

Athens Horticultural Society.

The Horticultural Society of Athens district held their first annual exhibition on Saturday, August 13, at which the following prizes were awarded:

- Asters, White—1st, Mrs. M. C. Arnold; 2nd, Mrs. C. Yates; 3rd, Mrs. E. Soper.
- Asters, Pink—1st, Mrs. D. L. Johnston; 2nd, Mrs. G. E. Judson; 3rd, Mrs. M. C. Arnold.
- Asters, Red—1st, Mrs. E. Taylor; 2nd, Mrs. M. C. Arnold; 3rd, Mrs. D. L. Johnston.
- Asters, Lavender—1st, Mrs. M. C. Arnold; 2nd, Mrs. W. D. Thomas; 3rd, Mrs. E. Soper.
- Asters, Mixed—1st, Mrs. E. Taylor; 2nd, Mrs. W. D. Thomas; 3rd, Mrs. D. L. Johnston.
- Petunias, Double—Rev. V. O. Boyle.
- Petunias, Single—Mrs. E. Taylor, Mrs. E. Eaton, Mrs. C. Yates.
- Pansies—Rev. V. O. Boyle, Mrs. G. W. Beach, Mrs. G. E. Judson.
- Phlox, Drummond—Mrs. M. C. Arnold.
- Zinnias—Mrs. E. Taylor, Mrs. Connelly, Mrs. C. Yates.
- Snappers—W. C. Smith, Mrs. W. B. Connelly.
- Verbenas—Mrs. M. C. Arnold; Mrs. W. B. Connelly.
- Sweet Peas, Mixed—Mrs. W. D. Thomas, Mrs. Soper, Mrs. Hunt.
- Marigolds—Miss Hunt, Rev. V. O. Boyle, Mrs. E. Soper.
- Dahlias, Red—Mrs. C. Yates, Mrs. E. Soper.
- Dahlias, Pink—Mrs. G. E. Judson.
- Dahlias, Mixed—Mrs. M. C. Arnold, C. Willson, Mrs. E. Eaton.
- Gladioli, Yellow—Rev. V. O. Boyle.
- Gladioli, Pink—Mrs. D. L. Johnston, Rev. V. O. Boyle.
- Gladioli, Red—Dr. Bracken, Mrs. E. Eaton.
- Gladioli, Assorted—Rev. V. O. Boyle, Mrs. E. Taylor, Mrs. W. B. Connelly.
- Scabiosas, Assorted—Mrs. E. Taylor, Mrs. M. C. Arnold, Mrs. D. L. Johnston.
- Best Basket of Flowers—Mrs. G. W. Beach, Mrs. J. F. Harte, Mrs. D. L. Johnston.
- Best Collection Annuals—Mrs. D. L. Johnston, Mrs. G. E. Judson.
- Potted Plants.
- Best Colens—Mrs. G. Judson, Mrs. J. F. Harte, Mrs. W. B. Connelly.
- Tuberous Rooted Begonia—Mrs. W. D. Thomas, Mrs. J. D. Johnston, Mrs. W. B. Connelly.

LITERARY SOCIETY OFFICERS ELECTED.

On Monday of this week the pupils of the local High School elected the officers of the High School Literary Society for the coming year. They are:

Hon. Pres.—Mr. A. D. Campbell.
President—Mr. Sam. Hollingsworth.
Vice-Pres.—Mr. Kenneth Hall.
Sec.-Treas.—Miss Muriel Gibson.
Editor—Miss Beverley Purcell.
Poet—Miss Helen Morris.
Historian—Miss Maude Alguire.
Prophet—Mr. Jack Webster.

ANNUAL RURAL SCHOOL FAIR.

The eighth annual Athens School Fair was held on Cross' Grove Saturday last.

Four schools entered into the school parade competition—Soperton, 1st prize; Room 2, Athens, 2nd prize; Oak Leaf S.S. No. 3, 3rd prize; Temperance Lake S.S. No. 1, 4th prize; Room 3, Athens, 5th prize; Room 1, Athens, 6th prize.

The exhibits in the main tent were quite numerous and of a very good quality.

CHARLESTON.

Charleston, Sept. 15.—Mrs. Chas. Slack picked a dish of ripe wild raspberries near her home on Thursday. Owners of radiophones in this section heard the report of the Wells-Firpo fight distinctly on Thursday evening. In one case it was transmitted from the radiophone to the telephone and was heard by a neighbor.

The stone crusher is at work between here and Athens.

H. R. Knowlton, of Athens, is improving his farm property here by painting the house and building a wire fence along the road.

Miss Julia Hudson has returned from Jones' Falls.

On account of the continued wet weather a great many of the farmers have grain still in the field.

W. T. Rogers speaks at Athens on Temperance

That temperance sentiment is strong in this community was evidenced on Sunday evening, the 14th inst., when a representative congregation from town and country-side assembled in the Methodist Church, to listen to Principal Rogers of the Brockville Business College, discuss the prohibition problems of the day. His utterances were sane and logical, void of animosity and invective, yet, delivered with a force which carried conviction.

The speaker said in effect that while in bygone days the temperance question was an individual matter, in these days it is a province wide issue in fact the eyes of all Canada and the whole world are upon Ontario in this her crucial hour. We cannot evade the question it touches art, literature, economics. It is a fight for sobriety against drunkenness, self-denial against greed, safety against danger, home against the liquor traffic which eats like a canker against domestic happiness.

In war-time, the prohibition measure was enacted because it was found that the game of death could only be played in terms of sobriety, so surely, in peace-time, the game of life can best be played in terms of sobriety. Be logically, what is good for war-time is good for peace-time.

Familiarize yourselves with actual conditions, and be prepared to meet the arguments of the liquor interests. They say the drug habit is on the increase, granted, but the greatest increase is found in the wet provinces. They say there is much violation of the Ontario Temperance Act. Yes, there was also of the old licence law. They say there is just as much liquor consumed, statistics prove otherwise. They say the law cannot be enforced. Apply this principle to the Motor Vehicle Act under which eight times as many convictions are made as under the O. T. A., yet we would not think of repealing the speed law, for booze and gasoline are a dangerous mixture. Let us retain the law and strengthen it.

Some say, "more beer, more business," how can this be? If spent in a bar-room, even a government bar-room, how can there be as much to spend in other businesses?

Facts prove that there are more business failures in the province of Quebec than in Ontario. Be not confused by the term "government control", and be induced to become partners in this nefarious traffic, but gird on the armor enter the fight, and tell the government that we want nothing to do with the whiskey business. We must get out on Oct. 23rd and vote it down.

FRANKVILLE.

Mr. and Mrs. John Loucks and Mrs. Addie Hanton have returned from visiting their aunt and cousins in Watertown.

Mr. and Mrs. Harold Eaton have gone to Philadelphia, N.Y., to reside. Mrs. Warren, Smiths Falls, and her daughter, Mrs. Gilroy, of Toronto, have returned to their homes after spending holidays with Dr. and Mrs. Throop.

A number from here attended Ottawa exhibition last week, including Mr. and Mrs. Charles Levrette, Mrs. W. H. Montgomery and niece Viva, Mr. and Mrs. W. G. Richards, Mrs. Addie Hanton, Mr. and Mrs. Parker Richards, Mrs. Stanley Livingston and son Douglas accompanied Mr. and Mrs. W. G. Richards (her parents) home.

Married—On Tuesday eve, Sept. 9, at the parsonage, by Rev. Mr. Townsend, B.A., Georgina L. Mitchell, only daughter of Mr. and Mrs. Jas. Mitchell, to Garfield Eaton, eldest son of Mr. and Mrs. Clark Eaton. They were attended by Kenneth Mitchell and Lila Eaton, brother and sister of the bride and groom. The young couple left on a motor trip, and in leaving received a bounteous shower of rice and good wishes.

Rena Soper is preparing to attend Normal School at Ottawa next week. Rena Coad, of Brockville, and her sister, Mrs. Roy Hill, of Denver, Col., are visiting Mrs. Leslie Soper and other friends.

Last Friday eve the members of the W.M.S. and husbands were invited to the home of Mr. and Mrs. M. Kilborn, Jasper. Owing to the rain a number were prevented from going. Those who did go had a very enjoyable evening.

Dr. and Mrs. Throop are moving into their new home this week.

Roland Dowsley is giving a corn roast this eve to his many friends. A pleasant time is expected.

46th anniversary services will be held in the Methodist church September 21. Rev. John Webster will be the speaker.

OBITUARY

Mrs. Adeline Gilroy Munroe.

"One by one our loyal ones slowly pass beyond the bounds of time." Again the fact of human mortality has been brought to our attention, when one of our oldest and most esteemed residents passed away on Saturday, the 13th inst., in the person of Mrs. Adeline Gilroy Munroe, who has been a citizen for over half a century, and during the years the influence of a consecrated life has left its imprint not only upon our villagers but also upon many students who have spent their impressionable years attending our educational institutions, students who have gone forth to make their lives count in the great world outside.

Deceased, whose maiden name was Miss Adeline Dorway, was born at Smiths Falls sixty-nine years ago, and at an early age became the bride of Mr. E. Gilroy, whose workmanship as a carriage maker was favorably regarded, not only in Farmersville (as our classic village was formerly known) but throughout the country-side as well. He passed away twenty-four years ago, leaving three daughters, Edith, Ethel and Keitha, now Mrs. B. H. Giffen, Brockville, Mrs. F. E. Kirst, Brockville, and Mrs. W. J. Morris, Delta, who now mourn the demise of a devoted mother whose passing out came as a welcome release from prolonged suffering. During the last eight months deceased was a patient at St. Vincent de Paul Hospital, where every effort was made to alleviate her suffering, and where she was cheered by the tender ministrations of her family. But dissolution came on September 13, and the liberated spirit went home.

"Servant of God, well done! Thy glorious warfare is past, The battle's fought, the race is won, And thou art crowned at last."

The funeral service was conducted on Monday afternoon at her late residence, Henry street, by Rev. H. E. Warren, M.A., the local Women's Missionary Society, of which organization deceased was for many years a worthy member, attending and accompanying in a body the funeral cortege.

Her death was a great loss to her affectionate family and to the community.

"Life changes all our thoughts of heaven; At first we think of streets of gold, Of Gates of pearl, and dazzling light, Of shining wings, and robes of white, And things all strange to mortal sight."

But, in the afterward of years, It is a more familiar place, A home, unhurt by sighs and tears, Where waiteth many a well known face.

With passing months it comes more near, It grows more real day by day, Not strange or cold, but very dear—The glass home-land, not far away, Where none are sick, or poor, or lone, The place where we shall find our own.

And as we think of all we knew, Who there have met to part no more, Our longing hearts desire home, too, With all the strife and trouble 'er."

Greenbush

Greenbush, Sept. 9.—George Johnston, Brockville, spent the week-end with his brother, D. Johnston.

Leslie Kerr is spending a few holidays as the guest of his mother, Mrs. E. M. Smith.

Mr. and Mrs. Mort Moore spent Sunday with the latter's parents at Smiths Falls.

Allan Hay, of Rockspring, occupied the pulpit on Sunday evening in the absence of Rev. D. D. Elliott.

Roy Johnston, accompanied by his nephew, Lloyd Kerr, are spending a few days at Ottawa exhibition. Children who returned to high school after the holidays were Marguerite Kerr, Kenneth and Harold Hall, to Athens; Sadie Twa, Irma Olds, Bessie and Wilma White, to the Brockville Collegiate Institute.

Mrs. Donald Smith, who accompanied the Misses Mabel and Gladys Smith home from the west, is visiting friends here.

An enjoyable time was spent at the home of Harry Kennedy on Wednesday evening, September 3, as a farewell before they left the next day for Detroit.

Mrs. Watt and son, George, who spent the summer with Mr. and Mrs. J. Hewitt, left last week for Saskatchewan to visit Mrs. Watt's brother, who is seriously ill.

UNION INSTITUTE AT DELTA HOLDS REGULAR MEETING

Useful Papers Are Read by Members at Gathering.

NEWS OF THE DISTRICT

Mrs. Mariel Stevens Elected Head of Mission Circle at Plum Hollow.

Delta, Sept. 11.—The Junior Institute met on Thursday evening, September 4, at the home of Mrs. Snyder. After the reading of the minutes, letters were read, one from Sick Children's Hospital, Toronto, asking for fruit. Five dollars was voted to be used in this way. Another letter from the Canadian National Institute for the Blind was read. It was decided to send for a catalogue and price list and take orders for baskets. Miss Vera Whitmore was appointed a delegate to the Eastern Ontario Convention held at Ottawa. The report of the Field given showed a balance of approximately \$270, making \$135 for such institute. The roll was called and was responded to by 17 members. "My Favorite Plant or Flower and Why." A helpful paper on "The Planting and Care of Bulbs," prepared by Mrs. D. Brown, was read by Mrs. Morris. A hearty vote of thanks was extended Mrs. Brown for her paper, after which lunch was served by Mrs. Snyder, assisted by the hostesses, Misses Grien and Stevens, and the meeting brought to close.

Among those who attended the Ontario exhibition were Mr. and Mrs. J. Sexton, Mr. and Mrs. S. M. Gaman, Mr. and Mrs. G. Haskins, Mr. and Mrs. W. Bell.

Mr. Billings, of Brockville, who has been visiting in the home of Dr. M. Kelly, returned home on Monday.

Mr. A. Morris, R. Halladay, H. R. Steele and N. Halliday returned on Monday to attend to their business at home.

Mrs. John Horton is caring for her daughter, Mrs. Charles Chant, and two little grandsons, who are ill with scarlet fever.

Mr. and Mrs. W. A. Bell and Mrs. M. J. Bell motored to Ottawa on Sunday and spent a few days attending the exhibition. Mrs. M. J. Bell remaining for a visit.

Mrs. W. J. Morris spent a few days last week in Brockville with her mother, who is very ill.

Mrs. T. Hutchings fell Sunday evening while attending camp meeting, hurting her side badly.

Messrs. Hill and Coleman, Mr. and Mrs. T. Grant, Mrs. Birch, Miss Barlow, Mrs. Sheridan, Misses L. Greene and F. Hough are attending the Ottawa exhibition this week.

Mrs. French has opened her millinery store for the fall season.

S. Morgan, of Winnipeg, is visiting his parents, Mr. and Mrs. A. Morgan.

Mr. and Mrs. A. Crawford, Toronto, are guests of Mr. and Mrs. S. M. Seaman at their cottage.

Jack Wright returned on Monday from Morrisstown where he has been employed for the past few months.

Mrs. H. McElroy has been ill at her home with a gripe.

Miss Olga Huffman is spending a few days with her parents, Mr. and Mrs. J. Huffman.

The Women's Institute met on Thursday afternoon in the town hall. The Women's Mission Circle of the Baptist church met on Tuesday evening at the home of Mrs. Z. McMachen.

Mrs. S. Whaley spent Thursday in Brockville with her brother, G. Godin, who is a patient at the General Hospital.

ELGIN.

Elgin, Sept. 9.—M. E. Ferguson and family are spending a few weeks in camp at Wolfe Lake.

Miss Bella Morris, Ottawa, is enjoying a few holidays at her home here.

Mrs. Joel Halladay is confined to her room through illness.

Mr. and Mrs. D. A. Coon and the Misses Mildred and Marion Coon have returned from a pleasant motor trip to and from Toronto.

Miss Kate Dwyre is spending some time with friends in Ottawa.

Mrs. W. P. Peters and baby, Kingston, are guests of her parents, Mr. and Mrs. W. A. Coon.

Miss Margery Delong was a week-end guest of Miss Mabel Coon.

Mrs. J. R. Bell spent a few days recently in Kingston receiving medical treatment for throat trouble.

Mr. and Mrs. A. L. Campbell attended the Toronto exhibition last week, making the round trip by motor.

Mrs. S. Lake, Miss Nellie Lake, Mr. and Mrs. John Cooke and Miss J. Stevens, Gananoque, were Sunday visitors of Mr. and Mrs. H. S. Brown.

Joel Laisley, Toronto, is visiting T. Johnston and other relatives.

COURAGEOUS WOMEN AT HARLEM DROVE WOLF FROM SHEEP

But This Happened as Long Ago as the Year 1841.

NEWS OF THE DISTRICT

Muskrat Farm is to be Started at Hard Island is the Report.

Harlem, Sept. 10.—Apropos incidents of early times the writer asked W. B. Phelps, of Phillipsville, if he remembered the story his mother told long years ago of his alarm when yet in his high chair. He was watching his father's sheep through the open door when a wolf attacked the flock, chasing them towards the barn via a lane which ran by the door. The little lad, only three years old, cried "the wolf, the wolf after the nans." W. B.'s mother caught the broom, a lady cousin, who was visiting, a long-handled frying pan and a Mrs. Davidson, a very old lady, known as Aunt Dolly, seized a handy club from the wood pile and met the wolf after the frightened sheep had passed the door. The wolf, doubtless thinking discretion the better part of valour, slunk away to his lair. Aunt Dolly was in her girlhood days. Dorothy Phelps had come to what is now Phillipsville from New Hampshire with the United Empire Loyalists. W. B. does not remember what was said but he distinctly remembers seeing the wolf and says that it was in 1841.

Those from Harlem who attended the service at the Chantry Methodist Church on Sunday had the pleasure of hearing a solo rendered by Miss Eleanor Elliott, scarcely in her teens but a sweet little singer.

Six young men went from Harlem to help harvest the wheat crop in the Canadian West.

W. W. Phelps and H. Howard, of Delta, paid this place a business visit on Monday.

J. A. Eyre and Mrs. Eyre, of Toronto, while visiting friends in Leeds, spent the day with the two families of Phelps and Howard.

Very glad to be able to report that Mark Chant, the nine-year-old son of John Chant, is slightly better.

John Irwin, "The Village Blacksmith," had the misfortune to break both bones of his left forearm but is doing well now. Gordon Macdonald is taking care of the blacksmith shop during the convalescence of Mr. Irwin.

The local Nimrods bagged their share of ducks upon the opening of the season.

E. E. Hutchings is receiving the congratulations of his many friends Hutchings to her new home amongst upon his marriage. All welcome Mrs. the people of Harlem and vicinity.

School re-opened here last week with the former teacher, Miss Ella Dwyre, in charge. Miss Dwyre gave every satisfaction in the past.

