TWELVE PAGES—TUESDAY MORNING JULY 16 1907—TWELVE PAGES

PREFERENCE NOT BASIS FOR UNITY
Lytelton's Motion to Censure Government is Rejected After Somewhat Spirit-ed Debate.

(Canadian Associated Press Cable.)
LONDON, July 15.—In the house of commons, Lytelton, moving for a vote of censure on the government for its attitude towards the preference proposals, declared that some advantage should be given to the citizens of the empire as against foreigners. To let the matter pass would be deplorable in the opinion of the opposition.

ONTARIO'S GOVERNOR.
Chief Justice Moss Will Be Administrator for a While.
His Honor Sir Mortimer Clark left last night on his vacation, which he will spend at Cushing's Island, in the State of Maine.

SMALLPOX IN NORTH END.
Epidemic is Further Shown in Discovery of Six More Child Sufferers.
The discovery yesterday of six small-pox sufferers in the house of Fricot-place, from which a child was removed to the Swiss Cottage nearly two weeks ago, adds to the serious aspect of the disease epidemic in Yorkville.

"RIGHT OF WAY" DIVIDEND.
Seven Per Cent. Yesterday—5 Per Cent. Monthly Hereafter.
OTTAWA, July 15.—(Special.)—The Cobalt Right-of-Way Mining Co. this morning declared a dividend of seven per cent., which is the second at the same rate within three months.

ILL IN LONDON.
OTTAWA, July 15.—(Special.)—Word has been received here that Guy Mainzy, the young Canadian singer, is dangerously ill in England. His mother is now on her way to nurse him.

BARTELS IS ONCE MORE IN THE TOILS
TORONTO DETECTIVES TRAIL DOWN THE ESCAPED BREWER
CAUGHT IN HIDING ON McMILLAN STREET

After Escaping From Osgoode Hall, Fugitive Found a Day's Concealment in Boarding House Only 3 Blocks Away.

WAS SUPPLIED WITH MONEY AND FOUND QUIETER PLACE
While brushing his teeth in a house 14 McMILLAN street at 1 o'clock yesterday afternoon Herman Bartels was taken into custody by Detectives Robert Moffatt and Ben Anderson. Bartels under the name of Barnes, had a flat in the house on July 9 and had not since been out on the street. He was unshaven and looked worn and sick.

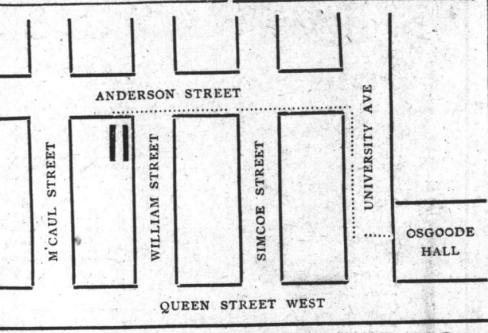

Again he went to the street and at last entered the house of Frederick Woods, at 158 William-street. He asked for a drink of water and after drinking this he asked to see a room, having seen a sign in the window to the effect that rooms were let. Seeing one he engaged it, and paid a dollar. He then went out and entering Fred White's grocery store at 125 McCaul street called on the office of Rowan and Somerville, his local solicitors.

It appears that The World's picture of Bartels the morning after he disappeared was the primary cause of his disappearance from the William-st. haven, after a brief sojourn. William Brad, a next door neighbor, on seeing the photograph was at once struck with the likeness it bore to the newly-arrived lodger, whom he had seen entering the house at 11 o'clock that night and, according to the information in the hands of the detectives, did not again return.

OTTAWA, July 15.—(Special.)—Mr. and Mrs. James Storing, formerly of New Liskeard, now live at Boston, where they keep a restaurant.
A few mornings ago Mrs. Storing went to a spring about 100 yards up the track for a pail of water. Her 4-year-old girl followed. There were a lot of cars standing on the track, and there was no indication that these were about to be moved. There are cars lying there nearly all the time. However, just as the mother stepped off the track, and the daughter was close to the rear end of the last car, there was a sudden shunt of eight cars.

STANDARD OIL DEFENCE.
Enters General Denial to the Allegations by the State.
ST. LOUIS, July 15.—The answer of the Standard Oil Company and its allied companies and officers to the action brought against them here by the federal department of justice was filed today.

BLAIR BOOKS FOR LIBRARY.
OTTAWA, July 15.—(Special.)—The widow of the late Hon. A. G. Blair has donated to the Ottawa Public Library 125 volumes of the most valuable works in the library of the late minister of railways.

NON-UNIONISTS TO BE GUARDED

Mine Owners Will Protect Their Properties to Permit Working in the Mines.

COBALT, Ont., July 15.—(Special.)—The Nipissing mine to-day had three hundred men and five drills at work. The Conlags made a shipment to-day and thirty non-union men are said to be working there. Trethewey has a plant in operation and twenty men at work. This mine will also make a shipment this week. Tomorrow, it is said, will have a full gang working to-morrow.

LAW'S GOOD MEMORY.
Ottawa Man Arrested After Fifteen Months' Absence.
QUEBEC, July 15.—Having left the city in March, 1906, in order to escape the hand of justice, William Dawson remained in parts unknown till Saturday last, when he returned to the city. He was spotted upon his arrival by detectives. He appeared before the police court this morning and was sentenced to two years in the penitentiary.

BOMB KILLS SEVEN.
Factory at Odessa Victim of Its Own Ingenuity.
LONDON, July 15.—A despatch from Odessa says that seven persons have been killed and many injured in an explosion in a secret bomb factory in that place.

A MOTHER'S HEROISM.
NEW LISKEARD, July 15.—(Special.)—Mr. and Mrs. James Storing, formerly of New Liskeard, now live at Boston, where they keep a restaurant.
A few mornings ago Mrs. Storing went to a spring about 100 yards up the track for a pail of water. Her 4-year-old girl followed. There were a lot of cars standing on the track, and there was no indication that these were about to be moved. There are cars lying there nearly all the time. However, just as the mother stepped off the track, and the daughter was close to the rear end of the last car, there was a sudden shunt of eight cars.

7 SAILORS KILLED WHEN POWDER EXPLODES

Gun Crew in Turret of U.S.S. Georgia Mowed Down—15 Injured, Two Very Seriously.

BOSTON, Mass., July 15.—By the explosion of a case of powder in the hands of a gunner in the after super-imposed turret of the battleship Georgia in Massachusetts Bay to-day six men were killed and 15 injured. Not one of those in the turret escaped injury.

