REDUCTIONISTS ENTHUSE AT PROSPECT OF APPEAL AND STRENUOUS CONFLICT

Massey Hall is Crowded With Audience Who Encourage the "Noble 13" - Speakers Mostly Content With Generalities.

CON. SPENCE INTIMATES TRIP TO HIGHER COURT

"The bar-room must go." This was the legend in tracings of appropriate funeral black upon the white field of a huge steamer that hung above the platform of Massey Hall last night on the occasion of the meeting to endorse the license reduction movement inaugurated by the "noble thirteen" of the city council.

It was as large a meeting as had been expected by the promoters, and was not lacking in evidences of enthusiasm. As on the occasion of the rowed and men's meeting, the hall was so full that many were unable to gain admittance. But whereas at the former meeting the audience was composed almost wholly of men, a large percentage of last night's gathering were ladies. It was a wholly well-behaved and orderly meeting, there being a lack of demonstration other than those of approval. At the conclusion a resolution was passed by a standing vote, on motion of A. R. Williams, with James Simpson as seconder, expressing approval of county council's action and promising support to all "effective measures for the abolition of the bar-room and the treating system."

There was really no definite statement made as to the probability of an appeal against Justice Meredith's decision; rather did the speakers look forward to "fighting it out" at the polls next January.

Among Those Present. The chairman was John Wainless, jr., and on his left were seated ten of the council reductionists. Mayor Oliver Ald. Adams and Foster were missing from the ranks, the first named being absent on a business trip. Also on the platform were Rev. Dr. Carman, Canon Tucker, Rev. Dr. Sowerby, A. R. Williams and a number of other prominent temperance workers, while the Alexander Chair made up the back-ground and led in the strain-choruses. The Royal Male Quartet also contributed several numbers in splendid harmony and style. Other excellent musical features were provided, including a solo given in beautiful, clear Irish treble by Douglas Stanbury, an 8-year-old boy.

After prayer by Rev. Dr. Carman, the chairman spoke words of good cheer. The question of the bylaw was a mere formality in a movement that was going to sweep the whole North American continent, he declared.

Ald. Keeler was warmly acclaimed. He began with a tribute to Controller Spence as a veteran of the cause, but to Ald. Hales as the man who was behind the motion. His assertion that where liquor is sold, there is crime was interrupted by the ovation given Controller Hocken on arrival.

Several other speakers were severely criticized by Dr. J. E. Elliott, local medical examiner for a number of companies. In his address to the insurance institute last night. His criticism was based on the frequent practice of yielding to fraudulent and extravagant claims without legal opposition.

Many claims that were ungrounded and sometimes after a compromise—these suits might leave on the minds of the public. He advised that all insurance companies form a central organization for the purpose of fighting and bulwarking themselves against claims believed to be fraudulent.

To show what the companies were up against, he told of upscouring lawyers having followed patients to hospitals with the idea of securing cases against the insurance companies, when possibly the patient had no idea of getting a benefit; and also to assign quacks of doctors who have been prevailed upon to exaggerate the illness of patients carrying accident and sick benefit risks.

A paper by Robert Junkin, manager of the local agency of the Manufacturers' Life, was read by S. Watson. It reviewed the history of life insurance companies, and extolled George H. Hyde (Equitable), and George W. Perkins (New York Life), as having evolved the greatest system in the world.

KEIR HARDIE'S IMPRESSIONS
Says Canada is Being Developed Too Rapidly.

LONDON, March 24.—(C.A.P. Cable.)—Keir Hardie, interviewed by "The Chronicle" on his return from his world trip, says he would not recommend Canada to the emigrant. It is being developed too rapidly. The land system is the history of the curse. He found every encouragement for the future of socialism in most of the colonies. In Canada, especially in the west and among the miners, it had a strong grip.

In another interview he declares there is no talk in Canada for the emigration to the Dominion it is Canada for Canadians.

28TH YEAR

ENGLISH NOBLE ENDS ACTIVE CAREER

Duke of Devonshire Dies at Cannes—House of Lords Adjourns as Mark of Their Esteem.

CANNES, March 24.—Spencer Compton Cavendish, eighth Duke of Devonshire, died here this morning of heart failure.

House of Lords Adjourns. LONDON, March 24.—High tributes were paid to the Duke of Devonshire by the leaders of both parties in the house of commons and in the house of lords to-day. The house of lords paid the dead statesman the unprecedented compliment of adjourning out of respect to his memory.

Career One of Activity. Spencer Compton Cavendish, G.C.V.O., K.G., F.C., F.R.S., D.C.L., LL.D., eighth Duke of Devonshire, was born July 23, 1837, and succeeded to his father's title in 1891. His political career has been an interesting one. It began in the sixties, when, in the house of commons, he moved the amendment which defeated Lord Derby's government and installed Lord Palmerston as prime minister. From that day he was constantly in harness. Here is the bare record:

Member for North Lancashire, 1867-68; member for Radnor Burghs, 1869-80; member for N. E. Lancashire, 1880-82; member for Rossendale Division, 1885-91.

Lord of the admiralty, 1868; secretary for war, 1866-67; postmaster-general, 1868-71; chief secretary for Ireland, 1871-74; leader of the Liberal party, 1875-80; secretary for India, 1880-82; secretary for war, 1882-85; lord president of council, 1885-1892.

A Large Land Owner. The duke had no immediate family and the dukedom passes to his nephew, Mr. Cavendish, who married the daughter of the late Lord Lytton. The death of the duke places a badge of the Order of the Garter at the disposal of King Edward, and this, in accordance with custom, will be returned to his majesty by the successor in the title. A number of public offices also are made vacant by the death of the duke, notably the chancellorship of Cambridge University, the lord-lieutenancy of Derbyshire and the provost guard mastership of the Derbyshire Masons, a post which the duke held for many years. The duke owned about 180,000 acres.

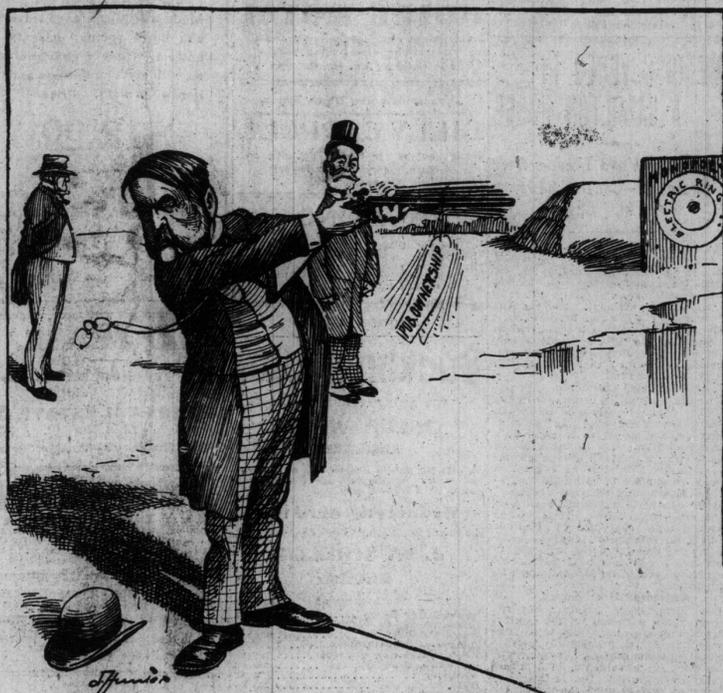

PRESBYTERIAN GRANTS.
Augmentation Committee Deals With 180 Claims.

Grants for the past quarter and grants for the coming year affecting 180 churches were passed by the augmentation committee of the Presbyterian Church last evening.

These churches have grown from lately established missions and are self-sustaining, but have been unable as yet to pay the prescribed minimum of \$500 per annum. The deficiencies will be made up by the committee's funds.

Total receipts for the year amounted to \$38,032, while expenditures were \$100 less. Western Canada showed gratifying increases in contributions.

BY VOTE OF RATEPAYERS CAN ESTABLISH A PHONE SYSTEM

Important Privileges Conferred on Municipalities in Hon. Dr. Reume's Proposed Bill.

Important amendments in Hon. Dr. Reume's telephone bill provide that where a majority of subscribers petition for the establishment or extension of a telephone system, the municipality can issue debentures for ten years to cover the cost of the work and levy a special rate to pay the annual instalments of principal and interest.

PROTECT THE GAME.

Enthusiastic Meeting of Association at Perth.

PERTH, March 24.—(Special.)—So long as Prince Edward County is swarming by net fishermen; so long as North Bruce is swarming by net fishermen, the parties in power will let the sleeping dogs lie and will not give heed to the urgent necessity of protecting our game and food fish.

NOTED THEATRE BURNED.

Drury Lane, Famous World Over, Destroyed.

LONDON, March 25.—Fire broke out at an early hour this morning in the Drury Lane Theatre on Catherine-street. The interior of the theatre was completely destroyed.

UNIONISTS ARE VICTORIOUS S. G. GOOCH ELECTED BY BIG MAJORITY

Contest Centered Largely in Government Licensing Bill—Excitement in House

LONDON, March 24.—The most keenly fought by-election for the present parliament, which was necessitated through the death of Chas. Goddard Clark, member for Peckham, a district in London south of the Thames, resulted to-day in a great victory for the Unionists, whose candidate, S. G. Gooch, was elected by a majority of 2338.

MR. JARVIS' ADVENTURE

Horse Collides With Trolley and Rider is Thrown.

Amelius Jarvis, president of the Sovereign Bank and renowned as a yachtsman, is also a lucky equestrian. He emerged from an adventure yesterday afternoon unscathed which might very easily have resulted in his being seriously hurt.

Mr. Jarvis was riding on Yonge-street, near Elora, when one of those dinky revolving signs, suddenly set going full tear by a northern blast, started his horse. It shied, and cartwheeled in front of another car, being then bumped in front of another car, the clanging of gongs having added to the bear's fright.

BOOKKEEPER IS ALLEGED TO BE \$13,000 SHORT IN ACCOUNTS

Warrant to Be Issued for Duncan Findlay, Late of McDonald & Mayhew Firm.

David McDonald, of the firm of McDonald & Mabee, wholesale cattle dealer, will this morning issue a warrant for the arrest of Duncan Findlay of this city, formerly engaged as a bookkeeper and office manager of the firm. Findlay will be charged with theft of \$13,000 from the moneys of the firm during the last twelve months.

FOR HIS BROTHER'S CRIME?

Robert and Charles Rottenboy Admit Same Offence.

