

TRAGIC DROWNING OF YOUNG PEOPLE

Eight High School Students Go Down To Watery Grave at Huntington, Pa.

Boat Foundered in Mill Pond—With One Exception Boys of Party Left Girls to Drown.

Wilkesbarre, Pa., May 12.—Eight high school students, six girls and two boys, lost their lives today while boating on what is known as the old Paper Mill dam at Huntington Hill, about twenty miles below this city, in the lower end of Luzerne county.

The dead are: Maud Sutcliffe, aged 17 years, of Town Line; Carolyn Koons, aged 16 years, Harveyville; Ruth Bonham, 18 years, Town Line; Iris Davenport, 16 years, Watertown; Rachel Thompson, 16 years, Town Hill; Madeline Good, 17 years, Watertown; Robert Minnich, 16 years, Koonsville; Ray Dodson, 17 years, Fairmont.

Twelve students of the Huntington High School got two boats at the noon hour and started for a row on the dam. The dam is nearly half a mile in width, and when the two crafts had reached the centre of the body of water it was noticed that one of them had sprung a leak. The two boats were then pulled together by the young men in the party and an effort was being made to transfer the girls from the leaky boat to the safer craft.

The last one of the party had scarcely set foot in the boat when it began to sink, a combined weight of the party.

The girls were helpless to save themselves and the boys in the party with the exception of Dodson being expert swimmers, struck out for the shore, which all reached in safety. Minnich in the excitement, it is presumed, thought that all the young women had succeeded in reaching land. He no sooner gained the bank than he noticed the girls hanging to the rapidly sinking boat. The boy dashed into the water and swam swiftly to the water filled craft. Only two of the girls were clinging to the boat, the others having gone down for the last time. Seeing Miss Davenport, Minnich again started for the shore, but the exertion was too much for the gallant lad and the two went down together when they were within a stone's throw of the bank.

When the boat sprang a leak there was no excitement among the members of the party, but as soon as the sound craft began to fill with water, it appeared as though every member became terror stricken. The shrieks of the drowning girls could be plainly heard on the bank of the dam, but there was no one near whom could launch another boat and go to the rescue of the imperilled party.

Families Prominent. The terrible accident has cast a gloom over the lower end of Luzerne County, where the families of all the victims are prominent. Three of those who were drowned would have graduated this summer, young Minnich and the Misses Bonham and Good.

As soon as it became known that the students had lost their lives hundreds of persons soon surrounded the body of water and grapping parties at once began a search for the bodies of the unfortunate scholars. Those of Minnich, and Miss Davenport were the first recovered. After grappling for less than two hours all the bodies were recovered. Not one of the parents of the drowned boys and girls knew of the accident until all of the bodies had been brought to shore.

KILLED ON LUMBER DRIVE ON ST. JOHN

Geo. Bryant, a Former Englishman, Crushed Under Logs At Northampton—Railway Employee Pleads Guilty.

Special to The Standard. Woodstock, May 12.—Geo. Bryant, a native of Liverpool, Eng., who has been in Canada about two years, was killed yesterday afternoon, while rafting logs for Wm. Simmons, at Northampton on the St. John river. He was at work with a crew of men who were taking logs from the bank and was at the foot of the brow. A heavy hemlock was started at the top and when Bryant saw it rolling down, he apparently became bewildered and unable to get out of danger. The log rolled over his crushing his head badly, and injuring him internally. He was taken to his home a short distance away and medical assistance summoned. The accident took place about 10 o'clock in the morning and he lived until 5 o'clock in the evening. He is survived by a wife, two sons and one daughter. He recently purchased a farm at Northampton and was considered an honest and respectable citizen.

The preliminary examination of the accident took place about 10 o'clock in the morning and he lived until 5 o'clock in the evening. He is survived by a wife, two sons and one daughter. He recently purchased a farm at Northampton and was considered an honest and respectable citizen.

Wm. A. Johnson, engineer, and Roy Craig, firemen, C. P. R. employees, charged by Andrew Williams, trainmaster, with being intoxicated while on duty on April 23rd and 24th, on a special freight train, was called before Magistrate Dibble, this afternoon. Col. McLean represented the C. P. R., J. C. Hartley, the defence, F. B. Carvell, the Brotherhood of Railway Trainmen, Mr. Hartley stated that, Craig was sick and not able to appear for a fortnight, consequently his case was postponed until Thursday, May 26th. The charge was read to Mr. Johnson and he pleaded guilty. Court adjourned until May 26th, so that sentence could be pronounced on both if Craig pleaded guilty. Johnson was allowed bail at \$400 personal and \$200 by Mr. Hartley.

INDICTED; WAS SHORT \$500,000

John A. Hall, Former Treasurer of Southbridge Bank, is Charged With Larceny Of \$104,000.

Worcester, Mass., May 12.—John A. Hall, former treasurer of the Southbridge Savings Bank, was today indicted by the Worcester County grand jury on 15 counts, charging him with the larceny of \$104,000 of the bank's funds. Hall, who has been in jail awaiting trial much of the time since last January, when he surrendered himself, following the discovery of the shortage in the bank's accounts, did not plead to the indictment today.

Although the counts of the indictment aggregate only \$104,000 as the amount for which Hall is responsible, expert accountants who have gone over the former treasurer's books in the Southbridge Savings Bank, have reported a shortage exceeding \$600,000.

BEST COLLEGE IN CANADA BESTOWS MANY HONORS

CHIVALRY WORKED THE WRONG WAY

Eleven Drowned As Result Of Attempt To Hurry Women And Children Ashore From Sinking Steamer.

St. Louis, Mo., May 12.—Chivalry which allowed women passengers to precede the men in leaving the river steamer Spillito last night when the boat ran on a rock near Glen Park, Mo., cost the lives of five women and a baby, and saved the gallant men, according to a statement tonight by Capt. Crane, of the Spillito.

Of the six men drowned, five were shipmen who lost their lives in aiding passengers to escape. Captain Crane said that the loss of life was due to the mistake of ordering the passengers to hurry from the sinking boat when it was near land.

"It was a bad mistake," he said. "Had we made the passengers wait a minute before trying to cross the gang plank, none would have been drowned. It is easy to look back and see what we might have done."

One of the two bodies recovered was that of Mrs. Isaac T. Rhea, of Nashville, Tenn., wife of the president of the St. Louis and Tennessee River Packet Co., owners of the boat. The other was that of a negro porter, D. J. Coragiani, second mate, said the alarm on the boat was locally increased by the cry of fire. Flames were seen to shoot up from the furnace, but the fire was extinguished by the water which the vessel lifted.

Smoke from a lime kiln on the bank and the high water prevented the pilot from keeping in the channel. The boat struck a submerged rock in backing off, the vessel turned around.

RAIN WELCOME IN ALBERTA

Snow and Sleet Turning To Downpour Of Rain Effectually Broke Up Drought In Western Province.

Special to The Standard. Winnipeg, May 12.—Reports received this morning show that snow and sleet has fallen in a large part of Alberta, turning to rain, which will probably save the crops which were in bad shape through drought. In many parts of Southern Alberta fall wheat has been plowed up. In Northern Alberta the crops are in splendid condition and the outlook is splendid. The weather in Manitoba and Saskatchewan has been very cool this week and there have been night frosts. The crop, however, is not far enough advanced to do any damage. Rain is needed in these two provinces.

Degrees Conferred Before Distinguished Gathering at King's College Encoenia Yesterday.

Rev. Dean Schofield Delivers Eloquent Alumni Oration—Address by the New President.

Special to The Standard. Windsor, N. S., May 12.—The motion made by Mr. E. I. Hanington at the alumni meeting yesterday still continues to be the chief topic amongst the graduates and graduates of Kings who are in Windsor. Mr. Hanington moved a vote of confidence in the several faculties of the university, which was adopted unanimously.

While no specific mention was made of the St. John school the impression prevailed amongst several members that it was a step in the right direction.

Canon Powell, The New President of Kings.

In the direction of the separation of the law school from the university, a proposition that does not lack for able supporters in both provinces. A motion was made by the Rev. Dean Schofield, looking at the matter simply from their own point of view, recognize that the surest way to strengthen any creed is as the whole history of the world has proved, to persecute it.

Today's Encoenia day at Kings College is favored with the most beautiful weather the several faculties of that institution have been most successfully carried out.

The procession marched to the parish church, where service was held. The Encoenia sermon was delivered by Rev. Canon Powell, M. A., the new president, and was the able effort of a scholarly and eloquent preacher, and was listened to with profound attention by the largest congregation that has ever attended an Encoenia service of the University of Kings College.

At 12:30 o'clock a luncheon was tendered to the faculty, governors, graduates and students by the Women's Auxiliary of Kings College in the College School gymnasium, and was a most enjoyable function.

NO HOPE FOR ENTOMBED COAL MINERS

Only Four Men Rescued Out Of 141 Working In White Haven Mine When Explosion Occurred—King Sends Sympathy.

Manchester, England, May 12.—One hundred and thirty-seven miners lost their lives today in an explosion in the Wellington colliery at White Haven. Rescue parties succeeded in saving four men, but fire has broken out in the workings, leaving practically no hope for those who are still entombed.

Throughout the day the rescue parties made considerable progress at the mine, but their work was stopped tonight by the collapse of the roof.

A curious fact that a colliery warning was established in many of the newspapers in the mining districts of the Kingdom yesterday, to the effect that, unusually high barometric conditions rendered fire damp explosions extremely probable, and that underground workers ought therefore to be on the alert. The barometer reached its highest reading in the White Haven district.

King George tonight sent a message of sympathy to the owners of the colliery.

OPPOSE CHANGE IN KING'S OATH

Extreme Protestants In England Reported As Bitterly Against Any Modification Of Coronation Oath.

London, May 12.—Extremists among the Protestants are up in arms against the proposed amendments of the coronation oath, and ever since Premier Asquith signified his intention to carry out Mr. Redmond's suggestion they have been indulging in virulent threats and abuse.

