FRENCH WIN BIG SUCCESS OVER FOE IN VOSGES

Powerful German Field Works Captured Between La Fontanelles and Lanois.

SALIENT BLOWN UP

British Force Conducts Successful Mining Operations Near Ypres.

Special Cable to The Toronto World.
LONDON, July 25.—A brilliant success was won by two French battalions at Ban-de-Sapt in the Vosges, last night, some very powerful German defensive organizations between the heights of La Fontanelles on the side of hill 627 and the Village of Lanois being captured from four German battalions and a machine gun company and the survivors, eleven un- wounded officers and 825 unwounded men, being taken prisoners. The French also occupied the group of houses which form the southern part of Lanois Village. The victors found a number of German bodies in the trenches. The new positions were organized for defence by the French troops on Sunday under a heavy bom- bardment of the enemy.

British Operations.
Sir John French, British field mar- shal, reports that British troops gain- ed some ground by occupying the crater of a German mine and linking it to their own trenches. They also repulsed two bomb attacks on the trenches which they recently occupied west of Hooze as the result of ex- ploding a mine. British heavy artillery silenced a German trench mortar which was supporting an attack in this region. A British mine was also used to blow up a German salient southeast of Zillebeke and destroyed some trenches. Shortly afterwards the Germans in retaliation exploded a mine further east, but it did little damage.

OIL PLANT GUARDS PUT UNDER ARREST

Superintendent at Bayonne and Others Charged With Incitement.

FIRE AT BUILDINGS

Three Armed With Rifles Threatened to Shoot at Officer.

NEW YORK, July 25.—Samuel H. Ed- wards, general superintendent, and 22 guards of the Tidewater Oil Company's plant in Bayonne, N. J., were arrested to- day charged with inciting to riot by Sheriff Kinkadee and his deputies. The arrests occurred after guards had fired several shots at homes near the plant. The first arrests occurred following reports of shooting from inside the Tidewater plant, which is adjacent to that of the Standard Oil Company of New Jersey. Where the streets of the plant were leveled by serious rioting last week is in progress.

GERMAN BOMB ATTACKS REPULSED NEAR HOOGE

British Forces Also Successfully Blew up Salient of Enemy West of Zillebeke by Mine, Destroying Trenches—Crater of Mine Occupied.

LONDON, July 25.—(11.00 p.m.)—An official report from Field Mar- shal Sir John French was issued tonight by the press bureau, reading as follows:
"On July 21 we repulsed a bomb attack on the crater caused by the explosion of our mine west of Hooze, which was reported in my com- munication of July 20. Our heavy artillery succeeded in silencing a heavy trench mortar which was assisting in the attack.
"On the evening of the 23rd we successfully exploded a mine under a salient in the German line southeast of Zillebeke, and destroyed the enemy's trenches there. Shortly afterwards the enemy exploded a mine a little further to the south, which, however, did little damage.
"Since then we have made some ground by occupying the crater of a German mine and linking it to our trenches. Yesterday we repulsed another heavy bomb attack on our trenches around the crater near Hooze."

FALL OF GORIZIA TO ITALY'S ARMY NOW REPORTED

Paris Hears Austrian General Staff Evacuated Town—Italians Enter.

TOFANA CAPTURED

Advance Along Crest of Luzinica in Monte Nero Zone Continued.

Special Cable to The Toronto World.
LONDON, July 25.—A despatch from Paris says that The Petit Parisien publishes Monday morning a despatch from its correspondent at Milan, re- porting the evacuation of Gorizia by the Austrian general staff. The Gene- va Tribune also published yesterday a despatch that many persons arriving at Milan reported the occupation of Gorizia by Italian troops.

Italians Continue Advance.
The Austrians have also defeated in attacks against the Italian position in the newly won positions on the completion of the occupation of To- fana and the repulse of slight enemy attacks.

Tried to Throw Italians Back.
Further information concerning the attack on the Italian left wing, re- pels Friday, has been secured from orders found on the person of a cap- tured officer. This offensive was of a general nature and it was designed to throw back the Italian left wing, occupying positions west of the Isoneo. Several generals, including Generals Beng, Schreiter and Schwarzenberg, led the attack with forces freshly ar- rived on the field of action and with others that had been previously en- gaged against the Italian forces.

AGENT OF LLOYD GEORGE HAS ARRIVED AT OTTAWA

D. A. Thomas and Party Not in Canada to Place Orders, But to Look Into Possibilities of Getting Shells and Other Munitions.

By a Staff Reporter.

OTTAWA, Ont., July 25.—D. A. Thomas, the Welsh coal king repre- senting David Lloyd George, minister of munitions, arrived in Ottawa to- day. He is accompanied by R. H. Carr and Gen. R. H. Maion, officials of the British war office, and the pur- pose of his visit is to investigate and report to Lloyd George upon Canada's capacity for turning out munitions of war.

The spokesman of the party is Mr. Carr. "We are not in Canada to place orders for shells or anything else," he explained to The World tonight. "Our mission is to look into the possibilities of getting shells, and other war munitions."

Not Placing Orders.
"We will do our work through the shell committee. In the United States we are working in co-operation with J. Pierpont Morgan, but of course Mr. Morgan has nothing to do with Can- adian orders, and all these will have to be placed through the Canadian Government."

Mr. Carr said that since Lloyd George had taken the portfolio of munitions, British output had already been more than doubled. Shells are now being brought to France.

The party are stopping at the Cha-teau Laurier and will be in Ottawa about two weeks.

RUSSIANS HOLD GERMAN WEEK BELOW LUBLIN

Muscovite Attacks in Sokal Sector Cause Diversion of Reinforcements.

THREATEN FOE'S FLANK

LONDON, July 25, 10.20 p.m.—Only the northern point of the pincers, which the Austro-Germans for more than a week have been trying to close around Warsaw and the Russian armies in the Polish salient, has made any progress during the last few days. This point has crossed the Narew River, between the fortresses of Pul- tusk and Rozan, and is attempting to advance toward the Bug River, which stands for the greater part of the way between it and the Warsaw-Vilna railway, its objective.

The other point, which Field Mar- shal von Mackensen is directing at the Cholm-Lublin Railway, has hard- ly gained a yard of ground since it reached the Village of Relevoiz, just south of the railway.

Threaten Mackensen's Flank.
In offering stubborn resistance to the German advance the Russians are making a continual threat at Von Mackensen's flank along the Bug River from the east of Cholm to the east of Lemberg. Between Krylow and Sokal their attacks have been particularly severe compelling the Germans to send reinforcements, prob- ably intended to support Von Mack- ensen, to meet them.

Along the Vistula to the south and west of Warsaw there has been little change except for the occupation by the Germans of some possessions evacu- ated by the Russians, when they drew in their line.

While Warsaw is under heavy pres- sure, the Austro-Germans are a lot of stiff work before them if they are to bring their operations to a success- ful ending by its capture. After cross- ing the Narew they still have a broader river, the Bug, lined with fortresses, to face; while in the south the Russians have good positions north of the Lublin-Cholm railway which might prove the undoing of the army which attacked them.

LONDON, July 25, 8.55 p.m.—The hymn, "O, God, Our Help in Ages Past," welled from the throats of thousands of Londoners today to the accompani- ment of massed bands when the Bishop of London, the Right Rev. Arthur P. W. Ingham, appeared on the steps of St. Paul's Cathedral to con- duct a service of intercession for those killed in war and for the suc- cess of the arms of Great Britain and her allies.

Intercession services were also held in all the free churches of the king- dom today.

PIRATES' PRESS FLUSTERED AT WILSON'S NOTE

Threatening, Domineering De- mand, Declares Count Ernest Von Reventlow.

PRINCIPLE UNTENABLE

Would Mean Abdication to Neutral States, Says Vos- sische Zeitung.

BERLIN, July 25.—(Via London.)—The American note was published in the Sunday morning newspapers. Count Ernest Von Reventlow, in The Tages Zeitung, declares that the contents and wording far exceed even the most unfavorable anticipations. Count Reventlow continues:

"The note uses language which will find no response with the overwhelm- ing majority of the German nation since it means in the last analysis an appeal to fear, a threatening, domi- neering demand. The note will make a conceivably bad impression among the people, since it lacks utterly the friendly frankness of the German note, and breathes almost hateful disregard of the German Government's stand- point."

