TESTIMONY OF GEORGE WRIGHT. WHO VOTED FOR McKEAY. But Subdivision No. 10, St. Vincent, North Grey, Talled Only 29 for Boyd.

DECLARATION OF GEORGE WRIGHT. I Open Sound, July 4.—Thirty-one electors in polling sub-division No. 10, St. Vincent, the poll in which four Boyd ballots were mutilated, have made a declaration that they voted for the Conservative candidate, that they did not mutilate their ballots, and that there were no other marks on the ballots but the cross.

Mr. Wright came to the polls on the morning of July 4. He was wearing a blue suit, a white shirt, and a blue tie. He was seen by several of the electors who voted for Boyd.

Mr. Wright's declaration was signed by him and witnessed by several of the electors who voted for Boyd. The declaration was filed with the returning officer.

WADED INTO DEEP WATER. William Goddard, a Young Englishman, the Victim of a Sad Drowning Fatality. A FRIEND TRIED TO SAVE HIM. Body Recovered in Fifteen Feet of Water After an Hour's Search.

William Goddard, 22 years of age, a laborer, lost his life by drowning yesterday at noon in the Don. Dr. W. A. Young, who was the coroner summoned in the case, deemed an inquest unnecessary, and made an order for the funeral, which will take place at Mount Pleasant Cemetery on Monday afternoon.

Goddard came out from England about three months ago with George Andrew, a bosom friend, and both received employment at the Don Valley Pressed Brick Works. They boarded a roomed together at the home of Edward Wickham, at Tomsonden.

Goddard and Andrew were out for a walk on the beach at Tomsonden, about 12:30 o'clock yesterday, after eating their dinner, they decided to go in bathing before returning to their place of employment. They picked out a spot below the lower mill dam, and Goddard, who couldn't swim, got beyond his depth. He uttered a cry for help, and Andrew endeavored to save him, but he sank in 15 feet of water, and did not come to the surface again.

Andrew dived repeatedly, without success, and then ran to the brickworks for assistance. Superintendent J. B. Miller, with George Bull, James Burgess and William Ford, hurried to the scene of the fatality, but it was not till 2 o'clock that the body was taken from the water. County Constable Brown had the remains removed to the home of Mr. Wickham, where they were viewed by Coroner Young. The expenses of the funeral will be paid out of funds in the name of deceased at the Post Office Savings Bank.

Thomas Melchish of 144 Lindsay avenue is an uncle of deceased. RAINS HURT CROPS. Gloomy Advice From Several Townships in Western Ontario. London, July 4.—The heavy rains of the past few weeks will, it is feared, have a disastrous effect on certain varieties of farmers' crops. Advice from several townships state that both clover and pea crops are rotting at the bottom, while corn will also be a failure, because of the cold, wet weather. J. M. McEvoy, who was in Moss Township yesterday, reports that the heavy storm of the previous night had converted whole fields of grain and hay into mud, and that the white roads are also under water in many places. In Glenora, many yards became ponds today.

9-HOUR DAY FOR MOULDERS. Granted in New York—General Deceased Under Consideration. New York, July 4.—The New York district of the Iron Moulders' Union of North America announced yesterday that its members, numbering 2200 in New York and its vicinity, have gained the nine-hour workday. Its granting is the result of arbitration between representatives of the employers' association and the union. In a few days the union will announce a general convention in three years at Toronto, Canada. A general demand for a nine-hour day will be considered. No strikes are expected.

HIGHEST IN SIXTY YEARS. Thermometer Registered Yesterday at Hottest Point 83 Degrees. The highest temperature recorded yesterday was 83, at 4 o'clock in the afternoon. The average for the day was 71 degrees, which is 4 degrees above the average for the 4th of July during the past 60 years. There are no indications at the Observatory of cool weather setting in immediately, so that a high temperature is in order for the next couple of days, at least.