Denial of guilt is so common as to be regarded as natural by the police, therefore Detective Geo. Guthrie was mildly surprised when Robt. Rottenboy, 32 years, questioned as to about \$25 worth of linen which had been taken from the King Edward Hotel and was found in the Rottenboy house at 211 Reid-avenue, admitted guilt.

MR. FIELDING'S BILL RECEIVED A FEW KNOCKS.

OTTAWA, March 24.—(Special.)—Mr. Fielding's co-operation bill was read a second time in the senate after some members of the body had given it a few knocks.

BRITISH ENVOY WILL BE SENT TO CANADA

Hopes to End Troubles on Pacific Coast Arising in Hindu Immigration Problem.

LONDON, March 24.—As a result of the representations regarding Hindu emigration into British Columbia made at the colonial office recently by MacKenzie King, Canadian deputy minister of labor, it is probable that a special Canadian will be sent over to the house of commons this afternoon that the Indian government and the colonial office contemplated sending an envoy to the Canadian government in the hope of bringing to an end, if possible, "this extremely difficult, intricate and possibly dangerous situation."

HERR GROEBER APOLOGIZES AND RELOCHTAS RESUMES.

Under pressure from the various party leaders, Herr Groeber, the centre leader, who called the journalists "swine," because they jeered a statement used by a member to the effect that negroes also had immortal souls, has issued a statement at the end of the day's sitting, expressing apologies for the language he had used.

CANADIANS SCORE AGAIN.

Win Place in Observatory With Chronometer.

ST. JOHN, March 24.—(Special.)—A. B. Smalley & Son, jewelers of this city, have received word that one of their chronometers with their improved balance has been successful at the annual trial at the Royal Observatory, Greenwich, England, ending January, 1908. This is the first time a maker outside Great Britain has secured a position of merit leading to a purchase by the admiralty. The chronometer was compared with upwards of 100 other makers of chronometers.

TWENTY PEOPLE INJURED.

Traction Car Derailed on Detroit United Railway.

DETROIT, March 24.—Over a score of people were injured this afternoon when an interurban car on the Ann Arbor branch of the Detroit United Railway, bound into the city from Jackson, Mich., was derailed by a defective rail near 31st-street and plowed across the brick pavement into a crowd.

SENATE TALKED IT OVER.

Mr. Fielding's Bill Received a Few Knocks.

OTTAWA, March 24.—(Special.)—Mr. Fielding's co-operation bill was read a second time in the senate after some members of the body had given it a few knocks.

SHOT WHILE HUNTING.

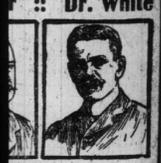

KINGSTON, March 24.—(Special.)—This afternoon four boys were in the marsh at the northeast of the city, hunting muskrats. One of them named O'Reilly was shot in the back of the neck by what is regarded as a stray bullet.

The lad fell and was picked up unconscious and taken to the hospital. The wound was found so serious that doubts are entertained for his recovery.

PARKS COMMISSION AGAIN OBSTRUCTED

Special Committee Declines to Send on to Council Application for Legislation.

The special committee on parks reorganization declined yesterday to pass on to council a recommendation to apply for legislation re a park commission along the lines drawn up by the city solicitor.

Controller Spence claimed that, although the board of control had not given any final decision on the bill as drafted by Mr. Chisholm and Bengough against.

Previously on suggestion of Controller Hocken, the bill as drafted by Mr. Chisholm was amended in two respects.

A clause was inserted so that any disposal of park land by a commission could only be made with the approval of the city council.

The board decided not to oppose the bill before the legislature to amend the Ontario Railway Act so as to allow members to ride free on the street cars.

The board voted \$10,000 to the Home of Industry, thereby supplementing a recent grant of \$13,000. The city's usual donation to the institution is \$12,000.

Archibald McMurphy and Henry O'Hara, directors, who appeared before the board, showed difference of opinion as to the sum needed.

Mr. McMurphy holding that a total of \$25,000 would be sufficient, while Mr. O'Hara maintained that \$30,000 was required.

It was stated that there are 250 families being looked after, as against 750 at the same time last year.

The latest applicants for the park commission are E. H. Little, 30 Grosvenor-street, and G. H. Conley, 22 Vermont-avenue.

OLD AGE PENSIONS. W.A. Sherwood Points Out Why They Are Necessary.

From the viewpoint of W. A. Sherwood, who addressed the Progressive Club last night, the older Canadian population, and more particularly Ontario and British Columbia, are much in need of an old age pension system.

From Ontario there had been the devoting of young blood to the newer provinces, thus the older residents who had, when young, cleared Ontario, were left with little means of support.

The mortgages, British Columbia deserved the old age pension system because of conditions arising from Asiatic immigration.

"If the aged whites' right to a pension is denied," he said, "we are going to lose this province, as, under the present system, it has become a place for Asiatics."

The elderly white men could not go into gardening because the Chinese appeared to have claimed this trade for their own. In the lumber industry the whites could not lay up enough capital to keep them in their old age, because it was the Chinese who were cutting and selling the lumber.

PRICE OF DIAMONDS FIRM.

In commenting upon the recent fluctuations in the diamond market, the newspapers of the United States, last week, continued to publish their silly reports speculating on the diamond market and predicting all sorts of dire troubles.

This policy of the Premier's Co. is announced in a cable received in New York Monday. The Premier's Co. is the diamond syndicate, the head of which is L. A. Abraham, the head of the syndicate, announcing that the Premier's Co. firmly intends to maintain prices as hitherto.

These two cables coming from the highest authentic sources of information should set at naught all the reports of a slump in the diamond market, as they come officially to the Diamond Cutters' Association of New York, which produces about 99 per cent. of the diamonds cut in the United States.

Following the despatches from London regarding the rumor in the London Daily Mail, to the effect that the Premier's Co. might not renew its agreement with the syndicate, the Premier's Co. is within the range of possibility, inasmuch as negotiations for the renewal of the contract have not been closed.

OLD THEATRICAL DAYS IN TORONTO.

My best memory, Mr. James continued, is that I played in Toronto last in 1888 at the Grand on Adelaide-street. The theatre was then under the management of Miss Morate, a most capable business woman.

When asked why Shakespeare was in the ascendancy, Mr. James replied: "The theatrical audiences of twenty years ago were more intelligent and critical, and demanded Shakespearean tragedy—there were no comedies. For the most part, the audience was made up of the elite of the city and the thoroughly educated, but only the merit of the performances drew the crowds."

At this point the World interviewer inquired: "Why did you quit tragedy for Shakespeare?" Mr. James replied, "You have to give the public what it demands. And I am here in Toronto now, because of the program which is usually the present future for melodrama and vaudeville will pass and Shakespearean tragedy will take its place on Mansfield's 'Peer Gynt.'"

HAD PALPITATION OF THE HEART.

EVER SINCE SHE WAS NINE YEARS OLD, MILBURN'S HEART AND NERVE PILLS EFFECTED A COMPLETE CURE. If you find your health failing, your food apparently doing you no good, your heart beating irregularly—now slow, now fast—skipping a beat now and then, palpitations or throbbings on the slightest excitement or exertion, pain in the region of the heart, face pale, dizzy and faint spells, these all point to a state of health consequent upon these pills, which, if not corrected and cured by Milburn's Heart and Nerve Pills, will surely end in utter prostration and hopelessness.

Baseball at Practice : Clubs Get Into Cricket League Officers and Schedule

NOTE AND COMMENT

Last year President Cameron of the Canadian Lacrosse Association ruled that a player was within his rights in signing certificates for two teams, and that he belonged to the club that he first played for. This was apparently provided against in the C.L.A. rule book. Secretary Hall last night read the copy of an amendment whereby the matter will be clarified and the original intention would be carried out, viz. that a man could not sign with one club at a time, and that he must not affiliate with a second until legally released. It is pointed out that under Mr. Cameron's ruling all players who had taken out certificates for one club could also sign elsewhere, and the managers might wake up some morning when least convenient and find that he didn't have any portion of a team at all.

The statement that Uncle Sam's Y. M. C. A. will remain steadfast to their C. A. A. U. affiliation is interesting at this time, when the American Union is bringing every fair and foul pressure to bear to injure the Canadian Union. Dr. Fisher, international secretary, writes to J. Hayward, the physical director of the Canadian Y. M. C. A., stating that relations between the United States and Canadian Y. M. C. A.'s remain as before, and that he would be glad to co-operate in any way in athletic contests which would be to the benefit of the Canadian Y. M. C. A. athletes may come to Canada and meet C.A.A.U. and Y.M.C.A. men, as of yore.

In the face of this, the Sullivan union will endeavor to stop an international exchange of competitors unless the Canadian athletes is signed with the Federation itself of amateurism, according to the following from yesterday's New York Sun:

The real war against the Canadian A. A. U. by the A. U. of the United States was begun yesterday on the announcement that the National A. C. of Brooklyn basketball team was suspended for playing on the Hamilton Y.M.C.A. of Canada. This team is not registered with the Canadian Athletic Federation of Canada, and its only body of authority recognized only by the A.A.U. but it is a member of the Canadian A.A.U., and athletes from this latter body cannot in future play, except as professionals, in the domain of the A. U. of the United States. The suspended men are Fogarty, Adams, Studentman, Hoegman, Murphy and Doyle. Thomas J. Hughes, chairman of the registration committee of the Metropolitan Athletic Association, stated that charges will be brought against the National A. C., and in the meantime the club will probably be expelled from its dealings by its basketball men. In the athlete from here who has the least thing to do with another from Canada who has not a permit from the Athletic Federation, will find himself in trouble right away.

Big wagers reported on the King's Plate are \$1000 to \$5 on the Seagram stable, and \$800 on the Dyment pair at 5 to 1. Only dribbling bets have been taken against the Valley Farm horses, where the talent lies close to Missouri. The winter book speculation has made the official odds to-day read as follows: 1—Evan—Seagram stable. 2—Dyment. 3—Hendrie.

Individual horses in the field are held all the way from 20-1 to 500-1. The fine weather previous to the present little winter had put the track at Woodbine Park in a condition to remind you of the morning trials that another week's session of the sun should turn into a reality.

Your old friend Rod McMahon is looking at Benning's. On opening day he took a night at 100 to 1 and his money is in on Sugar Pine, and had not cooled out by evening.

Harry S. Page, the gentleman rider who had the mount on Morris Donovan's old campaigner, Yacht Club, and who was at the paddock at Benning's, took a nasty fall on the back stretch. He was brought to the paddock in the ambulance. After a thorough examination it was discovered that he only received a scratch on the nose, and also lost his monocle. It was thought he had been kicked by his mount when they fell.