Miss Marjorie Gile and brother, Master Murton Gile, have returned to the Athens High School.

Mr. and Mrs. E. E. Campbell and son, Master Edwin, and Miss Velma Dancy motored to Toronto, where they spent a week attending the exhibition and visiting the latter's parents, Mr. and Mrs. Dancy. Mr. and Mrs. J. L. Chant also attended the Toronto Exhibition.

J. W. Chant spent last week in Toronto visiting at the home of his son, Harold Chant.

Mrs. E. M. Derbyshire and son, Master Dan, spent last week visiting her sister and husband, Mr. and Mrs. H. K. Sherwood, at Smiths Falls.

Miss L. Gallagher, of Newboro, paid a recent visit to relatives here.

MAYNARD PEOPLE PAID A VISIT TO FARMING SCHOOL

Motored to Inspect Kemptville Agricultural Grounds.

NEWS NOTES OF DISTRICT

Dance Given at North Augusta by Women's Institute a Success.

Maynard, Sept. 8.—The Women's Institute held a motor picnic to the Kemptville Agricultural School on August 27. The day was an ideal one and ten automobile loads availed themselves of the opportunity and enjoyed the trip, 34 women, 11 men and seven children. All were escorted around the grounds and buildings, where seats and tables were provided for the visitors to eat their luncheon. The guide regretted not having known of their visit sooner as they would have been served with a hot dinner. The visitors viewed the poultry, bees, stock, orchards and gardens, and were greatly pleased with the day's outing. Photographs of the company were taken after which all returned to their homes.

Mr. and Mrs. Fred Barton, of Merrickville, were the guests of their daughter, Mrs. Howard Quartus, over the week-end.

Rev. J. H. Murray spent a few days last week with friends in Delta.

Mrs. Eliza Ann Perrin has been the guest of her son, Delbert, of Brockville, for the last week.

Miss Irene Robinson went to Uxbridge on the 2nd, where she will attend high school.

The little son of Mr. and Mrs. E. L. Perrin, who received injuries last week by falling out of a wagon when the horses were running away, is improving nicely.

The annual school fair will be held on the 18th at Dalmore's school grounds. The W. I. will have charge of a lunch and ice cream booth.

Subscribe for the Reporter.

ELOIDA

Threshing is the order of the day. Mr. A. Henderson and Mrs. J. Wiltse received the sad news of their nephew Mr. Eldon Lindsay, 16 years of age who was instantly killed, being run over by a truck on Sunday morning last.

Mrs. George Cowles is spending some time with her daughter Mrs. W. J. Moore. We are sorry to learn she is not enjoying very good health.

A number from here attended the sale at W. T. Yates on Wed. last.

Mrs. G. G. Richardson has returned home to Kingston after spending the summer with her parents Mr. and Mrs. A. Henderson.

Mr. and Mrs. Lester Kilborne, Mrs. J. Wiltse, Mrs. M. Ducolon and Mr. A. Henderson motored to Stirling on Mon. and attended the funeral of Eldon Lindsay which took place on Tues. at Sydenham.

HARRY BENNETT, Character Singer and Comedian

Will give a Concert in the

Town Hall : Athens

Thursday, September 25

at 8 p. m.

Under the Auspices of the Boys' Athletic Society of the Athens High School

Admission : : 50c
Rush Seats : : 35c

Athens Horticultural Society.

The Horticultural Society of Athens district held their first annual exhibition on Saturday, August 13, at which the following prizes were awarded:

Asters, White—1st, Mrs. M. C. Arnold; 2nd, Mrs. C. Yates; 3rd, Mrs. E. Soper.

Asters, Pink—1st, Mrs. D. L. Johnston; 2nd, Mrs. G. E. Judson; 3rd, Mrs. M. C. Arnold.

Asters, Red—1st, Mrs. E. Taylor; 2nd, Mrs. M. C. Arnold; 3rd, Mrs. D. L. Johnston.

Asters, Lavender—1st, Mrs. M. C. Arnold; 2nd, Mrs. W. D. Thomas; 3rd, Mrs. E. Soper.

Asters, Mixed—1st, Mrs. E. Taylor; 2nd, Mrs. W. D. Thomas; 3rd, Mrs. D. L. Johnston.

Petunias, Double — Rev. V. O. Boyle.

Petunias, Single—Mrs. E. Taylor, Mrs. E. Eaton, Mrs. C. Yates.

Pansies—Rev. V. O. Boyle, Mrs. G. W. Beach, Mrs. G. E. Judson.

Phlox, Drummondii—Mrs. M. C. Arnold.

Zinnias—Mrs. E. Taylor, Mrs. Connerty, Mrs. C. Yates.

Snardragons—W. C. Smith, Mrs. W. B. Connerty.

Verbena—Mrs. M. C. Arnold, Mrs. W. B. Connerty.

Sweet Peas, Mixed—Mrs. W. D. Thomas, Mrs. Soper, Mrs. Hunt.

Marigolds—Miss Hunt, Rev. V. O. Boyle, Mrs. E. Soper.

Dahlias, Red—Mrs. C. Yates, Mrs. E. Soper.

Dahlias, Pink—Mrs. G. E. Judson.

Dahlias, Mixed—Mrs. M. C. Arnold, C. Willson, Mrs. E. Eaton.

Gladioli, Yellow—Rev. V. O. Boyle.

Gladioli, Pink—Mrs. D. L. Johnston, Rev. V. O. Boyle.

Gladioli, Red—Dr. Bracken, Mrs. E. Eaton.

Gladioli, Assorted—Rev. V. O. Boyle, Mrs. E. Taylor, Mrs. W. B. Connerty.

Scabiosis, Assorted—Mrs. E. Taylor, Mrs. M. C. Arnold, Mrs. D. L. Johnston.

Best Basket of Flowers—Mrs. G. W. Beach, Mrs. J. F. Harte, Mrs. D. L. Johnston.

Best Collection Annuals—Mrs. D. L. Johnston, Mrs. G. E. Judson.

Potted Plants.

Best Coleus—Mrs. G. Judson, Mrs. J. F. Harte, Mrs. W. B. Connerty.

Tuberous Rooted Begonia—Mrs. W. D. Thomas, Mrs. J. D. Johnston, Mrs. W. B. Connerty.

OBITUARY

Mrs. Adeline Gilroy Munroe.

"One by one our loyal ones slowly pass beyond the bounds of time." Again the fact of human mortality has been brought to our attention, when one of our oldest and most esteemed residents passed away on Saturday, the 13th inst., in the person of Mrs. Adeline Gilroy Munroe, who has been a citizen for over half a century, and during the years the influence of a consecrated life has left its imprint not only upon our villagers but also upon many students who have spent their impressionable years attending our educational institutions, students who have gone forth to make their lives count in the great world outside.

Deceased, whose maiden name was Miss Adeline Dorway, was born at Smiths Falls sixty-nine years ago, and at an early age became the bride of Mr. E. Gilroy, whose workmanship as a carriage maker was favorably regarded, not only in Farmersville (as our classic village was formerly known) but throughout the country-side as well. He passed away twenty-four years ago, leaving three daughters, Edith, Ethel and Keitha, now Mrs. B. H. Giffen, Brockville, Mrs. F. E. Kirst, Brockville, and Mrs. W. J. Morris, Delta, who now mourn the demise of a devoted mother whose passing out came as a welcome release from prolonged suffering. During the last eight months deceased was a patient at St. Vincent de Paul Hospital, where every effort was made to alleviate her suffering, and where she was cheered by the tender ministrations of her family. But dissolution came on September 13, and the liberated spirit went home.

"Servant of God, well done! Thy glorious warfare is past, The battle's fought, the race is won, And thou art crowned at last."

The funeral service was conducted on Monday afternoon at her late residence, Henry street, by Rev. H. E. Warren, M.A., of the local Women's Missionary Society, of which organization deceased was for many years a worthy member, attending and accompanying in a body, the funeral cortege to Ottawa on Monday to attend the funeral services held throughout the community.

"Life changes all our thoughts of heaven; At first we think of streets of gold, Of Gates of pearl, and dazzling light, Of shining wings, and robes of white, And things all strange to mortal sight.

But, in the afterward of years, It is a more familiar place, A home, untroubled by sighs and tears, Where waiteth many a well known face. With passing months it comes more near, It grows more real day by day, Not strange or cold, but very dear—The glad home-land, not far away, Where none are sick, or poor, or lone, The place where we shall find our own.

And as we think of all we knew, Who there have met to part no more, Our longing hearts desire home, too, With all the strife and trouble o'er."

Greenbush

Greenbush, Sept. 9.—George Johnston, Brockville, spent the week-end with his brother, D. Johnston.

Leslie Kerr is spending a few holidays as the guest of his mother, Mrs. E. M. Smith.

Mr. and Mrs. Mort Moore spent Sunday with the latter's parents at Smiths Falls.

Allan Hay, of Rockspring, occupied the pulpit on Sunday evening in the absence of Rev. D. D. Elliott.

Roy Johnston, accompanied by his nephew, Lloyd Kerr, are spending a few days at Ottawa exhibition.

Children who returned to high school after the holidays were Marguerite Kerr, Kenneth and Harold Hall, to Athens; Sadie Twa, Irma Olds, Bessie and Wilma White, to the Brockville Collegiate Institute.

Mrs. Donald Smith, who accompanied the Misses Mabel and Gladys Smith home from the west, is visiting friends here.

An enjoyable time was spent at the home of Harry Kennedy on Wednesday evening, September 3, as a farewell before they left the next day for Detroit.

Mrs. Watt and son, George, who spent the summer with Mr. and Mrs. J. Hewitt, left last week for Saskatchewan to visit Mrs. Watt's brother, who is seriously ill.

UNION INSTITUTE AT DELTA HOLDS REGULAR MEETING

Useful Papers Are Read by Members at Gathering.

NEWS OF THE DISTRICT

Mrs. Mariel Stevens Elected Head of Mission Circle at Phum Hollow.

Delta, Sept. 11.—The Junior Institute met on Thursday evening, September 4, at the home of Mrs. Snyder. After the reading of the minutes, letters were read, one from Sick Children's Hospital, Toronto, asking for fruit. Five dollars was voted to be used in this way. Another letter from the Canadian National Institute for the Blind was read. It was decided to send for a catalogue and price list and take orders for baskets. Miss Vera Whitmore was appointed a delegate to Eastern Ontario Convention held at Ottawa. The report of the Field was given showing a balance of approximately \$270, making \$135 for each institute. The roll was called and was responded to by 17 members. "My Favorite Plant or Flower and Why." A helpful paper on "The Planting and Care of Bulbs," prepared by Mrs. D. Brown, was read. Miss Morris. A hearty vote of thanks was extended Mrs. Brown. Her paper, after which lunch was served by Mrs. Snyder, assisted by the hostesses, Misses Green and Stevens, and the meeting brought to close.

Among those who attended the previous exhibition were Mr. and Mrs. J. Sexton, Mr. and Mrs. S. M. Gaman, Mr. and Mrs. G. Haskins, Mr. and Mrs. W. Bell.

E. Billings, of Brockville, who has been visiting in the home of Dr. M. Kelly, returned home on Monday.

A. A. Morris, R. Halladay, H. G. R. Steele and N. Halliday were in Ottawa on Monday to attend the exhibition.

Mrs. John Horton is caring for her daughter, Mrs. Charles Chant, and two little grandsons, who are ill with scarlet fever.

Mr. and Mrs. W. A. Bell and Mrs. M. J. Bell motored to Ottawa on Sunday and spent a few days attending the exhibition. Mrs. M. J. Bell remaining for a visit.

Mrs. W. J. Morris spent a few days last week in Brockville with her mother, who is very ill.

Mrs. T. Hutchings left Sunday evening while attending camp meeting, hurting her side badly.

Messrs. Hill and Coleman, Mr. and Mrs. T. Grant, Mrs. Birch, Miss Barlow, Mrs. Sheridan, Misses L. Greene and F. Hough are attending the Ottawa exhibition this week.

Mrs. French has opened her millinery store for the fall season.

S. Morgan, of Winnipeg, is visiting his parents, Mr. and Mrs. A. Morgan.

Mr. and Mrs. A. Crawford, Toronto, are guests of Mr. and Mrs. S. M. Seaman at their cottage.

Jack Wright returned on Monday from Morrisstown where he has been employed for the past few months.

Mrs. H. McElroy has been ill at her home with la grippe.

Miss Olga Huffman is spending a few days with her parents, Mr. and Mrs. J. Huffman.

The Women's Institute met on Thursday afternoon in the town hall. The Women's Mission Circle of the Baptist church met on Tuesday evening at the home of Mrs. J. McEachern.

Mrs. S. Whaley spent Thursday in Brockville with her brother, G. Godin, who is a patient at the General Hospital.

ELGIN.

Elgin, Sept. 9.—M. E. Ferguson and family are spending a few weeks in camp at Wolfe Lake.

Miss Bella Morris, Ottawa, is enjoying a few holidays at her home here.

Mrs. Joel Halladay is confined to her room through illness.

Mr. and Mrs. D. A. Coon and the Misses Mildred and Marion Coon have returned from a pleasant motor trip to and from Toronto.

Miss Kate Dwyre is spending some time with friends in Ottawa.

Mrs. W. P. Peters and baby, Kingston, are guests of her parents, Mr. and Mrs. W. A. Coon.

Miss Margery Delong was a weekend guest of Miss Mabel Coon.

Mrs. J. R. Bell spent a few days recently in Kingston receiving medical treatment for throat trouble. Mr. and Mrs. A. L. Campbell attended the Toronto exhibition last week, making the round trip by motor.

Mrs. S. Lake, Miss Nellie Lake, Mr. and Mrs. John Cooke and Miss J. Stevens, Gananoque, were Sunday visitors of Mr. and Mrs. H. S. Brown. Joel Laishev, Toronto, is visiting T. Johnston and other relatives.

COURAGEOUS WOMEN AT HARLEM DROVE WOLF FROM SHEEP

But This Happened as Long Ago as the Year 1841.

NEWS OF THE DISTRICT

Muskrat Farm is to be Started at Hard Island is the Report.

Harlem, Sept. 10.—Apropos incidents of early times the writer asked W. B. Phelps, of Philippsville, if he remembered the story his mother told him in his high chair. He was watching his father's sheep through the open door when a wolf attacked the flock, chasing them towards the barn via a lane which ran by the door. The little lad, only three years old, cried "the wolf, the wolf after the nans." W. B.'s mother caught the broom, a lady cousin, who was visiting, a long-handled frying pan and a Mrs. Davidson, a very old lady, known as Aunt Dolly, seized a handy club from the wood pile and met the wolf after the frightened sheep had passed the door. The wolf, doubtless thinking discretion the better part of valour, slunk away to his lair. Aunt Dolly was in her girlhood days. Dorothy Phelps had come to what is now Philippsville from New Hampshire with the United Empire Loyalists. W. B. does not remember what was said but he distinctly remembers seeing the wolf and says that it was in 1841.

Those from Harlem who attended the service at the Chantry Methodist Church on Sunday had the pleasure of hearing a solo rendered by Miss Eleanor Elliott, scarcely in her teens but a sweet little singer.

Six young men went from Harlem to help harvest the wheat crop in the Canadian West.

W. W. Phelps and H. Howard, of Delta, paid this place a business visit on Monday.

J. A. Eyre and Mrs. Eyre, of Toronto, while visiting friends in Leeds spent a day with the two families of the same name who live here.

Very glad to be able to report that Mark Chant, the nine-year-old son of John Chant, is slightly better.

John Irwin, "The Village Blacksmith," had the misfortune to break both bones of his left forearm but is doing well now. Gordon Macdonald is taking care of the blacksmith shop during the convalescence of Mr. Irwin.

The local Nimrods bagged their share of ducks upon the opening of the season.

E. E. Hutchings is receiving the congratulations of his many friends Hutchings to her new home amongst upon his marriage. All welcome Mrs. the people of Harlem and vicinity.

School re-opened here last week with the former teacher, Miss Ella Dwyre, in charge. Miss Dwyre gave every satisfaction in the past.

Miss Marjorie Gile and brother, Master Murton Gile, have returned to the Athens High School.

Mr. and Mrs. E. E. Campbell and son, Master Edwin, and Miss Velma Dancy motored to Toronto, where they spent a week attending the exhibition and visiting the latter's parents, Mr. and Mrs. Dancy. Mr. and Mrs. J. L. Chant also attended the Toronto Exhibition.

J. W. Chant spent last week in Toronto visiting at the home of his son, Harold Chant.

Mrs. E. M. Derbyshire and son, Master Dan, spent last week visiting her sister and husband, Mr. and Mrs. H. K. Sherwood, at Smiths Falls.

Miss L. Gallagher, of Newboro, paid a recent visit to relatives here.

MAYNARD PEOPLE PAID A VISIT TO FARMING SCHOOL

Motored to Inspect Kemptville Agricultural Grounds.

NEWS NOTES OF DISTRICT

Dance Given at North Augusta by Women's Institute a Success.

Maynard, Sept. 8.—The Women's Institute held a motor picnic to the Kemptville Agricultural School on August 27. The day was an ideal one and ten automobile loads availed themselves of the opportunity and enjoyed the trip, 34 women, 11 men and seven children. All were escorted around the grounds and buildings and invited to the main building, where seats and tables were provided for the visitors to eat their luncheon. The guide regretted not having known of their visit sooner as they would have been served with a hot dinner. The visitors viewed the poultry, bees, stock, orchards and gardens, and were greatly pleased with the day's outing. Photographs of the company were taken after which all returned to their homes.

Mr. and Mrs. Fred Barton, of Merrickville, were the guests of their daughter, Mrs. Howard Quartus, over the week-end.

Rev. J. H. Murray spent a few days last week with friends in Delta.

Mrs. Eliza Ann Perrin has been the guest of her son, Delbert, of Brockville, for the last week.

Miss Irene Robinson went to Uxbridge on the 2nd, where she will attend high school.

The little son of Mr. and Mrs. E. L. Perrin, who received injuries last week by falling out of a wagon when the horses were running away, is improving nicely.

The annual school fair will be held on the 18th at Dalmeage's school grounds. The W. I. will have charge of a lunch and ice cream booth.

