VEN MARKS TORONTO CHRISTMAS SEASON

Comfort and Cheer is Provided for Poor by Many Institutions.

A HOME YULETIDE

There was lots of goodwill towards all sorts and conditions of men and women in Toronto yesterday. It is bewere without a good, substantial meal wherewith to make Christmas a day fferent from other days in the year. That far-deep-seeking organization, the Salvation Army, and other organizations were out to provide comports and food to the poor and the unfortunate this Christmastide, and it is believed they succeeded in unearthing many hundreds of deserving cases, and promptly giving the necessary re-lief. Of course, there are the real r-the proud poor, who never complain and never ask for what they Some such people as these may have been overlooked, but taking it all round it may be stated with confidence that Toronto as a whole partook of Christmas dinner.

Returned Men Looked After. The returned men who are without nds in the city were well catered for. In addition to all the usual organizations who minister to their mforts, such as the Y.M.C.A., the Knights of Columbus, and the Salvation Army, who all provided Christmas theer for those who were without invitations—the men were entertained in small batches in private houses from aristocratic Rosedale to small houses in both the east and west end of the city. There was no justifiable ence), reason for any returned man without friends locally to go without his Christmas dinner this year, as houses with open arms were walting for him to come in the front door. The King Edward entertained 25 returned men dinner, and the other leading hotels

Fourth Hold-Up in Week By Gunmen in Winnipeg

Winnipeg, Dec. 25—The fourth hold-up in the past week by a gang operating here took place on Christmas. Eve, when George E. Utke, manager of a motor school, was stopped in his auto at 6.30 p.m., ordered out of the machine and robbed at the point of a gum. The affair took place on Water street, and the thugs beat up their victim, so that he had to be taken to the General Hospital. The automobile was found later in front of the postoffice.

After the chief of the German delegation and informed M. Dutasta that he thought it advisable to go to Berlin, a communication by special wire was restored, according to the information given out at the headquarters of the German delegation, and it was decided to telegraph the note and verbal communication, which taking into considing the term used by the gentlemen of the road to mean with great courage, however, did make a "howl," and was immediately struck in the mouth with the bare fist of one of the men in the car. OF POWER INDUSTRY IN FEDERAL REPORT

Hydro Power Exceeds Expectations.

AID RECONSTRUCTION

Canadian Press Despatch.

Ottawa, Dec. 25.—By direction of Hon. Arthur Meighen, chairman of the Dominion cabinet committee on power, there was released for general distribution yesterday the directory of central electric stations in Canada, which constitutes the first adequate governmental attempt to systematically compile a ready reference to the central electric stations of the Dominon. The material which has now been compiled is much more exhaustive and comprehensive in every way than that contained in any previous reference on the subject, and, it is felt, will prove a valuable asset in the reconstruction period, as it permits a bird'seye view of the present status of the industry in all parts of the Dominion. and indicates the locations where ex-pansion is readily feasible. A special affort has been made to secure from the various corporations and municipalities information relative to blocks of electric power available for sale; the prices at which such power can be provided; the available sites for industry in the vicinity, and the trans-portation facilities available. The corporations and municipalities have cooperated heartily in this connection It is intended that, insofar as possible,

census of the central electric power stations in Canada, namely, season when over 33,000 ex-service stations engaged in the sale of electric men were passed, and nearly twenty thousand were granted loans amounting to \$53,000,000.

The applicants were for the most closed several outstanding features of

pal plants. The primary power installation in central stations totals 1,844,571 horse power, of which 78.3 per cent., or 1,-444.314 horse power, is installed in rcial stations and 21.7 per cent, or 400 257 horse power, in municipal stations. Of the total primary horse power installed 1,652,661 horse power is derived from water, 180,000 from steam and 11,710 from gas and oil.

Success of Hydro Plants.

One of the most important facts dis-closed as a result of the statistics is the outstanding position which water power takes in the central station field. Out of a total installed primary capacity of 1,844,571 horse power 1,652,661, or 89.6 per cent., is derived from water. This figure is indicative of the extent and availability of the water power resources of the Domin ion and of the remarkable degree to which their adaptability for central electric station work has been utilized. A census of the total developed water power in Canada, including several electric stations just completed, disthe time when the "peace-on-earth-goodwill-towards-men" feeling was 305,310 horse power is at present installed in Hydro plants thruout the This figure indicates that Canada's utilization of Hydro power is even more marked than had been realized. Of the total power instal'ed some 450,000 horse power are utilized in the pulp and paper industry.

