UPSTREAMERS GALA NIGHT

Banquet in St. James Church School Room—Fine Musical Programme and Good Toast List.

Wednesday evening of last week was certainly a gala night with the "Upstreamers" (Anglican) Taxis Boys Square of Bridgetown.

The event was a banquet in St. James Church schoolroom which had been transformed for the occasion and made gay with potted plants, cut flowers, flags, bunting, and the square colors, the place of honour being given to the one and only Upstreamer banner with the motto—"Deeds are better than words."

The boys with their guests to the number of forty, being placed, the proceedings commenced at 7 o'clock with the Taxis "Opening Ceremony" after which the Rev. Chas. LeBrun called on Canon Underwood to say grace.

Attack was then made on the good things provided, but whether because of the abundance and variety set before them, or because of shyness in the presence of a veritable galaxy of fair and budding beauty (as well as of older folks) the youthful "Upstreamers" gave up after a gallant but unsuccessful pull against such overwhelming odds, retiring overwhelmed by such a flood of good things from their mothers, combined with the subtle influence of their invited "coasters" and leaving much that had been prepared to tempt their appetites untouched.

During a breathing spell the following musical programme was rendered:

Overture—The Bridgetown Melody Men.

Violin Solo—Mr. C. FitzRandolph. Song—Canon Underwood. Piano Solo—Miss E. Daniels. Selection—The Melody Men.

Next came the Toast List: To King—Honored by the Nation at Athens.

The Sunday School—Proposed by Joe Dand. Responded to by Captain W. E. Gesner.

The Church—Rev. Geo. Stevens. Response by Mr. H. J. Dand.

Our Mothers by Guy Henson. Response by Mrs. E. R. Orlando.

Our Guests, by Chas. Anderson. Response by Miss Ina Orlando and Mr. R. W. Longmire.

The Bridgetown Melody Men by Canon Underwood. Response by Mr. Chas. Longmire.

The Taxis Movement by Ralph Henson. Responded by Chas. LeBrun.

As might be supposed, this list gave ample opportunity for speech, both grave and gay, and the company was subdued into profound silence and stilled into rollicking laughter by turn, each Taxis boy proving himself equal to what the occasion demanded. In fact, in this Square there is native talent which only needs opportunity for development.

The Toast list being concluded, the Melody Men provided entertainment, whilst the room was being cleared of tables and other impediments, after which games were indulged in until breaking up time.

Another, the Upstreams Square of Bridgetown Taxis Boys may be well congratulated on the success of

GILBERT LOWE'S RESIDENCE GUTTED BY FIRE MONDAY

The house on West Granville street occupied by Mr. and Mrs. Gilbert Lowe and family and owned by Mr. J. P. Orlando, was badly gutted by fire on Monday afternoon.

At the time Mrs. Lowe was absent from the house, the children were at school and Mr. Lowe was at his place of business.

The origin of the fire is at present obscure. It was first noticed from M. W. Graves factory and an alarm was at once sent in.

The fire department responded with alacrity and soon had water playing on the house.

A part of the furniture was successfully taken from the house but the rest was destroyed including piano and victrola.

The fire worked into the partitions and under the roof and considerable time was occupied in putting it out.

Some insurance was carried by the owner on the building and by Mr. Lowe on the furniture.

Mr. and Mrs. O. M. Graves were passengers to Halifax, yesterday, where they will visit for a few days.

Mr. Kenneth Leslie came from Halifax and is spending a few days superintending farming operations at his splendid property at Upper Granville.

Mr. Henry Messinger of Clarence, expired very suddenly on Sunday last just after church.

Mr. Messinger after attending service as usual started for home in his carriage with his man and stopped on the way to see Mrs. Everett Sproule, who has been ill for some time. Just on the threshold he fell and apparently expired at once. The deceased leaves to mourn their loss, wife, a daughter of the late Mr. and Mrs. Henry Miller, of Mount Hanley, and sister of Dr. S. X. I., are also members of the family, three brothers, Elias of Bridgetown, Dan and Will of Clarence two sisters, Mrs. Major "Sloum, Bridgetown East and Mrs. Geo. H. Allen.

The late Mr. Messinger lived his entire life of 68 years in Clarence, where he followed farming and orcharding. He was a deacon in the Clarence Baptist church and always foremost in good words and works. An upright citizen of the strictest integrity, a splendid neighbor, a loyal and true friend the news of his sudden passing was received with grief and profound regret.

The funeral took place from his late residence on Tuesday afternoon, interment being in Lawrenceville cemetery. We trust to refer to this in our next issue and in the meantime would say a good, true man has gone out from our midst whose loss will be deeply felt.

TO OUR CORRESPONDENTS

We would request our correspondents so far as possible to send in their batches of news not later than by Saturday's mails, and if anything of an unusual nature occurs in their districts after that to phone in particulars. The reason of our making this request is that for the past few weeks nearly everything has reached us on Monday afternoons mail and thus has to be set up within the next twenty-four hours to ensure insertion.

In addition to local and other news put us in the position of having to attempt to get through two days work in one, a rather difficult proposition. We appreciate very sincerely the splendid work of our staff of correspondents and feel that they will try to help us out in this matter.

### MARITIME GRIEVANCES.

The recent visit to the Maritime Provinces of Sir Henry Thornton, President and General Manager of the Canadian National Railways system was timely and his utterances at different points where he was approached by delegations, representing towns and cities had in them the right ring and conveyed every bit as much as any of the delegations could reasonably expect. His treatment of problems presented was most sympathetic and his deliverances were characterized by breadth of vision and a very common sense view point.

Of course the question of Maritime grievances and of Maritime rights came up and advice was given to take a survey and get definitely settled just what these grievances were, and then seek the remedies. In a general way we read much on this subject. We are told that high freight rates prevent trade with the Central Provinces. They sell to us but we have nothing that they want to buy. A tariff wall prevents our trading with the United States. We are bound in chains and no redress comes from any quarter. We hear all these things and many more, and there is an element of truth in all. Shall a remedy be sought in a lowering of freight rates so that railways not yet squaring their balance sheets shall leave a bigger deficit to make up out of the public funds? We do not think so. On the contrary we believe that railroads should be made to pay their way. If they are not doing so causes should be looked into and remedied in so far as possible.

While Nova Scotia remains a part of the Dominion of Canada it must be governed by the same fiscal policies as the rest of the country. There does not appear to be any strong sentiment in favor of secession.