What Mr. Bourassa Says He Thinks It Is and What He Proposes To Do.
MONTREAL, July 15.—(Staff Special.)—What is the crisis in Quebec which prompts Mr. Bourassa to seriously consider giving up his seat in parliament in order to enter provincial politics? What is his platform? What results will follow? What effects are to be looked for in Dominion politics? All these questions are being eagerly canvassed thruout the province, especially since the meeting at Montagny.

Blinded by the smoke and felled by the flames and maddened with pain, the men screamed in agony. Some staggered blindly up the ladder to the hatchway in the top of the turret, while others crept along the turret floor, begging piteously for assistance.

GIRL HORSE THIEF AT 16 GIVING POLICE A CHASE
Since Last Wednesday, Galt Lass Has Been Having a Great Time.
GALT, July 15.—(Special.)—Lillian Cooper, a young girl of 16, with a mania for horse stealing, has made some remarkable drives since last Wednesday evening, when she hired a horse from Lawson's livery stable, Preston, and started on a tour of the country.

JOSEPH ROGERS' RELATIVES.

FOUGHT TO KISS IKON.

Remarkable Scenes in the Streets of St. Petersburg.

ST. PETERSBURG, July 15.—The arrival of the famous Ikon of the Resurrection, brought from Palestine by the Patriarch of Jerusalem for presentation to the emperor, was made the occasion of a remarkable anti-revolution demonstration.

There were no disorders, but the moving shrine was beset on its passage by crowds of devotees, who fought for a chance to kiss the Ikon.

REFUSAL TO ELOPE LED UP TO THE MURDER

Theory on Which Hamilton Police Are Working—Heavy Fines for Gamblers.

HAMILTON, July 15.—(Special.)—Mrs. Andrew Rodzyk, wife of the man shot last Friday, will be brought before the police magistrate Tuesday morning for the charge of assisting to commit suicide. She will be remanded until next Monday, when a preliminary hearing in the case of Jacob Sunfield, charged with the murder, will take place.

John W. Jones received word this evening that his uncle, Mr. H. W. Williamson, formerly a resident of Stony Creek, had died at Los Angeles. The remains will be brought here for interment.

Robert Lord, 80 Gore-street, a Crimian war veteran, died this evening in his 83rd year. He had been a resident of Hamilton for almost 20 years. He leaves a widow, six sons and three daughters. The funeral will be held Thursday afternoon at 2.30.

Three of the young men fined \$40 for gambling this morning could not get the money and have had to make a start on a two months sentence in jail.

Acting for the Canadian Amusement Company, owners of the Galety Theatre, McClelland & Bicknell, have written to Trustees Booker, Wilkes and Wilson demanding a retraction by Tuesday of the statements made about the pictures shown in the theatre. The trustees are threatened with a suit for slander unless they retract. Mr. Booker says he will not retract and has engaged Ketter & Thomson to look after his interests.

Mayor Stewart says that the city has an agreement with the G. T. R. under which the company is forced to run two trains a day, each way between Hamilton and Burlington. The company does not run trains on the line at all now, and the mayor proposes to force it to live up to its agreement. He thinks the company should bring down the radial fares. The radial, it is understood, pays the G.T.R. not to operate the Beach line.

The Cataract Power Co. has intimated its intention of giving new incandescent lighting rates for Hamilton on the basis of the rates in the new St. Catharines rates, which are about half what is being charged here. The new rate will be about six cents a kilowatt hour net, as compared with 10 and 12 cents now.

Twenty-three of the thirty young men caught in a raid on a gambling joint at the corner of King and Catharine-streets Sunday night were each fined \$40. Some of those caught failed to turn up and warrants for their arrest were issued. The police had been watching operations from an adjoining roof.

Charles B. Kirkpatrick, traveler for Taylor & Mulvaney, and Miss May Taylor, who were married this afternoon, were the guests of the Herkimer Baptist Church. Rev. T. J. Bennett, who has received a call from Calgary, acted as officiant.

LAURIER'S HOME COMING. Is Due to Reach Grosse Point, Que., on Friday Morning.

OTTAWA, July 15.—According to present arrangements, the government steamer Lady Grey, with Hon. Messrs. Lemieux, Aylesworth, Patterson, Bureau and others on board, will meet Sir Wilfrid Laurier on the Empress of Britain on Friday morning next at the Grosse Pointe quarantine.

The prime minister will transfer to the Lady Grey and come on to Quebec, where the party will proceed at once to the Chateau Frontenac. At the banquet in Sir Wilfrid's honor in the evening the principal speakers will probably be Premier Gouin of Quebec, Hon. Mr. Turgeon, Hon. Mr. Patterson and Hon. Mr. Aylesworth.

On Saturday Sir Wilfrid and the ministerial party will proceed to Montreal on the government steamer, stopping at Three Rivers and Sorel en route for brief demonstrations.

POISONED BY CANNED SALMON. Two Families of Persons Saved by Prompt Medical Aid.

BELLEVILLE, July 15.—William Merton and family and Iven Clancy and family, eight in all, residing in the Township of Rawdon, were on Sunday evening taken suddenly ill after partaking of supper. All were poisoned by eating canned salmon, and only medical aid being near at hand saved their lives. Clancy is in a dangerous condition, but the remainder are doing well.

Asks for Injunction. J. B. Clements of New York has issued writs at Osgoode's Hall against the Imperial Patent Mills, Sturgeon Falls, and the two receivers, Thomas Conitt and E. Sinclair.

THE HAGUE, July 15.—The Argentine Republic and some other Latin American states appear determined to insist upon the insertion in the American proposal regarding the collection of pecuniary debts, which comes up for discussion to-morrow, of a clause specifying that the principle does not apply to state loans.

BILLY CARROLL

SMOKE CONSUMER DUE ON AND AFTER AUG. 19

Notices Have Been Issued to Manufacturers to Install the Appliances.

August 19, 1907, may prove to be of historic mark in the battle to be waged by the city for the prevention of the smoke nuisance in Toronto. It is upon this date that there falls due the first of a series of notices issued by Property Commissioner Harris, calling upon manufacturers and others to comply with the new smoke by-law.

"As fast as we can serve the notices we shall continue to do so," said Mr. Harris yesterday. He intimates as plainly and as vigorously as could be desired, that the city will give no quarter in the fight.

"We will prosecute anyone and everyone who doesn't make a really genuine, serious attempt at complying with the new law is being evaded. Mr. Harris said he will have other notices made in cases where actual effort was made to effect improvement.