Bombardment by Deputations Takes Up Considerable Time-Food for Legislation, But Nothing in Shape -Patronage Bogey Stalks Up Once More.

Altho the Ontario Legislature will not meet until about the second week in February the premier and his ministers will need to put on a big spurt in the meantime if they are to face the session with anything like a legislative program. It is an open secret that practically nothing has thus far been accomplished in the direction of the preparation of bills, or even in the formulation of any actual policy. Meetings of the cabinet have been held on every available day, but the

attention of the ministers has been largely occupied with matters of passing importance and detail rather than with questions which must come before the legislature. Deputation Bombardment A notable feature of the new regime, and one which must have materially handicapped the ministers in taking thought for the meeting of the legisature has been the phenomenal number of deputations received on a wide variety of subjects. The cabinet may, indeed, be fairly said to have oeen bombarded in this particular rethe success of the Ontario Farmers' party and they think the time has some when the farmers of Querec should also organize to secure their security and the arrangements for respect. On one day alone there were proper representation in government, ceiving them were certainly anything it is hoped by the men in charge to out businesslike. They were rather acter, and the arrangements for reout businesslike. They were rather cnaotic. A large and influential deputation of women was, for example, fixed for 10.30 a.m. and the big ing. Every farmer in Wright county has been urged to attend the gathering. It was it possible to imagine that the premier and his coheagues would

be able, any more than anybody else, to get rid of about thirty intelligent women, most of whom had a real mission and something worth hearing, in the brief space of half an hour? Premier Drury subsecuents mier Drury subsequently humorously explained to the Hydro deputation the great difficulty he experienced in tearing himself away from such a charmed circle of lades, whom he had to send away and resume his conference with them in the afternoon. The other deputations kept the ministers and the newspaper men on the go, and the close was anything but that of a

Patronage Bogey Reappears.
When the Farmer-Labor members were in caucus last week they devoted considerable attention to patronage and sought to find a substitute for the state of affairs which existed under the administration of the old parties. In short, they wanted a system without any of the former pernicious characteristics. It is almost needless to observe that they did not succeed. Coming almost on the heels of that caucus trere looms up against them, strange enough to relate, the old patronage monster with much of its wonted hideousness. The bogey was resurrected by the farmers clubs of Middlesex, some members of which were incensed over the promotion of a eve of the formal opening of the diet, Premier Hara issued a statement asserting that "many problems exist, great aim of the report, whi'st omit-Premier Hara issued a statement asserting that "many problems exist, some of them not easy of solution."

FEW HUNGRY MEN FED IN NEW YORK

Only Few Hundreds Appeared at Dinners Given by Various Missions.

ONE ALMOST DESERTED

New York, Dec. 25.-Christmas dinners went begging on the Bowery to-night. Roast turkey, with all its "trimmings," candy and mince pie failed to attract half as many hungry men as were served in former years. This was attributed to prevalent prosperity and prohibition

The famous Bowery mission served only 400 persons, where in former years they have been called to provide for at least 1500. At Hadley's rescue hall less than 300 appeared for dinner. Many missions did not serve the usual Christmas repast because of the lack

of applicants.

The usual Christmas noon-hour dinner at the McAuley Water Street Mission was postponed until tonight be-cause of the lack of applicants. Not a man appeared at noon, altho 400 lbs. of turkey and many good things had been prepared. A few years ago it was not unusual for the mission to feed 1500, but tonight less than 300 it makes a place for athletes to train. Nissen and Boss Editor Scheflo flourish quite as heavy a knout over subject Norway as Lenine, Trotzky and

without Egede Nissen. For twenty years Egede had sat tamely in a state postoffice; but now, inspired by Russia's red revolution, he flew to Mos-

covite turmoil, tension and terror.

How it Began.