Everyone agrees that the Maritimes have not progressed to any great extent as a whole for many years, and the injection of Maritime rights so called as a political issue and a subject of more or less wide discussion in the press has directed public attention to them in the central Provinces and not in a wholly unsympathetic way. In talking of Maritime grievances it is better to know just what these are and in what different respects the interests of these provinces are being neglected or discriminated against. This question it appears to us is very properly one for our Boards of Trade to take up thoroughly from separate organizations up to our Maritime Board. Have these definitely and concretely stated so that when we speak of grievances we can show other Provinces just what we mean.

This has to a certain extent been done but perhaps not very thoroughly or very convincingly.

The grievance avenues were in matters of trade, manufacturing and commerce. Our business men and business organizations know or should know by experience greater or lesser what these are. Knowing them is the first step and should point the way to remedies if any can be found. For some things, we believe, there is no remedy for others there may be found amelioration. In later issues, we shall endeavor to refer to some of these last and would also welcome any suggestions from our readers on these important issues.

### ROAD TO RUIN.

London Times: The whole economic history of the world shows that

wherever, as so often in Asia, the ownership of property has been an incentive to confiscation, wherever, in fact, property, and the inheritance of property, are not reasonably secure, not only is there no wealth, but all classes are very poor. It is this problem which will immediately face the Independent Labor Party and other Socialists if and when they obtain the control of the finance and industry of this country.

### THE DIGNITY OF DITCH DIGGING.

Detroit News: Now that a check has been put on immigration, the time may come in America when ditch-digging will be done by university men because of a dearth of labor. And there is no reason why it should not be, since ditch-digging has been made by mechanical devices a job where a thorough knowledge of machinery counts a good deal. One of the great dreams of Socialism has been to simplify toil so as to release men's minds for other pursuits. Large scale machine production, the increase of period of daily labor, the increase of wages, have all tended toward this release.

### CHINA'S BUSINESS.

Singapore Free Press: The time appears to us to be past when it can be pretended that China should be kept in leading strings. For better or for worse she has got to go her own way, and knowing the solid virtues of the Chinese temperament there can be little doubt that sooner or later that way will be found to be for the better. Trade is not the most sacred thing in the life of humanity, and if our trade suffers through China's internal struggles it is a sad thing doubtless, but it is a thing which happens at different times all over the world and has to be put up with as one of the rubs of commerce.

### SHIELD AND BUCKLER.

Sydney (N.S.W.) Bulletin: There are hundreds of lucrative industries in which the Dominions, unlike the central European countries, are not in a position at present to compete with British skill and capital. It would pay us to help keep those industries alive in Britain even at some sacrifice to ourselves. A point that no citizen of Australia or its sister Dominions can afford to overlook is that now, and maybe for generations to come, in proportion as Britain deteriorates in power and prestige the Dominions will tend to do the same. The Commonwealth is far less secure than it was ten years ago, because in the interval Britain has exchanged the two-power for a one-power standard. Our security must decrease with every defence cut that British Government are impelled to make because of the growth of their unemployed problem, until a stage is reached when we shall be an easy prey for the first land-hungry Power that decides to pick a quarrel with us. The immediate menace to the existence of this country is not Asia but Free Trade.

### OPIUM IN CHINA.

Hong Kong Press: The impotence of the Central Government is the key to the present deplorable situation, for when China last had a strong Central Government it did, in fact, practically suppress the cultivation and use of opium throughout China; but with the development of the Tachun system and its military rivalries there has been a steady re-in-

crease of the traffic. The authority of the Central Government has been flouted in the "loyal" as well as the "disloyal" provinces, for the traffic is productive of enormous revenues and these have been used for the maintenance of provincial armies and the waging of interprovincial wars.

### MEDDLING IN IRELAND.

Baltimore Sun: At a time when Southern Ireland is settling down in seeming contentment with the Free State status, and when Ulster is enjoying prosperity and lower taxation than either Britain or her southern neighbor, as well as a well-kept religious truce, the threat that all the old hatreds will be fanned to flame again is tragic. There have been indications that, left to themselves Ulster and the Free State might reconcile their differences. But British intervention on the side of the Free State, now promised, does not appear a better solution of the Irish problem than British intervention on the side of Ulster, attempted disastrously in the past.

### GREAT BRITAIN AND MECCA.

Times of India: As the largest Mohammedan power in the world Great Britain is bound to do anything in reason to keep the pilgrim routes open, and it has been promised that this will be done, but intervention beyond this would be even more objectionable to Mohammedans than it would to the British taxpayer. Nothing would please the anti-British clique of Mohammedans in India more than for the British Government once more to put its foot in it by indiscreet action in Arabia and we hope that the Arabs will be left to settle their own disputes—also that passports and full facilities will be supplied to all those wise men from India who are anxious to give Ibn Saud the benefit of their advice at the present juncture.

### WHITES AND COLORED.

Natal Advertiser: Cost what it may, South Africa must show the Asiatic that unless he responds to generous treatment offered him, and unless he is prepared to live up to a white standard, he cannot stay in a white area; he may have the option of leaving the country on very liberal terms, but if he refuses this he must accept legislation which will serve to protect the white man from a competition that is unfair. The European in South Africa can no longer afford to see his civilization imperilled and we are convinced that if these terms were plainly enough stated to the Indians there would be sufficient of them willing to go elsewhere as to cease to be a menace in this respect. Did we burden ourselves with a debt that would take a generation to discharge it would be worth while. Only along these lines can we assure ourselves that the white man's standard in this country will be preserved.

### U. S. POSTAL SERVICE HAS BIG DEFICIT.

Washington.—With the exception of first class mail and postal savings, every service conducted by the Post Office Department shows a substantial annual loss. Postmaster General New informed the Senate today as a far-reaching investigation.

### FEAR CANADA HEADED FOR A BANK MONOPOLY.

"Big Four" Now Have 70 Per Cent. of the Savings.  
(John R. Boone in Boston Transcript) Thirteen chartered banks sitting by themselves. Another got merged. Then there were twelve.

So runs an adaptation of the "little nigger boy" nursing rhyme following the merging of the Moisons Bank by the Bank of Montreal the second bank merger in Canada in as many months and the tenth in less than as many years.