The law as it now stands is clear and definite as to conditions that constitute smoke nuisance, and Commissioner Harris is entirely satisfied that it has placed in his hands a powerful instrument. The new statute provides that, despite smoke must not be emitted from any chimney for a period of six months, and the maximum penalty for failure to comply is \$50.

Mr. Harris has already observed the effects of the new regulations. Numbers of manufacturers have installed smoke preventive devices, while in several cases movement has been made towards establishing gas plants, which, of course, do away with the smoke nuisance absolutely. He is convinced that the time is coming when such plants will completely revolutionize present methods of heat and producing motive power.

It is possible for a manufacturer to adopt means to check the public evil and yet have his aims defeated through careless or willfully negligent stoking on the part of an employee. In such instances it will be the city's policy to proceed against the employee who will be directly liable under the law.

All tenders must be in to-day. The formality of destroying the ballots used in the ward one-by-election was gone thru yesterday at the city hall.

General Superintendent Oberne, of the C. P. R. says he will investigate at once the complaint of the city, which states that a train blocked the O'Yonge street crossing of the Esplanade for several minutes on July 12.

The Verse of Gallia

Some time immemorial it was the custom of lovers to con- scribe upon their foreheads, and each year, on the day of summer, to exchange a tender and loving kiss. Somehow the custom was forgotten, and the world was left to its own devices.

The Verse of Gallantry.

From time immemorial it has been the custom of lovers to commemorate their joys and sorrows in sweet, evanescent song, and each year, with the vernal leafage of summer, comes an equally green and tender harvest of verse. Somehow the combination of girl, broad, dim piazza, cushioned hammock and summer night proves too much for the modern "know-it-all" youth, and he floats off mellifluously on a sea of jingle. In ancient days this "queered feeling" would have produced such roundelays as Will Shakespeare's "It Was a Lover and His Lass," or Herrick's "To a Young Lady," but the "quoting influences at play on the race have seemingly dried up the fount of poetry in the present generation, and could interpret the significance thereof. Not he himself, we are sure, for the rest of the verified aggregation of words is similar to the piece now described above. Alas for our modern lovers! Is this all that can be expected of their muse? No, no, no! It is refreshing, and a real relief to turn back to the thumbed and familiar pages of dear Tommy Moore, and lull one's doubts with the following:

The time I've lost in wooing, In watching and pursuing, The light that lies in woman's eyes Has been my heart's undoing— Her smile when beauty granted I hung with gaze enchanted Like him the sprite whom maids at court Of men that's haunted.

Why, oh why, do our modern young people dance as if they were conducting the charge of the heavy brigade, or bucking the line? Oh, how sore are one's toes, how weary one's knees, and how hopelessly crumpled one's dress after a raid at two-step in a crowded hall. It is not dancing, it is jabbing, kicking, butting and ramming till the band stops to take breath and the dancers, thru sheer exhaustion.

However, we can afford to lose the ancient grace of dancing the minutest of energy, if thereby we also lose the grace of the hand and replace him with something more honest, kind and manly. Let the woman look to it that she does not take the worn-out pose of the men have dropped.

The "Decline and Fall Off" of the Beau.

The Dickensian phrase above is not a misnomer. By "fall off" is meant fall from a pedestal. Undoubtedly the beau of ancient days has completely abdicated his throne and only appears occasionally in modern history to his own disadvantage.

The last surviving specimen of the species is the subject of a heartless analysis in this month's Century. He is held up to reprobation in a series of six tirades, and is finally deserted by each and all his victims, with the exception of a tuff-hunting heiress, who succeeds in nailing him down to definite and circumstantial surrender. When we view the pitiful figure that this survival of the unfittest cuts in modern life, we shudder at the thought of those days when beaus were many and a man wore feminine hearts as an Indian does scalps at his belt. Yet there is certain insidious variety of manner not yet unknown to the "love-quick" beau, nor the "pity-my-sorrow" beau, but it is the "watch-me-do-a-stunt" sort who nowadays rattles the brains of the unwary onlooker. And, horrible to state, this species of flirt is not only to be found among men, but among women. Yes, it has come to that! Our girls watch the man of mighty muscle do his worst at basketball, Rugby or lacrosse, and their hearts soften at every blow he bestows on the less lucky adversary. They watch the man just watch the masculine promener at a popular swimming resort. How they admire the girl who can turn a somersault in the water as neatly as a porpoise, or dive like a canvas-backed duck. Consider the effeminate youth who haunts the tennis courts, and the heat of August to get a stray glance from the muscular beauty who is piling up the score at every swing of her pulsant racket.

But where, oh where, in all this strenuous life is the beau? Where, indeed, is the beau? The man who wears frills at his wrists and knee breeches with lace fronts will probably never return to deck the earth with his picturesque presence any more than the 18-inch-waisted lady. But one gentleman has undoubtedly been lost since their disappearance.

Why, oh why, do our modern young people dance as if they were conducting the charge of the heavy brigade, or bucking the line? Oh, how sore are one's toes, how weary one's knees, and how hopelessly crumpled one's dress after a raid at two-step in a crowded hall. It is not dancing, it is jabbing, kicking, butting and ramming till the band stops to take breath and the dancers, thru sheer exhaustion.

Mrs. Roosevelt and the Simple Life.

The wife of the irrepressible "Teddy" has at last herself by starting on a campaign of her own. And, wonder of wonders, the object of her campaign is to make the simple life.

She has decided to discard all such instruments of torture for her own part—and to induce other ladies to follow her example. Her action has precedent. Mrs. Cleveland, at one time lady of the White House, did away with the bustle and the corset, and introduced women into the likeness of the ship of the desert.

Mrs. Roosevelt considers that the question of dress is not a matter of mere fashion, but one of health and light lacing, which affects the most delicate organs of the body, is intimately related to the welfare of the human race and she has resolved to fight the evil.

Mrs. Roosevelt will have the great companies and combines of the corset manufacturers to fight, and it is doubtful indeed if her reform will at once take hold of the majority of women. The abandonment of the corset would mean an immediate and revolutionary change from the present mode of dressing. Where would the Paris dressmaker with his made-over figures and stay-supported finery be? Perhaps, however, in which terminated finally, in which case we may look for the figure of the Venus de Milo, so long traditional, to reappear among women.

The Feminine Movement in England.

"Opposition," says Elizabeth Robins in "Colliers," has developed most of the arguments in its favor. All the telling arguments, witty or wise, are on the side of reform.