CORONATION MAY BE IN AUGUST. Stands on Route to Abbey Will Not Be Removed. London, July 4.—The Pall Mall Gazette has the latest report that has reached the office of that newspaper, is that if the King continues to improve as hitherto, the coronation will take place during the last week in August. Therefore, the stands on the short route from Buckingham Palace to Westminster Abbey will not be removed at present.

KING ALLOWED NOW TO READ. Latest Bulletin Says Wound Shows More Active Signs of Repair. ONLY ONE ANNOUNCEMENT A DAY. Queen Takes an Afternoon Drive, the First Since His Majesty's Illness. London, July 4.—The following bulletin was posted at Buckingham Palace at 7 p.m.: The King has had a quiet day. His constitutional condition is satisfactory, and the wound shows more active signs of repair. (Signed) Treves, Laking, Barlow. The progress of King Edward continues satisfactory. Beginning July 6, only one bulletin a day concerning His Majesty's condition will be issued; this bulletin will be posted at 9 o'clock in the morning, and the arrangement will be continued until His Majesty is entirely convalescent.

THE CITIZENS RESCUED BY BOATMEN. Water is Within Fourteen Inches of the Record Mark of the 1892 Flood. Calgary, N.W.T., July 4.—Moderate rain fell all day yesterday until about 5 o'clock, when it began to rain very hard, continuing nearly all the night. The Bow River rose rapidly during the night, and when morning dawned the river flats were a waste of swirling, rushing water. Some people had moved out last night in anticipation of a flood. Other houses were flooded out during the night, and the inhabitants had to be taken out in boats. Crowds of citizens gathered to watch the work of the rescuers. The firemen and mounted police rendered splendid service in this work.

POPULATION OF MONTREAL. According to City Directory Census it Approximates 273,000. Montreal, July 4.—Montreal's population approximates 273,000, according to the figures of the new city directory census, which have been carefully compiled. This shows an increase of about 8000 over the figures issued by the government after the last Dominion census. The directory returns give a total population of 333,801 for the city and adjacent suburbs, the population of the latter being estimated at 38,501. The total number of names in the directory is 85,000. Last year there were 83,550 names, basing the average family at 3.12, the total population is arrived at by these means. Formerly 75,000 was taken as the average, but a study of census figures has shown that this is too high.

AN EXPENSIVE AFFAIR. Loss of \$17,000 in Receipts by the Three Days' Strike. The receipts of the Toronto Railway Company for the month of June amounted to \$132,265.58, a decrease in the receipts for the same month of last year of \$88,724. But for the three days' strike during the month the company's official estimate that there would have been an increase of probably \$12,000, instead of a decrease of \$17,000. The decrease in the receipts of the receipts as it otherwise would.

HIGHEST IN THE WORLD. Alpine Observatory Will Be 15,000 Feet Above Sea. London, July 4.—At the instance of Prof. Angelo Mosso, the well-known physiologist, Queen Marguerite of Italy has consented to allow her beautiful chalet, which is situated on Mont Rosa at a height of over 13,000 feet, to be transformed into a physiological observatory. In order to permit scientists to study the influence which rarefied atmosphere at high altitude has on natural life. This observatory will be the highest of its kind in the world.

BRAKEMEN AND CONDUCTORS AGREE. C.N.R. Makes Satisfactory Arrangement With Them—Others Still Out. Winnipeg, July 4.—There is little change in the strike situation up to the present. Matters between the company and the brakemen and conductors have been satisfactorily arranged, but the men out on strike are sticking to their first position, and won't give up until they have a question of time until the company will have to come to terms. At their meeting this morning the men all have endorsed the action of their committee.

35 DEATHS IN A DAY. Phase of Philippine War More Terrible Than Bullets. Manila, July 4.—There were 54 new cases of cholera reported in Manila yesterday and 35 deaths from the disease. The totals for the province since the outbreak are 10,332 cases of cholera and 7718 deaths. The Health Board has abandoned the cremation of the dead, and has substituted quicklime at 80 cents per ton. The religious objections of the people.

