

# REAR ADMIRAL EATON WAS POISONED, SAID EXPERTS

### At Least One Dose Was Administered Six Hours Before Death.

### WIDOW'S THREATS TOLD IN EVIDENCE

### Mrs. Eaton Maintained Composure but Occasionally Broke Out in Wild Laughter—U. S. Government Has Strong Case.

Plymouth, Oct. 20.—Rear Admiral Joseph G. Eaton died from poison, at least one dose of which was administered within six or eight hours of his death, during which time, testimony showed, he was unconscious.

This, the statement of medical experts, was the principal evidence introduced by the government in its efforts to support its charge that the Admiral came to his death at the hands of his widow, Mrs. Jennie May Eaton, now on trial for her life.

That Mrs. Eaton had many times said she wished her husband was dead was the statement made on the witness stand today by Henry M. Gates, of Rockland, who knew the family in 1910.

The threats, Mrs. Eaton's personality, her expressed fears that she and other members of the family would be poisoned by the Admiral, a statement that he had actually tried to poison her on several occasions, and other utterances by the accused widow, was all detailed in testimony during the day.

Mrs. Eaton still maintained, to a large extent, the composure which she has so far manifested during the proceedings. Occasionally during the medical testimony she bit her lips and again broke out in laughter during the testimony of acquaintances.

Testimony as to the finding of poison in the Admiral's body, and indications as to the time and manner of its administration, were given by Prof. W. F. Whitney, of the Harvard Medical School.

It is the contention of the government that poison was administered in tea and other beverages by his widow.

# KIEV RIVAL

# MURDER CASE

### Evidence Contradictory and Affair is Becoming More Tangled with Every Session—Court in Despair.

Kiev, Oct. 20.—It was hoped that the testimony of the newspaper man who investigated the case, Brusakovsky, would help to unravel the skein of hearsay evidence which has grown daily more tangled since the trial began. It had the reverse effect. Brusakovsky described an interview with Krasovsky, the former head of the Kiev detective service, after the arrest of the Bellis, at which Krasovsky declared: "An innocent man has been arrested."

Subsequently Krasovsky said to him: "I know nothing, it is all guesswork. Vera Tcheberak is the key to the enigma."

This inspired Brusakovsky to make Vera's acquaintance. She told him, he said, that the Prithikes, Vashinsky's mother and stepfather, and a man named Mite killed Yushinsky. He arranged for an interview with Tcheberak in the presence of a lawyer, at which she promised to reveal everything, but nothing came of the undertaking.

At one time, he testified, the Tcheberak woman said to him: "I am going to avenge myself. It was my wife who poisoned my children because I burnt the eyes of her son, Paul, with vitrol."

# AGED WARRIORS MAY FIGHT DUEL

Paris, Oct. 20.—A challenge to a duel was sent today by one French septuagenarian warrior, General Boac, aged 73, to another still older, General Bose, Florentin, aged 77, the grand chancelier of the Legion of Honor.

The cause of the quarrel was that legal proceedings had been started by General Florentin to prevent the members of a military society, the Society of National Merit, founded by General Bose, from wearing a button among its insignia, and thus infringing the privilege of members of the Legion of Honor.

The seconds of the two aged officers met this afternoon to deliberate as to whether a combat would be necessary.

# RECREATION

# SOLE OBJECT OF HIS TOUR

# OF HIS TOUR

### Hon. Geo. H. Perley's Visit to England Devoid of Political Significance.

# NO COMMUNICATIONS ON NAVAL DEFENCE

# Canadian Minister, Wife and Sister, Will Go to London, But on Matters of Holidaying Only.

Ottawa, Oct. 20.—An official denial, emphatic and comprehensive, is given to the statement that Hon. George H. Perley is going to England as a representative of the Canadian government to confer with the British government or the Admiralty with respect to the question of naval defence.

His visit to London is purely a personal visit and no communication have passed between the Canadian government and the British government with regard to his visit, which is in no way concerned with any political purpose.

Mr. and Mrs. Perley and Miss Perley are in Quebec, the guests of Mr. Perley's sister, and are sailing for England tomorrow. After spending a few days in London Mr. Perley will spend two or three weeks in France and Italy, returning to Canada early in January.

Mr. Perley has been very busy engaged all summer as acting minister in various departments of the government and during the absence of Mr. Borden during July he discharged the duties of acting Prime Minister.

# BACK TO FARM IS BEST PLAN

# Elmer A. Stevens Advises New England Postmasters to Become Farmers—Hon. Franklin Lane a Mixer.

Boston, Oct. 20.—State Treasurer Elmer A. Stevens is an advocate of the "Back to the Farm" idea. Addressing the Postmasters' Association of New England a night or two ago he said:

"Many of you postmasters, won't be in office six months from now, and perhaps you'll want farms. I am serving my last term as State Treasurer because the length of my term is limited by the Constitution."

"There are acres of good unimproved land in New England there is in the Mississippi Valley and we can raise just as good apples right here in New England as they can on the Pacific Coast, and apples with a better flavor. There is just as much profit in raising livestock today as there ever was. There is reason for the high cost of living. New England must wake up and raise her own food."

The remarks of Mr. Stevens apply equally well to New Brunswick. The Hon. Franklin K. Lane, secretary of the interior in the Wilson-Bryan cabinet, is nothing if not Democratic. Mr. Lane, who is a native of Prince Edward Island, declined to attend a banquet in his honor in Denver, at which the guests were charged \$7.50 a plate. He said he was willing to attend dinners, luncheons and banquets planned for him by the various civic organizations, under conditions that they should be given with the simplest informality, that they should be open to the public and prices placed within the reach of everybody. The Denver banquet was made a 50 cent dinner.

William H. Hill, a prominent Boston banker died in Brookline this week. He was a director of the Eastern Steamship Corporation, and a member of Richardson, Hill & Co.

# TOWNS BURNING SHIP INTO PORT AT LAST

Boston, Oct. 20.—The steamer Templemore, abandoned after the Virginia Capes on Sept. 20, was towed to port today by the revenue cutter Androscoog, which picked her up still burning, off the George's Banks, six days ago. The steamer probably will be turned over to the agents of the companies in which she was insured.

# HON. GEORGE E. FOSTER, IN CITY YESTERDAY, TOLD OF CANADA'S FOREIGN TRADE

### Minister of Trade and Commerce Says West Indian Treaty Beneficial.

### EXPECTS MUCH BUSINESS TO COME THROUGH HERE

### Canada's Trade Relations with Japan and China Highly Satisfactory—Mr. Foster Will Inspect Port Facilities While Here.

Hon. George E. Foster, Minister of Trade and Commerce in the Borden Government, and who, in point of precedence comes first among gentlemen of the cabinet, following only the Premier, arrived in the city at noon yesterday and is the guest of Senator Thomas, Mockenburgh street.

Mr. Foster will be the orator of the occasion at the St. George's Society celebration of Trafalgar Day this evening.

Mr. Foster returns to St. John after an absence of three years from the city. His visit will undoubtedly prove of special interest and much benefit to St. John, in that while here he will make a thorough inspection of the port facilities and developments, so that, on his return to Ottawa, the minister, who has the interest of this port at heart, will be conversant with the existing conditions here and the great necessity for improved harbor facilities.