ELOIDA

Threshing is the order of the day. Mr. A. Henderson and Mrs. J. Wiltse received the sad news of their nephew Mr. Eldon Lindsay, 16 years of age who was instantly killed, being run over by a truck on Sunday morning last.

Mrs. George Cowles is spending some time with her daughter Mrs. W. J. Moore. We are sorry to learn she is not enjoying very good health.

A number from here attended the sale at W. T. Yates on Wed. last.

Mrs. G. G. Richardson has returned home to Kingston after spending the summer with her parents Mr. and Mrs. A. Henderson.

Mr. and Mrs. Lester Kilborne, Mrs. J. Wiltse, Mrs. M. Duculon and Mr. A. Henderson motored to Stirling on Mon. and attended the funeral of Eldon Lindsay which took place on Tues. at Sydenham.

About the House

MAKE A COMFORTABLE LAWN SWING.

A sliding bed with a mattress in two parts, was discarded as a sleeping arrangement because something went wrong with one of the legs, so that the bed when stretched out, would not stand satisfactorily.

Several of the family were for calling the junk man, but a more ingenious member of the group saw possibilities in the old sliding bed.

It was taken apart so that there were two good stout springs with iron frames. Stout chains were purchased and attached, and the hammock swing suspended from the porch ceiling. The mattress was covered with cretonne, with a ruffle on either side, and pillows to match made.

The seat was so comfortable that it was always in demand. The other part was taken and turned upside down so that the erstwhile legs formed four posts, three sides of which were covered with stout khaki cloth of tent weight. This made a back, a head, and a foot. This part of the mattress was covered with khaki to match, with a straight valance in front. Stout chains hung the swing at the farther end of the porch, and bright cretonne cushions finished the article satisfactorily, so that it was even better than the first one.

The expense entailed for the two verandah swings was a mere trifle, as cretonne was used which was in the house, and only the khaki cloth and heavy chain had to be bought. True thrift consists in making good use of what we have, so as to increase our comfort, well-being and pleasure, at the same time conserving our resources.

THE ANSWER.

What makes a home? the timber and the bricks?
Foundations strong? the style of roof and room?
The furnishings within? the builder's tricks
Of making wood so many forms assume?
Homes are not made of wood or stone
Nor all the things that men can make thereof;
What makes a home where joy and faith are known,
Where happiness and peace abide; is—love!

—Arthur W. Peach.

KEEPING HOUSE FOR SLEEPING BABIES.

A young woman writes that she has been able to earn a considerable amount of pin money by staying with her neighbors' babies on evenings when the parents wished to be absent from the house.

Increase the feeding value of all fodders by cutting them with the Climax Cutter. The Climax cuts dry straw or hay just as well as green corn. It is cheaper to run, requiring less power. Is built extra strong, costs least for repairs. Tell us what power you have and let us send you catalogue and prices. Save money by buying one of these machines now.

One Up For Wembley

Romance in the Gorgeous Setting of the Great Exhibition that links East and West and North and South.

PART II.

A couple of revelling youths passed by. One was singing:

"Give me the moonlight,
Give me the girl,
And leave the rest to me—"

Jim glanced at the youths malcontently. They had disturbed his sweet melancholy. He was about to rise and leave the Exhibition when he saw something that chained him to the chair. Elsie was approaching on the path, and, by her side, was Mr. Manson.

Mr. Manson was in evening dress, and something in his manner made Jim Franklin think that his late chief had been doing himself rather well at dinner. He stopped and bent over Elsie, saying something with a fatuous laugh. Jim saw Elsie draw back from him, startled. Then he sat up, thrusting his pipe into his pocket. The side path was deserted save for the girl and Mr. Manson.

Suddenly Jim Franklin bounded to his feet. Mr. Manson had caught Elsie in his arms and was kissing her, despite her struggles and stifled cries. "Don't be a little fool!" Jim heard Mr. Manson say. "There's nobody about."

Then Mr. Manson felt a strong hand on the collar of his coat and found himself being violently shaken.

"That's where you're wrong!" an angry voice said in his ear. "There is somebody about, and he's going to see about you!"

What happened next happened so suddenly that Mr. Manson, despite his twelve stones weight, felt himself as a child in arms. For a few seconds he had a wild impression of being on the scenic railway. Then he came to the conclusion that it was the water-chute as he fell with a splash into the lake where Jim had flung him.

For a moment Jim watched his victim as he crawled out, white with rage and fear, and then he turned to Elsie.

"I didn't know we were in the Amusement Park," he said quietly. "Now shall we go to Burmah or India?"

"Back to the Lucullus, please!" panted Elsie. "My uncle is there. He has been entertaining the office managers to dinner. Mr. Manson was there, but when he met me I didn't know he was the sort he is. He's a cad!" She rubbed her lips furiously. "Let's forget him! What have you seen this evening?"

"Canada. I was two hours in the lake."

"You found it so interesting, didn't you?" "I was waiting for you. You see, you might be in Canada to-night. Miss Payne—Elsie—if I went to Canada, really and truly and made good, would you come out to me?"

She glanced quickly at him and learnt what she had known all along. He was very good to look at and he was desperately in earnest.

"I think I should like Canada very much," she said softly, "or India, or Burmah, or any place where you were!"

It was very late when they reached the restaurant where Elsie had to meet her uncle, but the stout, bullet-headed man, whom Jim recognized as Mr. Boulter, of the Boulter Line, was in great good humor.

"Hallo, Elsie! Changed your partner? Evening, sir! You're in the Freight Department in London, aren't you?"

Mr. Boulter prided himself on his memory for faces.

"I was, sir!"

"Have you left, then? What are you doing now?"

"Nothing, sir. I haven't had time to fix up anything yet. You see, I only got the sack to-day."

"The sack! What on earth for?"

"I'm afraid that I'm no use in the office, sir!"

"It isn't that at all, uncle," put in Elsie. "It's just because Mr. Manson had a down on him, and Mr. Manson is a cad! Jim threw him in the lake to-night, and serve him right, too!"

Elsie's cheeks were flaming. Mr. Boulter's eyes twinkled.

"And who might Jim be?" he asked. "Mr. Franklin, then. He's been my friend ever since you let me be your secretary. And Mr. Manson is a horrible man; and Jim is going to Canada, and I shall go there, too, later on, and—so there!"

Elsie's eyes shone defiance at the chairman of the Boulter Steamship Line, who chuckled, feeling at peace with all mankind—all except Mr. Manson, who had upset his favorite niece.

"Want to go to Canada, do you?" he asked Jim. "And so you shall. And to Burmah and to India and Australia, as well."

Jim Franklin glanced at the facades of the buildings before him and frowned.

NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three years' course of training to young women, having the required education, and desirous of becoming nurses. This Hospital has adopted the eight-hour system. The pupils receive uniforms of the School, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent.

The girl had many demands upon her time. Besides keeping house for her invalid father and her three younger brothers she was attending a nearby university. The family income was limited; but so long as the evenings were occupied with study and her days filled with work she could not earn in any of the usual ways the extra money that she needed.

In planning her scheme she realized that she could study at a neighbor's house as well as at her own—better in fact, for there she would not have three high-spirited brothers shouting over their games or banging the piano. Moreover, she could be earning something while she studied.

She wrote notes to all the young married couples in the neighborhood who had small children,—to those she did not know as well as to her friends,—saying that all her evenings were free, and that she should be glad to stay in the house with the baby while the parents went out. She added that for that service her charge would be fifty cents from seven o'clock until eleven, and seventy-five cents for a longer evening.

The plan succeeded from the first. Most of the young married people in the community were of modest means and did not keep a maid. They were glad to find an intelligent and responsible person to stay in the house when they wished to go out.

"Of course the baby never wakes up, but if he should Susan would know what to do," was the way they expressed their approval of the scheme.

The business soon grew to satisfying proportions. The girl's friends quickly told others of the plan, and in a short time the project of keeping house for sleeping babies was bringing an income of three, four, and sometimes even five, dollars a week.

THEY'LL TASTE GOOD WHEN THE SNOW FLIES.

Plum Conserve.—6 lbs. plums, 2 sliced oranges, 1½ lbs. large seeded raisins, ½ lb. nut meats, 3 lbs. sugar.

Quarter the oranges and slice the quarters and let stand in water overnight. Cook the plums until soft and press the pulp through a sieve. Cook oranges until tender and add raisins and sugar and cook until the consistency of marmalade. Add nuts five minutes before placing in sterilized jars.

Fruit Salad Dressing.—1 tsp. salt, 2 tsp. flour, 1 tsp. melted butter, 1 egg yolk, ½ cup cream, ½ cup hot syrup from sweet pickled peaches or pears. Mix dry ingredients and add the beaten egg yolk, syrup and butter slowly. Stir over boiling water until the mixture thickens. When cool add cream, whipped or plain.

Gingered Pears.—1 lb. pears, ½ lb. sugar, 1 tbs. preserved ginger (or ground ginger tied in cloth), 1 lemon, 1 cup water.

Cut pears in quarters, then slice in thin slices, put in granite kettle and cover with sugar. Let stand all night. In the morning cut lemons in small pieces, take all seeds out. Bring to the boiling point and let simmer for two hours, putting in the ginger, which has been sliced thinly, just before removing from the fire. If cooked to the consistency of jam, gingered pears may be kept in open jars.

HANDY PIECE SHELF.

I think that mothers with many garments to mend will appreciate this: In my bathroom, over the door is a foot-wide shelf. On this are three or four-pound cracker boxes. I like these best, but any large strong boxes will do. There are marked on the front with the kind of pieces they contain, as "White," "Blue," "Plaids," "Gray," "Underwear," "Linings," "Wool," etc. Each kind is rolled and tied securely before putting away. Sometimes a box will hold two kinds, one in each side of the box and the box has two names on the front, one under the other.

When I want to patch my blue apron, or little daughters plaid dress, the lining of the good man's coat, or big boy's trousers, I can find the necessary materials much quicker than when I kept them in a "piece-bag," and what I wanted invariably seemed to be at the bottom.—Mrs. M. N.

Most Expensive Chair.

The most expensive chair in existence belongs to the pope. It is quite modern, and was made to the order of an American banker. It is of solid silver, beautifully chased, and is said to have cost something like \$60,000.

For Sore Feet—Minard's Liniment.

Just Spikes!

"Well, now we're settled down, the tent's set up, the damage off, the kettle on the boil, Let's paint a sign and nail it on this tree. So everything shall be as ruled by Hoyle."

On which they took a box lid and some spikes And daubed upon the lid 'CAMP SANS SOUCL.' (They split the lid for kindling ere they left; The spikes were left embedded in the tree).

Time winged its flight. One day two tongue-tied men Stood hesitant before a garden gate, And coughed, and cleared their throats, and then one said, "We bring bad news, I guess, an' I sure hate To tell yuh, Missus, but—an hour ago, While we was cuttin' spruce down at the Mill— The saw got busted on some rusty spikes Sunk in the log. A splinter hit your Bill Who happened to be passin' at the time He's injured pretty bad. 'N fact it's said— (He gulped and mopped his brow and looked away) "Dear God! Don't say he's DEAD." "Yes, mum, he's dead."

—W.H.C.

Hard-boiled, No Doubt.

"His wife says he's hard-boiled." "She ought to know—he keeps him in hot water all the time."

SOME USES FOR DISCARDED FARM PAPERS.

We subscribe to a large number of farm and dairy papers and magazines. After reading, my husband files some of these, and out of others cuts material he wishes to save. Then they are left for me to dispose of.

I save and file various household articles and recipes for my own use, and then cut out any large pictures of animals. I find these in the advertisements and in the illustrated articles. I save pictures of cows and bulls of the different breeds, poultry, dogs, horses and other live stock. Some are in color, but most of them are not. They are all put into a box and saved until needed. Around Christmas time I purchase a quantity of red and black cambric and make scrap-books for gifts.

Cutting through triple thickness, I cut a number of pieces of cambric,

"I am afraid, sir," he said stiffly, "I am not in the mood to appreciate your jest to-night. To-morrow, perhaps—"

"It is no jest. If you will take on the job as my travelling agent, you can sail on the 16th on the Boulter's Lock for Singapore. You will get further instructions from our office there."

"Uncle!" The head of the Boulter's Line company found a white arm entwined with his.

"Can I go, too? I mean—"

"Good gracious, girl! What do you mean?"

"I mean that it would be an awfully good way of spending a honeymoon!" Mr. Boulter gazed at Jim shrewdly, and then laughed—a harsh cackle at first, then a roar of enjoyment.

"I can't tell whether it's the lights or the music or the dinner!" he cried; "but I'll let her go with you, boy! I wouldn't do it, mind, except that I have seen a lot of life, and I've only to look at a man to know if he's got the right stuff in him, and—and I can see in your eyes that you'll be good to this little girl!" Then, with a jerk, he became the business man again.

"Now, push off, both of you, and have a look at the Palace of Industry, for you'll have to get busy right quick!"

Jim Franklin declares that when he dies the name "Wembley" will be found written on his heart!

(The End.)

Why Glued Joints Fail.

Every housekeeper has had the experience, to her deep regret, of her furniture loosening up at the joints, due to changes of temperature and atmospheric conditions. In many cases valuable furniture has lost its usefulness and been discarded for this reason.

This condition, however, is not always due to the above causes, it would appear. There are numerous qualities of glue, or adhesives, as they are technically called, and the causes of failure of glued joints may, in many cases be due to the use of an unsuitable grade. The glue may have been the most expensive procurable, but not adaptable for the purpose for which it was used.

This situation has influenced the Forest Products Laboratories of the United States to conduct extensive tests for different purposes. Some twenty-six commercial adhesives of the hide and casein classes have been investigated, the work including both mechanical and physical determinations. Ageing tests to secure information on the permanency of the adhesives were also undertaken.

If the Forest Products Laboratories are able to secure results that will relieve the worries of the home makers of Canada regarding the coming apart of their furniture at the glued joints they will have earned a full measure of appreciation and at the same time will be in a position to supply invaluable information to furniture manufacturers.

Out in the Fields.

The little cares that fretted me, I lost them yesterday, Among the fields above the sea, Among the winds at play; Among the lowing herds, The rustling of the trees, Among the singing birds, The humming of the bees.

The fears of what may come to pass, I cast them all away, Among the clover-scented grass, Among the new-mown hay, Among the husking of the corn, Where drowsy poppies nod, Where ill thoughts die and good are born Out in the fields with God.

—Louise Imogen Guiney.

The Grail.

Not the white hands and smooth, but the hands with broken nails; Not the unfurrowed brow with its lines of grief unwritten; But the cheek that endeavor pales, And the lip that in fear is bitten; Not the calm of the cloister, cool And aloof from the populace, But the tears of the broken fool In the dung of the market place, And the light of the laborer's fire On the weary workman's face Shall touch the grail of beauty; there God drinks from human earthenware. —Anory Hare.

Nothing But the Truth.

James has just been engaged to assist the milkman. "Now," said his master to him on the first morning, "do you see what I'm doing?" "Yes, sir," replied James. "You're a-pouring water into the milk!" "No, I'm not, James," was the answer. "You're wrong. I'm a-pouring milk into the water. So if anyone asks you if I put water into the milk, you be sure and tell 'em 'No.' Allus stick to the truth, James, and you'll get on in life. Cheatin' is bad enough, but lyin's awful!"

WRIGLEYS

Chew it after every meal
It stimulates appetite and aids digestion. It makes your food do you more good. Note how it relieves that stuffy feeling after hearty eating.

Whitens teeth, sweetens breath and lifts the goody that's in you.

twenty-four by twelve inches. About five of these are stitched by machine down the centre three times to insure strength. This makes a square book of ten pages, but, of course, the books may be made any size or thickness that is desired. The edges may be pinked to prevent raveling, or left straight. The pictures are pasted in with common flour and water paste.

Some books are all cows, some have a different page for each type of animal, while others include barns with sometimes an attractive farm scene. At any rate, I try to group the pictures well.

Little children are always delighted with these books and their making affords many a rainy day occupation for older children. It is a good plan to keep an extra one on hand to take to a sick child.

I also keep only magazines hanging behind the stove. It is most helpful for wiping the stove and greasy skillets and saves many a dishcloth.—Mrs. E. M. C.

Minard's Liniment Heals Cuts.

Free Speech.

A guest was expected for dinner and Bobby had received five cents as the price for his silence during the meal. He was as quiet as possible until discovering that his favorite dessert was being served. Then he could no longer curb his enthusiasm. He drew the coin from his pocket and rolled it across the table, saying: "Here's your nickle, mamma. I'd like to have it, but I'd rather talk."

MAKE A COMFORTABLE LAWN SWING.

A sliding bed with a mattress in two parts, was discarded as a sleeping arrangement because something went wrong with one of the legs, so that the bed when stretched out, would not stand satisfactorily.

Several of the family were for calling the junk man, but a more ingenious member of the group saw possibilities in the old sliding bed.

It was taken apart so that there were two good stout springs with iron frames. Stout chains were purchased and attached, and the hammock swing suspended from the porch ceiling. The mattress was covered with cretonne, with a ruffle on either side, and pillows to match made.

The seat was so comfortable that it was wanted in demand. The other part was taken and turned upside down so that the erstwhile legs formed four posts, three sides of which were covered with stout khaki cloth of tent weight. This made a back, a head, and a foot. This part of the mattress was covered with khaki to match, with a straight valance in front. Stout chains hung the swing at the farther end of the porch, and bright cretonne cushions finished the article satisfactorily, so that it was even better than the first one.

The expense entailed for the two verandah swings was a mere trifle, as cretonne was used which was in the house, and only the khaki cloth and heavy chain had to be bought.

True thrift consists in making good use of what we have, so as to increase our comfort, well-being and pleasure, at the same time conserving our resources.

THE ANSWER.

What makes a home? the timber and the bricks?

Foundations strong? the style of roof and room?

The furnishings within? the builder's tricks

Of making wood so many forms assume?

Homes are not made of wood or stone Nor all the things that men can make thereof;

What makes a home where joy and faith are known,

Where happiness and peace abide; is—love!

—Arthur W. Peach.

KEEPING HOUSE FOR SLEEPING BABIES.

A young woman writes that she has been able to earn a considerable amount of pin money by staying with her neighbors' babies on evenings when the parents wished to be absent from the house.