The old-fashioned opponent with his jargon about "short hair and the shrieking sirenhood, all his poor little dinky rags of ridicule, have been blown to the winds of heaven, and he can find nothing new.

It is one of the signs of the reserve force behind the movement that every minister to it. The police magistrate sends a hundred unknown to Holloway jail. They come out public characters, but with tales of abuses in the prison system and the crying need for matrons and women inspectors. The authorities try to avoid repeating their error by making all such inconvenient prisoners thereafter first-class misdemeanants and thus ensure their seeing less and having less material with which to stir the public conscience. But the public are quick to detect the fear behind the seeming leniency of the authorities.

WITH WOMEN IT'S LOOKS FIRST.

The average woman considers her first—her health afterwards. That's why we hear of so many cases of broken health and nervous prostration.

She wears furs and heavy garments on a cold afternoon; in the evening with the theatre or party.

Shuffleshoon and Amberlocks.

The poem below is printed by request of its author, Eugene Field, was one of the kindest souls who ever devoted time and energy to the study of children. He has been dead only twelve years, his name is already among the classics as the children's poet:

Shuffleshoon and Amberlocks Sat together building blocks, Shuffleshoon was old and grey; Amberlocks a little child, But together at that play Age and youth seem reconciled, And with sympathetic ease Build their castles fair to see.

"When I grow to be a man, So the wee one's prattle ran, 'I will build a castle so! With a gateway tall as grand, Here an ivy shall grow; There a soldier guard shall stand, And the tower'll be so high Folks'll wonder, bye and bye."

Shuffleshoon quoth, "Yes, I know, Thus I buildied long ago. Here a window; there a door; Here a steepie wondrous tall, Bitheth even now I grow; There a soldier guard shall stand, And the tower'll be so high Folks'll wonder, bye and bye."

Thus they prattle at their play, Heedless of the fleeting day. One speaks of that long ago, Where his child had hope and glow; One with childish cheeks aglow: "Prattles of the bye and bye, Children both ye build your blocks, Shuffleshoon and Amberlocks."

RAILWAY RATE REVISION. The announcement issued by the Canadian Manufacturers' Association to the effect that the board of railway commissioners for Canada has decided in favor of the general readjustment of rates through Eastern Canada.

We would, however, suggest for the consideration of the board of railway commissioners the fact that there are many shippers outside of the Canadian Manufacturers' Association who are deeply interested in the question of transportation tolls.

From our standpoint the changes outlined are of too comprehensive a character to be generally satisfactory.

When the railway companies, for any cause whatever, publish a low rate from one point to another, that rate should be established as a standard.

Local territory should receive the same facilities and rates as those given to common points.

The long and short haul clause should be applied on Canadian traffic.

It would be worse than useless to require the railway companies to submit new tariffs to the board of rail-

way commissioners, unless the members of that board are prepared to analyze and criticize the tariffs in question, and when a multitude of new tariffs are presented to the board at one time this is a physical impossibility.

As we have already suggested there is only one method of obtaining a proper revision of rates and that is, dissect each individual tariff separately and arrange the rates upon an equitable basis.

General orders of the character outlined by the Canadian Manufacturers' Association are not and cannot be effective in doing away with discriminations in rates.

NOVA SCOTIA AND THE COAL QUESTION. W. C. Milner of Halifax has long been an authority upon the coal question.

As secretary of the Free Coal League he has labored for reciprocity in the coal trade between Canada and the United States.

In Nova Scotia all minerals are owned by the crown, and they cannot be sold. The lands, however, are leased to the lessee.

Just now soft coal in Halifax is cheap, comparatively; that is to say, it retails for about \$4.50 per ton.

The same coal is sold in Boston, Mass., for \$2.80, freight and duty paid.

in weight from a cutting loaf kept for the purpose. When bread is ordered the exact weight is delivered to the householder.

The Toronto, bylaw is defective in requiring loaves to be weighed only when requested by the purchaser.

Many residents do not know their rights in the matter and even where there is knowledge the request may not be made on account of the possible reflection it may cast on the honesty of the manufacturer or the vendor.

A peremptory rule removes all sense of invidiousness and was a necessity of life is concerned it should be imperative.

To our mind an amendment should be made securing a square deal for the buyer of bread. The baker buys his flour on weight and the public officials ought to ensure that the public are also protected in the case of the flour product.

FLEMING AND HIS CARS. Editor World: It is to be regretted that there was such a disturbance over the blocking of a few cars.

It is safe to say that if Bob Fleming had not been so offensive the car service would not have been tied up as it was, also Fleming admits that the tie-up this year was not so pronounced as the year before.

We all admit Mr. Fleming is his strenuous effort to keep the cars running, but how often does he smile in blocking the Great Highway, the procession of humanity as it emerges from the workshops, offices and other places of employment.

The tie-up to the public has been of long duration, there seems to be little cessation in inconveniencing them. Every week or so there is a block of 5, 10, 15 or 20 minutes in some section of the city, entailing a loss of valuable time to the ordinary citizen.

Cars are being switched down this street and the other to allow the company to improve the roadbed and tracks.

SET BUILDINGS ABLAZE

Incendiaries at Hartland, N.B., Also Imperil Lives—Damage Estimated at \$250,000.

ST. JOHN, N. B., July 15.—Fire that is said to have been of incendiary origin, did great damage at Hartland, Carleton County, early this morning, the loss being placed at \$250,000.

The blaze broke out after midnight in Thornton's drug store, and it is declared the place was found saturated with oil, and that the fire apparatus had been tampered with, the stamens hose connection having been removed and two joints of hose cut.

The buildings destroyed included Thornton's, Keith & Plummer's produce establishment, McMillan's bookstore, Oren's hardware store, Nixon's grocery, Chas. Harris agency, F. H. Perkins' monument works, Slipper & Miller's blacksmith shop, D. W. Letson's harness store, Maynard's law office, McCormick's implement agency, McLaughlin Carriage Co. agency, telephone office, J. W. Montgomery's provision store and C. Watson's furniture and casket factory.

The upper stories of these buildings were occupied as dwellings, and the occupants lost all their effects. A dozen other places were partially damaged, and the big bridge across the river was also somewhat damaged.

JURY WILL "CAMP OUT." No Room in Court House—Four Italians to Be Tried.

HANNVILLE, La., July 15.—Including the empanelling of a jury which began to-day, less than a week is expected to suffice for the trial of the four Italians, charged with kidnaping and murdering Walter Lamana, a New Orleans child.

