Sound and sentenced in court to terms in Kingston Penitentiary, arrived in this city last night on their way to the jail. The prisoners were Harold Robinson, Robert Adams and William Frost. They were in charge of Sheriff Austin and County Coroner Kidd of Parry Sound. On their arrival here, they were placed in cells at Court street. This morning they will be taken on the early train for Kingston.

Robinson, a seventeen-year-old boy, whose parents live in the east end of the city, slipped the handcuffs and escaped from a carriage on Dundas street, while being removed to the jail, prior to being sent on to Burwash. This escape was made by Robinson on the same day that Frank McCullough broke away from the jail. Robinson was recaptured and his Burwash time was extended to two years less one day. Adams and Frost were also serving similar sentences.

Boarded Freight Train.

Robinson, Adams and Frost, escaped last week from the Burwash farm and, boarding a freight train, rode a distance of nearly 100 miles, when they dropped off the freight and stole a farmer's motor car. They were taken to the outskirts of Parry Sound, when the car broke down and they were standing close by it when the owner and three others drove up in a car and captured them.

Frost was found to be carrying a loaded revolver, and for this the judge in the Parry Sound court added six months to the two years less one day sentence, which, according to the orders of the court, calls for the serving of the term in Kingston. Robinson and Adams had three months added to their sentences, and, heavily shackled, all three of the young criminals will proceed today to Kingston.

Could Not Tyrannize.

He pointed out that the percentage of Jews in Russia is 4 per cent, in Canada 1 per cent, in the United States 3 per cent, 1/2 per cent, in the British empire, and 3 per cent, in Rumania. In the United States alone more Jews in proportion to other nationalities had offered their services, and laid down their lives for the allied cause. Bolshevism in any country, declared Mr. Singer, depended wholly upon physical power, then how could 4 per cent in a country like Russia control and tyrannize over the other 96 per cent. Russia, too, where, if anything, the Jew is restricted more than in any other country.

Mr. Singer in elaborating his cause gave a long list of facts and figures to show that the terming of the Jews, "Bolsheviks" was only done so by those who did not think. For the greater authorities, said the speaker, had declared that Jews were a menace to Bolshevism.

Fought for Allies.

Hon. Joseph Dewart, senator for the state of Connecticut and representative of District Grand Lodge No. 1, outlined the work of the order, which he declared was closely united with the work of Israel.

The speaker told of the 200,000 Jewish boys who had gone from the United States to fight for the cause of the allies. These boys, he declared, were not "Bolsheviks." Hon. Mr. Shapiro in the Jewish faith, he declared, was the divine ancestor of the Jews. He sounded a warning also to those Jews who wanted to give up the name of Jew and substitute something else in its place. Judaism, he said, had endured on and on for thousands of years, and it needed now just as much as ever, for there was need of all the different religions on earth. Each should seek an insight into the other's perspective.

Street Railwaymen Go Out on Strike.

Detroit Cars Tied Up—City Refuses to Grant Higher Fares.

Detroit, Mich., June 7.—Street car service in Detroit came to a sudden halt at 10 o'clock tonight, when motormen and conductors of the Detroit United Railways Company struck to enforce their demands for increased pay.

The action was taken on the recommendation of W. H. Mahon, president of the Amalgamated Association of Street and Electric Railway Employees, who was informed by President Frank W. Brooks of the Traction Company that a higher schedule of fares, upon which increased pay for the men was contingent, had been refused by the city council.

Following the vote, the carmen were instructed to take their cars to the barns immediately, leaving hundreds of Saturday night teetotalers and shoppers marooned in the downtown district. It having previously been announced the strike, if called, would not become effective until 4 a.m. Sunday.

The walkout, union officials declared, undoubtedly would later involve employees of the company's interurban system, and its city lines into Port Huron, Ann Arbor, Mount Clemens, Flint and Pontiac. Representatives of the carmen in these cities, it was announced, are to meet here Monday to decide upon the action they will take.

Congratulating the Jews for their recent accomplishment of retrieving Palestine with the help of Great Britain, Wm. Proudfoot, K.C. M.L.A., leader of the opposition in the provincial house, said today that the Jews had done a great thing for the world.

He had been imputed against the Jewish race. He knew they were too intelligent to trouble with such a simple thing.

During the day a special degree team from the Montefiore Lodge, Buffalo, N.Y., initiated some 100 candidates to the order.

An special meeting of the lodge in the King Edward Hotel, the local branch, rapidly, and yesterday's huge initiation list is a criterion of the success which awaits it.

Those Present.

Those at the head table, and among those present, were the Buffalo degree team, B. Rinslander (president), I. M. Hellwitz, M. L. Finberg, Isaac Phumisen, I. Setel, D. Rodenburg, A. Greenbaum, Wm. Proudfoot, K.C. M.L.A.; H. Dewart, K.C. M.L.A.; H. Winberg, Meyer Fisher (president), Abraham Green (vice-president), Benjamin Luxenberg (secretary), Bernard Goldstein (treasurer), J. H. OPPOSE CAPITALISM

Rev. Paul Charbonneau, who is also chairman of the strike committee of the Metal Polishers' Union, addressed a representative audience at Brown's Hall yesterday afternoon upon "The Sign of the Times," the theme of his address being the changing order of all things social and economic throughout the world. While advocating continued and determined activity against the pressure of capitalism, the speaker cautioned his audience to use restraint, and act in accordance with that sense of some constitutionalism which ever bespoke the true Britisher. It was one thing, he said, to stand up for the rights of the people; it was an entirely different thing to stand up for an arbitrary assumption of authority to resort to mob rule and submerge decent citizenship in a sea of indignities.