Increase the feeding value of all fodders by cutting them with the Climax Cutter. The Climax cuts dry straw or hay just as well as green corn. It is cheaper to run, requiring less power. It built extra strong, costs less for repairs. Tell us what power you have and let us send you catalogue and prices. Save money by buying one of these machines now.

One Up For Wembley

Romance in the Gorgeous Setting of the Great Exhibition that links East and West and North and South.

PART II.

A couple of revelling youths passed by. One was singing:

"Give me the moonlight,
Give me the girl,
And leave the rest to me—"

Jim glanced at the youths malevolently. They had disturbed his sweet melancholy. He was about to rise and leave the Exhibition when he saw something that chained him to his chair. Elsie was approaching on the paths, and, by her side, was Mr. Manson.

Mr. Manson was in evening dress, and something in his manner made Jim Franklin think that his late chief had been doing himself rather well at dinner. He stopped and bent over Elsie, saying something with a fatuous laugh. Jim saw Elsie draw back from him, startled. Then he sat up, thrusting his pipe into his pocket. The side path was deserted save for the girl and Mr. Manson.

Suddenly Jim Franklin bounded to his feet. Mr. Manson had caught Elsie in his arms and was kissing her, despite her struggles and stifled cries. "Don't be a little fool!" Jim heard Mr. Manson say. "There's nobody about."

Then Mr. Manson felt a strong hand on the collar of his coat and found himself being violently shaken.

"That's where you're wrong!" an angry voice said in his ear. "There is somebody about, and he's going to set about you!"

What happened next happened so suddenly that Mr. Manson, despite his twelve stone weight, felt himself as a child in arms. For a few seconds he had a wild impression of being on the scenic railway. Then he came to the conclusion that it was the water-chute as he fell with a splash into the lake where Jim had flung him.

For a moment Jim watched his victim as he crawled out, white with rage and fear, and then he turned to Elsie.

"I didn't know we were in the Amusement Park," he said quietly. "Now shall we go to Burmah or India?"

"Back to the Lucullus, please!" panted Elsie. "My uncle is there. He has been entertaining the office managers to dinner. Mr. Manson was there, but when he met me I didn't know he was the sort he is. He's a cad!" She rubbed her lips furiously. "Let's forget him! What have you seen this evening?"

"Canada. I was two hours in the lake."

"You found it so interesting, then?" "I was waiting for you. You said you might be in Canada to-night. Miss Payne—Elsie—if I went to Canada, really and truly and made good, would you come out to me?"

She glanced quickly at him and learnt what she had known all along. He was very good to look at and he was desperately in earnest.

"I think I should like Canada very much," she said softly, "or India, or Burmah, or any place where you were!"

It was very late when they reached the restaurant where Elsie had to meet her uncle, but the stout, bullet-headed man, whom Jim recognized as Mr. Boulter, of the Boulter Lise, was in great good humor.

"Hallo, Elsie! Changed your partner? Evening, sir! You're in the Freight Department in London, aren't you?"

Mr. Boulter prided himself on his memory for faces.

"I was, sir!"

"Have you left, then? What are you doing now?"

"Nothing, sir. I haven't had time to fix up anything yet. You see, I only got the sack to-day."

"The sack! What on earth for?"

"I'm afraid that I'm no use in the office, sir!"

"It isn't that at all, uncle," put in Elsie. "It's just because Mr. Manson had a down on him, and Mr. Manson is a cad! Jim threw him in the lake to-night, and serve him right, too!"

Elsie's cheeks were flaming. Mr. Boulter's eyes twinkled.

"And who might Jim be?" he asked.

"Mr. Franklin, then. He's been my friend ever since you let me be your secretary. And Mr. Manson is a horrible man; and Jim is going to Canada, and I shall go there, too, later on, and—so there!"

Elsie's eyes shone defiance at the chairman of the Boulter Steamship Line, who chuckled, feeling at peace with all mankind—all except Mr. Manson, who had upset his favorite niece.

"Want to go to Canada, do you?" he asked Jim. "And so you shall. And to Burmah and to India and Australia, as well."

Jim Franklin glanced at the facades of the buildings before him and frowned.

NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, New York City, offers a three years' Course of Training to young women, having the required education, and desirous of becoming nurses. This Hospital has adopted the eight-hour system. The pupils receive uniforms of the school, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent.

The girl had many demands upon her time. Besides keeping house for her invalid father and her three younger brothers she was attending a nearby university. The family income was limited; but so long as the evenings were occupied with study and her days filled with work she could not earn in any of the usual ways the extra money that she needed.

In planning her scheme she realized that she could study at a neighbor's house as well as at her own—better in fact, for there she would not have three high-spirited brothers shouting over their games or banging the piano. Moreover, she could be earning something while she studied.

She wrote notes to all the young married couples in the neighborhood who had small children,—to those she did not know as well as to her friends,—saying that all her evenings were free, and that she should be glad to stay in the house with the baby while the parents went out. She added that for that service her charge would be fifty cents from seven o'clock until eleven, and seventy-five cents for a longer evening.

The plan succeeded from the first. Most of the young married people in the community were of modest means and did not keep a maid. They were glad to find an intelligent and responsible person to stay in the house when they wished to go out.

"Of course the baby never wakes up, but if he should Susan would know what to do," was the way they expressed their approval of the scheme.

The business soon grew to satisfactory proportions. The girl's friends quickly told others of the plan, and in a short time the project of keeping house for sleeping babies was bringing an income of three, four, and sometimes even five, dollars a week.

THEY'LL TASTE GOOD WHEN THE SNOW FLIES.

Plum Conserve.—6 lbs. plums, 2 sliced oranges, 1 1/2 lbs. large seeded raisins, 3/4 lb. nut meats, 3 lbs. sugar.

Quarter the oranges and slice the quarters and let stand in water overnight. Cook the plums until soft and press the pulp through a sieve. Cook oranges until tender and add raisins and sugar and cook until the consistency of marmalade. Add nuts five minutes before placing in sterilized jars.

Fruit Salad Dressing.—1 tsp. salt, 2 tsp. flour, 1 tsp. melted butter, 1 egg yolk, 1/2 cup cream, 1/2 cup hot syrup from sweet pickled peaches or pears.

Mix dry ingredients and add the beaten egg yolk, syrup and butter slowly. Stir over boiling water until the mixture thickens. When cool add cream, whipped or plain.

Gingered Pears.—1 lb. pears, 1/2 lb. sugar, 1 tbs. preserved ginger (or ground ginger tied in cloth), 1 lemon, 1 cup water.

Cut pears in quarters, then slice in thin slices, put in granite kettle and cover with sugar. Let stand all night. In the morning cut lemons in small pieces, take all seeds out. Bring to the boiling point and let simmer for two hours, putting in the ginger, which has been sliced thinly, just before removing from the fire. If cooked to the consistency of jam, gingered pears may be kept in open jars.

HANDY PIECE SHELF.

I think that mothers with many garments to mend will appreciate this: In my bathroom, over the door is a foot-wide shelf. On this are three or four-pound cracker boxes. I like these best, but any large strong boxes will do. There are marked on the front with the kind of pieces they contain, as "White," "Blue," "Plaids," "Gray," "Underwear," "Linings," "Wool," etc. Each kind is rolled and tied securely before putting away. Sometimes a box will hold two kinds, one in each side of the box and the box has two names on the front, one under the other.

When I want to patch my blue apron, or little daughters plaid dress, the lining of the good man's coat, or big boy's trousers, I can find the necessary materials much quicker than when I kept them in a "piece-bag," and what I wanted invariably seemed to be at the bottom.—Mrs. M. N.

Most Expensive Chair.

The most expensive chair in existence belongs to the pope. It is quite modern, and was made to the order of an American banker. It is of solid silver, beautifully chased, and is said to have cost something like \$60,000.

For Sore Feet—Minard's Liniment.

Just Spikes!

"Well, now we're settled down, the tent's set up, the damage off, the kettle on the boil, Let's paint a sign and nail it on this tree So everything shall be as ruled by Hoyle."

On which they took a box lid and some spikes

And daubed upon the lid 'CAMP SANS SOUCL'

(They split the lid for kindling ere they left;

The spikes were left embedded in the tree).

Time winged its flight. One day two tongue-tied men

Stood hesitant before a garden gate, And coughed, and cleared their throats, and then one said,

"We bring bad news, I guess, an' I sure hate

To tell yuh, Missus, but—an hour ago, While we was cuttin' spruce down at the Mill—

The saw got busted on some rusty spikes

Sunk in the log. A splinter hit your Bill

Who happened to be passin' at the time

He's injured pretty bad. 'N fact it's said—"

(He gulped and mopped his brow and looked away)

"Dear God! Don't say he's DEAD."

"Yes, mum, he's dead."

—W.H.C.

Hard-boiled, No Doubt.

"His wife says he's hard-boiled."

"She ought to know—he keeps him in hot water all the time."

SOME USES FOR DISCARDED FARM PAPERS.

We subscribe to a large number of farm and dairy papers and magazines. After reading, my husband files some of these, and out of others cuts material he wishes to save. They are left for me to dispose of.

I save and file various household articles and recipes for my own use, and then cut out any large pictures of animals. I find these in the advertisements and in the illustrated articles.

I save pictures of cows and bulls of the different breeds, poultry, dogs, horses and other live stock. Some are in color, but most of them are not. They are all put into a box and saved until needed. Around Christmas time I purchase a quantity of red and black cambric and make scrap-books for gifts.

Cutting through triple thickness, I cut a number of pieces of cambric,

and then cut out any large pictures of animals. I find these in the advertisements and in the illustrated articles.

If you like to boil your white cottons, Rinso will give you just

Efficient Farming

FILLING THE PROSPERITY TANKS.

The silo is the cheapest and most efficient coarse fodder storage building that can be erected on the farm. A ton of clover hay or corn, field-cured and stored in the farm barn, requires at least 400 cubic feet of space. The same quantity of corn or clover would occupy but fifty cubic feet of silo space.

The storage of fifty tons of clover or corn made up as dry hay or corn fodder, would require a barn 40 x 330 x 16, costing not less than \$1,200. The same quantity of fodder made up as silage could be stored in a silo 10 x 30, costing not to exceed \$300.

The silo has made possible the extensive use of plants that are not sufficiently palatable in their natural state to be of great value. The ensilage process, when practiced on sunflowers, mustard, coarse sweet clover and Russian thistle, makes palatable acceptable ensilage. Also, the silo may be made to serve a useful purpose by providing a medium through which weed-infested crops may be handled, by being utilized to save grass, clover and grain crops in seasons too wet for haymaking or grain ripening.

During the season of 1920 a very large portion of the cut and stacked grain crop of the Pacific Coast would have been lost had it not been that the farmers had silos. Owing to continued unseasoned weather the grain sheaves made a luxuriant growth, developing about eight inches of matted green top. In this condition the crop originally intended for grain was put into the silo along with such green material as was available at the time; moisture and acid culture were added in quantity sufficient to control the fermentation processes. A good silage resulted, the silo having saved the crop.

Successful silage making depends first of all on fermentation processes, which are largely controlled by the amount of air present in the mass of fodder. Silos built with air-tight walls will cut off the air supply from the outside and reduce the losses to a minimum. Air-tight, hence satisfactory silos, may be made of wood, stone, brick, monolithic concrete blocks and tile.

Generally speaking, wooden silos are cheaper to erect, but less durable than the others. Wooden silos when standing empty dry out. If before they are filled they receive attention, and the hoops are tight, they will keep silage perfectly, for the wood will swell sufficiently to make them air-tight. Silos made of other materials, if properly constructed, are always air-tight.

Silage will keep perfectly in a silo of any kind which is air-tight. On the other hand, spoilage always results when air enters the silo at the sides or at the bottom, and often cause large losses, a few small openings will allow sufficient air to enter to spoil the whole mass of ensiled material. The top of the ensiled material will seal itself through decay of about a foot of material, less when very green crops are used, and more when more matured crops are put in. Spoilage can be largely eliminated by cutting thoroughly the last few loads of silage as they are cut up, by covering the silage with a layer of finely cut wet straw.

Silos less than twenty feet deep do not give the same high efficiency as silos over thirty feet deep. Height is required in order that the weight of the mass may be sufficient to compact the cut material and reduce the air content to a degree not favorable to extensive fermentation. The deeper the silo of any given capacity, the smaller the cross or top surface exposure. This is important, since silage will spoil rapidly if exposed to the air. The modern practice is to build the silos high, and of a diameter that is in keeping with the daily feed requirements, the aim being to have the silo as small in diameter and as high as it is practicable to build. The deep silos have the distinct advantage, in that a better silage can be made and there is less wastage on exposed top surface. Low, wide diameter silos are easier to fill and empty, but do not pack well and surface waste quite heavily.

The wall or walls should be smooth and vertical. The structure should be true and of uniform diameter throughout to facilitate the undisturbed settling of the fermenting mass. Any obstruction, such as a bulge or cavity interfering with the settling will show considerable spoilage at the time when the silage is being removed. If the sides or walls are not vertical and parallel, good results cannot be expected.

The outward pressure of the cut fodder during settling is approximately eleven pounds per foot for each foot of depth.

At the bottom of a thirty-foot silo, the pressure on each square foot would be over 300 pounds. A silo ten feet in diameter and thirty feet high will have to stand an outward pressure on the lower foot wall of approximately 9,430 pounds. The pressure on the tenth section is about 6,600 pounds, or 210 pounds per foot. These pressures indicate that the silo wall must be strong and secure. Square silos failed to be fully efficient, largely because they were not built stiff enough to stand the pressure without

bulging during settling. The bulging left air spaces, and molding followed. After the silo had fully settled, there is little or no lateral pressure.

The inside of a silo is no place for a lazy man during filling time. Only the most dependable workers should be entrusted with the spreading and packing of the finely-cut fodder. The lazy man will lean up against the silo wall or sit down and loaf, letting the cut fodder pile up. With the heavy and light portions separated, and with the leaves all together, soft, spongy areas develop in every foot throughout the mass. It can be smoothed over at the time, but the telling evidence of loafing is generally seen in the moldy sections when the silage is removed.

The best corn may be grown, the best of silos built, the cutting machinery may be used, yet the silage largely spoiled by loafers neglecting the spreading and packing of the fodder as it goes into the tank.

All silage material should be finely cut. Coarse stalks and hollow clover and grain stems must be cut short and be crushed or broken in order to pack well. The use of the flexible distributor tube is a great aid in the even spreading of cut fodder. It, too, should be operated by a man possessed of sufficient energy to do an honest day's work.

The highest grade of corn silage is made from those varieties of corn that produce a large proportion of grain in the total weight of crop. Large-growing southern varieties of dent corn that give an immense green weight of fodder per acre, will, as a rule, produce a very poor silage. Many dairymen prefer flint varieties and the small stalk varieties of early maturing dents for silage purposes. From such, a rich sweet silage can be made. The weight per acre may not be nearly as great as with the late maturing, large-growing dents, but when the silages are compared on the digestible dry matter basis, the smaller growing earlier maturing dents and flints have the advantage. Only such varieties as will ripen at least a few ears should be used, even in most northern sections.

In the early years of silo experience the practice was to grow big corn. Little attention was paid to the grain yield, and much poor silage resulted from the twelve to fourteen-foot stalks that went into the silo without the very necessary two-pound, well-glazed ear. Hard experience has demonstrated that there is more milk, beef or butter in a cubic foot of silage made from corn that consists of big juicy stalks.

The greatest quantity of digestible dry matter is obtained from a corn crop when it has reached the condition to cut for husking, ripe enough to complete maturity in the shock. Another advantage in growing earlier maturing varieties is that such can be ensiled in September and the land prepared for fall wheat, an important factor now that the European corn borer has become a menace to corn growing over a wide area.

Canada's Production of Butter and Cheese.

Canada turned out 163,456,759 pounds of creamery butter valued at \$66,894,008 last year, compared with 152,501,900 pounds valued at \$53,453,282 the year before. The price of butter in 1923 averaged 34 cents per pound against 35 cents per pound in 1922. Of last year's production, Quebec manufactured 60,179,616 pounds valued at \$20,741,454; Ontario, 54,773,180 pounds valued at \$19,443,505; Maritime Provinces, 6,319,574 pounds valued at \$2,352,521; Prairie Provinces, 39,223,225 pounds valued at \$13,106,043, and British Columbia, 2,961,154 pounds valued at \$1,250,485.

Of cheese, Canada manufactured 11 per cent. more at an increased value of 31 per cent. last year compared with the year before, the total manufactures in 1923 being 151,483,353 pounds valued at \$28,629,366. The average price of cheese last year was 19c compared with 16c in 1922. The Maritime Provinces produced in 1923, 2,671,238 pounds of cheese valued at \$514,404; Quebec 46,770,556 pounds valued at \$8,763,782; Ontario 99,535,405 pounds valued at \$18,842,102, and the Prairie Provinces 2,216,058 pounds valued at \$438,023.

It will be noticed Quebec manufactured the most creamery butter and Ontario by far the most cheese.

Cost of Rearing Pigs.

A record of the cost of keeping a sow for a year and feed consumed by herself and litter at the Lennoxville, Quebec, Experimental Station, showed that each pig at weaning age had cost \$2.29. Four Yorkshire brood sows were used in the experiment. Each sow raised two litters and raised an average of 18.8 pigs, which were weaned at from six to eight weeks of age. The feeds used consisted of middlings, oats, barley, oil meal, tankage, clover hay, roots, and skim-milk, besides pasturing for four months. The particulars given are from the annual report of the Station, issued by the Department of Agriculture at Ottawa,

One of the newest ideas throughout England is the sale of miniature busts of the Prince of Wales, all proceeds to go to Lord Halg's £25,000 campaign for the benefit of British ex-service men.

We Are Lifting Our Mortgage With a Stove Lid

BY MRS. GRACE BATES.

A tourist camp near our little farm has furnished us an idea that is paying off the mortgage for us. My husband and I are town-bred. We planned when we bought our farm to raise pigs and chickens and keep five or six cows. We have discovered that there is real money in selling good things to eat to people in the tourist camp. A similar trade could be built with town-folks from any farm properly located.