In conversation with The Standard last evening Hon. Mr. Foster said that while his mission to the city was solely for that purpose, special care will be taken by him to look into the port facilities and developments here along with the general equipment of the harbor as compared with other parts.

"On this point he said: 'While here I will have a look around the works in the harbor and investigate the general equipment of the port for trade. A portion of my time while here will be taken up with examining the facilities now as compared with former conditions, and in noting what developments are in progress.'

"That the West Indies Treaty will be of special benefit to America, Panama and will lead additional trade to St. John was the opinion advanced by Mr. Foster. When asked as to its direct bearing on Canada he said:

"The treaty with the West Indies ought to greatly increase the volume of trade between Canada and the islands, and ought also to increase the volume of trade passing through the port of St. John. It should be a great source of supply for the sugar refinery in your city when it commences operations."

"Under the new agreement the steamships in the Indian trade will be greater than any which have preceded them. They are most modern and equipped with first-class passenger accommodations and wireless and wireless equipment. We will be able to arrange to make connections with through rates, with the east and west coast of Canada, with America, Panama and some West India islands, not included in the agreement."

"A reduction of cable rates to the West Indies has been arranged for and will soon go into operation. This arrangement in rates for the cable service will cut the cost about one-half."

Previous to his visit to the city Honorable Mr. Foster spent six months touring Australia, New Zealand, the United States and Japan, examining the existing trade conditions and the resources of the countries.

In Australia, the Canadian Minister of Trade and Commerce was a member of the Dominion Royal Commission, whose duty it was to examine the resources and trade of the Empire with a view to making recommendations as to the development of resources and trade.

Mr. Foster was appointed for Great Britain and one each for overland dominions, making eleven members in all. Sir Edgar Vincent acted as chairman of the commission.

Asked as to the trade conditions found in Japan and the relations of that empire with the Dominion of Canada, Hon. Mr. Foster said:

"Our trade relations with Japan are on a most favorable basis and are becoming more so. As far as tariff rates are concerned we get as favorable an entrance as any foreign nation."

Speaking of his visit to China, Mr. Foster said: "We have a special treaty with China from which benefits are derived but there is an opportunity for considerable trade with China in lumber, wheat and flour."

"A very satisfactory treaty is that between New Zealand, where we have a preferential agreement. Our trade with New Zealand is most encouraging and is increasing rapidly."

Asked as to the general trade in St. John, the Minister of Trade and Commerce said: "The increase of trade in and out of the port is the largest increase in production of the country there seems good prospects of a large increase in future."

Hon. Mr. Foster was indisposed to talk on the selection of Halifax as the port of call for the mail steamers or compare facilities of both cities for handling steamers, but he remarked: "A very good comparison of comparative facilities of St. John and Halifax was given in Saturday morning's Standard. I could give you nothing better than that. Both cities, however, need more facilities, and both now seem in the way of getting them."

Hon. Mr. Foster will remain in the city until Wednesday evening, when he will leave on return to Ottawa. Today he will make an inspection of the port facilities here.

# IN AND AROUND ST. JOHN

Work in Connection With The New Bridge at the Reversing Falls by The Standard's Staff Photographer.

# TWO SCHOONER CAPTAINS IN BOSTON COURT FOR BRITAIN

### Charged with Not Sounding Fog Alarms—P. E. I. Pastor Receives Call to Quincy Church.

Special Cor. of The Standard. Boston, Oct. 20.—Charges have been prepared against two masters of seafaring schooners for neglecting to sound their bells in Boston harbor during the recent thick weather.

The captains include Capt. Wm. Coneman of the British schooner C. T. W., from Plymouth, N. S., and Capt. Merriam of the schooner Annie Lord from Parbroboro. The federal government is investigating.

Mr. and Mrs. Daniel D. Scott recently observed the 50th anniversary of their marriage. Mr. Scott was born in Wolfville, N. S., 72 years ago. He is a prominent carriage manufacturer. Mrs. Scott was born in River Philip, N. S., and in her 68th year.

Thomas Killen of St. John has been speaking in this State recently on the Canadian postal service and the mutual benefit associations in Canada.

The Rev. Dr. Daniel B. Macleod, of Orwell, P.E.I., has been extended a call to the pulpit of the United Presbyterian church of Quincy. Thirty years ago the Rev. Dr. Macleod organized and was the first pastor of the First Presbyterian church, Quincy. The church which now calls him grew out of a schism in the parish which he founded several years ago.

# EXHIBITS TRAINED POLICE DOGS IN U. S.

# Munich Police Official in Boston—May Introduce Dogs in New York and Other Centres.

Boston, Oct. 20.—United States police departments are to have a practical demonstration of the value of police dogs in the course of the programme of Severin Fieber, who arrived on the Hamburg-American liner Cincinnati yesterday is carried out.

Herr Fieber, a Munich police official, brought with him six dogs, the pick of the trained police dogs of many metropolitan centres, as well as to sportsmen interested in dog raising.

It is generally considered doubtful whether any official notice will be taken of the suggestion, although it is thought Imperial Chancellor Von Bethmann-Hollweg may perhaps refer to the subject later on in the course of debate in the imperial parliament.

The naval authorities here consider the proposition that Germany should not build any warships while England is constructing or acquiring at least three, cannot be discussed.

# WILL TREAT TEDDY LIKE A MONARCH

# Col. Roosevelt Will be Guest of Brazil Government at Official Palace in Rio Janerio.

Rio Janeiro, Oct. 20.—The steamer Vandick, with Colonel Theodore Roosevelt aboard, arrived off Rio Janeiro tonight, but owing to tempestuous weather, according to a wireless despatch, she will not enter port until midnight. Colonel Roosevelt and his party will come ashore at 8 o'clock tomorrow morning.

Elaborate preparations for the reception of the ex-president have been completed, but the official program will not be decided upon until after Col. Roosevelt has been communicated with personally. The government hopes that the Colonel will be able to remain in Rio Janeiro during the entire week, and apartments in the Guanabara Palace have been placed in readiness for him as the guest of the government.

Dr. Lauro Muller, the foreign minister, and Col. Roosevelt, today exchanged felicitations by wireless.

# CALIB DAUPHINE DIES IN HALIFAX

Halifax, Oct. 20.—Calib Dauphine, aged 17 years, who was accidentally shot while hunting at Tantallon on Friday last, died of his injuries in the hospital here today.

# AMERICA OPENS DOORS TO MILITANT LEADER

# HOME MISSIONS DISCUSSED BY THE BAPTISTS

### Reports at Amherst Conference Showed Much Progress for Year.

# FINANCIAL REPORT WAS ENCOURAGING

### Committees Appointed for Enquiring Year—Increase Recorded in a Number of the Churches.

Amherst, N. S., Oct. 20.—This is home mission day at the Baptist convention. The report was presented by Rev. I. W. Porter, superintendent. The board is now located in Halifax.

Seventy-three pastorates have been assisted and one has reached the self-support stage. Two churches have secured parsonages, four churches have new houses of worship, salaries have been increased, and 215 have been added to home mission churches.

Captain I. Hartella acted as immigration chaplain at Halifax, the incoming Baptists being 670. Rev. S. B. Kempton, D. D., has been chaplain at the Victoria General Hospital, Rev. A. J. McLeod has been general missionary. Home missionary pastors receive an average salary of only \$78.

The income of the board is \$11,499. The present debt is \$4321. A special feature of the home mission work is the work among the African people residents in Nova Scotia. Eleven missionaries boarding among them, costing board \$1,954.

