NORTH MIDDLESEX LIBERALS HEAR LEADER HON. GEO. P. GRAHAM AT A BIG MEETING

als With Many Questions of Great Interest to the Electors.

Says Three-Fifths Clause Menace to the Rights of the People.

[By Our Own Reporter.] Ailsa Craig, June 11 .- Hon. Geo. P. Graham, leader of the Liberal opposiflattering reception here today when he addressed the electors of North Middlesex at the annual meeting of the Liberal Association of the riding. It was the leader's first appearance in the riding since he took hold of the reins, and that he made an excellent impression was apparent to all. He dealt with the issues of the day in a clear, lucid, convincing manner, winning hearty outbursts of applause as he scored point after point against the Whitney Government and its mismanagement of public affairs. The meeting was held in the town hall, which was packed to the doors despite the fact that the weather was anything but propitious, a heavy rain having fallen all morning.

On the Platform.

Mr. Valentine Ratz, M.P. for North Middlesex, and Secretary Inwood, of the Provincial Association, Toronto,

also addressed the meeting. On the platform with these gentlemen were Dr. D. A. Stuart, of Ailsa Craig, the retiring president of the North Middlesex Liberal Association; Granville Haight, of Sparta, and the following officers who were chosen for the current vear:

Your child's feet are growing.

The 26 bones of which each one is made up are not completely formed yet. They are principally cartilagesoft and pliable as compared with your own.

Now see what you do when you put the average child's shoe on that little growing foot. It cramps it up, distorts it. The soft bones grow and harden in this ill-shaped condition, and the child is crippled for life with corns and bunions.

There is only one shoe made in Canada which won't do this. That is the Instructor Shoe.

The Instructor Shoe is the result of the careful study of the human foot. We have designed it so the foot is perfectly free to grow-fitting snugly over the instep and giving each toe lots of room so it can lie out flat and comfortable.

Another good thing about the Instructor Shoe is that we make it of the very best leather-cut from the centre of the hide where the grain is tough and wear-resisting.

If your shoe store cannot supply you don't stop at that. Write us and we'll see that you get the Instructor Shoe—real foot-comfort for your children.

LONDON, WEDNESDAY, JUNE 12.

"A MISERABLE KILLING."

The Toronto News, a eulogist of the Whitney Government, refers thus to the VanZant case:

"There is nothing quite so contemptible about the dismissal of Mr. VanZant as the means by which it was accomplished. For many months gossipers and maligners were at his heels. All his words and actions were misrepresented. He was the victim of bitter and malicious criticisms outside, and of organized disaffection inside the jail. Spies dogged his footsteps. Slander was busy with his name and reputation. It was determined to accomplish his removal, and it is only singular that it should have been necessary to reveal so much meanness and nastiness in the pursuit of one defenseless public official. . . There are few conservatives in the federal public service who could survive the methods employed against Mr. Van-Zant, and we have seldom had a more pitiful exhibition of the evils of the patronage system as it obtains in Canada. Altogether it was a miserable killing, and the group of greedy spoilsmen by whom it was accomplished, when they think it over in cold blood, surely can find no real satisfaction in the achievement."

Before the farce of appointing a commission was enacted. VanZant's successor had already been chosen. A minister of the gospel was not above coveting another man's position, and lending himself to a brutal application of the spoils system.

It was first charged tha Governor VanZan had taken a fraudulent part in the West Elgin by-election of 1899, but he easily proved an alibi. Then the investigation fell back upon the tittletattle and innuendoes of spies and insubordinate officials. A commissioner ready to do the Government's will completed the job.

"What the city is after, as we understand it, is to secure a supply "For," he said, "if I fall down that wakes that will be efficient for the quenching of fire, streams of great force to check a small blaze in a high building, and to meet the occasion of a large fire getting headway in a strong wind. The force of the rich Americans will visit England this stream to be brought to bear is the thing to consider.

"Granted that the additional supply to be procured from Komoka, will keep the reservoir like the widow's cruise, always full, will that "fill the bill?" Will a full reservoir with 11,-000 consumers and 40,000 faucets in operations, give the required power at the street hydrant and the hose

nozzle, by gravitation? "At the start, and up to the number of three or four thousand consumers, there was hardly any question on this head. A fire hose joined to a street hydrant, would throw a stream over one hundred feet high, at a pressure of 70 or 80 pounds to the square inch. This pressure was lessended with every addition to the number of consumers. Were all the faucets working together, there would be no pressure at all for a fire hose. Even the house supply would be reduced to a dribble.

"What does this fact suggest when considering more water for fire protection? Either the use of more engines in connection with the present service, or an auxiliary supply for all but domestic purposes?

"It is in this aspect that the river flowing by our doors comes into the question, and that people ask themselves whether it would be more useful to spend half a million dollars for an additional supply of pure spring water from Komoka than to make the river available for a supply that can be relied upon for fire-fighting, and incidentally for manufacturing, street watering, and all purposes other than domestic?