BLOODY BATTLE IN WEST HUNGARY

Peasants Are Driven Back and Slaughtered by Hungarian Red Guards.

London, June 8.—Armed peasants who revolted against the Hungarian communist government and Hunarian troops have been engaged in heavy fighting in western Hungary, which resulted in the defeat of the peasants, an Exchange Telegraph despatch from Vienna says.

Four thousand peasants assembled Friday near Oedenburg (Sopron) between the Zinkendorf and Kollerhof, with the object of displacing the soviet government in Oedenburg. They were intercepted on the march near Zinkendorf by the communist Garrison from Oedenburg armed with artillery and machine guns. A bloody battle followed and the peasants were driven back and surrounded in Kollerhof by the red guards.

After a short siege, it is added, Kollerhof was stormed and many of its peasant defenders slaughtered. The entire Oedenburg district has been cleared in a matter of days and a military dictatorship proclaimed.

Communist Forces Advance.

Vienna, June 7.—Severe fighting is in progress, Budapest and the Vienna north of the Danube, between the Czech-Slovak and the Hungarian communist forces. The Hungarians have crossed the Neutra and are threatening Pressburg (Pozsony). The position of the Czechs in Slovakia also is more serious, as the Hungarian communists have been stirring up the Slovaks against the Czechs. The Hungarians point out that the Slovaks refused to give the Slovaks autonomy and also have not treated them as brothers. They are that 1000 years the Slovaks and Hungarians lived together and should continue to do so.

It is reported that the effectiveness of the Russian soviet army against the Rumanians in Bessarabia is due to the fact that among their officers, it is a large number of German officers are declared that the German officers have formed an organization to assist the Bolsheviks in Ukraine.

Czechs Defeated.

Copenhagen, June 8.—Hungarian communist troops have captured the town of Kaschau in northern Hungary, northeast of Budapest, and are marching on Budapest Saturday and Sunday.

Czechs were defeated decisively Saturday, according to news received here. The entire village of Kothof was burned.

The massacre took place after 32 villages surrounding Oedenburg had refused to go over to Bolshevism. They desired to join up with Austria.

3000 Peasants Killed.

The massacre took place after 32 villages surrounding Oedenburg had refused to go over to Bolshevism. They desired to join up with Austria.

Hamilton News

Hamilton, June 8.—Hamilton today opened its arms and hearts to the battle-scarred, sun-browned, fleshed of the 64th Battalion, the first unit to be demobilized in this city, and it was a matter of satisfaction that after many disappointments and hitches, the program as finally revised was carried thru with smooth despatch.

Barton street residents who have been hoping that their thoroughfare would be taken over by the provincial government as highway in preference to the King street route, are going to be disappointed, according to Controller Halcrow, who in company with Controller Halford, waited upon Deputy Minister McLeon to point out the advantages of Barton street.

Two veterans of the world war passed away over the week end in the Mountain Sanatorium. Private A. W. Callow, aged 32 years, who had been with the 51st Battalion in France, and Private George Joseph Bamford. The former will be buried from 450 Shaw street, Toronto, and the latter with military honors in Hamilton cemetery on Tuesday afternoon.

Charged with the theft of \$50, Edmond Green, 52-2 East Huron street; Cecil John, Detroit, and George Mason, no address, were arrested tonight by Detective Goodman and Acting Detective Thompson. According to the police, the three men are the parties who rifled the till in the Main restaurant. Jews at a mass meeting in Loew's Theatre this afternoon unanimously passed a resolution requesting the government to take steps to stop the atrocities committed by the Poles upon the members of the Jewish race in Poland. The gathering was to protest against the persecution of the Jews.

RAILWAY WORKERS DECLINE TO STRIKE

Vancouver, B.C., June 8.—The Federated Trades Union here, embracing all railway shop workers, except blacksmiths, has voted to withdraw from the Vancouver Trades and Labor Council. It is stated their action was taken owing to the persistent efforts of the Trades and Labor Council to have the shopmen join the sympathetic strike.

About 250 garbage men, street cleaners and other outside civic employees joined the strike yesterday. The city has arranged to obtain an emergency crew in case the water runs break. Strike of the meat cutters and slaughterhouse employes has diminished the supply of meat here.

TOO MANY STRIKES TO TALK TARIFF

President Bulmen of C. M. A. Comes to Toronto From Winnipeg.

Traveling direct from Winnipeg to Toronto, W. J. Bulmen, president of the Canadian Manufacturers' Association, registered at the King Edward last night. In a conversation with The World Mr. Bulmen said that he had every hope that there would be a speedy and peaceful settlement of the strike question. He said that he was in hand to that end when he left Winnipeg. Asked about the food situation in the western city Mr. Bulmen summed up the situation by saying he got all he wanted to eat without any trouble. In regard to the tariff question the manufacturers' president was unable at the moment to go into details and discuss it from the merchants' point of view, but so far as any opinion in the west was concerned, he said everyone was to busy striking strikes to discuss the new tariff proposed in the budget.

