

ENEMY FORCES DIGGING IN ON THE STRUMA Invasion Stirs Greek Soldiers to Active Resistance

GREEKS DETERMINED TO RESIST IN FORCE BULGAR INVASION

Followers of Venizelos are Leading Movement to Force Constantine's Hand and Bring About an Alliance With Entente Powers

By Special Wire to the Courier. New York, Aug. 24.—The London correspondent of the Tribune last night cabled as follows: The Greeks are preparing to resist in force the advance of the Bulgarians towards Seres and Kavala.

Again the followers of Venizelos are leading the movement to force Constantine's hand and bring about a Greek alliance with the Entente powers. Adherents of the ex-premier at Salonica are organizing volunteers to resist the Bulgarians moving on Seres, according to a Reuter despatch which reached London to-night.

The commander at Seres, according to this report, has called to the colors the troops demobilized in accordance with the demands made by the Allies last spring. His proclamation declares that the Bulgarians will soon be opposed.

Not Yet in Seres The Bulgarians are approaching Seres, but have not entered the town yet. Sofia's envoy at Athens has given assurances that neither Seres nor Kavala will be occupied by Bulgarian troops, but the advance in Macedonia continues and Athens is inclined to be skeptical of Bulgarian promises.

With the serious agitation of the Venizelos party for participation in the war on the side of the Allies, the Bulgarian threat may prove the final impulse that will drive Greece into the war. This, too, may force definite action by Roumania.

What About Roumania? A forecast of what decision Bucharest will make and when she will make it is unwise. The allies, however, are optimistic. Several times in the last year, Roumania was ready to enter the conflict and reversed her decision only because the complexity of the war had changed Balkan bargains come high as both sides have learned, and they are never certain until they are delivered.

Allied Successes. The outstanding feature of the fighting on the Salonica front to-day was the checking of the Bulgarian counter-offensive against the allied flanks. Both the assault on the

BRITISH BEAT ALL ATTACKS German Assaults Near Guillemont Came to Grief.

By Special Wire to the Courier. London, Aug. 24.—3.25 p.m.—On the Somme front, in the neighborhood of Guillemont, the Germans last night launched a strong attack in an effort to regain lost ground. The official statement issued here to-day says the attack was repulsed after a severe struggle in which the Germans sustained heavy losses.

The announcement follows: "Last night the enemy made strenuous efforts to regain his lost ground between the Guillemont station and Quarry. After a severe bombardment, which began at 8.45 o'clock he launched a strong infantry attack which was pressed with such determination that it reached our parapets at places.

"After a short struggle the attack was repulsed completely everywhere with heavy losses to the enemy. "After this failure the enemy delivered a further intense bombardment at 12.30 o'clock this morning, but no other infantry assault materialized.

"Near Hohenzollern redoubt the enemy shelled our lines heavily and attempted a raid which failed completely. In no case did he succeed in reaching our lines. "In a raid which we carried out northwest of La Bassee we successfully entered the enemy's trenches."

MAYOR BOWLBY STILL INSISTS NOISES WILL STOP Declares If Not He Will Bring Factory Owners to Police Court.

The general opinion of the manufacturers with regard to the announcement that Mayor Bowlby intends to stop the sounding of factory whistles and "buzzes" is that the City Council at next meeting should amend the by-law. One factory manager, in talking with The Courier, said: "I don't think the workingmen will stand for any such nonsense. Each one knows the signal of the place where he works, and getting to the factory and getting out is a convenient custom and I don't think anybody is hurt by it. If the noise wakes Mr. Bowlby, the workman, if he persists will do it even more so."

Grave Disorders Have Broken Out at Hamburg For a Week Past Great German Sea Port has been in a State of Revolution, Hunger, Riots and Peace Demonstrations Occurring Frequently.

By Special Wire to the Courier. London, Aug. 24.—(New York Times Cable).—A dispatch to the Chronicle from Amsterdam says: For a week past the port of Hamburg has been in a state of revolution. One who has just 'escaped,' as he expressed it, tells an extraordinary story of the gradually rising exasperation of the population, until early last week they broke out into open hunger riots and peace demonstrations. The authorities appear to have been taken by surprise, for the police were unable and perhaps unwilling to quell the disturbances. They were completely overpowered before the soldiers could arrive, and angry crowds had forced their way through several of the principal streets and smashed every shop and business house window. Only vigorous military measures were able to restore order.