"If the Komoka supply added to the present reservoir will not give an adequate fire-fighting pressure to the city mains, why any haste to spend so much money on it, since the fire protection question would remain as before, or nearly so? If an auxiliary fire service is to come anyway, why

not put the first outlay upon that? 'Is there any guarantee that were the Komoka scheme adopted, the underwriters would reduce the rates of insurance on that basis? If, not, how much better off would the city

HON, WM. PATERSON. [Brantford Expositor.]

For a man who has been th'rty-five years in public life, Hon. William Paterson certainly displays an immense amount of both mental and physical vigor, due, no doubt, largely to the fact that he was "caught young." He was only 32 years of age when he became, in one and the same year, both mayor of Brantford and representative in the Honse of Commons of South Brant—a double-headed honor which falls to the lot of few men. Yet we talk, as distinguished from the past, of this being a "young men's age."

Hundreds of Londoners Testified and Sent Testimonials to the Newspaper Offices Indorsing the Wonderful Curative Properties of Munyon's World-Renowned Remedies.

OLD CUSTOMS, OLD SYSTEMS, MUST GIVE WAY TO NEW.

The man who conducts his business on the methods that were in vogue twenty years ago will soon have no business. The physician who prescribes according to the formulas and teachings of the text books of a few years ago ought to go into partnership with the undertaker. No one is nership with the undertaker. No one is capable of doing more harm than an old fogey doctor, no one is capable of doing more good than an up-to-date one. The man who prescribes salicylic acid, colchicum, or who fills the system with opium to deaden pain, ought to have his license taken from him. Salicylic acid is a splendid article for preserving the dead, but a mighty dangerous drug for the living, as it will positively plug the kidneys and bowels, which means sure death.

We want every rheumatic to throw away all medicines, all liniments, all plasters, and try MUNYON'S 3 X RHEUMATISM CURE. No matter what your druggist may

Ladies' Home Journal Patterns Are an Immense Improvement Over Those That Used To Be Best

The Ladies' Home Journal Patterns are such an immense improvement over the patterns you used to think best that you'll never go back to the other kind or kinds after you've once used them.

They are wonderfully simple. No puzzling sameness to the perforations. Different styles of perforations are used in Ladies' Home Journal Patterns. Each style of perforation has a different meaning, which is easily understood by a glance at the pattern or the Guide Chart.

Every perforation and every notch in every size is just where

it should be - the Ladies'. Home Journal Patterns are accurately made.

The Pattern Illustrations are large and clear, and the type is easy to read.

The Free Guide Chart prevents mistakes and waste of material.

The styles are up to the latest moment in Fashion's realm.

An Old Notion

still held by some women is that it is impossible to make good pastry from flour made of Manitoba Hard Wheat. Consequently they buy hard wheat flour for bread and soft wheat flour for pastry, and go to a good deal of unnecessary trouble.

Since the appearance of "FIVE ROSES" FLOUR on the market there is no need for any housekeeper to do this, as this brand is made by a process which renders it not only the ideal flour for bread, but which guarantees equally good results for pastry when used "Five Roses" way.

"FIVE ROSES" FLOUR will make lighter and flakier pastry than any ordinary brands on the market, whether made from hard or soft wheat. All we ask is that you give it a fair and unprejudiced trial for pastry on your next Baking Day-The result will, we know, more than satisfy you. Ask your grocer for it.

Liberals for Liberty.

Referring to the work of Mr. Ross, Mr. Graham said that the great liberties which the people enjoy in all countries have sprung from the efforts of Liberal parties. (Cheers). It was the spirit of 1837 which gave us many of the liberties we Canadians enjoy today. The Liberals have always stood for the liberties of the great masses against special privileges of the few. The Liberals had always stood for the claim that the minority had the same right to consideration as the majority. They had withstood the attacks made on the education department in this regard. One time it was an attack on separate schools from one quarter again from another. But the Liberals had withstood these appeals to sectarianism, and the Liberals stand today on the same platform that they had fought for for in the past.

It is the aim of the Liberals to enact laws which will bring the greatest amount of good to the greatest number of people. On this platform Mr. Graham stood before the electors of North Middlesex.

Three Events in Straight Heats.