ORIGINALS RETAIN OWN IDENTITY

Club Decides to Remain Separate Body From G. W. V. A.

At the general meeting of the Originals Club, held at S.O.E. Hall, on Friday evening, many important questions came up for discussion. Foremost among these was a resolution passed recently by the provincial command of the G. W. V. A. asking the Originals Club to become a branch of the G. W. V. A., the branch to be known as the Originals Branch of Toronto. After hearing the report of the delegation, it was decided that the Originals Club should retain its identity as a separate organization. At the same time the club expressed its desire to maintain cordial relations with all returned soldiers' organizations. Owing to numerous applications from outside points for membership in the club, it was decided to appoint a Dominion council for the purpose of organizing various branches outside of Toronto. The following members were elected temporarily by acclamation: A. T. Hunter, Dominion president; A. K. Couler, Dominion vice-president; J. A. Dunlop, Dominion treasurer; C. Baker, Dominion secretary. The headquarters of this council will be at 4 Edward street, Toronto. The question of an increased membership was taken up and a committee of five appointed to collect data and information and to make recommendations at the next general meeting. Twelve new members were initiated at the meeting, which was well attended. A report from the secretary of the Hamilton branch, showing a membership of 90 in that town, was well received.

IMPRESSIVE HONOR TO FORTY HEROES

General Gunn at Westminster Presbyterian Church Unveils Tablet.

With impressive ceremony, Brig. Gen. John Gunn yesterday morning unveiled a memorial tablet at Westminster Presbyterian Church erected in memory of 40 members who had sacrificed their lives on Flanders fields. Rev. Dr. John Nell, the pastor, in a stirring address dwelt upon the sacrifices of Canada's soldiers, and pointed out that perhaps the most presentable memorial Canada could make in honor of those who would never return would be that reconstruction of the social fabric of the Dominion which would conciliate all opposing forces and calm the present state of general and dangerous unrest.

MUST NOT KEEP MEN FROM WORK

Injunction in Connection With Strike at Willys-Overland Plant.

Toledo, June 8.—Declaring that industry had been obstructed by "riotous and disorderly conduct and intimidation," John M. Killits, judge of the United States district court, late yesterday issued a temporary injunction restraining the Auto Trades Council, machinists' local, their members and labor leaders, from interfering with workers or in any way hampering operation of the automobile plant of the Willys-Overland Co. The injunction is effective at 1:30 p.m. Tuesday, June 10, at which time it is believed the plant will be reopened under armed guard and a reduced number of labor pickets. The order will have the same force as a permanent injunction, and that violations will be punished in the same manner. The plant has been idle for nearly three weeks. It was opened for one day this week, but riotous, in which two were killed and nearly a score injured, caused a cessation of business again. The employees are demanding a 45-hour week instead of 48, which is the company's working system.

Bonar Law Believes it Prime Cause of Unrest—Has Faith in British Stability.

London, June 8.—Right Hon. Bonar Law, addressing the housing conference at Central Hall, Westminster, emphasized the need for a great national effort and said that difficulties were greater than ever. He said that the allied statesmen in Paris with admiration and hope (Cheers). MURRAY-KAY COMPANY-LIMITED 15 to 31 King St. East Phone Adelaide 5100 15 to 31 King St. East

A Murray Trousseau of 1873

There was a caller at our Store the other day, who, in this week of memories, brought with her a very special breath of the past. A little lady who boasts the same number of years as the Murray Store, 66, has witnessed the gradual change in Toronto from a small town into a city indeed. Originally W. A. Murray's was her favorite shopping place, and ever since has remained her pre-eminent choice.

When, at twenty, the most important purchases of all were to be made, the buying of her trousseau, our Store was the place at which she bought it. A trousseau is always of absorbing interest, but a trousseau out of the long-ago.

Among the few things which have survived the years she showed us a very beautiful heavy wilton shawl, two yards square. The brilliant Roman stripes on the soft grey would have been very little dimmed, and most wonderful of all, the price ticket it originally bore was \$12.00, for the finest shawl to be had in the Store.

A quaint pair of lace sleeves were also shown us. These are in the old-fashioned bell style, and are edged with dainty Cluny.

The gown in which these sleeves were worn we saw pictured in an old-fashioned photograph. Made of heavy silk, in most elaborate style, known as the Polonaise, a long, tight-fitting waist, with broad, stiff sash and billows and puffs and pleats at every conceivable spot. We will know what Murray-Kay's is capable of in the way of beautiful gown-making, but to us, this marvellous creation of long ago was a surprise.

The inevitable lace collar was also there, of fine hand lace, an early example of Murray's fame in this direction. So fascinating did we find this little group that we are exhibiting it in the Store, so that you, too, may see it. The reputation for quality laid so long ago by the original Murray Store has thus been maintained and strengthened through the length of 66 years, until our Store stands pre-eminent for quality to-day.

