FALLIS BEATEN BY 305 MAJORITY BURDEN GIVES LIBERALS WIN PEEL BY-ELECTION

W. J. Lowe Returned to Legislature After Strenuous Campaign - Turnover of Nearly a Thousand

James R. Fallis of Brampton, exnember of the legislature representing the County of Peel in the Conservative interests, was yesterday defeated in a by-election by W. J. Lowe of Snelgrove, Liberal, by a majority of 305. Fallis was elected on June 29, 1914, by a majority of 627. The byelection yesterday was made necessary by the resignation of Fallis four weeks ago, following disclosures before the Davidson commission which implicated him in questionable horse deals.

Announcement of the fact that Mr. Fallis had resigned was made first in The Toronto World on Feb. 2. A meeting was held at Brampton that same afternoon, when Fallis read a statement to the executive of the Peel County Conservative Association, announcing his resignation. The week following, a general meting was held ouncing his resignation. The at Brampton and Fallis was renomi-nated. In the meantime the Liberal Association of Peel County wrote an official letter offering to allow any Conservative other than Fallis to be returned by acclamation. This offer

Light Vote Polled. The vote thruout the county yester day was comparatively light, owing to the fact that a large number of electors have enlisted. In Brampton, however, the chief centre of Peel County and Fallis' home town, the vote was above the average, and the result was a majority of 161 for Lowe. In Chinmacousy, Lowe's majority was 201, and in Toronto Gore, 107. Fallis had majorities in Toronto Township, 128 Albion, 100; Streetsville, 37, and Bol-

The Germans, in their official report, claim that they have captured Brabant, Haumont and Samogneux, and yesterday morning persistent demands had been made for some action which might lessen the possibility of war between the U.S. and Germany. French artiflery responded to the salvos of the German artillery with unabated vigor. Nowhere did German soldiers get to close quarters with French soldiers. In order to straighten their front, which had been thrown a little out of line by the previous withdrawals from death-traps of villages in the centre, the French drew back their right and left wings, so that the Pursuit of Turks in Caucasus Still left wing is now established slightly to the south of Ormes. In their endeavors to make a breach, the Germans are making their attacks with a concentration that averages ten men per yard, or about 18,000 per mile. The French resistance appears to grow stronger as time passes. The violence of the first attacks of the Germans on Monday appear not to have realized what they were expected to realize, and in conformity with the French character, the longer the French hold out the more tenacious is their resistance. It is quite possible to break thru lines of trenches; the British and French have proved that several times, but this has to be done at one blow. If the surprise fails, and the attacked gain time to rush forward their reserves, the attempt ends in a fiasco. Of course, exceptions exist to every rule, and it is conceivably possible for the Germans to effect their object. Paris opinion, however, is extremely confident that the Germans will get nowhere strengthening of troops and fortificain their latest big offensive.

Inspected American Legion.
An official inspection of the American Legion was held yesterday by Brig. General W. A. Logic and Colonel Bickford, the soldiers being lined up on the big drill campus west of the manufacturers' building. It was their first inspection. General Logic addressed the battalion. He said they were the representatives of a great country, and that he was pleased to have Americans under his command. "T am pleased with the progress you have made so far. The class of men is good. With intelligence, which americans always have, and discipline, which it is necessary that a soldier should possess, I expect that you will make one of the finest battalions in this division."

ON THE HIGHWAY BOARD

President Mrs. Charles E. Holland of the Trench Comforts League, Oakwood, is in receipt of an interesting letter from her brother-in-law, W. J. Woody, giving a graphic account of his voyage from Santiago, Chili, to his home near London, England, and his experience on landing at Liverpool. He writes: "Our steamer carried cargo valued at \$165,000, and the utmost care was observed to avoid enemy submarines. All the male passengers were placed on watch, four hours on and four hours off. We were seven days late arriving in port, and when I stepped on shore I was immediately recruited for overseas service by recruiting officers at the landing stage." All doubts as to the composition of the York County Highways Commission were yesterday set at rest by the selection of George S. Henry, M.L.A., as the fifth man to complete the list. The commission as now constituted consists of Controller Foster and ex-Alderman Daye Spence for the city, and William Keath, W. H. Pugsley and George S. Henry, M. L.A., for the county. It is expected that a meeting to prepare for an active summer's work will be held within the next fortnight. The appointment of Mr. Henry gave the greatest satisfaction among the county members, many of whom were in the city attending the Ontario good roads convention,

JURY FOUND FRANK FRY MET ACCIDENTAL DEATH

Added Rider That Structures Housing Engines Should Be of Greater Capacity.

The coroner's jury, sitting under Coroner Pickering, with A. W. Roebuck acting for the crown, last night found acting for the crown, last night found that Frank Fry came to his death accidentally, thru being jammed in the wheels of the stationary engine at the Robert Simpson Company's new building on Mutual street, on the night of February 18. The jury added a rider to the effect that temporary structures housing engines should be of greater canacity, so that engineers of greater capacity, so that engineers could perform their duty in safety.

Fry was engineer of the stationary engine used for hoisting purposes at the new Robert Simpson Company's building. While performing his duties last Friday night he was drawn into the wheels of the engine, causing his spine to be broken and the top of his head torn off. Several witnesses in-cluding W. R. Banks, business agent of the Engineers' Union, and other en-gineers gave it as their opinion that Fry's neck scarf was caught while he was oiling the bearings, between the cable and the wheel over which the cable passed, drawing the man's body

between the wheels.