Rev. Mr. Richardson reported for the board of western missions. This report indicated a great year's work in the West and predicted great opportunities for work among the foreign speaking people in Canada.

Baptist Colleges. Three Baptist colleges are at work in the west. Rev. H. P. Whidden, D. D., L. D., is the efficient president at Okanagan, while Dr. Sawyer is president at Okanagan. Each of these four western provinces have a convention.

The convention accepted the invitation of the United Baptist churches at Fredericton to meet with them next year.

Rev. Moses Puryear stated the position of the Cornwallis street church Halifax. He asked for \$1,000 from the convention toward their proposed new church.

The report on home missions in New Brunswick shows thirty-five pastorates added. There have been 101 additions by Baptism. The income of the board is \$1,000,000.

W. L. Manning was recommended as treasurer of denominational funds for the entire convention.

Dr. H. T. Cousins read a very touching letter from Rev. J. E. Davis, formerly a missionary to the Telegis, now dying of leprosy at the Lazarette at Trinidad, N. B.

W. L. Archibald, A. J. Archibald are home mission superintendents. Committees on home education standards for ordination—Revs. S. S. Spidle, A. C. C. Hutt, E. Crowell, A. F. Newcombe, N. A. McNeil, H. H. Saunders, Hon. H. R. Emmerson, John Smallman, W. C. Goucher, D.D., Retiring 1919, J. L. Peck.

Home mission board, retiring 1916—Revs. A. B. Cohoe, I. W. Porter, S. S. Poole, P. J. Stachhouse, E. E. Daley, Retiring 1914, Rev. J. B. Ganong. Retiring 1915, Rev. S. Mason, W. W. Smallman.

The speakers at the evening session were Rev. I. W. Porter, superintendent of some missions for Nova Scotia and Prince Edward Island, who discussed in a statesmanlike manner the home mission problem of Eastern Canada. He said that home missionaries needed courage, patience and the grace of God's faith. The board needs \$3,000 at once for the work. The home mission problem is the problem of good citizenship.

Dr. S. Matthews spoke on the social gospel. Rev. H. G. Mellick spoke on the opportunities and responsibilities for work in Western Canada.

# BRITISH GOVERNMENT DEFENDS ITS STAND.

London, Oct. 20.—The view of the British government is that the policy of Sir Lionel Carden, the British minister of Mexico, is not antagonistic to the point of view of the U.S. and it is pointed out as merely a coincidence that Sir Lionel Carden presented his credentials simultaneously with Provisional President Huerta's declaration of a dictatorship. The fact that Great Britain had recognized Provisional President Huerta rendered it necessary. It is argued here, that the British minister should present his letters without delay and to obtain an official standing.

Retiring 1915, Rev. S. Mason, W. W. Smallman. The speakers at the evening session were Rev. I. W. Porter, superintendent of some missions for Nova Scotia and Prince Edward Island, who discussed in a statesmanlike manner the home mission problem of Eastern Canada. He said that home missionaries needed courage, patience and the grace of God's faith. The board needs \$3,000 at once for the work. The home mission problem is the problem of good citizenship.

Dr. S. Matthews spoke on the social gospel. Rev. H. G. Mellick spoke on the opportunities and responsibilities for work in Western Canada.

Retiring 1914, Rev. J. B. Ganong. Retiring 1915, Rev. S. Mason, W. W. Smallman.

# GIRL RESCUED FROM WRECK OF VOLTURNO IS A BRIDE

### Two Elopers Aboard the Fire Ship were Saved, but Separated Temporarily—Little Jewish Girl not at all Alarmed Over Safety of Family.

New York, Oct. 20.—Echoes of the Volturno disaster were heard in Henry street and East Broadway yesterday when mothers met their children and other survivors were reunited with their relatives. Men and women were kept busy attending to the needs of the survivors, and a great throng of curious persons gathered outside the Hebrew shelter, No. 229 East Broadway.

One of the happiest of the survivors of the disaster was Chaja Baitak, 20 years old, a pretty young woman, who came from Rostenrotka, Russia, to be married to Abraham Saretsky, 22 years old, of No. 229 East Broadway. He has been in this country for two years. The couple were married by Alderman James Smith almost before the ink was dry on their marriage license.

The bride explained that she was sorry she had no trousseau. She declared that she had spent two years in getting her marriage trousseau together and everything had been lost aboard the Volturno. She said Saretsky had determined to come to this country to seek his fortune two years ago and since that time she had been looking forward to becoming his bride.

"Isn't this awful to be married in such a dress?" she said. "But, all my pretty clothes have been lost aboard the Volturno. I have only a few pieces of clothing left. My mother, Mrs. Charez Welsch, was rescued by the Minneapolis, of the Atlantic Transport line, and her brother, three years old, by the Touraine, of the French line. Blume came to this country aboard the Seydlitz, of the Northern Lloyd line. Her father is believed to be with her brother on board the Touraine."

Child Talks of Her Rescue. Blume talks from Windsor, Russia. Dressed in a little pink frock, her hair falling on her shoulders, the pale girl presented a pretty picture. She is intelligent, but for some reason she cannot account for the great excitement caused by the loss of the Volturno.

As she talked to me through an interpreter in the hallway of the Jewish home she punctuated her remarks by bouncing a rubber ball, a relic of the wreck, which she had kept in her hand at the time her mother placed her in the arms of a sailor to go with the Tepper family in the Seydlitz. Blume said that she and her husband had eloped away from a small town in Northern Russia, and after they bought their tickets for a passage to this country aboard the Volturno, they got married. It developed that the Red Cross and other organizations were seeking the husband under Mrs. Seidenberg's maiden name. Now they have discovered that her husband was in the United States, and she is now in the hands of the police.

Mrs. Marie Yurkofsky, her husband and two of their children were rescued by the Seydlitz. Three other children belonging to Mrs. Marie Yurkofsky are missing, and the girl stricken with grief refused to believe the news, declaring that the captain of the Seydlitz told her that they had been picked up by the Kroomland.

# GIRLS! GIRLS! TRY IT. BEAUTIFY YOUR HAIR

### Make it thick, glossy, wavy, luxuriant and remove all dandruff.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandrin" treatment. Just try this—moisten a cloth with a little Dandrin and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once Dandrin dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks you will find your hair actually growing longer and downy at first—yes—but really new hair growing all over the scalp. If you care for really soft hair and lots of it surely get a 25 cent bottle of Knowlton's Dandrin from any drugist or toilet counter, and just try it.

# DOWNPOUR STOPS BIG SHAM BATTLE

### Thanksgiving Day Feature in Toronto Called off on Account of Rain—One Regiment Out.

Toronto, Oct. 20.—The usual sham battle which takes place on Thanksgiving Day did not come off today. The military authorities of Toronto did not wish to have any brave defenders of the city run the risk of contracting colds, so when the day broke with a drizzling rain falling they decided that the light would not be carried out.

Unfortunately, the Queen's Own Rifles, which had been selected to attack the city, did not know about this arrangement. They marched forth early in the day to begin the invasion, but the other local regiments remained at the armories. A great deal of fun is being made locally of the regiments who would not defend the city in a rainstorm.

a good girl when she got to America, and she added: "And I'm being a good girl." The child's aunt went to the home, and with soba took Blume in her arms. "Why do you cry?" asked Blume. "Of course you know that everything's all right. I asked God about that."