Principia Untenable.
The Vossische Zeitung, in a lengthy editorial, says: "The refusal to ac- cept Germany's practical proposal to protect the American passengers shows an entire lack of readiness to under- stand the German standpoint. The principle that belligerent states must protect neutrals is untenable, if ap- plied in the fullest sense, as it would mean abdication to neutral states."

"Victory over the enemy is the su- preme law for every belligerent. Those who render more difficult this task than does international law, support

BAYONNE OIL WORKERS WILL CONTINUE STRIKE

Standard Oil Company Refuses to Accede to Modified Demands.

NEW YORK, July 24.—Efforts to settle the strike of 1500 Bayonne oil workers, which has been in progress for a week and has been marked by serious riots and the killing of three strikers, failed last night when Stand- ard Oil Co. of New Jersey notified the men that it would not accede to their modified demands. The strikers then voted not to return to work on Monday. Nearly 6000 more men from the Tide Water Company's plant, thrown out of work by the strike, will also remain idle.

EASTLAND'S DEATH TOLL 1000 820 BODIES ARE RECOVERED CHICAGO AWED BY DISASTER

THORO PROBE IS PROMISED IN CHICAGO'S BIG DISASTER

Captain and Twenty-eight Officers and Mem- bers of Crew Arrested—Boat Was Per- mitted to Carry 2000 Passengers.

CHICAGO, July 25.—Three investi- gations were in full swing here today, the object of each being to ascertain the cause of the Eastland disaster.

Dickerson N. Hoover, government steamboat inspector, and federal su- pervisor Charles Westcott, arrived from Washington and conferred with the local inspectors, who began to gather facts for the federal governor grand jury, ordered empaneled Tues- day. Maclay Hayne, states attorney, had a full force of men locating wit- nesses to go before the county grand jury, which will be empaneled to- morrow.

The entire police department was active. That evidence of criminal negligence in connection with the wreck had been obtained by them was hinted by C. C. Healey, chief of police. He said that valuable information was found in the inspection papers seized yesterday in Capt. Harry Pederson's cabin.

Twenty-Nine Arrests Made.
Two documents were taken, and the captain and 28 officers and members of the crew arrested. These papers, according to the meagre information that could be obtained about them, showed that following inspection the boat was to be permitted to carry 2000 passengers on a crew of 70. Chief Healey refused to discuss the papers, other than to admit he had them, and

that he would turn them over to State Attorney Inoue.

"Has there been criminal negli- gence?" the chief was asked.

"There is no doubt of that," Chief Healey answered.

Coroner Hoffman issued the follow- ing statement today:

"I intend to use every effort within my power to punish every person, di- rectly or indirectly responsible for this disaster. None shall escape.

"I am ready to co-operate with any official, city, state or national, in fix- ing the responsibility for this disas- ter."

There Probe.
Dickerson N. Hoover, who is acting supervising inspector-general of the steamboat inspection service, on his arrival, said:

"All I am here for is to improve upon the local inspector the grave im- portance of a thoro investigation. If it is true that an inspector is to blame, I want to know it. If it is some other cause, I want to know that. There is no one more interested in getting at the bottom of this situation than is the department at Washington."

Coroner Hoffman announced late Saturday night that he had ordered the arrest of every official of the In- diana Transportation Company which leased the Eastland. No individuals were mentioned in the coroner's an- nouncement.

W. C. Steele, secretary and treasurer of the St. Joseph-Chicago Steamship Company, which owned the Eastland, was arrested last night and locked up at a police station. The steamer was leased by the Indiana Transportation Company, whose officers said they were not responsible for the accident to the ship and did not control the crew.

MYSTERIOUS EXPLOSION ON BRITISH STEAMER

Sugar Cargo of Freighter Lying in Hudson River is Total Loss.

NEW YORK, July 25.—An explo- sion of unknown origin occurred in the forward hold of the British freight steamer Cragside at her dock in the Hudson River here yesterday and was followed by a fire, which, however, was speedily controlled. The Cragside, which was to leave here last night for an English port with a cargo of 100,000 bags of sugar, will be delayed a few days. Authorities are investigating to determine the cause of the explosion.

The fire and water damage to the steamer was estimated at \$10,000, while the cargo of sugar, valued at \$144,000, is believed to be a total loss.

BRIDGEPORT STRIKERS RESUME WORK TODAY

Men Ratified Agreement Saturday Night Between Leaders and Companies.

BRIDGEPORT, Conn., July 24.—With the ratification tonight by the machinists of the agreement reached between the labor leaders and the Remington Arms and Ammunition Company and the Stewart Construc- tion Company, the strike at the arms company's plants came practically to an end last night, and the men will be back at work Monday morning. The structural iron workers took simi- lar action.

\$200,000 Relief Fund.
Acting Mayor Moorhouse and his advisers today decided to raise a re- lief fund of \$200,000 to be distributed by a sub-committee acting under the direction of the National Red Cross, the associated charities and the municipal health department. In addi- tion to this the Western Electric Company, whose employees formed the majority of the ill-fated excursion party, announced that \$100,000 from its em- ployee insurance fund was available for relief. Numerous private relief funds were started.

Mearns Mayor Thompson, who was at the Panama Pacific Exposition to take part in the Illinois celebration there, was speeding toward Chicago in a special train to take his place in investigation and relief work.

Coroner Hoffman issued an appeal to the public for a fund for the burial relief for those left destitute.

SUNDAY BATHERS AT BEACH WERE UNABLE TO GET SUITS

Renting Station Was Closed Yesterday and Big Crowd Turned Away—Police Gave Orders, But Officials Could Not Explain.

"Nothing doing" was the phrase that rent the air all day yesterday in the vicinity of the city's bathing station at Kew Beach, where hundreds of would-be bathers waited impatient- ly for the doors of the station to open so that they might rent bathing suits and hurry for Lake Ontario.

To early patrons of the city's station H. R. McCuaig, who was in charge, stated that Parks Commissioner Chambers had given him orders not to open the station. That was the only explanation he could give, but later, when Acting Inspector Roe of the Beach police station arrived, it was learned that Acting Deputy Chief Dixon had given the police orders to notify those in charge of bathing houses that if they rented suits on Sunday they would be breaking the law. Whether or not the police threatened to begin prosecutions is not known, but at any rate Parks Commissioner Chambers decided to be on the safe side.

Became Anxious.
Proprietors of private houses went ahead as usual, but when the police began gathering data in the shape of

names etc., they became anxious and began to call up Mayor Church to see if anything was O.K.

Those who were robbed of their dip in the lake suggested that the Lord's Day Alliance had a hand in the mat- ter, and Acting Inspector Dixon ad- mitted last night that it was true that he had been approached by the al- liance regarding the matter. He also stated that he did not give orders, but close up any of the places, but simply ordered that those in charge should be warned that to rent suits was illegal.

Chief of Police Grasset stated that he had given no order and that a police order would not be necessary, because renting suits on Sunday con- travenes the Lord's Day Act.

That Park Commissioner Chambers will put up a fight to keep the bath- ing station at Kew Beach open on Sundays was apparent last night when he stated to a reporter of The World that this morning he would consult with the city's legal department and find out whether the city is within its

THE ILL-FATED EASTLAND

A picture was taken within a short distance of where the Eastland sank. It was obtained by The World from Geo. O. Somers of Toronto.

1000 DROWNED AT CHICAGO

(Continued From Page 1.)

Of whatever dead may remain unidentified, City officials with one voice declared that all dead should have proper burial.

Various theories as to what caused the Eastland to turn over were discussed, but without prospect of a definite explanation being reported until the official reports to be taken up tomorrow.

With the assembling of an election and survivors details of the catastrophe and the events immediately preceding and following it became more clear.

Some sudden signs of terror had driven smiles from gay faces several minutes before the water swallowed the ship.

The listing of the boat to port was noticed, some said, fifteen minutes before she turned over.

Beginning late last night, the line of relatives and friends passed through the armor of the Eastland.

With the details of the catastrophe summed up and a sober second thought given, the people shuddered that to the throbbing heart of one of the great cities of the world a thousand people could go to their death with hundreds of persons powerless to aid.

Visitors to the scene included Mrs. Carter H. Harrison, wife of the former mayor, who was escorted by an assistant superintendent of streets and remained only a few moments.

POLAND SCOURGED BY INVADING FOES

Austrians and Germans Produce Worse Conditions Than in Belgium.