Some hikers wanted to know one day if we had any chickens for sale. They said they would call for them next day. I baked bread and two green apple pies the next morning, and when I saw those articles on the table beside my dressed chickens the thought suddenly occurred to me, "When those people call for their chickens, perhaps I can sell them some bread and pie."

I set the stove properly, dressed chickens close to pie and bread. They bought the whole display.

So the idea was born. The next day I carried bread, pie, and fried cakes down to the camp and sold two dollars' worth.

In less than a week I could see that the business was too much for me, so I drafted the "gudeman." He got eggs, vegetables, and apples ready; I baked a quantity of food; and away we went at ten o'clock. We have adhered to that hour ever since—ten o'clock every day but Sunday. Another of our first plans was always to take orders for dressed chickens. We don't take them unless we have a customer waiting at each other on the way home every day when our sales amounted to fourteen dollars and sometimes as high as twenty. We soon began to pay up some of our bills. We had borrowed every cent for stock and equipment.

That was the first year, and last summer was the second. We started June 18th, and in ten weeks we took in \$1,000 in round numbers. We built a screened-in back verandah, and there we did most of our work, baking in the kitchen range. We also had an oil stove with an oven.

When we took orders we scrupulously filled them—all but once. Some people who didn't eat meat on Friday ordered a quart of baked beans. Somehow we overlooked this order, and when we got to them, the bean kettle, like Mother Hubbard's cupboard, was bare. Suffice it to say, they would have nothing more to do with us during their stay. Fortunately this happened to us only once.

I always baked a quantity of food, and if I had orders I baked more. The idea is to have food on hand. There are many who won't give orders, so we sell them as we find them. At the beginning of the season I bake less, baking more as the crowd increases. It is better to have too little than too much, for things must be fresh.

We take the seasonable vegetables and fruits and eggs. Of baked foods the first favorite is pie—apple, berry, lemon cream, vanilla cream, custard, pumpkin, and chocolate. I usually bake mostly apple and two other kinds one day, and so on. I've baked as many as 28 in one day. I carried them in biscuit boxes last year, with a pie tin inverted for a cover; but next season I'm going to have a tinner make a regular pie carrier, like a baker's.

Brown bread is next, and this is so simple any child (or man) can make it. It is just a sour-milk graham bread with a cupful of bran added, baked in a loaf. It's delicious and recommended by doctors. Whenever tourists broke camp they usually bought a supply to take home. It makes wonderful sandwiches. We mix four loaves at a time in a crock, put them in four pans which just fit the oven, placing them on the bottom first. Then four more, placing the first ones on the top grate; thus we're able to bake eight loaves at once.

When you say brown bread and baked beans, people sit up and take notice. I baked my beans by the Boston method, soaking them overnight and starting them on top of the stove when the oven was being used for other things.

Next come fried cakes—not doughnuts, but sour-milk fried cakes. After that cup cakes—spice, raisin, plain and chocolate. These I carried in clean boxes, which I got from the store. Then macaroni and cheese, with plenty of cheese.

I learned that one should make things good, not stint them. Ask enough to make a reasonable profit and they'll sell fast. I've never forgotten the story about my grandmother, who was a famous cook. Someone said to her:

"Why is it, Mrs. Blank, that your cooking always tastes so good?"

"And my grandmother answered: 'Because I put good things in it; that's why.'"

We don't try to soak people because they're tourists. That's piggish and unprofitable. We've never tried it, but we've seen it tried. It may work once, but not often the second time.

White bread, rolls, and cookies we don't bother with. Bakers can make these good and cheap, and they can far undersell the private individual. These take much time and stove room, which count in a rush.

One should have a variety. It takes some time to sell one thing. One can sell several articles almost as quickly, and have more cash at the close of the deal. Also, one should be business-like. We feel that this is as legitimate and honorable as any business, and conduct ourselves accordingly.

There is much pleasure in this, as well as profit. We meet strangers, get acquainted, try to give them a good opinion of our locality and make many good friends.

This is a cash business; no credit shall be given. Credit makes poor friends. We insist that they'll pay for what they've produced on our farm in fall or winter, and can dispose of our winter products in this way.

Maturing of Cheese.

The Dominion Dairy and Cold Storage Commissioner, Mr. J. A. Ruddick, in his last News Letter calls attention to Section 12 of the Regulations under the Dairy Produce Act which reads: "No cheese shall be graded until it is sufficiently mature, in the judgment of the grader, to permit of the quality being properly determined."

The Commissioner says that during his recent visit to the United Kingdom he was more than ever impressed with the necessity of Canadian factories stopping the practice of shipping their cheese when only a day or two old. He further states that factories that pursue a reasonable course in this matter and keep cheese until it is properly matured, will receive the protection to which they are entitled. Henceforth shipments of cheese that are too green for grading will be warehoused at the maker's expense until they have become reasonably mature. Mr. Ruddick believes every intelligent operator will appreciate a system that places all factories on the same footing.

The End is Not Yet.

Some farmer with a statistical turn of mind has computed that a gallon of gasoline will milk 300 cows, bale four tons of hay, mix thirty-five cubic feet of concrete, move a one-ton truck fourteen miles, plow three-fifths of an acre of land, and make enough electricity to keep eight lights going in a farmhouse for thirty hours. And the end is not yet.

Cleaning up dairy herds is one of the best methods of advertising dairy products to a discriminating public.

Breeders with early hatched cockerels often hold them too long, especially if they have plenty of feed and do not need the money. Then they find that the price per pound drops until the four and five-pound birds bring no more money than they would have brought as broilers when weighing two or three pounds.

Seventy-five per cent. of the world's yield of gold in 1923 was produced within the British Empire.

The Sunday School Lesson

SEPTEMBER 21

Jesus Makes a Missionary Tour, Mark 1: 35-45. Golden Text—Thou canst make me clean.—Mark 1: 40.

I. JESUS THE MAN OF PRAYER, 35-38.

II. JESUS THE GREAT PHYSICIAN, 39-45.

INTRODUCTION—Mark 1: 21-24 contains the record of a whole day's work of Jesus. The scene is Capernaum; the time is the first Sabbath which Jesus spent in that city. In the morning Jesus attended the synagogue and taught. At midday, Jesus leaves the synagogue, and going to the house of Simon and Andrew, heals the mother-in-law of Simon. At sunset, extraordinary scenes are witnessed in the usually quiet streets of Capernaum. "Working all day" is the title that might appropriately be given to the picture of Jesus in these verses of Mark.

But the next morning, when the crowds reappear, Jesus is gone. The streets are again thronged with people waiting with their sick, but the Healer is nowhere to be found. Anxiously Peter and his companions go in search of Jesus, and find him in the solitude outside of the city, praying. This brings us to our present lesson. We are now to see Jesus as a man of prayer.

I. JESUS THE MAN OF PRAYER, 35-38.

V. 35. The prolonged labor of the day before had curtailed Jesus' hours of rest. Nevertheless, long before daylight, he leaves the city for the solitude where he can find a time and place for God. He must pray in order to fit himself for the day before him. What did he ask on bended knee in that dim

hour, while the first faint morning airs were stirring in the leaves. We are not told, but we know it must have been to be wholly surrendered, to be utterly guided by the Father's will, to have strength for all that the day might ask of him. Men sometimes think that work can serve as a substitute for prayer. Our Lord did not think so. Who ever worked as he worked? Yet he also prayed, for prayer is not work, or anything else but prayer.

V. 36, 37. It seemed extraordinary to Peter and his friends, that Jesus should absent himself when all the world was waiting for him in Capernaum. Had he not an engagement to keep with all these anxious souls who were lining the streets with their sick? But Jesus had also an engagement to keep with God.

V. 38. Jesus explains that he must not return to Capernaum. His primary task is not to heal their bodies. The time is short, and the message of the Kingdom is urgent. He must go on that very day to preach in other townships of Galilee, for how otherwise shall he go over the cities of Israel? Then Jesus tells Peter that it was to prepare by prayer for this missionary journey, that he came away from Capernaum that morning. Similarly we find Jesus spending a night in prayer before he chooses his twelve disciples. (See Luke 6:12.)

II. JESUS THE GREAT PHYSICIAN, 39-45.

V. 39. We are not told the length or extent of this journey, in which Jesus now visits the synagogues of Galilee. His task is to proclaim the nearness of the Kingdom and to lead the souls of men to God. But in the furtherance of this task of leading men to God, he heals whenever the sick are brought to him. In particular, Mark records that he cast out "demons." It was universally believed that "evil spirits" entered into people, and produced derangement of mind, convulsions, hysterical cries, and spiritual distress. Men lived in terror of these demons,

as they still do in China and in many other heathen countries. Whenever, therefore, any of the above symptoms occurred, it was at once concluded that possession by demons had taken place. Jesus saw in all this, the signs of Satan's fearful domination over the souls of the sufferers, commanding the demons to go, and bringing back to the disordered mind, the sense of God's love and power to save. Mark sees in these conquests of the terrors inspired by demons, the most wonderful proof of Jesus' Messiahship.

Vs. 40-42. These verses tell also how Jesus cleansed a leper. Strictly speaking, the leper had no right to leave his seclusion and to appear among men. But necessity in this case knows no law. The leper flings himself at the feet of Jesus, crying, "If thou art only willing, thou canst make me clean." It shows the wonderful pity of Jesus, that at this moment he does not even hesitate to touch the leper. He knew it to be God's will that at that moment he should touch the man, and should say, "I am willing; be thou cleansed."

Vs. 43, 44. But Jesus sternly charges him to say nothing about his cure, but to go at once to one of the priests of Moses. (See Lev. 13:49; 14:2-32.) He was to do this "as a testimony to them," that is, to show that he is cured, or to show that he is a prophet of God in Israel. (See 2 Kings 5:8.)

V. 45. The healed leper does not remain silent, as Jesus commanded, but proclaims his cure far and wide. The result is described in the present verse. Jesus cannot enter any of the cities for a time. The popular excitement is too great for men to listen calmly to his message, and he chooses the quietest places for his work.

A LEPER.

We use the word "leprosy" for a particular disease; apparently the Biblical writers, even in the Law (Lev. chs. 13, 14) used the term for several distinct maladies. Setting aside the leprosy of the house (Lev. 14:37) and the leprosy of the garment (Lev. 13:47-59) as peculiar and obscure, there remain several skin diseases as well as more deeply seated affections of the human body. The plague on the head or beard, "the scall" of Lev. 13:20-37, was, according to many physicians, some variety of contagious and inveterate ringworm. The disease is still common among poor Jews and Moslems. The same classes are affected by leucoderma or vitiligo, which produces a discoloration of the skin, such as is described in Lev. ch. 13, or it may be that Lev. ch. 13 includes also psoriasis or English leprosy.

What is called leprosy to-day is a disease that produces commonly, a thickened condition of such features as the eyebrows, the sides of the nose, the cheeks, the chin and the ears. The thickening gives to the hands and feet a lumpy appearance. In some cases the joints of the fingers and toes are affected and parts fall off, while lumps on parts exposed to rubbing often become open sores. At the same time the thickening extends to the mouth and throat, and the voice is reduced to a husky whisper. These are the obvious features of the disease, but sometimes they are entirely absent. What is fundamental is that in every leper the nerves of the skin cease to act, he loses his sensibility, and there is a profound lowering of the vitality and efficiency of the organism.

Rations for Laying Hens.

What was regarded as the best ration for laying hens was fed for two years in succession to birds in the Egg-laying Contest conducted at the Nappan, Nova Scotia, Experimental Station. The scratch grain mixture consisted of 100 pounds of wheat, 100 pounds of corn, 50 pounds of oats, and 50 pounds of barley. The dry mash, which was kept constantly before the birds, consisted of a mixture of 100 pounds of bran, 100 pounds of middlings, 100 pounds of crushed oats, 100 pounds of corn meal, 50 pounds of oil meal, 50 pounds of beef scrap, 50 pounds of blood meal, and 15 pounds of charcoal. These mixtures were used constantly from the 1st of November, when the test commenced, until the fourth of September the following year. During the remainder of the year the 50 pounds of barley in the scratch mixture was replaced by 50 pounds of oats, and in the dry mash the 100 pounds of crushed oats was dropped and substituted by 50 pounds of bonemeal. The green feed used during the winter months consisted of mangel, while in the spring months sprouted oats were used instead. Each hen consisted of ten birds, kept constantly housed in a shed roofed building 10 by 12 feet in size. Nearly two-thirds of the front of the house consisted of glass and curtains. Hoppers supplied with grit and shell were provided for each pen.

Green feed fresh from the fields in late summer and early fall helps to prevent the usual decrease in dairy production at this time of the year.

If the breeding of thoroughbred poultry was more generally conducted on business principles, when engaged in largely for the sake of expected profits, we would not hear of so many disgusted or sadly disappointed breeders. A large proportion of the beginners commence with an enormous amount of self-conceit and false ideas and a very small amount of experience, and until this is directly and completely reversed, success and profit will never be attained.

Restraint for a Cow.

Sometimes it is very desirable to know how to restrain a cow from kicking, without casting or applying hobbles or chains. When a cow gets a caked udder, and one teat or quarter must be drained through a milk tube, try the following method which has always been successful with us:

One person grasps the cow's nostrils with his left hand, using the thumb and two fingers. He raises her head, just as though he was going to drench her, except that he holds her head around more to her side. When the milk tube is to be inserted, the person holding the cow pinches the nostrils as tight as he can, and the effect is much like twitching a horse.

Of course, there are cows so vicious that only tying up the hocks will restrain them, combined with the above described method. But it is remarkable how this simple mode of restraint will take a cow's mind—if she has one—off her real troubles, and how much can be accomplished without getting her frightened or stubborn.

Hints About Horses.

Do we owe a debt of gratitude to Horses? Are they not faithful, obedient, uncomplaining servants? Do they not trust us, and is not their welfare in our hands? Will you do all you can to help good and regular meals, a good stable and bed, careful grooming and sensible treatment.

He needs three meals a day. A troop-horse's daily ration is 12 lbs. of hay, 10 lbs. of oats and 8 lbs. of straw.

When he is working hard he needs food and water every two hours. It is cruel to keep a hard-working animal thirsty. Hay dipped in water will keep him cool if he cannot have a drink. See that the manger is kept scrupulously clean. Horses are extremely clean feeders and will not clear up their food if there is dust in the remaining portion of it. A piece of rock salt should be kept in the manger. The horse enjoys it, it does good and promotes appetite.

DISPLAY ANTIQUES AT THE BLUE CHURCH WOMEN'S INSTITUTE

Grandmothers' and Babies' Day Among the Members.

NEWS OF THE DISTRICT

Bazaar is to be Held at Crosby During the Month of November.

Blue Church, Sept. 8.—The Blue Church Women's Institute held a "Grandmothers' and Babies Day," at the home of Mrs. Tom Brady. A collection of antiques and old jewelry was on exhibition among which were an old silk shawl, a shawl pin, a gold brooch, and two sets of bobbins for thread from which old lace was made. Mrs. W. Place read a paper on "The Mother, What she Was to Herself, the Home and the Community," after which were served delicious refreshment. The meeting closed with a feeling that all had enjoyed themselves.

New Dublin

New Dublin, Sept. 10.—Miss Angelina Johnston, of Delta, and Mrs. Emma Young, of Redan, are spending a few days with Mrs. Ed. Healey.

F. A. Bowen enjoyed a motor trip to visit friends at Godfrey last week-end.

Norine Healey spent the week-end with friends at Greenbush.

Mrs. Fred Gardner has returned to her home in Reston, Man., after having visited relatives and friends in this locality.

J. S. Moore returned on Tuesday evening from judging corn in the field crop competition in connection with the Kingston Industrial Exhibition. He reports excellent crops in that district.

Joseph Anderson and staff have been threshing in this vicinity for the past week. The wet weather has prevented stook threshing for the present. Farmers report a fair yield of grain.

On Saturday evening, despite the inclement weather, a large crowd assembled at the Women's Institute Rooms to enjoy the Grandmothers' Day programme. Musical numbers were rendered by Geraldine Orr, Mrs. J. B. Horton, Verna Henley, Norine Henley, Irene Moore, Maude Moore and F. B. Frood. Readings were given by Geraldine Orr, Leona Horton, Norine Henley, Irene Moore, Maude Moore and Mrs. H. H. Frood. At the conclusion of a very interesting programme, the grandmothers were presented with white flowers and all enjoyed luncheon of cake and ice cream, and a pleasant social hour was spent.

Next Saturday evening the Athletic Clubs are planning a corn roast at their rooms in the general store.

Miss Sarah Bolton enjoyed a motor trip on Sunday with Mr. and Mrs. Clifford Hall and family to visit their relatives, Mr. and Mrs. Thomas Davison and family, at Avondale Farm.

NORTH AUGUSTA

North Augusta, Sept. 15.—The annual school fair will take place on Friday and promises to be one of the best.

Mrs. A. T. Moffatt and grandchild were visiting her daughter, Mrs. Harry Moffatt, at Jasper, for a few days this week.

Roy Alexander left last week for Moose Jaw where he will resume his position on the railroad.

Mr. and Mrs. Graham Cochran and son, of Brockville, spent Sunday with their many friends here.

R. E. Buchan, manager of the Bank of Nova Scotia, is taking his holidays and is being relieved by J. J. Blansfield.

The first fall dance to be held by the Masonic Social Club will take place on Friday evening and a large crowd is expected.

Miss Helen Cole, of Sault Ste. Marie, is visiting her aunt, Mrs. McCrimmon.

Mrs. Clayton Driscoll and daughter, of Brockville, are visiting Mrs. McCrimmon.

Miss Laura Mellafont, R.N., of New York, is visiting her aunts, the Misses Mellafont.

Rev. C. J. Beckley, of Hudson Heights, Que., and formerly of Bishop's Mills, was in town on Wednesday renewing acquaintanceships. He also attended a Masonic meeting that evening.

Mrs. Hazel Brandon, who spent the past fortnight at her home here, returned to her position in the Ontario Hospital, Brockville, on Friday last.

CAINTOWN

Caintown, Sept. 8.—William Ferguson and sons motored to Algoma to visit the former's sister, Mrs. Hunt.

Mr. and Mrs. W. A. Graham and children motored to Lyndhurst on Sunday last.

Mr. and Mrs. McDermott have returned to their home in New York state after a pleasant visit with the latter's parents and other relatives in this vicinity.