The report that the Washington House of Representatives had decided to stop betting at Benning's caused considerable excitement at the track. Notwithstanding there were no arrests at the course, Sol Lichenstein did not do any business on the closing evening. Several layers followed in the footsteps of Sol and closed up shop for the day. Officials of the district were at the course overlooking the situation, but they would not talk. Three bookmakers, George Zeller, Isaac Lead and Fred Vogt, furnished their names to these officials in case the district commissioners wished to make a test case. Despite the reports, it is said that warrants have been served out against some layers, and that Sol Lichenstein is included in the number.

Ready for 12-Hour Grind. Entries are coming in fast for the 12-hour grind to be held at the Toronto Bowling Club Friday, March 27, from 12 o'clock noon till 12 o'clock at night. The manager has decided to give cash prizes from entry fees obtained and will be divided as follows: 1st, \$20; 2nd, \$10; 3rd, \$5; 4th, \$3; 5th, \$2; 6th, \$1; 7th, \$1; 8th, \$1; 9th, \$1; 10th, \$1; 11th, \$1; 12th, \$1. Special prize, solid gold stick pin for high single score. Prizes for the best individual remaining on alleys the longest without relief.

Entries already received are: McCree and Phelan, Duggan and Moran, Canfield and Knowland, Gilts and Wilson, Maslin and McCarty, Brown and Speck, Adams and Adams, Seeger and Chantler, West and Bell, Shier and Fisher, Greig and Moon, Keller and Fisher. Only seven more teams will be admitted.

Richard Croker Sues. DUBLIN, March 24.—Richard Croker, the former Tammany leader in New York, has instituted a suit for libel against The Manchester Sporting Chronicle. The statements published in the paper reflecting on his character as a sportsman.

Practising Baseball Under Hot Sun More Toronto Players Report

Mitchell, Frick and Connolly Latent to Report at Charlottesville Newspaper Men Working Out.

CHARLOTTESVILLE, March 24.—(Special.)—Under a burning hot sun the Toronto team to-day got in a lot of hard work at the University of Virginia's grounds. It was mid-summer weather, and the players seemed to enjoy the long days which manager Kelley mapped out for them. They worked all morning indoors at the gymnasium, with basket ball and medicine ball, and in the afternoon, chasing fungo hits and in batting practice. Fricker Kilroy speeded up a bit and showed considerable form. The others took off quite a lot of weight, and a week of this they will wonder who they were with then all.

Larry Schaffly will report to-morrow morning to Charlottesville for a game with the University of Virginia on Friday, and on Saturday the team will go sixty miles south to Lynchburg for a game.

Three more players came in to-night—Mitchell, Frick and Connolly. The rest of the team will report to-morrow morning. Pitcher Kilroy is ambidextrous, twirling with either hand. He is also a good left-hand hitter. Bill Phyle is pretty heavy, but is spry and lively. Dick is a fast runner. He is very anxious to make the team, and Cookman will have to go some to hold him out.

Wotell is just as fast as ever, and as a fielder is all to the good. Eddie Rumpel is a spry and lively fielder. The rest of the team will report to-morrow morning. Fricker Kilroy is ambidextrous, twirling with either hand. He is also a good left-hand hitter. Bill Phyle is pretty heavy, but is spry and lively. Dick is a fast runner. He is very anxious to make the team, and Cookman will have to go some to hold him out.

Baseball in Guelph. GUELPH, March 24.—(Special.)—Fred Paige, captain of the proposed International Baseball League, was in the city to-day, and brought with him a list of players who will be the playing manager of the Royal City team. Mr. Paige said he had a newspaper man here who had taken out with the real fall-players, and one or two of the best of the winter league. Mr. Paige said he would make a trip to the city to-morrow, and will report to-night's meeting of the league, when a schedule will be made. Mr. Paige said he would make a trip to the city to-morrow, and will report to-night's meeting of the league, when a schedule will be made.

Baseball Notes. The Cleveland Baseball Club has taken out policies on the lives of its players, insuring them in the aggregate for \$20,000. In case of death the policy will pay \$10,000. The policy is for \$10,000. The policy is for \$10,000. The policy is for \$10,000.

The Carnegie Union, a small paper edited by Gus A. Beard, business manager of Hans Wagner at Carnegie, Pa., said Monday that Andrew Carnegie has through his new Wagner, and will be the greatest batsman and shortstop will act as professor of baseball at the Carnegie technical school this season.

Manager Stallings of the Newark team has sold Bill Carrick to the New Haven Club. President Potter of the Buffalo Club is sore because his team will not have the opening game at Newark.

Desiderio, star pitcher of the P. O. M. League last year, has signed with Baltimore. The Boston Nationals drafted him, but he did not sign. He is expected to sign with the Boston Nationals.

To-night at 9:30 the 48th and Q.O.R. regional teams will get into the arena for the supremacy of Eastern Ontario. As the players will be mostly C. O. R. players, the game will be a close game. In the first game of this league the Q.O.R. defeated the C. O. R. 10 to 5. In the last game the 48th, who had strengthened up considerably, won out by one run. This left the section tie. The second game of the night's game will be exciting from beginning to end. The winner will play on Saturday night for the Canadian championship.

There will be no admission charged for to-night's game, and the officers' gallery will be open for ladies and their escorts. The East, under Rare China, Dvorces, Harry Stanhope, Louise Reggel, Berant and other players, will play the Q.O.R. team. The game will be a close game. In the first game of this league the Q.O.R. defeated the C. O. R. 10 to 5. In the last game the 48th, who had strengthened up considerably, won out by one run. This left the section tie. A SEAT FOR A FARE.

Pay-as-you-enter cars, according to the general manager of the New York Traction Company, are a success. His opinion is doubtless a biased one, leaning more to the company's side than to the customer's side.

There is little fear that the company loses fares, but the great question from the customer's standpoint (or seat point if you will), is does every fare get a seat? Innovations looking toward the perfect collection of fares are welcomed by the New York Traction Companies, as they are by the Toronto Railway Company, but you don't find traction magnates losing sleep over the problem how to give the customer the seat he has paid for.

Toronto will soon have the pay-as-you-enter car. Enter-back-and-exit-front cars are the forerunners. It behooves the citizens to begin an agitation for a proper return for their car fare. One seat should go with one fare and until that tangible square deal is produced all the new-fangled fare-collecting ideas of traction companies should be resisted. What we want is a seat for a fare; what the company wants is the fare. It's a fair deal, only if a seat goes with a fare.

A GREAT NOBLEMAN.

By the death of the Duke of Devonshire another link to the older school of British Liberalism is snapped and a statesman who wielded a quiet but none the less powerful influence in public affairs has passed away. Classified as a Whig and always belonging to that wing of the Liberal party, he remained staunchly true to it until Mr. Gladstone's adoption of home rule for Ireland severed him from the party.

In 1875 after the Liberal defeat of the previous year, Mr. Gladstone retired from the leadership of the party, and Lord Hartington became his successor. His position in certain respects was not unlike that occupied by the present premier. Both were elected when the party fortunes were at ebb and both labored devotedly and skillfully to recover for it the lost ground. Both, too, worked in the shadow of ex-premiers of commanding personality, the one in this respect the Marquis of Hartington was at the disadvantage. With Mr. Gladstone was a case of Achilles first and the rest nowhere and the chief tactician had retired to his tent his occasional and unheralded incursions into parliamentary debate always provided difficult and distracting situations. But the calm and patient temperament of the titular leader and his stubborn fidelity kept him in the wheel and there he remained until the general election of 1880 restored the Liberals to power.

That election was preceded by Gladstone's historic Midlothian campaign against the foreign policy of Lord Beaconsfield and the popular voice marked him out as the only possible prime minister. Lord Hartington might, however, have caused more than a passing disturbance had he chosen to assert the claim which many Liberals at the time were prepared to acknowledge, but with rare self-abnegation he not only waived them but did excellent service in the cabinet as secretary for India and later as again secretary for war. But Mr. Gladstone's adoption of home rule finally severed their long and intimate association.

In 1886 Lord Salisbury offered to serve under Lord Hartington in a coalition cabinet, but the latter declined the supreme honor of the premiership for the second time. On Lord Salisbury's resuming office in 1886 the Marquis, then Duke of Devonshire, accepted the post of Lord President of the Council and retained it until he broke in turn with the Unionist Government over the attitude adopted towards the fiscal reform policy of his erstwhile colleague, Joseph Chamberlain. Thereafter his public appearances became infrequent but to the last he remained leader of the band of Liberal Unionists who adhered to the policy of free trade.

Attempts have occasionally been made to lay the late Duke open to the charge of inconsistency. If consistency requires a public man to follow a party thru every radical change of policy the charge is true, but if it means loyalty to political principles that once professed are never surrendered then the late Duke of Devonshire was one of the most consistent statesmen that ever sat in the British parliament. And he was more than a Whig, altho he retained certain Whigish proclivities. A cabinet minister associated with such measures as the disestablishment of the Church of England in Ireland, the abolition of the purchase system in the army, the introduction of the ballot, the various instalment of the Irish land reform, compulsory education and many other progressive acts is fully entitled to the name of Liberal. In its British significance. The eighth Duke of Devonshire was undoubtedly a typical example of the English nobleman, performing his public duties as an officer of state, as a great landed proprietor and as a country gentleman according to the highest standard of honor and the finest traditions of his place and rank. There can be no better epitaph.

OPEN CANADA TO THE SEA.

While The World has no objection to the establishment of the all red route, as the fast passenger and mail service between the United Kingdom and Australasia, by way of Canada, is familiarly known, it has only an indirect bearing on the development of inter-imperial trade. But Canada has it in her power to make a much more valuable contribution to the empire—one, too, that will be of inestimable service to the Dominion, its central provinces and national trade and commerce. And that is the formation of a deep waterway between the great lakes and the Atlantic. The opposition of the railroad interests has hitherto offered an insuperable barrier to the serious consideration of this, the most vitally important of Canada's hostilities to fortune. The problem has been a present one for years—it will before long be clamantly urgent. For doubt is not permissible that the growing strength of influential opinion in the United States will compel the materialization of the stupendous project that proposes to find an outlet for the traffic of the great lakes and the central states of the republic down the Mississippi River to the Gulf of Mexico.

Canada's future hangs largely on her waterways and her water powers. To compete in the open markets of the world transportation must be cheap, and to be cheap land transit and transshipment must be minimized and waterways deepened to accommodate the need of seagoing vessels. Vast as the volume of lake traffic is, it would necessarily be largely increased by their opening up to seaborne commerce. Nor in the long run would this be detrimental to the railroads of the country. It might affect for a time the seaports that are under present conditions the distributing centres, but even these would suffer no ultimate loss—their lines of trade would be changed, not withdrawn. On the other hand, new receiving and distributing points would spring into existence and those already established would grow and expand in unprecedented fashion. All this and more lies in the possession by Canada of the natural channel of communication into the interior of the North American continent.

