The copy filmed here has been reproduced thanks to the generosity of:

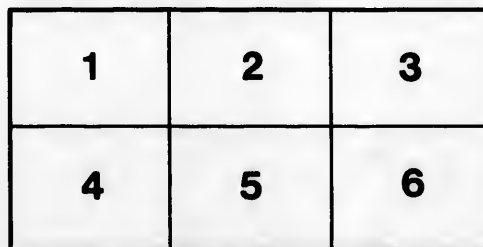

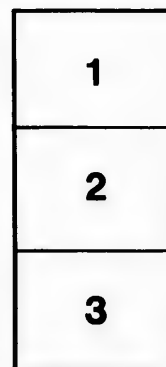

Metropolitan Toronto Library  
Social Sciences Department

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

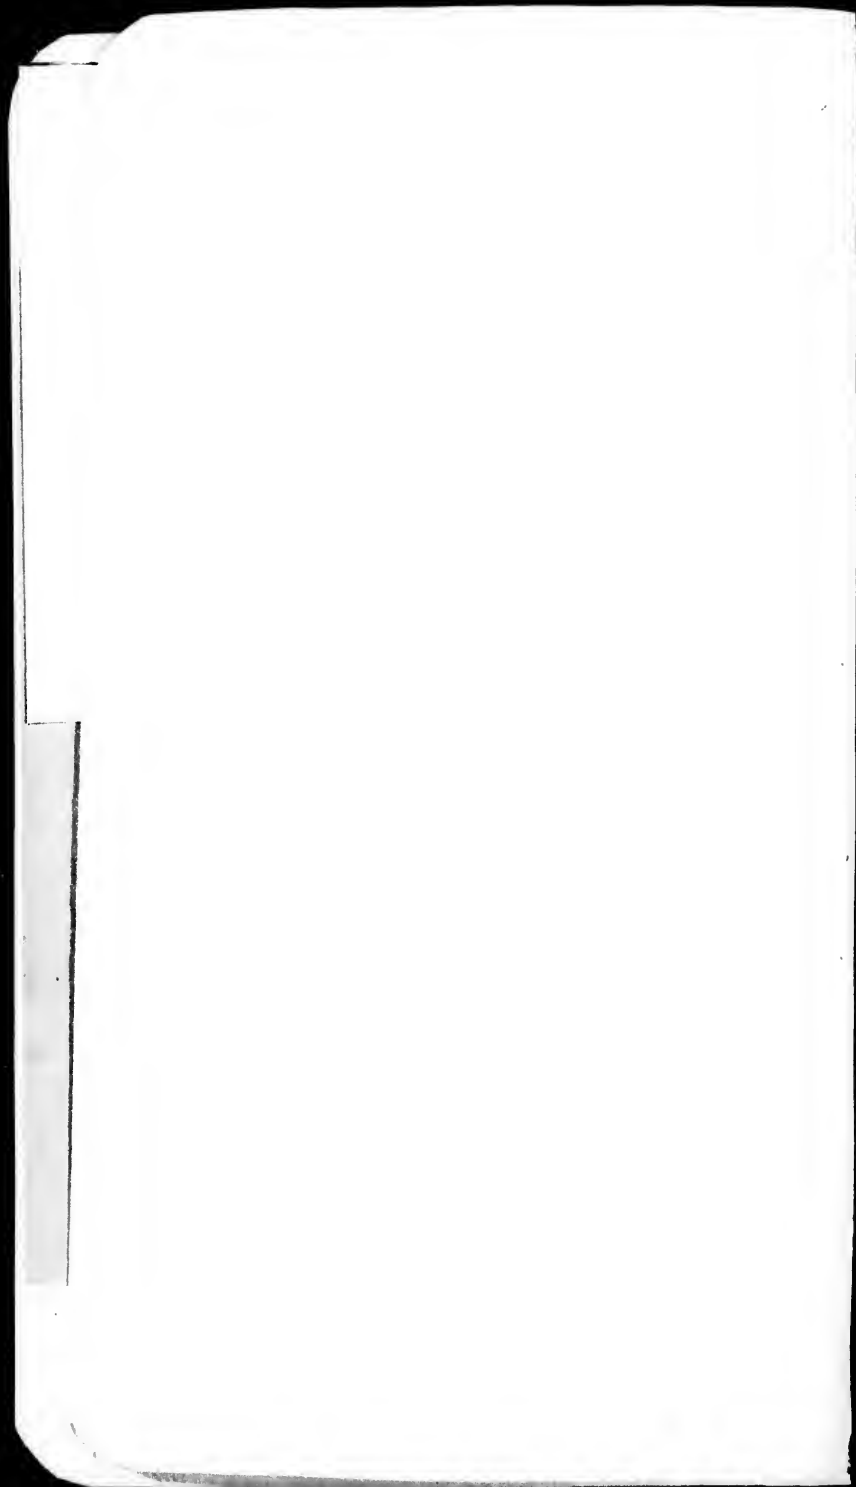

Metropolitan Toronto Library  
Social Sciences Department

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## THE UNION LABEL LEAGUE OF TORONTO

---

 THE League was organized June 10th, 1895, for the purpose of uniting together the trades using Union Labels in this City. This central body doing the work of advertising and protecting the various Labels, relieves the Unions of a great deal of work, and makes it more economical and effective than by individual effort in bringing before the general public the different labels in use.

The League meets on the second and fourth Tuesdays in each month, at eight o'clock p.m.

### UNION LABEL NOTES.

"An injury to one is the concern of all."

Boom the Union Label.

Demand labelled goods ; nay, do more than demand, insist on getting them.

The union label on any article does not increase the cost of same one cent. Beware of any dealer that tells you otherwise.

Looking at it as a work of art, the Journeymen Tailors' label does not rank as high as some designs we have seen. But, taking it with a suit of clothes for a background, she's a hummer, and affords more genuine satisfaction and pleasure than "Mortgaging the Homestead."

J. B. FULLER, *Manager.*

" United we stand ; divided we fall."

If your dealer does not keep labelled goods, go to one who does.

The union label is never on any article that is made in prison, or in sweat shops, or by child labor.

A load of coal attached to the K. of L. label, floating down one of our streets, is like a pretty girl fastened onto a bunch of June roses.

The absence of the union label on an article may not mean that the same was made by rat or scab labor ; but the presence of it is an absolute guarantee that it is the product of union labor.