DEATHS BY STARVATION

Twelve Babies Died in One Village in One Day From Hunger.

LONDON, July 25.—The desperate fighting now going on around Warsaw and through the eastern zone of operations centres attention on the colossal tragedy of Poland.

The entire theatre of eastern fighting is within the territory of the old Kingdom of Poland, with Austrian armies tramping over the country from the south, and German armies from the north and west, all compressing Poland as in a double vise from four sides, marching and fighting on a scale of unprecedented magnitude, and leaving a trail of wreck and desolation even greater than that of Belgium or Serbia.

Such telegraphic news as trickles through from Poland, except the official reports of military operations from the three sides, gives only the picture of fighting, without that of the prostrate country under the heels of the fighters. But from eye-witnesses returning, from Polish student refugees from the captured district, and from letters to those who have sought asylum here, there is a mass of information on the real conditions at the scene of these gigantic eastern operations.

Such telegraphic news as trickles through from Poland, except the official reports of military operations from the three sides, gives only the picture of fighting, without that of the prostrate country under the heels of the fighters.

Every citizen pays city taxes, directly or indirectly. When he pays his rent, part of it goes in taxes. When he buys food, part of the purchase price represents his contribution toward paying the grocer's taxes.

There are, she went on, "about 12,000,000 Russian Poles and about the same number of Polish Poles. All of them have that intense longing to see Poland rise again as a unified kingdom. And yet of these 24,000,000 Poles, a million are soldiers fighting in the Russian ranks and another million are fighting in the Austrian and German ranks—literally brother against brother.

It was natural that the Russian side should charge its lot with cursing and this loyalty has been rewarded by the inspired proclamation of Grand Duke Nicholas, promising freedom for Poland, a pledge which the Russian Poles accept in good faith as fore-shadowing the reunification of the Polish nation.

When Mr. Gibson of the Rockefeller Foundation returned from Poland, he told Miss Alma-Tadema of the terrible scenes he had witnessed in the stricken regions. Together they planned for extensive measures of relief to be sent through Germany, with the approval of the British foreign office.

CITY'S ASSESSMENT AND TAXATION

Certain facts with regard to the city's current expenditures since 1910 have been embodied in a report by the Bureau of Municipal Research. The report in part is as follows: The population for 1916 can, of course, be only roughly estimated, while the assessment figures for 1914 and 1915 are taken from the estimates. It goes without saying that the increase in assessment does not necessarily correspond with increase in actual values.

Since 1910, the assessment has increased over 84 per cent, while the population has increased 23 1/2 per cent. This indicates greatly increased per capita wealth, higher rate of assessment, or both.

In itself, increase in total assessment has little meaning to the taxpayer. The actual cost of government is not affected by the assessment, altho what government costs the individual may be seriously affected by the equity or inequity of the assessment.

It is, of course, actually impossible to tell what the real increase in the real estate tax has been, because we do not know the real tax rate and will not until we know what.

The real increase in property values has been. How much has been charged to capital account, which should have been charged to current expenditure.

Every citizen pays city taxes, directly or indirectly. When he pays his rent, part of it goes in taxes. When he buys food, part of the purchase price represents his contribution toward paying the grocer's taxes.

Of 127,000 square kilometres in old Poland, 84,000 square kilometres have now been occupied by the German armies. The departments which have suffered most are Kalliska, Piotrowska, Kielciska, Radowska, Suwolska and Policka; also four districts of the government of Lonsynsky, 10 districts of Warsaw, which is a department half the size of Wales in addition to the city of Warsaw, four districts of Lubelski and five in Chemnitz.

People in Great Distress. The peasantry are pictured as moving about like great tribes of gypsies, pushing their scant belongings in small carts. Miss Alma-Tadema gives a graphic picture of this wholesale destruction: "Industry is at a standstill; millions are out of work; the meadows and arable lands are furrowed by deep trenches, riddled with shell holes; the same tracts have been swept over and over by immense battle waves; no living remains of a barn or rick are burned; the horses and cattle all stolen or slain; ruin everywhere. The women and children have been driven out into the open, they cover in the woods; the manse, the manor house, the old castle in the park, all are destroyed; there is no one to help, there is nowhere to fly to, nothing to do but to hide in ruins, in woods or in hollows, gnawing roots and the bark of trees, while the children starve and starve to death."

There are many other enthusiastic Polish workers here, notably Mme. Espanowska, Bevan, the Polish wife of the prominent English painter, Robert Bevan, who is chairman of the committee looking after Polish refugees in Poland, has sacrificed her jewels to aid in caring for her countrymen. It is significant of the burning hope underlying the Polish cause. It is an old family heirloom, bearing date just after Poland was torn into three parts and passed around to Austria, Prussia, and Russia. What appears to be a seal on top is in truth a miniature coffin emblematic of Poland's burial. But when a tiny spring is touched, the coffin opens and a Polish rises with sword aloft from his tomb in which Poland, has slept since she was dismembered.

Supplies for Poland. When Mr. Gibson of the Rockefeller Foundation returned from Poland, he told Miss Alma-Tadema of the terrible scenes he had witnessed in the stricken regions. Together they planned for extensive measures of relief to be sent through Germany, with the approval of the British foreign office.

Terrible Devastation. The Polish student group here is also receiving frequent mail advices from their friends in the various parts

Since 1910 the population has increased almost exactly 23 1/2 per cent, while general taxation has increased 125 per cent. That is, while there are four men in Toronto now for every three in 1911, Toronto raises in general taxes now \$2.25 for every dollar raised in 1911. The result is that whereas the citizen, on the average, in 1911 paid \$14.72 in general taxes, he makes a payment now of \$32.84, an increase of 88 per cent. This is, of course, entirely irrespective of the water tax.

Cost of Running City. In estimating real taxation, local improvement rates must, of course, be included. Probably the general taxation includes a good deal which should have been paid for by the citizens as local improvement taxation. Conceivably the opposite may also be true. Both elements are necessary in computing the annual cost of running the city.

Table with 3 columns: Year, General Taxation, Local Improvement Taxation (Citizens' Share). Rows for 1911, 1912, 1913, 1914, 1915.

Table with 3 columns: Year, Pct. of Inc. in General Taxation, Pct. of Inc. in Local Improvement Taxation, Pct. of Pop. in Lon. Rows for 1912, 1913, 1914, 1915.

As before stated, it is impossible to tell the exact total cost, and, therefore, the exact cost per head of running the city, but a comparative statement, which represents a minimum, is instructive:

Table with 3 columns: Year, Cost (on average) of running the City per man, woman and child, Cost (on average) of running the City per family of five. Rows for 1911, 1912, 1913, 1914, 1915.

The adoption and putting into actual practice of the report on municipal accounting, now before the city government and the building upon this of a thorough budget system, would enable the city to locate unnecessary expenditures and other leaks, and to cut its goods according to its cloth more effectively than at present.

W. T. OTT BROUGHT BACK TO TORONTO Alleged That He Embezzled Funds of Columbia Gramophone Company.

SUNDAY WORLD ITEMS Flossie Jones Does Not Live at University Avenue Address, Says Tenant.

"I'm mighty glad the chase is over," said W. T. Ott, to the Superintendent Joseph Rogers of the provincial police Saturday at noon, when he was brought into the superintendent's office.

Ott had been an employee of the Columbia Gramophone Company for about two years, and skipped off on April 1, supposedly to go on his honeymoon. It was found that Ott had worked eleven different schemes to relieve the company of some of its earnings, which included a number of forgeries and the raising of a number of cheques. The amounts total about \$20,000.

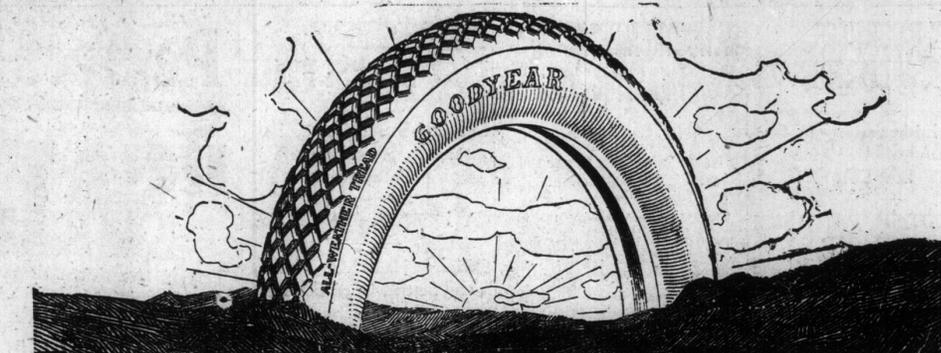

Ott stated that he was glad it was all over, and that he would not make any denial of the charges brought against him.