WILL WATCH HAMILTON. Ottawa City Council Unable to Decide on Municipal Elections. Ottawa, July 4.—The special committee of the City Council to deal with the telephone question met tonight, but was unable to agree on any final arrangement. Some of the aldermen favor the establishing of a municipal system, others favor giving Oscar Wentworth Rogers a chance to carry out his offer, and others want to squeeze another bargain out of the Bell Telephone and extend the monopoly. The situation in Hamilton is somewhat analogous to that here, and the council is expected to have the question over for a time and watch the outcome of the issue there.

TO-DAY IN TORONTO. Home Old Boy's Excursion to Seaforth. Excursion to National Exhibition for Tomorrow at Greenwood. Special train leaves Union Station at 8 p.m. Toronto at Niagara Falls, 2 and 3 p.m. Toronto at Huron Park, 2 and 3 p.m.

PRESIDENT CANNOT MOVE TO INTERFERE WITH STRIKE. Has No Legal Right in the Present Situation to Take Any Action. ERIE COMPANY'S GENEROUS OFFER. Willing to Give Ten Per Cent. Advance to All Workers—Other Companies to Follow.

Washington, July 4.—The President said yesterday that he had yet found no means whereby he could intervene in the coal strike. The President has had before him for several days the report of Labor Commissioner Carroll D. Wright. It is stated on good authority that Mr. Wright had informed the President that there is at this time no warrant for the interference of the Chief Executive. The President, nevertheless, is anxious to find a way, and it is hinted that Colonel Wright has pointed out to the President the contingencies under which he may act and that the President will watch the situation daily with the avowed purpose of taking a hand when the contingencies arise.

Representative Patterson of the Senate bill Committee of Pennsylvania, where the strike now exists, conferred with the President today regarding the strike. Mr. Patterson said: "The President is very anxious to bring about a settlement, but can do nothing now. He said he expected to spend the next month or six weeks resting. The difficulty is that the President has no official control over either faction, and is powerless as things now stand to proceed in the matter effectively and legally. I know the President is most sincere in regard to this question and very anxious to do something effective. He will not, however, undertake anything which he cannot carry through to success and which will be no production of results. He will take no active part."

MOVE TO BREAK THE STRIKE. Wilkes-Barre, Pa., July 4.—Ten per cent. to all its workers was the advance given by the Erie Coal Company today, and this plan it is understood, will be followed by all other companies, there being an agreement to this effect. The increase, of nearly ten per cent., is a reward to new recruits to the company and an incentive to strikers to apply for work. The plan was proposed by the coal carrying companies as one of the several they have for breaking the strike, and coming into the coal mines, and it is believed that it bears out the plan given by operators of some aggressive move after the Fourth of July.

MILLIONS GONE IN FLAMES. British Military Stores at Lorenço Marques Destroyed. Lorenço Marques, Portugal, July 4.—British military stores, valued at over \$500,000 (\$2,500,000), have been destroyed by a fire, which started at the Netherlands pier yesterday and spread to adjoining property. The flames were extinguished as this dispatch was filed.

FASTEST OF FLIERS. New York, July 4.—Never since the electric bow then flashed across the yachting world has there been so much interest in a pleasure craft as has been shown in a turbine type of steam propelled motor launch, early in April, went overboard from the ways of her Morris Heights constructors. Pioneer, on this side of the Atlantic, of this newly applied method of propulsion, this yacht has been christened the Revolution—a name intended to be absolutely descriptive.

UNIQUE PANAMA. There are more Panama hats and Panama hats in the Dineen Company's store today than in any other two hat stores in Canada. Now, that's a pretty big statement, but the company will back it up with the goods any time you want to drop around and see for yourself. The greatest effort on the collecting of this stock, and those who have seen it have acknowledged it as superior to any they have met yet. The Dineen Company imported these Panama hats from South America. The line at \$9.75 is positively unique. Store open until 10 o'clock tonight.