THE SITUATION IN EUROPE

New York, June 8.—The Associated Press tonight issues the following: The new week begins with the German counter proposals still the subject of discussion. The council of four, with Premier Orlando of Italy, absent, again went over the proposals Sunday, and while various days have been mentioned unofficially for replying to the Germans, no agreement has as yet actually been reached by the council. The latest belief expressed, however, is to the effect that an understanding may be arrived at by the end of the week, with the possibility of its coming sooner. It may be significant of an early impending agreement that the departure of President Wilson for the United States is reported as probable within ten days or two weeks. Sunday's discussion included one of the most difficult outstanding questions that affecting the German-Polish frontier. The presentation of a majority of the minor commission's reports is expected to occupy the council all Monday. It has been pointed out that this may tend to make more rapid progress possible. A plan for the solution of the Adriatic problem, which has met with the approval of the peace conference, will form part of the discussions taking place at the Italian frontier between Premier Orlando and Vice-Premier Colosimo. The peace terms for Austria are again assailed. President Seitz, before the national assembly, described them as "impossible" and as meaning the death of the country by starvation, and Foreign Minister Bauer in a report on his conference with Dr. Renner, head of the Austrian peace delegation, was similarly outspoken against the document. Count von Brockdorff-Rantzau has returned to Versailles from his visit to Germany, where he is said to have been called in connection with the recent disturbances there.

KOLCHAK AGREES WITH THE POWERS

Reiterates Statement of His Government Regarding Debt Payments. Paris, June 8.—Admiral Kolchak, head of the all-Russian government at Omsk, in his note answering proposals made by the allied and associated powers, declares that in general he adheres to the principles outlined by the powers. He dwells at length on the spontaneous wish of Russia and the men speaking in her name to proceed with national reconstruction on a most democratic basis. Concerning the new countries formed on the borders of Russia, he says that his government already has recognized the independence of Poland, but that final frontiers will have to be adjusted by mutual agreement. Admiral Kolchak says that his government will accept the assistance of the various non-Bolshevik governments in solving the difficulties during the period of transition prior to the establishment of a regular government. Concerning the Russian debts, Ad-

CHARGE AGAINST GRANT H. BROWNE

President and Director of Number of Canadian Companies. New York, June 7.—Grant Hugh Browne, who was indicted in Detroit today on a charge of conspiring to defraud the government, has been identified with New York and London financial affairs for many years. MONDAY MORNING, JUNE 9.

Getting Down to Getting Down Costs.

Perhaps, now that President Beattie of the C.P.R. has gone on record about the high cost of living, something may be done by the government to do it. The control and regulation of food prices were always declared to be impossible tasks by those whose interests it is, as they imagine, to have prices put up to the highest possible notch.

The government has appointed some kind of an investigating commission, but by the time they get a report in we shall be millions of miles off on another problem altogether. What is needed is prompt and decisive action. It is generally feared that the government is not so adapted. Even in the war there was not the prompt action that was seen to be necessary, as, for example, in the matter of conscription.

When Mr. O'Connor proposed to regulate prices, and was actually going to the root of the present difficulties, the government did not act promptly, and Mr. O'Connor was suppressed. He demonstrated, however, before his eclipse, what a conscientious and fearless man could have done. Such a man is needed now, and if the government really wanted to correct the worst conditions, he would be found and appointed. He could knock 20 per cent. off food prices without any difficulty, and the greater part of our troubles would then be settled.

Other people's opinions. The World will gladly print under this heading any article, so long as the space is limited to 200 words and written on one side of the paper only.

The bishops and the ten commandments. Editor World: I was quoted in a recent issue as stating that the Anglican bishops of the old land had "eliminated a large portion of the padding of the Ten Commandments, especially omitting the prohibition to labor."

These problems settled almost all our troubles would be settled. As long as we keep humbugging with the symptoms and ignoring the disease itself we can only expect our social malady to become worse. All the social disturbances and labor troubles we hear so much about must have ground to flourish on, and elements to nourish them, or they could not assume serious proportions. We may suppress such disturbances by force and intimidation, but if we leave the causes the trouble will recur.

Men are returning daily to Canada. In thousands. They are fairly supplied with money, but at present prices their money cannot last long. Unless they get work before winter sets in our conditions will be much worse than at present. Manufacturers declare, and no one can blame them, that at present costs they cannot do business. Several prominent men have closed up their factories, and declared in more or less disagreeable terms that they do not care how long they were locked up. They have been denounced as unpatriotic, but an impartial observer will see that they have done just the same thing as the men. They have gone on strike.

Many manufacturers are endeavoring to hold business together, and many union men are making such concessions as they deem possible to prevent an utter deadlock and stagnation in the national life. But something more is needed. The government should be able to break the log jam, even if it takes dynamite to do it. And the jam is in the high cost of food which runs up wages beyond the point of profitable or even competitive production.

Taxes as an item in costs. Another reason for getting down the cost of living is the getting up of taxes. Taxes must be paid out of our private revenues, that is to say out of our profits. If we begin to pay taxes out of our capital there is only one end for us. The problem, then, is how to maintain our revenues and our profits. Any tax on modern business will tell you that it is by keeping down the costs that profits are made.

Our governing class has not learned this lesson yet. What is true of the store is true of the nation. As costs are kept down business thrives, because prices can be made attractive. With the incidence of heavy taxes...

tion and the cessation of the munition exports, which did so much to sustain our trade account, it is clear that we must encourage other forms of employment and production or we shall not have enough sales to meet our bills. We are thus met once more by the need of getting down food prices and the cost of living, not merely to enable us to compete, but to make our profits as large as the markets will permit. It is out of these profits our taxes must come.

Not Against Trade Unions. There is an old story of a man who trained an ape to kill flies which annoyed him while he slept. The ape, intent on the destruction of one annoying insect that evaded him, waited till it alighted on the man's nose, and then smashed it with a heavy stone.