LONDON WHEELS CEASE TO TURN

LUMBERMAN HAS FIGHT WITH DEATH

David Johnson Plunged In Seething Waters Of St. Croix And Escapes With Difficulty.

Special to The Standard. St. Stephen, May 12.—David Johnson, the veteran lumber operator of the St. Croix waters, as well as an escapee from death this morning. He had operated last winter on North Brook for the St. Croix Paper Co., at Woodland and had five different camps under his direction. He drives as well as cuts, and was this morning superintending operations and giving his men his assistance as well as acting as a projecting log, and buried into the seething waters, white with foam. One arm was totally disabled, but with the other he fought death and reached the shore after a struggle that would have conquered many a younger man. Mr. Johnson came in on the C. P. R. train tonight and proceeded to Chippewa memorial hospital where he found that his injuries consisted of a dislocation of the collar bone and a dislocated shoulder. Mr. Johnson is a representative of the Parish of St. Croix in the county council of which he is the chairman of the finance committee, and also a past warden of the municipality. He is one of the best known men in the County of Charlotte, and his many friends in all sections will rejoice that he escaped from his trying experience so well as he did.

Some difficulty has arisen between the local manager and three young ladies operators at "Central" of the New Brunswick Telephone Co., and the latter have tendered their resignation to take effect May 20th. The nature of the trouble is not known, but the three young ladies concerned have been popular and a petition will be forwarded to the general superintendent signed by the patrons of the company here. The local manager has also labored zealously for the company and any difference has arisen is generally regretted.

HENZE IS ACQUITTED

New York Banker Charged With Misapplying Funds Fares Better Than Morse—Cost Him \$5,000,000.

New York, N. Y., May 12.—Fritz Augustus Henze was acquitted in New York tonight of charges of misapplying the funds of the Mercantile National Bank, while he was president of the institution in 1907, and he was cleared of the charge over certification of checks of his brother's firm, Otto Henze and Company. A jury in the criminal branch of the United States circuit court after a trial lasting nearly three weeks found him not guilty at 9:50 o'clock tonight, and he was discharged.

Thus failed ingloriously, the government's attempt to hold Henze responsible for financing during panic of three years ago, alleged to be in violation of the national banking laws. John B. Stanchfield, defended the young millionaire; Henry A. Wise, United States attorney for this district, his prosecutor.

Mr. Stanchfield summed up for the defence this morning, and Mr. Wise denounced the defendant for three hours and thirty-five minutes this afternoon. He is so jubilant issued this statement tonight after his acquittal: "I am naturally pleased with the verdict, but not at all surprised. The thing I most regret is the long delay in bringing the case to trial. I have been ready for trial every day since the first indictment was returned two years and a half ago. This delay has cost me between \$4,000,000 and \$5,000,000. Possibly some persons who were very anxious to see me convicted will be almost as well satisfied with this as though I had been found guilty, for the reputation of my credit seems to have been most viciously aimed at."

Every Tram Car Will Stop for 15 Minutes During King's Funeral on May 20th.

Arrangements for Impressive Service Being Rapidly Completed—King George a Busy Man

London, May 12.—From a life of comparative ease and retirement, King George suddenly finds himself one of the hardest worked officials in the Kingdom. In addition to spending considerable time daily at Buckingham Palace, comforting his widow mother, he has to attend to multifarious duties and to receive in person and entertain the royal guests and arranging the difficult details of the lying-in-state and the funeral.

Seven o'clock each morning finds His Majesty already at his desk in Marlborough House, to reply to the innumerable messages of condolence and to receive in person and officials who have to do with the obsequies. Today he had a long special interview with John Burns, president of the local Government, and the afternoon he spent with the queen mother and in the evening to went to the station to meet and escort the king of Denmark to Buckingham Palace.

Roosevelt Special Envoy. Ex-President Roosevelt, who has been named as special envoy of the United States, to attend the funeral of the late King, will be presented to King George soon after his arrival in London on Monday. This has been arranged in conformity with the wish of the King, as expressed to Whitelaw Reid, the American ambassador. Mr. Roosevelt as special ambassador will occupy a place with the visiting monarchs in the funeral procession, and will also attend the burial at Windsor.

The lying-in-state involves a great addition to the work of arranging the programme for the funeral, all the details of which will be finally completed before Sunday. The procession to Westminster Hall on Tuesday for the lying-in-state will be an almost as great a scale as the funeral procession. The cortege will include King George and all the foreign sovereigns on horse back and the queen mother and the royal ladies in carriages. The body will be received by the members of the House of Lords and the House of Commons, while the choir of Westminster Abbey and the chapel royal, and the band of the Coldstream Guards will take part in the musical services.

When the funeral procession starts on Friday, every tramcar in London will come to a standstill for a quarter of an hour. It is also proposed that all the public houses in London should be closed while the procession is passing.

The Queen Mother herself has been exceedingly busy since the death of the King. She has received great numbers of visitors, who have been privileged to enter the death chamber. Those included besides most of the members of the cabinet and the leaders of the opposition many ambassadors and other officials connected with the court and prominent mortals who were the intimate friends of Edward VII.

Note of Discard. A note of discard in the universal mortuary comes from Dublin, where at a meeting of the corporation today seven members of the Sinn Fein Society voted against the lord mayor's resolution to send a message of sympathy and condolence to the Queen Mother and the royal family.

Erecting Stands. Hundreds of carpenters are already at work erecting stands along the route that will be followed by the funeral procession, and owners of frontages are preparing to make the most of their good positions. Twenty-five to fifty dollars is obtainable easily for a single seat at points of vantage, while a small upper room with a couple of tiny windows overlooking the street is considered a bargain at \$500. On the most fashionable thoroughfares like Piccadilly from \$2,000 to \$3,000 is asked for the use of the single rooms.

Kaiser Leaves Wednesday. Berlin, May 12.—It was officially announced tonight that Emperor William would leave next Wednesday for London, arriving there on the following day. The date of his return after attending King Edward's funeral has not been made known.

Steel King's Tribut. Plymouth, May 12.—Andrew Carnegie, who arrived here today on the S. S. Adriatic, expressed deep regret at the death of King Edward. It was a great misfortune, he said, to the cause of peace throughout the world. The British people, however, he added, ought to congratulate themselves on having such a successful and King George, who was certain to maintain in a worthy manner his lofty position. Whenever he met him, the former Prince of Wales had always impressed him as taking a deep and sensible interest in public affairs. The Prince was specially solicitous for the welfare of the masses, while Queen Mary was noted not only for the extent of her work, but for extreme vigilance in management.

ALLAN LINE TO HAVE TWO FAST STEAMERS

Montreal Officials Confirm Report Of Construction Of 22-Knot Steamships For The St. Lawrence Route.

Special to The Standard. Montreal, May 12.—Representatives of the Allan Line, who are in this city tonight confirmed the cable despatches that the company had called for tenders for the construction of two steamers of about twenty thousand tons each. The new boats will be about seven hundred feet long and will have a sea speed between 21 and 22 knots each. This will enable them to land passengers in Chile via Quebec in less than a week from the time of departure from Montreal, or as quickly as the Mauretania can land them in New York.

THE EMPEROR'S GIFT. Berlin, May 12.—Emperor William has presented Mr. Roosevelt with four water colors depicting the German military in action, and four books descriptive of the army and its operations.

SHOCKING CONDITION IN TENEMENT HOUSES

Census Enumerator At Passaic Found 292 People Living In One House—Eight In Each Room.

New York, May 12.—The census enumerator at Passaic, who found a house where 350 persons lived by day and night shifts and under the same roof, thought he had made a discovery, but he must give way to another enumerator, who reported even worse conditions today. Another house in Passaic shelters twelve families, numbering with their children 292 souls, and all either infants or day workers, so that they all sleep there at night, whereas in the first named house there were never more than 175 sleeping at the same time.

In the house found today the average number of occupants to each room is 8.19, including the kitchen. There is no space for beds and the inmates sleep in straw.

DR. CUTTEN IN NEW YORK

Acadia President Left On Hurred Trip Monday In Interests Of Acadia University—Howe To Leave Academy.

Wolfville, May 12.—President Cutten, of Acadia University, left Wolfville quite suddenly upon the morning of the 10th inst.

His mission is said to be one of great interest to the university, the details of which will be made public in good time. The president is a most clever teacher and has already made his mark here. It has been discovered, also that he is a most astute diplomat.

DEGREES CONFERRED

At two o'clock the time honored procession of the members of the house of convocation from the residence of the Right Rev. the Lord Bishop of Nova Scotia in the chair. The degrees conferred follows, the candidates being presented by the Rev. Canon Vroom, D.D., D.C.L.:

Doctor of Civil Law—Rev. Henry de Blois, Annapolis Royal, N. S.; Earl John, K. C., Fredericton, N. B.; Hon. Sir, Justice McKeown, W. B. Wallace, K. C., St. John, N. B.

Doctor of Divinity (Juris dig.)—The Very Rev. Dean Schofield, M.A., Fredericton, N. B.

E. S. J. MORSE A SUICIDE

Bar Harbor Agent For Eastern Steamship Co., Well Known In St. John Hanged Himself While Despondent.

Bar Harbor, Me., May 12.—Despondent because of his continued ill health, E. S. J. Morse, until last summer, 20 years local agent for the Eastern Steamship Co., killed himself by hanging in the cellar of his house this evening. In the afternoon he visited the centre of the town and seemed to be as well as he has been at any time during the last year. He was widely known and highly respected in Bar Harbor.

# King's Encenia The Occasion of Eloquent Speeches Before Brilliant Gathering Yesterday

### Cannon Powell, the New President, Heard for the First Time and Makes Fine Impression--Rev. Dean Schofield, of Fredericton, Delivers Inspiring Address on National Topics.

### Howard Boulden, Son of the Late President, and King's Most Brilliant Student Heard in Fine Valedictory--Announcement Made of New Chair and Improvement to Building.