Even the aunt was amazed at the matter of fact child. "This is the only one thing that happened that's bad," said Blume. "I'm very, very sorry, but my doll's gone. She fell into the water when I tried to carry the doily and the rubber ball down the long way to the boat on the soapy water."

Mother Finds Her Child. One of the three waifs at the Nurses' Settlement, No. 265 Henry street, was identified as Ludwiga Wujek, three years old. His mother came here from Philadelphia, having been picked up by one of the Seydlitz's boats. Ludwiga happened to find himself aboard the Kroomland after the excitement, and it was not long afterward that he was asserting relationship with Nilka and Golda Polack, who also are at the settlement.

Mrs. Wujek, whose husband is working in the Caledonia mines, Cape Breton, N. S., asked for her children. Thereupon it was decided to take Mrs. Wujek to the settlement in Henry street. Ludwiga happened to be having a fine game when his mother entered the place, and with a spring she picked up her child and wrapped him in her arms.

Mrs. Wujek is seeking her two other children, Edward, six years old, and Johanna, eight months old. It was said that they might be at the Hebrew Shelter, but as Mrs. Wujek was not permitted to take Ludwiga from the Nurses' Settlement last night, she stayed there without seeking the others.

Aron Schultz, a printer, of Philadelphia, found his children, Joessel, sixteen years old, and Ida, eleven years old, in the East Broadway home. Immediately he was taken to the hospital on his knees in prayer, and for hours remained partly dazed in joy that the two had not been lost.

A romantic ending to a marriage was revealed when it became known that Mollie Lezonich, as she figures on the passenger list, is really Mrs. Abraham Seidenberg. Mrs. Seidenberg said that she and her husband had eloped away from a small town in Northern Russia, and after they bought their tickets for a passage to this country aboard the Volturno, they got married. It developed that the Red Cross and other organizations were seeking the husband under Mrs. Seidenberg's maiden name. Now they have discovered that her husband was in the United States, and she is now in the hands of the police.

Mrs. Marie Yurkofsky, her husband and two of their children were rescued by the Seydlitz. Three other children belonging to Mrs. Marie Yurkofsky are missing, and the girl stricken with grief refused to believe the news, declaring that the captain of the Seydlitz told her that they had been picked up by the Kroomland.

# FINE HOLIDAY BILL AT LYRIC THEATRE

### Audience Express Pleasure at Excellent Film and Musical Act—Thousands Attend Performances.

In the special holiday bill offered yesterday the management of the Lyric had a programme of entertainment, which outlasted in quality any previous show for some months at that popular motion picture house, and this was testified to by the large numbers which taxed this commodious house to capacity during every hour the show was in progress.

The special musical attraction with artistic lighting effects, proved an act of high standard. The avil chorus was splendidly played and in rendering on strange instruments popular airs of the day the team won great applause.

"The Lie That Failed," the feature picture of the show, a story of high society intermingled with romance, is a strong picture and one which is sure to please the picture critic.

"The Stranger at Coyote," a western drama, and "A Noise from the Deep," two of the best pictures obtainable in their particular line, completed the show.

# KAISER'S SON GOES DOWN

Berlin, Oct. 20.—The German Crown Prince on Friday last sent a letter to the Imperial Chancellor declaring untrue the statement appearing in the press that he was in opposition to his father the Emperor on the question of the accession of Prince Ernest August of Cumberland to the throne of Brunswick. He expressed his deep regret that his private letter on the subject had been made public, and said the answer sent to him by the Imperial Chancellor explaining the situation had done much to clear up the matter in his eyes.

**FREE COUPON**  
IMPERIAL EMBROIDERY PATTERN OUTFIT  
PRESENTED BY THE STANDARD

To indicate you are a regular reader you must present Six Coupons like this one.

THE IMPERIAL EMBROIDERY OUTFIT is guaranteed to be the best and most complete collection of patterns ever offered. The 160 patterns have a retail value of 10 cents each, or more than \$16.00 in all. Bring SIX COUPONS and 70 cents to this office and you will be presented with One Complete Outfit, including Book of Instructions and One All Metal Hoop. The 70 cents is to cover duty, express, handling and the numerous overhead expenses of setting the package from factory to you.

N. B.—Out of Town Readers will add 10 cents extra for postage and expense of mailing.

# STOCK CO. IN REVISION OF GOOD COMEDY LAWS

### "Father and the Boys" by Thompson-Woods Co., Drew Crowded Houses at Opera House, Yesterday.

The theatre goers of St. John have come to regard the Thompson-Woods Stock Company at the Opera House as peculiarly their own, and at both performances yesterday when the theatre was filled by large and delighted crowds, the various members were greeted by many friends as they came upon the stage of the union laws. "Father and the Boys," is a rollicking clean comedy, which shows the favorite of the company in new roles. Mr. Meharry, who hitherto has entertained with delineations of sharp drawn types, has a character comedy here in the role of a recently passed law in many western states, which he declared placed new burdens upon mining property, but pleaded for the extension of workmen's compensation acts to all states.

"In every state in which compensation laws have been passed, so far as I am able to learn," said the speaker, "the results have been extremely gratifying. The cost of the employer has been no greater than before, while the sufferers get from two to ten times as much as they did under the antiquated laws in force in most states."

Dr. Brunton declared that the mine-owners and miners of the west are being throttled by a gigantic smelting monopoly, which he declared not only has ruined the industry, but has also in some instances how much ore may be produced.

"Wild-cat" promotion was also criticized by the speaker, who concluded his address with the statement that the greatest service the mining congress has so far accomplished has been the assistance given towards the creation of the federal bureau of mines.

Miss Winona Bridges was cast as a society matron of the old-fashioned type and handled the role with a nice appreciation of its requirements. Miss Davis was dainty in the ingenue role, while new members of the company, Miss Bishop, Miss Derby and Miss Pauline Baird made favorable impressions. Miss Baird, who is a local girl and particularly well known as a character actress of ability, had but a small part, but what there was of it, she was well done, and she was a hearty welcome when she came on the stage. Miss Bishop, who will play heavy business with the company during their engagement here, is a striking blonde of splendid stage appearance. Her part yesterday did not tax her to any extent, but there is no doubt that her work will be watched with keen interest in the other bills.

The play which will not usually be seen here, All the scenes were well done, special mounting being given each, while the costumes were of the best. The music was particularly good, and it was altogether a most enjoyable offering and served as an excellent contrast to the heavier burden of work which the company appeared last week.

It is the policy of the Thompson-Woods Company to present good stock productions of the leading plays in the best possible fashion. Expense and effort will not be spared to give the city a really good stock company and theatre-goers, by their enthusiasm during the past two weeks, and yesterday, have shown that they appreciate a clean, bright comedy which has been as large as the capability of the company merits, for there is no doubt that it is one of the best seen here, there is also a tendency to improvement in this direction and if yesterday can be taken at all as a criterion, St. John is in for a season of most enjoyable and successful productions.

"Father and the Boys" will be repeated all this week and theatre-goers who appreciate a clean, bright comedy should see it. Next week's attraction will be the great Zangwill play, "Merry Mary Ann."