This is the view that labor takes of the act of parliament passed to suppress Bolshevism. It will suppress Bolshevism all right, but they fear it might be that under the new act a judge would find a strike, hitherto quite legitimate, to be an act of violence towards the government, or an attempt to create public disorder, in which case the trade union would become an unlawful association, its property would be confiscated, members would be liable to imprisonment and attendance on their meetings or circulation of their literature or advocacy of their objects would become a criminal offence.

Of course the government has no such intention. It is not seeking a revolution. But labor is somewhat nervous in view of the strained conditions existing, and it is impossible to say what interpretation might be put on a new act of parliament by a zealous judge. Twenty years' imprisonment, for example, is provided for the circulation of literature recommending resort to force as a means of accomplishing any governmental, industrial, or economic change. A very large number of people believe that a strike is a resort to force, and that picketing can be regarded in no other light.

Of course this is not what the government intends, but there is room for misunderstanding and there should be a clear statement of the intention. Labor of the genuine kind is a unit in its opposition to Bolshevism, but if the friendly ape in its attempt to kill the fly slaughters the man as well we shall have gained nothing at all.

THE PROMOTER'S WIFE. By JANE PHELPS. Once More Barbara Confides in Mr. Frederick.

CHAPTER CVI. While I was glad of Blanche Orton's visit it in a way made me very uncomfortable. More so perhaps than I had been since the day I had been so snubbed by Scott. I tried to put myself in a businesslike place, but try as I would I could see no reason why a legitimate business should be carried on in such a way; why it should be necessary to use the means Neil was using to interest them in his projects—if those projects were perfectly legitimate ones.

COLORS ARE DEPOSITED WITH DIGNITY CEREMONY

Twentieth Battalion Hands Them Over to St. Alban's Cathedral.

St. Alban's Cathedral was the scene of a historically important ceremony yesterday morning, when the colors of the 20th Battalion were deposited in the church with all due military splendor.

The initial performance was like some ancient pageant. Three knocks with a sword upon the church door gave the party the right of way to proceed.

A solemn entry into the church here interrupted the formalities, after which the colors were deposited in the cathedral, which was crowded with the usual congregation.

These colors are a record of the work of the 20th Battalion. We accept the symbols and pledge them on the altar as a token of gratitude to God.

FOURTH C. M. R. DEPOSIT COLORS

St. James' Cathedral Now Holds Banners of Victory.

The depositing of the colors of the Fourth Canadian Mounted Rifles in St. James' Cathedral yesterday was the occasion of a very impressive ceremony.

About 600 of the men turned out on the occasion, and a special order of service was arranged.

The battalion formed up at the armories and headed by the 9th Missauqui band paraded to the church, where the officer commanding made the request that the colors be deposited in the cathedral.

The request being replied to by the rector, the order "present arms" was given and the national anthem sung.

The colors were then deposited upon the communion table and there followed a solemn act of thanksgiving.

WELLINGTON COUNTY ASKS MORE PROHIBITION

Special to The Toronto World. Guelph, June 8.—A busy session of the county council came to a close Saturday afternoon with the passing of several bylaws, one of which provides for the appointment of Col. David M. Allan, of Nichol Township, who has been actively interested in military matters, to the position of superintendent of the Wellington House of Industry and Refuge, at Ferris.

The county tax rate was fixed at five mills on the dollar. It was decided to memorialize the Dominion government to take immediate steps to have the war-time prohibition act extended until such time as arrangements can be made to have a vote taken and that the said vote be fixed and announced by the Dominion parliament at least three months previous to the taking of the said vote.

PLAYS, PICTURES AND MUSIC.

"A Successful Calamity" Tonight at the Royal Alexandra, Miss Estelle Winwood, the eminent English actress, will commence the second week of her brilliant engagement under the management of Edward H. Robbins in Clare Kummer's whimsical comedy, "A Successful Calamity."

For the third week of her engagement under the management of Edward H. Robbins, Miss Estelle Winwood will be seen in the English comedy "Common Clay," the female role which she created and played both in England and America.

Three souls in the iron grip of modern circumstances—a simple, devoted old woman; a man who has gained worldly eminence, despite "the skeleton in the closet," and a girl handicapped by adverse circumstances—each telling the innermost secret of a bitter experience, and eventually finding a way to face life with renewed courage. Here is crystallized the big, emotional play of "Common Clay."

Featured in a picture of the week is William Farnum in "The Jungle Trail" at Shea's Hippodrome this week. Mr. Farnum has achieved many triumphs on the screen, but few pictures have given him as wide a scope as this.

Many well-known cowboys, crack shots, busters and bulldozers, appear in Wm. S. Hart's newest picture, "The Money Corral," this week's feature film at Loew's Theatre.

For today, tomorrow and Wednesday the feature of the Madison Theatre will be the fine Vitaphone production, "A Rogue's Romance," with that prime screen favorite, Earle Williams, in the leading role.

At Star Theatre Maud Rockwell and Joe Carr are featured in "Hello, Frenchy," this week's show at the Star Theatre. This is an entirely new production even to the title.

Rev. Dr. Ribourg, preaching Sunday evening at St. Alban's Cathedral on "New Spirit and New Life," said, in part:

"The world today is weighing the Christian church and its professing adherents. The twentieth century people cannot be deceived as to the depth and genuineness of our religion, or as to its shallowness and superficiality.