Hard Blow at Turkey Two of Its Regiments Captured—German Offensive Stopped.

By Special Wire to the Courier. Petrograd, Aug. 24, via London 2.55 p.m.—The capture of two Turkish regiments on the Caucasus front was announced to-day by the War Office. "Teutonic forces have begun determined attacks against the Russians, who recently forced their way across to the west bank of the Stokhod in the vicinity of Rudka-Cherivische, northeast of Kovel. According to to-day's announcement by the War Office, the attacking columns which opened their offensive yesterday on the Russian positions near Tobol in this sector, were repulsed by the Russian fire.

DEUTSCHLAND REPORTED SAFE German U-Boat Has Got Safely Across, Travelling 4,200 Miles.

By Special Wire to the Courier. London, Aug. 24.—1.05 p.m.—Reports of the return of the German submarine Deutschland from the United States are corroborated in a telegram received at Amsterdam from Bremen as forwarded by Reuter's correspondent. According to this information the Deutschland travelled 4,200 miles on her homeward voyage. At the beginning the sea was tempestuous, but later it became more calm. The Deutschland proved to be able to navigate the stormy seas excellently. Her engines worked faultlessly. No icebergs were passed on the journey.

QUEBEC UGLY OVER RECRUITS Over Twenty Meetings in Montreal Have Been Disturbed.

By Special Wire to the Courier. Montreal, Aug. 24.—Over twenty recruiting meetings, recently have been disturbed here and reports concerning them have been sent to Ottawa. Two disturbances took place yesterday during recruiting meetings for the Irish-Canadian rangers. There was trouble at the meeting at Place d'Armes, when an unknown man speaking French interrupted the meeting and such an uproar followed that the meeting ended abruptly. A disturbance also occurred at a meeting of the Rangers in front of Christ Church Cathedral, when a man who had been approached by recruiting officers became bellicose.

BULGARIANS ARE ENTRENCHING ON THE LEFT BANK OF STRUMA Also Taking up Position of Defence on Both Sides of the Highway to Seres—Serbs are Moving Forward

By Special Wire to the Courier. Paris, Aug. 24, 2.20 p.m.—The French War Office this afternoon gave out an official announcement of the operations in front of Salonika, reading as follows: "In front of the right wing of the Allied armies, the enemy is entrenching himself on the left bank of the River Struma and on both sides of the highway to Seres. Between the Struma and the upper valley of the Moglenica Anglo-French forces have repulsed without trouble several attempts of the enemy to capture the positions occupied by Anglo-French forces to the north of Palmet; in the sector of Doiran, and in the direction of Ljumnica.

"Along the entire mountainous front to the west of the Moglenica Serbian troops are developing an offensive. On the extreme left they have recaptured as the result of a vigorous counter-attack, Hill 1506, six kilometres (3 miles) to the north-west of Ostrovo Lake, which position they lost on the morning of August 23.

Artillery Encounters London, Aug. 24.—Neither the Bulgarians nor the Entente forces on the Macedonian front attempted vigorous offensive actions yesterday. An official statement issued here to-day says that artillery fighting continues but no records of infantry encounters.

"There has been artillery activity on the Doiran front," the statement says, "but no infantry action. On the Struma front our artillery dispersed Bulgarians who were entrenching on the left bank of the river. The enemy's artillery shelled Orizak bridge. "The Serbians are on the same line as reported yesterday.

Berlin Claims Success Berlin, Aug. 24.—(Via Sayville wireless).—Defeat of the Entente forces along the Struma river on the Macedonian front in northeastern Greece, was announced by the Bulgarian war office in a statement issued yesterday at Sofia.

The statement says the Entente forces took to flight, leaving the ground covered with dead, and that up to the time the statement was issued, the bodies of over 400 dead had been counted. Large quantities of ammunition and supplies, including eight machine guns, were captured by the Bulgarians.

PUSHED INTO A SOMETHING THAT WAS NOT WANTED Impression Among Masses of Hun People War Is Not Necessary.