All the evidence was to the effect that Fry was a careful and competent engineer, that the engine was in good condition and of the type usually employed on this class of work. Dr. William Maybee performed the autopsy and pronounced death due to shock and hemorrhage caused by such an accident as had been described.

Alderman Risk, speaking for a deputation representing ward two, asked the board why there had been delay in the Mount Pleasant road matter. He said nothing had been started, altho the citizens thought work would have been commenced long ago. "Why, when a contract is awarded are there no funds reported for the work?" he funds reported for the work?" he asked. "We want to know when the work is going to start." Commissioner Harris, who was called into consultation, assured the deputation that there had been no unnecessary delay, that the plans had been approved by the railway board and that everything was ready to go on.

The proposal to ask the government to enter into competition with privat companies was strongly opposed by E A. James, York County Highway Engi A. James, York County Highway Engineer; Reeve McNair of Vaughan, Mr. Bowman, engineer of Berlin, and others, on the ground that the construction of steel bridges thruout the counties has been superseded by concrete, and that local municipalities could construct bridges to better advantage than a department.

Prohibitionists' Attack

PERSONAL LIBERTY

Is No New Thing in History

T would be interesting to know what view the Prohibitionists, local optionists, and others of the same persuasion really hold with regard to Personal Liberty. Not that most of them think very deeply or clearly upon the question. They see certain evil effects of excessive drink-which, by the way, are greatly exage gerated—and they at once jump to the conclusion that the passing of a law will change the whole thing. They never pause to consider the two fundamental facts: whether the law can be put into effect, and whether it is not contrary to the principle of personal individual liberty.

This is the Really Important Thing

WHETHER men shall or shall not drink, is a minor question. The real point is whether there is any personal freedom which the majority are bound to respect. For if such majority can decree what men shall and shall not drink, why not what they shall and shall not wear, how they shall and shall not vote, and how they may and may not worship God? These are not imaginary suppositions. All history is full of attempts to make men conform in personal matters to the will of the ruling powers. Prohibitory laws as to alcoholic beverages go back to Egyptian days. In the Middle Ages the particular style of dress of men and women was prescribed. With whom trading shall be done has been the object of numberless enactments in various lands. That the minority shall belong to a certain kind of religion under pains and penalties was the fixed policy of many a nation. The world, however, is working up from this low ideal to the present view of liberty, when man "may speak the thing

Now is the Time to Assert FREEDOM

And now, forsooth, the Prohibitionists of Ontario say that they will prescribe as to man's food and drink and will virtually confiscate his property without compensation. Not only so, but they arrogantly add that all who do not agree with them are on the side of evil in this great struggle, or, as it has been luridly expressed, in this contest between God and Satan. As a matter of fact, in many a spot in Canada to-day a man hardly dares get up and oppose Prohibition, for he would be ostracised, even as a

layman, let alone a Minister. Is it not time for Canadians to assert their British freedom and refuse to be dragooned against their conscientious opinion into legislation which will prove injurious alike to real temperance and to the true spirit of liberty?

The Personal Liberty League of Ontario believes in temperance in all things, and in its promotion; we favor the license system under proper regulation and control, but we are opposed to prohibition or any legislation which encroaches upon or curtails the purely personal liberties of our people.

The report of the board of management was given by J. K. Macdonald, who said that there was one feature in this year's report different from these of former years. This was in relation to the age of the children who had come to them from the court and other sources, the average age being much less and entailing much more care and responsibility on the part of the matron and staff. Mr. Macdonald pointed out that adverse criticism had the matron and staff. Mr. Macdonald pointed out that adverse criticism had been leveled against the society from official sources, on the score of the small number who had been adopted into homes. The speaker pointed out that of the 65 or 66 children at present in the home only 21 were wards, and it is only those who are such who may be transferred to a home for adoption. Of these 21 some had disease or infirmity, which made it wrong that they should be sent out; six others are incorrigibles, and only four are suited corrigibles, and only four are suited for adoption. Large and Highly Appreciative.

Viggo Kihl is in many respects the most manly and masculine planist in the city. His art is classic in its refinement and in its strength, and his temperament harmonizes with the classical purity of his program. Last night's recital at the Conservatory of Music presented a novel and attractive selection, the leading item being Brahms' variations and fugue on a theme of Handel, op. 24. It has been said that Tschalkowski's music sounds better than it is sounds, but in these variations he displays ingenuity and cleverness, and holds the student so closely in watch for the surprises he has in store for him, that the composition receives earnest attention thruout. Mr. Kihl gave it a masterly rendering, and he is to be congratulated upon producing such a work. The Chopin Sonats in B flat minor, op. 35, best known by the "March Funebre" of its third movement, was the next most important item. The majestic passages of the first movement are quite in Mr. Kihl's vein, but he is equally at home in such playing as the rapid tripleted chords for the left hand in the Scherzo, in which his technical facility at home in such playing as the rapid tripleted chords for the left hand in the Scherzo, in which his technical facility in this and other respects is most notable. ious Chopin Polonaise, op. 53, in a flat, which was given with exuberant and joyful feeling, the powerful bass in the third section furnishing a splendid feature, constituted another interesting suite. Numbers from Rameau, Mozart's merry Gigue in G major, and Schumann's Toccata, op. 7, were the other numbers played, the last mentioned, like the Chopin finale, being a brilliant exposition of technical skill. Mr. Kihl's unaffected and simple manner finds full expression in such a program as this, and his free and fluent touch, his frank and open spirit, serve him in the interpretation of the purest classical forms. There was a large audience which was highly appreciative, four recails at the close being finally rewarded with the performance of a dainty folk song.