MOSTLY FAIR AND VERY WARM. Meteorological Office, Toronto July 4.—(8 p.m.)—The weather continues showery in the Northwest Territories, but very high temperature prevails in Manitoba, and there is now likely to be a decided improvement in the weather further west. Fair, warmer weather has been general to-day from Ontario to the Maritime Provinces, but thunderstorms are prevalent in the former province. Minimum and maximum temperatures: Calgary, 50-58; Edmonton, 54-64; Winnipeg, 62-82; Port Arthur, 50-62; Toronto, 58-82; Ottawa, 58-80; Montreal, 58-70; Quebec, 52-74; Halifax, 54-74.

Probabilities. Lower Lakes and Georgian Bay—Southwesterly winds; mostly fair and very warm, with local thunderstorms. Ottawa Valley and Upper St. Lawrence—Mostly fair and warmer, with thunderstorms in many localities. Gulf-Warmer, local showers, but mostly fair weather. Maritime—Moderate winds; fair and warmer; local thunderstorms by night. Lake Superior—Fresh winds; mostly fair and warmer. Manitoba—Continued very warm and partly fair, with occasional thunderstorms.

TO CHECK BETTING.

Impossible to Suppress Altogether, But Recommend Legislation.

London, July 4.—The select committee of the House of Lords, which was appointed last January to deal with the evils of betting, and which included the Earl of Durham, the Earl of Harewood, the Earl of Derby, the Earl of Aberdeen, Viscount Peel and the Right Rev. John Percival, Bishop of Hereford among its members, has just issued its report.

The committee has arrived at the conclusion that betting cannot be altogether suppressed, but in view of the fact that, while the practice has declined among the higher classes and horse owners, it has taken an increasingly stronger hold on the working classes, it recommends that betting should be confined by legislation to the actual scenes of racing and athletics.

Bookmakers who induce boys and girls to bet should be imprisoned, and the committee finds that the same penalty should be extended to street bookmakers against whom repeated convictions have been recorded.

It deprecates any attempt to prohibit the publication of starting prices, but favors the suppression of the advertisements of sporting events. The committee considers it impossible that the Jockey Club should undertake the responsibility of licensing bookmakers, and opposes the introduction of the French "Paris mutuel" system.

It is said that the young man now declares that his whole life has been changed. He wishes to become an educated man, and is anxious to study for the ministry.

TAKING THE LAUNDRIES. The average citizen, there seems to be something of a feeling in the decision of the Property Committee of the City Council to impose a uniform tax of \$50 on all laundries. The tax is open to serious objections. In the first place, it seems to be aimed at a particular class of citizens—the small laundries, to wit, in discouraging the Chinese washer-men.

SURROUNDED BY ARMED MEN.

Three Thousand Soldiers Form Roosevelt's Personal Escort. Pittsburg, Pa., July 4.—Half a million persons greeted President Roosevelt in Pittsburg to-day. They came, not only from Pittsburg and Allegheny, but from the scores of small towns within 100 miles of the city.

THE SUNSHINE BRIGHTLY AND THE temperature was not too high. President Roosevelt reached the city at 8:45 o'clock, and a Presidential salute of 21 guns was fired in his honor.

When the head of the military escort reached a position opposite the speakers' stand, he was halted, and stood in company front, with arms at attention. As the President and those attending passed in review, the music was fairly drowned by the cheering of the multitude of 200,000 people in the grand and occupying advantage points on the amphitheatre-like hillside which rose in front.

Following the bands, the United German societies of Allegheny, standing at one side of the stand and made up of 600 voices, broke into singing the "Star Spangled Banner." At the close of the song, an invocation was pronounced by Rev. John H. Frueh. The Declaration of Independence was read, and then followed the oration of the day by the President.