Continued from page 1.  
Archdeacon Forsyth, B.A. (U.N.B.), (ad eundem), Chatham, N. B.; W. E. Curtis, B.A. (McGill), Y. H. H. H. B.A., Dalhousie, (ad eundem), Halifax; A. W. L. Smith, Halifax; C. H. Boulden, Windsor, N.S.; Miss Katharine Halden, New Brunswick; H. Wilcox, Windsor, N.S.; Miss G. H. Feindel, Bridgewater, N.S.; Miss E. Reynolds, Matland, N. S.

1910-11 will not be the third experimental year in succession.  
The New Chair.  
We are glad to hear that next year we are to have a chair of philosophy and ethics, for although we have seen our various departments broaden and improve since the beginning of our freshman year, we cannot but notice that students so far have been handicapped and far too closely limited in the selection and choice of subjects so that many are often compelled to take subjects for which they have no special aptitude and which are entirely distasteful to them.

HOWARD BOULDEN, The Valedictorian.

best wishes to the president and faculty in their endeavors in the interests of the university. We feel that our course here has always maintained a high standard, a comparison of our calendars with those of other Canadian universities shows that in every respect our course is as advanced as those of other universities and in some cases considerably more advanced. There have too been several instances of students who have gone to other colleges because their standing has been accepted by them after being refused in Kings.

To the people of Windsor we extend our thanks for the kindness they have shown to individuals and to the college as a whole.  
We have little to say to our fellow students in college. We feel that above all things we should be true to our duty, to our duty, yes, to our duty, of every student to participate in college athletics and meetings of the societies connected with the student body. Every member of the college should have the interests of the whole body at heart, and should endeavor to present private engagements and interests as well as the general interests of the university. Get the best out of your course; do not make the examinations the end and end of your work. The attention given to the diploma prize or degree which is the object of your studies should be made to take the second place to the diploma prize or degree which is the object of your studies.

Alumni Oration.  
The alumni oration was delivered by the Very Reverend Dean Schofield, M. A., D. D., Fredericton. After congratulating the new president on behalf of the Diocese of Fredericton, Dean Schofield delivered one of the ablest alumni orations that has ever been heard at Kings. It was a patriotic address, a plea for national recognition of religion in life. Canada's heritage was grand and glorious, said the speaker, a God given heritage that was not to be squandered. The civilized world, a possession that was not to be surrendered.

Recommendations.  
Ever since our arrival at King's we have heard much of buildings which are to be put up--of science buildings, of new professors, houses, and of more lecture rooms. But as yet no signs of any such thing have been seen. It is our duty to see that the definite steps taken for providing them. For three successive years the student body has been taxed to its utmost and some students have been obliged to procure rooms in the town. This is a matter which must soon be remedied if we are to increase in numbers and usefulness. One of our great recommendations is our residential system and it is very hard on a student who comes here expecting to have rooms in the college. We must see that the college is able to accommodate the increasing number of students. This necessity will be felt all the more when we have four classes in residence instead of only three at present.

New Brunswick's Part.  
We are glad to notice the increasing interest taken in the college by the diocese of Fredericton, clergy and laity alike. Amongst the many rumors which have been circulated throughout the college year is one to the effect that that diocese is preparing to endow another chair, but we feel that it would be a step in the right direction. We feel, too, that as the college increases its usefulness to the diocese of Fredericton, that diocese will respond by an increased effort to support the university in all its endeavors.

Mr. Justice McKeown, when he rose to speak, was given a reception by the students and spectators that fairly shook the room. After referring to the advantages of the St. John Law School he traced the rise of the judicial system from the time when the courts consisted of the bishop of the diocese and the magistratus of the county to the present splendid mode of judicature. As he referred to the great work done by the late Mr. Justice Hanington, the father of the law in this province, he listened to his remarks with bowed heads and in absolute silence, concluding that the speaker was narrating the history of the law in this province and assured those present that he would do all in his power to continue the work of the school in particular, and to further the interests of King's College in general.

### Contractors Tell Of Bringing Lactical Fluid From New York At Yesterday's Session Of State Committee.

Boston, Mass., May 12--Representatives of one milk contracting concern occupied the entire time of the hearing before the legislative committee investigating the milk situation in Boston, at the state house today. This was the D. Whiting Sons, which also controls two other contracting companies under different names. The members of the committee were questioned by the members of the committee was sharp, and several times the witnesses were charged by members of the committee with giving unfair and evasive answers. One answer that the committee had no hesitation in declaring a fair one was given by George Whiting when he was asked by Senator John F. Steane, of Blackstone, if there were no methods by which the D. Whiting Company could whip another dairy which was cutting prices, into line, Whiting replied: "If there were any we should adopt it."

The testimony of Geo. Whiting consumed the entire forenoon session, brought out the facts that the Boston contractors are now obtaining plenty of milk, securing it largely from the members of the committee that continue to do so, without obtaining any from the Massachusetts producers. Formerly he said, more than half the milk which came into Boston was brought from a radius of about 80 miles of this city. When asked if he thought the farmers could make a profit selling to the city at the prices the contractors offered, Whiting said that he thought it would be a difficult proposition.

When Meany, who was the most eloquent inquirer of George Whiting, caused somewhat of a stir at the opening of the afternoon session, when he said he would refuse to sit on the committee as long as John F. Cusack, attorney for the Whiting interests, was allowed in the room. During recess Attorney Cusack spoke to Senator Meany, repeating his alleged antagonistic attitude against George Whiting, in which the attorney, it is claimed, used improper language. Whiting, however, refused to execute session, following which Chairman Mellen requested Attorney Cusack to apologize to the committee or be excluded from participating in the hearing.

The attorney promptly apologized, saying "we were both very angry and I am sorry that we both said what we did." The attorney then returned to the room and the afternoon session proceeded. The afternoon were J. S. Bugbee and John K. Whiting of the C. Brigham Company and Elm Farm Company, who were representing the D. Whiting Sons. Whiting explained how territory was divided up, and said that a "physical barrier" came up preventing a gathering of milk on the north side of Boston, and that the territory was divided up, and said that a "physical barrier" came up preventing a gathering of milk on the north side of Boston, and that the territory was divided up.

Speakers at the time when the courts consisted of the bishop of the diocese and the magistratus of the county to the present splendid mode of judicature. As he referred to the great work done by the late Mr. Justice Hanington, the father of the law in this province, he listened to his remarks with bowed heads and in absolute silence, concluding that the speaker was narrating the history of the law in this province and assured those present that he would do all in his power to continue the work of the school in particular, and to further the interests of King's College in general.

# STILL PLENTY OF MILK FOR HUB PEOPLE 50,000 PEOPLE SEE FLORIDA LAUNCHED

MISS ELIZABETH FLEMING

### Distinguished Gathering Preseat at Christening of Latest American Dreadnought--Florida Girl Performs Official Ceremony of Naming New Battleship by Breaking Bottle of Champagne.

New York, May 12--The battleship Florida, the biggest of the American Dreadnoughts built thus far, was successfully launched at the Brooklyn Navy Yard today in the presence of Governor Gilchrist, of Florida, and the secretary of the navy, the naval attaches of all the powers and a crowd of 50,000 enthusiasts. The 21,225-ton fighting ship, built to carry the heaviest of ten 12-inch guns, glided down the ways to the strains of the Star Spangled Banner, while the crowd cheered and hundreds of river craft tooted their noisy welcome.

Governor Gilchrist, of Florida, was given the place of honor at the ceremony while Miss Elizabeth E. Leger Fleming of Jacksonville, Fla., was the young lady chosen to christen the latest U. S. Dreadnought, with the traditional bottle of champagne.

### GETTING READY FOR BIG RACE

### Drivers on the Track Practising for 24 Hour Race Beginning Tonight--Progress in Glidden Tour.

has been absent for a few days, and the Croxton-Keston are also expected to be out today.  
The "white city" comprising fifty tents, was complete in the infield yesterday. Besides the tents of the competing teams and of the various tri companies, there are restaurants and a field hospital. Several of the teams are scheduled to take up their quarters at the track today, to remain until the race ends, at 8 o'clock on Saturday night. The cotton fence surrounding the infield was completed yesterday, as was also the huge lighting system.

Des Moines, Iowa, May 12--The best roads and the greatest degree of automobile enthusiasm met with on the entire Glidden tour pathfinding trip were encountered yesterday on the run from Omaha to this city. The "chalmers 30" covered what will be a day's run for the contestants in June at a distance of 159 miles. This is the first time on the Cincinnati-Dallas-Chicago trip that the pathfinding car which stops frequently for road data and photographs and makes numerous detours, has traversed an entire day's schedule for the tour proper in ten hours.

Special to The Standard.  
Woodstock, N. B., May 12--The Dominion of Canada prize for rifle shooting among members of civilian rifle associations which was won by Capt. Wm. Balmain in his association arrived yesterday. In the four months last summer Capt. Balmain made an aggregate of 321 closely followed by A. N. Vince with 316. It is a nickel silver ornamental silver ten inches in diameter bearing the coat of arms of the Dominion of Canada with an inscription that it was presented by the government of Canada for skill in rifle shooting, the name of the association and winner is engraved on the silver.

Salt Lake City, U. May 12--As the crowd was leaving the arena at Salt Lake, after a prizefight, a section of the platform gave way and precipitated at least 100 persons into the lake. Most of them were taken out unhurt, but it is reported that seven or eight are missing.

# SCIENTIST GIVES VIEWS OF COMET

### Professor Willson Of Harvard Describes Motion Of Heavenly Visitor--Effect On The Earth Likely To Be Slight.

Boston, Mass., May 12--How great is the interest in Halley's comet was apparent last evening when more than three hundred persons responded to the invitation of the Boston Scientific Society of Harvard to listen to Robert W. Willson, professor of astronomy at Harvard. The story was largely that of the motion of the comet, illustrated by means of a beautiful model and numerous lantern views. The position of the orbit with reference to the plane of the ecliptic was clearly shown, the model being especially useful in illustrating this point, while much time was devoted to describing the kind of motion that the comet has among the stars, Professor Willson exhibited a slide of the original discovery plate made by Wolf. A set of plates taken at different times and positions, showing the movement of the object from place to place, also formed one of the features of the meeting.