Makes Unightly Hairs Quickly Disappear (Beauty Culture). A smooth, hairless skin is possible for every woman if she uses a delicate paste to remove the ugly hairs. This simple treatment quickly banishes all hair or fuzz and leaves the skin firm and spotless. The paste, made by mixing water with powdered dextrose, is applied to the skin for 2 or 3 minutes, then rubbed off and the skin washed. No harm results from this treatment, but care should be used to see that you get dextrose in an original package.

The Eternal Feminine. (Pittsburg Dispatch). The district attorney of Philadelphia declares that he has been unable to find any law to prevent women from smoking. Which will take away from most of the feminine smokers the inducement to do it.

# BIG RADIIUM DEPOSIT DISCOVERED

### Williamstown Hills May Contain Wealth Beyond Wildest Dreams of Avarice—Spring Waters Curative.

Williamstown, Mass., Oct. 20.—Radium deposits that would enrich the finders beyond the wildest dreams of avarice may lie beneath the rugged mountains that overshadow this quiet village of Williamstown.

This discovery has been made by Professor J. H. Shrader of Williams College. It happened in this way: For more than a century the legends of the country have attributed remarkable curative powers to a warm spring on the southern slope of Dometet Mountain. It lies on the North trail, the Mohawk trail of the early settlers, who fought the Five Nations, as the Indians that used the forest highway were known.

War parties of marauding braves always made a night camp at the spring and drank and bathed while in the immediate neighborhood, with incantations over the bubbling waters, which they believed had been given some mystic power by the Great Spirit.

Since 1762, when the first palefaces settled there, fresh stories of amazing cures have been related from time to time. It is declared that half a century ago, when a distemper killed all the horses for miles around, seven horses pastured near the spring drank from it and were the only ones in all northwestern Massachusetts that were not affected.

Many years ago a woman dying with the water for bathing a few weeks and was cured. These stories and many others came to the ears of Professor Shrader and aroused his curiosity. He heard that a mysterious gas was constantly bubbling up through the water of the spring and he decided the secret was in the gas.

Radio Activity in Water. A few days ago he caught some of the gas in a retort and analyzed it. Professor Shrader found it heavily charged with the characteristic emanations of radium. He was so struck by the fact that he decided to investigate the matter.

Since radium is insoluble, the subterranean stream from which the spring comes, he believes, must come from a vein with large deposits of radium minerals far underground, for it is charged with radium from four to five days after it has reached the surface.

Another startling discovery was made last week when a reporter and photographer over the scene of his investigation Professor Shrader discovered another warm spring from which the water was escaping. The second spring is three-quarters of a mile distant, on Northwest Hill, on the opposite side of the Hooker River.

The warm brook that never freezes over in winter and is bordered by green grass in January led the investigator to a vein of the foothills of the Taconic Mountains.

The warm brook was found winding across the woodland farm of Arthur Rich, just west of Hooker River. The brook was followed up Northwest Hill to its source in a warm spring littered with leaves, through which little bubbles of gas were bubbling merrily. Without apparatus, Professor Shrader would not say positively whether the gas was the same as the radioactive emanations discovered on Dometet. He is now preparing to make an exhaustive test.

Plan to Drive Shavers. Professor Shrader's discovery has electrified this quiet college town. Conservative men were discussing to shafts to mine the radium deposits. Some predicted this place will become a rival of the world-famous uranium mine at Joachimsthal, Bohemia.

William F. Goodell, who will be 70 next December, assured the reporter that he had never been sick a day in his life. He attributed his good health to the fact that he has always drunk water from "warm" spring.

Williams College scientists estimate that he has drunk approximately \$300,000 worth of radium in his lifetime.

"When I was five years old," said Mr. Goodell, "Tom McNahas drove out here one day with a woman who was dying with an awful cancer on her face. She bathed her face with the water every day for several weeks and got well. Her name was Miss Sweet. 'I remember when I was a boy all

# WATERSPOUTS RACE NEAR THE S.S. CEDRIC

### Passengers See Big Shaft of Water Chased by Two Smaller Ones in Heavy Squall.

New York, Oct. 20.—Waterspouts seldom have as many accredited sponsors as did the one reported by officers of the Cedric, of the White Star line, when she arrived in port yesterday afternoon after a passage marked by the extremes of both good and bad weather. This waterspout was not one of the variety that only a few passengers see after long sessions in the smoking room, but it was on view for nearly half an hour last Thursday afternoon.

At that time the Cedric was running into a heavy gale. Off her starboard side, about five miles distant, a squall blew up to an accompaniment of forked lightning and heavy rains. Then the main water-spout formed and the first officer of the Cedric described it as being about 500 feet high, with both its head and base hidden in the mist and rain.

"It was like an ink mark against the dark blue squall," he said. "After the spout had been in duration for about fifteen minutes two smaller spouts formed and followed it like puppy hounds."

ENGLAND SEEKS TO BUY DEADLY WAR INVENTION. British Admiralty Report on French Inventor's New Mine Exploding Device.

Paris, Oct. 19.—"Excelsior" prints a report stating that the British Admiralty has offered to enter into an agreement with M. Ulivi for the exclusive rights to his submarine mine exploding invention, which has enjoyed worldwide publicity without any of its actual details being revealed.

M. Ulivi left Paris for London two days ago, but before his departure consented to throw some light on his invention in an interview printed in "Excelsior".

"The experiments which I have been carrying out off the port of Havre," said the young inventor, "have been correctly reported by some and adversely criticized by others, merely because I was not in a position at the time to give out a detailed statement explaining my discovery and the results of my efforts.

"It should, however, be readily understood that I am seeking to avoid influencing public opinion before the official report of the military experts who attended my experiments has been presented. But I am unable even at the present time to discuss my invention in detail I may at least distinguish between error and truth and give a general outline of the dream I have dreamed and the means I have employed to transform it into reality.

"For this it will be necessary to explain a few general principles which form the basis of my work. It generally admitted that all physical phenomena—heat, light, magnetism, electricity, acoustics, etc.—are vibrations of motion. These motions are constituted by other waves in accordance with the speed of their propagation through space, but also according to the length of the waves, and the frequency of the vibrations. They practically as infinite as the series of numbers.

New Infra-Red Rays. "Some of these waves are well known, such as light waves, beginning with red, the rays of which longer and less frequent up to violet with shorter and more frequent rays. Scientists have extended this knowledge to include the 'ultra-violet,' shorter rays than violet, and 'infra-red' with longer rays than red. All waves, which affect senses in a different manner according to the frequency of their vibrations, obey one law; the shorter waves the more frequent the vibrations. And all are reflected and refracted in the same manner as light. It should, however, be stated that this theory is extremely difficult to establish when the waves are of great length, as reflecting surfaces must be found in ever-increasing sizes. I endeavored to ascertain the limit which a satisfactory reflection of light could be obtained and for that reason

**ENGLAND SEEKS TO BUY DEADLY WAR INVENTION**

British Admiralty Report on Negotiating for French Inventor's New Mine Exploding Device.

Paris, Oct. 19.—"Excelsior" prints a report stating that the British admiralty has offered to enter into an agreement with M. Ulivi for the exclusive rights to his submarine mine-exploding invention, which has enjoyed world-wide publicity without any of its actual details being revealed. It appears that the lieutenant commanding the yacht Lady Henrietta, which a French capitalist placed at the disposal of the young engineer for his experiments, is an officer of the British navy, and it was through this officer's report that negotiations were begun between the admiralty and the inventor.

