drove to Osborne House, where the Queen, the Princess of Wales and Duchess of Edinburgh received him at the entrance. As he entered a band played the German and English National Anthems. The Emperor wore his British admiral's miform.

Macedonian Prisons.

London, Aug. 4.—The Daily News recently sent a special correspondent to inquire into the condition of Macedonia, the province which Greece hoped to obtain after the next war in which Turkey may be enthe prisones and discovered many unpleasant things, but wisely waited till he was out of the total prisoners, and seems surprised that fifteen to twenty unhappy capprised that two and a hast yards acted to serve their that very few prisoners lived to serve their sentences in full. He is also indignant that prisoners should be tortured by being stripped, tied to a stake, and bitten by ants placed on the naked body; but, as the Turks often say, turopean Christians are too fastidious in these matters, and too apt to interfere in other people's business.

Where They Come From,
OTTAWA, Aug. 2.—Mr. Joseph Martin,
Attorney-General of Manitoba, is visiting
Ottawa for a holiday. He says in regard to
emigration that it
Probably 6,000 or 7,000 had come in, but
they were nearly all from Outario and other
Provinces. Practically no foreigners came
in this year.

Mr. Joseph Chamberlain sails for America on Wednesday next.

The exports of specie from New York last week were \$6,539,564 gold and \$613,.

MATERIAL PROPERTY IN THE PROPERTY OF THE PROPE

Converted to Free Trade.

St. Louis, Aug. 2.—The Atchison (Kan.)
Champion, one of the oldest and most influential Republican papers in Kansas, came out yesterday with a free trade flag at its masthead. It says that protection has so impoverished the farmers of the West and enriched the manufacturers of the East that nothing can bring a cure except free trade.

Sudden Death of John L. Sullivan's Sister.

Rosroy, Mass., Aug. 4.—Mrs. Mary

Boston, Mass., Aug. 4.—Mrs. Mary Leonard, a sister of John L. Sullivan, the puglilst, was found insensible on the floor of her house Saturday evening. She soon died. As the body was moved from the spot where the woman had fallen the body of her infant was discovered. It had been suffocated while nursing.

Child Killed by a Horse.

HAGERSVILLE, Aug. 3.—Mrs. Lynch, wife of D. Lynch, merchant, Hagersville, her four children and her two sisters, the Misses Murphy, daughters of Jailer Murphy, of Cayuga, were driving from Cayuga to Hagersville this morning, when the horses ran away and the carriage was upset. One of the children was killed, Mrs. Lynch and Miss Murphy dangerously injured.

1. O. F. Notes.

The Medical Board of the Supreme Court,

of Chatham, were expected, but did not arrive, the former sending a telegram expressing his regret that a previous engagement prevented his coming. The Maple Loaf prevented choice selections during the band rendered choice selections during the intervals of the speeches, which were for the most part brief and to the point, the audience showing their appreciation by frequent applause. LAWRENCE.

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.

LYMAN ABBOTT'S IDEA. There never was a period in the history of the world when industrial questionsmatters affecting the whole people-were so persistently discussed; and there probably ever was a time when there was so much diversity of opinion as to the condition and prospects of the human race as at the present in private pockets. It means the adoption of the broad principle, "No appropriations time, nor so many projects brought forward for the amelioration of the masses. That changes will take place—radical changes, we believe—few can doubt. The race cannot stand still. Will its condition become better or worse? We are optimistic enough to believe that its evolution That changes will take place-radical enough to believe that its evolution will be in the line of securing greater hap-piness for all, and a more equitable distribution of the comforts which Providence has provided, but which have not always been fairly divided. How are the changes be brought about? Rev. Dr. an Abbott, in the Forum for August, s before us a picture of what can effected by industrial democracy, which he contends is the ideal cond which he contends is the democracy is tion of society. Political democracy is "government of the people, for the people and by the people." Industrial de-mocracy is the application of the principles stated in this motto to the organization society; it is the doctrine of wealth of the people, for the people, by the people.