The apparent motion of the comet is rather complex, and the comet is moving and also the earth. The combination of the two is responsible for the sudden change of the comet from the morning to the evening sky. The comet approached the sun from the direction of Regulus and for a long time it was almost in the same place. Then there ensued some motion and again it has been approaching the earth almost in a line, so that in April the comet was almost in the same spot. The speaker noted the conditions were such that the comet would be visible in the sky after sunset.

When it comes to brilliancy, the visitor will be disappointed. Conditions since then have been unfavorable for observation there will be no moonlight, and this kills the "light of such diffused objects as even the bright comets. After the comet has passed the comet will be even better placed in the sky for vision, but will be more distant, and may not be a splendid object, but may be a brilliant, and for a few days following May 18 will be visible in the sky after sunset.

As to its effect upon the earth the speaker said that portents are now not to be considered by intelligent people, and that all that concerns them are scientific. As to the notion that cyanogen gas will harm the earth, there need not be the least fear, since at worst the cyanogen of the comet will be millions of miles distant from the earth, even if it were dense enough to affect in the least degree the earth's atmosphere. As to meteor showers, it is generally held that the tail through which the earth is to pass is composed of particles not more than 125,000 of an inch in diameter, and these are too small to show as meteors.

### CAPT. BALMAIN RECIPIENT OF HANDSOME CUP

Special to The Standard.  
Woodstock, N. B., May 12--The Dominion of Canada prize for rifle shooting among members of civilian rifle associations which was won by Capt. Wm. Balmain in his association arrived yesterday. In the four months last summer Capt. Balmain made an aggregate of 321 closely followed by A. N. Vince with 316. It is a nickel silver ornamental silver ten inches in diameter bearing the coat of arms of the Dominion of Canada with an inscription that it was presented by the government of Canada for skill in rifle shooting, the name of the association and winner is engraved on the silver.

### EIGHT MISSING AT SALT LAKE CITY

Salt Lake City, U. May 12--As the crowd was leaving the arena at Salt Lake, after a prizefight, a section of the platform gave way and precipitated at least 100 persons into the lake. Most of them were taken out unhurt, but it is reported that seven or eight are missing.

The Charge Against Charles Ward.  
Magistrate Ritchie accompanied by J. B. M. Baxter, K. C., and George A. Henderson, went out to the One Mile House yesterday and took the evidence of Mrs. Charles Ward in the case against Mr. Ward, who is charged with refusing to admit the police to his premises on the evening of May 1st. Mrs. Ward's evidence partly corroborated that given by Mr. Ward in the police court. Owing to the noise made at the door by Officer Lucas, Mrs. Ward said she had fled away and did not quite remember what occurred after that. The case will be taken up Monday afternoon at 2 o'clock, when the Magistrate will give his decision.

day, at Millinocket, Me., arrived at Fairville, on the Boston train, last Friday. The funeral will take place this afternoon from the residence of John Martin. Service will be held at 4.30 o'clock. Burial will be in Cedar Hill cemetery.

# Queen Mary Will Wield Much Power

OUR NEW QUEEN, VICTORIA MARY ("MAY"), daughter of Duke and Duchess of Teck, born May 26, 1867, married July 3, 1893

(From the Tatler before Queen's Ascension.)

Next to our beautiful and beloved Queen the most interesting personality among the womankind of our royal house is that of the Princesses of Wales, not only because she happens to be next in rank and precedence but by right of her own character and striking individuality. In whatever rank she is placed she would undoubtedly have "made her mark" and influenced her surroundings. Though utterly different from each other in their characters the two "first gentlewomen of England" are alike in many of their virtues and best characteristics, and have in common that characteristic of the Princesses of Wales, which is to be next in rank and precedence but by right of her own character and striking individuality.

**Her Imperial Interests.**  
To the Princesses even perhaps more than to Queen Alexandra the word Empire has a very real meaning. Her keen interest in the colonies ever which she will one day reign resulted in the splendid tours which she and the Princesses have made to them, for it has always been among their dearest wishes to see the great dominions for themselves and get into real and vital touch with the people in all parts of the world. This they felt was the only way to understand their needs and their own responsibilities towards them.

**The Princess as Housewife.**  
In all household matters the Princess of Wales could give most housewives points. Practicality seems to have been born in her, and there is no detail connected with the management of her household to which she has not given personal attention and care. Soon after she was married she caused great amusement as well as consternation at Windsor Castle when she was staying there by sending for the major domo and saying to him: "Now I want you to take me all over the castle—everywhere where I must not go—and show me how things are managed." Nor was she satisfied until she had poked into every cupboard and corner and asked a thousand extremely pertinent questions and "got a hang of things generally." She afterwards declared that it had been one of the most enjoyable afternoons of her life and proceeded to suggest—very tactfully—many improvements which were actually adopted to the great delight of everybody.

**As Mother.**  
Like the Queen she is the most perfect of mothers, and might be taken up as an example to many ladies of lesser rank who display a blase indifference to all family ties and delegate the management and care of their children to servants. Her chief delight is to be with her children, to share in all their sports and joys and to comfort their sorrows, and to enjoy every moment of their childhood. It is she who "tucks them in bed" at night and joins in their "pillow fights" in the morning, and is the boon companion of their days. Her greatest grief—as well as theirs—is that the duties of her position obliges her to be away from them so much, and that sometimes happens the Prince and Princess have to be away on one of the children's birthdays, it is looked upon as a calamity in the family.

**Her Artistic Tastes.**  
It is not generally known that the Princess of Wales is an artist of no mean order and has among the souvenirs of her travels some water-color sketches of her own painting which are charmingly done. She has also been enthused by Queen Alexandra into going in for photography, which has become one of her favorite hobbies and which she does well, as, indeed, she does most things in which she is interested. Her artistic talents have been inherited by her little daughter, who draws exceedingly well. Among the Princess's chief treasures is a little drawing done especially to ornament the wall of her cabin in the Ophir during the long colonial tour, by the little Princess Alexandra, and which was only hung in a place of honor. When the cruise came to an end the picture was carefully taken up and sent to Marlborough

# HEROINE OF ACTORS' FAIR Royal Widow Will Live in Seclusion

## Pauline Chase Comes From England for One Night and Sells Pictures of Celebrities at Great Rate.

New York, May 12.—"Col. Roosevelt was perfectly sweet to Pauline Chase when she asked him for one of his photographs to sell at our fair," Miss Corne Uzzell remarked as she approached the Seventy-first Regiment Armory and the Actors' Fund Fair last evening. "Pauline has just arrived with the sweetest bunch of photographs of herself and myself and J. M. Barrie and whole lot more of us, and is selling the pictures at the rate of \$50 a minute."

"And," said Miss Edith Tallafiero, "I think Miss Chase is sweetest. I'll permit you to do so," Miss Uzzell answered after some thought, "but only because publicity will help you in the severest seclusion, no only for the whole period, but long afterward, and perhaps never again."

"And while you were explaining that you were present only because of business reasons, a blonde young lady entered and caused a thrill. It was Miss Chase, who has just arrived from Europe after a trip of 8,500 miles, and who is to sail again for England this morning, when Mr. Roosevelt has been playing 'Peter Pan' in the provinces."

**Her Love of Books.**  
The Princess is also a great reader and lover of books. Her tastes in literature are extremely catholic, and she reads all the best new novels by British authors as they come out. Her library contains all Harrison Ainsworth's thrilling historical novels, which were among the delight of her childhood and are now read with avidity by her sons and daughters.

**Her Taste in Dress.**  
Her taste in dress is well known. Like Queen Alexandra she affects simple styles and soft colors which are so becoming to her. But there are all ways of the richest materials. Her Royal Highness is a great connoisseur of beautiful silks, and the British manufacturer owes her a deep debt of gratitude for her enthusiastic encouragement of his fabrics. The lace-making trade in England and Ireland, too, has received a great impetus from her appreciation of its productions, and though the happy possessor of priceless heirlooms in the way of Brussels, Honiton, point de Venise, and d'Alencon lace the Princess nearly always prefers to wear some of her beautiful pieces of British-made lace on her gowns. Her collection of lace, which is of all kinds is probably one of the finest in the kingdom.

**Her Charity.**  
Her devotion to good causes of all kinds is among her queenly qualities. All her children are made to set aside a portion of their weekly pocket money for "grandpapa's hospital fund," and this year the three elder ones managed to save up a guinea each for it, which they added with great pride to their father's handsome donation.

**Moncton is Ambitious**  
19th Field Battery Being Coached for Drill at Camp Sussex—Will Make "Bend View" Beauty Spot.

Moncton, May 12.—The 19th Field Battery is making every effort for a good showing at Camp Sussex this year. Another of the series of lectures to the members was given in the Ozo Club rooms this evening, the subject being Horsemanship and Harnessing, and the lecturer Lt. W. A. McKie.

**Interesting Event in Railway City**  
Moncton, May 12.—A pretty wedding took place here last evening when James McKay married Elizabeth Tower, one of Moncton's popular young ladies. The affair was celebrated at the home of the bride, High street, in the presence of a large circle of friends. The ceremony was performed by Rev. W. B. Wiggins. Among the guests was a marble mantle clock from the fellow employees of the room in the I. C. R. brass and tool department.

**Milltown Murder Story is Untrue**  
St. Stephen, N. B., May 12.—Some very sensational stories that were in circulation last evening to the effect that two young men had been poisoned, are found on investigation to have been without good foundation. The stories seem to have been based on the sudden death of a St. John woman who was visiting in Milltown, Maine, and whose body was forwarded to St. John last evening, a certificate of death accompanying the body.

Queen Alexandra and her grandson, Prince Olaf of Norway.

No one will more strictly observe the official twelvemonth of mourning for King Edward than his widow Alexandra. It is likely that she will remain in the severest seclusion, no only for the whole period, but long afterward, and perhaps never again.

