Whole Countryside Around Beamsville Up in Arms Over Villainous Assault Committed Last Night on Young Girl

Waylaid While on the Way Home From Work and Beaten Insensible With a Picket Torn From Fence; Author of Outrage is Suspected and is Being Kept Under Surveillance.

The whole countryside around Beamsville and Clinton is aroused to a pitch of indignation over a villainous outrage which was committed last night upon a young girl of the vicinity. County officers from that district came to the city this morning brought news of the affair, and they said the news was running so high that if a miscreant is caught there may be an attempt at a lynching.

The victim of the outrage is Ida, a 16 year old daughter of Arthur Beamsville, a farmer living about a mile from Beamsville. It has not yet been learned whether the girl has recovered sufficiently to tell who her assailant was or whether she recognized him. She was taken to her home.

Day Past When Canada Will Stand For High Protection

Ottawa Tory Paper Slams at Montreal Gazette's Latest Proposal as to Raising the Tariff Walls

OTTAWA, Feb. 12.—The Morning Journal, in a leading editorial, says: "The farmers were the first to propose a new so-called 'national party' Canada, and now some of our fine Tories are suggesting another, and are godfathered by The Montreal Gazette, whose idea of a political party is high protectionism—we know nobody would be so vulgar as to call it hog protectionism. The Journal has expressed a view that the greatest national danger at present is the upset of the protective system, but we are free to express our opinion, also, that any increase of the seal of the present tariff, or any lessening of the British preference, or any obstruction to free and continuous revision of any part of the tariff, would be a national calamity. And that is the kind of injury which would be likely to follow the success of any political party or organization much favored by The Montreal Gazette and its special interests. Senator MacLennan, having published an elaborate proposition for a political party, The Gazette eulogized the idea. As there is nothing in Senator MacLennan's proposition which is not already the principle of practice of the Unionist Government—not a word which would not appear reasonable and fitting and warranted if uttered by a present member of the Unionist Government—the question asks why The Montreal Gazette is eager to pat the Senator on the back. The answer is obvious.

beside her, so it is believed her assailant pulled the picket of the fence and knocked her down with it when she fought to protect her honor. There were tracks of man's footsteps in the snow and these led across the fields. At one place there was an indication where the man had fallen down in his haste to get away and that depression in the snow it is said may tell who the ruffian is. The man suspected of the crime has a deformity and it is said the mark in the snow fits in with this deformity.

It has not yet been learned whether the girl has recovered sufficiently to tell who her assailant was or whether she recognized him. She was taken to her home. High Constable Bode was notified of the affair at an early hour this morning and left at once for the scene of the crime to take charge of the case. It is expected an arrest would be made shortly. At any rate, a watch has been set on the suspected man. The victim of the assault was formerly employed in the telephone office at Beamsville. Last night she evidently was considerably later than usual in leaving Hamilton, or if the assault took place early in the evening it is surprising that she did not die of exposure lying so long in the snow by the road side.

The Gazette and its clientele do not like the admixture of Liberals in the Union Cabinet. They want a Cabinet of simon pure Tories, warranted to go the limit in the cause of high protection and high finance. Not considering the Unionist Government to be sufficiently safe for that purpose, they snipe at it in the hope of picking off the members they don't like, and scaring the balance into coming to heel to the selfish capitalistic spirit which the Gazette chiefly represents. The game will possibly result in smashing the cause of even moderate protectionism in Canada. Class government, we think bad at best, but if there must be class government, most people will likely fancy a farmers' government rather than a capitalistic government. "We imagine that the day is past when Canada will stand for high protection and high finance for the benefit of the large private profits. We believe that the maintenance of moderate protection is necessary at present to the prosperity of this country and that the most practical way to keep that is to keep the present Unionist Government in power, and that unless a large part of the people stick to this idea they will assuredly depart to something else than the fine old crusted Tories can favor. Moderate Conservatives who are wise should, we think, favor the Unionist government, and work for it rather than favor the ideas of any who are trying to drive allies from their side."

VETERAN ALDERMAN WHO SPENT BILLIONS LEAVES JUST \$1,000

CHICAGO, Feb. 12.—For many years newspapers of Chicago have rallied and thundered at "Ed" Cullerton as one of the "gray wolves" of the council, if indeed he was not the leader of the rapacious pack. City hall interests and reformers generally were interested today when announcement was made that the estate of the late Edward F. Cullerton, for many years representing the Eleventh ward, amounted to but \$1,000.

As a member of the council for forty four years, many of which he served on the finance committee, Alderman Cullerton had a hand in spending for the city of Chicago more than \$1,000,000, and he left an estate of \$1,000.

Other men, not branded as "gray wolves," came into the council poor men and went out because their vast business interests demanded all their attention. And they built up these great interests in a very few years. Friends of Cullerton say he gave away everything but a bare living to poor people in his ward and the probe of his estate seems to bear out this assertion.

VICE PRESIDENT OF INTERNATIONAL ASSOCIATION OF FIREFIGHTERS HAS ARRIVED IN ST. CATHARINES TO-DAY

Says There is No Danger of a Strike If the City Shows Any Disposition to Be Reasonable, Says Mr. J. B. Dalphond to The Evening Journal.

J. B. Dalphond of Montreal, Vice President of the Association of International Firefighters, arrived in the city today. He is at the New Murray.

Asked by The Journal as to the reason for his visit, Mr. Dalphond said he was here to try and effect a settlement of the difficulties which have arisen between the city firemen and the City Council with reference to their action in forming a union which is affiliated with the International Association of Fire Fighters.

"Is there any prospect of the firemen being ordered out on strike?" he was asked.

"Not the slightest," was the reply. "That is if the City Council shows a tendency to be reasonable in the matter. We are willing to go half way with the City Council and we ask the City Council to do the same with us."

"Are firemen of Canada pretty well organized?" was asked.

"We have 40,000 members in 226 cities," he replied.

Mr. Dalphond will confer with the Fire and Light Committee of which Ald. F. H. Avery, labor alderman, is the chairman. Ald. Avery is quite ready to deal with the official, but what way the other members of the Council will look at it remains to be seen.

Mr. Dalphond said there was not much likelihood of the members of the brigade resigning.

Asked by The Journal as to the reason for his visit, Mr. Dalphond said he was here to try and effect a settlement of the difficulties which have arisen between the city firemen and the City Council with reference to their action in forming a union which is affiliated with the International Association of Fire Fighters.

The county now only pays 80 per cent. of the cost of its pupils and the delegation requested that the county pay 100 per cent., or full cost. It was pointed out by the members of the delegation that the arrangement is rather an unfair one to the city in view of the crowded conditions at the Collegiate.

The law states that 80 per cent. is the figure but it was pointed out that the County Council could very easily increase its grant to the school.

Chairman Trapnell intimated that the collegiate might refuse to any longer accept county pupils because of the limited accommodation.

It is expected that the County Council will bear part of the expense of building the new collegiate which will cost about \$50,000.

WATCH YOUR STEP

Tomorrow is Friday the thirtieth. Just watch your step that's all.

Merritton Youth Badly Hurt When Caught in Cogs

Albert Willard, a young man belonging to Merritton, was painfully injured last night at the Lybster mill where he is employed. It is understood that in endeavoring to fix something in the machinery he became caught in the cog wheels and the side of his body was badly lacerated. Dr. Vanderburg was called and attended the injured youth and he is getting along as well as could be expected, at his home.

The doctor said the injuries were not likely to prove fatal.

THE WEATHER

TORONTO, Feb. 12.—Several shallow depressions exist on the continent this morning. While pressure remains highest on the British Columbian coast. Some light local snow falls have occurred in the western provinces and local snow flurries from Ontario to the Maritime Provinces but on the whole the weather has been fair.

FORECASTS.

Mostly cloudy with some light snow falls and flurries today and on Friday. Not much change in temperature.

PEOPLE SHOULD REFRAIN FROM DANCING DURING FLU EPIDEMIC SAYS DR. HASTINGS, TORONTO

Points Out That One Boy or Girl Going to a Dance May Cause a Whole Household to Be Stricken With the Disease; Bad to Dance When Disease Beginning

"I have too much regard for the intelligence of the people of Toronto to feel that it is necessary to issue an edict against dancing," declared Dr. Hastings, Medical Health Officer of Toronto, in reply to an enquiry as to whether he intended to prohibit public functions of this character during the influenza epidemic.

"It people would only think they would realize the danger and act accordingly," he continued. "One boy or one girl who goes to a dance may cause the whole household to be laid up with influenza within 48 hours, and probably one life at least would be sacrificed, simply to gratify the desire for one or two hours' entertainment in the evening."

"Moreover, young men and young women should bear in mind the danger to themselves, if they cannot think of others in the same hours. If they go to a dance when the disease is just beginning with them, as no doubt many of them do, their vitality is very materially lower, they have decidedly less resisting powers to exposure, cold and so forth; yet they take off a heavier garb and put on a very light and sparing garb, while the exertion of dancing will cause them to perspire much more freely than if they were in good physical condition, and, therefore, predisposes them to a cold afterwards, which would result in the converting of what would otherwise have been a mild case of influenza into one of pneumonia or broncho pneumonia."

Won't Close Schools.

Neither does the M.O.H. intend at present closing the schools. "I have taken the stand that children are decidedly safer in the schools," he declared. "Schools have an organized medical and nursing service and the children are under the direct supervision of nurses and doctors. There is little or no danger of children attending schools carrying the germ of the disease to other pupils unless they are incubating it themselves, inasmuch as the germ of influenza does not live long outside the human body."