"Materials and Methods in the Fine Arts" was the title of a most interesting illustrated lecture, delivered by G. A. Reid at the Women's Art Association on Wednesday afternoon. His subject commenced with comparison of various writings and treatises by artists who were also sculptors, painters and craftsmen at the same time. By that time it will be known definitely whether Dr. Simpson, the alleged paymaster of the old regime, and Tom Kelly, the contractor, will be brought back immediately.

If the extradition cases in London and Chicago are favorable, it is the intention of the Manitoba Government to try the three former ministers and Simpson and Kelly together on the general charge of conspiracy.

Calder Busy at Winnipsg.

It is considered significant that Calder, who made the charges concerning Hon. Robert Rogers at Regino, has been a frequent visitor in Winnipsg recently in consultation with the parliamentary building officials. In fact, it has been common rumor all over Winnipsg for some time that something big was to be pulled off in Saskatchewan in the way of exposures of graft that would overthrow the Scott government.

It is now said a number of Manitoba men will testify before the royal commission at Regina as to what they know of the attempted deal by which the Saskatchewan exposures would not be made provided prosecutions went no further in Manitoba, and that no further probe was inserted into the agricultural college building frauds.

Epidemics of colds and grip are almost invariably followed by much loss of life from pneumonia. When the body is worn down by colds and the lungs weakened from coughing, pneumonia finds an easy victim. Why Styles and Fashions in Food Should Be Avoided

By DR. LEONARD KEENE HIRSHBERG

A. B., M. A., M. D. (Johns Hopkins University) 7OU actually pay for food according to the prevalent taste and fashion, as you empty your coin

into the purses of tailors and dressmakers for style and cut of garments. The embodiment of nourishment and the health and growth of your physical fiber are not at all represented truthfully by the high cost of aliment. Concrete examples of this simple truth abound on all sides. The cod as a table fish is excellent. It costs only one-half as much as halibut. Halibut, however, is the vogue.

despite the fact that cod is as rich in albuminous food as is its modish hotel competitor. True enough, the latter fish has more oil and fat DR. HIRSHBERG than the cod. This slight discrepancy, however, is more than made up by

butter, lard and oleo used as dressing. Herring, mackerel, haddock, cel and turbot are all rich in fat. As food, herring and mackerel are only one-third less valuable as energy makers than is salmon. With the addition of various kinds of pleasing sauces, the less fashionable fry equals the heat and working rowers of the other.

less valuable as energy makers than is salmon. With the addition of various kinds of pleasing sauces, the less fashionable fry equals the heat and workmaking powers of the other.

Variety Is "Spice."

A wise physiologist—or rather an experimental psychologist—advises that food be made to fit the man as the Lord High Executioner of "Mikado" fame made punishment fit the crime, or the tailor cuts the cloth to the coat. That is to say, the method of the old-time actor-humorist should be followed, to wit, to adapt the kind of victuals you can butter in its ability to make heat and power in the living anatomy. Oatmeal contains both fat and protein—a flesh-maker. Three good herrings contain an abundance of fat as well as protein. They are composed of more fat than a pound of lean meat, though they cost but one-fifth the price.

Poor people are often automatically kept poor—that is to say, prevented from the necessary physical exertion to earn more money—because of a poorly alanced diet.

A fundamental error on such a table is excess of starches, sweets, oils and filliers, and an absence of the proper pro-

Too much sameness on your table means more or less monotony and habit in your daily grind. Life's labor is lost, indeed, without variety's "spice." To follow a famous pure food chemist, whose child is never given ice cream, whose household must weigh and measure all nutriment so that a definite percentage of "calories" or heat units are to be calculated with each meal, is to defeat health, happiness and well being. One of the economic defects of most dining rooms is a shameful disregard for wide mixture of rations, especially the negligent disdain of string beans, spinach, carrots, cauliflower, asparagus, sprouts, cress, turnips and

The Peel Election

Peel has done herself proud and has rendered a great service to the country and to the Conservative party. Mr Fallis would not take advice. He might have retired on a complimentary nomination. Now he is retired discredited. His election would have been a serious blow to the provincial party, which Sir James Whitney built up on a foundation of honesty and probity. The people have not forgotten his manly utterances. The heart of the people is sound, and it is a qualities for which he was selected in action.

them by Mr. Fallis and his supporters. election. The leaders made a fair offer cept Mr. Fallis to be returned by acclaleaders, like Mr. Blain, rejected that owerture, and they have lost a seat in consequence.

But they should rejoice that the people have the right stuff in them, and are determined that the manage ment of affairs in the province shall be in a manner without stain and without reproach.

The Man Who Leans Against a Post

Two or three companies of the Sportsmen's Battalion were swinging along Wilton avenue and turned down Mutual street, as fine a lot of lads as one might wish to see. Leaning up against a-telegraph pole at the corner was a young man, fit to be in uniform, and only failing in his duty because of that unaccountable streak which is to be found in a few. The boys in khaki recognized him, and "Come along!" "Get into line!" "Sign up!" "Where's your spunk!" not enlisted. He was naked of patriotism and not ashamed. Men like this are becoming scarcer.