The Cigar Makers' International Union is one of the most powerful and prosperous labor bodies on the American continent to-day. What helped to accomplish this fact ? The little label of light blue.

Some men are born great, others have greatness thrust upon them, and a few others have to hustle for their greatness. An opportunity for greatness lies open for the dealer who will first handle Garment Workers' Union labelled clothing in this city. Besides securing the patronage of organized labor and the profit thereon, he will in a great measure assist the Garment Workers' in their efforts to stamp out the vicious sweating system with all its attendant evils. Clothing, cloaks, shirts and overalls, etc., all should bear the label, and as working people are the principle consumers of these goods, a profitable business will result to the dealer first in the field.

HAVE YOU THIS **LABEL** ON YOUR CLOTHING ?

.....IF NOT.....

Insist on having it the next  
time you place an order.

**IT IS THE LABEL**

OF THE

**Journeymen Tailors' Union**

**OF AMERICA.**

**Does your Tailor use it ?**

**If not, Why not ?**

"United to support, not combined to injure."

Machinists, why not adopt a label to place on tools and bicycles, of which mechanics are the chief consumers?

The label on any article is a guarantee to the purchaser that it has been made by a union workman under good sanitary conditions.

It is a duty you owe to your brother mechanic whose trade has adopted a label, when purchasing to see that you get the goods bearing that label.

The poor "wage-slave" has got to hump himself if he wants help. Stop looking to other people for help, and help yourself and your fellow workers by creating a demand for labelled goods.

When you are buying anything, remember and ask for labelled goods, so that the dealer will at once know that no other kind will suit you. For instance, if you should want a cigar, do not say "give me a cigar," and if handed a box with a blue label on take one without a word, because the dealer may think that if he handed you a scab cigar you would take it just as readily.