192 Deaths.

There have been 192 deaths in Toronto during February from influenza and pneumonia, including 118 from the former and 74 from the latter complaint. Deaths from other causes during the same period total 184, so that over 50 per cent. of the 376 deaths so far this month are due to the epidemic, which in January had claimed 100 victims.

The Burnside Home, which has been set apart for influenza cases suffering from complications, has now only one spare bed. Nursing help is required urgently for that institution, as well as for homes. There now are over 750 families under supervision in Toronto and one district nurse yesterday had to turn down 50 calls for assistance, as no help was available.

The Red Cross Bureau had 36 calls for nursing aid in homes yesterday, but were able to answer only 16.

Public Library Board Organizes For the Year With William Erskine As New Chairman

A regular meeting of the Public Library Board was held on Tuesday evening with the following members present, Messrs. Erskine, Robertson, Nicholson, Watts, Hesson and Hetherington. The chair was taken by Librarian Briden and on motion of C. A. Hesson, seconded by D. C. Hetherington, Wm. Erskine was elected chairman for 1920, his second term in that position.

W. Briden was re-appointed Secretary on motion of W. J. Robertson seconded by C. A. Hesson, it was resolved that the standing committees for 1920 be constituted the same as in 1919, except that Mayor Lovelace take the position on the Committee previously occupied by J. M. Elson, Mayor for 1919. The standing committees are therefore as follows, the first name in each case being chairman.

Finance Committee: A. M. Watts, D. C. Hetherington, Mayor Lovelace.

Book Committee: W. J. Robertson, D. C. Hetherington, W. Erskine.

Building and Grounds Committee: E. C. Nicholson, C. A. Hesson, A. M. Watts.

Library Extension Committee: C. A. Hesson, E. C. Nicholson, W. J. Robertson.

Mr. S. K. Watt was appointed Treasurer of the Board on motion of Trustees Hesson and Watts.

A letter was read from the Secretary of the Local Council of Women

expressing the thanks of the Council for use of room in the Library for the monthly meetings.

Mr. Nicholson reported the order of ten tons of coal for Library use and the purchase of a table and book-truck for the Juvenile Department.

Mr. Robertson reported for the Book Committee the purchase of some books as per list submitted, and the report was adopted.

Mr. Watts presented the first report of the Finance Committee, recommending payment of salaries and accounts as submitted in the report and the report was adopted.

On motion of Trustees Watts and Hesson, the Treasurer was instructed to request from the City Council an interim grant of \$2000, pending the passing of the estimates.

The Librarian's report for December and January showed a circulation of 2339 adult books in December and 2331 juvenile, total 4670; in January 3239 adult and 1622 juvenile, total 4861. Receipts from fines and cards in December \$37.05, in January \$44.26.

The annual report for 1919 was read as follows: volumes withdrawn or lost, Adult 169, Juvenile 196, total 365; volumes added, Adult 430, Juvenile 932, total 1362; volumes in Library, Adult 8626, Juvenile 3997, total 12623. The circulation for the year was, Adult 31716, Juvenile

MUNICIPAL PROBLEMS

The increase in the estimates of the Board of Health for this year, as prepared for the meeting held a day or two ago are another indication of the financial problems with which the City Council of this year will have to contend. There is from this Board alone an advance of a considerable sum over the amount appropriated last year and yet the Board of Health is a body which has very wide powers and which has had urgent demands made upon it for the use of money, owing to the epidemics which have been prevalent in the city. More than this it must be admitted that the wages paid to the caretakers of the isolation hospital and the conditions under which they have had to live have been of a nature that makes a greater outlay necessary if there is to be efficiency and sanitation.

In addition to this there are the increased wage lists for the other civic departments which must be considered with equal fairness and equity. The price of living has been steadily going up and there are men and women engaged by the city, and who have to bear a good appearance who are not drawing any more than day laborers. It is not just that a municipal corporation should expect men and women to work for it and under conditions that are a reflection on that municipality. A city as wealthy and as prosperous as this should give its employees good wages and salaries and in return demand the best of services. Only efficient servants should be kept but those that are employed should be decently paid.

The finance committee of last year's Council recognized this fact and before the year closed spent many hours going over the list and estimating where and what increases could be given. In fact a list was prepared which it was proposed should be passed on to the finance committee of this year for adoption if it felt disposed to take the judgment of the men who sat in the Council last year. This method was

Corns Lift Off
 Doesn't hurt a bit to lift any corn or callus off with fingers.

No humbug! You truly can lift off every hard corn, soft corn or corn between the toes, as well as hardened caluses on bottom of feet without one bit of pain.

A genius in Cincinnati discovered freezone. It is an ether compound and tiny bottles of this magic fluid can now be had at any drug store for a few cents.

Apply several drops of this freezone upon a tender, aching corn or a callus. Instantly all soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with the fingers. You feel no pain while applying freezone or afterwards.

Just think! No more corns or callus to torture you and they go without causing one twinge of pain or soreness.

Ladies! Keep a tiny bottle of freezone on the dresser and never let a corn or callus ache twice.

adopted because any increases could in that way be included in the estimates of this year.

Whether the new Council has the list or cares to recognize it we do not know, but it proposed increases that were considered by the retiring Council as in some measure in keeping with the increased cost of living to the employees.

While The Journal feels that a strain may be put on the government of this year to meet the extra wage and salary requirements it also believes that the tax payers will not complain against giving a respectable pay to its servants. Just how all the money is to be raised is a matter for the finance committee to figure out and that committee is comprised of men who are capable of doing it, but the public at large should also appreciate that as representatives of the people the Council of 1920 has not the smoothest of paths. Under the unusual legal restrictions of this city, only certain sums can be raised by taxation and the question of how to make a little go a long way is what may puzzle the aldermanic board.

MARRIAGE OF MISS IRENE BELL TO JAMES DARLING

Miss E. Irene Bell, only daughter of the late James T. Bell and Mrs. Bell, of this city, and James Darling, youngest son of Mr. and Mrs. James Darling, of Merriton, were married yesterday afternoon at the home of the bride's mother, 83 King street, this city, Rev. Dr. Martin officiating.

At 4 o'clock the bridal party entered the drawing room and took their places in front of a bank of ferns and palms to the strains of the wedding music from "Lohengrin" which was played by Miss Margaret Swayze.

The bride who was given in marriage by her mother looked charming in a wedding gown of white charmeuse, satin with overdress of georgette, pearl trimmings, bridal veil with wreath of orange blossoms. She carried a huge bouquet of bridal and sweetheart roses, her only ornament being a pearl necklace, the gift of the bridegroom.

Miss Nellie M. Fawell dressed in pale pink crepe de chene with touches of pale blue and black picture hat with ostrich trimmings attended the bride, while Eden Darling, brother of the groom, was the best man.

After the service was over and congratulations were being extended to the happy young couple, Mrs. C. Karn sang very sweetly, "All joy be thine," and after the signing of the register Miss Swayze played very softly the wedding music from "Mendelssohn."

A buffet luncheon was served to about fifty guests by four girl friends of the bride attired in pale pink; Nellie Parnall, Inez Howes, V. Bessey and Mrs. Hibbert Neil. The bridal pair left on the 6.03 train amid showers of confetti and the

She Came From

A FEW Sundays ago a young unmarried girl, after vainly applying for admission elsewhere, staggered in a fainting condition into a maternity home.

HERS was the old, old story—trusting—betrayed—out-cast forsaken.

FORSAKEN? No! The Salvation Army thanks God every hour for opportunities given to show that the Love of Christ still beats in many hearts.

THIS young girl is passing through their hands peacefully and will leave them with her self-respect restored.

AGAINST GERMANY

Plebiscite in Schleswig Favors the Danes

APENRADE, Schleswig, Feb. 12.—A Jyverwhelmish victory for the Danes in this zone of the Province of Schleswig, the future status of which is to be determined by the plebiscite held yesterday, is indicated by its complete returns received here. Court's districts showed large majorities for Denmark, while he vote in towns showed larger figures than Danish estimates.

Donder, Apenrade and Sonderburg, however, have been carried by the Germans.

Brampton defeated Burlington in a J.H.A. intermediate second round game by 17 to 6.

Best wishes of their many friends for Buffalo, Detroit, Michigan, and other points east, the bride travelling in a navy blue serge suit, hat a match and black fox fur.

When dangerous illness occurs, a specialist is called into consultation. His thorough knowledge of specific ailments is the result of concentrated study and practice. His services are considered best at such times.

Our Dental Offices are founded on this very principle. We employ only specialists who give their entire attention to specific branches of Dentistry.

Regardless of this specialized form of treatment, our prices are unsurpassed for modesty.

The filling of cavities is accomplished by specialists. Extractions are made by specialists. The most skilled crown and bridge work is done by specialists. All plates are made and fitted by specialists.

We believe that our is the only Dental Office in New York State that affords this specialized form of Dental treatments and the success of this principle of practice is written down in our 26 years of public service.

Free examinations and consultations are courteously granted to all.

Fillings 50c and up.
 Very good Plates, \$8.00.

CONTAGIOUS ABORTION
 A Too Common Trouble With Some Farm Mares.

CAUSE of the Disease Discovers—Method of Spreading Described—Measures for Control—Oyster-shell Bark Louse With Its Treatment.

(Contributed by Ontario Department of Agriculture, Toronto.)

CONTAGIOUS abortion of mares is due to a specific bacillus (*Bacillus abortus equinus*) which gets established in the uterus, fetal membranes and foetus, setting up local inflammation leading to expulsion of the foetus dead or alive at any time during pregnancy.

The symptoms of approaching abortion are not usually in evidence until just before abortion takes place. Then the animal is seized with colic pains, restlessness and straining, and a swollen vulva with a mucous discharge is noticeable. After abortion, the symptoms are more specific. There is a chocolate brown fluid discharge from vulva which has a typical offensive odor, and the foetal membranes are inclined to remain intact, thus necessitating artificial removal to prevent blood poisoning.