How much farther is this accelerated movement toward a banking monopoly in Canada going to proceed? As a result of the latest merger, the Bank of Montreal has now 29 per cent of the savings deposits in the chartered banks of Canada. The Big Four, that is the Montreal, Royal, Commerce and Nova Scotia, now have 70 per cent. of the savings of Canada. It is not generally appreciated that Canadian banks hold \$325,000,000 of savings outside Canada chiefly in the West Indies, Central and South America, and of these the Royal Bank holds more than half.

What the ultimate outcome of the consolidation movement will be cannot be foretold, but there is little doubt that the banking situation in Canada is now in a state of efflux. There will likely be a renewed outburst at the next session of Parliament against the threatened banking monopoly. But it is alleged that the effect of criticism in the past has been to accelerate the movements towards concentration by calling attention to the difficulties under which the smaller banks operate.

### BRITISH FILMS ARE GIVEN NO CHANCE.

Bitter Complaints in London.

Not a Copy of Captain Scott Picture Booked in Dominions, Producers Declare.  
(By Henry Somerville.)  
London.—The British film industry is at a low ebb, and it statements made in the London "Evening News" are true, British films are not given a chance in the Dominions. The statements are attributed to E. Gordon Craig, director and H. Bruce Woole, producer, of New Era Films, Ltd., which has just produced "Zeebrugge" in London. These gentlemen are reported as saying:

"The kinemas in Canada, Australia and the United States—there are 16,000 in the United States alone—are practically controlled by Americans who can say: 'Our pictures entirely or none of our pictures at all.' We have not been able to book one copy of the Captain Scott Antarctic Picture, 'The Great White Silence,' in a British Dominion or in the United States but we have sold it freely all over Europe."

### C. N. R. TO USE ELECTRIC CAR ON PICTOU BRANCH.

New Glasgow.—The Canadian National Railways will probably run an electric storage battery passenger car on the Pictou branch this winter. Plans are under way to have the car brought here from New Brunswick, where it has been in service. The car will be divided into two parts—one for passengers, and the other for baggage. Storage batteries will be charged by a generator at Stellarton. The car is one of the type now running on the suburban system out of Halifax.

## TO CALIFORNIA OR PACIFIC COAST

Rail services of the Canadian National provide the highest standard of travel comfort for those who desire it is to spend the winter in Sunny California, or in British Columbia.

From the Atlantic to the Pacific the Canadian National Railways operate trains of the finest equipment—all steel trains with library cars, observation-compartment cars, standard sleepers, modern diners, tourist sleepers and spacious coaches. The services of the Canadian National are not excelled anywhere.

The superior trains run from Halifax to Montreal—the "Ocean Limited" and the "Maritime Express."  
From Montreal the famous "Continental Limited" leaves Bonaventure Station at 10.15 p.m. for Ottawa, North Bay, Winnipeg, Edmonton, Saskatoon and Vancouver.

From Montreal the famed "International Limited" runs daily to Toronto, Detroit and Chicago, leaving Bonaventure Station at 10.00 a.m. At Toronto connection is made with "The National" leaving Toronto daily for the Coast. There are optional routes to California points via Chicago.

To escape the rigours of winter, such a trip is desirable, and by the C. N. R. Lines it can be made a tour of delight, so excellent is the service given and the personal attention shown every patron.

Ticket Agents of the Canadian National Railways will give intending travellers every information, and arrange reservations, or one may write to the General Passenger Department at Montreal for descriptive literature and full details of such a trip.

Little Samuel Molyneux arrives

A very pathetic figure, as he stepped off the Canadian Pacific train, between the conductor and an official of the department of immigration, into the noise of shunting trains, the confusion of hurrying express trucks, and the bustle that attends the arrival and departure of friends, Samuel Molyneux, 393 Oakwood Avenue, Toronto, as the label on his little bag proclaimed him, paused for a moment, and then, overcome by a sense of loneliness produced by the loss of his friends of ship-board and train, burst into tears. A second later he was seized by his mother, from whom he had been separated for one and a half of his four years, and sobbed himself to contentment in her arms.

Samuel came to Canada on the Montclare, making the complete trip from the old land to Toronto by himself. Samuel was a favorite on ship-board, according to reports. He became particularly attached to the ship's nurse but was the pet of all the passengers and crew.

### A PROPOSAL OF MARRIAGE.

The following proposal of marriage was received this week by one of the eligible ladies of the town. It is published with her consent:

"Will you marry me? I am a pore man but I can eat pork and feed hens and do work round the place. I had a wife before but she died and had such a happy look on her face that I wondered whether she was kind of sorry to leave me. Everyone kept her relations said I was a good husband and had lost a good provider. I iss real lonely with out some one to boss me and I heard that you was looking for a pleasant companion. I has a dark complexion and a kind of sofy skin and used to be counted a dandy. You would find me easy going and if you had me with you, you would have on your right hand pleasures forevermore, this is a bit from scripator an' shows I is a Christian man.

"I like eels and rabbits and could get them cheap and it would not cost much to feed me. I mean I would provide for the kitchen table where I iss use to eat my meals. When your swell friends come to visit I could sleep in the hay mow and as I iss paserationately fond of cats I would feel at home with one who has common interests. I iss very lonely and longs for a suitable companion and sometimes I enjoys intellectual pursuits but prefer eating.

I ain't much good at writing and the ink got froze last winter and ain't much good and I is so eckonomical that I tries to use up that ink but it don't make no mark less than nothing. I has telled this to a steno-grapher and as she ain't much on spelling I has helped her some. You will find an address stamp with an enclosed envelope. So if you want a real intelligent pal I'm just your boy.

Yours,

**MEMORIAL SERVICE FOR LATE MISSIONARY.**  
Middleton.—A special service was held in United Baptist church Sunday evening, as a memorial to the late Mrs. Donald C. Macdonald, lady missionary, whose death took place recently in Korea. By request the service was missionary, rather than memorial in character. Miss Effie Cox gave a synopsis of the life of Mrs. Macdonald as she was known here. Mrs. J. A. Gates also read a paper, taking up the church relationships and activities of the late Mrs. Macdonald in various places in the province where she taught. Missionary hymns and a ladies quartette composed the musical numbers of the service. The pastor, Rev. W. D. Wilson, gave an address first expressing the sympathy of the congregation to the bereaved family, and made an appeal for others to fill the missionary ranks, where the death of Mrs. Macdonald had left a vacant place.