For today, tomorrow and Wednesday the feature of the Madison Theatre will be the fine Vitaphone production, "A Rogue's Romance," with that prime screen favorite, Earle Williams, in the leading role.

WON'T SHRINK WOOLLENS

There is nothing like Lux. It is the only washing preparation of its kind in the market. It was made so that dainty silks, fine linsens, soft woollens, pretty chintz and muslins, could be washed again and again without the slightest injury.

With Lux there is no rubbing soap into the delicate threads, and then rubbing and wringing to get it out again.

Lux whisks into a rich, creamy lather which coaxes rather than forces the clothes to be clean. It is a real pleasure to wash anything that pure water cannot harm, with Lux. It expresses true cleanliness in its most delightful form.

PREPARE ROUND-UP FOR BOLSHEVISTS

Toronto Police Get Ready to Clean Up All Undesirable Persons.

The announcement Saturday morning from Ottawa that legislation had been passed giving the authorities full power to arrest and hold for deportation all foreigners interested in the Bolshevik movement who advocate the overthrow of constitutional authority is considered by the Toronto police department as being one of the most pieces of legislation passed in the past few years.

In future the local police intend rounding up all these people and dealing severely with them.

Assistant Inspector of Detectives W. Wallace told The Sunday World Saturday afternoon that the police would in all probability prosecute in the next few days the men arrested at a meeting in a radical conference on West Queen street.

Several months ago the police rounded up a number of Germans and Russians who were causing trouble, and without arraigning them in police court, either sent them to internment camps or held them in the Toronto jail pending deportation arrangements.

One of these persons, named Charney, has been deported to the United States, and is being held in that country for deportation to Russia.

Another man, arrested at the same time, is still in the Don Castle, awaiting to be sent back to Germany.

That the government is providing at least \$75,000,000 under various business, which goes directly to labor to ally the industrial unrest, was a statement made by Hon. F. B. Carvell, minister of public works, at the King Edward Hotel on Saturday.

The minister pointed out that the money was borrowed at home for the purpose of providing employment. It is being spent on a number of public works, which could well be held open for five years, but the government had decided to complete the work now to help the labor man.

Discussing the metal trades strike and the demands of labor for a forty-four-hour week, Mr. Carvell stated that this was a matter entirely for the province, if legislation was to govern such things as the number of hours, the rate of wages, and for what wages.

The reasonableness of the 44-hour week demanded by labor was not apparent to Mr. Carvell, who objected to the labor contention that the fewer hours each man worked meant a greater number of men employed. He said that Toronto was industrially overcrowded and that there were more than 10,000 men held in industrial lines, than were in Toronto when war was declared. These men came to work on munitions and do not want to go back to the small towns.

Unrest Will Cease The minister was optimistic of the outcome, declaring that the unrest will be itself laid out. He said that beyond a few leaders, there were not many Bolsheviks in Canada, and the labor man was as good and as loyal as anyone else.

Referring to the complaint of labor that it was almost impossible to live under the present conditions, Mr. Carvell stated that the average labor man was absolutely sincere in saying that to reduce the high cost of living was the only solution of the problem in this country.

The minister of public works' left the city for Ottawa Saturday night after a tour of inspection of the work done on the Toronto harbor.

WANTS CUSTODY OF ALIEN ENEMY'S ESTATE

At Osgoode Hall on Saturday, Justice Sutherland heard the argument and reserved judgment on the motion by the secretary of state for Canada for an order vesting the minister of finance, as custodian of alien enemy property, the share of Countess Ella Matsucha in the Canadian estate of her father, Franklin Hiram Walker of Detroit, W. N. Tilley, K.C., with C. C. Robinson, appeared for the Crown, and Glynan O'Leary appeared for the National Trust Company, which is liquidating the estate on this side of the border.

The entire estate is valued at \$3,762,897, of which \$2,969,209.49 is in Ontario. The residue of the estate left by Mr. Walker when he died in August, 1918, was to be equally divided between his wife and only daughter, the countess, who is an enemy alien.

Minister of Justice Not Expected to Interfere With Execution.

Unless Frank McCullough is granted a reprieve during the next five days he will be hanged in Toronto jail on the morning of June 13. The minister of justice sent word from Ottawa at the time of the execution of the murderer that sentence would be postponed until June 16. In the meantime McCullough's counsel, T. C. Robinette, K.C., has been endeavoring to have the sentence commuted to one of life imprisonment.

No word has been received in police quarters from Ottawa, but the officers are certain in their opinion that the minister of justice will not interfere and that the prisoner will pay the death penalty.

County Orange Master Dies After Long Illness

H. M. Booth, 23 Verral avenue, District Master of the Orange County Lodge of Toronto, died after a long illness at the Davisville Military Hospital Friday morning. He was 72 years of age and had suffered severely from the disease since he was admitted to the hospital on April 15, 1919.

Mr. Booth was married and had served overseas as a corporal in the 1st Canadian Trench Mortar Battalion during the war. He was a member of the Orange Order and a member of the Verral family.