The disease has been known in Europe for many years, but it was not found on the American continent until 1886, when it appeared in the Mississippi valley. Since then it has spread far and wide in the United States and Canada. Although many investigations were made both in Europe and America, it was not until 1912 that the cause of the disease was discovered. In that year E. S. Good, of Kentucky, discovered the bacillus which causes the disease. The same year Dr. Schofield, of Toronto, discovered the same bacillus in some cases of joint ill in colts which had developed in districts in Ontario where contagious abortion of mares was prevalent and the following year found the same bacillus in cases of contagious abortion of mares in Ontario.

Method of Spreading.—The disease is spread mainly by the discharges from the vulva of aborting animals. If a mare that has aborted is served before all discharges from the vulva have ceased and the genitalia have not efficiently disinfected, then the stallion is liable to get contaminated with the bacillus and spread the disease to other mares which he subsequently serves. If the discharges from an aborting mare are allowed to contaminate the bedding or other materials that other mares come in contact with, then the mares are liable to contract the disease. If the discharges are allowed to contaminate water or food materials that are given to other mares, the latter are liable to contract the disease.

Measures for Control.—1. Three months before the season of abortion and subsequent breeding.

2. Mares that have aborted must not be bred if there is evidence of uterine catarrh, even after three months.

3. Mares that have aborted must only be bred at the end of the stallion season.

4. Application of an efficient disinfectant to the external genitalia of the stallion after each service in infested districts.

Measures to Be Employed at Time of or Subsequent to Abortion.—1. Isolation of mare at first sign of approaching abortion.

2. After abortion the foetus and membranes should be burned, if possible, or buried deeply in quick-lime.

3. Those handling the foetus and mare should disinfect hands and clothing.

4. Bedding should be burned and the stall washed with a strong disinfectant.

5. External genitalia, thighs and tail of mare should be washed daily with a good disinfectant. Two per cent. bichloride, lysol, or cresol, is satisfactory for this purpose.

6. Isolation of mare should be maintained for at least a month or until evidence of uterine discharge has ceased.

Treating the animal with drugs, as carbolic acid, black wash and methylene blue, though popular in some districts, cannot be recommended as being of any value.—Dr. J. H. Reed, O. A. College, Guelph.

Oyster-shell Scale.

This is a very common orchard insect. It attacks not only apples but also pears, plums, currants and many ornamental and shade trees and bushes. Full grown scales are found almost exclusively on the bark and are easily recognized by their oyster-shell appearance. They are about 1/16 of an inch long, 1/24 inch wide, taper towards one end and in color resemble closely the bark.

The injury is caused by their sucking the juices out of the bark and thus weakening the trees. When very abundant they almost completely cover the bark and in that case may kill either the whole tree or portions of the branches. Most infested trees, however, are not killed but only weakened.

Control.—Spraying the trees just before or just after the buds burst with lime-sulphur solution, 1 gallon to 8 or 9 gallons of water, is a satisfactory remedy. The regular Codling Moth spray with one gallon of lime-sulphur to about 29 gallons of water, to which two pounds of arsenate of lead paste or one pound arsenate of lead powder is added will also help greatly, because it will hit the young scale insects just after they have hatched, while they are still unprotected and easily destroyed. Dead scales may remain on the trees for several years after date of killing. Pruning the trees early makes it easier and cheaper to spray them well.—Prof. L. Caesar, O. A. College, Guelph.

Thomas H. Black has been appointed to the chair of Roman Law, English Law and Jurisprudence at the University of Toronto.

To match any material, have any druggist show you "Diamond Dye" color card.

SAVE MAKE CANADA SECURE

"Go Teach All Nations Beginning at Jerusalem"

"THAT'S it," says a critic, "beginning at Jerusalem! You should correct paganism at home before going abroad to look for it. I do not believe in Foreign Missions."

Yet Jerusalem was not Christianized when the Apostles went to Antioch; when Philip was sent to the Ethiopian.

Remember This

The man who does not believe in Foreign Missions stands today clothed and educated because of Foreign Missions. When did English culture begin? With the visit of St. Augustine, a Foreign Missionary from Rome. Who Evangelized Rome? A Foreign Missionary named Paul, of Tarsus and Jerusalem! What if he had gone to the Ganges instead of to the Tiber? Certainly Canada needs more Christians, but the best way to improve our own spiritual life is to help bear the burdens of the world.

The Need of Africa

Africa was first explored by a Missionary who lives in Westminster Abbey, honored by all nations. David Livingstone was succeeded by other devoted men, who gave themselves unreservedly to the people of the Dark Continent. Triumphant success in some districts—Uganda for instance—is balanced by dull failure in others. Yet the general prospect is encouraging. Through Canadian Missions in that land, men are raised out of savagery, women are ennobled, children are cared for and educated.

The Missions Established

Five Christian Communions in Canada—Anglican, Baptist, Congregational, Methodist and Presbyterian—have an extensive mission work abroad. They have sent overseas many devoted men and women. By their work, barriers have been broken down and in every land there is an eager call for more missions, more teachers, more doctors, more hospitals. Now, owing to the declining value of the dollar, it is necessary to double the expenditure in order even to hold the ground won. Until that is done, an advanced Missionary programme can not be undertaken.

The Chance in China

China is attempting to develop a democratic spirit before the nation is prepared for it. Many of the leaders got their first glimpse of true liberty in Christian Mission Schools. Now they talk of establishing one million Government primary schools. They look to Canadian Missionaries for help in the establishment of normal courses. Was ever such an opportunity before the Church—to help influence the school teachers of a great, new nation of four hundred million people?

A Mandate for Expansion

All men, who think honestly realize that the Gospel of Christ is unique in moral splendor, in spiritual force, in civilizing influence. It redeems the individual and exalts the nation. It has made the modern world of thought, of industry, of progress. It must go out over all the earth to ease international relationships, to put an end to cruelty and misery. There is free entry for the Gospel in every nation under Heaven. Lift up your heads, O ye Gates of India, and be ye lifted up, ye everlasting Doors of China and Japan and Africa, and the King of Glory shall come in.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over fifteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for use. The boxes of 24 tablets and 100 tablets, which a few cents. Larger "Bayer" boxes contain 500 tablets.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing Co., manufacturers, so watch the public health institutions, the Tablets of Bayer Aspirin will be stamped with their general trade mark, the "Bayer Cross."

"Go Teach All Nations Beginning at Jerusalem"

"THAT'S it," says a critic, "beginning at Jerusalem! You should correct paganism at home before going abroad to look for it. I do not believe in Foreign Missions."

Yet Jerusalem was not Christianized when the Apostles went to Antioch; when Philip was sent to the Ethiopian.

Remember This

The man who does not believe in Foreign Missions stands today clothed and educated because of Foreign Missions. When did English culture begin? With the visit of St. Augustine, a Foreign Missionary from Rome. Who Evangelized Rome? A Foreign Missionary named Paul, of Tarsus and Jerusalem! What if he had gone to the Ganges instead of to the Tiber? Certainly Canada needs more Christians, but the best way to improve our own spiritual life is to help bear the burdens of the world.

The Need of the World

Japan, Formosa, Korea, the South Sea Islands, South America, and not least, the pagans in our own land, need the Gospel. The Missionary is welcomed in all lands. Men everywhere appreciate the spirit of those Canadians who forget themselves in order to serve the suffering and the weary. Idealism in action counts.

The Call to Action

Canadians, Churchmen or non-Churchmen, you meet the charges of the war with cheerfulness, since it was waged to establish righteousness in the earth. Now hear the call of the Churches for adequate means to continue by peaceful suasion the work which for four years was done by batteries and bayonets. Your Church appeals directly to you, civilized and educated by Foreign Missions of an ancient time, to meet your obligation to that same Great Cause today.

ZARA RUDED BY VENICE

Winged Lion of Saint Mark Caps Gate In the Town Wall.

Zara, where Gabriele d'Annunzio is reported to have landed, and its location relative to Fiume, already occupied by the soldiers-poet, is described in a U. S. Geographic Society bulletin, based on a communication from Kenneth McKenzie, follows:—

Starting from Fiume, one sails down the channel called Quarnero, leaving Istria and the Gulf of Quarnero to the right. The Island of Arbe, about half way to Zara, has an old cathedral with a twelfth-century tower. Coming from Trieste one skirts the western shore of Istria, stopping perhaps at Rovigno and at Pola. The stay of an hour enables one to get a hurried glimpse of the great amphitheatre and other Roman remains of Pola, under Austrian rule, and the important naval station and strongly fortified. The language here is chiefly Italian. Istria would well repay the time devoted to a trip of several days, by stopping at one or two of the islands, to Zara, the most northerly town of importance in Dalmatia.

Zara is noted all over the world for its marvellous beauty, and is, however, the town has many attractions to offer. On landing from the steamer in the land-locked harbor, we find ourselves in front of a gate in the town wall. Over the gate is the winged lion of Saint Mark, often met with here and elsewhere in Dalmatia, and a symbol of the former dominion of the Republic of Venice. Passing through the gate, we enter the narrow paved streets of a typical Italian city, such as we may imagine it to have been two or three centuries ago, except that the hotels are more comfortable. There are many medieval churches in the town, interesting architecturally, and containing works of art. The cathedral in particular, a majestic Romanesque church, is richly adorned with many arcades of little columns and inside with marbles and paintings. It is in the best Italian style of the middle ages. Its campanile is a landmark.

Wandering among the narrow streets, we come upon several open squares and market-places, where in the morning scores of peasants may be seen in the brilliant-colored costumes. There are Roman remains, too—columns and statues.