**BEAR STORIES.**

"Curly" Phillips, who is a guide at  
Mount Robson park, and incidentally  
one of the best known guides and out-  
fitters in the Northern Rockies, was  
"stet some time ago at Seattle, when  
he reached that city on his honey-  
moon trip. And the chairman, who  
had been with "Curly" on one of his  
expeditions told a story to illustrate  
"Curly's" resourcefulness.

Here is the chairman's story:  
"Curly," he said, had caught a grizzly  
cub and tamed it, keeping it in his  
corral and had eventually taught it  
to serve as a saddle pony for him and  
when on his hunting trips he rode  
this grizzly out into the mountains.  
On one occasion he rode out the griz-  
zly and dismounting, took off his sad-  
dle and went off to stalk a wild one.  
After following his tracks for some  
time he came upon the wild grizzly  
and his tame one together, and taking  
good aim shot the wild one, and then  
throwing a rope around the neck of  
his tame bear, saddled him and rode  
back to camp, carrying the carcass of  
the other over the withers of his  
mount. And it wasn't until he got his  
own bear into the corral and un-  
saddled and began to skin the other  
that he found from marks on the hide  
of the latter animal, that he had shot  
the tame one and had ridden the wild  
grizzly back to camp.

Now "Curly" is a modest sort of  
chap who does not like glory at any  
time, and particularly does not like  
unearned glory, so, following the  
chairman, he told his version of the  
incident, adding that there were the  
"bear" facts.

And here is "Curly's" story, which  
sounds perhaps quite as reasonable:  
"Curly's" partner broke his leg in  
one of his climbs, and returning to  
the camp late at night it was urgent  
that "Curly" saddle a pony and go  
out for a doctor. He went down to the  
corral, threw his saddle on the first  
animal he came to and rode out to  
the nearest physician.

"I noticed my horse had a peculiar  
gait that night," said "Curly" in the  
telling, "but I got out there all right  
and back again with the doctor, and  
on returning to the camp turned my  
horse loose in the corral and went  
into the cabin for supper. Half an  
hour later one of our men came in to  
say that he had gone to put one of  
the horses into this corral, which had  
been vacant until I put my mount in-  
to it, and stumbled over a big grizzly  
lying winded, with saddle and bridle  
on, just inside the gate.

"Now, that's all there is to the  
story; just a little mistake in identify  
which any man might make on a dark  
night."—Ry. Magazine.

**BEAR RIVER FOXES  
GO TO CALIFORNIA.**

Bear River.—Thelbert Rice left  
Tuesday for California, taking with  
him ten pairs of foxes from the Pleas-  
ant Valley Silver Fox Ranch in Bear  
River, which he has operated in part-  
nership with Frank B. Dunn. This  
ranch has been among the most suc-  
cessful ranches in the Valley.  
Mr. Rice is to establish a ranch at  
Arrowhead Lake, Cal., well situated

for this purpose, in the mountains  
with an altitude of 6,000 feet and over-  
looking the city of San Bernardino,  
which is only ten miles distant in a  
direct line, but twenty-two miles dis-  
tant by the road, and which winds back  
and forth in order to ascend the steep  
slope.

**CONTROLLING CATTLE TUBERCU-  
LOSIS.**

The restricted area plan of control-  
ling tuberculosis has been put into  
operation by the Health of Animals  
Branch of the Department of Agricul-  
ture at Ottawa. Its object is the es-  
tablishment of tuberculosis-free  
areas and provision is therefore made  
for the testing of all classes of cattle  
in a given territory. This system af-  
fords an excellent opportunity for  
systematic and methodical work and  
permits the testing of the largest  
number of cattle in a given period.  
The prompt slaughter of all reactors  
and the cleansing and disinfection of  
all infected premises carried on under  
the system, provides a clean terri-  
tory for a healthy herd. These herds  
are further protected from infection  
from outside sources by cattle not be-  
ing permitted to come into the area  
except for immediate slaughter under  
certain precautions, unless they have  
first passed an official satisfactory  
tuberculin test. In this report for  
last year, Dr. George Hilton, Veterin-  
ary Director General, refers to the  
only area in Canada that has so far  
been dealt with under this system. It  
is located in the Carman district of  
Manitoba and comprises twenty town-  
ships. The first test of all cattle in  
this area, numbering 16,550 head, was  
completed early in April, 1923, and  
922 reacted, or 5.57 per cent. These  
reactors were promptly slaughtered  
and the premises on which they were  
located were thoroughly cleansed and  
disinfected. The first test cost in com-  
pensation five and a half times as  
much as all reactors and the annual  
general retest of all herds in the area  
combined. This reduction is due to  
the fewer reacting animals that are  
found with each succeeding test and  
indicates that the area will soon be  
entirely free from bovine tuberculo-  
sis.

**MARRIED.**

Sanford—Berry.