Not only does public sentiment make a speedy trial desirable, but there are not enough accommodations here for even the official witnesses.

The jury will be compelled to camp out on improvised beds in one of the court rooms.

The prosecution's aim to show that the strangling of the Lamana boy was only an incident among many blackmailing schemes on foot among the Italian population of this section.

Tony Coste, one of the Italians, made an unsuccessful attempt to hang himself in the prison to-day. He was found and cut down just in time to save his life.

IN DARKNESS TWO DAYS WHILE VOLCANO RAGED. SAN FRANCISCO, July 15.—The outbreak of a volcano on the peninsula of Kamtchatka on Feb. 18 last, threw the whole country into utter darkness for more than 48 hours, and resulted in the starving of natives, according to the officers of the barkentine S. N. Castle, which reached this port last evening, direct from the Okhotsk Sea.

Yankee Ship Wrecked. SAN FRANCISCO, July 15.—The barkentine S. N. Castle, arrived here to-day from the cod fishing grounds off the coast of Siberia, reports that the vessel had been boarded by a Russian gunboat and warned to stay 30 miles from the shore, under threat of being confiscated.

TORTURED BY BURGLARS

Buffalo Coachman Has Tongue Slit and Feet Gashed and Then is Thrown Down Stairs.

BUFFALO, July 15.—Because he would not deliver to two burglars the keys of his employer's house, Frank Smith, 45 years old, a coachman in the employ of John Ghem, a wholesale meat dealer, was horribly tortured Sunday morning and left for dead by his assailants.

Smith's tongue was slit with a knife and the soles of his feet were slashed in a score of places until he became unconscious. The men then threw Smith down the stairs, where he was found the next morning.

The matter was kept a secret by the police until to-day, when one arrest was made. The prisoner gives his name as Taylor.

MARRIAGE CLUE TO MURDER. California Couple Arrested on Charge of Poisoning First Wife.

SAN DIEGO, Cal., July 15.—Fred H. Magill, formerly cashier of the Karner National Bank of Clinton, Ill., was arrested last night with his wife on a charge of killing Magill's first wife at Clinton two months ago.

It is declared that Magill's present wife was formerly Miss Fay Graham, a stenographer, who lived with the Magill family before Magill's first wife died of strychnine poisoning.

A coroner's jury returned a verdict of homicide and dropped the case until it was learned in Clinton that Magill and Miss Graham, who is 19 years old, were married on July 6 in Denver.

SIR WM. PERKIN DEAD. Discoverer of the Mauve Dye Process Passes Away.

LONDON, July 15.—Sir William Henry Perkin died Sunday. He was born in 1838. Sir William Henry Perkin founded the coal tar color industry by the discovery of the mauve dye in 1856 and its subsequent production on a large scale. Sir William visited America last fall and received the degree of LL.D. from Johns Hopkins University.

When in America Sir William Perkin visited Toronto and was a guest of the Society of Chemical Industry, to whom he explained the almost romantic story of his discoveries and subsequent success.

COBALT Strike News Has No Influence on Market Quotations --- COBALT

COBALT --- Strike News and Weekly Shipments Have No Important Bearing on Quotations.

World Office, Monday Evening, July 15. In the mining markets to-day there was very little decided feature...

We are concerned, we would hardly know that there is any disturbance at Cobalt. First Strike at Portage Bay. B. J. Hatmaker & Co. of Buffalo write: We have this afternoon received a telegram from W. G. Barney, E.M. and M.E., our engineer, in charge of the development of the Jumbo Mine on Portage Bay, the telegram reading that at a depth of 32 feet he has struck Ruby Silver. This is the first strike, so far as we know, of Ruby Silver in the Portage Bay district. The Jumbo Mine is owned by the Jumbo Cobalt Silver Mines, Limited, of Toronto.

TRANSFER HOLDINGS. Messrs. Usher, Playfair and Martens have issued a circular in which they advise the sale of Foster and the purchase of Trethewey. The main points made in the circular are: 1. The Foster Co. is admittedly in need of money to pay off present indebtedness, and to carry on the prospecting and development work as outlined by Mr. Loring's report would apparently require a further sum of about \$100,000. Trethewey, however, has a working capital of about \$60,000. 2. To provide part of the necessary funds it was decided to issue the balance of 100,000 shares in the Foster treasury at 75c per share, but in view of the present market conditions the proposed issue will not be taken up by the shareholders. If the issue of stock is a failure we would require the amount realized would only pay off present indebtedness and provide about \$50,000 to carry on work. 3. Should the market issue be successful, the amount realized would only pay off present indebtedness and provide about \$50,000 to carry on work. 4. Comparison of quantity of ore shipped from Jan. 1 to date is as follows: Foster, 140,350 lbs.; Trethewey, shipped nearly ten times as much as Foster. 5. Mr. Loring's report on Trethewey, dated May 28 last, stated that there would be no difficulty in maintaining the present rate of production from reserves for 12 months, and recommended that Share No. 1 be sunk below the present 80 ft. level in the hope of encountering additional ore bodies, as has been done successfully on the Nipissing. Jacobs, O'Brien and Co. also stated that the present revenue of the company was sufficient for maintaining current expenses and the regular 4 per cent. quarterly dividend, but the directors wisely decided to conserve the company's funds for development of the property.

WORK ON THE BIG BEN. Strike at Cobalt Has Not Interfered With Operations. Following is the fortnightly report to Big Ben shareholders: Our No. 2 shaft is now down 70 feet. A substantial cribbing has been installed all the way down, and we have this week started cross-cutting so as to pick up at a lower level our large calcite vein, and also a very valuable vein carrying native silver that enters our property from the south. No. 3 shaft is now almost 40 feet deep, and the showing continues to steadily improve. It has been decided by Mr. F. L. Cole, who is our superintendent at the mine, to put a permanent cribbing in No. 3 shaft, the same as we have in No. 2, and not wait until we get down as deep as 70 feet. The company continues to work both a day and night shift the mine, and everything is progressing most favorably. Although there has been a strike among some of the mines located right near Cobalt, this, however, has not affected the Big Ben Cobalt Mines, Limited, in any way, and we have at the present time all our men at work, and they seem to be perfectly satisfied. As far as

First Strike at Portage Bay. B. J. Hatmaker & Co. of Buffalo write: We have this afternoon received a telegram from W. G. Barney, E.M. and M.E., our engineer, in charge of the development of the Jumbo Mine on Portage Bay, the telegram reading that at a depth of 32 feet he has struck Ruby Silver. This is the first strike, so far as we know, of Ruby Silver in the Portage Bay district. The Jumbo Mine is owned by the Jumbo Cobalt Silver Mines, Limited, of Toronto.