# NO HOMESTEADS HATS FOR A GARDEN PARTY

**Fair Writer Maintains That Her Sex Has Perfect Right to Take up Sections of Farming Land.**  
A contributor to a western paper takes the minister of the interior to task for his refusal to allot homesteads to women. He says:—

Were you ever at a meeting, where the men, being in power, were discussing the advisability of giving women something they were asking for? If you have and the men referred to the women as the "fair sex," you will know that they did not grant their request. When men intend to face the rights of women and consider their requests from the standpoint of justice they really strong arguments at least so I read, for I was not there. One argument was that women are needed in the west and that women could get land they would come west and supply that need.

**Women Would Fail.**  
Mr. Oliver acknowledged that the matter had been brought to his notice but he did not think it would be in the best interest of the west to give women homesteads for the object in giving homesteads is to make the land productive, and this would not be the case if held by women. He also stated that a widow with children old enough to work the land could homestead and be considered that quite as much as if for the good of the country.

**John S. Astbury is Mt. A's Valedictorian**  
Sackville, May 12.—John S. Astbury of Shubancade, N. S., has been chosen valedictorian of this year's graduating class at the University of Mount Allison. Mr. Astbury is one of the most prominent and brilliant of the students at the University. He was the leader of this year's debating team.

Your money back if Purity Flour does not prove entirely satisfactory in the baking.

DON'T simply buy flour from the dollar and centide of it. Buy high quality flour. That means PURITY FLOUR.

"MORE BREAD AND BETTER BREAD"

PURITY FLOUR

You can buy as little as a 7 pound cotton bag or in 14, 24, 49, and 98 pound sacks.

Purity may cost a little more than some flours but you'll find it more than worth the difference.

WESTERN CANADA FLOUR MILLS CO., LIMITED Mills at Winnipeg, Goderich, Brandon

THE COURTS.

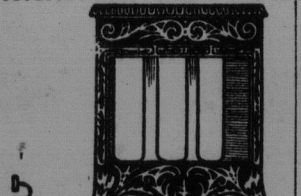

Chancery Division. Before His Honor Chief Justice Barker in the Chancery Division Chambers yesterday morning H. A. Powell, K. C., and Mr. P. J. Hughes for the plaintiff in the case of the McLellan, Smith Lumber Co. vs. John Scott and Randolph and Baker moved to continue an ex parte injunction obtained recently by Mr. M. G. Teed, K. C., and Mr. R. B. Hanson for the defendants.

Oath of Allegiance. The Chief Justice Barker administered the oath of allegiance to the following barristers: H. A. Powell, K. C., M. G. Teed, K. C., W. A. Ewing, K. C., A. P. Barnhill, K. C., E. P. Raymond, K. J. MacRae, H. J. Smith, Homer D. Forbes, J. Roy Long, Sherwood A. M. Skinner, H. F. Puddington, S. L. Fairweather, A. W. Baird and George S. Shaw, of this city and R. B. Hanson and Peter J. Hughes of Fredericton.

Hotels. Royal. R. E. Thorne, Montreal; J. Bishop, Boston; Miss Sullis, do.; Miss Jaggas, do.; Mr. and Mrs. V. Allen, New York; M. L. Bowles, Toronto; W. C. H. Grimmer, St. Stephen; J. T. Whitlock, do.; F. W. Upham and wife, Woodstock; E. I. Kenna, St. Stephen; G. N. Pearson, Sussex; Mrs. Pearson, do.; H. R. Picketts, Montreal; W. C. M. Ackhurst, Halifax; B. G. Todd, Montreal; R. W. Douglas, Toronto; James Robinson, Miramichi; J. Harold McMuray, Fredericton.

WEDDINGS.

Weatherbee-McLean. The marriage of Miss Jennie McLean (nee) daughter of Mr. and Mrs. J. R. McLean, formerly of St. John to Burrell A. Weatherbee, son of Mr. and Mrs. U. J. Weatherbee of Springhill, N. S., took place quietly on Monday morning at 6 a. m., at the home of the bride, Church Street, in that place. Rev. Dr. Stewart, of Woburn, Mass., officiated. The bride, who was given away by her father, was dressed very becomingly in a brown broadcloth travelling suit, with black picture hat. She was unattended.

After the furnace fire is put out for the season there will come many damp and dreary days. Then is when you'll most appreciate the cheerful heat and radiate glow of the Luminous Electric Radiator. Try one this spring and you'll decide that it is necessary to home comfort.

THE ST. JOHN RAILWAY CO., CORNER DOCK AND UNION STS.

COMING ATTRACTIONS AT THE OPERA HOUSE

The Fool. "The Fool" is a play with a class. The story tells of a woman's fidelity and a man's duplicity—it teaches that everlasting moral "as ye sow, so shall ye reap," and it depicts clearly the tempter of virtue over vice.

The Climax Announced for Week of May 23rd. One of the dramatic events of the season is the appearance of New York's successful comedy The Climax, which comes to the Opera House for the week of May 23rd with a special New York cast and production.

Wild West and Biograph at Nickel. At the Nickel for the week end there is to be another of those excellent mixed bills, which so please old and young alike. The children in particular will be delighted with the western story A Cowboy's Sweetheart, with its dashing horsemanship, and hercules of all kinds. This is a picture for which a band of genuine western ranchmen posed on the prairies. The biograph feature and it is one of those magnificent society plays entitled One Night and Then—, a picture play with Miss Marion Leonard taking the leading tragic role. The Angelus is a sweet story of two brothers who were separated after the death of their parents and who met in bustling New York years afterwards. Comedy element to be introduced as well. Miss Eugenie Tessier will conclude her engagement at the Nickel Saturday and her offerings Lolita Walters is being uproariously received. Mr. Tom Clifford's new number There Never Was a Gal Like You, has taken immensely. Saturday afternoon the Nickel will be headquarters for the children again.

LATE SHIPPING NEWS. Canadian Ports. Parrsboro, N. S., May 12—Ard: Sch M. S. Graham from Kingsport; Yolanda, Durant, from St. John; Liverpool, N. S., May 12—Ard: Sch Altona, Locke, from Lockeport; Onella, Frelick, seeking lobster; Clid: Sch Altona, Locke, from Lockeport; Hector W. McG., Murray for Bridge-water; Oneita, Frelick seeking lobster.

Lotus, from St. Martin's, N. B., for Northport, L. I.; Wm. L. Marvel from Cheverie, N. S., for Norfolk; Peter C. Schultz from St. John, N. B., for Greenwich, Conn. Hyannis, Mass., May 12—Ard: Sch Emma McAdam, from Calais for New York; Jennie C., from St. John, N. B., for do.

Motor Boat Found. The Neptune has succeeded in finding John Abbott's gasoline boat which drifted out of the harbor. The boat was picked up undamaged about 16 miles out in the bay.

FISH, FOREST AND GAME ASS'N TO CO-OPERATE WITH GUIDES

Interesting Discussion at Meeting Last Evening on Better Protection of Natural Resources of Province—Committee Appointed to Arrange Dinner After Guides Meeting Next Week.

That the fish, forest and game resources of the province are a valuable asset and as such should be protected as far as possible, was the tenor of the discussion at a meeting of the Fish, Forest and Game Protection Association held in the rooms of the Board of Trade last evening. The meeting was not attended as largely as the importance of the object under discussion merited, but the speakers were in accord as to the necessity of action being taken and decided to refer the matter to a meeting to be held next week in conjunction with the meeting of the New Brunswick guides. A dinner will be appointed last evening, to make the arrangements.

In the absence of the president, J. M. Robinson presided, and opened the meeting. The secretary, D. W. Clinch then made a statement of the work already done by the association and the results accomplished. He thought it advisable that the association should seek incorporation and approach the local Government to have the protection of the fish, forest and game resources of the province made the subject of inquiry by a Royal Commission, to decide upon a plan of action.

During the year the society had reported a forest fire near Norton, one conviction for game law violation in Restigouche county and had supplied evidence for two convictions secured by Warden Dean. The need of a government commission to take over the work would be much increased by the burning of the G. T. P. through the provinces as that would open up many rivers and streams which were not now easy of access and would place them in the mercy of people who might be interested to disregard the game laws unless they were rigidly enforced.

On the S. W. Miramichi alone there were 225 miles of forest, and he had the netting privilege at the mouth of the river and took as many as 2500 salmon in one night. In the southern part of the province there were many sections where lumbering was once carried on to a large extent, but not so largely now, and there were many old dams in that section which while of little use, proved disastrous to the fish as the trout went over them in the spring and were unable to get back to spawn in the fall. In two years the fishing leases would expire and it was a question whether they should be renewed or whether three lakes should be left open to the public on the payment of a rod license. In such case the regulations should be very carefully looked after and enforced. Wardens should be appointed if the lakes were opened as otherwise the fish would all be destroyed in a very short time.

In the state of Maine the importance of protecting the forests and game had long been recognized and last year good work was done in this way. In the province last year there were 68 forest fires, and if the appointment of wardens and adoption of protective measures could reduce this by one-half the money would be well spent. If a commission could be appointed to collect statistical information setting out the value of this work and present it to the government he was sure the plan of protection of the great provincial assets would be adopted and vigorously followed out.

So far the work of the society had been done entirely without any aid except from private subscriptions in the way of membership fees. He had collected the sum of \$95 during the two years and the expenses had been \$717.17. Personally he was out of pocket as a result. Nova Scotia had also realized the value of the game resources, and last year there were killed in that province nearly 700 moose, as against 423 in this province. Other big game killed here included 43 caribou and 294 deer. This showed how the sister province was taking advantage of the big game to attract sportsmen and provide a large revenue. With a commission to take up the question of protection and development of the resources in this line the business of the province could be greatly increased.

Arouse Public Interest. E. A. Smith thought the first thing to be done was to interest the public in the work the society aimed to do and make its objects better known. Forest protection had been regarded as of such importance in the state of Maine that they were setting out 150,000 trees from Norway to replace their own rapidly decreasing forests. Increased membership should be sought and then incorporation. Thomas Hilyard complained that the local government did not give the lumbermen the assistance of the fish and game was a big problem. His own experience was that the payment of a dam in any small lake would be done entirely without any aid.