By Special Wire to the Courier. London, Aug. 24.—(New York Times cable).—The London Times says that Frederick Naumann publishes in the current number of his weekly paper, Die Hilfe, an extraordinary article on the weakening of German popular opinion about the war and the need of counter-acting the present tendency. Herr Naumann writes: "Do Not Yet Know Cause "To-day there are people enough who no longer rightly know why we are still fighting. I was visited lately by a soldier who late in the war was taken up into the landsturm. I know him well, and I know that by the very reason of his calling he understands the way of thinking of the simple people. He said to me: 'It must be explained to the people quite simply and intelligently why they are still fighting, because they do not know.' I answered that two years was surely enough to make it clear to the thickest head. He, however, replied: "Two years ago all these people knew, but as they read the newspapers regularly, have little knowledge of geography and have no training in historical thought; even at the beginning, they grasped only a general impression rather than detailed events. Meanwhile, all that has for them returned to a state of flux and become obscure, and now mentally helpless in the fact of the sacrifices of the long war. Hence it becomes possible for agitation of the Liebknecht type to find its way into the very army."

Close Highway Near the River Only Remedy, Thinks Township Council, to Stop Landslides.

A special meeting of the township council was held yesterday morning to deal with the matter of the recent landslide upon the Cainsville road, it being determined to close the highway at that point in order to prevent a recurrence of a similar accident in the future.

M. S. Blainlock, Maintenance of Way Engineer, of the G.T.R., reported that after diligent search, as well as conferences with the other engineers, he was unable to find any possible remedy for the sliding along the banks of the Grand River, in the village of Cainsville, as this had been going on for so many years, caused by the heavier earth at the top of the bank pushing away that which was softened by contact with the water. The only cure which he could suggest was the fattening of the slope of the bank.

After some discussion, the following motion was introduced by Messrs McCann and Greenwood, and carried: "That the Township Engineer be instructed to prepare a plan and description necessary to be taken by-law to be drawn to close the highway adjoining the river at Cainsville, and that the solicitor of the township do prepare such a by-law for consideration at the next meeting of the council."

H. R. H. VISITS MUN PRISONERS AT HALIFAX

Interned Officers Seemed Pleased to See Representative of George V.

By Special Wire to the Courier. Halifax, N.S., Aug. 24. (Montreal Gazette)—An interesting episode in the visit of the Governor General to Halifax occupied to-day when His Royal Highness was in the Citadel. Interned there are about three hundred German prisoners, all officers, the rank and file being in the detention camp in much greater numbers at Amherst. The Duke was escorted into the inclosure where the prisoners are kept at the citadel and was introduced to the officer who is looked upon as their leader. His Royal Highness conversed for some time with this German, and passed up and down the lines, where the other prisoners could see him and he them. They raised their hats and saluted as the governor-general passed, and appeared pleased to have this visit from the representative of King George. The Duke of Connaught will, to-morrow, continue his inspection of the forts and will also visit the Halifax ocean terminals now in course of construction. On Friday he will attend a garden party.

THE SITUATION

The Balkan operations continue to gain in importance. French, English, Italian, Russian, Greek, Serbian, Bulgarian, German and Turk forces are now engaged in the fighting.

In the Somme operations the British by another drive advanced two hundred yards. Not much of a distance on paper, but quite notable in view of the elaborate defenses held by a stubborn foe.

The Russians are successfully continuing their difficult task of clearing the enemy out of the Carpathian passes in order to better make way for the invasion of Hungary.

In the Verdun fighting the French have made an advance between Fleury and Thiaumont.

War correspondents of German papers are commencing to paint in vivid terms the horrors to which the German soldiers are subjected under the "murderous" artillery fire of the British and French.

A despatch from Germany makes the claim that the trading submarine, Deutschland, has safely arrived after a twenty-three days' trip from the States.

ANOTHER GERMAN BOY

The Huns have a rumor in circulation, that preparations are nearly completed for a staggering blow at the Allies which will cause them to scurry for shelter and despairingly plead for peace.

German boasts are no new thing. They were going to be in Paris in a few weeks. That program was brought up with a short jolt, and then Calais was to be occupied.

If Roumania doesn't pretty soon get in with the Allies, the spelling of it will be Rumania.

