Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, 1

No. 116.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Crowp*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pecastoral* Public *Speakers* find great prooral they subside and disappear.

Singers and Public Speakers and great prosotion from it.

Asthma is always relieved and often wholly Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. For a Cough and Cold, no better remedy can be had. Take small doses three times a day and put the feet in warm water at night, until the disease is broken up.

For Influenca, when it affects the throat or lungs, take the same course.

For Influenza, when it affects the throat or lungs, take the same course.
For Whooping Cough, give small doses three or four times a day.
For Croup, give large and frequent doses until the disease is overcome.
No family should be without the Cherry Pectoral on hand to protect them, in case of attack, from the above complaints. Its timely use often spares the patient a great amount of suffering and risk, which he would incur by waiting until he could get other aid. Parents, keep it in your houses for the exigencies that arise. Lives dear to you may be saved by it.
So generally are its virtues known, that we need not publish certificates of them here, or do more than assure the public that the best qualities it ever possessed are strictly maintained.
Prepared by Dr. J. G, Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

[FROM OUR OWN CORRESPONDENT]

BOSTON, May 6th, 1872. The telegraph has ere this informed you eral thousands of miles of wire in Ontario, Quebec and New Brunswick. It is one of the best managed and best paying institutions in the world, while the cheapness of its tolls, compared with the extent of territory covered, is unequalled in any quarter of the globe. As stated by Hon. TO ALL WHO CAN READ. The New York Weekly Sun Doubled in Size without Increase in Price.

With the beginning of 1872, THE WEEKLY Sun has been doubled in size. It now contains eight pages instead of four, making it equal in limensions to any other weekly secular journal published in this country. At the same time its price has not been increased. It will be furnished to subscribers at the uniform rate of one dollar a year for each copy. To this rate no exception will be made and no reduction will be possible, either to clubs or agents. Every subscriber who sends a dollar will receive a copy for a year.

While THE WEEKLY SUN thus furnishes as much reading matter as other papers published at double or treble the prize, it will contain new features which will add greatly to its interest and value as a family newspaper. Its independence of opinion, and its unqualified hostility to Tweedism and Grantism, and every form of public robbery, bribery, and corruption, will be maintained, while in point of political news its readers may rely upon always receiving ing Establishment in the Dominion of Canada the most accurate, as well as the freshest, intel-All the latest appliances for making Brushes ligence that can possibly be obtained.