Harvesting is about completed and a few of the farmers have started threshing.

Miss Nora Dowsley motored to Brockville on Saturday last accompanied by Mr. and Mrs. D. Williams and sons, Percy and Francis.

BUTTER FOR WINTER USE

How to Make and Pack to Best Advantage

Use Clean, Sweet-flavored Cream—Coat the Box Inside With Paraffine—Finish the Package Off Neatly—Blade Blight of Oats—Honesty Pays.

(Contributed by Ontario Department of Agriculture, Toronto.)

I attended an Institute meeting one day and heard one of the speakers close his address with this little verse:

"Good, better, best; Never let it rest, 'Till your good is better, And your better, best."

It is the very best butter that we can make that must be packed for winter use.

Butter undergoes changes in the keeping, and two things necessary for good results when keeping butter for winter use are best quality of butter and low temperatures for holding. **Use Clean, Sweet Flavored Cream.**

Use cream that has a clean, sweet flavor. Churn it at a temperature low enough to bring the butter in nice, firm granules in from 20 to 30 minutes.

If by any chance the butter comes soft, be very careful to get rid of the buttermilk. It will be necessary in a case of this kind to use an extra wash water.

Salt the butter in the usual way and work it thoroughly. Should the butter soften during the process of working, put it away in a cool place to become firmer before continuing the working.

As butter keeps best in a solid form, crocks or boxes are used for winter use.

Coat the Boxes Inside With Paraffine. The boxes have a coating of paraffine on the inside, and it is necessary to line them with heavy parchment paper.

While many people have a 50-lb. box filled for winter, in some cases it would be much better to have it put in two 25-lb. boxes.

The crocks should be in good condition, free from cracks or breaks in the glazing.

When packing the butter, be sure to pack solidly. See that there are no openings in the sides, and that the corners are well filled.

If there is 8 or 10 lbs. of butter in a churning, do not put the whole lump into the crock and then try to pack it down. Rather put it in pieces, making sure that each piece is solidly packed.

Finish the Package Off Neatly. Finish the top of the package with a layer of salt paste may be applied to this before fastening down the lid. With crocks it will be necessary to tie clean wrapping paper over the top after the lid has been put on.

All butter should be stored in a clean, dark place where the air is pure and the temperature is low and even.—Miss Belle Millar, O. A. C. Guelph.

Blade Blight of Oats.

This disease occasionally causes heavy losses in the oat crops of Eastern Canada and Eastern and Central States of America. It attacks also barley, wheat and bluegrass to a limited extent. So says Prof. Dan Jones, Ontario Agricultural College.

It is most noticed in the spring and early summer when it causes the young plants to turn yellow, brown and red, withering them up. In the latter part of the season it induces blight in the heads.

Its spread and the amount of damage it causes is largely dependent on weather conditions. The seasons when much rain, cloudiness and muggy weather prevail are the seasons most favorable for its development.

Primary infection is chiefly through the stomata resulting from spattering of the leaves by the rain with the organisms from the soil. Two species of bacteria working together are considered necessary to cause the disease. They are found in the soil. They do not, however, affect the plant through the root.

Little can be done to prevent or control this disease except to select and breed resistant varieties.

Honesty Pays.

The man who aspires to the accomplishment of things worth while in the realm of pedigreed live stock, must realize that his integrity as a breeder will be one of his greatest assets, and he must guard it, as he would his stocks, from foul mixtures. As his herds and flocks increase and his business expands, he must make certain that, at the same time, there grows up a reputation for absolute honesty and fair dealing. Only by the help of these essentials can he expect his business to endure and yield to him satisfaction and profits.

The stomach of a young calf is very delicate, and changes in feeding must be made slowly. The calf will begin to eat grain and hay when it is about four weeks of age. Shelled corn is about the best grain feed, as it takes the place of cream in the milk.

Poorly-fitting collars are sure to cause sore shoulders. It is a good practice to bathe the shoulders upon and night with cold water. This avoids the chance of blood congestion and is at once soothing and pleasant to the animals.

Dates of Fall Fairs

The Fall Fair Dates in this district as issued by J. Lockie Wilson, superintendent of the Department of Agriculture, are as follows:

- Alexandria Sept. 18 and 19
- Almonte Sept. 16-18
- Arden Oct. 2
- Amprior Sept. 23-2
- Avonmore Sept. 30, Oct. 1
- Carp Sept. 30, Oct. 1
- Centreville Sept. 19 and 20
- Cobden Sept. 24 and 25
- Cornwall Sept. 4-6
- Delta Sept. 15-17
- Frankville Sept. 23 and 24
- Kempville Sept. 25 and 26
- Kingston Sept. 16-20
- Lanark Sept. 13
- Lansdowne Sept. 11 and 12
- Lombardy Sept. 12 and 13
- Maberly Sept. 24
- Merrickville Sept. 16 and 17
- Napanee Sept. 9-12
- Odesa Sept. 25 and 26
- Ottawa (Central) Sept. 5-15
- Parham Sept. 10 and 11
- Perth Sept. 3-5
- Renfrew Sept. 16-19
- Spencerville Sept. 23 and 24
- Stella Sept. 30
- Vankleek Hill Sept. 25 and 26

Here and There

Moose hunting opened in the Province of Quebec on September 10th. Indications are that an unusually large number of hunters will invade the woods this fall and the rush for licenses is well under way.

Edward A. Patterson, mining engineer of London, England, visiting Nova Scotia, states that the mineral resources of that province are practically lying dormant and that with proper development along scientific lines, mining could be advanced to first place in the province's industries.

Calgary, Alta., is planning an artificial ice rink, because of the prevalence of snow in the winter. Calgary had to abandon its scheme for an annual winter carnival because it could not count on weather that was cold enough or on snow.

The members of the band of the famous Princess Patricia's Canadian Light Infantry were among the passengers sailing for England aboard the Canadian Pacific liner "Empress of France" on September 10th. Under the direction of Lieut. T. W. James, they are to play at the British Empire Exhibition at Wembley.

The Duke de Alba, 17th of that name and 10th Duke of Berwick in the British nobility, together with the Duchess of Alba and several other distinguished Spaniards, is touring Canada over Canadian Pacific lines. Their itinerary includes Niagara Falls, Toronto, Banff, Lake Louise, Vancouver and Victoria.

Transformation for the better wrought among the Eskimos in the last 25 years is almost unbelievable, so Bishop I. O. Stringer, of the Anglican diocese of the Yukon, reported on a recent visit to Edmonton, Alta. The Bishop attributes this improvement to the influence of the missionaries and the Royal Canadian Mounted Police.

The "Calgary process," the newest method of oil refining, was examined with interest by the members of the British Association for the Advancement of Science during their recent visit to Calgary, Alta. This process has become world-famous ever since the experiments conducted at the local Imperial oil refinery proved so successful.

Thousands of Belgians are waiting to cross the Atlantic to Canada as soon as the Dominion can assimilate them, it is reported by authorities in touch with the situation. Belgium's interest in Canada is further evidenced by the visit to the Dominion of Louis Strauss, veteran member of the diplomatic corps and member of the Belgian Parliament for Antwerp, who, as guest of E. W. Beatty, Chairman and President of the Canadian Pacific Railway, is touring the country studying economic conditions with a view to stimulating Belgium immigration.

Special till Wednesday 17th

- Good Green Tea 45c
- Corn Flakes 3 for 35c
- Butter from 32c to 42c
- Fancy Biscuits from 20c to 35c
- Sherriffs Jelly Powder 3 for 25c
- New Cabbage 10c
- New Celery 3 bunches for 25c
- Spanish Onions 3 lbs for 25c
- Oranges 25c per doz.
- Bananas 40c per doz.

A full supply of Pickling Spices.

Will receive a fresh supply of Fruit Tuesday.

D. DACK & SON

Groceries Confectionery Ice Cream

"SURE, I KEEP 'EM."

- Crown Shells 12 guage 90c box
- Canuck Shells 12 " \$1.20 "
- Imperial Long Range 12 " \$1.50 "
- Western X-Pert 12 " \$1.35 "
- Western Field 12 " \$1.50 "
- Western Super-X 12 " \$1.70 "
- Nitro Club 12 " \$1.40 "

I also Stock 10, 16 and 20 guage in most of the above makes, which are all priced at the same reasonable figure.

Don't delay, now is the time that you should discard that old tire and put on a new one. Come in and get our prices and be convinced of the wonderful bargains.

How about your car, is it hard to start? It won't be if you try Peerless High Test Gasoline.

"You have tried the rest, Now try the best."

GUY E. PURCELL.

Farm Book-keeping

More and more the experienced farmer realizes the importance of accurate book-keeping.

The farmer who opens a Chequing Account with the Bank of Montreal is enabled to keep an exact record of receipts and expenditure and to have the helpful advice of an experienced banker whenever he needs it.

We shall be pleased to supply you with a Farmer's Account Book free of charge.

BANK OF MONTREAL

ALGONQUIN WOMEN DISCUSS VARIOUS DOMESTIC MATTERS

Institute Holds an Interesting Meeting at Mrs. Dawson's.

NEWS OF THE DISTRICT

Movements of People in the Village of Cardinal Are Duly Reported.

Algonquin, Sept. 9.—The monthly meeting of the Women's Institute was held at the home of Mrs. Harold Dawson on Tuesday evening, Sept. 9, with a good attendance.

Miss Jean Stephens, of Huntingdon, Que., returned home on Tuesday after having spent the past three weeks with Rev. Mr. and Mrs. Walker.

The Ladies' Aid and Women's Missionary Society met on Wednesday at the home of Mrs. Floyd Bissell.

The home of Mr. and Mrs. Bennett Hall was the scene of a very pleasant event on Wednesday evening, September 3, when friends and neighbors numbering about 65 assembled to welcome and also to congratulate them upon their recent marriage.

The evening was spent in singing and music. During the evening Mr. MacInnis read an appropriate address, and H. Dawson and E. McClean presented Mr. and Mrs. Hall with a beautiful Oak Table and rocker.

Lillies

Lillies, Sept. 9.—The Misses Gladys and Florence Booth have returned to Toronto after having spent their holidays with their parents, Mr. and Mrs. S. Booth.

David Lawson spent Sunday as the guest of his uncle and aunt, Mr. and Mrs. Lawson, of Seeley's.

A number from here attended the social at Ballycanoe and all report having spent a pleasant evening.

Mrs. John Lawson has just returned home after having spent a few days the guest of Mrs. Hollingsworth, of Escott.

Mrs. C. Beach, of Ohio, is visiting her sister, Mrs. S. Booth.

Miss Mabel Marshall has gone to the Canadian West to teach school for the coming season.

Miss Margaret Booth has just returned home after having attended the Toronto exhibition.

The people of this vicinity are sorry to learn that the reports are not very favorable of the condition of the mail man, William Martin, who was injured in a recent motor accident at Mallorytown.

Mrs. Johnnie Simpson and family, and sister, Flora McNara, of Tincap, spent Wednesday with their parents, Mr. and Mrs. John McNara.

Mr. and Mrs. John Widdis, of Sherwood Springs, spent Wednesday of this week with the former's sister, Mrs. Wells Darling, Sr.

CARDINAL

Cardinal, Sept. 10.—Mrs. Earl Byers, who has been visiting in Toronto, has returned home.

Mrs. W. Emond and son Theodore, of Hawkesbury, are visiting at the home of Mr. and Mrs. G. Emond.

James Turner, who has been spending his holidays in Toronto, has returned home.

Miss Bess Arthurs, who has been visiting in Toronto, has returned home.

Mr. and Mrs. E. Erwin and family attended the Ottawa fair on Wednesday.

Peter and Frank Adams attended the Ottawa exhibition on Wednesday.

Mr. and Mrs. C. Allen and Miss Margaret Allen spent Thursday in Ottawa.

Miss A. Knight is visiting friends in Prescott.

Miss Yvonne Pontbriand, who has been visiting in Toronto, has returned home.

W. Patterson, who spent the last week in Toronto, has returned home.

Mr. and Mrs. S. Brennan, who have been visiting in Toronto, have returned home.

J. T. McGorrell and two daughters, who have been visiting his parents, Mr. and Mrs. J. McGorrell, have returned home.

Miss McGorrell has returned home from Toronto.

Here and There

Exports in Canada's inter-Empire trade last month exceeded imports by over \$12,000,000.

Noel Victor Fearnough, aged seven weeks, son of a farmer of Morrin, Alberta, the youngest child on record to travel alone, left pool, England, in charge of officials of the Canadian Pacific Railway and Steamship Lines throughout the trip.

An experiment in shipping Canadian peaches to England has proven successful. The peaches were packed in small boxes and placed in cold storage, reaching London in fine condition.

Representative of the best sheep and swine blood of Great Britain, 33 animals imported from the Old Country arrived in Regina, Saskatchewan, recently.

Canada's highest lookout station has been completed and will be ready for use next year. It is situated on Mount Carleton, near Revelstoke, British Columbia, and is 8,623 feet above sea-level.

The Canadian McIntosh red apple is the champion dessert apple in the British Empire, so judges at the Imperial Fruit Show, which opened in Manchester recently, adjudged.

What is declared to be a world's record for the transportation of goods has just been achieved by the Canadian Pacific Railway.

One thousand young Luffels will be taken from the Dominion park in Wainwright, Alberta, and taken home in the north in the region in which wood buffalo are found.

The Dairy Farmers' Association has been awarded to the Government of Ontario for its collection of dairy produce, including bacon, dried poultry and eggs, at the Dairy Show held there recently.

Details have just been announced concerning the "Aorangi," the new motor ship that is being built by the Union Steamship Company of New Zealand.

All grain shipment records for the prairie provinces have been shattered during the past two months. Since the commencement of the crop year, September 1st, loadings totalled 321,596 cars, representing 169,053,085 bushels.

North Augusta

North Augusta, Sept. 9.—Mr. and Mrs. D. W. Carpenter, of Brockville, arrived here on Sunday from a motor trip to Ottawa. They will return to their home on Thursday.

The continued wet weather is bad for the large amount of grain still in the fields.

Mrs. E. Lewers, who has been a patient in the General Hospital for a few weeks, returned home on Saturday.

John Haldy has purchased the Bolton property on Victoria street, Rev. A. and Mrs. Fairbairn are spending their vacation in Aylmer and Ottawa.

The public dance given by the Ladies' Institute which was held in the township hall on Friday night was a success.

Mr. and Mrs. W. S. Ralph are visiting friends in Ottawa and attending the exhibition.

Women and Home

DO YOU KNOW?

That white, red, fuchsia, green and black lead evening frocks at smart Southampton, L.I.?

That the straight line bellless silhouette is the favorite of smart New York at summer resorts?

That brushed wool coats in varied length and trim mark smart fall sportswear?

That the man in whom a girl can't quite believe is always the one whom she wants to believe most?

That Paris reports that chiffon is considerably used for dinner wear, with black Chantilly lace and satin also in evidence, and jewelled girdles are a feature of these types?

That a household economist remarks: "A famous mathematics professor once said that if you have a problem to solve and have five minutes to do it, think at least three minutes, and work two." This advice is excellent for other problems besides those of mathematics?

That the moulding silhouette is again a feature of Doucet's evening frock group, marked by a very low décolletage at back, and suspended ropes of pearls with the décolletage at its fall showing in Paris?

That Polire's opening featured tunics of black satin or dull crepes which are posed over orange or some equally vivid foundation and Russian tendencies were also apparent in tunic and jacket types—while long moulding lines in high waisted effects often reveal the Renaissance spirit, also illustrate in sleeve and skirt details?

BLUEBERRY MUFFINS

Cream one-fourth cupful of butter and add gradually one-third cupful of sugar while beating constantly; then add one egg, well beaten. Mix and sift two and one-third cupfuls of pastry flour (once sifted), four teaspoonfuls of baking powder (level measurement), and one-half teaspoonful of salt.

BLACK CHOCOLATE CAKE

Cream one-half a cup of butter, add one cup and one-half of sugar, and the beaten yolks of two eggs. Add two cups of flour, sifted with two teaspoonfuls of baking powder, and add, alternately, with one egg, one cup of cocoa and one cup of water until dissolved, cool, and add this to the batter. Lastly, beat in the stiff-beaten whites of the two eggs.

COMPETITION

One grieves to see the charms that one holds dear Show clearer Time's encroaching, day by day— A halting step, a line, a thread of grey; And yet, as one by one, these signs appear, They only intimate that year by year Has laid its store of riches at one's feet.

TEACHING TO DEAF MUTES

In a London church, every Sunday, a strange service is held—a service for the deaf and dumb.

The preacher to the deaf, under normal conditions, invariably speaks his message, translating it at the same time into sign language.

This is done for at least two reasons. First, there is quite often a "hearer" present, who would go empty away if the sermon were unspoken. Secondly, the art of lip-reading is acquired by so many of the younger generation of deaf mutes, that the plainly spoken "word" can be interpreted by them even without the sign language.

To the casual observer, the silent preaching of Rev. Albert Smith, who conducts these services, would appear rather a subject for laughter, than for deep reverence and solemnity. For to anyone unable to understand the meaning of his gestures, they appear, in some instances merely grotesque, although there is a natural dignity about many of them, seeing that they deal with the highest of all themes.

Some of the commonest words in our language are imitative, and these are strongest, plainest, and most expressive words. Such words are Bang, Clash, Rush, Smash, Crash and many others.

Doubtless, at one time, all language was imitative and descriptive, and there was a real connection between the word and what it represented. There is still.

In the sign language of the deaf and dumb this connection is still evident. The gestures and signs which Mr. Smith uses express not the word but the sense. So it a French deaf mute were to stray into the church, even if he were unable to read a word of English, he would still understand the main drift of the sermon.

For the spelling out of words upon the hands is only intermittent and connective. The main spiritual ideas which the preacher seeks to convey are conveyed by gestures and attitudes.

For instance, such an abstract idea as Truth would seem to require much elaboration, especially when applied to religion. Yet the preacher does it very simply. He makes the motion of clasping, right hand on left, but so gently as to make no sound, and his deaf and dumb "hearers" understand that he means Truth, as used in the phrase "the truth as it is in Jesus," or in "I am the way, the truth, and the life."