They are being sifted out and by and by those who know them will be ashamed of the acquaintance. Their relatives may be responsible. It is often the case that the slackness, the timidity, the actual cowardice of a young man the picture theatre in question. is due to the training or home traditions he has had to contend with. He does not realize what he is, and makes a bravado of it for a while. Sooner or later he will discover what an outsider he is.

When the boys come back from the front those who were yellow will not be well accounted of. Mothers and sisters have a good deal to do with this side of the problem of recruiting. They know what they admire in other young men. They should hesitate before encouraging their sons or brothers to do what they condemn in others.

The young fellow who hangs back from this great adventure loses a wonderful chance to find his courage and his manhood, and to become a BEAURICH CIGARS man, in fact, in a highly honorable and effective way, which will not be forgotten in future. The boys who prefer to remain at home and lean against posts are no credit to the country nor will they be,

Prussian Domination Doomed Premier Asquith's speech was prob

ably not altogether elicited by Mr. Snowden's question. The situation on the continent called for a definite statement of the intentions of the allies. The present drive against Verdun has been expected by military critics, and has been regarded as an attempt to gain sufficient headway to ustify the German powers making overtures of peace from the height of successful attack. An ultimatum, offering peace or a raid on Paris,

would look well in theory. We need not fear that the German troops are in command of the situa-tion around the Meise salient. The withdrawals of the French from Brapant and other small places are said to be the result of desire to economize the lives of the men.

It is possible that the domestic situation in Germany demands prompt action of some kind on the part of the kaiser. The bankers have given warning that the finances of Germany are shattered and tottering. Rumors are in circulation that the fleet is to rush out from Kiel and do something. A change of admirals has occurred, one having died, the only sixty, after a short time in commission. Such a venture on the part of the German navy would be an act of despair, the last throw of the dice, and if it comes off, we shall know it is because there s nothing else to be done.

Under these circumstances the repetition by Premier Asquith of the sole terms upon which peace is possible is a wise and timely utterance. He did not vary, as he had no need to vary, one word in his declaration of a year and a half ago. It is summed up in the intention to destroy the military domination of Prussia wholly and finally.

Ontario License Board Chairman

Says Charge Against Scanditt

Needs Consideration.

The Ontario License Board vesterday reserved judgment in the case of J. W. Scanditt, liquor store keeper in London, Ont., charged with having made illegal sales. Chairman Flavelle said it was a serious case and would require consideration.

In his own defence Scanditt said he was ill in bed when the offences were committed. He said that one of his two men had been with him for years and he trusted them thoroly. He supposed he had made a mistake by giving them a commission on their sales during his absence.

WILD WEST DRAMA NOV ON STAGE AT REGINA

Charges and Counter-Charges Are Being Hurled Across Floor of Legislature.

AIR IS BEING CLEARED

Net Result of Political Upheavals Will Be Better Governments in Canada.

OTTAWA, Feb. 24.—Politicians and public alike are watching the wild

west drama now on the stage at Regina, where charges and countercharges are being hurled in the legislature of Saskatchewan. As the directions in Shakspere's plays read: "Sallies and counter-sallies and alarms." The small Conservative minority have charged the Scott government (Liberal), with taking bribes from the

liquor trade, with misuse of the public funds in connection with road building, with other things. And since the charges were made, an official in charge of the roads has diappeared and a bank manager with whom the hotel-keepers kept their deposit has also left Regina. As a set-off, Hon. Mr. Calder, the ablest man in the Scott administration, has sought to parry the blow, and the unpleasant situation in which the government finds itself, by making a charge in the legis-lature to the effect that he had been approached some months ago by Hon. Robert Rogers, minister of public TO THE BILINGUALISTS

W. J. Lowe, Liberal, Elected by saw-off the charges against the prospective charges that were to be made against the Liberal administration of the charges again against the Liberal administration of Saskatchewan, and of which these latest charges were in all probability a part. Mr. Rogers has denied that he did any such thing; Mr. Calder comes back with a telegram to Sir Wilfrid Laurier asking him to call the attention of parliament now in session here to the charges he has made against a minister of the crown at Ottawa. Further scenes on the western stage and also here are awaited by the spectators.

Things Are Slack.

The local governments have been going rather slack for a good many years in all the western provinces.

years in all the western provinces more or less. Manitoba has passed one of the worst exposures of political misconduct ever recorded in the history of Canada. The storm in the air of Manitoba, tho, has apparenty moved further west into Saskatche wan and is raging there at the present noment. It may also break out in the Liberal Province of Alberta adjoining And still further west there are rumblings of thunder in the Conservative Province of British Columbia, where the Bowser administration is up against the criticism of the recently organized opposition. The whole reord of the McBride regime is to be attacked. Sir Hibbert Tupper has joined in with the opposition.

And down east the Conservative administration of New Brunswick received a body-blow some months ago in connection with the administration

of the crown lands. Clearing the Air.