AFTER THE EXERCISES, THE President was tendered a luncheon and reception at the residence of H. C. Frick, on Homewood-avenue.

SEVEN PER CENT. DEAD. Terrible Cost of War in South Africa Computed.

London, July 4.—The advent of peace has set British journalists counting up the losses in the war. From Oct. 11, 1890, to June 1, 1902, in all 415 months of war, the ultimate triumph of the British arms has cost 21,570 lives, or nearly 7 per cent, of the troops engaged.

ATTACKED BY INDIANS.

Inmates of B.C. Fort Had Week's Scarcity With Redskins.

Vancouver, B.C., July 4.—The historic Hudson Bay fort, Saint James, British Columbia, was recently attacked by Indians, halfbreeds and thero-breds. Some of them were escaped from the fort, and made a charge on the storehouse, the only entrance to the fort. They were met by a hail of bullets from the rifles manipulated by the factor board of the fort and a friend of the cook, who wished to avenge his death and had taken his place. The Indians retreated, but for a week made frequent sorties and charges in an attempt to get at the liquor and stores.

GYPSIES HOLD THE ROAD.

Roumanians Refuse Passage on All Who Do Not Pay Up.

Ottawa, July 4.—An extraordinary state of things on the government canal reserve, three miles from the postoffice, is reported to-day, and is being investigated. A gang of Roumanian gypsies has camped on the reserve near Dow's Lake, close to the road to Hog's Back, which is much used by citizens and a favorite drive. Information is given by well-known respectable citizens that the gypsies placed a rope across the road last night, stopping carriages and demanded money, in some cases dragging young men and women from carriages and threatening them with violence until they paid for their liberty. One man on a wheel who refused to pay was taken off by two of the gypsy women and knocked about. The spot is outside the city limits, but the county police have taken the matter up and the Dominion police may do so to-day. Some ladies residing in the locality have left their houses, fearing molestation.

SUCCESSOR TO MR. HUGHES.

Will be Considered by the Management Committee on Thursday.

The matter of appointing a successor to James L. Hughes will be dealt with by the Management Committee on Thursday. An inspector's qualifications require the holding of a departmental certificate, known as "First A," together with a specialist's standing, and the holder must have taught for five years. Those in the city with these qualifications are: Principal McMillan of Givens-street School, Principal Markham of Cougham School, Principal E. W. Bruce of Huron-street School, and Principal McAlister of Ryerson School. Mr. Chapman, assistant inspector, is also among the number. He has held his present position since January, 1892, and was in the employ of the city for three years before that. Some of the names of outsiders that will be given consideration are: Inspector Hallard of Hamilton, Inspector D. Walker, Peterboro, D. J. Grogan, Superintendent of Education in the Northwest Territories, and President of the Dominion Educational Association; John Dearness, Vice-President of London Normal School; Inspector King, Kingston; Inspector Glushan, Ottawa; Inspector Carson, London; Inspector Silcox, St. Thomas, and Inspector Tyler, Guelph.

HELD UP BY A FLYER.

Joliet, Ill., July 4.—Four hold and desperate highwaymen last night held up train No. 31, one of the fastest on the Rock Island road.

A TIMID BOARD OF CONTROL

Seems to Have Adopted the Plan of Disposing of Public Business In Private.

MR. FULLERTON GOES TO ENGLAND

In Reference to Scrap Iron Assessment Appeal—Notes of a Few Secret Sessions.

An epidemic of weak knees seems to have come at last upon the Board of Control. So far this important body has only made itself famous for a regularity of meetings, which have been conspicuous for lack of accomplishment in nearly every detail undertaken beyond referring every matter of importance to the Legal Department or someone else.

Auto-Expanding

The foot spreads when borne upon! It contracts again when lifted!

A new shoe, which fits the foot neatly when off the ground, must therefore pinch it when stood upon, till it is stretched to the maximum width of foot.