Gave Wrong Address. "Flossie Jones does not live at 134 University avenue, for I have lived there for two years," said George Burns on Saturday.

On Friday night last, a Chinaman, whose name is Lee Hung, was dragging a girl along Armstrong street, and the timely interference of the police prevented the mobbing of him. Lee Hung told the crowd that the girl was his wife, but at the police station he said that she was only his girl. When taken to the station she was in a state of semi-stupor and was the same when she was brought into court Saturday morning. Lee Hung was remanded for trial, and the girl detained until further particulars could be obtained from her.

MAY NAME ALDERMAN FOR COMMISSIONER Today's Session Expected to Be Interesting in Connection With Brigade Head.

It is expected that some lively developments will be unfolded at the meeting of the city council this afternoon when the question of the appointment of a fire chief comes before the members. Gossip around the city hall for the past few days has been very much interested in the question. "Who is to be the head of the fire department?" As George Wilson has turned down the nomination of the board of control he is out of the running. It is expected that the name of Fred Dane will come up again at the meeting of the board of control this evening, altho that of Charles P. Band. There has been a rumor that one of the board of control fails to put a name before the city council in the afternoon his name will probably be presented.

Daylight on Tires Reveals Why Goodyears—Made-in-Canada—Won Top Place in 4 Years

Five extra features—all under our control—have won for Goodyear Tires against a field of rivals. A few leading makes—in rubber and fabric—approach the Goodyear standard. There are many which fall below and hence will always be lower priced. But the vital point to remember is this—Goodyear Tires alone are fortified in these 5 ways against the major tire troubles:

No-Rim-Cut Feature. This combats rim-cutting in the only successful way. It protects the side-walls of the tire from damage caused by ruts. Rivals now try to build their tires like this. But we control the original method. And make-shift substitutes have never equaled Goodyear's way.

Our "On-Air" Cure. Most tires are cured but once—on a iron core. Goodyears are the only tires receiving a second cure on bags of air that are shaped like inner tubes. Under heat this air expands and smooths out any wrinkle the fabric may contain. This saves many blow-outs—caused in rival tires by wrinkled fabric.

Braided Wire Bands. In the beads of these tires we vulcanize six flat bands of 126 piano wires to hold the tire to the rim. Our method is a secret. Less than ten men in the world share it. Others have tried wire "cables," "strands" of wire, etc. But ours has proved the practical way to combine rubber and metal securely in the base of a tire.

All-Weather Tread. Note these rows of rugged deep-cut blocks. They are sharp-edged so they grip where common "non-skids" slip. They are tough and extra thick so they minimize punctures and give more mileage. This famous All-Weather Tread enhances the matchless beauty of Goodyear Tires.

Then come our famous Rubber Rivets between the tread and "cassess." They hold on the tread securely—by actual test they lessen loose tread risk by 60 per cent.

These five costly Goodyear features save endless trouble and expense for car owners.

FIFTY RECRUITS ANSWER THE CALL

Most Enthusiastic and Successful Meeting in the East End.

PATRIOTISM RAN HIGH

Prominent Citizens Urge Young Men to Seize Present Opportunity.

Amid a storm of applause and cheering while the band played "We Want to Go Home This Morning," Mayor Church called for another recruit to come forward and join the 49 heroes who had volunteered for active service at the most enthusiastic and successful recruiting meeting yet held in Toronto.

As the recruits willingly came forward, the mayor proudly called forth the grand total to the assemblage, whose pent-up enthusiasm echoed back their unanimity of approval. Like an experienced recruiting sergeant, rather than an election campaigner, this worship did not waste time in securing recruits instead of votes. Another man is wanted, the mayor said, and soon the man came forward. The meeting was held under the auspices of the 12th York Rangers on Saturday night at the Y.M.C.A. Hall at the corner of Gerrard and Main streets, East Toronto, and over 2000 residents of the eastern section of the city were present.

His Honor Judge Coatsworth paid a high tribute to the regiment of the 12th Yorks. He quoted Gen. Brock's last words at the battle of Queenston Heights: "Push on, brave York Volunteers. His honor stated that his son was now a lieutenant in the 12th Yorks, and that he himself was an ex-member of the Queen's Own Rifles. His father had been one of the first captains in the 10th Royals. He felt proud of his military traditions, and said he envied the young men who had the opportunity to go to the front. He added that the military officials were not taking men as young as he was as recruits.

Set Europe Ablaze. Rev. E. McIntyre of East Toronto Baptist Church said he was present to get the ear of the young men in the matter of the defence of the country. "Germany has proved herself the most savage of nations. She is the match which set all Europe ablaze. She threatens to spread the conflagration to this fair Canada. With her mailed fist she throttled liberty-loving Belgium, destroyed its historic institutions and in cold blood murdered word men and women."

When the speaker had concluded his remarks Judge Coatsworth called the band to play the National Anthem, and extended an invitation to the young men to come forward and enlist. They were heartily cheered. The first man to enlist was Thomas Snydam of 235 Gledhill avenue.

Upheld Britain's Cause. W. P. Maclean, M.P., informed the audience that the government was doing everything to uphold the cause of Britain. At the first two sessions of parliament large sums of money had been voted for carrying on the war. "You can't have war without money, you can't fight for a great cause without sacrifice, we should have the spirit of the old theodolite revivalists, and get them all up for the cause," he said. He strongly denounced the autocratic system of government in Germany. "The issue today is, 'Will civilization exist or end?' The organization of the entire world is being used for the purpose of slaughter. If the Germans succeed in Europe, they succeed here. The fight is for freedom. "We should stick together and put down that man of infamy." The

PATRIOTIC MEETING HIGH PARK TONIGHT

Rifle Associations of West End Have Planned Big Event and Fine Program.

The rifle associations of the west end have left no stone unturned in their arrangements for a most patriotic meeting at High Park this evening, at 8 o'clock. Several prominent men will deliver patriotic addresses and bands will render patriotic music from the pavilion near High Park boulevard entrance. Large parades will be staged by the different rifle associations and it is hoped that every member will be ready to fall in line at 7:30. Motor cars with banners and flags, buglers and drummers paraded the streets of the west end Saturday evening announcing this patriotic gathering which, from present indications, will be one of the largest patriotic meetings ever held in Toronto.

THEATRES

"THE MISLEADING LADY." Tonight at the Alexandra the Robins Players will present "The Misleading Lady," which enjoyed over seven months' run at the Fulton Theatre in Gotham, during which time it was pronounced the funniest farce of the decade. An elaborate scenic inventory will be provided in which a singularly well-contrived thunderstorm in the mountains with a realisation of a downpour of rain will be provided.

GRAHAM MOFFATT PLAYERS. The feature of the Hippodrome this week, aside from its air-cooling plant, will be the famous Graham Moffatt Scotch Players in their laughable sketch, "The Concealed Bed." James Reynolds is a monologist, while McClelland and Clegh give diversity by a thrilling and sensational cycling act. Bond and Casson have a rapid fire singing and talking act. The Oraves are said to be musicians of the first rank, while Mabel Mack is a dainty comedienne with a pleasing voice. As a special attraction the "Circus of Cleve and his real circus music. Comedy and feature film complete the bill.

LOEW'S YONGE ST. THEATRE. The delightful summer musical comedy, "Six Peaches and a Pair," with O'Neill and Dixon and six pretty girls will top the bill at Loew's Yonge Street Theatre this week. Olga De Baugh will be another attraction on this bill, her first appearance in Toronto. Her successes in vaudeville in the middle west. The Two Georges, wonderful European pantomimic comedy offer "The Rag Doll." Others on this bill will include "The Posing Beauty, Bowen and Bowen, Willie Smith and others.

HANLAN'S POINT. No week-end is complete without a visit to Hanlan's, the playground of Toronto, where old and young find amusement and enjoyment. The numerous attractions of the Grenadiers will render a musical program, afternoon and evening; the free outdoor movies are shown every evening at 8.30. The whole town is flocking to see the aviation camp.