Leaving Zara, the steamer comes out of the harbor, circles the point of land on which the city stands, and skirts low-lying shores, passing among innumerable islands. All at once a narrow opening appears; we go through it, and find ourselves in the spacious harbor of Sebenico, the town rising from the water to a fort crowning the hill.

Loyal to British Crown. There are a number of diminutive water-surrounded monarchies of the coast of Scotland. They are ruled by their kings, but are subject to the British crown. One of them is the Isle of Bute, in the Firth of Clyde, which is owned by the Marquis of Bute.

JUDGE'S A. CHESLEY. A veteran member of many denominational boards, Judge Chesley of Lunenburg is chairman of the Nova Scotia executive of the Methodist National Campaign. The New Brunswick chairman is Chief Justice McKeown.

Kit-boat will build 400 houses for working men.

Higher Railway Rates Necessary, Says E. W. Beatty

Wage Increases on Canadian Roads More Than Interest on Whole War Debt

ADDRESS AT WINNIPEG

Railway Situation in Canada Without Parallel Any Place in the World, He Says.

Winnipeg.—Addressing the Canadian Club at a luncheon at the Royal Alexandra on the subject, "The New Railway Situation," E. W. Beatty, president of the Canadian National Pacific Railway Company, gave a plain statement of a coming increase in rates.

Mr. Beatty said:—"Since I had the pleasure of visiting Western Canada in May last—a very important change in the transportation situation has taken place through the sudden consummation of a plan for the acquisition of the Grand Trunk and Grand Trunk Pacific Railway Companies, with a view to their incorporation into the system of the National Railways. In the course of the negotiations and other formalities have been fulfilled, this consolidation will take place and the test of the possibility of successful administration of a vast system of railways under the aegis of the Government will be made. It is probably the most ambitious and comprehensive task which any Government or any people has taken upon themselves, except temporarily and in emergency necessity. It may be a test over a period of years and the results may be expensive, but under honest management and with independent and non-political administration, and above all with accurate information supplied to the public as to the result of these operations, the people of this country will be able to determine for themselves whether that system is the best and if not what improvement should be made in it. I make no comment on the wisdom of the decision to transfer the control of Government ownership of railways in Canada. The matter has been settled by the representatives of the people. I am sorry, however, that little more time and information were not given both to the people themselves and their parliamentary representatives, because I would have been better satisfied that the decision which is now before the people of this country, especially of the business communities, have a particular stake in the railway situation, and a particular knowledge of what constitutes efficient railway service. The decision has been taken, however, and the consolidated system will be administered by independent and non-political administration, with experienced railway operators and executives in immediate charge of the property, with the decision to transfer the control of the financial support to the Government, and the Government of the day with full responsibility for the expenditures of the monies voted for the operation, but the railway situation in Canada is now completely changed, and the country must depend for its railway facilities, where needed, upon the National Railways or the Canadian Pacific, because with preponderating mileage under the control of the Government, it is not likely that new capital would be attracted to new railway enterprises for the rewards which such investments might bring. Therefore, I think it may be fairly stated that such additional construction as takes place within the next few years will depend upon the willingness of the National Railways and the Canadian Pacific to contribute to the cost of such construction as takes place within the next few years to meet their financial needs to meet them."

MEANS KEEN COMPETITION. "This is a situation which is without parallel any place in the world where a government-owned and operated railway and a privately owned and operated railway are so greatly different in the matter of mileage, both with, of course, adequate credit, have in their hands the transportation insufficient at most places throughout Canada. It is true, I think, that this will provoke a highly competitive condition. How it will depend upon its honesty and its fairness. If political methods are to be introduced into the competition, and the political expediency or if political rewards follow the extent of the support or otherwise which is granted by shippers to the National Railways, then I should say the competition would be unfair and of doubtful commercial or national value."

"During the course of the year, the railway company of Canada had to meet a great many problems, due to the emergencies which prevailed which were unusual and of great importance and which required new methods to secure their being dealt with competently. For that purpose the Canadian Railway War Board was constituted and through it the efforts of all railways were coordinated to meet the extraordinary demands through the movement of war traffic and soldiers. The work was well and efficiently done; was done in a few days, and which, with the hour's demurrage was caused by Atlantic shipping by delays on Canadian railways. I have recently re-

ceived a letter from Sir Joseph Macleay, British Minister of Shipping in which he points to the fact that a conspicuous example of the effective work in which the work of the Canadian railways was performed. "Since the war, there has been considerable increase in the volume of traffic in Canada, and in the organization of which is contained a variety of financial and traffic officers of the companies, who are constituted to act jointly, when joint action would be furtherance of the public interest of the people of the railways. Mr. Hanna and myself sit on the executive Committee, and I am very hopeful that with the experience which he has gained, and which has been confirmed in his original decision to be a railway man and not a politician."

"I have known Mr. Hanna for a great many years, and his appreciation of his personal qualities and official ability as disclosed in the numerous exacting and difficult positions which he has held, and which are very great. The fact that he was trained in his earlier years in the service of the Canadian Pacific and has always, both personally and officially, retained a very sincere affection for his former company has not detracted from my appreciation of him."

"Mr. Hanna and I have a great many problems in common, and others which are individual because peculiar to the different systems of railway operation, in which we are respectively involved. It may be necessary in public utterance for us to refer to each other, or the interests which we represent, but I recognize that these references will be few and far between, because I can imagine nothing more less public interest or public importance than my opinion of the National Railways and Mr. Hanna's opinion of the Canadian Pacific and myself. Mr. Hanna rather departed from the rule a few weeks ago in Toronto, and with his characteristic Scotch pawky humor, he said that he would like to see the trouble with me was that I did not believe in public ownership, but that I would hope for its success, and that he was not understanding the fact that the Canadian Pacific had occupied a very unique and strong position within the Empire, in a few months' time it would be number one in the world, and that means that the trouble with me was that I did not believe in public ownership, but that I would hope for its success, and that he was not understanding the fact that the Canadian Pacific had occupied a very unique and strong position within the Empire, in a few months' time it would be number one in the world, and that means that the trouble with me was that I did not believe in public ownership, but that I would hope for its success, and that he was not understanding the fact that the Canadian Pacific had occupied a very unique and strong position within the Empire, in a few months' time it would be number one in the world, and that means that the trouble with me was that I did not believe in public ownership, but that I would hope for its success, and that he was not understanding the fact that the Canadian Pacific had occupied a very unique and strong position within the Empire, in a few months' time it would be number one in the world, and that means that the trouble with me was that I did not believe in public ownership, but that I would hope for its success, and that he was not understanding the fact that the Canadian Pacific had occupied a very unique and strong position within the Empire, in a few months' time it would be number one in the world, and that means that the trouble with me was that I did not believe in public ownership, but that I would hope for its success, and that he was not understanding the fact that the Canadian Pacific had occupied a very unique and strong position within the DOES IT HURT YOU TO BEND OVER

This is a Sign of Kidney Weakness, But Can be Quickly Cured.

Don't give up! You can be cured and made well again. That backache and dragging weariness can be stopped for all time. Those sharp attacks when bending over, and that lameness in the morning, can be overcome. Every ache and pain due to kidney weakness will disappear quickly once you start to use Dr. Hamilton's Pills, a marvellous remedy long ago made famous by its strange healing effect upon the kidneys and liver. Don't wait till that dragging pain in the loins grows worse. Start the cure today.

Delay will mean swelled ankles and limbs, sharp rheumatic pains in the muscles and joints and other painful symptoms as well. If you are always tired, have continuous headache, dizzy spells and specks before your eyes or ringing noises in the ears—there are common symptoms that warn you of the immediate need of Dr. Hamilton's Pills of Mandrake and Butternut. Sold in 25c boxes.

NEVER HAVE SEEN A DOG OR A CAT

Children in War - Scarred Europe Never Even Hear the Birds Sing.

When you grinned at the six-year-old son of the house romping in the yard with his dog, or watched his small sister carefully dividing her attention between ribbon bows for the house "tabby" and the robin on the lawn, did it ever occur to you that somewhere in the world there are little folks of the same age who have never seen a dog nor a cat nor heard a bird sing. Yet, there are some hundreds of thousands of youngsters in war-stricken Europe to-day who are ignorant of the existence of the furred and feathered creatures which help to make a Canadian kiddie's day worth while.

Jewish relief workers who have returned from the Eastern and Central European countries cite the absence of domestic animals and birds to illustrate the desolate barrenness of the countries that were swept again and again by the warring armies for nearly five years. Jacob Basheln, who had charge of a unit for the Joint Distribution Committee, the sole agency disbursing relief funds raised by the Canadian Jewish Relief Committee, the Central Committee for Relief and the Jewish People's Relief Committee, has described the conditions there.

"In that bare stretch of country where there are scarcely any trees, no habitations other than the miserable dug-outs in which returned refugees exist—the 'no man's land' of Poland—we did not see a single cat or dog, and in all the time we were there we never heard a bird sing. Armies have swept bare the country and trampled the ground to the consistency almost of rock, while shell-fire has blasted the countryside. No animal, even domestic animal was left there. So there are children to-day of five or six years of age who have never seen a dog nor a cat and have never heard the singing of a bird!"

DESTITUTE JEWS HAVE NO HOUSES

Six Million Unfortunates Compelled to Use Packing Cases, Cans and Sacks.

Patterning on the block houses that children build, the destitute Jewish refugees of Eastern Europe, whose houses have been destroyed during the war, are trying to solve their housing problem with the packing boxes in which relief supplies have been sent to them, according to reports received by the Canadian Jewish War Relief Committee from relief workers abroad.