Similarly the word "God" is indicated by the lifting clenched hand, and a tense expression in the uplifted eyes, whilst "Savior" is always expressed in the outstretched hands of blessing and invitation.

These ideas, infinitely varied, are used to convey all the well-known vocabulary of religion, such as Grace, Peace, Salvation, Repentance, Faith, and so on.

There is no beating about the bush. The preacher takes the most direct road to his meaning and he can convey a text from the Bible to the minds and hearts of his deaf mute congregation, quite as quickly and effectively as an ordinary reader, and can keep pace in his signs with his own most rapid speech.

As the sermon proceeds, spoken and acted, the visitor who can hear knows where the smile comes, and where the sigh or tear, and may note well whether the preacher is intelligently followed.

He will see the quick and universal smile at some humorous illustration, the tenseness of tears at the earnest appeal, the rapt attention at the periods of greatest eloquence. There is no doubt that the congregation have the understanding heart, if they lack the hearing ear, though, in the Biblical sense, they have both.

Lastly, it is interesting to stand a moment or two in the vestibule of the church, as the deaf mute congregation disperses, and note the silent gossip between old cronies, who have met in this way once a week for many years. It is all so silent; yet the understanding is evidently complete. There is indeed a language of the heart.

MOTHER'S OLD WHATNOT

How dear to my heart the best room of my childhood Which fades of collectors return to my view. The slippery black sofa of shaly black horse-hair, And all the dear keepsakes my infancy knew.

The old corner cabinet with shells and wax baskets, The glass-covered flowers, the cherry-stone ring, The asthmatic organ, the rosewood piano, Whose wide-open hymn book invited to sing.

The sculptures by Rogers, of gum-colored putty, The rose-ornamented carpet that covered the floor; But dearest of what-not, the serenely what-not, The black walnut what-not that stood by the door.

If collars are washed at home, thread a piece of tape through the buttonhole and hang up by that. Even soft collars look better for being dried in this position.

Put up stockings by the toes. Take note which quarter the wind is blowing from and hang articles so that the wind blows into them.

The Money Losing Cow

THE average production of milk per cow in Canada is above 4,000 pounds annually but authorities are agreed that the higher the production per cow the greater the profit. You can materially increase the productivity of your herd by breeding better live stock and the local branch of the Standard Bank of Canada is at your service in supplying loans for the purchase of stock which will give a greater cash return for the feed and labor expended.

BRITAIN ACCEPTS PRINCIPLE OF COMPULSORY ARBITRATION

Freedom of Action for British Navy When Engaged in Task of Maintaining or Restoring Peace is Demanded by Delegate to Geneva Conference.

A despatch from Geneva says:—that if the British reservation is accepted by the other powers, Continental countries will not only get economic help from Britain as part of the proposed pact of security or sanctions, but also the full and immense support of the British Navy in case any country, in defiance of an arbitral decision, opens hostilities and attacks another State.

Sir Cecil Hurst declared the British reservation was not a Machiavellian subterfuge. In times past there has existed an idea that Great Britain was the tyrant of the seas. Yet, he said, the British delegation was only seeking to discover some method whereby the great cause of organized peace and security could be advanced on terms assuring progress.

All idea of holding a special conference to extend the principles of the Washington Naval Treaty to non-signatory States has been dropped. The Disarmament Sub-Commission decided that, in view of the likelihood of a general Disarmament Conference, such a Naval Conference would be unnecessary.

The effect of the announcement is that if the British reservation is accepted by the other powers, Continental countries will not only get economic help from Britain as part of the proposed pact of security or sanctions, but also the full and immense support of the British Navy in case any country, in defiance of an arbitral decision, opens hostilities and attacks another State.

Sir Cecil Hurst declared the British reservation was not a Machiavellian subterfuge. In times past there has existed an idea that Great Britain was the tyrant of the seas. Yet, he said, the British delegation was only seeking to discover some method whereby the great cause of organized peace and security could be advanced on terms assuring progress.

All idea of holding a special conference to extend the principles of the Washington Naval Treaty to non-signatory States has been dropped. The Disarmament Sub-Commission decided that, in view of the likelihood of a general Disarmament Conference, such a Naval Conference would be unnecessary.

The beautiful international polo trophy which the British four will try to regain from the American poloists. The Americans brought the cup from England when they won the 1921 series and have retained it since.

FLOODS CAUSED BY FOUR DAYS' RAIN

Lower Part of Town of St. Raymond, Near Quebec, is Under Water.

A despatch from Quebec says:—Fed by four days of almost continuous rain, rivers in this district and the Eastern Townships are raging floods, and are doing huge damage.

The Town of St. Raymond was reported to be very badly affected, the lower portion of the town being under water. The power plant at Portneuf is badly damaged. There is a series of washouts reported on the main line of the Canadian National Railways to Murray Bay, and trains going to Chicoutimi had to go round by St. Pierre. Many cattle and sheep are said to have been swept away by the flood, and a number of valuable log booms have broken from their moorings and have gone adrift.

At St. Albans the house of a farmer named George Neaud was carried away by the flood, and only for the fact that the majority of the residents of the district had spent a sleepless night watching developments, loss of life might have been recorded. Work completed on some of the highways has been rendered useless by the sweep of water, and the damage in this respect is particularly severe.

Early Thursday morning the climax of the flood seemed to have been reached, and at noon there were distinct signs of improvement.

A despatch from Sherbrooke says:—The St. Francis River Valley through many miles of its length in this section is under water, in some districts to a depth of six or seven feet, as a result of the deluge of rain which poured down without a single break from Tuesday until midnight Thursday night. Bridges have been carried away, lumber yards are flooded, fields of unharvested crops flooded, and innumerable buildings, factories and dwelling houses and store sheds flooded with water up to the first floor. Older residents of the city state that the level of the water now is higher than it has been for thirty years. During the rainstorm a total of 3.25 cubic inches fell.

Alberta Wheat Pool officials claim that farmers who joined the co-operative marketing organization received \$2,000,000 more for their 1923 crop than they would have netted through independent marketing methods. The pool actually handled 34,192,805 bushels of wheat during the first pool year.

Prince Will Not Bring Polo Ponies to Canada

A despatch from Syosset, Long Island, says:—The prince will not take his polo ponies to Canada. Thomas Russell, the head groom, will return with them to England at the end of the American visit when his particular job on his return to the Old Country will be to condition the prince's twenty hunters for the opening of the season in October.

The prince brought eight of his ten polo ponies across the Atlantic, leaving only two at home. They are a valuable string, being worth \$2,000 to \$3,000 apiece. Six of the ponies are English-bred, one is Australian-bred from English stock and the eighth, Jacinto, is American-bred.

Russell, who is a typical Old Country horseman, confessed to the enquiring reporter that he had never touched liquor in his life, in spite of American ideas about English drinking; and that he neither smoked nor chewed, except possibly a straw when in a ruminative mood. He declared that he liked nothing better than to take a couple of apples along and have a holiday. A gay dog, indeed!

Canada May Look Forward to Yearly Visit from the Prince

A despatch from London says:—Canada is to have the privilege of welcoming the Prince of Wales every year, according to the London Star. The Star says: "Despite circumstantial reports to the contrary, it may be taken for settled that when the Prince of Wales has visited South Africa next year he will bring his wandering in distant parts of the world to a close for some years. While there is no doubt he would like to visit certain parts of South America, the demands upon his time at home are likely to become increasingly heavy in future, so that he will be kept almost constantly engaged in England. The bright exception will be a visit of a few weeks every year to his Canadian ranch."

During the four months of April, May, June and July a total of 18,870 Canadians returned to Canada from the United States. Of this total 16,166 were Canadian-born citizens, 1,646 were British subjects who had acquired a Canadian domicile, and 1,058 were classed generally as Canadian citizens. In July alone the total number of admissions of returning Canadians recorded at the International Boundary line was 5,127.

All Boston turned out to see the arrival of the American 'round-the-world fliers and they were given a tremendous reception. Photograph shows the airmen signing the register immediately they stepped ashore.

The Week's Markets

TORONTO.
Man. wheat—No. 1 North, \$1.44; No. 2 North, \$1.40; No. 3 North, \$1.36.
Man. oats—No. 2 CW, 63c; No. 3 CW, 61c; extra No. 1 feed, 61c; No. 1 feed, 60c; No. 2 feed, 58c.
All the above c.i.f., bay ports.
Am. corn, track, Toronto—No. 2 yellow, \$1.37 1/2.
Millfeed—Del. Montreal freights, bags included: Bran, per ton, \$27; shorts, per ton, \$29; middlings, \$35; good feed flour, per bag, \$2.05.
Oats—No. 3 white, 48 to 50c.

RED ROSE TEA "is good tea" and extra good is the ORANGE PEKOE QUALITY

HEALTH EDUCATION

BY DR. J. J. MIDDLETON
Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

Milk is not the sole salvation of the underweight child. It is popularly supposed that milk and eggs are the chief hope of the undernourished, but a recent investigation of various foods administered as a mid-morning lunch to several groups of underweight children demonstrated conclusively that there are other nourishing foods as well as milk. The experiment was conducted under the supervision of Margaret S. Chancy, M.A., in Berkeley, California. The tests were made through two test periods of eight weeks each, one during the autumn months and one during the spring. Of the groups of children compared, one group was given milk and two graham crackers as a mid-morning lunch; another group was given either an orange or the freshly extracted juice of one orange; a third group was given one glass of bottled orangeade. The surprising result was that the orange group showed the greatest gain in weight, the orangeade group the second best gain, while the milk group came in third.

One point considered is that the under-nourished child frequently has an indifferent appetite, and the milk produces a satiating effect, so that he does not care for his regular noon meal when it comes. The orange, on the other hand, while it has some food value, is tonic and appetizing in its effect so that the indifferent appetite is stimulated rather than satisfied, and the child eats more heartily at regular meal times.

Oranges contain nature's most beneficial natural acid, which, strangely enough, is alkaline in its effect. Never sweeten oranges very much, as the sugar tends to ferment in weak stomachs, and the individual then blames the orange for the acid condition, thereby produced. Orange juice in its fresh, natural state, is easily digested by very young babies, and nothing surpasses it as a child tonic and laxative for old and young, strong or feeble persons.

A SPLENDID LAXATIVE FOR THE BABY

Mothers should constantly be on guard to keep baby's bowels working freely and his stomach sweet, for tenths of the ailments from which little ones suffer are caused by derangements of the stomach and bowels. Baby's Own Tablets are a splendid laxative for the baby. They are mild but thorough; contain neither opiates nor narcotics, and are absolutely guaranteed to be safe and efficient for either the newborn babe or the growing child. By their action on the bowels and stomach they drive out constipation and indigestion; break up colds and simple fevers and make the fretted teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

One good reason for learning to swim is that, if you don't learn, you may sometime be helpless to save a life that is dearer to you than your own.

But As a Means Only.
"I'm surprised to hear she's an advocate of matrimony."
"Oh, yes; but only as a means to alimony, you know."

A trench, said to date back to 3000 B.C., and recently excavated at Jerusalem, was cut 8 ft. deep into the rock, and 11 ft. wide.

The whole of the brain never works at one time. It operates alternately in two halves.

Continual dwelling on the inventory of our lacks is one of the surest ways of losing all the joy of life.

Always have Mustard on the table

It's not just custom that makes people take mustard with their meals. Mustard aids digestion and helps to assimilate the meats. It is a good habit to acquire. Mix it freshly for every meal.

but it must be Keen's

Eases Kitchen Work

To Women Who Do Their Own Work: Suppose you could save six minutes every day in washing pots and pans—two minutes after every meal. In a month, this would amount to a saving of three hours of this disagreeable but necessary work. This saving can be made by using SMP enameled kitchen utensils, as their smooth sanitary surface will not absorb dirt or grease. No scraping, scouring or polishing is needed when you use Diamond or Pearl Ware. Soap, water and a dish towel is all you need. Ask for

SMP Enameled WARE

"A Face of Porcelain and a Heart of Steel"

Three finishes: Pearl Ware, two coats of pearly grey enamel inside and out. Diamond Ware, three coats, light blue and white outside, white lining. Crystal Ware, three coats, pure white inside and out, with Royal Blue edging.

What is "Social Hygiene?"

Every thoughtful man and woman can work out his or her own definition of the term, social hygiene; but it is a little difficult to realize at first just what scope the movement now has. For it is no longer the old social reform idea, of making bad people good and sick people well, for which the social worker and philanthropist of the last hundred years labored so faithfully. To-day, medical science and philanthropy are devoting themselves to preventing people getting into trouble or falling ill; and we believe now in putting the fence at the top of the precipice rather than at the bottom.

Dr. Gordon Bates, the indefatigable secretary of the Canadian Social Hygiene Council and enthusiastic promoter of the cause of social hygiene since its inception, says that social hygiene means simply social happiness. That is, it aims at procuring normal environment and upbringing for every individual in the community. It implies good recreation and the development of the talents of the child, also good home conditions, and the organization of all methods which will provide the fullest opportunity for each person. This can only be achieved, says Dr. Bates, by the co-operation of the state, the community and the individual, and we must not forget the necessity of thinking of both genetics and ethnics—heredity and environment—in our endeavor to improve the race.

In her many talks all over Canada for the promotion of social hygiene work, Mrs. Pankhurst often mentioned what she considered its two aims. First, to secure for all children their three-fold birthright, physical, moral and social health; and second, to make a practical effort to apply the principle of Christianity to human life, and thereby wipe out the double standard of morality.

"Educate, educate, educate!" said Dr. C. J. O. Hastings, M.O.H. for Toronto, in an emphatic speech on social hygiene work. "But don't sit down while you do it. Keep right on battling with things as they are, while hoping for better ones in the future."

Perhaps the best summing up of the complete meaning of social hygiene is given in a trenchant paragraph by Havelock Ellis, when he says that it may be said to be a development, and even a transformation, of what was formerly known as social reform. In that transformation it has undergone two fundamental changes. In the first place, it is no longer merely an attempt to deal with the conditions under which life is lived, seeking to treat bad conditions as they occur, without going to their source, but it aims at prevention. It ceases to be simply a reforming of forms, and approaches in a comprehensive manner not only the conditions of life, but life itself. In the second place, it is no longer based on moral and systematic biological sciences which were scarcely in their infancy when the era of social reform began. Thus social hygiene is at once more radical and more scientific than the old conception of social reform. It is the inevitable method by which at a certain stage civilization is compelled to continue its own course, and to preserve, perhaps to elevate, the race.

Music From a Mirror.

More than two thousand years ago a barber discovered that, in moving his mirror, air was forced through the tubes which were common in mirrors at that time. This caused a curious musical sound to be emitted. So struck was he by this peculiarity that he set about making an instrument which was the foundation of the modern organ.

After several experiments he made a water-flute, in which air was forced by bellows through an inverted cone which led to flutes controlled by a keyboard, the pressure being kept uniform by water.

After a thousand years a rival instrument made its appearance. This was of a similar pattern, but, instead of water, weights regulated the pressure. In 951 an organ was erected at Winchester. It had twenty-six bellows and ten pipes to each key. The two men who sat at the keyboard "blew and sweated enormously." Later, a firm of organ makers in Germany succeeded in erecting the first really big instrument. Its primary stops did not differ very much from those of to-day, although various novelties were introduced.

Among the innovations were the nightingale and cuckoo stops, while others represented cock-crowing and goat-bleating. Though these novelties have now fallen into disuse, an organ with one of these nightingale stops is still to be seen in Rome.

It was not until the nineteenth century that the problem of the regulation of air pressures was solved by the introduction of the hydraulic blower.

Remit by Dominion Express Money Order. If lost or stolen you get your money back.

Cow and Its Calf.

A postman named Hutson was crossing a meadow at Holton, near Grimsby, when a cow followed him, lowing piteously, and occasionally running to the corner of the meadow.

When Hutson followed the animal it led him to a dry well, thirty feet deep, into which its calf had fallen. The calf was eventually rescued uninjured.

Before you look for the next job be sure you are filling the one you have.

Minard's Liniment Relieves Pain.

EASY TRICKS A Shadowgraph

The ability to make shadowgraphs, shadow pictures of familiar objects, by properly holding the hands between a light and the wall is not difficult to acquire. The illustration shows how easy it is to make a shadowgraph of a swan. A little experiment is necessary to get the exact position of the fingers and the angle at which the swan should be made to move its neck in a manner as nearly natural as the trickster can manage.

(Clip this out and paste it, with other of the series, in a scrapbook.)

EFFICIENCY IMPAIRED

Why Many Men and Women Are Badly Handicapped.

When you are so run down in health that it impairs the efficiency of your work as well as your power to enjoy your leisure hours, or obtain rest, it is time you looked to the cause. If you do not, a serious breakdown is almost sure to result sooner or later. In nearly all cases this condition, which doctors usually describe as general debility, is due to poor blood—blood that is deficient in red corpuscles. When the blood is thin and weak your whole system suffers. You lose appetite, have no energy, your nerves trouble you and you feel restless.

What you need is help to build up your blood and you should begin at once to make your blood rich and red by taking Dr. Williams' Pink Pills. You will soon notice the difference in your health, by a better appetite and increased vigor. The reason is that the new blood created by Dr. Williams' Pink Pills stimulates all the organs of the body to healthy activity, and so the system gains nourishment and strength. If you are weak or out of sorts begin gaining new strength to-day by taking Dr. Williams' Pink Pills.

You can get these pills from your drug store or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Women are wonderful, and, to its own mother at last, each baby is the most beautiful thing in the world. All the same, there are moments when mothers in candid mood will admit, if only to themselves, small points in baby's "make up" that might have been improved upon.

Unfortunately these minor imperfections do not always disappear as the years roll by. Often they are aggravated by neglect and wrong treatment. And so the intelligent mother might be advised to consult a beauty specialist if there is any matter calling for attention, for it is when baby is young and tiny that its future good looks may be moulded—or marred.

Very gently the nose that is developing on wrong lines may be pressed into the line of beauty. Mothers are amazed how much can be done by perfectly natural means to improve little noses.

The same with the ears. Mothers and nurses are, of course, on their guard against the protruding ears that are caused by careless adjusting of bonnets and caps, but there are cases where ears do have a curious tendency to stick out, and much can be done by seeing that ears are flat against the pillow when baby lies on his side, and also by gently pressing back to the head.