A shoe which has thus been stretched, till comfortable across the ball when stood upon, must be too loose when the foot is lifted.

The RESILIA is the only shoe which expands at the ball when the foot does, and contracts again when lifted.

It becomes a size larger inside when the foot sinks down into the resilient centre-sole, the rebounding of which takes up the leather slack again when foot is lifted.

It is thus as easy as an old shoe the first moment it is worn, requires no "breaking in," and retains its shape because the leather is never overstretched.

WICOPOLIN STRENGTH Can be Regained by Using Dr. McLaughlin's Electric Belt. Electricity, as furnished by my Belt, cures by giving back to the weakened nerves, muscles and organs the vitality they have lost, reducing inflammation, developing the full vigor of health and removing the effect of overwork, exposure to weather and long-continued sickness. You can be cured if you will grasp the opportunity. My Electric Belt has restored to health and strength thousands of nervous, debilitated and pain-worn men and women. It fills your nerves with electricity while you sleep. Its power goes into the body in a gentle stream, saturating every nerve and charging them with its vital element until they are as strong as steel. My success in curing and the enormous sale of my Electric Belt are both due to the fact that I have made a science of applying electricity to the human body. The method that I use now, which is protected by patent, is the result of my 20 years' study. Electricity is useless unless you apply it right, and no electric belt is of any service unless it will give a current that you can feel without burning, that you can regulate, and that will last long enough to be curative. MAKES YOU OVER—It beats the world for building up a person broken down from dissipation and neglect of the laws of nature. No matter what your trouble is you can be made better and stronger by using this wonderful Belt. It pours glowing vitality into the body, and that does wonders. Try it and save doctor bills and useless suffering. It cures Rheumatism, Back Pains and all organic weakness. These points expose the weakness of all other electric belts. On a bond of \$5,000 that my Electric Belt is the strongest on earth and best made, and gives a continuous current that you can feel and regulate, I guarantee it for one year without a cent of expense for renewals. My Chamois Cushion Electrodes allow the current to enter the body in a soothing, gentle stream, without the burning and blistering known in old style belts. WHAT IT CURES—My Electric Belt cures Weakness and drains of vitality. Varicocele, Nervous Debility, Rheumatism, Sciatica, Lumbago, Weak and Lame Backs, Stomach, Bowel, Liver, Kidney and Bladder Troubles, Prostatitis, Locomotor Ataxia, and some forms of Paralysis. Dr. McLaughlin's Offer to the Public. Realizing that to-day there are thousands of weak men and women who are suffering from weakness, who would be willing to pay a reasonable price for a remedy, providing they were assured of a cure, I am offering to cure them before they pay me. Is that fair? Pay me after I have cured you. If you are suffering from any cause, you cannot afford to lose this opportunity of regaining your health and vigor, and your peace of mind and good faith by offering me reasonable security. They may then use the Belt at my risk and they can PAY WHEN CURED. CAUTION—If you value your health do not accept any imitation of my Belt. There are many on the market whose only merit (if they possess any) is their ability to burn and scar the flesh, are being offered with a cheap imitation of my cushion electrode. The best is none to receive when you have had my vision, so avoid imitation. My office contains hundreds of these old belts discarded as useless. I take old belts in trade, not as they are any use to me, only to prove to you what electricity will do. Write To-day for Free Illustrated Book and Full Information. I have published a 32-page book, beautifully illustrated and full of truths for men and women who are low in vitality, weak and languid. It is worth reading. If you have tried everything else and believe in nothing, this book will convert you to the altar of truth. I send it, absolutely free, as soon as possible, as a gift to you personally. The only Electric Belt sold to-day with which you receive the advice of a physician. No agents or drug stores are allowed to handle my Belts. Their success depends upon intelligent application. DR. M. Q. McLAUGHLIN, 130 Yonge Street, Toronto, Ont. OFFICE HOURS—9 to 6, Wednesday and Saturday to 8:30 p.m.