It has been learned that Lieut. Col. Shaw, formerly of Otonabee, who was killed in action, was recommended for the Victoria Cross. A barn belonging to Levi Atkins, near Meaford, was totally destroyed by fire, together with the entire contents.

Red Deer is about the brainiest of the others, but he is a free trade faddist and did not gain popularity with his party friends when he publicly rebuked the Kyles and Carvels in the House for attempting to harass the war efforts of the government and to twist some miserable party capital out of Canada's notable efforts in connection with hostilities.

As for Laurier, he has shown himself to be so unsound on the bilingual question that his Western followers last session, to a man, walked into the lobby against him and the Winnipeg Free Press, staunch Liberal paper that it is, called for new leadership.

They are in just as bad shape in the Province. Rowell, who is mainly a faddist, has not the personality which attracts men, nor the ability to hold to his views, the little following which he possesses. He is ever in Europe now while manipulators in his behalf, have won two by-elections by joining forces with the liquor interests, which recent Premier Hearst's prohibitory legislation during the war. In the recent Toronto contest we had the spectacle of Dewar, the Grit standard bearer, openly side-stepping Rowell's pet scheme of the "abolition of the bar."

A very clear evidence of the fact that he does not give a rap for the views of his supposed leader. That he will aim to supplant Rowell in the job is quite generally thought. He is not the man to take orders from a chief whose main plank he has ignored and thereby won success. Look where they will, the Grits of Ontario and of the Dominion, are out of leadership material and they know it.

NOTES AND COMMENTS

The Toronto Globe raves of "the Camp Borden horror," and the London Advertiser is quoting "Dante's Inferno." The hot weather has evidently played hob with these two Grit sheets.

Hartley Dewar, leading the Jews in the reoccupation of Palestine, will be a sight worth going some distance to see.

The Guelph Mercury distinctly refuses to accept the invitation of the Courier to name the man who is leading the Ontario Grits while Rowell is gallivanting about Europe. The truth of the matter is that the party hasn't anyone.

The sound of the factory whistles gets on the nerves of Mayor Bowly—also annoys.

Members of the Hamilton city council and board of trade who visited Camp Borden yesterday, were much pleased with what they saw. Still certain Grit sheets, for political purposes, continue to lie about it.

Berlin has at last finally assumed the name of "Kitchener," Canadians, generally, will be glad to know that the title of the Hun capital is to be no longer perpetrated in this Province.

If Roumania doesn't pretty soon get in with the Allies, the spelling of it will be Rumania.

HYDRO WILL SPEND AT LEAST MUCH MONEY TO BETTER PLANT

Extensions and improvements in-acquiring the right of way," he advocating an expenditure of well over a million and a quarter dollars are the new right of way, it is stated being undertaken by the Provincial Hydro-Electric Commission to meet the ever increasing demand for Hydro-tween Toronto and Dundas when 'in power. and Persian barons once plied, the shallow-draft gunboats that fly the Union Jack now manoeuvre. British aeroplanes have already been flying across the skies that looked upon Harud, Rashid, and a German Zeppelin may yet be reported hovering over the bazaars where the Commander of the Faithful delighted to wander.

The visitor to Bagdad recalls that it was the capital of a domain reaching from Spain into Africa and from Africa to India, and he knows that Harud-Rashid was once its ruler. These facts have been inscribed on the tablets of memory through the medium of "Amine," "All Baba," "Sinbad," "Saladin," and other delightful "Arabian Nights" tales.

The Historic Hermit But the Bagdad of to-day, although in the Turkish documents still call it "the glorious city," has naught but crumbling mosques, dilapidated palaces and neglected tombs to bear testimony to the splendor of the past.

It was Al-Mansur, the second caliph of the Abbassid dynasty, who removed the capital of Islam hither from Damascus. When he first saw the spot he was enchanted with it although there was then only a single habitation upon it—the cell of the venerable hermit Dad.

The latter, ignorant who his dignified visitor was, not only entered into conversation with him, but predicted that one Moslos was destined to found a city where they were standing.

"I am that man!" exclaimed the caliph, and he went on to inform the hermit that in his boyhood he had stolen a bracelet, and his nurse had ever after called him "Moslos," the name of a thief then well known. The old recluse must have made a considerable impression on the mind of Al-Mansur, for the town was eventually named for him. "Bag" signifies a garden in the Persian tongue, and the whole word means "The Garden of Dad."