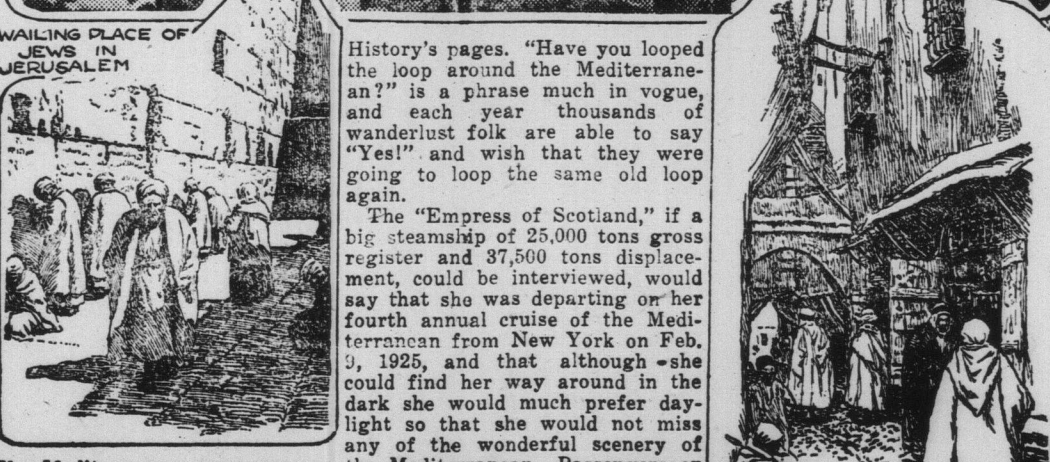

Deep Brook.—A very pretty  
wedding was solemnized here on  
Thursday evening, November 27th,  
inst., at the home of Mr. and  
Mrs. J. R. Berry, when their only  
daughter Ida Blanche was united in  
marriage to Aubrey James Sanford,  
son of Mr. and Mrs. Thaddeus Sanford  
of Torbrook. The ceremony was per-  
formed in the living room which was  
tastefully decorated for the occasion.  
It took place under a large floral arch  
from which was suspended the bridal  
veil. The bride was given in marri-  
age by her father, Rev. Frank Smith,  
pastor of the Baptist church, assisted  
by Rev. A. Gibson of Annapolis  
Royal, were the officiating clergymen.  
The bride looked very beautiful as  
she entered the room on the arm of  
her father in her gown of white lib-  
erty satin, with georgette and pearl  
trimmings. She wore the convention-  
al veil with orange blossoms. She  
carried a bouquet of white chrys-  
santhemums. The wedding march was  
played by Mrs. Harriet Robbins, a  
cousin of the bride. Following the  
ceremony, a dainty buffet luncheon  
was served. Those assisting were  
Mrs. Howard Adams, Mrs. Annie Co-  
rnelius, four cousins of the bride,  
Florence Marshall, Mary Wilson,  
Irma and Thora Comeau. The bride's  
going away dress was sand color  
wool crepe with hat to match and  
silk coat with fur trimmings.  
On their return from their wedding  
trip they will reside at Torbrook.  
The large number of beautiful gifts,  
consisting of silver, linen, china and  
money, testifying to the popularity of  
this young couple. The occasion was  
doubly interesting on account of it  
being the thirty-fifth wedding anni-  
versary of the bride's parents. A large  
circle of friends join in wishing them  
a long and happy wedded life.

### Too Weak to Walk

The Sad Condition of a Brandon Lady—How Relief Came.

"I owe my present good health to Dr. Williams' Pink Pills," says Mrs. Annie Treherne, Brandon, Man., who tells of her new found health as follows:—"Some years ago I had an attack of pneumonia and it left me in a terribly weakened and run-down state. I was unable to walk for a long time as I had practically lost the use of my legs, and had to be carried up stairs, for I had not the strength to go myself. I became dependent over my condition for I had tried many remedies, which failed to help me. While in this wretched condition a lady friend urged me to give Dr. Williams' Pink Pills a trial and I procured a supply. After taking the pills for a while I could see that I was growing stronger, and I gladly continued their use until I had fully regained my old-time health and strength. Now if I feel at all run down at any time I at once take Dr. Williams' Pink Pills, and they never fail me. I can therefore warmly recommend them to others who may be run down."

There is not better tonic than Dr. Williams' Pink Pills to improve the blood and bring back strength after acute diseases such as fevers, pneumonia, influenza, etc. Given a fair trial they will not disappoint you. You can get the pills from your druggist, or they will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

### MARRIED

Berry—Sanford.

A very pretty wedding was solemnized on Thursday evening, Nov. 27th, at the home of Mr. and Mrs. J. R. Berry, Deep Brook, in the presence of about fifty relatives and a few intimate friends, when their only daughter Ida Blanche, was united in marriage to Aubrey James Sanford, son of Mr. and Mrs. Thaddeus Sanford, of Torbrook, Annapolis Co. The ceremony was performed by Rev. Frank Smith, pastor of the Baptist church, assisted by Rev. A. Gibson of Annapolis Royal, in the living room which had been tastefully decorated for the occasion. It took place under a large arch of evergreen from which was suspended the bridal veil. The bride looked charming as she entered the room on the arm of her father, in her gown of white liberty satin with white georgette crepe and pearl trimmings. She wore the conventional veil with orange blossoms and carried a bouquet of white chrysanthemums. Irma Comeau acted as flower girl. The wedding march was played by Mrs. Harriett Robbins, a cousin of the bride. Following the ceremony a dainty buffet luncheon was served. Those assisting were Mrs. Avarad Wilson, Mrs. Howard Adams, Mrs. Annie Copeland and four cousins of the bride, Florence Marshall, Mary Wilson, Thora and Irma Comeau. The brides going away dress was sand wool crepe with hat to match and sand coat with fur trimmings. On their return from their wedding trip they will reside at Torbrook. The large display of lovely gifts, consisting of silver, linen, china, and money testifying to the popularity of this young couple. The occasion was doubly interesting, it being the thirty-fifth wedding anniversary of the bride's parents.

The Tablets are a mild but thorough laxative which regulate the bowels and stomach, thereby banishing constipation, colic, indigestion and a host of the other minor ailments of little ones. The Tablets are absolutely guaranteed to be free from opiates or narcotics or any of the other drugs so harmful to the welfare of the baby. They cannot possibly do harm—they always do good. #### NEWSPAPER MERGER.

St. John Globe: Newspaper amalgamations are keeping pace with bank amalgamations and they have quite as much interest for the public. The latest admitted is the purchase by the Toronto Sunday World, but there are rumors of others. That of greatest interest concerns four Halifax papers, which it is said, will be united in one morning and one evening paper, independent in politics. At present the Halifax Herald and Mail support the Conservatives, and the Chronicle and Echo the Liberals. It reports concerning these papers eventually turn out to be correct, the people of Nova Scotia, like the people of New Brunswick may have cause to wonder what interests its press serve.

Caribou have been seen in very large numbers this season in the northern part of Yukon territory. Old-timers say that the main herd must have numbered tens of thousands, while in some of the smaller herds that had broken temporarily from the main herd there were hundreds and sometimes thousands.

The very first aerial stowaway ever known was discovered recently aboard a plane in the Laurentide Air Service, Limited, operating on its Rouyn gold fields service in association with the Canadian Pacific Railway. The serious effect of the extra weight on the flying powers of the machine was so noticeable that it led to the man's discovery. As he had hidden himself with a desire to see his sick wife and child, he was not punished.

The enormous contribution to the wealth of Canada made by the Canadian Pacific Railway was alluded to by E. W. Beatty, K.C., Chairman and President of the Company, when speaking at Welland, Ont., on November 7th, at the celebration of the 100th anniversary of the building of the first Welland Canal, he stated that the company in 1923 dispersed in the Dominion \$202,000,000 in wages and materials, and \$7,000,000 in taxes of all kinds.