MANY WAR HEROES

Lieut.-Col. Barker, V.C., D.S.O., with bar, M.C., two bars, Croix de Guerre, with palms, and the Italian Silver Medal, with star, of Winnipeg, was in the city Saturday, the guest of Mayor Church, who took him for a tour of the harbor. Col. Barker is accompanied by his friend, Capt. Lloyd Lott. The famous "ace" is quite youthful in appearance. He bears two round stripes and his right hand is still in a sling and heavily bandaged.

THE CITY AND THE STREET RAILWAY

Mayor Church Not for a Hearst Commission But Wants the Railway Board to Investigate—The City to go on Record on Monday.

The mayor has replied to Sir William Hearst's offer to appoint—with the consent of the city and the city council—to investigate the increased pay issue between the street car men and the Toronto Railway Co. The mayor thanks the premier for his offer and goes on to say: "Could not the Ontario Railway Board appoint someone like the E. R. C. Clarkson Company to make an investigation of the books of the Toronto Railway and make a report on the state of affairs of this company?"

It was learned at the city hall that the attitude there was to do nothing further, other than that the matter may be up before the board of control and the city council, but the feeling is that nothing should be done to open up the agreement with the company. The corporation has not lived up to the contract, say the members of the council and in the day of their tribulation they are not getting any sympathy. Such a commission might recommend a large increase in fares by the agreement and do away with the amount paid by the company in percentage. The city should have complete jurisdiction over its own policy in this regard and therefore would not likely consent to the appointment of a commission.

Sir Adam Beck, sooner or later, will be brought into this issue and may already have been consulted by Mayor Church. The World was told that his advice would be that the city should not allow itself to be dragged into a conference between the men and the company. An advertisement also called attention to the statement in a Globe editorial of Saturday that the city should have saved up the millions of percentage on earnings that it had received from the company and been prepared to give up a portion of this money now in order to help the company to meet the demands of the men for higher fares. This pretentious claim of the Globe is a piece that sufficient reason for Mayor Church declining to consent to Premier Hearst's offer of a commission to investigate.

LABOR DIVIDED ON "BIG" UNION

Both Factions Believe, However, A. F. of L. is Permanent Force.

There is but little change in the labor situation. The metal trades council is still making a strong fight for the 4-hour week, and yesterday afternoon two unions belonging to the industry of the amusement trades voted considerable sums to the council for its fight. Said Charles O'Donnell, business agent for the Union of Stage Employees: "Our union is with the metal trades every inch, and provided the council makes its fight a lone hand we shall give it every assistance we morally can. Other trades unions will do the same, I feel sure. We have only 17 members and the sum we have donated is but the precursor to others either bigger or as big. The one thing we will not do is break a promise."

The street railway men's organization will once again hold forth with R. J. Fleming, manager of the Toronto Railway Company, at the conference with the representatives of the company and the men being called for this morning. This was the information given out yesterday afternoon by Controller Robbins, who professed in every other respect to be the proverbial calm.

MAINE SEA COAST RESORTS.

"Often I think of the beautiful town that is seated by the sea." Portland, Maine, throned on the hills overlooking Casco Bay, the brightest gem of the Maine sea coast, is not less charming today than when Wadsworth Longfellow, America's best loved poet, went up and down its pleasant streets. The attractions of the wonderful territory surrounding Portland are manifold, there being innumerable natural beauties and cool retreats. Among these the seashore takes pride of place. Among the many favorite resorts for Canadians are Falmouth, Cumberland Head, Cape Elizabeth, William Beach, Scarborough, Prout's Neck, Old Orchard, Kennebunk and York Beach. Old Orchard is recognized as the finest and safest surf bathing beach in the world. A handsome illustrated descriptive folder, with all information and list of hotels may be had, free on application to Grand Trunk ticket agent, or C. E. Horning, D.F.A., Toronto, Ont.

Interviews held yesterday afternoon showed that there was a distinct cleavage between two bodies from the same large body, the American Federation of Labor, and that it was not a question of the break-up of the latter. The two bodies, the new administration within this large body of unionists, the radical group believing in internal forces, and the large aggregation of employers be met on equal grounds.

A Shell-Shocked Soldier Tells of His Remarkable Experience with Dr. Chase's Nerve Food

MR. FRED. K. SAUNDERS, 66 Euclid Ave., London, Ont., writes: "After having returned from the front with shell-shock, and while still in a nervous condition, I met with a painful accident due to a fall from the top of a ladder, striking my back on the edge of a desk, which confined me to bed for three weeks. After the sprain had been reduced and the pain eased so that I was able to be around, I was obliged to return to bed, suffering a complete nervous breakdown. My regular physician attended me until the middle of September, without results being in any way satisfactory. "My nights were spent in tossing about the bed worrying about the future, which looked so black. The continual loss of sleep caused me to become light-headed, so that I would say and do things quite irrational. My heart action became quite deranged, together with my stomach and digestion. My skin and the whites of my eyes became yellow. My kidneys were deranged, and when I would try to get up everything would go black in front of me with dizziness, and I would fall if nobody was near. Following these dizzy spells I would become so weak, and a sickening feeling of faintness would creep over me, so that for two or three hours afterwards I would be helpless, and my head would ache almost to the point of splitting. Nothing seemed to help these weak spells. I became so irritable that to speak to or answer anyone, even my wife, in a decent manner seemed almost impossible. "About the end of October someone recommended Dr. Chase's Nerve Food, and my wife

MAINTAINS CHURCH AGAINST POLYGAMY

Further Evidence in Case of Former Bishop of Latter Day Saints.