CONFLICT OF THE AGES. "Nowhere in the Bible does it say the devil has bat wings, horns, and hoofs, but on the contrary it says he was created perfect in beauty, and full of wisdom, until sin was found in him. He was at one time one of the most exalted beings of heaven. His power to deceive is therefore very great, having had six thousand years of experience." These were the words of Evangelist F. C. Webster at the large canvas pavilion on Danforth avenue, near Broadway, Friday night in his sermon on "The Conflict of the Ages."

speaker's concluding remarks were: "Deeds count, not words." "God Bless Women." Controlling Thompson admonished the young men, if they were physically fit it was their duty to wear the uniform. He said, "God bless the women, they are doing their part splendidly." Dr. Alexander Fraser, provincial archivist and honorary colonel of the 12th York Rangers, said the question has been asked, "Why should Canada fight?" The answer is, "We are of British blood, Britain has sent her navy and army to protect us." Oliver Hezlewood, president of the Ontario Motor League, and manager of the McLaughlin Motor and Carriage Works, said he felt that the Lord was on our side, but the Lord never helped a nation who did not help itself. Other speakers, who were limited in time, as the hour was late, included Aid. Robbins, Pte. Nurse, Capt. Godfrey, James A. Norris, Corp. Battens, Pte. Porter. A committee of women composed of Mrs. Hind, Mrs. Roche, Mrs. Cobblestick, Miss Prescott and Miss Cox, served refreshments.

PEEL REGIMENT IN FIRST PLACE

Lots Drawn for Premier Position in Seventy-Fourth Battalion.

A FRIENDLY RIVALRY

Officers Had Held Meeting and Settled Upon Scheme for Deciding.

Luck went with the 36th Regiment of Peel on Saturday when its company drew the primary position in the 74th Battalion C.E.F. The officers of the battalion held a meeting in the morning, when it was decided to draw lots for the positions of the companies in the battalion. The lots were drawn in the following order: 2nd Q.O.R., 10th Royal Grenadiers, 48th Highlanders, 36th Peel.

The result of the draw was as follows: A Company, 36th Peel Regiment; B Company, 48th Highlanders; C Company, 2nd Q.O.R. quota; D Company, 10th R.G. quota.

Col. Windayser is in command of the battalion, and he will now choose his staff. TAKE THE "TRIP OF SHADOWS" ON YOUR WESTERN TOUR. Absolutely unique in western travel is the trip down the "Shadowy" St. Joe River of Idaho, declared by some writers to be "a trip through fairy-land." It affords forty miles of incomparable mirror reflections—mountains, forests, clouds, headlands and blossoming shores appear as clear and seemingly as real as the originals.

This trip is an exclusive feature of the "Milwaukee" and is optional with the traveler; that is, if he wishes to may leave the train at St. Maries, Idaho, and without extra cost, take a steamer down the St. Joe River and across beautiful Lake Coeur d'Alene to Coeur d'Alene, thence take the electric line to Spokane where the journey over the Chicago, Milwaukee & St. Paul Railway to the Pacific north coast is resumed. This trip provides a welcome break in the transcendent journey and is an exclusive feature of this route.

Three great mountain ranges are pierced by the "Milwaukee," affording scenic enjoyment of beautiful mountain scenery visible close at hand from the famous all-steel across-the-continent lumbian, "The Olympian" and the "Colombian." The return journey from California can be made direct from either San Francisco or Los Angeles on the steel-equipped "Pacific Limited" or the "San Francisco Limited" over the central route of this company, thus completing the "grand circle" tour of the west and at moderate cost.

NO CHANCE FOR BECKER WHITMAN IS OBDRATE

Governor Brands Story of "Frame-Up" as Absolute Falsehood. ALBANY, N.Y., July 24.—After a two hour conference with Convict Joseph Murphy of Sing Sing, Governor Whitman announced today that the story told of Murphy overhearing Rose, Weber and Yallon planning to murder Charles Becker was in his mind untrue. Murphy admitted the governor said that he had talked with Becker at the death house at Sing Sing Prison on the evening of June 20, and that on the following day Murphy had written to Bourke Cochran informing him of overhearing the attempted frame-up of Becker. The attempted frame-up of Becker, which had permitted Murphy to enter the death cell would be dismissed Monday, the governor said, after verifying the fact that Murphy had talked with Becker by communicating with Warden Osborne at Sing Sing. Murphy gained admittance to the death cell by telling the guards he was a member of the Mutual Welfare League and offering to sing for the condemned men, the governor said.

POWER AT NIAGARA FOR DEVELOPMENT, SHORT?

Statement That Hydro Will Use Spillways Attributed to Sir Adam Beck.

Special to The Toronto World. ST. CATHARINES, July 25.—An announcement by Hon. Adam Beck at London that available power for development at Niagara Falls is nearing exhaustion, and that the Ontario Hydro Commission proposes to develop 200,000 horsepower for hydro radial purposes from water from the spillways of the present Welland Canal, now being wasted, is reported by delegates from St. Catharines who attended the opening of the first hydro radial railway last week. It is estimated that power would in this way be obtained for 30 per cent, and possibly 40 per cent, cheaper than the price now being paid after meeting all expenses of operation, sinking fund and interest on investment. George Gander, who served 21 years in the 52nd Light Infantry, four years in Royal Canadian Regt., and in the Fenian Raid in 1866, died yesterday, aged 84. He was the grandfather of Capt. Wm. Gander of the 26th Battalion C.E.F., now at Shorcliffe. He leaves three sons, two daughters and several great-grandchildren.

NEWFOUNDLAND LOSES LARGE TRADE IN FISH

War Has Diverted Much of It to the United States and Canada.

ST. JOHN'S, Nfld., July 24.—The transfer to the U.S. and Canada of a large amount of trade ordinarily carried on between Newfoundland and Great Britain is one of the results of the war. This arises from the changes in the shipping situation. The gradual withdrawal of trans-Atlantic steamers from this port because of the transport needs of the British admiralty and the requirements of the British trade has reached a point where only three small steamers are now plying between St. John's and Liverpool. These are freight vessels of the Furness line, with no passenger accommodations. The latest reduction in service is taking off the Atlantic steamers which for fifty years have plied between Glasgow, St. John, Halifax and Philadelphia. These ships, the Monksland, Carthagenian, Pomeranian and Sardinian, are to be transferred to the route between Montreal and British ports. Business men have necessarily made new connections in Canada, and the United States steamers making weekly trips between St. John, Halifax and New York are laden to the hatches.

ST. CATHARINES TROOPS ATTEND CHURCH PARADE

Prominent Officers Deliver Recruiting Addresses After Benediction.

Special to The Toronto World. ST. CATHARINES, July 25.—Immediately upon the pronouncement of the benediction by Canon Ker, chaplain of the 13th Regiment, at the church parade, held at the armories this morning, recruiting addresses were delivered by Col. Logie, D.O.C., Lieut.-Col. J. S. Campbell, commanding the Welland Canal and the Niagara frontier protective force, and Captain G. B. Begy, who recently returned home suffering from wounds received at St. Julien.

Col. Campbell announced the establishment today at his headquarters in the city of a tent which awaits young men who realize the need for further recruits for the service and who are willing to serve when called upon. The church parade was attended by the 4th Overseas and 2nd Mounted Rifles contingents, which are about complete, a portion of the Welland Canal Protective Force, 19th Regiment, cadets and St. Catharines Home Guards.

TURKS DISAPPROVE OF MACHINE GUNS

And Show it by Falling Back in Twenty-Minute Affair

LONDON, July 24.—Official announcement was made today that the Turkish forces at the Dardanelles have made a new attack on the allies and have been repulsed. The text of the statement follows: "Sir Ian Hamilton reports that in the southern section, about 3 p.m. yesterday, the Turks attacked the northern trenches on our left flank. Our trenches in that neighborhood were shelled rather heavily. "Under cover of the bombardment a small force of Turks dashed for our sapsheads. Two of our machine guns at once opened fire and the survivors retired, leaving about 40 dead Turks lying in front of our trenches. "Probably more were out of sight, as our shrapnel was effective. The whole affair lasted 20 minutes."