November 7th was the 39th anniversary of the driving of the last spike in the main line of the Canadian Pacific Railway, an event which completed the Dominion's first trans-continental railroad, fulfilled the terms of Confederation and made Canada a nation. A stone monument now marks the spot at Craigellachie, in the Rocky Mountains, where Lord Strathcona (then Sir Donald A. Smith) wielded the hammer which united East and West.

#### BLAME WHITE FLOUR FOR POOR TEETH OF PRESENT GENERATION.

London.—Modern men have jaws that are too small, and white flour is responsible for this deformity, according to Sir Henry Baldwin, who recently addressed the Medical Officers of Schools Associations on the necessity for the more general use of whole-wheat bread among growing children.

The speaker declared that the small jaw was widespread, and of comparatively recent origin. The removal of vitamins from flour, he continued, in order to produce white bread was a vicious practice which must be abolished. Otherwise children, especially the children of poor families which cannot afford a great variety of food, will continue to be underfed.

Dr. C. Shelley said, at the same meeting, that in his opinion the use of the word "offal" to describe the part of the wheat which is discarded in making white flour has been responsible for the prejudice against flour which is not white. This unfortunate term used by millers has given rise to the opinion that non-white flour is not clean.

Dr. G. Friend, medical officer at Christ's Hospital, Horsham, said that in experiments in feeding boys on white bread and stone-milled or whole wheat bread, he had demonstrated that the use of whole-wheat bread reduced the decay of teeth by 50 per cent.

A baker, M. Carter, addressed the meeting and assured the doctors that bakers would be very happy to make whole-wheat bread, as it is much easier to prepare than white bread, but he said the public demanded white bread, especially customers of the poorer classes.

### ON ELECTION BET.

Belleville.—Several freak election bets have been paid, or are about to be paid, in Belleville. Wheelbarrows, baby carriages and other vehicles were in them, but the best story in connection with the West Hastings by-election comes from Frankford.

George Rose and Albert Mann, good friends, though the former was a Porter man and the latter a Hanna man, made a bet. The loser was to jump off the bridge at Frankford into the West River below. Mr. Porter did not win.

So, with many friends as witnesses, Mr. Rose, wearing the average amount of clothes which November galls for, jumped the 18 feet from the floor of the bridge into the water. The village enjoyed the spectacle.

Mr. Rose is a good fellow, and a sportsman. He was whisked home in a motor car after his dip.

#### TRADE WITH BRITAIN.

Canada's Export Greater And Imports Less in Last Year.

Ottawa.—Exports from Canada to the United Kingdom during the past twelve months show a marked increase over the export figures for the preceding twelve month periods as compared, according to a bulletin issued Tuesday by the Dominion Bureau of Statistics, October, 1924, saw an increase of more than \$2,000,000 in the value of exports as compared with October last year, while imports from the United Kingdom remained practically stationary.

During the twelve months ended October 31st, this year, exports to the United Kingdom were valued at \$392,174,559, while for the same period, ending October, 1923, export values totalled \$367,984,296. Imports from Great Britain during the past twelve months were valued at \$149,249,747, and during the preceding twelve months at \$155,131,656.

#### THE FIRST LOCAL AUTO.

Some one has raised a question regarding the first automobile in New Glasgow and its ownership. The first auto brought to New Glasgow was imported in the joint ownership of three gentlemen, Col. Thomas Cantley, John W. Fraser and the late John Irving. It was an Oldsmobile, a one-cylinder, two-seated arrangement. It did not boast a steering wheel, but was directed in its course with a handle that stuck up in front of the driver. Neither had it pneumatic tires, but solid rubber ones, nor was it fitted with doors. The cranking to start the engine was done from the side of the seat. As a pleasure vehicle it was not a success. By dint of hard effort, considerable push and some pull, one morning, Messrs Fraser and Irving managed to negotiate a trip to Pictou Landing, but it was a morning's operation and one they did not essay to repeat. Local mechanics D. P. Brown and Levi McMillan, tried their hand at it, but usually returned to the garage with the aid of a horse. The car was declared a failure and returned to the Toronto firm from which it was purchased.

The next car to be owned in New Glasgow was brought here by B. E. Fanjoy. It was a much more successful venture and Mr. Fanjoy in his two-seater became a familiar figure about the town and country. He was our first successful automobilist.—(Eastern Chronicle.)

#### TOO MUCH SLEEP ENEMY TO BEAUTY.

Too much sleep and breakfast in bed are the two greatest enemies of beauty a woman can find, writes Constance Talmadge, the screen beauty. They mean more fat, a slump in the tissues, a sagging, a lewdness that is ruinous if kept up year in, year out.

Instead of rolling over and sleeping a couple of extra hours, get right up and do a half-hour of gymnastics before the open window. No matter how cold it is, open that window and in a sweater and bloomers go thru any good series of setting-up exercises.

"Getting-up" exercises is a better name for them. The moment I feel consciousness stealing on me in the morning I grit my teeth and sit bolt upright in bed. I begin trying to touch my toes without bending my knees. I fold my arms across my chest, and raise myself to a sitting position without letting my heels lift off the bed, doing this over and over again. This sends the blood pounding through the veins and awakes me.

It is necessary to do this resolutely and quickly in order to fight off drowsiness, for it is so sinisterly easy to sleep an hour or two. If it is winter I bound into a sweater and warm clothing,

#### MOVES TO HAVE BOSTON LAWYER PUT IN PRISON.

Counsel For Crew of Nova Scotia Raft Ship Seeks to Secure Return of Their Property.

Boston, Mass.—Because of alleged failure to obey Judge Morton's order to return to the crew of the British schooner Marjorie E. Bachman \$1,000 worth of personal property seized by the prize crew of the cutter Tampa when the schooner was taken as a rum runner on October 24th, attorney Matthew L. McGrath has filed a motion in Federal Court here asking that assistant United States Attorney Lawrence Curtis be adjudged in contempt and imprisoned.

The motion was signed by the members of the crew and contained an itemized list of the property alleged to have been taken and not returned. Attorney McGrath had previously filed a motion in the court asking that Attorney Curtis, who is alleged to possess the property referred to, be ordered to return it. The court promptly issued an order to Attorney Curtis, referring to the seizure as an outrage.

Health, animation, exuberant good spirits and a high color, are more lasting beauty.