It would seem that the two great parties are fighting one another with scandal-charges and counter-charges in a good many of the provinces, and the net result is likely to be the clearing of the atmosphere and better gov-ernment. So far Manitoba is the first government that has really attempted to clean itself, the it is certain others will soon follow. Politicians here therefore, are very much concerned in watching developments, especially as it is now almost certain that there will be a general election in Canada some time this year, certainly nex year, with the issues turning largely on the conduct of public men and parties and individuals in connection

furious onslaughts by the infantry, to break the French line, nevertheless the French on their right and left wings have been compelled to withdraw their lines, respectively, to the south of Ormes and behindt he Town of Samogneux, six miles north of the fortress. Only between Melancourt and the left bank of the Meuse has there been any diminution in the intensity of the artillery fire. With Brabant, Haumont and Sagmogneux, and the wooded sections north and northeast of Beaumont in their possession, the Germans from the Meuse eastward to Fromezy are forcing the fighting, seemingly regardless of the cost in life.

The French guns have answered the German guns shell for shell, and the casualties on both sides are very great The French official report describes the battlefield between the Meuse and Ormes as piled with German dead.

Russian, returning from a trip to Japan in the capacity of special representative of the finance minister, was at the King Edward yesterday. He told of the friendship existing between Russia and Japan, mentioning that the mikado recently went down to the train to welcome a Russian grand duke, an almost unprecedented honor. He spoke of the new Russia that is today fighting the central empires; it is a united nation, with all home differences forgotten. The Russian peasant is brave and cheerful, and, unlike the German, he is not depressed by reverses.

NOT SO, SAID

Revised Bill Will Right Matters, is His Reply to Critics.

By a Staff Reporter. OTTAWA, Feb. 24 .- In the course of the budget debate, Hon. George P. Graham estimated the tax would be paid under the new budget by some of the largest corporations in Canada. He argued that in case of two cor-porations equally able to pay one would be heavily taxed, while the other would entirely escape thru its vast issues of watered stock. This led Sir Thomas White to again make a

definite announcement.

"The bill to be founded upon this resolution," he said, "will have a definition of the amount paid on capital stock, which would prevent any undue advantage from being derived by overcapitalized companies."

Mr. Graham, however, insisted that he was discussing the budget speech and not some bill that had not been and not some bill that had not been

laid before the house. He quoted from the udget speech to show that Sir Thomas had declared that it would be impractical to go behind capitalization to ascertain the real paid-up capitl of a corporation.

Raises Semitic Question.
The debate today was resumed by Mr. Boulay of Rimouski, who wanted all Hebrew immigration stopped, and indeed, argued in favor of shutting of violets: Mrs, Edward Gould (Brantford) a very becoming gown of geranium silk with trimming of brilliants; and Mrs. Norman Beal, a sister of the bride, in King's blue with lace and beauty roses, were also in the drawing room, which was gay with red, yellow tulips and pussy willow. The polished table in the tearoom was centred with Cliuny lace and a large brass basket of beautiful Ward roses and freezias; Mrs. G. W. Taylor and Mrs. W. H. Scott presiding, assisted by the Misses Grace and Ruth McCormack, Ione Heintzman, Bade Robinson, Edith Wallace, Hope McCormack.

ATTACK ON ATTACK

The field of Cost.

LONDON, Feb. 24.—Inspired by the presence of their emperor, and led by Crown Prince Frederick William, the German troops are engaged in one of the greatest battles of the war on the front centring around the fortress of Verdun. Attack has succeeded attack against the French line after bombardments incessant and terrific, continuing for several days.

Why Recruiting Lags.

Referring to the war, Mr. Boulay contended that the bilingual trouble accounted for the small number of recruits in Quebec. From his own county 200 men had enlisted, and a thousand more would enlist within 24 hours after the French-Canadians ceased to be regarded as Germans. At the sme time, he said that the French-Canadians did not get credit in many cases because they joined English regiments and thus lost their identity. He thought all Germans in the civil service should be discharged or at least suspended until after the war. The country, he said, was overrun by German spies Verville's Taxation Ideas.

Mr. Verville, the Liberal-Labor member for Maisonneuve, did not think much of the budget. He declared him the first the french line after bombardments incessant and terrific, continuing for several days.

the revied upon the salaries of highly paid civil servants in Ottawa would yield \$175,000. He thought the income tax should apply to all bachelors with an income of \$800 a year and to all married men with an income of \$1500 a year, with an exemption of \$200 for every child, altho he admitted that such a tax would not yield much in the Province of Quebec, where large families abounded. The government, he said, did not address itself to the conomic situation of the country. Wages had decreased and the cost of living had increased. Four hundred men were out on strike in Montreal hecause the Maxim Company had reduced their wages two and a half cents per hour.

Pacaud's Pointed Thrusts.

Mr. Pacaud of Megantic, Que., said the present government was a pendutum that swung between a menace and a sigh. One day they were threatening the opposition with a general election and the next day asking them to help with the problems of the coun-try. Meanwhile, altho the new taxes the sword of Damocles over thung like the sword of Damocles over the business men of Canada, the gov-ernment continued in a course of reckss extravagance.

Mr. Pacaud closed with an eloquent appeal for a united Canada, in which both the English and French languages would occupy the positions to which they were entitled by the constitution, and we would enjoy "liberty regulated by law, and law enlightened by liberty." (Applause.)

