When it saw me coming it trotted toward me, and it took all my strength in my left hand to keep my mule from turn ing tail and bolting, put I kept her head ward work for a green hand, and if my mule had not shied violently to one side the rush of the pig would have certainly harpoen seemed to make the brute furious, and with blood streaming down his back from scrofula! broken his fore leg. The first taste of the he came back at me gnashing his tusks with a noise like the rattle of a pair of bones at the Minstrels.' This time I missed him altogether, and his sharp teeth took a couple of square inches of skin from my mule's off fore leg. But at the third charge I gave him the harpoon square in the eye. He reared up on his haunches and fell over backward, taking the lance out of my hand in his fall.

By this time Smith had closed with the leaders of the drove, which had broken cover when they heard the struggle going on, and I saw there was no time to get out of the saddle and pick up the spear so I tore my gun out of the fastening which held it on the saddle behind me and puta load of buckshot into the throat of the bristly boar who was goring Smith's mule in the rear. After that I had all I could do to take care of myself. The little beasts, none of them bigger than an ordinary bulldog, came at me like a whirlwind, and for the next 10 minutes I expected to be thrown into the middle of them. The mule was doing her level best to upset me, and all the indications pointed to her being brought to the ground with broken legs. The skin was torn from her shanks into ribbons, and if I had gone down it would have been all day for me. Smith soon saw that the case was too serious to trust to the harpoons any longer, and, after sticking one through the neck, he threw the spear away and joined me in thinning the drove out with his rifle. This was quicker work, and after we had bowled over six and wounded several more, the whole party became panic stricken and raced away into the woods like so many deer. When the coast was clear Rafael came down from his perch. He looked at the dead hogs and then at us with an expression

f reverence on his face. "El Norte esta diabolo," was all he said. For a man who knows how to handle lance or harpoon pig sticking may be good sport, but, for my part, I would not venture into the midst of a drove of

GENERAL NOTES AND NEWS. A Hearty Endorsement. The people, the press and the profession

all heartily endorse the merits of Burdock Blood Bitters as the best Blood and Liver regulator and purifying tonic now in suse. None Better.

There is no more wholesome or delicious fruit on earth than the Wild Straw berry, and there is no more effectual remedy for Cholera, Dysentery, Cramps and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

On the Rise. "Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such ormous quantities in making Dr. Fowler's Extract of Wild Strawberry-the nfallible remedy for Cholera Morbus, Diarrhoea and other Summer Complaints.

A National Evil. There is no question but that Dyspepsia is the national disease of our country, and when complicated with diseases of the Liver and Kidneys is the cause of unteld

misery. Burdock Blood Bitters will almost invariably cure the worst case

A Wise Precaution. During the Summer and Fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a Physician is seldom required

A Radical Change.

CHATHAM. N. B. - - - AUGUST 27, 1885. An Important Business Change. The New Brunswick Trading Company of London (limited) has been organized and its prospectus publish-

ed in some of the leading papers of Great Britain. It has been formed for the purpose of taking over, increasing and developing the combined Co., and Messrs. R. A. & J. Stewart, as carried on by them at Miramichi, and of transacting the business of a share on any of the ordinary shares. The preference shares are now alone offered for subscription, payment thereon to be made as follows .- \$2 on application and the baiance on on application and the balance on allotment. The first dividend will be payable 1st November next and subsequent dividends half-yearly.