All wealth, Dr. Abbott points out, comes from the discovery of wealth hidden in the

earth, from inventions by men of genius, from franchises created by the people for the public welfare, and transformed into private wealth through public neglect and private weath strong public neglect and private sagacity. Railways and telegraphs are good examples of the latter class of wealth producers. It is the presence of the people as a whole that brings wealth. No man ever by himself created or can create wealth. Our wealth, indeed, is in vealth. Wealth, being of the peo-ple, should be for the people. But at present it certainly is not. Political power and public education are distributed; wealth is concentrated. Thos. G. Shearman asserts that 40,000 persons own one half the United States. A friend of Dr. Abbott's, an authority on economics, thinks Mr. Shearman's estimate too low, and adds that it is quite certain that 1 per cent. of the families of America own as much as the

The conditions of selection are:

The condition of the stures of the streaming points. We have temperatures and temperat Industrial democracy does not demand a simple distribution of the wealth of the nation among its whole population. Such a division would have to be repeated in every generation, and would end, not in a common wealth, but in a common poverty. It does not demand that all labor shall receive equal wages and all men possess equal wealth. Equity, not equality, is what it demands. Not benevolence, but justice, system would not human race. There would still be lazy people, who would rather beg than work, and inefficient folk who would live only by servitude to the more efficient. But organized injustice would disappear from our industrial ownership, and with injustice prietors of the Government. two classes of the very rich and the very

We bring no wealth with us into the world. It is created in one of three ways—it is given to us by some one who has created it by his own industry, and either by gift or purchase. We may take possession of it without leave—if from a private owner, the act is called stealing; if from the public fund, it is called speculation. The just reformer, however, will not condemn the makers of great fortunes who have profited enormously by seizing control of the lands, the mineral resources, the railways, the telegraphs and other systems necessitated by the growth and development of the race. He may even commend their agreeits. But he will condamn the agreeits. sagacity. But he will condemn the system which has to many workers given very much less than the entire product of their labor, and to many others has given im-mensely more. Industrial democracy may insist that the ratio of profit between brain worker and brawn-worker, between captains of industry and privates of industry, be left

manage their churches, political institu ad echool boards, and are not abl e manage their industrial institutions.
Industrial democracy is not anarchist

does it tend to it. Anarchism re gards government as an evil to be abelished. Democracy assumes in men competency for organization—political, educational and industrial. Industrial democracy is not nationalism or State Socialism. It does not propose that the State shall own all the tools and order all the industries of the country. What, then, are the merits claimed for

industrial democracy? Briefly stated, illustratively, the system means an intelligent extension of profit-sharing and cooperation. It means certainly not a national-ization of all wealth, but such legislation as will preserve to the people the values which properly belong to the people—the mines and oil wells, the undeveloped land values, the forests, the great franchises and the forces of nature given by our present patent laws too absolutely to the patentee, who is rarely the real discoverer or in-ventor. It means such reform of taxation as shall prevent the imposition of taxes on the many, to create a surplus in the treasury out of which to pay bonuses or to lend money to the few, whether the borrowers be manufacturers, railroads, ship-owners, sugar-growers or farm-ers. It means the total abolition of the methods of partnership now in vogue, by which the State furnishes funds to cer-

tain enterprises—sometimes ecclesiastical, sometimes educational, sometimes industrial-and leaves the control in private hands, and the profits, when there are any, by Government to any organizations not under public control and for the public monopolies, such as telegraphs, railroads, water supply, public lightning and the like; and the absolute ownership and ad-

ops in Ontario because two members of the Government were defeated at the elec-

for the dog days.

-The warm wave came from Montana. A good many people must wish it had stayed there. In the neighborhood of Qu'-Appelle, N. W. T., the thermometer yesserday

Hebrew or Greek, but he wanted to know whether she was fitted for the work she had to do in life. Therein the Scottish Solomon showed that his title was in some measure deserved, for while a knowledge of letters and the fine arts is much to be commended, nothing so becomes a young man or woman as a fitness for the work he or she may have to do in life.

If you suffer from looseness of the bowels, Angostura Bitters will surely cure you. Beware of counterfeits and ask for the genuine article, prepared by Dr. J. G. B. Siegert & Sons. An interesting return, made up in the inland revenue office, shows that there are 79 persons in Great Britain who pay tax on incomes exceeding £50,000 per annum. The total aggregate amount of income thus assessed exceeds £8,000,000. In reland there is only one taxpayer whose income exceeds £50,000. He is returned at the rate of £76,349, and he last year contributed to the Imperial revenue the sum of £1,908. Various names are guessed at as being that of this distinguished citizen.

of industry and privates of industry, be left to be determined in a free and open market by the law of demand and supply; but it insists, and will insist more and more strenuously, that the wealth which is not the product of individual labor shall not become individual property.