By the provision of facilities for the movement of freight by water another national problem of transcendent importance will be carried for towards a solution. Canada is a nation—the making and shaping of her complete and its capacity for assimilating the hundreds of thousands of home seekers that are pouring into it is being taxed to the uttermost. Pessimistic observers point to the division of the country into two enormous areas and to their separation by the formidable barriers of distance and the existence of a wide stretch of inhospitable territory. The natural channels of trade, they urge, run north and south, not east and west, and no mere sentimentalism or reciprocal trade. Well, we believe that strong national feeling does not yield to any mere material considerations, but even if that were a latent apprehension, nature has provided an efficient means of promoting the exchange of commerce between the eastern and western provinces. Water abolishes distance. The sea to early peoples was the symbol of separation, to-day it brings the antipodes possibly do any land connection could possibly do. Thru developing her magnificent internal waterways Canada can bind her distant provinces by inter-trade and commerce and thus fortify and reinforce the spirit of nationality which is now so potent within her borders.

THE CITY BEAUTIFUL.

Editor World: Harkling back to my lecture of yesterday regarding the teaching of vegetable and flower gardening: In several cities of the United States, notably the beautiful City of Washington—fast becoming the most magnificent city in the world, if, indeed, it is not so now—public facilities are afforded for the teaching of horticulture and floriculture. Why should there not be the same in Toronto? The Island, Exhibition Park, High Park, Rosedale and other places afford choice spots for giving such instruction. Why should it not be forthcoming? The parks and exhibition committee, the board of education could well interest themselves in this direction. They might even profitably avail themselves of John Chambers' lore and appoint him professor to the city of horticulture and floriculture. We can only have a city beautiful by the appreciation of the people and the people, or rather the people's children, must first be educated in the sciences of the beautiful. Fitting action by the bodies I have referred to, the Canadian National Exhibition management could possibly be induced to take the matter up and arrange for a series of lessons and demonstrations in tree, plant and flower culture.

No Sessions Court. Owing to the lawyers in the cases at present before the sessions not being ready to go on no court was held yesterday.

BRINGING THE SEA TO THE FARMER.

The St. Lawrence River is the greatest national asset in the possession of Canada, but as a medium of transportation it has been allowed to sink into insignificance instead of taking its proper place as the main artery of commerce between the Great Lakes and the Atlantic Ocean.

Millions of money have been expended in the construction of railways for the benefit of private corporations, but the great national waterway of the country, which must always remain the property of the people, has been neglected by the government and has not been developed to meet our commercial necessities.

The construction of a deep waterway to the Atlantic is imperative for the following reasons: It is necessary to relieve the congestion of traffic on the railways.

It is an influence required to protect the people against exorbitant transportation tolls on the part of the carrying companies.

It will prevent the diversion of trade from the Canadian route.

A gigantic struggle for supremacy in the carrying trade between the Great Lakes and the Atlantic Ocean is at hand, and the future of Canada depends upon our realization of this fact, and our determination to preserve the full benefit of the natural advantages we possess.

The St. Lawrence River is the natural channel for the movement of traffic to and from the Great Lakes, but our neighbors in the United States have decided to try and divert it into artificial channels, for their own advantage.

The greatest transportation authorities of the age on this continent have reached the conclusion that land transportation is insufficient to meet the necessities of trade and must be supplemented by the development of our inland waterways. Recognizing this United States has in contemplation a vast extension of its water facilities for the carriage of traffic.

The New York American says: "The natural and dominating artery in the drainage of the continent is the Mississippi. The swirl and roar of the Father of Waters is the anthem of our national prosperity. The river is the nation's greatest asset in inland navigation."

The Mississippi is undoubtedly a great asset, but the only true and natural outlet of the Great Lakes is the St. Lawrence, the dominating artery of water communicating with the Atlantic Ocean. It is our duty to ensure its permanent position, and this can only be done by deepening our canals and providing a waterway capable of accommodating vessels of eight to ten thousand tons. When this is done the St. Lawrence will become and remain the busiest and richest channel of commerce in the world.

Again, quoting from the article referred to: "The deep water canal from Chicago to Joliet and St. Louis to the Gulf, is the key to the most splendid commercial development of our future. Chicago, with splendid liberality and sagacity, has expended sixty million dollars to open it as a drainage ditch and barge canal. One hundred million dollars more, it is estimated, will make it a ship canal with from fourteen to twenty feet of water."

The Independence party at a convention recently held in the City of Chicago took a pronounced stand on this question and announced as a plank in its platform "the construction of a ship canal from the Great Lakes to the Gulf of Mexico." It further declared itself in favor of the extension of the system to the tributaries of the Mississippi.

In the face of these facts it is necessary that Canada should pay particular attention to the development of its magnificent system of waterways, a system that properly developed and expanded will settle indisputably the control of the carrying trade to and from the Great Lakes.

The great new Canadian West and the older East require something more than a sentimental bond to bind them together. Cheap transportation between the extremes of our country is necessary to a permanent consolidation of the east and west, and cheap transportation is only obtainable by the development of our waterways. Provide a channel by way of the Welland Canal with a minimum depth of twenty-one to twenty-five feet and a fleet of ocean vessels will enter our harbors from Kingston on the east to Fort William on the west.

It would enable our eastern provinces to deliver coal, steel, and timber products at any point from Fort William east, in competition with Ohio, Pennsylvania and West Virginia.

It would bring the ocean with all its advantages of water transportation to the great west. It would practically bring the Sea to the Farmer.

It would be worth more to the people of Canada for commercial purposes, and for the furtherance of imperial trade than a thousand "All Red" lines.

The publicly owned waterways of Canada require the attention of our representatives in the house of commons. The vital interests and prosperity of our country demand the construction of a deep waterway to the Atlantic. It is not a question of politics, but one of patriotism, and should receive the support of every Canadian irrespective of party.

Canada must establish its supremacy as the direct channel of commerce between the east and west.

CANADA NEEDS A MAN: One that is strong enough to carry thru this project, and nothing more magnificent has yet been presented in the annals of Canadian enterprise. It means the control of the trade of a continent, and it is indispensable to the future progress and development of our country.

The government could not make a better investment. At one stroke it would create a new seaboard from Montreal to Fort William.

The man who can carry thru successfully this enterprise is worthy of the name of statesman.

Where is he to be found?

BIBLE LEAGUE LECTURES.

Prof. Wilson of Princeton to Deliver Two Addresses Here.

The Bible League has secured the services of Prof. Robert Dick Wilson, D.D., Ph.D., of Princeton, an eminent Assyriologist and professor of semitic philology and Old Testament criticism to deliver two lectures on Monday next at 4 and 7.45 p.m. The league has arranged for these addresses to be given in the beautiful hall of the Toronto Bible Training School, 110 College-street.

The topics on which Prof. Wilson is to speak are live ones, viz., "Is the Religion of Israel of Babylonian Origin?" and "New Light on Daniel." Copies of essays lately discovered in the east, which throw great light on the book of Daniel, have been given to certain scholars for investigation. The results will be considered at a meeting of these scholars in Copenhagen during the coming season. Dr. Wilson pres-

In dismissing with costs the appeal in the action of London and Western Trusts Co. against Canada Fire Insurance Co. Mr. Justice Meredith dissented.

The court allowed the appeal in the suit of Avery against Fortune and restored the trial judgment with costs throughout.

The appeal of the Copeland-Chaterson Co. against Business Systems has been allowed. The trial judge, C.J., is discharged. There are to be no costs of appeal or in the court below to either party.

City Wins. Justice MacMahon has dismissed the action of Jacob Dorst to recover from the city \$887 damages for injury to his property on Danforth-avenue by flooding. This he alleged was occasioned by the city interfering with the ditches between Whitney and Carlaw-avenues.

Hotelman Sues. Richard Stone, as proprietor of the Morin House, has commenced an action against his wife, Jennie Stone, Robert Davies, Adam W. Ballantine and the Copeland Brewing Co. to recover damages for an alleged conspiracy to "squeeze" him out of the business and tie up his house to the brewers.

The action arises out of a previous action on behalf of Jennie Stone to gain possession of the Morin House.

PEACE WITH NIGHT RAIDERS.

Agreement Signed to End the Tobacco War.

CINCINNATI, March 24.—An end to the night riding in Kentucky has been brought about thru a formal agreement reached between the American Tobacco Co. and the executive committee of the Society of Equity in a conference at Winchester, Ky., according to reports here. The statements made here to-day by members of the American Society of Equity. Nearly \$14,000,000 of the purchase of the entire crop of 1906 and 1907 on the one side and no planting of a crop for the year 1908, on the other, are points in the agreement.

Night Riders' Outrage.

HOPKINSVILLE, Ky., March 24.—Night riders to the number of from 25 to 30 invaded Golden Pond, Trigg County, last night, dragged Thomas Weaver, a negro in the employ of the Tobacco Association, from his bed and carrying him to a crossroad, commanded him to ride. When he failed to obey the night riders fired at him. Two balls penetrated the body.

Got Half.

Theodore Teller was given half of the amount he sought to recover from A. G. Pearey in his action for \$2375 commission for a sale of real estate.

BAKERY INSPECTION FAVORS THE CONSUMER

It Also Ensures Perfect Sanitary Conditions in the Workshops

Points of Interest.

Argument seems to be all in favor of the proposals of the McNought bread bill, especially in regard to the desirability of government inspection at the factories. Even the Journeymen Bakers' Union have announced their support, feeling that it will be in the best interests of that organization in Ontario.

"We feel," said one of the number yesterday, "that the bill will not only give protection to the public from shoddy bread, but will also help to bring under the rigid course of bakery inspection for which it provides, the conditions and surroundings under which bread is made will be maintained absolutely clean and sanitary, and these regulations strike directly at the cardinal feature of the present question, so far as the public is concerned."

In view of the great public importance of the question, some facts concerning it are worth presentation and consideration.

Health Inspector McCallum of London, Ont., speaking from experience on proceedings in the city against bakeries, told a civic committee:

"If you would pay more attention to looking after the sale of butter, potatoes, berries and meat on the market you would be doing more good. I think the bakers of the city are trying to do an honest business. On a loaf that is one-half ounce short you lose only about one-eighth of a cent, and it will take a long time to lose ten cents, but you can go out on the market here and lose fifty cents in ten minutes."