FOR "PRINCE OF WALES." Canadian Scores at Bisley-Milligan Gets 32. (Canadian Associated Press Cable.) BISLEY CAMP, July 15.—Shooting took place to-day in "H.R.H. the Prince of Wales' Prize" competition. It is shot over the 500 and 600 yards ranges. At the former range, the Canadian scores were 32, made by Pte. George Milligan of the 48th, Toronto, and by Pte. J. S. Stevenson of Ottawa. This prize was won by Lieut. Col. Gibson, the commandant of this year's team, in 1879. Twice since that it has been brought to Canada by members of the Canadian team.

BALLOONIST DROWNS. Fatal Ending to First Ascent—Descended in Lake. KALAMAZOO, Mich., July 15.—Chas. Sann, aged 20, of Battle Creek, was drowned in Gull Lake Sunday on making a parachute drop from his first attempt at a balloon ascension. Small boats reached the parachute descending but Sann's body had gone to the bottom. The descending he was heard to say: "Get a boat! I can't swim!"

ALLEGED SPY ILL-TREATED BY AGRIEVED WORKMEN. DAUPHIN, Man., July 15.—The government is investigating the mobbing of R. Fairbrother, a C.N.R. fireman, and an alleged thief. Canadian Agents spotted on Saturday. Fairbrother was decamped to the railway shops and bound by a rope to the end of a truck. He was then wheeled to within a short distance of the force pump, and the hose turned on him.

Porto Rico was ceded to the United States in 1898 at the conclusion of the Spanish-American War, and is permanently a possession of the United States. Since the American occupation the increase in production of sugar, tobacco and fruits, the principal exports (except coffee, which is third in importance), has been very great, for the reason that these products go into the United States from Porto Rico free of duty, while all other countries have to pay heavy duties. The altered position of the island, politically and commercially, has so stimulated trade that the total exports, which in 1901 were \$5,583,952, have shown large gains each year, the amount in 1906 having been \$23,257,530. The rate of development of the business of the island is further evidenced by the totals of imports, which in 1901 were \$9,266,230, and in 1906 were \$21,827,665. This rate of progress bids fair to continue with increased momentum, the climate and the fertility of the soil responding to better methods of cultivation which are being introduced. The population of Porto Rico, according to the census of 1900, was 952,243, the island being said to have the third densest rural population in the world. The Porto Rico Railways Co., Limited, was formed in October, 1906, under a Canadian charter, and acquired all the Electric Railway, Electric Light and Water Power business of San Juan, the capital and chief city of the island; Santurce, a populous suburb, and Rio Piedras, a town 7 1/2 miles distant from San Juan. The water power, which is estimated to be sufficient for all the needs of the company, is now being developed at Comerio Falls on the La Plata River, 15 miles from San Juan. An issue of \$800,000 of bonds is now being made for an extension of 17 1/2 miles from San Juan through Trujillo-Alto to Caguas, the centre of a large and fertile valley, thickly cultivated, principally with sugar cane and tobacco, and with tobacco factories and sugar centrals in and tributary to it. This will be the only rail-gauge running into the interior from San Juan, and it must, from the nature of things, show heavy freight and passenger earnings. An important contract has been made with the Porto Rican Leaf Tobacco Co., a subsidiary company of the American Tobacco Company, under which the Porto Rico Railways Co. hauls at remunerative rates all the highest quality tobacco produced between Caguas and San Juan for a period of ten years. The population along the line of railway is estimated at fully 100,000. The company's electric railway and electric lighting business has been in successful operation for years. Net earnings were \$75,402.31 in 1906, and \$99,154 in 1906, while results for the first five months of the present year indicate net earnings for 1907 of over \$140,000. These earnings were produced by only \$850,000 of the net issue of \$2,300,000, as the proceeds of an issue of \$650,000 of bonds made last October for developing the water power, double tracking, buying new cars, etc., and the proceeds of this issue of \$800,000 have yet to be represented in earning power. There is thus the unusual feature in an offering of bonds carrying a stock bonus that

of the Porto Rico Railways Co. considerably exceeds the interest on the whole bond issue of \$2,300,000, although the proceeds of nearly two-thirds of the whole bond issue are being spent so as to greatly increase both gross and net earnings. Messrs. J. G. White & Co., of New York, constructing and operating engineers, have made a careful estimate of earnings and expenses of the entire system for the calendar year 1908, which shows net earnings of 92 1/2 per cent on the \$2,300,000 of outstanding bonds, leaving a surplus of over 5% upon the \$2,500,000 of outstanding stock. Prospects are favorable for large increases in net earnings year by year, as gross earnings are expected to expand steadily, and Messrs. White & Co.'s estimates are on the basis of 4 1/2% operating ratio—a high rate for operation by water power in a tropical country. The company is well equipped for the successful management of its business, both through the special experience of a number of members of the Board of Directors and through the Consulting Engineer's intimate knowledge of West Indian conditions. A LARGE PORTION OF THE ISSUE OF \$800,000 OF BONDS HAVING BEEN SOLD, WE NOW SUB-JECT TO SALE, OFFER, IN CONJUNCTION WITH THE ROYAL SECURITIES CORPORATION OF MONTREAL AND HALIFAX, AND MESSRS. J. C. MACKINTOSH & CO., OF HALIFAX, THE REMAINDER OF THE ISSUE AT 92 1/2 (AT WHICH PRICE THE BOND WILL YIELD 5 1/4 UPON THE INVESTMENT), THE SUBSCRIPTIONS CARRYING STOCK BONUSES OF 50% OF THE PAR VALUE OF THE BONDS. An arrangement has been made under which subscribers for other than even thousands may even up fractional shares, at the time subscriptions are made, by buying or selling on the basis of \$30 per share. Subscriptions are payable as follows: 12 1/2% upon subscription, and 25% each on the First Days of September, October, November and December next. Bonds may be paid for in full on subscription, or on an instalment date thereafter. Applications will be made in due course to have the stock of the company listed on the Toronto and Montreal Stock Exchanges. Subscription books may be closed at any time without notice. The right is reserved to allot smaller amounts than applied for, and to reject subscriptions. To insure allotments, out-of-town subscribers may telegraph subscriptions at our expense. Prospectus and application forms furnished on request. We regard an investment in the thirty-year 5% gold bonds of the Porto Rico Railways Company, Limited, and particularly attractive in view of the bonds being accompanied with a bonus of 50% of their par value in stock, which should come into dividends within a comparatively short time. This statement is made after two visits to Porto Rico within the last year by a member of our firm, with directors and officers of the company.