TORONTO VISITED BY NEWSPAPER WOMEN

Party of Fifty-Two See Queen City by Motor Car Tours. A party of fifty-three newspaper women hailing from Boston, Halifax, Montreal and New England cities, who are en route to the San Francisco and San Diego fairs, spent Saturday morning in Toronto. While in this city they were guided by Lane's International Tourists, who declared they never saw a better looking or more jolly party. The excursionists arrived in Toronto at 7.30 a.m. by special train. After breakfasting at the Queen's Hotel they went on a motor-car trip around the city, visiting the parliament and university buildings. Their trip will take in Fort William, Winnipeg, Regina, Calgary, Edmonton, Prince Rupert, Seattle, Vancouver and Los Angeles.

DONATIONS COMING FROM MANY SIDES

Manufacturing Firms Take Up Idea of Presenting Machine Guns as Well as Business Men

Since the recent demand for machine guns was made known, many Toronto manufacturers have set aside a fund to help the government purchase these necessary implements of war. The most recent donation is that of the Cowan Chocolate Manufacturing Company, Limited, which have subscribed a fund to purchase a gun. The Cowan firm is paying their married men full wages, and the single men half wages while they are on active service.

The Bloor Street Business Men's Association have sent out circulars to various business men in Toronto, asking them to subscribe to a fund with which to purchase machine guns to be used by the Canadian troops at the front. The response has been most satisfactory to date, and the good work will no doubt be taken up by other organizations.

THE FIGHT ON PLAINS OF TROY

Romantic Setting for Battle During Siege of Dardanelles. On the ancient plains of Troy, famed in Homeric poem as the battleground of supermen contending for the favor of the fair Helen, British and French infantrymen rounded and made prisoners of a myriad Turkish soldiers and German officers during the first four days of the assault on the Narrows, thus maintaining the martial tradition of this battleground of the ancient gods by a truly Homeric achievement. From the ancient classic strategy performed by Ian Hamilton in sending forth a thousand decrepit donkeys to draw the Ottoman's fire, to the valiant assault of the fleet, led by invincible "Queen Bees," supporting the landing force of allies, the investment of the Narrows is worthy of Homeric verse.

All loyal Canadians should feel and realize the gigantic accomplishment of our arms—should celebrate each and every victory as befits its dignity—a Union Jack should fly from every house in eloquent though mute acclaim of British knightliness. That none need be without the banner of our country, The World has provided complete flag outfits, consisting of full-size bunting in fast color, brass ferrule jointed pole, halyard and halyard, together with stout metal window socket, which is offered to readers on presentation of every issue of the announcement appearing on another page of today's issue. There is one for every patriotic home in the city, get yours today. No red tape is necessary, no trouble, no conditions whatever. Just call, deposit the small expense fee, which barely covers the assembling and distributing cost, and the complete flag outfit becomes yours.

CHILDREN ENTERTAIN MANY SUMMER GUESTS

Unique Concert Given by Youngsters of Elgin House, Muskoka.

HELP RED CROSS FUND

Fifty-One Dollars Secured Through Their Efforts to Relieve Suffering.

The children of Elgin House, Muskoka, are a happy band, and by no means the proverbial summer nuisance, by reason of ample playgrounds outside and the playground indoors. On Wednesday evening, under the clever management of Mrs. Dundas of St. Thomas, and Mrs. Sneltinger of Toronto, to whom immense credit is due, a unique children's entertainment was given, at which was raised \$51.00 for the Red Cross fund. The training of the youngsters for this remarkable production was undertaken strictly by these two women.

The performers included tiny tots of an 8 years. Each wore a Red Cross band to suit the size of the child, the smallest mites having a wee cross, and the bigger ones proportionately larger. All carried flags, also of varying size. Every form of childish stunt was given with consummate art, but space permits mention of only two or three. Little Doris Farrow, a midge like Fairy Soap girl, sang "Hush a Bye, Baby," rocking the white her baby doll. Another wee lassie, Jack Green, bravely enumerated all the faults of the little lad in a born performer, absolutely unselfconscious, although not devoid of the cutest mannerisms. Master Jack Sneltinger, this grave little lad is a born performer, with a singing voice far larger, in the famous "perary Song" waved as baton a diminutive sheillah, and wore a Paddy's green streamer. His striking manner of conducting convulsed the audience, and his baton wielded more vigorously, and never was top hat harder to keep on.

The playing, singing and reciting of the songs, some in costume, was gone thru without a hitch, the elders declaring the young performers could not have been in better trim or finer feather.

Be Your Own Real Self, Not Just Your Father's Son By WINIFRED BLACK

Winifred Black

A WOMAN wrote to me the other day and said that she was in great trouble about something or other. She was, she said, the daughter of a clergyman, and her sweetheart was a clergyman's son.

Some Fathers and Sons.

Who your father is has really nothing in the world to do with who you are, my ridiculous friend. If you've done wrong, you've done wrong, and all the fathers in the world can't make people who know the circumstances think you've done right. If you've done right, you've done right, and sensible people will know it and admire you for it, whether you were born in an almshouse or in a fifty-thousand-dollar palace. Nobody who's worth anything cares who you are. All they want to know is what you are, and that is the only thing of the least real importance. Some of the best men I know have had fathers that weren't worth the price of a shoestring. And some of the worst men I ever saw were men whose fathers were exemplary persons. The greatest beauty the American stage has ever known had a little, dried-up shrivel for a father and a mother who looked like an extremely ugly hired man. And nobody cared. The biggest coward I know has a mother who would fight her weight in wildcats, and did, too, years ago, when Missouri was full of wildcats, and of fight. I know a whole family which has been absolutely ruined by being, each member of it, not himself, but just Somebody's Brother. The brother is a tyrant, and he began bossing the family before he was out of short trousers. The richer he grew the more he bossed, and now all his three brothers are not men at all, they're just brother. And nobody is so cross about it today as big brother, who has done it all himself.

What Are You Doing?

If I had ten boys to bring up the first thing I'd teach every one of them would be: "You are yourself, just yourself, nobody else." "I can help you for a while. I can make things easier for you while you are little. I can give you a fair start in the world, but after that nothing that I am, or was, or ever will be, will have the slightest thing to do with you and what you are. "This world, as far as you are concerned, belongs to you. "Take your share in the work of it honestly, sensibly and courageously, and never speak of yourself, anywhere, never think of yourself under any circumstances, as Somebody's Son. "Nobody cares whose son you are, or who you are either, for that matter. "What they care is, what are you doing, how are you doing it, and what makes you do it?" "I'm sorry now I didn't read the rest of the letter about Somebody's Daughter and Somebody's Son. I wish I knew what their troubles were. "Maybe they wanted to be married and the two fathers wouldn't let them, or maybe the fathers wanted them to be married and they were each in love with somebody else. I hope they marry each other. Somebody's Son is just about good enough husband for Somebody's Daughter, and no one of any common sense or pride or spirit could possibly get on with either of them a week. "When you deal with a man you deal with a man, and you know what you are doing. "When you deal with Somebody's Son you deal with him and his father and his mother and his sister and his brother and his Aunt Sarah and his Great Uncle Hiram, and you never get anywhere. "How can you, when you try to walk the straight and narrow path, not with one man, but with two dozen at a time?"

Three Minute Journeys

WHERE A WALL SERVES AS A MIMIC GRAVEYARD. In picturesque Brittany, in the department of Cotes du Nord at the town of Ploubaznevel, there is a remarkable wall where funeral services are held in memory of the fishermen dead. Called "Le Mur des Islandais" the Iceland Fishermen's Wall—it serves as the mimic resting place of those who go to sea and never return. During the fishing season it is a touching sight to see the departure of the fishermen for Iceland and the North Sea. There in the harbor lie the little ships ready to depart, and the fisher-

The Iceland Fishermen's Wall. Men and their wives and children are standing on the jetties and the village priests are waiting to give the men and ships their final blessing. Save the partings of wives and sweethearts of those about to go to war there is no sadder farewell than the leaving of these men to face the dangers of the sea. In their drawn and anxious faces

HER face may be her fortune, but she is wonderfully skilled, as you know, in concealing that story. In her hand, the hand that HE wants, the story is told in a language every one cannot understand—at least the fortune-teller lets that be understood, and whether you believe or not it is immensely interesting to have the mystic revelations made in a soft, insinuating voice. Naturally it makes a difference to have SOME ONE hovering near. Under such circumstances the description of the probable man is likely to be guardedly given. Those who play the gypsy part have to be VERY discreet. "And when you have so tremendous an interest in her fortune the part of simply watching isn't so very easy to play, either."