M. Ulivi left Paris for London two days ago, but before his departure he consented to throw some light on his invention in an interview printed in "Excelsior."  
"The experiments which I have been carrying out off the port of Havre," said the young inventor, "have been correctly reported by some and adversely criticized by others, merely because I was not in a position at the time to give out a detailed statement explaining my discovery and the result of my efforts."

**Principles Explained.**

"It should, however, be readily understood that I am seeking to avoid influencing public opinion before the official report of the military experts who attended my experiments has been presented. But if I am unable even at the present time to discuss my invention in detail I may at least distinguish between error and truth and give a general outline of the dream I have dreamed and the means I have employed to transform it into reality."  
"For this it will be necessary to explain a few general principles which form the basis of my work. It is generally admitted that all physical phenomena—heat, light, magnetism, electricity, acoustics—are phenomena of motion. These motions are constituted by other waves in accordance with the speed of their propagation through space, but also according to the length of the waves, and the frequency of the vibrations. They are practically as infinite as the series of numerals.

**New Infra-Red Rays.**

"Some of these waves are well known, such as light waves, beginning with red, the rays of which are longer and less frequent up to violet, with shorter and more frequent rays. Scientists have extended this knowledge to include the 'ultra-violet,' with shorter rays than violet, and the 'infra-red' with longer rays than red."  
"All waves, which affect our senses in a different manner according to the frequency of their vibrations, obey one law; the shorter the waves the more frequent the vibrations. And all are reflected and refracted in the same manner as light. It should, however, be stated that this theory is extremely difficult to establish when the waves are of great length, as reflecting surfaces must be found in ever-increasing sizes. I endeavored to ascertain the limit in which a satisfactory reflection could be obtained and for that reason only

**10 CENT "CASCARETS" STRAIGHTEN YOU UP**

When headachy, bilious, constipated, stomach sour, breath bad.

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great. A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

Comparatively short waves were used, and in this manner I succeeded in producing infra-red waves measuring about six hundredths of a millimeter.

**Electrical Resonance.**

"The object, however, was not to obtain phenomena of light, but of electrical resonance. I was, therefore, seeking to increase the power of instruments already known in order to obtain a more complete electrical resonance. It is an established fact that everything capable of producing a given note will vibrate whenever that note is produced by an instrument at a certain distance. A similar result is obtained in electricity. It follows that if waves are sent out from an instrument located at a certain distance from a body capable of producing electrical waves the body will vibrate together with the instrument at the time that the waves are sent out.

"I have, therefore, invented two different instruments; one enabling me to discover the exact location and the electromagnetic capacity of the body or mind and the other intended to produce the short waves, which will bring about the vibration, and, consequently the explosion.

**Instrument Guarded.**

"I need not explain why it is impossible for me to give any detailed description of these instruments at the present time. Suffice it to say that the first is a sort of 'radiometer' slightly modified. The second instrument, with which I produce the short waves described above, consists of a series of condensators, varying in shape and size according to the use to which they are intended.

"Finally, in order to obtain cylindrical waves I use a projector which insures a maximum of effect with a maximum of loss of power. Now with these instruments at hand my method is simple. The first is used to discover an object responding to its vibration and with the second I discover the exact location of this object and its electromagnetic capacity. All that is needed now is to produce the 'infra-red' rays under the influence of which the metallic part will produce sparks which will explode whatever explosives may be contained therein. This is explained by the fact that when infra-red rays penetrate a metallic object their frequency decreases and gradually becomes the same as that of electrical waves."

**Without Accompaniment.**

"I like to have a quiet smoke. And that is why," said Dud "I remove the band from my cigar. Ere I began to puff."

Try This Puzzle

Add These Figures

There are no double numbers. Nine is the highest—the figure nine has a straight tail, while the tail of the figure six is curved

The Standard offers 120 prizes amounting to \$1310.00 and ranging from \$250.00 to \$300.00 for correct solutions to this puzzle. You add up the figures and send your answer to The Standard along with any amount from one dollar to six dollars which will apply on new or renewal subscription to the Daily or Semi-Weekly Standard.

If there are more than 120 correct solutions a second puzzle will be offered for the purpose of deciding ties. This will be open only to those who send in correct solutions to the first puzzle, and it will not be compulsory to send any money on the second solution

**The More Money You Send With Your Solution the Larger Will Be the Prize Which You May Win**

- Here is the Prize List**
- 120 prizes are offered which together form a total of \$1310.00. The amount of each individual prize will to some extent depend upon the amount of money sent in by the individual winners. The prizes are as follows:
  - FIRST PRIZE—\$100.00** in gold to which will be added twenty-five times the amount paid in by the subscriber with the winning solution. This prize may be worth \$2500.00.
  - SECOND PRIZE—\$50.00** in gold to which will be added twenty times the amount paid by the subscriber with the winning solution. The value of this prize may be \$1700.00.
  - THIRD PRIZE—\$30.00** in gold to which will be added ten times the amount paid by the subscriber with the winning solution. The value of this prize may be \$900.00.
  - FOURTH PRIZE—\$20.00** in gold to which will be added ten times the amount paid in by subscriber with the winning solution. This prize may be \$90.00.
  - FIFTH PRIZE—A fixed amount of \$30.00** in gold without any additional dividend.
  - FIVE PRIZES of \$10.00 each** to which will be added two times the amount paid in by the subscribers with winning solutions. Each of these prizes may be worth \$22.00.
  - TEN PRIZES of \$5.00** in gold to which will be added the amount paid in by subscribers with the winning solutions. Each of these ten prizes may be worth \$11.00.
  - FIFTY PRIZES of \$1.00 each** to which will be added the amount paid in by the subscribers with the winning solutions. These prizes may be worth \$7.00 each.
  - FIFTY OTHER PRIZES of \$3.00 each** without any additional dividend.

**Contest Closes Saturday, November 8, 1913**

Always use the solution blank and read it carefully before filling out. Write your name and address plainly.

The payment of from \$1.00 up to \$6.00 on your subscription allows you one solution; but the payment of \$6.00 on your subscription gives you one solution and six times as much in dividends.

An additional payment of from \$1.00 up to \$6.00 entitles you to another solution.

Remember, the larger the amount you pay on your subscription the larger will be your dividends should you win one of the dividend prizes.

Study the first prizes and dividends offered and send in your solution today.

No one associated with The Standard in any way will be allowed to enter this contest.

**SOLUTIONS AND PAYMENTS.**

The following space provides for six solutions with the payments you desire to make with them. You may submit one or as many different solutions as you wish. You can pay from \$1.00 to \$6.00 with each solution. The total will apply on one continuous subscription, excepting that not more than \$3.00 will be accepted as a continuous payment to the Semi-Weekly Standard. All persons sending in more than \$3.00 whether in one payment or at different times, will be sent the Daily Standard.

AROUND THE CITY

Thanksgiving Supper. The Ladies' Bible Class of the Methodist church, Hillandale, held a Thanksgiving supper yesterday at which a large sum of money was taken in. A booth at which fancy work was sold was also well patronized. The proceeds will be devoted to the renovation of the Methodist church parsonage at Welsford.

A Successful Service. The service of intercession on behalf of Sunday School work, held in Trinity church last evening, was largely attended. All the parishes were represented by some of their Sunday school teachers and a number of the rectors were in attendance. Rev. R. A. Armstrong delivered an earnest and timely address on the words "Apt to Teach."