Receipts received daily by E. T. Carter & Co. at Front Street, Wholesale Dealers.

Monday was a quiet day on the wholesale market, the receipts of strawberries.

There was a good demand and all offerings were readily taken.

Some of the samples of strawberries are being offered to the general public.

It is a question if the quality of the fruit generally is up to the average.

Notwithstanding the fact that the fruit is reported that good fruit prices have been offered for the entire output of the harvest.

York County and Suburbs

GERRARD-ST. IS BEING EXTENDED EASTERLY

York Township Council Are Energetic—Junction Council Meet—County News.

TORONTO JUNCTION, July 15.—Judge Morgan will hear the appeals on assessment rolls in the council chamber on July 23. There are six appeals in the Junction.

Rev. Dr. Pidgeon of Victoria Presbyterian Church and Mrs. Pidgeon leave tomorrow for Mount Forest on their holidays. Before returning they will also spend a few days at Kingston.

W. R. Taylor, M.A., the assistant pastor, will conduct the services during Dr. Pidgeon's absence.

Edward A. Miller, only child of Mr. and Mrs. Miller, 40 Laws-street, was buried this afternoon in Prospect Cemetery.

Mark Barker, aged 67, died this morning of asthma at his son's residence, 1287 Dundas-street. He arrived from England just a week ago for his health, and is survived by his widow and one son, who has been a resident of the Junction for a considerable time.

Interment will take place on Wednesday in Prospect Cemetery and the service will be conducted by the Salvation Army.

A brick block will be erected by A. C. Stanners opposite the Gilbert property on Dundas-street.

Dave Muir of Edmund-street has sold one of his milk routes to Fred Taylor of Weston-road, as he has too much business in the city to be able to supply all his customers.

Alex. Cotton, one of Muir's drivers, has purchased a milk route from N. Ineson and will take charge of it on Monday next.

Emily Giddard of Surrey, England, was married on Saturday, July 13, to George William Holmes of Toronto Junction. The service was performed at the home of Mr. Wiles, 51 May-st., by Rev. Dr. Pidgeon.

Mayor Baird will return to Muskoka tomorrow for another fortnight's holiday.

The Davenport Methodist Church Sunday School will hold their picnic at Centre Island Park next Wednesday afternoon.

The regular summer shoot of the Toronto Junction Gun Club will be held on Wednesday afternoon on the club's grounds at Lambton.

Chairman Hain of the board of works, John McMillin, superintendent of waterworks, Fire Chief Robinson and a waterworks expert from Toronto named Warnock, inspected the waterworks at the junction, but were not satisfied with their plans.

The regular meeting of the town council was held to-night, Mayor Baird presiding. A letter was received from H. T. Small asking for a water service to connect with the town's main on Elizabeth-street.

Swansey, the contractor, was granted, on condition that Mr. Small pay all expenses in connection with the paving of Dundas-street.

Councillor White asked when the paving of Dundas-street would commence, and if the contract him that the contractor had assured him that he would commence on Wednesday night, but he did not know whether the contract was signed or not, as it has been in the contractor's hands for a week.

Councillor Bull complained that the watering cart was not covering enough ground on the north side of the town. He was told that unless another cart and team were purchased the service could not be improved.

A letter was received from the town solicitor to the mechanical superintendent that the water contract with the town solicitor was necessary to the town's improvement of the school room. The chance will be raised a foot higher.

PINE GROVE. Officers Attribute Injuries as Probably Due to Accident.

PINE GROVE, July 15.—The reported mutilation of two cattle, and so on the farm of John Ringlands, near this village, turns out to be not so serious as at first reported. Constables Burns and Simpson have investigated the matter, and High Constable Burns stated yesterday that the injuries in the case of the cattle may have been caused by dogs, while the injury to the cow, owing to the roughness of the pasture land, may have been caused through coming in contact with stumps or a barbed wire fence.

It is understood that the owner still regards the injuries as likely to have been inflicted through spite.

BALMY BEACH. Residents of Balmy Beach complain of the car service. Cars enter Scarborough Beach, go around a curve and stop at the intersection of Howard-street and Queen-street. There is a stub line from Howard-street to the entrance of Scarborough Beach, which also connects the beach with Munro Park. Residents want this stub line to stop at Howard-avenue and have the entrance to Scarborough Beach to Howard-avenue.

DOVERCOURT. The celebration of the second anniversary of the Davenport-road Presbyterian Church will take the form of

senting himself as being a resident of the Junction.

Armstrong & Cook asked for a new sidewalk on the May-street extension. This was referred to the boards of works.

A communication from the school board added that the sum of \$1000 be agreed to. In going over the estimates for to make repairs to the town hall, and \$1000 off the executive committee. The revenue from the sale of land was estimated at \$2000 instead of \$2000, making the total reduction of \$4000 in the estimates. The rate for the ensuing year was struck as follows:

General rate 18.8 mills; public school 1.8 mills; colligate institute rate 1.8 mill; making a total of 22 mills on the dollar. The mayor informed the council that he had instructed the clerk to issue a writ for the election of public school trustees in ward one on July 23, and also to proclaim Aug. 5, which is the Toronto civic holiday, to be a general holiday at the Junction. On the report of the mayor that in town for the past few years, and who can no longer support herself, the council instructed that she be placed in the Newmarket House of Refuge.

The Victoria Presbyterian Church, which is to be held on Mr. Gilles' lawn, 111 Laws-street, was upset by the rain so an adjournment was made to the house, where the evening was taken up with games and music.

EAST TORONTO. Water Supply Has Need of Strict Economy.

EAST TORONTO, July 15.—Acacia Lodge, A. F. and A. M., held their regular lodge meeting in Small's Hall to-night.

Rev. Mr. Ferguson, pastor Hope Methodist Church, is absent on his vacation. The funeral of the little 11 months old daughter of A. Webster, took place at St. John's Cemetery, Norway, this afternoon.

Mr. and Mrs. George Stephenson and family, of Wilkesbarre, Pa., are spending their vacation at the home of Mrs. Stephenson, Danforth-avenue.

In many cases, notably among railway men, the action of the council in restricting the use of lawn hose to a short time in the evening, is severely commented upon. It is urged in connection of the rule that the water supply will not permit any longer use.