An Ancient Rockefeller This caliph, by the way, was perhaps the richest man in his time, for he possessed some \$150,000,000. He did not, however, invest his wealth in Bagdad real estate, for he and his sons left it in a small town, confined to the western bank of the Tigris. Moreover, they economized in building materials, for they used fragments plundered from the ancient Persian city Ctesiphon, its near-neighbor Seleucia, and from ancient Babylon.

It remained for Harun, ally and friend of Charlemagne, who came after Al-Mansur and his sons, to extend the capital to the eastern bank. With him, too, began the era of culture, science, literature, and that distinctly Persian luxury that at last wrought the downfall of Sarracen power. Against such effeminate degeneracy Omar, conqueror of Syria, Persia and Egypt, sedulously warned his people, but in vain.

OLD WORLD NOTES

The uninterred aliens in Scotland are the cause of some agitation for their interment. The other day an indignation meeting was held in the Queen's Hall, Edinburgh, to advocate the immediate interment of 22,000 dead that are still going free, and for all that they know working for the success of their enemies.

Mrs. Hope of Luffness presided at the meeting. She said that to her mind it was a perfect scandal. What, she asked, was the use of them sending their husbands, brothers, and sons to fight their battles over the seas if they very people were fighting against are protected in this land? They had 872 male enemies in prohibited areas. They had also 400 German business-men open. They wished to have Britain for the British. They ought to intern all aliens, rich as well as poor, men as well as women. (Ap- plause) They ought also to make plans by their minds, that they would not buy German goods.

Another case of exemption from military service on the ground of the applicant being a minister of the Gospel was thrashed out before Sheriff Substitute Orr of Edinburgh the other day. The young man was an elder of the International Bible Students Association. In this position he made his living by selling Bibles and religious literature, and his spiritual office was marked by the leading of services, private studies of the Bible, and the dispensation of the Sacrament to members of the association. In answer to questions by the learned sheriff, the young man said that the world was as yet converted, but that in this war and following the war in time, people would feel themselves called upon to become the true sons of God. The Sheriff was impressed. He granted the young gentleman release.

Mme. Petrova at the Colonial

The management of the Colonial has scored a master stroke in securing Mme. Petrova's latest and greatest feature picture "The Vampire."

"The Vampire" is generally conceded to be one of the strongest Metro productions yet released, and as Mme. Petrova has a host of friends in Brantford, the Colonial will undoubtedly hold tremendous audiences who will be attracted by the wonderful acting of the great Russian star.

For the second time in her career as a highly temperamental and emotional actress of the screen, Mme. Petrova will have full sway to give force and character to her perfect artistry in the production of "The Vampire." In this production, which comes on the Metro programme, Mme. Petrova will be seen in the role of a woman who was much wronged, who attempts to seek solace by making all men whom she enthralls by her beauty and brilliancy, victims of her machinations. She succeeds for a while and until she becomes armored herself, the man she would wrong. He wishes to marry her and she is willing that he should, but her hate of mankind in general is again aroused when she learns that he is the son of the man who wronged her by an illegal marriage, her heart is softened for this young fellow when she finds she is robbing his fiancée of his love. She finds a way to unite them, when she realizes that a happy union could never have resulted had she married him herself with her past always rising before him.

COUNTY COUNCIL ALTERS SYSTEM

Change Made in Administration of Funds for Soldiers' Dependents.

THE NEW PLAN.

Money Will Be Paid to Central Association, Which Will Distribute It.

Financial matters occupied the attention of the county council at a special session held yesterday afternoon. The principal action taken was in regard to the administration of the moneys raised by Brant county for the Patriotic Fund. In the past the county has itself handled the disbursement of these moneys, but a new course of action was yesterday decided upon, in view of several arising circumstances, and the county will now become a duly constituted branch of the Canadian Patriotic Fund by paying its contributions to the central body of that organization which will administer the money then its own expense, and to any amount which may be necessary, even in excess of the county's contribution. The amount paid will be \$2,000 a month. The Paris branch, which has previously been connected with the county, will now become either a separate branch of the Association, or become affiliated with the Brantford branch, as the contributors may decide among themselves.

