

The Weekly Monitor.

WEDNESDAY, MAY 28th, 1884.

It is a matter for sincere congratulation that a large portion of the United States press has commenced to view in the right light, the evil which is attendant upon the publication of dime novels, Police Gazettes, and blood and thunder periodicals generally.

It is to be hoped that sufficient interest may be excited to have measures adopted to check, if not suppress, all such publications. It would be difficult to overestimate the deleterious effects upon the minds of the young.

We would direct attention to the advertisement in another column, in reference to an excursion to Mt. Desert on the 2nd June, by the steamer "Frances," which will go regularly on this route, on the 5th June.

Local and Other Matters.
Soprano News.—Soprano, 23rd inst., from St. John; old, for same port on 28th inst.

Our regular correspondent says:—The report given by your correspondent of the 21st concerning the bear, is a great mistake. He evidently knew nothing about it, or was endeavoring to make a joke on the one who struck the fatal blow. It would also be misleading, should he believe the first report. The first right and can be corroborated by many.

—The Toronto Mail building was partly destroyed by fire on the 24th inst. The loss is heavy.

—The Nova Scotia fleet are more fortunate than the Gloucester vessels in finding fish upon the western banks of the Bay of Fundy.

—The British ship "Syrin" has been wrecked at Piji Islands and 70 passengers drowned.

—The total number of members of the Ancient Order of Foresters in England is close upon 620,000.

—A Nova Scotian named Cameron recently sold 13 acres of land near Fort Mody, B. C. for \$25,000.

—Fred Bragg, formerly lighthouse keeper at Digby, and a government pensioner for many years, died on the 17th inst., something more than 70 years of age.

—Maurin Amero died at Decatur, South Carolina, on the 15th inst., aged 100 years and two months, leaving 50 grandchildren, and 200 great-grandchildren, and 40 great-great-grandchildren.

—A fine specimen of trout was shown in this town on Monday, that was taken from the Corbieland, a few miles from this town. It weighed 1 1/2 lbs., and measured 16 inches.

—A man named Israel Whitehouse, was recently killed by a cow, while plowing two flat cars.

—Wiggins, is already commencing to give some weather forecasts for 1887 and the year 1900.

—Henry May & Co., the well known Boston wholesale fish dealers, have failed, with liabilities of \$100,000 and nominal assets \$200,000.

—The widow of Capt. Webb is at the Niagara Suspension Bridge, having accepted the position of cashier in the Waterloo City Bank.

—Lance Tour.—Mr. Charles Rogt, Springfield, caught a few days ago eight trout weighing in the aggregate eight pounds. Three of these were much smaller than the rest.

—Failure in the Leather Trade.—Another failure in the leather trade is that of Arthur Jordan, of Halifax, who assigns owing from \$30,000 to \$30,000, a fair proportion of which is to Montreal houses. There are said to be losses of about \$5,000.

—A late telegram announces the fact that the actions against the shareholders of the Bank of Liverpool, which have been pending before the courts since the failure of the bank, have been discontinued.

—The International Steamship Company have chartered temporarily the steamer "Lewiston," of the P. & M. Line, and the "Lewiston" is to be used for the Portland Steam Packet Line, to take the place of the steamers "Falmouth" and "City of Portland," burned and wrecked.

—The Boston Herald says:—The squall that struck Wall Street on Wednesday, has blown by. It was not a panic. It was a local storm, but very severe enough while it lasted, and portentous of sudden wreck of overvalued vessels, but brief in duration and in its effects. The class it hit by title with the great financial hurricanes that swept over the country in 1857 and 1873 is to call it very much out of its name.

—The Western Union Telegraph Co., is one of the wealthiest corporations in the world. It has a capital of \$100,000,000, and for the past year, shows a gross revenue of over nineteen millions of dollars, with a net profit of over six and a half millions. Its assets are very clearly shown, that the cost for telegrams is much higher than there is any necessity for.

—RETURN.—The following appeared in the St. John Sun a few days ago:—Almost every boat and train arriving in St. John from the west, and returning to the east, are disgorged with life in the States. Last week eleven former residents of the west side of the harbour returned home, and upon their arrival, none the better off financially for their sojourn under the stars and stripes.

—Several parties of sportsmen have been trouting during the past week, and all have met with excellent success. The best record was made by a party of five, who, on Monday, went out in the morning, and returned with a fine haul of trout, including one weighing twenty-five of the largest of the number being taken, and weighing less than many pounds. The "speckled beauties" are apparently very plentiful this year.

—The number of British visitors to the United States is increasing, and the number of Americans visiting the United Kingdom is also increasing. One thousand savants alone, including a hundred members of Parliament, are expected to visit the United States during the summer.

—On the 18th inst., St. John, N. B., had been a city for exactly a century. St. John received a royal charter from George IV., on May 18, 1784, and is the only Canadian city possessing such a document. Under the charter the citizens were granted certain powers of self-government. At Confederation some of these powers went to the province, and some to the Dominion.

—The Nova Scotia fleet are more fortunate than the Gloucester vessels in finding fish upon the western banks of the Bay of Fundy.