DEATHS. Scott—At Millford, on May 11th, Joseph Scott, in the 74th year of his age, leaving a wife, one daughter and seven sons to mourn their loss. Funeral on Saturday, at 2.30 p. m.

BOYANER THE OPTICIAN. If your present Glasses fail to give you ease and comfort, there is something wrong. Glasses are either good or bad—there's no middle station. See D. BOYANER, Optician, 38 Dock St. Kea.

MAN OFFERS SEEDS FOR BACK YARDS

Local Florists Will Co-operate in Move to Beautify City—Donation of Plants for the Schools.

Many good folk have given of their superabundance in order that the city children of the meagre life may get away from their drab and sordid surroundings and pass an hour, a day, a week in the country, in the lap of mother nature, decked in her wonderful garment and ordered loveliness, waiting with radiant face the fulfillment of the mystery of God. Many good citizens, too, have joined in the movement to the suburbs, following when the work of the day is done the way to the west and the beckoning beauty of the setting sun—perhaps unconsciously impelled by the desire for beauty which is in all humanity. But the spirit of the modern civic renaissance has produced a new conception of citizenship. Cities are now not only extending their borders far into the country and so compelling the absentminded citizen to fulfil their duty to the cause of the city life, a happy illustration of modern democracy's sympathetic instinct—but they are trying to draw the beauty and joyance of nature into their very heart.

In St. John there is an interesting evidence of this desire for beauty in the surroundings of city life in the movement to encourage the cultivation of flower gardens about the homes of those not particularly blessed with this world's goods. Advice Free. H. E. Gould, florist and landscape artist, has offered his services to the Women's Council to help the movement along, and is prepared to give the benefit of his advice to those anxious to lay out gardens in vacant lots and other places.

A number of florists interviewed by The Standard yesterday declared they would be glad to support the movement, and make donations of seeds for distribution among the school boys and girls. H. S. Cruikshank, 161 Union street, said: "It's a movement that will tend to make our city cleaner, brighter and healthier. Sure I'll make a donation of seeds." Wm. Charlton, of McLean and Charlton, Short street, said his firm did stock seeds in stock, but that they would be glad to make a donation of plants to brighten up the schools. W. and K. Pedersen, Charlotte street; Adam Shand, King street, and other firms also promised donations of seeds. One of the florists when asked whether he was not afraid that the movement would interfere with his business said he was of the opinion that it would rather increase the demand for flowers. The movement, as he understood it, aimed to cultivate a love for flowers among the children who now had no money to purchase flowers. When these young people grew up they would be the world's better citizens, and spend a great deal more money on flowers than if no effort had been made to cultivate their love of the beautiful.

OBITUARY.

Mrs. M. B. Harrison. After a lingering illness the death occurred yesterday of Catherine, wife of Col. M. B. Harrison, Marston. She is survived by a sorrowing husband, one daughter, Leora, and a sister, Mrs. H. Hayward, of St. John. The funeral will take place at her late residence, this afternoon at 2.30 o'clock.

Mrs. Thomas A. French. After a lengthy illness, Mrs. Thos. A. French died on Wednesday night at her late residence, 232 Duke street. Mrs. French was a daughter of the late Wm. Perry of Upper Hamstead. She was twice married. Her first husband was Arthur Perry of Deer Island. The funeral was held from her late residence, yesterday; interment taking place in Cedar Hill cemetery.

Mrs. Mary Conwell. The death of Mrs. Mary, wife of Mr. John E. Conwell of Pleasant Hill, occurred suddenly at six o'clock yesterday morning. The deceased was only taken ill on Wednesday evening and her death was unexpected. She was a daughter of the late Charles and Bridget McHugh of this city.

FUNERALS.

Charles B. White. The funeral of Charles B. White took place yesterday afternoon from her late residence, 255 Main street. Services were read by Rev. Bayly Hutchison. Interment was made at Fernhill.

Mrs. Thomas French. The funeral of Mrs. Thomas French took place yesterday afternoon from her late residence, 232 Duke street. Services were read by Rev. W. Camp. Interment was made at Cedar Hill.

John Rowley. The funeral of John Rowley took place yesterday afternoon from the residence of his son, W. H. Rowley, Rodney street, Carleton. Services were read by Rev. W. H. Sampson. Interment was made at Cedar Hill.

New Company. Walter F. Leonard and Walter W. Leonard, St. John, Wm. B. Welch, Arthur G. Barreau, and Clarence C. Cline, Deer Island, are seeking incorporation as "The Deer Island Canning Co., Ltd." with a capital of \$10,000 in \$50 shares.

Out For Practice. Several members of the different baseball teams were out practicing last evening. Several Clipper and St. Joseph men were hard at work on the E. D. C. while the F. M. A. Juniors got in some good work at the foot of Orange street. St. Peter's team were also out in force on the Slumrock grounds.

The Evangeline. The new company which is to take over and control Macdon's French weekly paper, L'Evangeline, is composed of Messrs. F. A. Richard, J. O.

Boat Club Holds Sports June 11

With a Membership of 250 New Aquatic Organization Plan Big Racing Event on Harbor-- Plans for Erection of Boathouse Ratified at Big Meeting Last Night.

There was another large and enthusiastic meeting of the St. John Boat Club in the Temple of Honor building, Main street, last evening. Commodore S. P. Gerow presided. Reports of committees showed that the club is growing at a wonderful rate both in respect to membership and popularity. Practically every boat owner in the North End has become a member, while many interested in rowing and other branches of water sports are sparing no efforts to make the new association equal to any of its kind in the Maritime Provinces. Twenty-six additional members were elected last evening and already the club numbers almost 250 active, energetic members.

The question of holding motor boat races was discussed. It was the original intention to hold races and water sports on Saturday afternoon, June 18th. It was found, however, that the R. K. Y. C. also intend holding races on the same date, and although this in itself would not greatly interfere with the Boat Club's sports, it was also stated that on the afternoon in question the tide will be at low ebb just when it was proposed starting the races. As a result it was agreed upon that the races and sports be held upon Saturday afternoon, June 11th. It is expected that every motor boat in the North End will compete. It is also hinted that some of the crack West Side oarsmen will be on hand and that a rowing event will be a feature of the afternoon.

Famous Stars Of Hard Fought Games Dropped From Leagues

Kid Gleason.

Jake Beckley.

Jake Beckley and Kid Gleason, both of whom have to deny the rumor that they played ball when Noah was a youngster, some years before the famous flood, have passed from the ranks of league baseball. Gleason was dropped from the rolls of the Philadelphia Nationals and Beckley drew his release slip from the Kansas City team in the American association.

Beckley was with Detroit in the new position. He was with Detroit the first two years of the American League, then went to New York from New York back to Philadelphia in 1904. The last two years of his service with the Phillies he ornamented the bench most of the time. Beckley's principal bid for fame

rests on his ability as a batter. As a brainy ball player old Eagle Eye never ranked high, but he sure could clout the apricot. St. Jacob was in the National League for 20 years, and during that time played with New York, St. Louis, Cincinnati and Pittsburgh. He was released to Kansas City from St. Louis in 1906, and his first year in the American association he led the league in batting. Beckley says he will play independent ball, but Gleason has announced his permanent retirement from the game. Beckley is 48 years old and Gleason 44. Both men have saved their money and are well off financially.

STERLING WON AT WINDSOR MEET

Took Ten Miles Handily in Fast Time of 54; 34 Breaking All Maritime Records and Beating Cameron's Time--Cameron and Corkery Were Not Contestants--Successful Meet.

Windsor, May 12.—St. John was well represented in the sports here last night. The sports were held under the patronage of the mayor and town council, the clergy and members of parliament. H. A. Lynch was the official announcer. The events were pulled off with a snap and finish reflecting the utmost credit on John Donald, vice-president of the Swastika Club, and his assistants. The events were as follows: Hurdle—Goss Robinson, Wanderer, 1st; Howe, 2nd; time, 7:24. Three Mile Relay (four entries)—Swastikas Y. M. C. A., Windsor, D. B. C. A., Dartmouth, Acadia, 1st; D. B. C. A., second, time, 13:13. Fifty Yards Dash—(First heat) Raltry, first; Robison, second; time, 6 seconds. (Second heat) Ring, Dartmouth, first; Camp, Acadia, second; time, 6 seconds. Half Mile Walk—Pettipas, first; Corporal Smyth, second; time, 5 minutes.

Goss gave an exhibition jump, five feet, seven. Two mile run—McAuley, Swastikas, 1st; Sellen, Y. M. C. A., 2nd. Time—10:43.5. Broad jump—Porter, 1st, 19 feet. Roy, second. One mile run—Nine competitors, all Hants county boys. McAuley lapped the field; 2nd, Nix. Time—4:47.3. The ten mile marathon was interesting from start to finish, and Sterling led from the first and in a few minutes gained a lap, one-fifth of a mile, which he maintained to the end and finished amidst cheers in 54 minutes and 34 seconds, breaking all previous Maritime records. Stratton was a close second, holding that position throughout and finished 55 minutes, and C. Patterson, Dartmouth, crossing the line third, in 56 minutes and 35 seconds. Sterling finished running strong and cheerfully to the end. He was enthusiastically cheered at the close of the race. On account of the death of the King the presentation of prizes by the Rev. G. R. Merrill, rector of Christ church was postponed until a later date. The rink was crowded with interested spectators.

AN ALL-STAR RACE TUESDAY

Cameron, Corkery and Sterling Will Run Five Miles in Victoria Rink Here on Evening of 17th.

Arrangements were completed last evening by Mr. Fred. Fufts, manager of the Victoria Rink, to have Cameron, Corkery and Sterling run in a five mile race here on the evening of May 17. This announcement will be welcomed by the sporting fraternity throughout the city, who are anxious to see Sterling get a chance to demonstrate that he is the equal of either the Amherst or Toronto man. Many close followers of the game, notwithstanding the marvellous time accredited to both outsiders, still confidently believe that the local man is the master of either at five miles. Sterling's remarkable performance last evening has added strength to their contention, and when the trio faces the start here on next Tuesday evening a great many of the wise ones will stake their loose change on the chances of the best local boy. The event will undoubtedly be the banner attraction of the year. As preliminaries, 250 and 440 yard dashes will be held. The track will be put in first class shape and will be 14 laps to the mile. Every

CRICKET TO BOOM AGAIN

St. John Club Organize Match With Fredericton on June 4 Will Also Play Series With Rothesay.