In the Weston and NeSmith cases in the police court on Jan. 9 last, Magistrate Kingsford made a statement that the present method of bread inspection in the city of Toronto was unfair, unjust and unsatisfactory.

OBITUARY

John Simser, who had been in the Ontario civil service since 1867, died yesterday morning at the residence of his son, Philip Simser, 278 Givens-street. He was employed in the public works department, and when the removal took place to the new buildings, he was left in charge of the old building, but when these were taken over by the G.T.R. he was employed up to the time of his death at the new buildings. He deceased was 84 years old and a life-long Conservative. He had no children, except one son, Philip Simser, of inspector of prisons department.

A unique service of its kind will be held at St. James' Cathedral this evening at 8 o'clock when the annual service of the Mothers' Union will take place.

To this service Canon Welch announces that fathers as well as mothers are specially invited. A cordial welcome is also given to all to attend. There will be a celebration of the Holy Communion to-day, being the feast of the annunciation, at the cathedral at 11 a.m., and the Rev. Canon E. Sharp of St. Thomas' Church will speak at 12.30.

Last Chance to Hear De Pachmann.

Once more and only this once will the people of Toronto have the opportunity of hearing that most wonderful of all pianists, De Pachmann. Many failed to attend the recital in Massey Hall in January. He is to appear on April 9 in connection with the concert of the 'Conservative' Symphony Orchestra, coming here just previous to finally leaving for Europe. It is another compliment to the Heintzman & Co. piano that in Massey Hall, April 9, as on Jan. 27, he will use only a concert grand piano of this firm.

IMMIGRATION POLICY SUBJECT FOR DEBATE

Budget Discussion Also Advanced a Peg—Votes Finally Agreed to.

Archibald Hislop, in resuming the budget debate in the legislature yesterday, figured out \$1,500,000 deficit for the government.

The best test of a government was its fidelity to its ante-election promises, he said. Instead of decreasing the provincial expenditure, as they had promised, the Whitney combination had increased it from \$2.50 a head of the population in 1904 to \$3.50 a head at present, or \$1 a head in three years, a result which was only achieved in 33 years by the Liberal government.

Of course, he admitted, the Whitney government had had some revenue not available to their predecessors. But they had never been able to lay their hands on any act by which the revenue had been tapped or applied to illegitimate purposes by the Ross government.

Mr. Hislop asserted that the Liquor Act was no better administered and the Conservatives had entirely failed to keep their promise to take the liquor administration out of the hands of the government, too, had promised to take steps to get lower freights for the farmer. Had they memorialized the Dominion government or taken any other measures in this direction? Colonization roads were a legitimate object of expenditure if the work was judiciously and wisely done. The previous government had spent \$170,000 in this way, which was objected to by the Conservative opposition as of the nature of a bribe, but they themselves now spent \$480,000. Mr. Hislop took up the sale of timber lands, and charged the government with violating the principle of sale by tender.

Ridiculous Power Scheme. The people were nearer cheap power for all the talk. "So far as we can see, it is going to remain in the clouds, surrounded by the hot air by which it has been developed," was his view of the power scheme. The government would go down so powerfully as rich in promise, but meagre in performance.

He believed that when the elections occurred the people would express an opinion in favor of the gentleman of unimpeachable character who now led the opposition.

As an appendix Mr. Hislop added a little talk on forestry and agriculture in France and Germany. If the government was doing its duty the soil of Ontario would be similarly improving. James Duff had no difficulty about tearing holes in the airy cobweb of Mr. Hislop's rhetoric. He congratulated him on what he regarded as a valdico speech, as Mr. Hislop was expected to go to Ottawa, where his party had tried to elect the Dominion expenditure and involved the country in a \$120,000 deficit. In Ontario the government had a right to the right side, and payments like the \$50,000 for commutation of land grants and \$345,000 to the P. & N. O. Railway were really on capital account and unproductive.

When the chairman, now minister of railways at Ottawa, decided that the questions were to be answered, in a few minutes two of the noisiest speakers that had ever been heard of were uncovered.

The License Situation. He challenged Mr. Hislop to find any license inspector in the province who had endeavored to interfere with or coerce any license applicant. He pointed out that the license inspectors had been brought into the province, and where they were placed.

Studholme renewed his attack after recess on the department of agriculture for the immigration expenditure. It was simply a waste of the money of the province, without return obtained.

The discussion lasted an hour and was participated in by the members on both sides. Hon. A. G. MacKay thought that even at a greater expenditure if a class of men could be got with a knowledge of farm labor the Ontario farmers would pay their full value. Mr. Monteth stated that the agents of the government were instructed to go into the rural districts and the smaller villages and hamlets. The land conditions were such in the old country that when Ontario conditions were understood, men with any ambition invariably wanted to make a change. No arrangement had been made with the Salvation Army except to furnish a monthly report of those sent into the province. The Peter-street lodging house was to be reserved this year for farm workers.

Mr. Sutherland pointed out in connection with Mr. Studholme's enquiry about farm homes for laborers that the population had fallen off since 1888 by 50,000. The province had a different system to that of the Dominion, which bonused every Tom, Dick and Harry. Richard Harcourt defended the Dominion policy with the zeal of an impatient senator.

E. W. Zachman, speaking for the first time this session, announced himself as a farmer who had suffered more than any other farmer in the house from shortage of labor.

Osgoode Hall Grounds. On the Osgoode Hall enlargement Mr. Harcourt enquired why the grounds were not open to the public as they were in every other city. Hon. Mr. Foy declared that he had never heard a citizen of Toronto express any wish to make use of the grounds. He was not sure whether the Law Society or

SUSPICION RESTS ON 3 OF FIRING FATAL SHOT

Postmortem Shows That Bullet Was From .44 Weapon—Inquest is Opened.

Fifteen men and one woman are held by the police as a result of the shooting of Yeo Meletic, 28 years of age, the Slavonian laborer, who was killed in the hut of Peter Mocketich, in the colony of Austrian tunnel workers at the foot of John-street Monday night. Two are held for murder, while a third, Peter Perveckovitch, who fled immediately after the shooting, is wanted on the same charge by the police. He is believed to be in the neighborhood of Niagara Falls and the frontier police are on the lookout. Those held are: Leonard Bakunio and Eli Mustiz, charged with murder.

Ivan Penwick, charged with wounding John Peskar. Louick Julian or Dumion and Michael Pavic, charged with aggravated assault.

Peter Mocketich, the keeper of the hut in which the shooting occurred, and Barax, his wife, Mato Kikic, Jos. Kalic, Michael Lyncik, Paul Mearvic, Peter Mezic, Antolmo Koodos, Pawle Jokovic and Nicholas Trabba held as material witnesses.

They were arraigned in the police court yesterday morning and remanded until this morning.

World Had Right Story. After four hours spent in the examination of the prisoners and other tunnel workers, in which the whole detective staff was engaged at police headquarters, Inspector Dixon, who, with Inspector of Detectives Duncan, thru the aid of S. R. Adams, Police Interpreter, had conducted the enquiry, said:

"The story which appeared in The World is a correct account as far as we have been able to learn of how the shooting occurred. We are now able to add a few details, but it is very difficult to secure a coherent story of the affair.

"We now believe that we have two of the three men who did the shooting. It appears from information gleaned by the police and J. W. Bradley, superintendent of construction at the works, that trouble has existed between the occupants of Mocketich's shanty and that adjoining to the south, which is kept by Michael Yeo. Up till half an hour before the shooting, which occurred shortly before 11 o'clock, the dead man, Mocketich, Julian, Perveckovitch and others were drinking in the cook house, where the shooting occurred. Mocketich ordered all out of the room but his wife, the dead man and another. This was reported by Julian and Perveckovitch.

Mocketich's revolver was taken from him and at this time Julian is said to have drawn a knife, but they were ejected and the door closed.

Shortly afterwards, Joe Lewis, the drilling boss, coming from the tunnel to his own shanty, learned of the trouble among the Austrians. Going out he saw a man breaking the window with a stone. He protested, but was told that it was no affair of his. At this point he saw Eli Mustiz fire two shots into the ground. The revolver used was a small nickel one.

reduction, he said that six of the 11 were beaten at the polls. As every opponent of reduction was re-elected in 1906, Controller Spence being the only defeated member of the 1906 council, the figures given were somewhat surprising.

"The bar-room must go, and so must the 'treating system,'" declared A. R. Williams in moving his resolution. Rev. Canon Tucker considered that the meeting triumphantly demonstrated that no injustice had been done. There had been no share practices. A plebiscite was not essential part of British institutions. Simpson was cordially welcomed. He denied that the labor unions were solidly opposed to reduction and that any such impression grossly misrepresented and mislead the workmen.

Rev. Dr. Sowerby spoke of the argument in favor of the reductionist aldermen had used irrefragably as a "dirty insult to their intelligence," and classified Rev. Father Minehan's vigorous utterances as "unkind, unmanly and ungentlemanly." He asserted that a great battle for temperance was about to be waged in the city, and urged that the strength of the liquor interests be not underestimated.

Ald. Hale, who spoke briefly at the close, expressing satisfaction that count had done his duty, was given a popular reception.

A moment later he saw the same man fire three times into the wall of the Mocketich shanty. He then ran to the office to telephone for the police and as he went heard three more shots.

It appears that after this Leonard Bakunio, who is held, and Peter Perveckovitch, who has fled, were seen by the shanty with revolvers, and that Leonard Bakunio was actually seen to shoot.

Bakunio and Mustiz said that Perveckovitch was seen to put a revolver into his pocket and was heard to say to Mustiz, "Here is ten dollars; get out of this. Go to Niagara Falls."

Chief Coroner A. J. Johnson performed a postmortem on the body yesterday afternoon. He extracted the bullet, which, while the coroner can not designate the exact calibre, is of a larger size than one which could be fired from a .38 calibre revolver. This points to the supposition that the bullet was fired from a .44 calibre revolver. While the only weapon of that size found about the colony was the one owned by Mocketich, which was thrown in at the window of the other

shack after the shooting, which appeared to be old and not recently fired, it is learned from an expert that a poorly kept revolver will have this appearance and even rust in a very short time after firing.

The postmortem also disclosed the fact that what had appeared to be a second bullet wound on the man's hand was just a scratch, not likely to have been caused by a bullet.

Coroner W. A. Young opened an inquest at the morgue yesterday afternoon. The evidence of Police Constable Taylor, who was one of the first on the scene after the shooting, was taken. The constable told of finding the body. He said that he had found two other bullets embedded in the wall of the shack, while a third had pierced the wall, struck the roof and was found upon the floor of the room where the man had been shot. He told also that the heavy .44 calibre revolver had been thrown thru the window of the other shack shortly after the shooting.