The action brought by Bishop McGuire of Independence, Mo., against Bishop R. C. Evans of Toronto, who lately seceded from the Church of the Latter Day Saints, for an accounting of certain church funds, was continued in Osgoode Hall before Chief Justice Sir Glenholme Falconbridge on Saturday. The arguments of the counsel will be written and filed.

Under re-examination by his counsel, W. R. Smyth, K.C., Bishop Evans, defendant in the suit, stated that the document purporting to be an epitome of the doctrine of the reorganized church, contained nothing reading consecration, tithing, surplus, the dealing over of property, the necessity of accepting the book of Mormon, or that Joseph Smith's blood sealed the new covenant for the salvation of the race, nor anything regarding baptism for the dead.

Witness in reply to questions said that baptism for the dead, was an accepted doctrine, whereby someone in the new-world who had not been baptized in life, but who received a revelation, for baptism was necessary to salvation, someone on this earth could be baptized by proxy for them. Evans said his last time he had paid one had been in 1909, when he gave \$450 to the church after he had sold a lot in Independence, Mo.

Bishop McGuire, one of the reorganized church, recalled to the stand, admitted that the epitome of faith had been issued by the church of which he was the head. But, said witness, neither accepting the blood of Joseph Smith, nor baptism of the dead were a doctrine of his church, nor had they ever been taught. Witness added that his church was opposed to polygamy.

Mr. Smyth asked witness if it was a cardinal doctrine of the church that Christ was to come to Independence, Missouri, and that the great temple was to be built there on a lot running from the blacksmith's shop to the courthouse? Witness replied that the resolutions of the conference established tests of fellowship, other matters were left to the conscience of individual members.

Summer Rugs

The care with which the summer floor coverings are chosen contributes largely to the success of the decorative ensemble.

And when there is as much latitude of choice as our collection affords, there should be no difficulty in finding just the type of rug which your particular needs demand.

Sturdy fibre rugs are especially desirable for out-door use, for they are not injured by salt or damp air and are even improved by an occasional drenching. These are priced \$1.95 to \$16.50, according to size.

Prairie Grass Rugs.

Firmly woven in a tough grass weave, well bound—in plain centres, with attractive borders, or in figured designs in two-tone shades of brown, green and blue coloring, in six different sizes:

- 2 ft. 6 in. x 4 ft. 8 in. at \$1.75
- 3 ft. x 5 ft. 9 in. at 1.95
- 4 ft. 6 in. x 7 ft. at 4.25
- 6 ft. x 9 ft. at 6.50
- 8 ft. x 10 ft. at 7.50
- 9 ft. x 12 ft. at 12.50

Plaited Rush Mats.

Special prices make these rugs very attractive. Plaited from a heavy quality rush, into squares which are sewn together, making larger rugs. These give a very pleasing appearance, will lie flat and give excellent wear. One size only—3 ft. x 6 ft., for special price of \$3.25 each.

Cocoa Fibre Rugs.

The Victrola IV. for Camps or Summer Homes, \$34.00

To help liven up your vacation, and help you enjoy the entire summer. For example "dancing the dreamy waltz" never seems half so lovely as a social diversion as it does in a bungalow, in a camp, in a country house, where it comes about spontaneously and "all of a sudden."

Then there is the charm of Victrola music—down by the sea. If you want to have it so, for it's easy enough to get when Victrolas can be purchased at Simpson's on such convenient terms as we offer. Every sort of a machine, from the small portable one at \$34 to the large period-design machine that will fit well in the most richly appointed parlor at \$340.

HAVE you ever wished for a change of scene? Ever become a bit tired of the solidity of town furnishings and wished for the sun-bathed, breeze-tossed expanses of your friend's country estates? Do you really have to live with thick rugs and heavy hangings, velvet-covered chairs and dark woodwork, or have you simply forgotten that cretonne and awnings, gay pillows and bright dishes can do a powerful lot toward bringing the country into town?

This Store cannot let you forget. It knows how good for work- and socially-wearied people a garden is, with a white arbor and a brilliant green and red parakeet to swing in the breezes. It knows that iced cocoa served from a crackled glass pitcher in tall tumblers, against which brilliant-topped glass spoons tinkle, is a cure for most of a business day's ills.

Just the Things You Need for Motor Picnics, Vacation Jaunts and Full Enjoyment of Summer Life

This Store's purpose is to enable you to get the most out of life. For \$22.18 you can have a canvas tent to set up in the country; for \$6.50 you can have a 6 x 9 rush grass rug, cooling to see, sturdy and thick and charming for veranda, sun room or country hall. But there are so many other delightful aids to pleasant living that—when you have seen them in the special displays arranged throughout the Store this week—you will wonder how you ever got along without the most of them.

Awnings

A little knowledge is indeed a dangerous thing when it is applied to the making of awnings and slip-covers. They may answer their purpose after a fashion even if they are made in a careless, slipshod manner, but they will scarcely answer their purpose after the fashion, for the fashion in these things is absolute correctness of fit, and consummate skill of workmanship.

Slip Covers

Our workrooms are equipped with a staff of thoroughly experienced workmen; you can trust them with the most exacting work.

A complete assortment of appropriate materials will be found in our Upholstery section. Estimates furnished on request.