The debate was continued by Mr. Michaud (Victoria, N.B.), Hon. Geo. P. Graham and Judge Mackenzie (Cape

Mr. Graham criticized the nev taxes as taxation of industry instead of wealth. Wealth and "water," he said, escaped while industry and integrity were taxed. He also pointed out the injustice that the taxation inflicted upon mining companies and upon small business concerns that had lost money in 1912, 1913 and 1914 and made good profits the following year. Probably all these profits had gone to pay a debt to the bank. Now the small manufacturer would have to get on his knees to the bank to borrow the money back, Mr. Graham, however, especially di

rected his attack to what he called the exemption of watered stock notwithstanding Sir Thomas White's assur-ance that stock watering would not prevent a corporation being taxed upon its real capital. The following estimates were presented to the house by Mr. Graham in this regard: How It Works Out.

STANLEY CUP GAMES TO END HOCKEY WAR

Western Writer Has Hopes-Baker Poorest Paid Player -News and Gossip.

According to western exchanges some working agreement may come out of the visit east of a coast team when the P. C. H. A. winners come east to defend the Stanley Cup.

Barney Goss writes in The Vancouver News Advertiser: "It's quite a long time ago since Frank Patrick said that time ago since Frank Patrick said that there would never be any talk of peace as long as Emmett Quinn is head of the N.H.A., or as long as Kennedy owed the Vancouver Club \$750 for "Newsy." Lalonde, and I haven't heard that Patrick has changed his mind. This indebtedness being honorably liquidated and Quinn eliminated as a factor in any business dealings between the coast and the east, the P.C.H.A. might heed the wail for peace coming out of the east if it was nicely presented. Just what advantages would accrue to the west thru any peace agreement was not apparent to the man up a tree.

There may be some question as to the highest-priced player in the National Hockey Association, but there is none about the lowest.

"Brownie" Baker of the Wanderers will draw down one dollar for his season's work. He signed a contract for that amount on the eve of his first appearance of the season against Canadiens here Saturday night.

Baker has not been a hold-out. The terms offered him by Wanderers at the start of the season were quite satisfactory, but Baker could not make arrangements to get away from the position he holds in Sherbrooke. He will not be a regular with the Wanderers, but will play only occasionally when he can arrange to get away.—Montreal Herald.

The Winnipeg Victorias have refused to play hockey, with the Aberdeens of Ottawa, who are planning a western tour. The Victorias, thru President J. D. Pratt, explained they would not play against the Aberdeens because the latter were suspended by the Canadian Amateur Hockey Association, and declared they, "noticed with a little surprise" that a number of the teams in the east had been touring the country playing hockey instead of enlisting. Mr. Pratt explained that the only hockey played in Winnipeg this season was for patriotic purposes, the total receipts, less fifteen per cent, being given to the patriotic fund, and no others encouraged to play than men in khaki or those too young to enlist.

Brantford Believes Three Michigan Cities Would Save Canadian Baseball League

BRANTFORD, Feb. 24.—Early next week it is probable that the fate of the Canadian Baseball League for this summer will be made known, when a meeting of the league magnates will be held in Toronto. Brantford is quite willing to enter into a league with the Michigan cities.

President T. J. Nelson thinks such a move would be the salvation for baseball here this summer. The war, he figured, would kill a wholly Canadian League. He thought a league with four Canadian and four Michigan clubs would be a good proposition and put some of the financing on to the shoulders of our American cousins. He favors Flint, Lansing, Bay City and Saginaw.

All of last year's Brantford players are reserved. No manager has been appointed, but the local club will have no difficulty on this score, as numerous applications have been received.

BUSINESS AND FORD WIN TRADE FIXTURES

The Trade League resumed business at the Arena last night after a week's layoff. Business Systems came thru with a win when they defeated Goodyear 2 to 1. It was a close checking game, with Business Systems showing best at close quarters. Fords, without Woodcock, downed United Drug 7 to 2.

The teams:

Goodyear (1)—Goal, Galbraith; defence, Couper and Marrow; rover, Macabonald; centre, Dumas; right, McNaily; left, Anderson.

Business Systems (2)—Goal, Hewson; defence, Moore and Roy; rover, Clark; centre, Boothroyd; right, Philpott; left, Stevens.

centre, Boothroyd; right, Philpott; left, Stevens.
Ford (7)—Goal, Foy; defence, Haig and Freeman; rover, Warwick; centre, Horsfield; right, Nichol; left, Adair.
United Drug (2)—Goal, B. Kennedy; defence, Carter and J. Kennedy; rover, Davis; centre, Labbett; right, Ingoldsby; left, Morrish.
Referee—Jimmy Labett.

It is unnerstood that the attention of the minister has been drawn to the matter, but what will be done about it or whether this claim, if urged, will be combated is a question to be discussed when the buaget gets in the committee stage. That the C.P.R. has formally communicated such a claim to the minister or the government could not be learned to day, but in any event the argument is being put forward. The outcome of it largely hinges upon an interpretation of the charter rights of the company and whether by virtue of these there is immunity from federal taxation. WESTBURN WAS SUNK BY GERMAN CAPTORS

Spanish Authorities Would Have Returned Steamer to British Owners.

LONDON, Feb. 24.-A despatch from Santa Cruz, Teneriffe (Canary Islands), says that the German prize crew landed the prisoners from the steamer Westburn and then took the Westburn outside the harbor and

This was done, the despatches said, because the Spanish authorities hinted that the Westburn, believed to have been taken by the famous commerce raider Moewe, probably would be returned to her British owners, if the Germans decided to intern her. Fearing capture by British warships patrolling off the Canaries if they attempted to escape, the Germans put to sea and sank the British ship, just inside the three-mile limit. They returned to Santa Cruz where they probably will be interned for the remainder of the war.