Eyes can be made clear and beautiful by keeping them immaculately clean. Dust is very destructive of eye beauty, and so is the glare of the sun.

Watch baby's mouth and see that the little lips are not allowed to fall into fretful lines. Manicure the nails of the hands and feet, and when the time comes for shoes other than soft woolies see that the beautiful feet with which baby starts his career are not made ugly by ill-fitting shoes.

Hair can be given a soft wave by brushing gently over the fingers, and a healthy constitution will ensure that greatest of beauty's gifts, a clear rose and white complexion.

Forget the business outlook. Just be on the lookout for business.

HUNTERS

Don't neglect to take a bottle of Minard's in the woods. The universal remedy for sprains, bruises and cuts.

BROCKVILLE FARMER SUFFERED 20 YEARS

"Les" Booth Finally Got Relief Through Taking Tanlac.

"Since taking Tanlac, I feel so fit it sometimes seems like a dream for there was hardly a day in 20 years that I did not suffer." Is the striking statement of Geo. L. ("Les") Booth, 271 Perth St., Brockville, Ont., one of the best known farmers in Ontario. "For 20 years, up to three years ago when I took Tanlac, I suffered from rheumatism in my arms, shoulders, back and hips, so bad at times I could not lift my arms to put my coat on. I couldn't even write my name and I just limped about like a cripple. Many a night it looked like I would not live to see daybreak, and once I was laid up six months unable to hit a lick of work.

"Money could not buy the good Tanlac has done me. It ended every sign of rheumatism and built up my weight 16 pounds, and since then I have not had a rheumatic ache or pain. If anybody wants to know about Tanlac, just let them see Les Booth."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills for constipation.

Listening.

One merit of radio is that it is teaching millions to listen who were not letter-perfect in that fine art before its coming. When there is that well-known "man with a message" or the musical artist of feeling and a soul, the "radio fan" listens with a concentration that educates him to hear more than the sound that issues from the loud speaker to the silent group before it. The habit of giving respectful attention to the inanimate instrument grows and is confirmed, so that we learn how to listen to other human beings—including even the members of our own families, junior or senior.

For though we are social and gregarious and commonly enjoy being communicative, we are usually not so good at hearing others as we are at telling our own affairs and "thinking out loud" on the assumption that what is of such keen concern to ourselves ought to be interesting to others. What "every woman knows" is that it is no trouble to get a man to talk if she invites him to pour into her sympathetic ear his own shop talk or his personal ambition. Perhaps he would sooner cross the line between mere acquaintance and the inner reality of friendship if in his turn he would be mute and give her a chance to spread out the treasures of her mind on the flattering assumption that she has one, or at least give voice to her own individuality.

A listener of the ideal type does more than sit passively silent. You cannot tell from the static attitude of certain persons whether they merely endure or whether they sensitively apprehend. Merely to be quiet while another speaks is not to listen. The true listener is a stimulating presence. Every platform speaker knows the difference between two sorts of audiences. In one he finds a quickening reaction that incites his own mental processes. In the other he discerns only the stolid patience of those who seem to remain in their seats merely because it is less effort to stay than to rise and depart.

We applaud orators; we sometimes elect them to political office for no better reason than that they talk glibly. It is a relief now and then to come upon a statesman whose influence seems to be in an inverse to his tactfulness.

Women's Progress in Japan.

Women are now taking part in political meetings in Japan and not infrequently deliver addresses from the platform, although they do not yet have the ballot.

Oysters cannot live in water containing less than thirty-seven parts of salt to every thousand of water.

MISERABLE AND ALWAYS IN PAIN

Lydia E. Pinkham's Vegetable Compound a Dependable Help for Mothers

Port Grenville, Nova Scotia—"I took your medicine for a terrible pain in my side and for weakness and headaches. I seemed to float all over, too, and my feet and hands were the worst. I am the mother of four children and I am nursing my baby—the first one of four I could nurse. I took Lydia E. Pinkham's Vegetable Compound before the baby's birth, so you can see how much it helped me. I cannot praise it too highly for what it has done for me. I took all kinds of medicine, but the Vegetable Compound is the only one that has helped me for any length of time. I recommend it to any one with troubles like mine and you may use my letter for a testimonial."—Mrs. ROBERT McCULLLEY, Port Grenville, Nova Scotia.

Before and after child-birth the mother will find Lydia E. Pinkham's Vegetable Compound a blessing.

Many, many letters are received giving the same sort of experience as is given in this letter. Not only is the mother benefited, but these good results pass on to the child.

No harmful drugs are used in the preparation of this medicine—just roots and herbs—and it can be taken in safety by the nursing mother.

98 out of every 100 women reported benefit from its use in a recent canvass among women users of this medicine. Q

Cuticura Heals Itching Eczema On Arms and Face

"My trouble began with red blotches and itching and burning on my arms and face, and then eczema broke out with a rash. My face was disfigured and my clothing aggravated the breaking out on my arms. I could not put my hands in water, neither could I do my regular work. At night I lost my rest on account of the irritation.

The trouble lasted about a month. I began using Cuticura Soap and Ointment and they helped me and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was completely healed." (Signed) Mrs. Leon Hallock, 104 Atkins St., Bellows Falls, Vt.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes. Sample Each Free by Mail. Address Canadian Depot: Cuticura, P. O. Box 2618, Montreal. Try our new Shaving Stick.

LOCAL NEWS

ATHENS AND VICINITY

Mr. and Mrs. E. Hagerman, of Mallorytown, were Sunday visitors in Athens.

Mrs. C. Gray, of Brockville, was in town for a couple of days last week with her daughter, Miss Cora Gray.

The High School students were given a holiday Tuesday, as many wished to take in the Delta fair.

Mrs. Ira Kelly, of Brockville, is spending a few weeks in Athens, a guest of her sister, Mrs. T. Berney.

Mr. Ernest Bogart, of Crogan, N. Y., spent the week end here with his family.

A goodly number of Athenians motored out to Delta on Tuesday and Wednesday and took in the fair.

Mr. Walter Percival, of New York State, was in town over the week-end with Mrs. Percival and children.

The "Triumph of Truth" is being presented at Mallorytown next Monday by the Athens Women's Institute.

Miss Mary Taggart, of Westport, has been spending a week or so in town with her sister, Mrs. A. Robinson.

Mr. Raymond Taylor, of the local branch of the Bank of Montreal staff, was in Montreal last week, a guest of his friend, Mr. McKinnon.

Miss Geraldine Kelly has returned home from Rockport and leaves for Ottawa on Saturday to attend the Normal School.

Mrs. Charles Gifford and children, of Clayton, N.Y., who have been in town and district visiting relatives, returned home on Friday last.

Mr. Almeron Robinson, who has been in failing health for some time, is now confined to his room and seriously ill.

Mrs. W. B. Percival, of Toronto, is spending a week or so in town renewing old friendships, a guest of Mrs. A. R. Brown, Main street.

Mrs. S. Ducoin went up to Kingston Tuesday to take in the fair and visit his daughter, Mrs. G. Scott, and family.

Mrs. Oscar Blancher and children, of Watertown, N.Y., have been visitors in Athens in the home of her husband's parents, Mr. and Mrs. C. Blancher, Mill street.

Mrs. R. C. Elder and child have joined Mr. Elder, science teacher in the High School, and are taking up residence in Miss E. Derbyshire's property, Prince street.

Dr. and Mrs. C. B. Lillie entertained a number of friends to a corn roast and dance at their pleasant summer home, "Frances Lodge," Charleston Lake, Wednesday evening in honor of their guests, Mr. and Mrs. M. E. McKenzie, of Toronto.

Mrs. M. Webster accompanied Miss Beatrice Bulford on her return home to Carthage, N.Y., where she will spend a few weeks visiting friends and relatives.

Under the auspices of the Women's Institute the Dramatic Club will present the play "The Triumph of Truth" at Mallorytown on Monday evening, in aid of the Memorial Park fund.

Mr. M. Brown returned home Monday from an enjoyable holiday of a few weeks spent in Montreal with his son, Rev. B. B. Brown, and family.

The Rev. and Mrs. H. E. Warren will receive at the Parsonage, Church St., on the afternoon and evening of Friday, Sept. 26th, from three to six and eight to ten o'clock.

Mrs. G. W. Beach gathered red raspberries from her garden on Sept. 17th, and invited the ladies who attended the W. C. T. U. parlor meeting to taste of the luscious berries.

The Annual meeting of the Local W. C. T. U. was held this Thurs. afternoon at the home of Mrs. W. G. Beach, Main St. A floral program was given by several of the members, after which dainty refreshments were served and the beautiful display of flowers made into several tasteful bouquets and distributed to the several shut-in citizens of the village.

Definite announcement was made this week that the Rugby Team of the Athens High School will be associated this season in the Inter-Scholastic Rugby League, comprising Perth, Smiths Falls, Brockville and Athens. Home and home games will be played each Sat., each team being scheduled for a total of six games. The Athens team is getting in good shape and has hopes of coming well up in League honors.

Mr. and Mrs. M. E. McKenzie, of Toronto, were in the village Monday calling on old friends. Mrs. McKenzie was a former resident of Athens, a daughter of Rev. G. Edwards, at one time pastor of the Methodist church.

Miss Leita Arnold, B.A., left Athens Tuesday morning for Montreal to take a position as teacher in the nursing training of the Royal Victoria Hospital.

Riverdale

Riverdale, Sept. 9.—Rev. Burton Lehigh, Barre, Vt., left on Thursday of last week for home, accompanied by Allan MacKenzie.

Mr. Shipman and son, of Ottawa, spent last week with Mr. and Mrs. George Wilson at their summer home here.

Much sympathy is felt for Mrs. Alex. Miller and Mrs. I. MacKenzie in the death of their brother, Rev. George Lehigh, pastor of the First Baptist Church at Everet, Wash.

Mrs. William Perrin, Maynard, was a guest for a few days here.

Mr. and Mrs. Walter Pattison were in Toronto last week.

The Misses Gertrude and Corinne Paillard, Montreal, spent the week-end with their cousin, Miss Mabel Higgins.

Miss Jean MacKenzie, who was on an extended visit in Toronto and other places, returned home this week.

Mrs. M. J. Higgins motored to Syracuse this week with friends.

ADDISON

Addison, Sept. 10.—Mrs. Thomas Brown returned home on Wednesday from Toronto.

Mrs. Roy Blanchard returned home from the Brockville General Hospital last week.

The W. M. S. met at the home of Mrs. Willis Sturgeon on Wednesday afternoon, September 3.

Carman Howe returned to Brockville on Saturday.

Rev. D. D. Elliott, Mrs. Elliott and Evelyn Bowes are at present spending a few days with friends in Perth.

Mrs. Perry and Mrs. Patterson, who have been guests at the home of Mrs. Goffs, left for Toronto last week.

Mrs. Hall, Smith's Falls, was a recent visitor at the home of Mrs. Goff.

Mrs. Earle, Smith's Falls, and Mr. and Mrs. W. Boothe, Ottawa, were recent visitors at the home of Mr. and Mrs. J. Best.

Phillippsville

Sept. 16th.—Several from here are attending Delta fair.

Miss Maggie Nolonhas returned home from professional duty at Lyndhurst.

Miss Ella Dwyre is home from her school at Harlem, it having been closed due to scarlet fever in the neighborhood.

Mr. and Mrs. J. W. Halliday recently enjoyed a trip to Montreal.

Mr. Harry Davidson has returned to Syracuse, also Geo. Aimer who was visiting his mother for a few days.

Mr. Lonie Lashly, Toronto was visiting at A. E. Whitmore's and W. B. Phelps.

Mrs. Putnam and Allen Haskins were at Ottawa Fair, also visited relatives there.

Mr. and Mrs. Morley Willows was at Ottawa Fair, also Mr. and Mrs. C. J. Myers.

Mr. and Mrs. Kenneth Halliday and family, Toronto, were visitors at Robert Preston's.

Mr. and Mrs. W. W. Phelps, Delta, were at A. E. Whitmore's recently.

HOUSEHOLD HINTS

Garden produce is so plentiful and so necessary to the health of the family that a greater use of vegetables is desirable. Excellent for a supper or luncheon dish is:

Potato and Tomato Pie

4 cooked potatoes
4 tomatoes
1 tablespoon chopped onion
2 teaspoons chopped parsley
1 cup cheese sauce or egg sauce or brown gravy.
2 tablespoons dried bread crumbs
1 tablespoon dripping
Salt and pepper

Grease a baking dish, fill it with layers of thickly sliced potato and tomato, chopped onion and pepper, pour over it the sauce and cover the top with bread crumbs. Place dripping over the crumbs and bake till hot and browned.

Bean and Tomato Stew

2 1/2 cups cooked string beans
2 cups tomato juice
1/2 sliced onion (steamer till tender in tomato juice).

2 level teaspoons dripping.
1 teaspoon pepper or paprika.
Few grains of soda.
Strain tomato and onion mixture. Add to beans with seasonings and fat. Cook till thick enough to serve on dinner plate.

Fried Ripe Tomatoes

Do not peel, but cut in thick slices. Dip in bread or biscuit crumbs and fry in dripping.

Vegetable Chowder

makes an excellent supper main dish.

4 potatoes
3 carrots
3 onions
1 pint tomatoes, peeled and cut in pieces.

2 tablespoons dripping
3 tablespoons flour
2 cups skim milk
2 teaspoons salt

Cut potatoes and carrots in small pieces, add enough water to cover, and cook 20 minutes. Do not drain off the water. Brown the chopped onion in the fat for 5 minutes. Add to the vegetables. Heat to boiling and add 2 cups skim milk, and thick- en with flour. Celery tops or green peppers chopped also give good flavor.

Cooking Vegetables in Quantity. Much time is wasted in the ordinary household by the prevailing method of preparing vegetables and other foods. Cooking sufficient for two or three days can be done if the vegetables are stored in a cold place and kept covered.

FOR THE COOKIE JAR

(By Barbara Brooks)

Although the white enamel box has replaced in many homes the tin, many parents are still fond of the dear to the heart of this generation, children as the good old brown covered with a plate, was to children of twenty years ago.

Among the favorites is the jelly jumble. In our family this was considered a special treat and it usually had a place at parties and was associated in our minds with ice cream and cocoa with whipped cream. As cookie jars have eluded into cake boxes, jelly jumbles have developed as well. To-day we have a corn flake date cookies which rivals any recipe of the last score of years.

Corn Flake Date Cookies

1 lb. dates
1 cup sugar
1/2 cup water.

Remove seeds from dates. Boil with sugar and water until soft.

1 cup butter
1 cup sugar
3 cups corn flakes
1/2 cup water

2 1/2 cups flour
1/2 teaspoon baking powder
1/2 teaspoon salt.

Cream butter and sugar. Add other ingredients. Divide in equal parts and roll thin. Spread on half with date mixture. Cover with other half. Cut in squares. Bake in a moderate oven.

A spice cookie is another good one for the cookies box. The spices help to keep the cookies if there is not too much opposition to this policy on the part of the children. Especially in summer, one day a week is often enough to bake cookies, so a large recipe, rich enough to keep fresh, is best to use. The dough can be mixed, rolled in a cloth in a long cylindrical piece and put in the refrigerator. This can be sliced and the cookies baked as needed. Or the cookies can be baked and put into the box with the hope that they will last until next baking day.

Spice Cookies

1-3 cup butter
2-3 cup sugar
1 egg

2 tablespoons milk
1 3/4 cups flour (or more)
1/2 cup bran

1 teaspoon baking powder
1-3 cup raisins
1/2 teaspoon cinnamon
1/2 teaspoon cloves
1/4 teaspoon mace
1/2 teaspoon nutmeg
1/2 teaspoon salt.

Sheets and tablecloths are best hung by folding six or seven inches over the line and then pegging up the two lower corners so as to form a bag.

HORSE STRUCK BY LIGHTNING.

Mr. D. E. Heffernan, of this village, had the misfortune to lose a horse from being struck by lightning. The animal was killed during the electrical storm of Saturday evening.

Soperton

Soperton, Sept. 9.—Mr. and Mrs. T. White spent Sunday at Mr. Richards', Harlem.

Guy Stevens, Athens, is employed with G. Sheridan.

Mrs. Goodbody and daughter, Hilda, left last week to reside in Brockville.

R. Sheridan and Z. Greenham are attending continuation classes at Delta, and John Frye has entered the Athens high school.

Mrs. Rutherford, Lyndhurst, visited Mrs. W. Thomas recently.

Miss Esma Davis has taken the Daytown school.

The local school opened with Miss M. Hollingsworth in charge.

HARD ISLAND.

Hard Island, Sept. 10.—Frank Wright, of Penelton, is visiting old friends and relatives here.

Mrs. Herb Stephenson has returned home after having attended the camp meeting at Delta.

Miss Violet Robeson has returned home after having spent a week in Hamilton and Toronto, where she attended the exhibition.

All are pleased to learn that Miss Bertha Besley is home to spend the winter here.

Bert Alguire has started a muskrat farm.

The school has re-opened under the management of Mrs. Trickey. All are pleased to have her with us again.

Thomas Howarth has begun work on the farm which he recently bought. It was formerly known as the old Wing property.

Miss Emma Wood is preparing to return to Montreal for the winter months.

Mr. and Mrs. Harold Howe spent Sunday in Addison at Levi Munroe's. Royal Gardiner is in Toronto attending the funeral of his son-in-law.

E. Wood, whose address is Lombardy, and that such sittings will commence at one o'clock in the afternoon and continue until three o'clock or until the appeals have been disposed of.

Last day for filing appeals, 1st October, 1924.

All persons are called upon to examine the Voters' List in order to ascertain that their names are correctly entered.

AND FURTHER TAKE NOTICE that any voter who desires to complain that his name or the names or the name of any person entitled to be entered on the said list has been omitted from the same, or that the names of any persons who are not entitled to be voters have been entered thereon, may, on or before the day hereinafter mentioned as the last day for filing such appeals apply, complain, or appeal to have his name or the name of any other person entered on or removed from the list.

AND FURTHER TAKE NOTICE that such appeals must be by notice in writing in the prescribed form signed by the complainant in DUPLICATE and given to the Clerk of the Revising Officer, or left for him at his address as stated above. There must be separate appeals for each polling subdivision.

DATED this 14th day of September, 1924.