Costs of Indian Cases.

The purpose for which the meeting had been called was explained by County Clerk A. E. Watts—the discussion of matters relative to the administration of the Patriotic Fund in the County. The question of the costs of the administration of justice now being aired in the police court, which would result in a very heavy bill of expense. The present was an opportune moment for action in the matter, stated the speaker, who pointed out as an example that in all county liquor cases the fines imposed by the Government, which are sent to pay any share of the expenses incurred by the county in the cases.

Claims Increasing.

Warden Ertis explained to the council in the manner in which the county council was at present handling the funds for the Patriotic Fund in the county. The most serious feature of county dependents would be greatly increased, since the departure of the two battalions from Brantford, and the appropriation of funds would not be adequate to cope with the demands.

New System Suggested

The costs of administration were also proving to reach a higher percentage than was estimated when the council agreed to bear the county's share of the administration. The clerk pointed out the advisability of adopting a new system, whereby the patriotic fund a fixed sum per month, thus being relieved of all expenses attendant upon the administration, which would then be seen to by the central organization. This action were taken, Paris would also come under the control of the central body; hence a number of delegates from the Paris branch of the fund were present before the council in order to speak upon the subject.

Satisfaction at Paris

Mr. Scott Davidson asked for information as to the disposal of the funds of the Paris branch in the event of its becoming attached to the central organization. It was pointed out that the rates paid in Paris were not as high as those of the central organization, and that the extra work and cost the town more to pay their money into the Ottawa department. All the dependents were satisfied with what they received at present.

Pays Out Generously

Messrs. H. T. Watt and J. H. Spence, represented the Brantford branch of the fund at the meeting, the former giving a statement of the rates of pay by the central organization, and the latter explaining that the high cost of administration for the last month was only temporary, the departure of a great deal of extra work and extra help for the fund. Mr. Spence also pointed out the whole-hearted manner in which the Dominion branch of the fund paid out the amounts needed by its various branches, even when they were greater than those raised by the respective localities. The speaker expressed his approval of both Brant county and the central organization, and the cause which the whole of Brant county had to feel proud of its showing, both in recruiting and in patriotic re-works.

Ottawa Bears Expense

Warden Harris expressed his approval of the project.

In reply to a query by Mr. Eddy, Mr. H. T. Watt stated that the administrative expenses of the Brantford branch were borne by the central organization, in accordance with the agreement made between the two branches. The expenses included salaries, postage and stationery, the fund being exempt from war tax levies.

The Patriotic Fund delegates withdrew at this point, and considerable discussion followed among the members of the council. The following resolution, when introduced, was carried by a unanimous vote:—

Resolved, That after September, 1916, this

### Sergeant Patte on the Firing Line, Tells of Need of More Men

Cannot Understand Why Eligibles in Canada Have to be Coaxed to Join the Ranks, Seeing, as He Does, the Never-Ending Need of Men.

#### HAD JUST COME FROM 16 DAYS IN TRENCHES.

The following letter from Sergeant George Patte gives in a vivid manner the view point of the man at the front, on the reports which drift over to him, that people in Canada have to be coaxed to enlist. The war is not over yet, he claims, and every man will be needed. No better appeal for recruits has ever been issued than this epistle from a man on the firing line. The letter follows:

Somewhere in Belgium, Aug. 4th. Dear Dad: Have just received your two letters and a paper. Received the two parcels the other day. Was glad to get them, and you can bet they were appreciated; the variety was good. It was a dandy change from the ordinary menu. The socks and handkerchiefs were also needed. In fact it was the most sensible parcel I have received from anywhere. Thank Jack Kelly for me. I intend to drop him a line in a day or so. It certainly was a fine tobacco pouch and just what I needed. I knew the parcels were here a few days before I received them, but we were in the front line, and it is very difficult getting them up there at times, so they hold them at the transport until we come out.