It is assumed that the 206 passenger taken from other vessels reported sunk by the Moewe were put as

Ask yourself the question whether or not you would prefer to buy a car that has been used in the city or one that has been brought in from some of the many ou side towns, after being used almost entirely on country roads since it left the factory. It is not very hard to get particulars as to where a car has been used, and in many cases how it has been driven, if you go the right way about it. As a matter of fact, it is up to the dealer to get the positive facts and pass them on to you with authority, making this information part of the selling agreement as to correct representation. FRIDAY MORNING FEAR FORCES SELLING OF AMERICAN STOCKS

Alarming Stories of Pending Rupture at Washington Shake Investors' Confidence.

UNSETTLED AT START

New York Exchange Encountered Heavy Liquidation From Outside Sources.

NEW YORK, Feb. 24 .- The one abscrbing and overshadowing feature of feverishly weak market was the fear of a rupture between the exeoutive and legislative branches of the feceral government, resulting from Germany's proposed extension of its submarine policy. All other considerations and developments, some of them highly favorable, were ignored in the widespread apprehension arising from this tense situation.

this tense situation.

Unsettlement was manifested at the very outset and became more pronunced with the progress of the session. Liquidation, largely from out of town sources, was a primary factor, and the short interest abetted the destricted movement by extending its commitments in those specialties which have proved most susceptible to pressure in the past.

All classes of stocks were affected

in greater or less degree, but the shrinkage was more severe in the mushrinkage was more severe in the munitions and oil groups, altho high-class issues recorded declines of 1 to 2 points. Some slight improvement was shown in the final hour, when more encouraging advices from Washington caused the shorts to cover their contracts in part. Total sales amounted to \$50,000 shares.

to 590.000 shares.

Further cause for unsettlement was furnished by the very heavy offerings of Anglo-French war bonds, sales of this particular issue completely dominating that branch of the securities market. The minimum quotation of 94 registered by this representative issue marked a decline of 1 7-8 from its best price of the early part of the year, tho a fraction above its minimum figure in the latter part of 1915.

For want of a more definite reason, today's extensive selling of this war issue was attributed to the action of the Du Pont Powder Co. directors, who the Du Pont Powder Co. directors, who yesterday declared an extra dividend

yesterday declared an extra dividend of 2½ per cent., payable largely in these bonds.

Factors of favorable import included Union Pacific's net increase of \$795,-000 for January, indications of an amicable settlement of existing differences between the coal miners and operators and the improved exhibits. operators and the improved exhibits of the leading financial institutions of Bonds as a whole reflected the heavy tone of the international issues. Smelters and Steel of Canada, the Only Active Issues, Are Depressed by Sales

The Toronto stock market was unsettled yesterday and trading was less active. The upward movement of the previous two days—Steel of Canada and Smelters—were the only ssues to make an attempt at activity. The former reached its previous high of 42, but traders pought to take profits and the price reacted quite readily to 40 1-4 and then recovered readily to 40 1-4 and then recovered half a point. Smelters did not get much inside support, and from the opening at 157 sales were made down to 154. General Electric, Maple Leaf, Cement and Mackay had inferior support and small offerings compelled declines out of all propor-tion to the sales. The whole marke was thin and nervousness on Wall street was unfavorable to any local bullish sentiment. Mining stocks listed and unlisted, followed the acof other issues and were deal

ON UNSETTLING RUMOR

Story That Bernstorff Would Get Passports Smashed Market Seven Points.

PANIC RULES NEAR END

Flurried Holders at Chicago Made Wild Rush to Stop Huge Losses.

CHICAGO, Feb. 24.—Rumors that Ambassador Von Bernstorff was about to be handed his passports smashed down the price of wheat today 7½ c a bushel. In the collapse, which was from an early advance, the May option fell from \$1.24½ to \$1.17. The close was excited, 5c to 5½ c under yesterday's finish, with May at \$1.17½ and July at \$1.14½. Other leading staples, too, all showed a decided setback—corn 1½ c to 1½ c, oats 2c and provisions 12½ c to 25c.

Conditions that bordered on panic ruled in the wheat pit just before the end of the session. Flurried holders were tumbling over each other in a rush to stop huge losses, which with unusual suddenness had resulted almost entirely from unverified reports that drastic action was imminent on the part of President Wilson in regard to German plans for attacks by submarines. The break in prices had not begun to assume sensational proportions until the final hour of trading, but after that and especially in the last 15 minutes the downward plunge of the market was almost in a vertical line. There was no concentrated buying on the extraordinary descent of 7½ c. Then, however, with a vertical line. There was no concentrated buying on the extraordinary descent of 7½c. Then, however, with scarcely breathing time left before the last gong, support developed that was sufficient to cause ½c rally.

The buying for Europe, however, turned out as on yesterday to be chiefly of Manitoba wheat and in the main for deferred shipment. This fact put a majority of traders into a bearish frame of mind, and was to some extent responsible for the momentum of the market on the ensuing big tumble.

LONDON STOCK EXCHANGE.

LONDON, Feb. 24.—Trading on the
stock exchange today was somewhat affected by the storm. Japanese and Argentine bonds were in good demand, and
the war loan attracted a number of purchasers, but in other directions the uncertainty of future taxes and loans had
a restraining effect and transactions
were easy. American securities closed
steady after a meagre turnover.