Tanmael began by forcing on the party an ultra-Bolshevik program. Soon his sleven points became as famous as Irresident Wilson's fourteen; but he stuck to them with a much harder grip. They included abolition of the army socialization of banks and industries; working-class control of factories; and finally, "Socialisation by mass action," which means grabbing of facvtories by the unemployed, in the way practised in Russia until Lenin stopped it by grabing, them for the state. And other points were: A republic, abolition of the Storthing and direct rule by councils of workmen, peasants and soldiers. The socialists and the labor unions shied, but Tranmae's slick mixture of terror and cajolery soon suppressed the moderate-socialist opposition, and the demand for working-class control of factories in the way practised in factories of young married women in factories young married women in factories young a commonlator in factories of young married women in factories young a commonlator in factories of young married work and thing a commonlator in factories of young married women in factories of young married women in factories of youn

All Norway watches with amazement and in trembling their antics; and all Norway asks itself how could a handful of hot-heads and incendiaries impose their wills on the bodies and souls of a free nation; how could they transform the tame "dictatorship of the proletariat" foreshadowed by Marx and Engels into an ultra-Leninist and unprecedentedly ruthless "dictatorship of the minority?"

A New Power.

The dictatorship is brand new. Until April, 1918. Norwegian Bolshevism and syndicalism were contemptible. Even moderate socialism had relatively little power, compared with Sweden, for it held only eighteen seats in the storthing, and was outnumbered threefold by the radical faction, to which Premier Knudsen belongs. But the deriders of Bolshevism reckoned without Egede Nissen. For twenty was a Egede had set tamely in a state of the postofice is. Next, Dictator Tranmael started an era of indismr.minate strikes, Nobody in Norway wanted to strike, because Norway is well-off. Since 1914 waegs have risen 250 per cent. Whereas cost of living has risen only 165 per cent. There were Nurseries for the children of Frenchwomen working in factories are of three kinds. The most numerous are the nursing rooms established at factories for breast-fed bables, whose mothers are legally entitled to two thirty-minute intervals during every working day for the purpose of nourishing their children. These intervals must be additional to ordinary rest period enjoyed by other workers, and must be paid for as part of the working day at ordinary rates. In some government munition factories the time allowed reached 1½ hours daily, and was paid for at 25 per cent. above the current rates. The mothers were expected, to wash and in some cases to put on clean overalls before attending to their children in the factory nursing room The ministry of munitions took steps to have nursing rooms provided in all government-controlled factories in July, 1917. But, according to a report presented to the Academy of Medicine, it appeared that the law had not been very generally complied with, and that where rooms were provided the accommodation was usually in excess of the mothers using it. Women on piecework disliked losing time, and often preferred to feed their infants artificially and leave them at home with relatives.

The Galleries Lafayette, in Paris, employing 2000 women, provide, for example, 50 cradles in their nursing rooms, but at the date of a government enquiry only 13 were occupied, and at a tobacco factory at Limoges, employing 1179 women, only five infants were present. The State Railway Company, on the other hand, employed 560 women and had 40 infants under care, so evidently the system can be made attractive. It is not a new idea to the French mother, for a nursing room existed in a Beauvais factory in 1846. During the war, when the law forbidding women to work night shifts was relaxed, these rooms were open night and day. Wives Sometimes Object To Life Assurance But__

Many a man has failed to insure because of his wife's noble but misguided scruples. She didn't want even to think of her husband being taken from her. The thought of money forcing itself into such a tragedy filled her with horror.

Widows Never Do

Such a woman overlooks the awful plight of a family left destitute. It's a husband's duty to protect his family from want and suffering after his death. A wife who opposes her husband in performing this duty is unfair to him, to herself and to her little ones.

additional reason for avoiding any increase in the debt charges of the city, London Daily News:

In view of the fact that a large part of the year's revenue being unavailable within the year, a large part of the taxes not being received in cash, while the whole amount is appropriated and treated as tangible, Mr. Bradshaw addresses himself to the problem of establishing a substantial liquid surplus. The growth of the city and its enlarging volume of business emphasizes the importance of the gradual accumulation of a surplus or reserve fund, for the purpose of working capital. The setting of the date earlier in the year for the first collection of taxes is also urged. For the reserve fund it is suggested that for some years half a mill on the/current assessment be set aside for this purpose.

In considering the heavy commitments before the war for new city projects, not producing revenue, the heavily increased cost of all construction work is noted as to be borne in mind, and new commitments it is recommended, should not be undertaken till the time is more opportune. Mr. Bradshaw also sounds a note of warning as to the unfairness of unjustly burdening future years with charges for which no provision has been made, Such unsound policy in the past is the

Philadelphia, Dec. 25.—Joe Welling, hicago lightweight, won by a shade rom Joe Benjamin of California in six bunds at one of the Christmas Day matinees here. The bout was slow and

uninteresting.