Myra's Drab Fate. "I SAID nothing at all. What man knows what a woman cries? But I did glance at Myra's hair, painfully aware of the real color of your hair is half as bad as you say it is. And you've good eyes and a sweet, strong mouth." "Honest, Mr. Hunt," she said, "it's fierce. Once before I began to bleach it, I went to buy a hair net, and we couldn't find one to match. I lost my patience, and I said to the girl, 'What color is my hair, anyway?'" "Go on," I encouraged, "what did she say?" "She said, 'It's drab.'"

Chesness Plus Immodesty. "What did she say?" she turned up her nose and said: "Drab! D-R-A-B-drab." And I hate drab. I hate drab days, I hate drab people with drab dispositions, and I hate drab hair. You can't change a drab disposition, but you can change drab hair. "I sink my head hopelessly. "And why on earth," I said, "do you wear French heels to business?" "I've got fat feet," said Myra calmly. "This way they don't look anything like so bad."

A Bride's Own Story Of Her Household Adventures

By ISOBEL BRANDS

Solving the Problem of Washing Blankets Like New. NOW is the time for all good blankets to get their semi-annual bath. I reflected yesterday when the brilliant sunlight pouring into the bedroom made it very apparent that my lovely woollen blankets were not as immaculately new as they used to be. Deciding to have them clean was much easier than how to have it done. For I didn't want to trust these fine blankets to the laundress who helps me out occasionally with the heavy work, nor did I feel that I could afford to have them cleaned by an expensive commercial cleaner. Finally, after turning it about in my mind several times I came to my usual decision—for all roads of housekeeping seem to lead to one place nowadays—to do them myself and be personally responsible for making a good job of it. I looked up various authorities in my reference books, and found there was little or no difference in opinion in the way blankets ought to be washed. I found that neither very cold nor very hot water must be used in washing blankets, because either of these makes the texture shrink. Neither can blankets be rubbed, because that breaks the fibre. But I got splendid results by very carefully following the set of directions which I finally wrote out for myself and kept near me during the process: (1)—I carefully brushed each blanket on both sides so that loose bits were shaken off. (2)—I mixed one large bar of white soap, shaved, and two tablespoonfuls of borax in four quarts of cold water, and then heated the mixture until it reached the boiling point. (3)—I poured one quart of water into the tub, which was partly filled with warm water, and allowed it to become tepid. (4)—I immersed the blankets in the water and "plumped" and soaped them around in the tub, squeezing them gently the while, but not rubbing them. (5)—I removed blankets from first water, and repeated the same process in two other helpings of the soap-borax water mixture added to tepid water. By this time the blankets looked quite clean. (6)—Finally I dipped the blankets in tepid water to which half a cup of borax had been added, and this whitened them even more. (7)—Then I gently squeezed and pressed the blankets dry, being careful not to wring them by twisting in any way. (8)—To make sure that the blanket would dry perfectly even I pinned together the opposite edges, just like a large tablecloth. These are really "blanched-drying" days—so gloriously sunny and bright, and it took very little time before my sets of blankets were soft, pure, snow-white again—just as good as new. Secrets of Health and Happiness

Your Tongue the Index of Your Body's Equilibrium

By DR. LEONARD KEENE HIRSHBERG, A. B., M. A., M. D. (Johns Hopkins University)

FULL many a medical man must bite his tongue in chagrin because he misinterprets the semaphore and heliographs flashed into his face by a patient's tongue. That the patient keeps his tongue between his teeth and later on wags it to the doctor's discomfort is no fault of the dumb show of asterisks, stars and other clues to disease displayed by that member.

It is well often to bridle the tongue, but not in the presence of a discerning physician. To have a tongue in your head, to let it cleave to the roof of your mouth, or to hold the tongue at such a moment, is to deny yourself an exponent of inward disorder. In fine, the tongue is a herald of health and ill health, DR. HIRSHBERG, and a signpost of stability or instability. Small griefs thus find tongues in various ways.

The human tongue is as well the badge of the body as it is the ambassador of the heart. The tongue of a fool is the key of his counsel, and that of a strong man is the symbol of his anatomy. The tongue is the artless index of your physical equilibrium, and the ancient family physician minus his red and his science, developed well fitting floors of understanding. The wise shake of the head after the command "Stick out your tongue" was not the amateur's who was never able to speak, and Dr. Jusseu cites a patient who was born without a tongue who spoke distinctly. Margaret Cutting lost her tongue, yet sang readily and spoke clearly.

There are many maladies which directly affect the tongue. These must not be confused with remote ailments which incite similar disorders of the guiding spirit of the mouth. Thrush is a whitish mould which grows, thrives and has its being on tongue, particularly of infants who are fed infected milk from unsterilized bottles and nipples. Even the sweetest milk may harbor this dirty fungus. Scars, tears, bites, irritating vapors or poisons, foods and tobacco are a few local distempers of the tongue mistaken for "coolings."

The movements, color, size, swelling, relaxation, tension and unusual covering all indicate trouble at distant points. So susceptible is the tongue to tissue tone, that the slightest fever or other ailment, such as a cold, is reflected in a thin, whitish fur. Whenever anyone tells you his or her tongue is "white," it is a warning sign, well the fact that the health is not what it should be. Mayhap it is tobacco, heavy meats, wine-bibbing, or even the home medicines dosed into infants, tumblers by all-wise, super-medical agents and neighbors.

Symptoms and Causes. Be that as it may, a whitish or discolored tongue is a herald of trouble. Something else is present. Severe fevers or stomach distempers yield to sight thick, yellowish, icteric-colored or brownish coats. If a continuous fever of many days is present with the coating absent at the tip, sides and the middle line of the tongue; if it is thin or different in degree, typhoid or paratyphoid fever is held in the above mentioned tongue. Severe prostration with fever exhibits a tongue with a thick fur coat of dark gray or brown and distinctly dry in nature. Long and severe illness shows just such tongues. The oft-mentioned "strawberry tongue"—found at times in the early stages of scarlet fever—is a bright red tongue, through which the white red patches or "papillae" of the tongue protrude.

Paralysis of one-half of the face is associated with a tongue more coated than on the well side. The sound muscle on the good side pushes the tongue toward the paralyzed side. Among other causes other than various types of stomach, kidney and liver disorders which give rise to coated tongues, bad teeth, large tonsils, adenoids and internal nasal malformations are not by any means the least. A firm tongue means vigor, while one so pale and flabby that impressions of the teeth and food are left in it, spells anaemia, debility and even Bright's disease.

Answers to Health Questions. N. H. D.—What will whiten my very dark skin? A.—Do not use hot water or soap on the face, but cleanse it with a good quality cream and ice-cold water. The following cream may be used: White vaseline..... 1 ounce White wax..... 1 ounce Oil of sweet almond..... 1 ounce Rosewater..... 14 ounces Sorbol..... 29 grains Oil of lily of valley..... 8 drops C. R.—I am troubled with palpitation of the heart, and also from gas forming in my stomach after eating and sometimes when the stomach is empty. Kindly advise me. A.—Avoid excitement and overexertion, obtain lots of sleep and rest, and keep the bowels active. Eat in smaller quantities at more frequent intervals. Eat more green vegetables, fresh fruits, cereals, salads, fish and poultry, and drink three quarts of distilled water daily, two glasses one-half hour before each meal. Take 7 grains of oxide of magnesium before meals and 6 charcoal tablets after. Sleep 10 hours in the 24. Be outdoors most of the day and take several hours mild exercise in the open. Drink lots of fresh milk, and take a Bilegan tablet with your meals. ADVICE TO GIRLS

By ANNIE LAURIE

DEAR ANNIE LAURIE: We are five boys who are very much worried. Some time ago we "acted smart" and made our girl friends mad at us. At the time we felt we were just acting, but since then we are sorry we won't have anything to do with us, we are sorry and want to make amends, but are afraid they won't accept any advance. They seem very distant toward us, but our sisters say they are crazy to make up for it's no fun to find. Do you think we'd be safe in sending a formal apology, and then, since we are acting so smart, we live, how do you think it would do to give a boat ride for them? Do you think they'd accept, and how must we go about inviting them? JUST FIVE BOYS.

JUST FIVE BOYS: Why don't you send an invitation to the boat ride something like this: "There will be a boat ride (at such and such a time) to which you are cordially invited if you want to be friends again with us. We are sorry we acted so foolishly, and we'll know we are forgiven if you'll come to the boat ride." If they are the kind of girls I hope they are they'll be there, and I hope you'll have a fine time. You are quite right. It's no fun having good friends at odds.