Money supplies were only moderate
and discount rates were steady. The
exchange market was exceedingly dull

was dull and irregular in trend, due to the weakness of outside markets. The total volume of business was small, amounting only to 63,600 shares The total volume of business was and there was really no feature to the trading whatever. Business was fairly well scattered thruout the list, with Dome Extension, Hollinger, Mc-Intyre and Timiskaming the only stocks showing any real activity.

Silver at New York was again quoted at 57. While the high price for the white metal obtains, continued with the strong technical portion of the market no serious downward movements are expected. The temporary weakness in some of the issues, notably McIntyre, failed to bring about liquidation of amy consequence.

In the general list, Dome Extension opened firm at 28½. It eased off ¼, but just before the close a rally started and for a few minutes there was some real activity. The belated buying movement brought a quick advance to 29½, at which point the stock closed. Dome Lake held at 27 to 27½. Big Dome firmed up a little, selling from \$24.25 at the opening to \$24.50 on the close.

Hollinger was active during the Hollinger was active during the morning session, opening at \$26.12\forall_4, selling up to \$26\forall_4, but easing off later to \$26. There were no transactions in the stock during the afternoon. Jupiter was in demand around 22 to 22\forall_4. McIntyre developed a softer tendency, opening at 96, a point down from the previous day's high, and sold down to 94, closing a little stronger at 94\forall_4. There seemed to be no particular reason for the decline. Porcupine Vipond strengthened up a little, selling from 69 to 70, but closing easier at the opening figure. Teck-Hughes changed hands at 20, West Dome at 15, and West Dome Consolidated at 22. In the Cobalt section there was but little trading. Timiskaming opened fairly strong at 57 and sold off one rount to 56. Beaver was steady at 37. Chambers-Ferland eased off from 24 to 23, and Gifford sold down \(\forall_4\) from 6\(\forall_4\) at the opening. Conlagas changed hands at \$4.25. Kerr Lake weakehed in the afternoon, selling down to \$3.90. It sold in the morning at \$4.25.

Peterson Lake held steady, selling between 24\(\forall_4\) and 25, and Seneca Superior changed hands at 62.

out a reasonable solution for the different interests. As far as they were concerned they would accept the decision of the minister.

In reply to a query as to the probable effect of the war tax on the coming in of American capital for the development of the mining industry, Mr. C. A. Foster, president of the Tough-Oakes Mine, stated yesterday that in his opinion it would have but little effect. There was he have but little effect. There was he said, a tendency on the part of some mining men to take a pessimistic view of the war tax, but he knew of large American interests who were developing properties in the north who had no intention whatever of curtailing their operations on account of the tax. As far as the Tough-Oakes Mine was concerned, he said, they were quite willing to bear said, they were quite willing to bear the burden placed on them by the government.

Privy Council Judgment Upholds Provinces Against Dominion Government.

DELIVERED BY HALDANE Decision is Important Interpretation of British North America Act.

Canadian Associated Press Cable. LONDON, Feb. 24.—The privy council today delivered judgment in the appeals brought by the Dominion attorney-general and the provincial attorneys-general regarding the position and powers or companies under the provincial statutes. Lord Haldane, delivering judgment in Bonanza Creek vs. Rex, with the Quebec at-

creek vs. Rex, with the Quebec attorney-general intervening, said the appeal gave rise to a question of constitutional importance, and proceeded to deal with legislation affecting the subject. Section 92 of the British North America Act conferred exclusive power on the provincial legislature to make laws in relation to incorporation of companies with provincial objects.

A Territorial Limit.

The interpretation of this provision, which had been adopted by the majority of the judges of the supreme court, is that the introduction of the words "with provincial objects" imposes a territorial limit on legislation conferring the power of incorporation so completely that by or under the provincial legislation no company can be incorporated with existence in law that extends beyond the boundaries of the province. The whole matter, he said, may be put thus: the limitations of the legislation to such as relates to incorporation of companies with provincial objects, confine the character of ac-

The incorporators are Margaret J. Brown, John McKintosh Dunf, James (Gray Hamilton, Charles Walter Smythe Kenneth Duncan McKenzie, all of Toronto.

Mr J. T. Eastwood, president of the Standard Stock Exchange, stated to The World yesterday that the members of the exchange knew that there was a delegation representing the mines and mine owners in Ottawa, presenting their claims for fairer treatment under the new war tax, and that the brokers were confident that when the case was presented to Sir Thomas White he would work out a reasonable solution for the different interests. As far as they were concerned they would accept the decision of the minister.

SYNOPSIS OF CANADIAN NOT WEST LAND REGULATIONS.

The sole head of a family, or any male over eighteen years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties Six months' residence upon and

Agency (but not Sub-Agency) on certain conditions.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least eighty acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price, \$3.00 per acre.

Duties—Six months' residence in each of three years after earning homestead patent, also fifty acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his home-

conditions.

A settler who has exhausted his homeetead right may take a purchased homestead in certain districts. Price \$3.00 per
acre. Duties—Must reside six months in
esch of the three years, cultivate fiftyacres and erect a house worth \$300.

The area of cultivation is subject to
reduction in case of rougs, scrubby or
stony land. Live stock may be substituted for cultivation under certain confditions. W. W. CORY. C. M. G.,