Industrial democracy further demands that as the wealth of the nation comes from the people and belongs to the people it shall be administered by the people. Democracy calls no man master and all men ibrethren. Industrial democracy goes a stage further. It holds that if the people are competent to govern an empire they are competent to govern a cotton mill. It surely cannot be right to assert that the people areable to West.

A HOVEL CONTEST.

What Are the Best Beefing Breeds in the Province?

Professor Shaw, of the Ontario Experi nental Farm, writes to the ADVERTISER s

A contest is now being carried on at this institution, the results of which should prove of much interest, and it is hoped also of much value to the farmers of this Do-

prove of much interest, and it is hoped also of much value to the farmers of this Dominion.

Grade calves have been selected where they could be obtained of the various beefing breeds and also of those that are said to be good for both beef and dairy purposes, with a view of ascertaining the cost of keeping them both relatively and individually until they are measurably matured. Representatives have been obtained for the contest of the Shorthorn, Hereford, Aberdeen, Angus, Galloway, Devon, Holstein and 'scrub,' or native crosses. They are all from pedigreed sires except the scrub. This last was selected in Quebec Province and possesses none of the blood of the improved breeds.

They are all being fed from the pail on new milk for a time. Other food is added as soon as required. It is the intention to have them fed all the food they need for quick and early development, and to sell them when about 2½ years old. They are not allowed to go out at all except for 'exercise in the yard. The food is all carefully weighed for each animal, and they are also weighed singly every month, exact records being kept in each instance.

Many important lessons should be learned from this experiment. The comparative gains per month will make known the relative maturing espacity of the animals, and also that period when the largest returns are obtained from the food fed. It should also determide whether it will pay at all to raise beef under those conditions, and more particularly whether it will pay to feed calves intended ultimately for the block on a liberal ration of new milk. The value of the experiment will also be increased by the fact that one animal additional is being reared under conditions precisely similar, except that it is being fed skim-milk instead of whole milk.

For many years it has been stoutly affirmed by the advocates of the different learners.

water supply, public lightning and the like; and the absolute ownership and administration by the State of all such in dustries, in the measure in which cautious experiments may indicate that the public can serve itself cheaper and better than it can hire private corporations to serve it. "It involves municipal ownership and administration of all street-lighting, and s

There is one point, however, wherein the the Government were defeated at the elections. No, that cannot be the reason. So important a consequence can be due only to the defeat of the Emperor.

‡‡‡

—If George Francis Train wishes to become famous he should go around the world from north to south, or south to north, instead of the old, worn-out path of east to west or west to east. News from either pole would make interesting reading for the dog days.

There is one point, however, wherein the experiment is liable to be assailed by hostile criticism. It is perhaps at present its weakest point. If some animals in the concept that is, that some were more highly bred and better also individually on the start. We are naturally anxious to strengthen this point, and with this object in view I now appeal to the associations representing the different breeds to select animals from year to year for this contest. Where a breed is not represented by an association in the represented by an association in the minion I hope those who are interested the advancement of their favorites will the advan-

A Medical Triumph I A Very Bad Case HOW THE HEALTH OF

Remarkable Cure of Dropsy and

ONE OF BELLEVILLE'S CITIZENS

WAS RESTORED.

Mr. Sampel T. Caser, Belleville, writes;
"In the spring of 1884 Toegon to be troubled
with Dyspepsis, which gradually became
more and more distressing. I used various
domestic remedies, and applied to my physician, but received up benefit. By this time
my trouble assumed the form of Dropy. I
was unable to use any food whatever, except
boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of
my recovery were given up, and I quite expected death within a few weeks. Northror
AND LYMAN'S VEGETABLE DISCOVERY having pected death within a few weeks. NORTHROF AND LYMAN'S VEGETABLE DISCOVERY having been recommended to me, I tried a bottle with but little hope of relief; and now, after using eight bottles, my Dyspepsia and Dropsy are cured. Although now seventy-nine years of age, I can enjoy my meals as well as ever, and my general health is good. I am well known in this section of Canada, having lived here fifty-seven years; and you have liberty to use my name in recommendation of your Vegetable Discovery, which has done such wonders in my case." DYSPERSIA VANQUISHED.