Cricket promoters in this city are looking forward to a general revival of the sport here this summer and enthusiastic followers of the good old English game are anticipating seeing some real live games in the near future. Although a schedule for the season has not yet been definitely settled, games are planned with Fredericton, Chatham and possibly with Halifax and Annapolis. A communication was received yesterday by Captain Frank R. Fairweather from the Fredericton club and it has been arranged that the St. John team will go to Fredericton and try conclusions with the capital cricketers, on Saturday, June 4th. The locals will start in practicing just as soon as the grounds are in the good enough condition. The match with Fredericton will probably be the first outside match which the club has in view so far. Games will be played with Rothesay throughout the season, but it has not yet been decided when the opening game will be played. The club anticipates making a tour of the province during the month of August. Some years ago cricket was the most popular game here, and many an interesting match of an interprovincial nature were fought out between Halifax and St. John. The advent of baseball, and a tendency towards professionalism, had a bad effect upon the game, and for some time cricket as a pastime, was practically extinct. It is aimed, however, to revive the game, and all lovers of clean sport will welcome the movement.

SPORT HERE AND THERE

Leach Cross and Matty Baldwin Tonight--Many Disabled Men in Tigers' Line-up--Tim Murnane Latest.

Leach Cross and Matty Baldwin have been matched for ten rounds at the National Sporting Club in West Forty-fourth street tonight. Looks like a red hot mill! The Detroit Tigers went on the road this week, with the following hospital list: Edgar Willett, confined to his bed with an abscess of the ear. Matty McIntyre, wrist badly sprained. Geo. Moriarty, ankle strained and swollen. Sam Crawford ankles in bad shape. Tom Jones, not recovered from a broken nose. Ty Cobb, limbs badly cut and bruised. Needless to say this explains the slump.

Bender Pitches No Hit Game

Philadelphia Wins Eighth Straight Game and Promise to Run Away With Pennant They Have Sought So Long--Tigers on the Slump--Some Heavy Scores in National League.

St. Louis, Mo., May 12.—St. Louis batted Brown and Ritchie out of the game today and won from Boston, 3 to 2. The wildness of the Boston pitchers was the main cause for the defeat. Four of the bases on balls resulted in runs for St. Louis. Score: St. Louis, 3; Boston, 2. Umpires, Klieg and Erwin. Time, 2:10. Umpires, Klieg and Erwin. Time, 2:10. Umpires, Klieg and Erwin. Time, 2:10.

At Pittsburgh: Pittsburgh, 2; Cincinnati, 1. Umpires, Egan and Evans. At New York, N. Y., May 12.—Score: Detroit, 3; New York, 4. Umpires, Egan and Evans. At St. Louis—Boston, 3; St. Louis, 5. At Cincinnati—Philadelphia, 1; Cincinnati, 8. At Toronto—Baltimore, 5; Toronto, 12. At Montreal—Jersey City, 3; Montreal, 2. (10 innings.) At Buffalo—Providence, 3; Buffalo, 4.

MONCTON A. A. A. IN SESSION

Moncton, N. B., May 12.—The annual meeting of the Moncton Amateur Athletic Association was held tonight and steps will at once be taken to put the grounds in shape for the coming season. The following officers were elected: Honorary president, E. W. Givan; honorary vice-presidents, E. Tiffin, J. M. Lyons, Dr. McCully, O. P. Boggs, F. W. Sumner, Hon. F. J. Sweeney, Hon. C. W. Robinson, Mayor Reilly; president, J. G. Wrane, vice-president, W. N. Rippey; secretary, C. W. Lockhart; assistant secretary,

CHESS CLUB TO BE FORMED AT Y.M.C.A.

Something new will be inaugurated at the Y. M. C. A. in a few days, when a chess club will be formed. Several have already signified their intention of competing in a series of games which will be arranged. Some clever exponents of the game are said to be available and the move is creating a great deal of interest. J. D. McBeath, treasurer, A. Dunn; managing committee, C. B. Trites, Geo. Trites, C. Rand, A. C. Selig, R. McKay.

PRIZE FOR CAPT. MORRISON HAS ARRIVED

Capt. Neil J. Morrison yesterday received from Ottawa the Dominion salver presented by the Dominion of Canada to the member of the Civilian Rifle Association for skill in rifle shooting. Last year (1909) the salver was won by L. A. Langstroth of the St. John Civilian Rifle Club. The salver is a massive piece of silverware and measures about 12 inches. The rim represents a maple tree, with four clusters of maple leaves branching towards the centre, at the top there are crossed rifles, while in the centre is the Dominion coat of arms. The salver is beautifully chased and is a coveted prize among the Civilian Rifle Club members.

ANOTHER GOING BACK. Cincinnati, Ohio, May 12.—Harry Coveleskie, a pitcher on the local National League team, who was with Philadelphia last season, has been released to the Birmingham club of the Southern League. The Cincinnati management retains an option on his services. The entire Jeffries party, Mrs. Jeffries excepted, visited the fish hatchery this afternoon. Jeffries fished along the stream on the return to camp and brought back a string of trout. Manager Sam Berger will leave tomorrow for San Francisco to select a referee.

REFEREE QUESTION STILL OPEN

San Francisco, May 12.—Apparently as much interest is taken at the Johnson camp these days in the widely discussed topic of who is to be the referee as in the preliminary training of the champion. Jack Welch, who is Johnson's first choice, and Tex Rickard and another yesterday Eddie Smith of Oakland was closeted with the colored champion, Rickard is admittedly afraid there will be a deadlock after the conference next Monday and he wants to smooth out the difficulties if possible. Johnson had but little to say after the conference. "I am still standing pat," he declared. "I maintain I have named two good men who will win the confidence of the public in California, and one of them should be satisfactory." Jack Welch said he would not accept the position unless he were satisfactory to the principals. George Little, Johnson's manager, says he believes an agreement will be reached and that a Californian will be selected. "That there is an uneasiness among the men concerned over the effect the stopping of the Thomas-Papke fight may have on the big bout was manifested at the beach today. "If it comes to the worst," said Rickard, who will admit the one-fight people have any chance, "we can pull the fight off in Nevada." Johnson added a couple of miles to his road work this morning. In addition he went at a faster pace, running a good part of the journey. The negro was perspiring freely when he returned and he declared that he felt in the best possible condition. This afternoon he played baseball on the Ocean boulevard and there were a hundred or more fashionable equipments, including many automobiles drawn up to watch him bat flies. Ben Lomond, Cal., May 12.—J. J. Jeffries has begun really to like his gymnasium work in his workout today he frolicked through his tasks with more exuberance and vigor than he has shown before since beginning work. Members of his staff watched with delight the transformation from lethargy to vim that has been so marked during the last two or three days. The gloom of the earlier days of the camp has given way to a mood of gaiety and hopefulness, and Jeff seems the most hopeful of the lot. There were no new diversions in today's schedule, which included the usual assignment of spar-

COATES' Gin Remember--and mention-- that name next time you want a rickety that tastes just right. Has that crisp, dry tang to it--fine! Order COATES--the original Plymouth

THE WEATHER.

Maritime—Moderate variable winds, fair, about the same temperature. Toronto, May 12.—The weather has been fair and moderately warm in Canada today. Sharp frosts were experienced during the night in Manitoba, but the temperature has been rising steadily today.

New England Forecast.

Washington, D. C., May 12.—Fair, continued cool Friday and Saturday; light to moderate west to northwest winds.

AROUND THE CITY

Arrange 5 O'clock Tea.

At the monthly meeting of the Ladies' Auxiliary of the Temple of Honor yesterday afternoon in their hall, Main street, Mrs. W. F. Roberts in the chair, it was decided to hold a 5 o'clock tea on Thursday, June 2nd.

Clinic For Consumptives.

Dr. F. L. Kony, of Carleton, conducted the clinic for consumptives, held in the board of health rooms yesterday afternoon. Owing to the fine weather nearly a score of patients attended. Miss Rogers, of the Victorian Order of Nurses, was present.

The Burial of Paupers.

Ald. Elkin will not call a meeting of the committee appointed to look into the matter of burying paupers dying outside of the Municipal Home until after the funeral of King Edward, whom in other days the Right Honorable John Burns used to call the Splendid Pauper.

Bakers' Strike a Myth.

A report in an afternoon paper yesterday stated that there was a strike in progress in a prominent North End bakery. Upon inquiry last evening it was found that the story was without foundation. The foreman in McKel's bakery resigned his position, and his place had already been filled. Further than this there was no trouble in any of the shops.

Two Assaults On Brussels Street.

Two arrests were made by the police yesterday afternoon and evening on charges of assault. Between 3 and 4 o'clock James Comeau was given in charge of Officer Harry Linton by his wife, for assaulting and beating her in their home, Brussels street. Between 8 and 9 in the evening, Officer Semple arrested Gilbert Lauchner for assaulting and beating Foster Hill on Brussels street.

Tug Neptune in Difficulties.

About 7 o'clock last evening the tug Neptune when maneuvering to take a towline from the coal steamer Kings Town, which was anchored in the stream, fouled in some way, the steamer's cable. As the tide was running strong and the Kings Town tugging hard on her cable, the Neptune was for some minutes in danger of being capsized. The steamer paid out her cable in an effort to free the tug, but though this allowed the tug to right, it took three of her consorts and

Mourning Badges for Canadian Clubs.

Many members of the Canadian clubs of the city have decided to wear mourning badges during the memorial service and on the day of the funeral. Badges are now being prepared by the members of the Women's Canadian Club, and may be obtained free by members of both clubs at Miss Gray's book store, on Saturday and during the coming week on presentation of card of membership.