The day's racing as a whole was rather tame, all three events on the card being won in straight heats. The 2:30 trot was taken by Ella Nevada, who got the lead almost at the start in each heat, and was never headed. She was strongly challenged in

TY COBB'S AMBITION

Speaking of pitchers, there are more of them on the Detroit roster than the average fan ever dreams. In addition to the seven men who draw pay for duty on the diamond, there are a few more. Claud Rossman pitched for several years and had a fine curve and a world of speed in that left wing of his. Davy Jones broke in as a pitcher, and so did Sam Crawford. Matty McIntyre pitches a few games every fall when he gets back to Staten Island, and is said to have everything. Schmidt used to pitch down in Missouri and only quit because there was no catcher in the region able to hold him. His speed was something awful. All these, however, graduated from the ranks of the fingers when they developed their present batting and all-round ability. Most of them could undoubtedly pitch a very fair game at short notice right now, although none of them ever twirled in the big league. Thre is another Tiger, not mentioned in above list, who never pitched much ball, but who is greatly ambitious to do so. This is Tyrus Cobb. Ty thinks he would make a very passable twirler with a bit of experience and keeps working along this line every day. Not an afternoon passes in which he does not take the practice firing line with the pitchers and thence he cuts loose a line of speed and curves that would astonish those not acquainted with his ability. Of late he has been practicing on the spit ball and has achieved considerable success in it, though not able as yet to control the slimy style with anything like regularity. Hughle Jennings hoots at Cobb's ambition to twirl. "Seventeen years ago, old boy, I had an arm just as good as yours," he remarked the other day, "and I did not lose it by pitching, either. Save that speed for throwing out men at the plate."-Detroit Times.

There is a well-defined whisper going the rounds among the officials of the London Trotting and Pacing Association, that a running meet is among the possibilities for next season. The innovation would indeed prove popular and an immense financial success.

It is a well-known fact that the harness horse contests suffer by comparison with the runners in many ways, but principally in the matter of starting. There is a snap and a vim about the manner in which the run- ADMISSION. STIR 'EM UP. DAN."

Considerable comment was rife about the track yesterday in reference to the large number of scores required to get the nags away in the harness races, and the concensus of opinion seems to be that Starter Ferguson is by far too lenient with the drivers. Three or four scores should be enough for any old horse; after that a few fines here and there would be just the Shake well in a pottle, and take proper caper. It is a well-known fact that certain drivers always take advantage of a starter's leniency in order to allow the other fellows to "score their heads off," and time and time again yesterday, and on Monday, some of the drivers held their charges behind the field, and apparently made no effort to get up with the bunch

Leniency to drivers may appeal to a few people, but it is certainly hard on the spectators, who are kept waiting a half-hour before a race begins. Get after them, Dan. The crowd will be with you.

The kind of revival wanted nowadered very valuable assistance, while Mr. Boone, of New York, sang some gospel hymns in a pleasing style. The song service was, if anything, longer than usual, the congregation seeming to be especially in the spirit to sing. Rev. E. B. Lanceley, Rev. Dyson Hague and other local ministers led in prayer.

Practical Results.

The Kind of Revival Needed.

Dr. Wharton then went on to speak of the kind of revival wanted nowadays, and said: "The kind of revival wanted nowadays, and said: "The kind of revival wanted nowadays, and said: "The kind of revival wanted nowadays at 64/4, which we want is a revival of Bible reading; we need a revival of the family altar; we need a revival of the family altar; we need a revival in personal work on the part of Christian men and women. Then we will see the people being converted and becoming Christians."

Returning to the still small voice of God he continued to say: "This way."

Toronto Negro Restaurant Keeper Killed in His Home.

Toronto, June 11. - In his restaurant at 209 York street early this afternoon E. F. Waudell was shot and killed by John Boyd. After making sure of his victim's death, Boyd walked coolly around Queen street, where he was pointed out to P. C. Macrae, who, in company with P. C. Turner, was on his way to drill. Macrae placed him under arrest. Turner selzed him by the arm and demanded the revolver. Boyd made no attempt to resist and surrendered the weapon, which was found empty. Waudell, who was a negro, 45 years old, has kept the restaurant for over twenty years.

Five or six families, also colored, had rooms at the place. Lately he has had some bitter quarrels with another negro, John Boyd, whom, it was said, he followed on a bicycle this morning. Boyd, who lives on Palmerston avenue, came to the restaurant this afternoon shortly after 2 o'clock, and

burst open the door of the room occu-

THINKS CANADA WAS SACRIFICED

In the Alaska Boundary Case-Mr. R. W. Perks' View of the Result.

Toronto, June 12.-Mr. R. W. Perks, M.P., of London, Eng., the millionaire builder of great public works and railways, and the most prominent Methodist layman in England, arrived in Toronto last night, and is staying at the King Edward Hotel.

the King Edward Hotel.

At 1 o'clock this afternoon Mr. Perks was the guest at luncheon of the Methodist Social Union of Toronto, at the King Edward.

"One of my chief reasons for my visit to Canada just now," said Mr. Perks, "is to look over the ground and see just what is being done about the proposed canal from the Georgian Bay to Ottawa and Montreal. The Canadain Government has not given any final decision on this important work, but in the meantime my firm have the contract for the work if it is gone on with by the parties who got the charter. The cost is put at about \$100,000,000, and if the canal were constructed it would enable ocean-going vessels to pass to and from the great lakes and the ocean and give Canada a self-contained route independent of the present St. Lawrence route."

The canal would, if projected, use the windings of the French River, and connect with the lower waters of the Ottawa. The work of construction might take ten years.