ME. JAMES JOHNSTON, 4th con., 7th lot, Amaranth, writes: "Two bottles of Non-THEOF & Lykan's VEGETABLE DISCOVERY cured me of Dyspepsta. Mine was a bad case and I had tried a number of other prepara-tions without cetting ray benefit from them."

Dyspepsia Had to Go.

Mr. W. J. Dryell, Wingham, carpenter and builder, writes: "Three years ago I was greatly troubled with Dyspepsia; a pain be ween my shoulders was so bad that I thought I would have to quit work altogether. No medicine gave me ease until I gota bottle of Norringhof & LYMAN'S VEGETABLE DISCOVER, which gave me relief. I continued using the medicine until I had taken three bottles, when I was perfectly well. I consider it invaluable as a cure for Dyspepsia. I know of several persons who have used it with the same benefit."

ABOUT HAIR

Editor of the ADVERTISER:

Sir.—I have, as you know, for some time advertised in Canada and the States a preparation of the Canada and the States a preparation of the Canada and the States as preparation of the Canada and the States as preparation of the Canada and the States as preparation of the Canada and the Canada

common.

Dr. Dorenwend, an eminent German physician, has given to the world after years of toil and experiment his now famous "Hair Magic." The object of this preparation is to assist active the term of the production of this oily substitute absolutely necessary to the growth of the hair. It is now sold by all reliable druggists at \$1 per bottle, or six bottles for \$5, or will be sent on receipt of price to any address, See that each wrapper bears the seal and signature of the manufacturer,

A. DORENWEND,

163 and 165 Yonge street,

A BABY KILLED BY BICYCLISTS.

A BABY KILLED BY BICYCLISTS.

ST. CATHARINES, Aug. 2.—The death of Irene, infant daughter of John Williamson, was caused by recklessness on the part of a couple of bicyclists. Mrs. Williamson was on the Great Western Hill a few days ago with her baby in a perambulator, when the latter was overturned by a couple of riders, evidently racing, and her child thrown violently on the walk, striking on its head. Brain fever ensued, and the little one died this morning.

this morning.

-Mr. C. W. Harrison, M.A., head-master of the Dunnville high school, who was recently recommended for a position on the London Collegrate Institute staff, has been appointed principal of the Wesleyan Academy at Sackville, N. B.

Academy at Sackville, N. B.

Londoners who enjoy delightful draughts of limpid water will read the following extract from the Empire and feet thankful that they are not forced to live in Toronto. "Many people have been complaining of the solidity and strong drink tharacter of Toronto water in all parts of the city. The cause, whatever it may be, cannot be local. In the bathtub a thick, black sediment is lodged, and facetious people have been heard to ask for a toothpick

after taking a drink.' Church Union.

Rev. H. C. Speller, in his morning discourse at Adelaide Street Baptist Church yesterday, made special reference to the subject of "Organic union of Protestant bodies in Canada," which is being discussed in the columns of the ADVENTISER.

The reversard gentleman, while doubting the immediate practicability of the idea expressed himself much pleased to see the matter so prominently placed before the public by this journal.

The Water Was Not Let Out.

The lowness of the water in the river on Saturday and Sunday being of mistaken origin has been the cause of much complaint around the streets to-day. The majority of the citizens hold the opinion that the water was lowered at the instigation of the city to prevent Captain Foster from running his boats on Sunday, but such was not the case. Water Commissioner Davis was interviewed on the matter this morning and denied in unmistakable language any such conduct on the part of the Commissioners. "Engineer Findlay," he said, "ran the engines with water on Sunday, but as the Commissioners did not know about the low state of the water they had not instructed him otherwise, and the The Water Was Not Let Out. engineer accordingly used the water as usu.
The engines to-day will be run with firas would have been the case yesterday h
I known of the state of affairs. It will co about \$25 per day to run the engines be coal, but 1 think it is in the interests public health to keep the river bed full cwater." So far this season the engine have only been used three times.

A Joint Figure.
On Saturday the employes of E. Leonard & Sons and the London and Petrolea barrel works enjoyed their annual outing at Port. The games which were participated in by the Leonard employes resulted as follows:

The committee was as follows: Thos. Gleason, Jas. Winslow, W. Hockin, jr., Wm. Weir, J. W. Burgess.

The baseball match and the tug of war between teams representing the firm's were both won by the L. and P. B. Company the baseball score being 23 to 13. Leonard's nine was defeated for the first time in eight years.