Upper left, Taj Mahal, Agra, India, one of the most beautiful sights on the "Empress" cruise. Right, "Canada" passengers on one of the elephants that took them from Jaipur to the old City of Amber, India. Lower left, Lama Priests in the Market Square at Darjeeling, India. Right, the Canadian Pacific S. S. "Empress of Canada," recently returned from world cruise.

It would be hard to find a happier, healthier and more satisfied lot of people than the passengers aboard the palatial Canadian Pacific liner "Empress of Canada" when she docked in Vancouver harbour on May 24th at the close of her epoch-making cruise around the world.

Since leaving New York on January 30th, these fortunate folk had sailed for four months in the wake of Drake, Magellan and Marco Polo, seeing all and more than all that those adventurers saw, with none of their discomforts. They had viewed the frowning, gun-tipped rock of Gibraltar, the hallowed ports of Greece and Rome, on the blue Mediterranean, had ridden camels in the shadow of the Sphinx, threaded the Suez Canal, crossed the sparkling Indian Ocean, walked the teeming streets of Indian cities, the gardens of the glorious Taj Mahal and the ramparts of the grim fort of Agra. Ceylon, the ravishingly beautiful, palm-crowned Manila, the hoary antiquities of China, the dazzling loveliness of the Flowery Kingdom of Japan, the immensities of the Pacific—all these had passed before their eyes in a gorgeous pageant of eighteen countries and fifty races. They saw idols, monkeys, palandans, felahs, shiaks, troubadours, fakirs, pyramids. They had adventures with elephants in Kandy and a volcano in the Hawaiian Islands. They brought back with them a host of souvenirs and impressions to be treasured all their lives and they say to the world at large "Go thou and do likewise."

Every port called at was thrown open to the cruisers, and the reception afforded them at Victoria, B. C., on their return was no less cordial. Thousands lined the wharf on the arrival of the cruise ship, and Union Jacks mingled with Old Glory in the enthusiastic waving of flags which National airs and marches played by the Naval Brigade band were echoed on shipboard in the strains of the Philippine orchestra.

Interviewed in Vancouver as to the success of the cruise, President E. W. Beatty said, "I spoke to several passengers while crossing from Victoria and without exception they all expressed their complete satisfaction with the ship, its officers, and the arrangements made and carried out since the day she left Vancouver almost five months ago. That is good enough for me. It is ample demonstration that the Canadian Pacific can successfully conduct cruises in competition with any organization in the world and maintain that Company's standing as a credit to Canada."

The "Empress of France" will carry the Canadian flag on a similar globe-encircling tour from New York on January 14th.

### "THE WAY OF THE TRANSGRESSOR IS HARD."

Millionaire Financier And Aristocrat of Ontario Goes to Jail.

Aemilius Jarvis, Sr., Toronto bond broker, internationally known financier and possibly the greatest of Canadian financiers, is up in the old men's section at the jail farm at Lang staffe, Ontario.

Many a time he must have driven past it on his way up Yonge street to his own home, Hazelburn, a few miles farther on; scarcely glancing as he passed at the square pile across the fields in the near distance.

A pleasant place, Hazelburn, a rich man's hobby, with its nearly two acres and its stables filled with fine horses. Just now its color has faded and practically gone but a week or two ago its vales and crested knolls were gorgeous with the tint of fall. In the cover of its groves and copses foxes had their carrels. Many a day they echoed to the guns of the huntsman's horn. Many a day Aemilius Jarvis, Sr., rode joyously across the rolling hills of his own fine acres.

Jarvis, greedy for gain, entered into a transaction with the former provincial treasurer of Ontario, the Hon. Peter Smith, on behalf of the province. Jarvis was to buy in some outstanding provincial bonds from the English market. Jarvis made a profit of over a million dollars out of the deal. Some of it went to Smith. Whether Smith was a rogue or merely a fool, Smith himself scarcely seems to know. Jarvis thought he was executing a particularly clever financial maneuver. But the courts have found both him and Smith guilty of conspiracy to defraud the province, and have sentenced the former to six months and the latter to three years' imprisonment. In addition the judge imposed on them the trifling fine of \$600,000. They are to pay it between them, and they are allowed to please themselves as to their respective shares. Only they don't get out of jail till they have paid.

Jarvis is up in the old men's section at the jail farm. A sad place at this time of the year when the near approach of winter will make park benches and doorways chill places for sleeping. For it is just about now that old men begin to flock there for shelter, to hibernate. Harmless old men, quiet, drooping old men. Doddering pathetic old men. Broke, friendless old men who sit like vegetables drooping the winter months away.

They sit at their meals at long tables with their heads bent over bowls of stew. Aemilius Jarvis, Sr., will sit with them, saying little, for these old men do not talk much. In the evenings and at night, they sit and later sleep in dormitories like little boys at a boarding school. Aemilius Jarvis, Sr., will have a bed among them.

Perhaps one or other of these old men will come doddling up to him and mumble something through toothless old gums, or borrow a pinch of tobacco or a match. They will be friendly in their own way, these old men. But poor company. Moribund minds many of them. Doting some of them. Sentle, quaint queer derelicts, who have no future, no hope, no history, no past. Not men who have done any particular wrong, the majority of them. Just old unknowns. Their only crime age. Forgotten flotsam in a prison backwater.

There have been Jarvisses in Upper Canada since the end of the eighteenth century. Aristocrats, Gentlemen, United Empire Loyalists. They fought for Britain in the war of the Revolution. For a century before last they had been molting in the grey, granite cradle of old New England. They brought to this young country breeding. They and their descendants were symbols of history to later Canadians.

Jarvisses served in the war of 1812. A Jarvis fought with Brock. A Jarvis commanded the right wing in the attack on Montgomery's Tavern and fired on the "rebels" of '37. Jarvisses served in the Fenian Raid and the Red River expedition. Jarvisses served in the Indian mutiny, the Franco-Prussian war and on the Afghan frontier. "Bill" Jarvis was among the first of the Canadians to die in the great war.

Tradition. Always tradition. Misdirection sometimes prevents from the viewpoint of the common people, but always realizing an obligation, always playing the game as they saw it, always fine and gallant. There was a Mr. Secretary Jarvis in the days of Simcoe. A great man. A man of note. He had a son, Samuel Peter Jarvis, a gallant and later a great man too. One early morning in the summer of 1817, in a clearing on the spot where Yonge and College now intersect, he fought a duel killing his opponent. They fired, eight yards apart, and young Ridout fell. According to the code—of gentlemen.