The inquest will be continued at 8 o'clock Friday night at the city hall.

FAIR FINANCE 1

To President Roosevelt :

I respectfully point to "Fair Finance 2" and "Fair Finance 3," which will be in this space in the leading dailies throughout the world—to-morrow and the to-morrow after. Also to the most extraordinary statement "Gold For Sale" which will follow No. 3. The only reason for flagging your attention is that you may have positive proof of a result your work produced.

To the People :

I earnestly ask that every thinking man and woman throughout America and Europe will read what will appear in this place—in the press of the world—to-morrow, day after to-morrow and day after that.

What you will read will be mighty interesting—otherwise I would not consume your time and my own. It will be even more interesting; it will show one of the people's most perplexing problems solved.

To Capitalists :

This is a notice to you, wherever located, that in this space—in the press of the world—to-morrow and the two following to-morrows, will appear news—good news—which will cause you to sit up—straight up—and take notice.

That these notices cost over \$100,000 should be proof positive that the news will be news.

To the Press :

Reserve this space for to-morrow and the day following to-morrow and double this space for the next day following.

Copy will be mailed to the Eastern press, telegraphed to the press of the West, South and Canada, and cabled to Paris, Berlin and London daily. This notice inaugurates a publicity campaign—a three section campaign of \$17,500,000, \$60,000,000 and \$225,000,000. It will call for an advertising expenditure of \$1,000,000, and as it will convey to the people news of import, you might print each day on your front page a notice something to this effect: "No reader should fail to absorb and digest Thomas W. Lawson's Fair Finance printed on page —"

If you decide the text merits, post it daily on your bulletin boards. As to additional notice, reading or editorial comment, your decision will be my conclusion.

TWO COMPANIES CONTROL WORLD'S DIAMOND SUPPLY

Have Agreed That There Shall Not Be the Slightest Reduction in Prices.

NEW YORK, March 24.—With a view to correcting any misapprehension on the part of the public and the trade, the jewelers' board of trade, whose membership includes important firms in the diamond, jewelry and kindred trades throughout the country, issued a statement to-day in which it is declared that there is no prospect of a reduction in the price of diamonds. The statement says: "The mining of diamonds for the consumption of the entire world, or say about ninety-seven per cent. of all the diamonds mined, is in the hands of only two corporations, namely: The De Beers and the Premier Diamond Mining Companies. They are powerful London syndicates, the product of these two companies is sold to the cutters. "On March 21 cable messages were received here from London stating that the De Beers and the Premier Diamond Mining Companies had made a contract in which they agreed that there shall not be the slightest reduction from the present prices of diamonds. These statements of all parties interested in this important industry must undoubtedly evidence the fact that the same conservative policy that has always prevailed in the past will be firmly maintained."

ORCHARD TOLD TRUTH.

And There is an Implied Promise on Part of Court to Spare His Life.

BOISE, Idaho, March 24.—Governor Gooding will to-day receive official notice, as is required by law, from Judge Freeman Wood of the sentence of Harry Orchard, the self-confessed murderer of former Governor Steunenberg. Judge Wood, in speaking of the matter, said: "By the statutes of Idaho the common law is made the rule of decision in all cases not inconsistent with the legislative laws of the United States and of the state. "At the common law, when the court or magistrate accepted an accomplice as a witness against a co-defendant, the law implied a promise on the part of such court or magistrate to recommend such accomplice to the merciful consideration of the crown, provided the accomplice thus accepted as a witness was subsequently convicted of the same offense. "This right has been declared to be a part of our judicial system by the supreme court of several states. "The right, however, to such recommendation for clemency depends upon the accomplice thus accepted as a witness testifying fully and fairly to the entire transaction involved, and it is this fact that makes it necessary for the trial court to review the evidence of the accomplice before judicially determining that such accomplice is entitled to the recommendations of the court for any degree of executive clemency. "The accomplice, Orchard, having testified fully and fairly when accepted as a witness, the court recommends the omission of the death penalty."

Body Turned Over to Officers For Investigation.

DENVER, Colo., March 23.—Postmaster C. Olerach, Fort Collins, N.M., to-day reported to E. L. McKee, chief postal inspector of the Rocky Mountain region, the discovery of the body of an infant in the mails. The package was addressed to a man at Boswell, N.M., and bore the return address of a woman of Woodstock, Illinois. Under the outer cover of the package was the following unsigned message: "I did not know what else to do. Burn or do something right away. Do not open." Postmaster Olerach turned the body over to officers. Inspector McKee says an investigation will be made.

INDIGESTION CURED

By Dr. Williams' Pink Pills After Six Doctors Had Failed to Be of Benefit.

"That gnawing pain in the stomach, sometimes shooting up into the chest, often producing a choking sensation in the throat; face pained around the heart; a feeling of drowsiness and a distaste for food—that's indigestion. Its victims are numbered by the thousands. To them life is a burden. Dr. Williams' Pink Pills have done more towards relieving this suffering than any other medicine. Often they have cured after all other help had failed, as in the case of Mr. Willis Herman of St. Catharines, Ont., who says: "I had been afflicted with indigestion and stomach trouble for years. At times my suffering was almost insupportable. Sometimes for whole days I was unable to touch food. I dieted and at different times was treated by six doctors, but they did not help me; I only grew worse. For a time I was in New York and while there consulted a specialist, but he was unable to give me any relief. I then decided to try Dr. Williams' Pink Pills and in less than a month I felt some relief. I continued their use for a couple of months longer and gained in weight, my appetite improved; the pains left me and I now feel better than I have at any time during the past 25 years. I will always gladly recommend Dr. Williams' Pink Pills to other sufferers, believing that they will surely do for others what they have done for me." Dr. Williams' Pink Pills are a blood builder and nerve tonic you are not experimenting—they have been tried and proved successful in thousands of cases. It is their power to actually make new, rich, red blood that enables them to cure such troubles as anaemia, indigestion, rheumatism, kidney trouble, St. Vitus' dance, partial paralysis and those special ailments of girlhood and womanhood that cause so much misery. For sale by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

GREAT BRITAIN WILL NOT INVITE U.S. FLEET

It is Desire of United States That Tour Be Not Further Delayed.

LONDON, March 24.—Great Britain has not invited the United States battleship fleet to visit England as it returns home or to make any official calls at British ports on its way, as the British admiralty understands that the American Government does not desire that the voyage be further delayed. It is understood also that the United States has expressed the wish that there should be no demonstration in honor of the fleet at the British ports in the Mediterranean. It is possible, however, that the British Atlantic fleet will be at Gibraltar when the American squadron passes thru the Strait, in which event the usual courtesies will be extended.

A DARING HOLD-UP.

Woodstock Veterinary Surgeon Has Thrilling Experience.

WOODSTOCK, March 24.—While John Birk was jogging along the road leading from Tillsonburg to his home at South Middleton, ten miles south of the town, last night at 9 o'clock, he was startled by seeing four men jump from the roadside. He was more startled when two of them grabbed his horse by the head and stopped it. The others then grabbed him and pulled him out of the buggy. He struggled, and one of his assailants struck him a heavy blow over the head with a club, dazing him. "When they got their victim on the roadside they searched his pockets, got \$32, and ran. All this took place in a dark ravine half a mile from Tillsonburg. Birk is a veterinary surgeon and formerly practised in St. Thomas. After the robbers ran Birk managed to get back into the rig, returned to Tillsonburg and notified the police. In a short time four men, Charles Sells, Frank Yonkour, T. Anderson and Fred Hamell were arrested and are being held until the case is further investigated.

INTERIM SUPPLY PASSED HOUSE MAKES PROGRESS

Hindu Immigration Again Subject of Discussion—English Oats For Seed Purposes.

OTTAWA, March 24.—(Special.)—Good progress was made to-day with government business. Two or three government bills were passed without opposition and an interim supply bill amounting to one-eighth of every item not already passed was put thru. For some time a dispatch to the effect that 500 Hindus, assembled in Vancouver, B.C., had cabled to John Morley, a strong protest against the exclusion of their countrymen as British subjects, from Canada. He asked the prime minister to say what really was occurring with respect to the Hindus, who are British subjects. Sir Wilfrid Laurier said the question was easily explained. The regulations of the department of immigration provided that all undesirable and mentally incapable immigrants can and ought to be excluded. But it was found that parties coming in not from country of their origin, could not be sent back there. It was deemed expedient that the minister should have machinery to deport any returned and a regulation was passed that no one should be admitted unless he came from the country of his origin. R. L. Borden asked if it made any difference how long an immigrant had been in the country from which he came immediately.

CANADA'S OLDEST PRISONER.

Joseph Gilbert, Aged 70, Dying at Edmonton.

EDMONTON, March 24.—(Special.)—Joseph Gilbert, serving a term of life imprisonment in the penitentiary here, is dangerously ill, and there are slight hopes for his recovery. Gilbert is a murderer, he having been brought here from Regina early in 1907, when he commenced a life imprisonment sentence. He is over 70 years of age, and is the oldest life prisoner in a Canadian penitentiary. When he entered the institution here, Gilbert was in the prime of health, but solitary confinement of over a year has told on his robust constitution, and he has gradually lost flesh and health. Jailer McCauley of Edmonton penitentiary has done everything possible for the old man, and when he was ever, he took a very bad turn, and this afternoon a message from the penitentiary states that his condition is exceedingly low and that he will not likely live out the day. Josiah Gilbert was for many years a resident of the Regina district. His father is located a few miles southeast of that city. The farm was sold to Barrett Henderson of Charlottetown, P.E.I., in the summer of 1906, and that fall Henderson was murdered by Gilbert, who was dissatisfied with his deal and shot Henderson down in his own yard, discharging a shot gun loaded with slugs and wire nails full in his victim's face, causing a terrible and fatal wound.

Broker Sues Client.

Argument will be heard by Chief Justice Falconbridge in the non-jury session to-day in the action brought by J. R. Helms & Co., stock brokers of Buffalo, against W. H. Collier, to recover \$3719.28, which, it is alleged, Collier lost while trading on margin with the company between March 25 and Aug. 25, 1907. Collier says that the loss was to stop automatically at \$2000, and further claims that the real stock transactions were never made. The plaintiffs sought to show in the court yesterday that all shares purchased or sold by the defendant were bona fide transactions. Rhodes Scholar Drowned. OXFORD, Eng., March 24.—Ralph C. TAXIDERMY IN COMMITTEE.

Mr. Hanna Objects to Mr. Dreany's "Skinning" of Pet Animals.