A toreman of a jury in the Court of Session boldly cut a case short at Edinburgh the other day. "We have heard quite enough of this case," he said, "to enable us to arrive at a decision. Let the remaining witnesses be briefly examined; we can dispense with the speeches."

Mr. J. R. Allen, upholsterer, Toronto sends us the following: "For six or seven years my wife suffered with Dyspepsis, Costiveness, Inward Piles and Kidney Complaint. We tried two physicians and any number of medicines without getting any relief, until we got a bottle of Northrop & Lyman's Vegetable Discovery. This was the first relief she got, and before one bottle was used the benefit she derived from it was beyond on a contract the first relief she got.

UP IN SMOKE.

Lawrason's Refinery Burned Several Thousand Dollars Damage.

The building known as Lawrason's Oil Works in East London, where lard and tallow oils, etc., are refined, took fire in some unknown manner this morning about 4:30. The flames were not discovered until about five o'clock when the night watchman at the adjacent works of Bushnell & Co. noticed them. By that time the whole building was nearly consumed, owing to the inflammable nature of the contents. The fire brigade were notified by telephone, but when they arrived, all opportunity of saving the premises was gone. They used every effort, however, and succeeded in preventing the fire from spreading. Nothing was saved of either the stock or building. The loss is estimated at from \$6,000 to \$10,000, nearly covered by insurance. The firm will start as soon as possible to rebuild. In the meantime they heve made arrangements to continue their business and will fill all orders. The firm believes its loss will be fully \$10,000.

DIANA WENTWORTH

Or, The Professor's Daughter.

"Were you," she asked. "When was that? Why do you speak as if itwere past."

"It is past; it is all gone, as though it had never been. I told you once I left had never been. I told you once I left home thirteen years ago. I have not been there since. Before I left I asked a girl, with whom I had been in love ever since I was a lad, to marry me. She promised. We plighted our troth with an oath. I did not believe in those things, but she did. She promised to be true to me—to wait till I came back to marry her. I was just beginning. I had my way to make, and the future was uncertain. But she promised, and I left her."

He broke off there, and seemed disin-

future was uncertain. But she promised, and I left her."

He broke off there, and seemed disinclined to say any more. He had spoken as if under protest, in response to something Diana had said at an earlier stage in their conversation. He would have said no more; but Diana's interest and curiosity had been aroused, and she was bent upon hearing the whole of the story. It was a revelation to her; she had never asked herself any questions about his past life. The past was disregarded as much as the future. She waited some time to go on, but he said pothing, and at last she asked, with some besitation:

the control of the co

HEALTH AND HOME.

MEARY FALURE NOT ACCEPTED.

The health officer at Chicago retuses to accept heart failure as a cause of death, very much, it is said, to the indiguation of the physicians there.

SOAF AS ANTHOTE.

The New York Medical Times says that soap is a perfect antificte to carbelic acid poisoning. It should be taken in strong solution immediately after the acid is taken.

CONSUMPTION CONTACIOUS.

The publication in the German papers that the number of resident consumptives in San Remo and Mentone, in Northern Italy, is steadily on the increase, has greatly excited the natives of that region. The cause of this increase is attact to be the sojourn of consumptives to that country in search of health and the undoubted contagiousness of the disease. The people of Southern California protest against that country being made the transient home of consumptives who spread the disease among the natives.

DANCERS FROM OLD FLATED WARE.

Old plated ware, especially forks and spoons, become, through long use, almost void of silver covering, and many of these goods are made of such metal that the acids of foods act upon it, dissolving it and giving rise to acutal poisons, such as salts of copper or lead, in the food—poisons, indeed, which are highly injurious to the health, but acting in a most insidious manner. Silver-plating can now be done at so reasonable a price that families would therefore promote their health, in avoiding the risks of poisoning, by having all old plated or "silver" ware re-plated occasionally, as the best silver-plating will, of course, wear off in time.

SCARLET FEVER IN SCHOOL GLOSING.

The British Medical Journal seems to doubt the wisdom of closing schools during the prevalence of soarlet fever. It says: The closure of schools is at all times a measure of doubtful value for the limitation of scarlet fever, seeing that the children are sure to play together in the streets wery prevalent that the schools during the risks of the spread of infection are alminished by preventing the children is doubtful whether should them part.