The blood that was in Aemilius Jarvis expressed itself in a love for ships and sailing. In a love for fine horses. A lad of eleven, he jumped on board a yacht in Burlington Bay and told the astonished skipper he wanted to be a sailor. He made a bargain with

the boat keeper that he should bail his boats out every morning and in return sail one of them for an hour at noon.

Thus, early, came the sailing skill that was to win him more than three hundred races and stamp him as probably the greatest amateur sailor Canada has known. A skill that was well and truly laid. For, graduated from Upper Canada College, he shipped as a stowaway before the mast and for eighteen months learned the hard ways of the great lakes half a century ago, the romance in his boy's soul, being of the stuff from which great skipper and great men are made.

In his sailing as in the other phases of his life, Aemilius Jarvis had his great moments when he rang true to the type and the traditions of his ancestors; fine moments when his blood told. He had dash, daring, skill, tenacity. He never knew defeat till it was written indelibly in the records. He was a crack oarsman. He won sculling championships. He was a fine lightweight boxer. Riding to hounds in later life, he rode to the line, straight and sure and by the shortest way. He kept only the best horses. And he could ride.

He sailed a score or more of famous yachts, the Annie Cuthbert, the White Wings, the Aggie, the Merrythought, the Sitarah, the Zarah, the Haswell—sailing men remember them—and the Strathcona, the Canada, the Invader, the Minneta and the Beaver, the five with which he won three times, fighting the Americans with ships as his ancestors had fought them with swords.

Turns the pages of times to 1906. Perhaps the year the greatest moment to Aemilius Jarvis' life. The Canada's cup races had been fought out and won. Interest in the races had been very great. The newspapers had carried long accounts of the battles which Jarvis had put up against the Americans for the greatest honor of the Great Lakes. Now he was coming to Toronto as a conqueror. His name was on every lip. Thousands had turned out to cheer him. The city was in a mood to hail him as it had hailed before and as it has hailed many times since its sporting conquerors. He was the greatest sailing skipper of his day and generation. He had won the greatest sailing skipper of his day and generation. He had won the greatest sailing laurels of his time. So when the Canada with Jarvis at the helm came gliding up Toronto bay, the waterfront and the lower city echoed with acclaim.

### OBITUARY.

Mrs. SUSANNE POOLE.

At St. Croix Cove, Wednesday evening, Nov. 26th, Mrs. Susanne Poole, widow of the late Israel Poole, passed peacefully away, aged 86 years.

Over twenty years ago, Mrs. Poole fell on the ice and sustained injuries which crippled her. Nothing daunted she carried on her household duties, until her constitution was weakened by declining years. Since then she has been tenderly cared for by her son Frank and his wife. Her cheerfulness and resignation was an inspiration to anyone who visited her. Her hope was strongly founded on the "Rock of Ages" and she always spoke with surety of the life beyond. The funeral service held on Sunday, Nov. 30th, was conducted by her pastor, Rev. D. W. Dixon, who spoke words of comfort and assurance from words, Luke, 12th verse, "The casket laden with flowers was carried to the cemetery near and laid to rest by six pall-bearers. She is survived by five children, Frederick, Frank and Mrs. Silas Beardsley, St. Croix Cove, Charles, Hamilton, Mass., and Mrs. Harold Kinnear, Halifax. Three children pre-deceased her.

### NOVA SCOTIA COAL TO NEW TERRITORY.

Shipments of 145,200 Tons From East Has Reached Ontario and Quebec.

Under New Bounties.

Market For Maritime Product Extended—Replacing Imports From U. S.

Ottawa.—There have been 145,200 tons of Nova Scotia and New Brunswick coal shipped into central Canada under the system of bounties, amounting to 50 cents a ton, established by the Dominion government on September 2nd. Of this tonnage, 28,000 tons have come into Ontario and 117,200 tons into Quebec.

Total amount payable in bounties to date is \$29,412 and the maximum sum available for the purpose on eastern Canadian coal is \$150,000.

Results to the subvention system are stated to be:

- (1)—Extension of the market for Maritime Provinces coal into Ontario as far west as Ottawa.
- (2)—Widening the market in Quebec to places at some distance from water transportation on the St. Lawrence, shipments now being made to such points as Latuque, Sherbrooke, East Angus, Victoriaville and Hull. In practically every instance, an equivalent amount of United States coal has been displaced by Canadian coal, says the Dominion fuel board which administers the bounties.

The largest shipments made to date are 25,000 tons to Hull and 20,000 tons to Latuque, both to large pulp and paper manufacturing concerns.

Thirteen thousand tons of New Brunswick coal are being shipped into Ontario under the subvention regulations.

### Subvention Terms.

No subvention is paid except at points where there is competition with United States coal and unless the railways reduce their freight rates. The subvention may be paid at the rate of one fifth of a cent per ton mile but the total amount paid on any shipment must not exceed fifty cents a ton.

### GOVERNMENT COST IS \$3,729,519,848

U. S. Estimate For Next Year—And That is Reduction of \$59,225,971.

Washington.—The cost of running the United States government for the fiscal year, 1926 was estimated at \$3,729,519,848, an estimated reduction of \$59,225,971.72 from the expenditure of the current fiscal year. In the annual budget sent to congress by President Coolidge Wednesday.

In a special message transmitted to both house of congress the President advised against any further reduction in taxes. He estimated a surplus in revenues over expenditures for the present fiscal year of \$67,884,489, and estimated the surplus for the fiscal year 1926 at \$373,743,714. No further cuts should be made in the tax schedule, the president said, until definite results from the present tax laws are known.

The budget for 1926 revealed cuts in the estimates of six major governmental departments—interior department, navy department, war department, treasury, shipping board, and veterans bureau—while there was only one notable increase—that for the department of agriculture.

### REV. W. J. LOCKYER DEAD

He was an Honorary Canon of All Saints' Cathedral, Halifax

Rev. William Lockyer was an honorary Canon of All Saints Cathedral. He had never been stationed in Halifax, but was very well known here. He was for many years rector at Port Morien, C. B. where he was greatly beloved by the parishioners, and where he had been an indefatigable worker in the interests of the people. Mr. Lockyer was born in Newfoundland, and in graduating was a contemporary of the late Archbishop MacNeil, of Nova Scotia.

Archdeacon Armitage, of St. Paul's when informed of Mr. Lockyer's death said that the news of his demise would be heard with the utmost regret throughout Cape Breton.