Inspecting Subsidized Railways.

Alexander Johnson, Government inspector of subsidized railways, arrived in the city yesterday from the North Shore. Mr. Johnson has been inspecting the Carleton railway. He expected to meet W. E. Foster here and make arrangements for inspecting the Hampton and St. Martins railway, but as Mr. Foster was unable to get down from Ottawa, Mr. Johnson will leave for Upper Canada today.

Title of "Your Honor" Still Correct.

On several occasions lately in the press, a judge of the supreme court of New Brunswick has been referred to as "his lordship" in preference to the hitherto recognized title of "his honor." The attorney general when asked last evening if the change was in consequence of the introduction of the new judiciary act, said the act did not authorize any change in the manner of addressing occupants of the supreme court bench. The title "your honor" was still the practice in New Brunswick.

Au Revoir, Not Good Bye.

The local agent of the Eastern Steamship Company stated last evening that the report appearing in an evening paper that the S. S. Governor Cobb had made her last trip for the season from St. John was incorrect. The Cobb will resume her trips to this port on June 15. She will take the place of the Governor Dineley between Boston and Portland while the latter is being overhauled preparatory to going on the St. John route. On June 15 the Bay State will be placed in the Portland service and the Cobb will then resume her trips to St. John.

Good Results From Civic Clean Up.

The inspectors appointed by the board of health to enforce the regulations requiring householders to clean up the yards around their homes started last Monday on their rounds. None of the inspectors have made a formal report yet, but T. M. Burns, secretary of the board, stated yesterday that two or three of the inspectors had told him that conditions were very much better than last year. A great deal of cleaning up had evidently been done on Arbor Day, and the example set them had been followed pretty extensively since.

Boys Attempt To Run Street Car.

Several North End youngsters, with an aptitude for getting into mischief, last evening secured admittance into the Street Railway car sheds on Main street, and boarding a car, made an attempt to take it out in the street. The lads succeeded in starting the car and ran it at full speed against the door of the shed. The force of the impact did considerable damage to the door. Foiled in their attempt to get the car on the street, the boys made a hurried exit before they could be stopped. Some of their names were secured, however, and the Street Railway management intend bringing the boys into court as a warning to others who make themselves a nuisance about the sheds.

STEADY STREAM OF SETTLERS COMING TO NEW BRUNSWICK

Many Arrive to Take Up Farming as Result of Local Government's Active Campaign—Farmers Offer \$20 to \$30 a Month With Board and Lodging.

Settlers are entering the province in increasing numbers. In the last two days A. B. Wilnot, provincial superintendent of immigration, has been called upon to find places for 19 would be farmers from the Old Country, most of them Scotchmen. Nine men came over on the Corinthian; their names are, Augustus Fowler, J. R. Knight, Thos. Tracey, William Merry, Montague Swain, Claude Porter, Hughie McCourt, William Monteith and John Kerr. The following came on the Cassandra, Donald Reid, James Maurice, A. Williams, Wm. Johnston, John Bullans, Geo. Stoble, F. Williams, Wm. Fairbanks, Jas. Cameron and Jas. Marr.

Many of these new citizens have a little capital, but all plan on spending a year at farm work before locating a homestead. Most of them left yesterday to take up positions on farms secured for them by Mr. Wilnot. Another contingent is coming over on the Carthaginian and is expected to reach St. John in a few days. "The stream of immigration to the province is increasing steadily," said

Mr. Wilnot to The Standard, yesterday, "and the indications are that we will receive a large number of new settlers this year. Mr. Bowdler, the provincial agent in Great Britain, took charge of the London office on Monday and as he is a hustler we expect that he will soon start a stream of immigration from that part of the world. We are getting a lot of Scotchmen just now—men determined to take up farms, and just the type to make a success of farming in this province.

"At present the influx of immigrants anxious to learn farming is a great boon to our own farmers, as it provides them with a supply of the best class of labor for their purposes. Farmers come into the office every day looking for men to work for them, and they are glad to pay the immigrant's fare to their farms and agree to pay the fare back in case conditions should not prove satisfactory.

"The single men coming out now and going to work on farms in this province are able to get anywhere from \$20 to \$30 a month with board and lodging."

SITE FOR DRY DOCK SOUTH OF BALLAST WHARF CONFIRMED

Minister of Public Works Says Location is Favored by Engineers—G. T. P. to Use I. C. R. Depot Till Terminals Are Ready --- Claims Exchange With Durant Was Good Bargain.

The Minister of Public Works who arrived in the city yesterday in an interview last night practically confirmed the Standard's announcement as to the location of the dry dock at the south of the ballast wharf. Dr. Pugsley said that while the site was as far as he knew not definitely decided on, Sir Robert Perks who had inspected the sites here had told him his engineers advised that the dock would be located either in the Courtenay Bay or else at the north of the Bay below the ballast wharf. The engineers found in the ballast wharf site a particular advantage in that by a system of revetment walls an area 75 acres in extent could be secured for the ship repair and building plant. The dock site did not come directly before him, but he assured The Standard that the dock was a certainty for St. John.

G. T. P. Terminals. As to the proposed G. T. P. terminals at Courtenay Bay, Dr. Pugsley said that the engineers of his department are now having the borings continued with a view to determining the best layout for the extensive docks which will be built there as well as the turning basin for the big steamers which will come.

It is not the intention at present to dredge the whole of Courtenay Bay, but a channel will be dredged to the sea and a large basin to provide ample accommodation for vessels. The G. T. P., Dr. Pugsley said, had purchased the land from the centre of Marsh Creek, practically embracing all the head and part of the eastern side of the bay, and the opinion of the president of the company was that the site was an ideal one for the purpose.

G. T. P. Planning Wharves Here.

As to the story that the G. T. P. intended to make a terminal at the city of Providence, R. I., Dr. Pugsley was emphatic in his denial. "You may say for me that I have the definite assurance of Mr. Hayes himself that the G. T. P. will have its terminals at the ports of Quebec and Halifax in winter. This is definite, and I can say further that the only reason that the line will run to Providence is to get a share of the great export of manufactures from that city. The engineers have laid out plans for the construction of wharves here, and

they have been approved by the company. They will soon start on the lay-out of the yards and other terminal facilities. Until these are ready the I. C. R. depot will be used as their terminal."

Dr. Pugsley said the government dredge, W. S. Fielding, would continue at work all summer. As to West wharf construction, he pointed out that the new wharf extension being built by the government will be completed in July and the work of building a new wharf south of the elevator will be commenced next year.

Four New Berths.

These two wharves will provide accommodation for four additional berths and others will be built as the trade of the port warrants extensions. "I do not think it wise to build more wharves here than are actually required," the minister added, "as I believe there should be business for all the available wharves before others are built. The four new berths are all that will be undertaken at present."

In reference to the agreement between the government property at the ballast wharf with F. C. Durant for the site which the city originally granted for the sugar refinery and which has been the subject of much comment Dr. Pugsley said that matter had been thoroughly gone into by Mr. Butler, former deputy minister of railways, and he thought it good business. It was very desirable that the refinery should be erected and the opinion was that the best place for the refinery was on the property now owned by the Government and it was desirable to make the exchange.

Additional I. C. R. Facilities.

Mr. Butler thought it most important that the I. C. R. should receive the benefit of the freight from the refinery and Mr. Durant had bound himself to deliver to the I. C. R. 2000 barrels of sugar per day. The site which the Government obtains from Mr. Durant will be utilized for additional and extensive I. C. R. facilities but Dr. Pugsley was not prepared to state the nature of them. That said, was a matter for the railway department.

Personally he had nothing to do with the drawing up of the agreement between Durant and the railway department. The final order-in-council conveying the site had been passed before he left Ottawa.

Natural Gas in Abundance.

Rev. Dr. Heine returned yesterday from Albert County, where he has been on a lecturing tour for the Bible Society. In conversation with a Standard reporter Dr. Heine stated that while in Stonybrook he saw the natural gas and kerosene wells. A new natural gas well has just been discovered with a diameter of six inches. The gas is rising from it very rapidly and with great force. When the gas was first struck it lifted a steel drill weighing three tons clear out of the hole, more than twenty feet. He also visited the kerosene wells, which are now being operated at the rate of fifty barrels a day. A strong company with a capital of \$100,000 is in control and are planning to take the gas to Moncton.

The Annual Whitewear Sale and Friday Bargains at M. R. A's.

This is the sale at which big savings are expected and those who have attended these whitewear events know what remarkable values have always been the rule.

Great heaps of fluffy whitewear, consisting of odd lines of manufacturers' samples, have accumulated, and will be offered to our patrons at surprising reductions, commencing this morning at eight o'clock, in the Whitewear Department.

In addition to the whitewear sale, the usual Friday bargains will be found in the various departments and judging from the excellent opportunity for advantageous purchasing this should be a very busy day at "The Big Store."

Miss Beatrice McGinley left last evening to visit relatives in New York.

BUILDING TRADES COUNCIL ENDORSED

Unions Interested Have Voted in Favor of Organization—Only Sheet Metal Workers to Hear From.

At the last meeting of the Carpenters and Joiners' Union, it was reported that all the building trade unions except the Sheet Metal Workers had voted in favor of the formation of a building trades council for St. John, and that the Sheet Metal Workers would vote on the question at their next meeting.

The other unions have appointed committees to take up the matter with the executive of the Carpenters' Union, and as soon as the sheet metal workers appoint delegates, a meeting will be called to consider plans for perfecting the organization. The object of the council is to secure the cooperation of the different unions in matters affecting the interests of the building trades as a whole.

The question of reforming a trades and labor council representing all the unions of the city has been dropped for the present, though the officials of the building trades unions say they would assist in organization of such a body if the other unions manifested a proper interest.

PAINLESS DENTISTRY. Teeth filled or extracted free of pain by the celebrated "HALE METHOD." All branches of dental work done in the most skillful manner. BOSTON DENTAL PARLORS, 527 Main St., Tel. 683. DR. J. D. MAHER, Proprietor.