Owing to the lateness of the train, George L. Smith, managing recorder at Halleybury, was unable to be present before the public accounts committee of the legislature yesterday. Henry Dreany was present and was questioned by C. N. Smith as to his connection with the Cobalt Lake claim. On July 17, 1905, Recorder Smith had refused to register his claim and had said that he was acting upon instructions from the government. "I would suggest," said Mr. Hanna, "that Mr. Dreany should submit his pleadings in the present litigation against certain parties. If cannot use the public accounts committee for the purpose of slarg-whanging people not in this house, or in the government. Let him submit his pleadings, so we will know when he is skinning Mr. Dreany's pet animals and when we are serving the public. It's very clear from Mr. Smith's remarks, what he hopes to do; also it is very clear: where the line is drawn, if this matter is one in litigation." Chairman Carnegie will look up precedents and give a ruling on the question at the next meeting of the committee.

FLEET COMES FIRST.

Prince of Wales Will Follow on Cruiser.

LONDON, March 24.—The Prince of Wales will cross the Atlantic this summer when he goes to Canada for the tercentenary celebration at Quebec in one of the larger of the British cruisers and this vessel will be accompanied by another cruiser as an escort. The British Atlantic fleet will cross ahead of the cruisers to be present and welcome the prince on his arrival. Injured by Fall From Car. James Wiggins, an elderly man, residing at 233 Palmerston-avenue, fell from a College and Yonge-street car last evening while on his way to Massey Hall. He was carried into Howarth's drug store and removed from there to his home in the police ambulance. He was severely cut on the side of the head and, apparently, suffered from internal injuries, as he was still unconscious upon his arrival at home. He is resting easily. McCole Is Inquisitive. In the public-accounts committee of the legislature, A. B. McCole, M.L.A., has moved for the return of all papers showing to whom the money was paid for the transportation of horses to the International Horse Show in London, England.

OBJECT TO SUNDAY PARADES.

East Simcoe Clergymen Are Appealing to the Legislature.

The clergymen of East Simcoe are sending requests to the members of the legislature to have some restraint placed upon Sunday processions by secret and fraternal societies. They ask that such societies be forbidden to hire bands and to hold dinners after the parades. Rev. R. D. Clare and Councilor Jolliffe of Orillia headed a deputation from that neighborhood which waited upon Hon. Mr. Hanna, provincial secretary, yesterday. They asked that the sewage from the Orillia Asylum be not emptied into Lake Simcoe. The deputation also objected to the granting of a liquor shop license at Atherley, near Orillia, in view of the fact that local option goes into force in Orillia in May. Judgment Favors Hindus. VANCOUVER, March 24.—(Special.)—Judge Clement to-day granted habeas corpus for 148 Hindus arriving both by way of Surva and Hong-Kong, holding that the order-in-council of Jan. 8 exceeded the powers of the Immigration Act, and was particularly defective because the governor-general delegated his authority to the minister of the interior, which the governor-general-in-council alone could exercise.

NO NEED TO BE WEAK.

Wear My Electric Belt Until I Cure You and Then Pay Me.

You've doctored and doped till you are sick of it all.

You would pay for anything that would give you back your old vim.

You don't want to pay out any more money till you are sure.

I will cure you first and you can pay me afterward. Is that fair? Then get in line.

I know what I can do, because I've done it, and am doing it every day. I'm sure that Electricity is the life, and that I can restore it where it's lost. So if you need what I offer, and don't want to risk my price, wear my Belt free until you are cured, then you can pay me.

And when you do pay me the cost is less than a short season of drugging, and how much more pleasant! You put my Belt on when you go to bed; you feel the soothing, exhilarating vigor flowing into your weak body, and while you sleep peacefully it fills you full of the fire of life. You wake up in the morning feeling like a giant.

Now, I can't cure everything. I don't claim to, and I won't take a case that I don't feel sure of, but all these troubles which come from an early waste of vitality, from dissipation of any kind, from decay of nerve power, or from any organic stomach, liver or kidney weakness, I can cure, and those are the cases I am willing to tackle and take the chances on. I am curing them every day.

All I ask is reasonable security for my Belt while you are wearing it. It will make you strong. It will send the life blood dancing through your veins, you will feel the exhilarating spark warm your frame, the bright flash will come to your eye and a firm grip to your hand, and you will be able to grasp your fellow-man and feel that what others are capable of doing is not impossible to you. This grand appliance has brought strength, ambition and happiness to thousands of men in the past year.

FREE TO YOU.

Get my 80-page book describing my Electric Belt, with illustrations of fully-developed men and women, showing how it is applied. If you can't call, I'll send this book free, if you will enclose this coupon. Consultation free. Office hours—9 a.m. to 6 p.m. Wednesday and Saturday till 8.30 p.m.

FAR FINANCE 2

To Every Man and Woman With Savings: Up to four years ago the people of America invested their savings in Wall Street or in stocks created or controlled by Wall Street.

During the past four years the people have been taught "finance." They withdrew their savings from Wall Street. A result: Wall Street had the stocks, the people the money. A further result: A deadlock between Wall Street and the people.

At the beginning of the tussle between Wall Street and the people I predicted the outcome—that Wall Street would be compelled to guarantee the people a square deal for the future.

After every effort had been exhausted to bring the savings of the people into the stocks of the prosperous industries of the people, and after a violent panic had resulted, because the people refused to further entrust their savings to Wall Street until it reformed its methods of dealing with the people, some of the great Captains of Finance asked my advice, and, upon receiving, my co-operation.

I said to the Captains of Finance: "The people have been educated to the old game, they will not again, bluffed, send their hard-earned savings into your market place. If the people will not buy their flour, their sugar or their woollens without first being shown they contain no chalk, no sand, no shoddy, why should they buy grossly adulterated stocks or good stocks at grossly manipulated prices? They have awakened to the fact that they have been buying stocks, the purity and legitimacy of the price of which should be of far greater import to them than the quality of their food and clothing, without any real knowledge of their construction, and consequently of their worth."

My answer was "Publicity." There is no reason why the old-fashioned, horse-sense methods by which the people do all their business should not be applied to their investments and speculations. From now on display your stocks to them as the merchants do their soaps, shoes and clothing. Tell them what they are, sell them honestly. Submit testers for your statements and—give them a square deal."

My condition that I be allowed to "paw over" the goods of "the Street" was conceded, and I quickly found enough rare good ones for a test. I thereupon asked that the public be given such bargains on the first selected lots that the people would fall over themselves to buy when they were offered. The result: First—Millions of gold. Second—Scores of millions of copper. Third—Hundreds of millions of (to be named later).

Men and corporations of great wealth and business responsibility have been induced to contribute 20 per cent. of one of their most important investments to the public at 50 per cent of its actual sure worth, or 25 per cent, of its perhaps worth, for the purpose of proving to the public, in an unmistakable way, that from now on the people are to get a square deal in American finance.

In 38 active years in finance, I have never known of an investment which combined safety—government bond safety—with unusual dividends or unusual profits. In that time I have never known of any investment where large dividends were combined with sufficient safety to justify an honest man who really-knew finance in advising say a woman of ordinary means to exchange her Government bonds or savings bank deposits for it.

In that time I have never known a sure, safe investment stock, which could be bought at even 60 per cent of its investment return worth, which was allowed by the Captains of Finance to get by them to the public. In this Gold case all the above heretofore unmet with conditions surround and control the investment which will be offered.

This remarkable investment which is to be offered to the people is really free from any hazard. It could have been sold at any time during the past two years, and can be sold now to Wall Street itself at much more than the price at which it is to be offered to the public. It is as safe as any investment can be. It represents one of the greatest successes of its present owners, who are in the very front rank of the world's greatest Captains of Industry.

It has been impossible, until these owners consented to this offer to the public, for anyone, public or capitalist, to secure any direct share in this property. The other four-fifths of the property, amounting to \$41,000,000, which is retained by the owners, cannot be bought, even now, by the public or anyone, at even double the price at which the public are to be allowed to come in on this one-fifth.

In other words, in my chapter to-morrow I will demonstrate, absolutely, that this remarkable offer is really what it appears upon its face to be—an opportunity for the people to accumulate millions, and that this opportunity is given them solely for the purpose of most successfully inaugurating a new system of finance.

but what good discoveries have been made there. At the "Joseph" claim, owned by Messrs. Keiley, Jones & Wood, 250 bags of high-grade cobalt-silver ore are sacked and they are hauling it out to the shore of Lake Temiskaming. They have 10 tons out at the old fort and will make a shipment of 20 tons early in the spring.

Last week's shipments came from ten mines and consisted of 16 cars, aggregating 431.21 tons. One new shipment from a new district made its appearance. Copper Cliff and Deloro each got two cars. The Nipissing shipped direct to the company at New York. Five cars went to Denver and three to Carleton Place. The Nancy Heisen sent 40 tons across the continent almost to the Consolidated M. & S. Co.'s smelter at Trail, B.C., and the Casey Mine sent its first shipment to Glasgow, Scotland. The shippers were:

WINNIPEG, March 24.—The mysterious murder of a Galician named Alex Ozanac on Saturday afternoon last a few miles north of Teulon, Man., has been cleared up by the arrest by Chief Constable Baker of Selkirk of Wasyl Andrejczuk, another Galician, who is now lodged in the provincial jail here, and has confessed that he slew Ozanac in cold blood because the latter had informed on him to the chief game guardian for shooting moose out of season. Ozanac, who lives five miles north of Teulon, drove into town Saturday afternoon with a load of wood. About five-thirty miles further north, he delivered a load of wood to a Galician family named Wusuk, four miles north of Teulon. Hearing his victim was in town, he waited in a lonely trail till the latter appeared on his way to a bush and returned to the Wusuk house and told Mr. Wusuk he was the last time Ozanac would form on him. A man named Charles Clifford got the derelict ox team, and later saw the murderer wiping blood traces in the snow, thus leading to his arrest.

JUNCTION SCHOOL BOARD DEAL WITH MANY MATTERS

Fire Drill Shows Great Progress—Principal Appointed—Suburban Items.

TORONTO JUNCTION, March 24.—Extra precautions against an outbreak of fire and means of safety in case one should occur were the prevailing sentiments at the school board meeting to-night.

Supervisor Wilson stated that the fire drill was being rigidly enforced in all the schools, and cited Carlton School as an example, where on two occasions last week every pupil was outside in 50 seconds. As there are eight rooms in the school the board was satisfied that the drilling has attained a high degree of efficiency.