The retail clothing trade has sprung into existence to meet the demands of the workers, organized and unorganized, for cheap clothing. The workers at this business are the poorest paid and work the longest hours, and are subjected to conditions such as perhaps no other trade has to contend with. Workingmen, assist your brothers by creating a demand for goods bearing the label of the United Garment Workers' Union.

FRED. G. COX, Manager.

E. R. WOOD, Secretary.

"In Union (labels) there is Strength."

Shoeworkers, union men's feet are aching to wear union labelled shoes. What is the matter with you supplying that want?

Union labelled tobacco has now been on the market for some time, both Canadian and American. Have you tried a plug or package? If not, why not.

Bakers, the public are waiting for you to show to them who the employers are that have sanitary shops and pay living wages. Do so by getting out a union label.

John Stuart Mill did not devote a chapter to the union label idea in his "Principles of Political Economy." If he were living in these times, he would do more—he would be wearing a union label in his hat.

A good many of our storekeepers have not yet adopted the Printers' label on their office stationery and wrapping paper. We feel sure this is an omission on their part, and now that attention is drawn to the matter, no doubt their printing in future will be illuminated and brightened by the union label.

Some union men have a notion that they can reorganize the whole social fabric between union meetings. To all such to whom these presents shall come, we say, display your extra enthusiasm and desire to do good by taking up the union label idea; not only by patronizing labelled goods yourself, but by precept and example induce others to do likewise.

free on application.

When you are about to purchase anything, examine the list of advertisements in this book.

A union label on an article of production is more than a guarantee of good workmanship, it is proof that fair hours, fair wages, and fair conditions have obtained in its manufacture.

Moulders, what is the matter with your label? Is there not a foundry in Canada that would be glad to get the large trade which would follow the placing of a label on their product.

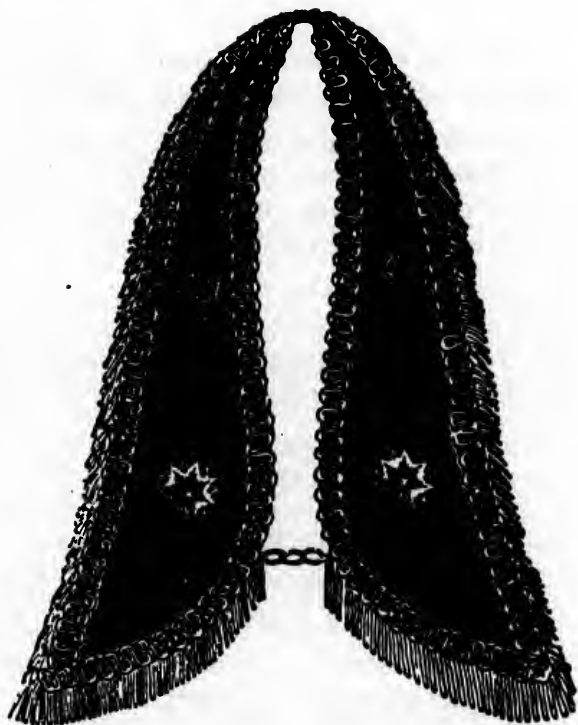

The label of the National Tobacco Workers' Union, a *fac simile* of which appears on page 42, is commended to the use of organized labor and its friends. Assist the Tobacco Workers' by demanding their label on all tobaccos.

The United Hatters of North America, whose label is reproduced on page 32, is an organization well worthy the support of labor. Hats bearing their label can be procured at a number of stores, for particulars see advertisements.

---

My advice to workingmen is this: If you want to make yourself felt; if you do not want your children to wait long years before they have the bread on the table they ought to have, the opportunity in life they ought to have; if you don't want to wait yourself, write on your banner so that every political trimmer can read it, so that every politician, no matter how short-sighted he may be, can read it: "We never forget." If you launch the arrow of sarcasm at labor, "we never forget." If there is a division in congress and you throw your vote in the wrong scale, "we never forget." You may go down on your knees and say: "I am sorry I did the act." And we will say: "It may avail you in heaven, but on this side of the grave—never." So that a man in taking up the labor question will know that he is dealing with a hair-trigger pistol, and will say: "I am to be true to justice and to man, otherwise I am a dead duck."—*Wendell Phillips.*