NORTH TORONTO. Auto Runs Backward Down Hill—The High School Entrance Exams.

NORTH TORONTO, July 15.—Principal W. J. Thomson of the Deer Park public school made an excellent showing with his entrance class at the recent examination. He recommended ten for trial and eight passed, making a record of 80 per cent.

However, two candidates thought they might try, against the recommendation of Mr. Thomson, but they failed. Counting these two pupils the percentage still left is 67 per cent. Gladys Ferguson received the second scholarship prize from the Township of York.

Principal Urmey of the Davisville school stated to The World this morning that the number of candidates writing at the late entrance examination was not fourteen, but only eleven, a number of percentage of 80 per cent.

Mr. E. Grainger and children, of 151 E. Doney sold two lots on the east, north side, of 25 feet each, for \$25 each, to the City of Toronto.

Last night at about 6 o'clock an automobile with ten occupants went from Moon Park over the bridge to Bayview-avenue. In climbing the hill for some reason the machine backed up and went down the hill thru the railing of the bridge and over the bridge into the old belt line, 20 feet below the bridge. The damage to the car was slight, and strange to say, that of the three men, three ladies and four children no one was hurt, but they all received a severe fright. H. Nelson, third deputy receiver of the township, was engaged by the owner of the car to bring the occupants to his house moving apparatus to bring the car up to the road again. The owner of the car and the occupants would not disclose their names.

At a meeting of the vestry of St. Clement's Church, held to-night, it was unanimously resolved that the members of the building committee be appointed.

The report stated that owing to the excessive price asked in the tenders submitted for the enlargement of the church, such alterations would be carried out as were necessary to the improvement of the school room. The chance will be raised a foot higher.

YORK TOWNSHIP COUNCIL. The last meeting of the township council, held on July 15, at the council chamber, was a busy one.

Ex-Warden Anthony Forster of Locust Hill was in the city yesterday, where he was attending to the Locust Hill creamery, of which he is secretary.

Mr. Forster is optimistic regarding the outlook for the spring crop up through the townships of Markham and Scarborough, Fall wheat and barley, said Mr. Forster, will not be ready to cut then only in certain localities, and will be fully three weeks late, but prospects are better than in past years, in fact are looking fine. Timothy will be ready to cut the latter part of the week, and last fortnight, and the root crop is looking very good, and the pasture land, thru being turned unduly close.

"In short," said Mr. Forster, "the outlook is good in Markham."

From other parts of York county, equally encouraging reports are forthcoming.

The apple crop, while it will not be as big as anticipated, will nevertheless yield much better than last year.

An Agincourt correspondent writes: The majority of the farmers in this locality have commenced cutting hay and report the crop not up to the average. The new meadows are fairly good, but the old ones will not cut much more than one ton per acre. Oats and peas are looking fine; very little fall wheat was sown around here last fall. Barley will be about an average crop. The root crop is looking very good, and the rain this week is helping it very materially.

There is some talk of the potato blight making its appearance in some localities already.

A horse belonging to Jas. Kennedy ran away from the C. T. station on Thursday of this week. One of the shafts of the rig ran into its shoulder, and the horse was badly injured. It was as can be expected at present. The large new bank barn of W. B. Davidson is nearly ready to receive. Both the crop and presents a handsome appearance. Mr. Jas. Elliott has charge of the carrying work. Mr. Hoover did the stone and cement work, both of which reflect credit on the mechanics in charge.

MAGISTRATE ELLIS LENIENT. George Hare and Caleb Hopkins appeared before Magistrate Ellis yesterday charged with unlawfully taking stone from the lake shore in front of George Northcote's property at New Toronto.

The unwarranted Magistrate Ellis perpetrated a joke when he characterized the proceedings as "stone hooking." The case was dismissed.

BERLIN, July 15.—(Special.)—Mayor Bricker said to-day that an extra force of men would be put on to rush the work of numbering houses, so that the postoffice authorities may inaugurate the census at an early date.

Had the town been prepared the delivery would have begun last week.

WESTON. Principal Alexander Has Great Record as Teacher.

WESTON, July 15.—J. C. Wallace has resigned his position as leader of the Presbyterian Church choir. He will be succeeded by A. Pierce, formerly of the Washington-avenue Baptist Church.

The annual picnic of the combined Presbyterians and College-street Presbyterians, on the grounds of Dr. Irwin, on Saturday evening, was a great success.

H. J. Alexander, principal of Weston Public School, is being warmly congratulated on the success which attended his pupils at the entrance examinations. The first ten names on the list were his pupils. Out of the 24 candidates 18 were successful.

GERRARD-STREET EXTENSION. The York Township Council are showing commendable energy in the extension of the Gerrard-street, from limits.

Within the past six months the Toronto Street Railway Co. have extended their line from the east end of the city to Greenwood, and a regular service is now maintained to this point.

When Wallace Maclean, who for some years represented the Norway district as a member of the York County Council, was elected to the York County Council, he was elected to the office of the other members of the council.

Between these two points two deep ravines are crossed. In each of these a long concrete culvert 55 ft. long have been constructed, but completed.

The roadway is of the full regulation width, 66 ft., and every inch of the most substantial and permanent character. The distance between the pre-line and Cowl-well-avenue is about half a mile.

Considerable grading has also been done on Reid-avenue between Queen-street and Gerrard, and on Cowl-well-avenue between the work of extension and the work of extension.

The council is of the opinion that the present terminus of the Gerrard-street and Cowl-well-avenue is about half a mile.

Five years ago Reid and Ashdale-avenues were unknown; to-day these streets, nearly a mile in length, are lined with comfortable houses, the and laborers, most of whom built their own houses before and after their regular hours of work.

It is proposed to open up Reid-avenue to the G.T.R. and in a short time the latter will be open from Danforth-avenue southerly to the railway tracks.

A deflection of some 300 yards in the street is made at Cowl-well-avenue, where the road skirts the golf course, continuing easterly to connect with the street of the same name in East Toronto.

The building up of the portion already provided for by the city, and now under construction will be a splendid residential section, already the home of scores of city workers.

Already three churches originally established as missions, have been found too small to accommodate the rapidly increasing population, and which tonight the Anglicans will open a handsome new mission on Ashdale-avenue.

A 11,000 public school is being erected at the same place.

The opening up of the Gerrard-street will provide the most direct and convenient means of communication between the east end of the city and the annexation of the latter by a short route, giving single fare to all parts.