We had a busy sixteen days up there. Fritz treated us to everything he had in stock, and believe me, has some beautiful variety of explosives. In fact he just threw over everything except the guns. A fellow can side-step a lot of that stuff, if he only keeps his eyes and ears open. You see when he is throwing over run jars, weinourts, or sausages, you can hear the report of his gun, the lines are so close together that you can easily distinguish it from the report of a rifle. Then when you hear the report, look up in the air for it. It will go sailing away up and it is up to you to keep your eye on it. If it is going to fall near you, beat it up the trench to another bay, getting a traverse between you, if possible. It is when he keeps three or four in the air at once that he gets you guessing. It is impossible to side-step the whizz bangs, but you can get a line through his batteries. Believe me, when there is anything doing, you have to be wide awake, and take it from me, your nerves are on edge every minute until it is over.

We have been reading the late Brantford papers, having received a bundle from Vic. the other day. I noticed where the 125th Battalion arrived in camp without a casualty.

have enlisted, they will find names of lots of married men 40 to 45 years of age, who have stood the hardships of the last year or so and have been separated from their families for a couple of years, who would only be too glad if they could come over and relieve them. They need not worry. There is lots of room for them here. This old war is not over yet, and it goes on and on this winter, they will be needed more than ever next spring. So if they won't enlist voluntarily, cut out the coaxing, and get them into line the other way. A little soldiering won't hurt anybody, and often does a lot of good. Well, will close. Thank Jack Kelly for me. I sure appreciated the pouch and tobacco. Thanks ever so much for your parcels. They were fine. Hoping business is good. Lots of love to Clara and yourself.  
Your loving son,  
GEORGE.

### CAPTAIN GRANT FIRST CAME HERE IN YEAR 1854

Conducted Dry Goods Business for Many Years on Colborne Street.

WAS FENIAN RAID VETERAN.

In Many Ways Identified Himself With City Activities.

Brief reference was made in the Courier last night to the death in Vancouver of Capt. William Grant, for many years one of the leading dry goods merchants of Brantford. He was born in Cupar, Fifeshire, in 1830, and when 22 years old came to Canada and located in St. John, N.B. Two years later he came to Brantford as a member of the firm of Taylor and Grant, and after the dissolution of the partnership, began in business for himself, finally occupying two stores on Colborne street. For years he commanded the Brantford Highland Volunteer Rifle Co., and saw active service in 1863-4 at Sarnia, shortly after the Albatross raid, and also in 1865 when the Fenian troubles agitated the country.

He was a very active member of the Board of Trade, and devoted many years of laborious work to school affairs as Trustee. In 1890 he was elected unanimously to the position of chairman of the board. It was during his occupancy of the position that the old Central school was burned and the existing structure erected. He was an ardent member of Zion church, and for many years treasurer of that congregation.

He leaves to mourn his loss two sons, David and Albert, and two daughters, Mrs. Oliver, New York, and Miss Grant, Vancouver. Captain Grant came of a military family, and was a staunch son of the Empire. He will be kindly remembered by a large number of the older citizens, who will sincerely regret his demise.

### BAVARIAN KING HAS APOPLEXY

Report from Switzerland Is that His Condition Is Very Serious.

By Special Wire to the Courier. Paris, Aug. 24.—5.30 a.m.—King Ludwig III. of Bavaria has been stricken with apoplexy and his condition is grave, according to a report from Switzerland, 2578 a Roman dispatch to the Petit Parisien.

King Ludwig III. is seventy-one years old. He married the Archduchess Marie Theresia of Austria and succeeded the Bavarian throne in 1913. He was appointed a field marshal of the Bavarian army last year and visited the Emperor's troops on the battle line in France in January last.

BRAVES MAY TRADE EDDIE FITZPATRICK  
Chicago, Aug. 24.—Rumors of discussion in the Boston National League baseball team were given credence here yesterday when it became known that George Stallings came into town from Cincinnati where the Braves are playing the Reds. Stallings made a brief stay here, but will be back Thursday when the Braves open with the Cubs.

From a reliable source it has been learned that Stallings plans to rid his club of certain players. Stallings yesterday offered to trade four Brave players to Chicago for Heinie Zimmerman. The transaction still is pending. Red Smith, Eddie Fitzpatrick, Edgar Collins and Jesse Barnes were the Boston players offered for Zimmerman, and it would not be surprising to see Heinie leave the Braves on Saturday when the series will have been ended.

## G. T. R. DROPPING ON TRESPASSERS

Had 16 Workmen Up At Simcoe—Foreigners Tell Queer Story.