Baraca Class Meeting. The Young Men's Baraca Class of Leinster street Baptist church had their regular Sunday meeting yesterday afternoon at two-thirty. After the introduction of visitors, the lesson was studied. A short talk was then thoroughly enjoyed. Mr. Higgins was the speaker. After disposing of a small amount of business on hand, the class closed in the usual way.

The Holiday. Thanksgiving Day passed quietly in St. John. Places of business were generally closed and the theatres closed to capacity houses both afternoon and evening. The outdoor attractions in the city were few and many citizens spent the day in the country. The incoming trains last night brought many men accompanied by guns and dogs, but the game seemed to be among the missing. Several hunters, when seen by a Standard reporter last night, said that they had had a very successful day. The hunting has been good but the game was scarce. It was said that the woods were very wet.

Press Wires Down. Somewhere west of Brownville Junction last evening an unprincipled tree, having no consideration for the people of the Maritime Provinces and doubtless burdened by the weight of years, fell down, in its fall it carried away all the C. P. R. telegraph wires lying in the vicinity. The immediate result was a complete hold-up of the regular news service from Upper Canada, and for this reason the St. John papers together with those of other Maritime points appear this morning with a somewhat reduced amount of telegraphic matter. The tree will probably be removed today.

Election Officers. The Young People's Society of Centenary church held their regular meeting last night. Rev. Mr. Barracough was the speaker of the evening. The following officers were elected for the coming year:—President, Rev. W. H. Barracough; 1st vice-president, Miss Beattie Holder; 2nd vice-president, Miss Annie Baisley; secretary, Reginald Barracough; corresponding secretary, Miss Agnes Robertson; treasurer, R. Laskey; pianist, Miss Hilda Gayley; assistant pianist, Miss F. Henderson.

BIG FEELING AT MEETING

Special Cor. of The Standard. Boston, Oct. 20.—Boston has been experiencing a long period of dreary, wet and boisterous weather which has seriously interfered with many branches of trade, especially the shipping industry, in which disasters have added to the heavy losses caused by delays.

As predicted by The Standard's Boston correspondent several weeks ago the general convention of the Protestant Episcopal church, now in session in New York, will not change the name to "American Episcopalian," although the support led to intense feeling in the assembly. One radical low churchman from the New York diocese was hissed on the floor of the convention when he declared that it would be robbery to eliminate the word "Protestant."

Canadians are much pleased with the election of Very Rev. Dean Frank DuMoulin, of Trinity Cathedral of Cleveland, O., as bishop coadjutor of Southern Ohio. The bishop-elect was born in Montreal in 1870, and is the son of the late Rt. Rev. John Philip DuMoulin, lord bishop of Niagara, Ont.

ST. JOHN PEOPLE DIE IN UNITED STATES

Special Cor. of The Standard. Boston, Oct. 20.—Deaths of former provincial residents include: In Charlestown, Oct. 14, Mrs. Robert A. Gilmore, formerly Miss Mary E. Forest, of St. John; in Somerville, Oct. 15, Mrs. Agnes O. Raymond, widow of James H. Raymond, aged 71, formerly of St. John; in West Somerville, Mrs. Julia A. Badger, wife of Alfred J. Badger, aged 73 years, formerly of St. John; in Gardner, Me., Mrs. Ruth Ryan, wife of Keith Ryan, formerly of St. John; in Charlestown, Oct. 10, Louis Simpson, son of the late Anthony Simpson, formerly of St. John; in Charlestown, Oct. 11, Willard Jones, aged 53, formerly of New Brunswick; in Lowell, the Rev. Brother Liguori, son of the late Thomas Murphy, of South Branch, Kent Co., N. B., aged 38 years; in Roxbury, Jonathan Griffin, formerly of Prince Edward Island; in Brooklyn, Captain Wallace W. Crosby, of Yarmouth, N. S.

DEPOSES MAYOR WHO MADE ONE OF MOB. Governor West Removes Chief Magistrate of Marshfield from the Naval Board.

(Asso. Press. World's Leased Wire). Portland, Ore., Oct. 20.—Mayor E. E. Straw, of Marshfield, Ore., a member of the state naval board, ordered removed from the board by Governor West on Saturday for alleged non-attendance on meetings today gave out a statement to the effect that he

THE COUNTY ELECTIONS

Election will be held in St. John County Today — Many Candidates are Running.

The election for County Councillors in St. John will take place today. Several candidates besides those at present in the council have been nominated. The contest is being run on purely local issues and some spirited voting is anticipated in the different parishes.

The candidates in the different parishes are as follows: St. Martin's—C. F. Black, John H. Howard and William Smith, at present in the council, and Robert Connelly and Roland H. Brown.

St. Andrew's—T. D. Caisson, G. Fred Stephenson and Henry Shillington will be opposed by F. J. Rafferty and Fred McLeod.

St. John's—William Golding and J. A. Bryant, now in the council, and W. A. Quinton, Andrew Gregory, John Sime and John O'Brien. J. W. Long, who has been a councillor for several years, is retiring.

Musquash—W. J. Dean and James K. Corscadden, at present in the council, and Fred Thompson and Oscar Hanson.

DELEGATE REPORTS ON LABOR CONGRESS

Typographical Union held Special Meeting Saturday Evening—Matter of Joining Militia Brought Up.

The Trades and Labor Congress of Canada, which recently met in Montreal, did not pass resolutions in regard to members becoming identified with military organizations, but Herman T. Campbell, who represented the Typographical Union of St. John at the Congress, told the members at their meeting Saturday night that the question had come up and the socialistic members wanted all members of the trade unions debarred from taking any military body. Others thought that members should decide the question themselves.

Mr. Campbell presented his report Saturday night and dealt with many of the questions that were discussed in Montreal. Technical education was another subject of great interest which occupied the time of the congress. The different methods of instruction in the cities of Canada were discussed, and it was thought that technical education should be given more room in the curriculum of the public schools, and that schools of a purely technical nature should be established wherever possible.

It was to be regretted that more attention was not given to this important subject in New Brunswick, and it was thought that several schools should be established here. The meeting took place in the Odd-fellows' Hall, Union street, James Case, the vice president was in the chair.

EX-POLICE OFFICERS WILL TAKE ACTION

Suits May be Filed as a Result of Statements Made at Police Investigation.

The police investigation will be resumed this evening in the police court rooms and some important evidence is expected to be given. It was stated in The Standard yesterday that James Campbell, an ex-sergeant on the police force, intends to take action against persons who have given evidence which was detrimental to his standing in the city.

It was stated last evening that other ex-police officers who have also been mentioned in the inquiry as having taken articles from business houses while they were on duty, and without the permission of the owners, will follow the example of Campbell and will also take action. The whole affair promises exciting developments.

THANKSGIVING DAY SUPPER IN TEMPLE

A special entertainment for Thanksgiving Day which took the form of a supper, followed by a musical and literary programme, was given last evening in Temple Hall by the Alexander Temple of Honor, with about 300 in attendance.

Supper was served on the lower floor of the building from 5.30 to 8 o'clock in the evening. Special music was furnished by the Temple Band, while supper was being served.

After supper the following programme was carried out in the upper hall of the building: Opening selection, Temple Band; piano solo, R. O. Bond; reading, Miss Turner; vocal solo, Mr. Stout; comic solo, J. E. Bond; reading, Miss Spencer; valedict, Messrs. Bond and Edwards; closing selection, Temple Band.