There were obstacles to be overcome, and he knew it; but he would not have been the man he was if the thought of these obstacles had not been an additional spur to him—if the thought that in order to win her he would have to fight a hard battle, had not both made her still more desirable to him and strengthened his resolution that

and always treated him as a gentleman, as on a level with herself. What would she say when he told her that, in the opinion of the world, there was a huge social gulf between them? Would her liking survive the shock of finding that, were they to meet at Garshill, they would stand on totally distinct social platforms? Had she strength and faith to put her hand in his and bridge over that gulf? That was what he wanted to know; that was what he would know. Was a certain dainty flimsiness, which she sometimes took a pleasure in flaunting before him, her real character, all there was of her? Was "ther beauty her sole duty," and did it go no deeper than the surface; or was there a true and noble woman underneath? He had his theory, which sooner or later he intended to put to the test.

towns the risks of the spread of infection are diminished by preventing the children congregating at the schools.

D. Hodgins, of this city, has in

—Mr. A. D. Hodgins, of this city, has in his possession a quaint old volume containing the first five chapters of the Bible printed in the year 1622. The book is bound in leather, which is the original cover, somewhat the worse for wear after its handling of over 260 years. The type is in old English, and the language plentifully interspersed with Latin.

—Owen Flynn and his wife, Annie Flynn, appeared at the Police Court this morning to answer a charge of keeping a house of ill-fame on Bathurst street near Richmond. William Burriss was also charged with being a frequenter. The policeman who arrested them testified that on Sunday night at 11:30 he found Flynn, his wife and daughter, Burriss and others all drunk, dancing round the house and otherwise making night hideous. The magistrate fined Burriss \$5 or 20 days and allowed the others to go.

The Detense of Birchell.

The Defense of Birchell.

Mr. George T. Blackstock has been retained, together with Messrs. Hellmuth & Ivy, as counsel for the defense in the Renwell murder case to be tried at the Woodstock Assizes next month. Messrs. Finke, McKay & McMullen, of Woodstock, are also engaged on the defense.

An Early Morning Blaze.

An Early Morning Blaze. Shortly before four o'clock yesterday morning a telephone call was received from the residence of Mr. Samuel Munro at the the residence of Mr. Samuel Munro at the Central Station' to the effect that the residence of Hon. David Mills, Queen street, South London, was on fire. The department arrived on the scene shortly afterwards and found the rear of the house completely enveloped in flames, and it was only after a half hour's hard work that the fire was got under control. The blaze started in the summer kitchen, and when first noticed by Mr. Brenton, a neighbor, had gained con-

Mr. Brenton, a neighbor, had gained considerable headway, and had communicated with the large extension in the rear of the house proper. All the kitchen utensils and furnishings, together with the household goods in the extension, were completely destroyed. The loss will amount to about \$700, which is covered by insurance. The household escaped in their sleeping clothing, but were soon enabled to dress. Willing hands aided in removing the furniture and Mr. Mills' valuable library. The origin of the fire is unknown.

Rev. R. Johnson at St. James Church.

Place.

—A very heavy thunder shower visited London and vicinity this morning. The moisture caused a grateful reduction in the temperature.

—This hot weather makes the small boys reckless. Scores of them may be seen every day bathing in the river just north of the Dundas street bridge.

—A large crowd of people took advantage of the extra train to Port Stanley on Saturday night, and enjoyed the lake breezes while citizens were sweltering.

—The heat in the city yesterday was believed by weather cranks to be the most intense of the year. The thermometor registered as high as 95° in the shade.

—At the meeting of the City Council this evening the action of Captain Foster in running his boats on Sunday will be discussed and probably some definite action taken.

—Miss Flora Schweitzer, of London, who has been the guest of Miss Ermen College. saviour from the power of sin in this world. He seldom referred to salvation as a thing of the future but always talked of it as a thing of the present. Man looked upon it as something to come, something for a death-bed, but when Christ preached his sermon on the mount he did not talk of things to come but of things then and there with them. What a senation it would create if Christ preached that sermon in the tashionable churches or the money exchanges of Canada, and especially Matthew, v., 32, to the people of Chicago. If he saved men from sin in this world they would be saved from the peaalty of sin in the other. Christ did not take sin from the man, but took man from the sin. Nor does he grant man his worldly desires so often prayed for. If man always received what he asked for his heart would be so locked up that it would not be able to contain itself.

The citizens of London have the opportunity of a most enjoyable outing on Civi Holiday, Aug. 18, by taking the "people's excursion to Niagara Falls. The low far