DEAR ANNIE LAURIE: I am a widow, 23 years old, and have a little son nearly 3 years old. My marriage was very unpleasant, consequently I am divorced. And to add to the sorrow, my home is very unpleasant for me, at times almost unbearable. I have an offer of marriage from a gentleman who is 25 years old, and I feel sure he loves me and has a good home for me to go to. I believe I can make him a good wife and a pleasant home. Please tell me what you would advise about a matter of this nature. BROWN EYES.

BROWN EYES: did you ever know any one who did not make a mistake? I never have, and just because I have made some mistakes I am not looking anxiously forward to a life full of mistakes. Cut away the old mistake from your life as you would dead wood from a tree, and go on growing fine and strong and free from

it, and only remember it as an experience to help you to shun that same mistake again—and take the happy road.

Very Latest Louis XIV. Coat of Sapphire Blue Faile.

THE separate coat of sapphire blue (faile) is in high favor for afternoon wear. This model is almost an exact replica of the Louis XIV. coat, and will harmonize with the afternoon frock of silk of sheer wash materials. The skirt of the coat is side-pleated across the sides and back, and flat, silk-covered buttons ornament the front, pockets and cuffs. The collar lies flat and is edged with a narrow piping of the silk.

SUNDAY BATHERS REFUSED SUITS

Police Ordered Closing of Rental Station and Many Were Disappointed.

rights in keeping the station open on Sunday.

"The first notice I had of the intention of the police to stop the bathing was this morning when Acting Inspector Roe of the police station at the beach called me up on the phone," said Mr. Chambers.

From the conversation he had it appeared to him as if the police were going to force matters rather than have a scene down in the park, so the commissioner called up H. R. McCuaig, who is in charge of the station and ordered him to close up the station for the day.

Bathers from all over the city had already gathered at the station, and they immediately began to voice their protests. There was "nothing doing," however, and in spite of all their protestations they had to go back home without their usual bath.

Mr. Chambers says that on a good day like yesterday the Kew Beach station would have about 1000 bathers during the day, and that the station of the police the city lost at least \$125.

Not the Alliance. Needless to say many aspersions were cast at the Lord's Day Alliance, for it is still remembered by the organization had a hand in the closing of the High Park slides three years ago.

Others Were Open. The other bathing stations in the city were not interfered with by the police, who point out that the only stations they interfered with were those where bathing suits were being rented.

At Sunnyside the city, thru the Harbor Commission, operates two stations, one for males and the other for females, but each bathers has to bring his own suit. These stations were as busy as Atlantic City beach all day yesterday and the police never interfered.

The station run by the city on the Don, north of Winchester street, was also open, and was well patronized. Daniel Clifton, the property commissioner, who has charge of all these stations, and also of the stations at Fisherman's Island and the western gap, stated last night that he had never had any intimation that the police were going to cause trouble.

Many Called Mayor. Mayor Church called last night, said that he was not ready to give out any statement for the city. "Since early morning," said the mayor, "people have been calling me from the beach, asking me why I can't make the police withdraw and allow the station to be opened. I have called the proprietors of private stations and have been asking whether or not they are willing to be prosecuted."

Major Church said that he does not know anything about the matter, but he will look into it tomorrow morning, and when the police commissioners meet on Tuesday afternoon he will see what can be done.

CONDITION OF CROPS IN WEST PROVINCES. Hail or Rust Only Factors That Can Adversely Affect Conditions, Says Report.

Crops in the three western provinces are in excellent condition, according to a summary of the latest weekly reports of the branch managers of the Canadian Bank of Commerce. The wheat acreage is strong and well headed out, in some places being so heavy that it is almost being down. The period covered by the reports was one of cool weather and plentiful rains, and the weather generally cloudy to the extent that it continues much longer the crops will be somewhat delayed. Flax in bloom and oats are well in the shot blade. The general consensus of opinion now seems to be that the only factors which could adversely affect the crop would be hail or rust.

PROMPT ACTION SAVES LAD'S LIFE

Sturges McFadden Rescued From Drowning by Walter Gilson Yesterday.

IN SERIOUS CONDITION John Rogers, Taken by Police, Had a Fractured Skull.

Prompt action on the part of a canoeist at Kew Beach saved Sturges McFadden, age 22, 34 Lake Front, from death by drowning at the beach Sunday afternoon. McFadden dived from a canoe 100 yards off shore into ten feet of water, and sank when seized with cramps.

Walter Gibson, 85 Awdie street, saw McFadden go down and jumped from his own canoe to the rescue. McFadden was resuscitated at his own home.

Had Fractured Skull. John Rogers, address unknown, was arrested on a charge of drunkenness Saturday evening, but at Agnes Street Station he became violently ill. When removed to the General Hospital it was discovered he had a fractured skull.

Sunday morning Rogers lapsed into unconsciousness, and his condition is regarded as critical. The police are looking for the party of friends with whom Rogers spent Saturday evening.

ROYALS TRIM US THREE STRAIGHT

Leafs Never Had Chance on Sunday, Altho Scoring Four in Ninth.

MONTREAL, July 25.—Bill Clymer's Toronto Leafs left Montreal tonight, mighty thankful to get away. In three games of their last series of the season here the Leafs failed to capture a single combat, dropping the final clash this afternoon by a score of 10 to 7. The Leafs happened to town just as the Royals were emerging from a hitting slump and for the third successive time were buried today under an avalanche of hits. Jack Flynn, the demerit batsman of the series, poked out his fourth home run of the series this afternoon, and Paul Smith contributed another four-sock slam. Fred Herbert stuck to the mound to the finish for the Leafs, for his team-mates were able in the early going to touch up Leon Cadore's offerings quite freely. The Leafs made a big rally in the ninth, when Cadore ceased up with a seven-run lead. With one out, Gilbert, Bath, Graham, Williams and Daley singled in a row, which, with Smith's bloomer on Koehler's fly, netted four runs and gave the Leafs a scarce chance that fanned, and Howley got under Wares' high foul to end the game.

The Royals took a two-run lead in the opening frame when Nash and Ireland singled. Whiteman sacrificed, and Flynn singled, scoring both. It looked like a big local inning for Herbert passed Almeida and Smith batted the covers by beating out a bunt. Holden struck out, however, and Howley, the demon batsman of Saturday, rolled to the box.

The Leafs got a run in the second on Daley's double and Wares' single.

The Royals added a pair to the fourth when Smith lined a homer to deep center after Almeida had singled. The Leafs pulled up in the fourth when Flynn singled. Koehler was hit, Wares singled and Herbert sent them in with a double. That was the last scoring for the Leafs until their ninth inning rally, while the Royals got three in the fourth when Flynn slammed out a long home run after Nash and Ireland had singled. The Royals hit consistently through the sixth, seventh and eighth, adding a tally in each of these sessions. The score:

Royals Had Five Homers Against Us Saturday

MONTREAL, July 25.—The Leafs made the worst showing of their many bad performances of the four in the Saturday game here. Score, 15 to 6. The Royals hammered Manning for losses until he was chased in the third, and then Cook took "him" after doing fair duty for three innings. The homers had a field day with home runs, five altogether, two each by Howley and Ireland, and one by Flynn. The crowd had grown up at the expense of Manager Clymer. The score:

Deliveries were again light on the wheat market yesterday. Strawberries, which have held steady for a comparatively long period, suddenly almost disappeared.

Raspberries, too, were not numerous enough to supply the Saturday demand, the bulk of the choice ones selling at 14c and 15c per box, a few going at 16c, while the inferior quality sold at 10c to 12c per box.

The best sour cherries sold at 60c to 70c per bushel, the others bringing 40c to 50c, while the few sweet ones on the market brought \$1.25 and \$1.50 per 11-quart basket.

Blueberries were plentiful, large shipments coming in, which sold at \$1 to \$1.25 per 11-quart basket. Green peas and beans were a better sale than they have been, the peas bringing 30c to 40c per 11-quart basket, while the beans brought 20c to 30c per 11-quart basket.

Canadian tomatoes continued to be scarce, the outside grown No. 1's selling at \$1.50 to \$1.75 per bushel, the No. 2's at \$1 to \$1.25.

Apples—New, imported harvest, \$1.25 to \$1.35 per hamper. Blueberries—10c to 12c per box, \$1 to \$1.40 per 11-quart basket.