Put Juniors Below. The supervisor asked the board's permission to have the junior class at Carlton School moved to the basement floor. The class meets upstairs at present, and in case of fire it might be difficult to get the youngsters out without mishap.

The supervisor's report showed the total school registration during February to be 178. The attendance for each school is:

	Total	Average
Annette-street	690	483
Western-avenue	459	408
Carlton	449	361
St. Clair-avenue	250	206

Device Was Too Good. An agent selling a new fire alarm device was present and demonstrated the workings of an apparatus which would automatically give the alarm in case of fire. He wanted the board to install the alarm in the different schools at \$5 per school, and asked permission to give the board a practical demonstration of how the alarm worked. It proved so effective that the firemen who were on the point of retiring slid down the pole in scanty attire and were preparing to rush out the hose wagon. Needless to say they were not well pleased at the proceedings of the merchantman with his wares, but when the circumstances were known the occurrence developed into a joke, but the board decided to yield to the rules of the agent.

The trustees of Victoria Presbyterian Church sent a letter to the board asking for the \$150 which they proposed to charge the board for the use of the church basement for school purposes during two months of last fall. Trustee Hall did not like the tone of the letter, which he regarded as rather cynical, but the money will be paid as agreed.

Must Notify Principals. Trustee Fullerton asked the secretary what specified time the caretakers were required to be on hand during school hours. It seems that the caretakers for different reasons leave the schools at times during the day, so on the recommendation of Trustee Fullerton, Dr. Hackett, advised the secretary to instruct each caretaker not to leave the building during school hours without notifying the principal in view of this measure. Trustee Hall recommended that a suitable room be provided for the caretaker so that he would not be compelled to spend his time in the school corridors or the furnace room. Trustee Williamson also complained that some children had a long distance to walk home at the noon hour and thought a room at the school should be allowed there where they could eat their luncheon.

After a lengthy discussion the board promoted Principal Colvin of St. Clair Avenue School to the principalship of Carlton School. In succession of the late Mr. Jewitt. Acting Principal Hancock of Carlton School was appointed principal of the new school at St. Clair Avenue School. The appointment will come into effect after the summer holidays.

A committee consisting of Trustees Hackett, Hall, Wright and Supervisor Wilson were appointed to wait upon the principal and trustees of the legislature to urge that the bill asking for \$25,000 for a new school for the Junction be passed.

Case Was Adjudged. A committee of condolence with Mrs. Jewitt on the death of her husband, who was principal of Carlton School, was passed. The resolution will be sent to Mrs. Jewitt.

The Junction bill will come before the private bills committee of the legislature without fail, as Mayor Baird has arranged for a special appointment.

The hearing of the case against Fred Riley, John Sullivan and Michael Martin, who were arrested last week on a burglary charge, has been adjourned for a week. Sullivan, who was wounded by a shot from Sgt. Peters' revolver, is not yet able to leave the hospital. Hundreds had assembled at the city court this morning to hear the proceedings, thus showing the interest taken in the case by the town people.

The funeral of Fred Munday, who was found dead last week at St. Anne's Island, Mitchell's Bay, took place this afternoon from the residence of Fred Taylor on Westminster-avenue, to Prospect Cemetery.

Mrs. Eliza A. Culham, wife of Henry Culham of Lambton Mills, died this morning, aged 86 years. The funeral will take place on Thursday at 2 p.m. at Humbert's Cemetery.

NEW MARKET.

Looks Like a Record Crowd at the Con. "Smoker."

NEW MARKET, March 24.—The Conservative "smoker" to be held in the town hall to-morrow (Wednesday) evening promises to be a big success. A number of the members of the Ontario Legislature will attend, leaving the C. P. R. crossing in a private car at 5.30. A big representation of the Conservative party is expected to be present at the event of an overflow meeting ample arrangements have been made. The popularity of Herb Knox has been abundantly attested by the enthusiasm aroused over to-morrow night's meeting. "Jimmy Fax" will be among the entertainers.

TODMORDEN.

Ratepayers Realize the Advantages to Be Gained From Viaduct.

TODMORDEN, March 24.—A largely attended meeting of the executive committee of the Ratepayers' Association of Todmorden was held in Grange's Hotel last night for the purpose of discussing the Bloor Street viaduct, and other matters of great importance in connection with this district.

A meeting of the Ratepayers' Association of Todmorden will be held in the school house on Thursday, March 26, at 8 p.m. sharp, for the purpose of discussing the proposed Bloor-street viaduct and other matters of great importance to the district. The members of the association are at present taking steps to try and secure the active sympathy and support of a number of other suburban associations, with a view to some concerted action. Thursday night is the best time for bringing the idea to a successful issue. It is hoped that there will be a bumper house. The Bloor-street viaduct means an enormous gain to a wide territory.

WON'T MISS THE WATER.

Artesian Wells Co. Fail to Get Bill Through Committee.

A big deputation from North York cheered lustily when the private bills committee of the legislature yesterday refused to incorporate the Artesian Water Co. of Toronto. The company is capitalized at \$1,000,000 and was to take water from Whitchurch Township to Toronto Junction. It was urged that the town was in need of a pure water supply, but the committee feared that it would result in a loss of water supply to them.

Mr. Large, said that the bill as it stood gave the company the right to enter the municipalities and lay pipes without their permission. He advised that the bill be held aside until the company demonstrated beyond any doubt that the supply on the farms in the district of the wells would not be interfered with.

LABRADOR BOUNDARY.

Will Be Decided by Privy Council Committee.

OTTAWA, March 24.—(Special.)—Senator Cloran has given notice of an amendment to the Lancaster bill, which decides that in spite of this or any previous act of parliament, any person shall have the right to sue and recover when their rights have been trespassed upon by any person or company.

Senator Landry was told by Hon. Mr. Scott in the senate to-day that the governments of Canada and Newfoundland have agreed to refer the judicial committee of the privy council the boundary dispute on the Labrador coast.

MIMICO.

Odds and Ends of News From Round About.

MIMICO, March 24.—The Rev. Mr. Mount visited the industrial school yesterday and gave a special talk to the boys at 7.30 in the evening. The subject chosen was "Lumber Camp Life." Mr. Mount speaking on behalf of the Provincial W.C.T.U.

EAST TORONTO.

Funeral of Late Mr. Anthony Will Be With Masonic Honors.

EAST TORONTO, March 24.—Coroner Crawford will open an inquest at the city morgue to-morrow morning at 11 o'clock on the cause of death of Alexander Anthony of Coleman-avenue, a section hand, which occurred a short distance east of Eastern-avenue yesterday morning.

FARMERS SHOULD TAKE UP GOOD ROADS QUESTION

All to Their Own Best Interests, Says Lieutenant-Governor in Opening Convention.

Lieutenant-Governor Sir Mortimer Clark attended at the opening of the fifth annual meeting of the Western Ontario Good Roads Association in the York County Council room yesterday afternoon.

His honor emphasized the importance to the country of good roads, comparing the attitude thereof of the ancient Romans and the Canadians to-day.

Under the ancient Roman Empire, said his honor, only men of the greatest ability and highest position were appointed to take charge of the roads, which were regarded as an essential element in the prosperity and stability of the empire. With this standard, Ontario compared unfavorably. He knew of one case where a roadmaster had put soft mud on the road when he might at less expense have put good gravel, and then explained his action by saying that the gravel would make the roads hard and the farmers would complain of having to have their horses rebed.

Canada hitherto attention had been given chiefly to railway construction and municipalities had been assessed to bonus the rate of the road, but the establishment of a railroad was a great boon. Railways, however, would be of little benefit to the farmer, as there were good roads to connect the farm and the railway.

Worth Spending On. It was unfortunate, said his honor, that the value of a farm depended largely upon its situation in relation to the roads. The bad roads blocked the transport of goods to the market, causing both loss and injury. To say nothing of the wear and tear upon horses, wagons and harness.

The social life of the farmer, continued his honor, would be improved by good roads. Farmers living away from the railways were isolated largely because of the bad roads. It was a matter of great consequence to the country to make farm life happy and comfortable for the young, the disposition of the younger generation to move to the cities and towns was greatly to be deplored, and this would be checked by the building of good roads which would improve the opportunities of social intercourse.

The province of Ontario had entered upon a vast heritage and without doubt the Province of Ontario was the greatest in the British Empire, not only in its wealth, but also in the condition of its people and their manner of livelihood. It was their duty to utilize this wonderful heritage to its greatest possible extent and this could not be done unless great care was taken of the roads.

A Good Work. The province was indebted to the association for the interest its members had taken in the question of good roads, said his honor, and he hoped that they would continue their work and educate the public mind, for otherwise the question would fall asleep.

W. H. Pugsley of Richmond Hill, president of the association, thanked the lieutenant-governor for having been present at the meeting. The more cheerily and the more easily the farmer could get his product to the market the better for the farmer.

Warden Keith of York County said that there were many obstacles in the way of good roads, but in finding means to overcome those difficulties the meeting would be doing a public service. Frost, he thought, was the great enemy of good roads, and spring thaws washed away a great deal of the work of the previous season. He was sorry to say that the County of York had not yet adopted the county system of roads.

When the way was opened for discussion some doubt existed as to what course the discussion should follow, but a program was supplied by the representatives of Elgin County submitting a list of the points they wished to have cleared up. The speeches showed that there was some difference of opinion as to details, but no doubt as to the

KEEP CASCARETS IN YOUR POCKET.

Take one as soon as you need it. It is old fashioned and wrong to take harsh doses of physic.

We all live unnaturally. Our food is too fine, too rich and too plentiful. We eat too little fruit, too few green vegetables. We don't exercise enough.

The result is, our bowels get clogged; for Nature intended us to live in a different way.

What shall we do? Shall we walk ten miles a day? Shall we diet ourselves? Shall we seek for more laxative, and less costive effect in our food? Or shall we take Cascarets? One way will serve just as well as the other.

Cascarets are vegetable laxatives. Their action is as natural as the action of fruit, of coarse food or of exercise. They are gentle. They persuade the bowels—never drive them or irritate them.

They are candy tablets, and the dose is one at a time—just as soon as you know that you need it. It is wrong to take harsh physic and to wait till you need a big dose. It is better to keep at your best, every hour of every day. And one Cascaret at a time is sufficient.

That means to keep clean inside. Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with C.C.C. on every tablet. The price is 50 cents, 25 cents and Ten Cents per Box.

It appears to be a rather common thing for a man to get a letter which says that he has a diamond in his pocket. He asks the jeweler to look at it, and the jeweler says it is a diamond. He asks the jeweler to look at it, and the jeweler says it is a diamond. He asks the jeweler to look at it, and the jeweler says it is a diamond.