Artie Root (Cleveland) and Harold Farese (Newark, N.J.) fought a sixround draw at another club. In the last round Farese knocked the Cleveland boxer down twice and was himself floored once.

once.

Other results were as follows:
Bill Brennan (Chicago) beat Sailor
Petrosky (California), in a hard-fought
six-round bout; Eadie Fitzsimmons
(New York) defeated Young Joe Borreli
(Philadelphia); Young Sacco (Boston)
and Joe Tiplitz fought a draw.
Johnny Murray (New York) defeated
Joey Fox (England), in a fast bout;
Hughle Hutchinson (Philadelphia) and
Jimmy Walker (Illinois) fought a draw;
Harry Carlson (Boston) shaded Johnny
Ray (Pittsburg), and Joe Borrell won
from K. O. Samson.

Resolute May Defend The America's Cup

New York, Dec. 25.—There is a well-Malcolmson, into camp by 14 to 9, but that Resolute will be the defender of the founded belief in the yachting world Malcolmson's skips turned the tables on the whole and the president went down to defeat with ten shots against him. The following were the scores:

GALT WAS FAST

Galt, Dec. 25.-The local intermediates made their debut today and showed considerable class, easily winning from Woodstock, 5-1. Galt has a fast team, which, however, needs more practice. They excell in speed and teamplay, Wilkinson in goal and McCulloch at centre starred for Galt, and Roden for the visstarred for Gait, and Rouen for the visitors. Teams:
Woodstock (1)—Goal, Dunlop; right defence, Trump; left defence, Lynas; centre, Cohen; right wing, Cohen; left wing, Roden; sub, Clarke.
Galt (5)—Goal, Wilkinson; right defence, Watts; left defence, George; centre. McCulloch; right wing, Oliver; left wing, George,

wing, George. Referee—R. Broomfield, Galt. PROS. ON SATURDAY NIGHT.

warts are on the Quebec line-up in Mummery and the hard-checking, speedy Rusty Crawford. Paddy Moran is not in game this year, but Quebec has two42 good ex-amateur goal keepers.

The excess of receipts over direct operating expenses derived from the annual Canadian National Exhilition, the conduct of which is undertaken by an association on behalf of the city, and the grounds and buildings of which the municipality owns, is paid over to the city. Last year this excess mounted to \$90.598, which was just about sufficient to pay charges incurred for the exhibition buildings debt. Christmas Enjoyed With Old- thronged the Catholic churches, where Time Customs of Mother Country.

True to the old-time customs of the ments were numerous and the civic and Toronto street railway cars carmother country Earlscourt district ried capacity loads. The many pic-celebrated the Christmas season by ture and vaudeville theatres catered forgetting differences in political and local affairs and giving itself over to thoro enjoyment. Visitors to the north-

west section came from all over To-ronto and distant parts to renew relationships interfered with by the war or by change of location. Real English Christmas plum pudding is always a Christmas event in the Earlscourt district—Christmas pudding made after the old English style was attractively decorated in honor of including, of course, turkey, without the festive season, which no Christmas dinner is said to be complete. For, notwithstanding the high price of this almost prohibitive bird, ranging from 63 cents to 75 cents a pound, thousands were sold here on property of J. Bristow. thereto as may be desired by the Commission.

3. It shall be lawful and the Commission is hereby authorized to create or cause to be created an issue of bonds, and to sell or dispose of the same on behalf of the corporations. Such bonds to be charged upon and secured by the railway, and all the assets, rights, privileges, revenues, works, property and effects belonging thereto or held or used in connection with the railway constructed, acquired, operated and maintained by the Commission under this agreement, and to be for the total amounts mentioned in schedule "B" hereto attached; provided that the Commission may, upon obtaining the consent as herein defined of the majority of the capital cost of extending the railway, and may also without such consent increase the said bond issue by any amount necessary to cover the capital cost of extending the railway, and may also without such consent increase the said bond issue to cover the cost of additional works or equipment of any kind for use on the railway to an extent not exceeding ten per cent. (10 per cent.) of the bonds issued from time to time. In order to meet and pay such bonds and interest as the same becomes due and payable the Commission shall in each year after the expiration of ten years from the date of the issue of the bonds out of the revenue of the railway after payments of operating expenses (including electrical power) and the cost of administration set aside a sufficient sum to provide a sinking fund for the purpose of redeeming the same at maturity. Debentures issued by the corporations in compliance with clause 2 (b) hereof, shall, to the extent of the par value of any bonds outstanding from time to time, be held or disposed of by the Commission in trust for the holders of such bonds as collateral security for payment thereof, it being understood and agreed that in the event of any increase of the said bond issue, and that any debentures held by the Commission in excess of the par value of the outstanding bonds from time to time may be held on