Not only is every particle of food and clothing used to the utmost advantage in these stricken lands where 6,000,000 Jews are at the point of starvation, but the cans and sacks and wrapping cases in which the food and clothing come are made to do duty as well. There is neither lumber or nails in most of the countries of eastern Europe at present, and the packing boxes are handled as if they were the finest mahogany, when the shipments arrive. Not a nail is allowed to go to waste, when the boxes are taken carefully apart.

All over eastern Europe at present men, women, and children, many of them sick with typhus, are living in cellars, in devastated houses, in old freight cars, on roofless platforms, open to the wind, or in fields, unprotected from the elements. The clothing of these destitute Jews, consisting for the most part of the rags that they have worn for the five years of the war, afford them little warmth.

For this reason, the packing boxes, which might not be considered particularly luxurious homes at another time, are welcomed as life-savers just now. Boards from them are used to re-build broken houses, and even to make lean-to shelters where the building stood before. Some of the smaller boxes are piled one above the other, like children's blocks, and nailed together, to serve as temporary houses.

MOTHERS PRAY THAT BABIES MIGHT DIE

Suffering Among Jews is So Bad That Death Alone Gives Relief.

Mothers begging for death to relieve their children's suffering, was the most tragic thing seen by Leo Wolfson, New York attorney and journalist, in seven weeks spent in Roumania, Galicia, Bessarabia and Bukovina. Mr. Wolfson, who has just returned to New York, made the trip in order to study political conditions in these countries.

"There are one and one-half millions Jews in this section of Eastern Europe who are in immediate want," declared Mr. Wolfson. "In every town I visited, I saw starving, naked Jews stretching out their hands to passers-by for a piece of bread. They hardly look like human beings. All one sees are living skeletons, covered with yellow skin. The children are small, worn-out, frightened, little creatures, who just drag themselves aimlessly around."

"How they will live through the winter, no one knows. No one can begin to describe the picture of misery and want. But one can get an idea of it, knowing that mothers are actually praying that death take their children, to relieve their terrible suffering."

Wilfred Mills was accidentally killed in Ontario Paper Company mill at Thorold.

AFTERBIRTH RETAINED

The Cause and Cure of a Not Uncommon Trouble.

Cows of All Ages Are Sometimes Affected. Remedies Suggested Where Veterinary Cannot Be Had—Grape Pruning For the Garden.

(Contributed by Ontario Department of Agriculture, Toronto)

RETENTION of the afterbirth, foetal membranes or placentas, commonly called "the cleanings," is not uncommon in cows. Its cause is not understood. While it is probably more frequently met with in cows in low condition and unsanitary surroundings, no care, food, attention or surroundings act as preventives. It is noticed in cows of all ages, all breeds, cows in all conditions and at all seasons. We cannot understand why it occurs, or why it cannot be prevented, but experience teaches us that such is the fact. Good care, comfortable surroundings, avoidance of cold and dampness, especially in cold weather and giving a warm mash for a day or two after calving tend to aid expulsion of the membranes, but even all precautions frequently fail. The administration of medicines is equally expeditious. In other cases spontaneous expulsion does not take place until after decomposition, when they are expelled in pus and small pieces.

The symptoms usually occur by the protrusion through the vulva of a portion of the membranes, but in rare cases this symptom is not present, the membranes being wholly contained within the uterus. In such cases, provided the cow has been unaided it is hard to know whether they are retained or have been eaten by the cow. Cows have the objectionable habit of eating the afterbirth. We cannot account for this taste, and when possible it should be prevented. In some cases the consumption of the membranes does not appear to affect the health or general condition of the animal; in others it causes trouble, and in some cases death from various conditions.

Treatment.—When the membranes have been retained for 24 hours or over in warm weather or for forty-eight hours in cold weather they should be carefully removed by hand. Where a veterinarian can readily be procured it is probably wise for the ordinary stock owner to employ him, but a stockman who understands the anatomy of the parts, and is not afraid of a dirty and sometimes tedious job, can operate himself. The lining membrane of the womb is covered with many little lumps (called cotyledons) which are attached by constricted necks, with surfaces varying from one inch or less to three or four inches in diameter, to which the membranes are attached. The operator should have an antiseptic lotion is a 2 per cent. solution of one of the coal tar antiseptics in warm water. A gallon of two of this should be injected into the womb. The operator should disinfect his hand and arms with the same, introduce the hand into the womb and carefully separates the membrane from each cotyledon, being careful to not tear or injure any of them. If a few are removed the consequences are not likely to be serious, but it is better to remove none. When the whole has been removed a little more of the antiseptic should be injected into the womb. It is good practice to give the cow 40 to 50 drops of carbolic acid in a part of cold water as a drench, or sprinkled on her food three times daily, until all discharge ceases.—J. H. R., O. A. College, Guelph.

Grape Pruning For the Garden.

The average neglected grapevine is generally such a tangled mass that it is very difficult to describe how to prune it. The owner should determine what sort of a trellis he means to fasten his vine on. If there are a number of vines in a row the general practice is to grow it on two wires, these to be drawn tight on posts about 16 feet apart, first wire three feet and second wire five feet from the ground. If only one or two vines are in a place it can be grown on a trellis made of two narrow strips of board nailed to posts. One thing never to be overlooked is all fruit is produced on last year's wood. Most neglected vines have too much old wood. Try to get one or two upright canes of two-year-old wood or older with four arms or younger canes equally distributed on the two wires. These arms should not be over six feet long, giving four arms of this length. This is sufficient bearing wood for any vine. Suppose the upright part is satisfactory and there are four arms on it, from these arms laterals or side shoots will grow, on which the fruit is produced. A vine should be pruned after it freezes before winter and before it thaws in the spring. Pruning in mild weather causes bleeding from the cuts. The laterals that bore fruit should be cut back, only leaving one bud to sprout the following season and the fruit will grow on that sprout. It is quite easy to occasionally renew one or more arms by training a young branch to take the older one's place. When that is done cut off the old branch. With little practice pruning is easy, the common fault being to leave too much wood. If in doubt as to the above method of pruning, write for Illustrated Bulletin 237, "The Grape in Ontario."

Scarcity of Feeder Cattle.

With the growing scarcity of feeder cattle and the advance in value of farm lands, the baby-beef industry is of increasing importance and is receiving the attention of farmers in all live stock sections of the country.

Rev. Wm. Ivens must show why he shouldn't be punished for alleged contempt of Court.

Chamber of Commerce Activities

Preparation of the "Machinery for the membership campaign of the Chamber of Commerce is rapidly advancing at the headquarters in Union Bank Building. Many callers drop in each day to ask questions and in other respects the show of interest among the citizens is encouraging to the campaign manager.

"So many people have asked me just how we are going to handle the task," he said to-day, "that I have drawn up this little outline of the whole campaign. It is arranged under the headlines that have been suggested by the questions we have been asked:

1. Securing the necessary membership and income for three years.

(a) A carefully compiled list of the citizens of St. Catharines who should support such movement, made in card index form.

(b) The number of memberships that each should carry, based upon the benefit to be expected, and what corporation and men of similar standing in other cities are doing, indicated on each card.

(c) This list to be examined carefully by two separate committees and passed upon by the executive committee before it is used.

2. Creating a working membership.

(a) During the campaign for membership and afterwards, a systematic method of acquainting the public with the proper functions of a Chamber of Commerce to be put into operation.

(b) A series of luncheons which ultimately become schools of organization, to be held; these luncheons open to non-members. At these luncheons specialists will present the steps necessary in successful organization management.

(c) The speakers to be aided by charts and other methods of graphic presentation. Everything reduced to a common sense basis and hip-horror methods avoided.

(d) This definite and methodical way of presenting a sometimes misunderstood field of activity fortifies the optimist with a mass of intelligent arguments and smother the pessimist under a mass of carefully collected facts that leave no ground for just criticism of a real Chamber of Commerce.

3. The development of a program of work.

(a) With the completion of the membership and educational campaign, the development of a program of work will be the next step.

(b) Each member will be asked to express himself on what he think the organization should undertake for the welfare of the city as a whole and for the promotion of his line of work.

(c) The expressions thus received will be collated and written into concrete paragraphs, these forming the planks of the program of work.

(d) This method brings unity of action in the shortest possible time and enables the officers to reach out intelligently to the individual members for support and help.

4. Installation of committee organization and control.

(a) Special instead of standing committees.

(b) Careful analysis of work to be done.

(c) Definite schedule of action, preparation of needed date, limited committee appropriations, conferences between committees and directors at frequent intervals.

5. Outline of office system.

(a) Disbursement sheet and authorization of expenditures.

(b) Budget for proper distribution of expenditures.

(c) Card index for membership record and for proceedings of the directors and committees.

(d) Filing records for industrial, commercial and other information, photographs and data for publicity requirements.

Word was received in town of the death of Mrs. A. M. Woodley, of Ridgeway, who passed away on Friday, February 6. The deceased was a former resident of Beamsville, her maiden name being Pearl Smith, daughter of the late Geo. M. Smith. The body was taken to Seaford for burial.

MINERS' M.P. REGRETS

Moves Amendment Referring to Nationalization of Coal Mines.

LONDON, Feb. 12.—William Braae, president of the South Wales Miners Federation, speaking in the House of Commons in behalf of Labor today, moved an amendment to the reply to the speech from the throne expressing regret for "the absence of any proposal to nationalize the coal mines of the country along lines recommended by the majority of the members of the Royal Commission on the coal industry, which was appointed to advise the Government as to the best methods of reorganizing the industry."

STARR Gennett RECORDS

Here They Are Now for All Lovers of Good Music

New Starr Gennett Records for February

FROM the great cathedrals and halls of old England, the studios of great artists, and the Broadway theatres, where talent and melody are wedded, comes the all-embracing range of Starr Gennett Records, bringing joy and entertainment to thousands of homes.