Simcoe, Aug. 22.—(From our own correspondent.)—With Squire Earl off north in search of cooler weather, it was up to R. E. Gunton, J.P., to sit in court to-day on charges against sixteen workmen charged with trespassing on the G. T. R. property. The information were laid by two detectives, John M. Bond and Jas. Holding. Ten of the men, who were Italian workmen at the Cannan factory, were heard at noon appearing without warrant or summons, and the company seemed to have a case against them. The other six were Gamble, John Morrison, James Morrison and Nelson McCrene, and the whole lot were up for an evening session.

H. P. James, K.C., appeared for the accused and succeeded in getting the men all off on suspended sentence without costs. Mr. James contended that though fenced off by a wire fence, the other way round was a street, to which a few steps of Maple, that the company had not legal signs posted, that the loading pens for cattle were on the street, and that frequently the other way round was blocked by cars left by careless trainmen.

But the fun of the evening for accused and audience broke out when Tom Gottenburg, the only one of the foreigners who could speak English, took the stand and swore that he and the nine other Italians were ordered to go down over the company's tracks by a man who stood in front of the entrance to their lodging, to where his mate stood and took their names for trespass. Holding claims that the company own the street south of Union. Mr. Innes informed him that the driveway and platform at the Woodstock station were on private property.

"Front of Archduke Charles Francis." "Near Zabi (southwest of Kolo-meo) on the Bystrizza and in the district of Tartar Pass, several Russian attacks were repulsed. Southeast of Zielona (in the Carpathians west of Delatya) during successful engagements we captured 100 prisoners and two machine guns.

"Front of Field Marshal Von Hindenburg." "In the sector of Terpelelnika-Pieniki, the enemy resumed his attacks against General Von Boehm-Ermolli's army. Aside from a small trench, over which an engagement is still in progress, all the positions are firmly in our hands, despite the Russian sacrifices.

"On the railroad from Kovel to Sarny and near Smolary (on the Stokhod northeast of Kovel) the enemy lost advanced trenches and we captured two machine guns.

"Near Rudka-Chevische (36 miles northeast of Kovel) the Russians again used their utmost efforts to gain ground on the west bank of the Stokhod. They were everywhere completely repulsed, their losses running into the thousands. In addition we captured two officers, 270 men and four machine guns. In the fighting taken part in by the Bavarian cavalry, the Emperor Francis Dragoons again proved themselves worthy of their traditions.

"No overtures have been made to Great Britain, declared Lord Robert Cecil, minister under secretary for foreign affairs in the House of Commons yesterday.

Lord Robert's statement was made in response to a question by Sir James Henry Dalglish, Liberal member for Kirkcaldy burghs in regard to peace rumors and the situation in the Balkans.

"No overtures have been made for peace," said Lord Robert. "There is only one way in which overtures for peace could be made and that is from an enemy to the government of this country. If any such overtures were made the first thing we should do would be to consult with our allies, but no communication of the kind has been made."

As to the Balkans, Lord Robert said the most important factor consisted of the operations from Saloniki. The allies' relation with the new Greek Government, he stated, were thoroughly satisfactory.

By Special Wire to the Courier. Rotterdam, Aug. 24.—Via London—According to information here the American Steamer Owego, regarding a reported submarine attack on which the American Government has inquired of Germany, arrived at this port on August 13 and reported encountering off the Isle of Wight a German submarine which fired upon and twelve shots at her, without wounding, it is declared, some of the shells striking the water very close to her but inflicting no damage.

Captain Charles W. Owego, according to the account given, was first unable to discern the submarine because of a prevailing haze, but he sent a boat with the mate and the ship's papers, after examination of which documents, the Germans allowed the Owego to proceed.

## GERMAN OFFICIAL

By Special Wire to the Courier. Berlin, Aug. 24 (via wireless to Sayville).—Despite their determined attacks in many sections of the Carpathian regions, the Russians have been unable to gain any ground from the Teutonic forces according to the Austrian official statement of August 22. The Russian losses in the fighting along the lower Stokhod, northeast of Kovel, were particularly heavy, says the statement, which follows:

"Front of Archduke Charles Francis." "Near Zabi (southwest of Kolo-meo) on the Bystrizza and in the district of Tartar Pass, several Russian attacks were repulsed.