Lester Mowry acted as chairman. He accepted the appointment under protest, with the explicit understanding between himself and the governor that he was not to attend the session. He states that the governor cannot remove him without preferring charges.

LOCAL JEWEES IN BIG CELEBRATION

Special Services in Synagogues Mark Important Events on Jewish Calendar—Feast of Rejoicing.

With special services in the local synagogues the observance of the Feast of the Tabernacles, or the Succoth, an important religious event of the year in the Hebrew calendar, draws to a close this week. The close of the celebration also marks the end of the cycle of the weekly bible lessons, and the beginning of the next annual cycle.

The celebration of the Feast of the Tabernacles has been in progress for the past few days, having begun on Saturday last. This evening will begin the observance of what is known among the Hebrews as the Hoshannah Rabbah, or the day on which the farmers of ancient Palestine offered their petitions for rain. One of the customs was to beat willow branches on the floor and accompany this action with the recitation of special prayers appropriate to the occasion. The willow growing along the edges of the waterways is symbolic of rain.

On Wednesday evening there will be a special service in the local synagogue. On that evening the Shema Aseres begins at sunset and continues until the setting of the sun on Thursday.

The Simchas-Torah, or Feast of Rejoicing, is a day of importance in connection with the week's observances and marks the conclusion of the autumn festival. It is a home and synagogue festival, and characterized by merrymaking and the scrolls of the law, rejoicing. The scrolls of the law, parchment copies of the Jewish scriptures, are embellished with ornaments of silver and gold, covered with velvet and carried about by the synagogue in triumph. Quaint Hebrew songs are sung during the ceremony and the children follow their elders in procession, carrying paper banners topped by lighted candles. The Feast of Rejoicing with the Law marks the conclusion of the annual cycle of weekly Bible lessons. On that day the first chapter in Genesis is also read, and the cycle begins over again.

COMMEMORATE THE VICTORY OF TRAFALGAR

School Children will hear Addresses — St. George's Society has Arranged a Strong Programme.

A programme which will undoubtedly prove of unusual interest has been arranged. The orator of the evening will be Hon. George E. Foster, minister of trade and commerce, who arrived in the city last evening to take part in the programme. The society has also secured the services of Mrs. Grace Bonner Williams, who will be heard in a number of vocal selections during the evening.

In the public schools throughout the city reference will be made to the day. The schools of the different schools will assemble in the assembly rooms, where some fitting commemoration will take place. No specified programme has been outlined, as the matter has been left entirely with the principals of the different schools. It is probable, however, that there will be a salutation of the flag and a short address by the principal of the school relative to the significance of the day and the importance of the Battle of Trafalgar on British history.

One hundred and eight years ago today near a low and sandy cape on the southwest coast of Spain at the northwest entrance of the Strait of Gibraltar was fought the famous battle of Trafalgar, in which Nelson, as the sacrifice of his life, defeated the Franco-Spanish fleet and won for England the famous battle of Trafalgar. Today throughout the British Empire, wherever the English language is spoken and wherever the flag of England floats in the breeze the memory of Nelson will be revived and the stirring events incidental to the battle in which he lost his life will be reviewed and the story of his life held up for the edification of old and young, and especially as an example for the young.

St. John will share in this commemoration of this eventful day in England's history and that the day may be fittingly observed St. George's Society has arranged a patriotic entertainment to be held this evening in the York theatre.

DIED.

KYLE—In this city on the 19th inst., at his residence, 89 Acadia street, after a lengthy illness, William John Kyle, aged 43 years, leaving a loving wife, three sons, one daughter and one sister to mourn.

Funeral on Tuesday, at 2.30 p. m., from his late residence, Service at 2.30.

STUBBS—In this city, on the 21st inst., Jean Stirling, infant daughter of Mr. and Mrs. George A. Stubbs, aged 16 months.

Funeral on Wednesday afternoon from her parents' residence, 70 City Road, Service at 2.30 p. m.

DARK WEATHER FULL OF GLOOM

St. John has not had Real Fine Day for Sometime—Atmospheric Conditions Unfavorable.

St. John has not experienced a real fine day since the seventh of the month and, excepting for occasional glimpses the sun has failed to show itself. The weather has been exceptionally gloomy and wet while the temperature has been higher than usual for this season of the year. Although there was no rain yesterday the skies looked threatening and citizens wore their raincoats in anticipation of wet weather. The wind bore from the southeast during the afternoon and at nine o'clock had increased to 30 miles an hour. A still greater increase in velocity was expected. The thermometer registered 63 degrees last night at nine o'clock and the atmospheric conditions were far from being agreeable. Nearly three inches of rain has fallen so far this month and the lands throughout the province have been almost flooded. The woods were in very wet condition yesterday and hunters had very little chance of showing their prowess. It is not expected that today will be much of an improvement on the weather handed out so far this month and little chance is expected until after the winter storm which is predicted has blown itself out.

The annual meeting of the Church of England Synod will be held in Fredericton during the first week of November. The Right Reverend David Williams, D.D., of London, Ont., Bishop of Huron, will conduct the "Quiet Hour" for the clergy at the Cathedral on Monday, Nov. 3rd. The meetings of the Synod the next day will be preceded by a celebration of the Holy Communion at which an address will be delivered by the Bishop Williams. The Synod will convene at the Church Hall at 2.30 and will be in session for several days.

The special Synod service will be held in the Cathedral on Tuesday evening when the clergy attending Synod will be present in their robes and special music appropriate to the occasion will be rendered. The preacher will be the Bishop of Huron.

After the assembling of the Synod for business at the Church Hall, Bishop Richardson will deliver his charge dealing with various matters of serious concern to the church. The most important subjects in the charge will afterwards come before the Synod for such action as that body may deem advisable.

A nominating committee will be appointed consisting of one clergyman and lay delegate from each of the seven deaneries. Reports from the various Synod boards and committees will be presented and discussed. These reports will show the progress made by the church in its various departments during the past year.

In the election of new committees for the coming year the recommendations of the nominating committee are usually closely followed, although not necessarily so.

Very considerable interest will naturally be felt in the choice of lay delegates to the General Synod, which will meet next September in the city of Vancouver.

One of the most important practical ends of the work during the Synod will be that of an increase in the stipends of the clergy commensurate with the increased cost of living in recent years. The question of superannuation of the aged and incapacitated clergy will also come up for consideration. It is understood that the Bishop will deal in his charge with matters of some importance both to the church and the community at large.

PERSONAL.

Dr. David Townsend, of the River Glade Sanitarium, was in the city yesterday.

Mrs. Roy L. Sippell will not receive this week as announced. Mrs. Sippell suffered an attack of appendicitis on Sunday evening and is now undergoing treatment in the hospital.

Mrs. Grace Bonner Williams, who is to sing at the St. George's Society entertainment this evening, is the guest of Mrs. G. S. Mayes, West St. John.

Mrs. E. A. Bent, of Springhill, and daughter, Miss Sadie, are visiting Mrs. W. A. McGinley, Mecklenburg street.

We beg to announce that the firm of J. Shane & Co. will continue as heretofore. Work will be resumed on Monday, October 27.

Towels. Turkish bath towels, a manufacturer's overtake secured by A. Dyke man & Co. at a clearing price. All very large size.