4. In the event of the revenue derived from the operation of the undertaking being insufficient in any year to meet the operating expenses (including electrical power), the cost of administration and the annual charges for interest and sinking fund on the bonds, and for the renewal of any works belonging in whole or in part to the railway, such deficit shall be paid to the Commission by the corporations upon demand of and in the proportion adjusted by the Commission. In the event of the failure of any corporation to pay its share of such a deficit as adjusted by the Commission, it shall be lawful for the Commission in the manner provided in clause 2 (b) to dispose of debentures held by the Commission as security for any such deficit. Any arrears by any corporation shall bear interest at the legal rate.

5. Should any corporation fail to perform any of the obligations to the Comof the obligations to the Commission under this agreement, the Commission may, in addition to all other remedies and without notice, discontinue the service of the railway to such corporation in default until the said obligation has been fulfilled, and no such discontinuance of service shall relieve the corporation in default from the performance of the covenants, provisos and conditions herein contained.

6. In case the Commission shall at any time or times be prevented from operating the railway or any part thereof by strike, lockout, riot, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond its control, then the Commission shall not be bound to operate the railway or such liability or payment under this agreement, and as soon as the cause of such interruption is removed the Commission shall, without any delay, continue full operation of the railway, and each of the corporations shall be prompt and diligent in doing everything in its power to remove and overcome any such cause or causes of interruption.

7. It shall be lawful for, and the corporations hereby authorize the Commission to unite the business of the railway with that of any other railway system operated in whole or in part by the Commission, and to exchange equipment and operators from one system to the other, proper provision being made so that each system shall pay its proportionate share of the cost of any equipment used in common.

8. If at any time any other municipal corporation applies to the Commission for an extension of the rallway into its municipality the Commission shall notify sentations that may be made, as to the terms and conditions relating to such proposed extension. If, on the recommendation of the Commission, such extension shall be authorized, without discrimination in favor of the applicant, as to the cost incurred or to be incurred for or by reason of any such extension, the Commission way extend the railway upon such terms and conditions as may appear equitable to the Commission.

No such application for an extension of the railway into any municipality the comporation of which is not a party to this agreement shall be granted if it is estimated by the Commission that the cost of service of the railway to the corporations parties hereto will be thereby increased or the revenue and accommodation be injuriously affected without the written consent of the majority of the corporations

9. The consent of any corporation required under this agreement shall me the consent of the council of such corporations, such consent being in the form a municipal by-law duly passed by the council of the corporation.

10. The Commission shall, at least annually, adjust and apportion between corporations the cost of construction, equipment, operation, interest, sinking f and also the cost of renewing the property of the railway. 11. Every railway and all the works, property and effects held and used in connection therewith, constructed, acquired, operated and maintained by the Commission under this agreement and the said Act shall be vested in the Commission and behalf of the corporations; but the Commission shall be entitled to a lien upon the same for all money expended by the Commission under this agreement and not

12. Each of the corporations covenants and agrees with the other:

(a) To carry out the agreements and provisions herein contained: (b) To co-operate by all means in its power at all times with the Commission to create the most favorable conditions for the carrying out of the objects of the agreement and of the said Act, and to increase the revenue of the railway and en-

13. In the event of any difference between the corporations the Commission may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Commission shall adjust such differences, and such adjustments shall be final. The Commission shall have all the powers that may be conferred upon a commissioner appointed under the Act Respecting Enquiries Concerning Public Matters.

14. This agreement shall continue and extend for a period of fifty years from the date hereof and at the expiration thereof be subject to renewal, with the consent of the corporations from time to time for like periods of fifty years, subject to adjustment and re-apportionment as herein provided for the purposes of this agreement as though the terms hereof had not expired. At the expiration of this agreement the Commission shall determine and adjust the rights of the corporations, having regard to the amounts paid or assumed by them respectively under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

15. It is understood and agreed that the rates imposed for the share of the cost to be borne by those municipalities listed in schedule "C" attached hereto, shall be imposed upon the rateable property set forth respectively in the said