REDROSE TEA "is good tea"

WE were among the first to put up tea in sealed packages.

We were the first to use automatic electric weighing machines so as to insure accurate weights.

We were the first to make known the qualities of the now world-famous ASSAM teas.

And we are now the first to adopt a new package for the better protection of these fine quality teas.

The lead package has served its purpose well for generations, but it was easily broken or torn, allowing not only a loss of tea from the package but exposing the tea to the air, odors and dust that it was so necessary to protect the tea against.

Our new package—the waxed board carton—is stronger, more secure and more completely air tight; altogether the best container for tea that has yet been devised.

REDROSE TEA "is good tea"

Four Good Reasons for a National Forward Movement

"For God so loved the world, that He gave His only begotten Son, that whosoever believeth on Him should not perish but have everlasting life."

DESPITE the four years' fury of War, and the year of uncertainty just ended, the people of Canada have prospered. Yet, spiritual glories revealed to us in the great Conflict are being clouded by drifts of class-hostility, mutual suspicion and cynical materialism.

The world is troubled. Old conceptions are giving place to new. Yet, the Kingdom of God remains, firmly grounded on the great principle of love. It has the one remedy for a world diseased:—"Believe on the Lord Jesus Christ and thou shalt be saved."

Five Christian Communion—Anglican, Baptist, Congregational, Methodist and Presbyterian—call their various constituencies and the whole nation to a livelier and more sacrificial Christianity. They are making a great financial appeal. It is fitting that the public should know the reasons.

1 The Decline of the Dollar The sharp rise in prices the world over has affected injuriously the position of every man working for a fixed salary. Missionaries are in this category. Stipends that were ample in 1900, and nearly adequate in 1912, are utterly insufficient in 1920. There has been no general increase in these stipends. There cannot be, until the Canadian people scale-up their giving to balance the decline in purchasing-power of the Canadian dollar.

International exchange has been unstable. Money for export has been subject to heavy discounts. In view also of the increased cost of materials and of labor, any new building programme abroad has been out of the question. But the need for new buildings is imperative. Some missionaries are living in clay-floored huts.

New Standards are Necessary The Anglican Synods, the Baptist Conventions, the Congregational Union, the Methodist Conferences, and the Presbyterian General Assembly, have set new standards for the salaries of Clergymen actively engaged in Canada. But, for the Missionaries, and for the Superannuated Ministers, no increases have been possible.

One of the aims of the Forward Movement is to show the fine-spirited, generous, Christian people of Canada that the old standards of giving for Missions must be revised. It is impossible to maintain existing stations, even on a pre-War basis, without more men and much more revenue.

2 The Call from Abroad Coincident with this financial difficulty, new and glorious opportunities for the extension of Christian teaching have appeared. In India, literally millions of "outcastes" are pleading for Missionary preachers and doctors. In China, a new National spirit has been born. Missionary teachers are urgently required to help formulate the National system of education. Hospitals, Missionary nurses, doctors and dentists, are heartily welcomed by the people. From Japan, Africa and the Islands of the Sea, comes the same story.

3 The Home Responsibility Here in Canada, the work of evangelizing Indians and Eskimos must now be undertaken wholly by the Canadian Church. The rapid growth of our cities, the expansion of the West, the great immigration of the last twenty years, and the depopulation of rural areas, make a four-fold problem which can be solved only by radical readjustments of policy and greatly increased resources of men and money.

4 The Pressure on the Colleges Finally, the decline of the dollar has created difficulties in financing the Colleges and Universities established and maintained for the training of the Clergy. Last year, one College which had been able before the War barely to subsist, faced an additional charge for coal alone of \$1600. All other expenditures have risen in like proportion. Christianity has been the mother of Higher Education. A thoroughly trained Ministry is the great need of the times.

The men of faith, filled with the Holy Ghost, who proclaim the Gospel story by the frozen Coppermine, beneath the cone of Fujiyama, along the banks of the Yangtse and the Ganges are the product of our Canadian Colleges. There the Vision first appeared to them. The Church must stand behind these institutions.

The Unity of Faith and Prayer These are the facts. Faced with such conditions, the Church leaders, at first, were appalled. They went to their knees, first in separate denominational groups, then in company. Putting aside for the time being differences of religious temperament, considering only their common belief in the Everlasting Father, the Almighty Son, and the everpresent Holy Ghost, they prayed together. Then they arose, thrilled with a glimpse of the wonderful Missionary opportunity, to appeal together to the whole body of Christians in Canada.

The Greatest of All Gifts You are a believer in the Lord Jesus Christ, and in the Gospel He proclaimed. Your country has become great through Christianity. The hope and love of the Gospel have warmed your heart and illumined your life.

Next week you will be asked by the representatives of your Church to show practical proof of your convictions. Be prepared—not to give a trifle out of your abundance, but to taste the full sweetness of Sacrifice.

AUDITORS' REPORT TO SHAREHOLDERS
We have compared the above Balance Sheet with the books and accounts at the Chief Office of The Dominion Bank, and after a careful examination of the same, we certify that the same is a true and correct statement of the affairs of the Bank as on the 31st December, 1919, and that the same is in accordance with the books of the Bank.

START TOMORROW AND KEEP IT UP EVERY MORNING

Get into the habit of drinking a glass of hot water before breakfast.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels. The quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach troubles, indigestion, sleeplessness, impure blood and all sorts of ailments.

Banker Killed In His Bath By Boiling Water

New York and Philadelphia Financier Scalded by Steam From Shower. Believed He Fell in Trying to Get Away

NEW YORK, Feb. 11.—H. P. Cregar, 67 years old, a well known banker and broker of New York and Philadelphia, died at the Hotel Chatham here of scalds and shock received while in his shower bath. His wife heard him scream and ran to the bathroom, finding him under a stream of boiling water. She was unable herself to pull him out and by the time she had secured help Cregar was horribly scalded. He died soon afterward. Physicians said his death was caused by scalding and something similar to shell shock in the trenches.

It is supposed that Cregar started suddenly when the first boiling water fell on him and in doing so opened the faucet fully, then fell and was covered with the scalding shower. His wife says she could not find the faucet to turn it off because the room was full of steam.

Argonauts beat Dons 7 to 5 in an O.H.A. senior game last night. The Dons have an unbroken record of 10 wins, while last night's victory was Argos' first.

ASQUITH ON RUSSIA

Condemns Government's Attitude on This Issue of War.

LONDON, Feb. 12.—Ex-Premier Asquith last night declared that King's speech a colorless document, but selected one topic for remark—that normal conditions should be restored to Russia. He admitted the Prime Minister had always been opposed to intervention, and disposed to welcome efforts for settlement, but had been overborne by "more adventurous and reactionary colleagues." The Government's Russian policy, he said, had only strengthened the power of the Soviets, and if continued would lead to the establishment in Russia of a military regime, as after the French revolution.

Hospital for Sick Children

Upkeep of Big Charity Requires Fifty Cents a Minute.

Dear Mr. Editor: The 44th annual report of the Hospital for Sick Children, Toronto, shows a notable advance in every department of its service to the suffering and crippled youngsters of this province. The ward accommodation has been taxed to its capacity, and the summer annex, the Lakeside Home, was opened for the first time since the outbreak of war.

The daily average of out patients has increased during the year from 192 to 223, including children from practically every county in Ontario. Even had the cost of supplies and labor remained stationary, the substantial increase in the number of patients would alone account for the addition to the charity's debt, which at the close of the fiscal year was \$109,000. This debt has become an embarrassing burden. Further increase must threaten impairment of an admirable efficiency.

The Hospital is in the forefront of all institutions upon this continent devoted to the care of sick children. It cost \$335,399 to maintain last year. This great sum not only puts at the service of the children of Ontario all the resources of medical science, but, in addition, provides for a training school for 120 nurses and for unsurpassed clinical facilities for the University students who are preparing to engage in their profession throughout the province.

The income which must be forthcoming to finance this absolutely essential work figures out at seven hundred dollars a day; and, as there is no endowment fund, all but a fraction of that amount has to be derived from individual benevolence. Therefore the Trustees, making a Christmas appeal to every lover of children to foot the bills for some period of time, no matter how short it may be. A minute of mercy costs fifty cents.

For churches, societies, lodges, etc., who have more ample funds wherewith to assist the youngsters to a fair start in life, the naming of a street is suggested. A number of memorial cotts have been thus dedicated in honor of the overseas service of fellowmembers. This privilege is extended in recognition of gifts of \$2,000 to the Main Hospital or \$500 to the Lakeside Home, which can be paid in annual instalments if so desired.

Literature, illustrative of all branches of the past year's work, together with any other information desired, will be gladly furnished on application to the Secretary, the Hospital for Sick Children, College Street, Toronto. Contributions should also be addressed to the secretary, IRVING E. ROBERTSON, Chairman of Appeal Committee.

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, HAIR EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well, he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE. There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pain in the stomach. Sleepless, wakeful and restless night follows.

OFFICE HOURS:

Mondays, Wednesdays and Saturdays—9 a.m. to 9 p.m.
Tuesdays, Thursdays and Fridays—9 a.m. to 6 p.m.

BUFFALO, N. Y.

RHEUMATIC AFFECTIONS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, AGING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS. Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD, the "building process" of the body and mind, of the muscle and tissue formations, of any of the various organs, can be accomplished only by working direct through the blood stream.

Fifty Years of Progress

Our Jubilee Year.—The year 1919 was notable inasmuch as it completed the first fifty years of the company's active operations, and at the same time marked the year of its greatest development and progress in all departments of its business. The first policies were offered to the public in the spring of 1870, and the end of the first half century sees the company with unimpeachable assets of \$38,000,000 and policies in force amounting to \$170,000,000.

Remarkable Expansion of Business.—The most remarkable feature of the year was the flood of new business received, due largely to the awakening of popular appreciation of the beneficent function of life assurance by the experiences of the war and the influenza epidemic that followed. The increase in new business acquired was nearly 90%. That the record for quality business was fully maintained is indicated by the large increase of \$33,065,691 in the total business in force, being over 80% of the new business written.

The Surplus Earnings.—No item of the year's operations is more gratifying than the great increase in the surplus earnings. Notwithstanding a certain number of abnormal death losses arising from the war and the influenza epidemic, amounting to \$352,857.65, the surplus earnings for the year were \$1,302,801, an increase over the previous year of 60%, and showing earnings of \$34.27 for every \$1,000 of total assets held at the end of the year.

Invested Funds.—Never in the history of Canadian life insurance has there been such a remarkable opportunity for the profitable investment of life insurance funds, and the effect of the past year's investments will be to enhance the surplus earnings over a long period of years, through holding up the average rate of interest earned on the invested funds. For the year 1919 the company earned the very satisfactory rate of 6.39%.

Comparative Statement of Growth

Year	Income	Assets	Paid to Policyholders	Assurance in Force
1870.....	\$ 4,950	\$ 6,216		\$ 600,000

Mountain the best quality at a

Strong Campaign Committee is Named For the Chamber of Commerce; Ald. Graves at Head

The work of developing community leadership for the Chamber of Commerce Campaign has occupied several days and many conferences were held with gentlemen representative of every phase of business and professional life in the city, and it was the unanimous feeling of all consulted that Ald. E. C. Graves be Chairman of the Campaign Committee.

Mr. Graves at first demurred but strong representations were made and as one gentleman put it, "Ed does things, he may differ from you and you may differ with him, but he's the best fellow living," there can be no finer tribute than that from one man to another. It bespeaks the breadth of vision and tolerance that is already manifesting itself, in the line up for the Committees of the Campaign Organization.

Supporting E. C. on the Campaign Committee are the following gentlemen, and it will be noticed that they are a representative group of citizens who may be relied upon to give this city the best sort of service that can be given in the upbuilding of a representative and thoroughly efficient Chamber of Commerce.

ent Chamber of Commerce.
E. C. Graves, Chairman; Hon. Judge Campbell, G. G. McGhie, F. Greenlaw, M.P.; Arthur Robinson, Dr. John Sheahan, Major Geo. Bradley, F. C. Field, J. A. Forster, A. E. Coombs, P. B. Yates, W. B. Burgoyne, Major Lovelace, Ald. J. E. Riffer, J. E. Waterhouse, Peter Grant, Major Ivan McSloy, Thomas Crawley, Rev. R. D. Hamilton, Lt.-Col. McCordick, and W. J. Neal.

Heading an energetic group of local gentlemen on the Prospects Committee, which inspects and amplifies the list prepared by the Bureau specialists, now in town, of the prospects in individuals and firms for membership in the Chamber of Commerce is W. J. Neal. This committee met for a short snappy session yesterday at four o'clock. On this committee are: W. J. Neal, Chairman; J. K. Kernahan, Harry McKelvie, A. Robinson, and D. M. Mair.

After the next meeting of the Campaign Committee, there will be issued a further list of committees for various duties throughout the campaign and a description of the proposed schedule of events. It was known today, however, that arrangements were being made for a big community get together in the Collegiate Gym on Thursday night, February 19th, at which several good speakers will be present.

NO LOAFERS

In Italy If the Socialist's Bill Now Before Parliament Carries.

ROME, Feb. 12.—All able bodied citizens of Italy between the ages of 20 and 65 would be required to work by the provisions of a bill introduced in Parliament by Giovanni Lombardi, Independent Socialist Deputy who calls the measure "a tax on laziness." Persons able to work who fail to do so are subjected to heavy

Big Developments in Evangeline's Land

The new Dominion Atlantic Railway Passenger Station at Bridgetown.

Not only is the Canadian Pacific Railway making advances in accordance with the necessities of the times, and providing every modern improvement for the convenience and comfort of the public, but all its subsidiary lines are similarly progressive. The Dominion Atlantic Railway, which serves a large portion of Nova Scotia and runs through the beautiful Land of Evangeline, now owns and operates The Pines Hotel at Digby, providing first class accommodation for the large numbers of tourists who visit the district. A new night service between Halifax and Yarmouth has recently been inaugurated. This night service leaves Yarmouth on Monday, Wednesday and Saturday evenings, and Halifax on Sundays, Tuesdays, and Fridays, and marks one of the most important developments since the through-line of railway from Yarmouth to Halifax was opened for traffic in 1891. These trains carrying on a combined freight and pas-

senger service, but only carloads of through merchandise are carried. When on a trip of inspection over the Dominion Atlantic Railway, at the end of November last, Mr. Grant Hall, vice-president of the C. P. R., expressed the desire to have the D. A. R. equipped in the near future with steel rails much heavier than those at present laid. He said that this work would probably be undertaken when the effects of war conditions had disappeared. Important improvements are being carried out along the line and arrangements are progressing for the erection of a new station at Digby which will provide the most up-to-date facilities for tourists and other traffic and add considerably to the beauty of the town. It is estimated that during 1919, 60,000 tourists visited Nova Scotia and spent there about \$3,000,000. Recently a new station was opened at Bridgetown, much to the satisfaction of the public of that town. It is a handsome building

24 ft. x 56 ft. with 20 ft. overhanging on each end and has in front a tavia walk 350 feet long and 12 feet wide. The building is very conveniently designed. It has a cement basement. The outside finish is stucco on trussing lath, centred with plain pebbled dash, with smooth finish above and below. The roof is asbestos. The inside consists of gents' room, 20 ft. x 24 ft., office 14 ft. x 14 ft., ladies' waiting room, 12 ft. x 24 ft., and baggage room 24 ft. x 12 ft. The inside finish is of Douglas fir and birch, finished in the natural wood. The ceilings and side walls are sand finish tinted in cream. There are also up-to-date conveniences and the heating plant consists of a Cumberland hot air furnace manufactured and installed by Mr. G. E. Banks, of Bridgetown, who also executed the plumbing. The inside and outside decorating was in charge of Mr. Harry Sanction. The whole work, including the building of a freight shed 30 ft. x 48 ft., on the

opposite side of the track, was built by contract by J. H. Hicks & Sons, under the personal supervision of Mr. E. A. Hicks, of that firm, who has already built seven Dominion Atlantic Railway stations. The Dominion Atlantic Ry. has also added to its system the hotel at Kentville now known as the "Aberdeen." Kentville is an important and growing centre, and the fact that it is now to have modern hotel accommodation will add tremendously to its benefit. The "Aberdeen" is splendidly situated, and will be made very attractive. It will be renovated and refurnished from cellar to roof. Many of the rooms will be equipped with private baths. The work of renovation will begin at once, but will be so conducted that guests will not be disturbed. The Aberdeen will continue to be operated the year-around, and cater to the general and commercial interests as well as to the tourist traffic.

Thick, Tender Savory Meat

or chops—the kind, you know, that make your guests praise your hospitality, your cooking, your entertainment. Why not this kind of meat instead of the doubtful cuts and inferior meats? We want you to know our meat. A sirloin or porterhouse steak, a roast, chops from the loin, etc., will enable you to judge quality.

Announcing Red Rose Orange Pekoe Tea

During our twenty-five years in business, Canada has made wonderful progress in education, refinement and wealth.

The scale of living and the tastes of the people are more luxurious than a quarter of a century ago.

Realizing this we have decided that in addition to our well-known standard brands of Red Rose Tea, the sales of which are increasing faster than ever before—the time is opportune to introduce a tea of extra quality. It is an Orange Pekoe Tea of very fine quality under the popular Red Rose brand, and called Red Rose Orange Pekoe Tea—a special tea of extra quality for people who are willing to pay a little extra price.

To ensure the quality and success of this new tea we have concentrated on it all the resources, the experience and the advantages possessed by our big organization. The Orange Pekoe Teas we use are selected with a knowledge born of long experience in buying teas abroad.

Red Rose Orange Pekoe are grown on the best plantations; — from tested seed; — on carefully cultivated soil; — at a high elevation (mountain

grown teas are very superior to low-land teas.)

They are gathered at the time of the year when the flavor is most fully developed in the leaves.

The manufacture and final preparation are carefully and skillfully done.

When brewed, Red Rose Orange Pekoe Tea has all the characteristics of fine quality tea.

It has a bright, sparkling amber color in the cup.

The aroma is delicate and delightful.

After the liquid is poured off, the leaves in the pot are a greenish copper color.

The flavor is of rare charm and distinction. The more cultivated your taste the more you will appreciate it.

The strength is rich, satisfying and invigorating.

Red Rose Orange Pekoe Tea is sold only in our sealed waxed board cartons which fully protect its fine quality.

Ask for it by the full name: Red Rose Orange Pekoe Tea. The words "Orange Pekoe" are in orange on our new waxed board cartons.

T. H. ESTABROOKS COMPANY, LIMITED

St. John, Montreal, Toronto, Winnipeg, Calgary, Edmonton, St. John's, Nfld., and Portland, Maine.

To Grocers:—Our travellers are on the road taking orders for the NEW tea. If our traveller has not reached you, better phone or mail an order immediately to our nearest office. There is sure to be a considerable demand at once for this fine quality tea.

Mountain grown Orange Pekoes from the best plantations. A tea of extra quality at a little extra price.

Our well-known Red Rose package, the sale of which is increasing faster than ever before. Red Rose consists chiefly of Assam teas, the richest and strongest in the world and therefore very economical. (The Red Rose Orange Pekoe package is a little different in design.)

Children Cry for Fletcher's
CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Thorold Branch—S. H. Finkner, Manager
Niagara-on-the-Lake Branch—F. W. Wilson, Manager

CITY AND DISTRICT

Mr. and Mrs. T. J. Welsh have left on a trip to New Orleans.

We buy everything you want to sell. McGuire & Co.

City Hardware for sale. Phone 541. Feb. 10-11-12.

St. Georges church choir will give a concert in parish hall on Tuesday evening.

The pupils of St. Hilda's school will hold a fancy dress party tomorrow afternoon.

This week all the chapters of the Daughters of the Empire are holding their annual meetings.

Mrs. Van Dusen who has spent much of the winter in Miami, Fla., is returning to this city next week.

Ald. H. E. Rose who has been quite ill at the Welland is improving favorably.

There is quite an epidemic of flu in this city according to the health authorities.

Mr. David E. Weshner, campaign director of the Canadian Jewish War Relief is in the city from Toronto on behalf of the movement.

Real estate men predict that the greatest demand in the history of St. Catharines for houses will be experienced this spring.

The weather turned slightly warmer last night and today there is a distant suggestion of spring time in the air. It is now seven weeks since the steady winter set in, an unusual period for the Niagara Peninsula.

The matinee and evening performances at the Grand Opera House of the Winnipeg Kiddies were largely patronized. The wholesome acting and singing of the little folk were thoroughly enjoyed.

Dr. Poirier, formerly resident physician at St. Michael's Hospital, Toronto, and well known in St. Catharines has opened an office at 4 Court Street and will resume the practice of medicine.

Mr. E. J. S. Brown, secretary of the Canadian Club has received word that General Sir Arthur Currie will be the guest of the Club on March 5th, and will give an address. The appearance here of Canada's war hero will no doubt attract a large audience.

Mr. V. D. McLeod, manager of the local branch of the Bank of Nova Scotia, has bought the home on Welland Avenue, formerly owned by Mr. J. E. Waterhouse. Mr. D. M. Muir, manager of the Royal Bank has bought a home at the corner of Midland and Ontario streets.

The remains of Wilfrid May arrived here this morning from Iona, Michigan, and were taken to Grobb's undertaking establishment. The burial will take place Saturday afternoon from his home in Port Dalhousie.

The removal of the vaccination ban at Niagara Falls is being welcomed by many St. Catharines citizens. The proximity of this city and its U. S. neighbors and the easy rail communication makes the volume of travel heavy under normal conditions.

The case of Wm. Richardson, who died at the Wentworth House of Refuge, at Dundas, is said by the medical men to be a definite case of the rare and dreaded disease, sleeping sickness. Dr. Rykert, of Dundas attended and had with him, Dr. F. B. Bowman, of Hamilton, for consultation. Deceased was only 28 years of age and was employed at the refuge.

Those who complain of the H. C. of L. will find food for thought in the statement made by two prominent wholesalers at the eighth annual convention of the Ontario Granite and Marble Dealers' Association, that quarrymen were demanding an increase of 25 cents per hour and would most certainly receive it; wages would jump from 75 cents to a dollar an hour after April 1st. Retail prices, which involve monuments, will be increased in proportion.

**COMB SAGE TEA
INTO GRAY HAIR**

Darkens Beautifully and Restores its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Lincoln Military Chapter Daughters of the Empire will give a valentine ball in Queen's Hall on Monday night and the following ladies are to be the patronesses. Mrs. M. J. Mullock, Mrs. Frank McCordick, Mrs. G. L. Thairs, Mrs. D. W. Bixby, Mrs. A. H. Malcolmson, Mrs. A. M. Stobie, Mrs. R. W. Leonard, and Mrs. W. Dugan.

The Catholic Women's Guild held a charming tea in the Lyceum rooms Tuesday afternoon which was attended by a large number of ladies. The decorations were of a valentine order. Mrs. F. W. Martin, Mrs. Hodgson, Miss Ellen Phelan, Mrs. Cameron, Miss Marie Huppardvife, Miss Theresa Webster, Miss Sims, Mrs. Carthy and others assisted.

Mr. and Mrs. D. H. Huggins and Mr. and Mrs. Valentine Huggins and babe of Bomanville, narrowly escaped being asphyxiated, last Thursday morning. On arising at six that morning Mr. Valentine Huggins discovered the house filled with gas and all the family ill. Neighbors gave assistance and medical aid was summoned. Another half hour and it might have proved fatal. Mr. and Mrs. Huggins, Sr., have not yet fully recovered.

The death occurred at Niagara Falls, Ont., on Sunday of Mrs. Mary Rykman, aged 57 years. The funeral took place from her late residence, 3 McCrae street, via G.T.R. to Jordan Station at 1.36 p.m. proceeding to the Methodist church for service. Interment in Methodist church cemetery. Deceased leaves three daughters and three sons, Mrs. W. W. Gilmore and Mrs. Harry Kitchman of Hamilton, Mrs. W. A. Wilcox of Beamsville, Dalton, Curtis and Clarence at home, and one sister, Mrs. A. Fischer of Niagara Falls.

**PUBLIC LIBRARY
BOARD ORGANIZES**
(Continued from page one).

27875, total 59591, an increase of 7946 over 1918, a result testifying to the continued satisfactory progress of the Library. During the year 858 new members were enrolled, and the net registration of members December 31st was 3446, but the total number of patrons was considerably larger as there were a good many withdrawals in the year. The reading rooms were well patronized by citizens and visitors, 89 different periodicals and magazines being on file for their use.

The Board went into Committee of the whole to consider the estimates for 1920 and fixed the estimated expenditure for the year at \$7962.83, the amount required from the city being \$7214.60, the balance coming from Provincial grant, fines, cards and the balance from 1919.

On motion of Trustees Watts and Hesson the estimates were adopted and the secretary was instructed to send a copy to the city council.

AN OLD OFFENDER CAUGHT
For years he has caused endless trouble, but when Putnam's Corn Extractor was applied, he came out roots and all. Any corn or wart cured in twenty-four hours. Putnam's Corn Extractor, 25c. at all dealers.

Mr. George MacPherson, who visited his sister, Mrs. James Kemp while looking at farms in Bomanville locality recently, has purchased the valuable farm of Arthur Brown near Fonthill.

"Seein' Things At Night"

TO MOTHERS! Guard your kiddies against torpid liver, sour stomach, constipated bowels which generate poisons. These "inside" poisons circulate to the brain, producing bad dreams, then a feverish head. Unless you "work" out these poisons you will have a real sick youngster shortly. Cascarets are a candy cathartic, ideal for children. Cost only 10 cents a box. Read below!

Children love Cascarets because they taste like candy. When your child has a white tongue, feverish breath, foul stomach, give Cascarets anytime to "work" the nasty bile, souring food and bowel poison from the clogged-up places. You needn't coax even cross, sick children to take these harmless candy "Cascarets." They never gripe—never injure. Cascarets never disappoint the worried mother. Each 10 cent box contains directions and dose for children aged one year old and upwards.

SAVING MOULDS CHARACTER

A prominent employer recently said: "The best men working in our shops to-day are the men who save money regularly. The steadiness of purpose and ambition thus displayed is apparent in their work. They are the men to whom advancement and promotions most frequently come and they will be the last to be laid off when dull times come." Open a Savings Account with

**Senator Says Coterie of
Moves to Displace
Country—States T
icism is Not Specific
of Phase Free Instit**

ST. CATHARINES, N. Y., Feb. 12.—Charges behind the announced plan of the American Federation of Labor to gain the election of a Congress and a president favorable to its policies, a "sinister movement of a small coterie of labor leaders, who have grown powerful by the contributions they have levied upon labor" to set up a "government within a government," were made here last night by United States Senator Miles Dinkler of Washington in an address before the Utica Republican

The farmers and laboring men of America," he asserted, "have in every crisis been the great bulwark of free institutions, and they will not follow the mistaken leadership which would place the government under the despotic control of a 'government within the government.'"

"Ruled by Few Leaders"
"This government within the government" is not ruled by a few, but is an autocracy of a few men who would not only impose their will upon labor itself, but would control it, not only by the ballot, but by strikes and starvation of the people of the United States. It is as obnoxious as the "invisible government" against which the people protested in 1912. There is no question of the right of the American Federation of Labor to gain control of Congress and of the President by the use of the ballot box, if it can do so in accordance with the programme just issued. It would be an unday for the United States and that of all for labor itself, if any man in this nation, whether employer or employees in industry, capital or labor, should succeed in any such program; but that is one of the perils which the nation must face as the price of free government.

Mr. Gompers curses Congress, "continued, "but is not specific in his complaints. On the contrary, the announcement stated that "all of the essential legislation in labor's bill of grievances of 1906 was enacted. This proclamation states that the 'free in-

arrest Made in Co
With Beams
Girl is

Dennis Macion, a Beamsville man, was arrested yesterday afternoon by High Constable Boyle in connection with the assault on 16 year old Ida Moore near Beamsville the previous night. He was remanded by the Beamsville Magistrate and will be taken back there for his preliminary trial as soon as the girl is able to get to court to testify. He is now in jail here.

The unfortunate girl is still suffering from her terrible treatment. She was savagely beaten over the head with the fence picket found by her beside her, an attack giving evidence that a maniac had been her assailant. She kept to her bed yesterday and will be under the doctor's care for some time. High Constable Boyle says the girl is in a very serious condition.

Macion who is an unmarried man about 28, stoutly denies all con-
